SIXTEENTH YEAR

ALL CIRCUMSTANTIAL

But the Crown's Case is Growing Stronger.

MRS. HYAMS WILL BE A WITNESS

The Skull of the Victim to Be Produced in Court.

Evidence as to the Placing of the Evidence in the Bank Account of Martha Wells Shows That the Insurance Money Was Transferred to the Hyams Bros.—What It Is Expected to Prove by the Evidence of the Medical Men.

That the Crown made no empty boast in stating that the strongest evidence in the Hyams murder case was being reserved until the last was proven before the conclusion of the third day's proceedings of the preliminary examination of Harry F. Hyams and Dallas T. Hyams at the Police Court yesterday. The faces of the prisoners brightened considerably when Dr. King stated, under cross-examination, that he believed the boy's death was accidental, and that it was caused by the weight. They fell again, however, when Samuel Williams, who for five years prior to May, 1892, had used the host every day, swore that it would have been an impossibility for the weight to have slipped off the iron hook, which attached it to the rope.

INTERCOLONIAL TARIFFS

The Commons Compel the Withdrawal of the Canada-Australia Bill from the Lords.

Montréal, March 1.—The Star's special cable from London says: The promoters of the British Pacific Railway, which is intended to run from Victoria, B.C., via Cariboo, the Yellow Head Pass, Edmonton, and through the Northwest, state that the money to float the scheme on the London market is all secured. And now, they say, they are waiting for the British Columbia Government to fulfill its promise to assist the scheme to the fullest extent of its power. Hon. L. H. Turner, the Minister of Finance of British Columbia, comes to England shortly to make a new British Columbia loan and the promoters expect he will give each pledge of the Government's aid as will enable the British Pacific Railway to be put before the public in London. The British Pacific Company will reach the seaboard, according to present arrangements through connecting with the much-talked-of and much-criticized Atlantic and Lake Superior route.

SCIENTIFIC BRACES

We have the following makes of braces now in stock: Scientific, Argyro, Chesster, Lane, Back, Times, Guyot, Scotch, Hercules, Non-Buckle brace, Anabelle (or German army brace), Venetian, shoulder braces, etc. Also the balance of 50 dozen English and American braces, worth 50 cents, for 25 cents a pair. These are the best value ever shown in the history of braces. We have received our first shipment of neckwear silks. Come and see them. 50 King-street east.

ANOTHER SPRING LAMB FROM ADAMS AT CLOV

John P. McManisville's elegant writes from Montréal: "I was suffering from skin disease, and had been treated by Harlowe Blood Bitters, of which three bottles restored me to good health, and I recommend it to all who are afflicted."

ASK YOUR GROCER FOR SALADA CEYLON TEAS

A thousand a day. The spring crop of roses at the great conservatory of H. Dunlop is now beginning. A thousand of the choicest roses are cut daily. They are delivered at his salesrooms twice every day, and are always absolutely fresh. His violets are now in the greatest abundance.

THE INSURANCE

The Crown then touched upon the insurable phase of the case. Samuel W. Hyams, agent for the Ontario Mutual Life Assurance Company, 5 King-street west, called on the young man at the Hyams' warehouse in December, with reference to placing a policy on his life. Harry Hyams declined to do so, and the insurance was not effected. The policy was then taken out on the life of Dallas T. Hyams, the youngest of the three boys.

ROYAL MILITARY COLLEGE CLUB

The annual meeting of the Royal Military College Club was held here to-day.

RECIPROCITY WITH JAMAICA

Several officers from distant points were present. Hon. F. J. Dugas, of Toronto, was elected to the presidency; Capt. P. D. Twining, Kingston, and Lieut. H. A. P. P. Twining, Québec, secretary-treasurer. The association wound up its reunion by a banquet at the Russell House at which there were present Hon. Mr. Patterson, Minister of Militia; Col. Powell, Adjutant-General; Col. Paquet, Deputy Minister, and other well-known officers connected with the force.

RECIPROCITY WITH JAMAICA

OPPORTUNITY TO OPEN UP TRADE WITH THAT ISLAND.

General Herbert's Return Not Looked For—Hudson Bay Railway Contract Approved—Administration of the Fishery Laws—J. W. Tyrrell Expected to Go to Killarney Land for the United States.

Ottawa, March 1.—According to advice which reached the Department of Trade and Commerce to-day, there is a good opportunity for Canada available in opening up trade with Jamaica. The department has received an official copy of the speech with which the Legislature was opened on Feb. 15. It contained this reference to the trade question: "The withdrawal of the Government of the United States from the reciprocal arrangements with this colony entered into in 1891, and the re-imposition of the duty on sugar leaves us free to restore to our tariff some of the sources of revenue abandoned under that arrangement. A bill will be submitted to you dealing with the subject."

RECIPROCITY WITH JAMAICA

Renewing the W. Steamship Subsidies.

Another circumstance which enhances our prospects of success is the fact that very shortly the time will have come when it will be necessary to renew the Dominion subsidies to the steamship service now running between Canada and the West Indies, in fact the matter is understood to be presently under consideration by the Government. While the United States is doing nothing to promote international trade, the Government of the Dominion is practically displaying its anxiety to build up commerce with Jamaica. Moreover, it has been suggested that in the event of a reciprocal trade arrangement with the island, the Dominion should be permitted to import sugar from Jamaica into the United States, and in any event, Jamaica sugar is now admitted into Canada, while it is taxed in the United States.

RECIPROCITY WITH JAMAICA

Justice to Parks, Davis & Co.

On Feb. 22 The World published a dispatch from Ottawa to the effect that Justice to Parks, Davis & Co. were to be granted a license to sell and who are also large manufacturers of pharmaceutical preparations in the United States. It is understood that the Dominion Government to be given permission to bring in a cheap and reliable alcohol for use in the manufacture of their goods. Founded upon this statement in the press dispatches was the report that Justice to Parks, Davis & Co. were to be granted a license to sell and who are also large manufacturers of pharmaceutical preparations in the United States. It is understood that the Dominion Government to be given permission to bring in a cheap and reliable alcohol for use in the manufacture of their goods.

THE DIVISION COURT.

If a census were taken of the people individually or of the different classes in the community who are anxious to have the Division Court maintained it would be found that such a census would include a very small proportion of the total. The departmental stores do not require the Division Court. The smaller traders have found out to their sorrow that the credit system is one of the reasons they cannot compete with the large stores that do a strictly cash business. The all-mercantile consumer does not see any need for the Division Court. Just what part of the community is favorable to a continuation of the court it is a difficult matter to determine. The only individuals that are apparently interested in keeping up the court are the officials connected with it and the politicians who appoint these officials. To these may be added, perhaps, the lawyers who are more or less benefited by the litigation that goes through the court. The great mass of the people, however, not only derive no benefit from the court, but they would gladly see it swept out of existence altogether. The question naturally arises, whether we should continue an organization which nine-tenths of the people at least have no need and which they would vote to have extinguished.

The broad reason why the court should be abolished rests upon the fact that the people as a whole would be greatly benefited by being forced to conduct their everyday affairs on a strictly cash basis. We have ample proof in the city of Toronto of the economy of the cash as opposed to the credit system. Those whose business is still conducted according to the old lines and who find it difficult to adopt the cash system would experience no little relief if the legislature would stop in and force their business to be conducted on a cash basis. While the Division Court system is so strongly entrenched as it is, it is probably expecting to last until the abolition of the court. Legislation, however, may be put in force that would, in a roundabout way, have almost the same effect. This legislation merely involves an extension of the value of the property exempted from seizure. One of the best enactments ever put on the statute books would be an act to make it impossible for the farmer to pledge his personal property to the extent of \$10,000 for any purpose whatsoever. This could be effected by exempting this amount of property and making it illegal for him to waive his right to such exemption. In the increase of the exempted property of mechanics and everyone else to the extent of \$500. The working man and the farmer under these conditions would never be deprived of the absolute necessities of life and of the tools and implements of their trade.

A MANITOBA OPINION.

The opinion of the Protestants in Manitoba on the vexed school question ought to be of some use to the people of this province in coming to a decision on the merits of the case. Here is an extract from an editorial in the Northwest Baptist, published in Winnipeg:
The position of the Northwest Baptist on the school question, all along has been that our legislation is not such an adamant barrier of righteousness and unchangeable principle that it can blow the teeth to the storm until they are reduced to a mass of pulp. When rights or supposed rights of a legal sort have been peacefully enjoyed for a term of years sufficient to give the community a quiet title and give undisturbed possession, it is impossible to ally force and legal force, when such rights are cancelled by a pretence at reverting to fundamental principles. Had the clean straight thing been done in 1890, eliminating from our public school system every vestige of so-called religious instruction, the unnecessary presence of which has confirmed Roman Catholics in the opinion that it was not common schools we were after but Protestants' schools. Now our legislation would have overthrown the storm, although it is to be doubted that there would have been anything like the storm that has been experienced during these last three years. But now where are we? Politics aside, what should be done? He is no friend of Canada or Manitoba who says, "Oh, it is not our fault; it is the fault of the government; let the Dominion Government settle it." In all soberness we ask, can politics ever settle the question? We believe not. Neither courts nor cabinets are the right place to adjudge this matter. The Privy Council, without determining what rights of the Roman Catholics have been invaded, clearly indicates that there is a case for intervention on the part of the Dominion. Let Manitoba recognize this decision. We are a part of the empire. We cannot antagonize Great Britain or even the Dominion, when the Dominion's authority in such a matter is established by the highest court in Great Britain. There ought to be a readiness on the part of Manitoba—we mean the Provincial Government—to be a party in discovering where our legislation has wronged our Roman Catholic fellow citizens, and upon discovering it, winily make every endeavor to do them justice.

THE PRINCIPLE OF RESPONSIBILITY.

At the last meeting of the Executive Committee the members discussed a recommendation by the City Engineer to remove the boilers at the waterworks to the main pumping station, with a view of effecting a large saving in the annual cost of coal. This recommendation was opposed by several of the aldermen on the ground that the work was an experiment. In our opinion the aldermen make a serious blunder when they vote in opposition to the positive recommendations of an official on a technical matter. The engineer is supposed to be competent for the work he is appointed to manage. He is paid a large salary because of his competence, and the aldermen should have entire confidence in him until he is proven to be incompetent. One of the most vicious principles in our municipal affairs is the principle of dividing responsibility. The aldermen come and go from year to year. We have no way of reaching them. One of the other hand our officials can be discharged if their are not satisfactory. We should judge

THE ENGINEER AND ALL OUR OFFICIALS BY RESULTS, AND THEY SHOULD BE MADE TO UNDERSTAND THAT THEY WILL BE HELD STRICTLY ACCOUNTABLE FOR THEIR MISTAKES.

The council ought to grant all the assistance in its power to secure legislation in the direction asked by the Ratepayers' Association in regard to the proposed increase of the efficiency of the Court of Revision. The court should be in fact, as well as theory, a tribunal for the equalization of assessment. As at present constituted, it merely equalizes those cases that are forced upon its attention. As soon as any inequality is brought to its notice the court should rectify it, and all cases that hinge upon it. Power should, therefore, be given the court to deal with all property that is affected by any of its decisions, whether the owners of such property appeal to the court or not.

ALL ONE-SIDED.

Four hundred and thirty millions of people of those most advanced in science, education and the industrial arts of the world are nationally ranged and committed to the principle of protection for their industries by tariff legislation. Thirty-eight million of British are all that are left who nationally support the free trade tariff system. These four hundred and thirty millions include Canada, the United States, Mexico, South America, Germany, France, Italy, Spain, Portugal, Denmark, Australia (excepting New South Wales), Switzerland, Austria-Hungary, Russia, Sweden and Norway and other countries of minor importance.

CHEAP GRADE ALCOHOL IN PATENT MEDICINES.

Editor World: In your February 26th issue, under this title and over the signature of "Pure Medicines," there appeared a letter bearing especially on the press despatch received from Ottawa of February 22nd, and referring to application supposed to have been made by our house for permission to use a low grade alcohol in the manufacture of our preparations. Inasmuch as this statement is not based on fact, and publication is calculated to do us an injury in our relations to the medical profession, we request, in justice to us, you give prominence to the following statement: We have never made appeal to our Government for permission to import a low grade alcohol for any purpose whatsoever. We cannot use a low grade of alcohol in our preparations. Our sole and only reason for making this request to the Government is that, because one of the best enactments ever put on the statute books would be an act to make it impossible for the farmer to pledge his personal property to the extent of \$10,000 for any purpose whatsoever. This could be effected by exempting this amount of property and making it illegal for him to waive his right to such exemption. In the increase of the exempted property of mechanics and everyone else to the extent of \$500. The working man and the farmer under these conditions would never be deprived of the absolute necessities of life and of the tools and implements of their trade.

YESTERDAY'S SESSION.

It was private members' day at the Legislature. The session was further delayed by the postponement of the debate on the bill for the amendment of the Municipal Act, which was postponed until Tuesday next, as a consequence the session was a quiet one. The report of the Striking Committee appointing members to the Legislative Council, and the bill, and municipal was received and read. The bill was read a first time. The bill for the amendment of the Municipal Act was read a first time.

CIVIC WASTE IN CHARITY.

Detailed extracts to be supplied by the institutions.
At a conference of representatives of the various city charities and a sub-committee of the Executive, held in the City Hall yesterday, it was resolved that the secretary write to the managers of all charities receiving city aid for particulars of the objects, extent, cost of management, funds invested, mortgages, rates of interest and amounts contributed last year to the city aid.

THE U.S. VESSEL SAUK BY BRITAIN.

Washington, March 1.—The Nicaraguan Secretary Gresham just before the Cabinet meeting. He said that he placed no reliance on the Bluefields story concerning the alleged sinking of an American vessel by a British warship about three weeks ago. The minister and received advice from Home in the meantime, some of them from Bluefields in the last few days and all were of a peaceful character.

THE PROPRIETORS OF FARMER'S PILLS ARE CONSTANTLY RECEIVING LETTERS SIMILAR TO THE FOLLOWING, WHICH EXPLAINS THEM.

Mr. John Bailie advocated a central committee.
Ald. Scott, J. E. Pell, Joseph Poocek and others took part in the discussion.
The most popular through train in the world is the No. 23 on the New York Central and Hudson River Railroad. It leaves New York for Toronto at 6 p.m., daily, and consists of from twelve to sixteen magnificent Wagner vestibule sleeping cars, in addition to day coaches, dining, baggage, mail and express cars.

TAGGART'S GREAT ANEMIA SALE.

Never at any Auction sale held in Toronto to have such bargains been obtained as at the auction sale now going on at Taggart & Co.'s, No. 80 King-street west. The sale will be continued this afternoon at 2:30 and evening at 8 o'clock.

LESS HOTELS, SHORTER HOURS.

LICENSING LAW REFORMS ASKED FROM SIR OLIVER MOWAT.

One license for Every 1000 With Bars Shut at Six is the Request of the Temperance People—Important Recommendation Concerning Bars—Writ for Maintenance Issued.
The temperance party have no intention to allow the Ontario Government to sleep in regard to the liquor question. Yesterday Sir Oliver Mowat and his cabinet received a large deputation representing the Methodist Young People's Society of Ontario and Quebec and the Royal Templars of York and the Law of Hamilton, in speaking for the latter body, explained that they had come in order to repeat the request made last year. They wanted a reduction in the number of licenses, reduction in the hours of sale and better enforcement of the existing license law. In the latter connection he pointed out that, whilst in Toronto there were one saloon for every 700 of the population, in Hamilton there was one for 650. The present law allowed for the issue of 2000 in the amount of 2000 licenses. If the law was amended as enforced by the Government, an enforced prohibition should be given the power.

REDUCTION IN THE HOURS OF SALE.

With regard to the hours of sale, the greatest harm was done in the evening hours, and they suggested that the hours be closed at 8 p.m., and not opened until 7 in the morning. If such a law were passed it would do away with half the amount of liquor sold in the future. In reference to the enforcement of law, their complaint was that in the courts the amount of liquor sold in the future was considered from the point of view of the liquor dealer or interloper with his business.

THE PREMIER'S CAUTIOUS REPLY.

Sir Oliver Mowat in his brief speech, the tenor of which was that, while the question of license legislation at this session would not be considered by the Government, he hoped their temperance friends would not think them unreasonable in recommending that their standpoint should consider it advisable to wait for the decision of the Privy Council as to much temperance in the future. He also pointed out that it had been said to do so much for temperance in the past and hoped to do so in the future. H. Mazer, president of the License Holders Association, Robert Davies, A. Bolt and James L. Macdonald were present for the liquor dealers.

CANADIAN FAIR ASSOCIATION.

The Government also received yesterday a deputation from the Canadian Association of Fairs and Exhibitions, headed by President C. K. Smith of Hamilton, who asked that the distribution of grants to Agricultural, Arts and to Horticultural fairs should be so arranged as to meet the necessities of the several localities; that an inspector of fairs be appointed to see that the abolition of the fair tax should be effected as soon as possible; that wherever an election was held, a Government grant the City Council in the amount of \$1000 should be made; that the Government promised to consider the matter.

NOTES.

A grant of \$1150 has been made by the Government to the widow of J. W. Hamilton, who died from injuries sustained in the Weston railway wreck.
Mr. Whitney will on Monday next move for a return of copies of all letters received by the Minister of Education and all other members of the Government since Jan. 1, 1891, recommending persons for positions on the staff of University College and of the School of Practical Science.

MR. BARR WILL, ON MONDAY, ASK WHETHER IT IS THE INTENTION OF THE GOVERNMENT TO AMEND THE PRESENT MARIJUANA LEGISLATION AMENDING THE ONTARIO GAME PROTECTION ACT, BY CHANGING THE MARIJUANA DIVIDEND FROM \$100 TO \$50 PER CENT.

Mr. Howland will ask whether it is the intention of the Government to provide for the temporary renewal of licenses in townships under the Local Option Act, pending the final decision of the Judicial Committee of the Privy Council on the validity of that Act.
No U.S. Vessel SAUK BY BRITAIN.
Washington, March 1.—The Nicaraguan Secretary Gresham just before the Cabinet meeting. He said that he placed no reliance on the Bluefields story concerning the alleged sinking of an American vessel by a British warship about three weeks ago. The minister and received advice from Home in the meantime, some of them from Bluefields in the last few days and all were of a peaceful character.

VALUABLE FURNITURE BY AUCTION.

A very large and valuable assortment of household furniture, carpets, pianos, mirrors, etc., will be sold this morning at 11 o'clock, at C. M. Henderson & Co.'s, No. 167 Yonge-street, near Queen-street.

COVERED WITH LIVER SPOTS.

Generations have suffered with liver spots over my back and chest. I took three bottles of the best medicine I could get and am now perfectly cured of Liver Complaint. I can truly say that I think it is the best medicine I ever discovered. 246 L. KITCHEN, Hamilton, Ont.

MCMASTER UNIVERSITY HEARD FROM AGAIN.

This Time It Is Mr. Malcolm S. Clark, B.A., Professor of Modern Languages and Literature. Let Clark in his own language, in clear-cut terms and over his own signature, tell of his experience with Dr. Agnew's Catarrhal Powder. This remedy has given me relief by opening up the nasal ducts and enabling me to breathe freely. The discharges are also less frequent. The powder is very easily applied to the parts affected, and is very pleasant to take. The fact that the medicine is so easy and pleasant to take will, at all events, secure for it a fair trial. I know of others who have used it and say it is good." Mr. Clark is the third member of the faculty of McMaster University who has had pleasure in recommending Dr. Agnew's Catarrhal Powder.

MOST PROMINENT SYMPTOMS OF HEART DISEASE AND HOW TO SECURE RELIEF.

The most pronounced symptoms of heart disease are palpitation or fluttering of the heart, shortness of breath, frequent waking at night, making it necessary to sit up in bed to breathe; swelling of feet of ankles, say the most eminent authorities, is one of the sure signs of a diseased heart. Nightmares is a common symptom, spells of dizziness or faintness, and nothing will give such perfect relief as so speedily effect a cure as Dr. Agnew's Catarrhal Powder. It is a powerful diuretic, and is said to have saved thousands of lives, and years may be counted among the number if it is used early. It is a powerful diuretic, and is said to have saved thousands of lives, and years may be counted among the number if it is used early. It is a powerful diuretic, and is said to have saved thousands of lives, and years may be counted among the number if it is used early.

RHEUMATISM RELIEVED IN SIX HOURS.

South American Rheumatic Cure Cures Rheumatism in Six Hours. Dose is Taken and Cures Ordinary Cases of Rheumatism and Neuralgia in From 1 to 3 Days.
What a Grateful Citizen of St. Lambert, Que., Has to Say.
For many months I have suffered the most excruciating pain from rheumatism and had despaired of getting permanent relief until I procured a bottle of South American Rheumatic Cure. I procured a bottle of the remedy and very soon received great benefit from the first few doses. In fact, within six hours after taking the first dose the pain and inflammation had subsided, and I was enabled to get up and move about. It is surely the best remedy of the kind I have ever known. I feel compelled to say that I have never again suffered from rheumatism. D. J. LOCKE, Sherbrooke, Que.

RELIEF COMES WITHIN SIX HOURS TO ALL WHO USE SOUTH AMERICAN RHEUMATIC CURE.

For three years I have suffered considerable pain and been much alarmed by what physicians called a complicated case of kidney and bladder disease. I was given \$100 for treatment, but never received marked relief until I procured a bottle of South American Rheumatic Cure. A few doses helped me wonderfully. I have now taken four bottles and consider myself completely cured. I feel compelled to say that I have never again suffered from this disease. D. J. LOCKE, Sherbrooke, Que.

KNIGHTS OF LABOR.

J. F. Browning, carpenter and joiner of Kingston, Ont., writes the following testimonial:
Gentlemen,—I was troubled with my kidneys for many years, and was compelled to arise four and five times a night to urinate. The pains in my back were terrible. I had used all kinds of doctors and pills to no relief. The doctors pronounced me incurable and advised me to go to Toronto Hospital, and I made up my mind to go, when I read your advertisement in the Toronto Evening News, which I took the meaning to be that if I was cured, I would have saved hundreds of dollars in doctors' bills. Very truly yours,
J. F. BROWNING,
Be Inquisitive and ask your neighbors about N. and L. Pills.

DIVIDENDS.

70TH DIVIDEND OF THE SHAREHOLDERS OF THE MOLSONS BANK.
Are hereby notified that the dividend of FORTY PER CENT. upon the capital stock has been declared for the Current Half Year, and that the same will be paid at the office of the Bank, in Montreal, and at the branches on and after the
FIRST DAY OF APRIL NEXT.
The tender books will be closed from the 15th to the 30th MARCH, both days inclusive. By order of the Board,
F. WOLFFERMAN THOMAS, General Manager, Montreal, 26th February, 1905.

TALMAGE'S TOUR ROUND THE WORLD.

Two thousand five hundred people listened with great interest to Rev. Dr. Talmage's lecture in Massey Hall last evening. Like the popular divine's sermons, it was replete with ornate descriptions, enlivened with anecdotes and sketches of 40,000 miles of travel. Australia, according to Talmage, is "the best country he has ever seen. He told the thrilling stories of the Lawrence massacre and the relief of Lucknow, described the glories of the Taj Mahal mausoleum at Agra and his visit to the family of the late Emperor of Russia.

DR. COWLING'S English Periodic Pills.

For menstruation. Most powerful female monthly regulator. The only reliable medicine. Contains nothing injurious to the system. On the contrary, they invigorate and strengthen. Price, 41, 33 per box by mail on receipt of price. Dr. J. B. King, W. G. p.

C.W.A. RACING AMENDMENTS

THE RIDERS WILL COMPETE IN CLASSES A AND B

Next Season—Opinions of the Leading Manufacturers and Wheelmen on the Proposed Changes—They All Agree that the C.W.A. and L.A.W. Legislation Must be Concurrent.

The proposed adoption of racing classes A and B is at present the most important question in cycling circles. The marked decrease last season in the attendance at Canadian meets emphasized the necessity for a change, and it was acknowledged on all hands that for the good of the sport matters could not be permitted to longer drift as they were.

When the L.A.W. inaugurated their two-class rule last season, conservative Canadian viewed it with alarm. We had better allow the Americans to do the experimenting in this thing. If it proves to be a success we can take it up next year," was the general consensus of opinion among C.W.A. members.

That deprived of what had before proved their big drawing card—the presence in competition with our cracks of Johnson, Sanger, Tyler et al.—the season of Canadian meet promoters fell wofully behind the mark of other years, and with the exception of the initial effort of the season, only one club, Montreal, came out with anything but a small balance on the right side of the ledger.

Under these circumstances, it is quite evident that the racing legislation between the L.A.W. and the C.W.A. must be concurrent, for as that veteran wheelman, Dr. Doolittle, remarked, "A sport must be international in its character to arouse the interest of the general public."

Under these circumstances it may be taken for granted that the C.W.A. will at its next Good Friday meeting stamp with its approval a proposal to establish Canadian classes A and B.

The following expressions of opinion among leading local wheelmen and manufacturers, gathered by a World representative, will prove interesting reading at this juncture.

George H. Orr, the coming C.W.A. Racing Board chairman, the father of last season's liberal amateur definition, and the man upon whose shoulders it will probably devolve to move the all-important amendment on Good Friday: "I was against the two-class rule last Good Friday, but I have changed my opinion since then."

Tom Fane, another old-timer: "I don't think that the change would benefit Canadian racing to any appreciable extent. Had the meet promoters put us in the prize, they could have brought teams of Class B riders over here last season so I can't see where there is a benefit in that cry."

had with us during the last three or four seasons? I mean to be successful in racing must train under the same conditions as those which exist when he is actually engaged in the race. The man in the trade, who has been able to go upon the track during the daytime and do his auditing work in the sun, have in this way been given a great advantage.

When it comes down to the day of the race the heat and sun do not bother them in the least, while the poor beggars who have been obliged to go their preliminary stunts in the cool of evening, are often knocked out by the conditions of bicycle racing.

Mr. Lee: Let them throw up their job; they are free people. Dr. Noble and Mr. Burns were deputed to make enquiries and report to the committee.

Mr. Butler offered a school site in Sherbourne-street for \$9000. Accounts aggregating \$321 were passed.

The special committee re ventilation of Lansdowne School reported that no funds were available for existing or impending expense on sanitary grounds.

Present: Messrs. Lee, Whitehead, Clarke, Burns, Noble, Hodgson and Baird.

TRANS-ATLANTIC TRAVEL. The Allan Company Preparing for the Summer Season.

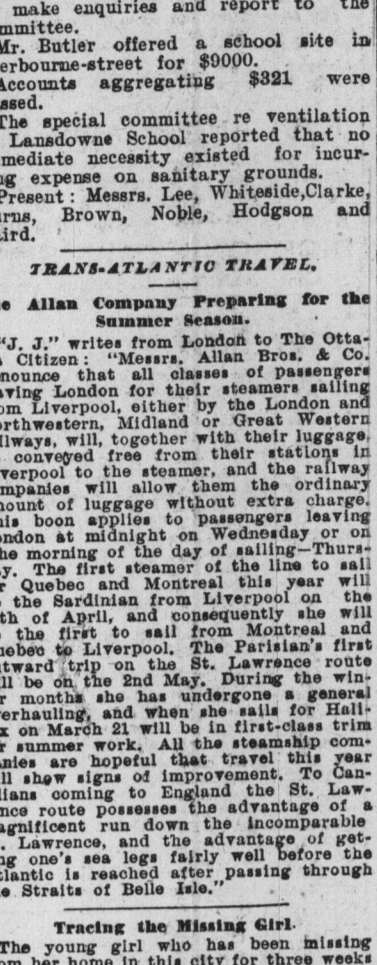

"J. J." writes from London to The Ottawa Citizen: Messrs. Allan Bros. & Co. announce that all classes of passengers leaving London for the West Indies and North America, will be conveyed via the London and North-Western, Midland or Great Western railways, will together with the ordinary passage down at low a notch as possible, and the passage of this measure will afford all organizations the opportunity to retrench.

REASON ALMOST LOST AT TIMES.

MENTAL AND PHYSICAL SUFFERING THE CAUSE.

Paine's Celery Compound Effects a Wonderful Cure For Mrs. Alfred Perry of Port Maitland, N.S.

Nervous prostration, sleeplessness, mental depression, despondency, general weakness and a run-down physical condition are troubles from which multitudes suffer.

Restoring to health and strength. Thousands have testified, and fresh testimony is pouring in every week. Mrs. Alfred Perry, wife of A. Perry, merchant and ship builder, gives important testimony as to the value of Paine's Celery Compound for nervous troubles and the results that flow from them.

These dreadful troubles respect neither sex, age, class nor rank; the victims are found at all times and in all places.

While it is a fact that thousands are laid out beds of suffering, it is also true that tens of thousands are barely able to drag along from day to day, being in such a half-dead state.

Soon—ah! too soon—will the ailing ones be numbered with those who are laid up from the sufferings, agonies and tortures that nervous diseases generate.

In the midst of present sufferings, gloom and despair, there shines a great and glorious light of hope, comfort and assurance. A curing agent that the world has lauded, praised and extolled—its life-saving and deliverer from disease and death—Paine's Celery Compound never fails in its mission of curing and relieving.
