R. G. DUN IS DEAD

Noted Mercantile Agency Man Passed Away in New York.

He Leaves an Immense Fortune, but Began as a \$2-a-week Store Clerk.

New York, November 12.—Robert Graham Dun, head of the mercantile agency firm of R. G. Dun & Co., died Saturday of cirrhosis of the liver. Mr. Dun had been in bad health since the middle of August. He was the principal member of the famous mercantile agency bearing his name. He had been connected with the concern since 1851. In 1857 he was admitted to membership in the firm, and in 1859 he purchased the entire interest. Since that time the agency has attained world-wide renown.

Dun was born in Chillicothe, O., in 1826, of Scotch parents, and began life as an errand boy in a country store with a salary of \$2 a week. As a young man he came to New York, and secured employment with the mercantile agency, then conducted by Tappan & Douglass. The business grew so rapidly that in a few years it had established branches in every large city in the country. Dun had acquired a large fortune.

PROTEST UPHELD.

Glencoe Will Have to Play its Last Championship Game

Over Again With Chatham—Match Scheduled for Saturday Next.

"Protest sustained. Chatham and Glencoe to play off in Chatham next Saturday."

Such was the purport of the message that reached this city late Saturday evening, registering the result of the executive meeting of the Peninsular League held in Windsor for the purpose of considering the application of Chatham for a re-opening of the protest to admit new evidence. Chatham was represented by Frank D. Laurie and Harry W. Anderson, and Glencoe by Barrister John E. Elliott and Jas. R. Scott. The Executive Board consisted of President Dr. Hoar, Walkerville; Secretary Wm. McDonald, Detroit; and Representatives Stuart, Windsor; Allison, Essex; Switzer, Detroit; McDonald, Walkerville; Healy, Ridgeway.

The secretary read Mr. Laurie's communication, applying for a re-opening of the protest to consider the standing of Herman White, of Aylmer, who played with Glencoe against Chatham recently.

Mr. Scott, Glencoe, said the whole affair was trumped up with Mr. Elliott, of Brantford, who furnished the information. He had affidavits in his pocket to prove White a bona fide Glencoe player. He opposed the re-opening of the protest. It was out of all order.

Barrister Elliott, Glencoe, said the re-opening was unconstitutional and without precedent. He had legal authority for his statement.

Mr. Laurie, Chatham, made a capital address. He furnished instances in the Toronto, W. E. A. and Peninsular Leagues for precedent in the matter, and humorously claimed that Mr. Scott, with all those affidavits burning in his pockets, should have the opportunity of vindicating himself and his club. Mr. Anderson agreed with Mr. Laurie's remarks.

The vote was then taken and the re-opening carried by a vote of 4 to 2. Mr. Laurie submitted his case. He laid before the meeting the communication of Mr. Elliott, of the Brantford Examiner, the copy of the Aylmer Sun chronicling White's movements on that day, and a telegram from Mr. Monticelli, of the Aylmer Sun, attesting White to be an Aylmer resident.

Messrs. Elliott and Scott said White was a commercial traveller and spent much of his time in Glencoe. The submitted the affidavit of President Govanlock, of the Central League, that White had been admitted there. Mr. Laurie pointed out that attempt had been made to counteract his evidence.

Mr. Scott characterized Chatham as a "dirty town" and its football club and officers as "rotten". He wanted to take the Executive over the "notorious history" of that organization but the president stopped him, saying he would not allow a "rotten" club to be treated with a few satirical courtesies to the Chatham delegates.

Mr. Anderson stated that two years ago Mr. Laurie had been prevailed upon to take the management of the team. He did not wish to throw bouquets, but the League knew Mr. Laurie and the history of the Chatham club since he took control, and this knowledge was the most eloquent and acceptable response to Mr. Scott's insinuations.

Messrs. Stuart, Windsor, and Switzer.

SEAT FOR FOSTER

But He Cannot be Elected Till After Session Opens.

Member Can't Resign After a Speaker is Chosen, Unless Appointed to Some Crown Office.

Ottawa, Nov. 12.—It is generally expected that Mr. Foster will secure a seat in Parliament, but he will not be able to take up his Parliamentary duties until two or three weeks after the session has opened. It is a curious thing that while there is ample provision in the law for the resignation of a member during a session or a prorogation of Parliament, there is absolutely no provision existing in the statute for a member resigning his seat after a general election or before the meeting of Parliament.

A seat becomes vacant, however, by the acceptance by a member of an office of emolument under the Crown.

This was done in two cases during 1878, when Messrs. Horton and Macdougall temporarily accepted such offices in order to provide seats for Messrs. Cartwright and Langevin. Had there been two Ministers defeated instead of two Opposition leaders on Wednesday the Government could have immediately solved the difficulty by appointing two members to postmasterships or tide waiterships, but at this particular time the Liberals are not yearning for the presence of Sir Chas. Tupper or Mr. Foster in the House of Commons, so that it is not likely they will appoint any two members-elect to offices of emolument to make way for them.

Hence it will be necessary for these gentlemen to wait until Parliament is organized and seats found for them. In 1896 the situation was a different one to what it is. Sir Wilfrid Laurier wanted to bring Mr. Blair and Mr. Fielding in the Cabinet, and he immediately got seats for them by appointing Frank Forbes to a postmaster's office and subsequently to a judgeship, which made a vacancy in Queen's-Belburne for Mr. Fielding, and the present Senator King to a postmaster's office to make a seat for Mr. Blair in Sunbury and Queen's.

After a Speaker is chosen the members who desire to make way for the leaders can hand in their resignations, leaving the constituencies open.

THE EXECUTIONS

Produce a Deep Impression on the Natives at Pao-Ting-Fu.

Peking, Nov. 12.—A profound impression was produced upon the natives at Pao-Ting-Fu by the execution there of three officials—Tien-Yang, provincial treasurer; Gen. Wei-Shun-Kong and Col. Kiu—who were condemned by the international court-martial as among those responsible for the massacre there. They were beheaded, and their heads were exposed on poles for a day before burial. It is probable, despite discrepancies, that the foregoing officials are identical with those referred to in a press despatch from Tientsin, Nov. 6, which said Tien-Yang, acting viceroy of Chi-Li; the Tartar general, Gwei-Heng, and Col. Wang-Chau-Mie were shot at Pao-Ting-Fu by order of the court-martial.

BOER LEADERS KILLED.

Gen. Fourie and Commandant Prinsloo Both Reported Dead.

London, Nov. 12.—The British have recaptured Philippolis after four hours' fighting.

Gen. French will take command of the Johannesburg district.

The condition of Miss Roberts, daughter of Lord Roberts, is more serious.

Gen. Baden-Powell, according to the Cape Town correspondent of the Daily Mail, has contracted enteric fever, but his condition is not serious.

Among the Boers who were killed in the recent fighting near Balfast were Gen. Fourie and Commandant Prinsloo.

A PRISONER OF WAR.

Minneapolis Man Has Been on Parole Thirty-five Years.

The civil war was over long ago, but in spite of the friendship between the north and the south the prisoners of war have not been all released.

There still lives in Minneapolis one man who has been on parole for the past 35 years and who is still a prisoner of war as much as when he first reported to the provost at Fort Snelling, many years ago, as far as release is concerned.

Colonel Platt B. Walker, one of the old citizens of Minneapolis, came to this part of the country as a prisoner of war, with orders to report to the provost at Fort Snelling, says the Minneapolis Tribune.

"I was one of the last Confederate officers to give up my sword," says Mr. Walker, speaking of his experience. "When there was that wonderful gathering of armies in the corner of Texas, Louisiana and Arkansas, I was among the troops. We had been driven back step by step from Missouri, and there on that memorable morning the whole army was to elect whether they were to surrender and go home or stay and be driven back until we joined Maximilian in Mexico. It was a wonderful sight to see the separation. On the hills at one side gathered those who were to surrender, on the other those who were off for Mexico. I was among the latter.

"We went along through Texas until about 20 miles from the Rio Grande, when I was overcome from a wound, and I never knew anything for 28 days. "I awoke to find myself in a shanty, where I had been cared for, and there I remained through the winter. I was approached through the kindness of a Captain Glenn and a detachment of Ohio cavalry captured me. I was sent from there in a broken down rattletrap of a stage 30 miles, and finally I went to Rock Island in the prison there and finally to Fort Snelling. I didn't know whether I was to be hung or imprisoned for life, but when I arrived the officer shook me by the hand and turned me loose on parole, and I was issued three rations for eight months. "I stand here of course because I was a prisoner, and I never got any further orders. I gave my parole, and I kept it. That's all there is to it. I am here yet, but I guess they have forgotten all about me and the parole I gave."

How Russia Corners Sugar. Each year the minister of finance fixes the amount of sugar which shall be produced in the empire and sets the price at which it shall be sold. The average domestic consumption is about 1,000,000,000 pounds. This is announced as the legal limit of production which shall be put upon the market during the year. In addition to this it is allowed to manufacture 180,000,000 pounds more, which is placed in storage. The 1,000,000,000 pounds, as it is sold, pays an excise tax of 2½ cents a pound.

If at any time, through increased demand, sugar becomes worth more than the price fixed by the government, the 180,000,000 pounds in reserve is allowed to reach the market free of excise duty. If this does not supply the market at the legal price, the government itself will buy from foreign countries enough sugar to supply the need for a year. This has been done by Russia twice during the past ten years. This system, of course, precludes any export business in sugar, but the Russian government does not believe that the exporting of sugar from Russia can be made profitable or advisable, so it does not encourage it.

What Kansas City (Kan.) Wants. A tannery, shoe factory, bristle brush factory, paper mill, cellulose factory, condensed milk factory and a modern hotel are some of the things that Kansas City, Kan., wants built in that town and for which its people are holding out to the investors of capital the most liberal inducements. The mercantile club has sent 10,000 circulars broadcast over the country calling attention to the needs of the city at the mouth of the Kaw and extending a welcome to the holders of money to come and investigate the inducements that are offered for the investment of capital in her institutions. There are in Kansas City, Kan., many acres of vacant land suitable for factory sites that is nearer the manufacturing center than any other property that is available, and the cheapness of it is the most inviting thing that is held out to the people who are seeking a place to put their money. Within the next four years Kansas City, Kan., hopes to cover these idle acres with a forest of smokestacks and to add more greatness to the greatest city in Kansas.

Two Forms of Tin. Readers who are not familiar with recent work in physical chemistry, says Science, may be interested to learn that many solid substances are now known to have two or more forms or phases. For instance, it has very recently been ascertained that metallic tin may exist, either as a gray crystalline powder or in the well known form under which it possesses both luster and ductility. At a particular temperature both forms may coexist; above that temperature only the ordinary form is stable and below that temperature only the powdery form.

Money Weight. Money is measured by troy weight, in which 24 grains make a pennyweight, 20 pennyweights one ounce and 12 ounces one pound. The silver dollar weighs 412½ grains, and \$1,000, as near as it can be expressed intelligently in print, weighs 71,614 pounds, or a fraction over 71½ pounds. In avoirdupois the same would weigh 58,928 or nearly 59 pounds.

BITTER FEELING

British and French Canadians Fought Over a Flag at New Westminster.

Vancouver, B. C., Nov. 12.—Bitter racial feeling between some French-Canadians and Britishers culminated in a flag incident in the neighboring city of New Westminster, where serious consequences were only averted by the prompt action of the authorities. On the new stone postoffice building in process of construction are employed a number of French-Canadians brought thither for that work from Quebec. They were given a Saturday half-holiday and hoisted the union jack and the French tri-color on the same pole. The British flag was removed surreptitiously and when the French ensign was discovered floating alone over the government building a crowd of Englishmen gathered to pull it down. The French-Canadians defended their flag and a hand-to-hand conflict followed. The authorities stopped the fight by pulling down the offending flag. The occurrence has caused intense feeling between representatives of the two nationalities.

MEET NEXT WEEK.

Shudders At His Past.

"I recall now with horror," says Mail Carrier Burnett Mann, of Levanna, O., "my three years of suffering from kidney trouble. I was hardly ever free from dull aches or acute pains in my back. To stoop or lift mail sacks made me groan. I felt tired, worn out, and about ready to give up when I began to use Electric Bitters, but six bottles completely cured me and made me feel like a new man. They're unrivaled to regulate Stomach, Liver, Kidneys and Bowels. Perfect satisfaction guaranteed by A. I. McCall & Co. Only 50 cents."

BACK FROM ABROAD.

Dr. and Mrs. McKough and Mr. and Mrs. James Scott Gray returned to this city yesterday from Europe. They reached New York on Saturday morning by the Cunard liner Lucania. Dr. McKough appears benefited in health by the trip. He attributes his gaunt appearance to the stormy weather experienced on the return trip. Dr. McKough says that the Paris exposition was a great success from an artistic point of view. The French exhibit is something tremendous. The displays of machinery, agricultural implements, minerals, etc., though were not nearly as extensive as the Chicago World's Fair, but everything in the way of art, such as art paintings, art furniture, china, glassware, etc., was shown and the exhibit was the finest and largest ever seen in Europe. Not many English people, the Doctor says, are attending the exposition. They feel keenly the insults that the press of France have heaped on the British, their country and their Queen. To such an extent do Englishmen resent the action of the French papers, that a gentleman whom the Doctor met at one of the continental hotels refused to eat one of the dishes because it was French. The tickets to the exposition sold at 4 for a franc, or nearly five cents apiece. During the stay of the Chatham party in Paris, the crowds at the fair were enormous owing to some special fetes. The grounds were beautifully illuminated at night by electricity, and even the fountains were made brilliant by artificial lights.

SEVENTEEN TO ONE.

St. John's Nfld., Nov. 12.—The only election return received to-day was from the Fogo district, where Mr. Earle, the Liberal candidate, defeated his Tory opponent, Mr. Cooke, by 392 votes. At the election this district gave a Tory majority of 322. The Fogo district, for 20 consecutive years previous to this election, has returned a Tory candidate. The Bond Government now has seventeen members and the supporters of Mr. Morine one member.

A CHANDELER FELL.

A few minutes after the congregation had departed from the Victoria avenue Methodist church last evening the large chandelier at the front of the church, weighing over a hundred pounds, fell with a crash. Janitor Ed. Myers was just turning out one of the gas jets and succeeded in avoiding the mass of brass as it fell. He, however, received a nasty cut on his right hand, the index finger being nearly severed. Had the chandelier fallen a few minutes before the result is horrible even to contemplate. The chandelier hung right over the pews of ex-Ald. Burrows and D. W. Crow. Both families were present last evening, and had the mass of brass fallen a few minutes before several would have been crushed. Fortunately, the accident happened just after the congregation had left. Several pews were smashed and the chandelier itself badly damaged.

BACK FROM ABROAD.

Dr. and Mrs. McKough and Mr. and Mrs. James Scott Gray returned to this city yesterday from Europe. They reached New York on Saturday morning by the Cunard liner Lucania. Dr. McKough appears benefited in health by the trip. He attributes his gaunt appearance to the stormy weather experienced on the return trip. Dr. McKough says that the Paris exposition was a great success from an artistic point of view. The French exhibit is something tremendous. The displays of machinery, agricultural implements, minerals, etc., though were not nearly as extensive as the Chicago World's Fair, but everything in the way of art, such as art paintings, art furniture, china, glassware, etc., was shown and the exhibit was the finest and largest ever seen in Europe. Not many English people, the Doctor says, are attending the exposition. They feel keenly the insults that the press of France have heaped on the British, their country and their Queen. To such an extent do Englishmen resent the action of the French papers, that a gentleman whom the Doctor met at one of the continental hotels refused to eat one of the dishes because it was French. The tickets to the exposition sold at 4 for a franc, or nearly five cents apiece. During the stay of the Chatham party in Paris, the crowds at the fair were enormous owing to some special fetes. The grounds were beautifully illuminated at night by electricity, and even the fountains were made brilliant by artificial lights.

SEVENTEEN TO ONE.

St. John's Nfld., Nov. 12.—The only election return received to-day was from the Fogo district, where Mr. Earle, the Liberal candidate, defeated his Tory opponent, Mr. Cooke, by 392 votes. At the election this district gave a Tory majority of 322. The Fogo district, for 20 consecutive years previous to this election, has returned a Tory candidate. The Bond Government now has seventeen members and the supporters of Mr. Morine one member.

A CHANDELER FELL.

A few minutes after the congregation had departed from the Victoria avenue Methodist church last evening the large chandelier at the front of the church, weighing over a hundred pounds, fell with a crash. Janitor Ed. Myers was just turning out one of the gas jets and succeeded in avoiding the mass of brass as it fell. He, however, received a nasty cut on his right hand, the index finger being nearly severed. Had the chandelier fallen a few minutes before the result is horrible even to contemplate. The chandelier hung right over the pews of ex-Ald. Burrows and D. W. Crow. Both families were present last evening, and had the mass of brass fallen a few minutes before several would have been crushed. Fortunately, the accident happened just after the congregation had left. Several pews were smashed and the chandelier itself badly damaged.

SHIP WENT DOWN

Terrible Marine Disaster in the Bay of Fundy.

Only Four Persons Saved Out of Thirty-Seven Who Were on Board.

Halifax, N. S., Nov. 12.—The Yarmouth Line steamer Monticello was lost at sea Saturday morning in a terrible gale which blew in the Bay of Fundy. She foundered off Cranberry Head, near Yarmouth. Of the thirty-seven souls aboard, thirty-three are thought to have perished. The Monticello left Westport on her usual trip from St. John to Halifax, via Bay ports. Two life-boats were got away from the sinking vessel. A large metallic boat, full of people, including the passengers and most of the crew, thirty-three all told, and in charge of one of the officers, did not reach shore. The boat must have foundered, as it was not seen again. The saved are Capt. A. N. Smith, of the steamer Phalaris; Stewardess Kate Smith, Quartermaster Elsie Cook, of Yarmouth, and Third Officer James G. Fleming. Among those supposed to be lost are Capt. Harding, A. E. S. Eldridge, crockery merchant, Yarmouth; N. C. Hopkins, chief steward of steamer Yarmouth, and Purser Olive of the steamer Prince Edward. The Monticello had about seven passengers and thirty-one of a crew.

EXPLOSION ON BOARD.

Later despatches regarding the foundering of the steamer Monticello state that on account of the heavy sea the steamer became unmanageable. A small boat was lowered and six occupants left the ship. The others, fearing lest the small boat would be swamped, remained on the steamer. Scarcely had the small boat cleared the steamer when a large wave dashed against and boarded the steamer. Almost immediately a loud report was heard. The boiler had exploded, and the steamer was blown to atoms. The small boat, driven before the wind, reached shore, and was tossed and smashed by the rocks. Thus four out of the original 37 were saved. Elsie Macdonald, a colored girl, and a man named Murphy were seized by the under-tow and washed away. Murphy was killed by being dashed on the beach. Out of those saved four received trifling injuries. The number of passengers is unknown at the present time, but is reported to be seven. About 80 per cent. of lost leave wives and families.

ALL BUT FOUR PERISHED.

The people of Yarmouth were horrified at the news of the foundering of the steamship Monticello while on a voyage from St. John to Yarmouth, with a loss of all on board except four. Capt. Smith, late master of the S.S. Phalaris, was a passenger on the Monticello, and was one of the saved. He was the first man to bring the news to Yarmouth from Pembroke, where he managed to reach the shore. From his account of the disaster the steamship left St. John at 11.15 Friday morning. The wind was blowing hard at the time, but not enough to cause alarm to those on the boat. The storm, however, broke in its fury after the steamship had passed Petite Passage, and it became apparent that the steamship was doomed.

About 11 o'clock Saturday morning, the ship being then about four miles off from Chignogin Point, it was decided to send the women ashore in a boat, notwithstanding the terrific sea, and James E. Fleming, third officer, Wilson Cook, acting quartermaster; Nehemiah Murphy, second officer, and Capt. A. N. Smith, volunteered to take them ashore. The women aboard were three in number, as follows: Elsie Macdonald, about 19 years of age, daughter of Alexander Macdonald, tailor, of Yarmouth; Kate Smith, of Yarmouth, stewardess, and a colored girl (name at present unknown). These were got into the lifeboat with great difficulty, and the volunteers got into the boat and got away from the steamship. The wind was blowing on shore and carried them rapidly towards land. When this boat had gone away Capt. Smith says they were preparing to launch another boat from the steamship, but five minutes after the first boat left the steamship was seen to turn over and then sink. Capt. Smith does not think it possible that the other boat got away, and it is not probable that, as no sign of it has been seen. The first boat was driven rapidly ashore near Pembroke, and on nearing land a gigantic wave caught the boat and threw her upon the beach, smashing her to atoms. Capt. Smith felt himself going down.

Wreckage of all kinds litters the shore. Boxes, barrels, pieces of ship's boats and parts of the superstructure of the steamer.

through the air, and then struck something and instinctively grasped it, and, after the undertow receded, found he had been thrown far upon the beach. He managed to get to his feet and ashore and came to Yarmouth where he arrived about 3.30 p. m. Of the other occupants of the lifeboat only three escaped, viz.: Stewardess Kate Smith, Third Officer Fleming and Wilson Cook. Miss Macdonald and Second Officer Murphy were carried out by the sea again and drowned.

25 BODIES RECOVERED.

Yarmouth, N. S., Nov. 11.—The shore of this county for 10 miles east and west is strewn with the wreckage of the hull and cargo of the steamer City of Monticello, which foundered Saturday morning, and 25 bodies of victims of the disaster have been recovered from the sea, which is still raging with terrific fury. Many people have assembled at Rockville, near Yarmouth, where the first boat ashore, and numerous relatives of members of the crew, who nearly all belonged to points on this coast, have arrived to identify the dead.

KILLED BY THE SURF.

The bodies were arranged in a room in the public hall and Coroner Fuller, who held an inquest, gave an opinion of accidental drowning. All the bodies are terribly battered. The first body was found at daylight, when the zinc lifeboat, which was supposed by the survivors of the first boat to have been swamped, was discovered on shore. The three pins had been broken. A few yards distant were the bodies of Mr. Eldridge, a passenger; Second Engineer Pegg, Mr. Frisip, a traveller for McGe's Sons, of St. John, N. B., and the body of a seaman. All four had life belts around them. At short intervals along the beach, 11 more bodies were found. They had all evidently come ashore in the lifeboat, and were killed on striking the beach, not one escaping.

It is a coincidence that the ship Peter Stewart was wrecked off this shore a few years ago in the month of July and a boat load of men came in where the Monticello's boat was found. Half of the men were dead before they touched the land and many believe the same was true of those in the Monticello's boat. The body of O. N. Coleman, another commercial traveller, who was not previously known to have been on board the Monticello, has been washed ashore, and identified. He represented Levi Bros. & Co., jewelers, Hamilton, Ont., and carried samples in trunks worth \$6,000. One trunk has been found.

Wreckage of all kinds litters the shore. Boxes, barrels, pieces of ship's boats and parts of the superstructure of the steamer.

ALL ITALY DEFIED

By a Brigand Who Killed the Witnesses Who Appeared Against Him.

Rome, Nov. 12.—In all the annals of brigandage it would be hard to find a parallel to the notorious bandit Musolino.

He not only escaped from prison, but since then he has killed off all witnesses who appeared against him in his trial.

He is still in the Calabrian Mountains, although a reward of \$7,000 has been offered for his capture, dead or alive, and 800 regulars and 150 gendarmes are scouring the country for him.

Under Secretary of State Roumain has gone to personally direct the operations against Musolino.

Nothing daunted, Musolino has written to Prefect of Reggio di Calabria declaring his intention to kill that functionary unless he releases Musolino's sister Anna, who was arrested on suspicion of acting as a spy for her brother.

Fought For His Life.

"My father and sister both died of Consumption," writes J. T. Weather-wood, of Wyandotte, Mich., "and I was saved from the same frightful fate only by Dr. King's New Discovery. An attack of Pneumonia left an obstinate cough and very severe lung trouble, which an excellent doctor could not help, but a few months' use of this wonderful medicine made me as well as ever and I gained much in weight." Infalible for Coughs, Colds and all Throat and Lung trouble. Trial bottles free. Guaranteed bottles 50c. and \$1 at A. I. McCall & Co.'s Drug Store.

WITH MUCH REGRET

Sir Charles Tupper's Retirement is Viewed in England.

London, Nov. 12.—The news of Sir Charles Tupper's retirement from politics was received with widespread regret here. It is not forgotten how strong a lead he gave imperialism in Canada and England before it gained its present general acceptance. It would be felt most fitting were public and official recognition made of such services. As regards the election result it is accepted complacently. The Times suggests that Sir Wilfrid Laurier owes his victory to his personal hold in Quebec, in the absence of any political question of first importance to divert the electorate. On the other hand, Mr. Bond's return to power in Newfoundland and the possible "partial repudiation" of the Reid contract, has a disquieting effect in circles concerned in Newfoundland's credit.

HE MADE MILLIONS

John D. Rockefeller Cleaned Up \$15,000,000 on After-Election Stock Boom.

His Fortune is Leaping Forward at a Steep and Alarming Rate.

New York, Nov. 12.—John D. Rockefeller made enough money in two days after election to pay all the election expenses of the republican and democratic national campaign committees and have a very large margin. The boom which struck Wall street as the result of McKim's election favored all the Rockefeller stocks in a large degree. The most others and without raising a hand or even thinking about the result Rockefeller made at least \$10,000,000, according to the estimate of some people, while others who are familiar with his vast holdings fix the amount at \$15,000,000.

Everything Rockefeller owns is worth more than before election, with the possible exception of Amalgamated Copper, which on Wednesday went up three points and on Thursday dropped the same amount, which left him at least without a loss.

The greatest increase was in Consolidated Gas, Standard Oil and Federal Steel. Rockefeller owns about 50 per cent. on the gas stock, a dominating interest in Federal Steel and 31 per cent. of the Standard Oil, and from these three stocks alone the alarm-joint fortune of Rockefeller was increased about \$7,000,000.

This is what he gained without considering what came to him in dividends. Rockefeller is particularly about having his money invested in stocks and bonds which pay large dividends. The last dividend declared this week on the Standard Oil Co., of 10 per cent., makes a total of 48 per cent. which it has paid to the stockholders since Jan. 1, 1899. The total dividends declared by this company upon the capital stock of \$10,000,000 for the year was \$45,000,000, and of this sum Rockefeller received a check \$14,880,000.

BRAVE SOLDIERS

Roberts Says Canadians Proved Themselves Such in Late Fighting.

Col. Lessard did Brilliant Work Against Boers With Colonial Dragoons.

London, November 12.—From Johannesburg, under date of Nov. 8, Roberts reports: Gen. Knox states that he takes no credit for the very successful engagement of Nov. 6, which was due in the first instance to the determination of Le Gallia never to lose touch with the enemy, and, secondly, to the gallant way in which De la Rive handled the firing line after Le Gallia and Ross were wounded.

Smith-Dorrien reports that the two days' fighting consisted of 250 mounted troops from the Fifth Lancers, the Royal Canadian Dragoons and mounted rifles, two Royal Canadian artillery batteries, four guns of the Eighty-fourth gunners and 900 infantry of the Suffolks and Shropshires.

The Boers were met soon after starting from Belfast, and, having the front, flank and rear, until the Komati river was reached, where they stood at a very strong position and from there they were forced to retire by a wide turning movement by the Suffolks and the Canadian mounted troops around their flank. All the first day Boer signal fires were lighted in all directions, and before morning they were strongly reinforced.

Our casualties the first day were 6 killed and 20 wounded, chiefly of the Shropshires, who fought splendidly. The next day the Boers tried to seize the strong position on the bank of the Komati, from which they were beaten out on Nov. 6, but were prevented by Col. Evans, with the Canadian mounted troops and two of the Eighty-fourth guns, galloping two miles and seizing it in the nick of time. The rest of the general march was a wide turning movement by the Canadian Dragoons and two Royal Canadian guns under Lieut. Morrison.

Smith-Dorrien says no praise can be too high for the devoted gallantry of the enemy, who treated them kindly and released them after removing their own dead and wounded, during which operation the Canadians that they might not see how heavily the Boers had suffered. Our casualties were 2 killed and 12 wounded.

TOWN HALL, DOVER.

Farmers are busy threshing their beans. The yield in this vicinity is a very good one. The pupils of our school expect to give a concert in a short time in aid of the school library fund.

The funeral of the late Mrs. Hart was largely attended showing in a marked degree the esteem and sympathy of the community.

Local Liberals are jubilant and local Tories are correspondingly in the dumps. The latter have but one consolation in their own excellent work at the town hall.

NORTH BRUCE STILL CONSERVATIVE

Tara, Nov. 12.—At the summing up of the votes here Saturday the returning officer for North Bruce, A. McNeill, Con., was declared elected by three. It is understood to be the intention of J. E. Campbell, the Liberal candidate, to ask for a recount.

WILL IT BECOME POPULAR.

How Do You Like This New Fad?

Vegetarians, anti-coffee drinkers and food cranks of every description must now take a back seat, for a new fad has the floor. A society has recently been formed, the members of which pledge themselves to eat no food whatever that has been cooked. They claim that uncooked food is the only rational healthful diet; that our remote ancestors ate no cooked food and therefore if we do the same vigor and health will be our reward.

Raw meat, raw potatoes, raw wheat, raw eggs, raw everything, is the enticing bill of fare held out to the theosophic food crank of the future and the society proposes to establish restaurants in the larger cities, where this delightful menu may be served daily. Modern cooking and diet a dyspepsia producer, because we fry so many foods which should be baked, roasted, broiled, or boiled; fried food is indigestible because each particle of food is increased in heat, grease which the digestive juices of the stomach cannot easily penetrate; but properly cooked food is more easily digested than the same food uncooked, and we predict for the new food a very limited following.

The real cause of indigestion is the lack of hydrochloric acid and pepsin in the stomach, so that no matter how well cooked the food, it can not be well digested unless the gastric juice is abundant and contains the necessary amount of pepsin to dissolve the food. Therefore the most sensible cure for poor digestion is to take after each meal some safe and reliable digestive like Stuart's Dyspepsia Tablets, which supply pepsin to digest the meat and eggs and diastase to digest the bread, potatoes, and similar starchy foods.

Laxative medicines never cure indigestion, because they have no digestive effect whatever upon the food; on the other hand, if the food is properly digested there will be no need of laxatives; good digestion does away with constipation.

Stuart's Dyspepsia Tablets contain pure aseptic pepsin (government test) diastase and the digestive elements which weak stomachs lack and they cure indigestion by assisting the overworked, rundown stomach in its hard work, until it is restored to its normal condition, when the tablets are no longer needed, but there are the cure about men and women who never eat a meal without taking one or two of Stuart's Tablets, because by so doing they can eat what they please and be free from any bad after effects. Stuart's Dyspepsia Tablets are sold by everywhere in the United States, Canada and Great Britain.

MAY LIVE IN WINNIPEG.

Winnipeg, Man., Nov. 12.—An afternoon paper says it is understood that Sir Charles Tupper will take up permanent residence in Winnipeg with his son, Mr. Stewart Tupper, at Ravenscourt, Armstrong Point. Sir Charles is expected to arrive from the east to-day.

AT THE THEATRE.

Owing to a couple of cancellations the Grand is dark this week.

"The Girl from Calcutta," which comes to the Grand on the 24th is one of the new staged productions of the season and is said to be a very handsome one.

Mr. Shney of "The Fadettes" who played at the Grand on Saturday night said that the Slayton Jubilee Singers, another feature of Mr. Cairns' Lyceum Course, are the best organization of jubilee singers that he has ever seen in Chatham last season conducting the tour of Madame Scotch.

On Saturday evening, the Fadettes, a ladies' orchestra of real wonderful ability, opened the concert course secured by Manager Cairns for the Grand Opera House this season. The work of these talented lady musicians was a success and city musicians and note say that the music they made was the sweetest and best of its kind ever heard in Chatham. Every member of the orchestra is an artist and is a first class musician. Miss Lynn, prima donna soprano, is a soloist of exceptional ability and her renditions were much admired. Miss Webb, who won the plaudits of the house by her violin solos, is a musician of splendid talent and ability. Miss Webb's home is in Portland, Maine, and Henry McCaw, the clever violin soloist of the city, has often played duets with her in her native city. A pleasing feature of the program was the rendition by the orchestra of the "Soldiers of the Queen." It took spontaneously with the audience.

"The Chinese Problem," at the Park St. Church, to-night! Admission 10c. Come.

Tisbury Times.—The municipal situation in Tisbury is beginning to warm up, with the probability of Reeve Ross running for the county council. In that event, Councilors Fletcher and Campbell both informed The Times here on Tuesday that they would in all likelihood run for the re-election. This would leave two vacancies in the council, and there would no doubt be a host of candidates for the vacancies, the latest names mentioned being Alex. Ritchie, of Quinn, and Asenior Counts—both good men.

A resident of Dover met with a nasty accident on the River Road just above the county house of industry on Thursday night. He was driving home when his rig collided with another and upset, throwing the Dover farmer into the river. Spectators of the accident succeeded in extricating him from his perilous position none the worse for

the accident barring the wedding.

AN ELEMENT OF DOUBT.

The Rev. Dr. Daniels, of Sarnia, preached two eloquent sermons in the Park street Methodist church, on Sunday. In the evening he took as his subject "Belief in God." Dr. Daniels paid some attention to the element of doubt that has appeared. He said that the spiritual life of every young person was assailed by the submerged meanings in the literature, books and publications of the present day. The danger was insignificant in form and size, but of sufficient power to shadow the best soul God ever gave existence to. A little doubt was creeping gradually into the minds of some theologists—just a little doubt as to whether they should call the hope of a future life an inspired hope or not. It was a little doubt, but strong enough to wreck a life. The music by the choir, under the leadership of Miss Eda Idle, was instrumental in adding impressive beauty to both the morning and evening services. The presence of Mrs. Anderson, formerly leader of the choir, was a source of pleasure to the many friends she made among the members of the congregation and her two songs were exquisite. In the evening Mrs. Anderson sang, "The Birthday of the King" with all her former sweetness of voice and richness of tone and color. Two excellent anthems were rendered by the choir, "It came upon the midnight clear," by Sullivan, and "Crossing the Bar."
