## BRYAN DECLARES HIS FOREIGN POLICY

### United States Secretary of State Manifested His Support of a Unity of Action and Sentiment Among All English-Speaking Peoples—First Public Appearance.

Special to The Toronto World.  
WASHINGTON, March 9.—William Jennings Bryan, the new secretary of state, today (Sunday) indicated his function in the Wilson cabinet and hinted at some features which would be at the basis of his foreign policy.

These intimations were made in the course of a speech delivered under the auspices of the Washington Y. M. C. A. before a men's meeting at the National Theatre. The occasion was described by Mr. Bryan as a semi-official appearance and his first of the kind in public.

Mr. Bryan called himself "a connecting link between the president and the outside world." He quoted with approval a remark of Sir Wilfrid Laurier to the effect that a nobler ideal than the union of Canada with the United States was the ideal of two countries divided only by an imaginary line, living as friends with no rivalry except of good will. He manifested his support of a unity of action and sentiment among all English-speaking peoples.

### Spirit of Brotherhood.

The secretary of state declared that as he knew of no foundation for a moral code except religion, so also there was no foundation upon which remaining international peace could be built except the spirit of brotherhood taught by Christ.

Mr. Bryan's remarks were made in introducing J. A. Macdonald, editor of The Toronto Globe, who was active in the attempt two years ago to secure reciprocity. Mr. Macdonald's subject was an evangelical address upon "A Man's Surprise at Himself."

Aside from Mr. Bryan, those on the platform included Joseph Daniels, secretary of the navy, and Hon. Richard Harcourt, formerly minister of education for Ontario.

### International Peace.

"There is a strong reason why I am glad to make this my first appearance since the acceptance of the portfolio of state," said Mr. Bryan. "It is because

## Tip for Premier Borden

BUDAPEST, March 8.—(Can. Press.)—In order to deal more effectively with obstructionists, the Hungarian Government has introduced in the lower house new standing orders whereby refractory members will be subjected to various fines. If officially reprimanded, they will be fined one hundred kronen; if suspended, twenty kronen for each day of the suspension, and if they enter the parliament buildings during the term of their suspension, it will cost them a fee of five hundred kronen.

A krona is equal to a trifle over 20 cents in Canadian currency, and the maximum fine provided is equal to about \$105.

## POPE PIUS WELL IN A FEW DAYS

### Is Suffering From a Mild Form of Influenza and Catarrh—Condition Is Satisfactory.

Special Cable to The World.  
ROME, March 9.—Pope Pius X. had improved so satisfactorily that his physicians tonight predicted he would be well again in a few days.

Both Dr. Marchisafava and Dr. Amici emphatically deny there is any trace of gout in the symptoms and say he suffers merely from influenza of a mild form with bronchial catarrh. His temperature has fallen three degrees in the last 24 hours.

The two sisters of the Pope, Maria and Angela, paid a lengthy visit to their ill brother today, and were looking very cheerful as they left the Vatican.

Among the many enquirers today were Cardinals Rampolla (Italian), Vire y Tuto (Spanish), Lugari (Italian), and Van Rossum (Dutch), and the ministers from Bavaria and Belgium.

Cardinal Respighi, who has influenza complicated with kidney disease, is not expected to "recover."

### The "Mind the Paint" Girl.

The engagement of Miss Billie Burke at the Princess Theatre this week has created an unusual stir in this city. The charming comedienne is at the head of a superior company presenting A. W. Pinero's most successful comedy, "The Mind the Paint" Girl.

## FRIEDMANN CURE BEING TESTED OFFICIALLY

### United States Government Is Watching Results of Treatment on Seven Patients Inoculated Yesterday—Dr. Friedmann Leaves Today For Montreal, Ottawa and Toronto.

Special to The Toronto World.  
NEW YORK, March 9.—Systematic tests of the efficiency of the Friedmann cure for tuberculosis were begun today under the eye of the United States Government at Mount Sinai Hospital, Fifth avenue and One Hundredth street, where Dr. Friedmann treated seven patients.

By an arrangement between the federal authorities and the hospital Mount Sinai will provide accommodation for such other patients as the government may send to the hospital. Of the seven patients treated by Dr. Friedmann three are suffering from tuberculosis of the ribs, one from tuberculosis of the knee joint and one from tuberculosis of the elbow.

### Free From Nervousness.

When Dr. Friedmann emerged from the ward in which he gave his treatments he was in a more jubilant frame of mind than he has given evidence of since his first night in New York. He was smoking a cigar and was free from much of the nervousness he had shown during the last few days.

"I am very happy," he declared, thru an interpreter. "I shall leave for Montreal tomorrow evening, go there to Ottawa and perhaps to Toronto. I shall give no more treatments in New York tomorrow, but shall devote my time to getting ready for my Canadian trip."

"When I return I intend to treat as many bone and joint cases as can come to New York before my return. Let as many come as are able. I will treat them all."

Among the physicians present when the treatment was administered today were Drs. Howard Lilienthal, N. E. Brill, Alfred Meyer, E. Libman, Henry Berg, L. Burger and L. E. Mandelbaum, besides the government experts, Dr. John F. Anderson and

## CLOSURE JUSTIFIABLE MEANS TO END UNPARALLELED OBSTRUCTION TACTICS

LONDON, March 9.—The Daily Graphic, in a leading article on Canada and the navy, today expresses astonishment at the conduct of the opposition over the naval bill. Their determined obstruction during the committee stage, it says, beats all records even at Westminster, and however objectionable the introduction of the closure, from which the Canadian Parliament hitherto has been free, may seem, Borden is not to be blamed.

The puzzle is to know why the Liberals are thus imposing their own parliamentary liberties. Their avowed object is to force a general election, but at present parliament is still young and Borden's naval bill seems to be generally popular. It is not easy to see how the Liberals would gain very much by a fresh appeal.

Borden would in the present case, however, probably have been wise to agree to the proposal urged by one of the former members of his cabinet, that the naval bill should be submitted to a referendum. If that plan had been adopted, the Liberals would have had no excuse for a policy of obstruction.

## COUNTERFEITERS BUSY IN TORONTO

### Pinkerton Detectives on Trail of Men Who Are Making Five and Ten Dollar Bills.

Pinkerton detectives are now in Toronto on the trail of a gang of counterfeiters who have been making and passing bogus Bank of Montreal five and ten dollar bills. It is stated that several hundred bills of the two denominations have been passed in Toronto and throughout Ontario. They are good imitations, and are easily passed. Those who receive five and ten dollar bills on the Bank of Montreal should watch them closely to see that the numbers do not correspond to any of the following, as they are the bogus bills. The numbers and series on the bogus ten dollar bills are 446,001 to 447,000, series D; 492,000 to 493,000, series A.B.C. and D; 534,001 to 535,000, series C; 582,001 to 583,000, series C and D.

On the five dollar bills the numbers and series are: 802,001 to 803,000, series A.B.C. and D; 814,001 to 815,000, series A.B.C. and D; 844,001 to 845,000, series A.B.C. and D; 874,001 to 875,000, series A.B.C. and D; 880,001 to 880,000, same series.

## LIBERAL ENTERS S. LANARK ARENA

### David McLean, Prominent Farmer, Choice of Convention—Four Now in Race.

PERTH, March 9.—(Can. Press.)—South Lanark Liberal Association, in convention here yesterday afternoon, choose David McLean, a farmer, residing near Perth, as their candidate in the by-election on March 19, to fill the vacancy caused by the death of the late Hon. Col. Matheson. There are now four candidates in the field, viz: J. C. Ebbs, the nominee of the Conservatives; W. G. Ferguson and J. B. Lyle, of Smith's Falls, Independents.

The Conservative nominee is regarded as a strong candidate, being well-known and popular in the riding.

J. C. Elliott, M.L.A. for West Middlesex, addressed the meeting and roused great enthusiasm.

Owing to the presence in the field of two Independents, an interesting fight is promised.

## EMPRESS EUGENIE IS SERIOUSLY ILL

### Caught Fresh Cold and Uneasiness Is Felt on Account of Her Age.

Special Cable to The World.  
LONDON, March 10, 6 a.m.—A despatch from Nice to The Daily Mail reads: "Empress Eugenie, who was recovering from an illness when she left England last month for Cap Martin, caught a fresh cold recently and is now confined to the house. The condition of the empress, who is eighty-six, causes a certain amount of uneasiness, owing to her age and enfeeblement. The ex-empress of France is nearing her eighty-seventh birthday, having been born in Granada, Spain, May 5, 1826."

## NO ELECTION SAYS PERLEY

### Liberals Never Will Force One on the Navy Question, He Announced at Montreal.

MONTREAL, Que., March 9.—(Can. Press.)—Hon. G. H. Perley, minister without portfolio, declared at the Liberal-Conservative dinner here Saturday night that: "Some say that by their tactics the Liberals will force an election, but I say that this is not so. They will never force an election on that question."

Mr. Perley characterized the Liberal obstruction as without parallel, having no precedent or ground whatever. Among the other speakers was Col. Hugh Clarke.

Referring to what he termed the rather curious situation in Ottawa at present, Mr. Perley called attention to the manner in which the leader of the opposition had fallen from his once high estate. "Sir Wilfrid Laurier," he said, "is showing the most marvellous inconsistency; he is taking all sides. There is talk of an appeal to the country, but during the last week Laurier has voted that there should not be an appeal and that there should be an appeal. He accepted that part of the naval bill calling for a contribution of thirty-five million dollars. He is in favor of the money being granted, but wants it spent in a different way. Although agreeing to the grant without an appeal to the country, the leader of the opposition voted for the Verillie amendment, which provided for an appeal."

## SUDDEN DEATH OF EDWARD SEAGRAM

### Brother of Jos. Seagram, Ex-M.P., Passes Away at Galt—Leaves Large Estate.

GALT, March 9.—(Special.)—Death came suddenly to Edward E. Seagram, the well-known insurance man and capitalist, at his residence, Wellington street, last night. He was preparing to retire when he was seized with a fainting spell and passed away. Dr. Wardlaw, his physician, who arrived in haste, pronounced death due to heart disease, and said his patient had been in a critical condition for some time past. Word was sent to Waterloo, where J. E. Seagram, ex-M.P., his brother, resides, and this morning E. F. Seagram, Jr., his nephew, came and had the remains removed to that town.

Edward Seagram, who was seventy years old and unmarried, had made Galt his home for the past twenty years. As an insurance agent he was well known, and by shrewd investments he had amassed a fortune, estimated at half a million dollars.

## SUNDAY ARMISTICE IN HOUSE IS WELCOMED WITH CHEERING AND CLASH OF RIVAL CHORUSES

### "O, Canada" Sung by French-Canadian Members Almost Drowned by Counter Vocal Demonstrations, An Incident of Apparent Significance.

OTTAWA, March 9.—(Special.)—The week-end sitting of the house came to an end a few minutes after twelve this morning. There were the usual cheers and counter cheers as Mr. Speaker left the chamber and the usual more or less successful attempt at singing on the part of the members, marked this time by a peculiar if not sinister incident.

For the first time that any one can recall in the history of the house the patriotic song of "O Canada" was treated with disrespect. This was the more noticeable because all the members—Conservative and Liberal, French and English—had heartily joined in the national anthem, "God Save the King."

## LIBERALS AT CONFERENCE YESTERDAY AFTERNOON DECIDED TO ATTEMPT OBSTRUCTION UNTIL EASTER—MAKE CLOSURE EFFECTIVE OR GO TO COUNTRY. UNDERSTOOD TO BE WHITNEY'S ADVICE.

OTTAWA, March 9.—(Special.)—Everybody in Ottawa tonight is in the horoscope business. You can get any forecast you wish, including an immediate dissolution, the closure, or an indefinite continuation of week long sittings of parliament.

The outstanding facts are that Sir James Whitney spent yesterday in Ottawa and that leading Liberals held a conference this afternoon in the office of Sir George W. Ross.

As to the Whitney visit there may be persons so glib enough to believe that he came here for the purpose of being invested by his royal highness with his insignia as Knight Commander of St. Michael and St. George, but people generally believe that he came to talk over the situation with Mr. Borden. It is also pretty well known, although Sir James refused to be interviewed, that the Ontario premier gave hold counsel to the Dominion Government. He is said to have recommended the prompt adoption of the closure or an immediate appeal to the country. Sir James, it is said, assured Mr. Borden that the Liberals could not carry ten seats in Ontario.

### Obstruction Until Easter.

The Liberal caucus this afternoon developed nothing more definite than an agreement to continue obstruction until Easter. Beyond this no information could be gleaned respecting the conference.

Chief Whip John Stanfield says that under no circumstances or conditions will there be an election, but nonetheless the government is looking over the ground and getting in readiness for dissolution. So far as can be learned, however, there has been no cabinet meeting, as there naturally would have been if the prime minister's visit to Rideau Hall had the significance which some gossip would give it.

## MORGAN AND DIAZ SAIL FOR NAPLES

### Financier and Deposed Dictator of Mexico Will Travel For Their Health.

Special Cable to The World.  
CAIRO, March 9.—J. Pierpont Morgan, of New York, and Gen. Porfirio Diaz, deposed dictator of Mexico, will sail from Alexandria tomorrow on the White Star steamship Adriatic, for Naples.

Ex-President Diaz left here today in the chief's private car, attached to the noon express for Alexandria.

Mr. Morgan will leave tomorrow morning in a special train. He will be accompanied by a doctor and a nurse.

## TOYED WITH FIGURES

He then contrasted many statements and figures in the estimate with the actual figures received by the government, and with figures and statements contained in the navy annual. For example, in one case a type of vessel described as having a tonnage of 240 tons was shown to be only 4000 tons.

Mr. Borden blamed this mistake on a misprint in Hansard, but Mr. Carvell showed many other discrepancies, which appeared to be of a striking character.

"We will not proceed with this bill," he declared, "upon such a worthless mass of misinformation."

### The Crucial Hour.

By this time it was approaching midnight, and the house had filled up rapidly. The prime minister, Sir Wilfrid Laurier and many members were in evening dress, and the galleries were crowded. The Conservative members made a good deal of noise talking among themselves, and jeering Mr. Carvell, who appealed to the chairman for protection.

Deputy Speaker Blondin protested he was doing the best he could, which Mr. Carvell disputed.

Mr. Borden: "You do not want to speak on Sunday morning."

Mr. Carvell: "Certainly not."

Mr. Borden: "Then I move the committee rise to report progress and ask leave to sit again."

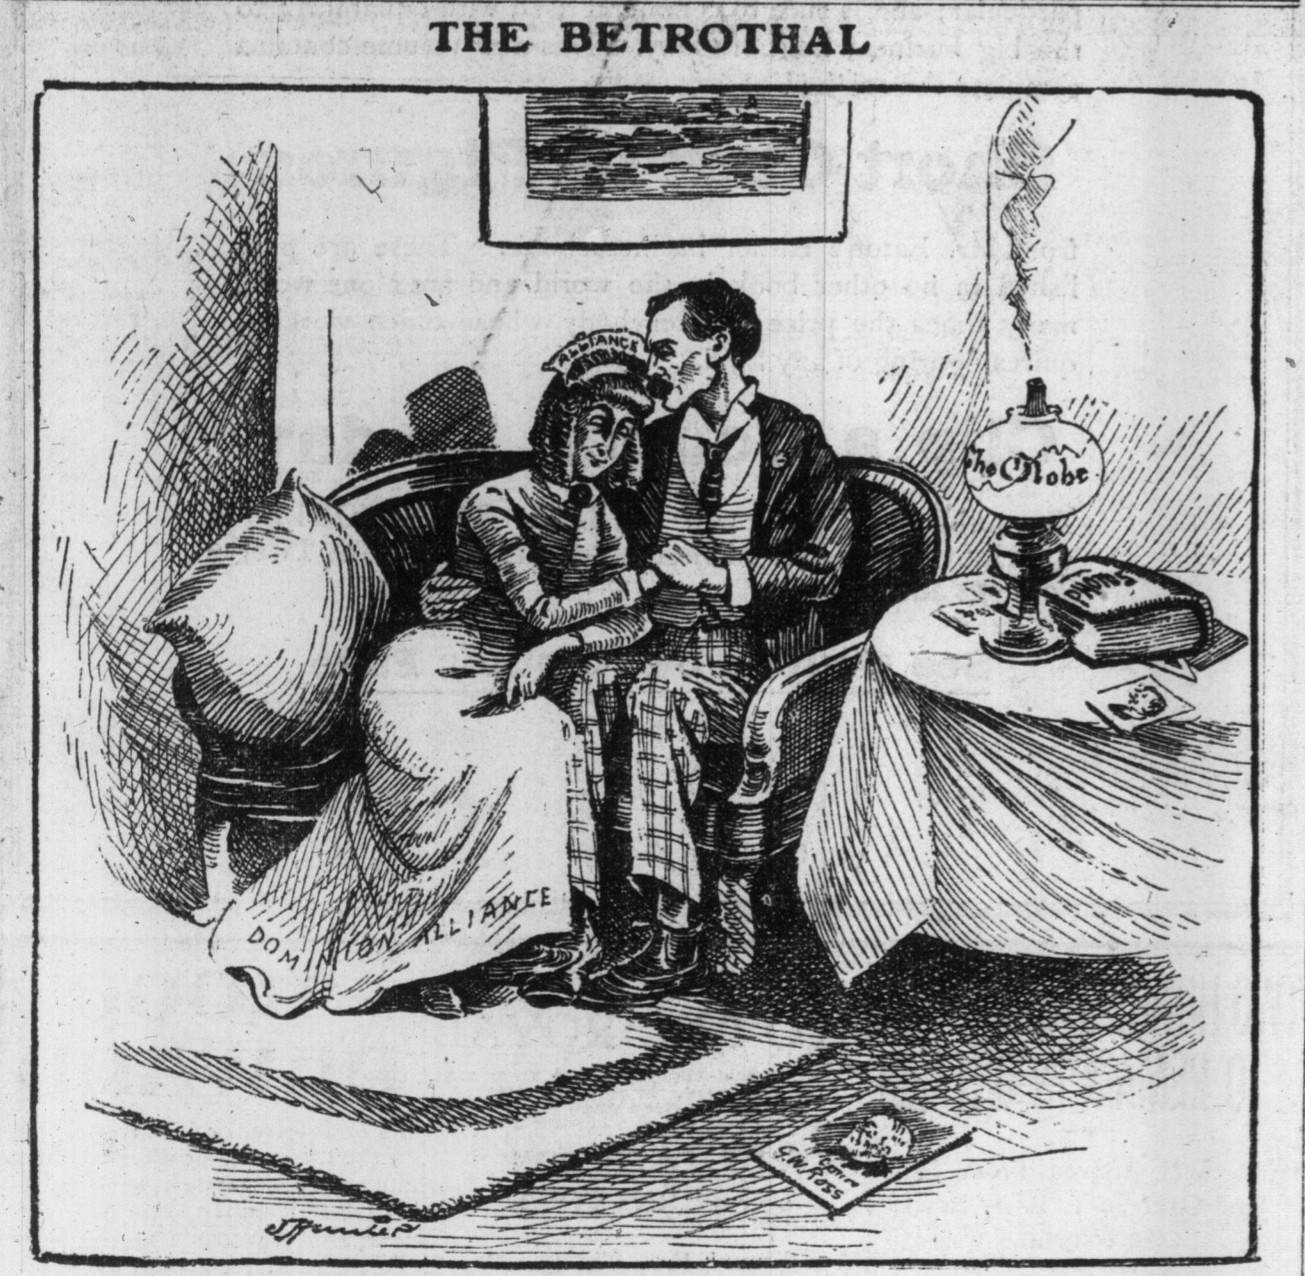

Sir Wilfrid Laurier: "What business on Monday?"

Mr. Borden: "The same business." (Applause.)

## DROWNED "O CANADA"

Just as the house adjourned Mr. German of Welland essayed to lead in singing the National Anthem, but started so high that no one could follow. Some Conservative members made a more successful attempt and all the other members rose and joined in the singing. The crowds in the galleries also rose to their feet and remained standing. "When 'God Save the King' was finished a number of Quebec members started 'O Canada,' but there was a manifest attempt at a counter demonstration. The gov-

# SHAW STREET DUMP MUST GO INDIGNATION MEETING HELD

### "Foulest Nuisance That Ever Soiled the Air of a City" Is Condemned by Residents, Who Threaten to Take Action Against the City.

According to the speakers at the indignation meeting, held on Saturday night in the Essex street school to devise a way to get rid of it, the Shaw street dump is the foulest nuisance that ever soiled the air of a city. The speakers did not exactly use the language of diplomacy in referring to the dump.

"Mr. Chairman," spat out Richard Barrett of 20 Robock avenue warmly, "there are no words in the dictionary that describe the Shaw street dump. I live on the edge of that steaming fettering midden of corruption. The smell is the classic perfume that ever put a dog to flight or made a skunk think that his life work had been in vain. Dogs and cats in a state of decay ornament the top of the dump. The swarm of living rats that inhabit the dump makes neighboring visits to our back yards and houses. Even during the winter the dump is objectionable. In summer millions of flies carry a million species of bacteria into our homes."

"Dr. Hastings makes us cover our garbage cans with lids. The garbage man collects the contents of the cans, and dumps it a few yards from our back doors."

"The smell has certainly got all other aromas backed off the map," said G. H. Knapp of 30 Robock avenue. "I lack the graphic descriptive power of the last speaker, but I can corroborate and endorse his statements. The smell is the smell of pestilence, and I am afraid for my wife and children. If we cannot get the dump eliminated before the warm weather next summer we will have an epidemic."

**Worst in Toronto.**

"When a city has no garbage disposal plant," said A. E. Parker, "it has to dump its garbage. The dumps are very offensive and dangerous to the people who live near them. The worst nuisance in Toronto is the Shaw street dump. It is a wonder that it has not caused more sickness. This is the kind of thing which in ancient cities caused the terrible epidemics we have read about in history. The smell is not a local one, but pollutes the air over a large extent of this part of the city. In summer time we have to keep our windows closed. The nuisance has lowered the value of property and made it impossible to either sell or rent houses in its vicinity."

Alderman Meredith described his activity in the city council since the beginning of the year in endeavoring to have the dump eliminated. He said frankly that in this matter he had been unable to accomplish much. Naturally the alderman took advantage of his opportunity to tell the ratepayers and residents what he had done for the district.

"I will continue my efforts to have the Shaw street dumping ground abolished. It will cost \$30,000, a comparatively small sum. I have made numerous notices of motion, but at the next meeting of the city council I will move to have this sum placed in the estimates, which are the lists of expenditures for the year."

**Take Legal Steps.**

J. W. Plowman of 69 Yarmouth road, Wm. Roberts of 810 Ossington avenue, Wm. John Moffatt of 77 Shaw street, and other residents expressed themselves with vigor and emphasis about the Shaw street dump, and also the one on Pendrith street. The following resolution, moved by R. J. Stevenson, the chairman of the meeting, and seconded by Mr. Plowman, was passed unanimously: "That this meeting of the ratepayers and residents of Ward Five resolve itself into a deputation, to be led by J. W. Plowman, and to be introduced by Aid. Meredith, to

appear before the works committee at their meeting on Friday next, at 2 p.m., for the purpose of requesting the works committee to provide means for the immediate elimination of the nuisance being maintained by the city in the Shaw and Pendrith street garbage dumps and also the removal of the unsightly stables present situated on the site of the Shaw street dump, and be it further resolved that this deputation in presenting its case inform the works committee that if the committee does not meet the request of the deputation the deputation will take legal means to accomplish its object."

**Ratepayers' Association.**

It was also moved by Alderman Meredith and seconded by A. E. Parker, that the meeting resolve itself into the Willowdale Ratepayers' and Residents' Association. The following officers were elected: J. W. Plowman, president; Mrs. James Carr, first vice-president; Mrs. James Glover, second vice-president; A. C. Baker, secretary, and R. W. Dockeray, treasurer.

Two hundred ratepayers and residents of the vicinity, both men and women, attended the meeting, which was well conducted and exceedingly spirited. A good program was given by Thos. H. Meredith of the Royal Grenadiers' Band, who excellently performed on his capable cornet. A. E. Parker, whose humorous songs and stories were most entertaining, and Miss Lily Parker, pianist.

"We intend to have this dump removed," said Mr. Baker, the secretary of the meeting grimly, to "The World," and if no action is taken by Mr. Harris we will get Dr. McCullough, the provincial health officer, on the job."

At the meeting put on its collective hats and went home the air was still full of indignation voices.

### THREATENING LETTER RECEIVED BY JUDGE

Missive Is Aftermath of Local Option Appeal in Mid-dexes.

LONDON, Ont., March 8.—(Can. Press.)—County Judge Talbot McBeth, who has heard the argument in the appeal from the decision of the electors who voted on Jan. 1 in favor of local option, has received a threatening letter, apparently from some crank. The epistle is unsigned and appears to have been posted somewhere in the City of London.

No decision has as yet been given and as yet no effort has been made to locate the person who attempted to threaten the jurist. The letter is very badly written, and certain portions of it are not readily understood.

# QUIET MEETING OF CITY COUNCIL JONATHAN SWIFT WAS VERY HUMAN

### Interest Will Centre on Ter- raulay Street Widening This Afternoon. His Life Sketched in Trinity Lecture by Rev. T. S. Boyle.

# THE FINANCIAL REPORT CHANGED HIS POLITICS Whole Story of Marketing of Securities to Be Told. But Charges of Fickleness Were Not Just, It Is Claimed.

In the matters for debate at the city council meeting this afternoon interest will centre upon the Terraulay street widening, and the policy towards industrial education. A majority will doubtless support the new policy of an homologous line for Terraulay street, with the purchase of property deferred for a few years.

An effort will be made to assure a supplementary appropriation of \$600,000 for the new central technical school. In support of this extra appropriation will be representatives of the element in the city who have an intelligent understanding of Toronto's needs for an industrial educational system. Labor interests will be much in evidence in this support. The intention is to impress upon the board of control that the great majority of citizens are desirous of having the supplementary appropriation granted at once, so that there may not be an injudicious interruption to the carrying out of the policy of the establishment of an effective industrial educational system for Toronto.

As the finances of the city are again normal, the promised report in full upon the negotiations in England and the United States for the marketing of city securities will not invite special interest. The failure of the board of control to agree upon a division of supervision of departments will likely cause a few sarcastic remarks.

Recommendations of the board of control are as follows:

To acquire the rights of the Humbler Valley Electric Railway Co., and to purchase a portion of the right of way of the Toronto Belt Line Railway Company.

To supply Moore Park district with water.

To establish a winter live stock and dairy fair.

To establish a winter live stock and dairy fair.

They also announce failure to agree upon allocation of departments for special supervision of each controller.

**New Bylaws.**

These bylaws will be dealt with: To provide land, buildings, rolling stock and general equipment for St. Clair avenue and Danforth avenue civic car lines; to allow apartment houses and garages on north side of Howard street, Sherbourne street to Glen road; early closing of barber shops; purchase of Moss Park street; right of way on the streets for fire department vehicles.

Ald. Rowland will move to appropriate the slopes of Rosedale ravine from Park road to the Don, for park and boulevard purposes.

Ald. Anderson will move to annex that part of York Township west of Toronto and south of the south limit of the Toronto and Niagara right of way.

Controller Church will move for the creation of a park commission.

**Beautiful Home of the Victrola.**

A visit to the beautiful Victrola parlors of Ye Olds Firm of Heintzman & Co., Ltd., 135-137 Yonge street, must always be a pleasure to anyone at all musical. The firm's assortment of instruments is very large and at all prices.

Jonathan Swift was introduced to the audience at Trinity College on Saturday afternoon, not as a hero, but as a very human but brilliant character. In a very interesting address Rev. T. Stannage Boyle, M.A., D.D., sketched the life of the gifted Irishman from his birth in 1667 until the light of life went out in 1745. Swift lived in the time of William III. and good Queen Anne, the age of Addison, Steele, Dryden and Pope. He was not an ardent lover of his native land. The only occasion on which he mentions this in his writings, however, is when he regrets "that he was born in a 'cecidia' land." He was dependent on Godwin Swift for a good education, near the spirit of dependence called him, and on one occasion referred to what he had received as "the education of a dog." Before the age of five he could read any chapter in the Bible. His mother was a very capable woman from whom he inherited his genius and humor, and for whom he always had the deepest admiration. The record of Swift at Trinity was that of a student of high ability, of industry, and later was the influence of his friend, Sir William Temple, with the King, that he obtained his degree from Oxford, Swift met His Majesty King William III. twice. The first occasion was that on which he sought to get the King's consent to the triennial bill. After being in London some time as secretary to Sir William Temple he returned to Ireland for a short time, and twelve months later returned to London, this time as companion to his patron.

Among the rules he drew up for himself at this period were "not to marry a young woman; not to talk too much nor of myself; not to tell the same story to those I have told it to before."

Sir William Temple left him five hundred pounds and about the same time he received a promise of promotion from the King, a promise never realized.

**Touches of Humor.**

One of the early touches of humor introduced by the lecture was the "meditation of a broomstick," written by Swift and introduced into meditations, which he evidently found dull when reading them to Lady Barclay. Swift compares a man to the broomstick and the essay is really a piece of philosophy worthy of its author.

A disappointment came when the deanery of Derry became vacant, and Swift was passed by, receiving a less important appointment. He was conscientious in his clerical work, establishing a weekly school for the poor. At these daily exercises the congregation sometimes consisted of but one individual, the clerk Roger, and on such occasions, Swift was wont to begin, "Dearly beloved Roger, the spirit moveth you and me."

**Tale of a Tub.**

His "Tale of a Tub" was a satire illustrated by three brothers, Peter, Martin and Jack, representing respectively, the Catholic, Lutheran or perhaps the Anglican, and dissenting churches. This work was not received with favor. In the "Bickerstaff Predictions," Swift satirized one Partridge, and foretold his death, and when the day came on which the prediction was to have been fulfilled, nothing happened. Partridge boasted that Swift was wrong for he was still alive. Swift retorted that he was mistaken for that Partridge was not dead because his reputation was dead. In 1716 Swift left the Whig party and became a Tory. For this he has often been charged with fickleness. This charge, however, is not just, according to the lecturer. From this time on he became swallowed up in the politics of the capital and in 1711 became a contributor to The Examiner. About this time he satirized the Whigs as being of the calibre of those interested in the "importance of nutmegs and the curing of herrings." Swift saw several bishoprics vacant and none came his way, but when Dr. Sterne became Bishop of Down, he was appointed Dean of St. Patrick's, Dublin. Stella, the central friendship in his career, came into his life when living in the house of Sir William Temple, London. At this time she was a beautiful little child of six. Sir William on his death left her fifteen hundred pounds and some property in Ireland. On the advice of Swift, she went over to Ireland. Nothing but brotherly care was in the affection of Swift for Stella, the many thought otherwise, and Sir Walter Scott believed them married. Two other ladies, Vanessa and Vanessa entered into the story of Swift's life, but he married neither. The death of Stella filled him with sadness and he has immortalized her memory.

**Unhappy Life.**

Swift's life in Dublin in early years was not happy. People looked upon him with suspicion as a Jacobite. He had even to seek police protection. Later his pamphlets directed for the benefit of the country in which he lived, made him the people's idol. When the famine broke out he was "beside himself with indignation against England and her people." In Gulliver's Travels Swift shows his keen insight into men and things of his book a good bishop, who evidently had missed the humor, said: "It is full of improbabilities and for my part I scarcely believe a word of it."

Discontent was Swift's worst fault. Brilliant, generous, charitable, he was peevish to a degree. He had affection for friends but his dislike for kind. This discontent was not the inspired kind, but that of wounded vanity when he found himself deprived of place and power which he felt his ability ought to have given him.

His last years were dark. He had always been suffering, and in 1742 he gave ten thousand pounds to build a hospital "for mad men." The Patrick's Hospital, in October, 1742, Swift died and was buried in St. Patrick's, Dublin, side by side with the lady whose name he is ever connected with, his his friend of many years, Stella.

## REV. DR. DICKINSON RETURNS TO PULPIT

Well-Known Presbyterian Clergyman at Galt Welcomed by Large Congregation.

GALT, March 9.—(Special).—Three months ago Rev. Dr. Dickinson, for thirty-five years minister of Central Presbyterian Church, was stricken with heart weakness and collapsed in the pulpit. Today, after an enforced retirement from pastoral work, Dr. Dickinson was able to resume his pulpit duties, and preached both morning and evening. Very large congregations gathered to greet the resumption of the beloved pastor, whose Rev. Mr. Dickinson is one of the outstanding figures in the Presbyterian community, being ex-moderator of the general assembly, a powerful preacher, fine scholar and able writer.

WORLD'S GREATEST PREACHER SPOKE TO TORONTO STUDENTS

Sir William Boyd Carpenter, Late Bishop of Ripon, Addressed Tremendous Audience at Convocation Hall and Gave a Message Which Will Long Be Remembered.

Every seat in Convocation Hall, which has a capacity for three thousand, was occupied yesterday morning and a few sat in the aisles to hear the man reputed to be the most eloquent preacher in the Anglican Church and one of the foremost thinkers and writers of the present time.

Which is greater, the gift of the altar that sanctifies the gift? was the text he chose by which to interpret his message. These, he said, were the words of Christ, delivered in an unusual mood of indignation.

MINERAL WEALTH ON A VAST SCALE

Discovered Near Calcutta in Romantic Way by Vancouver Geologist.

A WOMAN OWNED MINE

Disclosed Source of Wealth For Present of a Silk Shawl.

LONDON, March 10.—(Monday) 5 a.m.—The Bombay correspondent of The Daily Chronicle telegraphs: A romantic discovery of mineral wealth on a vast scale is reported from the Dalhousie district about 150 miles from Calcutta.

The estate of Prince Mohamed Buktar Shah, who died a month ago, is in the hands of an official receiver, who engaged an expert geologist, Philip Billingham of Vancouver, to survey the estate. This expert discovered that the estate possesses immense quantities of iron ore, some millions of tons, averaging between 45 and 70 per cent metal.

PRUSSIAN LOAN FLAT FAILURE

But Little Over Forty Per Cent Taken Up—Foreign Subscriptions Scanty.

BERLIN, March 8.—(Can. Press.)—The failure of the Prussian Government to float the \$100,000,000 Prussian loan, which was announced on Thursday, is the first occasion on which a government loan here has not been fully subscribed, appears to have been greater than was anticipated yesterday.

MACKENZIE KING IN NORTH YORK

Former Minister of Labor Was Nominated at Liberal Convention.

A GENERAL ELECTION

Sir Alan Aylesworth Predicts One in Next Few Months.

(By a Staff Reporter.) NEWMARKT, March 9.—Hon. Wm. L. Mackenzie King, minister of labor in the late Dominion Government, received the unanimous nomination of the Liberals of North York at Newmarket on Saturday afternoon in a hall literally lined with flags and especially the Canadian ensign.

The entrance of Hon. W. L. Mackenzie King, Sir Alan Aylesworth and C. C. Robb, the former Liberal candidate, accompanied by several of prominent North York Liberals, was the signal for enthusiastic cheers.

He declared that for personal reasons he was unable to run in North York, but that he had been decided to let another man contest the seat.

DIAZ DENIES ANY PART IN KILLING

Former President of Mexico Strongly Disapproved Madero's Assassination.

LONDON, March 10.—Cable from Cairo to The Express says: "Former President Diaz of Mexico in an authorized statement today denied he had any responsibility for the execution of the late President Madero. On the contrary he strongly disapproved it."

CROWN PRINCE IS GOING TO BERLIN

Will Assume Command of New Regiment and Move Is Popular.

BERLIN, March 9.—It is announced by The Berliner Tageblatt that the crown prince will soon leave his position as commander of the First Life Guard Hussars at Danzig to return to Berlin as commander of another regiment. The people here will be specially pleased by the crown prince and crown princess are exceedingly popular. It is now more than two years since the prince took command of the Death's Head Hussars at Danzig.

FRIEDMANN CURE BEING TESTED OFFICIALLY

Continued From Page 1.

Dr. Arthur M. Stimson, both of Washington. All Bad Cases. "All of the cases treated were 'bad cases,' or cases where the patients have been confined in their beds. All of them signed a statement expressing their desire to take the treatment and releasing the hospital authorities from responsibility for its effects."

THE SAME

When Dr. Anderson, Stimson and Milton H. Foster called on Dr. Friedman at the Waldorf a week ago, they left without any of the cures used by the Berlin doctor. Today, however, they were given cures. When the first call was made Dr. Friedman stipulated that a medical expert of the government should spend enough time in learning the details of the treatment to qualify as an expert before Dr. Friedman would deliver the cures.

BIBLE DAY INAUGURATED IN FIFTY TORONTO CHURCHES

Comprehensive Work of the Upper Canada Bible Society Was Explained and Benefits Emphasized—The Bible Now Is Published in Four Hundred Languages.

Toronto yesterday inaugurated an annual Bible day, with increased support of the Upper Canada Bible Society as one of its features. The city's Protestant pulpits were eloquent with tributes to the matchless work of the Dominion of the Bible Society. The hundreds of congregations addressed on the wonderful influence of the Scriptures were given many sidelights on the comprehensive colportage work of the society in every province in Canada. The outstanding fact that the Bible men and women of the British and Foreign Bible Society form an army of a thousand strong and operate in all portions of the earth open to travel, was emphasized. Prominent laymen added their expressions of admiration to the work of the society at several of the churches.

Dr. Hovyes traced briefly the history of the British and Foreign Bible Society, from its inception in 1804 to the present time. At that time the Bible was only published in 35 living languages. Since then the society has published it in 440 languages, and is constantly adding to the number. He pointed out that the first of the forty-two versions published was a Mohawk-English version in 1804, for the use of the Six Nation Indians in Upper Canada and Ohio.

At the evening service at the Church of the Epiphany Rev. Dyson Hague said: "Today is Bible day. We live in an age of great movements, and this is a great movement, worthy of our great age, to inaugurate an annual festival through the empire and the world, to be known as Bible day."

Westminster Church. Rev. W. B. Cooper, general secretary of the Canadian Bible Society, preached in Westminster Church in the morning, outlining the history of the passage. "He shall not fall nor be discouraged." He suggested an all-

time in learning the details of the treatment to qualify as an expert before Dr. Friedman would deliver the cures. The government's action in sending experts to New York to follow the tests was a compromise. Either Dr. Anderson or Dr. Stimson will remain in New York for some weeks to note the beginning of the treatment of patients who have taken it. They are to be given free access to all the patients treated.

The culture given to the government physicians was submitted in bacteriological tests, with a view to determining the harmlessness of the treatment. Monkeys and guinea pigs were subjected to the treatment. If the observations made on patients treated in New York by Dr. Friedman and the tests made on minor animals proved satisfactory the treatment will be administered to human patients in the government hospital at Tuesday—Connell's Pets v. Rogers v. Earl.

Wednesday—Standard v. Fishing Club. Thursday—Arlington v. Beardmore. Friday—Cleaners v. Connell's Pets.

When Dr. Anderson, Stimson and Milton H. Foster called on Dr. Friedman at the Waldorf a week ago, they left without any of the cures used by the Berlin doctor. Today, however, they were given cures. When the first call was made Dr. Friedman stipulated that a medical expert of the government should spend enough

AURORA AND ELECTRIC POWER.

Aurora is the centre of an attack just now being made upon the effectiveness of the hydro-electric system by its competitors of the private corporations. The World has no desire whatever to impugn the value of the maxim, "Business is business." We would, indeed, impress it upon the Aurorans as the one thing to be considered, but not only in relation to themselves. The electric corporations are as fully seized of the value of the maxim as any citizen can be.

Under private control the price quoted is the lowest that Aurora can hope to have. Under public control the hydro price is the highest that Aurora will ever be called on to pay, and it includes ownership of its own plant, which the private company's price does not, a privilege worth much more than 50 cents a horsepower.

Long ago Gladstone perceived that the true line of British diplomacy lay in encouraging the formation of a chain of autonomous states across the expansion southward of Russia and eastward of Austria.

Whereas these men believed Magistrate Torrance to be biased against the working class, he was asked to be tried by another judge; he was denied a jury; this was also denied, and therefore he is released from the Central Prison.

FOREIGN IMMIGRATION IN THE UNITED STATES.

In a recent article Mr. E. Dana Durand, director of the United States census, discusses immigration into that country in the light of the census of 1910. During the decade ending with that year, he says, the foreign born white population increased 31 per cent.

THE BIBLE IN MANY LANDS.

Yesterday was devoted by many churches to a recognition of the truly marvelous work of the British and Foreign Bible Society, founded on March 7, 1804. In the 109 years which have elapsed there have been issued 245,500,000 volumes of Scripture.

views which differ from the majority of its guardians. The immortal standards of thought and conduct which it enshrines, and illuminates by the dark shadows of human experience which it also records, appeal to the highest types of the human race as the simple and natural and unavoidable aims and channels of life.

THE EUROPEAN SITUATION.

Stronger evidence of the radical change in the European balance of power effected by the course of the Balkan war could not be afforded than the promulgation of the new German military program. It calls for the expenditure of the huge sum of \$250,000,000 on fortresses, new armaments and the enlargement of the peace strength of the standing army by approximately 200,000 men.

Apprehension centres round the conflicting ambitions of Russia and Austria-Hungary, and the point at issue is within which sphere of optical influence will the Slav states come. Beyond this the dual monarchy has other definite objects—the autonomy of Albania, the maintenance of free communication with Macedonia and Albania and access to the important port of Salonika.

Twenty Cases of Smallpox.

Exeter Has Epidemic of Disease First Thought to Be Chickenpox. EXETER, March 8.—Smallpox has broken out in twenty Exeter homes. What was thought to be chickenpox has been prevalent for the past two months, but suspicious cases were first aroused as to the disease being smallpox, in the case of Reginald Taylor, 12 years of age, son of ex-Reeve John Taylor.

Two Died in Jail.

KINGSTON, March 8.—George Bulvan, sentenced to ten years in penitentiary for extreme cruelty to horse at Guelph, died in penitentiary this morning. He had served in this prison for 14 years and suffered from tuberculosis and the remains will be sent to Guelph.

Two Died in Fire.

HOT SPRINGS, Ark., March 8.—Charles A. Cary and E. J. Reynolds, of Utica, Ill., perished in the fire that destroyed several mercantile establishments here yesterday. Their bodies were found in the ruins of an Oriental goods store this morning.

with foreign parents was practically the same as that for those with native parents. These statistics are interesting because they show that the desire to have their children properly educated is just as strong with the foreign parents as with the native parent, altho in the higher age groups relatively more children of the foreign parents drop out of school.

BRITISH PARLIAMENT RESUMES.

Today the British Parliament resumes after a bare three weeks' recess. Its first business will be the budget, for the coming financial year, is not anticipated to contain any novel or startling departure. In order to prevent its use, or misuse, for the purpose of holding up the Home Rule, Welsh Disestablishment and Scottish Temperance Bills, all coming up for the second time under the provisions of the Parliament Act of 1911, the government, it is expected, will impose a compulsory time table, to which the opposition must conform under stress of the closure, the guillotine and what have been nicknamed the "kangaroo" sections of the regulations.

Bills falling under the Parliament Act must be re-passed in the identical terms as previously presented to the house of lords, or if they contain only such alterations as are certified by the Speaker of the house of commons to be necessary owing to the lapse of time. The commons may, however, suggest further amendments subject to approval by the peers, but this does not affect the operation of the act should the bill be again rejected.

Judgment: Here plaintiff at present is only acting in his capacity as shareholder, bringing his action on behalf of the company. In that form he cannot make any claim for his sole personal benefit, and certainly cannot be suing on behalf of the company and for relief against it in the same action. Plaintiff must, therefore, amend as may be advised so as to conform to C. R. 185, and to state venue if this was not stated in the copy filed. Defendant to have eight days thereafter to plead. Costs of this motion to defendants in any event.

Judges' Chambers. Before Middleton, J. Re Gourlay—F. Aylesworth for committee, obtained order confirming report, with costs out of estate.

Single Court. Smith v. Middleton—H. S. White for plaintiff; G. E. Pettit (W. S. Pettit) for defendant. Motion for declaration of the Motion by executor for recovery damages resulting from loss of the Motion by the Police Village of Crystal Beach. Defendants contend that they are not liable for limits of this kind within the village of the Police Village. Judgment: I think it is abundantly plain that under the Municipal Act a police incorporation is not a separate legal entity, but that the scheme is set apart, and the trustees are empowered to raise indirectly thru the township, by way of local assessments, sums required for certain local improvements. It follows from this that the defendant is responsible for all roads within its limits. If the trustees of the police village fail to renew a defective road, the township is not justified in leaving it as a source of danger and may remove it altogether. I therefore determine the question in favor of the plaintiff, and direct that the costs be paid by defendants in any event of the litigation.

Re Samuel Wilson Estate—W. G. Thurston, K.C., for executors and residuary legatees; F. S. Sutton (Stouffville) for adults interested in the estate of lot 17; E. C. Cattnach for infants. Motion by executors for order constraining will of Samuel Wilson, under C. R. 933. Judgment: Two questions arise with respect to the will, the first being whether the \$2000 charged upon proceeds of lot 17; second, with reference to the incidence of executors' compensation and costs regarding execution of the will, the action was not really instituted by Mrs. Johnstone herself, but by relatives who desired themselves to obtain the money out of the hands of those to whom she had given it.

Judgment of Barron, J., of County of Perth, of Dec. 13, 1912. Action by plaintiff against nephew, to recover \$800, alleged to have been placed in defendant's hands by her for keeping, and to be repaid to her as she should require. At trial judgment was awarded plaintiff for \$825 and costs. Judgment: We think the judgment of the trial judge should be affirmed. These are nothing in the evidence showing any overreaching on the part of the plaintiff or any design on his part to induce the plaintiff to entrust him with her money, and he seems to have been kind to her, and rendered her service in excess of the amount allowed to him at the trial. Under these circumstances, altho we think his appeal fails, he should not be visited with the costs. Riddell, J., and Leitch, J., dissenting, and thinking that the appeal should be allowed with costs, and action dismissed with costs, and thinking that it is fairly apparent that the action was not really instituted by Mrs. Johnstone herself, but by relatives who desired themselves to obtain the money out of the hands of those to whom she had given it.

Good News From The Lumber Camp. Men in the lumber camps have free medical attendance, and while many suffer from cold and account of exposure to cold and dampness, the doctors do not seem to have any cure for piles. Many letters come from lumber camps in praise of Dr. Chase's Ointment. For a long time I suffered from itching, bleeding piles, and could not sleep nights, because of the intense relief was only temporary. I saw Dr. Chase's Ointment advertised in a newspaper, and it cured me completely, and was cured by the treatment. I never expected to be cured. It is a positive cure for itching, bleeding and protruding piles.

IMPORTANT WEEK IN LEGISLATURE

Bill to Extend Votes to Women Will Be Introduced Today.

TEMPERANCE DEBATE Wednesday Will Be Devoted to Arguments on Repeal Question.

The present week in the legislature augurs well to be the most important, not to say the most interesting of the present session.

Tomorrow the budget debate will be resumed. It is understood the opposition will bring in an important amendment dealing with the financial administration of the government.

On Wednesday the temperance debate will be continued and will be closed by an important speech by Mr. Rowell.

STRIKERS PLANNED TO WRECK TRAINS

Such Is Testimony of Detective Dealing With Virginian Coal Troubles.

SOLDIERS IMPERILED But "Yellow Streak" Complained of by Leader, Saved Lives.

CHARLESTON, W. Va., March 9.—(Can. Press.)—That efforts were made to wreck trains conveying soldiers to the Kanawha County strike region, and to destroy property, was the testimony today of Frank C. Smith, detective, at the trial before a military commission of 49 persons charged with conspiracy during the recent riots in the coal fields.

Smith stated that he had spent five months in the mining region representing himself either as an organizer of miners or as an employee of an electric company. During his testimony he named persons and incidents without hesitancy, and frequently when he pointed to some of the defendants he secured a bow as recognition of the truth of his statements.

Only once did anyone question his testimony, and that was when Smith named one of the defendants as being with him on their march from a camp at Holly Grove to Hansford, for the alleged purpose of "dynamiting" a train carrying soldiers. The defendant declared he was a hundred yards behind Smith in the march.

On another occasion he pointed out John W. Brown, the man who saved his life at Hansford when an armed crowd, while waiting for a troop train, became suspicious of the detective. Brown vowed to testify against persons not on trial at this time. He had not finished his statement when court adjourned, and will resume on Monday.

R. L. Taylor, Emory Hoffman, and L. T. Hensley, testified regarding the riots at Mucklow and Ronda. They told of encountering armed men and of the wounding of several persons.

Thirty-nine of the 49 persons on trial filed a plea in abatement with the circuit court of appeals today, saying they did not want to be a party to the writ of prohibition recently asked for, and that they were satisfied that their trial before a military commission is being conducted in a fair and impartial manner.

Waited Three Days. According to Smith, armed men at Holly Grove, on Feb. 19, informed him that they had been waiting for three days for an opportunity to "wreck and shoot up" the train on which soldiers were being sent to the strike district.

He said that on Jan. 28 he was at the mine and heard "Mother" Jones tell the miners "that they were to be beaten up by the mine guards for not resisting with all their might."

Smith was not permitted to testify against persons not on trial at this time. He had not finished his statement when court adjourned, and will resume on Monday.

KEEN BATTLE FOR FURS OF INDIANS

Hudson Bay Company Compelled to Establish New Northern Post.

COCHRANE, Ont., March 8.—(Special.)—The fight that has been going on for centuries between the fur traders and the gentlemen adventurers, the Hudson Bay Company, has been renewed with considerable keenness at Bell River, in northern Quebec, at a point where the Bell River crosses the transcontinental railway.

The Hudson Bay post at Cochrane had been found, that the toll of furs obtained from the Indians coming down the Bell and the Nottaway to Cochrane was getting lamentably small, and making investigation they discovered that a little knot of free traders had established themselves at Bell River and were intercepting the Indians and getting the fur trade. The worshipful company have therefore determined to establish a post right at Bell River and complete with the fur traders on their own ground. This is a forward move on the part of the Hudson Bay Company, as hitherto, as the Indians have retreated north, back from the advance of civilization, they have abolished their posts and followed them. Now it is bidding for the trade that will undoubtedly spring up not only with the Indians but with the contractors or the Montreal and James Bay Railway when work commences on the Ciergue road.

It is probable that the official announcement that the president has taken this action will be made Monday.

Like Magic To Weak Nerves

With the nerves exhausted both mind and body are of little use. You feel tired, worn-out and down-hearted, and the organs of the body fail to perform their all-important functions.

Nervous troubles do not go away of their own accord, but gradually grow worse and worse until some form of paralysis is developed. Dr. Chase's Nerve Food can be depended upon to revitalize feeble, wasted nerve cells as nothing else can. Here is a case in illustration:

Mr. A. Seward, Dana, Sask., writes: "When I began to use Dr. Chase's Nerve Food, my system was so much exhausted, that I was weak and exhausted, and could not at times attend to my work. The effect of the Nerve Food was almost like magic, for in a few days the weakness wore away and I found strength and vigor being restored to the body. That cure was effected three years ago, but I generally use the Nerve Food in the spring, as I can find no treatment so effective as a spring tonic."

# Financial Situation is Alarming --- All Stock Markets Weak

## BRAZILIAN IS ACCORDED SUPPORT

Speculative Leader Holds Steady in Face of General Weakness Elsewhere.

## STOCK MARKET UNEASY

Financial Skies Are Clouding Again—Another Dip in Canadian Issues.

International financial conditions took another turn for the worse on Saturday, week-end developments being anything but satisfactory. Europe was clearly apprehensive over the money situation, particularly in Berlin, as the sharp declines in the London exchange and the continental bourses evidenced. Wall street had another fit of the "blues," and in the resultant slump in stock values, the averages dropped almost to the low level of last month, with some of the standard issues, notably C.P.R. and Union Pacific, at new low records in years.

Weakness in Specialties. In the face of such adverse influences as these, it was only natural to look for weakness in the Toronto market. This was most pronounced in the specialties, however, the usual active issues holding up fairly well. Brazilian dropped to a new low record for the month at 95, but rallied on insiders according to support, and wound up unchanged for the day at 95 1/2. Trading in this issue was the largest in several days, a good deal of alarm being occasioned by the early dip. Weakness was shown by such stocks as Canners, which met a full three points at 75; Toronto Railway, which was off 1 3/4 to 133 1/4, a new low for the month, and Twin City, which dropped a fraction at 106. Bury preferred sold at 58 1/2, a new low record in a long time.

Sentiment is Uneasy. The market closed dull and uneasy, but with sentiment generally favorable to a recovery after the week-end. Whether this is realized or not will depend wholly on the action of the London and New York exchanges.

## C. P. R. DOWN AGAIN NEW LOW FOR YEAR

Berlin is Alarmed Over the Outlook and, Therefore, Sells the Shares.

Continued selling of C.P.R. by Berlin was one of the features of the market at the week-end. The shares consequently sold down in London, and in New York dropped to 225 1/2, a loss of 2 1/2 points from Friday's close, and a new low record in two years. The acute money stringency in Germany has occasioned a change in sentiment regarding the outcome of the April settlement and C. P. R. is saying the result, therefore, is a matter of prospect. It is a fine thing to say of prosperity it is a fine thing to say of depression, but it is a horse of another color.

## BANK STATEMENT WAS FAVORABLE

Showing of New York Institutions Much Better Than Expected.

NEW YORK, March 8.—The statement of the acting condition of clearing house banks and trust companies for the week shows that they held \$2,374,250 reserve in excess of legal requirements. This is an increase of \$88,000 from last week. The statement follows: Actual condition loans, \$22,546,000; circulation, decrease \$116,000; excess lawful reserve, \$2,374,250; increase \$88,000. Summary of state banks and trust companies is greater New York, not included in clearing house statement: Loans, increase \$2,000,000; deposits, increase \$355,100; legal tenders, decrease \$17,800; total deposits, decrease \$252,100.

## SMALL DIVIDEND IS BETTER THAN NONE

Therefore Black Lake Bondholders Should Be Thankful For Small Mercies.

A dividend of 14.19 per cent. has been declared on the outstanding bonds of the Black Lake Consolidated Asbestos Company, whose owners did not exchange their securities for those in the re-organization. Of the \$1,230,000 bonds outstanding before the re-organization about 8 months ago only \$38,000 were not turned in to bondholders. It is on these \$38,000 that the dividend is to be paid. The disbursement is the first and, in all probability, the last that will be made on the old issue.

## SYNDICATES AFTER PETE LAKE CONTROL

That there is active competition for the control of Peterson Lake, Cobalt, there seems to be no doubt. Several brokers have the matter in hand, but at the moment none can supply syndicates, either English or American, with a majority of the stock of the company. Holders of Peterson Lake Co. are widely scattered, but it is stated that one broker now advertising for offers on the shares from individual holders, has a large block of stock under his control, and that it will not take much work to insure him having a majority. This would put him in shape to make a definite proposition to the owners of the company.

## SMALL GAINS IN BANK CLEARINGS

Record Last Week Not up to Usual Standard—Toronto Makes Good Showing.

## DROP IN UNION PACIFIC

Proposed New Plan For Dissolution Disturbing Influence—Politics to Front.

Bank clearings in the Dominion last week were generally only slightly better than in the same period of 1912, with the exception of Toronto, which took a sudden spurt to \$45,600,000. Montreal showed an average increase, but Winnipeg and Vancouver were very dull, and most of the provincial cities showed small gains or even losses. Regina and Fort William were exceptions. Figures for the week ending March 6, 1913, and for that ending March 3, 1912, are as follows:

	1913	1912	P.C.

## CURRENT COMMENT ON THE SITUATION

Most of the bear arguments have lost their force, and speculators are now harping almost entirely upon a single string. The burden of their tune is the German money stringency. —Wall St. Journal.

I advise caution on the buying side, owing to the present strained money situation in Germany, which is likely to be felt here more seriously as we approach near to our annual settlement period, April 1. The trade and credit situation in this country are sound.—Henry Clews.

Sentiment is so bearish that one of the large commission and wire houses posted on its bulletin board and telegraphed to all its branches, a warning that further serious declines might be expected very soon, and that only those should buy who could pay for their stocks.—N. Y. Commercial.

The general decline was partly due to "Nerves." Wall street seems to fear trouble among European powers, a money crisis in Germany and a fresh onslaught on the trusts by Attorney-General McReynolds for the tobacco and Standard Oil cases, regardless of the decisions of the courts, which passed favorably on the dissolved trusts. The market will recover and those who have thrown over stocks will realize their mistake unless the administration is determined to "run amuck." —Erickson Perkins & Co.

## DEPRESSION RULES IN LONDON MARKET

Acute Money Stringency Reflected in Lower Stock Prices—C. P. R. Down Again.

LONDON, March 8.—The monetary stringency here and on the continent was responsible for further depression on the stock exchange today. Consols fell another eighth and Berlin sold Canadian Pacific, Paris favorites and home rails, however, were fairly maintained. American securities opened quiet and a fraction higher. Fears of a poor New York bank statement induced the market in most of the list and the market closed with prices ranging from 1 1/2 to 3 1/2 below yesterday's New York closing. Money was scarce and discount rates were firm and higher.

## REGULAR DIVIDEND ON TIMISKAMING

The directors of the Timiskaming Mining Company met in Cobalt on Saturday and declared the customary dividend of 1 per cent. payable on April 20. The company has been distributing profits at this rate for over two years, and while the dividends are classed as interim, they have been paid regularly every quarter since April, 1912. The detailed record follows:

	1908	1909	1910	1911	1912
Jan. 1	\$ 250,000.00	\$ 250,000.00	\$ 250,000.00	\$ 250,000.00	\$ 250,000.00
