GENERAL DESCRIPTION

OF THE

CITY AND HARBOUR OF TORONTO.

TORONTO, the metropolis of Canada, and chief town of Canada West, is rituated on the north shore of lake Ontario, towards its western extremity, in lat. 43° 39' 25" north, long 79° 21' 30" west of Greenwich. It was founded by Governor Simcoe in 1794, and partly burned by the Americans in the war of 1813. In 1817, Toronto (then Little York) contained a population of 1,200 inhabitants; in 1826 it had increased to 1.677; in 1830 to 2,860. Its subsequent progress has been more rapid than any other town in Canada. In 1842, it contained 15,336 inhabitants; in 1845, 19,706; and its population at this time is upwards of 25,000.

Toronto was incorporated in the year 1834, and is divided into six wards. Each ward returns annually two aldermen and two common councilmen, to represent them in the City Council; and the Council choose the mayor from among the aldermen. In this body is vested the legislative power of the city. Toronto also returns two members to

represent her in the Parliament of Canada.

ERS,

The improvements made in the city within the last few years have been astonishing. Many of its buildings are of cut stone. The public edifices are well adapted for their purposes, and some of them have a very striking appearance. They comprise the Government, Parliament and Court Houses; the University, Upper Canada College, the City Hall, St. Lawrence Hall, Osgoode Hall, and Temperance Hall; several handsome Churches; the Toronto General Hospital, three Lying-in Hospitals, a General Dispensary, Lunatic Asylum, Custom House, the Royal Magnetic Observatory, House of Industry, several Banks, a Mechanics' Institute, a Theatre, two Firemen's Halls, and a Fort and Barracks.

Among the buildings enumerated, those more particularly deserving of notice are the Banks, Osgoode and St. Lawrence Halls, the Lunatic Asylum, and University. Of these the Asylum is, and the University is

designed to be, on the most magnificent scale.

Toronto harbour or bay, in which a considerable fleet might ride in perfect security, has an extent of about three miles, and is formed by a ong and narrow peninsula, stretching out to the south-west for about seven miles, and terminating in Gibraltar Point, on which a light-house is erected. The bay is about one and a half miles across, and from its depth of water affords extensive and safe anchorage ground.

The following graphic description of Toronto appears in The Maple

Leaf or Canadian Annual for 1848:-

"A noble bay, clasped in the wide-spread arms of a natural breakwater, on the north-western shore of Ontario, attracted the keen eye of Lieutenant-Governor Simcoe; and soon a few lowly roofs rising at the bottom of the harbour from the marshes at the mouth of the slow-paced Don, and a low fort commanding the entrance of the bay, with the red-cross floating over its humble battlement, broke the monotony of the wild forest landscape.

"The dwellings of the earliest settlers, the rude pioneers of civilization, were in true patriarchal style—they abode in the field, sheltered by tabernacles that (as the legend runs) had made the circuit of the globe with the illustrious Cook. Rude indeed were those primitive days; Macadam was a name unknown—plank roads and gas-lights were fictions of lying travellers. Yet steadily though slowly the good town grew, and peace and plenty (with one brief interval) were the characteristics of its quiet life. Some few of those who bore the heat and burden of the day, and saw the first roof-tree rise from the marshes of 'Little York,' have lived to see themselves, their children and grandchildren, citizens of a large and prosperous city; but the green turf wraps the graves of the greater part of those who knew it in its infant days.

"The tourist who would visit Toronto to indulge a taste for antiquarian research, will find but little to reward his labour. The red men have left their forests—they have sought other hunting grounds, and, true to their native habits, have left no trail; but if her history be brief, it is not wholly devoid of interest. In the last ten years of her life, she has acquird most of the substantial advantages of a European

"To the traveller, who looks with greater pleasure on evidences of health and vigor—on the busy wrestling of civilization with the wilderness, than on ruin and decay, and the ivy creeping over the fallen remains of man's past energy, there are few places capable of exciting a livelier interest than Toronto. The present and the future occupy her thoughts far more than the past:—

Be the Greek o'er annals poring, Let the Roman mourn the past— Like the Persian, morn adoring, Her glance is onward cast!'

"Viewed from the noble highway of Ontario, the city, with her rectangular streets, presents a pleasing aspect. Gradually rising from the water's edge, her ranges of buildings are at length bounded by the green outline of pine forest, that seems to emclose her in its embrace. The prominent points are the tall spires of St. James's Cathedral [since destroyed by fire] and St. Andrew's Church. At the eastern extraordy of the bay, the fortress-like walls of a dark Prison look black in the bright sunshine: that unusual feature in the Canadian landscape, a wind-mill, stands near, and the heights of Scarboro' bound the vision on that side. Towards the centre, a strange pile of brick, designed, it is said, after some Italian model [the City Hall and buildings] accommodates the collective wisdom of the city in its corporate character. Westward, a not very fierce-looking Garrison affects to protect the entrance of the harbour, and above it the 'meteor flag' dallies with the light breeze. * * * The garrison having been passed, as we approach from the west, we are just entering the bay; and there lies Toronto, stretched along the northern margin of that glorious sheet of water. As we draw near the busy quarter of the city, we observe villa residences scattered along that bank on our left, which rises abruptly from the water's edge. The long ranges of red brick, facing the bay, were once tuneful with the eloquence of our legislators, but are now the peaceful retreat of learning. In the main structure and west wing are the temporary hall and lecture rooms of our noble University, whilst the building on the east is at present occupied as the Lunatic Asylum—a playful illustration of the poetic adage—

"Great wit to madness nearly is allied."

A little in the rear, above a thick plantation, may still be seen the staff, which in days gone by was wont to bear the flag that indicated to the lieges of Toronto the presence of the Lieutenant-Governor, in the official residence (old Government Kouse), embosomed by those dark trees. To the north is the handsome pile of Osgoode Hall—the Canadian inns of Court, with it columns and dome glistening in the clear atmosphere. Further on beyond, the clusters of houses, in the centre of its picturesque grounds, laid out with judicious attention to landscape gardening, and approached by a stately avenue of chestnut and other graceful trees, rise the white and massive walls of King's College (now Toronto University).

"We will not trouble the reader with any lengthened description of the internal

We will not trouble the reader with any lengthened description of the internal appearance of the city, with its busy population of nearly 23,000 (now over 25,000). Splendid warehouses and shops, worthy of any American or European city, greet the eye—gas-lights enliven the darkness—the forest supplies aggreeable trottiers—MacAdam smoothes the roadway—and beneath the level surface of the streets—

"The prison'd water fills its iron cell."

We may not stop to describe the various public edifices—the pleasant grounds and neat buildings of that admirable establishment Upper Canada College—the various institutes and associations—literary, philharmonic, national and mechanical—the extent of commercial dealings—the noble prospects that projected improvements seem to open. Suffice it to say, that there are few more striking results of British Canadian vigor than this city, carved as it has been by stout arms and loyal hearts out of the wild bosom of a transatlantic forest; nor will the stranger who visits it, we trust, fail to discover the appropriateness of its chosen motto—'Industry, Integrity, Intelligence.'"

Since the above description was written, many new buildings have been erected, some of them the largest and most beautiful in the city. and would require the pen of the clever contributor to the Annual to do them justice-such as the St. Lawrence Hall and buildings, the Lunatic Asylum, and St. Michael's (Roman Catholic) Cathedral. The destruction by fire of St. James's Cathedral, it is true, is to be deplored; but a still greater ornament to the city will be erected immediately in its stead. Many occurrences of a public nature, favourably affecting the city, have taken place since that period: Toronto has again become the seat of Government—the Parliament House is restored to its legitimate use, the students of the University and the invalids belonging to the Asylum having been removed to their respective buildings. Old Government House is now occupied by the different offices of the Governor-General's Secretary, Provincial Secretary, Crown Law department, Indian department, Provincial Registrar, and Executive Council Chamber. A Book of Registry is kept here, wherein those who wish to leave their names and address at Government House can insert them. The east and west wings of Parliament Buildings accommodate the other Provincial Government departments and offices-viz., the Receiver-General's office, the Inspector-General's office, offices of the Commissioner of Inland Customs, office of the Registration of Statistics, department of Public Works, department of Crown Lands, and the department of the Adjutant-General of Militia.

It is unnecessary here to do more than advert to the various public edifices, as many of them will be more particularly described under their proper head; we will endeavour however to afford an idea of the size and importance of the City, and its internal appearance.

Toronto contains upwards of one hundred streets, some of which are of great length; and King Street-the main street of the city-is one of the finest in America. The shops on this street, which display extensive stocks of goods, are finished and decorated in the English style, and in appearance some of them would bear comparison with those of Regent-street, London. Many houses on King-street pay a ground rent of £100 and £200; and £250 is not an uncommon rent for those most centrally situated. The public and private buildings on this street are—Trinity Church, and School-house attached; Copeland's brewery; Berkeley House (the residence of C. C. Small, Esq.), which is said to be partially built upon the logs of a fisherman's hut, purchased for a temporary residence by Mr. Small's father, upon his arrival with Governor Simcoe, some fifty or sixty years since, when not a single house was to be seen on the ground which now forms the site of this metropolis; the substantial residence of Mrs. J. S. Baldwin; the St. Lawrence Hall and Buildings; St. James's Cathedral (in course of erection); the Farmers' Bank; Royal Lyceum; Ellah's Hotel; Club House; old Government House; County of York Land Office; Normal and Model Schools; Upper Canada College; and the Toronto General Hospital.

Yonge Street is the second street of importance, and greatest in length, (extending, as it does, thirty miles into the country). The portion of it lying within the city limits is however not quite two miles. It is the most centrally situated street in Toronto, and has a large wholesale trade; that portion of it lying south of King Street being principally occupied by wholesale dry goods warehouses. The Banks of British North America and Montreal are also situated in this locality. Yonge-street, north of the eastern entrance of the College-avenue.

is principally occupied by private residences, among which are Elmsley Villa and grounds (the residence of his Excellency the Governor General), the lodge entrance to which is occupied by two non-commissioned officers and twelve privates of the 71st Highland Light Infantry, which compose the Governor General's guard. A little further north, occupying a commanding situation, is Kearsney House, the handsome residence of William Proudfoot, Esq.; this building is designed in the Roman villa style. Still further on is Clover Hill, the residence of Samuel P. Jarvis, Esq. Wickham Lodge, the residence of the Hon. Mr. Justice Macaulay, is also situated on this street, a little south of the College-avenue. There are many prettily situated streets running east out of this section of Yonge-street, the most remarkable of which are Gerrard and Carletonstreets, and the Sydenham Road (or St. Paul's street), adjoining the thriving village of Yorkville. The first-mentioned (Gerrard-street) commences nearly opposite the residence of the Hon. Mr Justice Sullivan, and is the handsomest street of private residences in Toronto. the many dwellings situated on it, those of J. S. Howard, J. A. Smith and Alex. Dixon, Esqs., are the most imposing. Sydenham-road, or St. Paul's street, which is situated partly within and partly without the liberties, is a favourite and rather fashionable retreat. The villa residences here are both numerous and handsome. The modest and unpretending little suburban church of St. Paul, is situated in this locality; from the upper end of the street, where a blockhouse is erected, a charming view may be had of the romantic and beautiful grounds of Rose Dale, the residence of Mr. Sheriff Jarvis.

Front-street, running parallel with the bay, is another street of considerable magnitude, extending from the Market-square to the garrison. The western portion is principally occupied with private residences, some of which are very handsome. Among these may be mentioned the residence of Mrs. Jones, (widow of the late Hon. Mr. Justice Jones,) the spacious residences of the Hon. Robert Baldwin and of the Hon. George Crookshank; the Bishop of Toronto's palace; Lyndhurst, the residence of Frederick Widder, Esq.; the new and tasteful residences of J. G. Spragge and Alfred Coulson, Esquires. The Parliament Buildings and Knox's College are also situated on this street. The southern side of Front-street extending along the Bay shore, is principally occupied with factories and manufactories of different kinds, the most extensive of which are the chair and furniture manufactory of Messrs. Jacques & Hay, and the Ontario Brewery. The Custom House, Telegraph and Royal Engineer Offices, the Steamboat Offices, the wharves, and the American and North American Hotels, are likewise situated on this street.

Queen-street is another of the leading streets of the city, and is divided, like several other streets, into east and west: it extends from the Don-bridge in the east, to the Lunatic Asylum,—a distance of over three miles. The public buildings on this street are the Asylum, at its extreme west, Osgoode Hall, a little east of the College-avenue, and Knox's church,—quite a gem of its kind. The principal private residences westward, are Bellevue-terrace, the residence of George Denison, sr., Esq., situated at the head of an avenue of the same name; Gore Vale, the residence of Miss Cameron, which is approached through a handsome avenue; the Meadows, the residence of the Hon. John Hillyard Cameron; and the Hon. Mr. Justice McLean's residence, the principal entrance to which is by Peter-street. On the east end of this street we have Moss Park, the residence of the Hon. William

Allan, the cottage of S. Ridout, Esq., and McMahon Cottage, each of which is surrounded by handsomely laid out grounds, the first having a lodge entrance. There are three new streets opened out, leading north from this part of Queen-street, which run through a delightful and rapidly improving section of the city.

Church-street, running parallel with Yonge-street, although not of such extent, is nevertheless another of the principal streets of Toronto; it commences on Front-street, and runs north about a mile. The portion of it south of King-street, like Yonge-street, is principally occupied by wholesale stores, mostly in the grocery and spirit trade; Beard's Hotel, and the eastern, northern and western stage offices are also situated on this part of it. North of King-street may be said to be chiefly occupied by private dwellings, for which it is admirably adapted on account of its healthy locality and proximity to the business part of the city. St. Michael's (Roman Catholic) cathedral and palace are situated on this street, as are also St. Andrew's church, and the site and grounds of the Cathedral Church of St. James, from which the street originally derived its name. [When this edifice is restored, it will add much to the appearance of the street and city generally.] The Court House, which contains the County offices, is also situated on this street, a little north of King-street, near to which, a little in the rear, is the Firemen's Hall and Mechanics' Institute. There are extensive ranges of private residences of two and three stories high on this street; the principal detached edifice, however, is Oakham House, the residence of Mr. Thomas, architect, which is designed in the Tudor-Gothic style, having a highly decorated front.

The next street, east of and running parallel with Church, is Jarvis-This street is of considerable length, being a continuation of Nelson-street, which it intersects at Queen-street east, running through direct to Yorkville. The park-like character of the neighbourhood through which this street runs gives it quite an alluring and healthy appearance, which cannot fail to attract favourable notice; but in consequence of its having been only recently opened, and the ground through which the greater part of it runs having been but lately brought into market, few houses have as yet been built on it. From the desire, however, of obtaining building lots in this neighbourhood, and a great number having been lately purchased, we may look for a rapid improvement in the way of bricks and mortar, which will, we predict, cause it to be regarded as the principal suburban street in the

Duke-street, commences on Nelson and runs east to Parliament-street. The character of the buildings on this street may be described as respectable; they are principally occupied by private families. houses we would select as most worthy of notice, are those of T. D. Harris, Esq., the Hon. Jas. Gordon, (a house of some antiquity, having been formerly the residence of Sir Wm. Campbell,) and Mr. Jacob That well-known monetary institution, the Bank of Upper Canada, is situated on this street, nearly opposite to which is the Savings' Bank, and in its immediate vicinity, on George-street, the British American Fire and Life Assurance Co.'s office. The Canada Co.'s office is situated a little to the south of King, on Frederick-street, which runs out of Duke-street.

The space allotted to our prefatory remarks will not admit us, nor can we be expected to describe the streets separately or consecutively, in speaking of a place of such magnitude. We cannot close our

remarks however on this subject, without taking a glance at some of the other streets in the city, many of which are well worthy of notice, such as Parliament-street, at the head of which stands St. James's Cemetery, and a little to the east the Toronto Necropolis, another cemetery. The large plot of ground known as "the North Park," is situated in this direction, and extends from the cemetery on the east of Parliamentstreet south to King-street, thence east to the Don-bridge, and then north along the Don river to the Necropolis; and though not equal in appearance to St. James's or Hyde Park in London, or the Phœnix in Dublin, boasts of a Regent and St. James's-street. Palace-street runs east from the Market-square, towards the upper end of which the Jail is situated. The principal private residences on this street are those of the Honourable Christopher Widmer and the cottage of Enoch Turner, Esq., which, with their tastefully laid out grounds, have a handsome appearance. We must not omit to mention Wellington-street, at the eastern extremity of which (corner of Church-street) stands an hotel of the same name. The Post Office, Commercial Bank, Western Hotel, the Marriage License Office, and the Loretto Nunnery are likewise situated on this street. Towards the west end there are some very good private dwellings; Holland House, the residence of the Hon. Henry John Boulton, the neat residence of George Monro, Esq., and the recently erected substantial residence of William Wakefield, Esq., being the most deserving of notice. Wellington-place, is a wide and handsome thoroughfare running from Brock to Portland-street, in the western portion of the city: the Commissariat Office and some good private residences are situated on it. Adelaide and Richmondstreets (which are divided into east and west) are long and populous On Richmond-street west is situated the Richmond-street Methodist chapel and United Secession church, and the Provincial Lying-in Hospital and Vaccine establishment. residence of the Hon. Chief Justice Robinson is near its western Beverly House, the extremity. The only building of a public character on the eastern portion of this street is the Toronto Dispensary and Lying-in-Hospital. The Congregational Church is situated on Adelaide-street, corner of Bay, and the Adelaide-street Wesleyan Methodist chapel on its eastern section; a little to the south of which, on Toronto-street, is the newly-erected Registry Office for the County of York. Bay and York-streets are each worthy of notice; the ranges of buildings erected on that portion of Bay-street lying south of King-street, for uniformity and extent, are certainly second to none in the city. The Primitive Methodist Church is situated on Bay-street. Immediately north of King-street, a little in the rear, is the Apostolic Church; contiguous to which, with questionable taste, a racket-court has been erected. Fireman's Hall No. 2, completes the public buildings on this street. On York-street, the principal buildings are the Club House, corner of King-street, and Albany Chambers opposite. "The Cottage," the residence of James M. Strachan, Esq., at the foot of the street, is a pretty and tasteful residence. This street affords a good view of the front of Osgoode Hall.

Toronto has also her squares. St. George's-square, on which St. George's church is situated, the spire of which is much admired on account of its chaste simplicity and harmony of proportion: "The Grange," the handsome residence of Mrs. D'Arcy Boulton, and of her son, Wm. H. Boulton, Esq., M.P.P., may be said to bound it on the north; to the west of which, approached by a semicircular road, is the fine range of

hildings known as Beverly-street, St. George's-square. Immediately est of the Grange, approached as before mentioned, is "Pinehurst," occupied as a ladies' seminary, under the superintendence of Monsieur and Madame Deslandes,) which may be termed St. George's-square st. McChill-square may be said to be bounded by Church-street on e east, Bond-street on the west, Shuter-street on the north, and Queen-street on the south. If the grounds surrounding Mr. McCutchon's residence were laid out, (as it is said was the original intention,) cGill-square would be the most delightful part of the city.

We will now close our remarks by alluding to some of the main adintages which the city possesses, and which are more particularly etailed elsewhere. To begin with the more substantial ones: The ty is lighted with gas; there are water works for the conveyance of ater to the different houses, and for the extinction of fires; the city well drained by common sewers; there are also regular stations for chaches, cabs and carts; steamboats leave daily for Kingston, Hamilton, liagara, Queenston, Lewiston, Rochester and Oswego, calling at the termediate ports; and in addition to the regular Eastern, Western, and Northern Mail Stages that run daily throughout the year, there are hers that run regularly to York Mills, Richmond-hill, Thornhill, Cookslle, Streetsville, Brampton, Oshawa, the Rouge, Vaughan and Markham Villages; and Omnibuses run half-hourly from the corner of Yonge and King-streets and the Market-square to Yorkville, and hourly beween the Market-square and other points of the city to the Garrison and the Lunatic Asylum; a horse-ferry boat and small steamer leave e city every alternate hour for different points on the Island-fare to and fro, 71d. Our Market is plentifully supplied with all sorts of fish, esh and towl, fruit and vegetables, and all the necessaries of life-and equently with many of the luxuries, such as game, &c. The city has regular though limited police force, and an efficient fire brigade. incipal hotels are favourably situated, being close to the wharves, rwarding establishments, Banks, Custom-house, Post-office and Stage fices. There are several Banks, a Board of Trade, a Telegraph office, Emigrant office; several Fire, Marine, Life and Live Stock Insurance Companies and Offices.

Amongst the various Institutions and Associations which will be noted under their appropriate heads, are the following: -Several Lodges and a Provincial Grand Lodge of Freemasons; several Odd Fellows lodges; the Sons of Temperance, and several other orders of Tempenance Societies; St. George's, St. Patrick's, and St. Andrew's Societies; hurch Society, Bible & Tract Societies, Ladies' Bible Association; veral Building Societies; County of York Agricultural Society; Philrmonic Society; two Firemen's Halls; the Athenæum and Commercial ews Room; Mechanics' Institute; a General Hospital; three Lying-in ospitals; a Dispensary; a Theatre; a Cricket Club; a Curling Club; Bowling Club; a Savings Bank; an Asylum; a House of Industry; University; a Theological Seminary and Academy; Upper Canada ollege; Knox's College; a Medical School; County of York Grammar hool; several Ladies' and other Academies; the Provincial Normal hool; a Model School, and several Public and Private Schools. There e several Newspapers published in Toronto, weekly, bi-weekly, trieekly, and daily, and Periodicals on Legal, Agricultural, Educationa l d Ecclesiastical subjects.

Professions, Trades, &c .- There are 27 practising Physicians and rgeons, besides surgeon dentists, oculists and aurists; a superabun-

dance of Lawyers; a great number of wholesale and retail dry goods, grocery, hardware, wine and spirit, china, glass and earthenware stores; music, jewellery and fancy shops; clothing, provision and finding stores; several booksellers and stationers, apothecaries, chemists and druggists; a number of distilleries, breweries, foundries, tanneries, planeing machines, hot and cold baths, steam grist mills, starch and glue factories, soap and candle factories; several architects and builders, land surveyors, civil and other engineers; portrait, landscape, historical, animal, house and coach painters; wood, seal, and bank-note engravers; letterpress, copper-plate, and lithographic printers; bookbinders, engravers; sculptors and marble workers; drawing, music and dancing masters; several forwarders, brokers, accountants, house, land and general agents; livery stable keepers, veterinary surgeons and farriers; an oil-cloth factory; patent leather dressers and curriers; brass and iron founders; iron, ivory and wood turners; paper makers; watch and clockmakers; coach and waggon manufactories; axe and edge tool manufactories; boat builders; wheelwrights; carpet and fringe weavers; brush and broom makers, twine and rope manufactories; plumbers; sailmakers; millwrights; picture frame makers; gilders and map mounters; maltsters; tobacconists; upholsterers and French polishers; dyers; gun and rifle makers; tin, copper, lock, black and white smiths; saddlers; hatters and furriers; cabinet and chair makers; (of joiners and carpenters a great number) shoemakers; tailors; milliners and dressmakers; coopers; gardeners and florists; butchers, bakers, confectioners a.d sausage makers; stone cutters, bricklayers, stone masons and wellsinkers; an optician; a mathematical instrument maker; a scale maker; whip maker; blacking maker; bellows maker; fanning mil maker; basket maker; pump maker; nail maker, and lucifer mate's maker. For the lovers of amusement, Toronto has her Royal Lyceum, a very neatly fitted up Theatre, which the enterprising lessee (Mr. Besnard) renders very attractive, by securing the services of the best performers. For those who admire the manly game of Cricket, there is an excellent playground, beautifully situated near Caerhowell, adjoining which is a very neat bowling green, and likewise a racket court; there is also a curling club; and for the lovers of the turf, a race-course, situated about a mile east of the city.

The most fashionable resorts are the College Avenue and the grounds attached to old Government House. Of the former, which is the admiration of all visitors, the citizens are justly proud; and the latter, which command admiration sufficient of themselves, are rendered doubly attractive when, as it now does, the celebrated band of the 71st Highland Light Infantry plays there, during the season, every Wednesday afternoon, from 4 to 6 o'clock. The city has also her Vauxhall Gardens, (Yonge-street,) which have been lately opened to the public, and, on the evenings of Monday and Thursday, they are tastefully lighted with

variegated lamps, and musical entertainments are given.

A favourite resort of the citizens is the Peninsula—or Island, as it is commonly called – across the bay, opposite the city. The Island, which is under the jurisdiction of the city, is about seven miles long, and varies in width. At its western extremity a light-house is built. There are two hotels on the Island, and baths and various amusements are provided for visitors. There is likewise an opportunity of enjoying the cool breezes which prevail during the warmest weather, and the fine prospect which the place commands of the city and harbour. The Island is much resorted to for pic-nics, and by sportsmen, who go there to shoot wild duck, plover,

"Toron; hat over nd are we han is to nd poor, hree rath sembles nd other to miles

&c., which still abound in the fall, notwithstanding the proximity of a populous city. The lovers of the chase sometimes unbag a fox here in the winter season, and hunt him across the bay. Steamboats twice a day leave the city for Niagara and Lewiston, and thus afford opportunities of visiting the Falls of Niagara, the greatest natural wonder of the world, which has lately been made more attractive by a work of art—the Suspension Bridge--which crosses the narrow gorge of the Niagara river between the cataract and the whirlpool, and in view of both, by a span 800 feet long, 40 feet wide, and 230 feet above the water. It is supported by sixteen wire cables, each 1100 feet long and upwards of twelve inches in circumference. Its strength is equal to 6,500 tons tension strain. The bridge cost \$190,000. Frequently throughout the summer season, public excursions, in connexion with different societies, take place, when a steamer is chartered, which leaves in the morning and returns the same evening, after allowing sufficient time to view the Falls, visit the Museum, suspension bridge, and other attractions. Occasional excursions take place to the city of Hamilton, which is only about three hours' sail from Toronto. From the mountain above Hamilton, a delightful view is had of the city and bay and surrounding country. The scenery around lake Simcoe being exceedingly romantic and beautiful, frequently attracts pleasure parties and others in that direction. Different lines of stages eave Toronto every morning for Holland Landing, a distance of over thirty miles, passing through several villages on the route. The country throughout the entire distance is well settled, and many of the residences on Yonge-street are occupied by gentlemen of the highest respectability. On the arrival of the stages at Holland Landing, the steamers Beaver and Morning are in readiness to convey them in different directions round and across the lake. An excursion in this direction can be extended to Sault st. Marie, on lake Huron, stages being in readiness on the north side of ake Simcoe to convey passengers to the steamer Gore, which leaves sturgeon Bay for Sault St. Marie weekly, touching at Penetanguishene, Dwen Sound, Manitoulin, St. Joseph's, and the Wallace and Bruce

Although we have occupied more space than it was our original intenion to do when commencing this description, still there are many points
f attraction in and about the city and its environs which are not
nentioned—such as her splendid rides and drives; her excellent roads,
ranching off in different directions; the fine view of the city, bay and
ake from the high ground extending from the Cemetery across Yongetreet; the extensive military reserve at the extreme west of the city;
and the delightful and romantic banks of the meandering Don, forming
he city's eastern boundary.

In concluding our remarks, we beg to refer our readers—especially the american portion of them—to the following description of Toronto, by he editor of that respectable and ably conducted journal, the Buffalo Commercial Advertiser, after his return from the recent visit of the citiens of Buffalo to Toronto:—

"Toronto is a much larger and more beautiful place than we had anticipated ading. It now contains about twenty-seven thousand inhabitants, being somehat over half as large as Buffalo. Its streets are regularly laid out at right angles, and are wide, and generally well paved. There is more uniformity in the buildings han is to be found here: the constant recurring extremes of high and low, of good ad poor, does not exist. They are mostly of brick on the business streets, and of tree rather high stories. King-street is the principal street, and very much sembles our Main. There are several others upon which there are elegant stores ad other places of business, which extend considerable distances. King-street is so miles in length, and Yonge-street extends 'into the country.' The citizens

have paid much attention to parks, and trees, and shrubbery, and public grounds in which particulars they are a-head of us. There are many pleasant places in all parts of the city, which render it very attractive. There are many elegant private residences; and in public buildings, with the exception of churches, Buffale cannet 'make a show' alongside of Toronto. In addition to the St. Lawrence Hall, aiready described, there is the Osgoode Hall, a fine edifice, in which lawyers do nostly con-There are also others, and some fine churches, of which the Cathedral of the Roman Catholics stands at the head, for architectural beauty, of those which came under our observation. College Avenue is one of the most splendid places we ever saw anywhere; and the grounds attached to the Toronto College, to which the avenue leads, are spacious and well laid out.—By the way, the annual public red tations took place at this college on Wednesday, which was an occasion of muci interest. The Governor-General, who takes an active interest in educational maters, was present, and conferred the prizes, in doing which he addressed the recip ents in a very felicitous manner.—Up the lake, a short distance from the city, is the Lunatic Asylum for Canada West. It is a large building, or rather a series of buildings, of brick, and designed for the account delication. buildings, of brick, and designed for the accommodation of some four hundred patients. There are now in it, we understand, about two hundred and forty. The patients. There are now in it, we understand, about two hundred and forty. The harbour of Toronto is a natural one, formed by an island, or a Presqu' isle, sweeping around the bay a mile or so, and about two miles from the shore, thus forming the same of the shore one of the safest and most commodious harbours we ever saw-much resembling Erie, Pa. The water is of a good depth in all parts of the bay. The docks an wharves, however, are very deficient, and all along the bay there are no indication of very active commercial business. Steamboats of the British and American line of very active commercial business. are constantly arriving and departing. The country round about Toronto is rid and productive, and highly cultivated: were it not so, so large a population could scarcely be sustained, as the lake business does not contribute a great-deal to the building up and support of the city.* The provincial government has done mud to promote agriculture, and the Agricultural Society of Upper Canada, which hel its annual fair at Niagara, on the 15th and 16th of September, has also been a highly valuable instrument in producing a similar result. The people of Canada a pioneers in the construction of plank roads, from which Toronto has derived mud

The following description of the Governor-General's residence is from the same paper:

"Elmsley Villa, the residence of the Governor-General, is situated about a mi and a half from the bay, on Yonge-street. The grounds embrace twelve acres, an are the property of an English gentleman named Macaulay, and are rented by Lon Elgin. The residence is approached through an avenue, beautifully lined on either side with a forest of shrubbery and shade trees. The house is but an ordinary structure, being a two-story rougheast building—the rooms not very spacious, but amplemough, we suppose, for all practical purposes. The grounds, however, are delightfully laid out with winding ways, and 'shady groves and love-provoking bowers, interspersed with smoothly mown lawns."

ACT OF INCORPORATION, ECT.

The original act of incorporation of the City of Toronto-4 Wm. IV, ch. 23, passed 6th March, 1834, entitled, "An Act to extend the limits of the Town of York, of Toronto,"—having been repealed by the Act 12 Vic. chap. 81, entitled, "An Act to provide by one general law for the erection of Municipal Corporations of Police in and for the several Counties, Cities, Towns, Townships and Villages in Upper Canada," the latter act, which is very voluminous, has been much altered by an act of the last Session of Parliament, entitled, "An Act for correcting certain errors and omissions in the Act of the Parliament of this Province, passed in the last session thereof, entitled, &c., and for amending certain of the provisions of the said act, and making some further provisions for the accomplishment of the object thereof." Neither this act nor the act to provide for the future management of the Toronto Harbour, also passed last session, have been officially published up to the time of our going to press; we are therefore unable to give a synopsis of their provision s.

LIMITS OF THE CATY AND LIBERTIES.

Commencing at the distance of one chain, on a course south sixteen degrees east from the south-westerly corner of lot number two, in the first concession from the Bay in the Township of York, in the County of York; thence, southerly, in the direction of the side line between lots numbers two and three, in that concession, to the distance of five hundred feet from the point at which the said line intersects the margin of the water on the shore of Lake Ontario; thence westerly through the waters of Lake Ontario, following the direction of the curvatures of the shore, and keeping always at the distance of five hundred feet from the margin of the water till the point is attained, which is five hundred feet from the margin of the water till the point is attained, which is five hundred feet from the margin of the water till the point is attained, which is five hundred feet from the north-westermost point of the Island or Peninsula, forming the harbour; thence, across the Bay or harbour of York to a point where a line, drawn southerly from the north-easterly corner of park lot number twenty-nine in the said Township of York, in the direction of the easterly boundary line of the said Park lot, intersects the margin of the water or the shore of Lake Outario; thence northerly in

the direction of the said line so drawn from the said corner of the said Park lot through the said corner, to the point at which the said line so drawn through the said corner intersects the northerly boundary line of the allowance for Road between the Park lots and the second concession from the Bay in the said Township of York; thence easterly along the said northerly boundary line of the said allowance for Road, to the easterly shore or water's edge of the River Don; thence southerly along the water's edge on the eastern side of the said River, to the point where the said water's edge intersects the southerly boundary line of the said first concession; thence easterly along the southerly boundary line of the allowance for Road in front of the said first concession, to the place of beginning.

LIMITS OF THE CITY.

Commencing at the distance of one chain, on a course north seventy-four degrees east from the south-east angle of Park lot number three, in the said Township of York, thence south sixteen degrees east, upon a continuation of the sailowance for road between Park lots numbers two and three to the water's edge of the Bay in front of the said City; thence westerly along the water's edge of the said Bay to the point at which the westerly limit of the allowance for road between Park lots numbers eighteen and nineteen, in the said Township of York, being produced southerly, intersects the said water's edge; thence northerly in the direction of the said westerly limit of the said allowance for road to the distance of four hundred yards north of the northerly boundary line of Queen street; thence easterly parallel to Queen Street to the easterly boundary line of the allowance for road between Park lots numbers two and three; thence south sixteen degrees east along the easterly boundary line of the said allowance for road, four hundred yards more or less, to the place of beginning. And the remainder of the said tract, to constitute the liberties of the said City.

The City is divided into six Wards, called respectively the Wards of St. James, St David, St. Lawrence, St. George, St. Andrew and St. Patrick, and comprise the following portions of the said City respectively, that is to say:

Ward of St. James—all that part of the City, lying between the northerly boundary line of King Street east, the westerly boundary line of Yonge Street, the easterly boundary line of Nelson Street, and the northerly boundary line of Queen Street east.

Ward of St. David—all that part of the City lying to the eastward of the westerly boundary line of Nelson Street, and to the north of the northerly boundary line of King Street east

Ward of St. Lawrence—all that part of the City lying to the southward of the northerly boundary line of King Street east, and to the eastward of the westerly boundary line of Yonge Street.

Ward of St. George—all that part of the City lying to the southward of the northerly boundary line of King Street, and to the westward of the westerly boundary line of Yonge Street.

Ward of St. Andrew—all that part of the City lying between the northerly boundary line of King Street east and the northerly boundary line of Queen Street east, and west of the westerly boundary line of Yonge Street.

And the Ward of St. Patrick—all that part of the City lying to the north of the northerly boundary line of Queen Street west, and west of the westerly boundary line of Yonge Street.

Liberties of the	City-lying	south and east of St. Lawrence Ward)
uo.	do.	north and east of St. David's Ward	are attached
do.	do.	south and west of St. George's Ward	to each
do.	do.	north and west of St. Patrick's Ward	such Ward
do.	do.	north of St. James's Ward	
do.		west of St. Andrew's Ward	respectively.

The limits between the respective portions of said liberties to be ascertained by the extension of the boundary lines between the said Wards respectively through the said Liberties, except the boundary line between the portions attached to St. Lawrence and St. David's Wards—which consist of the northerly boundary line of King Street east to the River Don.

An Act to License and regulate the duties and charges on Coaches, Carriages, Cabs, Carts, and other vehicles kept for hire in the City of Toronto.

The preamble of the Bill states the expediency of amending and reducing to one act, the various provisions then in force for licensing and regulating the duties of Common Carriers in the City of Toronto, and of defining and regulating the con-

duct, duties and charges of drivers of Coaches, Omnibuses, Cabs, &c., kept and used for hire in the City and Liberties; thereby repealing all former acts of the Council on the same subject.

2. Drivers of Coaches, Cabs, &c., for hire, must be provided with a license so to do. Vehicles belonging to livery stables, not occupying the public stand, exempt from

3. License to be granted by the Mayor, or any two Aldermen; no person under 18 years of age to receive a license.

4. Every person obtaining a license must execute a bond in the penal sum of £30, with two securities in the sum of £15 each, for the fulfilment of all obligations entered into, and for the payment of damages they may be liable to in law to any person, in the exercise of their calling.

5. No person shall assign his license, nor permit any other person to drive his vehicle, without the permission and endorsation of such license by the Mayor.

6. Licenses renewable on the second Tuesday of June in each year.

The following are the lawful stands assigned for Coaches, Cabs, Sleighs, &c., for hire; namely, No. 1, that side of the West Market Place adjoining the Market Buildings. No. 2, east side of Church street, between King and Adelaide streets. No. 3, south side of King street, extending west from York street.

8. Vehicles not to stand in the way of any communication that may be to

12. Persons not detaining a vehicle more than five minutes at the place of destination, are entitled to return therein to the place of departure without payment of any additional fare; if detained beyond five and under fifteen minutes, driver entitled to one-half the original fare, as return fare; if detained fifteen min-utes, driver entitled to two-thirds original fare as return fare; if detained more than thirty minutes, driver entitled to be paid agreeably to the rate for time; passengers allowed a reasonable weight of luggage free of charge: when vehicles are employed to go from the second into the third division or vice versa, or from any one division to the adjoining one, no higher rate to be charged than is allowed from the first to the second division, and vice versa.

13. Established tariff not to supersede any specific agreement.

14. Drivers entitled to charge one-third more than the rates specified by schedule after seven o'clock in the evening, from the first of October to 30th of April, and after nine o'clock in the evening, from the first of May to first October.

15. Persons calling a cab &c. from the stand, and not employing the same, entitled to pay the driver one half the lowest rate of fare.

16. Drivers when required so to do, are bound to exhibit a copy of the tariff of

17. Drivers when on the stands, not to snap or flourish their whips, nor need lessly leave their vehicle, nor make use of abusive, obscene, or impertinent lan

18. Cabs &c. to be supplied with well lighted lamps (when driven in the night). on which shall be painted the number of the vehicle.

19. Owners of cabs &c. are required to have affixed inside the same, a card, on

which should be printed the number of the vehicle, their name, and tariff of rates. 20. The foregoing regulations, except as regards lamps, are applicable to sleighs and winter vehicles used for hire.

21. Drivers of cabs &c. obliged when requested so to do, to give the number of

the vehicle, as well as the owner's name and place of abode.

22. The following are the places now occupied as stands for carts, trucks &c. kept for hire, namely: west side of Nelson-street, opposite east side of the Marketsquare, extending north from King-street; and the south side of Wellington-street, opposite Wellington Hotel.

23. Cartmen to have the number of their license painted on each side of their

cart or other vehicle.

24. Cartmen bound to accept employment when required, if not otherwise engaged, or unless the distance required to go be without the bounds of the city.

25. In case of any accident or injury happening to any person or thing, by their coming in contact with any horse, cart or load while the same is moving, the driver thereof is obliged immediately to stop, and if necessary render assistance, and if required give his name, place of abode and number of his cart.

26. Drivers of carriages, cabs, carts, &c. not to drive beyond a walk on any

27. Cartmen when called upon by the Mayor, aldermen, high bailiff or consta-

bles, to employ their cart, to convey delinquents to prison.

28. Owners of carts and trucks are not to demand higher rates rnd charges (exclusive of tolls) than those specified in the following schedule, except as regards coal, for which they can charge by the load, instead of bushel, according to the rates therein mentioned:

TARIFF OF CARTAGE.

	FROM ANY OF THE HARBOUR WHARVES, AND VICE VERSA.						
FOR EACH LOAD	To any place within the First Division.	To any place within the Sec'd Division.	To any place within the Third Division.				
Not exceeding 10 cwt	7½d.	1s. 0d.	1s. 3d.				
From 10 cwt. to 15 cwt	10½d.	1s. 2d.	1s. 5d.				
From 15 cwt. to 20 cwt. and upwards	1s. 3d.	1s. 7d.	1s. 9d.				
Wood, per cord	1s. 3d.	Is. 9d.	2s. 4d.				
Coals, per bushel	½d.	1s.	1½d.				
Furniture, per load	1s. 3d.	1s. 9d.	2s. 4d.				

29. Carters to carry a sufficient load, such as can be conveniently put on his cart or truck, and of reasonable weight to be drawn by one or more horses, as the case may be.

30. Cabmen and carters when on the stand unemployed bound to accommodate the first person offering them employment, and not to loiter about elsewhere.

31. Carters to be able-bodied men, and have good and substantial horses, vehicles and harness; horses to be driven with care.

32. Carters, cab-drivers &c. not to ill-use or cruelly treat their horses.

33. No carting to be performed on Sunday, unless in a case of fire or other

34. Carts or other vehicles to be so constructed with regard to safety as not to

drop any of their load on the street.

The provisions of the next five sections of the act are such as do not interest or affect the public generally, having reference principally to the respective duties of owners of carriages, cabs, carts, &c., as regards their license and registry and the amounts paid for the same, and the officer whose duty it is to superintend such registry, and further to enforce the rules and regulations appertaining to vehicles generally.

40. Empowers the Mayor, or in his absence any two of the aldermen in his or their discretion to displace or suspend any driver of any coach &c. for misconduct.

4. Officers of the different companies to nominate engineers, who are ultimately

appointed by the Council.

5. The chief, or in his absence, the senior assistant engineer, to have sole controll over the fire department, and with the concurrence of the Mayor or any alderman, authorize the demolishing or taking down of any houses or fences deemed necessary, in order to arrest the progress of fire, and to demand the aid and a sistance of every person present at each fire, or order them to retire, and the entire controul of carters, and the arranging and disposing of water brought by them.

6. Officers in command of engines, hose, carts, or hook and ladder apparatus, to have power of commanding male inhabitants over 16 and under 60 years of age,

to assist in conveying engines, &c., to any!fire.

7. Firemen exempt from serving as jurors, militiamen, &c.
8. Property protection company, to take in charge and convey to a place of safety property of all kinds which may be in danger of, or saved from fire. Senior officer to have the command of the company, who is likewise empowered to demand the assistance of others.

9. Engineers, officers and members of companies, to wear a distinctive dress. 10. The Mayor and aldermen of the city, who are to be recognized as bearing a

vand with a gilded flame at the top, have authority to command the assistance of others at such fires. Persons refusing liable to be sent to jail.

11. Licensed carters to attend all fires with their horse and cart, for the purpose of conveying water thereto, and not to leave without the permission of the officer n command of the department. 12. Six clear inches to intervene between any stove-pipe and any wooden parti-

ion through which it may pass.

13. Stove-pipe holes to be kept closed with some incombustible material when

14. Stove-pipes not to pass through the top or sides of wooden buildings, unless through a stone, or chimney of brick mortar. 15. Stoves to be placed so as to be eight inches from the floor, nine inches from rood above, and seven inches from wood at sides, in any building, and to be fur-

nished with a metal ash-pan. 16. Houses within the city or liberties, in which there are one or more chimnies, o have on the same a corresponding number of ladders. Ladders to chimneys to be fastened thereto, and otherwise regulated as fire inspector may direct.

17. No shavings or combustible matter to be set fire to, or consumed in any treet, square or lane, or within fifty feet of any building within the city or liber-Lighted candles or lamps, used in livery or other stables, to be enclosed in a hade or lantern.

18. No person to smoke in stables, carpenters' shops or other places, where comustible materials are; nor carry fire, except in a covered vessel of metal, through

ny street, lane, &c.

19. Ashes not to be kept in any wooden vessel, or near any wooden partition in ny house or shed; nor shall hay, straw, &c., be kept within 100 feet of any build-ng. For further information on this head, see sec. 22, Party-wall act.

20. No discharging of fire-arms, or setting off of fire-works, allowed in any

treet, square, or lane in the city.

21. City inspectors to cause flues and chimnies of houses to be swept once in very six weeks, from Nov. to April, and once every two months the remainder of the year, and to be paid for the same by occupier, at rates varying from 4d. to 714d.

22. Occupant not to prevent the sweeping of chimnies, as before provided.
23. Fire inspectors liable to penalty if chimnies catch fire within the prescribed

time, or in consequence of irregularity on their part.

24. Fire inspectors to accompany chimney sweepers, to see the duty performed properly, and without unnecessary annoyance, and to give at least one day's notice of their coming. 25. Inspectors to make a weekly report of all infractions of this act, and to pro-

secute offenders against the same.

26. No person to refuse paying for the sweeping of chimnies as aforesaid.

27. None but the fire inspector to sweep, or cause to be swept for hire or gain. any chimnies in the city or liberties.

28. Infractions of the provisions of this act, after section 10, to subject the trans gressors, on conviction, to a fine, of not more than 51., or less than 2s. 6d., and costs; and in default of payment thereof, to imprisonment, for any period not

exceeding one month.

Subsequent to the passing of the foregoing act, a fire warden has been appointed by a resolution of the Common Council, whose duty, among other things, is more particularly to examine into, and report upon the condition of the fire apparatu and houses, and to see that the same are kept in good repair, to certify accounts and otherwise attend to the financial affairs of the department.

An Act to provide for the erection of Party Walls, and to prevent the Erection of Buildings dangerous in promoting Fires within certain limits.

The preamble recites the power given by the Legislature at different periods to the Common Council of the city, as regards the erection of party walls and buildings generally &c., and the passing of an act of the said council, 30th of June, 1845, "entitled An Act to restrain the erection of furnaces and manufactories dan gerous from fires; to regulate the erection of party walls, and for other purposes mentioned therein;" which act has been found insufficient for the purposes intended

Sect. 1, Repeals said act of 30th of June, 1845.

2. All buildings within the following limits, viz.: from George street on the east to the centre of York street on the west, from the centre of Adelaide and Duke streets on the north to the bay on the south, to be divided into five classes All churches, chapels, &c., distilleries, breweries, foundries, furnaces, &c., of any dimensions, and dwelling-houses, warehouses, &c., of four stories high, above ground, or forty-five feet in height, to be deemed of the first class. Dwelling Dwelling class. Dwelling-houses, &c. of three stories, or thirty-five feet in height, to be deemed of the second class. Dwelling-houses, &c. of two stories, or twenty-two feet in height to be deemed of the third class. Dwelling-houses &c. of one story, or sixteen feet in height, to be deemed of the fourth class. Dwelling-houses or offices, stables &c. belonging thereto, and at a distance of six feet from any public road, and detached from other buildings not in the same possession at least thirty five feet, to be deemed a fifth class building, and can be built of any dimensions or material what

3. The external or party walls of the first four classes of building to be of cer tain degrees of thickness, varying from eighteen to thirty-eight inches and upwards Outbuildings connected with the latter class of houses and not divided therefrom by a party wall, to be considered of the same class of buildings, and built accordingly, but if offices &c. be detached or merely connected by a fence wall, then such building to be deemed of the class it otherwise belongs to, as unconnected with

such building.

4. Removals of frame or other buildings to be considered a re-erection. Repair of frames to the amount of two-thirds the value thereof, to be considered a re-con-

struction; amount to be determined by arbitration.

5. Party walls to be between house and house, except when each have independent walls, and to be taken down if not of sufficient thickness in case adjoining house require to be rebuilt. Timbers projecting through party walls to be cut of External walls cannot become party walls unless they correspond in thickness to such. Party walls to be such as are required for the highest class of building adjoining; owners of adjoining houses making use of party walls to contribute to their expense. Brickwork on party or external walls to be properly bonded in every course. No recess to be made in any party wall of first second third or fourth class of building, (except for chimnies, flues, beams &c., or for the ends of walls or

6. Openings not allowed in party-walls, except in certain cases: when allowed iron doors to be provided for each opening. Necessary passages and ways, or cellar underneath such passages, to be arched over with brick or stone. Parties wishing to cut through party-walls, to ask permission of the Corporation for leave to do so, who are empowered to grant or withhold such permission. Parties applying for such permission, to give one month's notice to the owner of the adjoining premises. of their intention.

7. No unnecessary timber to be laid into any party-wall or arch, and in all cases to have eight and a half inches of brick or stone work between any piece of timber and the timber of any adjoining building, except where the ends of the timber in one building lie opposite to the ends of those in the adjoining building-in which case, such timber not to approach nearer than four and a half inches to the centre of said party-wall.

8. Party-arches or shafts of chimneys not to be cut or maimed for any purpose natever. Party-walls can be cut into for the purpose of tailing in stone steps or stone landings, and other purposes, if such cutting does not injure the adjoining building, and not otherwise: all defects occasioned by the cutting into such party wall to be made good.

9. Owners of premises compelled to join in building or rebuilding party-walls, on receiving three months' notice in writing from the owner of the adjoining premises, of his intention of building and rebuilding such party-wall. Parties building to leave an account of expense of such wall, within ten days after its completion, with the owner of the adjoining premises, who will be obliged to contribute so much to the cost thereof as may be settled by arbitration. Owners of premises likewise compelled to join in the rebuilding of wooden partitions, or party-fence partitions of wood, on receiving three months' notice, as in the case of party walls; such rebuilding to be of brick or stone. The party rebuilding to be reimbursed, as in the former case. Chimney-jambs and breasts to be built in party-walls.

10. Buildings divided into distinct tenures on the ground floor, to be deemed separate buildings.

11. Buildings for stables not to contain more than twenty-four squares of building on the ground floor, except divided by party-walls.

12. Stacks of warehouses or storehouses not to contain more than thirty squares of building on the ground floor, except divided into similar-sized divisions by partywalls. No communication allowed through such party-walls, unless the door-case and sill of such communication be of stone, and the door thereof of wrought iron.

13. Fence walls enclosing first four descriptions of buildings to be of brick or stone,

and of a certain thickness and height.

14. If party-fence walls be used for buildings, they must be of the thickness required for party-walls of such rate of buildings as that to which the building so erected shall

15. Owners of one side may remove party-fence and build party-walls. If the owner of the other side uses it other than as a party-wall, he must contribute to the

16. Breastwork of chimneys not to be supported by timber. Chimneys to be of certain specified thicknesses. Flues built in party or external walls to be surrounded by brickwork. Chimney-breasts to be of a certain thickness.

17. Partitions between flues to be at least half a brick thick.

18. Chimney hearths—except in cellars or ground story—to be laid on brick or stone, and have slabs or footpaces before the same, of stone, brick, marble, tile or iron, of certain breadth.

19. No timber to be laid within certain distances of stoves, chimneys, &c.

20. Chimney stacks to be at least four feet above any roof or wall to which they are attached

21. Prescribes the manner in which pipes or funnels for conveying smoke or steam are to be regulated.

22. Houses, warehouses, &c., of the first, second and third class, now or hereafter to be erected, to be provided with an ashpit surrounded with brick or stone walls at least fourteen inches thick and three feet in the ground, arched over with brick or stone, with iron doors, and to be unconnected with any combustible material. Houses of the fourth and fifth class to be provided with an ashpit of wood or other substance, lined and covered with sheet-iron; to be placed at least six feet from any shed, fence or other wooden substance. In houses already erected, having no ashpit built, nor place left for one, the owner to provide a box or pail, made of boiler-plate, with a cover of the same material, capable of holding two bushels; and no person is allowed to keep more than two bushels of ashes on such premises.

23. Window-sills, dressings, eave-troughs, cornices, &c., to be of stone, brick, copper, Iron, zinc, tin or other incombustible material.

24. All roofs, roofs of lanterns, covering of domes, spires, towers, platforms or other coverings of buildings of first, second, third and fourth class, to be of tin, iron, zinc, copper, slate, tile or other material of an incombustible nature; and roofs to be relaid or re-covered, to be of the same.

25. Breast summers to be carried on brick or stone walls or piers, or on cast iron

columns seated on brick or stone, and in no case on story posts or other timber

26. Shop windows or fronts not to project more than six inches from the wall of

the building.

27. Cranes or hoisting jibs to be wholly constructed of iron, or other incombustible

28. No covered gallery or verandah, constructed of wood or other combustible material, to be erected in connexion with buildings of first or second class, or with any other than the ground floor thereof, unless as a communication from one to another stack of buildings, with its ends only abutting on said buildings.

29. Buildings of first, second and third class, being erected on the line of any public street or way, or within seven feet of such, to be properly enclosed, and a pathway of sufficient width laid for the convenience of the public outside such enclosure.

30. The Common Council to appoint a city surveyor,* to oversee the erection of all buildings within the before-described limits, and to enforce the provisions of this act with regard to the same; and to be entitled to demand and receive from the owner of such building so built, altered or reconstructed, the following fees, that is to say :-For every first-rate building, 25s.; every alteration or addition, 7s. 6d.: every secondrate, 20s.; every alteration or addition, 6s. 3d.: every third-rate, 15s.; every alteration or addition, 5s.: every fourth-rate, 12s. 6d.; every alteration or addition, 5s.: every fifth-rate, 10s.; every alteration or addition, 5s.

31, 32 & 33. No iron-foundries, furnaces, blacksmith's shops or steam engines to be erected, set up or worked within any part of said limits, without leave of the Com-mon Council, by resolution thereof. Persons erecting such buildings, and others using them, without such authority, contrary to the true intent and meaning of this act shall subject themselves to a daily penalty, for every day the premises shall be so

34. Without permission of the Council, as aforesaid, no person to establish or carry on any manufactory of varnish, fire-works, or any manufactory dangerous as causing or promoting fires.

35. Steamers, when at any of the docks or wharves in front of the city, to have a top or screen attached to their chimneys, to prevent the escape of sparks.

36. No person to have or keep a larger quantity than twenty-eight pounds of gunpowder in one place longer than forty-eight hours, except in a powder magazine approved of by the Common Council; said twenty-eight pounds to be put in stone

jars or tin cannisters of seven pounds each.

37. The city surveyor, when directed by the mayor or any alderman, to examine all fire-places, hearths, ovens, boilers, furnaces, stoves, stovepipes or other places where fires are made or kept, or where ashes are kept, and report thereon to the mayor or presiding alderman; and, under their direction, if the same be dangerous, to notify the owner, occupier or party using the building where such danger is apprehended, to discontinue or remove such fire or ashes. If such notification be not immediately attended to, the city surveyor shall, under the direction of the mayor, employ the necessary aid and assistance in removing the same. Parties so neglecting or refusing, &c., as aforesaid, or obstructing the city surveyor in such removal, to forfeit such penalty as the mayor or convicting alderman shall deem

38. Any person found guilty of any infraction of the provisions of this act, shall, on conviction before the mayor or one or more of the aldermen of the city, forfeit and pay, at their discretion, a sum of money not exceeding 5l. or less than 5s. for each offence, or for each day such offence shall continue. In default of payment of such fine and costs, or of sufficient distress being found to satisfy the same, it shall be lawful for the mayor, or alderman as aforesaid, to commit the offender or offenders to the common jail of the county of York for any period not exceeding one calendar

An Act to regulate the Public Markets of the City of Toronto.

[CONDENSED.]

[Passed January 19, 1846.]

The preamble of the Bill states the necessity of amending the laws then in force for regulating the Public Markets, and reducing the same into one act.

Sec. 1. Repeals all former acts relating to the Public Markets.

2. Butchers and others using the Public Markets now or hereafter to be established within the city, to be subject to the regulations contained in this act.

3. Butchers to be licensed by the Mayor. Every person selling meat in less quantity than by the quarter, to be deemed a butcher.

4. No Ox, Cow, Heifer, Steer, Hog, Calf, Sheep or Lamb to be slaughtered within the city.

* Present City Surveyor, J. G. Howard, Esq.

within the liberties of the city.

6. Butchers and others to sell fresh meat in the Public Markets, and not elsewhere. Farmers, however, may dispose of such, being the produce of their farms, by the quarter, or greater quantity, in any part of the city, after 12 o'clock, having first paid the market fees.

7. No person, except a licensed butcher or farmer as aforesaid, can sell in any

part of the city or public markets any fresh meat.

8. Butchers shall not, by themselves or agents, purchase or cause to be purchased from farmers or others, meat or other articles of provison, before 12 o'clock noon, for the purpose of selling the same again, nor shall any butcher, &c. act as the servant, &c. of others in the purchase of meat or other provisions before the hour aforesaid.

9 & 10. Relate to the fees and rent to be paid by butchers for their license and

rent of stalls.

11. Requires all persons selling meat or provisions by weight or measure, to be provided with scales, weights and measures, duly adjusted by the Inspector of weights and measures, and if found deficient to be forfeited to the use of the poor, and if sold, seller to be punished as provided.

12. No person to drive inside the market faster than a walk.

13. Horses, Cattle, &c. excluded from the interior of the market and sidewalks around the same; horses or oxen drawing vehicles into the market to be immediately taken out of the same until again wanted to draw them off. Vehicles with produce for sale to be placed as the market clerk shall direct.

14. Waggons, &c. bringing firewood into the city for sale, shall be placed along the south side of Front-street, east of Church-street, to be under the direction of the clerk of the wood market, and not to loiter about the streets with their load.

15. Vehicles bringing hay or straw to market for sale, to be stationed at the hay market, east of the market-square, and to be under the direction of the clerk of

the weigh-house, and not to loiter about the streets.

16. Market-place to be open daily, (Sundays excepted) at 5 o'clock, a. m., between the 1st of May and 1st of November, and at 7 a.m. the rest of the year; to be closed daily throughout the year at 4 o'clock, p. m., except on Saturdays, when it is open until 9 p. m. Butchers to have liberty of opening their stalls to supply steamboats arriving after market nours.

17. Clerk of the market to assign places to hucksters, and to report all infractions of the market laws to the clerk of the Common Council, whose duty it is to prose-

cute all such offenders.

18. Clerk of the market to inspect all meat and provisions offered for sale, and under the directions of any Alderman seize and destroy such as may be tainted or

unfit to be eaten.

19. The square of the market on the Bay shore to be the only place in the city or liberties where wheat, barley or other grain, and flour and meal is to be exposed for the purpose of being bought or sold; persons buying or selling elsewhere before 12 o'clock noon, are liable to punishment; persons, however, having stores or warehouses can sell wheat and flour in the usual way; and farmers, after 12 o'clock noon, can sell wheat, &c. in any part of the city, having first been at the regular market place and unable there to dispose of the same—nothing in this clause to interfere with the privileges granted to St. Patrick's market.

20. None of the shops, stalls, &c. in the public market to be underlet or left in

charge of any one by the owners thereof, without the written permission of the

Chamberlain of the city.

21. Farmers or others not permitted to dispose of any article of provision usually sold in the market elsewhere in the city, until after having been at one of such

regular market places, and paid the fee hereinafter mentioned.

22. Clerk of the market to demand and receive the following fees, viz: from the owner of every sleigh, waggon, &c. containing fresh meat for sale, 714d.; from the owner of every two-horse waggon or sleigh, containing produce or other articles of provision for sale, 71/3d.; if by a one-horse cart, sleigh or cutter, 4d.; if on horse-back or wheel-barrow, 3d.; if by hand, 1d.; and 71/3d. for every load of lumber or shingles brought to the city or liberties for sale. Persons neglecting or refusing to pay the aforesaid fees are subject to the penalties hereinafter mentioned, 23. Persons guilty of any infraction of the provisions of the above act, on con-

viction before the Mayor or presiding Alderman, are liable to a penalty not exceeding five pounds, nor less than 5s. and costs; and in default of payment, in case no sufficient distress be levied, liable to imprisonment for any period not

exceeding one calendar month.

PORT OF TORONTO.

Steam-packets and schooners are hourly arriving at and departing from the Port Toronto, to and from Niagara, Hamilton, Oakville, Port Credit, Port Hope, on, and the intermediate ports.

ORDER OF SAILING FOR 1850.

Sailing of Steamers from Toronto.

For Kingston.—The Royal Mail steamers Princess Royal, Magnet, and City of bronto, (forming a daily line) leave Toronto for Kingston, alternately, at 12 o'clock con, daily (Sundays excepted): Returning, leave Kingston for Toronto and Hambobourg, and intermediate ports, each way (weather permitting):—arriving at cronto at 6 o'clock next morning—leaving for Hamilton at 8; and returning to cronto same afternoon.

Note.—The Magnet remains at Hamilton over night, leaving for Toronto on her ownward trip, at half-past 7 o'clock, on the mornings of Monday and Thursday. For Niagara and Lewiston.—The steamer Chief Justice Robinson leaves Toronto or Niagara and Lewiston, daily, (Sundays excepted) at half-past 7 o'clock A. M., Returning, leaves Lewiston at 1 o'clock P. M.

The steamer Sovereign leaves Toronto for Niagara and Lewiston, daily, (Sundays keepted) at 2 o'clock P. M., and Lewiston for Toronto at half-past 7 every morning. For Hamilton,—The steamer Eclipse leaves Toronto for Hamilton, daily, (Sundays excepted) at 2 o'clock P. M., and Hamilton for Toronto every morning (Sunday excepted) at half-past 7 o'clock, calling at Oakville, Port Credit, and Wellington

For Rochester and Oswego.—The steamer America leaves Toronto for Rochester, uching at Windsor Harbour, Oshawa, Port Darlington. Bond Head, Port Hope, bearing, leaves Rochester for Toronto on Monday, Wednesday, at 10 o'clock A.M. o'clock A.M.—touching at Cobourg and the other intermediate ports. The steamer Niagara, for Rochester and Oswego, leaves the Yonge-street wharf a Tuesday, Thursday, and Saturday, at 8 o'clock P.M.

THE FREIGHT STEAM-SHIPS—Britannia, Comet, Dawn, Free-trader, Ottawa, and Sestern Miller, make about a trip each week, between Toronto and Montreal.

Agent for steamer Sovereign. Princess Royal, America, and Eclipse, George B. OLLAND,—Royal Mail S. Packet office, corner of Front and Scott-streets, Toronto. Agent for City of Toronto, Chief Justice Robinson, and Magnet, James Baine, 24

Agent for the Niagara, WILLIAM M. GORRIE, Yonge-street wharf.

TORONTO POST-OFFICE.

Situated on Wellington-street East, west of, and near Church-street.

CHARLES BERCZY, P. M.

The office is open daily (Sundays excepted), from 7 A.M., to 6 P.M., and on Sunys from 9 to 10 A.M., and 5 to 6 P.M.

The postage on letters and newspapers for for the Westerland Charles and newspapers.

The postage on letters and newspapers, &c., for the United States, must (at prent), be paid to the lines.

Persons calling at the Post of a letter of the lines.

Persons calling at the Post-office for letters, should look if their name is on the tof advertised letters; and if it be, ask for it as an advertised letter. Letters should be addressed to their destination in the clearest manner, and the nearest post-office; the name of the person addressed should in all cases pear first on the letter, and not the name of the person to whose care it is directly as is frequently the case. If there is no office where the person addressed sides, the name of the county, &c., should not be omitted. Letters are often missing delayed or miscavijed in consequence of ambiguous directions.

nt, delayed or miscarried, in consequence of ambiguous directions.
We cannot give any satisfactory information of a permanent nature as regards e hours of closing the mails; the summer arrangements for the season having arly expired, and the winter arrangement is not yet published. The entire partment moreover being in a transitory state, in consequence of its immediately

coming under provincial controul and management (in accordance with the post office act of the last session of Parliament), which will doubtless involve many new arrangements and changes; not the least beneficial of which will be the reduction of postage on single letters, any distance within the Province, or Provinces of Br. tish North America, to a uniform rate of three-pence currency each, and in the

same proportion for those of greater weight, according to the following scale, viz.:

Not exceeding ½ oz. in weight

Exceeding ½ oz. and not exceeding 1 oz.

1 oz.

2 oz.

Four rates

and so on; every additional ounce to be charged two additional rates, and every fraction of an ounce as an additional ounce.

According to existing arrangements-

The Eastern, Western, and Southern and U.S. mails, are closed daily at 5 P.M. The Northern mail and mail by Streetsville stage daily (Sundays excepted) at 2 P. M.

The Albion route, on Mondays, Wednesdays and Fridays, at 1½ P.M. Letters for England despatched (daily, and should not be later than Friday w Montreal; can be sent subsequently via U.S. on payment of 21/2d. each sngle letter. During steamboat navigation, the principal, or as they are called, Grand Eastern and Western mails and Southern mail, go by water; the Eastern mail by steamer, closing at 11 A.M., and the Western mail by do. at 1 P.M.—for Niagara Frontis and United States at 5 P.M.

We are not in receipt of the necessary information to enable us, as we intended to give an alphabetical list of the post-offices in Canada, with the name and design nation of the city, town, village or township and county wherein situated, as well as the name of the postmaster and the distances in miles from Toronto.

The Post-office Surveyor's office is two or three doors west of the Post-office.

TABLE OF DISTANCES.

Western and South-Western Route.

Conducted by a Board of twelve Directors, who meet monthly, or oftener as may be needed. Chairman of the Board, The Honourable C. Widmer, M.D. Members—Revds. H. J. Grasett, J. Roaf, J. Carroll, and J. G. Chewett, M. J. O'Beirne, J. Beaty, W. McMaster, W. Mathers, J. Eastwood, and G. Gurnett, Esquires, and Capt. Eccles.

Officers of the Institution.—John Scott, Esq., M. D., Superintendent; James

McKirdy, clerk and store-keeper; Wm. Ramsey, steward; Eliza Ramsey, matron. The building is designed to contain 250 patients, but 300 may be accommodated in it. There are at present within it about 240 patients.

The institution is open to the public on an order of a Director, or that of the Medical Superintendent, between the hours of 12 noon, and 3 P.M., every day-Saturdays and Sundays excepted.

The admission of patients is regulated by act of the Provincial Legislature, 2nd Victoria, chapter 2; and requires that the patient be examined by three licensed medical practitioners collectively, who certify to the insanity. It is particularly requested that those who apply may, if practicable, come possessed with a history of the patient, and the immediate cause of the disease; also, that the patient is a subject of Her Majesty, and a resident of the Province: Forms of the above may be had at the offices of all the clerks of the peace throughout the Province, or by application at the asylum. It is required that patients or their friends, having the means, will contribute towards their support while in the institution.

The Board require the parties presenting any destitute or pauper lunatic, to make affidavit before a magistrate in the neighbourhood of the residence of the patient, that such lunatic or his friends have not the means of paying the expenses to be incurred for his maintenance and support; sec. 2nd Vict., chap. 11, sect. 8. Idiots and persons afflicted with paralysis, are inadmissible into the institution.

MEDICAL BOARD, CANADA WEST. Established by Act of Parliament.

President.—Hon. Ch'r Widmer, M. D., F. R. C. S., England. Members.—Hon. Ch't Widmer, M. D., F. R. C. S., England.

A school has been formed in the house, under the charge of a respectable aged A school has been formed in the house, under the charge of a respectable aged female, one of the inmates, by which means the children are kept in good order and taught their duty, and are prevented from growing up in ignorance and idle-

Dr. Hodder gives his medical attendance free, and it is visited by the elergymen of the city.

The honorary officers of the institution are, William Westmacott, Esq., Secretary. Edward H. Rutherford, Esq., Treasurer.

Edward Perry, Resident Superintendent.

FEMALE EMIGRATION SOCIETY.

This is a Society recently formed in England, of which the Right Hon. Sidney Herbert is the President—having for its object the sending to Upper Canada a cer-

tain number of domestic female servants of good character.

In order to co-operate with the Society in England the following Committees have been formed in Toronto, who have already entered into arrangements by which a proper place of reception may be had, provided a moderate sum be raised to meet the cost of furniture and other necessary expenses.

Committee of Gentlemen—The Hon'bles Chancellor Blake, Mr. Justice McLean, Mr. Justice Draper, R. Baldwin, P. B. DeBlaquiere and S. B. Harrison; His Worship the Mayor; Rev. James Beaven, D. D., Rev. H. J. Grasett, M. A., Rev. S. Lett, L. D.; John Arnold, James S. Howard, E. M. Hodder, M. C., J. H. Hagarty, L. L. D.; Mr. M. G. W. Allan, and Thomas Champion, Esqrs.; Capt. Crease, R. N., Dr. Hayes.

Committee of Ladies—Mistresses Arnold, Beaven, Blake, DeBlaquiere, H. Boulton, W. Boulton, Crease, Dixon, Draper, Grasett, Gurnett, T. D. Harris, E, G. O'Brien, J. B. Robinson, J. L. Robinson, James Strachan, Widder, Willis.

Honorary Secretary and Treasurer—J. W. Brent, Esq.

Departures will be received by any of the receiver of the Committee of the Committee

Donations will be received by any of the members of the Committee, or by the Secretary and Treasurer.

THE CATHOLIC ORPHAN ASYLUM.

Richmond-street.

This institution was established in 1849, for the purpose of affording shelter, maintenance and protection to destitute orphans, half-orphans, and children whose parents, from sickness or infirmity, are unable to support them.

This establishment is entirely dependent on the contributions of the charitable, the difference of the most part supported out of the offertory collection at St. Michael's Cathedral; assisted by an occasional collection of private donations.

It is under the management of a Committee of Ladies.

Daily Visitors—The Rev. Mr. Harkin, the Hon. J. Elmsley and Dr. Hayes.

TEMPERANCE REFORMATION SOCIETY OF THE CITY OF TORONTO.

BUILDING SOCIETIES.

nese societies were first introduced into Upper Canada about four years ago; the ntion of them being, as stated in the statute under which they were organized, the purpose of raising by small periodical subscriptions a fund, to enable the nbers thereof to obtain unencumbered freehold or leasehold property. They e continued to increase in public favour, so that there are now, we believe, eight eties in the city of Toronto alone, and at least one in almost every county in Province. The provisions of these societies are generally as follows:—The e of each share £100, and the payments to realize this sum, 10 shillings Province. thly, with an entrance fee of from 2s. 6d. to 5s., to pay for books, stationery other preliminary expenses, and 71/2d. per month to cover all expenses of mannent; that the profits may go on accumulating without any deduction. A few hose which have been lately established, have reduced the shares to £50; and to so small an amount as £12 10s., but the alteration does not seem to be much to so small an amount as £12 los., but the alteration does not seem to be much t, as the expenses of management are thereby increased without commensuration advantage being gained. The accumulation of profit in these societies is very t, because the whole funds on hand being sold every month at high rates of each and at a considerable premium, the operation of compound interest upon increase of the general fund is very effective. Neither, though a borrower rently pays an exception interest does he do so in reality for he cannot be rently pays an exorbitant interest, does he do so in reality, for he cannot be rower without being a shareholder; as such he is to a certain degree a lender mself, and therefore his participation in the gains reduces very materially the

BUILDING SOCIETIES IN TORONTO.

TORONTO BUILDING SOCIETY.

INCORPORATED IN 1846.

President—Charles Berczy; Vice-president—T. W. Birchall; Solicitor—J. L. Robinson; Secretary and Treasurer—W. C. Ross; Bankers—Bank of British North America. Office—Bank of British North American buildings, Wellington, near Yongo-street.

Council—The Principal of U. C. College; Hon. J. H. Cameron, Q.C., M.P.P., Jos. C., Morrison, Esq., M. P. P.; J. H. Richardson, M.B., M.R.C.S.L.;

Endowment Board-Hon. F. Hincks, M.P.P., Inspector General, Chairman; Hon. J. H. Cameron, Q.C., M.P.P., J. C. Morrison, M.P.P., J. J. G. P. Ridout, Esq. Hayes, M.D.

Principal-Frederick William Barron, Esq., M. A.

Masters—The Rev. H. Scadding, M. A., 1st Classical Master; Rev. G. Maynard M.A., Mathematical Master; Rev. W. Stennett, M.A., 2nd Classical Master; Wedd, Esq., M. A., 3rd Classical Master; J. P. De la Haye, Esq., French Master; W. Barrett, Esq., B.A., First English Master; C. Thompson, Esq. 2nd English Master; J. G. Howard, Esq., Geometrical Drawing Master; J. Dodd, Esq., (pro tem.) Master of Commercial Department; J. Bull, Esq., (pro tem.) Ornamental Drawing Master; J. D. Humphreys, Esq., (pro tem.) Singing Master; H. Schallehn, Esq., (pro tem.) Instrumental Music Master.

Course of Education.—Greek, Latin, French, Mathematics, Natural Philosophy, History and Chronology—Ancient, Mediseval and Modern; Geography—Ancient, Modern and Physical; Use of the Globes; Arithmetic, Mental Arithmetic, Book keeping, Geometrical Drawing, Surveying and Perspective, Ornamental Drawing Singing and Instrumental Music-in addition to the ordinary branches of English with composition in English, and in Greek and Latin Prose and Verse.

The necessary Books, and Drawing Materials, are procurable at the College Bookseller's, Mr. H. Rowsell, at the expense of the pupil.

The Commercial Department—has lately been introduced as a branch connected ith the College. In this department pupils can devote their time exclusively to with the College. studies appertaining to commerce; or they can unite therewith, if desired, the study of French, Mathematics, Natural Philosophy, Singing and Instrumental

Music, without any additional fee. The Resident School House-has been opened, and is conducted under statute, rules and ordinances made by the College Council. The School-house is an integral part of the Institution, and under the sole and entire management and supervision of the Council, who "require that all boys coming from a distance and having melations in town with whom they can live, should reside on the premises, either with one of the Masters, or in the Resident School-house." There are three College Master living in the Resident School-house, one of whom is constantly with the boys Each boy has a separate sleeping apartment, and none but men servants are employed in the School-house. The members of Council have consented to act for week at a time each, with the Principal, as Visitors; and the College Masters and diving in the Resident School-house act in rotation as Censors; the most perfect order is thus secured-in short, everything has been done which the Council con sidered would make the Resident School-house worthy of the entire confidenced those who, living at a distance from Toronto, desire that their sons should enjoy with safety the advantages which Upper Canada College, as a Provincial Institution

now offers to the Province at large. M. Barrett, Esq., B.A., Resident Master; C. Thompson, Esq., Assistant Resident Master; J. Dodd, Esq., Assistant Resident Master.

Fees-Preparatory Form (for education)			**			0	per term.
Commercial Department "				1	15	0	- 66
College Forms "				 2	10	0	"
Board and Lodging (with no chare	e for	ext	ras)	 7.	10	0	66

The sum of five shillings per term, or one pound per annum, has thus been added to the former College fees for tuition, because the additional branches of Ornamental Drawing and Vocal and Instrumental Music now form part of the regular College

All fees, whether for board or tuition, are to be paid in advance to the Collector appointed by the Endowment Board.

Collector, A. Cameron, Esq.

COLLEGE TERMS:

Audumn.—From end of Summer vacation to November 30. Winter .- From 1st Dec., to end of February (including Christmas vacation). Spring.—From 1st March to May 15, or Wednesday nearest the eto. Summer.—From 15th May to July 21, or Wednesday nearest thereto.

Summer vacation of about seven weeks, from end of summer term.

NEWFOUNDLAND.

Seat of Government: St. John's. Executive Government: Governor, Vice-Admiral and Commander-in-Chief, Sir John Gaspard Le Marchant.

THE LAW SOCIETY OF UPPER CANADA.

This Society was first established in 1797, by 37 Geo. III., ch. 13, which enabled the practitioners of the law to form themselves into a society, and make rules for

the parties of the law to the translation of the judges as visitors.

The act of 1822, 2 Geo. IV., ch 5, incorporated the "Treasurer and Benchers of the Law Society," giving perpetual succession and a common seal, in the usual manner of acts of incorporation.

Under these statutes the Society is governed by the Board of Benchers, very much in the manner of the various law societies in London. The benchers sit in convocation every term, and admit students and barristers. The examination for students, which is a scholastic examination, is conducted in the presence of the benchers, and the examination of barristers, at the end of the term of five years after admission, is conducted by the benchers in convocation. This examination is in the various branches of legal learning. Each student, on admission, is a member of the Society, and entitled to the use of the library.

The revenue of the Society consists of the fees paid by students and barristers on their admission, and the fees, called term fees, charged to practising barristers.

By an agreement with the government, the society furnish the superior courts with suitable accommodation for ever, for the sum of £6000 currency.

The library of the Society is of great value, and consists of 1430 volumes of select law books, and 420 volumes of standard literary works; among which are 86 folio volumes of public records of the United Kingdom-in addition to which, the Society have lately ordered an extensive addition thereto. The reports of cases published in England are procured monthly, and liberal additions are from time to time made, to the text books. Upon the whole, the library is such, as to be of very great service to the students and practitioners. There are at present 820 names entered on the students' roll of the Society—of which 542 have been admitteed barristers.

Names of Benchers—Bartholomew C. Beardsley, Henry John Boulton, Thomas Ward, George Ridout, John Rolph, G. S. Boulton, James E. Small, M. S. Bidwell, William Elliott, Robert Baldwin, David Jones, G. Rolph, Robert Berrie, George S. Jarvis, Donald Bethune, Allan Napier McNab, Henry Sherwood, Thomas Kirkpatrick, John Godfrey Spragge, Clarke Gamble, Marcus Fayette Whitehead, Thomas Maybee Radenharst, George Malloch, George Boswell, Edward Clarke Campbell, Miles O'Reilly, William Notman, John H. Cameron, George Sherwood, Edmund Murney, James Smith, John Wilson, John Alexander Macdonald, John Wellington Gwynne, William Buell Richards, John Ross, Samuel Beasley Harrison, John San-

field Macdonald.

The Treasurer is elected annually in Michaelmas Term, and enters upon his duties on the first day of the following Term. Present Treasurer-J. G. Spragge, Esq.; Secretary and Librarian and Examiner, Hugh N. Gwynne, Esq.

THE COURTS IN OSGOODE HALL.

THE COURT OF QUEEN'S BENCH sits in banc during the four terms, in Osgoode Hall. The Terms are Hilary, which commences on the first Monday in February; Easter, on the first Monday in June; Trinity on the last Monday in August; and Michaelmas on the third Monday in November; and each term ends on the Saturday of the week following respectively.
Under the act of 1849, 12 Vic. ch. 63, this court now consists of three judges.

There were formerly five. The court was first established in 1794, by 34 Geo.

The business of the court, in Term time, is the same as that of the same Court in England, namely-to hear motions for new trials, the arguments of demurrers and of special cases. It also has a jurisdiction, as a Court of Appeal, from the decisions of the judges of the county courts.

Chief Justice—Hon. J. B. Robinson; Puisne Judges—W. H. Draper and R. E. Burns; Clerk of the Crown and Pleas—Charles C. Small; Reporter—J. L. Robinson; lst Clerk—W. H. Coxwell; 2nd do.—Thomas Coxwell.

The Court of Common Pleas was established by the act above mentioned, of 12 Vic. ch. 63. It consists of three judges who sit in Term, in the same manner as the judges of the Queen's Bench. The jurisdiction is similar to that of the Court of Queen's Bench, and has concurrent jurisdiction with the county courts. The circuits are taken by the judges of both courts. A judge of one of these common law courts sits each day, at noon, to hear motions, in chambers.

Chief Justice—J. B. Macaulay; Puisne Judges—Arch. McLean and R. B. Sullivan; Clerk of the Crown and Common Pleas—A. N. Buell; 1st Clerk—Robert Pearson; 2nd do.—George C. Goldsmith: Messenger for C. C. P. and C. Q. B.—Jas. Alexander.

W. B. Heward, Clerk in Chambers' Practice Court.

CIRCUITS, U. C.

For outer Counties—Spring—between Hilary Easter; Autumn—between Trinity and Michaelmas.

For county of York—Winter—7th January; Spring—6th May; Autumn—4th November.

THE COURT OF CHANCERY consists of a Chancellor and two Vice Chancellors. It was established in 1837, and sat at Kingston during the time that the seat of government remained there. It has since sat in Toronto. It was presided over by one judge until the passing of the act of 12 Vic. chap. 64. The judges sit and hear causes and motions together, and not separately as in England. The court sit every Tuesday and Friday, except during vacation, which is from the 1st of July to the 21st of August.

Chancellor—Hon. W. H. Blake; Vice Chancellors—R. S. Jameson and J. C. P. Esten; Master—J. G. Spragge; Registrar and Reporter—Alexander Grant; Clerk—William Stanley; Messenger, Alexander Ross.

THE COURT OF ERRORS AND APPEAL consists of nine judges, being all the judges of the three courts above mentioned. It has jurisdiction in appeal from each of the three courts, and sits three times a year. Its regular times of sitting are on the second Thursday after each term, except the term of Trinity.

Registrar_J. Shuter Smith.

PROBATE AND SURROGATE COURT.—The Court of Probate and the several Surrogate courts exercise the powers and functions which the Ecclesiastical Court exercise in England, relating to the probate of wills and the administration of the estate of intestates. Persons dying and leaving property in more than one district, those interested must prove the will, &c., in the Court of Probate, which is held in Toronto, and is open throughout the year for the granting of probates and committing letters of administration. It has four terms in every year, commencing on the first Monday in January, last Monday in March, first Monday in June, and last Monday in September.

Judge, ex officio—The Governor General; Official Principal—Secker Brough; Registrar—Charles Fitzgibbon.

The Surrogate Court is held in every district on the same days as the Probate Court. Wills can be proved and letters of administration granted any day, at the office of the district surrogate.

COUNTY COURTS.—These courts are presided over by barristers of at least five years standing, and have original jurisdiction in civil matters to the extent of £50 cy, in cases of open account, and £100 currency in cases of notes or bills, &c.. and in cases of tort to personal chattels to £30, with trial by jury. Appeals allowed to the Courts of Queen's Bench or Common Pleas.

DIVISION COURTS, U.C., are held in different places in each county by the county judge, for the summary disposal of cases uot exceeding 25% currency in amount, so far as regards matters of debt on contract, and 10% so far as relates to injuries to personal chattels, and trespasses to lands where no question of title is involved. A jury is permitted in certain cases. Attachments against personal property, of concealed or absconding debtors, from one county to another, or from the province, to 'evoid service of process, with intent to defraud, may be issued by the Clerk of the Division, or by the judge, or any justice of the peace.

The President and Treasurer of the Township Agricultural Societies are ex-officio Directors of the County Agricultural Society; as also such County Councillors as are or may be members of the County of York

AGRICULTURAL ASSOCIATION OF UPPER CANADA.

Officers for 1850.

President: John B. Marks, Esq., Kingston.

1st Vice-President: Thomas Clark Street, Esq., Niagara Falls.

2nd Vice-President: William Matthie, Esq., Brockville.

Treasurer : R. L. Denison, Esq. Secretary : George Buckland, Esq., Toronto.

The payment of 5s. constitutes a person a member of the Agricultural Associa tion of Upper Canada for one year; and £2 10s. a member for life.

The next meeting of the Association takes place at Brockville, in the third week in September, 1851.

In connection with the Agricultural Society of Upper Canada there is an annual show of horned cattle, horses, sheep, pigs, agricultural and horticultural implements, domestic manufactures, agricultural and horticultural productions, embroidery, paintings, indian work, poultry, &c. The last annual show was held at the town of Niagara, on the 18th, 19th and 20th of September, at which about 800 prizes were awarded, in sums varying from 5s. to £25 each. The entire sum awarded amounted to about \$6000.

DESCRIPTION OF PUBLIC BUILDINGS.

PARLIAMENT HOUSE AND BUILDINGS.

This is an extensive range of buildings, occupying, with the grounds surrounding them, that entire rectangular block of ground which is bounded by Simcoe, John, Front and Wellington-streets. There is a fine semi-circular carriage sweep in front of the buildings, which is entered at different points from Front-street: the in front of the buildings, which is entered at different points from Front-street; the buildings are likewise approachable in the rear from Wellington-street. The centre or main building is superior to the rest, in point of size and character, and is approached by an extensive flight of stone steps. It is occupied during the sessions of Parliament by the two branches of the Legislature. Both the Chamber of the Legislative Council and that of the House of Assembly, are lofty and of the Legislative Council and that of the House of Assembly, are lotty and of ample dimensions, furnished and ornamented in a very rich and profuse manner, and adorned with full length portraits of Her Most Gracious Majesty Queen Victoria—the joint libraries of both houses, and the reading rooms belonging to each house, occupying the second story of the building—the library containing about 5000 volumes of books. (The former library, which was destroyed by fire in 1849, was the most valuable and extensive library in British North America; it contained 25,000 volumes.) The smoking room is situated immediately above these apartments; besides these there are many other apartments—such as the speaker's rooms, clerk's room, and those occupied by the different officers and clerks of the houses; from the central building or Parliament House, wings project east and west—these combine accommodations for the officers of the different provincial departments, which have been separately noticed in the first part of the work. The buildings are very pleasantly and airily situated, commanding an uninterrupted view of the Bay, and being fanned by pleasant breezes in the warmest weather.

GOVERNMENT HOUSE.

This building is situated on Simcoe-street, a fashionable thoroughfare, near King-street, about midway between the Parliament House end the College. Of the building itself, which is a large yellowish coloured house, there is nothing particularly worthy of remark. It was in former times, and for a series of years, the residence of the different Lieutenant-Governors of Upper Canada. It is now occupied by several Government offices, of which mention has Canada. It is now occupied by several Government omces, of which mention has been already made. Of the grounds attached to the building, which are also already referred to in the introductory portion of the work, we may here remark, that they present a variety of surface, which gives them a very pleasing effect. They have been prettily laid out in plantations and groves, and are intersected by serpentine walks, which are beautifully shaded. A small stream which runs through a ravine in the grounds, adds to their natural beauty. The entrance to the public offices is from Simcoe-street, near King-street. The private entrance is a little south of the office entrance, on the same street. The grounds can be also entered from Wellington-street.

THE UNIVERSITY OF TORONTO.

Under the charter of King's College, the east wing of the University was com-Under the charter of King's College, the east wing of the University was commenced in 1842, and completed in the following year. It forms but a seventh part of the front, as designed by Mr. Thomas Yeung, architect, being 63 feet in width, and about 100 feet in depth. The entire front, 600 feet in length, would have comprised the elevations of the students' apartment, (being the only part erected,) the group, with lecture rooms and offices on either side. Between the east wing and the library and between the wast wing and the library, and between the west wing and the museum, gateways were designed, giving carriage entrance into a large quadrangle, of which the building above described formed the south front.

The wing erected is a plain stone structure, of the Grecian-Doric order. It has already undergone various appropriations, and now affords accommodation for the

faculties of arts and medicine.

The University is situated in a domain of I50 acres, purchased for its use in 1825. The grounds extend from Queen-street south, to the north about one mile and a quarter—and from east to west, from Yonge-street about three parts of a

The principal avenue, from the main entrance on Queen-street, is in length about three quarters of a mile, where it reaches the University buildings, and is planted with two rows of horse-chestnut trees and other trees and shrubs, at present in a fine growing and thriving condition. The larger trees have been planted since the year 1830, and will in due course of time present a very noble appearance.

Another avenue runs east and west from Yonge-street, and is half a mile in length, meeting that from Queen-street at a right angle, and is planted with trees

and shrubs of the same kind as the former

Of the grounds in general it may be observed, that fifty acres, er one-third, are laid out in lawns and shrubberies, surrounding the buildings of the institution—and the remaining one hundred acres are imparked, having the forest trees, left for ornament, interspersed throughout their extent.

A stream of water runs through a deep and picturesque ravine to the west of the site of the University, in a direction from north to south, and by the planting of its banks, and the heading of the running water, is capable of being formed into an object of great ornament to the domain.

Taken as a whole, the grounds and shrubberies of the University form one of the principal recreations, for exercise and amusement, of the citizens of Toronto; and the skill and taste displayed in their formation have elicited the admiration of all who have sought the cool refreshment of their sylvan shades.

THE ANATOMICAL SCHOOL, UNIVERSITY OF TORONTO.

The building is now erecting from designs, and under the superintendence of Mr. Thomas Young, architect. Its dimensions are 82 by 51 feet, and on the south side it contains two stories. The basement at the west end contains well lighted and airy apartments for the resident porter, and for cellarage. The ground floor is composed of five professors' rooms, hall, porter's room, corridor, dissecting room and theatre; the two latter rooms are on the north side, and of the entire height of the building. The building is being built of white brick; and corresponds in style with the University wing already erected.

UPPER CANADA COLLEGE.

This institution was established in 1830, under the auspices of Sir John Colborne, now Lord Seaton. It was subsequently incorporated with the University of King's College, but the passing of the University Bill has conferred upon it a more independent organization than it previously possessed. More than 1200 of the young men of Canada, owe their education mainly to its care. Time has proved the excellency of the system, or rather twenty years have shown that the system of the great public schools of the mother country loses none of its efficiency within the walls of Upper Canada College.

The College buildings occupy a square pleasantly situated at the west end of the city. Separated from the Bay only by the open grounds about the Government House, and those on which stand the Parliament House and public offices, the site of the College is, in point of salubrity of air, admirably chosen. The College itself, a plain substantial building of brick, occupies nearly the centre of the square. On each side of it stand the residences of the masters, and in front of them all, stretches a beautifully-kept lawn, adorned with trees and shrubs—many of the former of which have attained a goodly growth. Between the masters' houses and the lawn, a broad gravelled space extends the whole length, increasing (by contrast with the close-cut green sward), the general beauty of the whole. To the west of the masters' houses, and a little farther from King-street, stands the resident school house, a large building apparently well adapted for its purpose. Near it is the play-ground, occupying the whole breadth of the western side of the square. Here the well rolled sod invites to healthful exercise, and offers ample room for that noblest of all games—"the manly game of cricket." Many a Canadian cricketer, who would do no discredit to a Kent eleven, handled his first bat in these grounds; and under the folds of the Union-Jack, which on holidays floats from the tall flag-staff in the centre, many have drawn in with health and strength an early and a lasting feeling of loyal devotion to their Queen.

THE NEW NORMAL AND MODEL SCHOOLS.

At this institution it is intended to educate persons proposing to act as common school teachers, and in addition, therefore, to the Normal Schools, where the adult students will pursue their studies, Model Schools for 600 pupils are to be provided, to afford them practice, and perfect them in their office of teachers.

The necessary buildings are at once to be erected, in accordance with designs prepared by Messrs. Cumberland and Ridout, under whose superintendence the works are to be executed. The front will be 185 feet in length, with a bold centre, comprising Roman Doric pilasters of the full length of the building, with a pediment and lofty cupola, and projecting wings of similar character. The Model Schools will be distinct buildings at the rear of the main building, with separate approaches.

The internal accommodation will comprise lecture rooms, museum, library, school of art and design, offices for the education department, board and visitors' rooms, and a large theatre, for public occasions, capable of accommodating 500 persons. The grounds, situate on Church and Gerrard Streets, and comprising an area of seven acres, will be laid out with a view to agricultural and botanical experiments, and will form an agreeable feature and pleasing ornament to the city.

OSGOODE HALL.

This building, the Westminster Hall of the Upper Province, is situated on Queen Street, at the top of York Street, in an extensive piece of ground tastefully is id out

and planted. It consists of a long two-storied building, with large projecting wings, which are decorated with facades of stone, having two stories of fluted pillars surmounted by neat cut stone gables. The building originally consisted of the centre and the east wing only, and remained in that state for some years, when the west wing was added, and the stone fronts erected, forming a building of somewhat imposing appearance, although the architecture is scarcely so good as might have been the case had the whole been built from one original design. The brickwork is painted in imitation of cut stone.

The upper story of the centre part of the building is the library of the Law Society, and the basement is divided into offices for the Clerks of the Crown, Queen's Bench and Common Pleas. The east wing contains the convocation rooms of the society, and the apartments of the librarian. Another large room in this wing will probably be fitted up for the Court of Chancery, or the Court of Common Pleas.

The upper part of the west wing is occupied by the Court of Queen's Bench, the judges' room, and the Practice Court or Judges' Chambers. The Court of Common Pleas at present holds its sittings in the room occupied as the Practice Court. The lower part of this wing is occupied by the Court of Chancery; having a room for the sittings of the court, a judges' room, and the offices of the Registrar and Master of the court.

THE TEMPERANCE HALL

Is situated on Temperance-street. It is a plain brick building, and fitted up internally so as to afford accommodation for public meetings in connexion with temperance and other subjects.

TORONTO GENERAL HOSPITAL.

This building is situated on King-street, a little west of Upper Canada College, and occupies, with the grounds surrounding it, nearly all that block of ground bounded by King, Adelaide, John and Peter streets. The site is remarkably salurious and very pleasant, and the halls and rooms spacious and airy. The hospital itself is 107 feet long by 66 feet wide, and two stories high. There are, besides, two other buildings attached thereto, for fever patients. The number of patients in hospital may be said to generally average about 100. The internal arrangement is very complete; and the patients, besides being well provided for with regard to dietary, have the benefit of the very best medical and surgical attendance. This institution has acquired a deservedly high reputation, and is resorted to by invalids from all parts of Canada, and in some instances from the lower provinces and the United States. This institution is liberally endowed with lands situated within the city limits, in addition to a yearly parliamentary grant of £750. Persons laboring under all forms of disease are admissible into the hospital on the order or recommendation of a trustee or medical attendant. The resident surgeon, Dr. Clarke, lives in the building, as well as the steward, matron and nurses, of whom we are informed there are about one to every ten patients.

THE PROVINCIAL LUNATIC ASYLUM.

This building is erected within the limits of the city, about 2½ miles west of the City Hall, upon a plot of 50 acres of land given by the Ordnance department. It is well situated, commanding a fine view of the lake and surrounding country. The building was commenced June 7th 1845, and erected according to the designs of J. G. Howard, Esq., and under his superintendence, at a cost of £57,000. The northern fagade is 584 feet long, consisting of a centre and two wings, terminating with circular colonnades for the accommodation of patients in wet weather. The building is constructed of white brick, with cut stone dressings to the doors and windows—also cut stone cornices. The only architectural feature in the building is an hexastyle portico of cut stone in the Grecian Ionic order, raised upon a lofty basement of rusticated stone-work. The centre building is crowned with a handsome dome covered with tin, which can be seen for thirty miles on the lake; in the dome is a large wrought-iron tank, containing 11,000 gallons of water, which is pumped up daily from the lake by a steam engine. At the rear of the wings, two other wings are to be erected, each 200 feet long. The whole will form three sides of a quadrangle, enclosing in its centre a handsome grass plot and flower garden, sheltered from the north and west winds, for the convalescent patients to exercise in. The ground is to be surrounded with a Ha. Ha. fence 12 feet high but only appearing 5 feet above ground.

The building has at present about 200 patients of both sexes, but when finished will accommodate 400.

THE COURT HOUSE

Is situated on Church near King-street. This, although a large building, is by no means equal in architectural appearance to the edifices more recently erected. The

Assizes, and Court of Over and Terminer or Jail Delivery, the County Court, Surrogate Court. Recorder's Court, Bankrupt Court, and Division Court are held in It contains besides, the Sheriff's office, Treasurer's office, County Court office, County Clerk's office, Clerk of the Peace's office, Division Court office, and the Revenue Inspector's office.

THE GAOL.

The County Gaol is situated at the east end of the city, and is constructed of lime-stone, from the designs and under the superintendence of J.G. Howard, Esq. architect. It is built upon the radiating principle, consisting of three wings projecting from the gaoler's house, which is in form of an irregular hexagon, which allows the gaoler a complete view of the day rooms and airing grounds. Only two of the wings are erected at present, which prevents the proper classification of the pri-

CUSTOM HOUSE.

This building is situated on the corner of Yonge and Front Streets. It is 52 feet long and 40 feet wide, and two stories high above ground, with a fire-proof basement fronting the bay. It is designed in the Doric style, built of white brick, with cut stone dressings. The public entrance is formed by cut stone Doric tetrastyle portice, with cut stone steps and landing. This building is heated with one of Mr. Mills's patent hot-air furnaces. We believe it is the intention of the government to enclose the building by an iron railing, and to construct a wharf, with bonded warehouses, &c. The above building, which has been erected from the designs and under the superintendence of Kivas Tully, Esq., architect, was commenced in 1845, and finished in 1846.

ST. LAWRENCE HALL AND BUILDINGS.

Erected from the designs and under the superintendence of W. Thomas, Esq, Architect .

These buildings, which have justly excited much admiration by their beauty of design, and being so well adapted for the purposes for which they are intended, form one of the most splendid ernaments of our city. The frontage, 140 feet in extent, consists of a centre building, St. Lawrence Hall, 40 feet front, and two shops The frontage, 140 feet in on each side, of 25 feet frontage each, by 75 feet in depth. The entrance to St. Lawrence Market, in the rear, is in the centre of the frontage, by a noble archway, forming a line of shops on each side and transverse piazza 100 feet in depth, over which are, on the first floor, public rooms, and on the upper story is the hall, 100 which are, on the first moor, public rooms, and on the upper story is the hall, low feet in length by 38 feet 6 inches wide and 34 feet high; the entrance to the hall from the public staircase is under the gallery at the north end, with a saloon, &c. The finishing of the interior is in good style, with dado and rich cornice, the ceiling is boldly coved with rich panelled centre and emblematical enrichments. The front is wholly of cut-stone, of the Roman Corinthian order, from the example of Jupiter stator; the centre being a tetrastyle portico of three-quarter columns, with sculptured tympanum of the pedmont, surmounted with a rich attic; the carved work throughout the enrichments is of a rich and varied character. e upola forms a circular open temple of the Corinthian order, which contains a fine toned large alarm bell, weighing 2130 pounds.

CITY HALL.

This building, which is erected on the south side of Front Street, consists of a frontage of 140 feet, and two side wings extending towards the bay. The main building is occupied by the City Hall, where the meetings of the Common Conncil are held, and by the Police Office. It also includes accommodations for the Mayor, Clerk, Chamberlain, High Bailiff, City Inspector, and other officers connected with the corporation; besides which there are shops on the ground floor let for various purposes. The interior quadrangle formed by the main building and the two wings is occupied as a vegetable and fruit market. The fish market is a small building in the rear, at the water's edge.

THE CATHEDRAL CHURCH OF ST. JAMES.

This building, which is in the course of erection, after the designs of Frederick Cumberland, Esq., will be one of the largest and, in the opinion of many persons, the richest example of ecclesiastical architecture in the British provinces. It is designed in the early English style of gothic architecture, having a nave and side aisles, with a clerestory carried on bold arches extending the full length of the church. The internal height of the nave will be 60 feet to the cornice, and of the aisles 35 feet. The height of the spire will be 275 feet. The chancel will be a semiaisles 35 feet. The height of the spire will be 275 feet. The chancel will be a semi-octagon in form, of a depth of 42 feet, each side being pierced by windows of the transition period, with rich and varied tracery. The whole of the chancel will have carved panels beneath the windows, the altar piece forming a centre, and the ceiling will be groined with enriched ribs, carved bosses, &c. The pews will be of gothic character, with cut and enriched bench ends. The church is intended to accommodate 2000 persons; and the estimated cost, exclusive of the tower and spire, is £16,000.

THE ROMAN CATHOLIC CATHEDRAL OF ST. MICHAEL

THE ARCHANGEL.

This building, which is the largest ecclesiastical edifice in Toronto, is capable of accommodating 3,000 persons, and is of the early decorated style of English-gothic architecture, built of white brick and cut-stone dressings, of fine bold proportions, being 200 feet in length by 90 feet in width, and, with the transepts, making a total width of 115 feet exterior dimensions. Its bold, rich style of architecture, combined with simplicity of form, gives great grandeur in general effect; the windows are large, and filled with rich tracery of great variety, the eastern window of seven lighter being 36 feet high and 18 feet wide; the transepts have fine large rose windows, with rich canopied niches in the gables. The building is wholly under one roof, forming in the interior a nave 170 feet long, 40 feet wide, and 66 feet in height, with piers and arches, trifonium and rich ceiling. The side aisles are 180 feet long by 20 feet wide, and 48 feet high, with a gallery at the west end. The building was commenced in the year 1845, and it is expected will be completed in 1852; it has already cost £15,000, and will yet require £5,000 to complete it. The tower and spire, which is not yet completed, will be 250 feet high, of a rich character: the parapet of the tower has in the centre of each face a niche, with a statue of St. Michael.

The Bishop's Palace, nearly adjoining on the north side of the Cathedral, is built in a style of architecture to correspond with the Cathedral, which gives a good effect. The Cathedral and Palace have been erected from the designs and under the superintendence of William Thomas, Esq., Architect.

KNOX'S CHURCH.

Erected from the designs and under the superintendence of W. Thomas, Esq. Architect

This building is much admired from the beautiful proportion of its tower and spire, which is of an extremely rich character and 180 feet high; the style of the building is of the early decorated English-gothic architecture. The walls are of white brick with cut-stone dressings; the interior has a very pleasing effect, which is heightened by a very rich and costly pulpit and canopy, and precentor's desk and screen to the vestment-rooms; on an elevated platform, over which, under a richly decorated arch, is a fine rose window of stained glass. The church, with its galleries round three sides, gives an accommodation of 1,300 sittings. Exterior dimensions, 104 by 70 feet.

ST. GEORGE'S CHURCH.

This beautiful church, which is as yet the most western in the city, was erected in the year 1844, on a lot of land presented by the late D'Arcy Boulton, Esq., and is capable of accommodating 900 persons. It contains about 250 free sittings. The architecture is early English, from a design by Mr. Lane. The elevation of the tower and spire, whose elegance and symmetry are very generally admired, is 160 feet to the top (the cross). The interior is enriched by a stained glass east window, but otherwise presents little but the beauty of true proportion and just architectural taste. We must not however omit to mention a font, at the western entrance, of exquisite design and workmanship, in white marble, and, like the chancel window, executed wholly in Toronto, and which cannot fail to attract the eye of a stranger as he enters the church.

A lot of land on the north side of the church, fronting John Street, is being presented by Mrs. Boulton, of the Grange, as a site for a parsonage; and another lot, to the east, is being procured for a school-house. When these objects are

stained, the arrangements of St. George's Church will be complete.

THE CHURCH OF THE HOLY TRINITY.

In the year 1847, the sum of £5000 sterling was presented to the Dishop of Toronto by an anonymous benefactor in the Dicese of Ripon, in England, with the request that a Free Church might be creeted therewith in his Lordship's diocese. The result has been the enjoyment by the city of Toronto of the handsome and spacious edifice known as "the Church of the Holy Trinity." This church is in the early English style of architecture, and, at the desire of the donor, cruciform in its shape. It is placed east and west. At its western end are two turrets, 80 feet high; the northern containing a bell, the southern bearing a flag-staff, from which on Sundays floats the cross-emblazoned banner of England. The interior length of the church is 156 feet, the breadth across the nave is 53 feet, the breadth across the transepts is 91 feet. One thousand persons can be accommodated. From the absence of galleries, and the open nature and arrangement of the seats, the interior of this church, during divine worship, has a peculiarly ecclesiastical effect. Near the south door is a large stone font, on a platform also of stone, ascended by three steps. The altar is approached by a flight of five steps. On its south side are sedilia for the clergy. In the north transept is a noble organ, built by the Messrs. Thomas, of Toronto. The seats appropriated to the members of the choir are situated in the anciently usual place, on the floor of the church,

at the head of the congregation. This is now temporarily the Episcopal Church of the Diocese, the Bishop's chair being transferred hither during the re-building of the Cathedral Church of St. James. The present incumbent is the Rev. H. Scadding, M.A., Chaplain to the Bishop, with an Assistant Minister, the Rev. W. Stennett, M.A.

TRINITY CHURCH, KING STREET EAST.

Is a neat, unpretending, gothic edifice, 78 feet long by 50 in width. The corner stone was laid by the Lord Bishop of the Diocese, on the 20th of May, 1843, and the building was opened for divine service on the 14th of February, 1844. It was originally capable of holding 300 persons, but the avan amodation has been much increased this summer by the addition of a neat gallery. Another improvement, which has been lately effected, is the introduction of gas. The middle of the church has been exclusively appropriated to free sittings.

This sacred edifice was built by Mr. John Ritchey, from the designs of H. B. Lane, Esq., Architect; and the gallery has been erected by Mr. Joseph Shuter, Builder, from the designs of Kivas Tully, Esq. Architect. Since the church was opened for worship, an organ has been furnished, gratuitously, by Mr. Joseph Lee, of King Street East, whose daughter, (Miss Lee). is the organist.

Adjoining the church is a handsome gothic School House, built by Enoch Turner, Esq., and given by him to the church. It is capable of accommodating 200 children. The Sunday School is in a flourishing condition.

A Parochial Branch of the Church Society was established by the late incumbent

in the year 1849, and is going on prosperously. Enoch Turner, Esq., Treasurer, and James Gooderham Worts, Esq., the Secretary.

The hours of divine service are 11 a. m. and half past 6 p. m.

The holy communion is administered on the third Sunday of every month.

R. Mitchele, M.A., T.C.D., Incumbent. Wm. Gooderham and Enoch Turner, Esqs., Churchwardens.

There are Sunday schools and parochial branches of the Church Society attached to each of the other churches of England in Toronto, as well.

ST. PAUL'S CHURCH, YORKVILLE.

This building, which is of wood, was erected in the year 1842; but since that period has been enlarged to about thrice its original size. It is now capable of conaining 250 people, the average attendance being about 150; of these about onethird, an unusual number, are communicants. It is in contemplation before many years, to erect a new church, suitable to the wants of this rapidly improving section of the city and suburbs. With that view, a building fund, we are informed, has been already commenced under very favourable circumstances. The neighbourhood, (which has been already referred to) is a very favourite locality for residence. The incumbent, the Rev. J. G. D. Mackenzie, M. A., resides in the immediate vicinity of the church.

UNITED PRESBYTERIAN CHURCH.

This Church is of the perpendicular English-gothic style of architecture, of white brick and cut-stone dressings, having a square tower at the west end, with octagonal termination and rich pinnacles, erected from the designs and under the superintendence of William Thomas, Esq., Architect.

Besides the churches already described, there are many others well deserving of notice-indeed there are some of them in point of size and other particulars, superior to some of those of which we have already made mention. It may be said of many of them, that they are more remarkable for strength and solidity of construction, than for any particular architectural taste. The St. Andrew's Church, (the oldest ecclesiastical building in Toronto) however, which is situated on Church, corner of Adelaide-street, is a large and handsome church—the spire of which can be seen at a considerable distance. The Four Churches belonging to the Wesleyan Methodists, are all substantial brick buildings. The Richmond-street and Adelaide-street Chapels—the form of the latter all the core of the latter all t the former situated a little to the west, and the latter a little to the east of Yongestreet-in particular, are large and commodious buildings. The other two, which are not so large, are situated—one on Queen, a little west of Peter-street—the other at Yorkville. The Primitive Wesleyan Methodist Chapel, situate on Bay, south of King-street, has been lately enlarged, and has a very respectable appearance. Of the two chapels belonging to the Wesleyan Methodist New Connexion the principal one of which, situated on Temperance-street, is a neat brick building-the other is at Yorkville. Besides these, there are Methodist chapels belonging to the coloured population—the principal one of which is on Elizabeth-street, and is denominated "Episcopal." The Independent or Congregationalist Church, situate on Adelaide, corner of Bay-street-of which the Rev. Mr. Roaf is minister-has quite a tasteful appearance-being surrounded by a neat plantation, and the internal arrangement is very good; besides this, there is another Congregationalist church on Richmondstreet—The Baptist Church, and another belonging to a denomination of Christians known as Disciples; the former is situate on Bond-street, and the latter, on Shuter

street—in the immediate vicinity of St. Michael's cathedral—may be said to be of the smaller description of churches. They are neat little buildings however, and the former in particular, has a very durable appearance. The other, we believe, was built at the sole expense of a leading member of the sect. The Coloured Baptist Chapel is also situated in this section of the city, at the corner of Victoria and Queen-streets; it does them great credit. The Holy Apostolic Church. belonging to a small religious body, bearing that name, is chiefly remarkable for the chastes implicity of its appearance. It is situated on Bay, a short distance north of Kingstreet. There is likewise the Roman Catholic Church of St. Pauls, which, before the erection of St. Michael's Cathedral, used to accommodate a very large congregation. The Unitarian Church, formerly a Methodist chapel, is situated on George-street.

ST. PATRICK'S MARKET.

The corporation of the city are carrying on great improvements, at a considerable outlay, in front of this market. The south end of the building on Queen Street west will contain the main entrance to the market, the police office with room over, being to the right of the entrance. The bell turret forms the upper part of the centre, and is built of brick, as well as the rest of the building. The style adopted is the Anglo-Italian, and designed by Mr. Thomas Young, architect.

ST. ANDREW'S (OR WESTERN) MARKET.

This market is considered to be the most convenient in its arrangements of any in the city. It is of wood, and in the Italian style. The main corridor is 100 feet long by 20 feet broad, having on each side stalls for butchers and other tradesmen. Over the main corridor is a large room extending the entire length and breadth of the building. The building is surrounded by a covered piazza, terminating at each angle in pavilion rooms. On the east and west sides are covered sheds, under which waggons back up to the pathways of the piazzas. The whole is surmounted by a small yet appropriate turret and vane.

The building has been erected under the trusteeship of Dr. Rees, Dr. Gwynne, and G. T. Denison, Esq., who appointed Mr. Thomas Young their architect.

ROYAL OBSERVATORY.

The Magnetical and Meteorological Observatory is situated about a quarter of a mile to the west of the University, and in the same grounds. This establishment was founded by the Imperial Government in 1840, together with similar observatories at the Cape of Good Hope, at St. Helena and VanDieman's Land; others were supported by the East India Company at Simla, Madras and Singapore; and at some time or other during the last ten years, corresponding observations, directed to the same object, have been made at Boston, Philadelphia and Washington, in the neighbouring States-at Simla in Russian America-at a chain of stations throughout the continent of Asia, established by the Imperial Government of Russia; and at numerous other stations in Europe and elsewhere. The object of the whole was and is to place the sciences of terrestrial magnetism and meteorology upon a footing adequate to the demands of modern philosophy, in regard to the extent, accuracy and comparability of the observations on which they are based, the stations being each selected with some special reference: thus, that of Toronto is situated very near the region of greatest magnetic intensity; and, from the frequency of the Aurora, is well adapted to the investigation of that interesting phenomenon; while, from its distance from the ocean, it may be regarded as furnishing a good type of a continental climate, as distinguished from an insular or littoral one—similarly of the rest. Previously to this great movement by the British and Russian governments, most important imperfections existed in our knowledge upon every subject connected with the sciences referred to: but rightly judging that the physical laws of that globe which man inhabits, cannot be of less importance to him than the sublime but remote harmonies disclosed by astronomy, these governments, for the first time in the history of science, extended the aid of public support to the investigation of its less brilliant subjects of research. by founding establishments expressly adapted for and devoted to them.

The Observatory consists of a substantial wooden building, of fifty by thirty feet, comprising one principal and several smaller rooms, one of them being used as an office, the remainder for various instruments. There are also several small detached buildings used for absolute determinations. No iron whatever was permitted to be used in its construction, the very lathes and the shingles of the roof being fastened with copper nails. It is probably the most complete establishment of the kind at present in existence as regards its instrumental equipment; and, in addition to sets in duplicate of the common magnetometers, as the instruments employed for rendering sensible the minute changes of terrestzial magnetism are called, it has recently been provided with the costly and beautiful instruments by which those changes are self-recorded, by being made to impress the position of the magnets belonging to them at every successive instant of time, upon silver plates prepared after the process of the daguerrectype, or on fine paper rendered sensitive to light by the calotype process. The observations of the years

GENERAL METEOROLOGICAL ABSTRACT FOR TORONTO

1840-1-2 have been printed in two volumes quarto, and are to be found in every public library. The observations for 1843-8 will be published so soon as those of the Cape of Good Hope and Hobarton have appeared (those at St. Helena being already printed), this will probably be in the course of 1850 or 1851. Some of the conclusions have, however, appeared in the Philosophical Transactions, and the Reports of the British Association.

Attached to the Observatory is a cottage for the residence of the officer in charge, and another for the accommodation of the assistants and their families. At the present time an observation is made at every second hour of the day and night, of the force of the magnetic attraction of the earth, and the direction in which it is exerted with reference to the plane of the meridian and the plane of the horizon, commonly called the variation and the dip; also of the direction and velocity of the wind; the height of the barometer; the temperature of the air; the quantity of aqueous vapour in the air, and of all atmospheric phenomena of any interest, such as the Aurora Borealis when visible, storms, &c.; the self-recording instruments already alluded to being also at the same time silently engaged in marking down the same things, or some of them. The personal establishment consists of one officer of the Royal Artillery—Captain J. H. Lefroy, and of four non-commissioned officers of the same corps—Sergeant James Walker—Corporal Thomas Menzies—Bombardiers Charles Jones and James Liley.

BANK OF UPPER CANADA.

Situated on Duke, corner of George-street.

This, as well as being the oldest hanking institution in Toronto, is the oldest bank building. It is a substantial edifice built entirely of cut stone. The banking room is approached by several stone steps. When this building was erected, Little York was not so well supplied with architects as Toronto City now is, and we believe the building was designed by the late Hon. Dr. Baldwin. It may perhaps not present as much architectural beauty as more recently erected buildings of the same class; it has hitherto, however, fully answered all the purposes for which it was intended We have heard that it is in contemplation to enlarge the building at an early period

THE BANK OF MONTREAL,

Justly admired for architectural beauty, is situated on the corner of Yonge and Front-streets; it is 48 it. long by 44 ft. wide, and three stories high above the ground; designed in the Palladian style, with semi-circular headed windows, and French rusticated joints on the ground story, with subcornices and panelled work, dividing the ground from the upper stories. The windows on the one-pair story have carved trusses, supporting enriched moulded window heads. The windows on the two-pair story have plain moulded architraves, with handsome moulded sills. The cornice is dentilated with enriched foliated fascia. The arms of the Bank, occupying the centre portion on the Yonge Street front, are carved in basso relievo, with carved trusses supporting same. The entrance to the banking room is formed underneath a handsome Roman Ionic tetrastyle portico, with stone steps. It is heated with one of Mr. Mills's patent hot air furnaces. The building is enclosed by a handsome iron railing, with cut stone piers on the angles. Both the fronts are of cut stone, procured from the Thorold limestone quarries. This building, which has been erected from the designs and under the superintendence of Kivas Tully, Esq., architect, was commenced in 1845, and completed in 1846.

THE BANK OF BRITISH NORTH AMERICA.

The Bank of British North America is situated on the corner of Yonge and Wellington streets. It is a beautiful pile of cut stone, the simplicity of which has been admired by all. The most prominent feature is the portico, with a circular flight of stone steps; the whole surmounted by a splendid piece of sculpture of the Arms of England. The building was erected from the design and under the superintendence of J. G. Howard, Eq.. architect; the sculpture by the late Mr. John Cochrane, Adjoining this building, on Yonge-street, are the wholesale stores of A. V. Brown, and Bowes & Hall; and adjoining, on Wellington-street, are the buildings of Charles Berczy, Esq.

THE COMMERCIAL BANK

Is of the Grecian style of architecture, having a bold rusticated basement as ground-floor arrangement, the whole of three stories high, a receding centre and wings, with pilasters and bold dentilled cornice with acroteria; the centre has an enriched parapet, surmounted with a large globe and the attributes of commerce; the doors and principal windows have fine bold enrichments; the whole of the front is of cut Waterdown stone, the approaches are by stone steps, flanked by massive stone pedestals surmounted by rich cast iron pillars on open scroll work bases and ornamental lamps, the centre part of the building being enclosed by handsome cast-iron pallisading; the banking-room is of ample dimensions, having a rich panelled ceiling and enriched pedimental dressings to the doors,: the approach is through a handsome vestibule. The building was erected in 1845, from the design and under the superintendence of W. Thomas, Esq., Architect.

THEATRE.

Situated on King, West of Bay-street, a little in the rear.

This building is a neat specimen of architecture. The interior is fitted up in very good style, and is capable of containing 750 persons.

The other public buildings are the FIREMEN'S HALL and MECHANICS' INSTITUTE, a substantial brick building, situate near the Court House, a little in rear from Church-street. The principal portion of the fire apparatus belonging to the city is deposited in the lower part of this building. In the upper part is a library and news-room. Of the Mechanics' Institute, there is a large hall in the buildings, used for public purposes. The building occupied as the Registry Office for the County of York, is also on this block of ground, near the Adelaide-street Methodist Chapel. It is a small building, but appears judiciously constructed with regard to safety.

TORONTO GENERAL BURYING GROUND.

Commonly called Potter's Field. Instituted in 1825, and incorporated by Act of Parliament, 1826. Situated on Yonge Street, near Toll-bar, Yorkville.

This temetery, which comprises six acres of ground, and has a neat house for the sexton built close by the entrance gate, is open for interments to persons of all creeds and those of no creed, with or without the use of funeral service, and has a public vault. It owes its origin to the late Thomas Carfrae, Esq., and is at present managed by the following trustees, viz., John Ewart. Thomas Helliwell, Dr. Morrison, James Lesslie, William McMaster, David Paterson and Peter Freeland.

Tickets for interment and plots to be had at David Paterson & Sons', King Street, Toronto.

ST. JAMES' CEMETERY, CONSECRATED 1844.

The new St. James's Cemetery is situated in the liberties of the city, at the head of Parliament-street, about one mile from the City Hall, comprising about 65 acres of hill and dale, well drained by a small creek or rivulet which meanders through the centre. The whole has been very tastefully laid out under the superintendence of J. G. Howard, Esq., architect. The south-western part is at least 20 feet higher than any part of the city, and the white fences and monuments can be seen with a good glass at least 20 miles on the lake. The northern part comprises Castle Frank, a beautiful mound, the favorite resort of one of our former governors. There are already some very beautiful specimens of sculpture; in a few years it will be second to none of its size in all North America. The citizens are greatly indebted to Thomas D. Harris, Esq., for his untiring zeal in bringing this delightful resting-place for the dead into its present well arranged state.

There is a public receiving wault in the cemetery; two entrances leading into it, and a neat lodge, containing a room for the dergyman and a residence for the superintendent. The cemetery is in connexion with St. James's Cathedral, and under the supervision of the clergymen and churchwardens thereof. Persons of other creeds can be interred therein, subject to the regulations of the Church of England. Tickets for interments and plots of ground to be procured of T.D Harris, Esq., St. James's Buildings. King-street.

Samuel Ridout

Franklin Jackes

T. D. Harris and Lewis Moffatt, Churchwardens; J. Kearney, Superintendent and Sexton.

TORONTO NECROPOLIS.

This cemetery, which is bounded on the west by Sumach-street, on the east by the river Don, on the south by Winchester-street, commonly called the plank road and on the north by the Castle Frank Road, is a beautiful plot of rolling ground of 15 acres in extent, which has been laid out in walks and prettily planted, and surrounded by a handsome fence. There are two entrances into it, one on the west and another on the south side. There is a mausoleum or public vault on the grounds, which is built to correspond with the fence and gates, all being in gothic style. There is likewise a residence for the superintendent. Few interments have as yet taken place in the Cemetery, it having been but recently opened. The only monumental decoration yet erected is one to the memory of the late Andrew Porteous, Esq., which is finely situated on a mound at the south-eastern extremity of the grounds. This section of the Cemetery, it appears, is intended for waults, for which it seems well adapted, being situated on what may be termed the brow of a hill. A prettier or more appropriate locality could not have been selected than this for a burial ground, commanding, as it does, an extensive and charming view of the Don, whose silent waters and winding and picturesque banks, together with the other natural scenic beauties with which the neighbourhood abounds, combine to render it worthy the attention of the artist, and of those given to serious

contemplation. This cemetery is open for interments to persons of all creeds.

John McMurrich, Alexander McGlashan and John Shaw, Esqs.—Directors.

Samuel Spreull, Esq.—Secretary and Treasurer. Mr. John Ross—Superintendent.

- York-street —second street west of Yonge-street, on Front-street: commences at the Bay, and runs north to Queen-street opp. Osgoode Hall. Yorkville—the Village at the Yonge-street Toll-gate.

GUIDE TO THE NUMBERS OF THE HOUSES.

In Mr. George Brown's City of Toronto and Home District Directory for 1846-7, the plan adopted by the Corporation for numbering the houses is so well explained that we give it in preference to any explanation of our own. It is as follows :-

"All those streets which cross Yonge-street are divided into two-East and West; "All those streets which cross Yonge-street are divided into two—East and West; the numbers of both divisions begin at Yonge-street, and strike off East and West; thus the store of Messrs. Ridout Brothers, is No. 1 King-street East; and that of Messrs. Sutherland, the opposite corner, is No. 1 King-street Vest; the next houses each way are Nos. 3, East and West, respectively—the odd numbers being on that side, and the even ones on the opposite; thus Betley & Kay's Establishment is No. 2, King-street East; and that of Mr. Dow, No. 2, King-street West, and so on.

"In all the streets running in the same direction as King, although not crossing Vonge-street, the numbers begin at the end, nearest Yonge-street, and rice as they

Yonge-street, the numbers begin at the end nearest Yonge-street, and rise as they

advance East or West.

"In all the streets running East and West, parallel with the Bay, the odd numbers are on the North side, and the even ones on the South; and in all those running North and South, at right angles with the former, the odd numbers (beginning at the end at or nearest the Bay) are on the West side, and the even ones on the East.

"By the plan of the Corporation, where vacant lots occur a given space is allowed for a number, to prevent any disturbance of the order arising from the erection of new houses upon such lots. In some instances, this plan has not been strictly adhered to; indeed, it was almost impossible for a person, without accurately measuring the ground, to place the numbers properly."

In consequence of so many of the houses (particularly those in the liberties) not being numbered, the labour and expense attending the compilation and publication of this work has been much greater than it might otherwise have been, besides rendering it less complete and satisfactory; indeed, the absence of numbers on so many of the houses is felt to be a great inconvenience, more particularly with strangers and those connected with the government who have lately come to reside among We would therefore respectfully suggest to the corporation the propriety of having all the houses comprised within the limits of the city and liberties regularly numbered.

CITY OF TORONTO DIRECTORY.

kenent Henry regimeer. 5 Oneon near Ver-

Being an Alphabetical List of the Inhabitant Householders and others of the City of Toronto and Village of Yorkville.

Thompson James, watchmaker Trimble William

G

Wilson John, farmer Wright Samuel, farmer Wyllie William, salesman

The village is prettily situated on the river Credit. It contains nearly one thousand inhabitants, an Episcopal and Presbyterian church, a Methodist chapel, a Town-hall, printing office, cloth and coach factories, grist and saw mills, a tannery, two physicians and surgeons, one druggist, one land surveyor, several stores and inns, tradesmen of all descriptions: there is a cleverly-edited weekly newspaper published here—the Streetsville Review—and a daily stage for Toronto.

COUNTY OF YORK.

The County of York (formerly the Home district), is by far the most important county in the Province; whether regarded in an agricultural, commercial, or manufacturing point of view, or as regards population, or extent and value of property generally. It is divided into four Ridings, each returning one member to the Legislative Assembly. The North Riding comprising the townships of Brock, North and East Gwillimbury, Georgina, Mara, Rama, Reach, Scott, Thorah, Uxbridge, and Whitchurch. The South Riding, the townships of Etobicoke, King, Vaughan and York; and for puposes of registration, Toronto city. The East Riding comprises Markham, Pickering, Scarborough and Whitby; and the West Riding, Albion, Caledon, Chinguacousy, Toronto, Gore and Township. It is situated nearly in the centre of the Province, and bounded on the East by the counties of Durham and Peterborough; on the North, by the county of Simcoe and Lake Simcoe; on the West, by the counties of Simcoe, Halton and Wellington; and on the South, by Lake Ontario. It is watered by the Credit, Humber, Don, Rouge and Holland Rivers, and the Etobicoke and Duffin's Creek-besides numerous smaller streams; many of which being excellent mill-streams, are studded with both grist and saw-mills. The Nottawasaga River also takes its rise in this county. The county is well intersected by roads; as, besides the great Northern, Eastern and Western thoroughfares, leading from Toronto, which are either planked or macadamised, there are many other planked roads, leading from them into different parts of the country; these are constructed principally by private companies, under authority of Parliament, and are said to be very good investments for the stockholders, besides being of much advantage to the community

The Principal Town in the county is the capital of the Province, Toronto City—which is situated in the south-eastern extremity of the township of York. There are besides, the villages of Beavertown in Thorah; Brampton in Chinguacousy; Brownsville and Lloydtown in King; Duffin's Creek in Pickering; Churchville, Cookeville, Lambton, Port Credit, Springfield, Streetsville and Sydenham in Toronto; Markham in Markham; Mimico and Weston in Etobicoke; Tecumseh and Sharon in East Gwillumbury; Newmarket in Whitchurch; Prince Albert in Reach; Richmondhill, Thornhill, and York-mills—on Yonge-street—situated partly in Markham, Vaughan and York; Columbus, Windsor, and Windsor Harbour, the municipality of Oshawa and Oshawa Harbour, in Whitby; besides others of less note. Of those mentioned, Port Credit, Port Oshawa, and Windsor Harbour, are situated on Lake Ontario, and are ports of entry, where large quantities of farming produce and lumber are shipped. There are a number of schooners owned at these places. Of the others—Beaverton, which is situated on Lake Simcoe, Churchville, Duffin's Creek, Mimico, Newmarket, Springfield, Streetsville, Thornhill, Weston and York-mills—each

enjoy considerable water privileges.

H. BURT WILLIAMS,

CABINET MAKER & UPHOLSTERER, No. 142, YONGE STREET, TORONTO.

MR. JOEL B. JONES, SURGEON DENTIST, 30 BAY STREET, TORONTO.

FROM

MESSRS. ALEX AND JONES, 26 Bridge Street, Blackfriars, London, England.

Mr. Jones's system of practice combines all the new and most approved principles of London and Paris. He has devoted much of his studies to the attention of children's teeth during the important period of changing the temporary for the permanent set, and to the means of preventing and correcting irregularities. The English system, as practised by him in the latter operations, is in most cases effected with little inconvenience; and without pain or, the injurious and 'under every circumstance objectionable application of gold or silver plates or bars. To this branch of Dentistry Mr. Jones would strenuously impress upon all gentlemen of the Medical Profession, the necessity of eliciting attention, it being at that stage the preservation of the teeth can be best established.

MANUFACTURER OF

CANADIAN FARMER COOKING STOVES.

Nos. 6 & 7, (SEE THE CUT).

Burr Cooking Stoves. Premium do. 5 sizes. Bang-up do. 5

Box Stoves 6 sizes. Air Tight do. 6 " Parlor do. 7

Dairymaid Stove and Cauldron, 3 sizes.

The Canadian Farmer was patented by J. R. A. in June, 1850, and took the second Premium at the Provincial Fair this year, when the competition was very keen. It is the best stove in use for the county, because, 1st. It takes larger and longer wood than any other-from 21 to 3 ft.

2ndly. It has more holes on the top to boil-No. 7, seven holes, No.

3rdly. The plates are thicker, being from \{\frac{1}{2}\) inch thick.

4thly. It bakes beautifully, and holds 9 large loaves of bread.

The celebrated BANG UP is better adapted for the town, where saving of fuel is an object—the oven being large and high. And for roasting and broiling it cannot be surpassed. The Dairymaid Stove and Cauldron, for steaming feed for cattle, boiling water, and for dairy purposes, should be used by every good farmer. It took the first Premium at the late Fair at Niagara.

Por Ash Kettles cast with the mouth up, two sizes weighing 800 and 1100 lbs. POT ASH COOLERS.

SUGAR KETTLES, three sizes, and a variety of castings.

COAL GRATES of the latest and most chaste styles from New York.

N.B.-Old Iron taken in exchange.

JOHN M°GEE, TIN, SHEET IRON & COPPER-SMITH,

No. 49, YONGE STREET.

Where he will always keep on hand an assortment of superior Wines, Liquors, Teas, Coffees, Sugars, and every other article in the Grocery and Provision Line, at the lowest possible prices!

OBSERVE—THE SIGN OF THE SUGAR LOAF.

east india house,

50, KING STREET, TORONTO.

RICHARD YATES,

Grateful for the liberal patronage he has received from the Canadian public for fifteen years, during which time his Establishment has obtained considerable celebrity for the superior excellence of his TEAS and COFFEES, and the general variety of his FOREIGN DELICACIES, which he selects to suit the tastes of the highly respectable class who have honoured him with their favours, begs to inform the nobility, gentry and public of the city and neighbourhood of Toronto, that he still keeps constantly on hand a large and choice assortment of

TEAS, MOCHA AND JAVA COFFEES, CHOCOLATES, COCOAS, BROMA, EAST AND WEST INDIA PRESERVES, FOREIGN AND ENGLISH PICKLES, POTTED LOBSTERS, ANCHOVIES, SA' DINES, FISH SAUCES.

Every variety of Candles, as Sperm, Belmont and Moulds; Choice French and Italian Liqueurs, superior Wines and genuine Cognac,

to which he respectfully invites attention. The Stock is always selected by himself, from the English, Montreal, and New York markets, and he can therefore with confidence recommend them for pure and good quality.

TO ARCHITECTS, BUILDERS, AND OTHERS.

THE COMMON COUNCIL of the City of Toronto, having appointed Mr. John G. Howard, Architect and City Surveyor, to oversee the erection of all buildings hereafter to be built, altered or re-constructed

within the following limits in this city, viz.:

The centre of Ceorge-street on the east, the centre of York-street on the west, from the centre of Adelaide and Duke streets on the north, and to the Bay on the south, between the said east and west boundaries—"And that the said City Surveyor shall enforce the provisions of the Act, passed January 28th, 1850, with regard to such buildings, alterations or re-constructions, and shall be entitled to demand and receive from the owner of such building, so built, altered or re-constructed, the following fees—that is to say:

For every first-rate building, one pound five shillings;

For every alteration or addition, seven shillings and sixpence.

For every second-rate, one pound;

For every alteration or addition, six shillings and threepence.

For every third-rate, fifteen shillings;

For every alteration or addition, five shillings.

For every fourth-rate, twelve shillings and sixpence;

For every alteration or addition, five shillings.

For every fifth-rate, ten shillings;

For every alteration or addition, five shillings.39

I HEREBY GIVE NOTICE, that I shall inspect all buildings now in course of erection within the aforesaid limits, and shall be most happy to give any information that may be required.

JOHN G. HOWARD,

Architect & City Surveyor.

oculist and aurist.

Member of the College of Physicians and Surgeons of Canada and the United States

OPERATOR ON THE EYE & EAR, For Deafness, Blindness, and all Defects of Sight and Hearing.

The EYE and EAR are useful and complicated organs, and the numerous diseases to which they are subject, and the proper knowledge necessary to overcome them, is not to be obtained without great labour and experience.

Dr. C. has for many years past devoted his whole attention to this class of diseases, has been extensively and successfully employed in nearly every city in the province, restoring the Sight and Hearing of a great number of individuals.

It is well to know that

ALL DISEASES OF THE EYE & EAR ARE CURABLE,

at some period of time, and are only rendered otherwise by neglect and improper treatment. Hundreds of cases may be found in the province, of persons who are partially or wholly Blind or Deaf, and who will probably always remain in that state for the want of proper advice; it is equally certain that with proper treatment seven-tenths of those cases could be restored to comfortable Sight and Hearing; and as a thorough knowledge of these delicate and important organs is not at the disposal of every one, I have determined to

GIVE ADVICE GRATIS

to all who may wish to know my opinion as to whether their disease is one which may or may not be cured. No excuse need therefore be made in future for allowing curable cases to remain unrelieved by treatment.

The Charges will always be moderate when treatment is recommended; and where patients remain under direct treatment, subject to my directions, without being relieved,

No Charge will be made for either Medicine or Attendance.

All communications, if post-paid, will be promptly answered, and a card of reference will be forwarded, if requested.

SHR HENRY HALFORD'S

IMPERIAL

BALSAM,

For the cure of Rheumatism, Acute or Chronic, Rheumatic-Gout, Neuralgia, and all Diseases of that class.

THIS MEDICINE is pre-eminently calculated to alleviate and cure the above diseases; its success in every case where it has had a fair, honest and impartial trial, fully confirms its general reputation of being the very best medicine in the world for the cure of Rheumatism, Gout, Ticdolereux and diseases of that description. References and Testimonials of the highest respectability are coming to hand from all parts of the Province, in favour of the IMPERIAL BALSAM. This medicine is warranted to contain no calomel, or any other mineral or ingredient of a deleterious nature.

Unrivalled success of the Imperial Balsam!

A case of Chronic Rheumatism of fifteen years' standing cured by Halford's Balsum and Hope's Pills.

Toronto, 14th December, 1848.

DR. URQUHART:—Sir,—I hereby certify that I have been afflicted with Rheumatism for fifteen years: for a considerable time I was confined to bed, and the greater part of that time I could not move myself; some of my joints were completely dislocated, my knees were stiff, and all my joints very much swelled: for the last three years I was scarcely able to do three months' work without suffering the most excruciating pains. I was doctored in EUROPE by several physicians of the highest standing in the profession, as well as in this PROVINCE, I was also five months in the Toronto Hospital, and, notwithstanding all the

means used, I could not get rid of my complaint; indeed I was told by a very respectable physician that I never could be cured, so that at the time my attention was directed to your Sir HENRY HALFORD'S IMPERIAL BALSAM, for the cure of Rheumatism and Rheumatie Gout, and to HOPE'S PILLS, I was despairing of ever getting cured; when I called on you I was hardly able to walk, and what was almost miraculous, in three weeks from my commencing to take your medicine, I gained fourteen pounds in weight: my health was much improved, and in about three weeks more my Rheumatism was completely gone and my health perfectly restored. I now enjoy as good health as any man in Canada. Since my recovery I have walked forty-six miles in one day with perfect freedom, and I assure you, Sir, that I feel truly thankful.—You can make any use of this you please; my case is known to several individuals of respectability in this city, their names you know, and can refer to them if necessary.

Yours, truly and gratefully,

THOMAS WRIGHT.

Parties referred to—William Gooderham, William Osborne, and Samuel Shaw, Esquires.

Extraordinary power of the Imperial Balsam.

Dear Sir,—Being for the last four years subject to severe attacks of Rheumatism, Gout, or Rheumatic Gout,—I know not which,—and having tried many remedies prescribed by different parties, I have now no hesitation in stating that your Medicine, called SIR HENRY HAL-FORD'S IMPERIAL BALSAM, has stopped the complaint in the preliminary stages, four times over, in a few hours. Indeed, although you prescribe it to be taken four times a-day, I have never had to resort to it more than twice. Not only myself, but some friends to whom I have given some, were similarly relieved, and in no case have I found it to fail. This is the first Fall for four years I have escaped the affliction, and which I attribute, under l'rovidence, to the use of your Medicine.

JOHN CRAIG,

76, King-street West, Toronto, 16th December, 1849.

Painter and Glass-stainer.

Further proof of the superiority of the Halford Balsam.

Sir,—Having for a considerable time suffered severely from an attack of Rheumatism in my right arm and side, I applied to one of our respectable Physicians, but his treatment was of no permanent benefit to me. I was therefore induced to procure a bottle of your IMPERIAL BALSAM, which has completely cured me, having now been perfectly free from any kind of pain for twelve months. You may use this communication as you think proper, and refer enquirers to

Yours, very gratefully,

4, Adelaide-Street East, Toronto.

DR. HASTINGS'

(Late Senior Physician to the Blenheim Free Dispensary of London)

COMPOUND SYRUP OF NAPHTHA.

NOT ONLY A POSITIVE, BUT A WARRANTED CURE FOR ALL DISEASES OF THE LUNGS.

THE GREAT SENSATION created among the medical faculty by the announcement of Dr. Hastings' discovery of the medical properties of Naphtha, has settled down into a thorough confidence that his "Compound Syrup of Naphtha" is a positive and speedy cure for all diseases which involve the wasting away of the human system by excessive sweatings, expectorations and other effects of a contingent nature. It is likewise admitted to be immeasureably superior to any other cough medicine, as it almost instantaneously relieves the huskiness of the throat, softens the cough, and removes the hacking and the phlegm. The activity of its nature is such, that the moment it is taken it pervades the frame, and penetrates every fibre of the body, diffuses a gentle warmth throughout, secures a free circulation of the blood, and gives universal egress to the impurities which engender in the system.

Feelings of modesty, to say nothing of the much-hackneyed usuage might restrain the proprietor of speaking of his discovery according to its merits, were it not that the subject is one of far too much importance to the public to be interfered with by personal considerations. He therefore, not only recommends his Naphtha Syrup, but warrants it to cure!—he warrants it to act upon the chyle and purify it—he marrants it as a never-failing remedy in hectic fover, night sweats, dyspepsia, liver complaint, pain in the chest and asthma; and he warants it to arrest the formation of tubercles in the lungs, and to heal those already formed, so that persons in consumption may take it with the most positive confidence of a cure; for its great seat of action is the lungs, which it penetrates in all directions, purifying them of everything obnoxions in its progress, and which, if applied according to the directions, it cannot fail to leave in a perfectly healthy condition.

The most ample experience, supported by the testimony of the ablest and most distinguished medical practitioners of the age, justifies the proprietor in speaking thus confidently of his discovery; and he has the less hesitation in being so positive because of the speed of its operations, which is such, that patients who use it immediately feel and acknowledge it to be the desideratum they were in quest of, and gladly accord him all the praise which he claims in its favour. Indeed, its action is so energetic, that its curative effects plainly manifest themselves in a few moments after it is taken, and a single dose has frequently produced results which bottles of other medicines had failed to effect.

The proprietor only asks the trial of a single bottle, or even a single dose, to convince patients that it is beyond comparison the most speedy and efficacious remedy they ever made use of; for it gives powerful manifestations of its curative qualities almost immediately after it is received into the stomach.

It is a universal purifier; it attacks the root of the disease, expelling

all noxious particles in its progress.

Price 5s. a bottle, or six bottles for 25s. As this is a very expensive preparation, it is not left around on commission, as is the mode with other medicines. but must be purchased by those who sell again. These terms will, in general, limit its sale to the larger cities and towns; and, therefore, persons residing where this medicine cannot be obtained, and who can be reached by stage, or any other public conveyance, should write direct, enclosing a remittance, to

S. F. URQUHART.

The sole wholesale authorised agent for this medicine in Canada.

DR. JAMES HOPE'S

HEALTH PILLS

AND

ORIENTAL BALSAM.

Under the patronage of ROYALTY and the MEDICAL FACULTY in GREAT BRITAIN and on the continent of EUROPE.

THIS VALUABLE MEDICINE

Has for many years been used extensively in many critical cases of disease, with the most happy results, in several parts of Europe, in the private practice of eminent physicians, who have adopted Dr. Hope's singular formula. The party who introduces the medicine to public notice, does not claim superhuman power or virtue for it; for he knows that it is naturally impossible that any infallible specific can be invented or discovered, to cure all the ailments to which frail humanity is liable. But he does know that indomitable investigation, industry and perseverance, enabled Dr. Hope to form a compound, so happily blended in the Pills and Balsam, as to mitigate and cure many cases of disease, when it was often considered beyond the power of medicine to yield any aid or relief. The medicine has cured numberless cases of disease in the acute and chronic stages—especially costiveness, so common among those whose occupation, and others whose disposition, leads to a sedentary habit—Nausea—Drowsiness—Pain in the Stomach—Oppression and

few

iced

flatulence after meals-Disinclination to mental and bodily exertion-Giddiness or flow of blood to the head-Pain in the breast, back, shoulder or side, frequently caused by indigestion or a disordered condition of the liver-Eruptions on the skin - Carbuncled face- Blotches, biles and pimples, proceeding generally from impurity of the blood, or a disordered state of the digestive organs-Heartburn-Acid eructation-Acidity of the stomach-Nervous debility, or derangement of the system-Nervous, Periodical, Bilious and Sick Headache-Depression of spirits-Noise in the head or ears-Fever and Ague-Ague, cake or entargement of the spleen-Palpitation of the heart, arising from indigestion or dyspepsia-Liver Complaint-Masked or Dumb Ague-Irregularity of the bowels and other secreting organs-Fits in old and young, occasioned by worms or stoppage of the bowels-Marasmus or wasting of flesh, which appears in childhood or early youth--Chlorosis or Greensickness-Swelled feet and legs-Inflammation-Sudden attacks of Mania and of Delirium Tremens-Tetanus or Locked Jaw-Rheumatism - Cough. proceeding from disorder of the digestive organs-Jaundice, arising from a like cause-Diarrhea and Colic, arising from worms.

In most chronic diseases, the medicine is used with the certainty of success by a proper perseverance. In St. Vitus' Dance, when all other remedies fail, a long continuance of the use of this medicine shall remove .

FOR THE CERTAIN CURE AND MITIGATION of disease generally, it is fearlessly asserted that no other medicine before the public can be comparel with Dr. Hope's Pills and Balsam. They act thoroughly but mildly, without causing any unpleasant sensation, unless the system is very much out of order, in which case the Pills may or may not produce some nausea. But their judicious use, according to the directions which accompany the medicine, shall, in the diseases named, give general if not universal satisfaction. The Proprietor warrants that no harm can ensue in any case from taking either the Pills or Balsam, neither of which contains calomel or any other mineral or ingredient of a deleterious nature.

THE ORIENTAL BALSAM is a most valuable if not a specific remedy, especially for Indigestion. Nervous Debility, Fever and Ague, Nervous, Periodical and Sick Headache, Loss of Appetite, Pain in the Stomach after eating, Weak and delicate Stomach, Masked or Dumb Ague, and Liver Complaint. Its effects are not confined to the stomach alone, like that of other stomachics in general use; its power extends to the abdominal viscera, particularly the liver, which it deterges, as well as emulges the hepatic ducts, and at the same time promotes digestion.

IT IS ADMINISTERED BY ORIENTAL PHYSICIANS with great success in pulmonary complaints and scrotula. Several of the most eminent physicians of the age have given the Balsam and Pills a thorough trial, and all of them extol the medicine in the highest terms. Their beneficial

effects on the general health are usually permanent.

The Proprietor strictly forbids the publication of the names of any individuals who may be cured or benefitted by this medicine, unless the party requests it.

N. B.-Agents wanted in every city, town and hamlet in British America. Applications (post-paid) to be addressed to

He has made arrangements by which, for the additional charge of \$2 per annum, he will be enabled to supply the whole set of the four Reviews, and Blackwood, to subscribers residing at any of the following places -delivering the works regularly each month, as published -namely: eastward, at Port Hope, Cobourg, Kingston, Gananoque, Brock-VITLE, PRESCOTT, CORNWALL and MONTREAL; and westward, at HAMILTON, ANCASTER, BRANTFORD, WOODSTOCK and LONDON.

Payments invariably in advance, and for no less period than twelve months.

HENRY ROWSELL, BOOKSELLER & STATIONER, King-street West, Toronto.

Books imported to order from England or from the United States, at the lowest prices, for Cash. CORNER OF BAY AND MELINDA STREIR'S.

CHARLES RAHN,

DENTIST

TO HIS EXCELLENCY THE GOVERNOR-GENERAL.

RESPECTFULLY offers his services to the Ladies and Gentlemen of Toronto, who estimate the personal comforts of a Healthful Mouth, Sweet Breath, and Good Teeth.

The Professional experience of Mr. Rahn, acquired by many years constant practice in all branches of the Art, in addition to his intercourse with distinguished members of the Profession, warrants him in stating that his operations cannot be surpassed. He will PLUG THE TEETH to make them sound and stand the test of time; INSERT TEETH not to be detected among the natural ones, and useful as beautiful; CLEANSE THE TEETH, RESTORE THE GUMS, and IMPROVE THE MOUTH.

It is the intention of the Subscriber to execute his work in a manner so satisfactory to his patients as to render it unnecessary to the citizens of Toronto to resort for those professional services (which the health and happiness of every individual require) to those itinerating practitioners who are generally without responsibility, and who remain only for a few weeks in any one place; or to those inexperienced persons who congregate at the offices of migratory dentists, and commence practice after a few weeks' instruction.

Carious teeth will be stopped with Gold or Tin-foil, without a resort to the destructive quackery of employing mercury in any of its amalgams.
