BRVIAN'S PLATFORM WILL NOT BE FULLY ENDORSED

Democrats Prefer Not to Adopt All His Government Ownership Ideas But Will Formulate a Different Policy.

CHICAGO, April 20.—A despatch from Omaha says: The Democratic National platform of 1908, if Wm. Jennings Bryan controls the convention, will not demand absolute government ownership of railroads. This was authoritatively announced yesterday by Jas. C. Hahlman, national committeeman from Nebraska. The statement is in the nature of an official announcement for the reason that Mr. Hahlman is in close touch with Mr. Bryan and recently has been in conference with him over the plans and policies of the forthcoming campaign. From the same source it is stated that the tariff will be a dominant feature of the platform. Mr. Dehman says the prominent planks in Mr. Bryan's declaration of principles will concern trusts, the tariff, state regulation and money. The railroad ownership plank, of course, will be conspicuous by its absence. Constitutional guarantees will have strong endorsement and the acceptance of campaign contributions from trusts and large corporations will receive severe condemnation. The platform will define the necessity for and proper use of money contributed for running the campaign. Usurpation of power by the president will be as strong point and the convention will be asked to censure President Roosevelt in that respect as well as in accepting campaign funds from trusts. Governmental economy will receive the usual attention and a halt will be demanded in naval extensions. It will be declared that the vast sums spent on armament may be much better employed in irrigation of the plains of the west. Development of river navigation is to be endorsed. Election of senators by direct vote of the people, reform of civil service rules and a strong foreign policy will be strongly proclaimed and pledged. No concessions of any sort are to be made to the Populists beyond a general invitation directed to all classes to join forces with the Democratic party in an effort to enforce the principles proclaimed and demanded in the Democratic faith.

NEED NOT RESPECT THE UNITED STATES UNIFORM

Soldiers or Sailors May be Excluded From Dance Halls Just the Same as Anyone Else.

PROVIDENCE, April 20.—Chief Yeoman Fred Buesele, who was barred from a dance hall, because, as he claimed, he was wearing the uniform of the United States navy, can recover at law only the price of his admission ticket, according to a decision handed down today, in the Superior Court. Judge Sweetland, who wrote the decision, rules that Buesele is in no different position legally than one who was not in evening dress, or for any reason that may be advanced as a whim of the defendant. In other words, the judge said, the proprietors of a place of amusement are not under any obligations to admit any person whom they may choose to exclude. Later suit was brought against the Newport Amusement Association, proprietors of a dancing pavilion at Newport, from which Buesele was excluded last September because he was wearing a naval uniform. The magistrate tendered to him the 25 cents he had paid for his ticket but Buesele immediately brought suit for damages. He was given financial support by officers stationed at Newport and President Roosevelt sent a check to help defray the expenses of prosecuting the case.

COULD NOT FIND THE BODY OF HENRY LAWSON

Zeebeek Sloop Gets a Good Job on the G. T. P.—Scott Aot Vases Dropped

WOODSTOCK, N. B., April 20.—Zeebeek Sloop of Tracey's Mills has been appointed one of the sprayers of land damages in connection with the Transcontinental Railway. The position is a lucrative one. It is generally understood that R. Wilnot, Jr., who has been recommended as successor of late E. Harold. He is a retired merchant. Stella, the 3-year old daughter of Wm. Hill, died this evening from paralysis of the throat and stomach following an attack of diphtheria. Deputy Sheriff Foster and a posse have returned from an unsuccessful search in the woods for the body of Henry Lawson who is supposed to have perished in a storm some weeks ago. In the police court yesterday three Scott cases were dismissed for lack of evidence. A number have been entered against a well known colored man accused of pecked peckling.

W. E. SCULLY SWEARS ST. JOHN ICE CO. THREATENED TO PUT HIM OUT OF BUSINESS

Interesting Evidence of a Long Continued Fight Heard Before Government Official Today—Shore Line Insists That Railway Law Was Not Violated

As a result of the charges made by the St. John Ice Company that the New Brunswick Southern Railway Company was hauling ice for the Union Ice Company at a rate less than the tariff rate for hauling such ice, George Brown, chief clerk of the traffic department of the Railway Commission, held an investigation into these charges this morning and the evidence of P. W. Wetmore of the St. John Ice Co., was taken.

Mr. Wetmore showed that he was a greatly titled person as he is general freight and passenger agent, accountant and auditor of the New Brunswick Railway Company, besides doing some other auditing and being in with Col. McLean in the fire insurance business. Mr. Wetmore said that there never had been any discrimination against the St. John Ice Company, that Mr. Seely had come to him and that he had offered Mr. Seely the same rate as Mr. Seely was getting.

Col. McLean—"Was Mr. Seely's name mentioned?" Mr. Wetmore—"Yes, it was." The witness in his evidence also showed that during the past year the New Brunswick Southern had had a deficit of \$40,000.

J. D. Seely, the president of the St. John Ice Company, was the next witness called. He stated that the ice company was a joint stock company with James Jack as secretary; L. G. Crosby, vice president; James Y. Russell, James H. Dooly, D. J. Purdy and W. H. Purdy as a board of directors. Mr. Seely stated that Lily Lake furnished all the ice used by his company. His company, however, have cutting rights on several lakes leased to them by the Park Association. For these lakes they pay a yearly rental of \$70. His company also have leases of Robertson, Crystal and Crescent lakes.

"Did any person ever cut in these lakes besides the St. John Ice Company?" "Yes, Mr. Law did, previous to 1900." "Did you get the leases of these lakes to prevent Mr. Law from getting ice out of them?" "No, we acquired these lakes when we bought Mr. Law out in 1900."

"Did you buy Mr. Law out so that he would not be a competitor of the St. John Ice Company?" "Mr. Seely, I was strongly opposed to buying Mr. Law out."

A man by the name of Walsh is still a competitor of the St. John Ice Company. The witness was of the opinion that Walsh did not do very much business. Had the weather conditions continued favorable in the United States the St. John Ice Company would have sent ice to the United States, had they known that there was a sixteen cent per ton rate for company ice over the N. B. Southern. Mr. Seely said that when he went down and tried to buy out the output of the ice of Mr. Seely that he was acting on his own behalf. "If Mr. Seely did not get a cheap rate he would not be able to put the ice in as cheap as we could as Mr. Seely could not make a profit of \$1.25 per ton."

Col. McLean—"Do you not know that for three years Mr. Seely was getting the four dollar rate?" "No, but I suspected there was some crooked work."

Col. McLean—"Well if you suspected that there was crooked work among the officials of the railway why did you not come and report the same to me, as you know that I was the head of the Shore Line Railway in this city?" "I thought you were in the same boat."

Dr. Macrae to Col. McLean—"You were not like Caesar's wife." Col. McLean—"When you first learned of what you say I crooked work and you would not complain to me that there was any wrong why did you not enter a complaint to Russell Sage the head of the road?"

"I heard you say the other day that there was no use seeing Sage as you could not get anything out of him." Col. McLean—"That is absolute nonsense, for how could you see Russell Sage. He is dead, and you surely must know that he is dead. As a matter of fact, Mr. Seely, did you not know what the New Brunswick Southern was charging Mr. Seely and was it not brought up before a meeting of the directors of the St. John Ice Company?" "I don't know."

Col. McLean—"You never know anything."

In concluding his evidence Mr. Seely said that the St. John Ice Company had never tried to buy out Mr. Seely and furthermore they would not buy him out.

Wm. E. Scully was the next witness. He said that he was sole proprietor of the Union Ice Company. He had been in the ice business since 1902. "During the season of 1905 I would say that there would be about 2500 tons of ice cut by my company. In 1906 my business increased to about 3,000 tons." The witness then showed how the four dollar rate originated and claimed that it had been in vogue for years, and he further stated that for 20 years past all cars were billed at 20,000 pounds. He said that the St. John Ice Company had on different occasions tried to buy him out and they had also threatened him that if he did not sell out they

TWO BOLD BURGLARIES IN THE CITY LAST NIGHT

Barker's Grocery on Princess Street, and George E. Price's Branch Drug Store Entered—\$15 Stolen from the Latter Place—Two Men Did the Work

It was discovered this morning that crooks managed a couple of successful breaks last night or early this morning, and in each case the use of a jimmy came in for effecting an entrance. The places broken into were Barker's white store on Princess street and Geo. E. Price's branch drug store on the corner of Union and St. Patrick streets. In both cases the breaks were not discovered until the clerks of the stores opened up for business this morning.

At the Barker store the burglars had easy access to the safe and used violence with the cash register. They must have been very much disappointed on finding both empty. Entrance to the Princess street establishment was made from the rear. A window that has not been opened for years was raised and the marks of a jimmy or some smaller instrument are left on the window sill. The rear of the "White" store can be approached not only from an alley off Princess street but from the stable yard off Horsfield street. After the large window had been raised the bar on the rear door was open and the keys to the door were taken and the door was opened. The safe and cash register are near the front of the store and were not touched. The door was open and the keys to the inner door and apartments are left in the safe. The drawers were unlocked and the register, which weighs 125 pounds, was carried through the shop and out into the back yard, where the drawer was pried open, and finding it empty, like the safe, it was left in the yard.

The only other things disturbed were two boxes of chocolates that had been taken from the front window. These were left on a shelf near where the safe is situated.

Messrs. Barker and Price have both reported the matter to headquarters and the police are working on the cases although no information regarding the breaks could be obtained from them this morning.

ing on the side walk and he might take warning as well as the boys. The magistrates also said there were two very important messenger boys who had been reported to and that they had better mend their ways.

He spoke for some time on the act that provides for streets and side walks being kept clean. He said the police should be sharp and report persons who threw fruit, paper, etc., on the street and if commenced early the city would soon be in a good condition. It was much better that this be attended to than bringing drunks into jail.

D. Russell Sage's name was called out by the court sergeant, but there was no response so the magistrate ordered that a summons be issued for him. Mr. Jack was notified by the court sergeant and charged with obstructing the Union street sidewalk with a large number of empty barrels.

The case against Mr. McAfee for lying and lurking in a vacant store on Main street was set over until Monday.

Golding and London, charged with smatching and stealing a suit from Mrs. Wood on Good Friday night, were brought into court this morning and remanded again. It looks as if the three thousand dollars bail for each cannot be secured and that next week they will be committed for trial.

TONIGHT'S MEETING. It is expected that the public meeting to be held in Berryman's Hall this evening, for the purpose of presenting to Premier Pugsley a petition asking him to accept nomination for St. John, will be largely attended. A long list of speakers has been prepared. Among those who will speak are W. H. Barnaby, T. H. Estabrook, T. McAvity, B. R. Macaulay, A. O. Sittner, P. Mooney and others. Thos. Gorman will preside.

It is not yet known who will read the petition.

The engagement is announced of Miss Kate Lingley Troy, daughter of Mr. and Mrs. James Troy, Newcastle, to Mr. William Hale Hamby of the Northern Bank, Ledley, Sask. The marriage will take place in June.

BRITISH TORPEDO BOAT SUNK RAMELA, Island of Malta, April 20.—While manoeuvring outside the Grand Harbor late yesterday the British torpedo boat Ariel collided with the breakwater and sank. One man was drowned. The Ariel lies in deep water and it is expected that she will be a total loss.

WOODSTOCK TRAIN WAS DERAILED TODAY FRIDERICHTON, April 20.—The Woodstock train, which left this town this morning, went off the track about six miles above here. Two freight cars were smashed, but all escaped uninjured. The cause of the accident was a displaced rail.

Private Gauthier, who escaped from the C. R. I. school here some time ago, was arrested last night in Montreal, and a sergeant and private have left here to bring the man back to the city.

ELEVEN HUNDRED HOUSES IN THE PHILIPPINES BURNED MANILA, April 20.—Fire destroyed 1,100 houses and parts of the districts of Singalong and Paco this afternoon. The American settlements at Ermita and Malabte escaped destruction. Two freight cars of the firemen assisted by soldiers and citizens. The flames, fanned by a heavy gale, swept an area of 100 acres clean within two hours and destroyed the homes of one hundred residents and ten thousand natives. The native refugees are now sheltered in the schools and other public buildings while many are camping in open spaces. The damage is conservatively estimated at \$200,000 in gold. No casualties are reported.

A PERMANENT COUNCIL ON IMPERIAL DEFENCE In Which the Colonies Will be Represented—New Department in the Home Office. LONDON, April 20.—The colonial conference at today's session unanimously agreed to support the creation of a new permanent department of the colonial office, with an independent secretariat. Matters of general imperial interest will be looked after. The conference also decided to hold imperial conferences every four years, the new department dealing with matters arising during intervals between the conferences. A full staff, whose duty will be to deal with matters of imperial defence, will also be constituted, and include representatives of all the self-governing colonies.

RUMORS OF PLOTS TO BURN EXHIBITION BUILDINGS LONDON, April 20.—Remarkable rumors of plots to burn down the buildings of the industrial exposition, which was to have opened in May, but which are said to have been discovered in time to frustrate them, are published in the afternoon papers today. The plots are attributed to the advanced political sections of the exposition, which admitted are opposed to the exhibition, claiming that the highly developed products of other countries should not be placed beside those of Ireland, which are not so highly developed.

SPORTING MATTERS
MERRITT AND LADY
PARTNER IN TRIPLE TIE.

The four-team tie for the lead of the six day race at the Park square rink was broken last night by the Shinkwin-O'Connor pair dropping a lap. This leaves a triple tie between Merritt and Miss Harris, Holden and Miss Libby and Gendron and Miss Shaw. Shinkwin and Miss O'Connor are on even terms with Hamilton and Miss Cornett, a lap behind the leaders. Nessey and Miss Klinger, who started the hour's grind on even terms with the Hamilton-Cornett team, dropped a lap. The Butterfield-Miller team fell behind three more laps, and young Hamilton, who was teamed with Miss Riley, lost eight laps. Shinkwin lost his lap by a fall. The other team sat once seized the opportunity of dropping him. It was a wild sprint for about 15 minutes, and then Hamilton, Merritt, Holden and Gendron secured the lap.

Miss Cornett skated on even terms with Merritt, Holden and Gendron for mile after mile last night. Hamilton tried to start sprints for his lap several times, but was never able to open out more than a dozen or 15 yards on the bunch.

Tonight the fifth hour of the race will be skated at ten o'clock. The score:
Team. 4th night. Total
No. M.L. M.L.
1 Merritt and Miss Harris. 23 3 95 3
2 Holden and Miss Libby. 23 3 95 3
3 Gendron and Miss Shaw. 23 3 95 3
4 Hamilton and Miss Cornett. 23 3 95 3
5 Shinkwin and Miss O'Connor. 23 3 95 3
6 Nessey and Miss Klinger. 23 3 95 3
7 Butterfield and Miss Miller. 23 3 95 3
8 Hamilton, Jr., and Miss Riley. 23 3 95 3

BASEBALL
FOUR TEAM LEAGUE.
The executive of the Inter-Society Baseball League met in St. Peter's rooms on Thursday evening and decided to continue the league as last year, teams being entered by St. Peter's, St. Joseph's, Father Matthew and St. Rose's societies. The meeting adjourned till the first of next week, when a schedule will be drawn up.

Besides the evening games matches will also be played on Saturday afternoons.
BIG LEAGUE GAMES.
National League.
At Boston—Boston-New York game postponed; wet grounds.
At New York—Philadelphia-Brooklyn game postponed; wet grounds.
At Pittsburgh—Pittsburgh-Chicago game postponed; snow.
At Boston—New York, 4; Boston, 1.
At St. Louis—Cincinnati, 1; Saint Louis, 4.

The annual meeting of the King's Daughters will be held at the Chipman Hill on Monday evening, the twenty-second of April, at half-past seven. A full attendance is earnestly requested, as business of importance is to come before the meeting.
Stop and think about your eyes. They are the windows of your life. You simply give them a rest and you are relieved. But they ought not to pain you with ordinary use. There is something wrong. Let D. Boyaner, graduate optician, 33 Dock St., test them.
Yesterday afternoon Lewis Belyea, while riding a bicycle on Charlotte street struck Mrs. W. L. Robson with his wheel and knocked her west. Mrs. Robson was quite severely injured and was carried into Puddingstone-Merritt's store. After recovering from the shock she was taken to her home on Coburg street. Belyea has been reported by the police for having no bell on his bicycle.
The Seventh Day Adventists, who meet in Foresters' Hall on Charlotte street, will hold Sunday night services regularly, beginning at 7 p. m. Elder J. O. Miller from Dayton, Ohio, will speak on Sunday evening, April 21st. The subject will be: "Christ's Second Coming and the Signs preceding the Same." All are invited to attend.
Last night Rev. H. R. Reddy and teachers of the Protestant Sunday school presented to Fred Burridge, superintendent of the school, an address, because of his having spent the day of his week. They also presented an address to Mrs. James Ross.
A number of friends of W. Fred Rowley gathered at his home, 5 E. Andrew's street, last evening in honor of his birthday and a very pleasant time was spent. On behalf of the company, Mr. Simpson presented to the popular young clerk a fountain pen. Mr. Rowley suitably replied.

WILL TAKE ACTION.
Mrs. George F. Strange, of 77 St. Johns street, was thrown from a street car last evening and as a result she is confined to her bed, suffering from bruises sustained in the accident. Mrs. Strange was on a car bound for Indiantown and gave the signal to be allowed off at St. Johns street. While leaving the car she fell, badly injuring her ankle. Several young ladies who were passing had Mrs. Strange removed to Durick's drug store and Dr. M. Ciss was sent for. He found that the ankle had been badly strained. Mrs. Strange states that the car started before she had left it and she was thrown to the street. She will claim damages from the company. Mrs. Strange's husband is now in a Montreal hospital suffering with rheumatism.

Only one "BRCMO QUININE."
That is LAXATIVE BROMO Quinine. Similarly named remedies sometimes deceive. The first and original Cold-Treatment is a WHITE PACKAGE with black and white lettering and bears the signature of E. W. GROVE, 25c.

ANNUAL MEETING OF N. B. RIFLE ASS'N.
Bungalow to be Built on Range at Sussex--Col. McLean Re-elected President.
The New Brunswick Rifle Association held its annual meeting last evening at the headquarters of the 68th St. John Fusiliers, Charlotte street. The meeting was well attended both by members from the city and by those from out of town. The chief business of the evening was the election of officers for the ensuing year. A committee was also appointed to prepare plans and specifications of a bungalow to be erected on the Sussex range this summer. Those present from outside St. John were Lieut. Col. T. G. Loggie, Major G. S. Kinnear, Capt. S. B. Anderson, Major O. W. Wetmore, Capt. R. H. Arnold, Major D. H. Fairweather. The president of the association, Lieut. Col. H. H. McLean, occupied the chair. The first business to come before the meeting was the report of the committee. The report gratefully referred to the grant of \$1,250 which the militia department had made towards building a bungalow on the range at Sussex. Mention was also made of the renewal of the grant of \$300 made by the provincial government and legislature. The thanks of the association was also tendered those who had donated prizes during the past season. The donors of prizes were Lt. Col. G. R. White, D. O. C. George W. Fowler, M. P., Major G. S. Kinnear, the president and the vice-president. A special committee was next appointed to prepare plans and specifications of the bungalow to be built at the rifle range in Sussex. It is the hope of the association to have the bungalow completed in time for the provincial rifle meet which will take place at Sussex in August. The election of officers resulted as follows: President, Lt. Col. H. H. McLean; 1st vice-president, Lt. Col. T. G. Loggie; 2nd vice-president, Major G. S. Kinnear; representatives on the council of the Dominion Rifle Association, Capt. F. B. Carvell, M. P., Capt. J. L. McAvity, Major D. R. Street, G. G. F. G., Ottawa; members of the council, Capt. J. L. McAvity, N. J. Morrison, Major J. T. Hart, Major O. W. Wetmore, Capt. W. E. Forbes, Capt. S. B. Anderson, Lieut. J. T. McDowall, Major J. H. McRobbie, Capt. H. Perley, Lt. S. B. Smith, Capt. J. RECENT DEATHS.
RICHARD MARTIN.
REXTON, N. B., April 17--Richard Martin, one of our most esteemed citizens, passed away at his home this afternoon. He was ill about 10 days and was thought to be improving, when he died suddenly. He was about 65 years of age and was a son of the late Wm. Martin of this place. He is survived by a widow, who was Miss Elsie Glencross of Main River, and three sons, Costella and Hazen, who are at present out west, and William, who is a clerk in J. & W. Dratt's store; also one sister, Miss Ellen Martin. The funeral will be held Friday afternoon, and the remains interred in the Presbyterian cemetery.
ISAAC W. CARTER.
REXTON, N. B., April 18--The death occurred at Rexton, Tuesday evening of Isaac W. Carter, after a lingering illness at the age of 56 years. He was a carriage builder and was a much esteemed citizen. He is survived by a widow, who was Miss Janet McKay of Main River, and one daughter, Miss Maggie; also his father, James Carter of Buctouche, one sister, Mrs. David McIntosh of Attleboro, Mass., and two brothers, Charles of Kamsack, Sask., and Wm. D. Carter of Ribouctou. The funeral was held Thursday afternoon at Buctouche.

ROMANCE OF THE CIGAR.
A bride of a year ago gave her husband a box of long, lean and sickly looking cigars for a birthday present. The man smelled them, looked at the label and then, with tears in his eyes, said: "I cannot bear to smoke your present. I will keep them always as a token of your love." His wife was so touched that she went down town and ordered three boxes of the same brand and had them charged to her husband. When she gave them to him she said: "Here, dear, these are not a present. Smoke them and enjoy them."--Toupeka State Journal.

GAIN WOOD.
The death occurred at French Lake, York Co., on Wednesday last, of Gain Wood, who was 69 years of age. Seven sons survive. They are: Wm. H. Thos. P., Frank P., and Smith of French Lake; Ellis of Alaska, and Guilford and Fred of Minnesota.

HUGH MCKAY.
ST. STEPHEN, April 19--Hugh McKay died here this morning from pneumonia. He was mayor of St. Stephen in 1890. His widow and three sons survive. The sons are: D. W., of Calais; and William and Samuel of St. Stephen.

CONSTANTINOPLE, April 20.--Another carib shock was felt here and in the suburbs at four o'clock this morning.

Assessors' Notice
THE BOARD OF ASSESSORS of Taxes for the City of Saint John, in the present year, hereby require all persons liable to be rated forthwith to furnish to the Assessors true statements of all their Real Estate, Personal Estate and Income, and hereby give notice that Blank Forms, on which statements may be furnished under the City Assessment Law, can be obtained at the Office of the Assessors, and that such statements must be perfected under oath and filed in the Office of the Assessors within thirty days from the date of this notice.
Dated this thirtieth day of March, A. D. 1904.
ARTHUR W. SHARP, Chairman.
URIAH DRAKE, RICHARD FARMER, Assessors of Taxes.

Extracts from "The St. John City Assessment Law of 1893."
"Sec. 113. The Assessors shall ascertain, as nearly as possible, the particulars of the Real Estate, the Personal Estate, and the Income of any person who has not brought in a statement in accordance with their notice, and as required by this Law, and shall make an estimate thereof, at the true value and amount, to the best of their information and belief; and such estimate shall be conclusive upon all persons who have not filed their statements in due time, unless they can show a reasonable excuse for the omission."
"Sec. 114. No person shall have an abatement unless he has filed with the Assessors the statement, under oath, within the time hereinbefore required; nor shall the Common Council in any such case, sustain an appeal from the judgment of the Assessors, unless they shall be satisfied that there was good cause why the statement was not filed in due time as herein provided."

ONE ANOTHER'S BURDENS.

A few days ago, in consequence of reports on the serious conditions existing in the west because of traffic congestion, the railway commission requested the C. P. R. and Grand Trunk to assist the Canadian Northern by the loan of locomotives and cars. These two roads have no far shown an inclination to disregard this request, and the position taken by them can certainly be supported by sound arguments. They maintain that the Canadian Northern has wittily and knowingly bitten off more than it can chew. Instead of spending time and money in improving its roadbed and acquiring additional rolling stock, the Mackenzie and Mann corporation has gone ahead with new lines, building extensions and seeking business which the management knew perfectly well could not be handled. The result has been natural enough. There is a congestion such as causes most serious inconvenience and it will be some time before the road can be cleared. The other companies have endeavored to keep their equipment up to a standard which will facilitate the handling of business over all their mileage. They have met with difficulties during the winter, chiefly from unfavorable weather, but are able to put through the greater part of the freight without much delay. It is rather unfair that they should be now asked to encourage a competitor in catching up, Mackenzie and Mann followed a somewhat unwise course, and the lesson now being learned should produce a beneficial result. There is not a railroad in Canada which is properly equipped for handling even the ordinary traffic, and the great aim of all roads should be to acquire rolling stock before extending their rails into new districts.

In connection with this railroad congestion it is regrettable that those who some time ago interested themselves in the establishment of a car building plant in St. John have evidently dropped the idea. There are no doubt many difficulties but these could surely be overcome, and when there is such an urgent demand for cars that orders are placed for years ahead, it would seem that there can be no lack of business for any plant that might be established here. St. John is splendidly situated, and there is enough money lying idle in the banks to start half a dozen such factories as was talked of. The project should be revived, and active steps taken to bring about some material result. It is stated that the great obstacle is the want of a head to the concern. There must be a man somewhere who could do the work.

GOOD-BYE.

On board the Empress of Britain sailing from St. John yesterday were a number of people to whom Canada is pleased to bid a long farewell. On every steamer bound for Liverpool there are many who have found that this country is not suited to their peculiar requirements, that they are unable to adjust themselves to the conditions existing here, and that they acted somewhat unwisely in leaving the old country. At times they prefer to state that they were deceived, brought out under false promises, and led to expect more than was actually forthcoming. A good many of these English immigrants have the idea that brass bands should be stationed on the pier to blaze out a welcome, that the leading business men of the place ought to stand in line like so many cabmen, bidding for their services. They are informed that land will be granted by the government upon application, but on going to the west they are astonished to find that houses have not been built and farming implements are not on hand. These are the people who by each steamer wend their way back to England, disgruntled, and dissatisfied with Canada and everything Canadian. They are the ones we can well afford to lose. But there are many others who are of a different type, and who on reaching this new country determinedly set about the task of creating homes for themselves. They are welcome, but for the others, to them, greatest view in America is recommended, namely St. John from the stern of a steamer.

Some newspapers are in a great hurry about the as yet unannounced by-election in St. John. There is really nothing to worry about. The Liberal convention may safely be trusted to act wisely and in the interests of the province. The candidate selected will be the best man available and the convention cannot be captured by any little clique, such as is now trying to pull the wires.

The contagion spreads. The legislature of Pennsylvania with perfect and

precipitate unanimity has passed a bill doubling the pay of the members. It will hereafter be \$1,500 a year.

The prediction has now been made that the Ontario peach crop will be a failure. Will some one please rise to remark that this season's lumber cut on the St. John is a record-breaker, but that the logs will all be hung up.

IT NEVER RAINS BUT IT POURS.

As we waddle through life, every day of the strife, Is dappled with sorrow or joy; We weep or we laugh, we growl or we chat, It's a girl when we wanted a boy. We woe or we laugh, we growl or we chat, In the world that is all out of doors; Whether plowing or haying, there's truth in the saying: It never rains but it pours. If you get into trouble, it's bound to come double, For trouble runs always in pairs; If you fall off a fence at your ribs' expense, You will certainly tumble down stairs; If you stub your great toe, look out for more work, For your heel will be covered with sores; Depend upon this, be it a blow or a kiss, That it never rains but it pours.

When nature would make for her own A lovely, beautiful girl, She takes lovely measures, she searches her treasures, For a curve, a color, a curl. For better, for worse, she opens her purse, To fortune she opens all doors; She does all her duty—the result is a beauty, For it never rains but it pours.

But when she doth plan a woman or man That would stop the proverbial clock, She gets her material from a place non-etherial, And the universe gets a rude shock. To compare is invidious, but the lady is hideous, And the gentleman certainly scowls; If a mirror is handy he will see he's a dandy, For it never rains but it pours.

My friend, and my pet, just take what you get, And give thanks to the Lord it's no worse; If your mug is all mugly, be you lovely or ugly, Be sure that you never asperse The Hand that fished you, the Hand that christened you— It's the Hand that opens the doors; Silk cushions or bumps, the measles or mumps— It never rains but it pours!

MEAT AND DRINK TO HIM.

(April Lippincott's.) Professor William Lyon Phelps, of Yale, recently told this story at New Haven's Chamber of Commerce banquet. A hard drinker was told by his doctor that he could be cured if every time he felt that he must have a drink he would immediately take something to eat instead. The man followed the advice and was cured, but the habit of asking for food had become so fixed with him that once he was nearly locked up as a lunatic. He was stopping at a hotel, and hearing a great commotion in the room next to his, he peered over the transom to see what the matter was. He saw, and rushed madly down to the office and shouted to the clerk: "The man in 123 has shot himself! Ham and egg sandwich, please!"

HIS OWN BUSINESS.

(April Lippincott's.) Cittyman—"Look here, sir, didn't you want the horse you sold me yesterday to be without fault?" David Harum—"Yes, ain't he?" Cittyman—"No, sir, he is not; he interferes." David Harum—"Wal, I don't see as you hev any reason fur complainin' about that. He don't interfere with anybody but himself, does he?"

QUITE A LUXURY.

(April Lippincott's.) Lady—"How much do you charge for dachshunds?" Dog Fancier—"Five hundred dollars a yard, mum." Lady—"Dear me! How expensive! And of course I must have four feet."

IN KENTUCKY.

(April Lippincott's.) "Uncle Dick, how many toddlers does the colonel drink every day?" "Well, yo' see, boss, I eat de sugar de kummal leaves in de glass, an' long ebout de middle of de evening I gets fuddled an' loses count."

OTTAWA IS PLANNING FOR AN OLD HOME WEEK.

NEW YORK, April 19.—Natives of Ottawa, Canada, all over the country, are receiving letters from the committee who has in charge an Old Boys' and Girls' re-union in the Dominion City next July. Following the idea of the New England Old Home Week, this committee is making an effort to gather home all the sons and daughters of Ottawa who have wandered to other places. This re-union will be a great feature of the semi-centennial civic jubilee.

JERSEY CITY, April 20.—Oscar Keat, 15 years old, shot and killed himself near his home in Guttenburg last evening. The boy was a member of the graduating class of the Guttenburg grammar school and yesterday was reprimanded by his teacher and afterwards expelled from the school by his teacher. He and the treasurer of his class made an accounting to his class mates, and after telling some of them that he would never see them again, went down the road-way and shot himself. His companions heard the shot and quickly found him as he lay unconscious in the road. He was hurried to a hospital but died soon after reaching there.

SATURDAY SERMONETTE

"A LITTLE LEARNING IS A DANGEROUS THING."

I believed that musty proverb once but experience has taught me that a little learning is as harmless as a Dominion Day firecracker. Much learning is gun cotton, dynamite and chain lightning. The man with a little learning will walk about an ears' heart least where while the Angel who is afraid stays at home. The man with a little learning is elected alderman or is a preacher or edits a paper. He blunders in his history, gets muddled in his dates and murders the King's English, but he never sees the corpse and never dreams that "some one has blundered."

The man who has studied geology, physiology, psychology and all the other ologies walks in fear and trembling. There is nothing sure and steadfast. The earth is not firm under his feet, it quakes and shakes down his houses and turns his real estate upside down as quickly and surely as the real estate agent does.

The heavens above him are not to be trusted. A meteor or wandering star may collide with this planet some morning, his astronomy tells him, and then good-bye.

He cannot eat his dinner in peace; for his much learning tells him there are microbes and bacteria in every dish on the table. The man with a little learning knows nothing of microbes and if he were to meet one would not scold a bit.

The man who has got his "much learning" out of advertising almanacs, is afraid to eat and sleep and run and walk for fear his "harp of a thousand strings" will get out of tune. He reads about that "tired feeling" and he is told it means heart disease, cancer, tuberculosis and other things and dies from almanac suggestions.

The man who cannot read when he has that tired feeling knows that it is laziness (or his wife does) and then the heroic treatment is used, and he recovers and saves every bulge in his trousers and holds the baby, as usual.

The man with much learning courts a girl in a courtly way but while he is writing and memorizing a proposal he rivals with a little learning courts her more ardently, proposes in the wretchedest kind of grammar, is accepted and lives unhappily ever after.

If you want to have a good time keep as far away from learning as you can; ignorance is the mother, grandmother and mother-in-law of peace and quietness. See how peaceful and quiet it is in the council chamber.

Thadders

M. R. A., Ltd. will hold a brick sale and umbrellas on Monday morning in the Silk Room, second floor. The umbrellas are all excellent stock and are covered in a silk and were doors, Oak Dining Table, do Sideboard, Sofa, Carpets, eight doors, range and other household goods.

INTERCOLONIAL RAILWAY TENDER.

Sealed tenders, addressed to the undersigned, and marked on the outside "Tender for Double-Tracking" will be received up to and including FRIDAY, MAY 10th, 1907, for the work in connection with the double tracking of the existing main line between Moncton and Paines Junction, N. B. Plans and specifications may be seen at the office of the chief engineer, Moncton, N. B., where forms of tender may be obtained. All the conditions of the specification must be complied with.

DEATHS.

DONOHUE—On the 20th inst., of meningitis, Julia Marie, eldest daughter of Dennis and Bridget Donohue, in the 18th year of her age. Funeral tomorrow (Sunday) at 2:30 p. m. from the residence of her aunt, Mrs. Peter Dolan, corner Carleton and Dorchester streets. Friends invited to attend.

BIG INCREASE SHOWN IN AMERICAN EXPORTS

Total for Last Quarter Was \$617,900, or Nearly \$200,000 More Than for the Same Period Last Year

The following is a statement of the declared exports to the United States through the American Consulate, for the quarter ending March 31st: Bullion (gold) \$37,315.00. Cattle, \$1,152.00. Cattle, \$554.00. Emigrants' effects, \$3,619.50. Fertilizer, \$9,005.00. Fish, \$1,023.00. Fish hooks, \$1,937.68. Fish waste, \$464.05. Furs (raw), \$5,437.20. Gin, \$476.50. Grass Seed, \$480.05. Gum Chile, \$28,028.50. Hair for plastering \$270.00. Hides, \$45,359.50. Pickled olives, \$1,632.50. Pollock, \$477.00. Silverware, \$272.50. Sloven, \$127.50. Staves, \$1,423.13. Tea, \$6,761.63. Tobacco leaf, \$240.50. Wood pulp, \$150,458.94. Cattle, \$422.75. Laths, \$14,915.65. Lumber, \$77,786.19. Shingles, \$9,496.78. Grand Total, \$617,900.45. The total figures of the first quarter in 1907 are far in advance of those of the corresponding months of 1906. The grand total for the first quarter of 1906 was \$433,123.09.

The re-opening of Victoria Roller Rink on Monday evening will surely usher in the merry making season. Manager Armstrong is confident, that at the rink roller skating is being popularized all over America, that his immense floor will be taxed to capacity this spring and summer. Anticipating the rush of this kind, he has enlarged the dressing-room accommodations and has improved his musical organization by the addition of several more soloists. In its new garb of red and green with gold trimmings, and its bazzar-like decorations, the old Vic is handsomer than ever.

LIVER DULLNESS

When your liver is sluggish the certain result is that you will be dull, lazy, and dispirited. The vim that makes life worth while is lacking. Parisian Police Detain a Girl Who Refuses to Tell Her Name of a Sick Man Who Had an Exciting Ambulance Ride—League Formed for Legible Writing

PARIS, April 20.—Friends of Charles Lecocq, the composer of "La Fille de Madame Angot," which everyone in France has hummed and still hums, intend to arrange some kind of a memorial of his jubilee, just what has not yet been determined. It is just fifty years since his first opera, "Le Docteur Miracle" was brought out. The work had a curious history, which he tells modestly. Offenbach offered a prize for the best scenario on a one-act libretto by Ludovic Halévy and a forgotten writer, Battu. "I had the honor," says the veteran composer, "of coming up top ex-sequo with a maid who afterwards became famous, Georges Bizet. His composition was wonderful. Bizet's and Lecocq's operettas were played on alternate nights. Lecocq's greatest success, "La Fille de Madame Angot," was first heard in Brussels. The composer sadly says that he writes no more operettas, because the public of France seems to want no more. He has made a conscientious attempt to keep up with the new school of French music, but he comes to the conclusion that it was beyond him that he could make nothing of it, and he gave up trying.

A mysterious girl has fallen into the hands of the Paris police, who are greatly puzzled about her. She refuses to give her right name, because she refuses the agents of the law suspect there may be a criminal reason for it. The girl is a pretty dark-haired, round-faced creature, under twenty years of age apparently, and seems to have come from the neighborhood of Cambrai. Some men saw her on a barge arrive from Cambrai. She had a basket of old clothes on her and, was about to walk away when the men stopped her. They asked her who she was, and when she refused to give any explanation they escorted her to the nearest police station. Here the girl at last descended to give her name, or at least what she says was her name. According to her story she had long wanted to come to Paris and having no money had concealed herself in a rooming house which brought a cargo of logs to Paris, and had not been seen by anyone on board. The police have investigated and have discovered that she gave a false name and address at Cambrai, and they announce their intention of holding the young woman in custody until the mystery is cleared up.

It is a point of honor for anyone who is anybody in France to sign illegibly. But the woman who has deluged hieroglyphics in turn of late. There has been formed a "League of Protest," against all illegible handwriting and signatures, chiefly to this new society is "curious." It, those of government officials. The motives only a person who is infirm, or one who does not know his own father, to sign illegibly. But the joke about the matter from the point of view of the Parisian, is that it is impossible to decipher the name of a gentleman or perhaps lady who signs the league's manifesto.

In a French country town a strange and peculiarly unclean collection is being put up for sale. It has taken the owner a eccentric cost just dead, years to get it together. He spent the greater part of his life time in buying specimens of every known brand of cigar. The collections, numbering thousands of samples, all of which have since become unsmokable, is said to be well nigh complete. The original price of the now spilt cigars must have been at least \$2,000. It is said that the heirs of the estate desparing of disposing of the collection in France are thinking of opening up negotiations with the Americans.

An unlucky patient who was to be taken to one of the city hospitals, had an experience which would give him a good reason for being so very soon as a result of it. The ambulance in which he was being conveyed was being drawn by a rather young horse which shied at a railway train near the Bagnon viaduct. The horse tore madly up the viaduct and finally jumped over the wall. The shock sustained by the unhappy patient in the course of this race may be imagined. But his troubles were not yet at an end. When the horse jumped over the wall, it remained suspended by the traces some yards from the street below, while the ambulance hung on the other side of the wall in such a way that the patient could not be removed until the ambulance and the horse were sundered. The firemen of the quarter were called and at once proceeded to horse had to be sacrificed and cut the traces. But to the surprise of everybody the animal instead of breaking its neck on the pavement below landed on its feet and was uninjured. The ambulance was then righted and the patient taken more dead than alive to the hospital.

A girl burglar has been discovered at Lille, She has, according to her own confession, robbed a wealthy woman of large sums of money. Some time ago neighbors saw what they thought a strange man with his face blackened of its occupant, and leave it again soon after. On the following day it was discovered that a number of valuable articles had been stolen. The servant of the house was known to have a lover and suspicion at once fell on him. He was arrested and later the maid was also taken into custody. The girl and her lover were confronted by the judge

and the man apparently (the charge) The maid then made a sensational admission. She said her lover was not guilty and that it was herself who had dressed up as a man, blackened her face and robbed the house. She also confessed that this was not her first attempt and admitted having served previous mistresses in a similar fashion, in one instance robbing a lady of not less than \$5,000.

BOSTON WOMAN SUES KING OF GREAT BRITAIN

Edward Ows Canadian Railroad Upon Which She Was Injured.

BOSTON, April 19.—Sued by an American woman, His Majesty Edward VII, King of Great Britain and Ireland and Emperor of India, has been made the defendant in equity proceedings for personal injuries to Annie Mason, of Boston.

FIGHTING HER SON MOTHER KILLED HERSELF

NEW YORK, April 19.—In the presence of her 7-year-old boy, Georgie, who vainly tried to stop her, Mrs. Jennie Robinson Conklin, 46 years old, of 334 East Ninety-sixth street, the wife of a paperhanger, cut her throat this morning with a bread knife during a fit of despondency.

While Georgie was playing at blocks in the sitting room she went to the kitchen, seized a bread knife and began to slash her throat. Although determined to end her life, she could not suppress cries of pain, Georgie heard them and ran into the kitchen, but she paid no attention to the child, and continued to hack her throat.

Georgie's next thought was to go to his brother in the school building. When the child rushed screaming into a classroom and crying, "Oh, Willie, go after papa, mamma is cutting her throat," the teacher was not slow in understanding. She called up police headquarters, and ambulances were sent from the Presbyterian and Harlem Hospitals. She died a few minutes after their arrival.

THAWING DYNAMITE; BOYNE WENT ELSEWHERE

TORONTO, April 19.—At Halesbury yesterday Harry Boyne, of Welsh, England, was thawing dynamite out on a toaster on a cook stove when it exploded. He was horribly mangled. He lived about an hour but never regained consciousness. Mrs. Premies, housekeeper, was rendered unconscious and received internal injuries. The doctor entertains hopes of her recovery. The building belonged to Beach and Williams and is a total wreck. The loss is estimated at about \$2,000.

BELIEVES THE CHILD IS HIS MISSING BOY

NEW YORK, April 20.—A despatch from Dover, Del., says: Dr. Horace N. Marvin believes the child held by the police at Gloversville, N. Y., is his little son. He said last night: "I think it is Horace. I got a photograph from Gloversville and immediately sent a telegram to Mr. Stanish to wait for me. The photograph resembles him more closely than any I have seen. The statement that he has a brother Johnnie and no mother further convinces me that it is my boy." Mr. Marvin seems joyful over the reports from Gloversville.

ST. PAUL, Minn., April 20.—The Great Northern R. R. yesterday decided to accept the two-cent passenger commodity schedule. The other routes will probably take similar action. The law goes into effect on May 1st.

HOW THE SCOTTISH COURTS DEAL WITH AN EMPEROR SUPPOSED TO BE INSANE.

The Trial Ordered to Proceed, and the Crown Submitted Evidence Which Resulted in a Verdict of Insanity and the Sentencing of the Prisoner to an Asylum --- Interesting Military Operations.

GLASGOW, April 20.—Visitors to the Highlands during June this year should find additional interest in the romantic country around El Athol and the pass of Killarankie. Military operations are contemplated in the Grampians and they will be based to some extent on the campaign of Montrose in 1644 and 1654.

The manoeuvres will be watched with special interest in Glasgow owing to the inclusion of volunteer artillery in the scheme. One of the crack Glasgow corps, the 1st Lanarkshire R. G. Artillery who are now classed as field artillery, have been selected to work with the Royal Field Artillery. They are to furnish two batteries of four guns each. Forty-eight horses will be attached to these batteries which will be accompanied by two ammunition wagons with four horse teams, two transport wagons, and the staff transport.

A most important pronouncement upon the subject of law costs has just been made by the Lord president of the Court of Session. Lord Dundie, like some of his predecessors, is unimpaired by convention when he sees an occasion for it apparently he is not slow to speak out emphatically. He declares that he is in full sympathy with the tendency of both the supreme court and parliament to check the growing abuse of litigation merely for costs. The case referred to, it is not claimed is, of the greatest importance in one way, but it is interesting in another way. Mr. Gorman, a resident in a village in Great Western Road, Glasgow, when he was overtaken and unseated by a motor car belonging to Mr. Hughes.

THE CANADIAN NEWS

ROSSLAND, B. C., April 19.—From May 1, showmen, car men, ore sorters and surface men employed at the mine of Rossland Camp are to receive \$3 per man instead of \$2.75 as heretofore. This concession was arrived at at a recent conference of managers.

FORT WILLIAM, April 20.—The Ogilvie Mills shut down yesterday on account of a strike of 1,500 hod carriers. The local fire situation has reached a very critical stage and only speedy action is forthcoming. The city is liable to be without both light and water.

THE power house is now running with coal from the Canadian Pacific Railway compelled to use that kind of fuel in their power house which will likely shut off the city's supply.

TORONTO, April 20.—D. B. Hannay, of the Canadian Northern, says that for 1907 the company has placed orders for 120 new engines, 1,500 box cars, 200 stock cars, 200 dump cars, 200 flat cars, 50 steel car cars, 25 cabooses, 4 snow plows, 20 refrigerator cars, 20 express and mail cars and 50 passenger coaches. This equipment would cost \$5,500,000 and all except eight engines and 20 passenger coaches.

IN fact Canadian firms engaged in this work, could accept no more orders for rolling stock of any kind, but the outbreak of the strike of the Canadian Northern, says that for 1907 the company has placed orders for 120 new engines, 1,500 box cars, 200 stock cars, 200 dump cars, 200 flat cars, 50 steel car cars, 25 cabooses, 4 snow plows, 20 refrigerator cars, 20 express and mail cars and 50 passenger coaches.

THE Old Cummock poisoning case has been one of exceptional interest. The accused was charged with the murder of a lady by the transfer of the port of poisoned shortbread delivered to his wife's uncle, with the result that the lady, an inmate of the hospital, died as a result of it.

THE jury was divided 11 to 10 in favor of the prisoner. The defence characterized the procedure of the crown as an innovation and a serious invasion of the liberty of the subject, and that it was startling that any one should be liable to arrest on a criminal charge and without his guilt being affirmed or negatived by evidence of a criminal court of confinement as a lunatic. Some of the most eminent attorneys of Scotland have, however, declared the procedure to be eminently humane. Apparently the view of the defence was that so soon as the crown was satisfied of the prisoner's insanity he should have been released upon the other charge. That could not be consistent, however, it was pointed out, with the duty of the crown

STATUES TAKEN DOWN BECAUSE OF NUDITY

Shocking Bareness of Apollo Causes Strife in Peaceful Danbury, Conn.

DANBURY, Conn., April 19.—This peaceful town is a house divided against itself, and all on account of the shocking nudity of two cold-hearted gentlemen.

The gentlemen in question are familiarly known as "Apollo Belvidere" and the "Diacus Throwing." It was their misfortune to be born in a warm Greek climate, at the time when suits and pajamas were undiscovered, and the honorable school committee of Danbury declared that unless they were torn down this morning, they were properly attired they would have to be removed. No person could be found to drap the statues, so they were torn down this morning.

The bareness of the new building had induced the students to chip in and buy the two marble slabs, Apollo and Diacus, as may be recalled, is attired in a fish, carelessly thrown over one arm, and a fig-leaf, and his companion is minus the fish. This was too much for Uncle Bill and Capt. Mike, who then and there declared war against the whole brood of Phidias et al, and issued the clothing order.

THEY may be all right at the "Yacht Club," but they can't stay in Danbury unless their nakedness is hidden, and well hidden, at that.

THEY were stirred up by the widest controversy known in the town since the last changes in the wood used for making nutmegs. One party across which stood for trousers at any cost, even if in the face of the Greeks, and the other party for the shirt, but that the liberal attire might be properly adjusted.

THE other party advocated a flowing raiment, claiming that the style in trousers might change suddenly, and thus precipitate another crisis.

THE undergarments, however, caused strife. Some were for barbarism and some for linen mesh, while there was a small all-wool faction.

J. P. MORGAN, FINANCIAL KING, IS 70 YEARS OLD

Though Hale and Hearty He is Gradually Unburdening Cares of Business.

NEW YORK, April 19.—J. Pierpont Morgan today reached the age of three-score-and-ten, and rounded out a half century in the banking business.

MONTEREAL, April 19.—A straight catch as catch can wrestling match took place at the Montreal Athletic Club tonight, resulted in favor of Rogers, the Canadian.

MONTEREAL, April 19.—The police department yesterday issued a warrant for the arrest of a man named Rogers, who was charged with the murder of a lady by the transfer of the port of poisoned shortbread delivered to his wife's uncle, with the result that the lady, an inmate of the hospital, died as a result of it.

THE jury was divided 11 to 10 in favor of the prisoner. The defence characterized the procedure of the crown as an innovation and a serious invasion of the liberty of the subject, and that it was startling that any one should be liable to arrest on a criminal charge and without his guilt being affirmed or negatived by evidence of a criminal court of confinement as a lunatic. Some of the most eminent attorneys of Scotland have, however, declared the procedure to be eminently humane. Apparently the view of the defence was that so soon as the crown was satisfied of the prisoner's insanity he should have been released upon the other charge. That could not be consistent, however, it was pointed out, with the duty of the crown

THE EMPEROR IS SUCCESSFUL OPERATING HIS FACTORY

William is Working Up Quite a Business For One of His Boys—German Comment on Britain's Naval Policy—The Congo Development.

BERLIN, April 20.—Great interest is being taken here over the report from Brussels concerning the exploiting of the Congo by American syndicates. Some of the delegates of the great New York bankers who have lately expressed their interest in the Congo State have just paid mysterious visits to Berlin, and the announcement is made here of the appointment of the well-known African explorer, Mr. Dossey Mohun to lead the large expedition now on its way to the Congo. The expedition being sent out by the Compagnie Internationale Forestiere et Miniere du Congo, in which Messrs. Guggenheimer and Ryss, of New York hold a large part of the shares. The object is to determine the mineral values existing in the Congo. Mr. Mohun is an African explorer of great experience and he is being accompanied in his expedition by some of the most expert prospectors and geologists of the United States.

DEVOTED WIFE GOES TO JAIL WITH HUSBAND

Successfully Pleads to Share Cell With Man Accused of Breaking Law.

EASTON, Pa., April 18.—Jacob Zielski and Frank Forrester of Alpha, were arrested for violating the liquor laws. The latter's wife accompanied him to the Squire's office, where Forrester was remanded to a cell pending a hearing tomorrow.

THE wife, who is apparently very much attached to her husband, believes in his innocence, and pleaded earnestly that if her husband was not set free she should be locked up with him.

THE "Deutsche Zeitung" says regarding the movements of the British Admiralty:—

"The belief is general in German naval circles that unfavorable reports are being spread from England regarding the battleship Dreadnought with the deliberate intention of misleading foreign Admiralties. Not only is the British Admiralty satisfied with the Dreadnought but it is already arranging for battleships of still greater dimensions to be laid down."

THE "Deutsche Zeitung" adds the further information that the circles above mentioned is generally understood that "not only Germany's new line of battleships but also her new large cruisers will have a displacement of 10,000 tons, and each be equipped with sixteen 28-centimetre guns in eight double towers."

"Attempts will probably be made in England to construe such progress in fresh menace to peace. All we do, however, is by profiting from the experience of foreign nations to follow the path of other powers, and while doing our best with the means at our disposal to bring our navy qualitatively on a level with others, we still remain far behind England and France in respect to the number of line battleships."

THE Kaiser's industry in making Cadmen, has excited some amusement, but it is probable that the average German is proud that the monarch has shown sound business sense though naturally some of those in the industries into which the Kaiser has entered do not quite like the competition.

THE royal castle in Berlin, a handsome property worth \$2,000,000 left to the Kaiser by one of his admirers, a wealthy Hohenzollern who has no direct heirs, but there was some criticism expressed at the time even because the Kaiser accepted the gift, but the royal house of Prussia is none too wealthy, and has many claims on it. The Kaiser has six sons to provide for and Cadmen has possibilities in it, for one of them, The Kronprinz, Prince Wilhelm of Prussia, is a handsome young man of course being handed over to the Crown Prince, Prince Bielefeld Franz has been given the Cabinet House at Potsdam, and Prince August Wilhelm is to be given the castle at Stettin. But there are still more sons to be provided for and the little Princess Victoria also expect a residence as part of her dowry. However, it should be remembered that there are limits to the number of castles and palaces at the Emperor's disposal. He himself makes constant use of four: the Neues Palais in Potsdam, this favorite residence of the royal castle in Berlin, the Chateau d'Urvill in Alsace and the castle of Wilhelmshohe near Cassel. Then of course he has Remington and Hubertus, but these are mere shooting boxes and are used only during the shooting season, though the former is almost palatial in extent.

Many of the palaces are simply historical piles little suited for habitation such as the old palace at Potsdam and the palace at Koenigsberg, the coronation palace of Prussian Kings. The palace of Charlottenburg could easily be adapted for residence (the Kaiser Friedrich lived there for a few weeks during his hundred days reign) but it is too vast for a mere Prince. Kiel castle is always given to the Royal Prince commanding the fleet, and it is at present in possession of Prince Henry, the Kaiser's brother. It will probably be the future residence of Prince Albert, the Kaiser's sailor son. The only two suitable residences are the castle at Wiesbaden, a handsome modernized residence and the castle at Cadmen.

THE people of Cadmen have reason to be thankful that the former owner left it to the Kaiser, for he takes the greatest interest in its welfare. The porcelain factory is a case in point. Cadmen ware has existed for a couple of centuries and resembles the porcelain of Delft. But in recent times its design has become of astonishing utility. The Kaiser some years ago took the matter in hand and invested \$100,000 in the business. He himself designed a number of pieces of ware and got well known artists to provide others. The number of work people are doubled and his Majesty set out to make propaganda for his factory. At court balls and receptions his outbursts wealthy bankers and merchants and

QUEBEC THIEF WAS CAUGHT AT DALHOUSIE

DALHOUSIE, N. B., April 19.—A. J. LeBlanc, J. P., received a despatch this morning from the farmer, Mary (P. Q.) to arrest a young man named LeBlanc who, he charged, had stolen his horse and set fire to his barn. The justice soon located the guilty party who had sold the horse to a Dalhousie citizen for \$40. Policeman Seely and Constable Norton accompanied the justice and made the arrest, lodging the thief in the Restigouche county jail pending the arrival of the parties interested.

THE prisoner confessed to taking the horse and handed the \$40 over to the magistrate but he denied the charge of setting fire.

It will probably be the future residence of Prince Albert, the Kaiser's sailor son. The only two suitable residences are the castle at Wiesbaden, a handsome modernized residence and the castle at Cadmen.

THE people of Cadmen have reason to be thankful that the former owner left it to the Kaiser, for he takes the greatest interest in its welfare. The porcelain factory is a case in point. Cadmen ware has existed for a couple of centuries and resembles the porcelain of Delft. But in recent times its design has become of astonishing utility. The Kaiser some years ago took the matter in hand and invested \$100,000 in the business. He himself designed a number of pieces of ware and got well known artists to provide others. The number of work people are doubled and his Majesty set out to make propaganda for his factory. At court balls and receptions his outbursts wealthy bankers and merchants and

QUEBEC THIEF WAS CAUGHT AT DALHOUSIE

DALHOUSIE, N. B., April 19.—A. J. LeBlanc, J. P., received a despatch this morning from the farmer, Mary (P. Q.) to arrest a young man named LeBlanc who, he charged, had stolen his horse and set fire to his barn. The justice soon located the guilty party who had sold the horse to a Dalhousie citizen for \$40. Policeman Seely and Constable Norton accompanied the justice and made the arrest, lodging the thief in the Restigouche county jail pending the arrival of the parties interested.

THE prisoner confessed to taking the horse and handed the \$40 over to the magistrate but he denied the charge of setting fire.

OTTAWA, April 19.—In pursuance of a liberal increase of pay to postmasters, Hon. Mr. Lemieux will as soon as the present session is over take steps to inaugurate in a considerable number of the smaller Canadian cities and large towns a free delivery system. The sum of \$50,000 has been placed in supplementary estimates to defray cost of new system to be established this year.

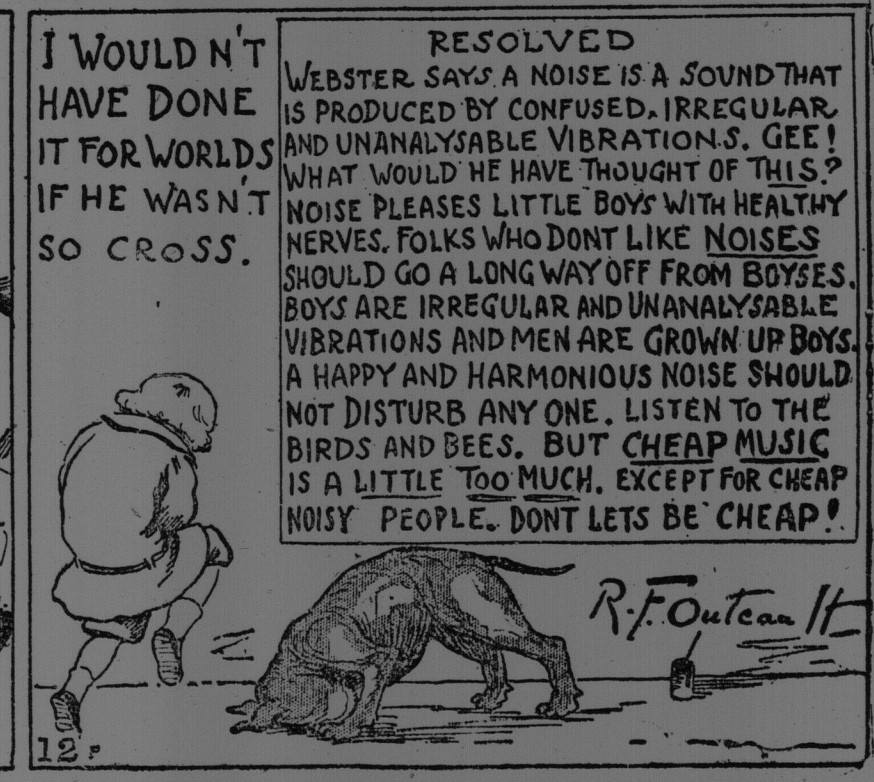

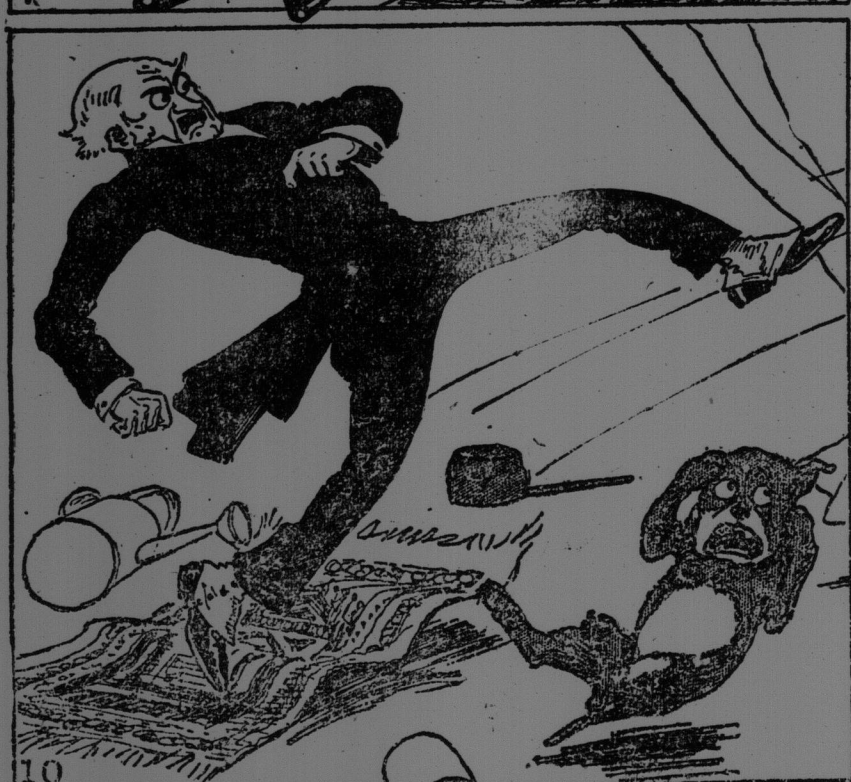

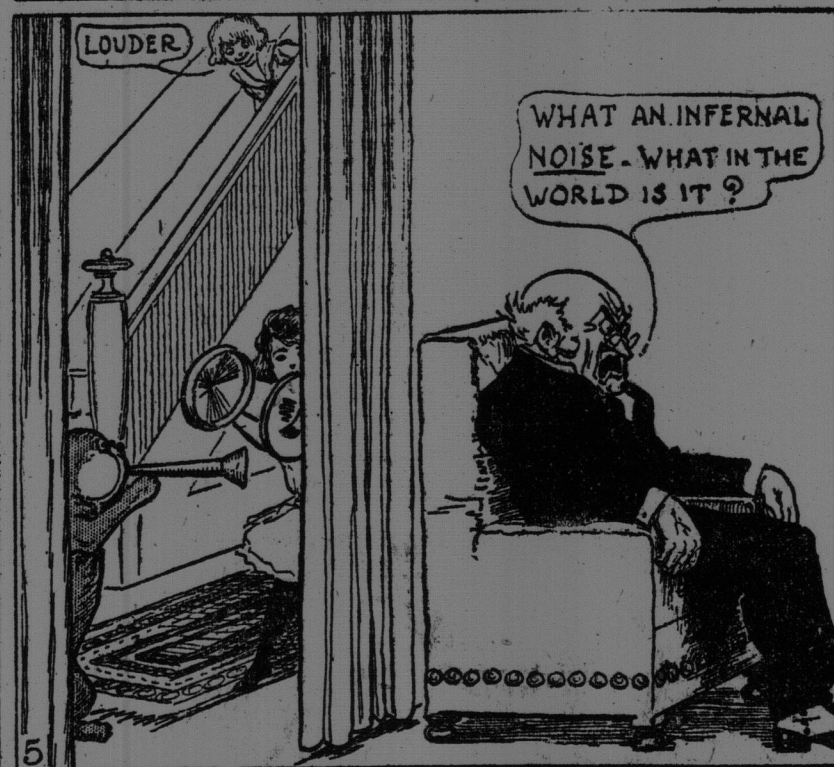

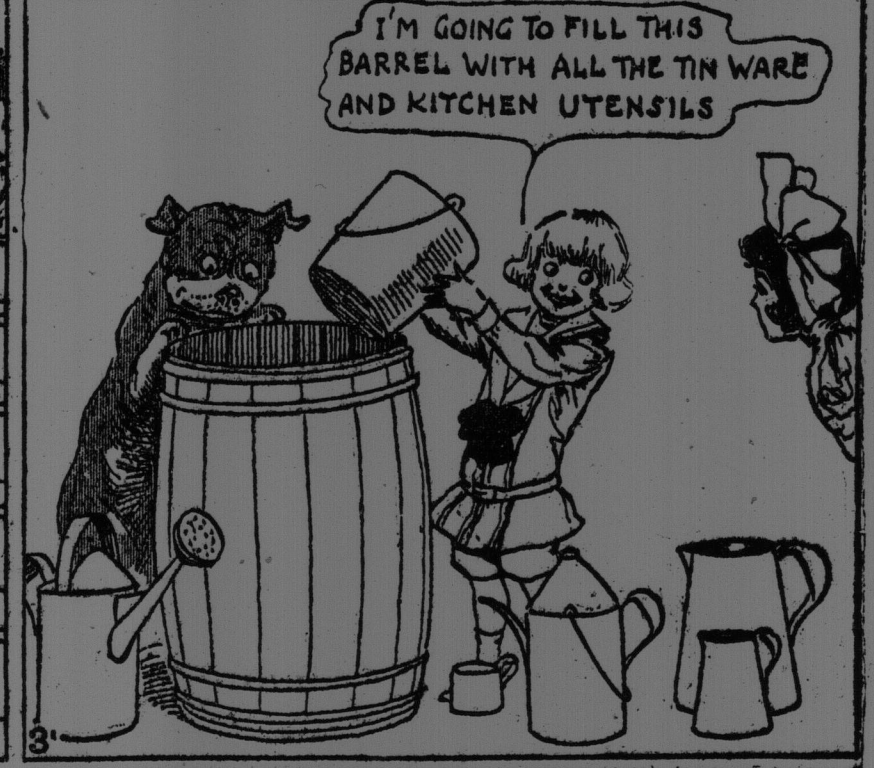

Mr. Lemieux proposes that free delivery of mail matter shall be given to places showing an annual post office revenue of over \$10,000 and a population of 10,000 or 12,000. The minister proposes to deal liberally with all places where needs of public show that a free delivery should be established. Thus the smaller cities like Fort Arthur, Fort William, Sarnia, Guelph, etc., will probably be included in the list.

FASHIONS FOR THE SWEET GIRL GRADUATE

IF FOR no other reason, woman is needed on School Boards because she recognizes the futility of regulation commencement frocks. Every now and then a set of School Directors decrees that every High School girl graduate must wear a cap and gown at the graduating exercises of her class. Perhaps some of those men were fathers, and were moved to this innovation by an ulterior regard for the privy purse; but it's safe to say their pronouncements on extravagance do so little good as to scarcely make it worth while to deprive girlhood of one of its time-honored privileges—a fluffy, becoming commencement frock.

Undoubtedly, there is justice in the criticism that the dressing at graduation has been carried to excess, and that some of the classes, perhaps, face the alternative of an uncomfortable feeling of shabbiness or an expense they can ill afford. But things have changed much for the better from the days when a commencement gown meant heavy silks and rich laces and chiffons. Now the filmy lingerie frock is the only one considered for such an occasion, and it is surprising how cheaply a really charming gown may be made.

Of course, it must be white. Who ever heard of girlhood making her first bow to the work-a-day world of grown-upness in pink or blue or lavender? Such white, lovely fabrics there are to choose from, too, for this all-important commencement gown. As it does duty for a best dress all summer and for many an informal affair next winter, it is not such an extravagance after all. Mull, handkerchief linen, embroidered muslin, dotted batistes and swiss are the favorite materials; but equally fresh, dainty costumes can be evolved from plain India linen, dimity or Persian lawn. A very lovely soft sheer dress can be made of Paris muslin, which is wide and can be had in a really nice quality for 35 cents a yard.

When it comes to trimmings, naturally the cost of a gown may be extended indefinitely, but, after all, the prime requisite of a commencement frock is freshness and girlishness, and this desirable result may quite as often be gained by tiny thread tucks, fluffy ruffles of the material and a bit of lace at neck and sleeve as by the most elaborate motifs of lace and embroidery and the intricate frillings of an imported model. One of the daintiest and prettiest of the lin-

gerie gowns this year has no other trimming than multitudinous tiny tucks and the seams joined by a narrow beading.

This beading, by the way, is specially pronounced this season; sometimes it is of tiny crochet work, again of handwork, often of narrow cluny insertion. Not only is it used to outline seams, but all the lace is set in by it. It is seen in connection with laces, fine and heavy, cluny, valenciennes or Irish, or with lace and embroidery combined, but quite as often a gown has no other trimming but the beading, save, perhaps, some hand embroidery.

The new lingerie frocks are generally unlined. While the blouse and skirt are cut separately, these are frequently united by inset waistbands of lace in a modification of the princess idea. This is known as the Gabrielle princess effect, and may be worn over any slip. Generally the belts are extremely narrow bands of embroidery or lace, often raised a little in the back to

give the Empire lines. The regular tight-fitting princess style is also seen; but, after all, the two-piece dress is probably more used than anything, especially as sashes of soft ribbon are quite as much a feature of the new summer gowns as are the little pleated frills of fine lace and skirts of deep flouncing.

Sleeves are short, either just above or below the elbow, as is most becoming, but the long shoulder seam is usually in evidence. Collars are quite high, especially at the back of the ears, from which there is a slight slope to the front. Many yokes are seen, not very deep, however, and generally of one or more kinds of lace, as a baby Irish yoke with valenciennes trimmings.

A commencement gown may be worn either over a silk or a lawn slip. The former is generally a closely fitting princess slip of liberty or some other thin silk. Lawn, however, especially if daintily trimmed, really gives a gown a much more filmy and summery look. It is not sufficient, however, to utilize a petticoat, but a specially fitted slip skirt exactly the length of the outside one is provided, unless an unseamly kap is desired at the bottom of the dress. Though most of the elaborate lingerie gowns are made to train, many of the young girls' commencement gowns just touch.

Very simple and girlish are the pretty models sent us from Paris this week by Jeannette Hope, who so well understands the art of showing fashions that may be copied. The first model to the left is of soft mull, trimmed with valen-

Paris Notes

CHARMING models in hats are shown for little girls in the cloche shape, so much in favor for her big sister. Very lovely they are, trimmed with quaint bunches of field flowers of soft louisiane ribbon in pale shades of pink and blue.

Little capes which can hardly be distinguished from a bolero at first sight are much in favor, and are smart made in white cloth.

Tulle combined with lace is popular for the yoke and sleeves of the silk voile gown. Liberty satin also trims these frocks; a favorite method is to have a broad band of it around the bottom of the skirt.

Every variety of flowered pompadour materials is seen.

Sashes fastened high in the back to give the desired Empire effect are much used. Square buckles take the place of the

**JOHN BURNS NOT POPULAR
WITH THE SOCIAL DEMOCRATS**

Father Vaughan and the People Who Worship Pets—Australian Delegate Tells of His Early Experience—Anniversary of Abolition of Slave Trade

LONDON, April 20.—It is announced that the King will pay two visits to Aldershot this summer. His Majesty will be present at a grand day towards the end of May at which several distinguished French officers will be special guests. On June 29, the official date for celebrating the King's birthday His Majesty will hold a review on Laffan's plain, Aldershot, at which 25,000 troops will be present. The occasion will be honored by the presence of several Princes and Princesses of the Royal Family and many foreign guests.

There has been a falling out between John Burns and the Social Democratic Federation. At the annual conference of the Social Democratic Federation at Carlisle he was denounced as "the most callous and reactionary President of the local Government Board for a generation."

The executive committee reported that there was nothing whatever for the Socialists to regret in the recent defeat of the Progressives in London. "They manipulated the genuine Socialist feeling that was in evidence when the London County Council came into existence to bolster up the Liberal Party under another name, with no intention whatever of carrying out in the government of London the principles which they professed."

It was time, however, for the Socialists to set to work boldly "to counteract as far as lies in our power the wholesale dissemination of falsehood about Socialism and Socialists with which London has been deluged, with the unblinking effrontery of unlimited and anonymous monetary resources."

It was resolved by seventy-two votes to eight to instruct the executive council to organize educational lectures throughout London. A resolution to appoint a committee to ensure a combination of the various Socialist organizations was met with some opposition and it was only carried by forty-seven votes to forty-three votes.

Father Bernard Vaughan is continuing his crusade against cat and dog worship.

"I have been the recipient," he said, "during the past fortnight of whole reams of superfluous newspaper on which old girls of both sexes have written for my enlightenment what they are pleased to call their minds about my denunciation of cat and dog worship. So intimate, it would seem, is the union between my correspondents and their canine pets that they take as said against their pets what was in reality said against themselves.

"Considering that I have been brought up from my earliest years among all sorts of animal pets it is not likely that I have anything to say against God's dumb creation. I think few people love loathing about an avian or a kennel more than I do, but that is a very different thing from what I denounce."

Father Vaughan then made public the following examples of letters received from his correspondents:

"My dog is dearer to me than any one else on earth."

"I don't know whether you have a soul, but I know that my dog has."

"You seem to think that I shall be damned because I love my faithful friend. Well, I should prefer to be lost with him than saved without him."

"You may say what you like but my dog has more logic than any man and more love than any woman I ever met."

Father Vaughan said that he did not think that perversion of love, man's most Godlike gift could go further than this.

The Hon. W. H. Hughes, ex-minister of external affairs in the Australian

**PLAYS THE GOVERNMENT
AGAINST THE SULTAN**

U. S. Ambassador's Plan of Bringing About a Settlement of the School Question.

CONSTANTINOPLE, April 20.—United States Ambassador Leischman has made a new move in the American school question by which he has placed the Porte in an awkward position. He has arranged, the Porte has utterly failed to carry out the imperial assurances. The action of Mr. Leischman in thus holding the Porte responsible for the delay is regarded in diplomatic circles here as being adroit. Official circles admit that it places the government in the practically unenviable position of opposing the fulfilling of the Sultan's promise.

**THAW'S MOTHER BREAKS
DOWN UNDER THE STRAIN**

Has Returned to Her Home in Pittsburg—Turning the Estate into Cash

NEW YORK, April 20.—A despatch from Pittsburg says when Mrs. Wm. Thaw reached her Pittsburg home yesterday she collapsed and physicians were summoned. With her was her daughter, the Countess of Yarmouth. This is the first time the Countess has been in Pittsburg since she left here immediately after her wedding four years ago.

In anticipation of Mrs. Thaw's arrival yesterday, a member of the family requested Superintendent of Police McQuade to detail men to guard Mrs. Thaw's residence to keep away cranks. Josiah Thaw accompanied his mother. He did some banking business, and then went to the Pittsburg office of the city tonight on a secret mission for the Thaws.

The work of converting part of the Thaw fortune into cash will, it is stated, begin next Monday. Practically every bit of property owned outright by Mrs. Thaw will be sold and the money received paid into a fund to furnish bail for Harry K. Thaw.

**FIRST STEP IN MILITARY
OCCUPATION OF FINLAND**

Russian Troops to Assemble in that District for Training

ST. PETERSBURG, April 20.—The officers of several of the cavalry and artillery regiments of the guard have been notified that manoeuvring in Finland may be substituted this year for the usual exercises in the summer camp at Kransno-Zelo. The news has caused considerable alarm among the Finns, who regard the step as a prelude to the military occupation of Finland. The recent captures of cart-ridges from abroad, which are supposed to have been destined for importation into Russia through Finland itself, intended for the revolutionists in that part of the empire, have strengthened the hands of the anti-Finnish advisers of the Emperor. Two squadrons of torpedo boats have been formed to visit Bohemia and Finland and wireless telegraph stations are being established at Bumsund, Nikolaitan and other points.

**HUNDREDS OF NATIVE
HOUSES WERE BURNED**

Following an Earthquake in the Philippines—Many People Homeless

MANILA, April 20.—The latest reports from Manila say that the fire has been checked. The native quarter of the city was destroyed. The property loss is estimated at \$100,000. The business section of the city was untouched, it being saved by the military and constabulary. Several hundred houses were destroyed and 5,000 to 10,000 natives made homeless. Adequate relief measures have been taken, the homeless being housed in schools and other buildings. The provinces and other buildings, however, were not so great factors in procuring the abolition of the slave trade. "We in Buchanland," said the prince, "are very grateful to the English nation for what they have done for our education and civilization. We are perfectly satisfied and are glad of the privilege of living under British rule, and as long as we are treated as fairly as we have been we will always be willing and loyal British subjects."

English dentists are introducing a new anaesthetic called novocaine. Novocaine is stated to be far more satisfactory than the cocaine for apparently there are no ill effects after its administration and practically no shock. It is injected from a metal syringe just above or below the troublesome tooth, and in a moment or so there is a curious blanching of the gum which assumes a sort of cheery consistency. The operation is then performed with very little discomfort to the patient.

RIOTS IN HUNGARY

VIENNA, April 20.—The anti-Magyar movement is spreading and growing in intensity in some districts of Hungary inhabited jointly by Magyars and Roumanians. The movement is an outcome of jealousies and racial feelings, fanned by the aggression of the Magyars, who seek to dominate the situation politically and otherwise. According to reports received in Budapest Roumanian peasants have burned down the residence in the village of Lopandny of a Hungarian notary named Pah. The notary, however, escaped into a Magyar district. A Hungarian judge has been killed by peasants in the village of Szekeske. These attacks have aroused considerable resentment among the Hungarians.

**Another
Lace Curtain Sale
On Monday.**

Remarkable Values to Show this Season, Purchased Before the Great Advance in Prices.

**NEWS OF GENERAL INTEREST
FROM FAR OFF AUSTRALIA.**

SYDNEY, April 20.—Lady Northcote, the wife of the Governor General, has already done much to endear herself to the people of Australia, and she is winning fresh praise by the energy with which she is working to ensure the success of the exhibition of women's work which she herself has organized to take place at Melbourne next November. Lady Northcote has obtained the consent of the Queen to publish her Majesty's name as patroness of the exhibition and is now visiting the various states to confer with the local committees as to the preparation of exhibits. In connection with the scheme an industrial and representative committee has been formed in the country for the purpose of collecting specimens of the work of Australian ladies in England and abroad, to be first shown in London and afterwards to be sent to Melbourne for exhibition. The exhibits are to be arranged in sections and plain and fancy needle work, photography, millinery and modes. All work sent in for the exhibition will be subject to the approval of a committee on selection. Prizes are offered for competition in various sections. Mrs. J. W. Taverner, Mrs. J. G. Jenkins, Mrs. C. H. Rason, Lady Samuel, Mrs. Moberley Bell, Mrs. Pat. Osborne, Lady Cockburn, Lady Mary Douglas, Mrs. Hickman, Mrs. Pember Reeves, Lady Dobson and Mrs. F. M. Robertson.

A picnic party of two had an experience that they are likely to remember long. They were in the bush near Katomba, New South Wales. They were enjoying afternoon tea in the valley near Laura Falls, when the rain came down in torrents and the water rapidly rose. The lady was washed off her feet and carried rapidly down the stream. The gentleman plunged into the water to rescue her, but both were swept down the cascades and through the rapids to within thirty feet of the falls where their progress was stopped by a log bridge which had withstood the force of the current. Neither was much injured but had they gone over the falls they must have been dashed to pieces. Their rescue was effected by a local settler named Shidjo.

There is a happy home at a homestead in the bush near Louth, New South Wales. Four years ago her little girl, then a child of two years and her husband, who used to wander near the house in search of flowers, mysteriously disappeared one day and earnest searching failed to reveal a trace of her. All the neighbors believed her dead, but the mother consistently clung to hope and constantly searched the bush wherever she was keeping her eyes and ears open for any signs of her little Edith. Lately, however, news came that a little white child had been found in a black's camp in South West Queensland and photos of the girl were forwarded, which in spite of the change that time and nomadic life had made, the mother recognized. Busy farmers, rich land owners and station managers all suspended work when they heard the news to convey in person their congratulations to the mother.

Blacks with banking accounts constitute the latest development in Queensland. With a view to the encouragement of thrift the department in charge of aborigines in the state is pressing their employers to pay their wages and at the same time urging on the blacks themselves, both male and female, the importance of banking the money with the result that most of them have banking accounts. The system was recently inaugurated in connection with the inmates of the Burramah aboriginal station, many of whom are employed in clearing and farm work, and already fifty bank-books show a credit of \$750. As far as possible every native within the care of the department is being put to work, many of the girls are being sent to Brisbane, and all have banking accounts. The department is also supervising the expenditure of the money by sending the lady inspectors with the girls when making purchases.

Although Queensland has a prosperous cane-sugar industry efforts to establish the cultivation of beet on a scale sufficiently large to make it worth while to manufacture beet sugar have hitherto failed. Two such

attempts were made several years ago, the one in New South Wales and the other in Victoria, but both have proved abortive. Last year, however, the Victorian Minister of Agriculture tried to resuscitate the project in his State and it would appear that he has met with sufficient encouragement to induce him to persevere. He asked that growers in the neighborhood of Maffra where the previous experiment was made, should guarantee a minimum supply for a certain number of years and he undertook that if it were done the government would treat the product at the Maffra Mills to make it into sugar. Already some five hundred farmers have agreed to grow with the scheme an industrial and representative committee has been formed in the country for the purpose of collecting specimens of the work of Australian ladies in England and abroad, to be first shown in London and afterwards to be sent to Melbourne for exhibition. The exhibits are to be arranged in sections and plain and fancy needle work, photography, millinery and modes. All work sent in for the exhibition will be subject to the approval of a committee on selection. Prizes are offered for competition in various sections. Mrs. J. W. Taverner, Mrs. J. G. Jenkins, Mrs. C. H. Rason, Lady Samuel, Mrs. Moberley Bell, Mrs. Pat. Osborne, Lady Cockburn, Lady Mary Douglas, Mrs. Hickman, Mrs. Pember Reeves, Lady Dobson and Mrs. F. M. Robertson.

The famous Bees of 'er Barn Band is creating a great sensation in its tour throughout New Zealand. After giving seven performances in one week at Theatre at Dunedin, which was crowded on each occasion, the band wound up its visit with an open-air performance at which no less than 20,000 people were present for admission to the enclosure. As every town in New Zealand is crying for performances the Australian tour of the band has been postponed for a few weeks.

THE STAR, ST. JOHN N. B., SATURDAY, APRIL 20, 1907.

\$150,000 IN SUPPLEMENTARY ESTIMATES FOR ST. JOHN

Supplements Vote of \$200,000 in Main Estimates and Will be Used for Dredging Harbor--Gratuity to Widow of Late Dr. March--Other Items of Interest to the Maritime Provinces.

OTTAWA, April 19.—Supplementary estimates for the fiscal year ending March 31st, were brought down to-night by the Finance Minister. They amount to \$1,941,558. Of this amount \$7,280,847 is chargeable to revenue and \$2,710,711 to capital. With the amount in the main estimates the total estimates for the year amount to \$125,007,463. Among the items of interest or importance are the following: To administration meet inspection act \$75,000; further amount to establish cold storage deposits \$20,000; further amount for exhibitions \$100,000; new quarantine steamer for Gross Isle \$25,000; gratuity to the widow of the late Dr. J. E. March \$200; additional amount to pay British and continental immigration bonuses \$100,000; expenses incidental to blockade in the west for fuel, seed and provisions \$200,000; for ice piers at Annapolis harbor \$20,000; Parrboro harbor improvements \$10,700; for harbors and rivers in New Brunswick the votes total \$125,710 as follows: Dalhousie wharf, etc., \$5,000; Dalhousie harbor improvements, additional \$5,000; Dover wharf on the Petitcodiac river \$50,000; Dorchester wharf additional \$5,000; Edgemoor landing wharf for vessels at outer end \$5,000; Great Salton river, combined Groynes and breakwater extension, \$8,700; Hopewell Hill wharf, repairs, \$1,000; Lower Newcastle wharf on Miramichi river \$2,000; Madawaska river, extension of dyke on east side of river at Edmundston southward, \$10,000; Moncton wharf, enlargement of, \$15,000; Mills Point wharf, \$5,000; North Head, Grand Manan, breakwater wharf on Flag Cove, complete, \$15,000; Petitcodiac wharf, extension, \$10,000; Pink Rock wharf, Shepody Bay, extension of, \$5,000; River St. John, extension of, \$10,000; St. Nicholas river, widening of, \$10,000; St. George's wharf, \$1,700; St. George or Red Store wharf, repairs, \$1,800. For dredging generally in the Maritime Provinces there is an amount of \$200,000, most of which it is expected will be spent in St. John harbor. There is \$150,000 for dredging in the Maritime Provinces intended for St. John to supplement the vote of \$200,000 for St. John harbor in the main estimates. For the intercolonial there are votes entailing \$2,428,445. There are as follows: Increased accommodation at New

A GRADUATING RECITAL AT MT. A. Miss Ellen Smith and Others Delight Large Audience—Presented With Handsome Bouquets

DR. LEACOCK WILL TOUR EMPIRE Appointed Lecturer by Rhodes Trust and Will Sail for England Next Week.

SACKVILLE, N. B., April 19.—A graduating recital at Miss Ellen Smith, St. John, and Edna Smith, Lower Coverdale, Albert county, pianists, and Miss Florence Chubbuck, Ottawa, was held in Beethoven Hall tonight. There was a very large audience, and the recital was one of the best held this year. Each number of the program was well rendered, and the young ladies are to be heartily congratulated upon their success. Miss Edna Smith, Coverdale, displayed good technique and gave ample evidence of being a good pianist. Miss Ellen Smith, St. John, showed herself to be a very brilliant pianist. Her playing was characterized by excellent technique, exquisite taste and feeling, as well as breadth and precision. Her rendition of St. Olsson's Etude, by Housalt, and Xenentzou's MacDowell, was exceptionally fine and evoked hearty applause. Miss Chubbuck, Ottawa, made a most charming reader. Her stage presence was good, her voice clear and distinct, while her rendition of the several sections was easy, rational and pleasing. All three young ladies were presented with handsome bouquets.

MONTREAL, April 19.—The board of governors of McGill University today granted a year's leave of absence to Dr. Stephen M. Leacock of McGill, who has been appointed a lecturer by the Rhodes trust under the same conditions as Dr. Parlin made the rounds of the Empire twenty years ago. Dr. Leacock, whose recent utterances in Canada and the Empire have attracted considerable attention, will leave for England next week, sailing from Halifax by the Victoria. From England he will sail for Australia and will spend three months lecturing through Australia, Tasmania, and New Zealand. Towards the end of September he will sail for South Africa, where he will lecture in the University of Cape Town and will also probably visit the Transvaal. He will arrive back in Canada in January, 1908, and from Vancouver will begin a lecture tour from west to east, visiting all the principal points in Canada. The theme of the men and look out to have a big suit for trespass imminent. Heavy Damages Sought From Alberta County Lumber Company—Offer of Settlement Refused.

OTTAWA, April 19.—At a meeting of the executive of the National Council of Women tonight Lady Edgar was nominated for the presidency. Mrs. Dennis of Halifax was chosen treasurer, Miss C. Deane recent secretary and Mrs. Willoughby Cummings corresponding secretary. The vice-presidents are: Mrs. Thomson, St. John; Lady Laurier, Lady Taylor, Mrs. Sandford and Mrs. F. Frost. Arrangements were made for the annual meeting in Vancouver this year.

HOPEWELL HILL, April 19.—Unless a settlement is effected, which does not seem probable, a big suit for trespass against the Dobson lumber concern will be the result of that firm's action recently in cutting a large amount of lumber on an adjoining lot of land belonging to Manley Smith of Memel, a misapprehension or the lack of knowledge on the part of the Dobson firm in regard to the boundary lines being responsible for the occurrence, which seems likely to produce a costly bit of litigation. The amount of lumber cut is something like 200,000 feet, and was cut by Mr. Greer, who was working on contract for the Dobsons. Neither Mr. Greer nor the members of the firm were fully posted on the boundaries, and it is understood that the Dobson firm have offered the owners of the land trespassed upon market rate stumpage, but this the owners decline, and are suing for heavy damages, the matter now being in the hands of lawyers. It is understood the timber was cut down by very small dimensions. Dobson Bros. are from Stony Creek, and in conjunction with J. L. Peck of Hillsboro and J. Nelson Smith of Coverdale recently purchased a large timber area at Memel, where they lumbered extensively during the past winter.

MR. BLAIR'S ESTATE ESTIMATED AT LITTLE MORE THAN \$100,000. OTTAWA, April 19.—Hon. A. G. Blair died leaving an estate estimated at a little over a hundred thousand and leaving no will. The estate is in stock and life insurance. It is understood that some years ago Mr. Blair made a will, but latterly destroyed it with the probable intention of making another. The provisions of this document are not known. In the meantime the family have applied for letters of administration in order to settle up the estate. Some delay will probably be caused as a number of the interests involved are located in the old country. Communications will have to be received from England before any definite legal steps can be taken. A. George Blair said: "We have searched most diligently, but can find no traces of a will of any kind. This is rather surprising, as he was always of a very methodical and systematic character."

A BIG SUIT FOR TRESPASS IMMINENT. HEAVY DAMAGES SOUGHT FROM ALBERTA COUNTY LUMBER COMPANY—OFFER OF SETTLEMENT REFUSED. Kings College Professor Appointed to McGill. MONTREAL, April 19.—At a meeting of the board of governors of McGill University today, Rev. Charles Alexander Brodie Brockwell, Alexandria professor of divinity in King's College, N. S., was appointed professor of Hebrew at McGill, in succession to the late Dr. Daniel Coustrat.

WILL TAKE CLAIMS OF HIS PROVINCE TO FOOT OF THE THRONE

Nothing Less Than \$1,000,000 Will Satisfy British Columbia. Premier McBride Sailed From Here Yesterday for England on Empress of Ireland.

Hon. Richard McBride, the youthful premier of British Columbia, who has been making considerable stir in the political world by his energetic campaign for better terms for his province, arrived in the city yesterday, accompanied by his private secretary, L. McNeil, and embarked on the Empress of Ireland for England, where he will take his appeal for a larger subsidy to the foot of the throne. Speaking to the Sun, Premier McBride was emphatic in his assertion that British Columbia was not satisfied with the \$100,000 increase which it was proposed by the Inter-Provincial Conference at Ottawa recently to allow his province. Hon. Mr. McBride's position in this matter was endorsed by the legislature and he was delegated to make his present trip, in the hope that when the amendments to the British North America Act made necessary to provide for the increased subsidies, were being considered by the Imperial authorities, a larger grant might be obtained. Nothing less than \$1,000,000 will be deemed an adequate allowance, and this amount at least the premier will fight hard to secure. Premier McBride, although a native of British Columbia, is well known in the Maritime Provinces, being a graduate of Dalhousie Law School, and Dr. A. W. MacRae and his partner, John A. Sinclair, were classmates of Premier McBride.

LONGBOAT WINS GREAT 25 MILE MARATHON ROAD RACE

Toronto Indian Defeated Field of 114 Runners and Broke Record Held by J. J. McCaffrey of Hamilton, Ont.—Time was 2 Hours, 24 Minutes and 20 4-5 Seconds—Cheered by 100,000 People.

As Longboat, never faltering in his longboat, the well known Indian runner of the West End of M. C. A., Toronto, Ontario, broke the record for the Boston Athletic Association's twenty-five mile Marathon road race, from Ashland to Boston, today, and defeated a field of one hundred and fourteen runners after the most closely contested race since the event was inaugurated in 1897. Longboat covered the distance in 2 hours 24 minutes and 20 4-5 seconds; 5 minutes 2-5 seconds faster than the previous record, which was established in 1901 by J. J. Caffrey of Hamilton, Ontario. Robert Fowler of the Cambridgeport Gymnasium Association finished second, also within the previous record. His time was 2 hours, 27 minutes 54 1-2 seconds. John J. Hayes, St. Bartholomew Club, New York, was third in 2 hours, 30 minutes, 33 3-4 seconds. Following in order came John W. O'Mara, Cambridge; J. J. Lee, Roxbury; Charles E. Petch, Toronto; Sidney H. Hatch, Chicago; J. N. Neary, Natick, Mass.; and John Lindquist, Brooklyn, N. Y., all finishing in time under two hours and forty minutes. All of the leaders finished in good condition, although nearly all showed signs of the terrific strain of the race, and there were several sharp contests for places as the runners came into the last few miles. The conditions at the start in Ashland were poor. The air was chilly and the clouds of dust were raised by the runners as they started on their long journey. Before five miles had been covered, however, a light rain began to fall, which laid the dust and striking the faces of the runners freshened them considerably.

BILL FOR CREATION OF DEPARTMENT OF MINES DEBATED IN COMMONS; B.C. LABOR ROUBLES DISCUSSED

OTTAWA, April 19.—The labor troubles in British Columbia mines concerned the house of commons throughout both the morning and afternoon sessions. The miners at Blairmore and vicinity have had trouble with the mine owners, and conciliatory measures are applied for. The miners were quiet until a notice was posted by the mine owners stating that a new scale of wages would be announced and would go into force on May 15. This, according to the Minister of Labor, convinced the men that the mine owners were playing double and were going to have both conciliation and lock out. A number of the men declined to continue work any longer. They did not strike, but a large number just stopped working. The members for the West have just come through a cold winter without grip. They think if the miners come to grips with the owners there is a chance that there may be no mining all summer and no coal next winter. They got up, one after another, and asked the government to take steps. The leader of the opposition intimated that the government would do well to take over the mines and operate them. Hon. Mr. Lemieux said he had no doubt but the board of conciliation and deputy minister of labor, Mackenzie King, who was on the way to the trouble, would remove all difficulties and have the men back at work about the time parliament prorogued. Mr. Fielding said that to take over the mines and operate them was a large order and required some consideration. Mr. Lemieux (since) inquired whether Mr. Hyman's resignation had been received and whether it had reached the speaker in proper form. Mr. Fielding—"I regret to say I have no information whatever."

Mr. Foster—"Has the finance minister any knowledge of a report that Mr. Hyman, with a number of congenial spirits, is contemplating a visit to the old country?" Mr. Fielding—"I saw a reference in some paper that Mr. Hyman was contemplating taking an ocean voyage, but I saw nothing further and I have no further information."

The bill to amend the provision of criminal code respecting preservation of peace in the vicinity of public works was read a third time and passed. The house went into committee to consider a bill for the creation of a department of mines. Mr. Templeman explained that the new department was to be formed by a combination of the geological survey mines branch and the mines branch of the interior department. The making of a new minister was not contemplated. The development of mining in Canada and the great mining possibilities of the country rendered this step advisable. He hoped that the department of mines would do for mining what the department of agriculture had done for the great agricultural interests. A rearrangement of officials might be necessary, but it was not intended to add to their number. In reply to Mr. Foster, Mr. Temple-

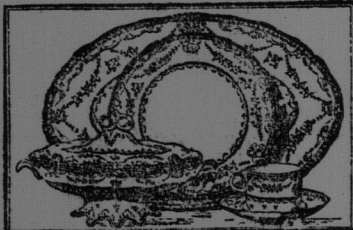

SECURITY! There's safety and surety in every home where DR. SCOTT'S White Liniment is to be found. The best all-round liniment for everybody. At All Good Druggists.

Pictures at the Nickel. The present pictures combine fact and fiction in an extremely entertaining way. One tells a love story, with jealous vengeance and forgiveness interwoven, all of which is fiction, but the scene is laid in that great engineering work, the Pennsylvania railroad tunnel under the Hudson river between New York and Jersey City, which furnishes the fact. The other is pure fiction, the story of a modern Oliver Twist, showing how a small boy is secured by a gang of thieves educated and trained in their craft, and finally rescued and brought into a happy home. The spring is now rapidly advancing and the pleasant days bring the crowds to the streets the spring openings at the stores. No woman need be told that shopping is hard work, and every one is grateful for an opportunity to rest for a time between calls at the stores. The Nickel with its comfortable chairs offers such an opportunity for rest as is needed and the weary shopper can rest her body there while at the same time she gets amusement and instruction for her mind by watching the interesting pictures shown, while the price of admission charged is so nearly nominal that no one can be kept away from it. The Nickel is open every afternoon, and covers just during the busiest shopping hours and it's only a nickel at the Nickel, so drop in and try it.

GOCHRANE'S MILL AT SCOTT'S SETTLEMENT BURNED

Fire Spread From a Pile of Slabs—Loss \$2,000 or \$3,000—St. John Man Arrested in Moncton.

MONCTON, N. B., April 20.—Word was received here this morning that Geo. H. Cochrane's lumber mill at Scott's Settlement about ten miles from the city, was destroyed by fire last night. As near as can be ascertained the fire originated in some burning slabs, the buildings being razed to the ground and all the contents with the exception of a planer destroyed. No one was around at the time, the mill being located in the woods. When workmen arrived this morning they found their place of employment in ashes. The mill was well equipped with machinery and the loss will probably be heavy, between two and three thousand dollars. If the engine and boiler are destroyed the loss will exceed this amount. John Kane, who says he belongs to St. John, was arrested last night for begging. He is an elderly man of disreputable appearance and had been annoying householders by insolent demands.

FIRE AT GENOA DOES \$500,000 DAMAGE

GENOA, Italy, April 20.—Fire today threatened to destroy the Odoro shipyard here, one of the largest in Italy, but the firemen, assisted by 1500 workmen, succeeded in obtaining control of the situation after damage to the extent of about \$500,000 had been done.

"The Angel of Peace Against Universal Peace" will be the subject of Dr. Rabinowitz at the Hazen Avenue synagogue Sunday April 21, at 4 o'clock p. m. All are welcome.

PERMANENT IMPERIAL BUREAU MAY BE OUTCOME OF CONFERENCE. PREMIER DEAKIN PREDICTS WAR.

LONDON, April 19.—The colonial ministers are resting from the conference and as far as possible from social functions today. The matter that is occasioning the greatest concern at the moment in talk among themselves is the fact that the public here and in the colonies upon whose judgment each one of them is dependent are being kept in the dark as to the vital points in the conference debates. Some Unionist journals declare that the Imperial government finds the blunt speaking of some of the delegates, notably Messrs. Deakin, Ward and Jameson so harassing that Lord Elgin, acting on the instructions of Premier Campbell-Bannerman, has put his foot down and declares peremptorily that open discussion is inimical to the best interests of the government here and of the Empire as a whole. Sir Wilfrid Laurier is reported as saying that it matters very little whether the discussions are open to the public or not. Imperial preference, which is the British ministry's greatest difficulty.

A Permanent Council

Respecting perpetuation of the colonial conference it is understood that Sir Wilfrid Laurier's refusal to assent to a representative permanent council or commission is likely to lead to a compromise. Lord Elgin's proposal, it is stated, is that a new permanent department be created, presumably at the colonial office, to carry on the work between the conferences, which will be held every four years. Sir Wilfrid Laurier is not inclined to resist this suggestion, knowing full well that the really effective contact between the Canadian and Imperial governments will be maintained, as now, through the confidential diplomatic medium of the high commissioner. It is more than probable that as an ultimate outcome of present discussions the High Commissioner's office in London, each colony will be made a department of the government of its own colony, the high commissioner himself being a member of his own government, and here, as Sir Charles Tupper was during a part of his High Commissioner's tenure, this suggestion is naturally the outcome of present practice and ideas of the Imperial Council. It is stated that Sir Wilfrid Laurier objects to interference with colonial autonomy.

Hon. L. P. Brodeur, interviewed respecting the terms of the resolution on the Imperial Council, cabled by the Canadian Associated Press last night, admitted that the cable was not altogether incorrect. It is stated that Lord Elgin submitted a resolution at a meeting of the cabinet today. The final draft will be decided by the ministers tomorrow. Sir Arthur Biggs, a prominent Liberal, speaking to the C. A. P., said: "What a row there could be at any Liberal function if our guests dined on carpet made in the form of a faithful representation of the Empire as it existed at the 1900 Club last night."

Canada Wants No Favours

The Imperial Industries Club today lunched the colonial premiers at the

Royal Hotel, Premier Laurier replying to the toast, "Our Guests," said: "When I came to London and found on my table a large pile of invitations, I consulted with my good friend Lord Strathcona, who told me of all the invitations I received I must accept the invitation of this club. Touching on the tariff question, Sir Wilfrid reiterated his declaration that Canada wanted no favours. The English people must decide. His usefulness and influence did not extend beyond Canada. He spoke for less than five minutes, then accompanied by Lord Strathcona left for the Hotel Cecil. Mr. Haldane has announced that no effort will be spared to procure opportunities for the colonial premiers to acquire information regarding the volunteers and yeomanry.

Pilgrims Banquet Premiers

(Associated Press.)

LONDON, April 19.—Field Marshal Lord Roberts presided at a banquet given this evening at Claridge's by the Pilgrims' Society in honor of the various colonial prime ministers who are at present in London to take part in the colonial conference. It was the most brilliant of the honours accorded the visiting premiers since their arrival in this city. The members of the society and their guests numbered 350; and that number would have been much larger had not many applications been refused because of the lack of accommodations. At the same table with Lord Roberts sat Whiteley Reid, the ambassador of the United States, Sir Frederick Spencer-Churchill, Lord Halifax, Lord Fitzmaurice, Rider Haggard, Lord Kinraid, Archdeacon Sinclair, the Duke of Sutherland, Field Marshal Sir George White, General Methuen, Lord Nicholson and Harry E. Brittain were among those present. Sir Wilfrid Laurier, the Premier of Canada, General Louis Botha, Premier of the Transvaal, and Dr. Jameson, Premier of Cape Colony, were absent and Canada alone

among the colonies was without a spokesman. Those who delivered speeches were Sir Edward Grey, Alfred Deakin, Sir Joseph Ward, Premier of New Zealand; Alfred Lyttelton, T. W. Smart, the Commissioner of Public Works for Cape Colony, who spoke for Dr. Jameson, who is ill, the Duke of Devonshire and Lord Roberts. Sir Edward Grey in his address referred to the mistake Great Britain would not and he was sure that this would be repeated. Lord Roberts and Mr. Smart spoke on the reunion of the Anglo-Saxon nation, and reminded their hearers that Americans were taking part in the celebration of the evening.

Premier Deakin Predicts War

The most striking addresses were delivered by Sir Edward Grey and Alfred Deakin. Sir Edward remarked he feared the colonists found the colonial office much farther from the colonies than the colonies were from the colonial office. Mr. Deakin talked of the shoulder and dealt with international problems with straightforward words that undoubtedly will make the careful British diplomatist shudder. He said it was a fact that the colonial office was farther from the colonies than the colonies were from the colonial office, and he emphasized the claim that the colonies should be independent nations. He said it was "measuring" to come to London and talk with the government face to face. He promised that Australia next year would inaugurate a system whereby she would send her representatives to the conference without assistance from the mother country. He emphasized the fact that the problems of Australia were not the problems of England, saying the mother country had no Asiatic populations as menacing rivals. Then, referring obviously to the German occupation of the New Hebrides, the Premier of Australia said he wished it to be noted that England had not allowed a rival European nation to secure a foothold close to Australia without a warning from Australia. While the British navy had not been called on in a test of sea supremacy during the past century, the speaker said this would happen in the next hundred years. Without mentioning nations by name, he predicted pointedly that there would be war for the supremacy of the Pacific with Germany and Japan.

THE WEATHER

Forecast—Strong northwesterly and west wind, fair. Sunday, fresh westerly wind, fine and cool.

LOCAL NEWS.

John Bryon's express wagon broke down on Main street yesterday delaying traffic for a time.

Registrar J. B. Jones reports that for the week just ending there were six births, four of the infants being males, and five marriages.

The ordinance of baptism will be administered to three candidates, two men and a woman, at the close of the morning service in Victoria street church tomorrow.

St. George's Society will attend Trinity church for the annual service tomorrow evening at 7, when the sermon will be preached by Rev. Bishop Richardson, the service being intoned by Rev. E. Revington-Jones. There will be special hymns for St. George's Day.

J. C. Bartlett, the well known Boston singer and composer, pronounces Mrs. Archie Miller one of the finest singers in New England. Mrs. Miller, who is to sing in St. David's church Thursday evening, April 25th, will be remembered as Miss Lizzie Blair Olive, of this city.

The police force went on duty today with their light summer helmets. The dark helmets that have been turned in to police headquarters are a dilapidated looking lot and more fit for the dump than to be carried by an official who is supposed to look neat. It is expected that by fall the force will be supplied with new head gear.

A special meeting is being arranged for boys only for Sunday afternoon, 21st inst., at the Leinster street Baptist church at four o'clock. There will be a short musical service until 4:15, and then an address will be given by Rev. L. A. McLean. A few years ago the Y. M. C. A. held a similar meeting at which about 400 boys were present. It is confidently hoped there will be as many tomorrow.

It is reported that the new steamship Yale, which was recently built for the Eastern Steamship Co., will be placed on the Boston-St. John route. The Yale is a fast steamer and is expected to cover 25 miles an hour. If she is placed on the route she will be much quicker time than at present. She will leave Boston at 8 a. m. and arrive in St. John at 10 a. m. The Yale is twice as large as the Governor Cobb.

Miss Julia Marie Donahoe, daughter of Dennis and Bridget Donahoe, died at an early hour this morning at her aunt's residence, corner of Carleton and Dorchester streets. The young lady who was sixteen years of age had been ill for only one week with meningitis. She was a student at Currier's Business college and was a remarkably bright girl. Besides her parents she is survived by four sisters and one brother.

The free kindergarten association intend giving in the near future, a rummage sale, at which the preference will be given to parents of those children who attend the schools. Tickets will be distributed to the mothers, and they will be permitted to make all their purchases before any others are admitted. Persons having any parcels of goods to be donated will kindly notify any members of the kindergarten association or telephone 1400 or 334, and the bundles will be called for. There are many poor people in the city who are in need of clothing for their children, and the intention in the proposed sale, is to shut out second hand dealers who make a habit of buying up everything in sight. The date and place of sale will be announced in a few days.

EPISCOPAL PREACHERS TO EXCHANGE PULPITS

Special Missionary Services in all the City Churches Tomorrow

Tomorrow in the Episcopal churches an effort will be made to increase the foreign missionary fund. An exchange of pulpits will be made. Several visiting clergymen will preach. The services at the churches will be conducted by the following:

- St. Stephen's, Bishop Richardson in the morning and Canon Newham in the evening.
St. Luke's, Rev. E. B. Hooper in the morning and Canon Tucker of St. Stephen in the evening.
St. Mary's, Canon Montgomery in the morning and Rev. E. B. Hooper in the evening.
St. Paul's, Canon Tucker in the morning and Dr. Raymond in the evening.
Trinity, Canon Newham in the morning and Bishop Richardson in the evening.
St. James, Canon Cowie in the morning and Rev. A. W. Smithers, of Riverside, Albert Co., in the evening.
St. John the Baptist, Rev. A. W. Smithers in the morning and Canon Cowie in the evening.
St. Jude's, Rev. Sewell Neales, of Sussex, in the morning and Canon Montgomery in the evening.
Church of the Good Shepherd, Fairville, Rev. Dr. Raymond in the morning.

AUCTIONS.

At Chubb's corner at noon today Auctioneer Langham sold at public auction the lot of land in rear of the Opera House as an equity sale. T. P. Regan, proctor, Edward Bates was the purchaser. His bid was \$1,250. This lot of land is a large one and extends back nearly to Peters street.

The house and property of Mrs. Jones at Torryburn was also offered. It was withdrawn at a bid of \$700 over a mortgage of \$2,100. The Merritt property on Golding street was purchased by George Dick. His bid was \$1,250. Ten shares of the Bank of New Brunswick were withdrawn at \$25.

DANIEL CRONIN WILL NOT GET A LICENSE

County Commissioners Considered Applications Today

Several Requests for Beer Licenses Will be Taken up Later—Temperance People at the Meeting.

The St. John county liquor license commissioners met at 11 o'clock this morning in the office of County Secretary G. B. Vincent. The licenses for the ensuing year were granted. Contrary to expectations no spirited discussions took place, and in a short time the business had been transacted. Rev. Thomas Marshall and L. P. D. Tilley were present, representing the N. B. Temperance Federation. Mr. Tilley stated that he had been requested to read a petition, recommending that no license be granted to Daniel Cronin in Lancaster. The petition was signed by the following: I. W. Stevens, L. A. Long, Rev. Frank Baird, H. H. Watters, Thos. A. Graham, W. J. Linton, J. W. Baird, F. Allingham, S. McCormick, Robert Irvine, James Lyons, J. Stout, H. Wilson, S. A. Finnie, Jas. Stephenson, O. D. Hanson, S. Galbraith, G. Matthews, R. Catherwood, G. W. McAuley, Wm. Golding, Wm. Bonnell, Fred Estey, E. J. Thorne, J. N. Phillips, H. S. Steves, E. A. Kirkpatrick, F. H. Finley, J. E. Bryant, John McColgan, Weldon Fenwick, E. Schofield, H. Gray, W. C. Appleton, George H. Brown, LeBaron Flewelling, G. M. Whitton and P. W. Kelly.

Mr. Kelly stated that the persons who signed the petition were acting under the Liquor License Act, whereby a license can be objected to on several grounds. The objection entertained by the petitioners is that a bar room should not be situated where Cronin's is.

County Secretary Vincent stated that objections to the granting of this license had been made before, and he had considered the matter settled that no license would be granted. He said, however, that the commissioners would be the ones to act. The commissioners were unanimous in deciding to refuse Daniel Cronin's application for a license. The other applicants were granted licenses. They are: For Lancaster—Fred Duncanson, John Brennan, Neil Dwyer, Geo. H. Tippet, Wm. Flemming, John Sullivan, James Reedy and James McCarthy. All except James Reedy's and James McCarthy's applications are for retail licenses. Mr. Reedy applied for a manufacturer's license, and Mr. McCarthy for a wholesale license. For Simonds—Sterling H. Barker, E. Treadwell, Charles W. Mayall, D. Michael and W. E. Newcomb. These are all retail dealers.

J. A. Humphrey and Benjamin Knowles in Lancaster parish, and James Ingraham, in St. Martin's, applied for beer licenses. The commissioners decided not to consider them at present, as they had new applicants and some objections to the granting of their licenses may be made in the near future. Vincent's report stated that the applicants for liquor licenses in the county were mostly old ones. The number of licenses asked for this year is not greater than last year. As far as could be learned the liquor establishments in the county had been managed well, and this probably accounts for the lack of objections to the granting of the licenses.

CAR WORKS PROJECT HELD UP; A MANAGER WANTED

Promoters Unable to Find a Competent Man to Take Charge—Lots of Capital Available

The St. John car works project is held up for want of one man. The promoters of the project have for months been endeavoring to secure some competent person who could be engaged as manager and whose reputation would be such that the proper conducting of the business could be guaranteed all prospective investors. Search has been made in all directions and it seems impossible to secure any person with the required ability. There are a number of men who would be pleased to accept the position, but they scarcely come up to the ideals of those who have interested themselves in the matter, and for this reason alone what might be one of the largest industries in the maritime provinces must be dropped. Those citizens who endeavored to bring about the construction of such a plant are convinced that there is no scarcity of capital in St. John which would be available, nor do they quite agree with Mr. McNicoll's statement that the labor supply here is too limited. They feel that the necessary amount of money would be readily subscribed and although some difficulty might be met in securing a sufficient number of workmen, this would be not so serious an obstacle as they had thought, but have been unable to find any manufacturer who is willing to convert his business into a company and to largely increase the capital, making the desired change. Under these circumstances it has been found impossible to do anything further for the present, and the project may at any time be revived if a suitable manager is found.

Mr. and Mrs. Quinn, Montreal, are registered at the Royal hotel and sail today on the Tunisian for Europe.

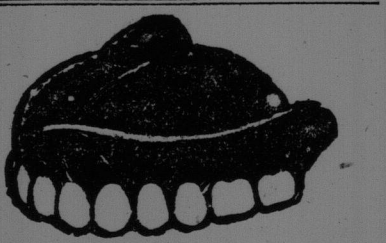

Twelve deaths occurred in the city during the past week, resulting from the following causes: Pneumonia, 2; heart, 1; diabetes, 1; consumption, 1; infant disease, 1; Bright's disease, 1; acute meningitis, 1; spinal meningitis, 1; inflammation of kidney, 1; inflammation of brain, 1; and accidental drowning, 1.

THE EVERY DAY CLUB.

At the Every Day Club hall last evening A. W. Baird gave a number of readings, being several times encored. He also spoke in high appreciation of the club and its value to men. Harry King gave an excellent series of phonograph selections, and there were songs by Mr. Reicker, the blind man, Mr. Williams and Fred Dixon. The rooms were filled with men.

At the sacred concert tomorrow evening at 8:30 o'clock the most of the music will be by members of the Exmouth street choir, including quartette and soloist. There will also be good vocal and instrumental music at the afternoon meeting at 4:30 o'clock.

On Thursday evening, April 19th, 1907, in St. John's Reformed Episcopal church, Sussex Corner, Rev. George Orman officiating, Mr. Alfred Bevon Spider and Miss Annie Laura Dole were united in matrimony. In deference to the wishes of those most closely concerned the ceremony was private and the secret well kept, otherwise so well and widely known and esteemed are the bride and groom and their respective families, that the church would have been crowded with their friends and well wishers. After luncheon, partaken of at the bride's mother's, they left on the evening train for Campbellton.
