His Excellency the Governor General was then pleased to open the Session by a gracious speech to both Houses :--

Honorable Gentlemen of the Senate :

Gentlemen of the House of Commons :

In again summoning you for the despatch of business, I am glad to be able to say that nothing beyond the ordinary business of the country requires your attendance.

It afforded me great pleasure to have had an opportunity, before my departure from *Canada*, of visiting the Province of *Manitoba* and a portion of the outside Territories, which visit I accomplished during last Autumn. I have now had the advantage of visiting every Province in the Dominion during the term of my government of *Canada*.

I am happy to be able to say that the arbitration on the Fishery claims, under the terms of the *Washington* Treaty, has been concluded. An award has been made by the Commission of \$5,500,000 as compensation to *Canada* and *Newfoundland* for the use of their Fisheries during the term of the present Treaty. This amount is much less than that claimed by my Government, but having assented to the creation of the tribunal for the determination of their value, we are bound loyally to assent to the decision given. The exhibition of Canadian manufactures and products at Sydney, New South Wales, was successfully carried out. I trust that the result will be the opening jup of a new market for Canadian goods even in so remote a region as the Australasian colonies, shipments of Canadian productions having already been made. The expenditure will slightly exceed the estimate, but I doubt not the cost to Canada will be amply repaid by the extension of her trade.

Preparations have been uninterruptedly carried on, during the last six months, for securing an ample but select exhibition of *Canada's* products and manufactures at the great exhibition to be held at *Paris* during the current year. A further estimate will be required to meet the expenditure. His Royal Highness the Prince of Wales, as Chairman of the British Commissioners, has assigned a most prominent place to *Canada* in one of the main Towers, where a Canadian Trophy is now being erected.

A very disastrous fire occurred in June last, in the City of *St. John*, which caused the destruction of a large portion of the City, including all the public buildings owned by the Dominion Government. My Government deemed it necessary to contribute \$20,000 to assist in relieving the immediate wants of the people who were rendered destitute by so appalling a calamity. I also sanctioned the appropriation of some public money, with which to commence the erection 'of new buildings for the public business, which acts you will be asked to confirm in the usual way.

During last summer my Commissioners made another Treaty with the Blackfeet, Blood and Piegan Indians, by which the Indian title is extinguished over a territory of 51,000 square miles west of Treaty No. 4, and south of Treaty No. 6. The Treaty has been made on terms nearly the same as those under Treaty No. 6, though somewhat less onerous. The entire territory west of Lake Superior to the Rocky Mountains, and from the boundary nearly to the 55th degree of North latitude, embracing about 450,000 square miles, has now been acquired by peaceful negociation with the native tribes, who place implicit faith in the honour and justice of the British Crown.

Early in the past summer a large body of Indians, under Sitting Bull, from the United States, crossed into British territory, to escape from the United States troops, and have since remained on the Canadian side.

The United States Government made a friendly but unsuccessful attempt to induce these Indians to return to their reservations. It is to be hoped that such arrangements may yet be made as may lead to their permanent and peaceful settlement, and thus relieve Canada of a source of uneasiness and a heavy expenditure.

The surveys of the *Pacific* Railway have been pressed to completion during the past season. A complete instrumental survey of the route, by the valleys of the *North Thompson* and *Lower Fraser* Rivers, has been made with a view to ascertain definitely, whether that route presents more favourable features than the routes already surveyed to *Dean Inlet* and *Bute Inlet* respectively. It is believed that the additional information now obtained will enable my Government to determine which route is the most advantageous from *Tete Jaune Cache* to the sea. Full information will be laid before you at an early day, of the season's work in this and other directions.

I am happy to be able to congratulate you on the abundant harvest reaped in all quarters of the Dominion; and I rejoice that under this and other influences there has been some improvement in the Revenue returns, thus indicating, I trust, that the commercial depression that has so long afflicted *Canada*, in common with other countries, is passing away.

My attention has been called to some imperfections in the existing system of auditing the Public Accounts, and a measure providing for their more thorough and effective supervision will be submitted for your consideration.

The prospect of obtaining, at an early day, greater facilities for reaching the North Western Territories and the Province of Manitoba, is sure to attract a larger number of settlers every year, and as much of the prosperity of the Dominion depends on the rapid settlement of the fertile lands in these Territories, it is desirable and necessary to facilitato such settlement as much as possible. In order to effect this, measures will be submitted for your consideration concerning the registration of titles, the enactment of a Homestead Law, and the promotion of Railway enterprise in districts not touched by the Canada Pacific Railway.

Your attention will be called to a measure for better securing the independence of Parliament.

Experience has shown that certain changes may advantageously be made in the departmental arrangements existing at present. A bill will be submitted to you for accomplishing this purpose without increasing the expenditure, or the number of Departments.

It is very desirable that there should be uniform legislation in all the Provinces respecting the traffic in spirituous liquors. Hitherto that trade has been regulated by Provincial laws, or laws existing before the Confederation of the Provinces, although there has been lately a conflict of authority as to the jurisdiction of the local authorities. A bill making the necessary provision will be submitted for your consideration.

Various measures found necessary for the amendment of existing laws will also be submitted for your approval.

Gentlemen of the House of Commons :

The Estimates for the ensuing year will be laid before you at an early day They have been prepared with an anxious desire to provide for all the branches of the public service and the execution of pressing public works within the limits of the expected revenue, without increasing the burden of taxation.

I have directed that the Public Accounts of the past financial year shall be laid before you.

His Excellency the Governor General was pleased to retire, and the House of Commons withdrew.

The Honorable Mr. Scott presented to the House a Bill, intituled: "An Act relating to Railways."

The said Bill was read for the first time.

The Honorable the Speaker reported His Excellency's speech from the Throne, and the same was then read by the Clerk.

On motion of the Honorable Mr. Scott, seconded by the Honorable Mr. Pelletier, it was

Ordered, That the House to take into consideration the speech of His Excellency the Governor General on Monday next.

On motion of the Honorable Mr. Scott, seconded by the Honorable Mr. Pelletier, it was

Ordered, That all Members present during this Session be appointed a Committee to consider the Orders and Customs of this House and Privileges of Parliament, and that the said Committee have leave to meet in this House when and as often as they please.

The following Petitions were brought up, and laid on the Table :---

By the Honorable Mr. Campbell, -Of the Merchants Bank of Canada.

By the Honorable Mr. Miller, -- Of Frederick W. Fishwick and athem, of the Oity and County of Halifax, in the Province of Nova Scotia. The Honorable the Speaker presented to the House a Return of the Baptisms, Marriages and Burials in the District of *Rimouski* for the year 1876. Ordered, That the same do lie on the Table, and it is as follows :---

(Vide Sessional Papers, No. 13.)

The Honorable the Speaker presented to the House the Report of the Librarian on the state of the Library.

The same was then read by the Clerk, as follows:---

TO THE HONOBABLE THE SENATE OF CANADA, IN PARLIAMENT ASSEMBLED.

The Report of the Librarian of Parliament respectfully sheweth,-

That during the past year continued efforts have been made to render the Law division of the Library complete in all its branches; especially in view of the requirements of the Supreme Court, now in active operation, as well as for the use and behoof of members of the Legislature. Large purchases have been made since last Session in French jurisprudence; and comparatively little now remains to be done to place this important section of the Library upon a proper footing.

place this important section of the Library apon a proper footing. In order to facilitate reference to the Law Books, and to exhibit the full extent of this vaniable collection, a Classified Catalogue thereof has been prepared, with an Alphabetical Index of authors and subjects. This is now in the press, and will be ready for distribution in a few days.

This work will be followed, as soon as possible, by the issue of a similar Catalogue of the Books on Political and Social Science, and Political Economy, which, together with the Law Books, will embrace all the works in more immediate demand by these who are engaged in the business of legislation.

Considerable additions have likewise been made to all other sections of the Library; particularly in the French department. Some dissatisfaction was expressed last Session by French Canadian Members at the serious deficiencies which were apparent in this portion of the Library. Accordingly, strenuous efforts have been made to remedy this defect; and a larger sum of money has been expended for French Books during the past year than has been customary of late, but not so as to exceed, in the aggregate, the limit of one-third of the Parliamentary grant for the purchase of Books for the two past years, which amount has been approved by the Joint Library Committee as a suitable and necessary proportion of expenditure for French Books.

A Supplementary Catalogue of the additions of the Library within the year has been printed, but this does not include the numerous works on Law and Legislation, which are entered in the Classified Law Catalogue above mentioned.

The usual Lists of Works deposited under the Copyright Act, and of Donations received within the year, are hereunto appended.

Amongst these Donations there are some which are deserving of a special mention.

(1.) The original Photographic Picture of the Fancy Dress Ball that took place at Government House in February, 1876, which has been generously presented to the Library by His Excellency the Governor General. This is a beautiful memento of a memorable event in Canadian social life, and an historical record of permanent interest, not only of the individuals who took part therein, but of the characters they severally assumed.

In making this costly and beautiful gift, Lord Dufferin has expressed a hope that it may "prove the precursor of many another artistic donation to the Art "Treasures of the Dominion, and a first step towards the establishment of a "National Portrait Gallery." Your Librarian would venture to re-echo this desire, and to solicit, on behalf of all students and lovers of the Fine Arts in Canada, the judicious liberality of Parliament to aid in cultivating a sound and enlightened taste, throughout the Dominion, in this particular. A small annual grant, to be expended in the purchase of choice productions by native artists, would be a much appreciated boon, and a stimultie to native talent in this diffection.

(2.) Through the good offices of Mr. *Edward Allen*, our *London* agent, the Library has become the fortunate possessor of one of a limited number of issues of a great literary ouricelty, namely, a copy of the Holy Bible, printed from type previously set up, bound and forwarded from *Oxford* to *London*, in the space of twelve consecutive hours. This wonderful ichievement was performed in commemoration of the 400th anniversary of the introduction of printing into *England* by *William Caxton*, and it is a striking memorial of the triumph and consummation of the arts of printing and hinding since that epoch.

Carton, and it is a striking memorial of the trumph and consummation of the arcs of printing and hinding since that epoch. (3.) Another literary treasure of much intrinsic value, recently presented to the Library, is a copy of the annotated Catalogue of all the works printed in relation to America, between the years 1482 and 1601, and which are to be found in the private Library of the late John Carter Brown, of Providence, R.I. This catalogue of a most precious and unique collection, was printed for private circulation only, in the most sumptuous style, and is enriched by bibliographical notes from the pen of the Hou. John Russell Barlett, an accomplished American scholar, and with fac similes of original title page of some of the rareat books on America. This catalogue is so highly prized by collectors, that a copy of it has been known to fetch \$325 at a Book auction. The Library is indebted to the widow of Mr. John Carter Brown for this interesting volume.

interesting volume. In the last Report, the number of volumes then in the Library was estimated at 83,883. About 4,958 volumes have been added within the year, making a total of 88,871.

All which is respectfully submitted.

ALPHEUS TODD,

Librarian of Parliament.

PRAYERS :

The following Petition was brought up and laid on the Table :---

By the Honorable Mr. Bureau,—Of the Reverend W. Seers, and others, of St. Jean Chrysostôme, in the Province of Quebec.

The Order of the Day being read for consideration the of the Bill intituled : "An "Act to incorporate The Regular Baptist Foreign Missionary Society of Ontario and "Quebec," as proposed to be amended by the Committee on Standing Orders and Private Bills, and

The said amendments being again read by the Clerk,

The Honorable Mr. *McMaster* moved, seconded by the Honorable Mr. *Penny*, That the said amendments be agreed to.

Which being objected to,

The Honorable Mr. Bellerose moved, seconded by the Honorable Mr. Trudel,

That the question be not now put on the said motion, but that the said Bill as proposed to be amended, be referred to the Judges of the Supreme Court for their opinion, whether it is not a measure which falls within the class of subjects assigned exclusively to Provincial Legislatures under section 92, sub-section 11 of the "British "North America Act, 1867," and section 93 of the said Act.

Which being objected to, and

His Honor the Speaker being called upon to decide the question, stated,—That by the 55th Rule, the Senate had reserved the right to submit any Bill to the Judges of the Supreme Court for their examination and report, as to any point in connection with such Bill, expressed in the order of reference, and that the rule was not imperative, but that in all cases the reference must be made before the second reading of the Bill. Therefore the motion was out of order, and the question could not be put.

And the question being put.

That the said amendments be agreed to, and the same being objected to,

The question of concurrence was put thereon, and it was, on a division, resolved in the affirmative.

Then, on motion of the Honorable Mr. McMaster, seconded by the Honorable, Mr. Wilmot, it was

Ordered, That the said Bill be read a third time presently.

The said Bill was then read a third time accordingly.

The question was put whether this Bill shall pass?

The Honorable Mr. Penny moved, seconded by the Honorable Mr. Burcau,

That the said Order be discharged, and that the Bill be read a second time on Friday next.

# GOVERNMENT HOUSE,

OTTAWA, 26th March, 1878.

(Translation.)

#### GOVERNMENT HOUSE,

# QUEBRC, 19th March, 1878.

MY LORD,—The annoxed explanatory case which I to day address to Your Excellency, will have, I am persuaded, the effect of demonstrating that I have always acted towards Mr. *DeBoucherville* and his colleagues with good will, and with the desire of affording them my co-operation during their tenure of office.

What might have tended to produce regrettable conflicts between myself and my Cabinet was almost invariably obviated by my friendly desire to ovorlook the irregularities which I have noted in the present statement of facts.

I hope, My Lord, that the difficult position which I have been compelled to occupy, will be justified, not only because it is constitutional, but because the conduct of my Cabinet endangered both the prerogatives of the Crown, and the most serious interests of the people of this Province.

I have the honor to be, My Lord,

Your most obedient servant,

L. LETELLIER,

Lieutenant-Governor.

To His Excellency, The Right Hon.

The Earl of Dufferin, K.P., K.C.B., G.C.M.G.,

Governor-General of Canada,

Ottawa.

(Translation.)

GOVERNMENT HOUSE, QUEBEC, 19th March, 1878.

#### To the Right Honorable The Earl of Dufferin, K.P., K.C.B., G.C.M.G., Governor-General of Canada, Ottawa.

My LORD.—I have the honor to submit to-day for Your Lordship's consideration documents and details which I could not lay before the public, but which would have made it more clearly understood that the dismissal of the *DeBoucherville* Cabinet was forced upon me by circumstances.

These details are not to be found in the communications which I had authorized M. DeBoucherville to place before the House and are herewith annexed.

From the day that I was, by Your Excellency, elevated to the position I occupy at present, all the private relations which I have had with the members of my Cabinet down to its dismissal from office have been, I must admit, generally of an agreeable nature; but in those of an official character with the Premier I was almost invariably impressed with the feeling that I did not enjoy that entire confidence on his part which is the chief element of a cordial understanding between the Representative of the Crown and his advisers.

After having studied the general state of the affairs of our Province, after having become convinced that legislative and administrative changes were becoming more and more necessary, I decided upon using, with moderation and with the greatest possible discretion, the influence attached to my position in order to obtain the realization of that which I deemed to be of the greatest advantage to the Province.

I regret to state to Your Excellency that, although M. DeBoucherville did on most occasions, take my counsels in good part and that he generally approved of them, he, nevertheless, almost always acted as though he had never heard them.

1st. During the Session of 1876, a Bill had passed its third reading in one of the two branches of the Legislature, but its second, only, in the other.

This Bill, bearing all the Certificates which were necessary to induce me to believe that it had been regularly passed and adopted, was submitted to me by the Premier in order to receive my sanction.

In consequence of the ignorance of these facts in which I was left by my advisers, I granted my sanction to this Bill.

Not long afterwards I was informed of this irregularity, and I immediately spoke of it to the Premier. I made the observation that an Act of such a nature as this might entail consequences too serious to permit of its being forgotten.

At his request, I passed over, without comment, this instance of irregular legislation.

2nd. During the same Session, another Bill, introduced by the Government, was submitted to me for my sanction.

On examining it, I perceived a blank which had not been filled up, and having noticed this omission, I addressed the following letter to the Premier:—

## "QUEBEC, 27th December, 1876.

#### " (Personal.)

"MY DEAR PREMIER,—A Bill E, which originated in the Council, was passed by the Legislative Assembly without amendment; upon reading it, before adding my certificate of approval, I discovered that a blank had not been filled up in the Seventh Line of the Sixth Section.

"You followed the usual practice in not establishing the amount of the penalty in the Legislative Council; but the matter passed unperceived in the other branch of

the Legislature, in which the officers, through some mistake, omitted to insert the amount fixed by the House, or it may have been an error in the proof sheets.

"While on the subject of these mistakes, you will find another in the second section of the same Act, wherein the word "amender" is in the infinitive mood. I notice this latter inaccuracy, to which I do not attach much importance, only because I had to direct your attention to what I consider to be a fatal omission in another Act.

> "Yours very truly, (Signed), "L. LEFELLIER."

The Premier came to me and said that he regretted this omission; he requested me to give my sanction to the Bill in the state in which it was. The conciliatory spirit which I showed in granting my consent seemed to please him.

3rd. In March, 1877 (*Vide* Appendix A), my advisers caused me to make a nomination of a municipal councillor for the southern quarter of the village of *Mont*magny, under the pretext that there had been no election, or that if such election had taken place, it was illegal.

The whole of the circumstances connected with this case, I deem it my duty to explain to Your Excellency, on account of the important principle involved therein.

After due personal examination of the petitions and other accompanying documents, I called on the Premier, at his own office, to beg of him not to hasten the nomination which I was asked to make of a municipal councillor for that locality before he should have been more fully informed thereon.

I made the observation to him that it appeared that a municipal election had taken place, and, that if such were the case, I maintained the principle that the Executive should not interfere in the matter.

I added that, from the moment that an election, whether legal or even illegal, had taken place, it belonged to the Courts of Justice to adjudicate thereon, according to the ordinary course of law, of which they are the interpreters.

I then intimated to Mr. DeBoucherville that I maintained the principle that all matters cognizable by the Judiciary should be invariably left to the Courts of Justice, which, from their organization, are better fitted than the Executive to inquire into matters of fact and of evidence, and that I would never allow the substitution of the powers of the Executive for those of the Courts, when the latter had jurisdiction.

The Premier admitted that this opinion, and the principles on which I based it, were in conformity with his ideas, and necessary for the good administration of justice. He asked me if I would consent to see Mr. Angers, the Attorney-General, on the subject.

I at once consented, and the Attorney-General was immediately sent for; the facts connected with this election difficulty, and my views regarding them were then communicated to him. He promised that before any nomination should be made by the Lieutenant-Governor he would make inquiries

Shortly afterwards he reported to me that he had made an inquiry into the facts of the case, and, at his suggestion, I appointed Mr. Jules Belanger to be Councillor. In the beginning of March, 1877, difficulties and quarrels arose at Montmagny out

of this election.

After this nomination, these disturbances broke forth in the very midst of the Municipal Council, from which was violently ejected the Councillor whom they had thus caused me to appoint. This appointment they had recommended me to make, notwithstanding the facts than an election had taken place, that it had been made and Presided over by the Mayor, that Mr. Eugene Fournier had been reported as having been unanimously elected, that he had been sworn in according to law, and that at the very time when the nomination of Mr. Jules Belanger was recommended to me the person thus elected had *de facto* taken his soat, had been sworn and had sat at the Council Board, as is tostified by the minutes of the Council.

When I afterwards learned these facts I recommended them to the Premier, whom I called on to prepare the revocation of the appointment which they had caused

me to make, contrary to the principles which I have enunciated above, and the justice of which he had himself admitted.

The Premier answered that this matter was of a very delicate nature, as such a proceeding would be contrary to the recommendation of Mr. Angers, his Attorney-General; he closed by saying that he would have a report prepared on this subject.

This report I received several days later. After having read it, I again intimated to Mr. De Boucherville that in the interests of peace, and in conformity with the principles above mentioned, that "Executive should not be substituted for Judicial power in matters within the province of the latter," I insisted upon the revocation being made.

After having waited several days for an answer, and not having received any, I addressed a letter to the Premier, of which the following is a copy :---

(Personal and confidential.)

#### "QUEBEC, 14th March, 1878.

"My DEAR DEBoucherville,---I have not received any answer on the subject of the nomination of a Councillor at Mantmagny.

"Those who have deceived the Government in order to induce me to perform an Executive act at variance with a matter which they were then aware appertained to the Judicial domain, do not, in my opinion, deserve to be treated with a degree of consideration which can only be injurious to the Government and myself.

"The remedy is very simple,-rescind the appointment, allow the parties interested to discuss their differences before the Courts.

"Yours very truly, "L. LETELLIER." (Signed)

If, My Lord, I insist upon the latter point, it is to demonstrate to Your Excellency that the Prime Minister was perfectly aware of my views at that time, and should not, in consequence, have introduced during the last Session of our Legislature any legislative measure or performed any legislative Act, tending to substitute executive for judicial power, without advising me on the subject.

It was easy for the Premier to understand, from my remarks and the frequent conversations which I had with him, that I could never consent to despoil the subjects of Her Majesty of the right guaranteed to them by "Magna Charta," that their property should never be interfered with, except in virtue of a judgment rendered by the tribunals of the country.

4th. On the 19th March, 1877, being on the eve of absenting myself for a few days, I wrote to the Honorable Mr. Chapleau, and in a postsoript I suid:

"Please oblige me by telling the Premier that, if he needs my assistance (concours), Mr. Gautier can bring down to me the documents requiring my signature." Mr. DeBoucherville should have understood from this that, if I was ready to

render him my assistance (concours), it was on condition of having all documents submitted to me before signing them.

I leave you, my Lord, to judge in what manner my views were interpreted. 5th. Under date of 6th of November last, I addressed to the Honorable Mr. DeBoucherville the letter of which the following is a copy:

(Private.)

"QUEBEC, 6th November, 1877.

"The Hon. C. B. DeBoucherville, " Premier.

"MY DEAR DEBOUCHERVILLE,-In the last Official Gazette were published over my signature two Proclamations which I had not signed.

"One was for the summoning of Parliament, which I had reserved in order to confer with you; the other, which I had not even seen, appoints a day of Thanksgiving.

"These proceedings, the nature of which I shall not qualify at present, apart "from their impropriety, are productive of nullities which you can easily under-"stand.

"Yours vory truly, (Signed) "L. LETELLIER."

Here are the notes which I took of the conversation which I had with M. De-Boucherville on this subject:-

"M. DeBoucherville came on the same day that he received this letter to tell me that he regretted that the thing had occurred, and that it was no fault of his. I teld him that I would not tolerate the use of my name when it became necessary for any of my official acts, without there having previously submitted to me the documents requiring my signature, together with the necessary information which M. De-Boucherville assured me would be the course followed in future.

(Signed) "L. L."

6th. But, my Lord, there is another point still more important, which I cannot any longer refrain from mentioning.

From the conversations which I have held with M. DeBoucherville there results a fact, which, if it were known, would, of itself, have sufficiently justified me in believing that he did not possess the confidence of the people of this Province.

On two different occasions, sometime after the Session of 1876, I remonstrated with him that millions had been voted to aid railways in general, at a time when our finances did not appear to me to be in a condition to warrant a lavish expenditure in subsidizing these numerous undertakings, particularly as apart from them, our credit was heavily pledged towards the building of the Quebec, Montreal, Ottawa and Occidental Railway.

He vory frankly avowed that these grants, though they were for the development of the Province, had been necessitated by political considerations; that without them the support of the members, whose counties were traversed by these railways, would cease to be secured to Government; that there would be no means of having a majority; that these members formed "rings" to control the House.

M. DeBoucherville is not unaware that I thereupon told him that it was better to save the Province than a Government, and that if his Administration was not strong enough to resist these influences, it would be better for him to form a combination of honest and well-meaning men, from both sides of the House, rather than submit to the dictation of these "rings," and to the control of these combinations.

When he made no attempt to escape from such deleterious influence, after his own avowal that the Legislature was controlled by these "rings;" when by his legislation he wished to favour them anew during this last Session, without having previously obtained my advice; had I not the right, as the representative of my Sovereign to believe, and to be convinced that M. De Boucherville did not possess, in the Legislative Assembly, a majority created in accordance with the Constitution.

In communicating to both Houses my memoranda of the 25th February and 1st March last, the Premier and Mr. Attorney-General Angers overstepped the authorization which I had given by my letter of the 4th March last for that purpose. They added to the publication of the Report a recital of various pretended conversations, the exactness and propriety of which I do not admit.

I shall point out, my Lord, one fact alone to prove this inexactitude, and this impropriety. The IIon. Messrs. DeBoucherville and Angers, in their explanations to the two Houses, lay great stress on the telegram which M. Deboucherville dispatched to me at Rivière Ouelle, to ask my permission to introduce resolutions concerning the finances, and on the blank signature that I sent up in answer to it.

But these gentlemen thomselvos had this blank signature filled up by my private Secretary, so as to give to the telegram the meaning which I had attributed to it, namely, a request for permission to introduce the subsidies. Here follows a copy of the message made with this blank signature :

Mr. Treasurer Church presents a message from His Excellency the Lieutenant-Governor, which reads as follows .--

#### " L. Lettellier,

"The Lieutenant-Governor of the Province of Quebec, transmits to the Legislative Assembly the supplementary estimates for the current year, the estimates for the fiscal year ending 30th June, 1879, which, in conformity with the provisions of the 54th section of the British North America Act, 1867, he recommends to the Legislative Assembly."

### GOVERNMENT HOUSE, QUEBEC, 30th January, 1878.

My Ministers never had, by their own admission, any authorisation from me for the introduction of their Railway and Taxation Resolutions, than the blank signature filled up as above stated, and in which not a word is said of them. Besides which, it will be noticed that the Railway Resolutions were introduced on the 29th January, whereas the message is dated the 30th.

It is for this reason, my Lord, that I bring to your knowledge all the facts and details which are connected with the relations which I have had with Mr. DeBoucherville and his colleagues.

Were the controversy with me alone, as a private individual, I would abstain from any remonstrance against the injustice of their reflections upon the conduct of the Representative of the Crown, which they have made in violation of their duty; but, in this matter, the maintenance of the Constitution is at stake.

If, without any authority from me, proclamations have been published which I never signed, is it surprising that messages have been proposed in my name, on which I had never been advised?

It is because that I have been, as the representative of my Sovereign, unjustly and with indignity, dragged before the public, that I make known to you, my Lord, that, in the exercise of my representative duties, I have not had solely in view the protection of the dignity of my office, but that my object has been to afford the people of this Province the opportunity of understanding that, at the present conjucture, the recent exercise of the Royal Prerogative has not been hostile to their constitutional liberties, but that, on the contrary, it has afforded them the means of freely exercising their judgment.

There results, my Lord, from what I have stated :---

1st. That in general, the recommendations which I made to my Cabinot, have not received the consideration which is due to them, as emanating from the Representative of the Crown.

2nd. That my name has been, by the members of the Government, signed to documents which I never saw.

3rd. That a Proclamation summoning the Legislature was published in the Official Gazette, without consulting or advising me, and before my signature had been attached thereto.

4th. That the same circumstances occurred with regard to the proclamation of a Day of Thanksgiving.

5th. That, although I had intimated to the Premier, by my advice and by my letter of the 14th March, 1877, my firm determination to protect the inhabitants of this Province against the arbitrary decisions of the Executive, in matters within the jurisdiction of the Courts of Justice, he thought proper, without my participation, and without consulting me, to propose to both Houses in legislating for the Quebec, Montreal, Ottawa & Occidental Railway, to substitute the power of the Executive for that of the Judiciary.

6th. That, without having advised me. and without having received authorization of any sort whatever from me, the Government of M. De Boucherville, proposed to the Legislature, a measure of almost general taxation upon the ordinary contracts and transactions of life, transfers of bank, &c., while no message from me had been demanded for this object, nor authorized by me, for laying such a measure before the Legislature.

7th. That after its dismissal, the Government of M. DeBoucherville committed a now breach of duty by assigning reasons for the adjournment of the House from day to day, different from those agreed on between myself and the Premier, at the

risk of prejudicing public opinion against the Representative of the Crown. 8th. That, at the time of the communication of the causes which rendered necessary the dismissal of the Cabinet, in the explanations which were given by the Premier to the Legislative Council, and by the Attorney-General to the Legislative Assembly, both of them referred to pretended conversations which they had no authority whatever to communicate to the Legislature, since the Premier had, by his answer to the letter of the Lieutenant-Governor of the 4th March last, limited his explanations to the communication to both Houses of my memoranda of the 25th February and 1st March, and the answers of the Premier of the 27th February, 2nd and 4th March last.

9th. That, in fact, the additions and the commentaries made by the Premier before the Legislative Council, and by the Attorney-General before the Legislative Assembly, were contrary to the conditions stipulated between the Lieutenant-Governor and the Premier.

10th. That the Premier and his colleagues, by making use of pretended private conversation to explain the causes of their dismissal, in contravention to their duty to the Crown and to what they had pledged themselves to refrain from, have placed the Lieutenant-Governor under the necessity of bringing under the notice of your Excellency all the reasons for such dismissal.

I have, &c., L. LETELLIER, (Signed) Lieutenant-Governor.

## APPENDIX A.

#### Resume of Official Record.

In January, 1877, an election had taken place for the southern portion of the village of Montmagny. This election having been declared null and void by the Court, it ordered a fresh one to take place, and appointed Mr. Eugène Hamond to preside over it.

On the day fixed, Mr. Eugène Hamond refusing to preside, Naz. Bernatchez, Esq., Mayor of the municipality, the senior Magistrate present, undertook the presidency.

The assembly elected Mr. Eugène Fournier.

Mr. Eugène Hamond wrote to the Lieutenant-Governor that he had not presided at the assembly, without adding, however, that there had been no election. He recommended at the same time, that Mr. Jules Bélanger be appointed.

Mr. Eugène Fournier, elected at the assembly of the 19th February, took the oath of office, and took his seat on the 23rd February.

On the 3rd March, the Attorney-General (Mr. Angers) recommended the appointment of Jules Belanger, who was accordingly appointed on the 7th of the same month.

On the 10th, Mr. Bernatchez, Mayor of Montmagny, addressed to the Lieutenant. Governor a memorandum exposing the facts, and prayed that the appointment be cancelled.

On the 15th March the Attorney General drew out a report recommending that the appointment of Mr. Jules Bélanger be maintained.

On the 27th March, the Lieutenant-Governor revoked this appointment on a report of the Government.

QUEBEC, 4th March, 1878.

#### To the Hon. C. B. DeBoucherville, Quebec.

The Lieutenant-Governor desires that his two memoranda (of the 25th February and 1st March), addressed to the Hon. M. DeBoucherville, and that the answers given to those memoranda by the Hon. C. B. DeBoucherville (of the 27th February and 2nd March) be not now communicated to both Houses.

This communication, authorized by the Lieutenant-Governor, at the request the Hon. M. *DeBoucherville* will be made as soon as the arrangements for the formation of a new Executive Council shall be ended.

The Hon. M. DeBoucherville may make known unto both Houses, that the reason of the adjournment from one day to another, is necessitated by the last mentioned cause.

QUEBEC, 4th March, 1878.

EXCELLENCY,—In conformity with your wish expressed in a letter of to-day's date, I withhold, until the formation of a new Executive Council, the reasons I was authorized by Your Excellency to communicate to both Houses.

### GOVERNMENT HOUSE,

QUEBEC, 25th February, 1878.

The Lieutenant-Governor desires the Executive Council to prepare for his consideration, a "factum" containing the following facts, viz.:--

1. A copy of the Acts of the Federal Parliament authorizing the construction of the railway now known under the name of "Quebec, Montreal, Ottawa and Occidental," as well as a copy of the Acts of the Legislature of the Province of Quebec concerning the said railway.

Quebec concerning the said railway. 2. A copy of the Acts of the Legislature of the Province of Quebec concerning the building of the railway between Quebec and Montreal, which line is commonly designated under the name of "North Shore Railway."

3. A copy of the By-Laws of each of the Municipal Corporations by which they undertook to help in constructing the said railway.

4. A statement of the amount paid by each of those Corporations as a help, and a copy of the correspondence exchanged between the Gevernment, its Commissioners, or the Contractors for the said railways, and the aforesaid Municipalities, with regard to their help or subsidy.

5. A copy of all the contracts passed for the building of those roads.

6. A copy of the official or confidential reports of the Engineers who have been ordered to determine the route of those lines, in whole or in part.

7. A copy of the report of the Railway Commissioners submitted to both Houses, during the present Session, with regard to said railways.

8. A copy of the representations made to the Government by the Municipal bodies thus interested, or the taxpayers of those Municipalities, with regard to the conditions of their aid or subsidy.

9. Copy of the resolutions which have been introduced to the Provincial Legisfature, during the present Session, with regard to the aforesaid subsidies, and to facilitate the payment and collection thereof.

10. Copy of the Bill, based on those resolutions, which has been introduced to the Legislature of Quebec during the present Session.

11. A plan shewing the routes of each of those lines, or of any part of them. 12. A statement of the reasons which have engaged the Government not to content itself with the provisions of the Statutory and public law, and of those of the Civil Code of this Province, to effect the recovery of the sums of money which may be due by those Corporations, but without previously advising, in any way, with the Lieutenant-Governor, to propose an ex post facto legislation to compel them to do su.

Another project of a very important law to make provision for levying new taxes has also been introduced to the Legislature without having been previously submitted to the consideration of the Lieutenant-Governor.

The Lieutenant-Governor easily understands that propositions of secondary importance and on which he has been previously officially informed, may be, as matter of routine, introduced to both Houses without a special order from himself; but ho cannot, in any way, permit that the Executive should make communications in his name to the Legislature, with regard to measures which are of a new and important character, without his authorization and his having been completely informed and previously advised thereon.

QUEBEC, 27th February, 1878.

To His Excellency

The Lucutenant-Governor of the Province of Quebec.

EXCELLENCY,-I have the honor to acknowledge the receipt of Your Excellency's memorandum, which your A.D.C. handed me yesterday afternoon, informing me at the same time that you were ill in bed.

I have submitted this memorandum to the Executive Council, and, will see, as Your Excellency desired it, that diligence be made so as to transmit to you as soon as possible all the documents asked for.

Anticipating the factum which Your Excellency wishes to have, and which will contain a more detailed statement of the motives which have induced the Government to propose the measures to which you draw my attention, I deem it my duty to represent to you,

That, amongst others, the reasons which brought the Government to submit to the Legislature a law compelling the municipalities to pay their subscriptions towards building the Provincial railway on the decision of the Lieutenant-Governor in Council, through a sworn report of a competent Engineer, and after a fifteen days' notice, so as to give these municipalities the facility of being heard, are the bad will of certain municipalities manifested in certain cases by their negligence to answer the demands of their Treasurer, and in others by their formal refusal to pay, while in other cases resolutions were adopted asking new conditions to the engagements they had contracted with the Government.

The Government believed that, without such legislation, the object of which is to avoid the slowness of ordinary judicial proceedings, the result of the bad will of the municipalities, would have been to necessitate a new Provincial loan, and therefore an unjust charge upon municipalities who had taken no engagement, and which were to derive no immediate advantage by the construction of this road, either by stopping completely the works begun, with the inevitable loss of the interest on the enormous Capital already engaged in this enterprise, and the other damages which would have resulted.

The Government, first undertaking the obligation by this law to fulfil the conditions which they have agreed with these municipalities, believed that in substituting to the ordinary courts, the Licutenant Governor with an Executive Council, responsible to the Legislature and to the people, it gave to the interested parties a tribunal which offered as many guarantees as the ordinary courts.

I would further bring under your Excellency's notice that provisions of a similar nature to this legislation exist already in our Statutes. I will cite to your Excellency chap., 83 of the Consolidated Statutes of Canada, and also chap., 47 of 36 Vic., of Statutes of Ontario.

I respectfully submit to your Excellency that a law framed to better assure the better execution of a contract cannot produce a retroactive effect; it. enacts for the future and has for its end the respective interests of both parties.

I would now beg your Excellency to observe that, while you were at Rivière Ouelle, I had the honour to ask your authority to put the question of finance before the House, and that you kindly answered, stating that you were forwarding through the mail a signed blank, which act I took at that time as a great mark of confidence on your part. I received effectively a blank with your signature, and I gave it to the Treasurer, who had it filled up by your Aide-de-camp. Later I had the honor to ask your Excellency for a general permission to submit to the House measures concerning money matters, which your Excellency gave me with your ordinary courtesy.

This permission had always been granted me by your predecessor, the lamented Mr. Caron. I must admit that, with this permission, and being convinced your Excellency had read the Treasurer's speech, in which he announced the proposed taxation, I considered myself authorized to tell my colleagues that I had your permission for all money measures.

I beg Your Excellency to believe that I never had the intention of assuming the right of having measures passed without your approbation, and that in this case having had the occasion of conferring with you with regard to the Provincial Railway, and not having received orders to suspend it, I did not think Your Excellency would consider that in this measure there was any intention on my part of ignoring your prorogatives, that nobody more than myself is disposed to respect and uphold.

I have the honor, &c., &c.,

#### GOVERNMENT HOUSE,

QUEBEC, 1st March, 1878

## To the Hon. C. B. DeBoucherville,

Prime Minister, Quebec.

The Lieutenant Governor, taking into consideration what the Prime Minister communicated to him verbally (27th February), and taking into consideration the letter which the Premior then handed to him, is ready to admit that there was no intention on the part of the Premier to overlook the prerogatives of the Crown, and that there has been on his part, only an error committed in good faith, in interpreting as he did the words of the Lieutenant-Governor in their interview of the 19th February, instant; words which did not bear with them the authoritive sense which the Premier attached to them.

With such an interpretation and the instructions which were in consequence given by the Premier to the Hon. Messrs. Angers and Church, these gentlemen have done nothing knowingly which is not in conformity with the duties of their office.

As to the blank which the Lieutenant-Governor sent him from *Rivière Ouelle*, the Lieutenant-Governor knew that this blank signature would be used to present the estimates to the House.

This act was a mark of confidence on his part as the Premier well qualifies it in his letter of the 27th, but this act was a confidential one.

The Lieutenant-Governor deems it right to observe that, in his memorandum of the 28th February inst., he has in no way expressed the opinion that he believed that the Premier ever had the intention of taking upon himself the right "of passing measures without his approbation, or, and of not recognizing the prerogatives of the Representative of the Crown."

But the Prime Minister cannot ignore that, although there was no intention on his part, de facto, the thing exists, as the Lieutenant-Governor told him.

The fact of having introduced to the House several new and important measures without having previously advised the Lieutenant-Governor, in any way, of the intention of so doing, although the intention of not recognizing his prerogatives did not exist, constitutes, nevertheless, one of those false positions which place the Representative of the Crown in a critical and difficult position with regard to both Houses of the Legislature.

The Lieutenant-Governor cannot admit that the responsibility of this state of affairs rests with him.

With regard to the Bill intituled "Act respecting the Quebec, Montreal, Ottawa, and Occidental Railway," the Promier cannot claim for this measure the would-be general authority which he mentions in his letter, for their interview was on the 19th February, and this Bill was before the Legislature several days before that date, without the Lieutenant Governor having been, in any way, advised of the fact by his advisors.

The Lieutenant-Governor expressed, at that time to the Premier how much he regretted this iegislation; he represented to him that he considered it contrary to the principles of law and justice; notwithstanding this, the measure was carried through both Houses until adopted.

It is true that Mr. Premier gives in his letter, as one of the reasons for acting as he did "that this permission of using the name of the Representative of the Crown had besides always been granted him by the predecessor of the present Lieutenant-Governor, the lamented Mr. Caron."

This reason could be no reason to the Lieutenant-Governor; for, in so acting, he would have abdicated his position as Representative of the Crown, which act neither the Lieutenant-Governor or the Premier could conciliate with the obligations of the Lieutenant-Governor towards the Crown.

The Lieutenant-Governor regrets having to state, as he told the Premier, that he has not been generally informed in an explicit manner, of the measures adopted by the Cabinet, although the Lieutenant-Governor had often given the Premier occasion for so doing, especially during last year.

From time to time, since the last Session of the Legislature, the Lieutenant-Governor drew the attention of the Premier to several subjects regarding the interests of the Province of Quebec, among others :---

2nd. On the necessity of reducing the expenses of the Civil Government and of the Legislature, instead of having recourse to new taxes in view of avoiding financial embarrassment.

The Lieutenant-Governor expressed also, but with regret, to the Premier, that the Orders passed in Council to increase the salaries of Civil Service servants, seemed to him inopportune, at a time when the Government were negotiating with the Bank of *Montreal* a loan of half a million, with condition to carry it to \$1,000,000, at an interest of 7 per cent; and indeed, even to-day (1st March), the Lieutenant-Governor is obliged to allow that an Order in Council be passed so as to give the Government the other half million, without which the Government would be unable to meet its obligations, as I was informed by the Hon. the Provincial Treasurer to day, by order of the Prime Minister. The Premier did not let the Lieutenant-Governor know, then or since, that the Government were in such a penurious state as to necessitate special legislation to increase public taxation.

The Lieutenant-Governor said and repeated these things to the Premier, and therefore deems it advisable to consign them here, that they may serve as memoranda for himself and for the Premier.

It therefore results : ---

1st. That although the Lieutenant-Governor has made many recommendations in his position as Representative of the Crown, to the Premier, on these different subjects of public interest; his advisers have undertaken a course of administrative and legislative acts contrary to these recommendations, and without having previously advised with him.

2nd. That the Lieutenant-Governor has been placed, unintentionally, but de facto, in a false position, and thereby into a conflict with the will of the Legislature, which he recognizes as being in all cases supreme when this will is expressed by all the constitutional means.

The Lieutenant-Governor has read and examined carefully the memorandum and documents which the Premier has been kind enough to bring him yesterday.

There are in the record potitions from several municipal corporations and from citizens of different places addressed to the Lieutenant-Governor against the resolutions and project of law framed by the Government with regard to the "Quebec, Montreal, Ottawa and Occidental Railway."

The Lieutenant-Governor was only yesterday able to take cognizance of some of these petitions, as they had not been previously communicated to him.

The Lieutenant-Governor, after having maturely deliberated, cannot accept the advice of the Premier with regard to the sanctioning of the "Act concerning the *Quebec, Montreal, Ottawa* and Occidental Railway."

For all these causes, the Lieutenant-Governor cannot close this memorandum without expressing to the Premier the regret he feels at the idea of not being able to continue maintaining him in his position contrary to the rights and privileges of the Crown.

(Signed)

L. LETELLIER,

Lieutenant-Governor.

QUEBEC, 2nd March, 1878.

EXCELLENCY,—I have the honor to acknowledge the receipt of your memorandum in which you come to the conclusion of not being able to maintain me in my position as Prime Minister.

There is no other duty for me to fulfil but to submit to the dismissal from office which Your Excellency has signified to me, while continuing to protest of my profound respect for the rights and privileges of the Crown, and of my devotion to the interests of our Province.

I have the honor, &c.,

COMMITTEE ROOM, 18th March, 1878.

The Sub-Committee of the Joint Committee of both Houses on the Printing of Parliament, to whom were referred the Accounts of the past year, and also the application of Mr. *Botterell*, for additional assistance during the recess, beg leave to submit the following as their Second Report :---

With regard to the reference to the Sub-Committee of the application of Mr. Botterell, they called upon that official to furnish them with a Comparative Statement of the amount of labor performed in the Distributing Department, in 1869, in 1873, and in 1877. They also examined other Officials cognizant of the work. From the information thus obtained, the Sub-Committee are of opinion there is work sufficient to justify the continuation of the services of one of the Sessional Messengers now on the staff, during the recess, as a Second Assistant Distributor, for which service they would recommend an additional allowance of \$300.

All which is respectfully submitted.

GEO. W. Ross, Chairman.

COMMITTEE ROOM, 22nd February, 1878.

To the Chairman and Members of the Joint Committee on Printing.

GENTLEMEN,----I beg to submit the Annual Balance Sheet for the Printing Services of Parliament for the year 1876-7, shewing the cost of those services to have been \$63,853.25. The several Contractors for the Printing and Binding have shewn every desire to meet the requirements of Parliament according to their respective Contracts, and very satisfactorily.

The Printing Paper furnished under the Contract has so varied in quality that the attention of the Contractor had to be directed to it.

The usual sum of \$70,000 has been placed in the Estimates for the Printing Services of Parliament, for the year 1878-9.

All which is respectfully submitted.

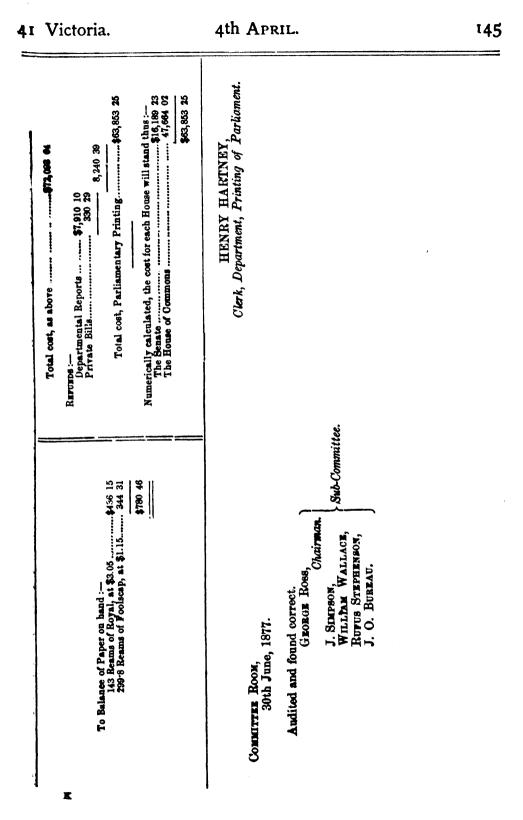

HENRY HARTNEY, Clerk, Joint Committee on Printing.

The Governor General transmits to the Senate a letter from the Honorable C. B. De Boucherville, having reference to recent Ministerial changes in the Province of Quebec.

My letter or memorandum being an explanation of the charges brought against me and my colleagues by the Lieutenant Governor of *Quebec*, I believe that it is due to me and my colleagues that our explanations may be communicated to both Houses of Parliament in the same way that the Lieutenant Governor's memorandum was communicated to them.

I have, therefore, to respectfully reiterate my request.

And remain, Sir, &c.,

C. B. DEBOUCHERVILLE

M. L. C

(Signed)

Hon. Col. LITTLETON, &c.,

Ottawa.

8th APRIL.

OTTAWA, 3rd April, 1878.

SIR,—I have the honor to transmit herewith a letter, with annexed document, addressed to His Excellency the Governor General. I have the honor to request, through you, His Excellency to be kind enough to lay the above mentioned letter and document before both Houses of Parliament.

I have the honor to be, Sir,

Your most obedient and humble Servant,

(Signed) C. B. DEBOUCHERVILLE,

**M. L.** C.

The Honorable R. W. Scorr,

Secretary of State,

Ot**t**awa.

# To His Excellency the Right Honorable the Earl of Dufferin, K.P., K.C.B., G.C.M.G., Governor General of Canada, Ottawa.

# OTTAWA, April 2nd, 1878.

My LORD,—The "explanatory case" addressed to your Excellency by His Honor M Letellier, and accompanying the documents and details which related to my recent dismissal from office, and by you transmitted to the Senate and House of Commons, containing us it does statements of facts, the accuracy of which I respectfully deny, imposes upon me the duty of submitting for your information and consideration the following :—

As your Excellency is doubtless aware, M. Angers laid upon the table of the Legislative Assembly on the 8th of March last, copies of the correspondence and explanations by him made at my request relating to the dismissal from office of the *DeBoucherville* (lovornment. This correspondence and explanations, with some comments of his own, are contained in the copy of the Votes and Proceedings of that House of the 9th March, and I respectfully beg to be permitted to annex them as forming part hereof. 1 beg, however, to add to these explanations of M. Angers a few words upon two subjects, viz :--

1. In the memorandum which I had the honor to address to His Honor M. "Letellier, under date 27th February, I said.—" Later I had the honor to ask your "Excellency for a general permission to submit to the House measures concerning "money matters, which your Excellency gave me with your ordinary courtesy. "This permission, I may say, had always been granted me by your predecessor, the "lamented M. Caron."

I do not think that the meaning of these phrases is correctly rendered in the **paragraph in His Honor's letter to me, under** date the lat March, wherein he says:----

"It is true that the Premier gives in his letter as one of the reasons for acting "as he did, that this permission of using the name of the Representative of the Crown "had always been granted him by the predecessor of the present Lieutenant Governor "the lamented M. Caron.

"This reason cannot be one for the Lieutenant Governor; for in so acting, he would have abdicated his position as Representative of the Crown, which act, neither the Lieutenant Governor or the Premier could reconcile with the obligation of the Lieutenant Governor to the Crown."

It is manifest that I desired to say, and that, in fact, I did say, that the late M. Caron had given me that authority for money matters only.

My Lord, I respect too highly the memory of that virtuous and distinguished statesman, to allow any such misinterpretation of my meaning to pass unchallenged, by which I am made to intimate that the deceased M. Caron had abdicated to me his position as the Representative of the Crown. Every person who knew the late M. Caron and his high legal and constitutional attainments, will share with me my regretful surprise, that any such imputation should be cast upon his memory.

2nd. That, not having kept any memorandum of such conversations as I had with the Lieutenant Governor, except those which took place since the 25th February, last, I have no remarks to make upon the paragraph, wherein it is stated :---

"The Premier did not let the Governor know, then or since, that the Govern-"ment was in such a state of penury as to necessitate special legislation to increase "public taxation;" unless it be that this statement does not seem to me to accord with a preceding paragraph, wherein it is stated that the Lieutenant Governor drew my attention "to the necessity of reducing the expenses of Government and of the "Legislature, instead of having recourse to new taxes in view of avoiding financial "embarrassment."

I acknowledge that I never did inform the Governor that the Province was in a state of penury, simply because I was convinced of the contrary.

"The Lieutenant Governor expressed also, but with regret, to the Premier, that "the Orders passed in Council to increase the salaries of Civil Service servants seemed "to him inopportune.

Upon this matter I merely desire to remark that these Orders in Council were authorized by a law passed during the Session of 1876.

I propose now, my Lord, to deal with the specific allegations made against me by His Honor M. *Letellier*, in his explanatory case, and, for convenience sake, I take the liberty to quote from His Honor's memorandum:—

"1st. During the Session of 1876, a Bill had been read three times in one of the "two branches of the Legislature, and only twice in the other.

"This Bill, bearing all the certificates which were necessary to induce me to "believe that it had been regularly passed and adopted, was submitted to me by the "Premier for my sanction.

"In consequence of being left in ignorance of these facts by my advisers, I "sanctioned the Bill.

"Not long afterwards I was informed of the irregularity, and I immediately "spoke of it to the Premier. I made the observation that such an Act would entail "too serious consequences to allow of its being passed over.

"As a favor to him, however, I passed over this instance of irregular legislation, "which was then irreparable."

In relation to this, the facts will furnish a sufficient answer. The Act in question was a Bill entitled: "An Act to authorize the formation of Societies for the improve-"ment of country roads, and for the destruction of noxious weeds in the Province of "Quebec." It was introduced in the Legislative Council, duly passed that House, and was sent down to the Legislative Assembly for its concurrence.

Apparently in the hurry of the last hours of the Session, after it had been read twice, the Clerk, by mistake, certified it as passed without amendment, and it was thus sent back to the Legislative Council. His Honor came **dow**n on the following day to prorogue the Legislature and his assent was given to this Bill along with others. The error was immediately discovered by the Attorney General, who made a report for transmission to Ottawa stating the error, and suggesting that the Act should be disallowed. The Hon. Mr. Blake, then Minister of Justice, reported in reply that this was unnecessary, that the Act, not having received all its stages, was but blank paper, and as a consequence it was not printed in the Statutes. In view of this fact, it is difficult to under 41 Victoria

stand the statement of His Honor the Lieutenant Governor that, "as a favor" to me, he "passed over this instance of irregular legislation, which was then irreparable."

2. "During the same Session another Bill was submitted to me for my sanction." On examining it I perceived a blank which had not been filled up, which I pointed "out to the Premier in the following letter :--

# " (Private.)

#### "QUEBEC, 27th December, 1876.

"MY DEAR PREMIER,—A Bill (E), which originated in the Council, was passed "by the Legislative Assembly without amendment; upon reading it before adding "my certificate of sanction, 1 noticed that a blank had not been filled up in the "seventh line of the sixth section.

"You followed the usual practice in not fixing the amount of the penalty in the "Legislative Council, but the matter passed unperceived, or the officers, through some "mistake, omitted to insert the amount fixed by the House, or it may have been an "error in the proof-sheets.

"While on the subject of these mistakes, you will find another in the second "section of the same Act, wherein the word 'amender' is in the infinitive mood. I "notice this latter inaccuracy, to which I do not attach much importance, only "because I discovered another in an Act in which I had to point out to you an "omission which I consider fatal.

"Yours very truly, (Signed) "L. LETELLIER.

"The Promier came to me and said that he regretted the omission; he requested "me to give my sanction to the Bill in the state in which it was. The conciliatory "spirit which I showed in granting my consent seemed to please him."

In relation to this I have to say that the Act in question was "An Act to provide "for the safety and protection of the public in theatres, edifices and public halls." As stated, it was passed first in the Legislative Council, where the blank, being the amount of the penalty, could not be inserted. By inadvertence it passed the Legislative Assembly in the same form. After its passage the omission was discovered, and a short Bill was introduced to remedy it. The Act in which the omission occurred is numbered 19, and the Act supplying the omission is numbered 20, of the Statutes of 1876, and both were sanctioned by His Honor the Lieutenant Governor at the same time.

3rd. "In March, 1877 (vidé Appendix A), my advisers caused me to make an "appointment of a Municipal Councillor for the South Ward of the Village of "Montmagny, under the pretext that there had been no election, or that if such "election had taken place it was illegal," &c.

As to the third complaint of His Honor, it is difficult to understand, seeing that it had no relation to the dismissal of myself and my colleagues, why it is introduced. Whether wisely or not, the Municipal Code of the Province of Quebec, provides that, in a certain contingency, the Lieutenant Governor of the Province shall appoint a Councillor. In the opinion of the Law Adviser of His Honor, upon a petition sent in from the Village of Montmagny, that contingency had arisen, and he made a report recommending an appointment. That report was approved, and the appointment made by His Honor. Subsequently other information was received, which induced His Honor to urge the revocation of the appointment, and out of deference to him, while seeing no reason to change its opinion, the Government yielded, and the appointment was cancelled.

4th. "On the 19th March, 1877, being on the eve of absenting myself for a few "days, I wrote to the Hon. M. Chapleau, and in a postcript I said: 'Please oblige "'me by telling the Premier that if he needs my concurrence, M. Gaulhier may "'bring down to me the documents requiring my signature.'

"M. DeBoucherville should have understood from that, that if I was ready to give him my concurrence, it was on condition of having all documents submitted. to me before signing them." "I leave you, my Lord, to judge in what manner my views were interpreted."

It would seem somewhat remarkable that a statement to which His Honor appears to attach so much importance should have appeared as a postcript to what, I have reason to believe was a private letter, in no sense relating to public business. I may say, however, that a reference to dates will shew that the documents referred to had relation to the Montmagny Councillorship, which was at the time a subject of discussion, and was not intended to have, and had not any such significance as that attempted now to be attached to it.

5th. "Under date of the 6th of November last, I addressed to the Honorable "M. DeBoucherville, the letter of which the following is a copy:---

" (Private.)

QUEBEC, 6th November, 1877.

"The Honorable C. B. DeBoucherville, Premier.

"MY DEAR DEBOUCHURVILLE,-In the last Official Gazette were published over " my signature two proclamations which I had not signed.

"One was for the summoning of Parliament, which I had reserved in order to " confer with you; the other, which I did not even see, appoints a day of Thanksgiving.

"These proceedings, the nature of which I shall not characterize, are productive. "apart from their impropriety, of nullities which you will easily understand.

"Yours very truly, " (Signed)

L. LETELLIER."

"The following are the notes which I took of the conversation which I had with "M. DeBovcherville on the subject :---

"M. DeBoucherville came on the same day he received the letter, to toll me that "he regretted that the thing had occurred, and that it was no fault of his. I accepted "the excuse, and I then told him that I would not tolerate my name being used, "when necessary for any duty of my office, unless the documents requiring my signa-"ture had been previously submitted to me, and unless information was afforded to "me, which M. DeBoucherville assured me would be the course followed in future.

> " (Signed) L. L."

It is a sufficient answer to this complaint, to say that the proclamation for the summoning of the Legislature for the despatch of business, was not published until the 24th November, and it could not, therefore, be that proclamation to which His Honor referred in his letter of the 6th November. The proclamation to which he refers was the mere formal one by which the meeting of the Legislature is further postponed from time to time; and I am informed that the Order in Council for the particular proclamation to which His Honor referred was signed by him, and is of record, so signed, with the proper officer.

As to the proclamation fixing a day of Thanksgiving, I have to remark that this was the result of a communication from the Premier of Canada, the Honorable Alexander Mackenzie, to the Lieutenant Governor, and handed to me by His Honor with the request that I would carry out the suggestion. It will appear sufficiently strange under these circumstances, that I should be accused of acting without his knowledge, even if the clerical duty of obtaining his signature had been omitted. I um informed, however, that in this case also, the Order in Council, as well as the proclamation, were signed by His Honor, and are of record, bearing his signature, in the office of the proper officer.

6th. "But, my Lord, there is another point still more important, which I cannot "any longer refrain from mentioning.

"From the conversations which I have held with M. De Boucherville, there results "a fact, which, if it were known, would of itself have sufficiently justified me in " believing that he did not possess the confidence of the people of this Province.

"On two occasions, some time after the Session of 1876, I pointed out to him " that millions had been voted to aid Railways in general, at a time when our finances "did not appear to me in a condition to warrant all at once a lavish expenditure in "subsidizing these numerous undertakings, particularly, as apart from that, our "oredit was so heavily plodged towards the building of the 'Quebec, Montreal, Ottawa "and Occidental Railway.'

"He very frankly avowed that these grants, though they were for the develop-"ment of the Province, had been necessitated by political considerations; that without "them, the support of the Members whose counties were traversed by those Railways, "would cease to be secured to Government; that there would be no means of having "a majority; that the Members formed combinations—'Rings'—to control the House.

"M. DeBoucherville is not unaware that I thereupon told him that it was better "to save the Province than a Government, and that if his Administration was not "strong enough to resist those influences, it would be better for him to form a "combination of honest and well-meaning men, from both sides of the House, rather "than submit to the dictation of those 'Rings,' and to the control of those combin-"ations.

"When he made no attempt to escape from that deleterious influence, after his "own avowal that the Legislature was controlled by those 'Rings'; when by his legis-"lation he sought to favor them anew during the last Session, without having previously "advised with me, had I not the right, as the Representative of my Sovereign, to "believe and to be convinced that M. DeBoucherville did not possess a constitutional "majorty in the Legislative Assembly?"

I have no desire to enter into a discussion as to the precise conversations that may have taken place between His Honor and myself, in the frequent intercourse which we had together; but, I submit as my answer to this most serious imputation, "that I confessed to being controlled by '*Rings*,'" in relation to the Railway legislation while I was the leader of the Provincial Government, the following facts:--

I took office in 1874. In the Session following, a measure was introduced to increase the subsidies granted by provious legislation to a number of railways. Several amendments were moved to the resolutions, all of them looking to an increase in the grants, and for these, the Opposition, under the leadership of Mr. Joly, voted. The General Elections took place subsequent to that Session, and, whether the legislation was good or bad, it was sustained by a very large majority of the people, and is, therefore, no longer a proper subject of discussion in the connection in which His Honor introduced it. At the first Session after the elections, the Government, at the request of the municipalities of *Montreal* and *Quebec*, assumed the task of constructing the North Shore and Northern Colonization Railways, now known as the "Quebec, "Montreal, Ottawa, and Occidental Railway." Great pressure was brought to bear upon the Government to increase the subsidies to the other roads at that time, but this pressure was resisted. As a matter of fact it is not true that " millions have been "voted to aid railways in general," at a time when "our credit was so heavily " pledged towards the building of the Quebec, Montreal, Ottawa and Occidental Rail-" way." ' On the contrary, since our credit became so pledged, not one dollar has been added to the debt or liabilities of the Province on account of those "railways in general.'

In the Session of 1876 a measure was introduced authorizing a portion of the subsidy on some of these railways, from the unbuilt portion, to be used on that which was under construction to enable them to be carried to particular points, which it was considered important in the public interests should be reached, and a lapsed subsidy of \$200,000 was divided among other roads of a similar class, the Bill passing the Legislature without division.

In relation to this Act, His Honor M. Letellier, in proroguing the Legislature, used these words:---"I trust that the result of your labors will be to give a new "impetus to the great improvements which have been undertaken in this Province." During the last Session this process of 'doubling up' of the subsidy was again adopted, but without adding to the public liability. This Act was carried through its final stages in the Legislative Council, after the change of Government, and was assented to by His Honor the Lieutenant Governor. 7th. "In communicating to both Hcuses my memoranda of the 25th February "and 1st March last, the Premier and Mr. Attorney General Angers, in violation of "their duty, overstepped the authorization which I had given by my letter of the "4th of March last for that purpose. They added to that communication a report of "pretended conversations, the correctness of which I contest, and the impropriety of "which I maintain, &c."

As this relates to what occurred after the dismissal of the late Government, it can hardly be held to justify that dismissal. It is sufficient to refer to the correspondence, which shows that there was no stipulation on my part as to the precise form of explanations to be made to the House; and in view of the fact that we were a dismissed Ministry, I must claim that we had a duty, not only to ourselves, but to the majority of the representatives of the people whose confidence we enjoyed, to make the explanations as full as possible. As to the introduction, without authorization, of the Railway and Finance Bills, I conceived myself to have been fully authorized, and the explanations which I offered to His Honor on this point, and which were accepted by him, do not require to be repeated.

To sum up after the manner of His Honor:-

"1st. That in general the recommendations which I made to my Cabinet did "not receive the consideration which is due to the Representative of the Crown."

As responsible Ministers we considered it to be our duty to advise His Honor not to be bound to act upon advice from him. At the same time, as is seen in the case of the *Montmagny* Councillorship, we were disposed, as far as possible, to pay proper deference to his views and wishes.

"2nd. That my name has been used by the Members of the Government in the "signature of documents which I had never seen."

I have simply to say that I know of no such case, unless it refers to the Proclamations mentioned in the "Explanatory case," and the answer on that point is sufficiently distinct.

"3rd. That a proclamation summoning the Legislature was published in the "Official Gazette without my being consulted or informed of it, and before my "signature had been attached thereto."

No proclamation summoning the Legislature was so published, without the knowledge and signature of His Honor, and the Legislature was in fact not summoned for the dispatch of business for nearly three weeks after His Honor's letter of complaint on the subject.

"4th. That a like Proclamation fixing a day of Thanksgiving was also published "under similar circumstances."

The Thanksgiving day was fixed at the request of His Honor himself, and the Order in Council fixing it was signed by him.

"5th and 6th. That, although I had intimated to the Premier by my advice, and "by my letter of the 14th March, 1877, my firm determination to protect the "inhabitants of this Province against the arbitrary decisions of the Executive'in "matters within the jurisdiction of the Courts of Justice, he thought proper without "my participation and without advising me, to propose to both Houses, in legislating "for the 'Quebec, Montreal, Ottawa and Occidental Railway,' to substitute the power "of the Executive for that of the Judiciary."

"That, without having advised me, and without having received authorization "of any sort whatever from me, the Government of M. DeBoucherville proposed to "the Legislature a measure of almost general taxation upon the ordinary contracts "and transactions of life, transfers of bank stock, etc., while no Message from me had "been asked for this subject, nor signed by me to authorize its proposition to the "Houses."

In relation to these measures I considered myself authorized by the reply of His Honor to my request for an authorization for resolutions respecting finances, and my explanations, as is seen by his letter to me, were accepted, and the Government relieved from all imputation of intentional discourtesy. "7th. That, after its dismissal, the Government of the late M. DeBoucherville again "failed in its duty by assigning reasons for the adjournment of the House from day "to day different from those agreed on between myself and the Premier, at the risk "or prejudicing public opinion against the Representative of the Crown."

No reasons were assigned by me for the adjournment of the Legislative Council, neither the Speaker nor myself being present at any sitting of that House during the crisis and the reasons assigned by M. Angers for the adjournment of the Legislative Assombly were in those words :--

"The Lieutenant Governor signified his desire that the explanations respecting the dismissal from office of the Members of the Executive Council be not given this day, but only after a new Cabinet shall have been formed;" that reason being substantially that given in the letter of His Honor of the 4th March.

"8th. That at the time of the communication of the causes which rendered ne-"cessary the dismissal of the Cabinet, in the explanations which were given by the "Premier to the Legislative Council, and by the Attorney General to the Legislative "Assembly, both of them referred to pretended conversations which they had no "authority whatever to communicate to the Legislature, since the Premier had, by "his answer to the letter of the Lieutenant Governor of the 4th March last, limited "his explanations to the communication to both Houses of my memoranda of the "25th February and 1st March, and the answers of the Premier of the 27th February "and of the 2nd and 4th March instant."

My letter of the 4th March makes or accepts no such limitation, and, for the reason I have already stated, I considered myself fully justified in making the explanations that were made.

"9th. That therefore the additions and the comments made by the Premier before "the Legislative Council, and by the Attorney General before the Legislative "Assembly, were contrary to the conditions agreed upon between the Lieutenant "Governor and the Premier."

As I have stated, there were no such conditions agreed upon between the Lieutenant Governor and myself.

"10th. That the Premier and his colleagues, by making use of pretended private "conversations to explain the causes of their dismissal, in contravention to their "duty to the Crown and to what they had pledged themselves to observe with "regard to it, have placed the Lieutenant Governor under the necessity of bringing "under the notice of Your Excellency all the reasons for their dismissal."

The conversations reported by me were not "pretended" but real, of which notes were taken immediately after they occurred, and which were necessary to explain fully the circumstances preceding my dismissal. If they have compelled His Honor to state "all the reasons for that dismissal" I venture the opinion that it would have been more respectful to the Legislature, whose confidence I enjoyed, had "all the reasons" been communicated to it.

The observations I have made upon these additional reasons will, I hope, serve to convince Your Excellency that they were not such as to strengthen the position of the Lieutenant Governor.

I have the honor to be, my Lord,

Your obedient Servant,

C. B. DEBOUCHERVILLE,

M. L. C.

# No. 42.

# VOTES AND PROCEEDINGS OF THE LEGISLATIVE ASSEMBLY OF THE PROVINCE OF QUEBEC.

QUEBEC, Saturday, 9th March, 1878.

Mr. Speaker informed the House that, in conformity with the orders given to him at yesterday's sitting, he issued his warrant for the election of Members in the Counties of those Members who have accepted office as Ministers; and that he was informed by the Clerk of the Crown in Chancery that the answer of the Government, was that the matter was under consideration.

The following letter and "copies of the correspondance and explanations relating to the dismissal from office of the *DeBoucherville* Government" were laid upon the Table :

### QUEBEC, 8th March, 1878.

# To the Honorable the Speaker of the Legislative Assembly.

Str.,---I have the honor to forward you, to be laid before the House, copy of the correspondence and explanations relating to the dismissal from office of the *DeBoucherville* Government, which I read and communicated to the House.

I have the honor to be, Sir.

Your obedient servant,

#### A. R. ANGERS,

Ex-Attorney-General,

Member for the County of Montmorency.

MR. SPEAKER,—Mr. DeBoucherville had received permission from the Lieutenan Governor to give explanations respecting his dismissal from office at the sitting on Monday, the fourth March instant, between half-past one and two o'clock of the same day, he received from His Excellency a notice not to give any explanations until the new Cabinet had been formed.

This event having been announced, the late *DeBoucherville* Government has the right, in virtue of the permission so obtained, to give its explanations to the House and to the country.

It is my duty to announce to the House that the *DeBoucherville* Government did not resign. A Government, possessing the confidence of the great majority of the Representative Assembly, and of almost the whole of the Legislative Council, has no right to resign, if it has really at heart the interest of the country, and a respect for its duty. This Government was dismissed from office by the Lieutenant Governor. The facts which preceded and followed this event are entered in a journal kept from day to day and from hour to hour, under the dictation of the ex-Premier, and the following is an exact and faithful recital thereof.

On the 26th February, 1878, at about-half past four o'clock p.m., the Premier received from the Lieutenant Governor, through his Aide-de-Camp, the following letter :---

GOVERNMENT HOUSE,

QUEBEC, 25th February 1878.

To the Honorable C. B. DeBoucherville,

Premier of the Province of Quebec.

The Lieutenant Governor desires the Executive Council to prepare for his consi deration a factum including a copy of the following documents:—

1. A copy of the Acts of the Dominion Parliament authorizing the construction of the railway now known under the name of the "Quebec, Montreal, Ottawa and Occidental Railway" as well as a copy of the Acts of the Legislature of Quebec, respecting the same railway;

2. A copy of the Acts of the Legislature of the Province of Quebec respecting the construction of the railway between Quebec and Montreal commonly known as the North Shore Railway;

3. A copy of the by-laws of each of the Municipal Corporations by which they agreed to assist in the construction of the said road;

4. A statement of the amount of the grant paid by each of those Corporations, and a copy of the correspondence exchanged between the Government, the Railway Commissioners or the contractors of the said road and the said Municipal Corporations, with respect to their said grant or subsidy.

5. A copy of the several contracts entered into for the construction of the said roads.

6. A copy of the official or *confidential* Reports of the engineers to whom was intrusted the location of these lines of railway, in whole or in part;

A copy of the Report of the Railway Commissioners, laid before both Houses daring the present Session, respecting the said roads;
8. Copy of the representations made to the Government by the municipal

8. Copy of the representations made to the Government by the municipal corporations interested or by the ratepayers of these Municipalities, respecting the conditions of their grant or subsidy;

9. Copy of the Resolutions proposed to the Provincial Legislature, during the present Session, respecting the said subsidies and to facilitate the payment and recovery of the same :

10. Copy of the Bill, based upon the said Resolutions, which was introduced into the House, during the present Session;

11. A plan showing the locations of each of the said railways or of any portion thereof;

12. A detailed statement of the reasons which induced the Provincial Government not to content themselves with the provisions of the Statute and Common Law and with those of the Civil Code of this Province, for the recovery of the sums of money which might become due by the said Corporations, but, without having in any manner previously consulted with the Lieutenant Governor, to propose an *ex post facto* legislation to compel them thereto.

Another very important measure, to provide for the imposition of new taxes, was also similarly proposed to the Legislature, without having been previously submitted to the Lieutenant Governor.

The Lieutenant Governor is perfectly aware that measures of secondary importance, which have previously been sufficiently explained to him, may be, as a matter of routine, proposed to both Houses, without an express order from himself, but he cannot allow the Executive to communicate to the Legislature, on his behalf, any important or new measures, without his special order and without his having been previously fully informed and advised thereof.

LUC LETELLIER,

Lieut. Governor.

The Premier propared his answer during the night of the 26th-27th February. This answer was delivered by him, in person, to the Licutenant Governor, at Spencer Wood, about ten o'clock, A. M., on the 27th. It reads as follows :--

QUEBEC, 27th February, 1878.

To His Excellency

The Hon. L. Letellier de St. Just, Lieutenant Governor of the Province of Quebec.

MAY IT PLEASE YOUR EXCELLENCY,—I have the honor to acknowledge the receipt of the memorandum sent me yesterday atternoon by Your Excellency, through your Aido-de-Camp, who, at the same time, informed me that you were ill in bed. I submitted this memorandum to the Executive Council, and I shall see, as Your Excellency desires, that all due diligence be used, in order that all the documents required may be transmitted to you as soon as possible.

гţ

In anticipation of the factum desired by Your Excellency, which will contain a more detailed statement of the motives which induced the Provincial Government to bring in the measures to which you draw my attention, I consider it my duty to represent that the reasons which, amongst others, caused the Government to submit to the Legislature a law obliging the municipalities to pay their subscriptions for the construction of the Provincial Railway, on the decision of the Lieutenant Governor in Council, after a sworn report, made by a competent engineer, and after a notice of fifteen days, to give such Municipalities an opportunity of being heard,—are the ill will of certain Municipalities, shown by some in their neglect to comply with the requests of the Treasurer, by others in their formal refusal to pay, and, in certain cases, by resolutions adopted, asking new conditions respecting the agreements which they had made with the Government.

The Government was of opinion that, without such legislation, the object of which is to avoid the delays of ordinary legal proceedings, the result of the ill will of these Municipalities would have been, either to necessitate a new loan by the Province and consequently to cause a burden to be unjustly imposed upon Municipalities which had entered into no engagements and which would derive no immediate benefit from the construction of the road, or the complete stoppage of the works already begun, together with the inevitable loss of interest on the enormous capital already laid out upon this enterprise and the other damages resulting therefrom.

The Government, while undertaking, in the first place, by the said law, to fulfil the conditions which it had agreed upon with the said Municipalities, considered that, in substituting for the ordinary Courts, the Lieutenant Governor with an Executive Council responsible to the Legislature and to the people, it offered to the parties interested a tribunal which afforded as many guarantees as the ordinary courts. I would also take the liberty of calling Your Excellency's attention to the fact that similar provisions are already in our Statutes. I would cite to Your Excellency Chapter 83 of the Consolidated Statutes of Canada and also Chapter 47 of 36 Victoria of the Statutes of Ontario.

I humbly submit to Your Excellency that a law devised for the better securing of the execution of a contract cannot have a retroactive effect. It enacts for the future, and its objects are the respective interests of the parties.

Now, I beg Your Excellency to note that, while your were at *Rivière Ouelle*, I had the honor of requesting your authorization to lay the question of finances before the House, and that you were kind enough to reply that you sent me a blank form by mail, and I considered this, at the time, as a great mark of confidence on your part. I did, in effect, receive a blank form with your signature, which I handed to the Treasurer, who had it filled up by your Aide-de-Camp.

Later on, I had the honor of requesting Your Excellency's authorization generally to lay money questions before the House, and this Your Excellency granted, with your usual condescension. This permission, moreover, had invariably been accorded me by your predecessor, the late lamented Mr. Caron.

I must admit that, with this authorization, and the conviction in my mind that Your Excellency had read the Treasurer's Budget speech, in which he announced the taxes which were afterwards proposed, I considered I had a right to inform my coleagues that I had your permission for all questions respecting money.

I beg Your Excellency to believe that I never had any intention of arrogating to myself the right of having measures passed without your approval, and that, under existing circumstances, having had occasion to speak to Your Excellency in reference to the law respecting the Provincial Railway, and not having received any order to suspend it, I did not think Your Excellency would discover in this measure any intention on my part to slight your prerogatives, which no one is more disposed that I am to respect and uphold.

# Yours, &c., &c,

After some conversation, the Lieutenant Governor, having heard Mr. DeBouckerville's explanations, admitted that, if there had been any misunderstanding, it was in good faith on the part of the latter, in authorizing his colleagues to say that they were authorized to submit the legislation in reference to money matters. He afterwards told him, in reply to his question on the subject, that the only difficulty remaining was the question of the Quebec, Montreal, Ottawa and Occidental Railway and that he would give an answer on the following day, the 28th February.

On the 28th February, at about half-past seven in the evening, Mr. DeBoucherville went to Spencer Wood to convey to the Lieutenant Governor the documents asked for in the letter of the 25th (which documents were prepared by the Honorable the Secretary, and were accompanied by a synopsis.) He asked him if he would soon give his answer. The Lieutenant (fovernor told him that he would examine the documents and probably give it to him on the following day, the 1st March.

On leaving, Mr. *DeBoucherville* said: "If I understand you rightly, you are hesitating between giving your sanction to the Railway Bill and reserving it." He replied: "That is it."

On the 2nd of Murch, at five minutes to one in the afternoon, the Aide-de-Camp of the Lieutenant Governor handed to Mr. *De Boucherville* the letter given hereafter.

Before the Aide-de-Camp left, he was asked how His Excellency was. The Aidede-Camp replied that he was not so well, and then asked: "When we intended closing the Session. Mr. DeBoucherville replied that he could not say, as many matters were in arrear. The following is the letter in question:—

GOVERNMENT HOUSE,

QUEBEC, 1st March 1878.

To the Honorable C. B. DeBoucherville, Promior, Quebec.

The Lieutenant Governor, taking into consideration the communication made to him verbally (on the 27th February) by the Premier, and also taking into consideration the letter which the Premier then gave to him, is prepared to admit that there had been no intention on the part of the Premier to slight the prerogatives of the Crown, and that there was only on his part an error, committed in good faith, in the interpretation that he gave to words used by the Lieutenant Governor, in the interview which they had on the 19th February instant: words which did not imply the authorization attributed to them by the Premier.

With this interpretation and the instructions given in consequence by the Premier to the Honorable Mossrs. Angers and Church, these gentlemen did not, wittingly, do any thing against the duties of their office,

As to the blank, which the Lieutenant Governor addressed to him from *Rivitre Ouelle*, the Lieutenant Governor know that such blank was to be used for the purpose of submitting the Estimates to the House.

This act was a token of confidence on his part, as stated by the Premier in his letter of the 27th, but it was confidential.

The Lioutenant Governor deems it his duty to observe that, in his memorandum of the 25th of rebruary last, he in no way expressed the opinion that he thought that the Premier ever had the intention of arrogating to himself the "right" of "having measures passed without his approval, or of slighting the prerogatives of "the representative of the Crown."

But the Premier must not lose sight of the fact that, although he had not so intended, the fact remains as he was told by the Lieutenant Governor.

The fact of having submitted several new and important measures to the Legislature, without having previously, in any manner, consulted the Lieutenant Governor, although without any intention of slighting his prerogatives, gives rise to one of those false positions which places the Representative of the Crown in a difficult and critical altuation, with reference to both Houses of the Legislature. The Lieutenant Governor cannot admit that the responsibility of this state of things rests upon him.

So far as concerns the Bill intituled: "An Act respecting the Quebec, Montreal, Ottawa and Occidental Railway," the Premier cannot apply to the measure the pretended general authorization mentioned by him in his letter, for their interview took place on the 19th February and the Bill had then been before the House for several days, without the Lieutenant Governor having been in any manner informed of it by his advisers.

The Lieutenant Governor then told the Premier how much he regretted such legislation; he represented to him that he considered to the principles of law and justice; notwithstanding this, the measure was pushed on until it was adopted by both Houses.

It is true that the Premier gives, in his letter, as one of his reasons for so acting, "that this permission of making use of the name of the representative of the Crown had been, moreover, always allowed to him by the predecessor of the present Lieutenant Governor, the late lamented Mr. Caron."

This reason cannot avail with the Lieutenant Governor, for, by so doing, he would abdicate his position as Representative of the Crown,—a proceeding which neither the Lieutenant Governor nor the Premier could reconcile with the duties of the Lieutenant Governor towards the Crown.

The Lieutenant Governor regrets being compelled to state, as he told the Premier, that he has generally not been explicitly informed of the measures adopted by the Cabinet; although the Lieutenant Governor often gave occasion therefor to the Premier, especially during the course of last year.

The Lieutenant Governor, from time to time, since the last meeting of the Legislature, drew the attention of the Premier to several matters respecting the interests of the Province of *Quebec*, amongst others,—

1. To the enormous expenditure, occasioned by very large subsidies to several railways when the Province was burdened with the contruction of the trunk line of railway from *Quebec* to *Ottawa*, which should prevail over all others; and that at a time when our finances compelled us to raise loans disproportioned to our revenues.

2. On the necessity of reducing the expenses of the Civil Government, and those of legislation, in place of having recourse to new taxes, with a view of avoiding financial embarrassment.

The Lieutenant Governor, although with regret, expressed to the Premier the opinion that the Orders in Council, for the increase of the salaries of Civil Service employees, seemed to him to be inopportune at a time when the Government had effected with the Bank of *Montreal* a loan at the rate of 7 per cent. for half a million, on condition of increasing this loan to one million; and, in fact, to-day even (1st March) the Lieutenant Governor was obliged to allow an Order in Council to be passed to secure the last half million for the Government, without which the Government would be unable to meet its obligations, as stated to him by the Honorable the Treasurer, by order of the Premier.

The Premier did not, either then or since, inform the Lieutenant Governor that the Government were in so impecunious a position as to require special legislation to increase the public burdens.

The Lieutenant Governor therefore stated and repeated these facts to the **Premier**, and now deems it his duty to record them here, in order that they may serve as a memorandum for himself and the **Premier**.

It results therefore,-

1. That although the Lieutenant Governor had made several representations, in his quality of Representative of the Crown, to the Premier on those various subjects of public interest, his advisors have taken administrative and legislative steps contrary to such representations and without having previously advised him.

2. That the Lieutenant Governor has, without evil motives, but in fact, been placed in a false position, by being exposed to a conflict with the desires of the

Legislature; desires which he knowledges to be paramount, when expressed in a constitutional manner.

The Lieutenant Governor has attentively read and examined the memorandum and documents which the Premier was kind enough to bring him yesterday.

In the record are petitions from several Municipal Corporations and from citizens of different localities, addressed to the Lieutenant Governor, against the resolutions and the Government Bill respecting the Quebec, Montreal, Ottawa and Occidental Railway.

The Lieutonant Governor was only yesterday in a position to take communication of some of these petitions, in as much as they had not been transmitted to him, before the Record.

The Lieutenant Governor, after mature deliberation, cannot accept the advice of the Premier in reference to the sanction to be given to the Railway Bill, initialed : "An Act relating to the Quebec, Montreal, Ottawa and Occidental Railway."

For all these reasons therefore, the Lieutenant Governor cannot conclude this memorandum without expressing to the Premier the regret which he feels in being no longer able to retain him in his position, contrary to the rights and prerogatives of the Crown.

# L. LETELLIER,

#### Lieut. Governor.

On the 2nd of March, about two o'clock, p.m., Mr. *DeBoucherville* went to *Spencer Wood*. When he arrived he was admitted to the presence of the Lieutenant Governor, and told him "that according to the memorandum received from him that day, he understood that he was dismissed from the office of Premier."

The Licutenant Governor told him he was to take his own interpretation from the letter. Upon this Mr. *DeBo ucherville* handed him the letter which will be found further on, as being his answer.

The Lieutenant Governor, without opening it before him, made some remarks on the difficulty in which the logislation had placed him.

Mr. DeBoucherville replied that in his present position he thought he had no opinion to express on the subject. He then bowed himself out. When he had proceeded a short distance from the house he caused the vehicle to return, having forgotten to ask permission from the Lieutenant Governor to give explanations to the House. After having been a second time admitted to the presence of the Lieutenant Governor, he ask permission to give explanations and to make known the memorandum of the Lieutenant Governor and his replies thereto.

The Lieutenant Governor told him he had no objection, and asked him as to the person he should send for. Mr. DeBoucherville replied that he looked upon himself having been dismissed—as being in a different position from a Minister who, although defeated in the House, still retained the confidence of the Sovereign; that he had had a majority of twenty-five in one of the late votes; that, under these circumstances, he did not think he could advise him in the matter. He then left him, and while in the ante-room, the Lieutenant Governor recalled him, and said : "Please delay the explanations until Monday."

The following is a copy of the letter which Mr. *DeBoucherville* handed to the Lieutenant Governor, when the latter told him he was to take his own interpretation of his memorandum.

#### QUEBEC, 2nd March 1878.

#### To His Excellency the Lieutenant Governor of the Province of Quebcc.

MAY IT PLEASE YOUR EXCELLENCY,—I have the honor to acknowledge the receipt of your memorandum, in which you come to the conclusion that you cannot retain me in my position as Premier.

I have therefore no other duty to perform beyond submitting to my dismissal from office, communicated by Your Excellency, reiterating at the same time my profound respect for the rights and prerogatives of the Crown and my devotion to the interests of our Province.

I have the honor to be,

Your Excellency's &c., &c.,

C. B. DEBOUCHERVILLE.

On the 28th January, 1878, Mr. DeBoucherville had sent to His Excellency the Lieutenant Governor, who was then at Rivière Ouelle, the following telegraphic despatch,

"Can you send me authorization-resolutions respecting finances."

The Lieutenant Governor on the following day, the 20th telegraphed Mr. De Boucherville :

"Blank mailed to-day. If presence necessary, telegraph. Return Friday." The resolutions respecting the North Shore Railway were submitted to the House only on the 29th January, after the telegram had been received from the Lieutenant Governor that a form signed in blank aad been mailed to Mr. DeBoucherville in reply to his despatch of the previous day, saying: "Can you send me authorization-resolutions respecting finances?"

On the 30th January, the first resolution was reported from Committee of the Whole. On the 31st it was adopted by the House. On the 1st February the House again went into Committee of the Whole and reported the other resolutions on the same subject. But it was only on the 5th that the adoption of the report of the Committee was carried, the House throwing out the motion of non-confidence on this point by 38 to 21.

On the 5th February, a Bill, based on these resolutions, was introduced; the second reading was delayed until the 18th February; the third reading took place on the 19th. During all this time, the Lieutenant Governor, to whom the Votes and Proceedings were sont daily, remained silent. On the 19th February, Mr. DeBoucherville met the Lieutenant Gevernor and, in

the conversation which took place on the subject of the measure, thought he had satisfied him as to its legality and the urgency of its being passed. The Lieutenant Governor was so far from being explicit as to his intentions, that Mr. DeBoucherville left him with the impression that he was authorized.

The Lieutenant Governor does not contend, in his memorandum of the 1st March 1878, that he had given orders to suspend the legislation.

Sent up to the Legislative Council, this Bill had gone through its third reading before the first letter was received from the Lieutenant Governor, dated the 25th Fobruary last, but only delivered at 4.30 p.m. on the 26th. In fact, the Lieutenant Governor, in his letter of the 1st March, admits that he did not, in any way, in his memorandum of the 25th February, express the opinion that he considered the Premier had intended to arrogate to himself the right of getting measures passed with-out his approval or of slighting the prerogatives of the Representative of the Crown.

Having ascertained that a misunderstanding existed as to the interpretation of the authorization asked by telegraphic despatch on the 28th January and answered on the 29th by a Message stating that a form signed in blank was sent, and in view of the impressions left by the conversation of the 19th February in Mr. DeBoucherville's mind, should the Lieutenant Governor have waited to make known, for the first time, the existence of this misunderstanding until the 26th February at which date the whole of the legislation, of which he complains, had been discussed and voted in the affirmative by both Houses.

The confidence shown by the Lieutenant Governor on the 29th January in Mr. DeBoucherville by forwarding the form signed in blank, was calculated to justify him in interpreting the silence of the Lieutenant Governor at least as not meaning dissent.

After these interviews of the 19th February, the silence observed until the 26th February was also of a nature to lead him to believe that he had a general authorization to submit to the House all measures which the public service required.

On the 31st of January, 26 days previous to the first memorandum of the Lieutenant Governor, the Honorable Treasurer made his Budget Speech, in which he announced the new taxes which it would be necessary to levy to meet the obligations of the Province, obligations contracted during several previous years and resulting from the policy then inaugurated on railways and which had received the concurrence of several Members belonging to the party opposing the Government.

of several Members belonging to the party opposing the Government. Can this speech, published in extense by the press of the whole country, have escaped the notice of the Lieutenant Governor?

On the 19th of February, the resolutions domanding those taxes, but at a lower rate than the one mentioned by the Treasurer in his speech, were presented; and on the 20th were adopted by a vote of 39 against 22.

The Lieutenant Governor, in his memorandum of the 1st March, complains that Mr. *DeBoucherville* did not let him know that the Government was in an impecunious condition, requiring special legislation to increase the public taxes.

The Premier would have formed an erroneous idea of the situation, if he had so qualified the temporary embarrassment, caused by the ill will of the Municipalities which had subscribed for the construction of the Provincial Railway, in neglecting to faithfully fulfil their obligations. He would have formed an erroneous idea of the situation, in presence of the results obtained, so far without any burden having been imposed in order to obtain them.

On the 22nd February, notice was given of resolutions respecting railways in the Eastern Townships and on the South Shore of the St. Lawrence,

On the 23rd of the same month the resolutions were introduced and subsequently adopted by a vote of 41 to 16. These resolutions do not in any way increase the actual debt of the Province.

The Lieutenant Governor said in the same memorandum "That the construction of the railway from *Quebec* to *Ottawa* should prevail over that of other railways.' The legislation of many years past on this subject establishes no priority in favor of the Provincial Railway to the detriment of railways in the Eastern Townships and on the South Shore. The *DeBoucherville* Government would have contravened the law, if they had adopted any other view of the matter.

In the same memorandum the Lieutenant Governor declares: "That he cannot ac cept the advice of the Premier in reference to the sanction to be given to the Railway Bill, initialed: 'An Act respecting the Quebee, Montreal, Ottawa and Ocoidental Railway.'" This declaration is premature, the Premier never having been called upon to give his opinion as to the sanction to be given; and if he had been called upon to do so, he would, under the circumstances, have recommended that it be reserved for the decision of the Governor General, being in doubt as to the Lieutenant Governor having the right, of his own accord *cx proprio motu*, to exercise the prerogative of veto, and thus to decide finally on the fate of a measure passed by both Houses, when the British North America Act of 1867 seems to leave such **power to the Governor General**.

The memorandum of His Excellency refers to petitions of several Corporations and citizens of different places, addressed to the Lieutenant Governor, against the resolutions and the measures of the Government concerning the Quebec, Montreal, Ottawa and Occidental Railway.

It is sufficient to consider that these petitions came from debtors, from whom the law intends to force payment, to arrive at the correct conclusion that the opinion of both House should prevail over that expressed in such petitions.

The Lieutenant Governor, in the same memorandum, refers to acts of administr. tion which date from before the Session and to which he has given his assent. As he alludes to matters for which the Government is responsible to both Houses, as advisers of the Crown, and as they are foreign to the question of prorogative raised by the Lieutenant Governor, they cannot be adduced in this memorandum, as reasons for the conclusion arrived at by His Excellency, that he cannot continue to rotain **M**r. *DeBousherville* in his position against the rights and prerogatives of the Crown; therefore, to avoid being carried away by this side issue or *hors d œuvre*, there is no reason to question them now.

The Lieutenant Governor further expresses the opinion " that the state of our finances forced us to make loans disproportionate to our resources."

The necessity of here repeating this phrase is to be regretted; but the credit of the Province requires that it should be contradicted. The mere reading of the Budget speech will suffice to reassure alarmists.

From all the above facts, from admissions contained in the last memorandum of the Lieutenant-Governor, from the transmission of the form signed in blank and sent by him in reply to a request of Mr. *DeBoucherville*, asking his authorization to introduce "resolutions respecting finances" and from the silence of the Lieutenant Governor up to the 26th February last, it results that no measures have been introduced into the House in opposition to the prerogatives of the Representative of the Sovereign.

Nothing more remains now for me to do but to reitorate the declaration I made in commencing these explanations; the *DeBoucherville* Cabinet has not resigned. It has been dismissed from office, by the Lieutenant Governor.

The Conservative party is no longer in power. But it is, in the House, the power —a qualified power.—a majority in the opposition. The majority here, the majority in the Council, the majority in the country. The Conservative party has been dismissed from office; but it stands uncompromised, without compromise, without division, —devoted to the constitution and to the welfare of the country.

Which motion was withdrawn, the mover not having obtained the consent of the House.

Mr. Loranger, seconded by Mr. Lynch, moved that the following address, affirming the privileges and immunities of the House, be presented by Mr. Speaker to His Excellency the Lieutenant Governor of the Province of Quebec, at the Bar of the Legislative Council, at the prorogation of this Legislature.

To His Excellency the Lieutenant Governor of the Province of Quebec.

# MAY IT PLEASE YOUR EXCELLENCY.

The Legislative Assembly of the Province of Quebec deem it their duty to humbly represent that the Cabinet of which the Honorable Henri Gustave Joly, is the chief, was defeated three different times, at the sitting of the eighth of March instant by majorities varying from twenty to twenty-two votes.

And they regret to state that the constitution has been disregarded by the advisers of His Excellency to the extent that they persist in retaining power against the will of the majority of the House and of the Country.

The Legislative Assembly believes it, moreover, their duty to express their regret that they have been put to the necessity of suspending the passage of the Supply Bill, until justice has been extended to the majority of this House.

The Legislative Assembly desires respectfully to represent to Your Excellency that there exists in the House a political party, possessing the confidence of the Country and having a large majority in the House; that this party is competent to administer the public business, and that the prorogation of the Legislature presently would be prejudicial to the legislation and to the interests of the Country.

The Legislative Assembly desires to represent to Your Excellency that the fact of the minority having a control over public affairs is the cause of the embarrassment under which the Province labors, through the suspension of the Supply Bill; and that a prompt solution of the difficulty may be arrived at by acting in conformity with the constitution.

The Legislative Assembly desires also to represent to Your Excellency, that inasmuch as there exists in the House a political party strong enough to command a large majority there is no necessity for a dissolution of the Legislature, a step which will cause considerable and useless expense to the Province and seriously threaten the peace and tranquility of the people of this Province.

And your Petitioners will ever pray.

And objection having been taken that the said motion is contrary to the constitation and should be considered out of order;

Mr. Speaker ruled :--- "That the point of order was raised and decided yesterday." And appeal having been made from Mr. Speaker's decision;

The question was put and carried in the affirmative on the following division :--

# In favor of Mr. Speaker's decision.

MM. Alleyn. Angers, Baker, Champagne, Chapleau, Charlebois, Deschenes, Dulac, Dupont, Fortin (Gaspi), Fradette, Garneau, Gauthier, Houde (Maskinongi), Houde (Nicolet), Kennedy, Lacerte, Lalonde, Larochelle, Lavallée, Le Cavalier, Loranger, Lynch, Murtin, Mathieu, McGauvran, Picard, Sawyer, St. Cyr, Taillon. The Honorable Mr. Scott, Secretary of State, informed the House that he and those Members of the Senate and House of Commons who are also Members of the Queen's Privy Council for Canada, did yesterday, wait on His Excellency the Governor General with the Joint Address of the Senate and House of Commons expressing their deep feeling of regret at His Excellency's approaching departure from Canada, and that His Excellency was pleased to make the following most gracious reply :--

#### Honorable Gentlemen :

It is difficult for me to find befitting words in which to thank you for the signal and unprecedented honour which has been conferred upon me by this Joint Address from your two Houses.

Regarding as I do the utterances of Parliament as the most august and authoritative expression of the popular sentiment, it affords me unmeasured satisfaction to be thus assured of the confidence and esteem of the inhabitants of the Dominion.

To win the good will of a nation is the greatest achievement open to human ambition, and to learn from you that I hold a place in the affections of the people of *Canada* is alike the highest triumph and the greatest pleasure I am ever likely to enjoy.

It would not become me to inquire how far this result is to be attributed rather to your own generosity than to any exertions upon my part. It is a happy principle rooted in the nature of Englishmen of all estates to content themselves with the simple discharge of those duties which lie to their hand, without considering too curiously to what degree their conduct may influence the personal estimation in which they are held by others, and their reward, when it arrives, is often as great a surprise as it is a satisfaction. All that I can say is that, from the moment I came amongst you, I have had but one thought—the desire to render faithful service to our Queen, to the Empire, and to Canada.

If there are no positive advantages to which I can point as having resulted from my administration, there is one boast I can fairly make. No act or word of mine has had a tendency to damp your personal devotion to the Crown, to discourage your attachment to the Empire, or to discredit the system of Constitutional Government under which you live.

I found you a loyal people, and I leave you the truest-hearted subjects in Her Majesty's Dominions. I found you proud of your descent and anxious to maintain your connection with the Mother Country; I leave you more convinced than ever of the solicitude of *Great Britain* to reciprocate your affection, of her dependence on your fidelity in every emergency. I found you men of various nationalities—of English, French, Irish, Scotch and German descent, working out the problems of Constitutional Government with admirable success; I leave you with even a deeper conviction in your minds that the due application of thé principles of Parliamontary (bovernment is capable of resolving every political difficulty, and of controlling the gravest Ministerial Crises, to the satisfaction of the people at large, and of their leaders and representatives of every shade of opinion.

When I resign the temporary Vice-royalty with which I have been invested into the hands of my Sovereign, I shall be able to assure her that not a leaf has fallen from her Maple Chaplet, that the lustre of no jowel in her transatlantic diadem has been dimmed.

'Thanks to the opportunities afforded me by the liberality of Parliament, I have been enabled to traverse the fertile regions of your North West, to appreciate your inexhaustible resources, and to scan the vast expanse of your territories from the *Atlantic* to the *Pacific*. The Speeches to which you refor in such flattering terms have been but the natural, the irresistible exclamations evoked by the sights I have beheld. Closely associated with me in the discharge of all my duties, has been the Lady to whom your Address refers in so kind a manner. Moving amid a society, where the proverbial gallantry of Frenchmen combines with English and Celtic chivalry to create in every Canadian home an atmosphere of purity and refinement; she naturally regards the six years she has passed amongst you as one of the happiest periods of her life, and I am commissioned to convey to you her warmest thanks for the good wishes you have expressed in her regard.

In conclusion allow me to assure you that I shall esteem it one of the greatest privileges of my future life to watch the progressive development of your prosperity, to advocate your interests in the British Parliament, and to confirm our fellowcountrymen at home in their conviction of the high degree to which Canada is destined to contribute to the welfare, the strength, and the renown of the British Empire.

Ordered, That the said Joint Addross to His Excellency the Governor General, together with His Excellency's reply thereto, be printed in both languages for the use of Members.

The Order of the Day being read for the second reading of the Bill initialed: "An Act respecting the offices of Receiver General and Attorney General of Canada,"

The Honorable Mr. Scott moved, seconded by the Honorable Mr. Pelletier,

That the said Bill be now read a second time.

The Honorable Mr. Wilmot moved, in amendment, seconded by the Honorable Mr. Miller,

To leave out the word "now" and after "time" to insert "this day threemonths."

Resolved, That a Message bo sent to the Senate to acquaint their Honors that this House disagrees to their amendment to the Bill (No. 46) : "An Act to amend "an Act respecting conflicting claims to lands of occupants in Manitoba," for the following reasons :---

1st. That the proposed amendment is at variance with the general scope and title of the Act respecting conflicting claims to lands in *Manitoba*, under which the question whether any person has a claim against the Crown is not referred to the Commissioners, but only the cases of persons who had acquired some estate or interest in land from the *Hudson's Bay* Company, or the cases of adverse or conflicting claims between persons under sub-sections three and four of section thirty-two of the *Manitoba* Act, and in respect of which it has been previously established to the satisfaction of the Minister charged with the administration of Dominion Lands, that there has been undisturbed occupancy of the same. The question whether any person has a claim against the Crown is, and should be, determined by the Minister prior to any reference to the Commissioners.

2nd. That the machinery provided by the Dominion Lands Act enables the Minister in charge to make the necessary investigation in the cases provided for by the amendment more expeditiously, efficiently and cheaply than can be done under this amendment, should it become law.

Erd. That the amendment would prevent the Minister from deciding adversely to the claimant without first making a "reference to the Commissioners, although the evidence accompanying the application may conclusively show that the person asking for a patent has no valid claim.

4th. That the amendment would injuriously impede the administration of Dominion Lands in *Manitoba*, and delay the allotment of some of the Half-breed reservations.

Ordered, That the Clerk of the House do earry the said Mossage to the Sonate.

Attest.

ALFRED PATRICK, Clerk of the Commons.

### PRAYERS :

× 1

The Honorable Mr. Macpherson, from the Select Committee on the Fort Frances Lock, presented their Report.

Ordered, That it be received, and The same was then read by the Clerk as follows :----

(Extract from the Minutes of the Committee.)

The Chairman submitted the following Report :---

THE SENATE, COMMITTEE ROOM,

Tuesday 30th April, 1878.

The Select Committee of the Senate appointed to enquire :---

"1st. Whether the Fort Frances Lock when completed can be used for the purposes of commerce, in connection with the Canadian Pacific Railway, so as to form part of the through communication from Lake Superior to Manitoba, and if not, what improvements will be indispensable (in addition to the said Fort Frances Lock) to afford unbroken communication for Steamers between the Railway Stations of Part Savanne (Lac des Mille Lacs) and Keewatin (Rat Portage) and the probable "Cost of such improvements? "2nd. What will be the use to the Dominion of the said Fort Frances Lock if it cannot be used for the purposes of Commerce, in connection with the Canada Pacific Railway, so as to form part of the said through communication?

"3rd. What is the distance between the said Lock and the point nearest to it on the Canada Pacific Railway?

"4th. What are the dimensions of the said Lock, its estimated and probable cost, the amount expended upon it and upon works connected with it, or in any way incidental to it, so far as is known; the appropriation from which the money expended upon it has been taken; whether such application of the money has been in all cases according to law, and whether the said Lock is being built by contract or otherwise ?

"5th. And generally to inquire into all matters relating to the *Fort Frances* Lock, with power to send for persons and papers, and to report from time to time to this Honorable House."

has examined into the subject referred to, and beg leave to submit the following Report :---

That the evidence annexed hereto shows that the Fort Frances Lock is situated on Rainy River, about a mile and a half below where the river debouches from the Lake of the same name; that it is intended to overcome a fall of about twenty-three feet, now passed by a portage; that when the lock is completed and the obstructions at the Manitou and Long Sault Rapids on Rainy River are removed, there will be unbroken water communication from Rainy Lake to Lake of the Woods;

That the evidence also shows that *Port Savanne*, where the Canadian *Pacific* Railway connects with the water stretches, is separated from *Rainy Lake* by nine portages, and that the difference in level between those two points is four hundred feet;

That the evidence has satisfied your Committee that the Fort Frances Lock, when completed, will not be used for the purposes of commerce in connection with the Canadian Pacific Railway, so as to form part of the through communication from Lake Superior to Manitoba.

That, although the Fort Frances Lock would have been very useful pending the completion of the all-rail route had that by Sturgeon Falls been adhered to, your Committee considers it a subject for regret that the lock should have been commenced before the location of the Railway was definitely fixed, and when it was determined to change the route from that vid Sturgeon Falls to the present one vid Port Savanne, which is so far north as to render impossible the utilization of the water stretches in connection with the railway, your Committee is of opinion that the work upon the Lock should have been stopped.

The evidence shows that the Railway was placed under contract from Fort William (Lake Superior) to Lake Shebandowan on the way to Sturgeon Falls (on an arm of Rainy Lake) on the 13th of April, 1875; that the work thereon was stopped, and the contract cancelled on the 19th of January, 1876, and the location changed to that by Port Savanne;

That when the line of Railway was changed in January, 1876, the expenditure did not exceed \$73,940, and your Committee is of opinion that the work should have been discontinued then, especially as what had been done—being excavation in solid rock—would not deteriorate, and the work might be resumed at any future time should the public interests require its completion.

In November, 1875, which must have been about the time when it was determined to change the location of the Railway, the Department of Public Works telegraphed to the Superintendent of the Lock in the following words:—

"Close all Canal works at Fort Frances; suspend all proceedings."

It might be inferred from this order that the Government, in consequence of the change of the location of the Railway, had seen the expediency of permanently discontinuing the works at *Fort Frances*; but unfortunately, in the opinion of your Committee, in April, 1876, the Department instructed the Superintendent to resume work upon the lock, by day labor. (*Vide* Return No. 88 to House of Commons, 1877.)

Mr. Mortimer, one of the Engineers examined by your Committee, stated in evidence that it was at one time contemplated by the Government to improve the Dawson Route; that in 1874 he was instructed to survey the portages and water stretches between Lake Shebandowan and the Lake of the Woods; that he had done so, and reported to the Department of Public Works on the improvements which he considered necessary. He estimated their cost —including those on Rainy River at \$341,000. Mr. Mortimer understood that the Chief Engineer, Mr. Sandford Fleming, was of opinion that the advantages—necessarily only temporary—which would be derived from the proposed improvements would not be commensurate with their cost, and the project was abandoned.

Mr. Sutherland the Superintendent of the work at Fort Frances, detailed to the Committee a plan of his for improving the communication between Port Savanne and Rainy Lake. It is somewhat similar in design to that reported on by Mr. Mortimer, but much more temporary in character. His estimate of the cost was \$150,000. Mr. Sutherland is not an engineer, and did not make a minute oxamination of the route for the improvement of which he ventured to submit an estimate.

Mr. Mortimer's plan did not include a lock at Fort Frances, and the substitution of a lock for a portage at that point would be of no appreciable value as part of any scheme which did not provide—as a railway from Lake Superior to Sturgeon Falls alone would do—for avoiding the portages, and the ascent and descent of the 400 feet between Rains Lake and Port Savanne.

Your Committee does not suppose that it can be intended, pending the construction of the central district of the Lake Superior section of the Canadian Pacific Railway, to connect the two ends of that section, now far advanced towards completion, viz: 114 miles from Lake Superior westward to English River, and 114 miles from Red River eastward to Rat Portage, over the short and steep portages, and in some cases rapid water stretches which lie between Port Savanne and Rainy Lake. If the Government had contemplated the adaptation of this route to the purposes of commerce, your Committee submit that the improvements should have been completed in time to have been available for the transport of rails and other railway materials to Manitoba, the freight of which, from Duluth, has cost the country, already—according to the Public Accounts, upwards of two hundred thousand dollars.

Your Committee, moreover, is of opinion that the many transhipments which would be unavoidable between *Port Savanne* and *Rainy Lake*, whether made in bulk or in detail, would prevent the route from competing successfully, in cost of transportation and in expedition, with lines of communication which are open through the *United States*, especially now that railways appear to be on the eve of completion to Manitoba vid Pembina.

Your Committee may state that it is in evidence that when Messrs. Carpenter & Co. were contractors for transport over the Danson Route, and received a bonus of \$75,000 a year from the Government, the charge for freight from Lake Superior to Fort Frances was \$40 a ton.

Your Committee ascertained that it is not the intention of the Government to propose the construction of the improvements necessary—in addition to the Fort Frances Lock—to afford unbroken communication for steamers between the railway stations of Port Savanne and Rat Portage, and, therefore, did not procure estimates of the cost of the great works which would be indispensable to attain that object.

Your Committee has failed to discover that the Fort Frances Lock can be of use to the Dominion. The evidence shows that it will not be of appreciable advantage even to the locality in which it is situated. The trade of the fertile Canadian bank of Rainy River, and of the whole country west of the lock, will seek the Railway at Rat Portage, and little or no portion of it will ascend through the lock and go eastwards, as, at the east end of Rainy Lake it will be confronted with the nine portages and the ascent of 400 feet which separates Port Savanne from Rainy Lake. The country on the Canadian shore of Rainy Lake is unsuitable for agriculture; a moderate trade in timber and saw-logs is all that can be expected to flow from that region. For the accommodation of such a trade when it springs up, a lock at *Fort Frances* will not be required; an inexpensive slide would answer every purpose, and even that would not have been needed for years. It has been suggested that the lock may be of service as a military work, but evidence was not taken on that point, as, in the opinion of your Committee, while the lock will be unused for commerce, it cannot be seriously contended that an isolated lock on the frontier of *Minnesota* may become a serviceable military work of this Dominion.

It was stated in evidence before your Committee that the distance between Fort Frances Lock and the nearest point of the Canadian Pacific Railway is between ninety and one hundred miles. The dimensions of the lock are : length, 200 feet; width in the clear, 38 feet; depth of water on the mitre sill at low water, according to Mr. Rowan, 41 feet, and according to Mr. Sutherland, 51 feet. The depth originally proposed was seven feet. It was stated by Mr. Sutherland in evidence that the expenditure upon the works, to the 30th June next, will amount to \$210,389; that the cost of the work, when completed, including the cost of removing the obstructions to the navigation at the Manitou and Long Sault Rapids on Rainy River, will not exceed \$250,000. Your Committee hopes that this sum will not be exceeded, as, in its opinion, the expenditure upon the Fort Francis Lock, whatever the amount may be, will prove to have been injudicious and altogether unprofitable to the Dominion.

The money expended upon *Fort Frances* Lock and the works incidental to it, was taken out of the appropriations made from time to time for the survey and construction of the *Pacific* Railway, and improvements on navigable waters in interior, in connection therewith. The works have been executed under the Government, by day labor, and not by contract, as required by the *Pacific* Railway Act of 1874.

All which is respectfully submitted.

D. L. MACPHERSON,

Chrisman.

The Honorable Mr. Campbell moved, seconded by the Honorable Mr. Macfarlane, That the said Report be adopted.

The Honorable Mr. Scott moved in amendment, seconded by the Honorable Mr. Haythorne,

That all after the words "Lake of the Woods" on the second page be struck out, and the following substituted :---

"From the printed reports of Mr. S. J. Dawson, who had charge of the Red River route lying between Lake Superior and Winnipeg, from the year 1868 to the year 1874, and from other authentic sources, it was generally believed that the shortest and most feasible line for the Railway from Lake Superior westward, was to be found vid Lake Shebandowan, Sturgeon Falls, and the North-West Angle of the Lake of the Woods, on the general line of the Dawson route; that the Engineer did succeed in finding a line as far as Sturgeon Falls, and for a distance of fourteen miles north west of that point; that exhaustive surveys were made extending over a period of two seasons with the hope of finding a line thence onward either by Rat Portage or by way of the crossing near the North-West Angle; that the evidence fully confirms the opinion arrived at by the Engineering Staff of the Pacific Railway, that a practicable line could not be found vid Sturgeon Falls by either of the routes indicated, and it had, therefore, to be abandoned, and the route deflected by Lac des Mille Lacs, and the contract, for work on the portion of the line abandoned had to be cancelled;

"That the Fort Frances Lock and improvements on the Rainy River were commenced on the well grounded assumption that the route vid Sturgeon Falls was feasible and would be ultimately constructed; and so large an expenditure had been made on the works before that line had to be abandoned that the Committee are of opinion it would not have been prudent to have discontinued the work after an expenditure of nearly \$73,940;

## 30th APRIL

241

"Ihat the improvements now nearly completed will not involve a largor expenditure than \$250,000, by which uninterrupted water communication will be obtained from Kettle Falls to Rat Portage, a distance of between 180 and 200 miles. That by the evidence it appears that the total distances of the several portages from Port Savanne, the point to which the Railway from Luke Superior will shortly be completed, and Kettle Falls, will not exceed twelve miles; that by the construction of narrow guage tramways, with horse cars, traffic can be carried to Kettle Falls and thence by water to Rat Portage, where communication will be made with the Railway to Red River, at Cost, in money and time, that will enable it to compete with the present route vid Duluth; that the expenditure involved in this proposition would not exceed \$150,000, making a total for the improvements between Savanne and Rat Portage of \$400,000, thus utilizing the two ends of the Railway which will shortly be completed between Lake Superior and Red River.

"In view of those facts your Committee are of opinion that the Government actod Wisely and prudently in not abandoning the Fort Frances works after so large an ex-Penditure had been made upon them."

The question being put thereon; the Committee divided, and the names were taken down as follow :-

PRAYERS 1

The Honorable Mr. Girard, from the Select Committee appointed to continue the investigation and to inquire into all the questions relating to the purchase of property at Fort William, for a terminus to the Canadian Pacific Railway, presented their Second Report.

Ordered, That it be received, and The same was then read by the Clerk, as follows :----

#### (Extract from the Minutes of the Committee.)

The Chairman submitted the following Report :---

#### THE SENATE,

#### COMMITTEE ROOM,

### Tuesday, 30th April, 1878.

The Select Committee of the Senate appointed to continue the investigation and to inquire into all the questions relating to the purchase of the property at Fort William, for a terminus to the Canadian Pacific Railway, and to send for persons, papers and records, and examine witnesses under oath, and to report thereon with all convenient speed this Session, beg leave to present the following as their Second Report :--

That, although not strictly within the order of reference, your Committeereceived much evidence bearing upon the respective merits of the Kaministiquia River and Prince Arthur's Landing as harbours. In the opinion of your Committee, either may be made an excellent harbour—the Kaministiquia by dredging, Prince Arthur's Landing by a moderate expenditure on permanent works. The harbour of Prince Arthur's Landing is only exposed to easterly winds, a quarter from whence gales or squalls rarely blow on Lake Superior. The safety of this harbour was proved in evidence given by Mr. Marks before your Committee, that, of 1,500 vessels which reported at the Custom House at Prince Arthur's Landing since 1869, not oneof them had sustained damage, to his knowledge, from storm in the harbour, or had to leave it for shelter. Mr. Kingsford, an Engineer of the Department of Public Works, gave clear and very intelligent evidence before your Committee, and submitted plans for a pier or breakwater, which, for a comparatively moderate sum, would provide the shelter needed to make Prince Arthur's Landing one of the most commodious harbours on the great lakes, and, in point of safety, a perfect harbour of refuge.

The Kaministiquia River when once entered, is completely land locked, and can be made a commodious harbour. In the opinion of your Committee, the chief Objection to placing the terminus of the Canadian Pacific Railway upon its banks, apart, from the large periodical outlay for dredging, is the early closing of the river in autumn. The length of the season during which the Canadian Pacific Railway can be used to bring the products of the North-West to the marts and shipping ports of the Dominion, will depend upon the navigation of the waters with which the railway will connect. If it is made to terminate upon the bank of the Kaministiquia, its businees season will be governed by the navigation—not of the great lakes, but of a sluggish stream of about 350 foet in width. As a rule, the Kaministiquia River closes, according to the evidence given before your Committee, about eight days earlier than Thunder-Bay at Prince Arthur's Landing, and the placing of the terminus of the railway on

X 18

the bank of the river will shorten, by the same number of days, the season during which the harvest of Manteba can be transported through Canada to the seaboard.

If, notwithstanding this, the Government decided that the Kaministiquia afforded the best site for the terminus of the Canadian Pacific Railway, your Committee submit that the best point on the bank of the river has not been selected, whether either the cost or the convenience of the terminal grounds be considered. The heighth of the banks was considered by the Engineer in charge of the Surveys, Mr. Murdoch, a serious objection to the present site; and he, in his Report to the Government, suggested that a place farther down the river "towards its mouth should be selected "for the terminus, to obtain lower levels and longer navigation in the fall of the "year." No notice, however, appears to have been taken of his recommendation. Your Committee is of opinion that had the suggestion of the Local Engineer been acted upon, a better terminus would have been obtained below the town plot, and at a much smaller cost. The line of railway could have been made to terminate on the river bank at the Mckellar farm without increasing its length or passing through the town plot, while the river navigation would have been shortened; and the locality named possesses all the requisites for an important railway terminus. The obtaining of the necessary land would also have been greatly facilitated, as only one or two lot-owners would have had to be dealt with, whereas, at the town plot there were fifty-five, the arranging with whom occupied two Valuators, and a Solicitor, for months at a large expense to the country.

The evidence did not disclose any reason which, in the opinion of your Committee, can be accepted as satisfactory, for deflecting the railway in order to make it enter the town plot of Fort William at the western limit, and then to pass through all the front lots to the castern limit. From the McKellar farm towards the mouth of the river, the bank is of a convenient height for docks, and the land is favorable for terminal grounds; the river flows in a straight course to the lake, making the navigation safe and easy, whereas between the point named and that adopted for the terminus, there is a sharp elbow in the river which necessarily increases the awkwardness of navigating it. The distance from Murillo Station—the first station west of Fort William—is as nearly as possible the same to the river at the McKellor farm, as to the terminus at the town plot. For these reasons, your Committee is of -opinion, that the terminus was not judiciously chosen. Your Committee is further of opinion, that it is to be regretted, that in purchasing land at Fort William, the Government should have departed from the course usually followed in acquiring land for railway purposes. Instead of resorting to arbitration-first tendering to the -owners of the land, the prices which the Government considered just, as provided for by law-the Government employed valuators, whose duty it appears to have been, to -endeavour to agree with the land-owners, as to the value of their lots and report to the Government. The following is an extract from their instructions :- "You will under-"stand that you are not authorized to close any agreements; all you can do is to "settle on a reasonable amount, subject to the approval of the Minister."

This shows that the Government reserved full power to deal with parties as might be deemed best, after receiving advice from the Valuators, so that the responsibility of the transactions rested entirely upon the Government.

The Valuators were directed to negotiate for land at the price which it commanded in December, 1874, when the plan of the railway reserve was fyled.

It was, no doubt, difficult to determine what had been the value of lots in the town plot in 1874, as the transactions then were few, and restricted chiefly to parties who speculated on the chances of the railway going there. "The Governmont had fixed the terminus of the railway in the town plot in June, 1874, at which time, in the opinion of your Committee, the plan should have been fyled, and so have prevented the speculation that subsequently took place. The Valuators, however, were not appointed until 1876. In December, 1875, the Chief Engineer, Mr. Sandford Fleming, addressed a letter to the Department of Public Works, of which the following is a copy :—

# :35T

### "CANADIAN PACIFIC RAILWAY, "OFFICE OF THE ENGINEER-IN-CHIEF, "OTTAWA, 11th December, 1875.

### "R. BRAUN, Heq., "Secretary Public Works Department.

"SIR,—This time last year, the Minister instructed you to take the necessary action, under the Statute, with regard to obtaining a sufficient quantity of land for the railway purposes at the town plot of *Fort William* on *Lake Superior*. On the 10th December last year, I prepared and furnished you with a plan of all the lands required at that place, and which it was proposed to take immediate possession of. I am under the impression you placed the matter in the hands of the Minister of Justice, in order that proper legal steps should be taken to acquire the land.

"The land referred to consists of a number of small town lots, and I have recently been informed that these lots are still being bought and sold by private persons. It becomes my duty, therefore, to draw the attention of the Department to this subject, so that, if legal possession of the land has not been fully taken, no time may now be lost in the matter.

#### "I am, &o., &o.,

"SANDFORD FLEMING, "Engineer-in-Chief."

This shows that, in the opinion of the Chief Engineer, the Government had been remiss, and that the public interests might suffer in consequence.

Your Committee submit that the apprehensions of Mr. Flewing were too well founded, as it is in evidence, that subsequently to June, 1874, many lots were bought and sold at from sixty to ninety dollars each by speculators, and re-sold to the Government at from two hundred and fifty, to three hundred dollars a lot. In 1976 when the Valuators visited the town plot for the first time officially, the firm of Measrs. Oliver, Davidson & Co. and their connections were the principal owners of the lots which were taken for the Railway terminus. Notwithstanding this fact, the Government appointed a member of that firm, Mr. P. J. Brown, a lawyer, to act with the Valuators. His duty, it has been stated, was to advise upon titles, but his instructions did not restrict him to that special duty. The evidence of the Valuators shows that he did advise them, and that his advice when given was, perhaps, not unnaturally, in favor of the lot-owners, and against the Government. He gave it as his opinion that the Railway Act of 1868 did not apply to the Canadian Pacific Railway. So far did he go in advising adversely to the Government, that the Prime Minister testified before your Committee that, when his attention was called to the subject, he "was very "much surprised," and that he "wrote a somewhat angry letter to Mr. Brown." It has been clearly proved, that Mr. Brown was an interested party, and your Committee submit that he, therefore, ought not to have been employed in any capacity in secondation with the Valuators. In the opinion of your Committee, the prices paid for land taken for the railway in the town plot of Fort William, and in the adjoining lot, number six of the Township of Neebing, were exceedingly, and unaccountably Attravagant. The town plot was a town only on paper when it was selected for the real way terminus. Previous to that, the regular price at which the Ontario Government sold half-acre lots was four dollars, and, but for the Railway, these lots would to of but little more value to-day than they were then. For the land taken from Oliver, Davidson & Co., and others, the Government paid at the rate of \$500 to \$600 per acre. In 1872 or 1873, Oliver, Davidson & Co., purchased lot six in the Township Of Neeling, adjoining the town plot, containing 136 acres, for about five dollars per Your Committee submit that the enhanced value of this property was due Cre. to the placing of the terminus where it is. Yet for eight acres of it, the Government, advised by the Valuators, paid about five hundred dollars per acre, being about four thousand dollars for eight acres, or over three thousand more for the eight acres them Oliver, Davidson & Oo., paid for the entire lot of one hundred and thirty-siz acres.

The Valuators testified that in valuing this land they had applied the Railway Act of 1868, which had the effect of reducing the price twenty per cent.

The clause of the Act which relates to arbitrations for land, is as follows :---

"The Arbitrators, in deciding on such value or compensation, are authorized and "required to take into consideration the increased value that would be given to any "lands or grounds through or over which the railway will pass, by reason of the "passage of the railway through or over the same, or by reason of the construction "of the railway, and to set off the increased value that will attach to the said lands, "or grounds against the inconvenience, loss or damage that might be suffered or "sustained by reason of the Company taking possession of or using the said lands or "grounds as aforesaid."

One of the Valuators further testified that, had they not applied the above section, they would have valued the land taken at \$500, instead of at \$400 per acre; and this, be it remembered, was for land, that had been bought some three or four years before, for about five dollars per acre, and which, but for the railway, would probably be worth no more to-day.

If the public were made to pay extravagant prices for the terminal grounds, they were, in the opinion of your Committee, made to pay more than an extravagant price for the building known as the Neebing Hotel (of which a photograph has been Tyled in evidence), which was crected after the owners-the Neebing Hotel Company -knew that they were placing it on the railway reserve. The builder stated in evidence that soon after he had commenced work in August, 1875, he had been warned by a Government Engineer that he was trespassing on the railway reserve; that he mentioned this fact to the confidential clerk of Messrs. Oliver, Davidson & Oo., and was told by "him to go on. Messrs. Davidson & Brown, partners in that firm, were aware long before the hotel was commenced—as their evidence shows—that the land on which it was placed was part of that which was required by the Government. Oliver, Davidson & Co. were shareholders in the Hotel Company; Mr. Oliver was the President. If the hotel was built after the owners knew, that the land on which they placed it, was in the railway reserve, they were not entitled to payment or compen-sation of any kind, but the Government did pay them, through Oliver, Davidson & Co., \$5,029 for it. In the case of the Hendrick Hotel, which was erected in the summer of 1875, and when Hendrick knew of the reservation, as testified to by Mr. Marks the Valuators based their valuation of the building on its actual cost, and that was established by affidavit; but in respect to the Neebing Hotel, there was no affidavit of the labor employed, nor of the materials used. Mr. Obver promised to transmit such an affidavit, but none was received by the Valuators. They reported the claim presented by the Neebing Hotel Company as oxcessive, and they disclaim having valued it, but made a special report to the Government, in which they question the validity of the claim. It is as follows :-

"In the claim of the Neebing Hotel Company, we are not prepared to recognize "the erection of this hotel, commenced in July, 1875, about six months after the "reservation of the property had been made."

Notwithstanding the clearly expressed opinions of the Valuators, and without requiring proof of the correctness of the accounts, or even subjecting them to un examination, the amount claimed was paid in full to Oliver, Davidson & Co. Had any examination been made, it would at once have been discovered that an item of \$500 was twice charged for the two lots on which the hotel stands. (This sum was refunded to the Government by Mr. Brown immediately after the double payment was discovered by your Committee.) It would also have revealed a discrepancy of \$82 in the account for hardware, between the amount of the account and the vouchers attached thereto. Your Committee also found, included in the \$5,029 paid the Neebing Hotel Company, the sum of \$500 charged for damages, but it has not been shown to the satisfaction of your Committee that any damage had been sustained by the Company. Mr. Reid, one of the Valuators, in his evidence said that, if interest had been allowed on the expenditure, the Company would have been willing to forego the claim for damages. An amount of one hundred dollars was charged in the account for interest, as well as the \$500 for damages, and both were paid. Your Committee is of opinion that the Government was grossly over-charged in this transaction, as it was understood by the Valuators that the *Neebing* Hotel Company only asked to be re-imbursed the cost of the building and of the land.

Your Committee directs attention to the large discrepancy between the quantity of material charged in the account of Oliver, Davidson & Co., and which was paid by the Government, and that which Henderson, the builder, admitted having received. His statement of the materials which were used in the building, was confirmed by Mr. Taylor, an Engineer, who carefully measured them last year. Mr. Law, a builder, gave substantially the same evidence as to the quantity of material. The lumber and other material received by Henderson for the building from Oliver, Davidson & Co., but not used by him, as well as a quantity of hardware, have not been accounted for to the satisfaction of your Committee.

After having heard and weighed the evidence which has been adduced during the enquiry, your Committee find it difficult to believe that the persons who enriched themselves at the expense of the people of *Canada* had not in some way ascertained, in advance of the public, that the Government had determined to locate the terminus of the Canadian *Pacific* Railway on the town plot of *Fort William*, and in this connection your Committee call attention to the following evidence:—

Messrs. Clark and Savigny, of Toronto, testified before your Committee that in the fall of 1874, Mr. Davidson, of Oliver, Davidson & Co., had told each of them that he had been informed on very high authority that the terminus would be in the town plot, and that he had shown to each of them a plan or tracing, on which the lots required for the railway were "colored in lake or pink;" that this coloring delineated with strict accuracy the lots which were afterwards taken by the Government; that Mesers. Clark and Savigny related to your Committee the circumstances which had impressed upon their memories, beyond the possibility of error, the date of Mr. Davidson's conversation, and that it could not have been held later in the season than the time named by them. Mr. Davidson stated that the conversations referred to by Mesers. Clark and Savigny took place in the early part of 1875, and that he had obtained his information from his Solicitor, Mr. Leys, who, he believed, he also had got in the Crown Lands Department at Toronto, and where, he believed, he also had got the plan of the town plot whereon the railway reserve was colored.

Mr. Leys testified substantially to the same effect. Mr. Mackenzie (the Prime Minister) in his evidence before your Committee stated that, in the autumn of 1874, he had written to Mr. Pardee, the Commissioner of Crown Lands of Ontario, informing him that the railway would probably go in the direction of the town plot, and requesting him to prevent, as far as possible, the taking up of lands there for speculative purposes.

Mr. Mackenzie also stated in his evidence that, when he requested the Department of Justice to appoint Mr. Brown to act with the Valuators, he was not aware that Mr. Brown was one of the firm of Oliver, Davidson, & Co., but your Committee submits that he might have been aware of it, for in the return (No. 52) to an Address of the Senate, which has been laid upon the tables of both Houses of Parliament during the present Session, will be found: "Articles of agreement (entered into on the 9th "day of February, 1875), made in duplicate between Adam Oliver, of the Town of "Ingersol, County of Oxford, Province of Ontario, lumber merchant; Joseph Davidson "of the City of Toronto, County of York, Province of Ontario, lumberer; and "Peter Johnson Brown, of the said town of Ingersoll, Esq., carrying on together the "business of contractors, as partners under the name, style and firm of 'Oliver, "Davidson & Company,' of the first part, and Her Majesty Queen Victoria, repre-"sented herein by the Minister of Public Works of the Dominion of Canada, of the "second part, etc." These articles ot agreement were for the construction of the "Measers. Oliver, Davidson and Brown, and, underneath, on behalf of the Queen, by "r. Mackenzie, the Minister of Public Works, and countersigned by F. Brawn, the Secretary of the Department.

All which is respectfully submitted.

M. A. GIRARD, Chairman. The Honorable Mr. Macpherson moved, seconded by the Honorable Mr. Aikins, That the said Report be adopted.

The Honorable Mr. Haythorne moved in amendment, seconded by the Honorable Mr. Simpson,

That all the words after "Report" be struck out and the following substituted :----

"That they have made diligent enquiries into all the matters submitted to them, have held 29 sittings, examined 29 witnesses on oath; inspected numerous maps, plans and documents, and have arrived at the following conclusions:---

"1st. That the selection of the Kaministiquia River as the western harbour of the Canada Pacific Railway on Lake Superior was most judicious; inasmuch as the said river affords ample space for wharfage, where vessels may lie in deep water, protected from all winds, and discharge or load alongside the rails.

"2nd. That access to the said river in its present state is neither difficult nor dangerous for ordinary lake steam vessels, drawing ten feet, or even more, and that it may be rendered both easy and safe for vessels drawing 13 feet, by the expenditure of a comparatively small sum in dredging.

"3rd. That the dredging operations already effected on the bar have proved successful, and demonstrate beyond doubt the practicability of obtaining 13 feet of water there, with a channel 66 feet wide, by the expenditure of \$18,050, and that any additional width of channel which may be deemed necessary, may be obtained by a proportionate outlay. On this and other points connected therewith, your Committee may be allowed to refer to the valuable evidence of Colonel Kingsford, who was specially employed to report on the capabilities respectively of the Kaministiquia and Prince Arthur's Landing.

"4th. That, in view of the prospective increase in the size and draft of vessels navigating the lakes, the *Kaministiquia* may, without difficulty, be adapted to such increase, its bed being composed of alluvial deposits easily removed by dredging.

"5th. That several Master Mariners and Engineers of large experience have given in evidence their opinions, and agree as to the unrivalled capabilities of the Kaministiquia, and its special adaptation for the purposes contemplated.

Captain James B. Symes gave his experience as to the periods when he had entered or left the river and harbour of *Thunder Bay*, and confirmed it by extractafrom his ships' log books extending over nine years, from 1869 to 1877 inclusive.

"6th. That an ample area for station grounds, conveniently situated on the river's bank, has been secured on favourable terms, and that in the opinion of your Committee the Valuators appointed by Government performed the difficult duty of treating with the owners of a number of town plots for the purchase thereof, with discretion, firmness and integrity.

"7th. That the rival Port at Prince Arthur's Landing, though it undoubtedly possesses many advantages for ordinary traffic, is not so well adapted for a harbour and terminus as the River Kaministiquia and grounds adjacent; and in this opision your Committee consider they are fully sustained by the valuable and independent testimony of Colonel Kingsford.

"All which is respectfully submitted."

The question being put thereon; the Committee divided; and the names were taken down as follow:-

ALFRED PATRICK, Clerk of the Commons.

The said Address to Her Majesty, was then read by the Clerk as follows :---

To the Queen's Most Excellent Majesty.

MOST GRACIOUS SOVEREIGN,-

We, Your Majesty's most dutiful and loyal subjects, the Commons of Canada, in Parliament assembled, humbly beg leave to approach Your Majesty for the purpose of representing:

That doubts exist regarding the Northerly and North-Easterly Boundaries of the North-West Territories and Rupert's Land, transferred to Canada by Order of Your Mujesty in Council, of the 23rd June, 1870, incorporating the Territories of the Hudson's Bay Company and the North West Territories with Canada.

That the discovery and working of minerals, in the vicinity of *Cumberland* Sound, have recently been reported, and other matters have transpired which make it important that all doubt respecting the jurisdiction of *Canada* over those parts of British North America should be removed with as little delay as possible.

That correspondence has taken place on the subject, between the Government of Canada and the Government of the United Kingdom of Great Britain and Ireland, which, through the Right Honorable the Secretary of State for the Colonies, has intimated its willingness to transfer, to the Dominion of Canada, all the Territories in question, and has invited an expression of the views of the Government of Canada respecting the propriety of Legislation for that purpose.

That it is expedient that the right of Canada to all of British North America, and the Islands adjacent thereto (not including the Province of Newfoundland) should be placed beyond question, and that the offer of Your Majesty's Government to transfer the said Territories to Canada be accepted. That to avoid all doubt in the matter, it is desirable that an Act of the Parlia ment of the United Kingdom of Great Britain and Ireland should be passed defining the North-Easterly, Northerly and North-Westerly Boundaries of Canada, as follows, that is to say: On the East by the Atlantic Ocean, which boundary shall extend towards the North by Davis Straits, Baffin's Bay, Smith's Straits and Kennedy Channel, including all the Islands in and adjacent thereto, which belong to Great Britain by right of discovery or otherwise; on the North the Boundary shall be so extended as to include the entire continent to the Artic Ocean, and all the Islands in the same Westward to the one hundred and forty-first meridian West of Greenwich; and on the North-West by the United States Territory of Alaska.

That it is desirable that the Parliament of Canada, on the transfer of the before mentioned Territories being completed, should have authority to legislate for their future welfare and good government, and the power to make all needful rules and regulations respecting them, the same as in the case of the other Territories; and the Parliament of Canada expresses its willingness to assume the duties and obligations consequent thereon.

A Message was brought from the House of Commons by their Clerk in the following words:-

House of Commons, Monday, 6th May, 1878.

Because it is contrary to the uniform practice of Parliament that contracts into which the Executive is authorized to enter should be made subject to the approval of the Upper Chamber.

Because in recognition of the practice the Executive was authorized by the Canadian Pacific Railway Act of 1874, to make all contracts for the construction of that great work subject to the approval of the House of Commons only.

Because in further recognition of the practice the Executive was by the same Act authorized to make contracts for leasing or working one of the Branch Railways in connection with any other Railway subject to the approval of the House of Commons only.

Because on the principle on which the approval of the Senate was not required to such contracts, it ought not to be required to a contract for leasing or working another of the Branch Railways.

Ordered, That the Clerk do carry the said Message to the Senate.

Attest.

ALFRED PATRICK,

Clerk of the Commons.

The Honorable Mr. Campbell moved, seconded by the Honorable Mr. Botsford, That the Clerk do go down to the House of Commons, and carry back the Bill intituled: "An Act to amend The Canadian Pacific Railway Act, 1874," and acquaint them that the Senate doth insist on their amendments made to the said Bill to which the Commons disagree, and for the following reasons, viz :---

1. That the Senate doth insist on the said amendment for the reason that without it the Bill would provide for the disposal of public property for a term of years without obtaining the sanction of both Houses to the terms of the transfer.

2. And for the reason that the terms of the lease of a railway running to a foreign country, and forming the only outlet for the Province of Manitoba and the North-West Territories, until the completion of the Pacific Railway easterly from Red River, involve questions of public policy likely materially to affect the course of traffic and the prosperity of the Dominion, and is one of those agreements which should be laid on the Table of the Senate as well as on that of the Commons before becoming operative.

3. And for the reason that the practice of Parliament referred to in the first reason given in the Message from the House of Commons has never extended beyond contracts for the completion of Public Works, for which money voted by the Commons is in the course of being expended, other contracts having been constantly submitted for the approval of both Houses,—for example:—

(a.) The transfer of the Windsor Branch Railway, Nova Scotia, to the Western Counties Railway Company, and for the working it in the meantime Resolution of the Commons, 23rd May, 1873, and of the Senate of the same day, Chap. 16 of the Statutes of 1874.

(b.) The transfer of the *Pictou* and *Truro* Railway authorized to be made to any Company constructing a Railway to the Gut of *Canso*, and to provide for its temporary disposition in the meantime. Resolution of the House of Commons, 19th May, 1874, Chap. 46 of the Statutes of 1877.

(c.) Contract for the Ocean Mail service in 1869 (32 and 33 Vic., Chap. 5), and that in 1873 (36 Vic., Chap. 33) on account of their general bearing on the trade and business of the Dominion, were made subject to ratification by both Houses of Parliament.

4. The *Pacific* Railway Act of 1874 was only submitted to the Senate towards the very close of the Sessions, and was in Committee the day before the prorogation; the Bill was not considered clause by clause, and the provision for leasing a Branch Railway to connect the Eastern terminus of the *Pacific* Railway with existing or proposed lines of Railway escaped observation, or it would not have been sanctioned.

The question of concurrence being put thereon; the House divided: and the names being called for, they were taken down as follow:---

The Committee would also respectfully recommend that their recommendation as contained in their Ninth Report that, "The Reports and documents in reference to the location of the line and a Western Terminal Harbor, Canadian *Pacific* Railway" be not printed, be rescinded, and would now, on re-consideration, respectfully recommend that they be printed.

The Committee also recommend that the following documents be not printed, viz.:-

Return to Address,—Orders in Council relating to the balances of appropriations of 1876-7, which may have lapsed and been carried over to the following year.

Return to Order,—Return of ranks and names of all officers who have attended and taken long or short course certificates at the "A" or "B" Battery Schools of Gunnery.

Ordered, That the said Report be adopted.

A Message was brought from the House of Commons by the Clerk to return the Bill intituled: "An Act to amend the Law relating to Stamps on Promissory Notes "and Bills of Exchange."

And also the Bill intituled: "An Act to provide for the better auditing of the "Public Accounts," and to acquaint this House that they have agreed to the amendments made by the Senate to the said Bills without any amendment. A Message was brought from the House of Commons by their Clerk in the following words :--

#### House of Commons,

Wednesday, 8th May, 1878.

Resolved, That a Message be sent to the Senate to acquaint their Honors that this House agrees to their third amendment to the Bill (No. 14) intituled: "An Act "further securing the Independence of Parliament," and disagrees to the first and second of their amendments, for the following reasons:—

Because the independence of this House (which it is the object of the first clause amended to secure) might be impaired if persons ontitled to superannuation or retiring allowances were eligible for seats in this House, as some of such recipients might be called into active service by the Administration of the day under the penalty of abandoning their pensions or allowances.

Because it might lead to the superannuation of civil servants in order to make them eligible for Election to this House whereby the public service would be injured and the independence of the House affected.

Because another class, viz: Judges, are entitled to retiring allowances only when suffering from bodily or mental infirmity disabling them from work or are retired under the discretionary power of the Government for reasons alleged to affect the administration of Justice. It would therefore tend to affect the independence of the Bench as well as interfere with the independence of this House.

As to the second amendment :--

Because it is contrary to sound policy to allow the Clerks of the Peak who are in several Provinces the custodians of the Lists of Voters which must be used at the Elections of Members of the House of Commons to become Candidates.

Ordered, That the Clerk do carry the said Message to the Senate.

#### Attest.

#### ALFRED PATRICK,

#### Clerk of the Commons.

The Honorable Mr. Scott moved, seconded by the Honorable Mr. Pelletier,

That this House does not insist on the first amendment to which the Commons disagree.

The Honorable Mr. Campbell moved in amondmont, seconded by the Honorable Mr. Allan,

To Resolve. That the said Bill intituled: "An Act further securing the Indepen-"dence of Parliament" be returned to the House of Commons with a Message to the effect that the Senate doth insist on their first amendment to the said Bill, for the following reasons:--

1. Because in view of our system of Government, under which the people of the different Provinces are represented in Local Legislatures and in general Parliament, a large number of suitable representatives is needed as compared to the educated population and it is unwise to restrict the choice of the people by declaring ineligible a class likely to present from education and knowledge of affairs, persons with strong claims to the confidence of an electorate.

2. Because when once a superannuation allowance is granted under the Statutes to retired Public Officers, it becomes an indefeasable right and cannot be withheld at the discretion of Ministers of the Crown, or except for cause defined in the Statute.

T

200

3. Because the Superannuation Act is administered under the responsibility of Ministers of the Crown to Parliament, and they would be amenable to the censure of Parliament for any infringement of public or private rights in connection therewith.

4. Because the tenor of Imperial Legislation of late years has been to justify the presence of retired Civil Servants in both Houses of Parliament on account of the great public advantage to be derived from their knowledge and experience in public affairs, and no inconvenience has resulted from their liability (under any circumstances very remote) of being recalled to the Public Service.

The question of concurrence being put thereon; the House divided : and the names being called for, they were taken down as follow :---

A Mossage was brought from the House of Commons by their Clerk with a Bill intituled : "An Act for granting to Her Majesty certain sums of money required "for defraying certain expenses of the Public Service for the financial years ending "respectively the 30th June, 1878, and the 30th June, 1879, and for other purposes "relating to the Public Service," to which they desire the concurrence of this House

The said Bill was read for the first time.

On motion of the Honorable Mr. Scott, seconded by the Honorable Mr. Pelletier, it was

Ordered, That the Forty-first Rule of this House be dispensed with in so fur as it relates to the said Bill, and that the same be now read a second time.

The said Bill was then read a second time.

Then on motion of the Honorable Mr. Scott, seconded by the Honorable Mr. Pelletier, it was

Ordered, That the said Bill be read a third time presently. The said Bill was then read a third time accordingly.

The question was put whether this Bill shall pass?

It was resolved in the affirmative.

Ordered, That the Clerk do go down to the House of Commons and acquaint that House that the Senate have passed this Bill without any amendment.

A Message was brought from the House of Commons by their Clerk in the following words :---

#### House of Commons,

#### Thursday, 9th May, 1878.

Resolved, That a Message be sent to the Senate to acquaint their Honors that . this House disagrees to their amendments to the Bill No. 68, intituled: "An Act to "amend the Act, 38 Victoria, Chapter 11, intituled : "An Act to establish a Supreme "Court and a Court of Exchequer for the Dominion of Canada," for the following reasons :-

Because the first amendment by inserting the word "highest" will in effect destroy this Section which was intended to remove doubts as to the provisions of the Law as it exists respecting the right to appeal from the Court of final resort ;

Because the second amendment would deprive parties of a right of appeal to the Supreme Court, in matters wherein an appeal lies to the Privy Council, and because

there seems to be no reason why an appeal should be refused in matters relating to titles to land, annual rents, or such like matters or things where the rights in future might be bound.

Ordered, That the Clerk do carry the said Message to the Senate.

#### Attest.

#### ALFRED PATRICK,

Clerk of the Commons.

The Honorable Mr. Scott moved, seconded by the Honorable Mr. Pelletier,

That this House does not insist on their amendments to the said Bill intituled: "An Act to amend the Act 38th Victoria, Chapter 11, intituled: 'An Act to estab-"lish a Supreme Court and a Court of Exchequer for the Dominion of Canada."

The Honorable Mr. Campbell moved in amendment, seconded by the Honorable Mr. Armand,

To leave out all the words after "That" and insert "it be *Resolved*, "That the said Bill be returned to the House of Commons with a Message informing "that House that the Senate doth insist on their said amendments, for the following "reasons:

"As to the first amendment :----

"That it is unwise to allow an appeal, save from the Highest Court of final resort "in each Province, and that the word "Highest" was inserted by the Senate's first "amendment to prevent doubt on that point, and maintain the right of appeal as it "now exists.

"As to the second amendment :---

"That the words struck out apply to cases involving the title to, or questions "relating to, the laws of immovables in the Province of *Quebec*, laws derived from "France which are not familiar to the majority of the members of the Supreme "Court, nor is the French language, and that an appeal to Her Majesty's Privy "Council from the Courts of their own Province affords in both respects a satisfac-"tory tribunal to the people of Lower Canada; and that it is unwise to deprive them "of the right they now enjoy in this respect."

The question of concurrence being put thereon; the House divided : and the names being called for, they were taken down as follow :---

A Message was brought from the House of Commons by their Clerk in the following words :--

U

Honorable Gentlemen of the Senate :

#### Gentlemen of the House of Commons :

Lam glad to be able to relieve you from further attendance in Parliament after a somewhat long and laborious Session.

I shall take the necessary steps, at an early day after the close of the financial year, to give effect to the measure you have passed for the better auditing of the Public Accounts.

I shall call the attention of Her Majesty's Government to your Address praying that all of *British America*, except *Newfoundland*, shall be, by imperial action, declared to be within the Dominion of *Canada*.

I rejoice that during the term of my administration this final step to consolidate British interests on the Continent of *America* has been taken with somuch unanimity, and that henceforth the Dominion Government will, under Her Majesty, 'exercise undisputed sway over the northerly half of this Continent.

I am happy to be able to state that, pending the final settlement of the question of boundary, a conventional line has been adopted by my Government and the Government of the United States, between Alaska and British Columbia on the Stickine River.

The large sums you have appropriated for the great works of internal improvement will be expended with the most rigid regard to economy, and in the expectation that the principal canals under construction may be nearly completed within the next financial year.

The settlement of *Manitoba* and the *North-West Territories* has been proceeding this year with unexampled rapidity, and if the efforts of my Government to obtain a railway connection with *Winnipeg* at a very early day should be successful, I anticipate, next year, a still larger increase to the population.

It is specially gratifying to find so many Canadians who had in former years emigrated to the *United States* now returning to the newly organized territories of their native land.

#### Gentlemen of the House of Commons :

I thank you for the supplies which you have granted for the various public services.

#### Honorable Gentlemen of the Senate :

Gentlemen of the House of Commons :

Nothing could have given me more gratification than the joint Address with which you have honored me on the eve of my departure.

My interest in *Canada* shall not cease when my mission as Her Majesty's Viceroy shall have terminated, and I am glad to know that you have taken so favourable a view of my efforts to fittingly represent our Most Gracious Queen in this the most important of Her Majesty's Colonial Possessions.

I now bid you farewell, and earnestly trust you may find in the future the manifold blessings which I shall ever pray may be continually showered upon you.

Then the Honorable the Speaker of the Senate said :---

Honorable Gentlemen of the Senate:

Gentlemen of the House of Commons:

It is His Excellency the Governor General's will and pleasure that this Parliament be prorogued until Wednesday, the nineteenth day of June next, to be here holden; and this Parliament is accordingly prorogued until Wednesday, the nineteenth day of June next.
