A. E. Ames & Co. Suspend Payment. Thru Continued Decline in the Prices of Securities Liabilities Are Estimated in Millions

Private Fortune of Head of Firm of Nearly a Million Wiped Out.

OWED METROPOLITAN BANK \$50,000. One of the Greatest Financial Sensations in the History of Toronto.

The following statement was put on the front door of A. E. Ames & Co.'s offices yesterday morning, at 11:30:

"Owing to the continuous decline in the securities market, and the consequent suspension of payment of the interest on the securities which the firm was carrying...

These two announcements created one of the greatest financial sensations known in the history of Toronto.

Liabilities of the Firm. The liabilities of the Ames firm consist of: First—The money on deposit of the public. We are afraid this is a very large sum.

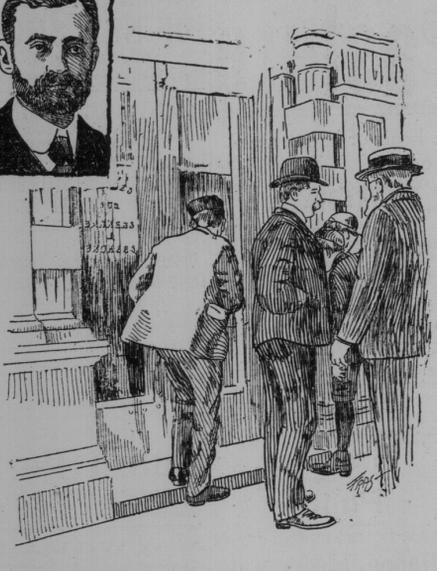

Public Does Not See. The public never seems to know that in the mass-storm of speculation the great percentage of those engaged in it have only one hope of making money...

Effect Elsewhere. But, far and above the Ames failure, and the feature of it which attracted the most attention this morning, was the effect it will have in other directions.

Struggling for Months. What was suspected, and what is now a fact, is that for months the firm has been struggling with the immense load of securities, which they have accumulated their clients to buy...

Mr. Ames apparently reckoned on the market in which he was operating, and the securities which he had recommended his clients to purchase...

to go in the Toronto market. Plotted Many Companies. In his day Mr. Ames also assisted in the flotation of a number of companies, some of which have proved successful, others disastrous.

As far as The World could size up Mr. Ames last night, he was a very straight man in all his dealings, very anxious to make money, but still more anxious to make money for his clients.

But, in view of the suspension of the firm of Messrs. Ames & Co., the directors think it well to state that the firm is indebted to the Metropolitan Bank in only the sum of \$50,000, which is so amply secured that the bank cannot possibly suffer any loss on the account.

Over-Speculation Result. The episode of yesterday, as contained in the above, is the result of over-speculation, a mistake doubtless often counselled against by the brokers now entangled, and who, despite their intimate knowledge of financial affairs, were caught in the whirl of speculative enthusiasm.

Beginning of the End. The unfortunate ending of the latter concern is thought to have been the beginning of the present trouble. It, at least, inured the reputation of the

CALL BRITTON A PARTISAN

Continued From Page 1.

ces had been heard by those who were anxious to hear them. The remarks concerning Judge Britton, the Premier regarded as entirely uncalled for. Because a man had appointed himself as a reason why he could not be an upright judge. Conservative politicians pointed out, had appointed politicians to the judiciary, and when had the impartiality of these judges been challenged, he believed Judge Britton to be an admirable man. True, Mr. Britton had voted on questions connected with alleged frauds in the administration of the Yukon, but added Sir Wilfrid Laurier, he voted as he should have voted. Sir Wilfrid Laurier had placed the commission on the table of the House in a few days.

An Intense Partisan. R. L. Borden recalled the fact that Mr. Britton was one of the men chosen to defend the government when investigation into West Hinton was ordered. Mr. Britton, he claimed, was one of the most intense partisans in the House. With so wide a choice as the whole judiciary of Canada, why, asked Mr. Borden, should Judge Britton have been chosen to conduct the inquiry in the Yukon? He regretted that the government had seen fit to appoint this Judge.

Mr. Borden took no stock in Sir Wilfrid's professions of righteous desire to investigate any charges that a member would make on his responsibility as a member of the House. Charges in connection with the Yukon had been made before by many other members, and he retired from public life if he could not prove his charges. That offer had been rejected by the government and a commission was refused. The serious charges now made of misconduct in the government of the Yukon were favored by friends of the government. They should, therefore, Mr. Borden insisted, be subjected to a searching and impartial inquiry.

Compliance With Rules. F. D. Monk said the opposition asked nothing but compliance with the ordinary rules of administrative decency in the appointment of the commission. He hoped that on more mature reflection, the government would decline to act. Rumors were afloat to the effect that certain of the Yukon hydraulic concessions were obtained only on payment of large sums of money to men higher in authority. Mr. Monk said he understood that a document in existence in London in connection with one of these transactions, and that the Prime Minister had been informed of the circumstances when he was in London last year.

Should Be Investigated. Mr. Monk claimed that it was not the opposition's part to prefer charges against the ministry. It was the opposition's duty, to call the attention of the government to such rumors, and the government should see that they were investigated. Mr. Monk shared the opinion that Judge Britton is too closely related to his political career to act with strict impartiality in this question.

Hon. A. G. Blair sized up the whole affair as a street rumour. It was almost inconceivable that the opposition should make itself the vehicle for spreading of such garbage. The government did not propose to make itself an object of ridicule by taking notice of street rumors. The commission in question was not appointed to ferret out the truth concerning certain rumors. It was entrusted with the study of the question of hydraulicity in the Yukon.

W. B. Northrup speaks. Mr. Northrup also spoke strongly against the method employed by the government to investigate the charges, and advocated a fair and sweeping enquiry. The House again went into committee on Blair's railway bill, but made little progress. Electric railways carrying freight were brought under the authority of the Railway Commission. The Minister of Railways struck out the clause limiting the speed at crossings to six miles an hour. Objector was taken to this course by some opponents who claimed that it was desirable to control speed at crossings. Mr. Blair argued that the absence of a definite limit gave the commission fuller authority, and it could act as the circumstances seemed to warrant.

NO YANKEE DEALINGS. Canada Said to Have Broken Off Reciprocity Negotiations.

Washington, June 2.—Hope of the re-assembly of the High Joint Commission has again been abandoned. A few months ago everything promised a meeting of the Joint Commission in Canada, probably Toronto, just after the adjournment of the Canadian parliament. Mr. Chamberlain's speech in the British parliament holding out hope for preferential treatment for British imports is said to be largely responsible for the attitude of Canada which now shows no desire to consider reciprocity with the United States.

STAGE STRUCK. Ottawa, June 2.—Blanche Bedard and Angelina Foutkner, aged 16 and 18 years, of this city, quietly skipped to New York last week to seek an entrance to theatrical life. Both are pretty and badly stage-struck. They had not more than enough money to reach Gotham. On instructions from Ottawa, they were arrested and held until tickets were forwarded, and the experience-wise girls are now on the return journey.

FEEL IMPURE FROM ROOF Workman on Traders' Bank Makes a Rapid Descent of Three Storeys.

HAMILTON GROCERS CAUTIOUS Plan Protection Against Credit Losses—Journeyman Bakers Unable to Cause a Famine.

Hamilton, June 2.—John Atkinson, 122 North West-avenue, fell from the roof of the Traders Bank this evening. It is a three-story building, and when his fellow workmen ran to pick him up, they thought his neck was broken. He was placed in the ambulance and hustled off to the City Hospital. After the doctors had made a careful examination they found that no bones were broken, and they expect to have him around again in a very short time, though he was badly bruised. That he got off with such slight injuries is a miracle.

The grocers of the city are planning united action against customers who allow their bills to run indefinitely. They think a month is as long as any one should have, and they talked at a meeting to-night of charging interest on all bills allowed to stand longer. They also arranged for a picnic at Victoria Park, Niagara Falls, July 17. They will go by the G.T.R., and will take the 12th Regiment Band with them. They expect about 5000 to take in the excursion.

The ministerial meeting and Sunday school convention of the east district Canada Conference of the Evangelical Association, opened this evening in the Market-street Church. About 100 delegates were present, and more are expected to arrive to-morrow. The speaker to-night was Rev. J. G. Litt, Waterloo. Rev. S. M. Hauch, Waterloo, and Rev. J. M. Meyer, Toronto, were also present.

There are no signs of a settlement yet between the master bakers and their striking employees. The bakers are contending to turn out enough bread to prevent a famine, and the journey-men refuse to go back to work until the rear of 157 North James-street, occupied by J. A. Von Gunten, were right, and in a position to meet any and all emergencies.

Theodore C. Taylor of the Crown Lands Department Got Half the Profit.

SUSPENDED DURING THE INQUIRY Frank Sullivan Intimated to Mr. McDermott That the Sale Would Be Private.

It developed during the course of the investigation into the Kutherford timber deal yesterday, that Capt. John Sullivan had a partner in the person of Theodore C. Taylor, an official of the Crown Lands Department, who received one-half of the profits. After the adjournment of the committee, Mr. Taylor was suspended from the department.

EAST END NOTES.

The members of Simpson-avenue Methodist Church were in great rejoicing yesterday on learning that the first draft of stations had been corrected, assigning Rev. Wesley Dean as their pastor. The service was held last Sunday, the Dean, he decided to act in accordance with the will of the church. The people's higher arrangement will stand in the final draft.

Several of the leading business houses of the East End will commence to-day to close their establishments on Wednesday. The closing will be on Wednesday and August. As many places had already begun the custom, the East End is expected to be a quiet affair.

BLOCK CUTTERS WORK.

Strike inaugurated March 18 is now called off. Gloversville, N.Y., June 2.—The block cutters' strike, which was inaugurated on March 18, and was followed May 8 by the manufacturers locking out the table saw cutters, has been called off. The workers in Fulton County, was settled this afternoon as a result of the intervention of the State Commissioner, Dr. Samuel B. Donnelly of New York, members of the Executive Committee of the National Civic Federation. A conference was held between the representatives and those of the Glove Manufacturers' Association and the Glove Cutters' Union rescinding resolutions previously passed and the Manufacturers' Association has agreed to the lockout resolution ordered by that body May 8. It is further agreed that the settlement is thus made of both sides, and manufacturers, which has hung fire for a long time, will be arbitrated. The settlement is to be effected by the Glove Manufacturers' Association and the Glove Cutters' Union.

PROF. CAVEN IN CRITICALLY ILL.

Suffering From Blood Poisoning—Result Difficult to Forecast. The condition of Rev. Dr. Caven last night was not as favorable as on the preceding day. The reverend gentleman is suffering from blood poisoning, caused by some lesion of the bowels, which is impeding the blood. Dr. Caven two years ago had an attack of appendicitis, from which he recovered without any operation, and since that time he has been suffering from a dangerous condition, also known as blood poisoning, and not now suffering any pain. The apparently critical condition of the patient possesses a wiry constitution, and it is now simply a question whether he can stand the operation. Dr. Caven and Dr. I. H. Cameron were called in for consultation yesterday, and the limits will be destroyed. Extensive operations were performed yesterday, and it is possible to forecast the result 24 hours ahead.

DANGER FROM BLACK BROS.

Lumber Mill on Back River on the line of the Quebec and Lake St. John Railway are at present in danger of destruction by fire. A fire engine was sent from Quebec at 4 o'clock this afternoon. A fire engine was dispatched with a detachment of ten firemen. It appears as if the bush fire started at River A. Pierre on Sunday last had been raging ever since. Some valuable timber limits are also in the vicinity and fears are entertained that the limits will be destroyed. Extensive bush fires are raging in the vicinity of Lake Beauport.

Capt. Sullivan was examined by Mr. Lucas. The \$2000 of money said he offered the Sullivan's \$2000 for the limit. He had received letters from Frank Sullivan in April of last year, offering the limit for sale and had afterwards made a bet with a man in South River that the limit would never be sold by public auction, but would be sold privately.

Continue Manual Training. Ottawa, June 2.—The Public School Board tonight decided to continue manual training in the schools. The experimental work under Sir William Macdonald's scheme has been in progress a year, and the results have been very satisfactory. The equipment now in use, worth several thousand dollars, is presented to the city by the Montreal municipality.

WOODBINE FAVORITES PAUL

Picketing Only First Choice to Finish in Front on O.J.C.'s Ninth Day.

EDGFIELD, 20-1, BARNACLE, 10-1

Daryl, 4 to 1, Beat Wheeler, 3 to 1, Procession, 8 to 1, Won.

Six favorites were beaten at Woodbine on the ninth day, picketing being the only first choice to score.

Edgfield, 20 to 1, Barnacle, 10 to 1, Daryl, 4 to 1, Wheeler, 3 to 1, Procession, 8 to 1, and Edgfield, 20 to 1, to place the other winners.

Both were closed with longshots, and both had some support. Stable money was behind the others, while Picketing's victory was the only one to draw all the layers.

firm in conjunction with others associated as directors, and was, doubtless, somewhat of a financial loss, even to the brokers.

Mr. Ames Optimistic.
Mr. Ames is credited with being one of the most optimistic men, and, to this, may be due his failure, or, at least, the Canadian money market was being overburdened by the introduction of American securities as the Toronto speculating public. With other local capitalists, Twin City was brought to the notice of local investors some three years ago, when the price of the stock was in the seventies. The stock proved a favorite for speculation, and the demand for the security was met by heavy importations of the stock from New York. The success with this venture led to a search for other bonanzas in the New York list, and the "S-S" stocks, Col. Southern, Am. Locomotive, and, last, Sloss, Sheffield, were seized upon as neglected waifs, awaiting development at the hands of Canadian capital. Now did this fill the category of favorites.

Domination Coal and Steel.
The possibilities of Domination Coal and Domination Steel were unshared, and added to the burden of the office. Under the impulse of prosperity, the banks assisted in swelling the movement, and only when the weakness of the situation was seen by the downward fall at New York was a curb put on here. Coal and Steel, Sloss and Twin were intermeshed, and the break in one was the signal for trouble with the others. Blame for the untimely pressure on these particular stocks has been placed on bears at New York and Boston, but one in close touch with the local position gives credit to Toronto for the final undoing.

Food for the Bears.
The weakness was seized upon as legitimate prey by speculating brokers and their friends to deal the knock-out blow to one whose career had been envied. "Had C. Ames not been the soul of honor," remarked one in touch with the inside history of the concern, "he could have met the market at the expense of those whose confidence he had so long won. He presses the feeling of many who regret the affair yesterday for the unfortunate firm, and expressions were general that the affair would and without the matter that many pessimistic ones predicted.

Extent of the Failure.
The extent of the failure can only be hazarded and the firm could give no information until a statement had been prepared. Besides doing a general stockbroking business, a private bank was run in connection with the house. The firm offered the extra-ordinary dividend of one per cent. to depositors over the chartered banks, and a reasonable estimate of the holdings through this channel it is thought, would reach \$500,000. This will form one branch of the liabilities. The others will be made up of margins on stocks carried for clients, and indebtedness to other financial institutions for advances on stock collateral. The Bank of Commerce is interested to the extent of a quarter of a million, under the latter head, and it is thought to be within bounds to state that the firm would be carrying at Toronto other financial centres, stocks that would aggregate in the neighborhood of \$2,000,000.

Assisted Clients.
The firm is recognized as having liberally assisted clients during the long and strenuous time in the stock market, but unless it was for the heavy holdings itself the losses are not thought to be very heavy. In fact one prominent bank official expressed an opinion that careful management of affairs should bring the firm out of trouble without any serious losses to outsiders. A cloud has been hanging over the local market for several months, and the unwelcome news of yesterday is thought to have dashed it and rendered the situation more bright.

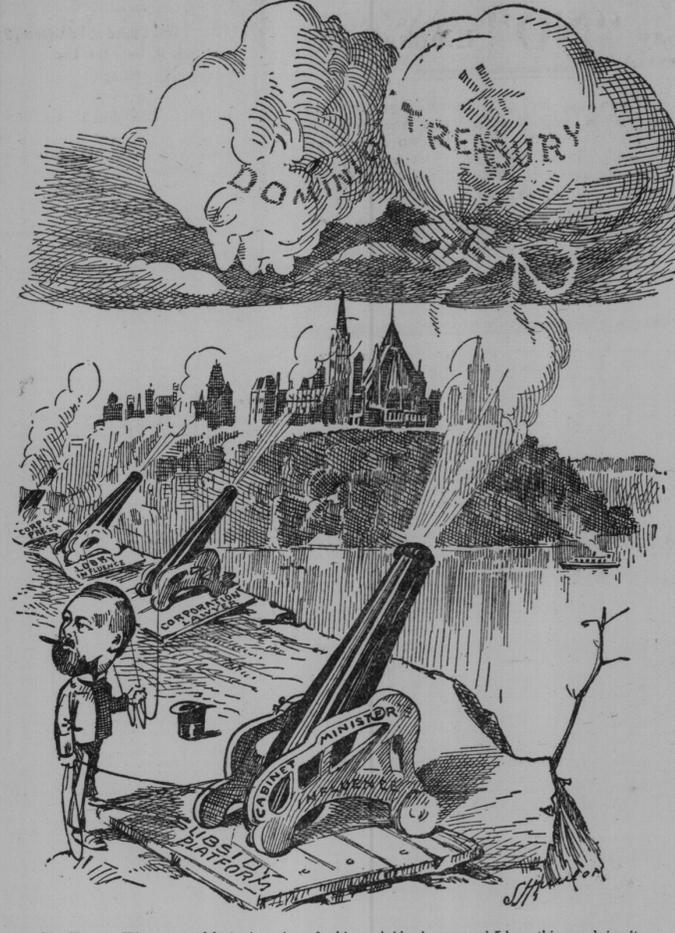

News Leaked Out.
The news of the pending suspension would appear to have been known to insiders, some time previous to the actual climax. The specialties in which the A. E. Ames firm were interested have been particularly weak for a week or more, and the word was around that Twin City, and Sloss were good short sales. The price of Twin City a few days ago was 107 and of Sloss 57. During the height of the boom last summer, the stock of Ames & Co. was sold as high as 129, and Sloss 83. Yesterday when excitement was at its height, the firm sold down to 112, and Sloss to 41. Domination Coal and Domination Steel in which the firm were not quite so intimately connected, also felt the effect of the smash, the coal stock being compared with a high price of 148 and steel to 121-2 against a high level of 70.

Stock Market Notified.
The local stock market was in session when the firm announced its suspension, and on regular form this was communication to that body. Intense excitement prevailed among the members, and securities all thru the day were let without regard to value. On the afternoon board a calmer feeling prevailed, and stocks were purchased and thrown over early in the day were reclaimed at higher prices on second board. The firm had been on the board during the early morning, and under exchange rules these stocks were re-sold on the firm under the rule. The firm holds three seats on the Toronto Stock Exchange, and the value of these, according to current prices, would be about \$10,000.

General Uncertainty.
General uncertainty has prevailed thru the financial circles in the city for several months, owing to the continued depression on the stock markets. Not only has Toronto been affected, but the influence has been widespread in New York, London, and on the continent the same oppressive state of affairs has been witnessed, and this in the face of a world-wide prosperity. Attempts have been made to account for the turn of affairs, but no solution touching the basis of the matter has been forthcoming than that of a season of reaction following a period of inflation. Contentment with this has come a general stringency in the money markets, and a feverishness induced by the demands of labor.

A Good Omen.
The local stock market is closely interwoven with New York, but strangely acted at cross purposes yesterday. When Canadian stocks were making for bottoms, thought to be out of all reason commensurate with values, Wall Street securities were mounting in price, as they have not done for a month past. This was taken as a favorable omen of the future, and resulted in some measure to detract from the black outlook to many. Local brokers spoke hopefully of the market, and looked after yesterday's happenings, and spoke freely of the worst having been anticipated.

None of the other brokers are thought to be in any way directly affected by the suspension of the A. E. Ames Co., and the suspicion that any other concern would be brought into difficulties is resented. Most of the prominent banks were interviewed by The World during the day, and in every instance little weight was given to the suggestion that these financial institutions would be injured. "Any loans we have," was the stereotyped answer, "are fully covered by the stocks deposited against them, and the banks would benefit to a considerable extent if they were not redeemed." It was also felt that many securities which had for a long time been carried with Canadian money would return to the States, now

Mr. Hays: What we need badly is a nice refreshing subsidy shower, and I hope this may bring it.

NOTE.—The Mayor would solicit the government to permit the firing of the Nepean Point cannon in hope that the heavy concussion may produce rain.

CAREER OF A. E. AMES.
Mr. Ames is one of the most prominent men in the financial world of Canada. A man under 40 years of age, by his ability and industry he has achieved the position of a millionaire. He is a native of New York, and came to Toronto in 1880, up to that time he had been identified with the financial circles of New York. He received his education at the University of the City of New York, and then at the University of Toronto. He was a member of the Ontario Bank Branch at Mount Forest. Since entering on his career as a broker and financier, Mr. Ames has been successful in many ways. He has been a member of the Toronto Stock Exchange since 1880, and has been a member of the Metropolitan Bank in Toronto. At 21 he was manager of the Ontario Bank branch at Mount Forest. DOMINATION STEEL BREAK UP.
The almost total break-up in the different issues of Domination Steel has had much to do with the present depression in the stock market. The total capital of Domination Steel is \$25,000,000, and during the month of prices last year the market value was nearly \$25,000,000. The shares were sold at 107 and 108, and the total value has been reduced to less than \$10,000,000. The comparative prices of the three classes of stocks are: Common, high 79; today's low, 12 1/2; pref. 101, today, 57; bonds 95, today, 47. The break-up in the securities of this concern has had much to do with the depression in the stock market, and has caused a loss of confidence in the securities of other listed stocks, much to their detriment.

Restored the Province.
The speculative fever last year percolated the whole province, and the way the news will be received in outside towns and villages cannot be forecast. Clients had scarcely time to get in touch with their brokers yesterday, and some liquidation from these outside sources may be forthcoming today. The time is thought to be one when the interests of all concerned are directly affected. Many brokers have reached the limits of their clients' resources, and are now counting on the fact that their own expense. The banks are not without further deepening the markets, and indirectly, their own holdings. This is the worst of it, it is expected that joint action will be rendered to prevent any unnecessary further disruption, and thus avoid any appearance of a panic. Stock speculation has ramifications in all directions, and businesses of all descriptions will feel the effect of the wreck in values.

A few days prior to the suspension, the A. E. Ames firm had a sale, and called on clients for a further protection of 20 points on all stocks held, and the fact that this was not done is thought to have precipitated the trouble. It is thought that this was the real reason for the suspension, and that the Canadian Bank of Commerce to further acknowledge charges drawn on that institution by the suspension.

Lost About \$360,000.
A. E. Wallace, who is a member of the firm, came from St. Thomas, and was the only one having made considerable money prior to joining the partnership. Street gossip is free regarding the loss.

Lacked Energy and Ambition.
The local stock market is closely interwoven with New York, but strangely acted at cross purposes yesterday. When Canadian stocks were making for bottoms, thought to be out of all reason commensurate with values, Wall Street securities were mounting in price, as they have not done for a month past. This was taken as a favorable omen of the future, and resulted in some measure to detract from the black outlook to many. Local brokers spoke hopefully of the market, and looked after yesterday's happenings, and spoke freely of the worst having been anticipated.

None of the other brokers are thought to be in any way directly affected by the suspension of the A. E. Ames Co., and the suspicion that any other concern would be brought into difficulties is resented. Most of the prominent banks were interviewed by The World during the day, and in every instance little weight was given to the suggestion that these financial institutions would be injured. Nothing Further Expected.
Failure of A. E. Ames & Co. May Clear the Financial Air.
The financial world is truly sorry for A. E. Ames, and the best opinion does not expect their failure to affect other monetary institutions.

Will Not Spread.
H. S. Strath, general manager of the Traders' Bank, "I don't believe it will spread."

CURED HIS BRIGHT'S DISEASE.
FORMER PRESIDENT OF BRICKLAYERS' UNION USED DODD'S KIDNEY PILLS.
Andrew McCormick of Toronto Tells of a Cure for the Most Dreaded of All Diseases.

Toronto, June 2.—(Special.)—In these days when the dread Bright's Disease seems to be selecting its victims at will the report of an authenticated cure is received with relief by all classes of the community. It is a report from Andrew McCormick of 243 Spadina-avenue, this city, and highly respected as evidence by the fact that he has held high offices in several fraternal societies, and was for several years President of the Bricklayers' Union. Interviewed regarding the cure, Mr. McCormick says: "I suffered from Bright's Disease and naturally was much troubled concerning it. I heard of the wonderful cures effected by Dodd's Kidney Pills and concluded to try them. The result was so satisfactory that I give my pleasure to recommend them. Make and keep the kidneys sound by using Dodd's Kidney Pills, and there can be no Bright's Disease."

Was All Run Down and Had Severe Headaches, But Chase's Nerve Food Cured Her.
Mrs. N. W. Williams, 212 Gerrard-street East, Toronto, says: "I was very nervous and did not sleep and had severe attacks of nervous headache. My system seemed to be all run down, and I lacked energy and ambition. After having used several boxes of Dr. Chase's Nerve Food I am, with perfect truthfulness, able to say that it has been a great benefit to me. It has strengthened and restored my nervous system and cured my headache. I sleep and rest well now, and would not be without this medicine for a great deal."

By using a few boxes of Chase's Nerve Food, you can prove that your system is being built up, and new flesh and tissue being added to the body. 50 cents a box, six boxes for \$2.50, of all druggists, or Edmund B. Chase & Company, Toronto. To protect you against imitation, the portrait and signature of Dr. A. W. Chase, and a famous receipt book, are on every box.

MURDERER IS NO TRAMP.
Continued From Page 1.
The officers who are found roving around to explain whence they came and where they were last Wednesday, this man is expected to assist the authorities materially. Long this line the people of putting but one detective to work on the case, the government should have sent half a dozen men to Collingwood and vicinity.

SHOULD BE NO LOSS.
W. T. White, general manager of the National Trust Company, being interviewed, said: "I, of course, am not in any way cognizant of Messrs. Ames & Co.'s affairs, and regretted very much to hear of their suspension. I can only surmise the cause to be the continuous shrinkage in the value of American and Canadian securities, and the consequent demand for margins. The trouble seems to be the American more than the Canadian situation, and I am quite sure it will be found that Canadian banking houses are well secured by the American situation. If the banks exercise a reasonable care, there should be no loss on collateral margined below the present very low prices."

NEWS AT OTTAWA.
Sensational Surprise, But No Agency in the Capital City.
Ottawa, June 2.—(Special.)—News that the A. E. Ames Company had suspended payment reached Ottawa early in the day and created a big surprise. The first news came to local ears from a New York agency. One of these New York communications was as follows: "A. E. Ames & Co. of Toronto, whose suspension was announced today, were the most important brokers in that city. The firm was interested in C.P.R., Sloss, Sloss Company and Twin City."

Denies the Rumor.
Byron E. Walker, general manager of the Canadian Bank of Commerce, denied emphatically the rumor that was going around that the Bank of Commerce was to some extent at least responsible for bringing on the crisis, and that the bank would not suffer in any connection of any kind in this city outbreak of business with them. The Bank of Commerce had the cash account of Ames & Co., but their liability was very small, less than a quarter of a million, covered by general securities.

Local Speculation.
The local speculators were too keenly interested in the sensational fluctuations of the day's market to give any attention to the suspension of the Ames & Co. The banks and other financial institutions, however, the most acute interest was displayed and speculations as to the possible outcome were freely indulged in.

Doctors Working Hard.
Since the body was found Thursday morning, with the shot thru the brain, the physicians have been carefully studying the physical and chemical aspects of the case. Dr. McCall will make his report of the post-mortem tomorrow, if the jury meets. It is known absolutely that no delirium of the body took place, nor was even attempted. An irresponsible source started a report to the contrary, which was given publicity thru the press, to the distress and annoyance of the family, and the annoyance of the officers.

NOT MAN WANTED.
Bellevue, June 2.—(Special.)—The new Premier, R. McBride, has decided to form his Ministry strictly upon party lines, and the cabinet will be a straight Conservative one. Premier McBride will take the position of Chief Commissioner of Lands and Works; R. G. Tait of Vancouver, Finance Minister; Charles Wilson, Conservative leader in British Columbia, Attorney-General; R. P. Green, of Kelowna, Minister of Mines; J. P. Fulton, Provincial Secretary, and A. P. McPhillips of Victoria, President of Council.

RECEIVED WITH REGRET.
Woodstock, June 2.—The news of the suspension of A. E. Ames & Co., bankers and brokers, of Toronto, was received with unusual interest and regret in this city, where Mr. Ames is well known. He is the son of Rev. W. Ames of Bay-street.

MAIN'S CIRCUS IS HERE.

It is therefore true that the British manufacturer has a good deal of difficulty in increasing his sales in Canada.

This morning witnessed the coming into town of the first circus of the glad summer time—Walter L. Main's circus.

The circus came into the city over the Grand Trunk railway a few days ago.

Those who were at the scene this morning witnessed another interesting feature, the unloading of a circus and menagerie done on scientific principles.

ASSESSMENT ACT STANDS

Taxation Bill Will Have to Wait Till Next Session of Legislature.

PEOPLE ARE TIRING OF DELAY. Special Committee Will Meet in September and Continue the Measures.

The important question of taxation will not be finally disposed of this year. After several sessions of the special committee appointed to consider amendments to the Assessment Act it was decided yesterday to defer any changes of a contentious character.

The report of the committee was presented by the Attorney-General, Mr. Whitney said it was unfortunate that another year should elapse before anything was done in the direction of a change in the system of municipal taxation.

Plans for the new freight sheds and yards of the C.P.R. on the old government property north of Front-street will be started at once. Building will begin on the sheds July 1.

While conditions in the local freight yards are not congested at present, there is nevertheless a large volume of freight pouring into the two companies' sheds here. The changes effected in the working time of the employees at the Grand Trunk's sheds have materially aided in the prompter despatch of freight to city merchants. Complaints against the C.P.R. and Grand Trunk have ceased and now everything is running smoothly.

Thomas Walklate yesterday received word of his promotion to general agent on the C.P.R. He succeeds J. H. Webster, who has been given the position of chief of way agent.

Two sections of the North Bay train left the Union Station yesterday, one bearing the General Assembly of Presbyterian Ministers to the Pacific coast. This section will run right thru Vancouver, instead of stopping at North Bay. The clergymen's train comprised six sleepers, a diner and baggage car.

J. E. Quirk, secretary of the American Association of Baggage Agents, is busily engaged completing preparations for their twenty-third annual convention to be held at the Royal Muskoka Hotel, Lake Rosseau, on June 17. Baggage agents from all the principal railroads in the United States and Canada will be present. Several important matters relating to baggage agents' duties are to be discussed and dealt with. The Pullman Company have generously offered free use of their coaches for members to and from Muskoka and Toronto.

Plans for a new station at Kerwood are being prepared, and it is likely that the present one is sadly out of repair, and an application for improvement is most likely to result in a new building.

W. C. Bowles, assistant general freight agent on the C.P.R., at Belleville, is to be married to-day at Woodstock. Miss Sheddin, for some time a nurse in Woodstock, is the happy bride. They leave for Montreal this evening, stopping in this city for a few minutes on their way thru. After a few days' visit in the home of Mr. Bowles, the happy couple will return by the lake route to their home in the west.

Twenty-five servant girls arrived at the Union Station yesterday. Those who had heard their country girls who were at the station with the hopes of securing their services were doomed to disappointment. Every girl had been "spoken for" before she touched foot in the station. The male immigrants, to the number of ninety, who arrived at the same time, were principally mechanics. Fear of not being able to secure positions at their calling, induced a number of them to accept the offers from farmers for summer help.

The annual meeting of the directors of the Toronto, Hamilton and Buffalo Railway was held yesterday at the Queen's Hotel. President J. N. Rockley and Treasurer Charles C. Cox presided at the annual report, showing that the affairs were in a satisfactory condition. Considerable new work in the way of improvement has been authorized and new engines will be purchased and other equipment. The following directors were re-elected: William K. Vanderbilt, J. N. Rockley, Sir Thomas Shaughnessy, William H. Newman, N. Endicott Peabody, Henry B. Ledyard, and Charles F. Cox.

METHODIST CONFERENCE TO-DAY.

Annual Gathering of Ministers to Discuss Welfare of the Church.

The Methodist Conference opened yesterday with the session of the Statistical Committee at Elm-street Church. Returns were not complete and the business of the committee could not be finished. Rev. A. F. Mackenzie occupied the chair. The treasurers of the Connexional Fund met the financial secretaries of Canada and received payments. The Superannuation Fund is reported well paid up, with none of the friction that has marked former years. There was a decided improvement in all the funds.

To-day there will be a ministerial session, commencing at 9 a.m. The characters of ministers will be examined; probationers will come up for discussion, and the annual pastoral address to the congregations will be prepared. Under the superintendence of ministers the cases of Rev. H. M. G. Thews, East Queen-street, and Rev. R. Large, West Essex, will be considered. In the evening Rev. Dr. C. Eby will lecture under the auspices of the Theological Union. Tomorrow the general sessions will open with sacraments service from 9 to 10 a.m., conducted by Rev. James Allen, president of the conference.

LONDON CONFERENCE.

Wincham, June 2.—The 20th session of the London Conference is being held this week in Wincham. The Statistical Committee met on Monday and Tuesday and probably will sit far into the night. The conference secretaries and the conference treasurers are busy with their respective work. The ministerial session began to-day at 2 p.m. The president, Rev. A. I. Russell, B.D., was in the chair. Rev. Dr. Carman gave a spirited address on other practical questions. The Epworth League Conference anniversary was held to-night. Addresses were delivered by Rev. G. H. Cobbedick, B.D.; Rev. R. Hamilton and Mr. Johnston.

Two Towns Taken.

Hong Kong, June 2.—The French Consul reports that the insurgents in Yunnan Province have captured the Towns of Chepinshan and Honchun in communication between Yunnan and Tonquin is cut.

EXPERT TESTIMONY.

Coffee Tried and Found Faulty. No one who has studied its effects on the human body can deny that coffee is a strong drug and liable to cause all kinds of ills, while Postum is a food drink and a powerful restorer that will correct the ills caused by coffee when used steadily in place of coffee.

An expert who has studied the subject says: "I have studied the value of foods and the manufacture of food products from personal investigation and wish to bear testimony to the wonderful qualities of Postum Coffee. I was an excessive coffee drinker, although I knew it to be a slow poison. First it affected my nerves and then my heart, but when I once tried Postum I found it easy to give up the coffee, confirmed coffee fiend though I was. Postum satisfied my craving for coffee and since drinking Postum steadily in place of the coffee all my troubles have disappeared and I am again healthy and strong. I know that even where coffee is not taken to excess it has had effects on the constitution in some form or other, and I am convinced by my investigation that the only thing to do is health and happiness are of any value to one is to quit coffee and drink Postum." Name given by Postum Co., Battle Creek, Mich.

SUFFERED FOR THREE YEARS.

HEADACHES AND RUSHING OF BLOOD TO THE HEAD.

APPETITE WAS GONE.

TRIED MANY DIFFERENT REMEDIES BUT

BURDOCK BLOOD BITTERS CURED

MRS. WALTER MANTHORNE, BROOKLYN, N.S.

She says: "I suffered for three years with terrible headaches and rushing of blood to my head. I lost my appetite and became very thin and weak. I tried many different remedies and consulted doctors, but all in vain until I started to use Burdock Blood Bitters. I had taken more than two bottles when I began to feel better, my appetite improved wonderfully and I increased rapidly in weight. I took altogether four bottles and am now as well as can be, for which I owe my thanks to Burdock Blood Bitters. I can recommend it to all those suffering as I did."

KILTIES' BAND HOME.

Belleville's Famed Touring Organization—The Pride of Canada.

After the longest tour in the history of any musical organization in America, the Kilties' Band (Gordon Highlanders, Belleville) returned to Canada yesterday. The dozen Hamilton members and Bandmaster William F. Robinson, were met on arrival by the city and a number of their old associates in the 15th Regiment Band, relatives and friends, and at Toronto where the majority of the Kilties reside, a proportionate number of enthusiastic friends awaited the band's arrival. The remainder of the musicians, drummers, pipers, etc., who are from Montreal and Belleville, proceeded to Belleville today in their private car Thistle. The men came home loaded down with curios with which they were presented by admiring enthusiasts in old Mexico, Arizona, California, British Columbia, etc., and the fact that the forty-eight weeks' tour has included a grand tour of the United States and Mexican cities has made the men's collection varied and interesting. During the tour over 200 cities have been visited from coast to coast and south to the gulf, and 32,000 miles have been covered. Remarkable as the tour, a single concert was missed nor delayed by accident or otherwise, which was a record in itself and every man carried home the picture of health, despite the varied climatic conditions and the arduous task of giving two concerts every day in order to cope with the demand of the Kilties' services. The tour closed in Boston, being the fourth appearance of the band, and the director of the band, and T. P. J. Power, director of the tour, are now in Belleville completing arrangements for the next tour, which begins after four weeks' rest, on July 1. The chief summer engagement will be at Willow Grove Park, Philadelphia, where the band will appear fifty strong the greater part of July, the Kilties' attendance record of 150,000 at that great resort on July 4 last having led the park management to once engage the "Pride of all Canada" for this year.

GAS AT PORT DOVER.

Port Dover, June 2.—Port Dover Nature Club has been successful in striking an excellent blow of gas at a depth of 1140 feet. The gas was struck on last night, and nearly 2000 people enjoyed the excitement of seeing the illumination made by the company at their well. They set it off several feet above the surface, and 70 feet from the mouth of the well. When its full strength was turned on it fairly roared. The explosion lasted about half an hour. The town is much excited at having natural gas for light and fuel. A great number of electric lamps, eight miles away, saw the illuminations. The company intend sinking down several more wells as soon as possible.

CONDEMNED POLITICAL CORRUPTION.

Kingston, June 2.—The Synod of the Diocese of Ontario is session here reviewing the work of the year. The finances, which amount to over half a million dollars, were reported in excellent condition. The charge of the Bishop to-day took an hour and a half in delivery, and was very comprehensive. He handled the political corruption of the parties without gloves, and called for purity, truth and honesty in political matters. Good men, he said, would soon drive the political jackals into seclusion. He attacked also the mode of labor organizations in bringing on strikes, and preventing workers from properly exercising the liberty due every British subject.

400 Horses at Auction.

On the 17th, 18th and 19th of this month, at the Repository, corner Simcoe and Nelson-streets, Toronto, there will be held an immense sale of 400 ranch bred mares and geldings, from yearlings to six-year-olds, all bred from imported coach and thoroughbred sires. They are consigned by Mr. G. H. Hayden of Duncan Station, British Columbia, and are being sold on account of this large ranching company having given up horse breeding and going exclusively into cattle breeding. All will be sold without the slightest reserve.

Christina Endeavor, Denver.

The International Convention at Denver, July 9 to 13, the official route selected by the transportation managers for Ontario and Quebec is via the Chicago and North Western and Union Pacific Railways. Special train of tourist sleeping cars through to Denver. Tickets on sale July 6, 7 and 8. Return limit Aug. 31, 1903. Very low rates from all stations in Canada. Write for full information to W. H. Bennett, 2 East King-street, Toronto. 35

Saturday to Monday Excursion Fares.

Commencing Saturday, June 6, the Grand Trunk Railway will issue a trip excursion ticket from Toronto to points within a radius of about 100 miles, including Hamilton, Brantford, Bethel, Muskoka, Chubb, Grills, Peterboro, etc. Tickets good going by all trains Saturday and Sunday, valid to return Monday following date of issue. For tickets and all information apply to City Ticket Office, northwest corner of King and Yonge-streets.

Anthony Hope Engaged to "Dolly."

New York, June 2.—The engagement of Anthony Hope, novelist, to Miss Elizabeth Sheldon of New York was formally announced to-day at the wedding breakfast of Miss Sheldon's sister, Miss Suzanne Sheldon, the actress, says the London correspondent of The Herald.

IN THE COURTS OF JUSTICE.

Judge Teetzel Hands Down His First Decision.

A writ was issued by C. W. Kerr yesterday on behalf of the Boston Rubber Co. of Montreal against the Halby-Boyd Shoe Co. and J. W. Bain, secretary. The claim is for about \$2000 on an open account and for detinue on goods wrongfully retained by the defendant. An injunction is also sought to restrain the shoe company from dealing with the goods of the Rubber Co. in their possession. Mr. Bain is sued as a guarantor of the account.

Court of Appeal.

Leave to appeal was granted yesterday in the case of Emile Noel of Ottawa, who was sentenced to five years' imprisonment for shooting at one Larocque. There are technical objections to the drawing of the Grand and Petit Jurors, and to the exclusion by the trial judge of certain evidence.

Divisional Court.

The appeal of Frederick Colbourne from the decision of Chambers J. in his action against the Hamilton Steel and Iron Company was argued yesterday. Colbourne was an employee of the company, and was struck with a steel bar and suffered serious injury to his spine last July. The Chancellor dismissed his suit, but he claims there was evidence of negligence. J. A. Baileiff sued the Hamilton Cash Register Co. for commission on the sales of all registers sold between Toronto and the Atlantic. The company said his territory extended to the west coast, and are now appealing from the report of the Local Master confirming the salesman's version.

Court of Appeal.

The case of Sexton v. Cook stands adjourned until Friday. Mrs. L. A. Cook secured a summary judgment against W. P. Sexton, and his wife, and sought to recover \$300, due Sexton & Co. from the College of Physicians and Surgeons. W. P. Sexton, a son, claims that he is the Sexton Co., and that the money belongs to him.

Judge Webster yesterday heard the case of Abraham Hisey, a farmer of York County, against A. C. Hallinan of similar acquisition. It was alleged that Hallinan agreed to pay two per cent. on \$5000, the sale price of his farm, and also agreed that the amount should be charged to his land. The contract was assigned by Daly to the plaintiff, who claims \$1300, and interest and at Toronto where the majority of the defendants stand. There are a large number of witnesses, and the case will go on all day.

Probate Court.

William Burns, the Customs House clerk, who died some months ago, left an estate worth \$3000. His widow seeks administration, as there is no will. He owned 131 William-street, and had over \$1000 in cash.

Trial Court.

Mr. Justice Teetzel handed out his orders yesterday. It decides the action of J. P. Daly v. J. P. Trivett, a dispute over possession of 14 acres of land in North Gwillimbury. The executor of the Cavities estate were made defendants as a mortgage of the property had been made to them. They made a disclaimer, however, of any interest in the property, and had the action dismissed as against them. A security discharge was given, and the holds has a good paper title to the land, but that Trivett received it in a state of nature, and had occupied it for over ten years before the action was begun so that he now is entitled to hold it.

Division Court.

The Remington Typewriter Co. secured a judgment against Power and Chanter for a machine sold on the instalment plan. The defendants pay \$10 a month until the price—\$85—is made up.

J. C. Pearson got a judgment against William Durham Esq., Toronto, for groceries, \$8.90.

The Singer Manufacturing Company sued D. J. Armand Esq., Toronto, for \$43 on a machine. The machine will be returned, and Mann will pay the cost.

William Sanderson and S. R. Graham must pay \$90.78 to John Ewing on a bill of exchange.

Suspension of a Prominent Broker Brings Heavy Losses in Numerous Stocks. NEW YORK STOCKS ARE FIRMER

Local Stocks Recover Towards the Close—Quotations and Gossip. World Office. Tuesday Evening, June 2.

The stock that has been hanging over the local market for some months was partially dispensed this morning in the announcement of the suspension of the firm of A. E. Ames & Co., brokers. The quotations on the various exchanges tell the story of fluctuations and the price which the firm were principally affected. The whole market felt the effect of the panic prepared by the news, and the price of the stock was heavy at New York, where 20,000 shares were accounted for. As the day wore on, the scared feeling was somewhat dissipated, and the price rallied to 100 at the close. The stock sold down to 85, then recovered to 100, and finally to 115, like losses were in evidence all through the day, where any realising had to take place. The feeling was more cheerful at the close of the market, and it was felt that the depression and most recent rise were being offered in many directions. The feeling was more cheerful at the close of the market, and it was felt that the depression and most recent rise were being offered in many directions.

The effect of the suspension at Toronto was felt at Montreal and Quebec, and the price fell right and left, until liquidation was again, and then prices began to rally. The demand for loans is heavy, and the rate is also thought likely to induce a lower bank rate in the near future.

At Boston today Dominion Coal closed bid 145, and asked 150, and Dominion Steel bid 75 and asked 78.

Foodstuffs in Kansas less serious than reported at Topeka, but more in Kansas City. Missouri dangerously high at St. Louis.

Sugar dividend regular rate expected. Fifty-five roads April net increase 16.40 per cent.

Two hundred and fifty thousand dollars sold for Argentine today. Speculators think genuine liquidation in R. I. about over.

Good demand for Pennsylvania, R. I. and C.P.R. in loan crowd. No likelihood of a strike in Republic Iron and Steel.

Five hundred thousand dollars good order for export Thursday, and more expected. Time money share firmer.

Total gold exports on this movement, which commenced April 29, aggregate \$12,350,000, or \$1,000,000 more than \$11,350,000 to Argentina.

Pennsylvania dividend of Pittsburg and Erie, directly opposite, April gross increase \$1,908,000, net increase \$997,000.

J. L. Campbell & Co., a London cable today quoted Hudson Bay shares at 240 1/2.

Joseph Aspley, the short interest in Atchafalaya, and the fact that the stock is being sold at a price of 100, and the price is being sold at a price of 100, and the price is being sold at a price of 100.

The recent weakness of Stess, Sheffield, and a New York despatch, has not been met by the market, and the price is being sold at a price of 100, and the price is being sold at a price of 100.

Laidlaw's Boston letter: At the opening today there were signs of support in gold, and a number of the shorts were around 85. As soon as this buying ceased, however, it was evident that the market was pressing for sale, and prices fell rapidly to 80, and it was evident that the market was pressing for sale, and prices fell rapidly to 80.

D. I. opened at 131 1/2, sold down to 12 1/2, and rallied to 14 1/2 at the close. The market was very active, and the price is being sold at a price of 100, and the price is being sold at a price of 100.
