CITY SHED AT REED'S POINT ABRAZE AT 3 A. M.

Harbor Pilots and I. Goldberg & Co. Are Losers

SHED OLD TIMER

Former Anchor Line Quarters Which Survived 1877 Scourge

Flames shooting through the roof of the warehouse on the western end of Reed's Point wharf this morning about 3 o'clock attracted the attention of a member of the crew of the schooner Beatrice, lying at that wharf, and he notified City Watchman Logan, who turned in an alarm from box 81. The fire was extinguished only after four and a half hours work owing to the fact that the warehouse was stored with bales of waste papers and magazines which were owned by I. Goldberg and Co. for shipment to pulp mills. The pilot's office over the warehouse and their store room in the western section of the building suffered the larger portion of the damage. The building is owned by the city. The total damage will not exceed \$2,000 it was estimated this morning.

Shed Is Old One.

The warehouse is the oldest one owned by the city and was formerly the old Anchor Line shed. It is more than 50 years old and was one that escaped the great fire of 1877. The entire warehouse is leased from the city by Mr. Goldberg and he lets the one part to the pilots for their rooms and another section for the use of the steamer Grand Manan for freight.

Loss Gift Clock.

It is not known how the fire started. The pilots say they were none of them in the room after 8 o'clock last night. Their office and store room down stairs were both badly burned. In this room in addition to the usual furnishings there was a handsome mahogany clock which was presented to the pilots by Stanley Elkin in memory of his father, Captain E. C. Elkin, who had been a port warden. A barometer and several old pictures were also lost. The pilots estimate their loss at approximately \$400 and in addition they are greatly inconvenienced owing to the loss of this room as it was an ideal site and commanded a view of every dock in the harbor. Arrangements are being made by J. C. Chesley, agent Marine and Fisheries Department, to have the pilots use a room in the Customs House, Goldberg loses.

Mr. Goldberg said this morning that he estimated that the damage done to his property would total about \$500 and added that it was uninsured.

Commissioner Bullock looked over the damaged warehouse this morning and said that the building would be repaired. He said that there was \$10,000 insurance on it, and added that he did not think it would quite cover the loss.

Policeman Hurt.

Policeman Walter Coughlan suffered painful injuries when he was hurled from the side of the chemical engine while going to the fire early this morning. He and Policeman James Corner were near No. 1 fire station when the alarm sounded and they both jumped onto the side of the chemical engine.

Policeman Coughlan slipped off the engine in Charlott street and had a narrow escape from being run over by the heavy machine. He escaped only by throwing his body clear as he fell. His foot did not entirely get clear and the great toe of his left foot was broken.

He was taken to Dr. D. C. Malcolm's office where he was attended to. An examination showed that he had escaped without further serious bruising about the body. Dr. Malcolm conveyed the injured officer to his home in his automobile.

N. S. FATHER AND SON ARE MISSING

Have Not Been Seen Since They Left For Lobster Traps Thursday.

CLARKE'S HARBOR, N. S., March 14.—Ernest Brown, 50, and his son, Kenneth, 15, were drowned, it is believed, in the heavy seas that were running off here Thursday morning when they left home to tend to their lobster traps off Stony Island. No word has been heard of the men up to a late hour last night and it is thought their craft must have capsized with fatal results. Searchers have failed to discover any signs of the missing men or their craft.

Heretofore the weeping debutante has been sent home and the blubbery gallant to a cell.

LOSES OUT IN RACE AGAINST DEATH

Northern B. C. Postmaster Dies on 14 Mile Trip Through Blizzards.

By Canadian Press.

PRINCE RUPERT, B. C., March 14.—Found critically ill by E. C. McCorkell, fur buyer, upon his arrival at Manson Creek, in Northern B. C., "Archie" King, postmaster, died soon afterwards while being taken by dog sleigh across the snow wastes, in a howling storm, toward medical aid at Babine. McCorkell found King critically ill with his partner, who had been acting as doctor and nurse, so exhausted as to be unable to go for supplies which had run low.

Sweats Is Successful.

Just before he died, the postmaster swore in his partner to succeed him. The new postmaster then turned back to Manson Creek, leaving McCorkell and the Indian to push on toward Babine with King's body.

For 14 days they floundered across unbroken tracks through a whole series of blizzards. With provisions low, they were forced to kill three dogs to supplement their small supply of flour and bacon. The remaining dogs became so famished they attacked the corpse of the former postmaster, and it was only with difficulty that the two men were able to prevent the starving brutes from devouring the body.

Refused Re-entry After Visit to Vancouver

NOTED ATHLETE

"Paddy" Dillon, 70 Years Old, Unable to Procure Birth Certificate

By Canadian Press.

VANCOUVER, B. C., March 14.—Barred from re-entering the United States, where he has lived since he was eight years old, when he attempted to return to his home in Concrete, Washington, after spending Tuesday last in Vancouver, "Paddy" Dillon, aged 70, now finds himself stranded here, a man without a country.

The American authorities will permit him to cross the boundary for a limited period, during which time he must produce a certificate of nationality.

Born in Hillsboro.

Mr. Dillon was born in Hillsboro, N. B., before Canada existed. When eight years of age, he went to New England, and eight years ago, when he applied to take out land in California, his application was refused on the ground that he was a Canadian.

"There were no such things as birth registrations in New Brunswick 70 years ago, and all my family who might have any authentic records are dead," said Mr. Dillon.

"Paddy" Dillon, half a century ago, was an international cable man, and ran the first cable line between New York and London, and he was the first to run 100 yards in 10 seconds flat. He broke the world's sprint record, running under the colors of the United States at Newmarket, England, in 1882, at an international athletic meet.

RECORD BROKEN AT N. S. STEEL PLANT

Meanwhile Coal Strike Situation Remains Unchanged—Move Relief.

HALIFAX, March 14.—During the year ended September 30, 1924, 247 patients were admitted to the Nova Scotia Hospital for Insane at Dartmouth; 139 were such that no hope for their recovery could be entertained. The total number of cases treated during the year was 748, and the resident daily average for the year was 463.4. During the year 72 patients recovered; 59 improved; 64 were discharged to county asylums as incurable or deported, and 76 died.

At British Empire Steel Corporation headquarters here it was declared that there are absolutely no new developments in the strike situation.

More Relief Efforts.

Activities of relief workers continue and a new relief station was opened today at Mackay's Corner, Glace Bay, with an initial capacity of 35 families which will be increased next week to sixty-five families.

Fight Starts at Meeting When Translation of English Speech Banned

By CARL D. GROOT United Press Staff Correspondent.

BERLIN, March 14.—First bloodshed in the campaign to select a successor to the late President Ebert has occurred. Reports today from Halle said six were killed and 25 severely wounded in riots when police attempted to break up a meeting of Communists.

Shots Exchanged.

A police telephone message to the United Press at noon said the tumult started when the police forbade translation of a speech of an English Communist. Crowds in the gallery shouted insults at the police and shots were fired. The police answered the fire, the message said, adding:

"Our reports indicated that five Communists are dead, including one woman, six severely wounded, and 18 suffering from minor injuries."

The controversy started with an argument over whether all candidates should be eligible for the presidency. Communist candidates for the campaign are:

8,000 in Building.

About 8,000 people were in the hall when the meeting started, and the police were on the alert for an outbreak. According to the Role Fahne, a Communist paper, Ernest Thielmann, Communist candidate for the presidency, was scheduled to speak at a big folks park hall, which became so over filled that parallel meetings had to be held.

Police Interfere.

English and French Communists had addressed the gathering and a German interpreter was about to translate their remarks, when the police officers jumped on the platform and said something which the crowd failed to understand. The chairman asked the interpreter to repeat his remarks so he could inform the audience. Then, the Role Fahne claims, the lieutenant, without warning, ordered the police to fire on the assembly.

THE EVENING TIMES-STAR, SAINT JOHN, N. B., SATURDAY, MARCH 14, 1925

**N. B. RED CROSS
BUDGET \$6,000
FOR THIS YEAR**

Assumed Junior Work Expenses Borne by the Head Office

REPORTS ARE GIVEN AT MEETING WERE

Hospital Supplies Are Chief Item in Expenditures for Year.

Assuming the expenses of the Junior Red Cross estimated at \$5,400 would be borne by head office and that head office would maintain for the current year home nursing organization in the province, the New Brunswick Red Cross Society yesterday adopted a budget of \$6,000 for the current year.

Arrangements were made for circulating the various branches asking them to bear their share in raising this sum without which the work could not be carried on. C. B. Allan, vice-president, was in the chair in the absence of R. T. Hayes, M. L. A., president.

R. G. McInerney, recently elected treasurer, was warmly greeted and a cordial welcome was extended to Miss E. Nutter, supervisor of Women's Institutes, who spoke of the hearty co-operation which existed between the two organizations in sewing work and in the later enterprise of establishing home nursing classes.

The Budget.

The budget items were as follows: Hospital supplies, \$2,500; bulletin and annual report, \$100; salaries, \$1,500; emergency relief, \$500; rent, janitor and heat, \$300; office upkeep, stationery, supplies, etc., \$300; annual convention fund, including delegates expenses, \$100.

The report of Miss Ethel Hazen Jarvis, secretary, told of the reorganization of Plaster Rock branch, with Mrs. Norman Wright as president and Mrs. J. D. Coffin as secretary, and other activities.

Junior Red Cross.

The Junior Red Cross report showed 3,616 enrolled in 142 branches and receipts to date \$1,274. During the last two months 2,865 articles were received from the branches and 1,702 parcels and 812 sent out, as well as two news letters.

Receipts from the children totaled \$49 and the balance in the crippled fund was \$152. Expenses of the department for \$235.00 in January.

Home Nursing.

The home nursing report of Miss S. Barrington, organizer, showed 13 classes

formed in Saint John and 13 outside the city and the interest in the classes very keen.

The sewing committee report was given by Mrs. Walter Allison. The financial statement of Mr. McInerney showed expenses \$947.32, including Juniors, \$461.45 depot salaries and expenses \$195.71, annual meeting \$88.53, emergency relief \$25.40, campaign \$15.75. The receipts were \$189.17.

Mrs. James F. Robertson for the bulletin committee reported the annual report would be ready in May at a cost of about \$60.

Miss V. Tremblay for the port committee reported commendation received from Ottawa for the Red Cross nursing at the port, where during the month 151 children, 16 infants and 161 women were cared for.

Correspondence read included the regrets of Dr. Murray, of Campbellton, at inability to attend and the thanks of the work department, River Glade, for the society's assistance in selling the soldiers' work. Personal gifts of hanging baskets from the soldiers were sent to Mrs. Margaret Lawrence and Miss Jarvis.

Cape Breton Hears Desired Coal Tariff Not Allowed For in Budget.

SYDNEY, March 13.—As a result of information received to the effect that no changes as regards the tariff on foreign coal are contemplated in the federal budget for 1925, the Associated Boards of Trade of Cape Breton, at an emergency meeting today, took immediate steps towards despatching a delegation to Ottawa to once more impress on the Government the necessity of further tariff protection for Nova Scotia coal.

Telegrams of Protest

Telegrams of protest have been despatched to Premier King and to Hon. J. A. Robb, Minister of Finance, and to Nova Scotia members, and a general invitation to take part in the delegation has been sent to the Boards of Trade of the province and also to those of the mining districts of Alberta and British Columbia. It is understood that the advance guard of the delegation will leave for the federal capital Sunday night.

During the latter part of December a large delegation waited on the Prime Minister with a request that the tariff on American slack coal and anthracite must be increased to that on run of mine, that is from 14 to 85 cents per ton.

A Revelation
on first use
Indispensable Ever after!

OXO Beef Cubes are the handiest things in your kitchen. Using them is a revelation to the woman who tries them for the first time. She usually starts with a soup. She boils a few bones or vegetables, drops in OXO Cubes — and clear consommé, or vegetable soup is ready to serve.

Solves the Problem of Left-overs
Stews, Meat-pies, Hash, Croquettes, made from left-overs become tasty dishes when OXO Cubes are added to give flavor and nourishment.

For New Dishes
OXO Cubes are used with great success! There are thousands of housewives in Canada today, who proudly offer their own personal and private dishes — made irresistible by the simple addition of OXO Cubes.

Convenient Too!
And there's the ever-present handiness of OXO Cubes — in the sick room for beef tea and meat jellies — as a warming drink after the cold outdoors — as the right drink for the children when they come in cold, hungry or tired — as an ideal "pick-me-up" after an afternoon of shopping.

Here are two of the many ways of using OXO Cubes.

OXO Jellied Stew
1 OXO Cube. Pepper and salt.
1/2 oz. Gelatine. Pepper and salt.
1 Dessertspoonful Ketchup.
1 Teaspoonful minced Parsley.
A squeeze of Lemon Juice.
Make a nice gravy by dissolving the OXO Cubes in 1/2 pint hot water. Season with ketchup, lemon juice, pepper, salt, and minced parsley. Dissolve the gelatine in it. Stir in the minced meat. Wet a mould or pudding basin, and pour in the liquid. When cold turn out and decorate with parsley or watercress.

OXO French Toast
1 OXO Cube. Pepper and salt.
1 Egg. 1 Large slice of Bread.
A little milk. Butter or dripping.
Make a batter with the OXO dissolved in a little hot water, egg, milk, pepper and salt. Cut the bread into fingers. Dip them in the batter, and fry in butter or watercress. Serve hot.

FORKE SUPPORTS ATTACK ON RATES

Progressive Leader Backs up Government Proposals in House of Commons.

OTTAWA, March 13.—Tentative support of the Government's proposal for reducing ocean rates was given in the House of Commons today by Robert Forke, Progressive leader.

"Let us make an attempt to deal with this matter," said Mr. Forke, in announcing that he would support the Government's plan to subsidize the Peter line of steamships, at least until it was examined in committee.

"Let us have an investigation and find out what we can. Having done this, I think most members will be able to give an intelligent vote when the proper time comes."

Voices Opposition.

Members of all parties contributed to the debate this afternoon and evening. Mr. Forke was followed by Donald Sunderland, Conservative, South Oxford, in opposition to the Government's scheme. "Why subsidize another line to enter into competition with the Canadian Government Merchant Marine?" he queried. He advised the Government, in view of its large railway obligations, to go very slowly before involving the country in more experiments.

Strong support of the proposal came from Hon. G. P. Graham, Minister of Railways and Canals, who declared that for 18 years Government had wrestled with the ocean rate problem, which this Government was now making a serious attempt to solve.

TO TRY NEW FUEL

Russian Engineer Will Test Petroleum in Submarine Chaser.

PARIS, March 13.—The Russian engineer, M. Makhotin, who is the inventor of a substitute for petroleum as a source of motive power and recently presented his French patent rights to the Government of this country, has been directed by

the Minister of Marine to make experiments with his new fuel in a submarine chaser.

The experiments are to be made at Cherbourg, the vessel to be used being one hitherto using crude petroleum, which has been transferred to suit M. Makhotin's new process. A naval engineer officer will watch the experiments on behalf of the French Naval Department.

HARD TO LET GO.

It is related that many a man who had a bear by the tail experienced great difficulty in finding a good time to let go. Another variation of the story is that of two Irishmen who set out to capture a wildcat. One of them entered a thick piece of brush and his companion immediately followed him, inquiring from a safe distance if the capture had been effected. The reply was in the affirmative, and the successful hunter added: "Come in here quick and help me let him go."

THE THINGS WORTH WHILE.

Something like a sermon, but rather a philosophical examination of life as a result of experience, was delivered by the Secretary of State, Charles E. Hughes. This has attracted wide attention because of its outstanding thoughtfulness and merits, and also because Mr. Hughes has given not only his own country but civilization at large much service of high value during his public career. He steps down now from a great post which he has filled with distinction, and takes up the activities of a private citizen, enjoying respect at home and abroad, and his own life and character give his words weight.

THE WAY THROUGH STARTS.

Mr. Forke, leader of the Progressives, is somewhat guarded in his attitude toward the Government's proposals for reducing ocean freight rates. He proposes to support the Government's plan "at least until it is examined in committee."

Wonder Spots of The Empire

Victoria Falls, Rhodesia (Copyrighted).

The visitor to Victoria Falls, Rhodesia, is not able to stand upon any vantage point and view the entire falls at once. It is only from the air that the wonderful formation is fully seen. Mist and spray fill the deep chasm into which the water huris itself, and even from the railway bridge that crosses the Devil's Boiling Pot, the tourist sees something of its majesty but little of its might.

VIRGINIA MEMBER REFUSES INCREASE

Congressional Paymaster Has \$2,500 He Doesn't Know What to do With.

WASHINGTON, March 14.—Joseph Rodgers, sergeant-at-arms, of the House of Representatives, Congressional paymaster, has \$2,500 he does not know what to do with. He is trying to persuade Representative Henry St. George Tucker, Virginia Democrat, to accept it on the ground that it is the amount of salary increase voted to members by an act of Congress during the closing days of the last session. Mr. Tucker refuses to take it. He says he opposed the salary boost, that he voted against it and that he won't accept it. The case recalls the action of the Virginia Representative's grandfather, for whom he is named. In 1816, while a member of the House, the senior Tucker refused the pay increase to \$8 a day. Representative Tucker has written the sergeant-at-arms, specifically directing him to return this difference between the old Congressional salary of \$7,500 and the new \$10,000 to the Treasury.

RECORD CROWD HEARS EARL'S FIRST SPEECH

Many Notables Gather For Debut of Asquith in House of Lords—Increased Interest in Question of Prince's Expenses—London Gossip.

(By Times-Star Special London Correspondent.)

LONDON, Feb. 19.—The oldest parliamentary hands recall no such occasion as today's scene, when Mr. Asquith made his debut in the House of Lords as Earl of Oxford and Asquith. The noble place was packed. No such crowds thronged to see the Prince of Wales' introduction, or even that of Earl Haig, fresh from the Great War. Among the crush at the bar, I noted Mr. Baldwin, Mr. Lloyd George, Mr. Clynes and Mr. Wheatley, each intent on the historic apotheosis of a great commoner.

His Admirable Wife

Margot, Countess of Oxford and Asquith, rarely eyed in cunning fashion, perfectly chosen, watched with dancing eyes from the gallery, which all around the brilliant Chamber presented a magnificent frieze of sables and silks. Her money was stately and went well. Earl of Balfour, tall, slim, white-haired figure commanding the occasion, Earl Beauchamp, decorous and grave, the Earl of Oxford and Asquith serene and attentive, yet I fancy the austere veteran's eyes—Mr. Asquith behind his mask never a great old sentimentalist—were damp with his own inevitable memories and reflections. It was after all a rather sad event. Here was the noble figure of the belted earl, his great career crowned with honor, but his locks white with the snows of winter, his form no longer that of old times, his step less sure, a magnificent apothecosis, but with sadly lengthening shadows all around and somehow a vague sense of sunset.

A Political Jutland

When some time ago it was reported that Mr. Churchill was involved in a big naval economy fight with Mr. Bridgeman and the Admiralty, the Admiralty met with prompt Churchillian scorn. Now comes a still more categorical story that at the last cabinet meeting there was a real battle over estimates submitted by the admiralty, with Mr. Churchill arrayed against Mr. Bridgeman and Mr. Amery. The latter even attended with one eye in a sling, straight from a minor Harley street operation, to range himself beside his naval engagement seems as doubtful as that of Jutland, because Mr. Churchill's success in securing a £2,000,000 reduction still leaves the admiralty estimates that amount up on last year's I suspect that Mr. Churchill's victory was the practical one, however, and how artfully he used his own knowledge of Mr. Bridgeman's departmental Proletariat and Prince.

Working class comment on the Prince's tour, and the Communist attack thereon, is extremely interesting. Even in Mr. Saklatvala's own Battersea constituency, which is probably as "advanced" as any in London, strong feeling is aroused. A relatively small minority of revolutionary fanatics, who are all Communists and Republicans, are loudly applauding the attack. But the great majority of genuine proletarians regard it as unpatriotic and silly. The argument that H. R. H. should bear the expenses of such a trip out of his own pocket, though based on a specious trade union analogy, is particularly scouted. The workman whose firm requires his services at all times, and who does not, as Battersea engineers recognize, ask him to pay his own fare. In fact, the working-class public displays a more intelligent understanding of the big practical utility of Imperial missions and the role played by modern Royalty than many people give them credit for.

A Blue-Blood Red

It is noteworthy that, though Labor men like Mr. Macdonald, Mr. Snowden and Mr. Thomas voted with the Government against the proposed reduction in the Prince's traveling expenses, Commander Kenworthy went into the lobby in support thereof with the "Reds." Baron Strabolg's hair is, for an old Etonian and ex-navy man, really very "advanced" in his views. He is always to be found in the vanguard of the extremist attack as a matter of course, and a radical of the Henry Labouchere school, which was reckoned pretty ferocious in his day, would feel almost like a port wine Tory beside the member for Central Hull nowadays. The Strabolg's hair is an old creation, dating back to the 14th century, and its 20th century holders have a strong infusion of the country vicarage in their blood. The present Baron is a much-traveled man, educated at Rossall and Pembroke College, whose favorite recreations, next to globe-trotting, are hunting, fishing and golfing.

German Politics

It needs a very shrewd prophet to forecast how German politics will develop during the immediate future. Before the war there was the anomaly of a kingdom preponderantly Socialist governed by an ultra-militarist autocracy. After the war there is the converse anomaly of a nominally democratic government, mainly supported by Socialist votes, ruling a republic preponderantly monarchist and capitalist. Neither condition gives assurance of healthy stability. But, while history teaches the recent moral of the former anomaly, we cannot tell yet what the present one may produce. The compulsion of post-war circumstance dictates the Berlin regime. Parties combine to preserve an illogical status quo in order to carry on. But underneath are the strong currents, one fiercely Communist, the other firmly Monarchist. The Prussian Junker dream is of a gradual restoration by first electing Prince Rupprecht state president.

Miss Wilkinson's Hair

I think that the Labor M. P. for East Middlesex has a little annoyed that so much fuss has been made about her Venetian-green dress and shingled hair. But little Miss Wilkinson must realize, for she is an eminently shrewd young lady, that such publicity was nearly inevitable. She is not the first woman M. P. but she is the first woman M. P. to wear a brightly-colored costume and shingled hair within the historic precincts. The adventure seems almost worthy of a commemorative mural painting in the lobby, preferably by Sir William Orpen, alongside that of Queen Elizabeth, considering her splinterhood. As Queen Elizabeth has the same attractive shade of bright red hair as Miss Wilkinson, the pictures would harmonize.

willing alacrity to sleep under the 70,000-ton dome nightly, visitors are growing shy of the place. There has been a great slump in the daily parties going over the building, and the famous whispering gallery in the dome lacks patronage. Even the regular attendances at the services are falling off, and many worshippers seem unable to resist the fascination of gazing at the dome, instead of at the preacher. More than this, it is stated that the once busy crowds who used St. Paul's churchyard as a thoroughfare are now visibly smaller even at the bustling noonday hours.

Memories

A lot of elderly and middle-aged men must have experienced memory thrills today when reading the strange hermit life in a London suburb of W. H. Kingston's son. The latter is now an old gentleman, and Kingston has been dead a month or so. But what a power he was in the land 30 or 40 years ago! The author of "From Powder Monkey to Admiral" had no compunctions as purveyor of stirring stories for schoolboys. We all read him, first in the pages of "The Boy's Own Paper," and waiting for the next installment taught us the philosophy of many fortitude. I wonder what takes the place of Kingston's romances of daring-do in the life of the post-war schoolboy? It is mecca of wireless or Wells' because, though I study the rising generation with interest, I do not see the small boys enthralled by high adventure as we used to be. Perhaps they get it at the cinema. I still prefer Kingston.

An Open-Handed Duke

Financial embarrassment is no new trial to the Duke of Manchester. His life may be said to have been one long financial thrill; and in the last few years he has tested the Canadian woods and mines to find new fortunes. No man had more beautiful sisters than the Duke. The Ladies Alice and Marjorie were known as "The Heavenly Twins" but their beauty availed them nothing against an insidious delicacy of constitution, Lady Mary dying in Italy and her sister at home a little.

Did Dad Walk Baby?

Fathers would not have to walk the floor so often with restless babies if mothers insisted on using Baby's Own Soap for baby's bath. This soap cleanses and refreshes and prevents skin irritations and scalding which so often cause bad nights. And baby smells so sweet after a good rub with the aromatic lather of Baby's Own Soap.

Its Uniform Quality is due to Infinite Care

YOU know how impossible it is to judge flour quality by a mere inspection.

Different flours may cost the same and look the same, yet give entirely different results. Then, too, you will often find a good flour, that varies in quality—a success in one baking and a failure in the next.

Your only real safeguard in buying flour is to select one that has been tested and proven in advance—and is guaranteed uniform in quality.

Maple Leaf Flour is made from the finest selected Canadian hard wheat, skillfully blended and milled. Extracting tests at every stage of its milling makes possible its sale under a definite "money back" guarantee of uniform quality and satisfaction. You can depend on Maple Leaf Flour for unvarying baking results—always.

Ask your dealer about a wonderful course in "Cookery Arts" FREE to every user of Maple Leaf Flour.

gay Irish society of those days. She was typically Yankee-Dutch in appearance and manners. And the rather spectacular extravagance of the young Duke in those days thoroughly alarmed Zimmernann.

G. B. S. Back

Bernard Shaw has returned from his Madeira trip, looking extremely fit and sunburnt, and distinctly saucy. Interviewers besieged him, both at Southampton and at Waterloo but the superman was more than equal to the journalists. His replies to all queries were cryptically good-humored, and when asked about the British drama, or whether he really had learned the foot-trot, "G. B. S." declared that both topics were promising ones for articles, and could be obtained for a fee of £300. So, obviously, Mr. Shaw's trade union minimum has gone up a lot. Mrs. Shaw accompanied her distinguished husband, but kept discreetly in the background, leaving him to wrestle both with the pressmen and the luggage. Mr. Shaw returns to find his "St. John" still booming great guns, and, I believe, with an important new play inside his business-like despatch case.

60 DAYS SPECIAL OFFER For Rapid Home Liquor Treatment

(No. 10974 The Proprietary or Patent Medicine Act)
Not a Pretence—But a real, guaranteed treatment for Alcoholism. In Use 40 years in Australia, United States, England and Canada. Special offer.

For 60 days only, we will sell this Rapid Home Treatment for \$25. After that the price will revert to the regular fee of \$100. Procure your treatment NOW.

Never before in the history of Canada has a crusade of this nature been launched and such a remarkable offer extend for the treatment of Liquor Addicts. The regular price in Canada and United States for Home Treatments is \$100, but the Addict is almost always advised to remain in an institution or Sanitarium during treatments, at a fee of from \$200 to \$400, this not including transportation and with no better results than the treatments now being offered to you. Rapid Home Treatments can be used just as effectively in your own home as in a Sanitarium.

The Merits of This Preparation have been so thoroughly demonstrated that, in the interests of humanity, a number of prominent gentlemen of New Brunswick, including business men of high morals and well known repute have interested themselves to a great extent. They have assisted in commercializing this treatment, so that now, anybody in need can purchase the treatment at almost any drug store. Remember! the regular price is \$100, but for sixty days only it can be procured at \$25.

Paper Hanging

To new walls that have never been papered apply a thin coat of size, made by soaking 1 pound ground glue for 12 hours in just enough water to cover it, and then adding 12 quarts of hot water and a tablespoonful of powdered alum. Use it while it is warm.

Before any size is applied on the walls, all large cracks or holes should be filled with plaster paris, mixed to a paste with the size, and scraped smooth. Small ones will not show.

Kalsomine or whitewash should be washed off with a sponge and warm water. If the walls have been rough plastered or not putty coated, smooth off the projecting grains of sand with a piece of wood before sizing. When walls are very rough, apply a thin paste when the size is dry, and let paste dry thoroughly before papering.

Before papering over a wall that has been painted, apply a solution consisting of one part ammonia and six parts water. This will remove all grease and oil—producing a better surface for the paste.

Board ceilings and walls should be covered with cheesecloth, which, to shrink it tight to the wall, should be tacked at edges and sides. At the corners and around the castings, tacks should be placed about 2 inches from edges, and the ends of cloth pasted down.

To avoid having the paper curl up at edges, be careful to clean and size the walls thoroughly around the baseboard and casing.

Preparing for Hanging Wallpapers.

Get two boards 7 or 8 feet long 10 or 12 inches wide placed side by side with the ends resting on a table or boxes 3 or 4 feet high, which will serve as an excellent paste table. The paper to stand upon while hanging the paper can be made by placing a plank or board on two or more boxes which should be high enough so that your head will be about 6 inches from the ceiling. The tools required are a paste brush, a paper hanger's smoothing brush, a seam roller and a pair of shears or a straight edge and trimming knife.

Hanging Ceiling Paper.

As a guide to hanging the first strip, drive a nail in at each end of the ceiling 16 inches from the sidewalls. Rub a piece of cord with charcoal or chalk and tie to the nails, being sure it is drawn tight. Then take hold of the cord with your left hand and let the cord will strike the ceiling and leave a chalk line. Take the strip you have pasted and trimmed, unfold end to your right, and let other end, is still unfolded, hang over a roll of wallpaper held in your hand.

Guide paper along chalk line, at the same time pressing on ceiling flat with your hands as you move along and smoothing it out with a smoothing brush.

Ceiling and Sidewall.

Always paper ceiling first. Find the length of your room, unroll ceiling paper, pattern up, cut and match enough for a whole room. Leave strips about 4 inches longer than length required, so that when hung 2 inches will come down on walls at each end. Then turn pattern down and it is ready to paste.

After pasting, draw paper towards you about three inches from end of table and proceed to trim, commencing at the right. The great advantage of trimming after pasting is that the paste is more evenly distributed at the edges, and it also takes less time.

When ceiling is finished, cut the side wallpaper, matching and leaving about four or five inches to allow for any waste in matching. The upper end of the strips will be uneven. These will be covered by the border. Trim off lower ends at baseboard with a base trimmer or a pair of shears. When in place close to the top of baseboard, use back of shears for marking by running them over the top of paper where plaster and baseboard meet. Lift the paper a little and trim along where

THE RIGHT SPIRIT

AFTER reading last week's "Clean, Repair, Paint" page, published in this newspaper, a prominent St. John merchant stated that he would feel guilty if he did not keep his property in good repair, and well painted. Our last week's article pointed out the fact that if every property owner did the necessary repairs to his property, everybody would benefit. Laborers, carpenters, painters, plumbers, electricians and merchants. Let's start things moving.

You have marked, and smooth down again with smoothing brush.

When hanging sidewall paper, commence at any door, as corners are often irregular. This will assist you to hang the first strip straight. Then continue around room until finished.

Beginning at the left of the table, apply the paste evenly with a paste brush on the top strip of paper. After you have applied the paste on about one-half the length, fold over (be careful not to crease) the part of paper that is pasted. Be very careful to see that the sides are exactly even.

Now apply paste to the other half, and fold that over toward the centre—the same as the first half. If strip of paper is longer than the table, paste the left half, and after folding, show one-half the length, fold over (be careful not to crease) the part of paper that is pasted. Be very careful to see that the sides are exactly even.

Now apply paste to the other half, and fold that over toward the centre—the same as the first half. If strip of paper is longer than the table, paste the left half, and after folding, show one-half the length, fold over (be careful not to crease) the part of paper that is pasted. Be very careful to see that the sides are exactly even.

Next trim as previously directed. You now have an entire strip of paper before you, all pasted and folded and the side of the paper perfectly even and ready for hanging.

To have a neat, clean finish after smoothing, do not trim the salvage edge off until after paste has been applied. It is difficult to paste evenly along a strip of paper after it has been trimmed and not get a few drops over the edge which will likely ooze out and smear over the adjoining paper hung.

This smearing is avoided by leaving the salvage edge on until you finish pasting, then when trimming, all excess paste is also taken off, which leaves a clean and neat finish.

Painting

It is always advisable to engage a painter and paper-hanger when a really first class job is desired, as this is the only way to obtain a lasting pleasure from the improvements.

Where painting is rough or blistered, it is necessary to remove it in order to obtain a smooth finished surface. This is difficult work for an amateur, and should not be attempted without some knowledge of paint removing.

Where the old paint is smooth, a rub over with sandpaper is all that is required, and a handy person can make a good painting job by using a little care in applying the first and second coats. Most amateurs make the mistake of putting on too much paint and not having it properly thinned out.

The first coat should be fairly thin and the second a little thicker. It should be well brushed out, leaving no brush marks, and runs should be carefully watched. These occur in the corners of door panels and baseboard mouldings.

KITCHENS

The popular wall coating for a kitchen is paint. It can be washed as often as desired, and one coat a year will keep it always looking new and fresh.

Pale green is a good color. Light drab also makes an attractive looking finish. A good smooth wall, however, must be filled with a filler and smoothed off, as every rough spot will show through the paint. A little varnish mixed with the paint will make it dry hard with a good bright finish, but care must be taken not to add too much varnish, if only one coat is to be given. The old paint should always be well washed before applying the new, and allowed to become thoroughly dry.

ASKS FIGURES OF MUSQUASH HYDRO

NOTICE GIVEN BY LEADER OF OPPOSITION

Richards Wants to Know Cost of Development and Details of Power

TO SPEAK TUESDAY ON ADDRESS DEBATE

Attorney General Introduces Bill to Amend Electoral District Act.

By D. LEO DOLAN

Star Correspondent of The Evening Times-Star.

FREDERICTON, March 13—After sitting for about 30 minutes this afternoon, the Legislature adjourned over the week-end until Tuesday, when C. D. Richards, leader of the Opposition, will resume the debate in reply to the speech from the Throne.

Today's sitting was productive of the first notices of inquiry from the Opposition benches, Mr. Richards asking for information regarding the hydro development at Musquash. These inquiries are simply another indication of the importance of the question which is to be played in the present session of the House.

Asks for Details

Mr. Richards has asked for the total cost to date of the Musquash hydro development, including all transmission lines and also as to the personnel of the New Brunswick Electric Power Commission, and the amounts paid for salary and expense account for each during the last fiscal year, and other details.

The second inquiry of Mr. Richards deals with the amount of power in kilowatt hours generated at the Musquash plant from Feb. 1, 1924, to Jan. 31, 1925, and how much power was actually delivered to the City of St. John and the City of Moncton during each month from May 1, 1923, to Jan. 31, 1925.

Price of Property

Premier Veniot, in reply to a query from the leader of the Opposition, on the second reading of the bill to authorize and confirm the sale of certain lands to the Bank of Montreal, stated that the purchase price of this property, which is located on Queen street, Fredericton, adjoining the New Brunswick Liquor Commission's headquarters, was \$15,000.

Despite the fact that it was generally understood by the members that the debate on the address would not be proceeded with this afternoon, there was a fairly large attendance.

Many members left tonight to spend the week-end at their homes but when Mr. Richards speaks on Tuesday he will undoubtedly be greeted by a crowded chamber and packed galleries.

Caucuses Next Week

Everything points to the debate on the address being concluded before the end of the week.

The Opposition caucus on Tuesday will decide whether the members to the left of Mr. Speaker propose to prolong the debate or save most of their campaign material for the budget.

On the Government side there is a disposition to expedite the debate on the address but as no caucus of the government supporters will be held until Tuesday or probably Wednesday, little is known definitely of the attitude of the Liberals. Premier Veniot (Continued on page 13, third column.)

Free State Scores Triumphal Victory In Miniature General Election

Mother Risks Life For Child

MOUNT MORRIS, N. Y., March 14.—How a frantic mother waded into a swift stream amid huge ice floes hurtling past, in a vain effort to save her son marooned on a cake of ice, was learned when divers arrived here to search for the body of Edward Heins, five years old. The child was playing on the ice of Genesee creek near his home when the mother heard his screams. She rushed from the house and saw the child being carried swiftly down stream. She plunged into the racing current, but her efforts failed.

PROVINCE TO ASSESS C. N. R., HINTS PREMIER

Veniot Likely to Confer With Railway Officials Regarding Impost

WOULD MEAN \$80,000 IF TAXES ARE PAID

Mileage Basis Favored, Same as Used With C. P. R. Assessment.

BY D. LEO DOLAN

Star Correspondent of The Evening Times-Star.

FREDERICTON, March 13.—Canadian National Railway lines operating in New Brunswick are to be assessed for taxation by the Provincial Government.

That is the intimation given to your correspondent today by Hon. F. J. Veniot, Premier of the province. In fact, within the next few weeks it is likely that Major Graham Bell, Deputy Minister of Railways, and G. Huei, chief solicitor of the C. N. R., will come to Fredericton to confer with the Premier regarding this matter.

At present the C. N. R. pays no taxes on its railways in New Brunswick, yet the province receives from the C. P. R. approximately \$38,000 annually. On the same basis of the C. P. R. taxation the C. N. R. would be called upon to pay into the Provincial Treasury a sum of about \$80,000 annually.

The proposed assessment will be an annual tax on a valuation basis, but Premier Veniot states, and the question of assessing the other properties of the C. N. R. throughout the province, such as station buildings, freight sheds and the like, will be entirely up to the municipalities.

It is understood the C. N. R. proposal suggested a willingness to pay an annual tax on a valuation basis, but Premier Veniot favors the same system now in practice regarding the C. P. R. assessment.

PETERBORO TO AID NATIONAL UNITY POLICY

Kiwanis Club Gives Hearty Approval to Get-Together Proposal

ARE WELL DISPOSED TOWARDS ROUTES

Manufacturers Sympathetic Towards All-Canadian Transportation Policy.

By A. M. BELDING

Special representative of The Telegraph-Journal and Times-Star now en route home from a tour of Western Canada in the interests of the Maritime Provinces.

PETERBORO, Ont., March 13.—At a luncheon today under the joint auspices of the Kiwanis Club and Chamber of Commerce, which brought out an unusually large attendance, the case for the Maritimes and for a national get-together movement was received with the most hearty approval.

Charles Cook, president of the Kiwanis Club, was in the chair and many leading business men and many important manufacturing centres were present.

Endorse Remarks

G. Wells Fraser, chairman of the Chamber of Commerce, who as a bank man has spent seven years in New Brunswick, seconded the motion and endorsed the mover's remarks.

Among those present was Dr. P. S. Cameron, 408-in-law of W. S. Fisher, Rev. Dr. Rose, formerly of Amherst, and Mayor Turner. The last named asked to be furnished with a statement of all the points in my address that he might be the better able to further the cause.

Later in the afternoon I addressed the executive of the Chamber of Commerce and received a most sympathetic hearing and assurance that the chamber would co-operate with Maritime organizations to promote national unity.

Manufacturers Sympathetic

Through the courtesy of Leon Fraser, secretary of the Chamber of Commerce, James Hamilton, chairman of the Peterboro branch of the Canadian Manufacturers' Association, and Giacomo Scroto, (Under Secretary of State), were enabled to visit some of the manufacturing plants and interview the managers and found them most sympathetic toward the policy of Canadian trade through Canadian ports.

The Toronto Mail and Empire devotes its leading article today to "Canadian Unity" and declares my mission is bound to be of national service. The Globe yesterday devoted an article to the same subject.

Names Mentioned.

Roberti Marinacci, secretary of the Fascist party and Deputy Terruzzi followed by other Fascisti made a rash attack Deputy Maffi. Peace-makers intervened, however, and they contented themselves with forcing the challenged names. He accepted the challenge and accused Aldo Finzi, (former Minister of Interior), and Giacomo Scroto, (Under Secretary of State).

When Maffi insisted that his charges were correct, a large group of Fascisti surrounded him and Communists rushed to his rescue. A free-for-all followed, but the deputies were soon separated.

Riff Tribesmen Fire On British Cables

GIBRALTAR, March 13.—Riff tribesmen today fired on the British ship Amber, engaged in laying cables for the Eastern Telegraph Company off the African coast. The tribesmen disregarded the hoisting of the British ensign, but the Amber was not damaged. The Spanish gunboat Bonifaz later intervened, opening fire on the shore.

LOOK TO ONTARIO IN UNION QUESTION

Quebec Legislature Will Await Action of Sister Province Before Ratifying.

Canadian Press Despatch.

QUEBEC, Que., March 13.—That the province of Quebec would be ready to ratify the union of the Methodist church, the Congregationalist church and the Presbyterian church, when Ontario had given the example in that sense, was the unanimous statement of the Quebec Legislature adopted by the Legislative Assembly last evening, when the Church Union Bill came up for third reading.

It was explained by Premier Taschereau and Arthur Sauve, leader of the opposition, that the bill was one which was outside the political atmosphere of the house, and the province was anxious not to intervene until the Protestant majority of the sister province, which was better placed to deal with the question, had stated its opinion one way or the other.

Sponsor Agrees.

Even the sponsor of the bill, W. S. Brewster, M. L. A. for Shefford, stated openly that he thought the course suggested was a wise one, and Hon. Jacob Nico, provincial treasurer, the official spokesman of the Protestants in the cabinet, also supported the same view.

CANADIAN MATTERS UP IN U. S. SENATE

Treaties Regarding U. S. Boundary and Lake of Woods Level Reported.

WASHINGTON, March 13.—Two treaties with Great Britain, one defining the boundary between the United States and Canada, at certain points, and the other to regulate the level of the Lake of the Woods, between Minnesota and Ontario, were reported to the U. S. Senate, and the latter was taken up yesterday by the Foreign Relations Committee.

Chairman Borah expressed hope that these treaties would be acted on at the present session.

Mexican Newsboy Takes His Overcoat From Billboards

MEXICO CITY, March 14.—A cold, drizzly night in the capital, a ghostly form emerges from a side street arrayed in a var-colored paper sarape. Through a slit in the centre of the makeshift, rectangular poncho appears about three inches of grimy neck topped by a tousled head. Above and below the protecting paper this apparition is pure newsboy—chilled and weary.

Never a "mother" blows up out of Vera Cruz but soon newly plastered posters are scratched from the walls along the streets to save the newsies from utter misery. It matters not how glamorous the words they bear of soaps, and shoe, and motor oils, nor whether the paste is dry from the post-ing—they all serve the same end.

From four to six square yards of good paper are required according to the weather and the tastes of the wearer. If extremely cold, the heavier the better. If the wearer wants frontal and rear hangings he plucks in larger portions and shaves it accordingly.

NEW YORK, March 14.—Panic-stricken flappers who fear that bobbed hair was no longer au fait may take comfort. Paris has taken the ban from the bob and decreed its uninterupted reign, according to Armand Blatt of New York, designer of hair styles for women. While no new styles of coiffure in long hair are being evolved, chic, fresh effects in bobs are being worked out by Paris experts.

Danger in Excavations Near St. Paul's, Is City's Warning

LONDON, March 14.—The committee of the City Corporation has agreed to suspend the "dangerous structure" notices which it served in connection with the safety of St. Paul's, but simultaneously it emphasizes the danger of excavations for buildings near the cathedral, and suggests government action to safeguard the edifice from harm.

The committee's action is based upon a report by the experts' commission which has considered the cathedral's condition for months. It is conditional upon the closing of the parts of the cathedral affected by the restoration work being done. The services will not be interrupted.

ACCEPT WAGES CUT

Consolidation Company's Miners in Pennsylvania Agree to 25 P. C. Reduction.

PITTSBURGH, March 13.—Miners in the employ of the Consolidation Coal Company, one of the biggest operators in the Somerset Region and one of the largest coal producing companies in the world, have decided to accept the reduction of 25 per cent. in wages. Acceptance of the cut followed a vote taken among the miners employed in the consolidation mines in this field.

While the United Mine Workers spent several thousand dollars in their efforts to organize the Somerset region during and after the last big strike of coal diggers, little was accomplished and nearly all mines in the region are operated on the open shop basis.

Although nothing definite has been announced it is believed that other mines in the Somerset field will ask their employes to accept a like cut.

SEVEN OUT OF NINE SEATS WON BY GOVERNMENT

Death Knell of Nationalist Group Is Believed to Have Been Sounded

LEADER OF GROUP IS BADLY BEATEN

President Cosgrave Expresses Pleasure at Result of Wednesday's Vote.

Canadian Press Cable.

DUBLIN, March 14.—The miniature general election for seats in the Dail Eireann to fill the vacancies of seven constituencies caused by the resignations of Nationalist members has proved a triumph for the government. Despite the fact that there were some close contests in the polling, which took place on Wednesday the voting showed there was no justification for any anxiety on the ministerial side.

Won 7 Out of 9

Owing to the complicated system of proportional voting the counting occupied a long time but in the final result the Government won seven seats and the Republicans got only two, which the ministerial party regards as eminently satisfactory. The contests were conducted with absolute calm, the only incident being some arrests for impersonation.

The results in the opinion of the political experts, sound the death knell of the Nationalist group, which although elected on a government ticket, has really been in opposition to the government while there has always been uncertainty as to a probable attitude in Dail divisions.

Leader Is Beaten.

Sean Milroy, leader of this group, was badly beaten, and all his followers shared a similar fate. The seven ministerialists returned are all trusted men who will give the government firm support.

Cosgrave Pleased.

President Cosgrave, of the Free State cabinet is much pleased with the outcome of Wednesday's preliminary elections.

"How could it be otherwise," he said today. "They were enormous polls and the total vote must have been two to one in our favor. We won seven out of the nine seats, and if the elections were not under proportional representation, we would not have lost the seats in North Dublin and the Sligo-Leitrim constituency."

De Valera's Comment.

De Valera, the Republican leader, issued a statement, saying "Some Republicans have been unreasonably optimistic in regard to the election. Such, naturally were disappointed. To rally the nation to the path it has been induced to desert is no easy task."

HOSPITAL HAD AVERAGE OF 150 PATIENTS DAY

Full to Capacity at All Times Is Report to Meeting
SPECIAL SESSION ON MANAGEMENT
Recommendations to be Taken Up—Financial Statement Is Submitted.

Recommendations with regard to hospital management and intergroup economy were included in the report of the efficiency committee presented at the meeting of the Board of Commissioners of the General Public Hospital yesterday afternoon and it was decided to deal with the report at a special meeting to be called by the chair.

M. E. Agar, president, was in the chair. Others present were Mrs. J. V. McLellan, Alexander McMillan, Dr. E. J. Ryan, Dr. W. W. White, J. King Kelly and R. H. Gait, superintendent.

Satisfaction was expressed that the X-ray experts in the Maritime Provinces were to be shown the hospital X-ray department some time in April.

The superintendent's report of the month showed 329 patients, of whom 146 remained at the end of the month. Sixteen died. In the operating room there were 84 operations and in the out-patient department 65 operations and 601 treatments. The average number of patients a day was 146.5, the hospital being filled to capacity at all times. On Feb. 8 there were 161 patients in the main building and at one time as many as 12 nurses had been off duty for sickness. There were very few patients in the annex.

The gift of three wheel chairs from the Women's Hospital Aid, purchased with money given by Dr. Forbes Angus, Montreal, were very gratefully acknowledged.

FINANCES.
The financial statement showed receipts \$14,512.54, including pay patients, \$3,385.88; X-ray, \$918.85; 911, \$80.68, and two months' payment for salaries, \$2,008. The bank balance less outstanding checks was \$5,848.17. The bills amounted to more than \$9,000.

The medical board drew attention to the inadequacy of the bed capacity. The board had passed resolutions asking the commissioners to place the additional electrical equipment recently purchased in the X-ray department and to purchase a sun lamp. These matters were referred back to the staff for further report.

MATRON'S REPORT.
The matron reported 498 new articles of linen and drew attention to the need of repairs in the nurses' home where the plumbers had been at work and of repairs to plaster and to windows in the hospital.

FIRST PLACE IS WON BY MONCTON CADETS

First Aid Competition Result is Announced—Five Other Teams Competed.
The Cadet Corps of Aberdeen School, Moncton, has been awarded first place in competition with five other cadet corps in the province in the first aid contest, according to an announcement of the awards made here yesterday. The Provincial Normal School Corps team was second and the Boys' Industrial Home Corps team third. Woodstock came fourth, the West Saint John Cadet Corps fifth and the Hampton Cadets sixth.

Practically all corps in the province at first signified their intention of entering the contest but for many reasons the majority dropped out and only the six were examined.

Principal among the reasons for the corps dropping out was their inability to secure instructors and the short time

MONTHLY REPORT ON OPERATION COST

Matter Taken up at Meeting of Civic Power Commission.
The Civic Power Commission met in regular session yesterday afternoon, E. S. A. McMullin, chairman, presiding. Others present were Mayor F. L. Potts, Commissioner Harding, A. M. Rowan and J. N. Flood.

H. W. Machum was heard in reference to the extension of the hydro lines to Millidgeville and the engineer was instructed to have another canvass made to see if enough customers could be obtained to warrant this extension. A report on this matter will be presented at the next meeting of the Commission.

On the recommendation of the engineer, Barry Wilson, it was decided to order nine service transformers at a cost of \$1,697.40 from the Packard Electric Company, subject to the Common Council authorizing the expenditure.

Mr. Flood referred to the necessity of having all purchases brought before the Commission and Mr. Rowan said that the cost of operation of the system. A committee composed of the chairman, Mr. Rowan and Mr. Flood was named to bring in a recommendation along these lines at the next meeting.

SAFE AND EFFICIENT HOME TREATMENT

Thousands of Ailing People Have Been Made Well and Strong by

Dr. Williams' Pink Pills

They Give New Vitality—and more.

Dr. Williams' Pink Pills do one thing—and do it well. They build up the blood, increasing the number of red corpuscles. As this is done the blood becomes a richer red and is able to carry more oxygen, the great supporter of human life. As the blood improves in quality the tissues of the body are better nourished and the functions of the body are better performed. This is the reason Dr. Williams' Pink Pills have been so successful in the treatment of all diseases due to poor, thin blood, why the pills are so successful in building up strength after fevers and acute diseases, and in all cases of anaemia and general weakness.

Mrs. S. J. Pitt, Queen St., St. John, N. B., says:—
"Some years ago, following an attack of typhoid fever, I was left almost a physical wreck. I could not sleep, had no appetite and my nerves were so bad that my limbs shook as though I had palsy. As I was not improving under the use of the doctor's medicine I decided upon the advice of a friend to try Dr. Williams' Pink Pills. Almost from the first box I could feel an improvement. I continued taking the pills until I had used twelve boxes, when I was again enjoying perfect health. As a precaution I always take one or two boxes every spring to tone up the system, and can truly say they are a wonderful tonic."

You can get the pills from your druggist, or by mail at 50 cents a box from the Dr. Williams' Medicine Co.

OPEN POULTRY EXCHANGE IN CITY NEXT WEEK

Quarters in Cold Storage Premises Ready for Handling Eggs

SUPERINTENDENT IN CITY MONDAY

A. R. Jones to be in Charge — Plan of Operation.

A. R. Jones, who has been appointed superintendent of the New Brunswick Poultry Exchange, will arrive in the city on Monday, and it is expected that the exchange will be in operation by the end of next week, if not earlier. H. R. Ross, manager of the New Brunswick Cold Storage, Ltd., said last evening that the premises which the exchange will occupy have been prepared for them, and that the wheels would begin to turn just as soon as Mr. Jones arrived.

The New Brunswick Poultry Exchange was only organized recently and when it begins to operate will control the marketing of practically all the eggs and poultry produced in the province. Some of these latter have been operating locally for some time under the supervision of the Federal poultry supervisor.

Candled Here.

In future the eggs will be collected by the circles and shipped to Saint John where they will be candled and graded and packed and distributed to the dealers in all points in the province for sale to the consumer. A record will be kept of all egg shipments and the farmer paid every two weeks for his product, at current market prices less a few cents a dozen expense.

Mr. Jones, according to his acquaintances here, comes to Saint John with an enviable reputation for producing results in the egg and poultry business.

From P. E. Island.

He has, during the last several years been superintendent of the Prince Edward Island Poultry Exchange, and when it was proposed to start an exchange in this province it was Mr. Jones that those behind the movement asked the Federal Government to appoint to the position of superintendent. During his stay in P. E. I. Mr. Jones has organized and developed the exchange until now it is self-sustaining. In addition to his college training and his practical experience in Prince Edward Island, Mr. Jones by heredity is fitted for the position he will occupy for he is a member of the Jones family, which has been for a long time connected with the produce business in Montreal.

will, of course, follow Mr. Richards and he is expected to get the floor late Tuesday afternoon.

One thing is certain, if the debate on the address is brief, then the budget will bring on a plethora of speech-making, as this is a pre-election session.

Official Report

ASSEMBLY CHAMBER, FREDERICTON, March 13.—The House met at 8 o'clock. A bill to confirm the sale of a lot of land in the City of Freder-

icton to the Bank of Montreal, was read a second time.

Hon. Mr. Veniot, replying to Mr. Richards, said that the purchase price was \$15,000.

Mr. Richards gave notice of inquiry for Wednesday next: As to the total cost to date of the Musquash hydro-electric development including transmission lines, and as to how such cost is distributed in relation to dams, pipelines, machinery, transmission lines, land damage, interest and legal expenses; also as to the personnel of the New Brunswick Electric Power Commission, the salaries and expense account of the same, and the names of the staff, including character of employment, wages and expense account; also as to how much power in kilowatt hours was generated at the Musquash plant during the year ending Jan. 31, and how much was actually delivered in Saint John and Moncton.

To Amend Electoral Act.

Hon. Mr. Rand introduced a bill to amend the act relating to electoral districts and sub-districts. He explained that the object of the bill was to correct an omission with respect to the County of York.

Hon. Mr. Rand introduced a bill to facilitate the reciprocal enforcement of judicial awards. He explained that the legislation was recommended by the joint committee on uniformity of legislation and had the approval of the commercial interests of the Dominion.

Hon. Mr. Rand introduced a bill to make uniform the laws respecting the liability of the parties in an action for damages for negligence where more than one party is in fault. He explained that this bill also had been recommended by the committee on the uniformity of laws, and its object was to enable the court to apportion the responsibility and fix the damages accordingly.

Hon. Mr. Veniot moved that consideration of the Address in reply to the Speech from the Throne be made the order of the day for Monday at 8 o'clock.

Groups Unite For Ludlow Street Service

The Trail Rangers, Taxis and C. G. I. T. groups of the Ludlow street Baptist church held a united devotional

service last night when R. H. Parsons, superintendent of the Sunday school, presided. After a song service Donald Marr read the scripture portion. The special theme of the service was "Pleasing God." Those taking part included Delbert Black, Laura Rupert, Leslie Hamm, Edna Robbins and

Ronald Hamilton. Rev. W. A. Robins invited the C. G. I. T. members to attend the Trail Ranger meeting at the close of the service, and Mr. Colan delighted the joint meeting with sea stories. Chief Ranger, Frank W. Peer presided. Hearty thanks were extended to Mr. Colan.

THE ANGUS SHOPS at Montreal where the Canadian Pacific employ thousands of men.

DO YOU KNOW that the Canadian Pacific Railway is one of the largest employers of labor in Canada. Any forced reduction in railway employment has a material effect upon the activity of retail and other business.

Traffic Tower of a Continent

WHEN nature carved a waterway a thousand miles into the heart of North America, she marked the centre from which would radiate the commerce of a vast Empire. From the very beginning, trade routes naturally converged at that point—and there was laid the foundation of the City of Montreal.

When Canada asserted her nationhood by linking her scattered Provinces by the rails of the Canadian Pacific, Montreal became a pivotal point, not only of Canadian traffic, but of a transportation system that "spans the world."

Montreal, however, is fortunate in more than geographical location. The great transportation projects that found their centre in Montreal found here also men able to finance, build and conduct them. Thus the control of the World's greatest transportation system is held by Canadians for the inestimable advantage of Canada in both Federal and International affairs.

POLICE FORCE OF MONTREAL IS CRITICIZED

Many Faults in System Exposed in Report on Recent Enquiry

JUDGE FINDS SIGNS OF INCOMPETENCY

Recommends Larger Force and That Chief Belonger Be Superannuated.

MONTREAL, March 13—Exposure of many glaring faults in the system of police administration in Montreal, of irregular influences exercised on the police, of the ridiculous inadequacy of the force and of a flourishing commercialized vice and drug traffic here, are contained in the report of Mr. Justice Codere, with which he has concluded the probe he conducted into conditions here.

Summary. Summarized the Judge finds incompetency in high places in the police and recommends Chief Pierre Belanger be pensioned; strange actions by the police in regard to theatre and coal cases; aldermanic meddling in police affairs; strength of police force should be 50 to 100 per cent. greater; recorder's convictions not in accord with the law; City of Montreal profitters in vice to extent of \$80,000 a year, of which province takes part for "moral clinics"; system of warning disorderly houses when raids were coming off; and, in part voluntarily, in part delicately, in part on the part of police in fighting commercialized vice; laxity with betting and gaming houses; the existence of a second hand store and ransom system encouraging robberies;

After Three Weeks Use of BON-OPTO He Discards Colored Glasses And Can Read Three to Four Hours Without Pain

La Junta, Col.—I am pleased to report that I have been using Bon-Opto for my eyes about three weeks and the results are most satisfactory. For the last two or three years I have had to wear colored glasses and could read only a few lines at a time. I would begin to hurt and my eyes would run together. Now I can read three or four hours without pain at all and perfectly clear. I can read three or four hours without pain at all and perfectly clear. I can read three or four hours without pain at all and perfectly clear.

DOCTOR ADVISED AN OPERATION

Read Alberta Woman's Experience With Lydia E. Pinkham's Vegetable Compound. Provost, Alberta.—"Perhaps you will remember sending me one of your books a year ago. I was in a bad condition and would suffer awful pains at times and could do nothing. The doctor said I could not have children unless I went under an operation. I read testimonials of Lydia E. Pinkham's Vegetable Compound in the papers and a friend recommended me to take it. After taking three bottles I became much better and now I have a bonny baby girl four months old. I do my housework and help a little with the chores. I recommend the Vegetable Compound to my friends and am willing for you to use this testimonial letter."—Mrs. A. A. Adams, Box 54, Provost, Alberta.

Pains in Left Side

Lachine, Quebec.—"I took Lydia E. Pinkham's Vegetable Compound because I suffered with pains in my left side and back and with weakness and other troubles which would not go away. I was this way about six months. I saw the Vegetable Compound advertised in the Montreal Standard and I have taken four bottles of it. I was a very sick woman and I feel so much better. I would not be without it. I also use Lydia E. Pinkham's Sanative Wash. I recommend the Vegetable Compound to my friends and am willing for you to use this testimonial letter."—Mrs. A. A. Adams, Box 54, Provost, Alberta.

Don't Let That Cold Turn Into "Flu"

Rub on Good Old Mustero! That cold may turn into "Flu", Grippe, or even worse, Pneumonia, unless you take care of it at once. Rub good old Mustero on the congested parts and see how quickly it brings relief. Colds are merely congestion. Mustero, made from pure white mustard, camphor, menthol and other simple ingredients, is a counter-irritant which stimulates circulation and helps break up the cold. As effective as the messy old mustard plaster, it does the work without the blister. Just rub it on with your finger-tips. You will feel a warm tingle as it enters the pores, then a cooling sensation that brings welcome relief. 40c and 75c, at all druggists. The Mustero Co. of Canada, Ltd., Montreal.

MUSTERO WILL NOT BLISTER. Better than a mustard plaster.

A MARTYR TO CONSTIPATION

"Fruit-a-lives" brought early relief

"I first heard of 'Fruit-a-lives' through a friend of mine living in St. Johnsbury, and as I was troubled with very high Blood Pressure and Constipation, I decided to try the Fruit-a-lives to anyone."

"All your physical and mental energy is drawn from your blood stream. If the bowels and kidneys do not function properly, poisons enter the blood-stream, and the heart, brain and nerves are all affected. 'Fruit-a-lives' clear the system of all waste matter, purify the blood and tone up the whole system. They are made from the intensified juices of luscious healthful fruits combined with tonic. detectors hunting stolen goods but not the robbers; and the error of the executive committee of the City Council in not naming a director of public safety and in assuming his duties itself.

Initiative Killed. The report says the police department was in the grip of a routine which killed initiative. He shows how atrophy of the police in failing to take advantage of a holdup tip resulted in the Banque de Hochelaga \$140,000 collection car robbery and how a respectable man named John Speake disappeared although this was reported to the man given in jail as a vagrant and his body was given up for dissecting purposes.

Scenes Cabarets. His Lordship finds that certain cabarets have been allowed to illegally remain open all night and that illicit drinking took place and that "immorality flourished itself with insolence in them." The Judge drew a horrifying picture of the system of commercialized vice existing.

More Juveniles In Halifax Court. HALIFAX, March 13.—The number of juveniles who found themselves in the toils of the law in Halifax in 1924 was 248, an increase of 66 over the previous year, according to a report made in the Legislative Assembly yesterday. Most juvenile offences were thefts and the average age was between 12 and 18. "Truancy ran rampant. Only 15 were females."

DECLARE POLISH PRIEST SUICIDED

Soviet Authorities Claim He Took Life After Receiving Threats. KIEFF, Ukraine, March 13.—The Soviet authorities now declare that Father Andrej Fedoukovich, a Polish Catholic priest, reported to have been buried alive at Jitomir by agents of the secret police, killed himself by saturating his body with kerosene and then applying a match. His act, the authorities aver, was prompted by the receipt of many threatening letters from other priests, who took exception to his communications to the Pope, in which he urged the Vatican to prevent the Polish priesthood from indulging in anti-Soviet propaganda.

Milltown Home Destroyed By Fire

ST. STEPHEN, March 13.—Fire completely destroyed the residence and barn of Frank Egan, of Milltown, this afternoon. The fire started in the barn which contained a lot of hay and all was soon a mass of flames which spread quickly to the shed and house, completely destroying all of the buildings. A strong breeze was blowing and the fire departments from St. Stephen and Calais were called to the scene and the flames were checked from spreading to the nearby buildings. The loss was only partly covered by insurance.

DO QUICK WORK PICKING SETTLERS

Officials Have Selected 2,100 Britishers so Far to Come to Canada.

OTTAWA, March 13.—Rapid progress is being made in the selection of the British families under the Empire Settlement scheme for immigration to Canada. Up to date, according to a statement by the Land Settlement branch of the Department of Immigration and Colonization, 425 families, consisting of 2,100 persons, have been approved for selection. These will be furnished with a total of \$687,500 of capital by the British Government, under the scheme in order to provide them with farming equipment.

WALKED THE FLOOR FOR HOURS NERVES WERE SO BAD

Wherever there are people who are troubled with deranged nerves they will find in Milburn's Heart and Nerve Pills a remedy that will restore the equilibrium of these deranged centres and bring back the shattered nervous system as a perfect condition. It is a very weak, run-down condition; my nerves were all broken up; could not sleep at night, would have to get out of bed and walk the floor for hours.

Always Tired in the Mornings

MISS M. BROCK, 118 David St., Kitchener, Ont., writes:—"My system became generally run down. I was nervous, tired and subject to headaches. After using nine boxes of Dr. CHASE'S NERVE FOOD I felt like a new person, could sleep and eat well and was relieved of all the old symptoms."

NERVOUS bankruptcy is being courted by the young women of today," says Dr. Mosher, widely known authority on women's health.

"In her desire to not miss anything she burns the candle at both ends, cutting short her sleep, hurrying or omitting meals. "This disregard of periods of rest and sleep must necessarily lead to a breakdown of the nervous system, a condition which is the despair of the physician." Among the early indications of trouble are irritability, restlessness, indigestion, headaches and sleeplessness. The rational treatment is DR. CHASE'S NERVE FOOD to revitalize the wasted nerve cells. This medicine is so natural and gentle in action and so wonderfully potent as a restorative that you will soon see the benefits derived from its use.

GASOLINE TRAIN

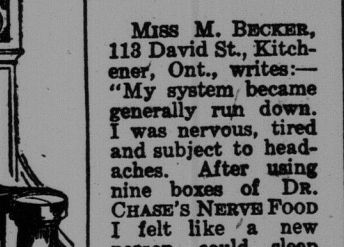

Boston and Maine Railroad to Start Service Between North Adams and Troy. BOSTON, March 14.—The Boston & Maine will try out a two-car gasoline motor-driven train between North Adams, Mass., and Troy, N. Y., beginning March 16, as part of a plan to reduce costs in territory where traffic is light. A considerable saving is anticipated. The announcement said, however, that in certain sections of the highways the traffic is insufficient to support even this type of equipment, and the only remedy lies in abandonment of the line.

SAMUEL F. HATFIELD DEAD AT AGE OF 83

Had Been Many Years in Ship Chandlery Business in Saint John.

One of the oldest residents of Saint John, Samuel Fairweather Hatfield, aged 83 years, died yesterday afternoon at 4 o'clock, at his home, 282 Princess street, after a brief illness. Mr. Hatfield was actively interested in modern affairs and was down town a few days before he took to attending to business matters. He was the son of the late Henry T. and Sarah Fairweather Hatfield, of Springfield, Kings county, both of Loyalist stock. He was twice married, first to Miss Janet M. Corey, of Springfield, in 1876, and again in 1916 to Mrs. Annie Trueman Tait, of this city. He had no children. Mrs. Ella Booth and Miss Annie L. Tait, all of this city. He leaves three brothers, Walter T. of Temple, York county; John W. and G. Corey Hatfield, and one sister, Mrs. G. H. Seaward, of Newton, Mass. A niece, Mrs. Forsyth, resided in Matamoras, Mass.

WILL DISCUSS PURCHASE OF HYDRO RIGHTS

International Paper Co. Head to Meet Cabinet in Capital Friday

MILLION OR MORE IS SAID TO BE INVOLVED

Company Reported Planning Big Industrial Enterprise in This Province.

FREDERICTON, March 13.—President Graustein of the International Paper Company is to be here from New York next Friday, March 20, to discuss with the Provincial Government terms under which the rights, leases and properties of that company on the Saint John River, at Grand Falls, and above that point, as far as Van Buren, Me., may be taken over by the province in connection with the proposed Government hydro development at Grand Falls.

When P. T. Dodge, predecessor of Mr. Graustein, was last in Fredericton, several years ago, he asserted that up to that time these holdings represented an actual cash outlay in purchase prices, interest and taxes and various carrying charges, of more than \$1,100,000 so that a matter of \$1,000,000 will probably be involved in the settlement that is to be discussed.

Elaborate Scheme Reported.
It is also reported, according to stories published here today, that Mr. Graustein has completed an elaborate industrial development scheme for New Brunswick in connection with the policy under which the Canadian International Paper Company is being organized with huge capital and the International's pulp and paper mills in the United States are being moved to Canada so

To Bring In Bill On Freight Rates

OTTAWA, March 13.—The freight rate situation in Canada at present is far from satisfactory for anybody, and for that reason the Government will bring in legislation as expeditiously as possible. This was the statement today in the House of Commons by Hon. George Graham, Minister of Railways and Canals.

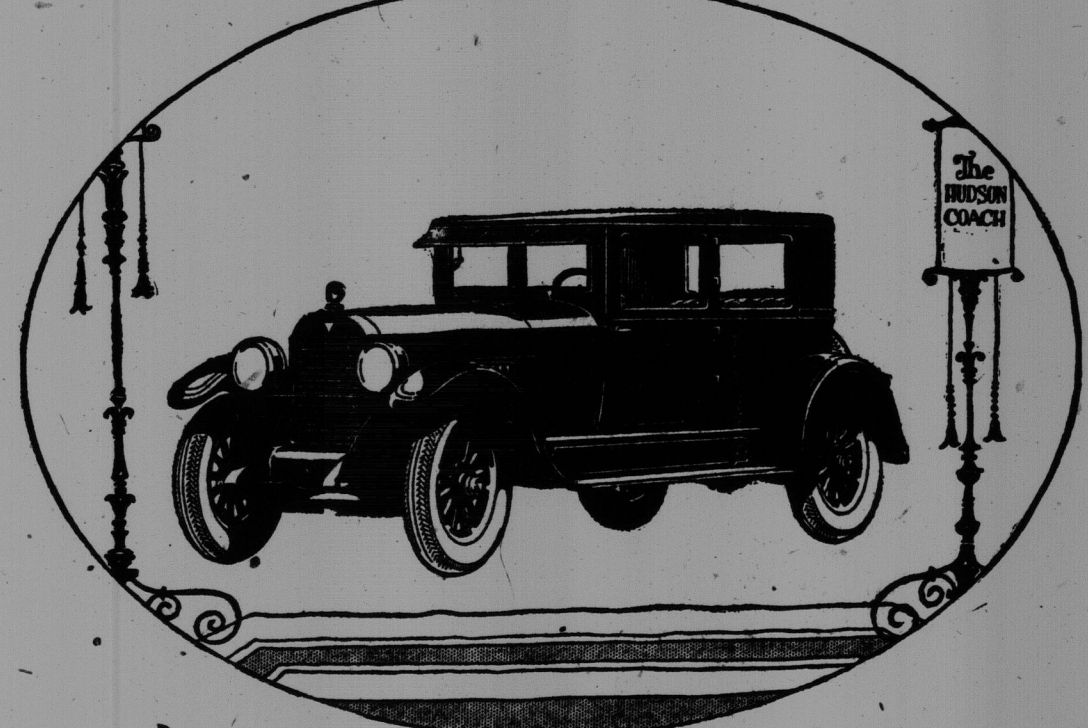

HERE FROM FREDERICTON.

Among the members of the Legislature arriving in the city last night en route from Fredericton to their homes for the week-end recess, were: Hon. A. A. Dysart, Buctouche; Hon. I. C. FOR TEN YEARS "The World's Greatest Buy"
Everyone Says It—Sales Prove It

Hudson is not called "the World's Greatest Buy" for today alone. That is acknowledgment of ten years' constant refinement of a great car around the famous patented Super-Six principle.

The reasons for that position affect all motor car buying. They cannot be ignored.

A supreme and exclusive motor principle, adding power, smoothness, performance, without added weight, cylinders or cost. The largest production of 6-cylinder closed cars in the world—and the value advantages of that position. Actual proof of greatest value—which is SALES. And now the greatest price advantage with the finest quality Hudson ever offered.

It is only as you find the real comparisons for Hudson qualities among the costliest cars that the enormous difference in price is so astonishing. All now know that higher price can buy no smoother performance than Hudson's. It cannot buy more brilliant results in pick-up, power or speed. It cannot buy greater reliability or endurance. And with all this capacity and flexibility Hudson keeps the economy, simplicity and easy maintenance of the "Six." At today's prices need you own a lesser car? Can a costlier car satisfy you more?

Laclede Gas, However, At-
tains Record Top Price
of 167.
TONE GENERALLY
FIRM IN MONTREAL
National Breweries and At-
lantic Sugar Both Yield
Fractions.

NEW YORK, Mar. 14.—Stock prices
moved irregularly lower at the opening
of today's stock market. Utah
Securities, General Electric and Texas
and Pacific each reacted a point, and
American Woolen dropped 1-8. In-
dependent strength was shown by
Laclede Gas, which attained a record
top at 167, up one point. American
Can opened one-quarter higher.
MONTREAL, March 14.—Prices
were firm at the opening of today's
stock market, with Detroit United
Railway and Steel of Canada the most
active issues. The former strengthened
a point to 102, up one-quarter to 108;
Winnipeg falls, up one-eighth to 42.
A few stocks lost ground, notably
National Breweries, which was off one-
quarter at 51 7/8, and Atlantic Sugar,
of a similar fraction at 24 1/2.

18 THE EVENING TIMES-STAR, SAINT JOHN, N. B., SATURDAY, MARCH 14, 1925
PRESIDENT CALDER DECLARES CANADIENS N. H. L. CHAMPIONS

TIGER PLAYERS STAND PAT ON BONUS DEMAND

Title Decision Arrived At When Deadlock Reached

HAMILTON, Ont., March 14.—Canadiens are champions of the National Hockey League. This title was bestowed on them this morning by President Frank Calder, after he had been assured by the local owners that the players are standing firm in their demand for \$200 each.

Will Leave For West.

According to President Calder, the Canadiens will leave for the West at once, as the Western hockey moguls have decided to move the play-off dates forward.

The Hamilton team of the N. H. L. was at the top of the league schedule after the season's playing, and the players demanded \$200 each to play in play-off games for the right to meet the champions of Western Canada for the Stanley cup.

Win Final Games.

The final game in the series between the Canadiens and St. Pats was played in Toronto last night and was won by the champions, 2-0. Veinies in goal played a great game and St. Pats failed to get the rubber past him.

SAINT JOHN BOY IS LAUDED BY MIAMI PRESS

Arthur B. Walsh Gets Glowing Praise for Work on Stock Stage

FINISHES ENGAGEMENT ON NEXT SATURDAY

What Writers Say of His Work in Principal Plays Recently.

Copies of newspapers received recently from Miami, Florida, seem to indicate that Arthur B. Walsh, of Saint John, who last left here last year to try his hand on the professional stage, after a few years' work as an amateur, is more than making good. They after day press notices of shows presented variously describe the work of Mr. Walsh as "the hit of the performance," "the most intriguing bit of work in the whole show," and so on in similar strain all the way through.

In a letter received here by friends yesterday, Arthur announced that the Temple Players, with whom he has spent the season, will finish their engagement in Miami next week-end, but as to what his plans for the immediate future were, he was unable at the time of writing to say. Last week he played the part of the Judge in "Common Clay," which was presented here last season. His role, it will be remembered was the principal character part in the piece.

Here are a few extracts from the newspaper reviews of some of the shows in which Mr. Walsh had played: "STRANGE BEDFELLOWS"—"Personally Arthur B. Walsh's characterization of 'Butch McKenna' is the most intriguing bit of work in the whole show. McKenna was a delightful sort of politician, with a delicious brogue and a flaming red necktie... and, as portrayed by Mr. Walsh, he was almost too good to be true."

"TIGER ROSE"—"The thing that is causing so much comment about the performance of 'Tiger Rose' is the amazing Scotch burr achieved by Arthur Walsh. Walsh is not a Scot, being plain Yankee (?), but a Scot declared last night that he spoke as pure Scotch as he had ever heard. 'How in the world the man ever imitated Scotch, I don't know, because it is the hardest in the world to imitate; but he has it down to an art.'"

On Monday and Tuesday evening, a three-act drama, "The Will; The Wish," will be put on in St. Patrick's

Is Making Good

ARTHUR B. WALSH, Saint John boy who, according to press reports, is succeeding well on the stage at Miami, Florida.

The actions of the audience, then the Trueman Buckmaster of Arthur B. Walsh made the hit of the performance. These are but a few of opinions, taken from the reviews of many of the shows in which he has worked, but they would appear to afford sufficient evidence to judge that Arthur is succeeding in his new field. Many who saw him play smaller parts for the Carroll Players here last season, predict that he will go high in the theatrical profession if he takes it up permanently as his life work.

ST. PATRICK'S DAY PLAYS FOR ORPHANS
