

Watford Guide-Advocate

VOLUME XLIX, NO 34

WATFORD, ONTARIO, FRIDAY, AUGUST 31, 1923

\$2.00 PER YEAR IN ADVANCE
In United States \$2.50

LOCAL HAPPENINGS

Wheat 90c, oats 35c, eggs 22c, butter 30c.

Live hogs brought \$10.30 at Monday's shipment.

Next Monday is Labor Day and a statutory holiday.

A number of workmen are engaged on the renovation of the Presbyterian church.

The holidays are over and the lakeside sojourners are all home feeling much refreshed.

The painters are improving the appearance of many houses and other properties in town.

Ladies, our new coats are snappy, no two alike.—Swift's.

On account of the rush of business a fast delivery was placed on the town route on Saturday morning.

None but the brave deserve the fair and it is the plain duty of the brave young man to see that the fair visits the fair.

Dishes for Threshing—Call and see the special prices we have on all lines. A few dinner sets real cheap.—P. Dodds. a24-3t

A number of our citizens are attending the Canadian National Exhibition at Toronto this week and others intend going next week.

There will be morning service and a celebration of Holy Communion in Trinity church next Sunday at 11 o'clock. Evening service as usual.

The new Early Fall ready-to-wears are now in display in the Millinery Dept.—A. Brown & Co.

Holidays now being over, Rev. T. DeCourcy Rayner will preach in the Congl church next Sunday, and Rev. W. K. Hager to his own congregation in the Methodist church.

Screened in our vast snow swept Canadian Northland, Alice Brady's new picture "The Snow Bride" will have a special appeal. You will see some of the most thrilling climaxes ever screened, in this production.

The recent cool spell made people nervous. The Director of Meteorological service of Canada, however, assures them that there is nothing to warrant the prediction that there will be an early and severe winter.

Rev. Mathew Kelly, London, announces the engagement of his eldest daughter, Lilly Erland, to Dr. Robert M. Jones, Toronto, son of Mr. and Mrs. William Jones, Warwick, the marriage to take place quietly early in September.

New Dress Goods, new silks, new knitted garments, new gloves and hosiery.—A. Brown & Co.

You've never seen anything funnier or more exciting than Jack Holt's new comedy drama "A Gentleman of Leisure" all about an adventurous young club man who turns burglar on a wager and wins the bet and a beautiful girl to boot. Don't miss it at the Lyceum To-night.

The public school will reopen next Tuesday with the new principal Mr. Allan Doolittle in charge. There is no change in the lady teachers' staff. The High School teaching staff will be M. Cameron principal; W. O. Erb, Miss McCaw and Miss Logan, assistants.

Tomatoes must be plentiful in the Leamington district, as testified by the following advertisement in the Post and News: "Tomatoes for all, only 15c per basket to parties picking same and furnishing baskets. If you haven't the 15c come quick anyway."

Our Grocery Department is stocked with the best goods money can buy and you can always rely on them being fresh on account of our large turnover. Give us a trial order and be convinced for quality and price.—P. Dodds. a24-3t

Now is the time to boost Watford's Fall Fair. A membership ticket should be in the possession of everybody. It entitles you to exhibit as many articles as you wish and by adding to its exhibits you do the fair great good. Enthusiasm once generated is like the measles—infectious—and does much to spell out success. Help the directorate by doing things, as talking about it is not enough. A few live fellows on each concession line could soon awaken an interest in the agricultural societies not now manifest. Farmers' clubs, municipal councils, women's institutes, school trustees and wide awake business men should put their shoulder to the wheel and lift. No time to lose.

Boys' school caps 25c.—Swift's.

An original short story entitled "Jack Frost's Victory, from the pen of Annie Salisbury Newell, has been received and will be published when space permits.

The Post Office Department has issued orders that no posters, notices or advertising matter of any kind can be put up in post office buildings or in front of them. Local post office officials are required to see that these instructions are carried out and in case such is not done they leave themselves liable to be reported to the department.

Ladies' winter coats, Northway quality, new Marvellas, Duvetyns, Velours and Checkback, side ties, Tulip or Beaverine collars.—A. Brown & Co.

The renovation of Harper Bros' undertaking and show rooms is completed. A cement foundation has been placed under the building and an extension made for a workshop at the rear. The front will be used for an undertaking parlor and show room. With these additions, also a new roof and a coat of paint, the building makes quite an improved appearance, besides giving the firm more room for their ever extending business.

One hundred useful school requirements given away on Friday and Saturday.—Swift's.

Among the many improvements being made in residential property in town are those now undergoing at the home of Mr. Carl A. Class, Ontario street. The verandahs are being extended and placed on a cement block foundation, a new roof has been placed on the house and a spacious sleeping porch will be placed at the northwest corner of the building.

Boys' buttoned on the shoulder sweaters, bloomers to match, a special for school.—Swift's.

WARWICK

Miss Alma Williams, High River, Alta., is spending a month with her parents, second line, Plympton.

Mr. Lloyd Cook has purchased James Bros. general store business in Warwick Village and is now in possession.

Miss Carrie Fisher of Glanworth has been a guest at the house of Mr. T. F. Wordsworth, Main road, for the past week.

Mr. and Mrs. Reg. Heaton, Essex, and Mrs. Peter Fox, Kingsville, spent the weekend with Mr. and Mrs. R. R. Heaton, 6th line.

Miss Olive Leach has returned from Windsor where she spent a month visiting at the home of her brother, Clarence Leach.

Mr. and Mrs. Joseph Parker and Mr. and Mrs. W. E. Parker motored to Blyth this week and are spending a few days with Rev. A. C. and Mrs. Tiffin.

Mr. and Mrs. A. W. Foster, Detroit, who have been visiting W. E. Parker at Wisbeach, returned to their home on Tuesday accompanied by Ivan Parker, who will spend the remainder of the holidays in Detroit and Leamington.

The anniversary services of Bethel Methodist church will be held next Sunday, Sept. 2nd. Rev. R. R. Hoskings, of London, a former pastor, will conduct the services at 10.30 and 7.30. Special music is being prepared by the choir. No Sunday School.

The regular meeting of the Warwick W. I. was held in the Town Hall Warwick on August 9th. The meeting was opened by singing the Maple Leaf followed by repeating the Lord's Prayer. Mrs. J. Thompson gave a very interesting paper, the subject of which was "Furnishing a Farm Home on Moderate Means." Arrangements for School Fair were made. The next regular meeting will be held on Thursday evening, Sept. 13th. Roll call is to be answered by "Best book I have ever read."

Mr. George Richardson, lot 21, con. 2, N. E. R. suffered a severe loss on Friday afternoon when his large barn and entire season's crops were consumed by fire. Threshing was in progress at the time, and the fire was started by sparks from the engine. In an incredibly short space of time the building was saved. Thirty flames and little was saved. Thirty tons of hay and a thousand bushels of oats, the season's wheat crop, gas engine, cutting box, fanning mill, harness and a quantity of lumber were among the goods consumed, also the family dog. Mr. Richardson's loss is a heavy one and the sympathy of the community is extended to him. The building was partially insured.

PERSONAL

Velma Parker is visiting her friend Margaret Edwards.

Miss Sarah Mavity is visiting her sister, Mrs. Carl A. Class.

Mr. D. Watt is spending his holidays this week in Detroit.

Mr. Dugald McPhail, is the new drug clerk at J. W. McLaren's.

Donald Vail is holidaying in Cope-town, Hamilton and Toronto.

Miss Jennie Hayward is spending the week in Wyoming and Sarnia.

Mrs. J. H. Kinder, Strathroy, spent Sunday with friends in town.

Mr. and Mrs. C. H. Nesbit, London, spent Sunday at Nelson Hawn's.

Miss R. J. Burley, London, is spending the week with Miss Nellie Hawn.

Reg. Roche, Forest, spent the weekend with his cousins at the Roche House.

Carl A. Class Jr., returned home after holidaying at Ypsilanti, Windsor and Kingsville.

Mrs. F. A. MacLean is in Guelph attending the wedding of her friend Miss M. E. Fritz.

Mrs. (Dr.) Brandon and son, Melville, Sask., was the guest of Mrs. (Dr.) Newell last week.

Rev. A. A. Barnes and family of Fairbank, Toronto, visited at Mrs. C. Hayward's last week.

Mrs. R. Dupe and children, Gladys and Clayton are visiting their cousins, Mr. and Mrs. W. Edwards.

Mr. Wm. Skinner, of the Keith Concert Circuit, New York, spent the weekend with Mr. Harold Roche.

Mr. James Williamson, Toronto, called on relatives and old friends in Watford and Warwick last week.

Mr. and Mrs. D. A. Maxwell and Mr. George Mitchell motored to Goderich Sunday to visit relatives.

Mrs. Thos. Beckton, Pt. Huron, and daughter, and Mrs. Jas. Erstine, Mt. Clemens, spent the weekend with Mrs. T. Roche.

Miss Cameron returned last week from Windsor where she has been spending several months with her brother, Mr. Alex. Cameron.

Miss M. Raines, Listowel, head milliner for E. A. Brown, is here for the millinery season and is now engaged on fall hat creations.

Mr. F. H. McKenzie, Regina, a former merchant of Watford, doing business under the name of McKenzie & Petch, was a guest at the Roche House this week.

Mr. and Mrs. Carl Class and son Carl A., and Miss Mavity, left by auto on Sunday for Floradale, Waterloo county to spend a few days at Mr. Class' old home.

Mr. Ephraim Willoughby, Port Huron, was here this week to see his brother, Mr. W. G. Willoughby, who has been on the sick list for some days.

Mr. and Mrs. Wm. Johnstone of Acton; Mrs. L. S. Cockburn and daughter, Constance, of Trenton, Mich., have been guests of Mrs. F. A. MacLean at Hillsboro Beach.

Mrs. R. Clark and granddaughter Margaret, arrived home Monday after visiting friends and a number of relatives in Brantford, Middleport and Caledonia, along Grand River.

Dr. C. L. and Mrs. Wallace, Woodstock; Mr. Tom Davidson, Cobourg, and Mr. Robert Conkey, Adelaide, spent Thursday of last week with Mrs. W. H. Rogers and Mrs. R. A. McIntosh.

Mrs. W. E. Fitzgerald went to Meaford on Wednesday to attend the funeral of the child of her nephew, Norque Young, killed in an automobile accident near Goderich on Tuesday on the way to visit Mrs. Fitzgerald here.

Mrs. Arthur Owens removed to Sarnia this week to join her husband who has been working there for some time. Mr. and Mrs. Owens have been residents of Watford for some years, and their many friends here are sorry to lose them.

Dr. E. Kenward, wife and family returned to their home in Lacom, Ill., on Friday, accompanied by Mrs. F. Kenward, the doctor's mother, who will spend the winter with them in Lacom and with her son Dr. Charles F. at Gary, Indiana.

Mrs. J. L. Brown and baby Marian of Sarnia, who have been holidaying at the home of Mr. and Mrs. J. D. Brown, Simcoe street, and with other relatives in this vicinity returned home on Sunday with Mr. J. L. Brown who spent the weekend at the home of his parents, Mr. and Mrs. J. D. Brown.

McLEAN—McLEAN

The marriage of Miss Annie McLean, of Kerwood, to William Loftus McLean, was solemnized at the manse in Napier on Wednesday, Aug. 22nd, at two o'clock by Rev. Macintosh. Mrs. Paul Sullivan attended the bride and the groom was supported by Mr. Sullivan. After a short honeymoon the young couple will reside on the groom's farm near Watford.

LUCAS—EDGAR

A quiet wedding was solemnized at the Brooke Methodist Parsonage, Watford, on Wednesday, August 22, when Charlotte Laverna Edgar, daughter of Mr. John Edgar, Brooke, was united in marriage to Sterling Hector Lucas, son of Mr. and Mrs. T. H. Lucas, Sutorville.

Mr. and Mrs. Lucas left by motor for Hamilton, Toronto and Niagara Falls, the bride travelling in a navy tricotine suit, gray hat and minichoker. On their return they will reside in Watford.

BROOKE

Mr. and Mrs. H. W. Hill of St. Petersburg, Florida, spent last week with his cousins, Mrs. John Bryce and Mrs. Lance Coristine.

Mr. and Mrs. Chas. Peaslee and family of Medicine Hat, have returned home after visiting with the former's parents in Brooke.

Mrs. Ches. Coristine and daughter Marjorie, Warwick and Mrs. Lance Coristine and son, Alex., Brooke, spent the weekend in Detroit visiting their brother-in-law, Dill Coristine and family.

The monthly evening service will be held in Chalmers church on Sunday, Sept. 1st, at 8 p.m. Usual service in the morning at 11 a.m. Preacher at both services the Rev. Wm. Mackintosh, B.D.

On Friday evening, Sept. 7th, a special rally will be held in Chalmers church in connection with the adult and missionary departments of the Sunday school work of the Township of Brooke.

AUTO WRECKED AND CHILD LOSES LIFE

Party on Way to Watford to Visit Relatives

Goderich, Ont., Aug. 28.—A fatality occurred this afternoon on the Bayfield Road, about five miles from town, when the 18 months' old child of Mr. and Mrs. Norque Young, of Meaford, lost its life.

The party had been visiting relatives in town and while on their way to Watford a bee lighted on the child's neck. The mother cried out and Mr. Young in the endeavor to knock the bee off, lost control of the car and it went into the ditch. The child died in a few minutes, while the parents escaped without injuries. The body was taken to Meaford to-night.

Mr. Young is a nephew of Mrs. W. E. Fitzgerald of Watford and he and his wife were on their way here to spend a few days when the accident occurred.

BORN

In Warwick on Sunday, Aug. 12th, 1923, to Mr. and Mrs. R. E. McGillicuddy, a son.

In Warwick, on Tuesday, Aug. 21st, 1923, to Mr. and Mrs. N. B. Morgan, a daughter.

In Plympton, on Saturday, Aug. 11, 1923, to Mr. and Mrs. John Burnley, a son.

In Bosanquet, on Monday, Aug. 20th, 1923, to Mr. and Mrs. Arthur Doan, a son.

In Bosanquet, on Thursday, Aug. 16, 1923, to Mr. and Mrs. Bruce Lithgow, a daughter—Ruth Aileen.

DIED

In Petrolea, on Friday, Aug. 17th, Margaret, beloved wife of Alfred Gilroy, formerly Mrs. Rounding of Arkona. Interment at Arkona cemetery on Sunday, Aug. 19th.

In London, on Friday, Aug. 10th, 1923, Frances Rawlings, beloved wife of William Porter, of Bosanquet, aged 56 years.

In Plympton, on Sunday, Aug. 5th, 1923, Miss Elizabeth Steven, aged 68 years.

Cuba, in addition to sending a large display of her natural products to the Canadian National Exhibition has also despatched a gun boat which will be anchored throughout the entire period of the Fair off the Exhibition and will be open to inspection by Exhibition crowds.

CHOP STUFF

Mrs. A. Burnham has received the appointment as the new postmistress of the department's office at Sombra, succeeding the late John McKillican.

In Listowel the stores are compelled to close their doors at eleven o'clock on Saturday nights by a by-law passed at a recent meeting of that town's council.

Neil G. Blue, of Dunwich, dropped dead when going to milk the cows on Thursday. He was in his usual health and attended the Old Boys' picnic at New Glasgow the day before.

Miss Langford of Thamesville has accepted a position in the London postoffice and will be the only woman among 100 men employed in the office.

John Duncan McKellar of Dunwich died in a London hospital recently after eight weeks' suffering from blood poisoning which developed from a slight scratch on his hand.

Fred G. Smith of Sarnia who was badly scalded by water from the radiator of his car on the night of Aug. 6th, on the fourth line of Sarnia township, died at his home Wednesday night from the effects of the injuries.

Clayton Graham of Wanstead, who was painfully injured when a dynamite cap exploded, causing severe wounds in the abdomen is reported as making good progress at the Petrolea hospital. At first little hopes were held for his recovery, but the doctors now report he is doing nicely.

Freight and express service by airplane will be started between Detroit and Cleveland by the International Airways Co., about Sept. 1st, L. B. Lent, president of the company announced. The company will put three Junker planes fitted with pontoons into the Detroit-Cleveland service and hopes to make at least four round trips daily.

Word was received at Sombra by cable from Georgetown, British Guiana, Saturday, of the death of Laverne Stokes, civil engineer, aged 26, son of Wm. R. Stokes, farmer, Sombra, and one of the party of 12 Canadians who went on an expedition in June last to penetrate the interior fastnesses of British Guiana in search of diamonds.

At Campbellton a turkey buzzard which has been a pest to the neighborhood for the past two summers, was trapped by George Percival on the farm of Daniel Erskine a few days ago. It was a very large bird, standing three feet high and measuring six feet four inches from tip to tip.

Jack Taylor, 8-year-old grandson of Mr. and Mrs. A. J. Davies, Leamington, while riding a bicycle Friday evening at the Russel street curve was struck by a car driven by R. H. Lamarch and injured. The boy was immediately picked up by Mr. Lamarch and conveyed to a physician's office where it was found that his left shoulder blade was broken.

When Peter Campbell, of Beechwood, was returning from church on Sunday last, the auto he was driving was seen to stop, and when people who were near went to see what the trouble was, they found him unconscious, and within half an hour he was dead. Mr. Campbell had been troubled with a weak heart, and this was probably the cause of death.

Mr. William L. Kelly, of Camden township, suffered two broken ribs and other injuries last Friday when the buggy in which he was riding was struck and demolished by an automobile at the corner of the base line and the twelfth concession of Camden. Mr. Kelly was driving towards his home when the auto turned the corner and crashed into him. He was thrown several feet.

A bad accident took place on the West Bothwell road when the car owned by Mr. John McRoberts crashed into Mayor Thos. Haller's car. Miss Mary McRoberts was thrown through the windshield and rendered unconscious. She received bad cuts on the arms and face that required several stitches. The McRoberts car was completely smashed and the Haller car had a broken fender and other damages.

The well drilled on the townline of Warwick and Plympton townships by Messrs. Alex. Calvert and A. Brownlee was shot last week with forty quarts of glycerine at a depth of forty feet. On the following morning it showed 300 feet of oil and water and Mr. Calvert reports having taken out three barrels of oil by bailing. The capital was furnished by the Canadian Dutch Oil Co., which has 8,000 acres leased in that section.

FRIDAY, AUGUST 31, 1923

NOTE AND COMMENT

Stratford Beacon.—Henry Ford is said to have a plan for burning coal twice. A good many people will probably consider themselves lucky this winter if they have the opportunity of burning coal once.

A gasoline substitute, made from prickly pear juice and mixed with other chemicals, has shown remarkable results. It is known as "spring hok", motor spirit, and is made in South Africa.

There are 80 permanent buildings and over 300 temporary structures at Fair time in Exhibition City, Toronto. Area of Exhibition City, Canadian National Exhibition, Toronto, is 300 acres. There is about one mile of waterfront.

There is evidenced in some of our exchanges a strong feeling in favor of return of our funeral customs in the direction of simplicity and economy. In general funerals are needlessly ornate and expensive but it is difficult to tell where to draw the line.

Mankato, Minn., Free Press, July 18, 1923.—The International Harvester company is facing another legal battle brought on by the government. This time the Harvester company is being drawn through a judicial knot-hole because it reduced the price of its wares for the benefit of the farmer.

Under the new Highway Traffic Act, which does not go into force until the new year, a spotlight when used must be fixed to the left-hand side of the vehicle, so that the direct beam of projected light strikes the extreme right hand side of the travelled portion of the highway, not more than seventy-five feet in front of the vehicle, except in case of emergency such as backing in the dark and illuminating road signs, tortuous trails, unknown turns, etc.

Carleton Place Herald.—Too often we neglect to give proper credit and commendation to the faithful ministers of our community. We seem to think they are receiving their reward and many times do we allow them to go through life with very few words of praise and appreciation for the splendid work the preachers are doing. They go about their pastoral work in a quiet manner, visiting the sick, burying the dead and speaking words of encouragement and consolation to the broken-hearted.

Prof. H. Borchman of Dunkeld received a letter from Germany the other day with a 1200 mark stamp on the envelope. Before the war this amount of money would have passed for \$300 in our currency and would have kept a German working man's family the best part of a year. Today German money is so depreciated that what was formerly a snug fortune wouldn't buy an ice cream cone in this country.—Walkerton Telescope.

An amalgamation of the Bank of Hamilton with the Bank of Commerce has been effected. The Bank of Commerce takes over the assets and liabilities of the Bank of Hamilton and the latter passes out of existence after a career of over fifty years. The president of the Bank of Hamilton assures the public and shareholders that the amalgamation is satisfactory from any point of view as the combined banks will have a capital of twenty million and a reserve of an equal amount.

Border Cities Star.—The time for selling a man in a foreign country a steamship ticket and then forgetting about him or ignoring him when he arrives is gone; that is, if we expect to fill our empty acres by means of desirable immigrants. Competition with our sister Dominions is altogether too keen, and the reputation of the United States as a land of opportunity occupies too prominent a place in the imagination for Canada to expect to gain immigrants without work. Nor can it be accomplished without Provincial aid.

Russia and England have commenced to wrangle over Wrangel Island.

Johannesburg Times, S. Africa.—You may tear the German state limb from limb. But what are you going to do with the 100,000,000 German people of twenty or thirty years hence? And suppose they ally themselves with 150,000,000 Russians to overthrow the despotism of western Europe? If one thinks only of today, then by all means seize German land and ruin German industries regardless of national feelings. But if one has any thought at all of the state of Europe ten, twenty or thirty years hence one cannot back methods which must inevitably lead to further and still more awful wars, and perhaps to the destruction of civilization in Europe.

"The efficiency of a public official depends to a great extent upon his knowledge of municipal affairs or his ability to acquire that knowledge easily and quickly. A public official is called upon to make decisions regarding a wide variety of public questions. Perhaps no executive of any private business is required to make decisions on such a wide variety of subjects as are municipal officials. The most pressing need, therefore, of every conscientious public official is information. The plan which has been most widely adopted in the United States for supplying this basic need of information, is through the organization of leagues of municipalities. The object of the leagues are to study the needs of the municipalities and to promote the application of the best methods in all branches of municipal service; to secure legislation that will promote their interests and oppose legislation which is deemed injurious; to hold conferences at which views and experiences may be exchanged."—The Municipal World.

Slats' Diary

By Ross Farquhar

Friday—I dont think pa would make a very good skool teacher because he is so poor at exclaiming things which you ast him to tell you when you dont no nothing about it. Like for instant today I ast him to tell me what constituted trow politeness in a man and he sed A polite man is a man witch lissens with interest to things he new all about when they are told him by a nother man witch dussent no nothing about them. (Witch I dont see no sents to same.

Saturday—Ma was reading in the noosepaper about a Indian way up in the north witch got hard up and traided his wife for a hores. Ma sed to pa as she smiled laffingly. Wood you trade yure little wifey for a horse deer. Pa was bizz reading the sport news and he replied and sed. Why hores is all out of date he sed. That's all but ma seemed to get sore ennyhow.

Sunday—Walks home from Sunday skool with Jane and in the course of the conversashun I says. Witch boy does she like best in are Sunday skool and she sed Why I like them all awfully well. The trouble with the wimmen is that they really like us men but its terrible hard to get them to admit up to it sum times.

Monday—ma got a letter from her brother witch is camping up in vermont and he sed the other nite they dissided to have sum fudge after they had retired and his wife got up and made fudge in her moccasins. Pa sed he woodent of cared for enny.

Tuesday—I am in the secret service now. I gess you wood call it that ennyways. Pa told me what he is a going to get ma for her wedding anniversary, and ma told me what she is gitting pa for his wedding anniversary. & I will ketch it if I tell enny one. Both anniversary falls on the same day this yr.

Wednesday—Cant rite much in the old diry tonite as I have been in bed with grapes and plums all day. And a few green Apples et cetera.

Thursday—Mrs. Hayes is in deep morning for her husband since he died. She wont wear nothing but black close and all she canned up this year was Blackberrys and she dussent play ennything on the pi-anna but the black keys on it.

Asthma Victims.—The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of chocking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

ITEMS FROM FAR AND NEAR

Some Wise, Some Otherwise—Some Newswy, All Readable.

Owners of cafes in Chatham have been ordered to eliminate flies from their establishments or they will be liable to prosecution.

It is stated that Aylmer is shortly to receive a decided decrease in hydroelectric rates. For domestic use the rates will probably be reduced from 4 cents to 3 cents, and commercial rates from 10 cents to 6 cents per kilowatt hour.

A new hotel in California is equipped with automatic sprinklers. As assurance to its patrons, a card bearing the following verse has been placed in each room: When you lie down for restful sleep, Sprinkler heads their vigils keep; If fire comes, don't be concerned, You may get wet, but you can't get burned.

A Model Farm Kitchen will be one of the features of the Women's Building at the Canadian National Exhibition. Women visitors to the Canadian National Exhibition will be particularly interested in the demonstrations of various kinds which will take place daily from 11 to 12 in the morning, 2 to 4 in the afternoon and from 7.30 to 8.30 in the evenings, each day.

Thousands of farmers in the United States will go bankrupt with wheat selling at considerably less than cost of production, according to the statement of Secretary Wallace of the United States Dept. of Agriculture, while thousands of others will be able to hold on only by the most grinding economy. Further more he says, if the present plane of prices of commodities other than agriculture is to be maintained then to have general prosperity prices of farm products must be increased.

Three weeks ago eight motorists were summoned at Simcoe for passing a funeral procession with their motor cars. Seven paid without question, but the eighth turned his case over to the Motor League and the case was dismissed. The defense pointed out that the clause covering the alleged infraction formerly required a motorist to stop his motor either on meeting or overtaking a funeral procession. Now, however, the clause refers only to meeting and says nothing of overtaking.

Dr. J. C. Lawson, of Los Angeles, made the prediction that the world is not far away from the time when the doctors will be teachers of health instead of doctors of disease. He contends that disease was not an entity, but an abnormal condition. Fear and pessimism in civic and physical life were destructive and had to be overcome by their opposites—optimism and knowledge. When people knew what health was and how it could be maintained, there would be no need for fear. He instanced the various conceptions of disease and how they all had one common cure.

The story recently was told, according to the Monetary Times of a man who started over sixteen years ago to save every dime that came into his possession. He had made no effort to get an extra number of dimes, but took what came to him in the way of change. How much do you suppose he has saved in the sixteen years? You will be surprised to learn that the saving amounted to \$16,000. If you don't feel rich enough to start saving nickles, or if five cents at a time is too much why not try pennies. If you make an iron-clad rule not to spend your pennies, or nickles, your dimes or quarters, you will have a large savings account before you know it.

When one says Greater London spreads over 700 square miles and contains a population of 7 1/2 millions that does not perhaps convey much. Other figures must be added to emphasize the size of the world's metropolis. Within a radius of 20 miles, for instance, from Charing Cross, the centre of London, lives one-sixth of the total population of Great Britain. On London buses are carried each year 800,000,000 people, or nearly 2 1/2 millions each day. In addition, on the trams in Greater London ride 995,000,000 each year, and on the tubes 700,000,000 exclusive of suburban traffic. These are the figures of the House of Commons Select Committee on London traffic. They give some idea of the traffic problems of London. Yet there is no other place in the world where traffic proceeds so smoothly.

Corns are painful growths. Holloway's Corn Remover will remove them.

GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaints of that season, which are infantum, colic, diarrhoea and dysentery come on so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to banish them. No other medicine is of such aid to mothers during hot weather as Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

DECISIONS RESPECTING NEWSPAPERS

Any person who takes a paper regularly from the post office, whether addressed in his name or another's or whether he has subscribed or not, is responsible for payment.

If a person orders his paper discontinued he must pay all arrears, or the publisher may continue to send it until payment is made, and then collect the whole amount whether the paper is taken or not.

The courts have decided that refusing to take newspapers or periodicals from the post office, or removing and having them unpaid, is prima facie evidence of intention of fraud.

RHEUMATIC SUFFERERS

May Obtain Relief by Enriching the Blood Supply

In the days of our fathers and grandfathers, rheumatism was thought to be the unavoidable penalty of middle life and old age. Almost every elderly person had rheumatism as well as many young people. It was thought that rheumatism was the mere effect of exposure to cold and damp, and it was treated with liniments and hot applications, which sometimes gave temporary relief, but did not remove the trouble. In these days there were many cripples. Now medical science understands that rheumatism is a disease of the blood, and that with good, rich red blood any man or woman of any age can defy rheumatism. There are many elderly people who have never felt a twinge of rheumatism, and many who have conquered it by simply keeping their blood rich and pure. The blood enriching qualities of Dr. Williams' Pink Pills is becoming every year more widely known, and the more general use of these pills has robbed rheumatism of its terrors. At the first sign of poor blood, which is shown by loss of appetite, dull skin, dim eyes, protect yourself against further ravages of disease by taking Dr. Williams' Pink Pills. They have helped thousands—if you give them a fair trial they will not disappoint you.

You can get these pills through any dealer in medicine or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Asthma No Longer Dreaded. The dread of renewed attacks from asthma has no hold upon those who have learned to rely upon Dr. J. D. Kellogg's Asthma Remedy. So safe do they feel that complete reliance is placed on this true specific with the certainty that it will always do all that its makers claim. If you have not yet learned how safe you are with this preparation at hand get it today and know for yourself.

THE CALL OF GEORGIAN BAY

Georgian Bay— that gleaming stretch of Lake's Huron's waters, dotted with 30,000 islands of all shapes and sizes, is one of the most delightful and popular of Canada's summer playgrounds.

It is so beautiful and there is so much to do—canoeing, bathing, fishing, yachting—all these delights await the lover of the water. On land there are sports plenty—tennis, golfing, lawn bowling, picnicking and dancing for those on pleasure bent and for those who are weary of the gay social whirl there are hundreds of alluring trails over wooded heights and camping grounds where primitive pleasures restore the jaded spirits of the city dweller.

The shoreline of the Bay is dotted with resorts to suit every taste. The breezes from across the broad expanse of Lake Huron are always cool and invigorating, and the waters here abound in black bass, maskinonge, salmon trout and other fish. Hotel accommodation is good.

All the chief points on Georgian Bay are reached by Canadian National Railways and descriptive booklet may be procured free from any of their agents.

Ford

Do you desire a Ford Car or Truck?

If you have not the full cash price, would you like to have the use of the car while you are paying for it?

To those who desire to purchase a Ford Car or Truck and cannot completely pay for it at once, we are able to quote the following terms:

Down Payment consists of:—

For a Runabout (Non-Starter).....\$ 142.62	Balance of \$	\$ 361	in 12 equal payments
For a Runabout (Starter Equipped)..\$ 168.85	"	\$ 429	" " "
For a Touring Car (Non-Starter).....\$ 155.55	"	\$ 392	" " "
For a Touring Car (Starter Equipped)\$ 199.77	"	\$ 445	" " "
For a Truck (Non-Starter).....\$ 190.15	"	\$ 400	" " "
For a Truck (Starter Equipped).....\$ 218.10	"	\$ 465	" " "
For a Coupe.....\$ 240.84	"	\$ 590	" " "
For a Sedan.....\$ 282.42	"	\$ 650	" " "

This deferred payment price, the amount of the down payment and all the terms of the transaction have the approval of the Ford Motor Company of Canada, Limited, so that those who buy Ford products on deferred payments may have the protection of a standard deferred payment price throughout all of Canada in the same manner as those who buy Ford Products for full cash.

The low price is possible because the Traders Finance Corporation, Limited, who finance the transactions extend this financing opportunity only to Ford Dealers and only on Ford Cars.

WAT-FORD GARAGE

R. MÖRNINGSTAR WATFORD, ONTARIO

FORD MOTOR COMPANY OF CANADA, LIMITED, FORD, ONTARIO

What's YOUR Money Worth?

RUSSIAN ROUBLE used to be worth more than fifty cents. Today, you can buy tens of thousands of them for one perfectly good Canadian dollar.

The value of a coin is determined by its purchasing power. If you can make a dollar worker harder for you than it will for your neighbor, your money is worth more than his.

There's one sure way to get the most for your money. — Read the advertisements and know what you want before you buy.

The advertisements will tell you what is new and good. They will give you the latest ideas and improvements in the very things that concern you most in life. They will help you live better, eat better, sleep better and dress better at less cost.

You will be surprised at the world of interest and the wealth of new ideas you will find in reading through the advertisements in your local paper—"The Guide-Advocate."

From week to week you will find several of the most progressive of Watford merchants featuring new goods received into stock that they want to sell you at a right price—and in the majority of instances you will find that those prices will stand comparison anywhere.

When you see an article in a Mail Order catalogue you require see one of Watford's merchants and get his price before you send your money away. Nine times out of ten you can get it from him at practically the same price and in some instances, by watching the advertising columns closely, you'll get it for less money

GET THE MOST OUT OF YOUR MONEY BY READING THE ADVERTISEMENTS.

WANSTEAD FARMERS' CLUB FIELD DAY

The third annual Field Day of the Wanstead Farmers' Club was held on Mr. Simpson's farm on Wednesday afternoon last, and was a decided success, considering the weather was not as favorable as it might have been. The attendance was not quite as large as last year but all sporting events were keenly contested. The basketball game between the sixth line Warwick, and eighth line Enniskillen teams resulted in a victory for the eighth line girls. The score being 22-11 and the prize \$5.00 and \$3.00. G. A. Dewar was referee. The baseball game between Enniskillen and Wanstead also resulted in favor of Enniskillen. The score being 11-8 and the prize \$9.00 and \$5.00. W. Claypole umpired the game to the satisfaction of all.

In putting the shot R. Garside took first place and J. Dougall second, while in pole vaulting Geo. Dewar and Cecil McCormick tied.

The result of the races was as follows:

Boys, 8 to 10 years—1st, Melvin Nealy, 2nd Howard Crabb, 3rd F. Johnson.

Girls, 8 to 10 years—1st M. Ferguson, 2nd M. Williamson, 3rd, V. Claypole.

Boys, 10 to 12 years—O. Williams, M. Nealy, G. McLean.

Girls, 10 to 12 years—M. Ferguson, A. Lacy, A. Hayward.

Boys, 12 to 15 years—Chas. Johnston, G. Shivers, H. Hoskins.

Girls, 12 to 15 years—Irene Jardine, M. McPhedran, O. Lacy.

Young men's race—R. Garside, A. McEwen, G. Claypole.

Young ladies' race—Irene Jardine, Agnes Kerr, Elma Freer.

Married men's race—Russell Jay, Noble Syer, E. Johnston.

Married women's race—Mrs. Russell, Mrs. A. Williamson, Mrs. Simpson.

Sack race, 25 yards—A. Simpson, H. Hoskins, S. Graham.

Potato race—Noble Syer, Stanley Jackson, H. Hoskins.

Among those from a distance who attended the Field Day were noticed Mr. and Mrs. A. Nesbit and family, Mr. and Mrs. D. Napper and family, Mr. and Mrs. G. Armstrong and family, Mr. and Mrs. Chas. Caughlin and Mr. W. H. Lawson and Mrs. G. W. Lawson and family, all of Sarnia, and Mr and Mrs. A. Spearman, Forest.

Miss Ruby Ramsay, Sarnia, spent over Sunday at her home here.

FOREST

Gerald, the young son of Dr. and Mrs. Geo. Fuller had one of his fingers nearly severed by getting his hand caught in the door of the auto.

Mr. and Mrs. Robt. Taylor of Watford, are visiting at the home of their brother-in-law, Duncan Campbell, McHenry street.

Mr. and Mrs. Clark have returned from Chicago and spent a few days visiting their son, W. B. Clarke of Sarnia. They are now visiting with their daughter, Mrs. R. B. Crosbie. Mr. Jack Bowen of Chicago, a grandson accompanied them to Forest for a visit with his aunt, Mrs. Crosbie.

Dr. J. P. Hubbard, sr., went to Toronto Wednesday morning, and will proceed to New York, and sail from there to Veracruz, Mexico. He will spend five weeks in Mexico, and expects to return early in October. Dr. J. P. Hubbard, jr., is here and will take charge of his father's practice during the latter's absence.

Frank Barnes, operator on the T. & N.O.R., at New Liskeard, is spending two weeks' vacation here with his parents, Mr. and Mrs. A. Barnes and family.

Two cars were wrecked and Mrs. Kenneth Porter, of Forest, had her arm injured so badly as to necessitate her transfer to the Brantford General Hospital in an auto crash near Brantford on Friday.

PETROLEA

Mrs. J. Fielding and son, Reginald, and daughter, Mrs. Nickel, and two children of Chicago, are visiting the former's brother, Mr. David Aiken, Maud street.

But four pupils were successful in passing the honor matriculation examinations from the Petrolea High School. This was the disappointing statement issued by Principal McKickan. Those who were successful are Park Steadman, Helen Monds, Cecelia Isber of Petrolea and Marion Stinson of Wyoming.

The 19th annual Labor Day Bowling Tournament will be held in Petrolea on September 3rd. The Armstrong and Waddell Trophies will be the big prize, the former having been won by R. S. Jackson in 1921, and last year by George Laing of Ridgetown.

The former Noble home, which withstood the ravages of time for fifty years is no more, it having been wrecked and the material sold. On the site where it stood is a well-leveled lawn, which will make a splendid addition to Dr. Fairbanks' already attractive lawns and gardens.

ALGONQUIN PARK

A summer wonderland two thousand feet above sea level embracing 2721 square miles of cool green forests, hundreds of gleaming lakes and a labyrinth of winding streams—this is Algonquin Park.

It is a favorite rendezvous of the angler and canoeist and you can cruise in a canoe throughout the entire district without a guide and find no particular difficulties.

The clear cold lakes are literally alive with fish—brook trout, salmon trout, gray trout and black bass.

Highland Inn—overlooking beautiful Cache Lake offers excellent accommodation to lovers of the wilderness who would enjoy all the comforts that good service and social companionship can bring. There are also delightful log cabin camps for those desiring to live even closer to nature. Both camp "Minnesing" and "Nominigan" consist of a large central lodge surrounded by a series of log cabins, all built of cedar logs with the bark on, chinked with cement and moss, and in perfect harmony with their natural surroundings, while for those desiring to camp on their own there are hundreds of ideal camp sites.

Ask Canadian National Agents for illustrated folder.

ANCIENT INDIAN VILLAGE

For many years it has been established that Indian villages of bygone ages had been located on what are now known as the farms of Ray Lawson and George McComb, in London township, along the Sarnia road, and at various periods excavations have been made and many interesting Indian relics uncovered. A well-known archaeologist, W. J. Wintenberg, of Ottawa, has now become interested, and has arrived in London to continue the excavations and make a report on behalf of the Victoria Memorial Museum of Ottawa, with which he is associated.

The evidence thus far uncovered leads to the belief that the villages were occupied about 400 years ago, and that the inhabitants were wiped out in some tribal war. The Indians used a sort of crude stove made of clay bricks, and in several cases remains of charred corn have been found in them. Weapons and implements used to cultivate the earth have also been discovered.

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest and if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

The Navoo Road and the Mormons
458 S. 5th West Provo,
Aug. 22nd, 1923

Guide-Advocate Editor:

Dear Sir,—
In your last issue that reached me with James Craig's account of the naming of the "Navoo Road" made me smile at the firmness of his expressions regarding Mormon history—he is correct in regard to the efforts of Elder Jno. Barrowman, the Gardeners and Parks are here, whose fathers were converted by John Barrowman—and who came through the Navoo Road in 1846, and then on to Utah in 1847 being pioneers of this once desert land.

I have played checkers by the fire light in my little log house with that same John Barrowman long years ago, he was Justice of the Peace at Nephi for many years,—have sent the James Craig statement to John's daughter, who now resides at Nephi, some 90 miles south of Salt Lake City.

Brother Craig, is like others, has very little good to say of my Mormons. I have lived here in Provo since 1856, a boy from London; watched then with a jealous eye for inquiry among the leaders of the People and now after an intimacy with President Brigham Young and close association with the leaders of our People, I know them to be good honest men, seeking to benefit their fellows by the great practical wisdom they possessed in every way.

I enclose with the Desert News half page our "Liahona" published at Independence, Mo., containing our Articles of Faith, written by Joseph Smith to a lawyer offhand in a letter in answer to the lawyer's inquiries. Publish these Articles in your paper, and it please you, with such comments that may not offend your gentle readers. Interested in Watford on account of my good wife having been born there.

Respectfully,

Albert Jones.

[The Liahona mentioned in last paragraph can be seen at this office by anyone interested.—Editor.]

IN AN OFFICE SHOULD ATTEND AS SOON
AS POSSIBLE.

FULL PARTICULARS UPON REQUEST

On Saturday, Miss Annie Wells and Mrs. Clarence Wells, Bosanquet, hitched a horse to a buggy and had drove from the barn to the house, where they were standing for a moment, when some other horses came along and frightened the horse hitched to the buggy causing it to run away. Both young ladies were out of the buggy at the time, Miss Wells having hold of the lines. She was knocked down and received several bruises but fortunately escaped serious injury. The horse ran down through the peach orchard, where it got loose from the buggy. The buggy and harness were badly damaged. SEND IN THE NEWS

Where Everything is Better Quality and Most Things at Lower Price.

Mountain-Climbing on Vancouver Island

Cameron Lake showing Mount Arrowsmith in the distance.

Vancouver Island is becoming famous for many things. Among the chief of these is its climate, among the more utilitarian its strawberries; and among the tourist attractions its marvellous scenery, and magnificent drives, its many fascinating trips both by boat and by rail. But, while tens of thousands of visitors holiday in the Island every summer, very few of them are aware of the fact that within less than a day's journey of Victoria there are mountain peaks covered with perpetual snow, and massive glaciers, which defy the warmest of the summer sunshine, where those who enjoy that most exhilarating sport, mountain-climbing, may put all of their skill to the test.

The most popular mountain from an Alpinist's point of view is Arrowsmith. It is about six thousand feet high, and to reach it one travels by one of the most magnificent scenic railways on the continent. There is a diversity of country all along the hundred miles from Victoria to Parkesville. Parkesville is on the east coast of the Island, and Victoria, situated at the extreme south of the Island is the starting point for the journey. One of the first summits to be crossed is that of the splendid Malahat, about fifteen hundred feet above the sea. Here, from the "Lookout," one looks down on a wonderful panorama of green-embowered hills, narrow winding waterways, the wide stretch of the sea itself and the Olympian mountains on the Mainland in their dazzling dress of ice and snow. After crossing the Malahat there are miles along the shores of the salt water, quick passages through picturesque villages and towns, journeyings among sweet-scented woods which are always gay with flowers.

At Parkesville the road divides one branch swinging toward the west. And there begins the first trek in the journey which leads to the everlasting hills. As one nears Cameron Lake, whether one travels by rail or highway, one sees the beginning of the vast forest of Douglas fir, than which there is no finer stretch of timber in America.

Just across the lake from the Chalet one begins the ascent of Mount Arrowsmith. The particular day when we made the journey was in early June. It was sweet and cool near the water, the bracken thrusting up branchy and tall, maiden-hair ferns just unfolding, all of the trees and shrubs wearing their new dresses of fresh, young green.

We started at noon, and from the very outset, found the trail fairly steep. With only occasional stops for breath, we pushed on for five hours before we made the Hut, a distance of about 3000 feet up. It was rather early in the year for mountaineering and the trail had not been cleared since the winter storms, which made our going rather more difficult than it would otherwise have been. But every step of the way displayed some

magnificence of scene that called forth exclamations of delight.

The Hut was practically buried, for the snow lay deep on the upper reaches. It took us an hour or more to tunnel into it, for although our packer had gone ahead with the blankets, he could not accomplish much alone. But we finally dug our way in, cleared the snow from the windows, made a fire, and before very long the aroma of boiling coffee and fried ham filled the little cabin, and we sat down to eat with ravenous appetites.

The sleep that comes to one on these high, snopy altitudes, far above the slightest sound of life, is deep, dreamless and infinitely refreshing. We awoke at eight the next morning, full of eagerness to continue the climb, which from there on is a real test of strength and endurance.

The final five hundred feet were very steep, and not without danger for the unwary. We had a few tumbles, and slides, which only added to the enjoyment, and when we had pursued our journey to the end our satisfaction was very great. For it was an objective worth striving for.

The view was grand beyond conception, snow-peaks all about us, dazlingly splendid in the sunshine, clouds of mist lifting from the valleys, and rolling away to give a glimpse of lakes blue as periwinkle, of bare cliff-sides coloured with the tints of the rainbow, and bright, green valleys, and forests of sturdy little jack-pine, while now and then, when the clouds would roll up and melt into the blue of the sky, we could glimpse a farther view, and we said it was the sea and the mountains beyond the sea, but the distance made it almost as vague as a half-forgotten dream.

It is a journey that one can easily make within the day, providing there is no miscalculation, and it is a most joyfully exhilarating climb, while the picture which the summit discloses must always stand out conspicuously in the gallery of one's memories.

CHOP STUFF

Kincardine has a balance of about \$350 to the good after the recent reunion.

Glencoe war veterans have organized a soldiers' club with C. Bechill president and E. Smith secretary.

The school board of Glencoe had seventy applications for the position of principal of the public school.

Glencoe Chautauqua guarantors went back to the extent of \$5 apiece on this season's venture. There were 33 guarantors.

George Smith brought four car-loads of horses to Cottam from the West and disposed of same at prices ranging around \$100.

Thirty citizens of Strathroy, who signed the Chautauqua guarantee last year to bring it back this year for the seventh time, will be required to make up the deficiency on the six days' show of approximately \$10 or \$12 each.

Three Glencoe Public School teachers have been engaged to teach in Lambton. They are: Miss Mary Westcott, S.S. No. 6, Brooke; Miss Jessie Currie, S.S. No. 15, Moore, near Courtright; Miss Frances Sutherland, S.S. No. 12, Brooke.

Andy Ferguson of Bothwell lies in a critical condition in the Chatham Hospital as a result of being kicked in the stomach by a horse on Tuesday. The horse kicked at another horse but the unfortunate man received the blow instead.

Windsor, Walkerville and Sandwich stand to lose \$15,000 which was on deposit in the Windsor branch of the Home Bank of Canada when it suspended payment. Officials of the municipalities were notified by Dr. J. O. Reame, Registrar of Deeds for Essex County, that the money being held in trust for them by the county was in the bank. City officials say the county will be responsible in case of loss.

Edgar Frank suffered a fracture and dislocation of the right arm at the elbow on Saturday afternoon, when he fell about four feet from a wagon which had become slippery from the rain. He was engaged along with Dan Sloan in moving a house for James Fletcher from the 2nd line north to the 2nd line south, Adelaide. Mr. Frank was immediately taken to Strathroy hospital where the fracture was reduced. He was later removed to his home.

Clare Thorne, Wyoming, had a narrow escape last Saturday while driving home to Sarnia in his car along the 2nd line. He drove to one side of the road to pass a buggy and after trying to regain the center of the road, a wheel came off owing to the gravel which had been heavily laid. He was thrown a considerable distance, but was unhurt. The radiator and radius rods and windshield were damaged, and the tires badly cut. He was taken home by Mr. Beck of the townline.

Angus Cruickshank, Centre Road, East Williams, who died in St. Joseph's hospital, London, Monday afternoon, developed blood poisoning following an accident on Thursday night. He was attempting to remove a piece of wire from the foot of a horse which had become caught in a wire fence, when he either fell or was kicked by the horse. His arm was fractured. He did not appear to be in a serious condition until Sunday morning. He was taken to London in the afternoon. Mr. Cruickshank was 73 years of age.

The children, grandchildren and great-grandchildren of the late David Watson, Plympton, with a few intimate friends, in all about 100 in number, held their annual family picnic at Bright's Grove, on Saturday, Aug. 11th. Relatives were present from London, Kitchener, Watford, Forest, Warwick, Plympton, Brown City, Mich., and Williamston, Mich. The relative coming the longest distance was Dr. H. J. Watson, who motored that day from Williamston, 130 miles. The day was spent in various sports and a general good time.

Port Huron appears to be a favorite resort for young people of Western Ontario who contemplate marriage, according to the list of marriage licenses issued Thursday which contains the names of Roy Sharp and Helena Patterson, both of Sombra; Edmund T. Leitch, Ridgetown and Harriet Wagner of Blenheim; Richard A. Trott and Irene Muriel of Ridgetown; William G. Evans and Vera Stephenson of Arkona. Several of these licenses were obtained Wednesday afternoon when the Sarnia office was closed owing to civic half-holiday.

WATFORD, ONT.

Here and There

Buffalo in Wainwright reserve increase at the rate of about 2,000 each year.

The output of coal from Canadian mines during January, 1923, amounted to 1,743,800 tons.

The total wheat production of Canada in 1922 was 399,786,400 bushels of which Saskatchewan produced 250,167,000 bushels.

The Eskimos give the doctor his fee as soon as he calls. If the patient recovers he keeps it and if not it is returned.

Heads of large implement and machinery firms in Edmonton and Calgary state that for every acre of corn that was sown in Alberta last year ten will be sown this year.

1923 will be the greatest prospecting year known so far in Northern Ontario. The largest rush of prospectors is in the district extending from Swastika for a hundred miles east into the Province of Quebec.

Grain men and others in Calgary already forecast the probable yield of wheat in Alberta this year at something in the neighborhood of 100,000,000 bushels. This estimate is based on the 65,000,000 bushel crop of last year.

The total wheat production in Canada has grown from 16,723,000 bushels in 1871 to over 399,000,000 in 1922. The number of elevators in 1905 was 525 with capacity for 18,320,352 bushels. To-day the capacity of 3,924 elevators in Canada is 231,633,420 bushels.

The Canadian Pacific Railway have further reduced the freight rate on horses from prairie stations to all eastern Canada points. The old rate on horses from Moose Jaw to Montreal or Toronto was \$1.39 1/2 per hundred pounds. The new rate will be \$1.20 1/2 or a saving to the farmer of \$38 per car.

"Will Summers," owned by His Majesty the King, was recently brought to Canada on the Canadian Pacific Steamer "Marburn" and will be kept at the Prince of Wales ranch near Calgary for breeding purposes. This famous five-year-old has a pedigree back to Orme and Galopin, the former sire of Flying Fox and the latter a Derby winner.

It is reported that the head of the textile department of Leeds University, England, has invented a process for the making of artificial wool from cotton waste. The basis of the process is cellulose acetate. The product wears well as wool, it is said, will take the dye of any desired color and is considered a better insulator than natural wool.

During the last fiscal year Canadian exports of tobacco amounted to 471,921 pounds with a value of \$175,826. Of this value the United Kingdom accounted for \$135,784, the United States \$5,216 and other countries \$34,826. There are 125 tobacco factories in Canada, Quebec and Ontario being the principal producers.

Running on schedule the Canadian Pacific liner "Empress of Canada," Captain A. J. Hailey, again demonstrated her right to the claim of "Queen of the Pacific." The Canadian vessel left Vancouver 24 hours after the American liner "President McKinley" and arrived in Yokohama five hours in the lead.

The British Government is completing at Chatham the largest and most wonderful under-water craft in the world. On the surface she will displace 2,780 tons and when submerged 3,600 tons, this displacement being 1,400 tons greater than that of the largest German submarine. With a twelve-inch gun the new submarine will be able to bombard any object and then quickly disappear under the sea.

The Weak Point
in the Life History of
the European Corn Borer

The most effective way of dealing with that destructive insect, the European Corn Borer, is to strike at the weakest point in its life history. That is when the "worm" is overwintering in corn stubble and corn stalks.

Arrange to have every bit of corn stubble and stalk burnt or below the ground by June, 1924. It is best to plough in the autumn, and clean ploughing is essential. Do not disc corn land.

Interest Your Entire Community in this Fight

Without the co-operation of your neighbors the extermination of this destructive insect will be difficult. Organize your whole neighborhood by arranging a plan of campaign in which each farmer undertakes to account for the Corn Borers on his own farm.

Write for pamphlet on the habits and control of the European Corn Borer.

POINTS ABOUT PLOWS

The Development of This Essential Agricultural Implement.

Began With Sharpened Pieces of Wood—Iron Plows Used by the Romans—Introduction of the Subsoil Plow—British and American Plows the Climax in Development.

(Contributed by Ontario Department of Agriculture, Toronto.)

Sharpened stakes and crooked limbs of trees were the earliest substitutes for the plow in historical times, and their use has been common among the nations. The ancient Egyptian plow was but a pointed stick. The early Greeks used the trunk of a small tree with two branches opposite, one forming the share and the other the handle, while the trunk formed the pole or beam. The Iron Plow Used by Romans.

Iron plowshares were used many centuries before the Christian era by the Romans, and the iron was used for a double purpose—for plow-points one year and for swords and spears the next, as iron was scarce in those days. The Romans greatly improved the plow by putting on a wheel and also a coulter. Many races of people showed a widespread hostility to the use of iron in connection with agriculture, believing that iron poisoned the land.

Wooden Plows Used in America 150 Years Ago.

The people of all countries went through the early experience of finding a way and means of tilling the soil, some slowly, some rapidly, and curiously enough the first plow of all nations were much the same in spite of the fact that some nations started thirty or forty centuries ahead of the others. The wooden plow is only a century and a half remote in American agriculture.

It is curious to trace the progress of plowmaking in Britain, where Caesar introduced the plow about 55 B.C. Those of the early cultivators were of necessity rude and imperfect, for in those days the plowman was obliged by law to make a plow before he was permitted to use one. It is uncertain whether the early British plow had wheels, but some of those of the Saxons were furnished with them. The Norman plow was furnished with wheels and it was usual for the plowman to carry a hatchet to break the clods.

Introduction of the Subsoil Plow.

The first attempt at the construction of a subsoil plow was made in 1677. It loosened the land up to a depth of fourteen inches. It is not necessary to do more than point to the various and numerous references which are found in early history of this valuable implement. For ages the plow was little more than a clumsy instrument, which served only to tear up the surface of the land sufficiently deep for the seeds to be buried. It was not brought to anything like a perfect tillage tool until the close of the seventeenth century. The Dutch were amongst the first who brought the plow more into shape, and soon the best farmers were copied and included in the Britisher's idea of a plow.

The Rotherham plow was made by J. Foljame at Rotherham, and a patent was granted for it in 1780. It was then the most perfect in use, and is still well known after two centuries. This plow was constructed chiefly of wood, the draft iron share and coulter and the plating on the mould board and sole being the only parts made of iron. With the development of the iron industry, it was but a short time before plows made entirely of iron and steel were being made.

James Small, a Scotsman, was the first inventor and manufacturer of the cast-iron mould board. At that time (1760) the plow was generally the joint manufacture of the village wheelwright and blacksmith. Plowshares had been made of wrought iron until 1785, when a patent was granted to Robert Ransome for the making of cast-iron shares. The case hardening process as applied to cast-iron shares was the subject of a patent granted in 1803.

British Plows the Climax in Development.

The Rotherham plow, Small's chain plow, and Small's Scotch plow represented the climax in plow development previous to 1800, and the men whose ingenuity, spirit, and perseverance brought about the development in plow making were Foljame, Small, Wilkie, Finlayson and Ransome. The work and development of the plow during the past 125 years is too well known to all to warrant its mention here.

The old plowmen simply scratched the soil with their crude implements, going over the field time and time again, crossing and re-crossing until they had worked up a few inches into a seed bed. The Roman farmers were rarely over five acres in extent, and when our forefathers in this country used the old wooden plow, the clearings among the stumps were small. The two century gap between the old rooter that scratched the soil surface and the new multiple bottom tractor plow of today is a long stretch for the numerous plow milestones that

stand by the way to mark the progress of Agriculture.—L. Stevenson, O. A. C., Guelph.

Fall plowing is best from the standpoint of saving time, as it leaves more time for spring work and usually means earlier seeding. Spring plowing is more effective in the control of weeds, as, being turned under just before seeding, they have less chance to crowd the grain.

The best time to inspect a machine for its weak parts is when you are putting it away for the season. A few notes in a memorandum book set down at the time will help you remember the new parts you should order next winter.

HANDLING THE HARROW

An Implement Often Neglected By Farmers.

Smoothing, Disc, and Spring Tooth Harrows Described—Keep the Bolts Tight and the Wearing Parts Clean—The Implement Shed.

(Contributed by Ontario Department of Agriculture, Toronto.)

The iron smoothing harrow, being a rather clumsy implement to handle is apt to be neglected to the extent of bolts working loose and teeth falling out. A small wrench should always be at hand, preferably strapped to the adjusting lever, with which all bolts could be tightened and kept in proper adjustment. The teeth should be kept sharpened if the harrow is to do its best work with the least expenditure of horse or tractor labor. The harrow sections should be tested for uniformity of set frequently, by lining up the teeth and seeing that all are cutting the same depth. Long, short, crooked or dull teeth reduce the efficiency of this implement. When not in use the harrow should be piled in sections out of harm's way. In storing away after seeding it is a good practice to daub a little machine oil or grease on the bright portion of each tooth, using a brush or cloth to do so. If any parts, such as bolts or teeth have been lost, make note of it on a card, tying the card to the section so that repairs will be made before the harrow is required for use again. The rusty harrow tooth will ball up, collecting grass roots and soil particles in moist ground, reducing the efficiency of the work. It pays well to keep the harrow teeth bright and sharp. The place in the implement shed for harrows where such will be out of the way is up on the side walls. Long pegs or spikes that will hold two sections can be driven in the studs or wall boarding, and the harrow sections hung thereon high, dry and easy to get when wanted.

This harrow generally suffers more from neglect to oil than any other farm implement. Lifting and dropping the soil on its own bearings, it has been difficult for manufacturers to make a bearing that is dust or sand proof. Frequent and careful oiling right from the start is the only practice that will save the bearings of the disc. If the bearings become loose or worn, the draft is greatly increased and the work not as well

done. The oil can should always be at hand and oil should be applied every hour. A 16-inch disc will turn 660 times an hour at ordinary field speed with considerable pressure from two directions on the bearings. Oil can not be expected to last very long, and it does not, so oil often or your disc will squeak and the horse tire. This implement must be kept tight if it is to do its best work. The wrench should always be on hand and used when needed. If the discs are free from rust, well burnished and smooth, they are not apt to clog. The rusty disc may cause long delays in the early spring. The discs should be dry and clean when put away, and a little rub with a soft cloth saturated with machine oil will keep the wearing parts bright and always ready for the field.

The Spring Tooth Harrow.

The spring tooth harrow is an easier implement to keep in order than the disc harrow. With large wheels twice a day oiling will suffice. The keeping of the bolts tight and the wearing surfaces clean and bright are the principal needs leading to efficient working of this implement. Steels points must be renewed or sharpened when required. The wearings parts should be kept bright and clean; this is best done by going over them with a dry cloth and then following with an oil soaked one. The moving parts in the elevating mechanism require and should get sufficient lubricant to keep them in condition to move freely. Both shelter and painting when needed to protect the iron and wood parts and keep the wheels tight are very essential to long and useful life of this implement.—L. Stevenson, O. A. C., Guelph.

The Implement Shed.

Shelter for tools and implements is absolutely necessary during the period when such are not in actual use. The weathering elements will soon destroy the wood or metal used in implements, perhaps not fast enough to excite the indolent man, into action, but nevertheless, slow, sure and steadily the wood will decay and the metal will rust, until the implement becomes too weak to stand the strain of use. A good roof over a floor that is always dry, and amply large for the implement and tool storage requirement of the farm is all that is needed. A palatial building is not needed. Posts set in cement, a frame strong enough to support roof and wall is all that is required if a special building must be erected.—L. Stevenson, O. A. C., Guelph.

Orchard May Be Pruned in Winter.

Fruit growers do not need to wait until spring to prune their orchards. There is little or no difference in the growth and maturity of the wood where pruning has been done any time between November and May.

If the usual care is taken to make the cuts close to the main trunk or branches, no stubs will be left to die and decay, though the covering of a slave or servant to do little errands for the parents.

Irrigation in Southern Alberta

(1) Bassano Dam, built in the earlier days by the Canadian Pacific Railway for irrigation purposes. (2) An irrigation flume. (3) This farmer does not depend on rains for his moisture. (4) Public Gardens, Lethbridge, Alta.

I HAD been told to expect a transformation; that a new order of things was being born in Southern Alberta; that a new system of farming was taking the place of the old. I was told that the days of "scratching in" and of "soil mining" were gone days. Nevertheless, I was not prepared for what I saw.

Fifteen years before, I had travelled through this country and had seen only a few scattered farmsteads set out on the "bald-headed" prairie, four square to all the winds that blew. There were no trees, only a stretching expanse of prairie that merged into white-topped mountains to the west and meeting the sky on the east in an unbroken horizon. A few homesteaders were straggling in. Old cattlemen, trying to save their great range, were spreading stories that farming could never be a success in Southern Alberta.

But the homesteaders came. Then later the big farmers arrived with their tractors and ushered in the era of the thousand acre wheat ranch. A series of "wet years" made Southern Alberta famous. Nowhere had such crops ever previously been heard of. The Noble Foundation, one of the largest farming corporations in the world, brought in a crop of wheat from one thousand acres that threshed 54,000 bushels! The country was thick with elevators. In 1915 and 1916, Southern Alberta reached the peak of prosperity. A series of unproductive years followed when rainfall was scant. Some farms were abandoned, but, mostly, men held on, buoyed up by the wonder harvests of other years.

The problem was purely one of moisture, and the Governments of the Dominion and the Province set about to study it. The soil was of the greatest fertility, the climate was right. Something to supplement the natural rainfall was wanted. The Canadian Pacific

Railway and other corporations had already developed tracts of land by irrigation. It was no experiment, and so a constructive policy of irrigation was commenced, backed by both Governments.

It is in the train of irrigation that the new order of things is coming in Southern Alberta. Today as you drive over the prairie, through the irrigated tracts of Strathmore and Brooks, south through the Bow River Project and on into Taber and Lethbridge, the flatness is broken on all sides by farmsteads that nestle among trees—young trees growing taller and taller every year. Hedges are growing where once was barbed wire. Shrubbery is luxuriant. In the background are fields of Alfalfa, Indian Corn and Wheat. Dairy cows are seen on green pastures. The farms are small, but they are real farms, and the homes are smiling homes of contented people. There is no "scratching in" or "soil mining." These are permanent homes on the threshold of a future bright with promise.

In the City of Lethbridge, around which most of the new irrigation development is proceeding, are found tree-lined streets, beautiful homes set in hedge enclosed lawns, and one of the finest little parks that Canada can boast. The city has been thoughtfully planned and symbolizes in its setting the spirit of a people pledged to permanency.

For those who knew Southern Alberta in its infancy, there is a pleasant surprise waiting. Wherever irrigation has touched, it is truly a country transformed.

West Coast Motor Tour

1. The C. P. S. S. Motor Princess. 2. Chuckaunt Drive, a link in the Pacific Highway. 3. Dance floor on the ferry.

NOT only have Bellingham, Wash., and Victoria, B.C., been brought into closer connection and more friendly relations by the recent inauguration of a ferry motor transport service by the new Canadian Pacific "Motor Princess", but western tourists as a whole have been provided with a new route to the Capital City of British Columbia, and one that has the alluring charm and refreshing diversion of a three and a half hours' water trip. The new water route for touring motorists from the mainland to Vancouver Island forms the base of a triangle which provides a circuit tour from Victoria through Nanaimo and Vancouver and via the beautiful Pacific Highway through New Westminster and Bellingham to Oregon and Washington destinations. This tour takes one through some of the most beautiful scenery on the continent. Exhilarating sea breezes are enjoyed along the whole route, which is through a country the climate of which is so delightfully

equable, that the semi-tropical foliage is pleasing to the eye and fragrant the year round.

In addition, the ferry links the wonderful roads on Vancouver Island with the California Bee-Line, the western arc of the great 6,000 mile circle tour which embraces twelve national parks in the United States and three in Canada, and of which the Banff-Windermere Highway through the Canadian Rockies, to be officially opened on June 30th, forms one of the most delightful parts.

The ship which has made this Mainland-Island-Circle tour possible was specially designed for the service and possesses many distinctive features. She has parking space for 50 automobiles on two decks and accommodation for 200 passengers. A saloon, smoking room, restaurant, dance floor and deck spaces for promenading have been fitted up for the convenience of the travelling public, and the vessel is equipped with twin diesel engines which ensure a speed of 14 knots in all weather.

The Oil of the People.—Many oils have come and gone, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

When a mother detects from the writhing and fretting of a child that worms are troubling it, she can procure a reliable remedy in Miller's Worm Powders which will expel all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worms can long exist where these

Powders are used. There are many who have been afflicted with worms and have driven them away with Dr. Thomas' Electric Oil. All similarly troubled, should lose no time in applying this splendid remedy as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

WANTS TO HELP OTHER WOMEN

Grateful for Health Restored by Lydia E. Pinkham's Vegetable Compound

Toronto, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for backache and for weak and dreary feelings caused by my condition. Sometimes I felt so bad that I couldn't do my housework. My neighbor told me of your medicine and I read about it in the 'Toronto Telegram' and thought I would take it. I got very good results. It built me up and I have told several friends what it has done for me. You may use this testimonial as it may be of help to some one who has suffered as I have."—Mrs. J. LEE, 25 Harvie Ave., Toronto, Ont.

Mrs. Lee is willing to write to any girl or woman suffering from such troubles, and answer any questions they may like to ask.

Women suffering from female troubles causing backache, irregularities, pains, bearing-down feelings and weakness should take Lydia E. Pinkham's Vegetable Compound. Not only is the worth of this splendid medicine shown by such cases as this, but for nearly fifty years letters like this have been received from thousands of women.

You might be interested in reading Mrs. Pinkham's Private Ext-Book upon the "Ailments of Women." You can get a copy free by writing the Lydia E. Pinkham Medicine Co., Cobourg, Ontario.

Miss Thelma George of London is visiting friends in town. New line of Children's Wool Sets and Sweaters, Fuller Bros.

Mrs. Dan Cornell, Saginaw, Mich., is visiting Mrs. Geo. Stoner.

Miss Myrtle Janney of London spent the weekend with her parents.

Mr. Ivan Crawford is visiting his parents Mr. and Mrs. Robt. Crawford.

Miss Melissa Brock of Calgary, Alta., formerly of Arkona, is visiting friends in town.

Mrs. (Dr.) Copeland of London, formerly of Arkona, visited friends in town last week.

Mrs. Fred Dowling and baby daughter of Sarnia are visiting Mr. and Mrs. Reuben Dowling.

Dr. and Mrs. Woods have returned from Hillsboro where they have been holidaying for a time.

Miss M. M. Brock, principal of Bankview public school, Calgary, Alta., spent this week among Arkona friends.

Rev. Gale has returned from his holidays and preached in the Methodist church Sunday evening, Mr. Roustou being away.

Having purchased the grocery and flour and feed business in Arkona of Mr. W. A. Williams and am now in possession I respectfully solicit a continuance of the liberal patronage heretofore extended to him, and hope by strict attention to business, keeping a good stock and selling at reasonable prices to merit a fair share of trade of the village and surrounding country. Will continue my machinery, harness and repairing business as usual.—N. G. STONER.

There will be no preaching service and no Sunday school in the Methodist church next Sunday, all services for the day having been withdrawn for the anniversary at the Sylvan appointment.

Anniversary services morning and evening at the Sylvan appointment of the Arkona circuit will be in charge of the pastor, Rev. E. J. Roulston, who returns this week from a three weeks' holiday at Bruce Beach.

Mrs. Springstead and her daughter Mrs. Hartley, who have been visiting Mr. and Mrs. Wm. McKay the past week have returned to their home in Petrolia.

In Toronto on Aug. 18th, a quiet wedding took place when Clarebel, daughter of Mrs. Sarah Towns and the late Mr. Towns, of Coronation, Alta., became the bride of Harold Linton Showler, son of Mrs. F. M. Showler and the late Mr. Showler, of London, formerly of Strathroy and Arkona. Mr. and Mrs. Showler will reside in Detroit.

In spite of the cool weather there was a very good attendance at the ball game and sports held at Victoria Park on Wednesday, Aug. 22nd, under the auspices of the Arkona A.B.U.

The concert in the evening, which was held in the skating rink was a decided success, the program being provided by Mrs. Carson, violinist of London, Imperial Male Quartet, and Mr. Fred Gill, comedian, of London.

Mr. W. A. Williams, who has so successfully conducted a grocery and feed business here for the past four years, and recently sold out to Mr. Stoner, has accepted the lucrative position of Manager of the Alvinston branch of Silverwoods, Limited, while here Mr. Williams has proved himself a desirable citizen and in every way a man to be respected by the people of the district. Arkona's loss, however, is Alvinston's gain.

HONORED ON BIRTHDAY

Melbourne, August 28.—About 60 relatives and friends gathered at the home of Mrs. Mary Lambert on Saturday to celebrate her 70th birthday. Four daughters and three sons were present. The diningroom was beautifully decorated with asters and ferns. The large three-story birthday cake was decorated with silver leaves. Guests were present from Toronto, Forest, Wyoming, Warwick, Watford, Strathroy, Kerwood, Coldstream and Melbourne. The oldest guest was 87 years of age, Mrs. Ledell, of Forest. The afternoon was spent in sports, the chief game being baseball. This event has been celebrated three years in succession, and it has been arranged to make it an annual affair.

Rev. and Mrs. Moorhouse of Clinton were guests of Mrs. Wm. Langford one day last week.

Services in the Methodist church next Sunday as usual the pastor Rev. Brookes will be in charge.

Mr. and Mrs. W. Lucas and little son Bruce of Toronto visited at the home of Mr. and Mrs. Chas. Foster.

Mrs. (Rev.) Rutherford and infant son of Mt. Brydges is visiting her parents, Mr. and Mrs. Jas. Richardson.

The Ladies' Aid of the Methodist church will meet in the church basement on Wednesday afternoon, Sept. 5th.

Mr. and Mrs. Robt. Patterson, Mr. and Mrs. Jas. Galbraith and son, Gordon, spent the weekend with friends in Sarnia.

Mrs. G. Chittick and daughter Isabel, and niece, Annabel Cairns, have returned from a pleasant holiday in Hamilton.

Mr. and Mrs. Jno. Nichol of Parkhill, Miss Nichol of Hamilton, Mr. and Mrs. L. Ridley of Parkhill were guests of Mr. and Mrs. Hick on Sunday.

Mr. and Mrs. George Large, Mr. and Mrs. Jno. Large and babe and Mrs. Blaine of Port Huron, motored and spent the weekend with Mr. and Mrs. Robt. Galbraith. Mrs. Blaine, who has been a resident of the village for a great number of years is now residing in Port Huron and although she is ninety-one years old enjoyed the motor trip very much and is in good health.

The last meeting of the Ladies' Aid was held at the home of Mrs. Wm. Langford with a good number present, as this was Mrs. Langford's last meeting before leaving for their new home in Strathroy, the ladies presented her with an electric iron. Mrs. Brunt giving the address and Mrs. Frank Wright making the presentation. Mrs. Langford, who is a faithful worker in the church and all societies in connection with it will be greatly missed.

A miscellaneous shower was given by the Mission Circle to one of their members, Miss Annie McLean, who was recently married at the Presbyterian manse, Napier, to Mr. Loftus McLean of Watford. Tables were set in the Sunday school rooms of the church and looked very pretty with their flower decorations and the bounteous repast. The table where the guest of honor sat was decorated with white streamers and large white bow and a centrepiece of large plate mirror with miniature bride and groom also the page. The gifts were numerous and a jolly time was spent.
