The copy filmed have hes been reproduced thanks to the generosity of:

Archives of Ontario

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meening "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, cherts, etc., mey be filmed at different reduction ratios. Those too large to be entirely included in one exposure ere filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Archives of Ontario

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les examplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plet, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, pienches, tableeux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, t de heut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

position of the second second

To Our Patrons and the Public:

Having purchased Mr. C. H. McCargar's interest in the National Business College here, a few words

from us may be in order at this time.

The National Business College stands among the first schools in the Dominion, and is ever increasing its efficiency as a means of preparing young gentlemen and ladies for the Business World. It shall be our aim to make this institution second to none as a school for acquiring a thorough, practical, business education.

The staff are all experienced and practical teachers. The change in principalship affects in no way the plan of teaching, which has been so very satisfactory in the past, as I continue to teach the same subjects as

heretofore.

I have had a long and successful career as a teacher, am a graduate of the Canada Business College of Hamilton, the leading commercial school of the west, and have had a few years' experience as a practical book-keeper.

The National Business College, Ottawa, will be known hereafter as "The Ottawa Business College"

(formerly National Business College), Ottawa.

We are putting all our energies into the work of the College, and we feel certain of such a hearty response from the public as will make the Business College of the Capital the leading commercial school of the Dominion.

Shorthand and Typewriting.

Space will not permit much being said upon this subject. We have three rooms devoted exclusively to Shorthand and Typewriting, which will no doubt be sufficient to show that we pay special attention to hese subjects. We have Remington, Caligraph and Smith-Premier typewriters in constant use for the benefit of our students.

When our students are sufficiently advanced to take dictation, we give them practice in office work. We require them to take from dictation our correspondence, in shorthand, and transcribe the letters on the typewriter. We aim to qualify our students to do office work in a manner that will meet with the

approbation of business men.

We frequently have applications from business men for competent stenographers and typewriters. Any one taking our course and obtaining our diploma will be qualified to take a good position. There is a special demand for competent stenographers who can write both English and French.

To Public School Teachers.

Are you perfectly satisfied with the position you hold, or do you contemplate changing your vocation at some future time? To those who think of trying some other calling, we would say there is no way in which the average public school teacher can make the change at less expense than by entering a good commercial school, taking a thorough business course, and becoming a competent stenographer and type writer. The English education you already possess, in connection with a thorough business education and skill in writing shorthand and using the typewriter, will place you in a position to secure a good situation and fill it with credit to yourself and satisfaction to your employer.

The Ottawa Business College (formerly National Business College), Ottawa, is just the school you should attend to secure an education that will qualify you for bookkeeper, amanuensis teacher in com-

mercial college.

who possess a good business handwriting always receive the preference.

In business, writing is usually accepted as an index to the educational attainments.

is also taken up; and to enable those who have a taste for art, we have organized a new class for

and while it forms no part of a business education, we are in a position to instruct in any kind of work pertaining to the pen, even portraiture.

Commercial Calculation.

Every occupation in life requires a knowledge of figures, and especially is this true with the business man with whom correctness and rapidity in commercial calculations are wholly indispensable.

To enable our students to attain the highest possible excellence in this department of their course, every student may receive from one to two hours in thorough practical instruction and drill in business arithmetic and rapid calculations; for what is a book-keeper without arithmetic? Our students are made familiar with the measurements of lumber in many shapes, lands, &c., Commission, Insurance, Taxes, Stocks and Bonds, Exchange, Partial Payments, Equating and Averaging of Accounts, and, in fact, all the calculations that may be of utility in the office, on the market, on the farm, or in any manufacturing shop.

Book-keeping.

Under this subject we not only teach the student the many methods of keeping books by single and double entry, but the student is required to make out Notes, Drafts, Cheques, Bills of Exchange, Accounts, Orders, Due Bills, Receipts, &c., &c., order his goods, buy drafts, discount notes—in fact, perform the actual work of the business man in the various kinds of business, together with his dealing with the "College Bank" and office work. Without such a drill, whether in the Ottawa Business College, or some other institution, no young man or woman can go out into the world and feel that they know business or can manage a business successfully.

The Best School.

When a decision is reached that it is desirous of securing a good business education, the next thing is to select **The Best School**. This we can understand to be a very difficult task, when reliable personal testimony is not available, especially when confronted with the statement in each of a dozen or more catalogues of different schools that "Our school is positively the best," while associated with this claim is usually an insinuation that all other colleges are frauds.

We dislike this spirit of bombast and meanness, and while we cannot claim superiority over all others, for want of knowledge of the work and management of several schools, our familiarity with the courses given in many of our Canadian colleges enables us to claim equality with the best of them, and while we labor to do our work honestly and well, and to advance the interests of our patrons in every possible way, we are free to admit that we believe other schools do the same.

allia allia

ի ակիսանիսակիսակիսակի ակիսակիակիանիսակիսակիսակիսակիսակիակի ակիսակիակիանիակիսակիսակիսակիսակիսակիսակիսակիսակիսակ

While our college is one of the oldest and largest in Canada, our course is abreast of the times, and our staff is composed of those of experience and activity, neither children nor those of feeble age, and while the younger schools must necessarily spend a great deal of time and energy in planning how to make themselves known, we are known, and are thus in a position to attend to the necessities of our students in receiving a thorough training in either the business or shorthand department.

Premises.

We have refrained from calling to our aid the artist and engraver, through whose skill the small, dingy, ill-furnished room is so easily transformed on paper into elegant apartments, supplied with all the latest equipments of modern counting-houses and offices, and invariably filled with students. To the unini-tiated these "Palaces" appear very attractive, but we can assure you that, alas, in too many cases, it would be almost, if not utterly, impossible to recognize the apartments thus represented, if you were permitted to inspect them. Instead of alluring patrons with such a bait, we desire to state plainly that we have prepared our premises to suit our ourselves, for our own use; they are perhaps the largest of any business college in Canada; light, airy, steam heating, electric lighting, and contain from 75 to 100 thousand cubic feet of air. We are prepared to compare our rooms with those of any other purely business college in Canada. And why should we not have "The Best" rooms, situated at the Capital of Canada, as we are?

Commercial Law.

Commercial Law has grown to be a most important study, and constitutes a proper part of a Commercial Course. It is not expected that any student will become proficient in the study or acquire a professional knowledge of law; but the amo information that can be obtained in the is of great use in the ordinary affairs of been said that "he who is his own law for a client," but a greater fool is he know what can be readily learned of t trade which have become law.

That our law may be as practical work Mr. Geo. McLaurin, B.A., LL one of the leading commercial lawyer has charge of the subject and gives regulated to the students on all that pertains commercial law. In very few colleges many depending upon their own very ledge, which was obtained perhaps out or twelve years ago, and which may not thus misleading the student and being value at all.

Correspondence and Sp

Perhaps in no business college in An attention given to these subjects than a Business College, Ottawa (formerly Nat College). These have become subjinstruction in both the Business ar Departments. In these the student is write every imaginable kind of busin punctuate, paragraph, spell, the use of etc., and what book-keeper can be prothem?

In selecting a college see that special given to them.

Grammar

is another subject much neglected in business college, and in the majority of no Grammar is trught. With this, as ence and spelling, when a student can j post he is by no means a competent bowhen a stenographer can take down fro words a minute and read them back, means a competent stenographer. He no correspondent, and to be that he must write a good letter as to spelling, gram tion, paragraphing, etc., etc. alge of law; but the amount of general at can be obtained in the course pursued in the ordinary affairs of life. It has "he who is his own lawyer has a fool out a greater fool is he who refuses to in be readily learned of the customs of ave become law.

tw may be as practical as the other of McLaurin, B.A., LL.B., Barrister, ading commercial lawyers of our city, the subject and gives regular instruction its on all that pertains to business or two. In very few colleges is this done, and upon their own very limited knowwas obtained perhaps out of a book tens ago, and which may not be law now, ag the student and being worse than no

Practical Business Education.

The acquirement of a Business Education is the best investment a young man can make, because it can never be taken away and the longer it is used the more valuable it becomes and the greater the income it produces. To secure it involves so limited an expense as to be within the reach of all, and no young man or woman can well afford to be without it.

Our aim is to supply a course of such training, second to none, and with our present staff, and advantages peculiar to our situation, we think we hit the mark.

Our College is situated at the Capital, where students may attend the parliamentary debates free, during Session, which they cannot do in any other city in Canada.

Teachers.

That we may surpass all previous years' results, we have secured a specialist in each department, and consequently in no school in Canada can better work be done than in the Ottawa Business College, Ottawa (formerly National Business College). Send for our catalogue, in which you will find the names of our old teachers, new ones being substituted in several cases.

Note.—Any person sending us the names and addresses of a dozen young men or women who may in the near future attend a Business College will receive free one half dozen of McCargar's "College Pen."

Finale.—After perusing the facts herein presented, if you are satisfied that we are honest in our claims and deserving of your patronage, please write us, if you are interested, for our catalogue or any other information you may desire, and they will be most cheerfully given; or if you are not interested yourself we will consider it a favour if you will kindly send us the names and addresses of any of your acquaintances who may be interested.
