BERLIN KILLS OFFICER

Tragedy Occurs at Olean, N.Y., and Nelson Dessler, Wanted Here, Too, May Also Die.

Nelson Dessler of Berlin, Ont., discovered in the act of burglary, shot and killed a police officer at Olean, N.Y., early Sunday morning and was himself fatally shot, it is believed, in a revolver duel with another policeman. He escaped, but was found practically dying in his room in a hotel during the afternoon.

Dessler is about 30 years old. His parents are respectable residents of Berlin, but Nelson is given the reputation of having always been regarded as a "bad boy." Six years ago he was convicted of burglarizing a number of residences while the occupants were at church, and was sentenced to five years in the penitentiary at Kingston. He was released on parole after serving three years, and came to Toronto. On Dec. 20, 1905, and while employed at the Mason & Risch piano factory, a warrant was sworn out for him here for the theft of a suit of clothes and an overcoat from Emil Nispege, a tailor at Shaw-street. He disappeared, and although Chief O'Neill of Berlin kept a keen lookout, it being thought he would turn up there, no trace was found of him for some time. He was in Berlin one night recently and told an acquaintance he was traveling for some American firm.

Mr. Bertram To Be the Collector of Customs

OTTAWA, Feb. 22.—(Special.)—It was stated to-night that to-morrow the appointment of John H. Bertram as collector of customs of the port of Toronto will be officially announced.

The announcement will come as quite a shock to a large number of politicians who have been active in behalf either of themselves or certain gentlemen of long service to the party. It would seem, tho, that civil service reform is about to be begun in real earnest.

Mr. Bertram is a son of the late George Bertram, M.P. for Centre Toronto. He has had a long service in the customs house, and as surveyor of the Toronto Customs House for the past five years has been the practical head of the department. Largely signed petitions from employers and business interests were received in his behalf.

ITALIAN GETS BADLY MAULED

Eight Stab Wounds, 2 Broken Ribs and Severe Bruises—Others Say He Attempted Murder.

Stabbed five times in the left shoulder, and three times in the middle of the back, two of his ribs broken, a cut on the back of his head, admitted by a stick, great contusion, lacerated by a stove iron, and bleeding like a stuck pig, Liberato Figliola, an Italian, was able to walk north, and was taken to the hospital with two other Italians by P. C. Davidson at the conclusion of a Sunday evening riot in the ward.

From the police station he was sent in the police ambulance to St. Michael's Hospital, where the full extent of his injuries was ascertained. The other prisoners are Raffaele Madalino and Dominico Caporichino, living at 85 Edward-street, where the riot occurred.

The former declares that Pignotti attempted to murder him with a revolver which was discharged once in volver which he and his wife and brother-in-law used the knife and cut on his left hand, and that he was wounded on the right hand and that he caught by the revolver from a table and fired it to protect himself.

It was only on account of 4 of the cartridges being rim percussion that someone was not shot. The one that did explode in the air was a "centre fire."

The fight was over a game of cards which took place Saturday night in Raffaele Madalino's home, who lives at 211 Centre-avenue, got ugly during the game, and came back at 5:30 p.m., yesterday armed with a revolver to finish up. According to the story of the two prisoners in No. 2 station, he called Madalino aside and attacked him with a pocket knife. Madalino, in the struggle for its possession cut his right thumb and a finger badly cut. Then Dominico Caporichino, brother-in-law of Madalino, interfered when Pignotti relinquished the knife and whipped out a revolver and fired, but in the struggle the shot went wide.

Madalino drove the knife six times in Pignotti's shoulder and four times in his back, while Caporichino and Mrs. Madalino belabored him over the head with a stick and a stove iron. At the hospital the wounded man told Detective McKinney that Caporichino started the fight by clouting him over the head with a stick, when they were having an argument and that when he lost possession of the knife he ran out into another room and grabbed the revolver from a table.

"I'm sure I shoot after I am stabbed," he persisted. "While his body bears evidence of only eight cuts, his undershirt is punctured in 15 places. The wounds in his back are about two inches deep, one dug into the back bone at the junction of the ribs. His two broken ribs were the result of being kicked on the side. All three participants have been considered respectable and civilized above the average Italian laborer, and when the average Italian laborer, and when the entire exhibit has been sold, the indications are that the orders will exceed our factory output."

"Where is Tommy Russell," somebody asked. "I don't know, he is all over. Everybody wants Russell; he is liable to hob up anywhere."

HOLLAND WAS BIG OPERATOR

Preyed Extensively on Dominion Express Co. in Ontario, U.S. and England—His Latest Game.

Chris. Holland, now under arrest in Philadelphia, will likely be extradited on afternoon charges of uttering forged cheques at Toronto banks. Three of these charges embrace his dealing with the Bank of Toronto.

Superintendent W. H. Welsh of the Canadian Detective Bureau, tells of his tracing Holland up till the time of his arrest in Philadelphia Thursday last. He says that on August 7 last Holland secured the letterhead of Thomas Bros. of St. Thomas, Ontario. Upon this he forged a letter of reference as follows:

"St. Thomas, Aug. 7, 1908. 'To whom it may concern, re A. M. Holland: 'Mr. Holland has resigned his position as salesman and assistant sales manager in order that he may be free to look for an opening which promises him a more important future. 'He is a first-class salesman, sober, honest and keen for business, and is an excellent office manager. 'We heartily recommend him. (Signed) Thomas Bros., Ltd., Vice-President.'"

This was found in his safety deposit box at the Bank of Commerce on Saturday afternoon.

How He Hit Express Company. On August 11 he phoned the Canadian Express Co. saying that White & Company were speaking and asking that a book of money order blanks be sent to the firm. The detective says Holland gave a written order for these blanks for \$20, a man named Barker, 400 worth in Brampton, Paris, Galt, Woodstock, Preston, London, Sarnia, Leamington, Niagara Falls, and other names, using 13 orders, and then cashed one for \$50 at the Iroquois Hotel, Buffalo, under the name of Thomas P. Merrett. The next day he ordered \$300 worth of cash at Liverpool, London, and Southampton, Oct. 14 and 15.

Then Dominion Express Company's orders, a book of which were obtained Nov. 7 by a forged order in the name of Philadelphia. He introduced Thomas Bros. of St. Thomas, began to come in, all \$2500 worth of these were cashed. He also cashed \$1000 worth of the Murray Hill Hotel, New York, under the name of James D. Taylor, on Nov. 11. On the 14th he obtained travelers' cheques for \$300, paying for them with forged cheques of Philadelphia. He introduced himself to a branch office of the company in New York. The same day he went to the head office and converted all but \$200 worth of these cheques into cash, saying that his trip to England was canceled owing to his wife's illness. The remaining \$800 and at were cashed at a prominent firm, "Cook & Sons," ticket brokers, Dec. 12. Two more orders were cashed at the Bellevue-Stratford Hotel, Philadelphia.

On his last trip he arrived in Toronto Feb. 8. He registered at the King Edward Hotel as David Newhall, mining engineer, of Philadelphia. He introduced himself to Joseph Henderson, branch manager of the Bank of Toronto, with a forged letter of recommendation from a prominent firm in Buffalo, and there was supposed to be en route to Gowanda.

He deposited nine cheques, each for \$100, drawn on the Third National Bank of Philadelphia, with the Bank of Commerce, Sterling, Dominion, Toronto, Hamilton, Standard, Bank of British North America and others. At the same time he deposited \$5000 worth of more \$5000 cheques with the Bank of Toronto, and then drew \$5000 cheque to his own credit, which he cashed at his brother's savings.

URGES THE UNITY OF CHURCH'S COLLEGES

Rev. T. W. Powell of Eglinton Believes Time Opportune—References to the New Bishop of Toronto.

In most of the Anglican churches yesterday reference was made to the selection during the week of the new Bishop of Toronto. Several of the speakers took special care to mention that there had not been the bitterness and the rivalry between the opposing forces such as press reports might have indicated.

Rev. T. W. Powell of St. Clement's, Eglinton, however, spoke of the necessity which exists for harmonizing the forces of Trinity and Wycliffe in the best interests of the diocese. The Diocese of Toronto could not go forward as a church under the present conditions, he said. Trinity was the college of the church, Wycliffe was an excellent institution. Both were doing excellent work, but it was a state of anarchy which could not continue. Lent was a time for healing, and the time was ripe for a commission to consider the union of the colleges.

At St. Philip's. St. Philip's Church was inadequate last night for the throng who desired to hear the first sermon as bishop-elect of Ven. Archbishop Sweeney to his own congregation. The church became jammed with people until the sidesmen refused admission to others. The assisting clergy at the service were Rev. Rural Dean Morley, Bradford, and Rev. Lewis' 'Aughan.

Ven. Archbishop Sweeney, bishop-elect, said that in thinking of the best text from the events of the past week and the somewhat alterations which would be the result in his relations to the congregation of St. Philip's, one passage from the Gospels came to his mind. "Pray always with perseverance and supplication for the saints and for me." Ephesians VI.

These words were written by the great apostle after he had been for two years a prisoner at Rome. St. Paul had taken the soldier of Christ more as a type for the soldier of Christ with the sword, "which is the Word of God," and "shield of faith." The apostle dealt with the problems confronting the churches he had founded and those of the great City of Ephesus, in his supplication for divine aid in their manifold Christian battles for the extension of Christ's Kingdom.

Boxing Big Bout In France

Note and Comment

According to the best information available, there is little likelihood of further trouble in the local soccer world.

During the last ten years the game has made great strides in countries outside of Great Britain, and now is well established in Germany, France, Switzerland, Holland, Norway and Sweden.

While the Australians seemed to outclass the Rugby teams in California and British Columbia, it is pointed out that in their game on Saturday at Vancouver their place kicking was at low standard, only one successful.

The intercollegiate basketball season, which Varsity has just finished, has been the most brilliant in the history of the game as the Toronto students are concerned.

Basketball is now recognized sport at the big institution in the park, and through the season a great deal of interest was taken in the game by the student body.

At the beginning of the season, Varsity's prospects did not look any too brilliant, only one member of last year's team returning.

While there is an odd boxing fan here Harry Pollock, now in Toronto on a hunt for Tom Loughran, is a good draw, most experts concede the verdict to the Welshman.

According to the court interpretation of the new New York State decision is illegal, but bets are paid on the referee's private opinion on the verdict.

According to Malachy Hogan's long distance review, Driscoll seems to have held the field from the outset. One of two rounds, reported by the blow by experts at the ringside, showed that Attell might have a slight lead on points at the end, but not on actual edge in the game.

Moreover, Attell received a bad eye early in the second, and this bothered him. Driscoll put up a marvellous display of boxing and his blocking and footwork were said to be extraordinary.

Excellent Brand of Hockey Before Good Crowd on Sloppy Ice in Mutual Street Rink—Games in the East.

Varsity doubled the score on Queens Saturday night in a Senior Intercollegiate game at Mutual-street, before a good-sized crowd, in which the brand of hockey was excellent, considering the sloppy condition of the ice.

Varsity were leading 6 to 1 with two minutes to play, when both Rankin and Clark were benched for the rest of the night, Queen's supporters being given a chance to exercise their lung power.

Varsity (6)—Goal, Thomas; point, Clark; cover, Rankin; rover, Haney; centre, McNeil; right wing, Wilson; left wing, Dobson.

Queen's (3)—Goal, Daniels; point, Macdonnell; cover, Fenwick; rover, Campbell; centre, McNeil; right wing, Dobson.

St. Kitts Beat the Falls. In a sudden-death game played here to-night in Linwood rink between the Niagara Centrals of St. Catharines and Niagara Falls, the Centrals defeated the Falls by a score of 6 to 2.

For the second game the All Saints of Toronto were up against their neighbors from North Toronto. This game was nearly a draw, the score being 3 to 3.

IN THE LEGISLATURE.

In the debate on the address in reply to the speech from the throne the member for Hamilton East touched the spot when he said that the government program presented nothing for the old members of the legislature to talk about. The new members might discuss the matters mentioned, those who had been in the previous legislature had discussed them sufficiently. Mr. Studholme at once took the aggressive tone that might have been expected from Hon. A. G. MacKay and attacked the government on the question of technical education. He pointed out the activity of Nova Scotia in this respect, the new technical school at Halifax being, if not the best on the continent, at least so good as to make the claim reasonable. That Ontario should lag behind Nova Scotia in this important respect, and Toronto, which so much requires such a school, take second place to Halifax, gave Mr. Studholme a suitable theme for his abilities, and one proper to the interests he represents. He also spoke on immigration, and by confining his remarks to moderate limits, made an excellent impression on the house, doing much to regain the favor he lost last session by his discursive and lengthy speeches.

Hon. A. G. MacKay returned to the old policy of recrimination, varied only in the detail of Tavistock Village, and the question whether it should be joined to Oxford County or Perth. Premier Whitney stated that Oxford County asked for it unconditionally, and Perth was equally divided against taking it. It was included in Oxford and Mr. MacKay asserts that another gerrymander had been perpetrated. Beyond this Mr. MacKay failed to strike any new or forward note. If he has a bugle he did not blow it. The Liberal party is unlikely to rally round the county boundaries of Tavistock.

THE TWO-CENT RATE.

Complaints are coming from various quarters that the recent decision by the judicial committee of the privy council confirming the order of the board of railway commissioners that required the Grand Trunk Railway to fulfill the terms of its charter, amounts to discrimination against that company. This is a strange way of viewing its obligation to provide a third-class service between Toronto and Montreal at the rate of two cents a mile. If there is any grievance it can only be on the part of the public, who have been deprived for half a century of a legal right. But public service corporations and their friends in parliament and the press, will rarely be content with what are real discriminations against the people of Canada, are always equally instant in protesting against efforts to compel them to live up to the letter of their undertakings.

As The World has repeatedly maintained, the state regulation of passenger rates is properly a matter of public policy. If two cents a mile had been compelled from the first, following the similar provision in the British Railway Act, repeated in the Grand Trunk's charter, there would have been no more difficulty with it than with a three-cent basis. A reduction in the rate to two cents, more especially on such a line as that between Montreal and Toronto, involves no hardship on the railway companies. It is only fair and reasonable that the traveling public should share in the benefit created by the large increase of population of which the companies have hitherto alone had the advantage. Even without the argument drawn

U. S. PULPWOOD TARIFF.
By a unanimous report the select committee of the United States House of Representatives appointed to conduct the pulp and paper investigation, has recommended a reduction in the duty on news print paper from 66 to 52 a ton and the retention of the present duty of one-twelfth cent a pound on mechanically ground wood pulp. But in the latter case it is further recommended that this wood pulp be admitted free of duty from any country which does not forbid or restrict the exportation of, or does not impose an export duty or charge upon this class of pulp. The latter condition has evidently been imposed by the fear that Canada will take action of the nature indicated.

Should the recommendation become law the situation created will require the close attention of the Dominion Government. The United States manufacturers are now materially dependent on Canadian supplies and the report states that the amount of spruce consumed in the republic during 1907 was about 1,200,000 cords for ground wood, about 1,420,000 cords for sulphite fibre, and about 3,450,000 cords for lumber, while the amount of standing spruce is roughly estimated at only 70,000,000 cords east of the Rockies. Having depleted their own resources to this alarming extent the United States must not be permitted to safeguard what is left at the expense of Canadian forests.

MONTREAL'S WINTER CARNIVAL.

The railways didn't want the Montreal winter carnival. They said it gave Canada a bad reputation and would harm immigration. Now that it's over, the following little inspired "knock" is sent out from Montreal:
The winter carnival, which was held here from the 10th to the 20th of this month, has proven a failure. The weather was so mild that the ice palace collapsed, the fortunately no one was injured.

THE CASE OF THE PRINTING PRESSMEN.

Edward H. Randall writes The World as follows in regard to the position of the Printing Pressmen's Union and Assistants and Feeders' Union of Toronto:
"Because several items have appeared in the local newspapers that would tend to create the impression that the unions in Toronto are in a state of having some differences with officials of the International Pressmen's and Assistants' Union of North America, we feel that the following should be stated as being the exact position of the local unions in the matter.

We, that is the members of the two local unions in Toronto, do not desire and maintained international affiliation, until the present officers of that body obtained power by a movement that meant the repudiation of an agreement, made in good faith and signed by the previous board of directors, on authority of an international convention. The unions in Toronto refused to be a party to this policy from the start, either morally or financially, and last November it was officially published in the columns of The American Pressman that the two charters had been forfeited.

OTTAWA, Feb. 21.—(Special).—The annual banquet of the parliamentary press gallery, better known as "The Gallery Dinner," was held Saturday night in the new banquet hall of the house of commons.
It was the best ever. John A. Garvin, president of the gallery, occupied the chair with Sir Wilfrid Laurier on his right and R. L. Borden on his left. Paul Bilkey and Arthur Hannay were in the vice-chair.

NEW YORK, Feb. 21.—A trifling blow on the mouth with a golf stick, Lincoln's birthday, followed by an attempt to operate on the bruised spot with a needle, caused the death in Hemstead, L. I., today of Hugh Butler, 28 years of age, a member of this banking firm of Post & Elgin of New York.

Modern cities expand rapidly. Tall buildings break into the sky line. Great railroad terminals rise comb-like, and the aspect of metropolitan life is like the changing impressions of a kaleidoscope.
All these changes make the city of the twentieth century the magnet which draws to itself the peoples of the countryside in an American state or a Canadian Province.

With the congestion of peoples arises the necessity of moving them quickly and cheaply. Comfort is the last consideration after the other requirements have been met. Street cars must move quickly and the charge must be reasonable to command general patronage. In all cities there are people who for various reasons desire to move about by themselves. Far from the taxicab, which is used by the wealthy class has been served by private and public conveyances. The cost of such a conveyance limited their use of necessity. The automobile itself was hopelessly beyond the reach of any but the financially exalted.

But here comes a people's automobile, as handsome, speedy and comfortable as a private car. Toronto will be introduced to the Berna Taxicab in a week or so. It can be used by anyone who is respectable, sober and has the ability to pay its limited charges. As the ride is so comfortable, it can see from time to time just how much he will be obliged to pay. There is no deception, no extortion. The taxicabs are driven by expert chauffeurs. The business of moving passengers safely and quickly is the impelling motive of the men behind the enterprise.

The taxicab will help the citizen of Toronto catch his train. He can get to the theatre in time and his wife will have fifteen more minutes to assure herself that her hat is on straight, and that her dress is in order, and that she has a physician in it, and prompt appearance the taxicab is not unlike a high-class automobile. Indeed, to the occasional user of an auto, who is not disposed to own or maintain a car, the taxicab offers an ideal service. Toronto will have them soon.

Writs Issued.
A. H. Joline and Douglas Robinson, receivers of the Metropolitan Street Railway Company, New York, sue the Equity Insurance Company of Toronto, receiver of \$622.05, a premium paid by the Metropolitan and unearned by the defendants under the United States. Evans was engaged by the Pond Lyceum Bureau for an indefinite course of lectures, three each week, for which he was to receive \$500 a lecture, with all expenses for himself, his wife and a general secretary or manager.

"Fighting Bob" Evans in Trouble.
NEW YORK, Feb. 21.—Rear Admiral Hobbie D. Evans is having more trouble with his lecture course than he ever had in commanding a squadron of battle ships. The J. B. Ford Lyceum Bureau, under whose auspices he started out last January, is threatening to cancel the contract if he doesn't obey orders, and incidentally the Navy League of the United States is involved in the difficulties and officers of the navy are more or less displeased with the way things are going.

All of the trouble has arisen over the protest of the Pond Bureau that the Navy League has practically captured Rear Admiral Evans and his lecture tour, and is using them for the purpose of extending the popularity and membership of the league through the United States. Evans was engaged by the Pond Lyceum Bureau for an indefinite course of lectures, three each week, for which he was to receive \$500 a lecture, with all expenses for himself, his wife and a general secretary or manager.

Insiders Withdraw Support And Prices Readily Recede

Wall Street in the Throes of Another Break—Buoyancy at Toronto Exchange Gets a Set Back.

World Office. Saturday Evening, Feb. 20. The break which was portended in the New York Market by recent manipulation came into full effect during the latter part of the week. A semblance of buoyancy was imparted to prices with the announcement of the Erie bond issue, but it was palpably evident that this was not natural, and with the withdrawal of inside support prices sagged as fast as was possible, under a large volume of selling. Since the first of the year the frequent small swings in the market have borne the imprint of the strong desire among the large holders to get out of the market. They have met with an amount of success is certain, but the distribution has been too small to warrant a feeling of security. The usual method is adopted fresh distribution will be attempted at the new level now established.

Not one reason other than that for speculative purposes could be advanced in favor of the purchase of stocks to last week's break, and even at the present level no new arguments can be advanced. Prices had been put up to a height not even warranted by the extreme wave of prosperity in 1906, yet on all sides it is admitted that business on the whole is much inferior to many recent periods, except that covered by the panic months of 1907 and 1908. The usual pool operations were responsible for the inflated quotations and from appearances the pools are the heavy losers up to the present time. The public have become much more enlightened as to the value of the street and are no longer willing to stand by and see their margins disappear as has hitherto been the case. Traders have learned to accept losses when the market moves contrary to the position they have assumed.

Events supposed to govern market values, and which ultimately do so, although there may be delay due to the fact that the market is not so favorable. The most potent of these was the belief that steel and iron prices were being cut. Commodities of the week, Thursday was immediately reflected in the market. Exports of gold, the withdrawal of government deposits and the innumerable new notations which could be made in the market, and when to this was added the assurance of some tariff revision, the market faced a combination which could only be met by unprofitable support from the financiers. After attempting to over-ride outside opinion these interests capitulated, and the ground for advising purchases was, and it seems that the present reaction must go to a much greater extent than some cautious buyers will feel any way safe in making commitments on the long side of the market. Any rallies that may transpire for some time can only be of a temporary nature.

The anticipated buoyancy in securities listed at the Toronto Exchange came into greater prominence during the earlier part of the week, and it was only by the influence of the New York market that prices displayed any tendency to change the trend established two or three weeks ago. Some of the upward notations were regarded as legitimate or warranted, but the anomalous condition of affairs is always present in a market which is being bulled.

The extreme speculation in the market has convinced the Steel shares, which have been the common and preferred having risen to unwarranted quotations. There may have been some reason for discounting the quotations which will come to the Steel Company from the Dominion Coal Company, but this appears to have been widely over-estimated in the market. The Steel shares, since the announcement of the upward movement in the open market, have been highly irregular. The fact that this block is held to have been underwritten by the old block, which acquired the shares for nothing could easily underwrite the new block at par, and sell the old shares down to fifty and still make money. With a weakness in Rio there has also been a sympathetic decline in Sao Paulo.

A remarkable piece of financing is going on in Rio. The announcement was made during the week that new capital to the extent of six and a quarter millions of dollars is to be raised by the sale of common stock at par. Since the announcement of the upward movement in the open market, the shares have had strength, having been highly irregular. The fact that this block is held to have been underwritten by the old block, which acquired the shares for nothing could easily underwrite the new block at par, and sell the old shares down to fifty and still make money. With a weakness in Rio there has also been a sympathetic decline in Sao Paulo.

Bullish speculation in domestic listed securities seems to have been done for the time being. It has entirely destroyed equity for the standard investment securities, but has not impaired the market for these issues to any great extent. It is not to be expected that prices will now sag off without rallies, even if the upward movement is over, and speculative small turns on the long side can be made as occasions arise. The market situation, owing to the distribution of stock which has been affected, is not nearly as good as it was a month ago.

On Wall Street. Ennis & Stoppard wired to D. Urquhart, manager, at the close. Next week the developments in the open market for steel, treasury recall of deposits, heavy corporation financing and possible supreme court decisions, will be factors in the trading. Chas. Head & Co. to R. R. Bongard: It was a Steel market on Saturday. Everything depended upon and was affected by the course of the Steel and the independent companies, London sent over quotations lower for Steel common, Pennsylvania and Reading. The market opened suspiciously.

firm, and was fairly well held for the first half hour, but could not stand the strain of liquidation and bear selling. The bank statement was better than anticipated and argues for continued easy money. We would buy the standard dividend paying stocks and bonds on all breaks. J. R. Heintz & Co. wired R. B. Holdoway, manager, at the close. The standard dividend paying stocks and bonds on all breaks. J. R. Heintz & Co. wired R. B. Holdoway, manager, at the close. The standard dividend paying stocks and bonds on all breaks.

Charles A. Stoneham, head of the corporation of O. F. Jonasson & Co., announced Feb. 16 that he had decided to change the name of the concern from O. F. Jonasson & Co. to Charles A. Stoneham & Co. Mr. Stoneham has been in active control of the business for the last five years, and had purchased the Jonasson and other interests so that he has been in absolute control for two years or more. In his formal announcement, Mr. Stoneham says that hundreds of customers of the house and his numerous personal friends, having knowledge of the fact that he was virtually the owner of the business, have repeatedly urged him to take over the business and substitute his name for that of O. F. Jonasson, and he finally has decided to do so. The business will be conducted, he says, under his personal direction as it has been for some years past.

New York Bank Statement. NEW YORK, Feb. 20.—The statement of clearing house banks for the week shows that the banks held \$18,545,075 more than the requirements of the 25 per cent. reserve rule. This is an increase of \$4,047,275 in the proportionate cash reserve as compared with last week. The statement follows: Loans, decreased \$6,355,300; deposits, decreased \$4,634,700; circulation, decreased \$162,300; legal tenders, increased \$1,095,900; specie, increased \$1,795,700; reserve, increased \$2,888,600; reserves required, decreased \$1,158,675; surplus, increased \$4,047,275; ex-U. S. deposits, increased \$3,352,350. The percentage of actual reserve of the clearing house banks to-day was 26.18.

The statement of banks and trust companies of Greater New York not reporting to the clearing house shows that these institutions have aggregating \$22,027,400 total assets, total cash on hand, \$15,848,675, and loans amounting to \$1,104,775,000.

New Suits Await Toronto's Judgment

THREE more styles come forth for criticism to-morrow. Come and see them. We want your opinion. Not until you say will we know whether our ideas are right or not, for YOU are the judge. If you say "well done" we'll know our confidence was founded on the rock. If you glance by indifferent we'll know we will have to try again.

At the same time we feel so sure of your approval, so keenly expectant of success, that we cannot help urging you to pass judgment now. Come and see the new styles already here and see how our principle works out.

Shadow Stripe French Venetian Suit, for misses or slender women; colors are navy, brown and green; new cutaway coat, fastens in front with one large button, semi-fitting back, two vents at back, trimmed with tailored strapping of self, and military buttons; stole collar, inlaid with striped poplin in contrasting color; cuffs inlaid to match collar, finished with self strappings and buttons; Princess skirt, in flare style, strapping of self on waist and down front, finished with buttons to match coat. Tuesday, \$16.50.

Tailored Suit of fine English worsted serge; colors are black and green, semi-fitting coat, 30 inches long, lined with broche, deep vents at sides, large fancy flaps, finished with novelty buttons, fine tuck on sleeve at cuff, trimmed at back and vents with large satin loops and novelty buttons; flare skirt, with deep tuck down left side of front, trimmed with loops and buttons to match coat. Tuesday, \$17.50.

A very stylish Suit of fine quality English worsted, in stripe effect of navy, brown and black tones. Coat is 38 inches long at back; semi-fitting, vents at back, trimmed with silk and soutache braids and novelty rim buttons around collar and down front, edged with silk braid, lined with silk; skirt has deep tucks on each side of front panel, trimmed with braids and buttons to match coat. Tuesday, \$25.00.

Women's Kimono Gowns at \$2.50

Kimono Gowns, flannelette of good heavy quality, in two styles; one plain colors of navy, maroon, fawn or sky, with neat spray of roses on, tucked, and has large square cut sleeve; the other, a smart, fancy striped pattern, in navy, cardinal, pink or sky, tucked over shoulders. Both styles are finished with bands of satin, matching colors in gown. Special value on Tuesday for \$2.50.

(Third Floor).

Ladies' Silk Petticoats \$5.00

Petticoats of good quality taffeta, made with accordion-pleated flounce, finished with smart stitched frill, and underpiece, full depth of flounce. Colors, reseda, brown, Alice, grey or sky. Not all sizes in each color, but all sizes in the lot. Regular \$6.00, for \$5.00, on Tuesday.

We Are Ready With Our Spring Wall Papers

OUR Wall Paper Department announces the opening of the new season. It has held its ear to the ground, in the words of the old metaphor, and confidently prepared for the busy spring it hears approaching. There will be an unusual amount of wall papering done this spring. We can judge that by the briskness of the department all February. We have our new papers in and you'll find us all ready to start right off into spring business.

Let us tell you about some of the new goods. The spring colors mostly used are light greens, champagnes, old rose, verdure tapestries, plain chambrays and velvet stripes. The upper decorations used are scenic, friezes, in oil and flat effects; spare conventional designs, with cloth effect backgrounds, high light colorings and warm blended, brown and green or brown and yellow effects, cork velours, plain and printed.

English Parlor Papers, in green, champagne, old rose and yellow, at 50c, 55c, 75c, 85c and \$1.50. English Bedroom, in hints, Dresden, French dot and floral, in white grounds, blue, purple, pink and yellow colors. Prices, 25c, 35c, 50c, 75c, \$1.00.

French, English and German Tapestry Effects, for dining rooms, halls, dens, sitting rooms, assorted colors. Prices, 35c, 50c, 75c, \$1.00, \$1.50.

Satin "Directoire" Cloths

A new shipment of the season's most fashionable fabrics.

Our Satin "Directoire" Cloths have a brilliant, lustrous finish that is guaranteed permanent.

Our Satin "Directoire" Cloths are high-class silk and wool fabrics, and are uncrushable and unspottable.

Our Satin "Directoire" Cloths are light weight fabrics, that drape perfectly, and are adapted for the smart tailored suit as well as for the handsome street or house gowns.

Satin "Directoire" Cloths are shown in a beautiful range of the season's newest shades, amethyst, rose, brown, canard, taupe, pearl and smoke greys, fraise, sky, pink, new blue, white and black.

A display of Satin "Directoire" Cloths in the Evening Wear Section of our Dress Goods Department. Selling on Tuesday \$1.00 per yard.

A Notable Showing of the New Spring Silks

FOULARDS—Rajahs, Pongees, Satin finishes — the silks you want, the shades you want, and the widths you want are here in profusion.

AUTO SHOW A SUCCESS

Continued From Page 1.

is here to stay. They are interested both in pleasure cars and automobile trucks. The automobile will soon be as great a necessity to the farmer as a self-binding reaper.

Continuing, Mr. Hezlewood said that people were not buying heavy cumbersome cars. The tendency was in favor of a high-grade car at a reasonable price. Heavy cars cost too

much to keep up, and lighter cars effected a saving both in investment and maintenance. They will have an auto-buggy ready for the market by summer.

like New York and Chicago. Doing Business Afloat. "This is our first appearance on this side of the line, and I have already sold our \$5400 40 horse-power touring car. I wish to congratulate Mr. Jeffrey on the organization of the show, and, by the way, I might add that you have the most representative line of automobile accessories I have ever seen."

Black or Blue \$21 Suits for \$12

A Surprize for Tuesday in the Men's Store

A BLUE WORSTED—or a black, if you prefer—makes the most useful suit a man can wear. It looks right most anywhere. You get a good one that keeps its shape and its color, and you'll be satisfied for a year anyway, if you give it any kind of decent treatment.

We sell highly qualified black and blue worsted-to-morrow at \$12.00 a suit. Original prices ranged from \$15.00 to \$21.00. These finish the line, although all sizes are still here "in the lot."

89 only Men's High-grade Suits, in imported fancy worsteds, in grey tones, dark mixed colorings, fancy checks and shadow stripes, also blue and black soft-finished twill worsteds, guaranteed fast dye, cut in the latest single and double-breasted sack models, in perfect-fitting, fashionable style, and well tailored, with good linings and trimmings. Sizes 36 to 44. Regular \$15.00 to \$21.00. On sale Tuesday, \$12.00.
