

The Union Advocate

VOL. LVIII. No. 2

NEWCASTLE, NEW BRUNSWICK, TUESDAY, JAN. 13 1925

FIVE CENTS PER COPY

A. D. FARRAH & COMPANY

Announce

The FREE Day

which fell on

Tuesday December 16th.

All those who have made purchases from us on that day from four dollars and upward are kindly requested to present their sale slips at our office for refund or to receive the equivalent in goods at their choice.

Here are the Names of a Few of the Winners:

AZADE GOODIE Rogersville
 GREAG BREAU Neguac
 JOHN W. DAWSON Barnaby River
 MRS. WALTER RAMSAY R.F.D. Chatham
 JAMES CARTER Millerton

Mr. J. E. T. Lindon, Town Clerk and Treasurer of the Town of Newcastle very kindly consented to act as auditor in computing the receipts to determine the Free Day.

A. D. Farrah & Company
 Newcastle, N. B.

U. N. B. CON TO TAKE PLACE ON FEBRUARY 13

The annual "Conversazione" of the University of New Brunswick the premier social event of the season in undergraduate life at the local college will take place on Friday, February 13th that date having been selected as the most convenient. Contrary to custom in recent years the number of invitations will be limited to six hundred. This number is much less than the number usually issued. As usual the "con" will be held in the Arts building. The Memorial Building has been used for some dances but will not be used on this occasion.

Guy D. Scovill of this city who was elected President of the Conversazione has resigned. His place has been filled by the election of W. Gordon Jones.

BATHURST DEFEATED CAMPBELLTON TEAM

Last Friday night Bathurst made it two straight in the North Shore League by defeating Campbellton in Bathurst by a score of 5 to 0 in a fast exhibition.

A NEW CLUB HOUSE FOR WINTER SPORTS

A new club house has been built on the banks of the Bartibogue River, about 200 yards above the main road for the Miramichi Winter Sports Club. The new house is a compact, nicely built structure, 40x20 with large main room, a kitchen and dressing room. The building was erected by A. & R. Loggie Co. under contract and is to be used by the club members for the purpose of enjoying skiing, tobogganing etc. on their grounds and in the vicinity. The Club house will also be available for fishing and hunting in the spring and fall, so that it should fill a long-felt want in the community.

The new club house was to have been opened last night but it was decided to postpone the formal opening until there was more snow.

Kid McCoy Is Sentenced

Los Angeles, Jan. 8—Kid McCoy former prize fighter, convicted of manslaughter here last week in connection with the death last August of Mrs. Theresa W. Mors, was sentenced to from one to ten years in San Quentin prison.

CHATHAM TEAM TURNS TABLES ON MONCTON BOYS

Chatham turned the tables on Moncton Friday night defeating them 4-1. The game was one of the fastest and most thrilling exhibitions of hockey ever seen here. Kerr started things when he bagged the net behind Wilson from a faceoff, near the Moncton goal. The score was tied near the end of the period when Lane took a pass from Cole and shot a hot one past Carvell.

Chatham again took the lead early in the second period when McMahon took the puck from a mixup near the Moncton goal and tallied Chatham's second. In the third period the visitors made desperate efforts to score. They sent five men up the ice but the Chatham defence was impregnable. After Kerr had twice found the net and Chatham was safely in the lead the final gong sounded with the visitors vainly endeavoring to even up things.

Kerr was easily the star of the game, his playing was little short of phenomenal. In fact every man on the team worked hard. The visiting team was strong on combination but it was effectively combated by the local forwards. Both goalers worked hard. Carvell was seen at his best. The opposing net minder, Wilson, put up a splendid exhibition. The locals suffered much from penalties due to a too frequent use of the boards.

EPIDEMIC OF "SOREHEAD GRIP" IS NOW GENERAL

Have you had the "sorehead grip" yet? If not, you are lucky; as few have been spared, so general is its prevalence. Sorehead grip as it is so aptly named begins in the head and a day or two after taking cold the scalp is so sore that it is agony to touch it or do anything with your hair. Frequently the face and sometimes the body gets in the same condition; and with an upset stomach the patient thinks anything is better than living for a few days.

However the attack does not usually linger more than three or four days and except for weakness the poor victim feels like himself or herself again.

It is reported as far west as Toronto and we have heard of cases down river, all with the same symptoms, so that sore head grip covers quite an expanse of territory.

CHATHAM STARS PLAYING IN U. S.

"Shorty" Veno, former Chatham hockey player and star player of the New Haven hockey team last year, has joined the Maple A.A. team of the U.S.H.A. Wilfrid Veno another member of the same family is also playing with the Maples.

Erect Fine Hall In Ferry Road For Community Needs

Ratepayers of Ferry Road who have felt the need of a community hall for a long time have taken steps to provide themselves with a large and suitable building for this purpose.

At a meeting of ratepayers it was decided to build a hall and seven trustees have been appointed to take charge of the project and the building when finished. They intend to put up a \$1500 structure which will be a credit to those helping the community and to those helping in the work. The site has been donated by Mr. Robert F. Stothart and another was offered by Harold C. Stothart. This spirit of helping seems to actuate all the Ferry Road people for without the expenditure of any money they have already got out enough timber for the frame of the building, parties donating timber and others going in and setting it out free of cost. In the spring they will have a big building bee and get the new hall well underway.

Aim Is To Complete War Memorial Fund

National Executive of the I.O.D.E. Make Vote of \$1,000 to This End

The National Executive Committee of the Imperial Order Daughters of the Empire met on Wednesday at Toronto. Mrs. P.E. Doolittle, National president, in the chair.

The chairman of the board of the I.O.D.E. Hospital at Haileybury acknowledged the donation of \$1,180.00 from the Order for the operating room which has proved such a boon to the hospital.

As this year commemorates the 25th anniversary of the founding of the Order the following resolution was moved by Mrs. Power, National Treasurer and received the unanimous endorsement of the meeting: "That as it was decided by the National Chapter in session at the National annual meeting to make a special effort during the coming year to mark the 25th anniversary of the Order by completing the War Memorial Fund and as it has been customary in the past for the National Executive to make grants from time to time for educational purposes and as the War Memorial is the outstanding educational scheme of the Order the Finance Committee recommend that the National Executive Committee support the resolution of the National Chapter and so cooperate with the primary chapters in making a grant of \$1000 from the Life Membership Fund to the National War Memorial Fund."

WILL NOT PUBLISH

We cannot publish unsigned communications. Please take notice.

RECORDS OF VOICES OF FAMOUS PEOPLE

Edison's Collections Represents the Work of Many Years.

New York Jan. 10—Unknown to most people, Thomas A. Edison possesses a collection of phonograph records of the voices of famous people which will probably be of much interest to future generations. Thanks to a special chemical substance, the records are expected to last, barring accidents for ten thousand years.

The collection represents the work of many years, and contains records of the voices of men like King Edward, Tennyson, Cardinal Manning, the late King of Italy, Gladstone, the Marquis of Salisbury, and King George, as well as many eminent men and women of America.

Gladstone spoke into the recording instrument on the occasion of a big dinner in London, and his voice, sending hearty wishes to the inventor, can be heard as clearly to-day as when he was alive. The King of Italy's special message takes the form of a request that Edison should accept a decoration in recognition of "your having wrested another of her most jealously guarded secrets from Nature."

SMALLER CROP-GREATER PRICE

While the wheat crop of Canada for 1924 records a drop to just under 300,000,000 bus. as compared with the bumper harvest of 474,000,000 bushels in 1923, the prevailing high prices have enhanced its monetary value to \$325,000,000 as compared with \$316,000,000 obtained last year. Canada now stands third in the output of wheat, India occupying second place with a crop estimated at \$84,000,000 bushels. Russia has ceased to be a wheat exporting country and probably will not enter again into competition for a number of years.

THE DEATH OF THOS. M. QUIGLEY

Had Been Ill for Only Two Days and Death was unexpected

Mention was made in the Advocate recently of the lamented death of Thomas M. Quigley, at Sedley, Saskatchewan. Deceased was a nephew of the Misses Quigley, Newcastle, and of the late Dr. R. F. Quigley, St. John, and had visited New Brunswick on more than one occasion. That he was a prominent man in his district and that his death was deeply regretted is evident from the following article taken from the Sintaluta Saak, Times: The death occurred suddenly at his farm, situated six miles south of Sedley, on Monday night of Mr. Thomas Quigley, at the early age of 45 years.

The late Mr. Quigley had for some been a sufferer from gall stones, and the same ultimately caused his sudden demise. On Saturday previous to his death he had another attack of this complaint, but he did not consider it serious. His local physician was called, however, and prescribed treatment, but it was not thought at the time that his condition was so serious as he was in fairly good spirits up till within a few minutes of his demise. The news of the death of Mr. Quigley was a severe shock to Sintaluta residents as he had resided here for a number of years, being brought up from childhood on the old homestead, a few miles southwest of Sintaluta and resided with his parents until about 18 years ago, when he launched out for himself and homesteaded in the Sedley district where he has resided since.

The deceased gentleman farmed on a large scale; in addition to a section of land he was farming at Sedley, he owned a section of land in the district of Lewyas and was one of the highest respected farmers of the district in which he

resided. His buildings and residence showed perseverance and grit, and were a landmark for miles around. The commodious house was fully modern, being installed with furnace, waterworks, bath-room, electric light and all other conveniences conceivable to be found on any farm in Saskatchewan.

Mr. Quigley in politics was a Liberal; in religion a devout Catholic and a thorough business man in every particular. He was closely identified with the Grain Growers' Association and various other farmers' organizations and having taken a leading part in all local activities, he came in contact with every family in the district; thereby acquiring many friends who sincerely regret his untimely decease.

He leaves to mourn his widow; four children, besides his only remaining sister, Miss G. Seymour of this town. His parents predeceased him several years ago and his only brother, the late A. J. Quigley, succumbed suddenly last May.

The funeral leaves this (Thursday) morning from the family residence to the Sedley Roman Catholic Church where Solemn Requiem Mass will be celebrated at 10 o'clock by Rev. Father Jansen. Interment will be made in Sedley cemetery.

On behalf of the Sintaluta and Indian Head districts, where the deceased was so well known, we extend to the bereaved family and other relatives our sincere sympathy in their sad and sudden affliction.

THE DEEPEST PLACE

The deepest place in any ocean so far discovered is located about fifty miles from the coast of Japan in the Pacific Ocean, where the Japanese man-of-war Manchu found a depth so great that it could not be measured, for the reason that the sounding wire carried by the vessel reached only 31,644 feet, or nearly 6 1-4 miles.

Town Topics Tid-bits on the Tip of Everybodys Tongue

Vol. 3 No. 2 NEWCASTLE, N. B. Jan. 13 1925 FREE

"You have to go some"

W.S. Abbott writes from Clementsport: "Kindly ship me my usual Christmas Pudding. This is the eleventh year I have ordered from you. I notice from your advertisements that you have improved

the quality of your Plum Pudding. All I have to say is that you certainly have to go some to improve it in my opinion."

It is the knowledge that Molts products are so highly thought of by people with good taste that spurs on to ever further triumphs.

Boy Guidance: A New Profession

"One boy out of every fourteen is hailed into court for delinquency. Delinquency is largely misdirected energy. After leaving a boy's natural instincts entirely unguided, we arrest and penalize him for exercising his God-given energy!" So spoke Brother Barnabas, Executive Secretary of the Boy Life Bureau, Knights of Columbus in Canada, in an address before the National Probation Association meeting in Toronto last June. He was making his familiar plea in behalf of his beloved boys—for the new profession of boy guidance.

The revelations of the human family have radically changed in the past two generations. Time was when the members of a family spent practically their lives together while the children were growing up. Father and boys worked together in the fields or at the trade. The Church and the home were vital factors in the boys' developing life. But as rural development has given way to the big industrial center and social and industrial changes have appeared, the fathers, and in many cases the mothers have become separated from their children during most of their waking hours. At the same time a third agency in the education of the boy has developed—the school, and has to some extent filled the need which arose with the changing occupations of the parents.

The Church and Sunday School are no longer the vital elements in the life of the youth that they were. Some statistics in this connection have already been collected in New York City. Although not necessarily typical, they maybe at least indicative of conditions that may be encountered elsewhere on the continent. More than three-fourths of the boys in New York City between the ages of 12 and 18 years are not enrolled in any Sunday School at all. Acquaintances with any Sunday School record will add to this the considerable number who do not attend often enough to receive any vital impression.

Day School attendance too, is not what we would wish it to be. In spite of compulsory education laws; truancy, working permits, and the applications of those laws only up to early adolescence, a large proportion of our boys are deprived even of this vital influence during some of their formative years. Turning again to New York City where a thorough survey has been made: 51 1/2% of the boys between the ages of 12 and 18 do not attend school at all, and over three-fourths of those who do go, attend under conditions that do not permit the individual instruction and the personal relationship that are absolutely necessary to building character.

The physical business of living today is easier than it has ever been. A great deal of leisure time is now enjoyed where once the waking hours were fully occupied. "It is this leisure time" says Brother Barnabas, "that, while it enriches our lives; makes them more complex." Our recreations include ten activities where our grandfathers knew one. Necessarily this affects the youth of the nation. Necessarily this complex life affects the character of our boys.

"The boy has a simple soul. He needs not a complexity of activities; but simpler ones. He is as elemental as a savage; he wants a simple environment; not the multiplicity of activities that surround him on every side. His nervous organism becomes over developed."

"The boy is a human dynamo. Going, doing—it is as easy to dam Niagara as to check the activity of a healthy youth in his teens. The wind will blow and the water

will dash along; do what you will. But the wind which played havoc in the garden turns the windmill industriously and the power of the water, which upset the boat may be harnessed to run an engine. The boy's restless energy, if directed, may be guided to useful pursuits and wholesome ideals.

"Two things are needed: a programme of directed activity for the boy's leisure time, and men trained professionally for his leisure time leadership just as teachers are trained to direct his mind and doctors to care for his body."

During his irresponsible years the boy craves and needs the companionship of an adult of his own sex. He is a hero worshipper and every boy needs a hero to worship. The development of his character will largely depend upon the hero he has chosen. Surely no requirements are then too high for the profession of boy guidance. They must above all have training for they must be teachers and athletes, they must have physical buoyancy and youth; and they must be able to co-ordinate and direct the efforts in behalf of boys which are being put forth by practically all the men's service clubs on the continent.

The Knights of Columbus have made a unique contribution to welfare work in North America. They have established at the University of Notre Dame, Indiana a training school for boy leaders. It is a two year graduate course leading to the degree of M.A., and a curriculum has been worked out which has been accepted by authorities as meeting the highest academic standards. It is an effort, which we hope will be multiplied; to expend the energy which is now required by the juvenile delinquency problem, in constructive work in playgrounds and leadership instead.

Leo Koretz Passes Away In State Pen

Stateville, Ill. Jan 8—Leo Koretz promoter of the Bayano oil bubble, who fleeced scores of friends and relatives out of millions of dollars, died tonight in the State Penitentiary here. He had been suffering from diabetes.

The promoter, who for years conducted his phantom financial ventures, so quietly and effectively that trusting relatives and friends begged him to take their money, declaring whom he went to prison a few weeks ago that he did not expect to come out alive. His death occurred at 8:40 o'clock.

When Koretz was found last December in Halifax he was suffering from diabetes and when he was returned to Chicago and pleaded guilty to charges of operating a confidence game, his condition grew much worse.

NEW LAMP BURNS 94% AIR Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light even better than gas or electricity, has been tested by the U.S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke, or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, J. M. Johnson, 246 Craig St., W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him to-day for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

The Secret of Successful Baking
consists very largely of choosing a baking powder whose leavening qualities are uniformly reliable. Magic Baking Powder is the powder that never fails you. This is the reason why it is by far the most popular baking powder in Canada.

MAGIC BAKING POWDER

Radio Penetrated A Great Vault

Jefferson City, Mo. Jan 6—Radio Station W.O.S. announced last night that a letter from the First Savings Bank at Palmyra, Missouri, said a programme from W.O.S. had been received on a super heterodyne set placed inside the bank's vault. The letter said the vault's walls were 27 inches of steel and concrete, and that during the reception of the programme the ten-ton steel door was closed.

CEREMONIES AT ROME IN HOLY YEAR

Bishop LeBlanc, whose departure for Rome, after Easter, to participate in the Holy Year ceremonies, was announced in Thursday's Globe, will be the first Bishop of New Brunswick to make that important visit. The Diocese was organized in 1843 with Rt. Rev. Wm. Dollard, D.D. the first Ordinary, but when the jubilee year of 1850 should have been proclaimed Pius IX was still a refugee at Gaeta, in the troubled days following the last gasps of the Roman Republic. His Holiness returned to Rome in April of that year, but conditions were considered too turbulent to hold jubilee ceremonies.

Although Pius IX still was Pope in 1875, he refused to perform the ceremony of opening the Holy Door—a sign of mourning for the loss of the temporal power five years before. He did, however, proclaim Holy Year.

Pope Leo XIII proclaimed a Holy Year in 1900, and it was celebrated with great pomp in St. Peter's. The late Right Rev. John Sweeney, the third bishop of St. John, presided over the Diocese at the same time of the last two Jubilees.

On Ascension Day, last year, Pope Pius XI proclaimed the year of 1925 a year of jubilee and requested that many as possible of the Bishops all over the world to visit the Eternal city during the Holy Year.

"BASHFUL MR. BOBBS"
On Saturday, the play "Bashful Mr Bobbs" staged by a Bathurst company, was presented at the Opera House under the auspices of the local G.W.V.A. The performance was well attended and much appreciated.

"Tired and Worried Nervous and Despondent"

Mrs. M. Chevalier, Belle River, Ont., writes:
"For eight years I suffered from despondency and nervousness. Sometimes I could not sleep at night for worrying and the next day I would be so tired that my work was a burden to me. I began using Dr. Chase's Nerve Food and can say I am now entirely relieved of the nervousness from which I used to suffer, and things do not worry me as they used to."
"Dr. Chase's Ointment also relieved me of eczema on my arms, which had bothered me for three years. My house is never without Dr. Chase's Medicines."

Dr. Chase's Nerve Food
60 cts. a box of 60 pills, Edmondson, Bates & Co., Ltd., Toronto

What Will You be Worth at Sixty-Five?
It should be an easy matter for you to have from \$5,000 to \$50,000 at 65, according to your earning capacity. Spending all you earn, relying on one day "Striking it rich" can bring only an old age governed by poverty and ruled by dependence.
There is a safer, safer way of ensuring a comfortable income for your declining years. Our booklet, "The Measure of Your Income," will show you how to accomplish this.

Ask for a copy.

The Royal Bank of Canada
Newcastle Branch - Thomas Clarke, Manager

A Big Job in Housekeeping for Globe Circumnavigators.

Above is seen the "Empress of France," with inset, a corner of her dining saloon. From the diagram one gathers an impression of the great amount of supplies this vessel carries on her round-the-world cruise.

BOOT-BLACKING and polishing as a steady diet is to most people more objectionable than dishwashing. Yet there are some who take a pride and pleasure in this occupation and actually shine in it. A little blacking goes a long way and gives a high polish, but knowing even this, the bootblack on the Empress of France, now stocking up for the round-the-world cruise she will commence on leaving New York January 15th did not quail when he saw a hundred-weight of boot polish being run up the gang plank for him. As a matter of fact he beamed. Each task is but a means to an end and although he may be called upon to see that many square miles of shoes are shined, he will have an opportunity of wiping the dust of many lands from them, and seeing something of these lands beside. His office was sought after, as were all others on the ship.

But dealing with huge figures, one would think that at least the chefs on this giant Canadian Pacific Steamship would be to some extent awed by what is before them. Think, Madame Housewife, of having to prepare 185,000 pounds of vegetables, of having to roast 53,000 pounds of beef, 37,000 pounds of lamb, 37,200 pounds of other fresh meats and 2,700 pounds of mutton. Would it not tend to take some of the joy out of a four month cruise? Yet this is the task of the stewards' department of the cruise. Supposing that with the necessary equipment you had to prepare 12,000 pounds of chickens, 7,000 of capons, 8,000 of turkeys, 3,000 of geese, 2,000 of ducks, 1,000 of quails, 2,000 of guinea fowl, pigeons, quail, etc., and innumerable game fowl for the table en route; would you be so keen on your trip?

All joking apart, the unattached young ladies who figure on the passenger list will be thrilled to know that the aggregate weight of the nuts aboard totals 1600 pounds, and the unattached young men will be equally pleased to learn that on all the ship there are only 40 cases of lemons. But the little boys! It will indeed go hard with them. For some hard hearted purchasing agent, with no little boys of his own, has ordered 14,450 tablets of toilet soap, 17,700 pounds of soft soap, 55 gallons of liquid salt water soap, and two tons of scouring soap, and soap powder! He thinks that 6,000 Polar Bars and Equimax Pies are going to compensate for all this!

It seems that Dad has been looked after very well. Canadian Pacific cruise officers tell us that for the round-the-world trip of the Empress of France, some 59,170 bottles of various shapes and sizes have been taken aboard, and in addition 54,700 bottles of mineral waters. A few other outstanding figures in connection with the four month supplies for the 450 or 500 passengers are as follows: 750 cases of Canadian apples, 250 cases of grape fruit, 24 barrels of grapes, 600 pounds of dates, 890 lobsters and crabs, 20,000 pounds of fresh fish, 3,864 pounds of coffee, 20,150 pounds of sugar, 3,226 of tea, 250 gallons of olives, 5,300 pounds of salt, 1,780 bottles of sauce, 120,000 pounds of soap, 10,000 pounds of butter, 32,350 pounds of bacon and hams, 50,000 drinking straws, 42,000 men's cards—and so on. Fresh fruits, vegetables, fish, milk and eggs will be purchased in considerable quantities to meet requirements as the cruise progresses. Fifteen thousand, four hundred tons of fuel oil will be used by the cruise steamer.

PAINS ACROSS THE BACK

Relieved by Lydia E. Pinkham's Vegetable Compound

Mitchell, Ontario.—"I have taken your medicine for a number of years. I do not take it steadily all the time, but I am never without it. I always keep it in the house. I took it first for pains in the abdomen and bearing-down pains, headaches and pains across the back. I have my home to look after and many a day I could not get up at all. I saw the advertisement in the paper about Lydia E. Pinkham's Vegetable Compound, and Mrs. John Miller told me about it, too. Every time I take it, it makes me feel better and I always recommend it to my friends. I am willing to answer letters from women asking about this medicine and you may use this letter as a testimonial."—Mrs. F. J. WASSMANN, Mitchell, Ontario.

The merit of Lydia E. Pinkham's Vegetable Compound is told by women to each other. Many women know by experience what this medicine will do and they are anxious for others to know.

Such testimony should cause any woman suffering from the troubles so common to her sex to give this well-known medicine a fair trial.

Do you know that in a recent canvass among women users of the Vegetable Compound over 220,000 replies were received. To the question, "Have you received benefit by taking this medicine?" 98 per cent. replied "Yes."

This means that 98 out of every 100 women are in better health because they have given this medicine a fair trial.

Here and There

That Hollanders who have located in Alberta are making good and are satisfied is the statement of Baron W. Van Heeckeren, of Rotterdam, after a recent tour of investigation.

The forming of a mining bureau as a branch of its activities is announced by the Winnipeg Board of Trade. The bureau is to collect data on the mining situation in the province and will do everything possible to foster greater mineral production in Manitoba.

Tourist traffic in Canada this year is likely to constitute a new record, in the opinion of the Commissioner of Parks. No estimate has been compiled as yet but the figures for 1923, which were carefully estimated at \$136,000,000, indicate the value of this traffic to the Dominion.

Up to the end of October, 1924, more than 1,000 circulating libraries were in operation in Saskatchewan, as compared with about 800 at the same time in 1923. The average number of families reading each book is 17. More than half a million volumes were circulated by these libraries during the year.

A huge wooden, tar-paper lined shell erected over the space provided for the structure and heated by thousands of feet of steam coils connected with 380-horse power boilers, which provide a summer-like atmosphere for the carrying on of construction, is an interesting and novel feature of the arrangements made to combat the difficulty of building the new wing of the Chateau Lake Louise, the Canadian Pacific Railway's famous Rocky Mountain hotel, under winter conditions. Thanks to this innovation, the wing, despite frequent drops in temperature to far below zero, is progressing excellently and the company expects it to be ready for next summer's tourist season.

Sweeping changes in the Canadian Pacific Railway's service of great benefit to the communities concerned are scheduled for January 11. They include revision of the timetable of the Vancouver express (Toronto-Vancouver), to reach Fort William and Port Arthur between 10 and 11 p.m., instead of 2 and 3 a.m., and Winnipeg at 10 a.m., instead of 2:30 p.m., as heretofore. The new times are more convenient to the Twin Cities than the old and a half-day is gained for business in Winnipeg. Regina is to be reached by the same train at 11 p.m. instead of 1:30 a.m., and Moose Jaw at midnight instead of 2:45 a.m., Regina-Saskatoon connections being thus radically improved, while arrival at Calgary at 4 p.m. enables Edmonton to be reached that evening. Vancouver is reached at 7 p.m. instead of 9:30 p.m. as previously. The Toronto Express (Vancouver-Toronto) reaches Winnipeg more conveniently, while arrival at Toronto at 8:40 a.m. will make possible connections with early morning trains for Ontario points and with day trains for American cities, thus saving more time. Cables on other trains between Montreal, Ottawa, Toronto, Chicago and Winnipeg are also scheduled. These arrangements follow the cancellation of the recently inaugurated train between Winnipeg, Montreal and Toronto, which is to come off January 18.

DR. MACKINNON'S GREAT TRAGEDY

During an address before a large Union meeting in Dovercourt Presbyterian Church. Rev. Clarence MacKinnon, D.D. Moderator of the Presbyterian General Assembly, made the following statement: "I would consider it a tragedy unspeakable if the great wealthy churches of Montreal and Toronto were to withdraw their sympathy and interest from the lonely pioneers of the west."

Since making this statement a vote has been held in a number of the churches referred to, and they have emphatically decided to remain Presbyterian. From the following returns, (Montreal not yet heard from and which is decidedly anti-union) it is apparent that Dr. MacKinnon's tragedy has been enacted.

	For	Against
Cook's Toronto	59	429
Knox, Toronto	20	788
Dufferin St. Toronto	26	342
Royce Avenue, Toronto	39	397
Cowan Ave. Toronto	31	201
Central, Hamilton	351	398
St Paul's Hamilton	159	411
St. Andrew's, Parry Sound	104	112

Of 26 Presbyterian churches in Ontario, whose vote on the question of entering the United Church were announced; 13 of them decided to remain Presbyterian and not to enter the Union. Of the 26 churches there were 16 in which 200 and more votes were polled. Of the 16 representing the larger churches, 9 voted to remain Presbyterian. These included such strong churches as St. Andrew's of Guelph, where the vote stood 346 against union and 90 for; Westminster of Hamilton, 232 against and 18 for union; Knox, Goderich, where 425 voted against union and only 122 for; Dale, Toronto, where but 7 voted for union and 228 against; and Vankeek Hill where the vote stood 229 against union and 66 for.

Lord Curzon's Announcement Alarms Berlin

Lord Curzon, speaking in the House of Lords, in which he is Government Leader, has declared the question of the evacuation of the Cologne area could not be taken up before the report of the Allied Military Control Commission was made on January 10, when the Allies would discuss the extent to which the terms of the Treaty of Versailles had been carried out and whether the first stage of the evacuation of German occupied territory should be begun.

"Great Britain" he said "has not the slightest desire to continue the occupation. The sooner it is ended the better from Great Britain's viewpoint. The British Government wants to get back to settled conditions in Central Europe."

"But" continued Lord Curzon "despite these general desires Great Britain is unable to act now because the question is an Allied one the Cologne area being occupied by the Belgians and the French as well as the British and Great Britain being able to act only after consultation with the Allies."

Lord Curzon reviewed articles 428 and 429 of the Treaty of Versailles dealing with the Bridgeheads and the terms for their evacuation at successive periods, pointing out that evacuation depended upon the Military Control Commission's report which he said had been employed two years, there having been constant and persistent obstruction from the Germans.

With regard to reparations he declared every one hoped this aspect of affairs had been settled by the Dawes report, providing Germany loyally carried it out.

The speech of Lord Curzon forecasting that the Cologne area will

LONDON FAREWELL OF MARK HAMBURG

Before Mark Hamburg left London on his Canadian and South African tour he gave a recital in Queen's Hall. The London Telegraph says: "He played a programme that was ideal as a pleasant souvenir of a Sunday hour or so. He began with Byrde ('the Earl of Salisbury'), Parcell's Suite in G, Couperin's delicious 'Carillon de Cythere' Daquin's 'Le Coucou,' and Beethoven's E flat, Sonata from Op. 31; went on to Chopin and further to da Falla, Ravel; Liszt and himself. And as he is now in much more chastened mood than used to be the case; his playing of the old world music was fascinating. True, his playing of the Scherzo in the Sonata was runaway as to tempo as was that of the Finale and all a little explosive yet some of his Chopin Preludes were most highly polished and refined. Indeed, where grace was required, as in the old French and English music, Mark Hamburg's playing was gracefulness itself. The main difference to be noted in the playing of now and then is in the more vigorous music, and now happily the vigor is much more restrained than before but not to his detriment or that of the playing."

Painful Sciatic And Neuralgia

Caused by Starved Nerves Due to Weak, Watery Blood

People think of neuralgia as a pain in the head or face, but neuralgia may affect any nerve of the body. Different names are given to it when it affects certain nerves. Thus neuralgia of the sciatic nerve is called sciatica, but the character of the pain and the nature of the disease is the same, and the remedy to be effective must be the same. The pain, whether it takes the form of sciatica or whether it affects the face and head, is caused by starved nerves. The blood, which normally carries nourishment to the nerves, for some reason no longer does so, and the excruciating pain you feel is the cry of the starved nerves for food. The reason why the blood fails to properly nourish the nerves is usually because the blood itself is weak and thin.

When you build up the impoverished blood with Dr. Williams' Pink Pills, you are attacking sciatica, neuralgia and kindred diseases at the root. As proof of the value of Dr. Williams' Pink Pills in cases of this kind we give the statement of Mrs. Marion Bell, Port Elgin, Ont., who says:—"Some years ago I was attacked with sciatica in my leg and hip. The pain was excruciating and finally I was forced to go to bed. Apparently all the doctor could do was to give me drugs to dull the pain as otherwise I found no relief. I had been in bed with the trouble for eight weeks when a lady who came to see me said that she had had a similar attack, and had only found relief through the use of Dr. Williams' Pink Pills. I decided at once to try this medicine and before I had taken more than three boxes I found relief. I continued the use of the pills and under the treatment the pain left me. I was able to walk again, and have not since had the least return of the trouble. I feel that Dr. Williams' Pink Pills have been of such great benefit to me that I strongly urge similar sufferers to give them a fair trial."

You can get these pills from your druggist or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

not be evacuated January 10 (five years from the date of the exchange ratifications of the Treaty of Versailles) is viewed with consternation by the German Foreign Office. Non evacuation on that date; it is declared, would be regarded as a breach of the Versailles Treaty.

DID YOU EVER STOP TO THINK

That some business men seem to live in a world by themselves; totally oblivious to the real business world.

THAT the world to them is an imaginary world, and they spend their time dreaming of business that some day will come to them.

THAT they are only living in an imaginary world and the customers they dream of are only creatures of their imagination.

THAT the only way that it will be possible for their dreams to come true, is to stop dreaming and stop it now.

THAT they must wake up, quit resting on their oars.

THAT business worth while does not just happen.

THAT they must get busy in order to make it happen.

THAT they must get pep-up steam up and with enthusiasm, energy and honest effort, help to make their city a growing city; a city with a future.

THAT will make better business for them and the whole community.

That investigation discloses opportunity and opportunity properly followed; creates progress.

That the grasping of opportunity

is directly responsible for the development of business and building of communities.

That opportunity is knocking at the door of every city. Not all of them answer her call.

That many cities have unseeing eyes, and when opportunity knocks and bears no welcome; it goes on un-noticed.

That the quick grasping of opportunity makes many a town into a city and many a good city into a better city.

The cities who watch opportunities and never let them pass unnoticed; are the places where success can be achieved; where there is profit; glory; health and happiness to be found.

Cities who make use of the opportunities which are theirs; will find that they will develop out of them in proportion to the way they use them.

Today is the day of competition. Cities compete against each other. The ones who make the best use of their opportunities are the ones who lead in progress and prosperity

GET ZAM-BUK FOR
CHAPPED HANDS
CHILBLAINS
COLD SORES

AS soon as your skin gets rough and chapped or gives you twinges of pain as a result of the cold, apply that ever-ready soothing healer, Zam-Buk. It

Soothes Pain

In a gratifying manner. This rare herbal balm, by its penetrating, healing action, quickly focuses you from chaps, chilblains, and all inflammatory pain produced by the weather.

There is nothing like Zam-Buk for healing raw bleeding cracks in the skin, and ending the torture of Winter skin ailments.

Hands, arms, and feet, or any part exposed to the weather should all be rubbed over daily with Zam-Buk both as a preventive or as a corrective.

Grows New Skin

Miss Borina Strojka, of East Hamford, N.S., writes:—"I suffered terribly with chapped hands. They became cracked and bleeding, and the pain was so intense that I could not rest my hands in water. As soon as I commenced using Zam-Buk the pain and smarting sensation began to disappear, and continued until my hands were completely healed with new skin."

Get a box of Zam-Buk from your dealer to-day! See the box, 5 for 50c. Zam-Buk Medicinal Soap, 25c each.

"This Embargo Business"

To the Editor:
Sir,

Some timid souls oppose an embargo on pulpwood on the ground that it might provoke American resentment. They ignore the fact that the Americans themselves recognize the validity of the embargo as an economic expedient and make use of it whenever it serves their purpose without considering its effect upon other countries. This is set forth in the Boston Post of January 7th in an article entitled, "This Embargo Business".
"Before we put up an official protest against the British embargo on American potatoes we ought to do a little thinking," says the writer. "We are the original and persistent users of the embargo tactics."
"The reason," he says, "that fine Malaga grapes were unobtainable in the American market the past holiday season was that the government had put an embargo on Malagas from Spain. Plant bulbs from France, England and Holland have likewise been excluded by the same process. Some years ago" reminds the writer, "the onion growers of Bermuda were totally ruined for a season by an embargo excluding Bermudian onions from the United States. The last time Canada had an abundant potato crop the American government imposed an embargo on their importation."
"Now" concludes the Boston Post Article, "with out record, how can we consistently protest when our favorite tactics are turned against us?"

Canada as a nation, gets nothing for the pulpwood of which this country is despoiled although put to great expense in protecting it from fire and in other ways. The so called "private owners" get but a pittance from its sale for export. The middlemen, jobbers and such of course get their rake off. The American paper manufacturers get the rest. Why not put a stop to the whole business if we must consume the wood instead of conserve it, as we should when we consume it ourselves?
By the time exploitation, fang and insect, wind, and the axe get in another ten years' work of devastation, the people will say "Hands off" on any more cutting in our poor devastated wood-lands because of the unequal treatment and glaucous changes

in climatic conditions long before that time, regardless of whether or not our last tree has been cut or destroyed. This is why I say we have less than ten years' supply remaining under the present conditions.

In the interest of the people who are investing their hard earned savings in these large pulp and paper mills, and in the interest of the Banks who are loaning huge sums of money to these companies, if for no other reason sure by the time has arrived when the Government must either prohibit the erection of any more pulp and paper mills in Canada or else prohibit the export of the raw material that is to feed these mills. There are enough new mills and enlargements now under way to absorb more than the total quantity of wood now being exported and some of the existing mills have already exhausted the wood supply on their own watersheds. It is time to invoke the blue sky law in the interest of the whole people.
FRANK J. D. BARNJUM
Montreal, Jan. 10th 1925

World Record
In Station To Station
Broadcasting

What is believed to establish a new world record in station to station broadcasting has been effected between the two stations of the Canadian National Railways radio department which are situated at the extremes of the chain of nine now in operation throughout the Dominion. A test was prepared with the view of establishing communication between CNRA at Moncton, and CNRC at Calgary, and this was carried out in a most satisfactory manner, the air line distance covered by the radiation from each station being approximately 2500 miles.

The test hour selected was 4.30 a.m. Atlantic Standard time equivalent to 12.30 a.m. mountain standard time. For testing purposes the Moncton station was using the call 9CN, and the western station at Calgary the call 9AC. At exactly 4.30 a.m., Atlantic Standard time, 9CN at Moncton came on the air, calling Calgary with code, then changing over to voice and music until 5 a.m. As pre-arranged, the western station then came on the air for twenty minutes, the station at Moncton listening in during the interval for the Calgary signals. At similar twenty minute intervals thereafter and until 6 a.m., Atlantic Standard time, the stations took turns in transmitting to each other.

Reports received at the headquarters of the department in Montreal show that both stations were received and that the Moncton station was particularly well received in the western provinces. Numerous owners of receiving sets communicated to the department telling of the reception of the test broadcast.

E. L. Patterson, of Assiniboia, Sask. reports: "9CN was received perfectly and just as clear as many nearby stations." H. Leachman, of Bateman, Sask. reported that it was "the first time he had picked up a station situated in Eastern Canada with enough volume and sufficiently clarity so that every word could be understood."

The Canadian National Railways radio department has been receiving many nice compliments of late for the quality of programmes broadcast from various stations and also for the volume and "clearness" of the broadcast, particularly from stations at Moncton, and Calgary. It was emphasized that the quality of the broadcast was excellent and that the volume was sufficient to be heard in the most remote parts of the Dominion. The fact that the stations were able to communicate over such a long distance is a great achievement and a credit to the Canadian National Railways radio department.

NEW FERRY BOAT
IS TO BE BUILT

The delegation of members of the Chatham Town Council, Board of Trade and members of parliament who went to Fredericton Wednesday brought back good news to the effect that an up-to-date ferry service was assured as a result of an excellent conference with the government.

The party consisted of Mayor Hickey, Ald. Tweedie, president of the Board of Trade, Ald. O'Brien, Ald. Watling, Ald. Aube, J.S. Martin, F.E. Fairlie, W.B. Snowball, Geo. Watt and Dr. Sprout.

Premier Veniot and his whole cabinet was present at the conference. Mayor Hickey opening the speeches and Ald. Tweedie following. The needs of the service were well set forth and the government's response was hearty and to the point. After going thoroughly into all the details of the service Premier Veniot expressed his sympathy with the objects sought and his appreciation of the necessity of the government joining more adequately in the work than had been the case in the past. He promised the building of the boat would be assured by the government's guaranteeing of the bonds, the sinking fund, and the interest and sinking fund, to redeem the cost of construction, within a moderate term of years.

Ald. Tweedie in his speech gave details of the type of boat needed for the service here and its costs. The plan calls for a boat 90 feet long and with driveways on both sides. This is 10 feet longer than the Sybella H. and would provide much greater accommodation for teams and passengers, with a good cabin for inclement weather conditions. The boat will, of course, be wider than the present one, and with this extra width and length may be of lighter draught and travel in even more shoal water than the present boat. This feature will be of benefit at very low tides. The greater overhang will work towards the same benefit as the lowest part of the boat will be farther from the landing stage and the shore. This overhang will also tend to bear down and break ice in its passage rather than attempt to cut through it, and it will thus be easier for the new boat to keep running until the ice is firm for traffic. The power will probably be steam developed from oil-burning engines, which are cheaper in operation than the coal engines. Two crews may operate the boat and give a quicker and probably a longer service at night.

To get rid of the present nuisance when teams go on or off the boat at high tide and low tide with a stiff climb or drop as the case may be, it is proposed to have the shore landings fork on a ratchet that will enable the ferry staff to keep the landing stages at the same level as the boat, irrespective of whether the tide is high, half or low.

The local government is increasing its subsidy from \$1500 to \$5000 and W.B. Snowball will get after the federal government for a grant of \$500 each year, as this boat provides a service that is interprovincial in its scope.

N. B. Legislature
Probably Opened
On March 5th

The probable date for the opening of 1925 session of the New Brunswick Legislature is Thursday March 5. It is expected that the impending by-election in Gloucester will be held by that time.

Much Good Work
Was Accomplished

Much good work has been accomplished by the New Brunswick Automobile Association within the past few years. Thousands of tourists have been supplied with road maps and other information regarding the condition of the roads and resorts to the province. In addition to looking after the needs of the touring motorist, the association has done much to have signs placed on the main trunk roads and each succeeding year sees more signs placed in position and greater interest taken in keeping the roads in good condition.

The association is largely dependent on the money obtained from membership fees for funds and while much good work has been done, lack of funds has prevented the association from carrying on a progressive campaign to entice tourists to visit the province.

A large percentage of the members are registered in St. John and while motorists in other sections of the province derive a benefit from the association it is felt that much more good work could be accomplished if the membership was more representative. A local motorist who is an active member of the association suggested to the Globe, that he considered that much more interest would be taken in the affairs of the association if motor associations were formed in various sections of the province and affiliated with a central organization.

Under such an arrangement each association would have its own officers and a local interest would result, each association would then have charge of the marking of the roads in their district, while the central organization would be in a better position to devote time to securing and distributing information for the benefit of touring motorists and for advertising the provinces.

Upwards of 10,000 tourists visited

the province last year, and it is anticipated that a greater number than ever will enjoy the cool summers and the scenic beauties of the province in 1925. The New Brunswick Automobile Association is already making plans for the coming season and preparing information for the benefit of the motorists. Booklets telling of the beauty spots of the province and road maps showing the main routes will be distributed. In addition to this work the association plans to erect additional signs and in all probability they will take an active part in having the route bands on the telegraph poles repainted.

The work of the association has been of great value to the province, as through their efforts many tourists were induced to visit the province. It has also been of direct benefit to the motorist in the province as it has also been largely through the efforts of the association that the roads have been banded and the signs put in position and road maps distributed.

The New Brunswick Association is affiliated with the American Motor Association and touring motorists from the province have found that their membership has been a great aid to them while away from home. The association is worthy of the support of all motorists in the province.

New Regulations
For Berry Boxes

New regulations with regard to the kind of berry boxes which may be used in New Brunswick deprive the Boy's Industrial Home of one of the lucrative forms of employment which the boys were formerly sought. All berry boxes used this coming season must be of one size and pattern, the old square-shaped boxes made by crossing two thin pieces of wood and binding of the top with a narrow strip of wood. The thin wood used for these boxes must be made on special machines and practically all of this material

for the boxes will be imported.

The new boxes will be uniform in size, all having a one quart capacity, but their use will involve some extra trouble for the producers, as it will involve some extra trouble for the producers, as it will be necessary to have thin layers of wood placed in the crates to separate one row of boxes from another. Berry Growers in New Brunswick who have shipped their produce to special markets have been obliged to use these boxes in other years but the producers who shipped to the local market have favored the eight-sided box, made with a bottom raised slightly so that one box could be set on top of another in the crate without fear of crushing the fruit in the lower box.

It was boxes of this latter variety that the boys of the industrial Home have manufactured. The boxes were made of thin poplar usually and were in great demand.

HINTS BRITAIN
MAY ACT ALONE

"If neither the Geneva protocol nor Austin Chamberlain's alternative scheme are approved and the disarmament conference of the League which is scheduled for March is consequently abandoned we must expect to see the nations of the world resume the formation of those great national combinations which have so long been a feature of the diplomacy of Europe, and beginning again at armament rivalry which was a feature before the great war."

This is the opinion expressed by a high official of the Government in emphasizing the gravity of the decision of the Dominions that it will be impossible to take part in the proposed Imperial Conference. If the Dominions continue hostile to both schemes then the British Government may have to decide whether the peace of Europe or the limitation imposed by the Dominions on their foreign policy ranks of the greater importance.

PERSONALS

Miss Clara Floyd, Antigonish, N. S. was the guest last week of Mr. and Mrs. J. B. Floyd.
 Mr. and Mrs. R. P. Doyle of Boiestown were guests last week of Mr. and Mrs. Jas. B. O'Donnell, Messrs. D. P. Doyle and H. W. Doyle today for Sussex to attend a meeting of the Farmers and Dairyman's Association.
 Mr. James Donovan leaves this week for Montreal where he will enter Royal Victoria Hospital for eye treatment.
 Mrs. George F. McWilliam has returned from Moncton after spending an enjoyable visit with Mr. and Mrs. S.J. Craig.
 Miss Mary Storer, who has been the guest of the Misses Damsie and Reba Sproul has returned to her home in Bathurst.
 Mr. Hudson Sproul who has been spending his vacation at his home here has returned to Boston to resume his studies.
 Mr. and Mrs. H.B. Anslow of Campbellton spent Friday and Saturday the guests of Mrs. Anslow's parents, Mr. and Mrs. Wm. Corbett, Sr.
 Mr. and Mrs. H.H. Ritchie and family have returned from Woodstock, where they spent the holidays with Mrs. Ritchie's parents, Hon. W.P. and Mrs. Jones.
 Mr. and Mrs. McNulty Stohart, (nee Hazel O'Donnell) are receiving congratulations on the arrival of a daughter at the Miramichi Hospital, on Wednesday, Jan 7th.
 Miss Marion Rundle left Friday for Moncton where she has accepted a position in the actuarial department of the Sun Life Insurance Co. Rev. A. Brock Humphreys and Mr. A.F. Blason of Campbellton were in town last Wednesday attending a deacons meeting.

LOCAL GOVT. CONVENTION IN GLOUCESTER JAN 21

The writ for the bye-election to the vacancy in Gloucester county's representation in the Provincial Legislature, created by the elevation of Hon. James P. Byrne, former Attorney General, to the Supreme Court bench, will probably be issued during or immediately after the meeting of the Provincial Government in Fredericton next week. It is expected that polling date will be fixed for a date in February.
 It is also understood that steps are being taken to call a Govt. party convention to lay the foundation for a complete county organization and also for the election of a candidate. Wednesday, January 21st, will be the date of the convention and the expectation is that Hon. Ivan C. Rand, recently appointed Attorney General will be tendered nomination as the Govt. Party's standard bearer.

OBITUARY

JOHN C. VICKERS
 Many friends will regret to learn of the death of John C. Vickers, a highly respected citizen of Blackville, which occurred at his home on Sunday morning, January 4th after an illness of four months.
 Deceased was in his 64th year and is survived by his wife, nee Mary Ann O'Connell, two sons, Melvin and Bernard and four daughters, Kathleen; Bernadette; R.N.; Ada and Helen all at home who mourn the loss of a loving husband and father. Also surviving are one brother, Evertt of Nelson and four sisters, Reverend Sister Mary Ann, Hotel Dieu, Chatham; Mrs. Daniel MacAdam, Gardiner, Me; Mrs. Martin Murphy, Newcastle and Miss Charlotte, R. N. of St. Petersburg, Florida.

MRS. THEODORE LOGAN
 The many friends in Newcastle will hear with regret the sad news received by Mr. Clement Ryan of the death of his sister, Mrs. Theodore Logan which occurred at her home in Portland, Me. on Dec. 30th after an illness of about three weeks.
 Deceased was born in Newcastle and was formerly Miss Mary Ryan daughter of Mr. and Mrs. Dennis Ryan. Besides her husband, two sons and three daughters, Mrs. Logan leaves to mourn her loss six brothers and two sisters, as follows: Joseph of Seattle, Wis. Morris of Stillwater, Minn. Frank and Ambrose of Portland, Me; Jas. and Clement of Newcastle; Mrs. E. K' Curry and Agnes of Portland, Me.
 Friends in Newcastle extend their heartfelt sympathy to the entire family in their sad bereavement.

NIANA KATHLEEN MATCHETT
 The death of Nina Kathleen Matchett occurred at her home in Sunny Corner on Saturday evening, Jan. 3rd aged 8 yrs and 6 months, after a short illness of four days, due to bowel trouble.
 Kathleen was a bright smart girl and a prominent member of Sunday School and Mission Band, her attendance at school was perfect. Besides her parents she leaves to mourn one sister Jean and three brothers, Lee; Gordon and Delbert all at home. The funeral was held Monday morning at 10 o'clock which was very largely attended. Services were conducted at the house and grave by Rev. Wm. Girwood. The hymns sung were "Jesus Loves Me", and "Jesus Loves the Little Children." The pall bearers were her four uncles: Hubert, Walter and Melvin Matchett and Wilbur Dunnett. Interment in St. Stephen's Cemetery Red Bank.
 Its hard for us to be bereft
 Of her we dearly love,
 Her angel face we ne'er shall see,
 Until we meet above.
 And when her latest moments came
 We watched her dying face,
 To catch that bright and Heavenly smile,
 That o'er it we could trace.
 Death came and wrapped his garments round
 Her weak and fluttering heart
 And this was why she was called
 so soon
 From those she loved to part.
 Her body lies in you churchyard,
 That form we loved so well
 But angels bore her spirit home
 to mansions bright to dwell.
 Mrs. J. A. MacDonald
 The death occurred at the Miramichi Lodge, Blissett, Thursday night, of Mrs. Charlotte MacDonald wife J. A. MacDonald, aged 48 years. Mrs. MacDonald with her husband left their own home recently to reside at Miramichi Lodge while her son, Dr. J. W. MacDonald

and Mrs. MacDonald were in Boston for the winter. She had suffered from heart trouble but nothing serious was anticipated until a few days ago when pneumonia developed and her condition could not throw it off. Her death will be sincerely regretted as she was beloved by all who knew her. She is survived by her husband, four daughters, Mrs. H. K. Geizer, Boston; Mrs. Russell Clark, Washington; Mrs. William Underhill, and Mrs. Ellis Mersereau, of Blackville, and three sons, Willard; of Boiestown; Earl, Jacquet River and Dr. F. W. MacDonald, of Boston.

BORN IN 1825
 The death of Miss Maggie Connors, North Esk, Northumberland County, took place at Sunny Corner, after an illness of a few days. The deceased was born at Boom Road in 1825 and lived there all her life until the past 12 years, during which time she made her home with John Connors. She was a member of the Baptist Church and leaves one niece, Mrs. Bella Anderson of Newcastle and one nephew, Mont Connors of Boom Road.

Keep The Work For Canadians

In the eleven months ending with November Canada's exports of pulpwood totalled 1,180,777 cords, of which the value is \$12,886,192. The finished product into which this Canadian raw material is to be made is paper, most of it newsprint. The turning of the wood into paper will cost about seven times the price paid for it in Canada. That is to say, the processes of manufacture to which this Canadian pulpwood is to be subjected in the United States will add about \$80,000,000 to its value. Why is the benefit of this wealth-production lost to Canada? To convert the \$12,000,000 worth of Canadian pulpwood into \$80,000,000 worth of paper, it is not necessary to send the raw material into the United States. We have pulp mills and paper mills in Canada. In the past eleven months their output of paper in one form or another amounted to about the same sum as the American product of the exported pulpwood will amount to that is, \$80,000,000. Why favor United States mills and United States wage-earners when we have industries of our own to sustain? Naturally the United States prefers to buy pulpwood from us as far as possible, rather than paper. It is thereby enabled to give employment at home and to spread millions in wages among its own workers. If Canada kept its pulpwood for its own mills our neighbor would have to buy twice as much paper from us as it now buys, and our own workers and our own business circles would receive the benefit of the additional money distributed in wages on that account. We must conserve our pulpwood resources for the benefit of our own expanding paper industry. If we do not, the spruce forests of the country will cease to be the support of any industry and our condition as a pulp and paper manufacturing country will become as precarious as is that of the United States.

Winter Hard On Baby

The winter season is a hard one on the baby. He is more or less confined to stuffy, badly ventilated rooms. It is so often stormy that the mother does not get him out in fresh air as often as she should. He catches colds which rack his little system; his stomach and bowels get out of order and he becomes peevish and cross. To guard against this the mother should keep a box of Baby's Own Tablets in the house. They regulate the stomach and bowels and break up colds. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Halifax Holds McLennan Cup Against Truro

The Halifax Curling Club held the McLennan cup against Truro at Halifax, Wednesday Night with a combined score of 71 to 56. The score by skips were as follows: C. J. Kerr, Halifax, 20; J. J. Coulson, Truro 17; Murray McNeil, Halifax 25; F. Dexter, Truro 6; H. St. C. Silver, Halifax 12; C. F. Cox, Truro, 17; M. McF. Hall, Halifax, 16; F. L. Snook, Truro 16.

Fire Losses in N. B. Over \$1,600,000 in 1924

Fire losses in New Brunswick in 1924 will total more than the previous year, when they reached the \$1,000,000 mark; but will be less than \$2,000,000; according to an estimate by Chief Fire Marshal H. H. McLellan.
 Delay has been experienced in completing the compilation of official returns because of a number of losses at the year-end, including that at Fredericton, for which returns are not available. He also pointed out that in 1922 the fire losses in New Brunswick totalled \$3,000,000.

Willing To Share It

A young man took a valuable watch to be repaired. The watch maker debated about the price of the repairs, but finally agreed that the charge should be half of what the watch cost the young man.
 In a week's time the young man called for the watch. He put it in his pocket and was about to leave the shop when the repairer said: "Half a moment. You haven't paid me half of what the watch cost you."
 "Oh," said the young man "that watch cost me six months hard labor!"

HAVE REACHED AGREEMENT

An agreement has been reached by Great Britain and the United States on the Reparation Problem. There is general satisfaction that through the agreement America becomes one of the contracting parties to the Dawes Plan. The British are said to have scored a success in having the army cost payments spread over a period of twenty yrs.; dating from May 1923. The figures as to the amount the United States is to receive was not disclosed, while Britain would not accept the figures of \$350,000,000 for U.S. war damage.

Kellogg, Envoy To London, To Get Portfolio of State

Washington, Jan 11—Charles Evans Hughes has resigned as Secretary of State and will be succeeded by Frank B. Kellogg of Minnesota now ambassador to Great Britain.

The resignation of Mr. Hughes will be effective March 4th when he completes four years as head of the State Department. Mr. Kellogg is expected to take office immediately afterwards.

Mr. Hughes it was said desired after 20 years of public life, interrupted only for a short period to return to private life.

PRESIDENT PRAISES HIM

The President, accepting the decision, expressed regret; praised the retiring Secretary's record since he took charge of the country's foreign affairs four years ago and bespoke for him a "well-merited repose" after the cares of public responsibility.

Announcement of the impending change was heard with surprise. Mr. Hughes had indicated that he desired some time in the future to leave public office and recoup his private fortunes by resuming his practice of law but some of those nearest him in official life believe he would remain at least another year.

WILL ACCEPT

Paris, Jan 11 Frank B. Kellogg the United States ambassador to the court of St. James will accept the post of Secretary of State tendered him by President Coolidge on the resignation of Charles Evans Hughes.

Blackville Lodge Installs Officers

Blackville Lodge, No. 43 held its annual installation of officers last week. Those installed follow: J. P. Henderson, W.M.; R. F. Bulmer, S. W.; Bert Connors, J.W.; Rev William Gartshore, chaplain, James Gerrish, treasurer; C. M. Schofield, secretary; Cuthbert Donald, S. D.; Melvin McCrae, J. D.; Louis Dunphy S. S.; James McKenzie, J. S.; Fred W. Underhill, D. of C.; B. N. Underhill, I. G., and Justice Walls, tyler.

After installation there was speeches by the brethren and a good time generally.

Apply Minard's at once. It halts the pain and stops inflammation. Removes all poison from cuts and sores.

Keep a bottle on the shelf.

After all there's no Tea.
Like Morse's!

Assuring Your Business

A policy of advertising is a policy of life assurance, and the protection thus secured is well worth its annual cost.

Old customers die or move away—they must be replaced.

Old customers are subject to the influence of temptation—they may be induced to divide their custom—to do some of their shopping at a competitor's.

New comers to this community will shop with you—become regular customers—if they are invited to do so.

Your competitor's advertising is an influence which must be offset if you are to maintain your trade.

Not to advertise regularly to the readers of the UNION ADVOCATE is to leave your business unprotected.

A WORD TO THE PUBLIC

It is no sign of weakness to follow the lead of advertising. You owe it to yourself to get the most for your money, the best goods and the best service. And if you find that your inclination is to shop where you are invited to shop rather than to continue to be a customer of the shop which never solicits your good-will you need have no compunctions of conscience.

Shop Where You are Invited
to Shop

George Kelly Gets Into Trouble

George Kelly, first baseman of the New York Giants was the centre of a miniature baseball tempest today as a result of revelations that he had signed to play with the San Francisco basket-ball team whose roster also included Jimmy O'Connell, ex-Giant outfielder banished from baseball for attempted bribery.

The outstanding development was a sharp declaration from Pres. Heydler of the National League that he favor Kelly's suspension from baseball if facts reported from San Francisco were borne out.

This statement prompted immediate dismissal of O. Connell from the team by the president of the basket-ball league who asserted a desire to avoid any embarrassment for Kelly.

Kelly, it was brought out has not yet played with O. Connell, nor did the club in fact, plan to use the two in the same games, but the removal of the latter was not construed by Pres. Heydler as clearing Kelly's connection with the situation.

"BUY AT HOME"

The Canad'n Dollar And British Pound

Canadian exchange commenced the year 1924 at a discount of 21-2 percent in terms of gold, declined to a discount of 3 9-16 in March and subsequently appreciated gradually until par was reached on Aug. 26 says the monthly letter of the Royal Bank of Canada for December. From then until Dec. 6 Canadian currency was very close to par. At times it was at a slight premium over the American dollar. Since Dec. 6 the premium on American funds has gone up to 1-2 of 1 per cent. Canadian borrowings in the United States during the 12 months were fairly heavy, and the receipts from this source and from large exports of merchandise and tourists' expenditures in Canada resulted in United States and other foreign currencies being offered in sufficient volume to provide without difficulty for our expenditures on imports and our requirements for interest payments on foreign loans and other obligations.

Sterling commenced the year at 4.43 in Montreal. The tendency at that time was downward, and a quotation of 4.31 was reached in the latter part of January. A recovery took place in February, when apprehensions in regard to the policies of the Labor government were partly overcome. The appreciation of sterling to \$4.73 3-16 in New York on Dec. 29 is all the more remarkable in that it came at a time when English purchases of wheat and cotton were exceptionally heavy, and payments on Great Britain's debt to the United States Government had to be made.

200 Families Coming From United Kingdom

Arrangements are being made to convey more than 200 families, comprising 1,000 persons, from the agricultural areas of the United Kingdom to Canada. These are to settle on farms which are being set up for them through the joint action of the British and Canadian Governments.

Residents of the North of Scotland, South Wales and the West and South of England will be among the 200 emigrating families.

The British Government is lending 300 pounds for the equipment of each farm taken up by the new settlers in Canada.

Another thousand emigrants will leave for Canada later.

SOUND BONES

Let Nature try her best, she cannot very well build a sturdy body or sound bones or normal dentition, unless given the right kind of encouragement in the form of vitamin-activated nourishment.

Scott's Emulsion

has encouraged thousands by nourishing them into strength and vigor. It abounds in vitamins and is the food-tonic that encourages normal growth.

Scott's Emulsion helps Nature do her best to help you and your child keep strong and healthful.

Scott & Bowne, Toronto, Ont.

Your CHILD'S CHEST

A child's health changes so rapidly that prompt doctoring is vital. If a mother has the least suspicion of any throat or chest weakness in her dear ones, let her give them a Peps tablet to suck at bedtime and one before going out in the cold air.

PEPS

are beautifully soothing and healing for children's tender throat and breathing passages. Peps quickly conquers coughs, check any inflammatory tendency, and keep whooping-cough, croup, and bronchitis at bay.

Peps are ideal for children, being entirely free from laudanum and all other dangerous drugs.

NEW REDUCED PRICES—The same quantity ready, unopened for sale and office, now 25c. box. All druggists.

Here and There

A recent survey of prospective expansion among the mines of Northern Ontario shows that many millions of dollars will be spent on mills and mill supplies in 1925. According to this survey, mill expenditures totalling \$7,350,000 are contemplated.

Hunters patronizing territories in the Algoma district of the Canadian Pacific Railway had a very successful season in 1924, according to a report recently issued. Moose numbering 173, deer numbering 2,183 and approximately 7,050 partridge were secured and the number of hunters ran into several thousand. The figures quoted include those for Kipawa, Temiskaming, Mattawa, Sturgeon Falls, Pakesley, Sault Ste. Marie, Chapleau, Sudbury, Schreiber and Nipigon, all exceptionally good game areas.

More Christmas trees were shipped from Nova Scotia for the 1924 festive season than ever before, according to figures just compiled. Twenty-two car-loads from territory bordering the Dominion Atlantic Railway alone were shipped to outside points and approximately 150 car-loads left the province generally.

A splendid season of winter sports is expected at Quebec this year, as more and more people are becoming interested in these healthy recreations in Canada and the United States. In connection with the activities of the Chateau Frontenac, the Canadian Pacific's great hotel in the Ancient Capital, a number of new features will add to the attractions Quebec has to offer. These include inter-club, inter-collegiate and international competitions in all winter sports, to be held under the auspices of the recently formed Frontenac Winter Sports Club, which will award the successful participants with trophies of various kinds and attractive gold, silver and bronze medals.

The names of the winners of the David prizes for literature, awarded to the writers of the best French and English books entered in the competition for these prizes, have just been announced by the committee of judges. In the French section the first prize, \$1,500, went to Abbe Camille Roy for his book "A l'Homme des Erables," while in the English section Marjorie Grant Cook won first prize with her book "Another Way of Love."

The most successful year enjoyed by the Canadian Pacific Great Lakes Steamship Service in freight shipments since 1913 is reported by Mr. Duff, manager of that service, for the season lately closed. The whole fleet of package freighters for the first time since the outbreak of the Great War, has been constantly employed during the seven months in which the lakes are open. A feature was the very large increase in the export flour business, some 75 per cent of the 300,000 tons of flour carried eastward by the service having been destined for export. October was a particularly good month, the ships having transported in that month 58,000 tons of eastward bound milled stuffs and grain alone.

First Impressions Are Important

In a world where appearances are valued as indexes to character, *Your Stationery* should represent you worthily—always and everywhere.

That atmosphere of character and refinement, which should distinguish all self-respecting correspondence is assured when you place your stationery order with us. If you allow us to furnish your

To Build Magazine
At Halifax

Halifax, Jan. 7.—It is estimated that
the construction of the magazine to be
built on the eastern shore of Bedford
Basin by the department of National
Defence. The magazine property, which
will be used for the storage of all military
exclusives in this area, will consist of forty-
four reinforced concrete buildings, the
majority of which will be from 30 by 30
feet to 70 by 30 feet, a central heating
plant, a pump house, a water system, a
net work of about one and three quarter
miles of macadamized roads and a wharf
to be built of stone and native spruce
piling. Expenditures for the work will
be at the rate of about a half a million
dollars per year, the entire work to take
from three to four years.

PUBLIC NOTICE

Sale Of Timber Lands and
Rights

The time for receiving written
tenders for the lumber rights in
the County of Gloucester which were
formerly owned by the late Donald
Morrison is hereby extended to the
Fifteenth day of January A.D. 1925.

The undersigned also offers for
sale by written tender the following
lots of land in the Parish of Al-
wick, Northumberland County,
which were also formerly owned by
the late Donald Morrison, namely:—
No. 1—Lot at Oak Point, known as
Beaver Dam Lot, containing 50
acres.

No. 2—Lot lying on the easterly
side of the Lot known as No. 49

No. 3—The easterly one half part
of Lot No. 44

No. 4—Another lot known as Lot
No. 43 containing 88 acres

No. 5, 6, 7, 8 and 9 known as the
Peter Butler lots.

No. 10—The Martin Connell Lot.

Nos. 11 and 12—Also 1/2 acre at
the Mouth of Buchanan Brook and
the lot of cultivated land adjoining
the same.

The above lots and rights are of-
fered for sale in two groups—The
Gloucester County Group and The
Northumberland County Group.
Tenders received for both or
either of the said groups, and ten-
ders addressed to the undersigned
for both or either of the said groups
will be received by him up to the
fifteenth day of Jan. A.D. 1925.

Descriptions of lots and rights
and terms of sale can be had on
application to the Royal Bank of
Canada at Newcastle, North., Co.,
N. B., or to the undersigned at his
office, St. John, N. B.

The Vendor does not bind himself
to accept the highest or any tender

DENTAL DISCOVERY
OF MUCH MOMENT

Emission of the danger
of abscesses at the roots of the
teeth, which is responsible for
a variety of ills ranging from
rheumatism to eye trouble, is
expected to be the result of re-
search work which has been
carried out for five years at the
University of Toronto and
which is only now revealed by
an article in the Jan. num-
ber of the Dominion Dental
Journal, written by a member
of the research staff. Announ-
cement of the result of the
research work is now made
to the dental profession at
large after thorough testing.
The new discovery consists of
using copper amalgam as a
permanent filling for the root
canals of the tooth. This has
been used before as a filling
for teeth, but, until the re-
search work at the university,
it was not known to have a
permanent germicidal effect.
Dr. F. C. Husband, a Toronto
dentist, gets the credit for
what is expected to be the
greatest advance in dentistry
in a hundred years.

Research work has been
carried on at the University
of Toronto since March, 1920,
first under the direction of
Prof. J. J. Mackenzie, who
died, and then under Prof. O.
Klotz. Results of the work of
the staff have been given be-
fore various dental associat-
ions: and the discovery will be
explained in a paper from the
Toronto section to be read at
the meeting of the Internat-
ional Association of Dental
Research, which takes place
at Chicago next March.

Good Cheer For 1925

We shall undoubtedly make
a mess of 1925 if we step in-
to it with unchanged outlook.
The belief that 1913 prices
were normal, and therefore
that the scale of today is pro-
portionately inflated, must be
definitely abandoned; for
all competent authorities on
economics are agreed that
there cannot possibly be a
return to the level of eleven
or twelve years ago. The
war was so dislocating and
disturbing, and also so uni-
versal in its effects, that the
old foundation of prices has
completely disappeared. We
must accept the standards of
1924 as normal, and govern
all our buying and selling
accordingly.

That is the lesson which
both 1923 and 1924 taught
the world, and, unless we give
it practical application as we
enter upon 1925, we shall
make a costly blunder. Happi-
ly, there are signs that this
warning is not needed by
everybody. Large commer-
cial houses report that buy-
ing for the spring is proceed-
ing on a larger scale than that
of a year ago. The traffic re-
turns of the railways, which
are always a reliable index,
show that a larger volume of
merchandise and miscellan-
eous is in motion. The banks
announce that collections are
being made more promptly.
From many directions inform-
ation comes of stir and larger

"Bring me a"

At the top are seen the chefs at work on the new train which operates between Montreal and Winnipeg over Canadian Pacific lines in 39 hours 45 minutes, daily. Below, a comfortable meal with a landscape changing many times with each course.

How would you like to be called upon to prepare a meal for 125 or more people in a kitchen 21 feet long and a little over 6 feet wide, in which four other than yourself were working, and in which all your stores and supplies were kept? You might consider it a fairly tall order, and yet day after day many men are doing this very same thing at least three times a day in the kitchens of the railway dining cars which render travelling hotel service across the continent. In addition to the space mentioned, the kitchen and dining room staff have only a pantry seven feet by six in which to work, yet who has not wondered at the seeming magic with which the waiters produce at very short notice the choicest of foods and drinks, cooked and garnished to tempt the most dainty appetite and appease the most hungry?

The key note of this remarkable service is, of course, system, and then training. Investigating, one finds that each class of food has its own refrigerator, and that each refrigerator and ice-well, each drawer and each of the innumerable lockers are so arranged as to permit of ready access with the minimum amount of lost motion. Everything has and is in its place, the separate refrigerators being provided in order to avoid absorption of odors from the pungent variety of foodstuffs by those of a more delicate quality. The cooking is done on a broiler in the case of steaks, fish and ham, etc., or on the large coal range. Dairy products and crockery is kept in the pantry where silver, glass-ware and crockery is kept.

The preparation of the menu card is done under the personal supervision of the superintendent and a full

set of bills of fare covering all meals to be served on the run, are handed to the steward and chef. They make out a requisition for the necessary quantity of supplies, basing their estimate on the average travel, and all foodstuffs are checked and examined as to quality by the Chef personally as they are placed in the car, and put into the receptacles provided. Everything is then ready for the preparation of the meal. There is, however, a great deal of work to be done before the "first call" is made.

Stock has to be prepared for soup, poultry and fish cleaned, garnitures cut, vegetables cut and many other things. The Chef sees that everything possible is prepared ahead, but will not permit the preparation ahead of such items as require to be prepared as ordered. All broiled foodstuffs and such things as toast and eggs for instance must be prepared only as ordered.

As to the division of duties, the Chef prepares soups, sauces, cooks all roasts, fries and grills all meats and generally supervises the work of the kitchen staff. Second cook makes all pastry, puddings, cakes, muffins and coffee; third cook peels all vegetables and assists the second cook with the other work; fourth cook is a general utility man and does the washing of dishes, pots and pans. The fifth cook, sometimes called the pantryman cuts bread, butter and prepares salads, grape fruit, oranges, etc. This division of labor permits of the service of meals just as quickly as passengers can partake of them, and very often one kitchen staff in the Canadian Pacific dining car service will turn out nearly 400 meals in the course of one day.

planning. Our American neighbors, in particular appear, to have reached a settled conviction with regard to deflation, and are demonstrating a practical faith in the commercial and industrial prospects for 1925.

There is no warrant for further timidity. Caution is a fine virtue, in its proper place; but there is assuredly a time when it comes a positive and hurtful drag on enterprise. That time has come. The call of 1925 is for universal confidence and effort—The fears of 1924 must be thrown out the window.

To do otherwise would be to disregard the stimulating appeal of our vast and untried national strength. We are at this moment, as a people, stronger than we have ever been. Our fundamentals are peculiarly sound. We do not lack capital. All we need in order to forge ahead as never before, is to realize our potentialities and courageously proceed to make full use of them. If we do that, all else might be safely left to our natural shrewdness. The New Year beckons us with fine promise. The results will depend wholly on ourselves.

Bonar Law's Will
Probated In West

Victoria, B. C. Dec. 31 The re-
sealing of letters probate in the
estate of the Right Hon. Andrew
Bonar Law was granted by Mr.
Justice Gregory in Supreme Court
this week. The will named Mary
Elizabeth Law, London, England
William Pitcairn Robley of Thirl-
estane, Helensburgh, Scotland
and William Maxwell Aitken,
Baron Beaverbrook, of Beaver-
brook, N. B. as executors of the
estate. The estate in British
Columbia consisted of \$582 in
stock in the Pacific Mills, Limited.
Many Canadian holdings are
included in the estate of the
testator who left a net estate of
\$325,680

7 New Steamers
For Grain Trade

To Operate Between Great
Lakes and Montreal

An order for the construction of
seven new steamers for the grain-
carrying trade between the Great
Lakes and Montreal is being placed
in England by the Eastern
Steamship Company of Montreal
and Buffalo. All seven boats
are scheduled to be ready by May
next, when they will leave for the
Great Lakes via Montreal.
The Cunard liner Andania is

scheduled to make ten round-
trips this year on a new steamship
service between Hamburg and
New York inaugurated jointly by
the Cunard White Star and
American lines.

The White Star liner Adriatic
will have a passenger list repre-
sentative of every province and
state in North America when she
leaves New York today on a winter
cruise to the Mediterranean.
Among the more than four hun-
dred passengers will be Mr. and
Mrs. E. Hanson, M. A. K. Starke
and Mrs. H. Davidson of Mon-
treal.

Firpo Leaving
For London

Will Confer With Sporting
Club Officials

Paris, Jan. 5.—Luis Angel Firpo leaves
for London, tomorrow to confer with
Arthur F. Bettison, president of the National
Sporting Club. The Argentine
heavyweight recently accepted the club's
terms for a fight with Tom Gibbons and
after seeing Mr. Bettison he plans to
sign the agreement.

Local and General News.

COUNTY COUNCIL
The annual meeting of the Northumberland County Council will take place at the Court House here on Tuesday, January 20th.

A NEW SERIAL
Beginning next Saturday, a new serial entitled "Ruth of the Range" will be commenced at the Newcastle Opera House. This is one of the finest serials ever put on the screen and patrons should be sure to see the opening episode.

ACCEPTS CALL IN NORTHUMBERLAND
Rev. Arthur Westrup, who with Mrs. Westrup came from England early in the winter, has accepted the call to the United Pastorate of Whitneyville and Littleton.

CHANCERY COURT
In George A. Betts et al vs Frank W. Betts, J. B. McNair for the plaintiff moved that a lease of lands in the Parish of Blisefield, Northumberland County, given by the plaintiff to the defendant, Sept. 1924, be set aside. Motion was granted.

WONDER WHY?
A householder remarked: "I wonder why some of the people who are out of work, don't go round after a snowstorm and offer to do some shovelling. They would be welcomed by many residents and could easily earn many a quarter, 50 cents or even more, according to the amount of shovelling done."

NORTH SHORE BONSPIEL
The annual North Shore Bonspiel will be held this year at Campbellton on Thursday and Friday, Jan. 29 and 30th. This is the big event in curling circles on the North Shore and members of all clubs are anxiously awaiting for the play to begin. Four rinks from five clubs participate in the match for the handsome trophy.

BENEFIT NIGHT
Next Wednesday and Thursday the Opera House management is holding a Benefit Night for Mr. F. W. Harris, who so unfortunately lost his house by fire on New Year's night. The picture to be shown is entitled "Women Who Give" based on the famous story "Cape Cod Folks." The picture is a good one and the purpose for which it is being shown is a philanthropic one and the citizens of Newcastle will no doubt fill the Opera House to overflowing on these two nights.

MONEY ORDER CHANGES
Acting Postmaster Alex. Thompson of St. John announced last week some changes in money order rates taking effect on January 1, 1925. The change is in the section dealing with \$5 up to \$10 and with \$10 up to \$50. In the first case the previous charge was 7 cents, but commencing New Year's Day, the charge will be 9 cents. In the latter instance, the new fee will be 14 cents where formerly it was 12 cents.

Treat Colds Externally
For sore throat, bronchitis or deep chest colds, rub Vicks VapoRub liberally over throat and chest, and cover with warm flannel.
Vicks acts in two ways—both direct: absorbed like a liniment, and inhaled as a vapor. A quick relief for the cold troubles of all the family.

SOCIAL DANCE
The Rainbow Five Orchestra of Moncton held another of their weekly dances in the Town Hall last Thursday evening, which was thoroughly enjoyed by those present.

HYDRANTS MARKED
The Fire Committee of the Town Council have had the hydrants marked by bushes. In case of fire this method will facilitate in locating the nearest hydrant.

Mammoth Carnival at Newcastle Rink on Friday, Jan. 16th. Special prizes and Special music. Admission - Gents. 35 cts; Ladies and Children 25cts 2-0

BUSINESS
Business, which showed a slight revival during the holiday season has again gone back to continue its long winter nap. Most of the merchants are now busily engaged in stock taking and other routine duties.

MINISTER ACCEPTS
Rev. George M. Young, now at Milltown has accepted the invitation of St. Luke's Church, Chatham to become their pastor at the close of Mr. Littlejohns term, which expires in June next. Mr. Young was minister at St. Luke's some twenty years ago.

COMMERCIAL MEN
The commercial men, the majority of whom were called in by their houses, for the holiday season, are beginning to drift back into town again. The "knights of the grip" puts cheer into the hearts of the local hotel men, as they are about the only dependable guests at this time of the year.

On Thursday Creaghan's will give an exhibit of New Spring Models in Suits, Coats and Dresses. This showing is the largest ever attempted in Newcastle. A special New York Model will be here to display the garments on. The chance of a lifetime to get some new Spring togs.

CARNIVAL POSTPONED
The Carnival, which was to have been held in the rink on Monday, January 12th has been postponed until Friday, Jan. 16th. Don't forget this big night. Excellent ice, good music and worth while prizes. The regular band nights at the rink will be Monday and Friday. 2-0

CARD OF THANKS
The Newcastle Fire Department wishes to thank Messrs. O'Brien Ltd Nelson; for their kind contribution towards the Firemen's Fund, in recognition for their prompt assistance and willingness of service in the recent fire, which destroyed Rev. Father Wallace's Manse. The Firemen's Fund is used for the purchase of firefighting equipment and not for the personal benefit of the members of the department, hence all monies received are judiciously expended for the welfare of the town and nearby communities. . .

HOCKEY MATCH ENDS IN TIE
The hockey season in Newcastle was opened in the rink last Wednesday evening, before a large audience of fans, when the local Intermediate crossed sticks for the first time with the Chatham Y.M.C.C. team. Both aggregations were in fine fettle and very evenly matched, making the game a most interesting one for both players and enthusiastic lookers-on. The hard fought battle resulted in a tie score, 5-5; each of the three periods ending in a deadlock. After the game slight hands for skating were enjoyed by skaters.

THE COLDEST YET
Thermometers registered 28 and 30 degrees below zero yesterday morning in Newcastle. This is the coldest weather experienced here this winter.

WEEK OF PRAYER CLOSED
The week of prayer observed by the Baptist, Methodist and Presbyterian churches closed last Friday evening. The meetings were well attended.

WHAT'S THE CAUSE?
Is it the strength of union that makes such a vigorous noise and kick? Union churches, union governments, union stations and labor unions raise an awful ruction.

N. B. CHURCH UNION VOTE
Under the Church Union bill passed at the last session of the New Brunswick Legislature voting by the Presbyterian churches of the Province will not begin until June 10th. next. Voting is now proceeding in nearly all the other provinces.

OF INTEREST TO LADIES
Of interest to ladies the special display of Coats, Suits and Afternoon, Street and Evening dresses at Creaghan's. On Thurs. Special New York Model to try on and display garments.

HIGHLAND SOCIETY MEETING
The general annual meeting of the Highland Society of New Brunswick at Miramichi is being held today in the Canada House, Chatham N B. One of the matters to be taken up at the meeting is the change of date of the Annual meeting from January to the first Thursday in November.

THANKS
On behalf of the Newcastle Intermediate Hockey team, I wish through the columns of the Union Advocate to thank the Newcastle Band for playing a benefit night for the hockey team last Wednesday night.

W. A. RUSSELL Mgr. Intermediate Hockey Team

DIOCESAN MISSION BOARD SESSION

In order to assist the Diocesan Board of Missions in the matter of Grants and Appointments, a meeting of representatives of some of the North Shore parishes was held last Wednesday in Newcastle. Those present were:—Rev. A. B. Humphrey and Mr. A. F. Blason, of Campbellton; Ven. Archdeacon Forsythe and Mr. Percy Burchill of Chatham; Rev. W. J. Bate and Mr. H. H. Ritchie of Newcastle; Rev. P. J. E. Haslam and Mr. Wathen Williston of Bay du Vin; Rev. A. R. Yeoman of Derby and Rev. Canon A. W. Smithers representing the Board of Missions. The visiting delegates, during their stay in Newcastle, were the guests of Rev. W. J. and Mrs. Bate.
