We do not entertain a shadow of doubt that a very large proportion of those who contend for a were thirty-one collisions by steamers, by which very sarge proportion of those who contend for a were thirty-one contains by accuracy of the cessation of postal intercourse on the Sabbath are 62 persons were killed. The loss of life on the animated by the purest motives, and sincerely Lakes during the last ten years, from explosion, desirous of securing that respect for the day of fire, and collision, amounted to 877. rest which they believe to be enjoined upon Christian communities. There have been some who yielded their convictions to intimidation, and aimed at gaining a reputation for religious feeling by the trifling sacrifice of their private opinious. Any journalist who descretes the legislation closing the Post Office on the Suhday, is apt to be taunted with coolness and lack of zeal in behalf of Christianity, if even he escapes the graver charge of infidelity; but we believe the friends of the measure can be encountered with facts and the measure can be embouried which, when arguments, patent to the world, which, when style and matter, to its popular New York conbrought fairly to any issue, must compel them to admit, that the principle they advance cannot be carried to its legitimate conclusion, and that hence their intentions and their acts conflict with each other. That there should exist discordant opinions upon the mode in which the Sabbath should be observed, has long been admitted by Churchmen One Petition was brought up and laid on the a.ble.

Jaws, and frame their conduct in conformity with the Levitical code; another class contend, in the words of the New Testament, that the Subbath was made for man, and not man for the Sabbath. To reconcile these differences has constantly been found impracticable, and long experience has currently the conformal than conformal the conformal than the substance. There is a substance of the substanc forced the expediency of toleration. There is a tendency in the spirit of secturianism to dictate and coerce; forcing men's minds into one channel of thought and action. It is the spirit of persecution softened by the influences of civilization; but the germ is the same that furn shed such bloody proofs of the relentless nature of bigotry with which the page of history teens. Throwing aside, as irrelevant to the inquiry, any discussion upon the merits of the various forms of worship established in this Colony, we turn to the mooted point, and meet the advocates of the measure in heir chosen citadel, and confront them with their y national or Canal, between the Rivers St. Lawrence and St. John.

On motion of Mr. Tache, five hundred copies of the said Report were ordered to be printed, and labor; but we may should its advocates stop short at the Post Office:

—why should the policeman be condemed to keep guard 1—why suffer the sailor to navigate the vessel, when the sails might be furled, and labor ease 1—why allow breveries and distilleries and gas works to continue in operation on the Subbath 7—why tolerate Sunday dinners, Sunday cab and carriage driving, or any act involving labor, which ministers to the enjoyment.

On motion of Mr. Malloch, the Canality of the Canality of the Mr. Sailor of the Sailor Sunday cab and carriage driving, or any act involving labor, which ministers to the enjoyment of the wolfking man, emancipated from toil on the Sabbath and inclined to enjoy himself. The march of civilization has caused the Post-Office to be an essential element of primary necessity to society. It is in vain that railroads and steamboats have been forced into existence, if we are boats have been forced into existence, if we are to force and the henefits they can confer. The

TURKISH BLACK SALVE. NDER THE PATRONAGE OF THE HONORABLE THE EAST INDIA COMPANY.

THIS SALVE, prepared from the original Re-ceipt procured from a celebrated Turkish Hakim. (physician) of Smyrna, in Asia Minor, and which has obtained an unprecedented celebrity in Great Britain and the East Indies, from the astonishing Cures performed by it in both these countries, has lately been introduced into Montreal. As might be expected, its popularity has followed it, and its use is becoming general among all classes. The Proprietors, prompted by the very flattering reception it has met with in the Metropolis, have determined on extending its usefulness to all other parts of Canada; and, for that urpose, have established Agencies in all the principal Cities. They flatter themselves that when its wonderful properties shall become more generally known, they will meet with that encouragement which the introduction or such a valuable medicament into a country justly entitles them.— The contracted limits of an advertisement necessarily precludes their entering into any adequate detail of its merits, but, for the information of the public, they intend to publish, from time to time, such statements of cures as have or may occur and for the present will content themselves with merely enumerating some of the complaints for which it has been used with the most complete success-Such as Swollen Glands, Broken Breasts, White Swellings, Whitlows. Scalds from Steam boat explosions, or other causes, Burns, Fever Sores, Scrofu'ous Sores, Sore Nipples, Carbuncles, Scald Head, Gun-sl.ot Wounds, Bruises, Boils Frostbites, Wens, Chilblains, Ulcerated and Common Sore, Throats, and Bonions. If used in time it will prevent or cure Cancers, also, Swellings arising from a blow on the Breast, Ring Worm, Pains in the Back, Rheumatism, Gout, Pains, in the Chest, Palpitation of the Heart, Complaints in the Liver, Spine, Heart and Hip, Rushing of Blood to the Head, Swelled Face and Toothache. In fact, it is impossible to enumerate half the complaints that have been cured by the application of this Salve. It is very portable-will keep in any climate, and requires little or no care in its application, as it may be spread with a knife on any substance, such as chamois leather, linen, or

brown paper. Sold in Montreal by S. J. LYMAN & Co. Place d'Armes; SAVAGE & Co., Notre Dume Street; URQUHART & Co., Great St. James Street ; W LYMAN & Co, St. Paul Street, and in all th principal Cities in Canada.

When I commenced taking them, I laid at the point of death, with Drorsy, Piles, and Asthma. My Physicians had given me over as past curse, and my lamily had lost all hope of my recovery. While in this deadful situation, your Forest Wine and Pills were procured for me, and before ham finished the first bottle of the Wine, and box of Pills, I experienced great, relief; my body and fimbs, which were greatly swollen, became sensibly reduced. Hopes of my recovery beganing to revive, and after continuing the use of your medicines for about a month, the Piles and Asthma were completely circuit. The Dropsy, with which my life was placed in such great dameger, wis also nearly gone. I have continued the time of your Medicines until the present time, and I now enjoy as perfect health as ever I did in my life, although I am m. re than sixty years of age.
