#### Arrival of the BRITANNIA.

The Royal Mail Steamship *Britannia*, arrived at Halifax, on Monday last, in 12 days from Liverpool—She brought 79 passengers.

Mr. Peter W. Hirston, bearer of despatches to the United States, arrived in the *Britannia*, and proceeded in her to Boston. The news is not of much interest, the most important item being the defeat of Sir Robert Peel, on a motion of Mr. Miles on the Sugar Duties question, by a majority of 20. Mr. Miles's motion went to give a protection of 14s. on Cuban sugar—the Premier's proposition only 10s—the latter was negatived by the majority above stated. On the Tuesday following the House was induced to re-consider the vote, when Mr. Miles brought forward his motion, and the Premier moved in amendment the original proposition. Mr. Miles's motion was lost by a majority of 22, and Sir R. Peel's amendment was then carried, 24s. and 34s. are the duties passed—the former on Colonial, the latter on foreign sugars.

#### ENGLAND.

From Charles Willmer's News Letter. The Ministers, it will be seen by our Parliamentary reports, were defeated in the House of Commons, on Friday night, with reference to the sugar duties bill, an amendment proposed by Mr. Miles, the member for Bristol, having been carried by a majority of 20. This announcement was received by Sir Robert Peel with evident chagrin, but he soon recovered his serenity, and intimated that he should be prepared to state on Monday what course he should pursue. Reports were very current on Saturday, Sunday and Monday that he had determined to resign, and it was even asserted, that Sir Robert Peel had carried the resignation of the Cabinet to Her Majesty, who had accepted it, and "sat for" the Duke of Richmond. This statement was, however, denied by the *Morning Herald*, the only London morning paper which gives the Government decided support. The *Morning Chronicle* stated that Ministers had determined to maintain their posts, but to abandon their proposed change of sugar duties for the present. Their friends, however, seem to have been seriously alarmed lest they should resign, and a very numerous meeting of the Conservative members of the House of Commons was held at the Carlton Club House on Monday morning—more than 200 being present, when a resolution of entire confidence in Sir Robert Peel's Government was proposed, carried unanimously and forwarded to the right hon. baronet in Whitehall Gardens. Another cabinet council was held at the foreign office, after which the Premier proceeded to Buckingham Palace, said to dine with Her Majesty, then came down to the Commons and made a statement which is elsewhere reported. The *Standard* says that the Ministers never once contemplated a resignation, and as long as their party permit them to carry on the government with honour, they will persevere, to the completion of the restoration of Ireland to peace—the perfect tranquillity and security of India—the consolidation of the peace of Europe, of which we have so many flattering proofs in the visits of so many sovereigns, and of which we anticipate the most flattering proofs of all in the visit of Louis Philippe, the wise and the good—the work of restoring commerce and finance.—He intimated his intention to move as an amendment on Mr. Miles's proposition, the restoration of the duty on colonial sugars, and should leave the Income and Property Tax Bill shall have expired.

The result was that Mr. Miles's proposition was negatived by 255 to 223—leaving a majority for ministers of 23.

#### IRELAND.

The Imprisoned Repealers, and the Repeal Agitation. The proceedings in the Dublin Court of Queen's Bench, in the case of the Queen versus O'Connell and others, have closed with the despatch of the writ of error to London, it was allowed last week, without opposition by the crown.

The authorities of Richmond Penitentiary have put some restrictions upon the wholesale admission of visitors: they are no longer allowed to inscribe their names in a book for publication; and depositions to present addresses to Mr. O'Connell are not admitted. The *Freeman's Journal* notifies, that those visitors who wish to have their names published, have only to leave a card at the office of the newspaper for every one sent to Mr. O'Connell.

Several meetings have been held about the country. One of the most respectable was that at Belfast, on Friday, which comprised

"Liberals" of all shades. Some of the speakers avowed political differences with Mr. O'Connell, but protested against the prosecution as unjust.

The Dublin Corporation met on Thursday week last, to consider an address to the Queen, on the subject of Mr. O'Connell's imprisonment; praying her "to vindicate the constitution, and protect the rights and liberties of Her Majesty's subjects, which have been violated in his person." An address in that spirit was proposed and advocated in several heated speeches. Alderman Butt opposed it; and, in some temperate strictures, he pointed out one inconsistency of the Repealers—that while they professed hatred to England, they cried that if they had but had English judges and English jurors, they would have had better justice! One warm supporter of the address was Mr. Fitzpatrick, who was on the jury-panel, and was among the forty-eight drawn by ballot, but he was not on the jury. Mr. Butt bantered him on the unflattering verdict that he would have given! The address was carried, by 49 to 6.

The Rev. Dr. Murray, and the other titular archbishops and bishops in several parts of Ireland, have directed prayers to be offered up in all the chapels of their diocese, for Daniel O'Connell, on Sundays and holidays.

The *Standard* states that Sir Thomas Wilde, Mr. Fitzroy Kelly, Q. C., and Mr. Austen, Q. C., have been retained by Mr. O'Connell to conduct the writ of error in the House of Lords.

An "O'Connell Compensation Fund" is getting up towards indemnifying the "great benefactor of his country," for the valuable services he has rendered to Ireland.

The expense of the state prosecutions in Ireland, to the repeal party, has already exceeded £14,500.

A strange scene was witnessed in Dublin on Thursday. A number of deputations from municipal corporations went in a procession of thirty carriages, to present addresses to Mr. O'Connell. At the prison gate they successively applied for admission, and were politely repulsed by the governor.—They then retired to Mr. O'Connell's private house, and adopted a formal declaration of their sentiments. The speakers were very indignant.

Sir James Graham, in reply to Mr. O'Brien's letter of remonstrance, says that by having the enforcement of the discipline of the Richmond Penitentiary, which board, is not under the immediate control of the Secretary of State, and that he is not prepared to interfere with the discretion of the board on this occasion.

#### INDIA AND CHINA.

The news from India is to the 2nd of May. The *Bombay Times* of the 1st, states that Singh, who had come to Lahore, on the invitation of his uncle, Hira Singh, and at the desire of the sedition troops, had been murdered.

Kurrachee letters of the 25th, report Secunde to be peaceable, and the troops comparatively free from sickness. The usual discomforts attendant on the hot season were beginning to be experienced, with the thermometer above 100 degrees, but no inconvenience of any moment was apprehended from them so long as the troops were permitted to remain in quarters. General Napier had reached Myderbad on the 7th of April and returned on the 17th to Kurrachee. He was to attend a meeting of the chiefs on the 24th of May, when 20,000 Belooches were expected to be present. The mutiny among the Bengal troops has been subdued; the 24th N. I. alone have been punished by disbandment. There were on the march to the places of their original destination. It is said that government have, in reality, yielded nothing, though the Sepoys are under the impression that everything they desire has been granted them. Should it turn out that misunderstandings of this nature exist, the appearance of fresh discontents may be looked for, when they come to be discovered, and such are already said to have appeared. At Gwalior and Bundelkund, everything appears to be tranquil for the present, though there are obviously discontents a brewing, which may yet incommode us. The 11th and 42d Madras Native Infantry have been suffering severely from cholera, no fewer than four European officers and two ladies having died within a few days. India generally is tranquil—the hot season now fully set in. Trade continues dull. The Governor-General is about to proceed up the country to make a sojourn of some duration at Allahabad—to watch the turn of events.

The China papers relate that the ship *William the Fourth* had been seized by the Chinese authorities at Shanghai, and made over to a British officer to be conveyed to Hong Kong for adjudication, on a charge of having opium on board in the port of Shanghai.

Commerce continued in a most depressed state in Canton, and raw cotton was particularly dull. The opium market was also dull.

#### FOREIGN.

War between France and Morocco.—War appears actually to have broken out between Morocco and the French in Algeria. The *Monitor* of Tuesday publishes despatches from General Lamoriciere; in one of which, dated from the Camp near Lall, Magrnia, at 10 o'clock, p. m. on the 30th May, he states that he was suddenly attacked on that day, two leagues within the French frontier, by a body of 1,700 or 2,000 cavalry, belonging to the Emperor Abd er Rahman; which he repulsed without difficulty.

The following, according to two prisoners who escaped from the sabres of the Cassiers, is the cause of this sudden change. A person allied to the Imperial family, and named Sid-el-Mamoun Ben Cheriff, arrived this morning with a contingent of 500 Berbers, sent from Fez by the son of Maley Abd-er-Rahman, to form part of the troop of observation assembled before us. Sid-el-Mamoun, excited by an ardent fanaticism, declared that he wished at least to see the Christian camp, and marched forward notwithstanding the opposition and objections of De' Gemaoui, who, although he objected, according to the Emperor's orders, dared not give an absolute refusal to a prince of the Imperial family. The want of discipline of the Berbers and the fanaticism of the negro troops, became more and more excited in our presence, and the battle was fought. Whatever may be the construction put upon this recent war exists in fact.—Fortune will demonstrate to what degree it will be carried.

On Friday, the Chamber of Deputies, by a majority of 190 to 53, voted 7,500,000 francs to defray the expense of adding 15,000 men to the present force of 95,000 already in Algeria.

Sir Henry Hardinge, the new Governor of India, passed through Paris on Sunday, on his way to Marseilles.

Positive intelligence was received in Paris of the death of the Duke d'Angouleme, at Goritz, on the evening of the 3rd instant.

TURKEY.—The Sublime Porte has issued a circular abolishing the use of torture in all criminal proceedings throughout the Turkish Empire.

The Sultan left Constantinople on the 25th to make his promised tour to Broussa and the mouth of the Dardanelles. The Albanians appear to have been routed by the Turkish army on all points. An increased spirit of resistance against Russian aggression is manifested by the Circassians. Several tribes hitherto submissive to Russian influence have joined the coalition.

#### POETRY.

##### From the *Friedrich*. HUMAN WISDOM.

"BECAUSE YE ASK AMBS," I asked about the Summer's heat, That cooling rain might fall.— The answering storm impetuous beat, "Lead thunders shook the hall; The trees that graze their evening bowers, Was shattered by the lightning's power!"

I wished for wealth—for it I toiled, 'Till ran my coffers o'er.— Luxurious Ease my pleasure foiled, Disease pressed on me sore; Then from my couch of pain, I cried For Health—to luxury denied!

I sighed for Love; a beautiful bride Gave me her heart and hand; When Autumn leaves in faded pride, Showed the destroyer's hand, She sickened as they seared—and lay On mother Earth as well as they!

I called for Fame—the trumpet rang, My praises to the crowd; But in each pause Detraction sang My sins, in cadence loud; So close, that echo swept along The twin, commingled in her song!

I asked for peace—the mountain wars Swelled widely o'er the sea; Loud did the lashing billows rave, And thus they cried to me; "Here seek not Peace—she is not given Short of the port—she dwells in heaven!"

I asked Religious aid—there came No answer to my cry; In hourly prayers, I named the name Of Him who reigns on high.— And vainly deemed in my own might, I could direct my prayers aright.

Then came remorse—she brought to view Sins of forgotten date; Around my pathway troubles flew, That ever on her wait.— Till Pride was prostrate.—Self in dust, Had not a hope on which to trust!

Amid the darkness of that hour Was seen a glimmering light, And there was felt a hand of power Uplifting by its might.— Then thoughts and wis was, one by one, Were centered in, "Thy will be done!"

European Intelligence.

From Wilson & Smith's European Times SUMMARY OF NEWS.

The Emperor of Russia honored the Duke of Devonshire with his presence on Saturday at a fête, given in honor of his Majesty, at his Grace's villa, near Chiswick.

A letter from Vienna, of the 29th ult., states that in case of need the troops of Russia are ready to enter Bulgaria, should the Turks not be able to subdue the Albanians.

Since the discovery of the late will forgery, the Bank of England have adopted some new regulations with reference to the granting powers of attorney for the sale or transfer of Stock.

The King of Hanover has created a new distinction, in honor of fifty years' military service, and given it the name of the cross of Ernest Augustus. The first officer who receives the cross is his Royal Highness the Duke of Cambridge.

It appears that Lord Stanley has complied with an often reiterated request of the settlers in the eastern province of the Cape of Good Hope, in giving additional powers to the Lieutenant Governor, so that he shall in future have indisputable pre-eminence over the judiciary, and in case of emergency to act upon his own judgment, and responsibility, without waiting for instructions from the Governor of Cape Town.

It is said that the address to O'Connell, which has been circulated in several towns of the province of the Rhine, has given occasion to some discussion between the English and Prussian Governments.

On Monday, the King of Saxony visited the Thames Tunnel, with which he expressed himself much satisfied, accepting from Mr. Griffin a medal, bearing the likeness of Sir Isambard Brunel, the celebrated engineer.

The "Independence" of Brussels, of Saturday says, it is assured that the negotiations which have been long pending between the Post Office departments of London and Brussels, for the establishment of a daily mail between Dover and Ostend, are nearly brought to a conclusion.

The King of Saxony is not only a botanist, but a botanical author, having published an account of the plants in the neighbourhood of Maribach. The King is said to have acquired a very considerable, practical knowledge of the science by long pedestrian excursions on the mountains of Germany.

The frequent adulterations of tobacco, snuff, beer, coffee, chocolate, and cognac have induced the Commissioners of Excise to issue bills, calling attention to the state of the law, and expressing a determination to enforce the very heavy penalties against all offenders.

Sir David Roche Bart. M. P. for Limerick led to the altar on Monday last, Miss Grady, daughter of W. D. Grady Esq. of Merrion Square, Dublin, and sister to Lady Altapuala and Lady Edward Chichester.

The completion of the tower of the intended new building at Eton College will be laid by his Royal Highness Prince Albert on Thursday, the 29th inst. with great ceremony.

On Monday the hay harvest was commenced near the metropolis, and several fields were cut between Barnet and Highgate. The crop, although much short of the usual average, appeared heavier than could be expected from the continuance of the dry weather.

The library of the late Duke of Sussex is about to be brought to the hammer of the auctioneer.

The proceedings of the Duke of Devonshire were resumed on Thursday morning in the House of Lords, but without the probability of terminating. There were about forty peers present, as also the Chief Justices of the Queen's Bench and Common Pleas, the Chief Baron of the Exchequer, Mr. Baron Parke, &c. &c.

The young Queen of Spain arrived at Barcelona on the 1st instant, and was received with great rejoicings. On Tuesday night the Merchant Tailors' Company gave their usual annual banquet in their magnificent hall, in Threadneedle St. on the occasion of the election of Scholars to St. John's College, Oxford.

THE EMPEROR OF RUSSIA. The Emperor has had out a deal of money in England. As his imperial Majesty's son took Newmarket under his especial patronage last year, his Imperial Majesty confers a like distinction this year upon Ascot. Perhaps next year some other member of the Imperial family will subscribe to the Epping Hunt.

There his Majesty has also subscribed most liberally to the Nelson and Wellington monuments. We have not heard whether the imperial munificence transmitted anything to the Duncombe testimonial. But the shower of diamonds and snuff-boxes, with the imperial likenesses on them, was a lavish beyond all imagination of imperial profusion.

The judgment and discretion with which these magnificent gifts have been bestowed cannot be too highly applauded. The Ascot Race Fund receives £500 per annum; the servants at Buckingham Palace (to say nothing about the royal and snuff-boxes) were presented with a diamond of £200; and the Society for the Relief of Foreigners in Distress with a "spontaneous contribution" of £1000. The scale of interest which the imperial mind feels in the relative prosperity of these several claimants upon the generosity of the imperial purse may be thus estimated:—The servants of Buckingham Palace occupy the imperial heart twice the space engrossed by the foreigners in distress; and, according to the common value of money, Ascot races occupy five times the space of the servants at Buckingham Palace, and ten times the space of the foreigners in distress.

His Imperial Majesty did not forget the Poles. He sent a donation to the committee, who, although much in want of money, sent it back again. The committee acted very nobly. Their funds are not sufficiently flourishing to admit of such acts of civility. They should have accepted and distributed the contribution—under protest.

The wealth of the Emperor is unbounded. He scatters it about like dust. He has bought up the best diplomatic talent in the world with it—the press of Germany—a part of the press of France—whole principalities in the East; but nothing can show his indifference to money so completely as the manner he has thrown away his cash in England. There is not one shilling he has laid out amongst us which will ever bring him any return. He might as well have thrown it into the sea. More than that—the whole riches of his imperial treasury could not bribe the public opinion of England.

THE PEER CAMPBELL.—We regret to learn, by the last English Mail that this excellent man and gifted writer is no more. He expired at Boulogne on the 15th ult. whether he had gone for the benefit of his health.

GREECE.—We learn, via Paris, that the President of the Greek Ministry, M. Metaxas, had resigned, and that all his colleagues were about to follow his example. The late cabinet, said to be composed of British influence, had, from its departure to office, met with such opposition that it was obliged to yield.

TURKEY.—Advices from Constantinople, to the 23d May, report that the Turkish forces sent against the Albanian rebels had twice defeated them between the 13th and 17th. Kriehowitz had taken by assault, after a desperate resistance on the part of the rebels, of whom 100 were killed, and about the same number wounded, but the loss of the Turks is stated to have been more considerable. Russia, it is said, has offered to furnish troops for the suppression of the rebellion, should the Turkish force prove unequal to the task.—Permission has been granted for the erection of a Protestant Church at Jerusalem.

THE SECOND JUNE MAIL

By the arrival of the Britannia, we have received London dates to the 18th ult. and Liverpool to the 19th inclusive. We have given a summary of the news by this arrival on our first and second pages. The Britannia supplies the place of the Ibernia on this trip—that vessel having been laid up at Liverpool for repairs. Commercial affairs look promising, and there is every appearance of returning prosperity.

TEMPERANCE MEETING.—On Monday evening last, Mr. Ryder addressed a large and respectable meeting of the inhabitants of this place in the Town Hall. The lecture was of an introductory nature, intended to exhibit the claims of Temperance to the countenance and support of the community, and the lecturer we believe, accomplished to a certain extent, his object. We take this opportunity of stating that Mr. Ryder will lecture again in this evening at seven o'clock, and trust that there will be a general attendance. It should be borne in mind that each lecture is upon a different topic, and we may not agree with each other in our views upon the subject, it will be well to give lectures an impartial hearing.

Fire at St. Stephen.—We are informed that a fire broke out in St. Stephen, in a house belonging to Mr. James McMaster, of this Town on Tuesday evening last, about 2 o'clock, when a quantity of property belonging to some gentlemen, every exertion was made to save the houses, but all in vain—No insurance.

The Masonic Lodge of Nova Scotia and other Lodges had a grand tour out on Saint John's day in Halifax, and proceeded to Birch Cove in one of the Dartmouth steamers engaged for the occasion, where they had a most sumptuous entertainment.

The following Address of the inhabitants of this Town, to A. Grant Esq., was received too late for insertion in your last impression.

St. Andrews, 24th June 1844. ALEXANDER GRANT, Esq. Collector.

We the undersigned Merchants, Traders and other Inhabitants of the Town of St. Andrews, finding that you are about to leave us, for some time, on a visit to your native country, cannot suffer you to go without expressing our regret at your departure.

During the long period, fifteen years and upwards that you have resided amongst us, as Collector of this Port, you have endeavored yourself to every member of the community, by urbanity and kindness of disposition and we that are concerned in Trade gladly avail ourselves of this opportunity to testify our gratefulness for the alacrity, and readiness which you have on all occasions, and at all times evinced, to facilitate our transactions of business.

Be assured, dear Sir, that we all wish you, your amiable wife and family, a speedy and pleasant voyage home, and that we most anxiously hope, that you may be induced shortly to return to resume your official duties at this Port.

We the undersigned Merchants, Traders and other Inhabitants of the Town of St. Andrews.

I have received from you by deputation the very kind expressions of your regard, for me and my family, at a period when we are about to leave you for a short time to visit our kindred.

I trust I shall be able to return to you in a few days, and I am pleased to convey to me on the eve of my departure—In perfect unity and it pains me to think that I shall be without your kind association so long as I may remain in England.—I have here my own immediate family and but for you I might possibly not have had the pleasure of St. Andrews, a situation so highly valued by nature, that I have ever declared it the most beautiful spot I have ever beheld.

I have only now to do homage to the kindness of your address and to acknowledge that I cannot adequately express the high consideration I entertain for the genuine esteem which has been conveyed to me by the deputation.

I have the honour to be Gentleman, With regard and esteem, Your very obedt. Servt. ALEXANDER GRANT.

Fresh Disturbances in Philadelphia.—By Boston papers to the 8th inst. we learn that on the Friday previous an attack was made on the 4th inst. by a small party of Irish men about 50 in number, upon the tents erected for the accommodation of the Native Americans, in Fisher's Woods, and bent their owners. It is alleged that they also rent and burnt the American flag at the 6th Ward headquarters.—The excitement was increased by a rumor that there were fire arms in a church known as St. Philippe, de Neris—Search was made by the Sheriff and police, and 12 muskets discovered—All was quiet at latest accounts.

PROVINCIAL APPOINTMENTS.

The Hon. Harris Hatch and Samuel Anthon, Esq., to be Judges of the Inferior Court of Common Pleas in the County of St. Andrews.

W. F. ODELL, Sheriff of the County of St. Andrews, 2d June 1844.

There seems to be the revival in Halifax, if we are to judge from the number of vessels which arrived on Monday week last—upwards of a dozen vessels having arrived in that port with general merchandize.

ANNEXATION.—It appears that Captain Tyler has met with better success in his "private annexation treaty," than fell to his lot in the public one. The territory annexed, it is said, possesses charms which might seduce a much younger, and better looking man than John Tyler. She is said to be hard upon 26 years of age, possesses the advantages of a finished education, is highly accomplished, and has travelled through Europe with her father. She is rather above the middling size and is beautiful both in face and form. It is said that young Bob is highly delighted with the treaty, thinks it is the best ever made in the U. States.

Floods in the West.—The floods in the West and North continue to be subjects of serious and general concern.

On the 18th, the Mississippi was 14 inches higher at St. Louis than at any previous time this year—the levee was under water and business was suspended. Several towns on the river have been entirely cut off and are now in a state of distress. It is reported that the levee at St. Louis was broken, and upwards of thirty buildings destroyed, containing a very large amount of property in dry, grain, flour, wool, &c. The property is mostly insured.

Awful Conflagration in Harbour Grace.—A tremendous fire occurred at Harbour Grace, in New Foundland on the 5th of last month, by which more than twenty four buildings were destroyed. We learn from the St. John's Evening Post that the heaviest sufferers were Messrs. Thorne, Hooper, and

Co., adjoining whose premises the fire originated, and Peter Crows, Esq.—The fire was not rightly got under until the day following. Several small craft lying at the wharves were burned, but the larger class vessels all escaped, although they did not remove from the wharves. The loss of property is estimated at £30,000.

Mr. Bourne, Chief Justice of New Foundland, has been removed from his judicial office according to a despatch received from the Colonial Secretary, and the Hon. James Simms, appointed. Other appointments took place at the same time, among which were Hugh Alexander Emerson, Esq. to be Acting Attorney General, and the Hon. William Bickford Row to be acting Solicitor General.

Governor Dorr the fellow who kicked up such a rumpus in Rhode Island some time ago, has been sentenced by the authorities of Newport to confinement in the State Prison for life.

Insurrection in the British West Indies; Martial Law Proclaimed at Dominica! Several Negroes shot!—The following is an extract of a letter received at Keefler's Reading Room.

Liverpool, N. S., June 23d. Capt. McLeod of the Brig Nova Scotia at Liverpool, just arrived in 16 days from Dominica, reports that, on the day he left, Martial Law had been proclaimed in consequence of a rise among the Blacks, about 300 being assembled near the town. One of the leading inhabitants had his horse cut down under him, and was himself so severely wounded that his life was despaired of.

Several Blacks had been shot down, and great excitement and confusion prevailed. The outbreak was said to be occasioned by an order for taking the Census of the Island, the Blacks believing that it was with a view of making them pay for the Lands they had taken up and cultivated since they had been free.

Capt. McLeod states that he would have been detained for 15 days had he not fortunately procured his clearance just previous to the outbreak.—Halifax Morning Herald.

Deserter Caught.—Lieut. Lacey succeeded in capturing a deserter from the 33d Regiment at Fredericton, on Monday last just below Calais. The fellow it appears deserted from his Regt. on the 3rd inst. and imagined himself "quite out of harms way," when he set foot on the American side of the river. Much credit is due to Mr. Lacey for the prompt manner in which he brought his prisoner over the lines.

A man named Fitzgerald has been apprehended at Hanwell in Middlesex, on a charge of having intimated his intention to shoot the Duke of Wellington and Sir Robert Peel.—He is a man of muscular frame, about fifty years of age, six feet high and of violent character; he was some years ago a soldier and whilst stationed in the West Indies, suffered from the yellow fever, from the effects of which his mind appears at times affected.—When brought before the magistrate, he stated the cause of his antipathy to the Premier to be, that he thought O'Connell had been imprisoned unjustly, and had not a fair trial, and that Sir Robert Peel was at the bottom of it all. He was after undergoing an examination by an eminent surgeon, who pronounced him insane, sent to Hanwell Lunatic Asylum.

Liverpool Timber Market, June 19.—Pine.—There is very little Pine Timber now remaining in the market, and being on account of such shortness, the country dealers are buying off from making purchases as much as possible. A cargo of Saint John Pine, of fair size and quality, has been sold at a trade below £91. per foot.—Birch continues to be scarce and in good demand. A fresh parcel of good sized Saint John would bring 20d. per foot.—Quebec Deals, of common quality, are worth £8 to £8 10 per standard hundred, good yellow 2nds, £10 to 10 guinees per standard hundred.—Pine and Spruce Planks have been sold at 2 1/8 to 2 1/4 per foot.

The Old Jail was sold on Monday last for the sum of £7 2s 6d.—Saint John Herald.

ROWLAND'S MACASSAR OIL

A few attestations, (selected from numberless others, received during the last 40 years) to the virtues of ROWLAND'S MACASSAR OIL: the originals of which may be seen at the Proprietors.

GENTLEMEN, In announcing to you the following contribution of the efficacy of your MACASSAR OIL, I beg your making it public it will be of any service, I shall consider myself but returning in a very small degree the great obligation I feel I lie under in you, and shall be most happy during my stay in London to satisfy any Gentleman who may be interested in the truth of the following.—In my year 1776 I went to India, and shortly after my arrival there my hair fell off in considerable quantities, so that I soon became entirely bald, in which state I remained until my arrival last year in America, and as I was induced by reading one of your Advertisements to make trial of your MACASSAR OIL, though I confess with but little hope of success. After the use of one bottle of your OIL, my hair began to grow, and I continued to use it until I had used nearly 150 bottles, much to my gratification, I have now the pleasure to inform you, without exaggeration or vanity, that I possess a full head of hair as any one could be desirous of.

I am, Gentlemen, Your grateful Servant, A. MACKENZIE.

GENTLEMEN, I take the liberty of addressing my thanks to you for the great benefit I have received from your truly valuable Macassar Oil. Having had the misfortune to lose my hair at the age of five and twenty, in consequence of a fever, I was lately induced, at the instance of a friend, to make trial of your excellent, specific, and can only say that the effects were most surprising, for in a very short space of time, my hair, which was before entirely bald, was soon covered with thick and strong hair. I am now fifty years of age, and could scarcely have expected, that after having worn a wig for five and twenty years of my life, I should now be enabled to throw it on a shelf. I think it but justice to yourselves and the public, to add my testimony to the virtues of your truly invaluable Oil, and you have my full permission to make this letter public, and to refer any one to me for proof of the merits of this invaluable discovery.

I am, Gentlemen, Truly and gratefully, W. C. BRIDEAUX.

Liveingstone, March 21, 1842.

Extract of a Letter directed to Mr. Oldroyd, Merchant of London, from a Gentleman at Naples, dated May 16, 1823.

I must turn your attention to the following:—Captain Kinschir of the 4th Regiment of Foot, in the service of His Imperial Majesty the Emperor of Austria, aged 44 years, has been blind ever since the age of 18. He was recommended to try "Rowland's Macassar Oil," by a Gentleman who had already experienced its good effects; he bought some of one of the last quantity I received from England, and preserved in supplying it.—In less than two months his sight on the blind part, and is now very thick. The Captain is highly pleased and has expressed his thanks to me for the remedy, and for that I am very great, and must beg you to send me a fresh supply without loss of time.

GENTLEMEN.—Having derived essential benefit from the use of your Macassar Oil, I am induced to send you the particulars, which you may at liberty to make known as you may think proper. Furthermore, than twelve months since I made trial of the Oil, though I confess with not much faith, as I had been blind eighteen years. It was near three months before any effect was perceptible when a slight dawn appeared; at the expiration of five months hair had grown on the blind part full half an inch long. I had used the whole of my head regularly about once a week for a considerable period, constantly using the Oil night and morning; the result is, that I have this day discarded my wig, my hair being quite restored, and as strong and great in quantity as when I was twenty years of age.

I am, Gentlemen, Your obedient servant, C. P. BRIDFIELD.
