

BORDEN CERTAIN TO ACCEPT RESIGNATION OF MR. MONK, AND REORGANIZE CABINET

Hon. Robert Rogers Would Like To Have Charge of Government's Big Spending Department and Will Probably Be Named.

NANTEL MAY FOLLOW MONK, PELLETIER CERTAIN TO STICK

Government's Action With Nationalist Leader Considered as a Proof That the Naval Policy Is an Emergency Contribution.

[Special to The Advertiser.] Ottawa, Oct. 18.—Two months ago when Hon. F. D. Monk was making his tour of Canadian inland ports...

CASE LIKE TARTE'S. It was stated that on the return of the Prime Minister a situation would be created not dissimilar to that which led to the retirement of Hon. J. I. Tarte...

BORDEN WILL ACCEPT. Today, while it is possible that Mr. Monk's resignation is not actually in the hands of Premier Borden...

Mr. Monk is convinced that the situation which confronts the Empire at this juncture is grave and even critical. But he is earnest, and even insistent in his opinion that no assistance should be given by Canada...

THREE IMPORTANT POINTS. That is as far as the Prime Minister's statement goes, but it will be noted that it contains three important points...

1. That the cabinet, at its meeting yesterday, definitely decided on an emergency contribution. 2. That Mr. Monk, while not opposed to the gift, thinks the people should be consulted...

MONK'S VIEW. There is much comment in regard to the attitude assumed by Mr. Monk in both approving and disapproving of the emergency proposals...

PELLETIER TO STICK. His declaration of belief that existing conditions justify an emergency gift, will make it easier for Hon. L. P. Pelletier and Hon. W. B. Nantel to look to their portfolios...

NANTEL UNCERTAIN. On the other hand, it has been frequently stated of late that Hon. W. B. Nantel will follow Mr. Monk's example...

NOT GOING ON BENCH. The practical announcement of Mr. Monk's withdrawal from the Government by the Premier himself makes it almost certain that it is not the intention of the minister to accept a seat on the bench...

CABINET TO BE REORGANIZED. While nothing is definitely known it is understood that a cabinet reorganization will follow the retirement of Mr. Monk...

AIM TO DEVELOP BETTER WORKMEN. Certificate of Efficiency From Industrial School May Be Asked.

WILL ESTABLISH CLASSES. Engineers Agree to Furnish a Class of Fifteen Students to Start.

A certificate of efficiency from the industrial school of the city will probably be demanded of apprentices in the various shops...

At the regular meeting of the Builders' Exchange held Tuesday evening, this question was debated at some length...

It was also decided to recommend the establishment of a plumbing class at the night industrial school.

The exchange members are particularly interested in the success of industrial education here, as they were largely instrumental in having the board of education adopt the idea.

Favorably Received. "We had a most interesting discussion," said Mr. E. R. Dennis, chairman of the industrial committee...

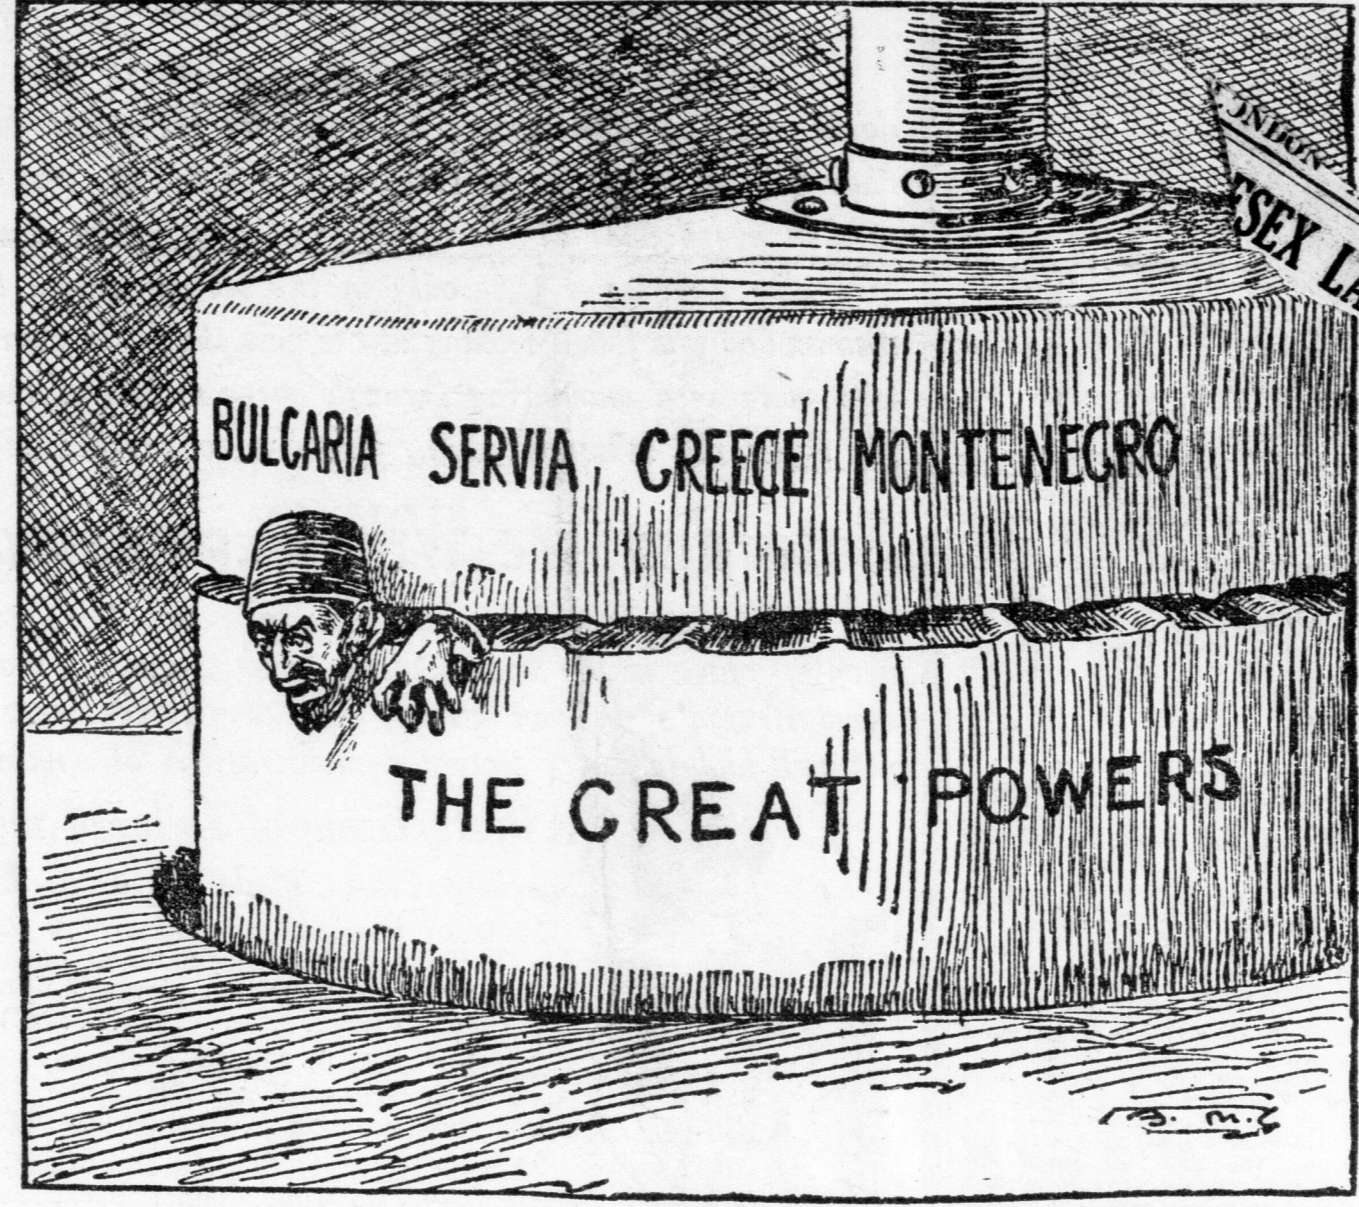

Berlin, Oct. 18.—Germany's benevolent neutrality regarding the Balkan war was requested last evening by the Bulgarian, Serbian and Greek ministers here...

Berlin Told of WAR DECLARATION. "We did not think it necessary to make the weather."

THE WEATHER. TOMORROW—UNSETTLED. Forecasts. Toronto, Oct. 18—8 a.m. Today—increasing southerly winds; fair and warm today; rain tonight.

Temperatures. The following were the highest and lowest temperatures during the 24 hours previous to 8 a.m. today.

A CARTOON OF THE DAY

Between the Upper and the Nether Millstone.

WITH ALL CHARGES FACED, HYDRO WOULD HAVE DEFICIT OF \$20,000

Sinking Fund on Transmission Line and Depreciation on the Local Plant Are Sidestepped in Mr. Glaubitz's Optimistic Document.

CHAIRMAN DEFENDS SYSTEM OF MAKING VARIOUS CHARGES

The financial statement showing the electrical department to have a surplus of \$15,000 for the first ten months of the year is very gratifying to Chairman Pocock and the commissioners.

On the other hand, it is claimed that the board would have a big deficit if all the charges against the department were paid. For instance, there is the sinking fund on the transmission line...

Not as Other Businessmen. "Electrical appliances are changing rapidly," said one man. "Apparatus that is perfectly good today may be useless tomorrow..."

ELSIE HARDINGHAM DIES AT VICTORIA

Young Lady Who Was Buried in Debris at Reid's Disaster Expires.

VICTIM OF PNEUMONIA. Figured in Thrilling Rescue With Several Other Girls.

Miss Elsie May Hardingham, only daughter of Mr. and Mrs. Henry G. Hardingham, of 353 Ottawa avenue...

London, Oct. 18.—Bulgaria, Servia and Greece have formally declared war on Turkey.

Bucharest, Roumania, Oct. 18.—The Roumanian Government has decided to prepare for the mobilization of three of its army corps.

Sofia, Bulgaria, Oct. 18.—A striking proclamation to the Bulgarian nation has been issued by King Ferdinand. In it he recounts the sufferings of the Macedonian Christians...

Seven persons were crushed to instant death or died in the ruins before the firemen and hundreds of volunteers could extricate them.

Miss Hardingham, Miss Libby Smith and Miss Earl (now Mrs. Benenatti), were all buried in the ruins, but were finally reached when a rescue party, risking their own lives, entered the Graves store, next door, and ripped a hole in the stone wall to gain access to Brewster's.

Miss Hardingham left Somerville's to take employment at Brewster's on the day on which she was injured, and when she recovered sufficiently to leave the hospital, returned to the Somerville factory, where she has been since employed.

Weather Notes. A storm now centered in Manitoba is likely to move eastward across the Great Lakes.

IF LONDON HAS CHEAPEST POWER, WHY SO SILENT?

City Does Not Appear To Be Taking Advantage of What Would Be Boon in Securing Industries.

PUBLICITY AGENT REFUSES TO DISCUSS STATEMENT

The statement made by Chairman Pocock of the water commission on Thursday afternoon, that London could sell power cheaper than any city in the hydro-electric zone...

Mr. Henderson Silent. Mr. J. Grant Henderson, commissioner of industries, absolutely refused to discuss the situation.

Disputes the Claim. However, a businessman, who did not care to get his name connected with the controversy, stated that Hamilton was furnishing power at a much less figure than London.

Board To Discuss Figures. It is expected that these will be in the possession of some of the water commissioners at an early date, possibly next week...

NOT ONE DOLLAR OF "SURPLUS" COMES INTO CITY'S COFFERS

New Law Now Effective Means That the City Pays Every Cent of \$30,000 Lighting Bill.

The city council will have none of the reported surplus of the electrical department of the water commission.

At the last session of the Legislature, however, the hydro-electric commission had an amendment introduced providing that no surplus from the hydro enterprise should be returned to the municipality.

Receive Money for Debentures. That amendment became law, and when the estimates were struck this spring, no provision was made for any surplus.

Death Threat For Wilson Police Are Guarding Candidate

Foreigner at Wilmington, Del., Declared He Intended To Shoot Democratic Nominee the Same as Roosevelt Was Shot.

Wilmington, Del., Oct. 18.—A large number of policemen were distributed among the crowd at the opera house here last night when Governor Wilson spoke.

Chief of Police Black was notified by Mrs. Sarah Hudson, of Wilmington, that while her sister, Mrs. Hattie Whitson, was leaving her place of employment yesterday she heard an Italian workman exclaim: "Wilson is here today, and he will get a bullet through him the same as Roosevelt did; I will put one in him!"

BABY BOY FATALLY CRUSHED UNDER HIS FATHER'S AUTO

Ailsa Craig Child Run Over by Backing Car, Cannot Recover.

Ailsa Craig, Oct. 18.—The 2-year-old son of David Witherspoon was so badly hurt at his home here this afternoon that no hopes are held out for his recovery.

ADVISES WITHHOLDING PAYMENT FOR WALKS

City Solicitor Believes Contractor Anthistle Should Not Be Paid Now.

At a meeting of the finance committee this afternoon a number of accounts for work done by Contractor W. J. Anthistle will be presented, but payment will be withheld until the dispute over the walks has been finally settled.

City Solicitor Meredith has written to the committee advising that this action be taken. There is a considerable sum of money due the contractor. He is given progress certificates on all his contracts, and when the work is completed he is given altogether 85 per cent of the contract price.

It is understood here that Mr. Monk has demanded that a referendum be taken on the question.

In an interview over the telephone with a reporter of LeDevoir, Mr. Monk denied that he had officially tendered his resignation, though he acknowledged that he wanted a referendum taken on the question of an emergency contribution of money to the British admiralty, which Mr. Borden is desirous of making.

Mr. Meredith's letter advises against the payment of any further money on any contracts. Mr. Anthistle has 15 per cent coming to him on the Dundas and Richmond street walks.

It is expected that the investigation will be commenced early next week.

MR. MONK STEPS OUT.

Some of us who have been skeptical of Mr. Monk's good faith owe him an apology.

Until he took office a year ago, Mr. Monk's attitude to the naval question was clear and consistent.

Mr. Monk's views were those proclaimed by every French-Canadian candidate opposed to the Laurier Government.

At last reports Messrs. Monk and Nantel were still at the lunch-counter.

It is now definitely settled that the German peril is to be staged in Canada.

There is a rush of Greeks from Canada to the war, but it will not hurt some Canadian youths to learn to shine their own shoes.

Golders Green, a suburb of old London, was a vacant field three years ago and today has a population of 45,000.

Mr. Monk's resignation means that the Government has declared for an "emergency" contribution.

Top prices of cattle in Toronto this week, \$6.25 per hundredweight.

Between Friends. Bells—How silly men are when they propose!

Before They Egged Him. "You say you have played Hamlet?"

Her Father's Daughter. [Letter to Toronto Saturday Night.]

A Chapter in History Closed. The loss of Tripoli by Turkey completes the recession of Mohammedan rule from the south littoral of the Mediterranean.

Good for Nothing. [Stratford Beacon.]

Bob Rogers' Triumph. "Bob" Rogers' position in the Dominion cabinet would hardly have survived the loss of the by-election.

ity and the sword. It may be, however, that Christian powers must become more Christian before African minarets will be surmounted by the cross.

THE EAST MIDDLESEX SITUATION

There was some difference of opinion at the East Middlesex temperance convention over the question of endorsing the independent candidate, Mr. Sutherland.

We have no wish to impugn the good faith of the majority or the minority of the delegates, but we fancy that most electors who wish to see the barroom abolished will vote for the man who says he will vote to abolish it.

In local option campaigns the temperance organizations depend upon the help of many who are not teetotalers, but who believe that the open bar is a snare, and greatly widens the area of temptation.

Mr. Rowell will be at home in East Middlesex. He was born there.

Bob Rogers' Triumph. "Bob" Rogers' position in the Dominion cabinet would hardly have survived the loss of the by-election.

of the Interior came back from Saskatchewan wearing mourning weeds. He has a very vivid recollection of the reception he got from his colleagues on that occasion.

It was, and "Bob" Rogers is on his way back to Ottawa with a smile of satisfaction which disappears only when he contemplates possible revelations by an election court.

"Bob" Rogers isn't fool enough to think that elections can be won by prayers alone.

BUT THEY WANT ONE.

Liberal politicians are talking and acting as though we were on the eve of a general election.

Thus it is in this sense immaterial whether Lieut. Becker instigated the murder of Herman Rosenthal, or whether "Jack" Rose himself was the prime mover in the affair.

Assuming that the witness stand was made out of the whole cloth, "Jack" Rose's story was pure romance.

When this story opens the hero is absorbed in his business. He lived only for one thing in life, the making of a fortune.

## The Limit of Extravagance in Furs

Paris, Oct. 15.—Merely to show to what extravagance the French woman of fashion will go in the purchasing of her furs, I have had the artist sketch a coat of chinchilla which is made with a train. This coat was priced at 100,000 francs, or \$20,000, and among other expensive garments, the muff and neck-piece was of the wonderful blue fox, the most expensive fur that is known. The wrap is lined throughout with

white chiffon over broadened pink satin, and it is clasped at the side with a wonderful ornament of beaten Russian silver and uncut emeralds. I saw this coat at Wood's when it was told me that it had been ordered for a famous Parisian professional beauty by one of the princes of the royal house of Russia. As I looked at it I could not help wondering how many freezing Russian peasants the money expended upon it would keep warm during the coming winter.

## CANADA A MELTING POT FOR PEOPLE OF MANY NATIONS

Several Phrases of Immigration Problem Discussed Yesterday By Rev. J. S. Woodworth, of Winnipeg, Before Women's Canadian Club—Dangers and Responsibilities.

The responsibilities of Canadians towards the growing foreign element in the Dominion, and some of the national dangers which the increasing tide of immigration threatens, were discussed yesterday by members of the Women's Canadian Club by Rev. J. S. Woodworth, of Winnipeg, in an address yesterday afternoon.

Mrs. F. P. Betts, president of the club, introduced Mr. Woodworth, stating that in facing this big problem it was necessary to face it "by city, and that Mr. Woodworth's wide experience would help Londoners in dealing with the problem here.

**Population an Asset.**

"One of the most important questions that faces us at this time in Canada is that of immigration," said Mr. Woodworth. "The greatest asset that any country has, is the men and women who comprise its population. We must consider that our population is made up very largely of those coming to us from outside of Canada. The Canada of today is not the Canada of yesterday; the Canada of tomorrow will not be the Canada of today. Great changes are taking place in our midst."

To illustrate the numbers of foreigners who are flocking to Canada, Mr. Woodworth used some interest-

ing several boarders in addition to the father, mother and children. "These housing conditions should not be blamed upon the foreigners. It is the fault of the people who collect the rents, and who themselves, live in comfortable homes. We are too apt to blame the foreigners for many things that should be placed upon other shoulders."

**The Remedy.**

The great remedy, according to Mr. Woodworth, is to build settlements whereby the better-class Canadians can come nearer to the mixed population. There is too great a division at present. The poorer classes live on the worst side of civilization. They don't enter the better-class homes, the theatres, churches or clubs. For recreation they go into the streets, the saloons and the poolrooms, and in order to raise them to a higher level, it is necessary to place within their reach the best that Canada has to offer.

"It is an immense problem, and looking ahead twenty years we may well ask ourselves what are we going to be religiously, politically, and socially. What result will the melting pot have? We must teach citizenship in our schools, for with the tide of immigration it is absolutely essential that the value of the good citizen be realized."

Mrs. Betts tendered the speaker a hearty vote of thanks on behalf of the club, and Mrs. H. A. Boomer, in seconding the resolution, referred briefly to her own experiences in 1867 when the Red River settlement was but slightly populated, and the problem of immigration not so stern as now.

## Problems of the Fair Sex Solved by Cynthia Grey

[Correspondents are requested to make their inquiries as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn as they are received.]

**Plume Renovation.**

Dear Miss Grey: As I take much pleasure in reading your letters nightly, I am going to ask you a few:

1. How can I curl a white willow plume?
2. When at a dance what should you say when a gentleman asks you for "this dance," and what should you say when it is finished?

Thanking you very kindly,  
 BLUE EYES.

A.—You may wash the feather in benzine. Be sure the liquid is perfectly clean, and souse the feather up and down gently so as not to break it. Dry in the wind. Personally I prefer the dry method of cleaning, namely to embed the plume in French chalk or magnesia and leave there for 24 hours. Then shake out the powder and repeat if needed, rubbing gently the more soiled spots.

The re-curling is rather a delicate process, and best results are brought about by practice. Use an ivory knife and pick up separately, each frond giving a quick but gentle turn of the wrist, and continue until all the plumes are curled.

2. Say "thank you" prior to the dance, and "I have enjoyed the dance—very much," or some similar phrase, at the close.

**Teacher's Gift.**

Dear Miss Grey: I am a constant reader of your page, and will be pleased if you would answer the following questions:

1. Will polo coats be worn this winter?
2. What is an inexpensive remedy to remove freckles?
3. What would be a nice gift to give my school teacher for Christmas? Would a nice belt be all right?
4. What will make finger nails grow?
5. What will make finger nails a nice pink shade?

Thanking you in advance,  
 VIVIAN.

1. I, Yes.
2. The free use of buttermilk and lemon juice at nights is a fine bleach for freckles, and does not harm the skin. Diluted lemon juice is also an excellent remedy.
3. I am sure she would like a belt, a pretty veil length, or a hair ornament. A new tie or piece of neckwear is also acceptable.
4. With most people the trouble is to keep them short enough. I wonder if you have formed the unfortunate habit of biting the nails? If so, you will need to exert your will power to break yourself, and some people require to have their nails dipped in strong alum water or some solution similarly disagreeable, before they can overcome the habit.
5. Persistent cleanliness and the use of a dainty nail paste or powder.

**Canada the Melting-Pot.**

The British immigrants were shown to number 141,770, those from the United States 121,114, and all the remainder, 71,490, were non-English-speaking peoples, including French, Germans, Austrians, Italians, Scandinavians, Swedes, Russians, Poles, Hungarians, Roumanians, Bulgarians and Hebrews, and many others. All these nationalities have different ideals, different religions, and different modes of living. Canada in reality become the melting-pot for them all. "And what," asked Mr. Woodworth, "is to be the result? Either they will inter-marry and a composite race follow, which is not certain to prove desirable, or if they do not marry we may have to face a caste system composed of white, yellow, black and red. Neither is a very desirable state for Canada."

**The Educational Problem.**

It was shown that with such an incoming of the foreign element, the Anglo-Saxon race can scarcely predominate. An instance was given of a school in Montreal, where from a total attendance of 1,020, all but 60 were Hebrews, and 12 of the 60 were Chinese. The difficulties connected with bilingual schools were not confined solely to the English and French people of Ontario and Quebec, Mr. Woodworth stated. In the west, where there is a population so mixed, the educational problem is hard to solve. In a Winnipeg school, where 590 pupils were registered, only 45 Canadians attended, 120 were British children, and the rest foreigners. Many of the latter attend only for a short time and then drop out. The authorities can do nothing, because there is no compulsory educational act in Manitoba. "It is a disgrace that in any province of Canada there can be 30,000 children kept away from school," declared Mr. Woodworth.

**Appalling Housing Conditions.**

The housing problem was also dealt with, showing some appalling conditions existing in Winnipeg and other western cities. In a community of 3,362 people, eighteen nationalities were represented, and in 72 Ruthenian homes were found some 77 lodgers. Quite frequently a ten-roomed house would contain ten families, there be-

## Local Seamstress States the Pros and Cons of Suffrage

[By "Olive."]

"Turn a little to the back, now slowly to the front—there! The skirt hangs 'very even. You'd like that fold wider? Yes, I do believe it will suit you better." "Give a broader look, don't you know?"

Of course, my feminine readers will understand that I was stationed before the dressmaker, who, on her knees, armed with scissors, needle and a mouthful of pins, issued forth orders with some difficulty, which I, like a martyr, meekly obeyed.

"Yes," she continued, plying her nimble fingers, "do like plain clothes myself. The suffragists seem to have set the fashion for mannish clothes."

"What is your view of the suffrage question?" I asked, scenting some interesting conversation.

**Pros and Cons.**

The little dressmaker sought her scissors before she answered. "Well, I agree that woman's right sphere is in the home, but I do think woman would have a good influence in politics. Women are on the square, most of 'em, and there'd be a great deal less graft—were, 'd best rip this seam and take it in a bit more."

"The deft fingers worked away rapidly, but the tongue wasn't silent long. "The only thing against it as far as I can see is the jury duty. No women with a parcel of babies could run off a week and act as a jury woman. "Yet, if she was summoned, or whatever it's called, she'd have to go. Oh! did I run that pin in too far?"

"Yes, it does hurt—but,"

"What makes me mad is to see fellows like Jim Smith getting a vote. He's that easy going he don't know his own mind and just votes for any one who'll pay him; and there's mere boys who never stop to consider—they can all vote, but you and me and many other women who have common sense and feel experience

THE PROGRESSIVE DRUGGISTS.

## Cause of Cold Sores

The lips should be soft and smooth and red as the veriest rose. Are yours? If you cannot boast of these additions to the beauty of your mouth, then it is your duty to start a crusade for the improvement of the lips immediately.

If you will massage lips daily with a dainty cream, and guard against cold sores, I see no reason why in a short time you should not have pretty lips.

Anyone who is addicted to cold sores will be more than pleased to know what causes their hideous excrescences and what treatment will reduce them to submission.

Cold sores are generally an indication that your system is in disorder, so while you treat them externally, as your judgment may dictate, it would be an act of wisdom to investigate the general state of your health.

Irregularity of the eliminative organs is one of the specific causes of cold sores, so be careful to keep them in a healthful condition.

A disordered stomach has also been known to bring out the ugly sores in abundance. Eat wisely and you will not be so apt to be a "cold sore" victim.

What external treatment do I advise? There are several treatments that meet with my approval, but my favorite cold sore banisher is peroxide of hydrogen. This liquid should be applied to the cold sore with a camel's hair brush several times each day, until sore dries up and fades into oblivion.

## Baby's Bed

Sleep occupies most of the baby's time. Up to one month old twenty-two hours sleep is needed, and at six months at least sixteen hours. Plenty of sleep is essential to the baby's health and growth. The baby must not sleep with anyone else. A suitable cot, with a comfortable mattress, may be made at but little expense. Rocking is not necessary. If laid down at regular hours in comfort to sleep, in a quiet and darkened place, with a supply of fresh air, sufficiently cool in summer, but warm all the year round, the baby will form regular habits of sleep.

At night, all day clothes should be taken off, and the long, soft, flannel nightdress put on.

**Baked Apples.**

Wash sour apples, wipe them dry, and remove the cores, fill the holes with sugar, and add a little spice and piece of butter to each; put ¼ cup of hot water in the pan and bake the apples until tender. Serve with sponge cake. If preferred, a little grated lemon peel can be mixed with the sugar instead of the spice and butter. Baste the apples with the syrup as they bake. Baked apples served with flavored cream or whipped cream are delicious.

**Mrs. Winslow's Soothing Syrup** has been used for over SIXTY YEARS by MILLIONS OF MOTHERS for their CHILDREN WHILE TEETHING, with PERFECT SUCCESS. IT SOOTHES THE GUMS, SOFTENS THE GUMS, ALLAYS ALL PAIN, CURES WIND COLIC, and is the best remedy for diarrhoea. Sold all over the world.

## The Birthday Calendar

IF THIS IS YOUR BIRTHDAY

You will lose by quarrelling. If you cannot act with calmness, avoid other people until you can control yourself. A desire for the strength that comes from harmonious adjustment of the faculties and a meditation on higher aims in life will help you.

These born today will need strong guidance, for they are inclined to yield weakly to impulse and temper, and unless taught strength will always be unfortunate. Their talents will be marked enough to make their training well worth while.

**PROSPECTS BRIGHT FOR CITY HOCKEY LEAGUE THIS WINTER**

**FAST CITY HOCKEY LEAGUE FOR LONDON THIS WINTER**

Lots of Material and Splendid Prospects For Such an Organization—Meeting Will Be Called Shortly to Discuss Matter—Meds Will Enter a Team.

[BY JINX.] Prospects for a city hockey league this coming winter are exceedingly bright, and it is likely that a meeting will be called shortly to discuss the advisability of forming one. There is plenty of material in the city at present for putting up a team, and a prominent business man has signified his intention of putting up a team, and a prominent business man has signified his intention of putting up a team, and a prominent business man has signified his intention of putting up a team.

Time is ripe for a good city league. It is believed that a meeting will be called shortly to discuss the advisability of forming one. There is plenty of material in the city at present for putting up a team, and a prominent business man has signified his intention of putting up a team, and a prominent business man has signified his intention of putting up a team.

**FOGEL WILL HAVE TO PROVE CHARGES AGAINST UMPIRES OR BE CAST OUT OF LEAGUE**

National League Executive Puts Matter Squarely Before Magnates at Meeting Called in New York—Matter Will Be Given a Hearing on November 26.

New York, Oct. 17.—Formal charges against Horace Fogel, president of the Philadelphia National League Club, based upon his alleged assertions that umpires upon his team had favored the New York Club and that this year's race had been fixed, were made today at a special meeting here today of the National League baseball clubs. Mr. Fogel was given an opportunity to substantiate statements published over his signature regarding certain umpires of unfairness. The charges also included statements which President Fogel is alleged to have made at the Philadelphia baseball park at the last series played there with the New York team; an accusation alleged to have been made at the Philadelphia baseball park at the last series played there with the New York team; an accusation alleged to have been made at the Philadelphia baseball park at the last series played there with the New York team.

**Giants Receive Checks For World-Series Share**

Players Are Anxious To Forget Baseball For a While and Depart For Home. [Canadian Press.] New York, Oct. 17.—Most of the members of the New York National League baseball team were today on their way to their homes, each with a check for \$2,566.17 in his pocket as his share of the world series receipts.

**BRUSH WILL NOT SHARE WORLD SERIES PROCEEDS**

Will Put Up Fight To Save 25 Per Cent. of Giant's Share Which National League Wants. [Canadian Press.] New York, Oct. 18.—President Brush of the Giants, has no intention of turning over to the National League without a fight a share of the profits from the world series games. At the annual meeting of the league last winter a resolution was adopted ordering that 25 per cent of the money received by the club in the world series should be turned into the treasury of the organization. Mr. Brush now contends that the motion was illegally passed and is unconstitutional. An arbitration committee will consider the case and report back to the league at its annual meeting next December. This committee will include a representative from the New York club, the representative from the national commission, and a third member, probably Governor Tener, of Pennsylvania.

**OTTAWA COLLEGE QUITS HOCKEY UNION ALSO**

Action of Rugby Team Followed by Hockey Team Resigning. [Special to The Advertiser.] Ottawa, Oct. 18.—With their resignation from the Intercollegiate Football Union, Ottawa College will also drop out of Intercollegiate hockey and will enter a team in the Ottawa City League.

**JIM McALEER'S RECORD SHOWS THERE'S A FORTUNE IN BASEBALL FOR PLAYER WITH BUSINESS ABILITY.**

The world's championship is Boston's. It is pertinent at this time to give a moment's contemplation to the man in command of the American League champions, James R. McAleer, of Youngstown, O., who has \$200,000 invested in the Boston club. Of this, \$130,000 represents his savings. The remaining \$70,000 was borrowed—without interest—from the Comiskey, of Chicago, one of the wealthiest men in the American League.

McAleer tells close friends that for the past eight years his income as manager and scout has been \$20,000 a season. He saved his money, and when opportunity presented itself he purchased the Boston club.

With \$120,000 in the bank, it was easy to secure the \$70,000 balance from Comiskey, whose players have made him rich and who always regarded him as the game's greatest outfielder. Now that the Red Sox have won the world's series, McAleer will not only get back all of his investment, including the \$70,000 he borrowed from Comiskey, but will have something left to buy a few new players. A winning team is a gold mine, especially in Boston.

McAleer tells, with no small show of emotion, how he has kept out of the game all season. "I guess you'd better leave this to me," was Stahl's reply. "I'm not entirely bereft of ideas."

"And that was the end of it. Stahl is running the club and Stahl is responsible for the position in which we finish," says McAleer. McAleer was the greatest centre fielder ever lived. He was born at Youngstown, June 10, 1864, and began his professional career with the Charleston club, then to Memphis, and in 1889 moved to St. Louis, where he became the fielding wonder of the team. He played for the Phillies, was the game's greatest. McAleer was never a great hitter, but his marvellous instinctive fielding was the delight of the fans, and his fleetness of foot made him dangerous on the bases.

McALEER'S MAKING A BUNCH OF MONEY OUT OF THE RED SOX.

**McALEER'S BASEBALL RECORD**

Year	Club	League	Games	Hits	S.B.	Average	Field.
1886	Charleston	S. L.	29	42	17	.194	.361
1887	Memphis	S. L.	62	127	64	.340	.902

**GALT FILLY WON KENTUCKY STAKE**

Princess Todd, Owned By Miss Wilks, Captured the Feature Event at Lexington. Races Have Been So Successful That No Admission Will Be Charged Tomorrow.

Lexington, Ky., Oct. 17.—The championship stallion stakes, the Kentucky stake for 3-year-old fillies, were the principal events on the program of the Grand Circuit meeting here today. The stallion stake was a two-horse race between John G. Cecil's colt, Waz a Dillon, and A. J. Clark's colt, Director Jay. The former won the first, but Director Jay came strong in the second and third heats and proved an easy winner.

**"GAMEST NINE EVER" SAYS BOSTON MAYOR**

Big Mass Meeting and Reception Held in Honor of Red Sox at Boston. Some Will Go Home, While Others Will Take Hunting Trips — Stahl and McAleer Honored.

Boston Oct. 17.—A triumphant march through crowded streets and a mass meeting of congratulation in Faneuil Hall, closed for the season today the activities of the Red Sox, the new world's champions, as a baseball team. After they had been lauded as the "gamest nine ever" by Mayor Fitzgerald, and the sentiment had been applauded by several thousand fans, the players dispersed, not to meet again as an organization until the next year. Some left players for league work, while others will follow before the week is out.

**OTTAWA HOCKEY CLUB WILL FORM A MERGER**

This Means That New Pro-League Scheme Will Be Dropped. Ottawa, Oct. 17.—An announcement of particular interest to hockey followers was made at a meeting of the Ottawa Hockey Club, Limited, Friday. The name of the club was mentioned as the "man behind" the new hockey league, which was mooted some weeks ago, and which was to have included Toronto and Montreal clubs, has been virtually minus a member of the local forces and the end to all negotiations concerning the new league.

**MATTICK'S TRIPLE WON FOR WHITE SOX**

Chicago Americans Defeat the Nationals and Are in Running for Championship. THREE HOME RUNS MADE Zimmerman's Hitting Was Responsible for all of Cubs' Runs — Collins and Weaver Also Feature.

Chicago, Oct. 17.—"Chick" Mattick, of the Chicago American League team, today kept his club in the running for the city championship by driving out a triple with the bases full in the ninth inning. When he scored a moment later on out he brought defeat to the local National Leaguers by a score of 8 to 5.

The spectacular finish was in keeping with the rest of the game. Zimmerman's hitting was responsible for four of the Cubs' tallies. His sacrifice fly scored Miller in the first; his home run brought himself and Tinker home in the fourth, and his double came in the eighth, after Miller's triple had sent Good home.

Player	AB.	R.	H.	O.	A.	E.

UNRECORDED HEROES—THE MAN WHO HAS TO SHOP FOR HIS WIFE.

EAST END MARATHON HAS MANY ENTRIES

Great Interest Being Displayed in Thanksgiving Day Event This Year.

OUTSIDERS ARE COMING

Dellow, of Parkhill, Has Sent in His Entry, and Has Also a Likely Runner in Junior Race.

Several entries for the East End merchants' road race on Thanksgiving Day have been received, and the event promises to be a bigger success than ever. This year Dellow, of Parkhill, who has achieved quite a local reputation in that vicinity as a fast man at five miles, has forwarded his entry, and also states that he has a fast man who is eligible for the junior event, which is run after the five mile race. A large number of local runners are training for the race at present, and as the prize list is bigger this year than in the past, there will be keen competition for the valuable ones.

Roy Campbell Will Run. Roy Campbell, who won the race a couple of times, the last time being last year, will run again this year, as will Gordon Scott, who won the event two years ago. Both are training hard, and can be depended upon to be among the leaders. The Meds will also be represented by a couple of fast runners this year, some good Marathoners having been discovered among the students. It is also likely that Tom Brodison, winner of the Collegiate five mile race, will run, and the L. C. U. will also have a couple of other entries. T. L. C. A. will also be represented by a couple of fast men, and there will be two or three runners unattached.

Outsiders Coming. The list of outside entries promises to be larger this year than before. Marathon races with as valuable a prize list as the East London race are rare in Ontario this Thanksgiving, and the local event has always attracted lots of interest from outside. A couple of runners are expected from Hamilton and Toronto, entry blanks having been forwarded.

The junior race will also be largely entered. The distance for this race is two miles, and it has always proved as popular as the five mile event.

BALTIMORE RESULTS. Laurel, Md., Oct. 17.—Today's results: First race, 5 1/2 miles—Dunlop, 16:45, 114; 1, Aurife, 1:08, 2; Brynary, 1:08, 3; Time, 1:07 4-5. Second race, two miles—Lucan, 1:55; 1, Idle Michael, 1:56, 2; Black Bridge, 1:56, 3; Time, 4:16 3-5. Third race, six furlongs—Double Five, 1:16, 1; Seneca II, 1:16, 2; Purvis, 1:16, 3; Time, 1:13 3-5. Fourth race, mile and a sixteenth—Dr. Duennier, 1:08, 1; Altiman, 1:07, 2; Carlton G., 1:10, 3; Time, 1:47 1-5. Fifth race, six furlongs—Kate K., 1:06, 1; Anvyl, 1:12, 2; Golden Castle, 1:10, 3; Time, 1:14 1-5. Sixth race, mile and 70 yards—Turpin, 99, 1; Adie, 1:02, 2; Tash Kid, 1:07, 3; Time, 1:45.

TECUMSEH WHIST CLUB. Jones and Conner, with a plus score of 47, won the prizes at the weekly games of the Tecumseh Whist Club last evening. Other players' scores were as follows: Currie and Grant, plus 18. Doggrell and Sanders, plus 3. Park and Brown, plus 2. Five tables were engaged in the game.

Base Ball Yarns

Manager George Stovall, of the Browns, expects to make an early start to California to arrange some trades for his team. He had hopes of landing Pete Daley from Los Angeles, but Manager Frank Dillon is quoted as saying there is no prospect of such a trade with what the Browns have to offer.

An unusual stunt in the pitching line came at the wind-up of the game with the Western league, Doc Thomas pitched and won a double header from the Rockies, Red Faber pitched a twin bill for the Boosters the day previous, and Rip Hagerman won the last two games from Wichita.

In an exhibition game between Brooklyn and Newark, Eddie Dent got back in great shape against his former teammates, the Dodgers. In a game ended after six innings on account of darkness Dent blanked Brooklyn with but two hits, Allen pitched for Brooklyn and was hit freely. According to Memphis report Bill Adams, first baseman, is the only member of the infield sure to retain his job. Crandall was drafted and Hallinan recalled by the St. Louis Browns. Moulton and Netzel, the other infielders, are not considered strong enough for the job. A large number of outfielders wants next year. Now comes a denial that Arthur Devlin said he would not go to the Pacific coast as manager of the Sacramento team. According to the latest report Devlin said he would like nothing better than the job next year, but would not consider it this season, because he already had his plans made for the fall and early winter.

Kitty Brandish, who took the management of the Montreal team with the understanding that he should not be held to the job more than the one season, is now being considered for the position of team leader for the Royals and Montreal wants him back, for the team made a great showing in the final month of the season.

What Bill Luby couldn't do in the Connecticut league he did in the independent Twin state league—in a program that the league was composed of four towns, Northampton, Keene, Brattleboro and Shelburne Falls, and the teams were made up largely of former Connecticut league players. Luby had the Northampton team and it finished by a margin of four games over Keene.

Gerald Hayes, the oldest umpire in point of service in the American association, has given President Chivington notice that he is done and will not sign a contract for next year. Hayes thinks he has been on one circuit too long and hopes for a transfer. He leaves with high indorsement from club officials and it is noted that even the most rabid newspaper writers compliment his work.

The family troubles of Hal Chase have been settled by Mrs. Chase being given an unentailed divorce, custody of their three-year-old child and alimony of \$109 a month.

First baseman Gieschmann, drafted by Baltimore from Anderson of the Carolina Association, was first claimed by the St. Louis Browns, which later cancelled the contract. He is a left-hander. Earl Gardner, who finished the season with Toledo, was married at his home in Denby. Providence cancelled its draft on pitcher Fullerton, of Lawrence, much to the delight of Manager Louis Eipper, of the New England pennant-winners, for he says Fullerton needs another year's seasoning before going up. Carl Zamloch, the Missoula pitcher sold to Detroit for spring delivery, is now being called by the Milwaukee Braves. It is a regular job he has, not just a bluff to hand out done on the world's scouts as is the case with Sam Agnew, drafted by the St. Louis Browns from Vernon, is referred to by an Omaha critic as "the former second string catcher of Omaha," and it is remarked

some of it, but the supporters of the Northwestern league team say it was hardly a fair test. Each team used several pitchers and errors were many. The last time of the game the leagues met the result was a tie game in extra innings.

Tunnel Town News

STRONG FEELING IN FAVOR OF GOING DRY

CONTRAST BETWEEN CONDITIONS IN SARNIA AND POINT EDWARD IS MARKED.

SARNIA BRANCH OFFICE, 205 Front Street. Office hours, 9 a.m. to 5:30 a.m., 3:30 p.m. to 7:00 p.m.

Special to The Advertiser. Sarnia, Oct. 18.—One enthusiastic temperance worker stated today that the petition for local option is progressing splendidly, and will soon be in shape to present to the council. The campaign cannot be said to have started in earnest yet, but from present indications it looks as if the temperance workers mean business. The movement, however, is quietly growing in strength, and bids fair to become one of the big issues at the next election.

Perhaps the greatest obstacle to local option in Sarnia is the fact that Port Huron, a wet town, is right across the river. It was this same fact reversed during the campaign for prohibition in the American city that contributed largely to the defeat of the local optionists here. Sarnia, it is generally admitted, has altogether too many drunks for a town of its size, and those who have watched the agitation for local option closely declare it to be justified, in view of the many peculiar circumstances that contribute to deplorable conditions here.

It is only fair to say, though, that quite a few of the drunks obtain their liquor on the other side. Local option in Point Edward appears to have been perfectly successful, for more than one patron of the street car line between that village and Sarnia remarking on the absence of intoxicated men aboard the cars since the law went into force.

POLICE SEARCHING FOR TWO DEFAULTERS

Heavy Rewards Offered For Men Who Skipped With Funds.

Special to The Advertiser. Sarnia, Oct. 18.—A description of William S. Taylor, wanted for the embolism of public funds, has been received at the police station from the Illinois Surety Company, of Chicago. Taylor lived in Danville, Virginia, and departed from there on July 17, taking camped from there on July 17, taking with him a Mrs. Scroggs and her 7-year-old daughter. He is 39 years of age, and a veteran of the Spanish-American war, and is very fond of a military life. The commonwealth of Virginia offers a reward of \$200 for the apprehension of the man and the surety company one of \$400. A reward of \$200 is offered for information leading to the arrest of Dewitt L. Campbell, an operator of the U. S. Express Company, at Red Key, Indiana, who absconded with the company's funds. Campbell is of dark complexion and 25 years of age. The local police have been requested to keep an eye open for the man.

ROBBED GROCERY

Thieves Secured \$95 From Till in Sarnia Grocery Store.

Special to The Advertiser. Sarnia, Oct. 18.—The second daring robbery to be perpetrated on Main street inside of a week was successfully accomplished last evening, when thieves walked into Palmer's grocery store and made off with \$95, which was left in the till. The front door had been left open by accident by a delivery boy when he went home at 6 o'clock, and when the proprietor returned about an hour later the money was gone. The police are working on the case.

MISSING DIAMOND FOUND IN SARNIA

Police Search of Over a Month Was Finally Successful.

Special to The Advertiser. Sarnia, Oct. 18.—After over a month's search the last of the diamonds stolen from J. Philippot, a wealthy Port Huron liquor dealer, last August, have been recovered. The one jewel that was missing since the recovery of the other stones was located by Capt. Kerwin, of the Port Huron police, in the possession of a Canadian woman, living in this vicinity, whose name is withheld.

AYLMER. Aylmer, Oct. 18.—At a special meeting of the town council held this week it was decided not to purchase a steam roller this year. There was a good attendance at the roller rink last night. Archie Poustie, who has been confined to the house for the last two weeks, is again able to be out. Charles Vaxatter still continues very seriously ill. Mrs. Bottomley has returned from Detroit. Mr. and Mrs. F. W. Ingram have returned from Grand Rapids, Mich., where they have been attending the graduation of their daughter, Grace, from the Butterworth Hospital. Miss Ingram will return home very shortly. G. A. Bingham is recovering from his very serious illness. The testimony of most of today's witnesses was confined to identifying letters, the contents of which are to be made known later.

SCHRANK'S REASON FOR SHOOTING ROOSEVELT, AND THE RUSTY REVOLVER HE USED.

The reproduction above is from the last page of a rambling letter found in John Schrank's pocket after he shot Roosevelt. The line in German near the end is translated: "A mighty fortress is our God." This is from Martin Luther's famous hymn, which, strangely enough, is a favorite of Roosevelt's.

ENGLAND NEEDS PURE FOOD LAW

Public is Inadequately Protected From Adulteration of Edibles.

POISON IS IN OYSTERS

Dealers Increase Weight of Tea by Putting Sand in It—Other Tricks Worked.

London, Oct. 17.—An efficient pure food law is sadly needed in Great Britain, according to the indications of the Government chemist in his annual report on the adulteration of food.

Cider is a favorite beverage in England for those who prefer soft drinks, and it is stated that the great majority of so-called "non-alcoholic ciders" are entirely free from fermented apple-juice, and are simply solutions of sugar which have been aerated, flavoured and colored.

The latest reports received here on the cotton crop are of a very favorable nature, and an estimate of its extent places it at eight million cantars of one hundred pounds each, which is a record crop for Egypt.

ROTHSCHILD'S BIG WATERLOO COUP

How the Great Financier Made Enormous Profits Through French Defeat.

BRAVED TERRIFIC GALE

Crossed Channel at Risk of Life in Order to Reach Stock Exchange Early.

London, Oct. 18.—In commemoration of the centenary of the death of Mayer Amschel Rothschild, the founder of the fortunes of the great financial house that still bears his name, Herr Ignaz Balla has written a book entitled "The Rothschilds," which gives a graphic account of Nathan Rothschild's famous coup at Waterloo.

Nathan Rothschild, the London representative of "the five Frankforters," rendered the cause of the Allies invaluable services during the Hundred Days, and had amassed huge profits for the Frankfort firm. But Napoleon's dramatic return from Elba confronted him with the prospect of losses no less enormous, and there were rumors that even the Rothschilds, whose credit even then was looked upon as firmly established, would not be able to weather the storm if the war were to go against them.

So far as Nathan was concerned, it is a fact that he stood to lose every penny he possessed. In a fever of apprehension he hurried across the channel to follow Wellington's army. When, on the edge of the forest of Soignes, he found all the preparations for a pitched battle, he could no longer master his excitement, and, though essentially a man of peace, he took up a position in the field whence, with every nerve tingling, he could watch the issue of the day.

Nathan Retreats. Long before Napoleon had called upon the Old Guard to make their last

desperate attempt to break the British lines, the financier was in full retreat. He had seen enough to convince him that the cause of the First Empire was doomed, and his nerve was restored. Hiding post haste back to Brussels, he set off for Ostend. He now had a campaign of his own to attend to.

Here the fortune of war seemed to have declared against him, for it was blowing a full gale in the channel, and not a skipper would put out. In vain he offered \$100, \$150, even \$200. Not a man held his life so cheaply. In time the young master of a smack came forward and offered to attempt the passage on condition that his fare paid \$400 to his wife before they started.

The financier gladly clinched the bargain. He reached Dover half-drowned after a terrible crossing and rewarded the plucky skipper handsomely. From Dover he posted to town without a minute's delay.

Early on the following morning he was at his accustomed place, leaning against a pillar on Change. His face was deathly pale; he looked like a man who had aged ten years in a single night.

The tension in the city was very high that morning. Even iron nerves were beginning to feel the strain, for every kind of ugly rumor was on the wing. Reports that Blucher had been disastrously defeated and that Wellington himself was in full retreat passed from mouth to mouth.

A sudden wave of panic swept over the house. Not even the soundest securities were proof against the general sense of alarm and uncertainty. They were caught and swept away in the current.

The pale-faced man, propped up against his pillar, was an object of sympathy to every one who could spare him a thought. He was watching, they imagined, the crumbling of the fortunes of his house. What he was watching was his confidential agents acting under secret instructions, buying up sound securities at panic prices.

On the following morning the official news came through of Blucher's success at Ligny and of the crowning victory of Waterloo. Prices rose as rapidly at the opening of the markets as they had fallen on the previous day. The battle of Waterloo, it is estimated, was worth over a million sterling to Nathan Rothschild, whatever his cost him that day was cheap at the price.

Frank A. Munsey said he contributed about \$10,000 to the Republican National fund in 1904, and in 1908 gave \$15,000 to the Republican National fund, and \$1,500 to the New York State fund. He gave his total contributions in cash to the Roosevelt pre-convention fund this year as \$87,166.56.

In addition to the \$67,166.56, Mr. Munsey said he gave the following sums: New York State committee, \$15,000; Massachusetts State committee, \$9,000; special newspaper editions in Massachusetts, \$10,824.44; Maryland State campaign, \$5,237.70; to National headquarters for printing, etc., \$10,632.02. This brought Mr. Munsey's total contributions up to \$118,005.72.

DO SORE CORNS HURT YOUR FEET? If you haven't tried Putnam's Corn Extractor you haven't used the article that will remove corns, callouses and sore foot lumps in the shortest time. Don't waste another cent in plasters, pads or salves—get the guaranteed Corn Extractor, Putnam's Painless Corn and Wart Extractor. It acts quickly, never pains, removes the corn forever. Price, 24c. Sold by druggists.

The rain-making hallucination is apparently, says the Scientific American, one of the incurable forms of mental disease. This supposes of a revival of the experiments conducted some years ago in Texas, by which heavy explosions were caused for the purpose of producing rain. In the recent experiment 4,500 pounds of dynamite were exploded in Michigan, and a heavy rain followed—but then it was raining when the experimenters began their work.

Ceremonious forms in correspondence, such as "I have the honor to be," "Your obedient servant," etc., long disused in business but surviving in official letters, are, it is reported, to be abandoned hereafter by the United States war department. Even the familiar expressions "Sir" and "Yours respectfully" are to be barred, and letters are simply to bear the name of the person to whom they are addressed and the signature of the sender. Time and typewriting, it is believed, will both be saved by the innovation.

DR. A. W. CHASE'S 25c. CATARRH POWDER. It is sent direct to the diseased parts by the Improved Blowpipe. Heals the ureters, cleanses the air passages, stops dripping in the throat and permanently cures all cases of Catarrh of the Bladder. No more urine. No more pain. No more substitutes. All dealers or Edman, Bates & Co., Limited, Toronto.

CROSS OR FEVERISH, HALF-SICK CHILDREN. If Tongue Is Coated, Breath Bad, Stomach Sour It Means a Torpid Liver and Clogged Bowels. Mother! Don't scold your cross, peevish child! Look at the tongue! See if it is white, yellow and coated! If your child is listless, drooping, sleeps heavily, is restless, doesn't eat heartily or is cross, irritable, out of sorts with everybody, stomach sour, feverish, breath bad, has stomach-ache, diarrhoea, sore throat, or is full of cold, it means that the little one's stomach, liver and bowels are clogged with waste matter and need a gentle, thorough cleansing at once.

Give a teaspoonful of Syrup of Figs, and in a few hours all the clogged up waste, undigested food and sour bile will gently move on and out of its little waste-clogged bowels without nausea, griping or weakness, and you will surely have a well, happy and smiling child again shortly.

With Syrup of Figs you are not drugging your children. Being composed entirely of luscious figs, senna and other natural vegetable ingredients, it cannot be harmful; besides they dearly love its delicious taste.

Mothers should always keep Syrup of Figs handy. It is the only stomach, liver and bowel cleanser and regulator needed—a little given today will save a sick child tomorrow.

Full directions for children of all ages and for grown-ups plainly printed on the package.

Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Company. This is the delicious, tasteful, genuine, old reliable. Refuse anything else offered.

W. G. Patrick & Co., Toronto, Representatives for the Province of Ontario.

MANY VENUSES TODAY, SAYS RODIN

Sculptor Doesn't Believe Modern Women Less Beautiful Than of Old.

Paris, Oct. 14.—Mr. Gsell has written a book on Rodin, in which that supreme great artist talks plainly to the world. The book is an autobiography within a biography, for Rodin's words are quoted in an interview. Mr. Gsell says to the sculptor that he hopes the book may be a protest against the ideas of today. "May the gods hear you!" cries Rodin.

"The art of Rodin declares that it must not be narrowed, that beauty must not be confined to prettiness. His actual words are quoted: 'To any artist worthy of the name all in nature is beautiful, because his eyes, fearlessly accepting all exterior truth, read there, as in an open book, all the inner truth.'"

"He has only to look into a human face in order to read there the soul within—not a feature deceives him; hypocrisy is as transparent as crystal—the line of forehead, the least lifting of a brow, the flash of an eye, reveal to him all the secrets of a heart."

"He is even the confidant of nature. 'For him life is an endless joy, a perpetual delight, a mad intoxication.'"

"Talking of beauty we get this little dialogue: 'Master, I asked, 'is it easy to find good models?' 'Yes.' 'Then beauty is not very rare in France?' 'No, I tell you.' 'But tell me, do you not think that the beauty of the antique much surpasses that of our day, and that modern women are far from equalling those who posed for Phidias?' 'Not at all.' 'Yet the perfection of the Greek Venuses?'"

"The artists in those days had eyes to see, while those of today are blind; that is all the difference. The Greek women were beautiful, but their beauty lived above all in the minds of the sculptors who carved them."

"Today there are women just like them. They are principally in the south of Europe. The modern Italians, for example, belong to the same Mediterranean type as the models of Phidias."

There is a distinction in the meaning which admirers find in an artist's work. Was the artist conscious of this meaning? Did he consciously put it there? Says Rodin: "Certain admirers have such a notion that the artist attributes to the most unexpected intentions to the artist. We are not talking of these. You may rest assured that the masters are always conscious of what they do."

The artist must forget his craft. "And when I say that craft should be forgotten," says Rodin, "my idea is not for a moment that the artist can get along without science. On the contrary, it is necessary to have consummate technique in order to hide what one knows. Doubtless to the vulgar the jugglers who execute eccentric flourishes of line, who accomplish astounding pyrotechnics of color, or who write long phrases encrusted with words are the most skilful men."

But the great difficulty and the crown of art is to draw, to paint, to write with ease and simplicity."

LAWSON HELPED T. R.

Testified He Spent \$100,000 Advertising Pre-Convention Campaign.

Washington, Oct. 18.—Thomas W. Lawson, of Boston, told the Clark committee yesterday he understood that the Standard Oil Company had contributed heavily to Alton B. Parker's campaign for the presidency in 1904. He said he had once supplied "a general way" that the company had spent \$500,000 to \$700,000 in Mr. Parker's behalf.

Mr. Lawson testified he had spent \$100,000 for advertising for Colonel Roosevelt's pre-convention campaign, and that he "knew in a general way" that Wall Street has subscribed \$1,000,000 to nominate "a dark horse" at the Baltimore convention.

Essenkay "ENDS TIRE TROUBLES". Let us show you where you can actually save money as well as time and worry. Don't delay. Phone or send postcard for information. R. Hueston & Sons 481 Richmond St. An automobile air spring has now been placed on the market, says a mechanical contemporary, after three years of experimentation. The object of the inventor was to make possible thoroughly comfortable and fast riding over the roughest pavements and roads. It is to be hoped that the announced success of the new device will not dampen the ardor of the good roads movement, for the sake of those who still must ride in last year's cars or even in horse-drawn vehicles.

THE HAND THAT SHOT ROOSEVELT.

Here are the thumb and finger prints of John Schrank's right hand, taken as part of the Bertillon records made by the Milwaukee police the day after Schrank shot Roosevelt.

THE MAN AND THE MANUSCRIPT THAT SAVED ROOSEVELT'S LIFE.

This is Elbert E. Martin, the young athlete who grabbed the maniac at Milwaukee, threw up his gun hand and prevented a second, fatal shot. In his hand he holds the manuscript speech which was in Roosevelt's pocket, retarding and deflecting the bullet as it plowed toward his body. Notice the holes made by the bullet.

ASSISTANT ENGINEER WILL BE SECURED

Impossible to Handle Work With City's Present Staff.

LAW TO BE AMENDED

Merchants May Erect Marqueses—Shall Car Stop While Passing Another.

At a meeting of the board of works held Thursday evening, it was decided to ask the council to authorize No. 2 committee to secure an assistant city engineer. It was found impossible to do all the work in hand with the present staff. A suitable man can be secured, it is thought, and in the meantime the members of the committee will be on the lookout for a good man.

Manager King and Ald. Bennett were present to explain the amendment to the traffic bylaw proposed by Ald. Bennett. He suggested that all street cars come to a full stop before passing another car taking on or discharging passengers. This was the practice on the steam roads, and it had worked out most satisfactorily in the case of the operation of the railways at the beginning. The present method of operation of the street railway was dangerous, many serious accidents having happened during the past few years.

Manager King informed the committee that it would be impossible to carry out Ald. Bennett's suggestion. The schedule would be shattered, and the efficiency of the company seriously interfered with. He thought that an order asking the motemen to come to a safe stop would obviate all the difficulty. In addition, the company would be compelled to stop on one side of the street only at Richmond and Dundas, thereby increasing the danger.

The committee could not arrive at any decision, and it was decided to send Ald. Bennett's recommendation to the council to be debated.

Mr. Chris. Leithorn, contractor for several sewers, informed the committee that he would give up his contracts if the 24-hour water test was insisted upon. He pointed out that it was by no means a satisfactory test. It was decided to amend the specifications, to make the test satisfactory to the city engineer.

Make Law Fit Practice. The bylaw prohibiting the erection of marqueses over store fronts will be repealed. A large number of merchants have violated the bylaw, and the committee thought that they should be allowed to retain them. The bylaw will be amended at once.

Notice was served by Mr. J. M. McEvoy that he would enter suit for damages against the corporation for the death of Oscar Hull, who was killed when a lorry slewed into a hole on Ridout street. City Solicitor Meredith was instructed to defend the action.

City Engineer Blandford was instructed to get in touch with a cement expert at once in order to complete the investigation of the sidewalk of the city. A suitable man was not available, or the walks would have been torn up at once. It is expected that a selection will be made within a few days.

Those present at the meeting were Ald. Robinson (chairman), Ald. Moore, Ald. Blandford, Mayor Graham, City Engineer Brazier and Secretary Baker.

MILLION CHURCH MEMBERS THROUGHOUT DOMINION

Places of Worship of All Kinds Now Total Fifteen Thousand.

Toronto, Oct. 18.—Secretary Caskey, of the Laymen's Missionary Movement, has been making a study of the total membership in the Protestant Churches in Canada. At the time of the Laymen's Congress three and one-half years ago it was estimated that there were 900,000 church members in the Dominion. This has increased in the last three years, so that the total today is undoubtedly very close to 1,100,000, divided as follows:

Anglicans, 188,000; Baptists, 135,000; Congregationalists, 125,000; Friends, 1,000; Lutheran, 100,000; Methodist, 315,000; Presbyterian, 288,000; other bodies (estimated), 10,000. Total, 1,073,150.

The number of places of worship, both self-sustained and assisted, is about as follows: Anglican, 2,500; Baptists, 1,307; Christian, 74; Congregational, 199; Friends, 32; Lutheran, 500; Methodist, 5,600; Presbyterian, 4,422; other organizations (estimated), 250. Total, practically 15,000.

Many Lutherans. The Lutheran Church is fifth among the Protestant bodies of Canada. There are about 500,000 baptized Lutherans in Canada; about one hundred thousand are communicant members of the church and 100,000 are confirmed, but not in Lutheran churches, some of them worshipping with other communions. More than half of the entire population are young people. The Gospel is preached in at least twelve different languages in the Lutheran Churches of Canada, but the young people are learning the English language, and ministers are being secured who can preach in English as well as in some other tongue. There is a theological seminary at Waterloo, Ont., which began about a year ago, and one is being organized in Saskatchewan. A Lutheran home is planned for Montreal to care for the immigrants, there being three Lutheran Churches in that city—one German, one Danish and one English. There are about 5,000 Scandinavians in Montreal and 1,000 Finns in Toronto, according to local papers, and all are Lutheran.

Mr. C. H. Stiver, of Unionville, represents the Lutheran Church on the Canadian Council of the Laymen's Movement.

The recent typhoon in Japan is reported to have been the worst in fifty years. In some respects it was the worst in a thousand years, for it caused the collapse of the noted shrine of Kasuga, erected in Nara, the ancient capital of Japan, probably in the eighth century.

A poster with the words "No hunting or shooting allowed within city limits" lately put up in certain districts of New York City, may some day be of great interest to the antiquarian, as showing conditions of life in that metropolis in the year 1912. The League of American Sportsmen has put up the posters to protect quail and other birds that are still found occasionally in the Bronx.

All Winners in the Great World 1912 Series of Overcoat Creations 1913

A Fact WORTH CONSIDERING.

Every man of our firm, every man in our employ, wears the clothes we show you, for business, Sunday wear and evening togs—because there's none better tailored.

20th Century Brand Tailored Overcoats for the "Tailor" Man

Is a continual source of surprise. It is universally acknowledged without a peer in tailoring on the continent. Overcoats...\$16, \$18, \$20, \$22 and \$25

The Selling of Clothes

Is to us more than just a business. We take just as much pride in fitting a man in a suit of clothes as the greatest artist ever took in painting a masterpiece. And it is because of this that the clothes we sell look better, fit better, are better than most all others, besides there's the price; it's always a little better in your favor.

Evening Dress Suits

Our 20th Century Brand Tailored Evening Dress Suits stand out distinctly in a class by themselves. On the ballroom floor they have that easy gracefulness of hang, yet that perfection of fit that denotes the headwork and the handwork of the expert artist. They are tailored in a department specially devoted to Evening Dress and Frock Suits. "It fits better than my last made-to-order Dress Suit, for which I paid \$65," was the remark of one of our leading citizens as he examined the fit and workmanship in front of a triplicate mirror. All silk-lined. Special \$32 Silk and serge lined...\$25.00 Silk-faced frock coat and vest...\$20

The New Home-spun Rubberized and Waterproof

Absolutely waterproof. The new Raglan effect is now taking the place of the Paramatta. Very special values have arrived, \$9, \$10, \$12.50 and \$14

MELBOURNE FAIR WAS A RECORD BREAKER

Horse Show Was Feature of Fine Exhibition—More Buildings Are Needed.

[Special to The Advertiser.] Melbourne, Oct. 17.—The first annual fair of the Melbourne Agricultural Society held here today was a record-breaker. Every year Melbourne Fair, thanks to a hustling board of directors, improves and it is now easily one of the very best in the country.

Perfect weather today brought out a record crowd, and all were loud in their praise of the exhibits and the general manner in which everything was handled. A fine program of speeding events had been provided by the directors, and the races were keenly enjoyed. Throughout the day the London Pipers' Band gave selections that were greatly enjoyed.

The whole fair was of great interest. Nothing dragged, and everyone present had a good time. The exhibits were so numerous that the buildings failed to hold them all, and the directors already see the need of providing more accommodation.

"We are more than pleased with this year's show," said Secretary Frank McLean to The Advertiser. "Everybody worked hard to make the show a success, and the results are most gratifying. We aim to make Melbourne Fair the very best in the country, and every year it is growing rapidly. We had fully 3,000 people here today."

Some Splendid Horses. The horses were easily the feature of the exhibition. Many of the classes were heavily entered, some having as many as 10 contestants. The breeding of the majority of the animals was also unusually good. Very few poor animals were seen on the grounds. The judges' ring was completely surrounded by the whole afternoon by interested spectators, who keenly watched for the decisions.

In the heavy draught class the following were the winners: Brood mare—J. A. S. McDougall, 2 W. Faulds, 3 Geo. Lee, 2 Stevenson. One-year-old colt—Dan McMillan, 2 Neil McLean, 3 J. Jamieson. Two-year-old—D. McMillan (Dutton), 2 J. B. Watson, 3 W. Lee, 1 and 2. Three-year-old—Geo. Lee, 1 and 2. Four-year-old and upwards—Jas. Stevenson, 2 D. A. Campbell. McDougall's special—W. M. Faulds.

Agricultural. Brood mare—James Stevenson, 2 Wm. Stevenson. Foal—A. D. McGeechey, 2 W. M. Faulds, 3 E. Cawthorpe. One-year-old—D. Hardy, 2 D. McMillan, 3 D. Hardy. Two-year-old—Henry Howe, 2 W. Osman, 3 W. Faulds. Three-year-old—N. McLean, of May Fair.

General Purposes. Brood mare—D. A. McLachlan (Dutton), 2 Geo. Lee (Eckford), 3 Wm. Graham (Mayfair). Foals—Geo. Lee, 2 Henry Mullins, 3 D. A. McLachlan.

The Carriage Horses. Span—1 Alex. Duncan (Dutton), 2 C. Sutton (Scottsville). Brood mare—1 Johnstone Bros. (Melbourne), 2 G. McLean (Melbourne). Foal—Geo. Seaburn (Longwood), 2 G. McLean (Melbourne). G. Geo. Hagarty (Melbourne). Two-year-old—1 John D. McPhail (Dutton). Three-year-old—1 Jamieson (Crinan), 2 G. McLean. Single carriage—1 D. K. McCrae (Strathburn), 2 James Poole (Glencoe), 3 A. McCallum (Walkers).

Roadsters. Mare—1 C. R. Willy (Strathburn), 2 D. McCallum. Foal—1 J. D. Carruthers (Melbourne), 2 C. R. Willy, 3 D. McCallum. Three-year-old—1 J. Cushman (Longwood). Two-year-old—Geo. Fisher (Muncey). Three-year-old—1 D. McIntyre
