MAGISTRATE ANSWERS CRITICS Denies That He Has Been Antagonist to Police DR. ALWARD'S ADDRESS

Warmly Commends Police Force And Scores The Prisoner-Council For Defence Denies Resistance Before Beating

The court room was again crowded to the doors with interested spectators, who at times disturbed the order of the court by suppressing applause and with cries of "hear, hear."

"Certain persons, for their own reasons, make it a point to try and make the public believe that I have always been antagonistic to the chief of police and to the members of the local police force, but I defy the chief or any member of the force to say that I have at any time done anything to them, and I will gladly face every member of the force and ask them personally if I have ever done anything to them in any way."

"I will also cite the case which was presented to the court by my learned friend, Mr. E. S. Ritchie, who appeared for the prisoner contending that the weight of evidence submitted by the prosecution was not sufficient for the court to adjudge White guilty of violently resisting the police or of assaulting the policeman."

"In this present case White, according to the policeman, was making a noise in the street, and was requested to go home by the policeman. He went up to the policeman's car and in a few moments Linton heard someone shouting at the head of the alley. He went up and saw White there. I say that Linton would not have discharged his duties as a policeman if he had not arrested White. The proceedings here were most interesting. D. McGillivray, President of the Canadian Club, made a statement in regard to the erection of the tower, after which the Duke of Connaught made a brief address."

VICE REGAL PARTY WARMLY WELCOMED TO HALIFAX TODAY Greeted With Addresses of Welcome—Dedication of Memorial Tower—Luncheon at Waegwatic—Regatta and Illuminations

Halifax, N. S., Aug. 14.—Bright sun and blue skies welcomed the Duke of Connaught, the Duchess and Princess Patricia as they landed at the dockyard this morning and were received by a deputation representing the provincial government, military representatives and others. After receiving addresses of welcome from the Government and Women's Council, their excellencies were driven through streets lined with soldiers to the Grand Parade where the civic reception was tendered. Here addresses from the city and national societies were read and responded to. A great crowd was present, those welcome to the Royal party was most enthusiastic. The ceremonies at the parade over the party took place at the Northwest Arm, where the dedication of the memorial tower took place. The tower commencing, the granting of the first representative parliament by the crown to the colonies—Nova Scotia. The proceedings here were most interesting. D. McGillivray, President of the Canadian Club, made a statement in regard to the erection of the tower, after which the Duke of Connaught made a brief address."

INVESTIGATING MASSACRE BY MEXICAN REBELS Mexico City, Aug. 14.—The massacre of soldiers and passengers on a train near here Sunday by rebels under the direction of Emiliano Zapata, was discussed at length yesterday in cabinet meeting but no policy was given as to any part of the cabinet's deliberations. Twenty badly charred bodies whose recognition was impossible were brought from the scene of the slaughter last night. Bodies of the remainder of the forty victims were not yet recovered. "I will also cite the case which was presented to the court by my learned friend, Mr. E. S. Ritchie, who appeared for the prisoner contending that the weight of evidence submitted by the prosecution was not sufficient for the court to adjudge White guilty of violently resisting the police or of assaulting the policeman."

W. E. REYNOLDS OF THIS CITY KILLED ON HARVESTERS TRAIN Smith's Falls, Ont., Aug. 14.—W. E. Reynolds of St. John, N. B., was instantly killed at Frankton, about twelve miles from here, last night. Reynolds had a ticket for Vancouver on the harvest excursion train which was en route from Toronto to Vancouver. The train was stopped at the time of the accident. Reynolds was sitting in the rear of the train. He was badly mutilated. His relatives at St. John were notified, and an inquest was ordered this afternoon. The young fellow was about 23 years of age, well dressed and wore an Oddfellows' lock of hair.

AUSTRALIA ALSO RESENTS ACTION ON PANAMA CANAL BILL Melbourne, Australia, Aug. 14.—Allred Deakin, leader of the federal opposition, asked Premier Fisher in the house of representatives yesterday whether he intended to communicate with imperial government respecting the American government's decision to exempt from canal tolls American coastwise shipping, as it was a matter of vital importance to Australia. Premier Fisher replied that he regarded the United States' decision as one which appeared to be clearly against the terms of the Anglo-American treaty. He already had communicated with the imperial government, and he hoped that the matter would be satisfactorily settled.

MOORE HATFIELD. The home of Ulrich Hatfield, 10 Sydney street, was the scene of a pretty wedding last evening, when his youngest daughter, Miss Nettie V. Hatfield, was united in marriage to Walter W. Moore, formerly of Jerusalem, Queens county, but now of this city. The ceremony was performed by Rev. W. Camp, B.D., pastor of the Leinster street Baptist church. The bride, who was given away by her father, looked charming in a travelling suit of navy blue broad cloth with hat to match. She was attended by Miss Blanch Hatfield, of St. Martins, as flower girl. Mr. and Mrs. Moore left on their honeymoon to St. John, N. S., where they will spend their honeymoon in Nova Scotia, Boston and other American cities. They will reside in Sydney street. The wedding presents included cut glass and silverware and a number of substantial cheques.

PROPERTY SALE. Captain Calhoun of Robbsey has sold his farm of twenty-five acres there to A. H. Huntington, K. C. The sale was made through Messrs. Jardine & Rice. The same firm also announce the sale of twenty-six lots on Alexandra Heights a number of which were to a Boston lady.

MONARCHIST ACTIVITIES DISCOVERED Thousands of Portuguese Arrested—Convicts Converted Into Prisons—Brazil Offers Refuge (Canadian Press) Lisbon, Portugal, Aug. 14.—The Portuguese authorities continue to discover fresh monarchist plots against the government. Thousands of persons have been arrested and the convicts converted into prisons. It is stated that Brazil has made an offer to the Spanish government to provide asylum for the royalist refugees now in Spain, and that the Portuguese monarchists consequently will make Rio Janeiro their headquarters. The royalists are reported to be planning another attempt to enter Portugal by sea.

IMPORTANT CHANGES ARE PREDICTED Sons of England Grand Lodge in Session—To be Patriotic Organization—School and Marriage Questions (Canadian Press) Niagara Falls, Ont., Aug. 14.—The biennial meeting of the Grand Lodge of the Sons of England, members of which go down to real business today, probably witness a marked change in the attitude of the order from a benevolent to a patriotic organization. An effort will be made to induce the Sons of England to cooperate with the Orange associations in holding an English language congress in Toronto next St. George's day in opposition to the Fenian movement. The national autonomy of the order will probably suffer some change. The proposal to abolish the order by combining it with that of secretary, will meet with strong opposition from the Toronto contingent. It has been suggested that the marriage question will form a feature of the discussion of the evening, but no certain section of the delegates are anxious to sidestep this, although it is stated tonight that one of the delegates will present the question by a formal meeting. It may, however, come up as collateral to the initiation to participate in the English language congress.

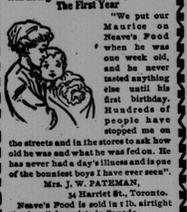

NEGOTIATIONS FOR PEACE BETWEEN CHINA AND THIBET Settlement Expected at Any Month—Chinese Fought For Months Unsuccessfully Simla, India, Aug. 14.—Peace negotiations which have been proceeding between China and Thibet for some time have reached a point where a settlement may be expected at any moment. The Thibetans who are vassals of China revolted at the time of the outbreak of the Chinese revolution and severe fighting ensued between them and the Chinese. In many cases the Chinese troops were overwhelmed but the Chinese garrisons at Lhasa fought for months against continued assaults before finally compelled to surrender owing to starvation. The soldiers then gave up their arms and ammunition in return for food after which they were sent back to China under safe conduct.

AMALGAMATION OF STEAMSHIP LINES ON GREAT LAKES Combined Capital of £2,000,000—One-Sixth Held by Furness Withy & Co.—After Smaller Companies London, Aug. 14.—The Times announces that a scheme for amalgamating the chief steamship companies operating on the Great Lakes, has now been completed with the combined capital of the company to be £2,000,000, one-sixth of which is held by Messrs. Furness Withy & Co. Negotiations are now being conducted with a view to acquiring several smaller concerns.

MONCTON HORSE RACES Moncton, N. B., Aug. 14.—The directors of the Moncton Trotting Association held a meeting this morning to consider entries for the meet to be held here on the 21st and 22nd of this month. The entries for the free-for-all are exceptionally heavy. W. Beckley, of St. John, has several horses entered.

LA MARQUISE DE FONTENAY

Right Hon. Walter Long, distinguished Leader of British Unionists, to Visit Ottawa—Some Family History—Baron Oppenheim's Art Collection (Copyright, 1912, by the Brentwood Company)

Former Secretary for Ireland, the Right Hon. Walter Long, who arrives in New York tomorrow on board the *Marematina*, would have been elected to the leadership of the Unionist party on the retirement of ex-Premier Arthur Balfour, had it not been for the rivalry of Asquith Chamberlain, ex-Chancellor of the Exchequer. It was owing to the difficulty of recognizing the claims of both these men that the Conservatives selected by way of compromise Bonar Law, who has proved so unsuccessful as a leader. Balfour has been recalled from his well-earned retirement to become the principal speaker for the party.

He is an honest, straight riding country squire, a hard-bitten rather than a persuasive speaker, used to be noted for his violent quarrels in the House of Commons with Dr. Tanner, the pugacious but warm-hearted Nationalist member for Cork, and achieved fast popularity, not to say excretion among all dog-lovers in Great Britain, by securing the passage of the dog-muzzling and dog-quarantine laws now in force in Great Britain and Ireland. What is most objected to these laws is that portion of them which prevents the bringing of any dog into the United Kingdom after no matter how short an absence abroad, without undergoing a six months' quarantine.

These measures, applied with the utmost severity to all dog-owners, with the solitary exception of the pets of Queen Alexandra and the late King Edward, have had the effect of completely eradicating rabbits from the British Isles. The result is not appreciated as it deserves to be, and Walter Long remains cordially and warmly hated by the Nationalists.

Lady Doreen Long, who accompanies her husband, and who is one of the sisters of the Earl of Cork, is a general favorite. They propose to spend some time on this side of the water, and will pay a visit of several weeks to their oldest son, Captain Walter Long of the Scots Greys, who is serving on the staff of the Duke of Connaught at Ottawa.

The Right Hon. Walter Long represents the Strand Division of London in the House of Commons, owns about 1,000 acres in Wiltshire and Northampton, and is one of the pillars of the Turf Club in London. The "Muzzler," as he is nicknamed, is a son of the old "Wiltshire House" Long that figured in the register of the marriage of Catherine of Aragon to Henry VIII at the Field of the Cloth of Gold, and were present at the christening of Edward VI. Robert, his father, was secretary of state to Charles II, and his tombstone in Westminster Abbey, the work of the sculptor Giovanni Stanetti, is one of the finest in the city. His former great wealth was squandered by the fourth Earl of Mornington, whom his uncle, the Duke of Wellington, used to refer to "as the curse of his (the Wellies) family." Mornington succeeded at the age of twenty-four in winning the hand of Miss Katherine Long, sister of Sir James Tyrone Long, and heires to his estates valued at about \$800,000 a year, and personal property to the amount of some \$4,000,000. In fact, she was regarded as the time of her marriage in 1812 as the greatest heiress of her day. The early days of her married life were spent at her childhood home of Wandstead Hall, a palace on the borders of Epping Forest, which was said to have but one equal in England, (namely, Blenheim, the Marlborough country seat), but of which today not one stone remains.

For several years Lord and Lady Mornington lived happily together, but suddenly she was divorced from him, for some reason that has never been known, (since the person most deeply concerned in the case, the Duke of Wellington, died wife, kept her own counsel), she became a man of the most brutal and evil life. What is known is that one night, when Lady Mornington lay dying, severely on until late in the morning at the great house, and if it were not for the fact that she was the wife of a duke, she would have been buried in the village of Wandstead and of Leyton are to be believed, not even the entertainers of the Hell Fire Club at Medmore ham Abbey approached in wickedness those that took place at Wandstead Hall.

Even Lady Mornington's great fortune could not stand the perpetual drain made upon it. Immediately on her death, over a million in ruin and threatened with criminal proceedings for the misappropriation of funds, and of her wife's signature, the Earl was obliged to leave England, but a ridiculously low figure, on the condition that every vestige of the splendid mansion should be cleared away within twelve months.

Thereafter Lord Mornington went from bad to worse, and became a bankrupt and an outcast, that a family council of the Wellies, held at Appleby House, under the presidency of the Duke of Wellington, decided that he was unfit to be trusted with the care of his children. This opinion was confirmed by the courts, and at the Duke's instance the sons of the Earl were made wards in chancery. Finally, without a penny in the world, ostracized by all, subsisting on an allowance of \$15 paid to him weekly by his uncle, the Duke of Wellington, and afterwards by his cousin in the second Duke, he died in humble lodgings in Taver street, in the Marylebone District of London. His eldest son, who had always declined to have anything to do with his father, succeeded to the Earldom, dying without issue in Paris in 1883, when his honors passed to his cousin, the second Duke of Wellington. There has been so much misapprehension as to the identity of the former owner of the paintings by Van Eyck and his pupil, the famous Old Masters that have just arrived in New York—some assigned to J. Pierpont Morgan, others to the Metropolitan Museum or to art dealers—that it may be as well to explain that they formed part of the famous collection of the late Baron Albert Oppenheim, who died last year. His native city of Cologne had hoped to acquire it, either by bequest, or purchase at a reasonable sum from the heirs. But no bequest was made, and the city authorities found themselves unable to bid against the Parisian art dealers at the sale. It is a source of cruel regret to them that these treasures should have crossed the Atlantic.

Baron Albert Oppenheim was the only remaining son of the founder of the banking house of Oppenheim. His nephew, Baron Simon Oppenheim, married to J. Florence Hutchings, of New York, is now the head of the firm, and one of the most celebrated racing stables in Germany, that of Schiederhahn. It is of the late Baron Albert, who, like most of the mem-

D. A. R. LINERS
ASHORE YESTERDAY

Yarmouth, N. S., Aug. 13—The D. A. R. liner, Prince George, Capt. Arthur McKinnon, for Boston with 170 passengers on board, went ashore on the flats on the eastern side of the channel here late evening at 9 o'clock. Owing to the train of the D. A. R. and the Halifax & Southwestern being three hours late the steamer did not clear from here until after 8.30.

A dense fog prevailed at the time, the tide was more than usually high and stiff breeze was blowing from the south-west. Your correspondent has not been able to ascertain the cause of the grounding, as the steamship officials are very non-committal, but the story that is being spread around is that her bow pointed nearly north.

Distress signals summoned tug to the assistance of the stranded steamer but all efforts to save her were unavailing. After attempts were made at high water this evening when all the tugs available will go down and assist.

Her passengers were transferred to the Prince Arthur to go to Boston tonight. Orders have been given to put steam on the Boston and if the George will not float on the next high tide she will take of the Boston route tomorrow.

The George went ashore during the high tide for a long time at Yarmouth and the opinion is general that the steamer will not float until the next course of high tide.

Anxiety About Constan

Montreal, Aug. 13—Latest reports from the signal service at 11 o'clock tonight reported that the Allan liner *Constan*, captured in a collision with an iceberg yesterday afternoon, had not moved from position, 120 miles east of Belle Isle, since the accident. The *Lake Champlain* is still standing by the injured vessel. The fog in the vicinity of the vessel is lifting.

No further word from Capt. Cook has been announced at the Allan line offices since his message which stated that he would proceed to Liverpool as soon as the fog lifted, and that the damage was small and was entirely above the water line.

The fact that the vessel has not moved since the accident, combined with the continued presence of the *Lake Champlain* at the scene, is causing some anxiety.

Stromboli is Active

Rome, Aug. 14—A despatch from Messina says the volcano of Stromboli has become active, and that a vast column of smoke and a stream of lava are pouring out of the crater. The eruption is accompanied by tremendous explosions.

Two Ways of Traveling
BY EUTH CAMERON

"PREPARE to live by all means, but for Heaven's sake do not forget to live"—Arnold Bennett.

Once upon a time I was driven through a very beautiful country in a splendid motor car. All along the way were lovely roadside flowers which I longed to gather, and wonderful vistas that I wanted to have time to fix upon "that inward eye." But my hostesses were not the kind of people to stop and gather roadside flowers or look long at beautiful vistas. They were "get there" people, and so we whirled along to the journey's end, and when we reached it they heaved sighs of content as if at last they were happy. All of which seemed very strange to me, for theoretically we had come for the pleasure of the journey.

Now which journey do you think I enjoyed the most?

Which would you have enjoyed most?

Do you belong to the "get there" folk or to those who think that every moment of the journey should be enjoyed?

And I don't mean only as regards actual travelling, but as regards life itself.

A young girl who had embroidered a beautiful centerpiece for her mother was complaining because her mother never used the gift. "It's just like all the lovely things mother has," she lamented, "she just puts them away to use sometime. I want her to use them now."

There are many men and women like that mother who are always saving their blessings for sometime. Sometime they will use their beautiful things; sometime they will take time to enjoy their children; sometime they will take advantage of all the opportunities for education and enjoyment that surround them; sometime they will be happy.

All my friends, there is no time for happiness half so good as now. Don't dream of a some day when you can be happy, but be happy right now.

"You will never have a better chance for happiness," says a great essayist, "than you have at present. You may think you will have, but you're mistaken. So get out and gather flowers along the roadside. Only so will you get the most out of the journey of life."

THREE NEW HAT SHAPES SEEN IN LONDON

The first is a modification of the Gainsborough, it has the crown and brim covered with the shirred mousseline of the same cream tinge as the leghorn of the hat.

The second is a frank play upon the mushroom—a hemp material shape, with a frill of scarlet chiffon about the edge and two magnificent poppies against the crown.

The lower one is a variation of the famous scoop bonnet, and is covered with cream mousseline with a facing of pink ribbon and gold sized roses.

RED CROSS WILL AID STARVING NICARAGUA

American Society Cables \$1,000 to Panama to Buy Food Supplies—Situation Due to Drought, Crop Failures and Politics.

New York, Aug. 14—Conditions among the poverty stricken and revolution ridden people of Nicaragua have become so acute that the American National Red Cross has authorized the expenditure of \$1,000 in funds for the purchase of food supplies for destitute Nicaraguans. This is a virtual first time that the Red Cross has found it necessary or desirable to relieve distress in Central America not arising from the conflict of revolution or disaster such as earthquake.

It was announced at the state department that, as a result of continued crop failures and drought, which has prostrated the financial situation which the regime of President Zelaya has become serious in the country, amounting in some districts to famine. It is expected the present revolutionary disturbance fomented by General Mon, the former minister of war, will accentuate this condition.

Accordingly the Red Cross has cabled \$1,000 to Panama to be expended in the purchase of rice, beans, corn, flour, potatoes and other necessities to be taken to Nicaragua. These supplies will be purchased from the commissary department of the Isthmian Canal commission at the lowest price and sent to Corinto, Nicaragua on the collier *Justin*, which is going to carry 350 marines to that port from the canal zone. The distribution of the supplies will be under the supervision of United States Minister Weitzel, aided by other Americans in the country.

Kaiser's Sister Robbed

London, Aug. 13—Princess Frederich Charles of Hesse, the youngest sister of the German Emperor, was robbed of costly jewelry while starting from the Victoria Station for Germany last Saturday. The princess was surrounded by members of the British royal family and a number of foreign diplomats who had accompanied her to the railroad station to say farewell, and the police authorities took strict precautions to keep outsiders at a distance, but as soon as the train had started the bags containing the valuables were snatched. The police endeavored to keep the thief secret and it became known only today when descriptions of the property, which is priceless, were given out by Scotland Yard.

Webber, who is with David Watford, and Albert Lang, stage director of the Pittsburgh Stock Company, are vacationing in the Maine woods. Fishing in Swan Lake, ten miles from Belfast, in Maine, they declare, is one of the unexpecting delights of the season. Tyrone Power ran down to New York from his Canadian fishing camp on July 31 to order his costumes for William Faversham's revival of *Julius Caesar*.

Another prominent actress to play in the *Trials of Mary Queen of Scots* is Helen Ware, who has just succeeded Mary Boland as leading woman of the organization at Lakeside Park, Denver. Her engagement for five weeks, beginning last Monday in the Third Degree. She will appear next season in Elmer B. Harris' play, *The Trial of Mary Queen of Scots*, under Harris' management. The photograph reproduced on the cover was made by Dave and Ives.

REAPPOINTED FOR HIS TWENTY-NINTH YEAR ON THE SCHOOL BOARD

The announcement that M. L. Coll had been reappointed by the city commissioners to the school trustees was well received at the monthly session of the board held yesterday afternoon and the veteran trustee, who has been twenty-nine years of age, received hearty congratulations.

The janitor of Centennial school sent in a statement of damage to Centennial school and vicinity through ball playing on the part of boys in the yard. About a dozen panes of glass were broken on the east side of the building and five windows were broken in the manual training building.

A report was submitted showing the water boiler in the High school building to be in a satisfactory condition. It was recommended to pay two months' salary to the daughter of the late Mr. Turner, who had died in the capacity of janitor of LaFour school, west side. Z. McLeod was appointed to succeed Mr. Turner as janitor of this school.

Superintendent H. S. Bridges submitted the following list of prize winners: Corporation gold medal for highest marks in junior matriculation examination, Harold Manning; Parker silver medal for highest marks in mathematics in junior matriculation examination, Gordon Green; governor general's silver medal for highest marks in grade X, Hilda Steves; chairman's gold medal for highest marks in High school entrance examinations, Miss Eleanor Boyce. Miss Boyce also leads the county and will be presented with another medal on that account. The winner of the G. S. Mayer gold medal for the west side student securing the highest number of marks has not been decided upon as yet.

French Names for Post Offices

Ottawa, Aug. 13—The love of the postmaster-general, Hon. L. P. Pelletier, for the euphony of his mother language is demonstrated by a reference to list of post offices throughout the dominion whose names have recently been changed.

Some months ago a tendency on the part of the postmaster-general to apply French names to offices in the province of Ontario as a substitute for their former names aroused a strong protest. It will be noticed that on this occasion the minister has confined his attention to the province's further east.

NICKEL'S PROGRAMME FOR THE MID-WEEK OF STERLING MERIT

This afternoon at Nickel theatre another fine programme of pictures by the leading makers and players occupied the curtain.

The Lubin Company furnished another of their rollicking comedies entitled "The Runaways" something similar to that delicious farce "The Honeymooners," now done a short time ago by the same people. The Vitaphone Company has a strong love court drama under the title "The Cylinders Secret" and the Biograph Company a charming domestic drama "The Black Sheep." It is not very often these sterling aggregations of players are brought together in the same bill and for a mid-week offering it is a particularly attractive one. Miss Betty Donn is retiring from the Nickel this week after a highly successful season to make way for Gertrude LeRoy who comes direct from the Bijou Dramatic, Boston. Mr. Waterall will remain a general favorite, and will remain some weeks longer. On the 20th and 21st of this month, the Nickel is going to produce the most stupendous dramatic production dealing with Wall Street, world's politics, high finance and romance entitled "The Money Kings."

MUSICAL COMEDY, NEW YORK SUCCESS, BEST EVER HERE Large Company, Including 25 Pretty Girls, Enticing Dances, 30 Musical Members, Funny Comedians—Halifax Papers in Ecstacy—Will Be Here Thursday, Friday and Saturday

Something will be doing at the Opera House tomorrow night, when the "Red Rose Musical Comedy," exploited by J. C. Fischer, of "Silver Slipper" fame, will occupy the boards. Halifax papers and the announcement that the "Red Rose" is the best musical comedy that ever came to the province. Following is but an extract from a double column reference in the Halifax Recorder:

"Halifax has a real Broadway attraction, not comparatively speaking but in every respect, cast, chorus, costumes, singers, dancers, pretty girls, etc., and the production is stupendous, exciting, and thing ever seen at the Academy."

For just three days will this great musical comedy be seen at the Opera House, and those who realize the merits of the attraction too late, will be indeed unfortunate. Remember, just Thursday, Friday and Saturday, with Saturday matinee.

German National Park. Berlin, Aug. 15—Plans are being made to build before the government for a German National Park in the Harz Mountains like America's Yellowstone Park. Two thousand acres will be set aside, of which three-quarters will be for botanical purposes, and the rest for the preservation of the wild animals of Germany. In addition it is hoped to introduce and preserve such wild species as the aurochs (European wild cattle), the bear, the elk and the lynx. On the Winterberg, the highest hill of the domain, a large hotel will be built.

NORWEGIAN CASE OF INTERNATIONAL INTEREST, SETTLED. Christiania, Aug. 14—In March of last year the trawler "Lord Roberts," of Hull, was captured by varanger fiord near the Russian frontier, and charged before a Norwegian court with fishing within territorial limits. In May the captain was fined 1,500 kroner and condemned to forfeit trawled fish to the value of 1,800 kroner and to pay costs. The captain appealed, and since Thursday week the case has occupied the attention of the court at Varde. Late on Saturday evening the court gave judgment, reducing the captain's fine to 200 kroner and fixing the value of the forfeited fish at 400 kroner and the costs of the appeal at 40 kroner. Otherwise the former sentence was confirmed. The defendant argued that he was justified in believing that the same rule in regard to territorial limits applied in Norway as applied in England, and that he acted in good faith, and consequently should be acquitted. The court, however, held that he should have obtained correct information with regard to the Norwegian law before trawling on the Norwegian coast. The case is of considerable international interest in connection with the question of the extension of territorial waters, and the question of the closing of the open fjords.

Today's Police Court. John Flynn, aged 34, was arraigned in the police court this morning, charged with stealing a coat, the property of John Trainer, from the schooner Wandian which is lying at the McLeod Wharf. The coat was valued at \$5. He pleaded guilty to the charge and consented to be tried in the police court. He was remanded to jail. Two prisoners charged with drunkenness were fined \$4 or ten days in jail and two others were remanded on the same charge. One deposit of \$8 was forfeited to the court.

A COMMON POLICY IN THE FAR EAST

Russia and Japan Believed To Have Signed Treaty

ATTITUDE TOWARDS CHINA Working Side by Side in Commercial Activities in Manchuria—Natural and Inevitable

Washington, Aug. 14—That Russia and Japan have undoubtedly agreed upon a new common policy of mutual interest is generally believed here in official circles. While state department officials were unwilling to comment for publication upon their dispatch of the St. Petersburg correspondent of the Sun outlining the two governments, it was learned that it is regarded as an accurate resume of the existing situation.

The rumors of a few weeks ago that the two powers had signed a treaty embodying their new policy in the Far East was not generally credited by Washington officials. It was said at the time, however, that Russia and Japan were unquestionably putting their heads closer and closer together, and that there was no doubt of their coming to an increasing realization of their parallel interests with respect to China and her possessions.

To those who have been in the Orient since the Russo-Japanese war the eventual co-operation of the two great hostile powers has appeared as natural and as inevitable as the rising of the sun. Events since the Russo-Japanese war have confirmed predictions, until now the two are already seen working side by side in commercial and other activities in Manchuria and in absolute harmony on political questions affecting this region, such, for instance, as those raised in connection with the bankers' conference on the proposed loan of \$800,000,000 to China.

Non-Intervention Policy. The United States, it is said authoritatively, has been quick to recognize the trend of affairs, and has taken a most liberal attitude with respect to the special interests of Russia and Japan in Manchuria. The joint possession and operation of the Manchurian railways, which has been accepted by the United States as a fact as creating a situation for both Japan and Russia with respect to the Chinese situation, could not be dispelled with more theorizing or the generalities of diplomacy.

At the same time, Secretary Knox has been leading in the policy of the preservation of the integrity of China and the open door. From the beginning the United States has been making no distinction until the conclusion of the bankers' conference regarding the proposed six-power loan, and the department has adhered to this attitude. Mr. Knox early drew Germany out into the front rank as a defender of the open door policy. It did this through his note to that Government of last winter. Great Britain has likewise been a defender of the open door policy.

Immediate departure from this policy to a policy of non-intervention and non-action by all the powers in whatever territory was to be established, was announced by the United States in its note to that Government of last winter. Immediate departure from this policy to a policy of non-intervention and non-action by all the powers in whatever territory was to be established, was announced by the United States in its note to that Government of last winter.

Paris, Aug. 14—A great many things are forbidden in railway carriages in all countries. In Germany, of course, everything is "verboten" everywhere. It appears that at least on a suburban line near Paris, which Russia and Japan have subscribed to, it is held, will make any hold-up or anything banned. A couple of lovers on the line between Paris and Pantin, having a picnic, were making a picnic of it, and were making the best use of the short time of solitude before them, when a surveillance agent established between the two governments by Prince Katsura's visit to St. Petersburg.

Shocking Method of Suicide. Vienna, Aug. 14—A recent past experiment and tests have been conducted by the Nutrition Department of the Institute for Zymo-technical Industry at Berlin, with the object of ascertaining the nutritive value of potato-tops. The result is that dried tops of potatoes have been found to possess value as fodder equal to that of good meadow hay. The preliminary idea that potato-tops disagree with animals proved to be entirely unfounded, which may now be regarded as a revelation. Owing to the thickness of its stalk, the potato-top must be dried by special procedure, but it is considered possible that the means employed to dry the roots, potatoes, or grain may be available in this case, too. In view of the fact, however, that some two and a half to three million tons of potato tops can thus be utilized in Germany as fodder, it is confidently believed that the requisite new plant will soon be supplied by the agricultural machine industry.

Death at Wedding Feast. Vienna, Aug. 14—Fourteen persons, including the bridegroom (a postal official named Chianani), his bride, and their carriages, are reported to have died of poisoning after a wedding banquet at Bukarest. Carbolic acid was served by mistake when the toast was being drunk instead of spirits, and no "hiccups" being allowed, most of the guests drained their glasses at a draught, with fatal consequences.

SIR WILFRID'S POSITION

Leading Liberals at Ottawa do not believe Sir Wilfrid Laurier would give up his right to criticize the government's naval policy by attending a joint conference on the naval question. Why should Sir Wilfrid attend such a conference? He and his party have a naval policy, in line with a joint resolution adopted by parliament in 1909. Mr. Borden then approved of that policy, and was later approved by the British Admiralty. It is possible that conditions have since changed so that a much larger expenditure may be necessary, and even an emergency contribution; but that does not call for a joint conference. The Liberal party has a definite naval policy. It stands for a Canadian navy, which would be an integral part of the navy of the Empire. If Mr. Borden stands for that also, there is no need of a conference. If he does not, he cannot expect the support of the Liberal party. Mr. Borden took the navy into party politics, and tried in every way to create prejudice against the Liberal party. It was repudiated by Tory orators as a disloyal party, pursuing a policy calculated to sever Canada from the Empire. Even since he has gone to London, Mr. Borden has grossly insulted every Canadian Liberal by asserting that the elections of last September proved that Canada desired to remain a part of the Empire. Mr. Borden knew perfectly well that Canada's loyalty to the Empire was not in question, and that the Liberals were quite as loyal as any Conservatives, and much more so than his own Nationalist allies. Yet in London he takes credit to himself for having saved Canada to the Empire. But this same Mr. Borden cancelled the Laurier naval policy; and, despite the fact that he is now talking with solemn impressiveness about the danger which threatens the mother country, he has done nothing at all. The Liberals are in no mood to assist him out of the difficulty in which he has placed himself. They would be unwise not to hold themselves in readiness to subject to a searching criticism any proposals he may make.

THE OTTAWA FREE PRESS

The Ottawa Free Press, discussing the suggestion that Mr. Winston Churchill come to Canada, pointedly asks:—

"Why is it necessary to bring Winston Churchill or any other British minister to Canada at this particular time? Are the Canadian ministers whom we now have in London not competent to bring us the story told them by the Imperial government? Having heard that story, have they not backbone enough to act upon it on their own responsibility? Can they not evolve a naval policy and present it to the Canadian people without trying to hide behind the skirts of a British minister?"

Dealing with the proposal that Sir Wilfrid Laurier should attend a naval conference, the Free Press says:—

"Sir Wilfrid Laurier has produced his solution. He presented it to parliament and people on the responsibility of his government. He was turned out of power partly as the result of taking that responsibility, and replaced by men who condemned his policy. It is an impertinence for those men to say, now that they have been victorious at the polls: 'Please, Sir Wilfrid, come over and help us formulate a policy that shall be better than the one you put through, which we didn't like at all.' It is a pretty way to tie the hands of the leader of a political party, and we shall be very much surprised if Sir Wilfrid permits himself or his party to be dragged into any such easy trap. The Liberal party has a policy on the navy, it had the courage to put that policy into force, before the Liberal party endorsed another and different policy, it must be proven that such policy is an improvement on its own in the interests of the Empire and of Canada."

CONTROL OF STREETS

Among other questions to be discussed by the Union of Canadian Municipalities at its meeting in Windsor, Ont., is that of a city's control of its streets. The Montreal Shareholder, having in mind some experiences of the cities of Montreal and Toronto, makes the following timely observations on the subject:—

"Undoubtedly this question of civic control of streets is one of the most important civic problems facing municipalities today. Canada is a young country, and, in a measure, capital seeking investment in it requires a certain amount of encouragement. Our cities require large sums to finance their public utilities and to build street railways, power lines, waterworks, etc. Just how far they should go in the granting of privileges to companies willing to finance these undertakings is a difficult matter to say. Cities are apt to grant too much and to be somewhat careless in the drawing up of the contracts. As a result the following generation finds that many of their rights and privileges as citizens have been sold to a soulless corporation which is often only too eager to exact the full pound of flesh. It is undoubtedly difficult to know just how much leeway to give a company, and how much control over its streets a city should retain. A generation ago we were prodigal with our civic privileges, and handed out concessions and rights on a silver salver. Now we are reaping the fruits of our fathers' reckless disregard of civic rights, and finding it bitter to the taste. We are slowly learning to be less prodigal in the matter of concessions, and to look more carefully to the wording of our agreements."

"THORNS HAVE ROSES"

It isn't so much the way things are as the way you look at a thing; There's always the roses of a story song For the voice that is ready to sing, And "Roses have Thorns!" is a stupid cry.

For though it may all be so, I think we would better be telling the world That Thorns have Roses, you know.

We cannot expect to live our lives From all that is bitter apart, But each one knows when he's felt a thorn

From the pain it has left in his heart, He doesn't need us to tell him 't's there Or murmur a maxim of woe; We'd better be singing a psalm of hope, For Thorns have Roses, we know.

—Florence J. Boyce, in Park's Magazine.

IN LIGHTER VEIN

"Shall we give this fellow an office?"

"Maybe we'd better. He's a pretty big man."

"Big enough to start a new party?"

"Oh, no."

"Big enough to start a magazine?"

"Then no office for him. He ain't very big."

NOT A GOOD JOB.

"I'm a self-made man," said the proud individual, "and I don't mind a hard job."

"Well, you are all right except as to your head," commented the listener.

"The part you talk with is too big for the part you think with."

GLAD TO ESCAPE

"It's useless to urge me to marry you. When I say no I mean no."

"Invariably."

"I can't do anything over break your determination when once you make up your mind."

"Absolutely nothing."

"Well, I wouldn't care to marry a girl like that anyhow."

WORKS IN THE GARDEN NOW

Grown old in the service of his master and mistress, James was a privileged retainer.

He was waiting at table one day, when a guest asked for a fish fork. Strangely enough the request was ignored.

Then the hostess noticed the episode, and remarked in a most peremptory manner:—

"James, Mrs. Jones hasn't a fish fork. Get her one at once!"

"Mistress," came the emphatic reply, "last time Mrs. Jones dined here we lost a fish fork."

James has now been relegated to the garden—Answer.

HOUSE OVER-RIDES PRESIDENT'S VETO

Washington, Aug. 13.—By the narrow margin of five votes the house today passed the wool tariff revision bill over President Taft's veto. The vote 174 to 89 was made possible only by the defection of twenty-one Republicans who voted with the Democrats.

The announcement of Democratic success, created a wild scene in the house, and amid great confusion the Republican leaders protested that Speaker Clark must count as voting ten members who answered "Present" to their names, a ruling which would have defeated the Democratic programme by overcoming the five-vote margin and making impossible the recording of the necessary two-thirds vote of the house. This the speaker declined to do.

Later the conference on the sugar tariff bill met and disagreed. This action is expected to mark the end of sugar tariff consideration in the present session.

While Democratic and Progressive leaders of the senate do not believe the wool bill can be passed in that body over the president's veto, they will continue the demand for action on the cotton tariff measure.

I DO PROCLAIM Monday, the 19th instant, a public holiday

BANK DEPOSITS SHOW EXTENT OF BECKER'S GRAFT

New York, Aug. 13.—Powerful banking interests, acting through the New York clearing house committee, came to the aid of District Attorney Whitman, today in his efforts to lay bare the alleged corrupt alliance between the police and the gambling fraternity, founded on graft and blackmail.

A virtual command was given by the committee today to all banks in the clearing house to furnish the district attorney with a record of deposits they have received from any of the high police officials whom the district attorney suspects of having been a collector of blackmail from the disorderly elements of the city.

As a result records showing that within the last eight months Police Lieut. Chas. Becker, charged with the murder of Horace Rosenthal, and accused of gambling graft, has made bank deposits of \$58,818 in his own name or that of his wife, were placed in the hands of the public prosecutor.

These deposits, the records show, were first made on November 1911, shortly after Becker became head of the strong arm squad of gambling raiders and continued all during the time that Jack Rose says he was collecting graft for Becker and until after his arrest. The table of deposits as presented to the district attorney, was as follows:

Corn Exchange Bank, Nov. 21, 1911, to Aug. 1, 1912, \$29,015.

Corn Exchange Bank (Branch), May 1912, \$4,230.

Corn Exchange Bank (Branch), April 1912, \$5,000.

Corn Exchange Bank (Branch), July 1912, \$10,000.

HALIFAX PLANS FOR VICE-REGAL PARTY

Halifax, Aug. 13.—The steamer Earl Grey with the Duke of Connaught and party arrived from St. Ann's (C. B.) at 3 o'clock this afternoon. They were received with a royal salute from H. M. S. Sirius, which brought here Sir Ralph Williams, governor of Newfoundland.

The duke will land at the dockyard at 10 o'clock tomorrow forenoon and will proceed through the streets lined by the military to the city hall, where a civic address will be presented. He will also receive a number of other addresses.

Then his royal highness will proceed to the North West Arm, where the memorial tower will be dedicated. This tower is built of native stone in the honor of the establishment of representative parliamentary institutions in Nova Scotia 124 years ago, and was erected at a cost of about \$20,000, contributed by the governments, cities and corporations of many parts of the British Empire. It stands in a park donated to the city by Sir Sandford Fleming and was built under the auspices of the Halifax Canadian Club, of which D. MacGillivray is the president, and has been the leading spirit.

The Canadian Club offered \$100 for a poem in honor of the event. The winner was Rev. A. L. Fraser, of Great Village (N. S.) His sonnet, now appearing for the first time, being as follows:

Freedom doth great this royal throng today In these chaste haunts—largest of one Whom time has amply proved Britannia's son, And when by age or love or ease shall stay In years unborn this pillar to survey, His walls will tell not of war's stammering shock, But how long since kind liberty did rock Her cradle by this old Atlantic bay, And if far-scattered children turn their feet To where their father's earliest hearth did bathe The very stones in tears, 'tis meet That we of British blood this pile should raise Where first a daughter of our ancient throne Did sit beside a fireside of her own.

NEWS OF LONDON SOCIETY

Generous Hearted Queen, Who Does Good by Stealth

QUEEN MARY'S CHARITIES

Alexandra's Wonderful Vitality Astonishes Her Friends—Canadians in London—Their Taxes

(Times' Special Correspondence)

London, Aug. 13.—Although one would hardly call Queen Mary a sentimental woman, she is capable of great kindness and thoughtfulness. The writer has just learned of a little series of acts done almost in a secrecy or, at any rate, without any of the publicity and ostentation that are the worst features of the public activities of most royal women.

A short time ago an old and faithful servant of the queen was ordered to a hospital by the doctor. Queen Mary, however, refused to allow her to go to one of the London hospitals, despite the fact that patients have there the best of treatment and attention. Instead, the queen paid the fees of a private nursing home for her servant. Nor did her kindness end there. Busy as she is with public engagements, the queen found time to visit her old servant daily and personally see that she was well looked after.

Recently, at the queen's instigation, a large house, owned by the Crown, was set apart for the use of old royal servants who had retired because of advanced old age. The queen, a few days ago, told a personal friend that she had seldom spent happier days than those devoted to a personal supervision of the furnishings and decorations of this house.

Many society women find over and over Queen Alexandra, her wonderful constitution, as they drove away from the two garden parties that she gave recently at Marlborough House. Most women of her age—even when their lives have been lived a privileged life—find this wonderful woman, whom neither time nor trouble seem able to mark with their footprints, did it twice in one week, and at the end of the second day, looked as sweet, as fresh and what is more, as young as ever. For these occasions she doffed her wide-brimmed hat and donned a small, but becoming straw hat, and a beautiful pair of pearls hung round her neck.

Two charities, the Queen Victoria's Jubilee Nurses' Institute and the Red Cross Society, in which she is much interested, gave her an excuse for these parties, but those who have seen her in the past will emerge, butterfly-like, from the cocoon of mourning in which she has hidden herself since the death of King George V. It is certain a good deal. The suggestion given one furiously to think, as our French neighbors say, that the queen is a very different and the idea of rival camps in society that she has hidden herself since the death of King George V. It is certain a good deal. It is certain a good deal.

Many of Queen Alexandra's guests took the opportunity of going through some of the rooms at Marlborough House, her lord, a room rarely entered except by her most intimate friends, being open for the occasion. This room is a mine of interesting things of all kinds. In one corner is a book-case containing all the books used by the queen herself. Round the wall, at a convenient height, is a narrow case covered with plate glass, for her jewels and her fans. This enables her majesty to decide for herself what jewels or fan she will wear with the dress she is putting on. It was made originally for a dressing-room they would have seen there some magnificent pieces of furniture designed by the queen herself. Among those who left the city on the international law representatives of foreign states are exempt from taxation as well as from the operation of the law. No foreign representative or any member of his retinue can be arrested and embassies offer sanctuary quite as potent as in the old days, when the church extended safe refuge. The Colonial Secretary has been approached but points out that as British subjects Canadian representatives must pay taxes. However the matter will not rest at this point and a member at Westminster prominent for his interest in imperial matters intends to put a question on the subject. It is pointed out that the representative of an obscure South American Republic enjoys privileges from an agent-general or high commissioner of a vast dominion or province is precluded, and an effort will be made to redress the inequality.

MANCHESTER ROBERTSON ALLISON, LTD.

JOHN T. HAWKES'S EVIDENCE IN THE I. C. R. PASS INQUIRY

At the afternoon session of the pass inquiry in Montreal yesterday John T. Hawkes, of the Montreal Transcript, was still on the stand. Witness admitted that Duncan McKinnon an I. C. R. employe had been employed in the constructing of the Transcript building. His wages had been paid to him by the witness. McKinnon had got/leave of absence from the I. C. R. Mr. Hawkes stated that he had heard that Dr. Murray had given \$500 to leave town, but did not know it for a fact. He, witness, had never given \$500 any money.

When the book used in the Transcript office for I. C. R. printing was produced, Mr. Fowler remarked: "I suppose you have closed that account."

"Yes," replied the witness, "but we expect to open it again next year."

In reply to further questions from Mr. Fowler, the witness said he had spoken to Elmer Ferguson about the pass matter on two or three occasions prior to Nov. 12 or 13, 1909, when Ferguson made his confession to Mr. Hawkes, but up till the 12th or 13th Ferguson emphatically denied having anything to do with the matter, but on that day Ferguson came into the witness's office while Officer Lingley was there and started to give his statement. Lingley left the room and as he was going remarked to Ferguson: "You had better tell that man (meaning Hawkes) the truth."

Witness said he had given his opinion to one of the directors of the Eastern Press Association, that in his opinion Ferguson was not a proper person to occupy his present position in connection with that body. Ferguson prepares the despatches sent out by the Canadian Press from Montreal to the afternoon papers.

Before leaving the stand, witness stated that so far as he had been personally concerned he had been treated fairly at the enquiry.

The Harvesters

Among those who left the city on the harvesters' excursion are two pairs of couples. One is from P. E. Island and the other from Amherst. It is said that both the girl runaways are under age. In an endeavor to stop the sleepers, the local police had been communicated with, but no trace of them could be found among the harvesters.

The mother of four children, who was going west on the harvesters' excursion on Monday evening became separated from them during the night, and while hunting for them around the depot, allowed four trains to leave. It was only ten minutes before the last train was leaving that she heard of her family having gone on the third train, two hours before. A message was telegraphed to Montreal to detain the family there.

John Quinn, a Prince Edward Islander who started from St. John on Monday with the harvesters' excursion, narrowly escaped death when he fell from the moving train. Sectionmen found him lying alongside the track at Ruth, a small village near Welsford, in an unconscious condition. Quinn is said to have been celebrating and is supposed to have fallen from the car platform while asleep. He was brought to the city and other than being somewhat stiff was none the worse for his experience. He went forward last night.

MORNING NEWS OVER THE WIRE

The condition of General Booth, head of the Salvation Army, who recently underwent an operation for the removal of a cataract from the left eye leaving him totally blind, is critical. A statement has been issued that the improvement in his condition has not been maintained, and that he is unable to sleep.

Word has been received at Sydney, N. S., of the burning of the new Catholic church in the world, embracing the major portion of the continent of South America, who attempted to raise \$500,000 for church work in those countries has succeeded in getting only \$30,750. He announces that he will resign unless an adequate response appears before next September.

London, Aug. 13.—Bishop Blair, of the Falkland Islands, which is the largest diocese in the world, embracing the major portion of the continent of South America, who attempted to raise \$500,000 for church work in those countries has succeeded in getting only \$30,750. He announces that he will resign unless an adequate response appears before next September.

London, Aug. 13.—Holland will have to acquiesce, it is generally agreed today, in Germany's demand for the control of the Rhine shipping by a board under German control and for the imposition of river tolls. There is nothing to prevent the digging of a ship canal through German territory from Cologne to Emden, and this is the effect would be Rotterdam's complete ruin.

Auburn, N. Y., Aug. 13.—Five are dead as a result of explosion of dangerous fireworks, which were being prepared in the Italian colony this morning for a celebration of the Feast of the Assumption by the congregation of the church of St. Francis Di Assisi.

Liverpool, Aug. 13.—In view of the prevalence of ice in the North Atlantic, the steamship companies which are parties to the track agreement decided today that it would be undesirable to revert to the northern track for westbound steamers on August 15 and for eastbound steamers on August 24, as had been planned. No change is to be made in the routes before August 31.

Winnipeg, Man., Aug. 13.—The Archbishop of Rupert's Land, and Mrs. Matheson, announce the engagement of their daughter Maude, to Harold Virnie French, son of Justice and Mrs. Trenholme, Montreal. The marriage will take place in St. John's cathedral on September 19.

Saskatoon, Aug. 13.—Acting Mayor R. E. Hood, of Laidlaw, was drowned in Waterloo lake this morning, while saving the life of his fiancée, Miss MacFarlane, to whom he was to be married tomorrow.

THE DETROIT ALDERMEN

Detroit, Mich., Aug. 13.—Malden, mingled with threats and counter charges, were heaped upon Edward Schreier, deposed clerk of the common council committee, by the accused officials when Schreier appeared in the police court yesterday with eighteen aldermen for arraignment on bribery charges in connection with the Washburn street closing deal. Schreier's confession involving himself and the aldermen, now under arrest, was the principal topic of conversation around the court room.

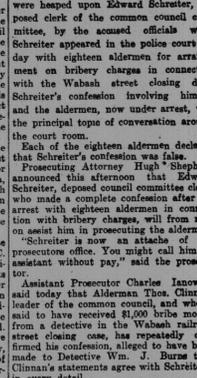

Each of the eighteen aldermen declared that Schreier's confession was false.

Prosecuting Attorney Hugh J. Shephard announced this afternoon that Edward Schreier, deposed council committee clerk, who made a complete confession after his arrest with eighteen aldermen in connection with bribery charges, will from now on assist him in prosecuting the aldermen.

"Schreier is now an attaché of the prosecution office. You might call him an assistant without pay," said the prosecutor.

Assistant Prosecutor Charles Inowald said today that Alderman Theo. Chinman, leader of the common council, and who is said to have received \$2,000 bribe money from a detective in the Washburn street closing case, has repeatedly confessed his confession, alleged to have been made to Detective Wm. J. Burns that Chinman's statements agree with Schreier's in every detail.

POTATOES UNDER WATER. Gleaser.—The water has come up over the roads along the Margerville side of the river in Sunbury county, and has come up over parts of the islands in the river above Fredericton. In the Kewick Valley at Lower Kewick large fields are under water, one large field of potatoes owned by the Messrs. Merrithew being under water two feet. It is believed that large quantities of potatoes have been destroyed already and unless there is dry hot weather before a short time the amount of destruction will be tremendous.

WAS WORTH \$5,000,000. Of the late Otis Staples who died in British Columbia the Fredericton Gleaser has been made an estimate in said to be worth at least \$5,000,000 and possibly more, including as it does rich holdings in Minnesota and interests in the International Harvester Company of the United States. It is said that Mr. Staples' income was about \$200,000 annually and that on his British Columbia timber lands he had been cutting as much as thirty million feet of logs annually.

ANNUAL TOLL OF DEATHS FROM WASP-STINGS

A Plague of the Insects in England Old Tradition Disproved—Young Make Themselves Useful. London, Aug. 14.—The annual toll of deaths from wasps in this country has already opened, the first victim being a Bourne-mouth under-gardener named Ernest Mills, who was stung upon the lip while at work in his employer's garden. Mills died in Boscobel Hospital from bronchial pneumonia, following blood-poisoning caused by the sting. As the inquest the jury returned a verdict in accordance with medical evidence. The wasp plague, which promises to be as severe this year as last, suggests that the old belief associating the size of the plum crop with the prevalence of these unweildy insects has but little foundation. An abundance of plums is held by the rural folk to be a sure and certain sign of an abundance of wasps, and therefore, arguing on the same principle, one might suppose that in this present season of security in the plum orchards we ought to be spared a plague of these annoying and mischievous creatures. In many places in our southern counties, where, on the lighter soils, the wasps have already made their appearance in full force, the hot weather of the past few days has, of course, brought into active being many thousands of embryo wasps, though it is full early yet for the plum crop, such as it is, to ripen.

Change in Church Membership Gives the Cause — Women's Rights League Interested in the Case

Odessa, Aug. 14.—The Woman's Rights League is just now keenly interested in itself in a somewhat extraordinary episode of the odium of Bishop Antonius of Volynia, in virtue of the "freedom of religious confession" clause in the Imperial manifesto of October 20, 1905, recast his faith, and joined the Roman Catholic church. He subsequently married a Polish lady. Recently, repeating his "apostasy" by again recanted, and was readmitted a member of the state church. He sought to persuade his wife to become a Protestant (orthodox), but she firmly refused. On this ground he now seeks for a divorce, and will also have it laid before the Holy Synod. As, however, divorce procedure in this country is still partially governed by the ecclesiastical authority, it is not at all improbable that the Holy Synod will uphold the action of Bishop Antonius. The state church differentiates between the letter and the spirit of "freedom of religious confession" pronounced in the Imperial Ukase referred to. It was formerly a criminal offence for an orthodox Russian to abandon his faith, and was punishable by imprisonment or banishment. Meanwhile, what are those wasps which are appearing daily in such numbers in certain districts doing for a living? There is not much fruit that they can eat at the present moment, for plums are not ripe, the raspberries are over, currants do not seem much to their fancy, and goose-berry skins are mostly too hard at present even for their saw-like jaws. It may be assumed, therefore, that so far the wasp is doing but little harm, though in view of the shortage of fruit almost everywhere it is inevitable that the adventurous creatures will make a more determined onslaught than ever upon the wares of the grocer and the confectioner, and upon the harmless picnicer. For the time being, however, it may safely be said that the newly born wasps are working among the light and making themselves, to some extent, useful members of society.

EFFECT OF WEATHER ON PROVINCIAL CROPS

Sackville Tribune—Not within the memory of the oldest inhabitant, nor within the period covered by official records has there been such a prolonged and rainy weather as the maritime provinces has experienced since the early summer. Rain has fallen in greater or smaller quantity on pretty nearly every day since the middle of June, and there is no indication of improved weather conditions. More than seven inches of rain fell in Westmorland county during the month of July, which is more than double the average rainfall for that month. Not only has this retarded building operations and all kinds of outdoor work but it is a very serious matter for the farmers. While crops of all kinds have grown well yet the very low temperature militates against the ripening of fruits and vegetables. Grass has grown well and promises an abundant crop, but the curing of hay has become a most serious matter. Unless there is an abatement of the rain and plenty of hot sunshine within the next week or ten days much grass will be ruined. At present time much lowland is under water or so rain sodden as to make it impossible to get on the land by teams. A considerable portion of grass has been cut and very little cured and that which is lying in the fields will be almost a total loss. Weather prophets predict a change of weather with the change of moon.

Fredericton Gleaner—That not more than 25 per cent. of the hay potato crop in New Brunswick is now in the barns and that the potato crop is at least two weeks late this year by mere statistics made in New Brunswick. Mr. Frank Smith, ex-M. P., of East Florenceville, N. B., said that last year he shipped the first crop of potatoes to the Montreal market on the 12th of August, but this year he did not expect there would be any potatoes in the market until the 25th, about two weeks later. The next few weeks would be the critical time for the potato crop in New Brunswick, he explained, because damp and muggy weather would produce rot and damage the crop to a great extent. In connection with the hay season in Carleton county, Mr. Smith said that the farmers were not feeling at all happy over the conditions of the weather. There was a good crop of hay, but it is now getting old and every morning the anxious farmer is awakened looking for sunshine but without success.

INVESTMENT OF \$28,000 TO STOCK FIRST FOX FARM IN WESTMORLAND COUNTY

The Murray Corner Fox Company are making good progress at preparing their ranch, notwithstanding the unusual weather which makes outdoor work very disagreeable. A plot two acres in extent is being enclosed by a wire fence ten feet high. The fence is being put about two feet below the surface and into a very hard pan that will be impossible for the foxes to dig through and under. A trench two feet deep and eighteen inches wide is excavated, and the wire put around the outer edge, and the trench filled with small stones. The fence is of fine, one inch mesh, and is made at Summerside, N. B., especially for the purpose.

The company has bought three pairs of young foxes, at a cost of \$28,000, and they expect to have the ranch ready and take delivery of the foxes about the first of September. An attendant and assistant will live on the ranch, so that the valuable little animals may have constant care. With ordinary luck the company will have at least twelve pairs of foxes by the spring of 1914. It is now practically impossible to purchase a pair of young foxes, as all on the market were sold or contracted for weeks ago. A few days since a cage containing five young foxes were imported from Kentucky by a Prince Edward Island Company, but the southern breeds are not nearly so valuable as those raised in these provinces. For the next few years, at least, very few foxes will be sold for their pelts, as the demand for breeding pairs far exceeds the supply. A good pair of black or silver, one year old, foxes is worth easily \$10,000 at prevailing market prices.

Now that the Bull Moose party convention is over, a resident of Hopkissville, Ky., makes known that he has the biggest bull moose head in the world. The moose was shot in Michigan some years ago. He weighed 2,350 pounds and stood 7 feet 12 inches.

NEW OCEAN LANES TO AVOID ICEBERGS

Capt. Jamieson Figures Two Routes, One 150 Miles, the Other 240 Miles South of Present Courses.

Boston, Aug. 14.—Capt. J. C. Jamieson, one of the veteran sea captains in the service of the American line, now commanding the St. Louis has just laid out a new route for transatlantic steamships, which he believes will protect vessels from the ever present danger of icebergs, reduce the risk of collision without making it necessary to slow down in fog and consequently lengthening the run, and make passage more pleasant for passengers and crew.

BIG FORTUNE LEFT TO FORMER TYPIST

She Has Run Chicago Postoffice, Been Admitted to Bar and Written Verse.

Chicago, Aug. 14.—A few years ago Bertha Luppiger was a stenographer in the Chicago postmaster's office. When F. A. Bause succeeded to the postmastership he made her his private secretary. Then she married Jacob Baur, a wealthy business man. Now she is a widow and by Baur's will is left a \$1,840,000 estate. She is made guardian of her little daughter, who will receive half the estate.

ELECTION SCENES IN ENGLAND

G. T. P. SEEKING A SHORT-CUT TO SAINT JOHN

Hon. Wm. Pugsley Learns From High Officials of Plans For Eastern Terminus — To Begin Work Soon

A reporter from The Telegraph interviewed Hon. Wm. William Pugsley, minister of public works, yesterday, and asked him if he had any information to give The Telegraph readers in regard to the G. T. P. and as to when the company was likely to begin work on the St. John terminus.

Dr. Pugsley said that while in Montreal a few days ago he had the pleasure of an interview with Mr. Smithers, of London (Eng.), who is chairman of the Grand Trunk Pacific board, and Mr. Chamberlain, president of the company. They were greatly interested in the fact that the Norton Griffiths Co. Ltd., is so actively engaged in the work of development of (Montreal) Bay and stated that it was the company's intention to begin work as an early date upon those portions of the terminals which are to be provided by the company.

Dr. Pugsley said that he had also felt it his duty as one of the representatives of St. John to discuss with them the question of a connection between St. John and a direct route. Both Mr. Smithers and Mr. Chamberlain were impressed with the necessity of having connection with this city from some point on the Transcontinental so as to cut off the roundabout route, which will pass from the west in way of Montreal. Their preference seemed to be for a connection between the Transcontinental at Napadogan and a point on the Canada Eastern from which point their traffic to and from St. John would be handled via Fredericton and the St. John Valley Railway.

LAURIER'S POSITION WITH REGARD TO NAVAL DEFENCE

Ottawa, Aug. 13.—A recent report, emanating from England, to the effect that Premier Borden on his return would endeavor to arrange a non-political conference between himself and his colleagues and Sir Wilfrid Laurier and his colleagues in which the question of Canada's future naval policy would be discussed, has roused considerable comment at the capital and throughout the east generally.

It is pointed out that there has already been one conference on the subject, or at least what was equivalent to it, namely a joint resolution passed in the house in 1909 by which both parties, Mr. Borden included, agreed that there should be a Canadian navy, operated by Canada. The result of this resolution so far as the Conservative party was concerned, it is pointed out, were not so satisfactory as the Liberal party, who repudiated the policy to which they had pledged themselves by the joint resolution, and politically and every other way strove to bring public sentiment against the Laurier policy.

DEATH AND DEPRIVATION, STRIKE'S BITTER HARVEST

Painful Pictures of Suffering Resulting From Recent Dock Troubles — The Part Played by Church in Alleviating Misery.

(Times' Special Correspondence)
London, Aug. 12.—Throughout the Dockland district it is to be found a large number of Irish. To a considerable extent they are the descendants of those who came over from Erin after the potato famine, and settled by the riverside, in obedience to the great demand that then existed for labor. None of the Irish peasant emigrants to the London docks today, had time and labor unrest have frightened them away, but thousands of their countrymen are still there. The Maloney, McCarthys, and the O'Keefes, of the Pat. Tim, and other varieties, are found everywhere. They preserve their cleanliness and religion to a remarkable degree. Thus you may find, as in the Commercial Road, large Roman Catholic churches and schools for the benefit mainly of those Irish river-side workers.

ITCHING AND BURNING ON FACE AND THROAT

Sores Disfigured So He Dared to Appear in Public. No Rest Night or Day. Cuticura Ointment Cured.

"Six months ago my face and throat all broke out and turned into a burning sore. I began to feel very miserable. I did not bother about it at first, but in one week's time the disease had spread so rapidly over my face and throat and the burning itching sore became so painful that I began to seek relief in different medicines, but none seemed to give me any relief. The sores disfigured my face to such an extent that I dared to appear in public. I suffered terribly and could get no rest night or day. At last a friend advised me to try the Cuticura Remedies. I had about given up hope, but thought I would have one more try, and so I used a little Cuticura Soap and Ointment. It lasted six months or more, but after a thorough treatment with the Cuticura Soap and Ointment never had any return. (Signed) Mrs. W. B. Owen, Yacklin College, N. C., May 26, 1911.

FOUND RELIEF ONLY FROM CUTICURA SOAP AND OINTMENT

"My little girl when only a few weeks old broke out on the top of her head and it became a solid scab. Then her cheeks became raw and sore and after trying different remedies found relief only from using Cuticura Soap and Ointment. It lasted six months or more, but after a thorough treatment with the Cuticura Soap and Ointment never had any return. (Signed) Mrs. W. B. Owen, Yacklin College, N. C., May 26, 1911.

"Not a penny is given away in money, but we do not know how to give out our small bank. Reckon out \$1,000 among 1,000 families, and you can see what a small amount it is. Our plan is to visit the people in their homes and see for ourselves the actual state of things. We do not ask them to line up outside our church for food tickets, but we try to preserve their little bit of social standing and keep from any one else what amount of help is distributed." Father Ring has also been helping another 200 families who are non-Catholics on condition that a price of \$2,000 be given annually to the most perfect girl, physically and mentally, in Savoy.

WHICH appeals to you more? A truth backed by a bond of good faith, or a mere claim?

Judge this: REGAL Flour yields the best quality and the utmost quantity of bread per barrel of any flour in the world. Costs a bit more but you save on the quantity it bakes. Lovely loaves, white and light. Fine flaky pastry too.

Essential points: Try one barrel. If we have not here signed our name to the truth, your dealer will return your money. Then we must pay him. And worse still, we shall lose your good opinion forever. Remember—Regal—the flour that is used exclusively by many of the best bakers in the provinces.

GOV. WILSON IN FAVOR OF LOCAL OPTION

Gov. Wilson now in sending throughout Maine a copy of the same letter, which says: "I am in favor of local option. I am a thorough believer in local self-government and believe every self-governing community which constitutes a social unit should have the right to control the matter of the regulation of or the withholding of licenses."

Accompanied by one of Father Ring's curates, the representative of the "Westminster Gazette" visited some of the houses of these people. They were not places that one would expect to enter in the ordinary way. For instance, in the length of St. James' place there were large numbers of dirty, half-clad children below school age. In a listless way they were killing time. Some of them were suffering from colds, others were pining. The open doors of the living rooms gave one an idea of the privations within. Want, misery, and despair seemed to hover in almost every room. There was produced in such a manner one caught the sad note of the crying child in pain or distress. The overwhelming number of such places—even when their squalid names are recalled—only too clearly show the state of affairs in the district. The curate remarked that the whole condition of these people living in such miserable houses were hopeless at ordinary times. With the effects of the strike there was produced in addition such a state of affairs that they almost seemed dragged by it and faced the position with a dull resignation. They were struggling in the abyss and floundering deeper and deeper.

TORONTO WOMAN WELL AGAIN

Freed From Bearing Down Pains, Backache and Pain in Side by Lydia E. Pinkham's Compound.

Toronto, Ont.—"Last October, I wrote to you for advice as I was completely run down, had bearing down sensation in the lower part of bowels, backache, and pain in the side. I also suffered terribly from gas. I took Lydia E. Pinkham's Vegetable Compound and am now entirely free from pain in back and bowels and am stronger in every way. I recommend Lydia E. Pinkham's Compound highly to all expectant mothers."—Mrs. E. WANDY, 92 Logan Avenue, Toronto, Ontario.

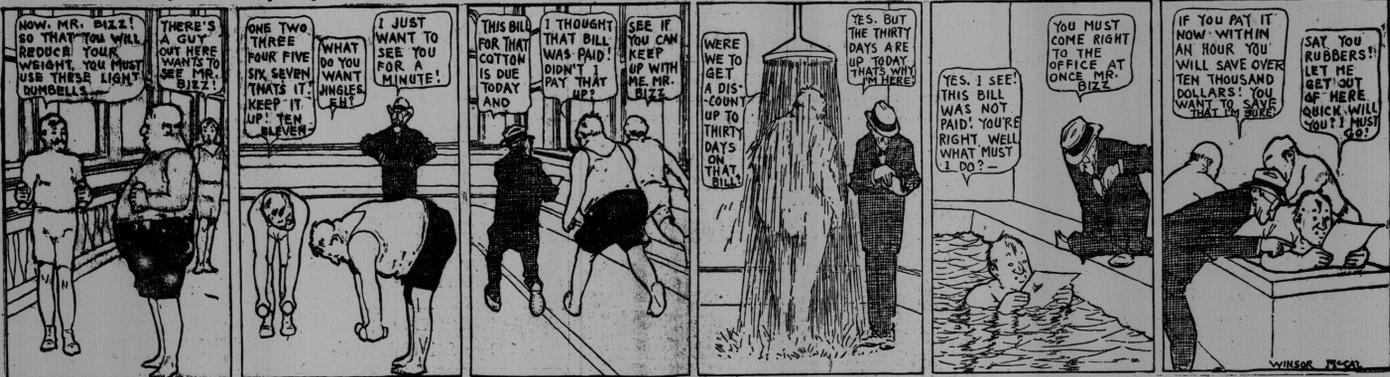

ENGAGEMENTS ANNOUNCED

Mr. and Mrs. John H. Steves, of Marysville, of the engagement of their daughter, Miss Frances Ida, to J. Stewart Mavor, of Bassano, Alberta. Mr. Mavor is a son of Mr. and Mrs. John Mavor of this city and was formerly a student at the University of New Brunswick. Afterwards attended Dalhousie Law School at Halifax, N. S., and after graduating spent some time in Fredericton before leaving for the west to take up the practice of his profession.

Henry E. Woody, a Texas cow puncher, who is leading in a bicycle race from Houston, Tex., to New York, was so far ahead of his competitors in the race that when he reached Rochester, N. Y., he found time to win Miss Florence Barry as his bride. After securing a license the couple applied to Judge Chastney to marry them, but he refused on the ground that two days was too short a time of acquaintance. They were later married by a minister.

SPORT NEWS OF A DAY, HOME AND ABROAD

Baseball

Weather the Winner. The Houston-Marathon game which was scheduled to be played here yesterday was called off on account of rain. The Grays are to play in Woodstock today. O'Connor, a new pitcher from the Worcester team, arrived in the city yesterday.

Woodstock 5, Fredericton 3. The Woodstock Colts defeated the Fredericton team by a score of 5 to 3 in their game at Woodstock yesterday. Hanley pitched for the Colts, and Brown for the Peta. Bill Williams played at shortstop for the winners, with Lamoury at third and O'Donnell at second. King has left the team.

Table with 2 columns: Team, Score. Rows include Kealey, Duggan, L. Conley, Hoyt, Fitzgerald, Whites, Brown, Hal, and International League scores.

Table with 2 columns: Team, Score. Rows include Woodstock, Williams, Lamoury, Duff, O'Donnell, Perley, Black, Delano, Stone, Hanley, and International League scores.

Summary—Base on balls, off Hanley 3; off Brown, 5; struck out by Hanley, 6; by Brown, 3; double play, Black to Lamoury to Williams. Umpire, Duffy.

A large crowd is in attendance at the baseball picnic today. The showers interfered with the arrangements but in spite of this drawback the team will realize a tidy amount. The supper is liberally patronized and the games, lotteries and other picnic amusements are all drawing well.

Tigers Defeated. The Young Marathons defeated the Tigers in a five inning game yesterday. The score was 5 to 4. The batteries for the winners were Chessman and Curran; for the losers, Levine and Dunham.

Federicton Seems Fearful. Here's good news for the baseball fans not only in Fredericton, but all around the N. B. & Maine League circuit.

On what is the best of authority, the Gleason is able to state that three of the clubs are united in an effort to have Umpire Evans named without any more delay than is absolutely necessary.

Federicton, Houlton and Woodstock are the three clubs who are after the umpire's scalp and a demand is being sent to President Hooper of the league, now at Yarmouth, N. S., attending the Olden's Grand Lodge, to have Evans released quick.

To succeed the umpire who has been chased out of every league is known to have worked in, Eddie Doyle, of Calais, Me., will be secured if his services are available. Some time ago an effort was made to get Doyle, but failed. He was a capable Umpire last season and doubtless would find the going good in this league.

If he can't be got the three clubs who are after Evans' scalp want the league to take a chance on somebody else. The feeling is that they couldn't get a worse umpire than Evans on a bet—Gleason.

New Players (Fredericton Gleason) George Wilson, the former Bowdoin College star, who was recently turned over from Toronto to Fredericton and released by the Grays, is now at his home in Alton, Me.

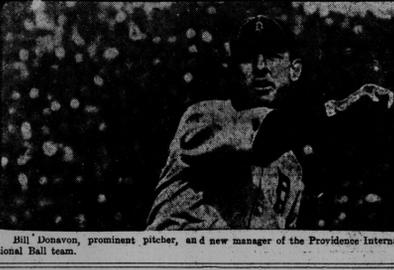

He has had some correspondence with Manager Duggan regarding joining the Fredericton club and if he does not go with the Woodstock Colts, who have been anxious to sign him up to play the infield he will probably come here and play first base for Fredericton.

It is an open secret that Hoyt's work on the initial sack has not been pleasing the management. He has fallen down on too many occasions in the pinches both in fielding and hitting and it is at critical times when a player has to show his nerve that his real worth comes to the surface.

If Wilson doesn't come here it is not unlikely that Joe Callahan when he gets back into the game will be at first base. If Whites keeps going at the speed he has been showing both in the field and at bat, Red's playing has really been about twenty-five per cent better than before he got released for a few days and the treatment seems to have done so much good that the management will try it on some of the others if they slump too badly later on.

Letclair, the pitcher who was with the Montreal club of the International League last season, is likely to join the Fredericton team within a few days.

NEW MANAGER OF PROVIDENCE TEAM

Bill Donovan, prominent pitcher, and new manager of the Providence International Ball team.

Negotiations for the securing of this service have been going on for some days. Today's victory has won one victory to its credit. The official elapsed time for the winner was 2:33.06 for eighteen miles.

During the fifteen mile race for 25-foot motor boats which was won in 1911 by the Chicago, owned by E. J. Richards, of Chicago, the Kitty Hawk, owned by R. H. Truitt, of Detroit, caught fire and sank about a mile and a half from shore.

Freeman Monroe, driver, and Fred Joseph, mechanic of the Kitty Hawk, were picked up a few minutes after.

Philadelphia Cricketers. Sittingbourne, Eng., Aug. 14.—The Philadelphia Cricket Club team was defeated by 122 runs in a match here yesterday.

It was thought that Fleming was acting for the Detroit club, but when he came to show down it turned out to be Charlie Kosinsky, the Old Roman, who is to get J. J. and that Duggan is to wear the white hose.

Just at present the only thing standing in the way of P. J. is the question as to his standing with the Lowell club of the New England League. Manager James J. Gray of the Lowell champions has a string on Duggan his chances of going to Chicago will not look so bright.

A jump from the N. B. & Maine League to the big show is some change, but the fact that a real crooked picker him up and sent him to an American League club would be the foundation of a good baseball career for the Peta's manager, who has played here for two seasons.

The Turf. Jockey Shilling. Jockey Carl Shilling, the American premier rider of the thoroughbreds, who has been riding for H. C. Hallenbeck, the Newark millionaire, on the Kentucky tracks, and who had his first mount in Canada this year at Hamilton, on Saturday, is to ride abroad, Sam C. Eldredge, his former employer, who is now racing at stable in France, called Shilling on Saturday, offering him \$10,000 a year for two year contract.

Shilling replied last night, stating he would accept the offer. He was riding Hallenbeck until the close of the Kentucky tracks, when his contract with him will have expired and they depart for foreign shores.

Athletic. Craig Welcomed. Ralph Craig, winner of the 100 and 200 metre races in the Olympic games at Stockholm was accorded an enthusiastic reception by the citizens of Detroit when he arrived home Saturday. The reception was in charge of leading business men and athletes of the city. Craig has announced that he will never again take part in big athletic events, but will devote his entire time to business.

Amusic. Power Boat Club. A special meeting of the St. John Boat Club was held in the club house last night to take action on a letter received from Mayor Frink, and it was decided to have a decorated parade through the reversing file to Courtenay Bay while the Duke of Connaught and party are visiting the North Grenville works. All arrangements were not settled at the meeting but a committee was appointed and given power to arrange details.

The parade will leave Marble Cove at about 2:30 in the afternoon and return on the ebb tide at about 6:30. In all there will be about 150 boats in line, headed by the Lolita, the commodore's boat. A decorated barge will also be in line, carrying one of the city bands.

To stimulate competition among the members in the decoration of their boats, the club last night voted \$10 to be distributed in prizes: \$5 for the best decorated boat; \$3 for the second and \$2 for the third.

Canadian Boat Wins Second Race. Chicago, Aug. 13.—The Canadian sloop Patricia won by nine seconds today's race in the series of five being contested with

P. R. A. MATCHES AT SUSSEX YESTERDAY

Some good shooting was done in all matches conducted today, the nursery and maiden in the morning and the mercantile and Prince of Wales in the afternoon. The third named is a new match this year and carries with it a silver cup presented by the Sussex Mercantile Company to become the property of the competitor winning it three times. In addition there were forty-one prizes aggregating \$225.

Tomorrow the members will compete in the association, Melton and extra series. Capt. Good, 7th regiment, and Major Melton, 74th, were range officers, while Major J. S. Frost, 82nd, and Lieut. M. P. Trites, 74th, are attending to the clerical work connected with the meet. Each one of these officials has a burdensome task, but he is fulfilling the obligations of his office in an efficient manner.

In the Mercantile match some remarkably fine scores were registered. The highest was that of Corp. E. F. Gladwin, of St. John, who led a large field, having a lead of three points on his nearest competitor, A. N. Vince, of Woodstock, and making 69 points out of a possible 70. This gives him possession of the silver cup presented by the Mercantile Company and also the first prize of \$10 in cash. Several others stood well up in the reckoning, receiving cash prizes with such prominence as 65 and 64.

Counted Out. Cadet Sgt. W. A. Welsford... 20 27. The figures in the Prince of Wales match were not obtainable this evening as the scores had not been arranged in position. Shooting in this event was at 200 and 600 yards and here again some promising scores were chalked up. The wind came a little stronger in the latter part of the afternoon and interfered somewhat with the shooting, but in spite of this the marksmen made some high scores.

The first match this morning was the Nursery in which much interest was taken and in which several prizes were won. The first prize was a gold watch and the shooting for it was most commendable. There were three possible scores by Sergeant Smith, 19th Field Battery, Moncton; Pte. Crandfield, 67th Regiment Woodstock; and A. G. Staples, Rifle Association, St. John, using with a total of 33 points. They will shoot off later.

Many others were close behind, several having 34 to their credit, and the scoring throughout was high both for the match and for the money. There were twenty-two prizes for this match, aggregating \$70 and the following were the winners: Score Prize. Lieut. A. D. Carter, 74th Regt... 34 87. W. R. McLaughlin, Woodstock... 34 7. Pte. J. P. SON AND HEIR FOR LATE COL. ASTOR WAS BORN TODAY

Father's Fate and Fortune Lends Interest to Event - Has Estate of \$3,000,000 From Moment of Birth

New York, Aug. 14.—Mrs. Madeline Astor, survivor of the Titanic disaster in which her husband, the late Colonel John Jacob Astor lost his life, gave birth to a son at 8:10 o'clock this morning. The new arrival has been named John Jacob Astor after his father. The baby became a direct heir to \$3,000,000 of the Astor fortune. The fact that its father proved himself a hero in the Titanic disaster, by stepping aside to let women and children take places in lifeboats, and that the wife from whom he then parted was his bride of but a few months, coupled with the large fortune which was provided for a posthumous child, have lent unusual interest to the arrival of the youngest Astor. The new Astor baby will be one of the few children ever born with a fortune as large as \$3,000,000 in its own right. Col. Astor had provided that whether the child was a boy or girl, it should receive the same sum, and even if the child brought more than one child, Col. Astor's will also covered that contingency, as it reads as follows: "I bequeath such number of separate sums of \$3,000,000 each as shall be equal to the number of my children who shall survive me other than my son William Vincent Astor and my daughter Ava Muriel Astor."

The latter children are by Col. Astor's first wife, Mrs. Ava Willing Astor.

NEW WING WILL BE OFFICIALLY OPENED TOMORROW

Addition to Home of Good Shepherd Will be Dedicated With Appropriate Ceremonies

The new wing of the Home of the Good Shepherd will be officially opened tomorrow afternoon at 4:30 o'clock. The occasion will be fitting as it marks the nineteenth anniversary of the Order of the Good Shepherd though the two coming together is a coincidence.

The order has been always to the front in works of charity and to such an extent has their work increased that the new wing has been made necessary.

His Lordship Bishop Casey will preside and the Catholic clergy of the city will be present including the Rev. J. Sedgewick, Father of St. Peter's church, north end. His Worship, Mayor Frink, and the city commissioners, have been invited to be present and take part in the ceremonies. It is also possible that the children, about 100 in number, will have part in the programme. His Lordship Bishop Casey will invoke a solemn blessing and there will be Benediction of the Blessed Sacrament in the Chapel.

The new building was started about a year ago. The first floor will be used for the laundry and in the second floor will be the classrooms and dormitory. The top story is not finished as the Sisters have not the requisite funds.

Store closes evenings 6 p. m. Saturdays 11 p. m.

CANADIAN GIRL SPENDS NIGHT IN ALPINE BLIZZARD

Geneva, Switzerland, Aug. 14.—After having been missing for thirty hours, Miss Somerville, a Canadian Alpinist, joined her parents here yesterday. Miss Somerville was making the ascent of the Col Du Geant, which has an altitude of 11,000 feet, when her party was overtaken by a violent snow storm. In the hurried descent to gain shelter the Canadian girl grasped her male, and spent ten hours in a hut on Mt. Blanc. She says that the Alpine storm far surpassed in ferocity the Canadian blizzard.

NEW STEAM SHOVEL FOR COURTENAY BAY

More Machinery on the Way—Will Add Four Hundred Workmen to the Force

Within the next week a new ninety-ton steam shovel, similar in style to that now being used by the Courtenay Bay Construction Company, in their construction work in East St. John, will arrive from Grand Falls. With the arrival of this and the employment of a hundred and fifty new hands, rapid progress will be noticed in the work.

Besides the large steam shovel and the crane, there are several other large pieces of machinery, used for various purposes now on the premises. In a month's time it is expected that a great deal more machinery of the heavier type will arrive and that four hundred more men will be employed to handle them.

PRENTICE BOYS' PICNIC
Accompanied by the Sons of England Band, the Prentice Boys left this morning for their picnic at Ferns. It was intended that the picnic should go on Monday, but the disagreeable weather prevented it. The usual sports and games will be enjoyed and the picnic will return late this evening.

CHILDREN REHEARSE FOR WELCOME TO DUKE OF CONNAUGHT

About four hundred pupils of the public schools assembled in the High School this morning and rehearsed the songs and organized the programme to take place next Monday, when the Duke of Connaught, for a good part of the morning, will be in the city. The programme includes "O Canada," and "God Save the King."

On account of the St. Peter's church picnic being held today, a great number of the school children of the North End were not in attendance.

In the west side, two hundred and fifty children assembled and went through the entire order of preparation.

Speaking of the matter this morning, Superintendent Bridges said that, in all, a thousand or more children will arrive and be placed in line on Monday. This will make a splendid turnout if the weather man will be good enough to spare a fine day for the event.

Saint John Men and Young Men Have Never Known Such a TROUSERS SALE!

We began the sale with more than 2000 pairs! Of course there's not that number now, but assortments are wonderfully complete, and there's not a man or young man who can't find something to his liking in his size.

We want to especially emphasize the excellence of the materials. Those used in the lowest-priced trousers are of a very serviceable grade, while those in the higher-priced trousers are the kind used by high-class merchant tailors. The workmanship in every pair is unexcelled.

MAY BUILD PULP MILL

That there is a strong possibility of a ground wood pulp mill being erected at Pokok Falls in the vicinity of the statement which was made to The Fredericton Gleaner. In 1908 the Gillman Bros. and Burden property on the Pokok was purchased by Drs. Alec C. and Rufus E. Hagarty, of Ellsworth and Sedgewick, Maine, at a cost of \$40,000 and they have already taken out the property enough lumber to repay their investment as well as having 100,000 cords of pulp and large quantities of lumber left on the property. This 100,000 cords of pulp wood would form part of the supply for a mill and it is said that in that vicinity there is plenty of material to keep a mill in operation. It is understood that the Drs. Hagarty have had a competent engineer make a report on the property at Pokok Falls and have found there 1,200 h. p. The Hagarty interests have purchased from John Murray, of Lake George, his lumber lands and mill at Lake George, including about 600 acres. The price paid is understood to have been the price of \$7 per acre or upwards of \$4,200.

WEDDINGS

A quiet wedding took place yesterday afternoon at the home of the bride, when Miss Florence Frances Murray, of Fredericton, and Andrew Bryce, of Glasgow, Scotland, now living in St. John, were united in marriage by Rev. J. C. Wilson. Miss Sadie Agnew, cousin of the bride, was bridesmaid, and Wm. Lee Rossignol was groomsmen. The groom's present to the bride was a pearl pendant and to the bridesmaid a gold bracelet. Mr. Leonard Murray of St. John, brother of the bride, presented her with a silver tea service. Mr. and Mrs. Bryce left by C. P. R. on a tour which will include Montreal and other Canadian cities. They will reside in St. John.

A quiet wedding was solemnized at the First Baptist church parsonage, Moncton, Monday afternoon, when Fred B. Chapman, of the I. C. R. office, was united in marriage to Miss Sadie O., daughter of the late R. Barry Smith, and the nuptial knot was tied by Rev. G. A. Lawson, in the presence of a few of the relatives and immediate friends of the contracting parties. The wedding was a very quiet affair, owing to a recent death in the family of the bride. Mr. and Mrs. Chapman will reside in Moncton.

A quiet but pretty wedding was solemnized in St. Bernard's church, Monday at one o'clock, when Albert LeBlanc, of the firm of Cassidy & Belliveau, was united in marriage to Miss Palomene Dupuis, both of Moncton, by Rev. Father Savage.

FUNERALS

The body of Mrs. Margaret Finen, who was killed in an accident in New Hampshire a few days ago, was brought to the city this morning on the Boston train, accompanied by Rev. John E. Finen, Thomas Finen, sons of the deceased, and Mrs. Margaret McAvoy. The funeral took place this afternoon at 2:30 from St. Patrick's undertaking rooms to the cathedral, where service was conducted by Rev. J. Conway. Interment was in the New Catholic Cemetery. The pall bearers were John Flood, Michael Potter, Peter Sharkey, John O'Neil, William Scully and James Lee.

The funeral of Miss Helen M. McLaren took place this afternoon at 2:30 o'clock from the residence of her mother, 11 Elliott Row. The burial service was conducted at the house and grave by Rev. L. A. McLean, and interment was made in Greenwood Cemetery.

ANOTHER SHERMAN GRAY

Those who have read of the recent tragedy in Carmel, Maine, will be interested in the following letter which The Times has received from Sherman B. Gray, of Portage, Maine.

I was surprised to learn that the people of St. John should get me mixed up with that murder in Carmel, as Carmel is some twenty or twenty-six miles southwest of Bangor and Portage is 200 miles or more north of Bangor.

I wish to state through your paper that I, Sherman B. Gray, formerly of St. John and son of the late Walter Gray, of Campbellton, N. B. am not the Sherman Gray connected with the murder case in Carmel. Thanking you for your valuable space, I remain, your truly,

SHERMAN B. GRAY.

A NEW PRECAUTION

Chicago, Aug. 14.—Out of the wreck of a Chicago Burlington and Quebec passenger train at La Grange, Ill., in which thirteen persons were killed, has come the appointment of a train rule examiner for that system. Charles T. Salisbury is the appointee. His duties will be to examine trainmen on their familiarity with the rules. One of the causes of the La Grange wreck was a failure on the part of employees to understand the rules.

ST. PETER'S CHURCH PICNIC

The boys and girls of St. Peter's church Sunday school turned out in full force this morning to attend their annual picnic. Nearly a thousand children were in line, and accompanied by the teachers and Rev. A. J. Duke, C.S.S.R., rector of the church, and headed by the City Cornet Band, they presented a splendid appearance.

The children formed up in front of St. Peter's church, the girls all dressed in white, about nine o'clock, and prepared for the procession. They marched along Main street and into Mill to the depot. There they took the picnic train and, accompanied by their parents, went to the grounds at Torryburn.

Hundreds more left on the afternoon trains. The band accompanied the picnickers to the grounds.
