DOESCHER SLUGGED AT SYRACUSE.
At Syracuse Saturday Albany objected to a decision of Umpire Doescher, and a small riot took place. Casey threatened to hit Doescher with the catcher's mask, and while the umpire was arguing with that player Smith stepped up behind and deliberately punched him in the head. A free-for-all fight was only prevented by the interference of the police.

RACES AT PETROLIA.
Petrolia, Ont., July 14.—The bicycle races here were full of real sport, being keenly contested in every event. Dr. Milroy had a bad fall in the first race, cutting his ankle. There were 78 entries, and nearly all completed. Toronto captured three firsts, Port Huron two firsts, three seconds and two thirds, and Petrolia took two seconds and three thirds of Summary.

One mile novice—H. G. Beemer, Toronto, 1; J. E. Davidson, Port Huron, 2; M. Rowley, Petrolia, 3. Time, 2:40.
One mile open—John Davidson, Toronto, 1; R. A. Craze, Petrolia, 2; A. T. Stewart, Port Huron, 3. Time, 2:30.

Two mile handicap—Russell Campbell, Port Huron (20 yards), 1; James E. Davidson, Port Huron (300 yards), 2; A. T. Stewart, Port Huron (75 yards), 3. Time, 4:53 2-5.

TANDEM RIDERS FATALITY INJURED.
Wilkesbarre, Pa., July 14.—George Stone, a druggist, and Charles Sanford, a Lohigh Valley engineer, living at Athens, Pa., lost control of a tandem with which they were coasting. They crashed into a bridge. Stone was killed and Sanford will die.

SPOKES.
Mrs. A. E. Rheinhart, an enthusiastic wheelwoman of Denver, Col., has achieved distinction by riding ten centuries in ten days.

J. W. Stocks covered 262 miles 1,715 yards in twelve hours at London, establishing a new world's record.

ATHLETICS.
A CANADIAN EXPERT.
The Philadelphia Record contains an account of "a field day" of games there, in which E. J. Griffin, a Brantford man and well known here, captured several live events against keen competition. Among others were putting the 25-pound weight 30 feet 7 1-2

inches; throwing 16-pound hammer 125 feet 8 inches; standing hop, step and jump, 32 feet 11 inches; three standing jumps, 33 feet 7 inches. He was also winner of a wrestling contest.

SLAVIN SOON SETTLED BUTLER.
Philadelphia, July 14.—Frank P. Slavin knocked out "Joe" Butler in 1 minute and 10 seconds at the Caledonia Club last night. The bout was to have been six rounds, but a right-hand lout on the jaw finished Butler in the time stated. It was a clean knock-out, and Butler was unconscious for some minutes.

THE TUPP.
TIPS.
The Sarnia Driving Park Association meet begins today (14th), and will last three days. There are a large number of entries.

THE TRIUGER.
AT BISLEY.
London, July 14.—The annual rifle shooting contest opened yesterday at Bisley. There were few spectators present, and these few were obliged to seek refuge from the great heat beneath the canvas. The chief events in these matches are scheduled to take place next week.

CRICKET.
BYES.
Hamilton Cricket Club won from Chatham by 135 runs to 70, Martin 7, Fleet (not out) 23, Morris 24, White 17, for the winners, and Bell 16, Atkinson 14, for the losers, were the chief scorers.

A close and interesting game of cricket was played on Saturday afternoon between the R. R. C. I. Cricket Club and the Conservative Cricket Club, on the latter's ground, resulting in a victory for the Conservative club by 16 runs. Smith 25, Andrus 11, McLean 17, scored double figures for the Conservatives, and C. Ligan, Scanlon and Mathews for the visitors. McLean, of the home team, played a very good game, and promises to develop a first-class batsman. He did some very pretty fielding.

GOLF.
FOR THE SILVER BUTTON.
The July handicap match for the club's silver button will be played over the links, beginning Wednesday, the 15th inst., and closing on Tuesday, the 21st. Handicaps allowed and rules for play are posted in the clubhouse. It is expected that all members will take part in the match.

AQUATIC.
STANBURY MAY COME TO CANADA.
London, July 14.—Stanbury, the Australian swimmer, who won the swimming championship of the world race from Harding, over the Thames course yesterday, is considering the challenge sent from Canada by Gaudaur, and will probably accept it if the inducements are sufficient.

In yesterday's race betting was even. The men got away at 3:30 p.m. Stanbury pulled 36 and Harding 35 strokes to the minute. At the 22nd stroke Stanbury led by a length, and at 500 yards from the start was two lengths in the lead and took Harding's water. The mile was made in 4:28, Stanbury leading by four lengths. At Hammer-smith the Australian had increased his lead to six lengths, the time at this point being 8:17, which is 12 seconds better than the record. The race from this point to the finish was a mere procession, Stanbury rowing easily and frequently looking around to view the course. Barnes' bridge was reached at 19:17, Stanbury being eight lengths in front of his competitor. Stanbury won what appeared to be an easy victory. Time, 21:51. The race was for \$2,500 a side and the world's championship.

CHewed BY A DOG.
John Conn, a Toronto boy, the victim of a Young Women Saves the Lad's Life.

Stuebenville, Ohio, July 14.—John, the six-year-old son of George Conn, of Toronto, was terribly lacerated about the face and head yesterday by a vicious Newfoundland dog, which attacked the boy while at play.

The lad, accompanied by several playmates, had wandered some distance from home and was playing on Adams street when a large Newfoundland dog was espied running down the street toward them, followed by a large crowd of men and boys. All of John's comrades ran and succeeded in clamoring to places of safety, but John did not realize his danger, and stood still. When too late, however, he started to run, but was soon knocked down by the dog, who commenced to chew the boy's face and head.

At this point a young woman started toward the animal, who became frightened and ran away. The dog would probably have killed the boy had it not been for the timely appearance of the young woman.

WHERE THEY CAME FROM.
New York, July 14.—Immigration to this port during the fiscal year, 1896-97, 282,701; increase over year 1895-96, 72,781. Of these 118,635 were immigrants proper; 85,263 came to join their families, and the others have been in the country before. From Austria-Hungary came 52,071; Germany, 24,230; Italy, 66,445; Russia, 39,859; Sweden and Norway, 22,978; the United Kingdom, 33,225; and Turkey and Greece, 6,249. The total amount of money brought was \$3,534,399. The total number of immigrants deported was 2,624.

London and Middlesex Orangemen Celebrate at Goderich.

A Big Demonstration at the Lakeside Town.

The Procession—Speeches at Harbor Park—Dr. Freeborn Sails Into Laurier and the Liberals.

The Orangemen of London and Middlesex went to Goderich yesterday and joined in the immense celebration there in King William's honor. The majority returned at 11 p.m., and marched up Dundas street to the Edge block, to the music of Ahoghill Fife and Drum Band. They had a capital time at the lakeside town, which was full of Orangemen and ablaze with the rainbow hues of the Orange regalia. Goderich never had such a crowd in its history. The big procession was marshalled at the cricket grounds and moved off to Huron Park in the following order:

Speeches were delivered from the grand stand in the park, a pretty place on the lakeside. The breezes of old Huron tempered the heat, which would have been unbearable otherwise. County Master John Neil, of Centralia, was the chairman, and made a short address.

Rev. Bro. Stout, of Holmesville, county chaplain, followed, and went into the history of Jesuitism. He warmly welcomed the Orangemen, and expressed gratitude for the great majority rolled up for him in York.

"What about Laurier?" asked someone. "We are going to see what Laurier will do," replied the county chaplain. "If we carry out the true principles of the order, dare Laurier take our God-given principles from us? Give us the spirit of the men who fought at Derry, the men who were obliged to feed upon vermin and raw hides; give us the spirit of such men, and we will defy Laurier and any Grit or Tory Government which may come in."

The speaker said it was no part of the obligation of Orangemen to be wedded to any political party.

Rev. Mr. Currie, a superannuated Goderich clergyman, was the next speaker. Contrary to all advice, he believed the society had been used as a kind of political machine, and he considered they were not the best thing every member could do was to have a little less Gritism, a little less Toryism, and a little more Protestantism.

They would have to act more fully in the future, because many Roman Catholics and also many weak-kneed Protestants were becoming impressed with the idea that the sole object of the order was the persecution of the Church of Rome. On the contrary, the Orangemen were not a persecuting society, but a society advancing Protestant principles, willing to let Catholics live in far more peace than the Catholics allowed the Protestants in early times. The constitution and bylaws were founded on the Bible, but they simmered down to the belief of William of Orange, who said: "The laws of England and the Protestant religion we will maintain." The order compelled no man to vote either Grit or Tory. Its members were not priest-ridden; they were free for sale, and that was why they had their freedom, and it also partly accounted for the divided vote given not long ago. They were not hindered from doing their duty in any respect, although attempts might be made to interfere with them. As to separate schools, he did not care if they were in, for institutional ten thousand times over; he knew they were not for the benefit of the country.

Dr. Clinton, made the last address. It was largely devoted to an attack on Mr. Laurier and the Liberal party. He (Laurier) had called the Remedial Bill a half-hearted measure; that the Tupper bill was only the shadow of a substance; "Coming even to that, the shadows before us," said Dr. Free-

born, "and what you may therefore expect from Mr. Laurier, with about 160 members behind him, who have either voted for or pledged themselves to vote for remedial legislation. We may expect that he will give his minority friends in Manitoba their separate schools. Look back at the time Riel was hung; these very men said the Tories had better not do it because they were afraid of the French people in Quebec. And when Sir John Thompson announced in the House of Commons that the law would take its course in the case, they turned around and began to howl, that it was done merely to appease you blood-thirsty Orangemen. Some of us will see the error of our ways before the next 12th of July. This party has always raised the race and creed questions in Canada, and what can you expect of such a party as that? What can you expect of the representatives of Huron? Do you think they will go back on Mr. Laurier today? Not much danger of it. Why, they would not even give your respectable Orange Society a bill of incorporation that would enable you to carry on life insurance in your order. Judging from their utterances in the past, I cannot place much confidence in what they will do for you in the future." (Hear, hear.)

Continuing, the doctor said Orangemen possessed unswerving loyalty to the old flag, and he might add to the old pole if they liked. They had no use for Goldwin Smith, Elgin Meyers, or even Dan. McGillicuddy, and their exaltation ideas. No man could reverse the old flag and hanker after the Stars and Stripes no more than he could serve two masters, consistently.

Two Railway Disasters.
Picnic Train Wrecked and Five Persons Killed.

Collision at Kingston, Ja.—Eleven Dead and Forty Badly Hurt.

Chicago, July 14.—A picnic special train on the Wisconsin Central road ran into a siding at Altonheim cemetery, ten miles from this city. The train consisted of 13 cars, heavily loaded, and was returning from Schiller Park. Five people were killed and many injured.

Dead—Charles Samuel, Frederick Kertell, Frank Koch, Mary Arnold, Lena Hubert. All of the killed were standing on the front platform of the first coach, and were crushed to death against the baggage car.

The train was running only at ten miles an hour, but the force of the collision was sufficient to partially telescope the first coach.

Kingston, Jamaica, July 14.—A working train on the Port Antonio Railway became unmanageable on a sharp decline and dashed down the track at a speed of at least sixty miles an hour. At the foot of the decline the train struck a stationary engine, causing a terrible wreck.

The list of those killed and injured includes eleven dead and forty badly hurt. Those killed were all natives of Jamaica. Two American foremen, named Graf and Thiel, were among the injured.

DODD'S KIDNEY PILLS.
Always Cure.

AFTER TEN YEARS SUFFERING

Two Box Cure

MILVERTON, 28th July, 1895.

Gentlemen,—For the last ten years I had been troubled with kidney disease, being so bad at intervals that I could not lie in bed at night nor stoop to the ground. I had tried all the remedies I could find without effect, but heard of Dodd's Kidney Pills and procured a box.

I am most happy to say it for my own sake as well as for others that I am perfectly cured after using four boxes.

END OF THE C. E. CONVENTION.

Washington, July 14.—Yesterday was virtually the closing day of the fifteenth annual convention of the International Christian Endeavor convention, and "consecration" was the keynote of the day's work. At the adjournment of the morning sessions a large evangelistic meeting was held in the Central Union Mission under the conduct of Mr. Ira D. Sankey, of Brooklyn, and for the convenience of the visitors a number of services of like character were conducted under the arrangement of the local committee in churches in various parts of the city.

Peaches fetch in London now from 10s. to 20s. per dozen, and nectarines 10s. to 15s. per dozen.

LIFE SAVED.—Mr. James Bryson Cameron states: "I was confined to my bed with inflammation of the lungs, and was given up by physicians. A neighbor advised me to try Dr. Thomas' Electric Oil, stating that his wife had used it for a throat trouble with the best results. Acting on this advice, I procured the medicine, and less than a half bottle cured me; I certainly believed it saved my life. It was with reluctance that I consented to a trial, as I was reduced to such a state that I doubted the power of any remedy to do me any good."

The memorial statue of the late Cardinal Newman in London is now nearing completion.

We have no hesitation in saying that Dr. J. D. Kellogg's Dysentery Cordial is without doubt the best medicine ever introduced for dysentery, diarrhea, cholera, and all summer complaints, sea sickness, etc. It promptly gives relief, and never fails to effect a positive cure. Mothers should never be without a bottle when their children are teething.

SUDDEN DEATH.

Thomas McDougall, of Masonville, Dies of Congestion.

Thomas McDougall, butcher, who has been a resident of Masonville for the past fifteen years, expired suddenly yesterday. Deceased, who was 62 years of age, was taken ill yesterday morning about 4 o'clock with cramps, and died early in the afternoon of intestinal congestion, in spite of all medical assistance. He came to Masonville from Kingston, and was highly respected by all who knew him. He leaves a widow and seven children to mourn his death. There are four sons—Joseph McDougall, Alma street, and William, Alfred and Charles, who with their sisters, Misses Fanny, Rachel and Mary, live at home. Deceased was a valued member of the Church of England, and the community will hear of his sudden death with deep regret.

When Should a Man Swear?

Man is not only a reasoning but a swearing animal. Sometimes his feelings are expressed audibly, and at others they are so deep down in his nature that nothing less than a volcano would thrust them to the surface. If man should swear at all, when should that time be? The church is silent on this important matter, and the law gives no sanction of cuss words. Stovepipes are provocative of feeling, but cuss words are far worse. Wives should see that their husbands' cuss words are kept down. This may be done quite easily, painlessly, and with absolute certainty by Putnam's Painless Corn Extractor. Beware of flesh-eating substitutes offered for Putnam's Corn Extractor.

BLAMED THE PARENTS.

Hamilton, July 14.—In the case of the death of Charles Embury, the 8-month-old child of Hedley J. Embury, who was treated by Christian Scientists for diphtheria, the coroner's jury stated that they believed the parents of the child were culpably negligent, and recommended the Crown Attorney to make further inquiries in the matter. They also denounced the practices of the Christian Scientists, as brought out in the evidence.

Dear Sir: It is with pleasure I can recommend to you **Manley's Celery-Nerve Compound**, as I am thoroughly satisfied it is a superior preparation, and as a tonic, it has no equal. Other remedies have failed to cure my family, but this has cured it, and in all cases it gave the most gratifying and pleasant results. Yours truly, Dr. J. F. Ryman, 240 Yonge St., Toronto.

Good Start.

Premier Laurier Congratulated on all Sides.

Sir Charles Tupper Says There Will be No Opposition in the Bye-Elections.

A Sequel to the Disgraceful Ballot Box Stuffing in North Ontario.

Ottawa, July 14.—The Prime Minister was seen by a correspondent shortly after the close of the ceremony, and congratulated on having formed an unprecedentedly strong Government. He replied: "I think the people of the Government will give satisfaction to the people of the Atlantic. This, however, I leave to the fair judgment of the people themselves. The only trouble I had in forming the Administration was that so many good and able men could not be taken in."

The issue of the writ for the elections made necessary by the acceptance of office by the Ministers holding portfolios and the Solicitor-General has been ordered. Nominations will take place July 20, and polling August 2.

Parliament will be prorogued till about August 19.

Mrs. Laurier, wife of the Premier, arrived last evening for a few days and was warmly greeted by old friends.

Sir Charles Tupper has canceled his projected trip to England on Wednesday. He is expected to arrive in London on Friday, and will be warmly greeted by old friends.

Asked if he would give any indication of Conservatives' intention as to bye-elections, Sir Charles Tupper last night said that, so far as he could see, there would not be much gained by offering opposition to the Ministers.

The commission to revise and consolidate the Dominion statutes has been appointed and approved by his Excellency. It will consist of Judge Baby, Mr. Emerson Coatsworth, ex-M. P., Mr. E. L. Newcombe, Deputy Minister of Justice, Mr. J. A. Creighton, law clerk of the Senate, Mr. F. A. McCord, law clerk, and Mr. R. V. Sinclair, Ottawa, as secretary. This order in council is not worth the paper it is written on, even with the signature of his Excellency the Governor-General, because it has already been decided in England by the highest authority that an appointment of a nature without a parliamentary appropriation is void, and in addition the revision requires an act of Parliament, and this, too, is lacking. The appointments are, and will be, void.

James Connors, who is in the city, and who was defeated by Mr. Klock in Nipissing, has decided to protest the election. The majority of Mr. Connors was about 800, but he thinks he could get over this next time, claiming that the influences which were used to return the Conservative candidate, could not be repeated with a change of Government.

East-End Col. Donville, who represents Kings, N. B., and who came here with Mr. Laurier from Montreal, has left for home. "I have had a big fight," said Mr. Donville to a reporter, "in my own constituency for the last few years, but at last I have won it. I had run as a Conservative, but I have changed my mind, and I have confidence in me, and in the policy of Mr. Laurier. It was on that policy that I ran my election. I am satisfied that I have won it. I will 'that Mr. Laurier will do the right thing, and I have assured him of my support.'"

East York section will be protested by Mr. H. R. Frankland, the Liberal candidate, who was returned by a majority of 1.

Mr. McGillicuddy was returned for North Ontario by the clearest case of ballot-stuffing, says he will never sit for the constituency. Mr. McGillicuddy is a Conservative.

Mr. McGillicuddy, who is a South Essex, is only 33 years of age. He fought a hard contest in a doubtful constituency, and his majority of nearly 200 is one of the best achievements of the election in this Province.

In Macdonald, the Manitoba seat for which Mr. Boyd, Conservative candidate, was elected, Mr. Boyd polled 2,412 votes, and Mr. Macdonald, the Liberal candidate, 1,550, and Mr. Braithwaite, the Patron, 1,272. The majority against the Tupper Government was, therefore, 810.

NORTH DORCHESTER.

Dorchester Station, July 14.—Mrs. J. H. Mountain, aged 62 years, and for many years a resident of this vicinity, died at her home near here yesterday of diphtheria, after a long illness. Deceased was well known throughout this part, and leaves a large number of friends to mourn her death. The funeral services will be held in the Methodist Church tomorrow (Wednesday) at 2 p.m. The remains will be interred in the Union Cemetery.

AN ALARMING INCREASE.

The Prevalence of Female Complaints Found to Result Largely from the Kidneys.

Saginaw, Mich., July 13.—Doctors are beginning to turn their attention more exclusively to the causes for the great increase of what are known as female complaints during the past ten years, and to the remedies for the same. Many cases have been investigated, and among others that of Mrs. Reany, of Ashland, Wis., who was cured of this form of trouble by the use of a kidney medicine known as Dodd's Kidney Pills, which originated in Canada, but has now become widely known and used throughout the Western States. MURDER AT KINGSTON.

Mysterious Death of a Young Lady of the Limestone City.

Kingston, July 14.—Jemima Riddell, adopted daughter of Alex. Glassford, Glenvald, about ten miles from this city, was mysteriously shot and instantly killed in a shed at the rear of the farm house. She was discovered by Wm. Babcock, an adopted son of the farm, at the age of the girl, 18. A gun was found in its accustomed place, but smoking.

An inquest will be held. Suspicion rests on Babcock, but no positive proof is yet declared.

The New Government.

In forming his Cabinet, Hon. Wilfrid Laurier, the new Prime Minister, has succeeded in calling to his aid a strong body of statesmen. It is not affirming too much to say that the Government is the strongest which has ever been drawn together in the Dominion. Not that it embraces all the men of Cabinet rank in the Liberal party, either in or outside of Parliament. Mr. Laurier's difficulty, indeed, lay not in too few available men of ability, but in the very "embarrassment of riches" in governing talent at his disposal. It is not surprising, therefore, that some men who possess every requisite for governmental management are not included in the new Ministry. What may be affirmed, however, is that the selection of colleagues made by Premier Laurier, considering all the circumstances, reflects the greatest credit on the Liberal chief.

Mr. Laurier began well by selecting for his own management a department with comparatively light duties—the Presidency of the Council. Holding that office, he will have time to undertake the multifarious duties of Prime Minister without over-straining either body or mind. It always is a mistake for a Premier to assign to his own care the management of one of the heaviest departments, thereby unduly burdening himself. In choosing the portfolio of Minister of Public Works, the last Liberal Premier of Canada laid the foundation for the lamentable breakdown in health that all too soon cut him off. And Sir John Macdonald, profiting by the experience, rarely undertook the duties of any office that would cause him departmental worry.

In the statesmen of ability with whom Premier Laurier has surrounded himself, he has made wise choice. It is a great advantage to have in the Cabinet heads of departments who are not merely theoretical governors, but practical managers of public affairs. In the new Government are three statesmen of marked ability who for years have been at the head of affairs in their native Provinces. Sir Oliver Mowat, Premier of Ontario; Hon. Mr. Fielding, Premier of New Brunswick; and Hon. Mr. Blair, Premier of Nova Scotia, have not been asked to join the new Government merely because they are convincing speakers. They have proved successful in the important lesser sphere. They have been good administrators in the Provinces, and now they are called to unite their undoubted talents in forming a strong central Government, the one object of which is the advancement of the whole of Canada. On other members of the new Administration—on such statesmen as Sir Henry Joly, ex-Premier of Quebec, and Hon. Mr. Davies, ex-Premier of Prince Edward Island, in particular—equally favorable comment can be made. Indeed, the whole Cabinet is "fitly built together" of statesmen of whose future management of public affairs reasonable Canadians everywhere will have the highest hopes.

There are many difficult questions to handle, many problems requiring care and judicious compromise to solve, and there is a great and growing Dominion to govern honestly and economically. Let us hope that a new and a better era has begun, and that the people of this fair land will unite to give their trustees at Ottawa every assistance to carry out the high purposes with which Hon. Mr. Laurier and his colleagues take office.

The new Prime Minister of Canada wears his well-earned honors with becoming dignity.

Those Unfilled Offices.

What a grand old Government that one of ours was, to be sure! It was so wrapped up in itself and its own importance, that the rank and file of the party found no place in its thoughts, and it goes out of power with five hundred appointments unmade which should have been made before the election—Hamilton Spectator (Conservative).

Yes; that is the unpardonable sin in the eyes of the office-seekers. Never mind, though; Sir Charles Tupper has laid all the blame for the fatal delay upon the Governor-General, and asks that that be regarded as full compensation! What, indeed, was the tottering Cabinet to do? It had promised every vacant office to its supporters, many times over, and to have made an award election day would have caused incipient civil war in the party. It was a case of "between the devil and the deep sea," and the hard-beat Government took the plunge, with the result stated.

The New Minister of Agriculture.

Mr. Sidney Fisher, Minister of Agriculture in the new Liberal Government at Ottawa, is a practical farmer—the first who has been assigned to this important office since it was created. His farms are situated near Waterloo, in the Eastern Townships of Quebec, and those who have visited and inspected them assure us that they are models in point of cultivation and of general care. The new Minister is also an experienced breeder, and he has done much to improve the live stock of the Dominion. Though educated at the best colleges in England, Mr. Fisher came to Canada and devoted all his education and all his talents to the promotion of his favorite industry—farming. It will be welcome news to his fellow-citizens generally that, now he has been placed at the head of the Agricultural Department of the Dominion, they will be able to have his undivided services in the promotion of that industry which is the backbone of the Dominion.

In securing Sidney Fisher, a farmer of ability, of experience, of ideas, as Dominion Minister of Agriculture, Premier Laurier has made as good a strike as was effected by Sir Oliver Mowat when he placed the Ontario portfolio of Agriculture in the hands of Hon. John Dryden.

By the Way.

A Boston paper predicts a political hurricane in the United States as the result of the nomination of Bryan, of Nebraska. It may be so. Is not the United States the home of the hurricane?

Strawberries are sold by the pound in Scotland. Over 70 tons were disposed of in Glasgow in one day recently. The crop has been abundant in Great Britain this year. The best berries are grown on the sandy loam near Aberdeen city. Large shipments are made to the London markets during the season.

The United States can get rid of the British gold, against which demagogic protectionist politicians have inveighed for many years, in the speediest possible manner, if they elect the candidate for the Presidency who is pledged to make an unlimited supply of silver dollars worth less than 60 cents each.

British judges, from which we draw the greater proportion of our precedents, have recently had before them the question of the punishment of a witness who disregarded a subpoena in a civil action. It was held that unless the plaintiff had sustained some loss or damage by reason of the non-attendance of the witness, he could recover nothing. That is to say, if the suitor who summoned the witness had no case, or no defense to the action brought, he could have no action against a witness who did not obey a subpoena. For a witness to decide this point for himself, however, is a dangerous experiment. In the case reviewed, the plaintiff sued the witness not only for the costs incurred by his default, but for the amount of the claim. It was held to be doubtful whether he could sue for more than the costs.

The Boston Herald proclaims the candidate of the Democratic party to be "the young Lochinvar" who "came out of the West."

The Ottawa Journal says editorially: "Mr. Laurier is reported to have declined a special train to come to Ottawa, on the plea that what was good enough for other people would do him. Really this sort of beginning is hardly safe for the public health. We are not accustomed to such shocks from the Ministers of the Crown."

That the new Premier declined the offer of a special train, when, by a little wait, he could travel with his fellow-citizens in his accustomed simple, democratic manner, should be no-

thing to wonder at. Mr. Laurier is a statesman who hates vulgar ostentation, and he very properly concludes that the first-class car of a G. T. R. or C. P. R. express is good enough for him if it is good enough for his fellow-citizens.

Queen Victoria will give her granddaughter, Princess Maud of Wales, a dowry of \$500,000. The young couple will marry along on that till the bride's father becomes Emperor of All the Canadas.

EXHIBITION DAIRY PRODUCTS.

Some Advice to Factorymen. With Special Reference to Fall Fairs. (By J. W. Wheaton.)

During the first fifteen days of August, dairy products are usually prepared for the fall fairs. Contemplating exhibitors will do well to note the following:

1. No important prize was ever won by chance, and especially is this the case with any manufactured article such as butter and cheese. Every cheese and butter maker, therefore, should have some definite object in view in preparing his product for exhibition, and should endeavor to put his best skill and intelligence to work in turning out a perfect article.

2. Take the patrons into your confidence and induce them to take particular care of the milk on the day when the exhibit is produced. It is made, and when good milk is made, let the product from it be a reflection of your perfect workmanship and intimate knowledge of the best methods to adopt in making a fine quality of cheese and butter.

3. Be very careful how a package of cheese and butter is finished. A badly finished cheese or an untidy package of butter does not stand much of a show for winning a prize, and will indicate the maker's slovenly and untidy habit of doing things.

4. Aside from the intrinsic worth of the prizes won, all exhibitors have a high educational value. If a maker is successful in winning the prize he has the satisfaction of knowing that he is in a position to put a little more skill and intelligence into his work than his competitors, and by knowing the methods adopted he will be able to put them into practice in his work during the year. The educational value is just as great for the maker who does not win the prize. On receipt of his score card, he will find in what points of quality his exhibit is lacking, and by the knowledge thus obtained he will be in a position to adopt better methods in his work during the year.

5. The dairy industry of Canada is an important one, and our dairymen should remember that the dairy exhibits at the leading fairs should indicate to visitors from abroad the only its extent, but also that we make an article of the very finest quality.

TREACHEROUS WATERS.

A Number of Youths Meet Death by Drowning.

Brantford, July 14.—A young man named Albert Fisher, 17 years of age, was drowned while bathing in the Grand River at Brantford the other evening. He was a strong swimmer, and must have been seized with cramps.

Ottawa, July 14.—A lad named Lacroix was drowned at Rockliffe on Saturday while bathing. He was unable to swim.

Another lad named Stott was also drowned in the Ottawa near Mechthausville.

The drowning of Archibald Romlard was attended with the most distressing circumstances. He, together with his father-in-law, Deputy Chief Favoreau, of the fire brigade, and a friend, Mr. Trehanmer, drove to Wendmore. On their return journey to this city they attempted to drive through the Nation River at a point where they thought horses usually crossed. They mistook the ford, however, and the whole outfit, horse, rig and occupants, went plunging into 30 feet of water.

THE IOWA DISASTER.

The Number of Dead Placed at 28—Arrest of the Trainmen.

Logan, Iowa, July 14.—The latest advices from the scene of the terrible disaster which occurred Saturday night on the Northwestern Railway near this place, show that 28 lives were crushed out. It was after midnight yesterday when the work of recovering the bodies was finally completed. Before daylight came the dead and injured were taken to Omaha. After an investigation the police arrested James Gram, engineer of the excursion train; Wm. Dolan, fireman on same engine; Mike O'Donnell, engineer of switch engine drawing freight train; James Meehan, fireman of same engine; James Kniskern, operator, who, it is charged, caused the fatality.

Radway's Ready Relief
Pain Cured in an Instant.

LET RADWAY'S READY RELIEF BE USED ON THE FIRST INDICATION OF PAIN OR UNEASINESS; IF THREATENED WITH DISEASE OR SICKNESS THE CURE WILL BE MADE BEFORE THE FAMILY DOCTOR WOULD ORDINARILY REACH THE HOUSE.

Cures the WORST PAINS in from one to twenty minutes.

A CURE FOR ALL SUMMER COMPLAINTS

A half to a teaspoonful of Ready Relief in a half tumbler of water repeated as often as the discharges continue, and a flannel saturated with Ready Relief placed over the stomach and bowels will afford immediate relief and soon effect a cure.

Internally—A half to a teaspoonful in half a tumbler of water will in a few minutes cure Cramps, Spasms, Sour Stomach, Nausea, Vomiting, Heartburn, Nervousness, Sleeplessness, Sick Headache, Flatulency, and all internal pains.

MALARIA IN ITS VARIOUS FORM CURED AND PREVENTED.

There is not a remedial agent in the world that will cure Fever and Ague and all other Malarious, Bilious and other fevers, aided by RADWAY'S PILLS, so quickly as RADWAY'S READY RELIEF.

Travelers should always carry a bottle of Radway's Ready Relief with them. A few drops in water will prevent sickness or pain from change of water. It is better than French brandy or other stimulants.

Price 25c per bottle. Sold by all druggists.

Perfect Digestion

Will be accomplished by taking Radway's pills. By their ANTI-BILIOUS properties they stimulate the liver in the secretion of the bile, and its discharge through the biliary ducts. These pills in doses of from two to four will quickly regulate the action of the liver and free the patient from these disorders. One or two of Radway's Pills taken daily by those subject to bilious pains and torpidity of the liver, will keep the system regular and secure health by digestion.

Weak

Worn out, nervous women, receive criticism where they should have sympathy. They cannot help being nervous, if their blood is impure.

When the blood fails to feed the nerves upon proper nourishment what can you expect but nervous prostration, debility and nervous headaches?

If the cause is found in impure blood, the cure must be in making the blood pure. This is just what Hood's Sarsaparilla does, and it has proved the true nerve tonic because it is the true blood purifier, and the source, comfort and defender of thousands of housewives.

Nervous

teachers, clerks and other sufferers of both sexes. Just read this letter:

"I think it is my duty to tell what Hood's Sarsaparilla has done for me and my family. Two years ago I was in a weak, nervous condition and had dreadful palpitations or jumping of my heart, followed by sinking spells, which would last for several minutes. Sometimes it would seem as though I would never come out of them. I was treated by the best physicians, but only for a little time did they help me. I seemed to be growing worse instead of better. I would often seem hungry, but when I ate, no matter how little, it would cause me such misery that I was often wicked enough to wish myself dead. I had that

Tired

languid, all-gone feeling and suffered awful distress in my stomach. I had given up all hopes of ever being well, when my mother wished me to try Hood's Sarsaparilla. I consented, to please her, and before I had taken the whole of one bottle I could see I was improving, and soon was indeed very much better. Its effects have been truly wonderful and I hope this letter may be the means of helping other suffering men and

Women

to try Hood's Sarsaparilla and be benefited by it. We have used Hood's Pills in our family and find them very excellent, especially for constipation. Write Hood's medicines great praise, and if anyone complains of feeling badly, I say "You should take Hood's and only Hood's." Mrs. KITTLE SMITH, 222 Dane Street, Waterloo, Iowa.

THE RAILWAYS.

Grand Trunk Changes—Arrest of a Former C. P. R. Assistant Paymaster.

Mr. Fitzhugh, secretary to Mr. Hays, the general manager of the G. T. R., has been appointed master of transportation, and will enter on his duties at once.

Mr. F. J. Watson, travelling freight agent, with headquarters at Montreal, has been appointed to a general clerkship in Hamilton, and will be succeeded by Mr. J. E. Hawkins.

Harry L. Noad, formerly assistant paymaster of the C. P. R., was arrested in New York on a charge of stealing \$5,000 from one of the company's pay cars.

It is now settled that Edmund E. Wragge, now in charge of the transportation company at Toronto, will be replaced by E. H. Fitzhugh, of Montreal, who will begin his duties on Wednesday next. Mr. Wragge retires from the G. T. R.

The traffic returns on the Canadian Pacific Railway for the week ended July 13, 1896, amounted to \$371,000, for the corresponding week of last year the returns were \$340,000.

DO YOU DYE COTTON AND MIXED GOODS?

The only household dyes that make perfect bright and unfading colors in dyeing Cottons and Mixed Goods are the Diamond Dyes. These popular dyes give colors that will not wash out with soap or fade in sunlight.

Many of the "Diamond" Cotton Dyes are patented, and cannot possibly be used by other dye manufacturers, so if you want satisfactory dyes for Cotton goods of any kind, or for any description of Mixed or Union goods, be sure to ask for the Diamond Dyes for Cotton and Mixed Goods.

Refuse all cheap and worthless imitations.

In a Collar Box.

Harry Norris Hid His Wad There and It Disappeared.

Accused Jack White, but No Case Was Made Out—Jack Had a Wad of His Own—A Boy Who Had Immoral Pictures.

Edward Haystead and Gilbert Guymer, of William street, were the only two in the magistrate's docket this morning. Guymer, who is a mere lad, confessed to being drunk.

The Police Magistrate—Had you anything on you like photographs when you were brought to the station?

Guymer—I don't think so.

Here several photographs of a highly immoral character were produced by Chief Williams, and these P.C. Woolway swore to having taken from Guymer's inside pocket when he searched him at the station.

The Police Magistrate—What do you say to that?

Guymer—I might have had them in my pocket, but they were not mine.

The Magistrate—You are lying about it now. Five dollars or ten days!

Haystead was discharged, this being his first offense.

John White, a city barber, was charged by Harry Norris, bar-tender at the Royal Hotel, with having stolen \$20 from him on the night of July 22 last.

Mr. Norris said the theft occurred while Mr. Evans, the proprietor, was away, and that he had taken the contents of the cash register and deposited it in a collar box in a trunk in his bedroom. White, it appears, was there that night. He was an intimate friend of Norris, and as he was so well acquainted with the us and outs of the place, suspicion fell on him. When Norris accused him of taking the money, White said that somebody had put \$35 in his hands while in the sitting-room.

Matthew Gould swore that he had met White about 8:30 that night. White had a roll of bills at that time, which was before they went to the Royal Hotel. The two, after having a stroll around, went to the depot, where they stayed for an hour or so, and then went to the Grigs House, where they signed the register, and were given room 44.

John McGuire, a bell-boy, was called, and said that he was summoned to White's room about 7:30, and that White had a roll of bills under his pillow, but paid him with some loose change out of his pants pocket.

Frank Love, who appeared for the accused, submitted that no case had been made out. Mr. McKillop admitted the evidence of Conductor Wrightman, a boarder at the hotel, was not of so strong a character as he was led to believe, and agreed with Mr. Love that the evidence given was not strong enough for a jury to handle, but was of opinion that the case was a very suspicious one, and believed there were good grounds for arrest.

White was therefore honorably acquitted.

The accused man has been in Chicago for the past year, and on his return to the city gave himself up on hearing that the authorities were after him.

John Vanstone and Wm. Werne were charged with disorderly conduct and throwing stones at a fence on Carling street. Vanstone was up a week ago on a similar charge, but was dismissed. The two men were both acquitted again.

Wm. Wyatt and Richard Adcock confessed frankly to having broken the bylaw governing the riding of bicycles. Wyatt rode on the sidewalk and Adcock used the path in Victoria Park. They were fined \$1 each.

LUCAN.

"Advertiser" Business Agent, W. Hodgins.

Lucan, July 12.—A very appropriate sermon was preached to the Orangemen of L. O. L. No. 682 by the Rev. R. H. Shaw, of Holy Trinity, Lucan, from the 23rd chapter of Joshua and part of the 11th and 14th verses.

The reverend gentleman bade them welcome to the house of God, and reminded them of the fact that from thousands of pulpits in this and other lands, the ministers of the Gospel were preaching the glad tidings to the members of this organization. He pointed them to the Israelites who, in the Dead Sea, surrounded by the enemies of their race and their religion, when the hand of God was visible to save them.

Life in its varied forms is a constant conflict, but those who place their trust in the God of the Bible, that God hedges them about and guides them safely to a better land. He said he was glad to know, although not a member of their society, that the Book of God was used at every meeting of their organization, and he urged upon them to love that Book. He showed that England honored the Book, and by the proud position she held among the nations of the earth it was safe to come to the conclusion that God honored England. The ideal of ancient Rome was power, the Greek sought his ideal in beauty, and the people of modern times beheld it in wealth, but he hoped the Orange Society would seek their ideal in the Book of Books, the Holy Bible.

William Prince of Orange had passed that bourne from whence no traveler returned, but his deeds of valor and of wisdom still lived. He wound up an eloquent and appropriate sermon by dwelling upon the beauty of the Orange constitution, and said he felt sure it had no equal in any other institution in our land.

At the conclusion of his remarks the choir and congregation simultaneously arose and sang lustily "God Save the Queen."

On Saturday night the stable of Mr. T. Webb, baker, and an open shed adjoining were destroyed by fire. A team of horses, a buggy and harness, and a large quantity of hay was also consumed. The origin of the fire is unknown. No insurance.

No one need fear cholera or any summer complaint if they have a bottle of Dr. J. D. Kellogg's Dysentery Cordial ready for use. LOCAL BREVITIES.

—The waterworks office took in lots of cash today.

—Bishop Baldwin will confirm a class at Holy Trinity, Lucan, next Sunday.

The Pottersburg public schools, Gospel Hall, Port Stanley, and London South Mission will picnic at Springbank tomorrow.

—"Joe," one of the best horses at Hunter's livery, South London, was so badly kicked yesterday that he had to be killed this morning.

—Adelaide Street Baptist and South Side Presbyterian Sunday schools are picnicking today at Springbank in goodly numbers. They went down on the trolley.

—Mr. J. L. Goodburne, while proceeding to work this morning on his bicycle, collided with an obstruction in the roadway, and took a header, which resulted in a badly bruised leg and a few minor contusions.

—The audit committee of the Board of Education met yesterday afternoon and verified the passing of the disputed \$500 estimates for the enlargement of the Aberdeen kindergarten school.

—Mr. R. Kirkpatrick, of the city engineer's office, and an assistant, were engaged today in measuring the velocity of the river below the forks for the information of Mr. Goodnough, the sewerage expert.

—The total number of passengers carried into Goderich yesterday over the G. T. R., was 3,296. Of this number, 1,400, most of whom were picked up on the way.

—Mr. H. Goodnough, State sanitary inspector of Massachusetts, who is preparing a report on London's sewerage system, returned to Boston yesterday. He secured considerable data here, and is now in a position to complete his report.

The Presbytery of London meets in the Presbyterian Church, Port Stanley today, and will dispose of the resignation of Rev. J. A. Macdonald, of Knox Church, and the call to Rev. T. Eason, of Luton, to King Street Church, this afternoon.

A bullet which had been accidentally fired into the leg of Stanley Macdonald, a boy living in London, was photographed by means of the X-rays at the Toronto General Hospital, and thus located and removed Sunday. The boy is recovering.

The young Armenian, Mesrob Bagdasarian, who is studying in Toronto for the ministry, is describing the atrocities in his native land to London audiences this week. He lectured to a small gathering in the Askin Street Methodist Church last night.

It is understood that Mr. T. H. Rothwell, president of the Dominion Cold Storage Company, has offered \$4,000 cash for lot No. 2, north side of Bathurst street, or to lease it for 21 years at \$15 a year. This will probably result in the removal of the new branch warehouse of the company.

—Burglars attempted to enter the residence of Mrs. B. Noble, of No. 363 Grey street, about midnight Sunday night, but were frightened away by the furious barking of a dog. The marauders also called next door, but courage again failed them, owing, probably, to the presence of two men within, who could be seen through a window. It was impossible to plainly distinguish the fellows, but one of them wore a light hat.

—St. Thomas Times: Mr. Brock, of London, insisted on Saturday at Port Stanley. Accordingly he set out from home on his bicycle, and all went well until he reached St. George street hill, which he intended to descend, but he was unable to do so, but nearing the bottom he struck a large stone, which precipitated himself and wheel into the ditch. Mr. Brock was assisted into Frank Golding's residence, where it was found he had received a serious bruise of the hip. He returned to London on the train.

A telegram was today received by Mr. Dan. Donaldson, secretary of the united Scottish demonstration committee, to the effect that the pipe band of the famous Forty-eighth Highlanders of Toronto, who arrived on Monday next by the 8 p.m. C. P. R. express. The band will be met by members of the Balmoral Club in Highland costume and by officers and members of the various societies. It will play down to the city Hotel, where it will be quartered, and afterwards parade the principal streets. On the following day (Tuesday) it will be one of the chief attractions at the Scottish demonstration held at Port Stanley.

—St. Thomas Times: The Sailor Boy will likely take another route. They had some difficulty in Cleveland with the inspector, so the owner, rather than give in to the inspector, will send the boat from this line. She will likely run on some American line. A permit has been granted her to run on the lake here. This will be a serious drawback to Canada's popular summer resort; but, in all probability, the L. E. and D. R. R. managers will have another on this line. This line has been popular, and it is one of the best lines across the lake for a first-class passenger boat. Mr. G. E. Casey, M.P. for West Elgin, was in town the other day, and when asked by your correspondent as to the fate of this harbor, he said that it was certainly going to be a go down. It was the principal harbor, therefore it would be fixed. We contrarily rely on this, as Mr. Casey is a man of his word.

A LONDON WEST COMPLAINT.

Residents of London West are laying complaints by the wholesale about the public swimming in the river on Sundays and week days. Blackfriars dam is a favorite spot for the bathers, but it is unpleasantly conspicuous.

London Westers say that most of the swimming is done on the city side of the river, and that the police should prevent it. If the boys must swim, there are lots of places, at respectable distances from the public, further up the river.

KNOCKED SENSELESS.

A. Wallace, of Adelaide street, a conductor on the Springbank line, was knocked senseless yesterday afternoon by his head coming in contact with one of the trolley poles near Woodland Cemetery. The car was stopped and the unfortunate man brought over to Robinson's grocery store, at the corner of Wortley road and Bruce street, where Dr. Piper attended to his injuries. His head was badly bruised, but he will probably be able to get home in a day or two. He was taken to his home about 6 o'clock.

JUVENILE FORENSICS.

Last evening a new court of Juvenile Foresters of the A. O. F. was instituted in London West in connection with Court Excelsior, No. 5,885. The court is to be known as Reeves Court, No.

Finger Tips...

They wear out at the finger tips, sometimes through no fault of the gloves. Frequently they are bitten off—not because they taste nice, but because of absent-mindedness. We wish to remind absent-minded persons as well as all others that we are selling a line of

Refreshments were served in abundance, after which the court adjourned, all being well pleased with the sociable and profitable evening's intercourse.

A WATCH'S EXPERIENCE.

Mr. Render, manager of the Fegan Boys' Home at Ramsgate, England, is in the city, and has been visiting the home boys in this district. Mr. Render brought over the gold watch to be presented to Michael Gilligan on Thursday night at Victoria Park for his bravery in rescuing Jean Lockhart from the Thames last winter. The watch has had a peculiar experience.

It is the gift of Mr. Lockhart of London, England, brother of Mr. J. C. Lockhart, of this city, the father of Jean. Mr. Lockhart heard that Mr. Fegan was about to sail for Canada, and asked his brother-in-law to hand it to Mr. Fegan with the request that he (Mr. Fegan) would give it to Mr. Gilligan when he arrived here. Mr. Fegan did not, but sent Mr. Render. Just as the latter was getting aboard the steamer the watch was handed to him and he was asked to deliver it to Michael Gilligan in Canada. Mr. Render had no time to ask questions, but when he arrived in Toronto he advertised for Michael Gilligan in the Toronto papers, and the notice was seen here. Mr. Render was communicated with, and was pleased to discover Michael and hand him the watch. Mr. Render is the guest of Mr. J. C. Lockhart, and will attend the presentation on Thursday.

A Brother's Error.

"Come, my friends," said the Prophet, "before doing more you must eat and rest. Of old the faithful lived in caves, but it is no place recorded that they lived without food. Come with me and bathe. Nature has made ample provision here."

He led them into a smaller apartment, illuminated by two torches, the red light of which fell upon a deep, clear fountain in the center.

"I will call you when the meal is prepared."

When the Prophet withdrew, Howard asked Louis Kyle how he reached that place with the Prophet and where his horses were.

"Two of my men are guarding the horses in a well-grassed valley far up the cliffs. But as to the manner of our reaching here I cannot tell you. I only know that I could not retrace my steps," replied Louis.

"Did you not come through the canyon?"

"No," he entered a cave miles away, it seems to me. We had no lights, and had to hold to each other's belts, the Prophet taking the lead. How he ever made his way through the Stygian labyrinth I cannot explain. But here we are, and only your presence assures me that we are not in another world."

They washed their hands and faces in the pool and were surprised to find the water quite tepid to the touch and somewhat saline to the taste. In less than half an hour the Prophet again appeared and called to them to follow him. He led them into a place where the fire was burning and the grateful aroma of broiling venison filled the air. On wooden dishes ranged about the altar they found an abundance of cooked meats and delicious trout. They would have set to work eating with western promptness had not the Prophet called out in a solemn voice:

"First kneel and let us return thanks."

Every man knelt before a dish, so forming a circle about the altar, and the Prophet offered up a prayer, filled with Biblical quotations and startling rhetorical phrases of his own. He had the good sense not to pray the virtuous cold. He brought up suddenly and set an example he would have his guests follow.

"Now my brethren," said the Prophet, when the meal was concluded, "we must have rest. Sleep without fear, and when the time for action comes I will call you."

CHAPTER XI.

Bouton made known his intention to his prisoners, informing them of the charge and his intention to take Dr. Blanchard back to West Virginia for trial. The doctor tore up the warrant in his face, and indignantly denied the charge.

The doctor deemed an explanation due to those about him, and told the story of his life. With much shrewdness he guessed at the plot in which Lawyer Bliss and his sons were so deeply interested. When the doctor spoke of the immigrants said: "We don't need your explanation, doctor. We believe in you, and are ready to fight for you, though we one and all regret that our fighting will do no good at this time. But we can say this—we do not propose to leave here until this thing is settled."

When Dr. Blanchard became calmer, he saw that resistance would be useless, and he reasoned that Bouton would not hesitate to enforce his command. He believed in you, and are ready to fight for you, though we one and all regret that our fighting will do no good at this time. But we can say this—we do not propose to leave here until this thing is settled."

"We will go with you, father," said Alice, with her arms around his neck.

"We could not, would not, remain back. Keep good heart, and succor will come. I have faith in Louis Kyle."

"As I have, replied the doctor. "But let us be getting ready."

Believing that the outlaws would not dare take them within the reach of the law, and hoping that a rescue would soon come, the doctor decided to leave all his effects not needed for immediate use in the care of John Clyde. Clyde and his companions having made up their minds to remain where they were till the

doctor's troubles were over, at once began preparations for a permanent camp. Promptly at noon Bouton came over, leading two saddle horses. Patch following with a pack mule intended to carry the "outfit" of the young ladies.

"Doctor," he said, "you can ride your own horse for the present. Come, we are waiting for you."

The parting of the doctor and his daughters from the immigrants was sad in the extreme. The women clung to Alice and Clara, and the men could not check their tears as they held the old man's hand. John Clyde helped Alice and Clara to mount, hands were waved in adieu, and the march to an unknown destination began. All Bouton's men were in the saddle and waiting. Henry Kyle, pale and reticent, was at the rear of the line, where the pack animals were in readiness. The prisoners, for such they were, were placed in the center of the line. The cavalcade headed for the south and soon found out of the valley of the Blue Water.

Sim Bliss and his brother Tom, after the exultation over their success had subsided, began to ask themselves how their plans had been furthered and what remained to be done for their perfection. While the Bliss brothers were discussing the situation Bouton's brain was not idle. He rode apart from his men, his head bowed and the reins dangling from the neck of his horse. He had the habit peculiar to men who live much in solitude of thinking aloud, and on this occasion his thoughts ran something after this fashion:

"The Kyles and the Weldons are one. There can be no doubt about that. If this dog, Sim Bliss, told me the truth—and I think he did—the Kyles are the heirs to that estate, and if they put in an appearance the Blanchards would be nowhere. If Henry and Louis Kyle were both dead, that estate would belong to their sister Nora and her husband, if she had one. I am supposing now that Valentine Kyle remains in exile, and he will if he's wise. The two Blanchard girls are pretty as pictures, but so is Nora. The man that gets Nora Kyle for wife will strike the biggest kind of a bonanza. I think I see the gentleman. I think I see my way as straight as a string and clear as a trout stream."

Mr. Bouton straightened up in the saddle, drew in the reins and urged his horse to that part of the line where Henry Kyle was riding, evidently in very low spirits.

"A penny for your thoughts," laughed Bouton, reining in and playfully slapping Henry on the back.

Henry Kyle half turned and asked: "What do you propose to do with Dr. Blanchard's daughters?"

"I haven't thought about them. I believe the Bliss brothers are natural born protectors," sneered Henry Kyle.

"If you don't think they can fill the bill, why don't you go in and give them your services? Here you lie in the sulks instead of being delighted at our success—at the success of your own plans."

"I am so delighted at the success of my own plans that I feel like cutting my throat."

"Don't do that. But why the feeling?"

"I didn't join this outfit to make war on women and children. If this doctor and his son are prisoners and thieves, let the Bliss boys pay for their services and take them away, though, to be frank, I think it a put up job, and you think the same thing."

"We never had any doubt about that. But the young ladies—what would you do with them?"

Enormous Fruit Crop Raised in the Chatham District.

Interesting Law Suit Regarding the Indorsement of a Note.

Paying Teller Naflet, of the Chatham branch of the Bank of Montreal, has been ordered to report for duty at Vancouver.

The will of the late Wm. Workman, Stratford, whose sudden death took place a short time ago, has been filed for probate. The estate is valued at \$20,000.

Farmers around St. Thomas report that wheat will be an unusually poor crop in most localities in this district. It is not expected to average more than 15 bushels to the acre.

An order has been passed amending the Detroit River Ferry regulations. It provides that children not more than 6 years old, when accompanied by their parents shall be carried free.

Dougald McBain, a student of the Collegiate Institute, St. Thomas, while at work at the home of his father, on 12, Yarmouth, had his hand caught between the chain and cogs of a binder. The fingers were badly crushed.

There is an enormous fruit crop being harvested in Chatham district. Along the lake shore there never was a more abundant yield of all kinds of fruit. From the young berry farms at this time fruit is being shipped east and west at the average rate of nearly 2,000 quarts a day.

West Kent Agricultural Society directors announce that the program for the three days' fall fair at Chatham will embrace a race meet, wheelmen's contest, band tournament and mammoth pyrotechnics. The city has found by sad experience the futility of endeavoring to secure gate receipts without popular attractions apart from the exhibition proper.

After thirteen years' of service Provincial Detective McKee, who has just returned from a trip to England, has sent in his resignation to the Ontario Government on account of ill-health. Previous to his coming to Windsor he was chief of police of Woodstock. It is believed that High Constable Masters, of Sandwich, will be his successor.

Before Judge Woods, at Stratford, an interesting case was tried, in which the Bank of Montreal, sued John Lyons, a constable, for \$15, amount of a promissory note that bore his indorsement. Defendant claimed he had not indorsed the note, and that the signature on the back was a forgery. Expert evidence was called upon both sides, and the expert testimony was conflicting. However, after being out two hours the jury brought in a verdict for the bank. Mrs. Glynn, the party named as being on the note with Conductor Lyons, is a sister of defendant. She left the city last year under a cloud. A number of notes were produced in court with her name and that of John Lyons attached.

MUNYON

The Talk of the Town.

3,762 Citizens of London

Now Testing His Wonderful Remedies.

Already 27 Persons Report Themselves Cured by the Use of These Little

Pellets During the Past Three Days.

Saturday afternoon the free distribution of Munyon's Rheumatism Cure closed; 3,762 vials were given away to sufferers from rheumatism. Although but three days have elapsed since the distribution began, twenty-seven persons have reported themselves cured, and each mail is bringing letters thanking Prof. Munyon for his efforts to relieve suffering humanity, and relating what wonderful improvement had taken place in their condition during the short time these remedies have been used.

The retail drug trade of London has been astonished at the immense demand for Munyon's cures, and cannot accommodate the demand. Four days ago they were almost unheard of in London. There is but one explanation. Prof. Munyon's generous and honest method of introduction at once gave the people confidence. They accepted the offer of a free test, they accepted a sample, and the use of these sugar pellets at once proved the value of this new method in treating diseases. Hundreds of people who were unable to obtain free samples, seeing the wonderful results obtained from the use of one vial by some friend, have called on their druggists and purchased a cure. Herein lies the secret of Munyon's success. What people want is proof, not talk; and when they see with their own eyes acquaintances who have suffered for years, tried every known remedy without relief, and been cured in a few hours, they do not hesitate to invest 25 cents in Munyon's remedies.

RHEUMATISM CURE. Munyon's Rheumatism Cure is guaranteed to cure rheumatism in any part of the body. Acute or muscular rheumatism can be cured in from one to five days. It speedily cures shooting pains, sciatica, lumbago, and all rheumatic pains in the back, hips, and joints. It seldom fails to give relief after one or two doses, and almost invariably cures before one bottle has been used.

STOMACH AND DYSPEPSIA CURE. Munyon's Stomach and Dyspepsia Cure cures all forms of indigestion and stomach trouble, such as rising of food, distress after eating, shortness of breath, and all affections of the heart caused by indigestion. Wind or the stomach, bad taste, offensive breath, loss of appetite, faintness, or weakness of stomach, headache from indigestion, soreness of the stomach, coated tongue, heartburn, shooting pains in the stomach, constipation, dizziness, faintness, and lack of energy.

NERVE CURE. Munyon's Nerve Cure cures all the symptoms of nervous exhaustion, such as depressed spirits, failure of memory, restless and sleepless nights, pain in the head and dizziness. It cures general debility, stimulates and strengthens the nerves, and tones up the whole body. Price, 25 cents.

KIDNEY CURE. Munyon's Kidney Cure cures pains in the back, loins or groins, from kidney disease, dropsy of the feet and limbs, frequent desire to pass water, dark colored and turbid urine, sediment in the urine, and diabetes. Price, 25 cents.

CATARH CURE. Catarrh positively cured. Are you willing to spend 50 cents for a cure that positively cures catarrh by removing the cause of the disease? If so, ask your druggist for a 25c bottle of Munyon's Catarrh Cure and a 25c bottle of Catarrh Tablets. The Catarrh Cure will eradicate the disease from the system, and the tablets will cleanse and heal the afflicted parts and restore them to a natural and healthful condition.

Munyon's Liver Cure corrects headache, biliousness, jaundice, constipation, and all liver diseases. It is guaranteed to cure catarrh of the bladder, and breaks up a cold in a few hours.

Munyon's Cough Cure stops cough, night sweats, allays soreness, and speedsily heals the lungs.

Munyon's Female Remedies are a boon to all women.

Munyon's Headache Cure stops headache in three minutes.

Munyon's Pile Ointment positively cures all forms of piles.

Munyon's Asthma Cure and Herbs are guaranteed to remove asthma in three minutes, and cure in five days.

Munyon's Blood Cure eradicates all impurities from the blood.

Munyon's Vitalizer imparts new life to weak and debilitated men. Price, \$1.

Worse Than Bullets!

Yellow Fever in Cuba Lays Many a Soldier Low.

Panlo Seizes on the Spanish Troops—40 Per Cent of the Cases Prove Fatal.

Key West, Fla., July 14.—Advices from Havana state that a panic prevails in the Spanish army in consequence of the terrible increase of yellow fever in the last few days. It is estimated that fully 40 per cent of the cases prove fatal. In Santiago de Cuba there are 4,500 soldiers in the hospitals. Major-Gen. Linarez is stricken and his life is despaired of. The physicians and nurses are utterly incapable of coping with the disease. The epidemic is also very serious all along the trocha. In some cases entire companies have been stricken. Gen. Arellaz and nearly every member of his staff are ill. Capt. Gen. Weyler has ordered the construction of low hospitals along the trocha, and will send to Spain for additional physicians. In Baracoa, Holguin, and other places in Eastern Cuba, the fever is raging with great virulence, and it is spreading to the central points. From Matanzas come most distressing tales. In that city it is said the mortality is about 60 per cent, and it is becoming difficult to bury the dead. The hospitals of Havana contain nearly six thousand patients, and every day the number is being increased.

EIGHTY FEET HIGH!

Appalling Dimensions of Japan's Great Tidal Wave—More Than 50,000 Lives Lost.

San Francisco, Cal., July 14.—The steamship Doric, from Yokohama, brings news up to June 25.

Estimates of the loss of life from the great tidal wave reach as high as 50,000, and this number is believed to be far below the mark.

The tidal wave was 80 feet in height, and swept inland a distance of two and a half miles along 200 miles of coast. Thousands of acres of land under cultivation were devastated, and the inhabitants of the flooded districts are suffering from famine.

About the Liver.

A lazy, slow or torpid liver influences the whole system, causing biliousness, sick headache, sallow complexion, languor and dulness. Burdock Blood Bitters regulates the liver, purifies the secretions and cures all forms of liver troubles. We say so and here is the proof:

I hereby wish to thank you for the great benefit derived by me from your Burdock Blood Bitters. For three years I was troubled with liver complaint and tried everything to no purpose. I had almost given up hope, until one day I determined to try Burdock Blood Bitters. I can say now that marked improvement resulted from the use of the first bottle, and at the end of the sixth bottle I discontinued its use, being completely cured.

Who Envious the Travelers? The omnivorous traveler is always expected to be something of a "gay dog," with a ready smile for old jokes and bright new stories to give in return. Yet there is much that is wearing in a life filled with long drives through rain or sleet, dreary waits for trains, sleeping in cold rooms and other hardships. One of these "gay dogs" has found the secret of being always ready for any weather by getting a Fiber Chamolins lined under. On windy or rainy drives it protects him perfectly from the cold and wet; for walking on milder days it is too light to be a burden; when sleeping in a cold room he throws it over him, enjoying its comforting warmth; in fact, he finds it invaluable.

MUSIC AT SPRINGBANK.

Springbank last night presented a lovely appearance. There were many attractions, and these drew about 2,000 citizens there. The Seventh Band played in one corner, while the Salvation Army Band, in the fort in another, and fired volleys after volleys all over the grounds. The boat made two extra trips, and the street car people put on a ten-minute service.

THURSDAY NIGHT'S BAND CONCERT.

The band concert on Thursday night next will be a notable affair. This is the night chosen for the public presentation of the Royal Humane Society's medal and the handsome gold watch to Mr. Michael Migan for his noble deed on Jan. 22 in saving the life of Jean Lockhart. Mayor Little will present the watch, and Hon. Adam Brown, of Hamilton, president of the Royal Canadian Humane Society will present the gold medal of the society. Tables will be placed at the entrances for the purpose of receiving voluntary offerings from the citizens of London who sympathize with the work of the Royal Canadian Humane Society. The funds of the local branch are in a rather depleted condition, and this means is taken to reimburse them. They ask a liberal contribution.

Judges Bell and Doyle to Meet on July 27.

For the Purpose of Dividing the County Into Electoral Divisions.

County Clerk Robson has received notification that on July 27 Judge Bell, of Chatham, and Judge B. L. Doyle, of Goderich, would sit for the purpose of dividing the county of Middlesex into electoral divisions in accordance with the act passed by the Ontario Legislature at its last session, reducing the number of councillors. By this act, county councillors will be elected by the people instead of by the municipal councils. They will be elected on the same day as municipal councillors, but will be entirely a separate body. No municipal councillor is eligible to sit on the county board. There are at present in the County Council some 48 members, and by this act these have been reduced to about sixteen members. The basis upon which this division is made, sections 2 and 3, is chapter 52, of the R. S. O., as follows:

- 1. If the population of the county is 25,000 or less, it shall have not less than eight or more than ten members.
- 2. If the population is more than 25,000, but less than 40,000, not less than ten or more than twelve members.
- 3. If the population of the county is 40,000 or more, but less than 60,000, not less than twelve or more than fourteen members.
- 4. If the population is 60,000 or more, not less than sixteen nor more than eighteen members.

For the purpose of this act, each county shall be divided into districts or divisions which shall be known as "county council divisions" as follows:

- 1. If the population of the county is 25,000 or less, into not less than four and not more than five divisions.
- 2. If the population is more than 25,000, but less than 40,000, into not less than five and not more than six divisions.
- 3. If the population is 40,000 or more, but less than 60,000, into not less than six and not more than seven divisions.
- 4. And if the population is 60,000 or more, into not less than eight or more than nine divisions.

MR. MCLEMENT RESIGNS

The Collegiate Science Master to be Associate Professor of Chemistry in the Armour Institute Chicago.

W. T. McClement, M.A., who for the past four years has occupied the position of science master of the teaching staff of the Collegiate Institute, has handed in his resignation to Secretary McEltheran, having accepted a position as associate professor of chemistry in the Armour Institute. Dr. Gussalsone, one of the most noted Chicago preachers, is president of this institution. The work there is of a different character from that here, and Mr. McClement thinks he will like the change. The Armour Institute has 1,000 students. Mr. McClement graduated with honors from Queen's College, Kingston, a B. A. in 1888, and secured his M. A. in

1889. The present incumbent of the associate professorship in the Chicago Institute is Thomas Grant Allan, who has been promoted to the head professorship. He was an old class-mate of Mr. McClement's at Queen's, and was science master at Ingersoll, where he succeeded Mr. McClement, and now Mr. McClement succeeds him. The retiring professor is of opinion that as the London Institute for the best in the Province, he can hope for little advancement here. In Chicago the proximity of the university will enable him to undertake post-graduate studies, and this to him will be a great advantage. Mr. McClement has been in Chicago for the past two weeks, attending the university, and his presence in Chicago secured him his new position. Mr. McClement expresses his regret at departing from so lovely a city, where he has everything so comfortable, and still more because he severs his connection with as fine a teaching staff as he ever knew. His duties commence early in September, and his many friends wish him the success that most Canadians are worthy of. He is a native of Kingston.
