

BIG BATTLE TAKES PLACE ON THE GALLIOLI PENINSULA

TERRIBLE SLAUGHTER AT THE DARDANELLES

Bodies Lying Four and Five Deep on the Ground--Many of Them Standing Erect.

London, July 13.—The Chronicle publishes the following from George Renwick, its correspondent at the Dardanelles, who gives his account of the recent heavy fighting on the Gallipoli Peninsula already officially reported.

The heaviest fighting which has taken place in the Gallipoli Peninsula since the allied forces landed there was that which began there Tuesday last and lasted well into Wednesday.

(Continued on Page 4)

FACTORY HEAT FOR GROWING MANY THINGS

By Special Wire to the Courier. Dresden, via London, July 13.—Successful results of experiments in increasing yields of gardens by heating the earth with the waste heat from factories, industrial establishments are announced by Professor Kuebler of the technical high school.

The originator of the scheme is a local engineer, who advocated experimenting with water heated by the waste heat from electric stations and factories and piped even miles distant to gardens and small farms.

(Continued on Page 4)

ALLIES GAIN TWO HUNDRED YARDS AND BOMBARD INTERIOR FORTS AT THE DARDANELLES.

DISSENSIONS IN TURK ARMY

Russians are Fortifying the Roumanian Frontier--Germany Has Given Her One Month to Reply.

By Special Wire to the Courier. PARIS, JULY 13.—THE ATHENS' CORRESPONDENT OF L'INFORMATION INFORMS HIS PAPER HE HAS RECEIVED FROM MYTILENE, NEWS TO THE EFFECT THAT AFTER ANOTHER SERIOUS BATTLE ON THE GALLIOLI PENINSULA, THE ALLIES' RIGHT WING HAS ADVANCED 200 YARDS AND THAT THE BOMBARDMENT OF THE INTERIOR DARDANELLES' FORTS CONTINUES.

London, July 13.—Despatches from Asia Minor received by the Exchange Telegraph Company's Athens' Correspondent state that all German officers with the Turkish army in Syria, have returned to Constantinople because of dissensions among the Turkish officers.

The Syrian railroads are said to have suspended operations because of the shortage of coal.

Berlin, via London, July 13.—A despatch to the Tageblatt from its correspondent at Cernowitz, Bukovina, says:

"The Russians are fortifying their Roumanian border. Many thousands of men are at work digging trenches parallel with this border and building barbed wire entanglements. The operations are being rushed with all speed."

The Russian Government of Bessaraba borders Roumania on the east. Austria-Hungary is reported to have pledged Roumania to undertake the conquest of Bessaraba and transfer it to the Balkan state in exchange for Roumania's active support in the war.

Russia on the other hand has attempted to win the support of Roumania for the allies by promising the cession of the Hungarian territory of Transylvania, which borders Roumania on the west.

London, July 13.—The Post's Bucharest correspondent explains that Roumania has been given one month to reply to the Austrian offers, because for that time Germany believes that Turkey will be able to hold out in the Dardanelles, and, he adds, Austria and Germany will insist upon this time limit owing to the anxiety caused by the imperative necessity of securing free transport of munitions for Turkey through Roumania.

NOT INVESTED London, July 13.—A Petrograd despatch to The Times says:

"All rumors that General Von Boehm-Ermolli's army has relieved General Von Mackensen and that the latter is now transferring his forces to the Warsaw or the western front, are totally discredited. On the contrary it is credibly reported that General Von Mackensen is being strongly reinforced and will soon resume operations."

"It is explained with reference to the sortie from Ossewitz that the fortress was not invested, that the enemy's activity was confined to its northern front. The fortress since November has maintained unbroken communications with its rear, successfully barring access to Bialystok and Brest Litovsk."

VICTORY FOR BOER GENERAL

London, July 13.—According to a Rotterdam despatch to the Exchange Telegraph Company, the German Colonial Office, in a statement relative to the surrender of the German forces in Southwest Africa, says:

"If this surrender actually has taken place it was due to the overwhelming superiority of the British forces and occurred under the most honorable circumstances. It is the first British victory of the war and was won by a Boer general, and it will not affect the ultimate result of the war"

Germans Retreated Before the Canadian Infantry Who Went Gamely Through Every Obstacle

Sir Max Aitken's Story of the Dominion Troops--A Record of Men That Were Dauntless in Attack and Stood Fast Under Awful Fire--A Narrative That Will Thrill Canada.

London, July 13.—Contradictory reports regarding the extent of the Austro-Hungarian reverse at Krasnik, in southern Russian Poland, continue, some even claiming that the Austro-Hungarians are contemplating a general retreat, but the mystery of the situation is the persistent silence maintained by Field Marshal Von Mackensen, who apparently is making no effort to resume the German advance on Warsaw.

Petrograd reasons this inaction of the Germans as being due to the fear of Field Marshal Von Mackensen that his left flank would be exposed, while the Austrians were on the defensive, but some fear is expressed in London by observers that the German military commander is planning an unexpected coup.

The German attack on Stouchev, where the French advances had threatened the town of Lille may indicate the arrival on the western front of the long-expected Teutonic reinforcements, but evidence still is lacking of any strong offensive on either side along the battle front in France and Belgium.

Germany and Austria-Hungary, according to despatches from the Balkan states, are using every diplomatic resource to induce Roumania to join military forces with the central powers or at least to preserve an attitude of permanent friendly neutrality. It is reported that the Austro-Hungarian minister at Bucharest has offered the Roumanian Government liberal territorial compensation for armed assistance, countering Russia's offer of Transylvania with that of Bessaraba.

Her reward for friendly neutrality is said to be Bukovina as far as the River Pruth.

From Austrian sources comes a report that Russia is giving substantial proof of the possibility of Roumania's accepting one of these Teutonic offers by building trenches and entanglements along her Roumanian frontier.

Bulgaria and Turkey are said to have reached a deadlock in their negotiations on account of the refusal of Sofia to do more than preserve a friendly neutrality in return for territorial compensations from Constantinople.

London, July 13.—The intelligence branch at general headquarters of the British army in the field authorizes the publication of the following narrative by Sir Max Aitken, the Canadian record officer, serving with the army in France:

"At Canadian battle front—Things have transpired which made me learn the size and meaning of the game. I did not more than others did, I don't know where the change began. I started as an average kid, I finished a thinking man—Kipling.

"I send you here a bald record of work in the trenches by our own people. It is couched almost in official phrases, but, now and then, I have interpolated some personal anecdote, which may help to show you what triumph and terror and tragedy of permanent friendly neutrality. It is reported that the Austro-Hungarian minister at Bucharest has offered the Roumanian Government liberal territorial compensation for armed assistance, countering Russia's offer of Transylvania with that of Bessaraba.

headquarters moved to the southern attack by the Germans directed at a bridgehead occupied by us on the section of the British line in readiness for new operations. During that time reinforcements had poured in from the Canadian base in England where were gathered the Dominion troops whose numbers and efficiency we owe to the large vision and untiring energy of the minister of militia and defence. His direct and comprehensive methods are an example which the Empire might follow with advantage. On the 17th of May, the re-made infantry brigades advanced towards the firing line once more. The attack followed.

OCCUPIED RESERVE TRENCHES "It must be understood that on the afternoon of May 18th the Third brigade occupied reserve trenches, two companies of the 14th Royal Montreal regiment commanded by Lieut. Col. Leckie being ordered to make an immediate advance on La Quinke, due northwest of an orchard which had been placed in a state of defence by the enemy, one company of the 16th Canadian Scottish was to make a flanking movement on the enemy's position in the orchard by way of an old German communication trench, and as this attack was to be made, of course, in conjunction with a frontal one, little time was available to make dispositions, and as there was no opportunity to reconnoiter the ground it was very difficult to determine the proper objective. The flanking move-

GERMAN RAIDER SHIP KONIGSBERG DESTROYED

EDISON HAS ACCEPTED THE CHAIRMANSHIP

Washington, July 13.—Announcement by Thomas A. Edison of his acceptance of Secretary of the Navy Daniels' offer to head an advisory board of civilian inventors for the proposed bureau of invention and development in the navy department, was received with gratification to-day by naval officers. Secretary Daniels was especially pleased because upon Mr. Edison's acceptance depended almost entirely the development of the secretary's plan of utilizing the inventive genius of the country to aid in perfecting the navy as a fighting machine. Mr. Daniels, who appealed to Mr. Edison to undertake the task on patriotic grounds, went ahead to-day with the perfection of his new plans. Details of the just proposed organization, however, will not be completed until the secretary has had an opportunity to confer with Mr. Edison, which he proposes to do very soon. It is planned to have men prominent in special lines of inventive and research work associated with the bureau, several names already being under consideration.

One of the big problems to be laid before the new bureau will be that of improving the navy's submarines and aeroplanes, the imperative need of which is recognized.

Referring in his letter to Mr. Edison re submarine warfare, Secretary Daniels said that he felt sure that with Mr. Edison's wonderful brain to help them, the officers of the navy would be able to meet this new danger with new devices that will secure peace to this country.

Rev. Dr. G. J. Bond has left Halifax to take charge in Sackville.

London, July 13.—The Admiralty announces that the German cruiser Koenigsberg, which in the fall of last year took refuge from the British fleet in the Rufiji River in German East Africa, has been totally wrecked by British river monitors. The Koenigsberg was a vessel of 3,348 tons, and had a speed of about 23 knots. She was a protected cruiser. The announcement of the Admiralty follows:

"Since the end of last October the Koenigsberg had been sheltering some distance up the Rufiji River in a position which rendered attack against her most difficult, only shallow draught ships being able to get sufficiently close to engage the cruiser effectively.

"Two months ago the Admiralty decided to send two river monitors, namely, the Severn, Captain Eric Fulleton, and the Mersey, Commander Robert A. Wilson, to assist the Commander-in-chief of the Cape station, Vice-Admiral H. King-Hall, in these operations."

AIRCRAFT LOCATE CRUISER. "The position of the Koenigsberg was accurately located by aircraft, and as soon as the monitors were ready the operations were begun. On the morning of July 4 the monitors entered the river and opened fire, to which the Koenigsberg replied immediately, firing salvos with five guns with accuracy and rapidity. The Mersey was hit twice and four men were killed and four wounded by one shell.

"As the Koenigsberg was surrounded by a jungle, the aeroplanes experienced great difficulty in locating the fall of our shot. She was hit five times early in action, but after the

(Continued on Page 4)

CITY COUNCIL HELD QUIET BUSINESS SESSION LAST NIGHT

Little of Importance Transpired: Special Meeting Next Monday, Then They Will Adjourn For the Month.

With all members present, the City Council met last evening in the council chambers. A special business meeting will be held on Monday next, then, on account of the warm weather, and unimportant nature of the business, the council will adjourn for a month.

Last evening's meeting was a short and decidedly business meeting. Several communications, reports and accounts were read and briefly dealt with. There were no By-laws or petitions brought up at all.

COMMUNICATIONS

The time lists of T. H. Jones of June 28th amounting to Streets 1033-11 Sewers 702.53, Street Watering 879.68, were confirmed and also those of July 3rd, amounting to Streets 884.81, Sewers 867.76 and Street Watering 863.00.

The communications of the Hydro Electric Power Commission, regarding the poles on Colborne street and L. S. Ireland re poles on Eagle Ave, were referred to the Board of Works. The report of the Medical Health Officer was also referred to the Board of Works.

Ald. Ryerson asked why the services of an outside engineer had been secured in connection with the poles on Eagle avenue. Both the mayor and Ald. Calbeck explained that Mr. Ireland had power to act as he chose in this connection.

The time lists of John Thresher of June 28th, amounting to: Cemeteries \$106.60 were confirmed.

The communications of R. G. Scott, Sec. I. O. O. F., to enter the cemeteries for decoration purposes on August, that of W. H. Mowat concerning a poorly wired store house and stable in West Brantford and that of W. M. Charlton, who requested on behalf of Taylor and Bodley that the plans for the new city hall be paid for, were referred to the Building and Grounds Committee.

Alderman Ryerson stated that the Council should not pay the \$200 as requested by W. Charlton for the plans drawn up by Taylor and Bodley. During ex-Mayor Hartman's first term of office, a committee had

been given control of the matter, but had not given the architects instructions to draw up the plans. However drawn up they were and efforts made to force them upon the council. That was about four years ago, and the account has just been sent in now. The architects received \$850 from the Board of Education for school plans and immediately after request \$2000 for the council for plans that were never ordered or received. Ald. Ryerson stated these facts merely to give the councillors an idea of the matter.

The monthly statements of the Brantford General Hospital, containing the accounts of indigent patients whose accounts amounted to \$536.90, and the coal inspection and market reports from A. McAuley, with the relief and bread inspection reports from Wm. Glover were filed together with the quarterly report of R. W. Devereaux, V.S. The communications from A. K. Bunnell, secretary of the Board of Education; W. A. Littlejohn city clerk of Toronto and S. H. Kent, city clerk of Hamilton regarding the jitney By-laws in those cities; and that of the Ontario Municipal Association about the annual convention to be held on September 1st and 2nd, were referred to the Finance Committee.

Bunnell endorsing a letter from the Brantford Patriotic and War Relief Association was also filed and an order of \$25,000 in favor of the association was ordered to be issued.

The mayor explained that the Hospital account simply stated the number of days chargeable to the city, provided that the Hospital be run separately from the corporation report sent in monthly, under ordinary circumstances it would be charged to the municipality.

Alderman Cuff asked why several Township patients' names should be included on the list. He had noticed it last month.

Mayor Spence replied that they had no right to be there. He would return to the matter.

The accounts were then read by City Clerk Lenord and when con-

(Continued on Page 5)

MOHAWK PARK INSPECTED! IMPROVEMENTS TO BE MADE

Party Composed of Parks Board and Chairman of Building and Grounds Committee Decide on the Alterations and Improvements.

The board of parks management, with the chairman of the building and grounds committee and several of the officials visited Mohawk Park yesterday afternoon and inspected the work and improvements which are being pushed there. The party, which consisted of Mayor Spence, Ald. Ryerson, Pitcher and Messrs F. Cockshutt, A. K. Bunnell, Hawkins, City Engineer Jones, Parks Supt. Waller and Relief Officer Glover, boarded the special car on the corner of Colborne and Market streets, and were soon at the park. Several places in the grounds, men were busily engaged in clearing out the underbrush. Much progress has been made along this line, but it will be some time before the premises have been thoroughly cleaned out. Several members of the party thought that the trees were too thick, and should be thinned to allow a certain amount of sunlight to reach the ground. This would prevent the ground from being so damp in the lowest places.

OTHER IMPROVEMENTS

The pagoda which overlooks the water, will be straightened, painted green and white like the other buildings and lighted up at night by electricity. This will make it very attractive and noticeable to passengers entering the city on the T. H. & B. railway, which runs along the opposite bank of the lake.

Mr. Waller proposed that sand be deposited on certain parts of the bank where the slope is gradual and a good bathing beach could be made in this way.

Considerable discussion was held in regards to the entrance into the park from Mohawk avenue. There is a deep ravine right on the boundary line, and it would take some trouble to build the road. It was commonly agreed that the services of an engineer were needed. He could examine the ground and report to the board. That would be time enough for the matter to be considered, as the road was not immediately needed.

The athletic grounds were next examined. It would take time and money to turn the grounds into a diamond

suitable for professional purposes. They are not large enough either, as they stand at present. It was thought by Ald. Pitcher and Ryerson that the grounds would be more suitable for amateur and picnic games than anything else. It would not cost so very much to fix it up for this purpose.

(Continued on Page 5)

RECRUITING PROGRAM

The Rural Deaneary of Brant met and decided that on Sunday the 18th, the following plan of campaign in aid of the recruiting should take place as follows:

Grace Church: 11 a.m., Rev. Paterson-Smythe; 7 p.m., Rev. Adamson.

St. Jude's: 11 a.m., Rev. H. F. D. Woodcock; 7 p.m., Rev. C. W. Saunders.

St. James': 11 a.m., Rev. M. Softley; 7 p.m., Rev. McKegney.

St. Paul's: 11 a.m., Mr. A. S. Mitchell; 7 p.m., Rev. Turner.

St. Luke's: 11 a.m., Rev. Lester; 7 p.m., Rev. Lester.

Trinity: 11 a.m., Rev. McKegney; 7 p.m., Rev. Softley.

St. John's: 11 a.m., Rev. C. W. Saunders; 7 p.m., Rev. Mr. Stout.

Mohawk: 11 a.m., Rev. Turner; 7 p.m., Mr. A. S. Mitchell.

Paris: 11 a.m., Rev. Adamson; 7 p.m., Rev. Paterson-Smythe.

Burford: 11 a.m., Rev. Cameron; 7 p.m., Rev. Woodcock.

There will also be mass meetings as follows: Paris at 3; Burford at 7, and Brantford at 8.30. The chief speakers will be Capt. Rev. H. F. D. Woodcock, M.A., and Capt. Rev. J. L. Gilmour, M.A., D.D.

FREE.

With each bag of peanuts, a carnation free, Saturday, July 17th. Peanucki's, Market Square, and 270 Colborne Street.

11 GEORGE STREET, BRANTFORD, ONT.

THE LEAFS OPEN A SERIES WITH THE GRAYS

The Baltimore Federals have purchased Steve Evans, right fielder and star comedian from the Brooklyn club.

Gene Dale, the former Montreal pitcher, now with Cincinnati, shut out Mathewson and the Giants yesterday, which is no very great achievement at that, Matty must slip some day, and the giants have hit the star hopelessly.

The Brooklyn club has released southpaw Raleigh Aitchison to the Chattanooga club and has purchased from Seattle southpaw pitcher Walter Mills, a youngster, eighteen, who stands six feet three inches and also weighs 180 pounds.

"Is Eddie Collins," queries a reader "a valuable player as Hans Wagner was at his best?" Handing all the answers to Eddie that the catcher there never was a player as valuable to a ball team as Wagner was for fifteen years to Pittsburgh.

The National League decided yesterday to adhere to the twenty-one player limit by President Tener, said that the meeting did not discuss the Federals except in a very incidental way. "We are minding our business," said he. Times have changed.

Pitcher George Mullin, ace of the Newark Peeps, and infielder Eddie Holly, late of the Pittsburgh Rebels, once of the Leafs, have been engaged by the Chester club of the Independent Delaware County League, which has also bought Frank Baker and Larry McLean.

The Brooklyn club has signed Dick Wright, a catcher, and Ty Helfrich, third baseman. Both these boys played with Lafayette College last season. Helfrich was captain of the team.

Frank Smith, the pitcher of the Baltimore Terrapins, has also been purchased by Brooklyn.

Dana Pilligan, the young Charleston pitcher who has just been purchased by the Athletics, shut Mac on out Wednesday, allowing but two hits and striking out thirteen batters. Bankston, who was purchased from the same team, is a catcher and not an outfielder. He was filling in centre field when not behind the bat because of his hitting, but the Mackmen expect to use him behind the bat.

It is very likely that Paul Krichell, formerly of the Leafs, who jumped to the Athletics, will join the Brooklyn Federals within a few days. It was first reported that he had signed with Frank Baker's Delaware county club, but it was learned he is still with the Athletics.

Brooklyn Independents are said to have offered him a neat little salary but he has not yet definitely made up his mind as to whether or not he will accept their terms.

Uncle Connie has the proper system. In an off year he sells the high-salaried stars and starts with increased ardor on his old specialty of picking them from the bushes and moulding real players. It would not be in the least surprising to see the Athletics with a really great team next year. Cornelius McGillicuddy may, like the sun, be eclipsed now and then but he breaks forth again. The lack of a real slugger by the Tip Tops, a pure marvel of the great old game.

Manager Rowland's magnanimity helped Washington beat his team 5 to 3. In the third inning Gandil dislocated his knee in swinging at a slide ball and Williams took his place at the plate. After being patched up Rowland permitted Gandil to resume play, and in the fifth round his double scored Shanks with the winning run. Walter Johnson saved the game for the Senators in the eighth, going in after Shaw had filled the bases with two out and retiring Fournier on a pop fly.

Hamilton Herald—Canadian league fans were getting a pretty good class of ball before the recent changes, but with the addition of the best of the now defunct South Michigan League to Canadian League ranks, it is one of the smartest, if not the smartest minor league organizations in the world. There are several men in the league who are good enough for faster company, and the chances are that the circuit will lose the services of not a few by the draft route at the close of the present season.

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS.

North-west head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required, except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3.00 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

W. W. COBY, C.M.G., Deputy of the Minister of the Interior, N.B.—Unauthorized publication of this advertisement will not be paid for.

THE COURIER

Published by The Brantford Courier Limited, every afternoon, at Dalhousie Street, Brantford, Canada. Subscription rate: By carrier, \$3 a year; by mail to British possessions and the United States, \$2 per annum.

WEEKLY COURIER—Published on Tuesdays and Thursdays mornings, at \$1 per year, payable in advance. To the United States, 50 cents extra for postage.

Printed and Published by The Brantford Courier Limited, Queen City Chambers, 32 Church Street, Toronto. H. E. Smalpepe, Representative.

Tuesday, July 13, 1915.

THE SITUATION.

The Germans have come back in the Arras region. The triumph of the French there bestirred them to still greater exertions and under cover of a large number of asphyxiating projectiles they have re-occupied some of the ground which they had previously lost. Later the French got part of it back again. The fighting on both sides was fierce with heavy losses. The troops of the Kaiser are also again very active at various other points along this front.

The Germans have commenced to make veiled threats to Roumania regarding her independence unless she lets war material from Germany go through more freely for Turkey. It is hoped that this will cause the Roumanians to take sides on behalf of the Allies.

The cruiser Konigsberg, the last of the German sea raiders that have been smashed by the British. She would have gone by the board long ago had she not interned herself in a out-of-sight place to get at.

UNCLE SAM TAKES STOCK AT PANAMA.

One of the first results of the now strained relations between the United States and Germany, is that Uncle Sam has quietly commenced to take stock.

An investigation ordered by Lieut.-Col. Chester Harding, U.S.A., acting governor of the Panama Canal, has developed the information that no more than thirty days' supplies of foodstuffs are available in the Republic of Panama and the canal zone. The results of the investigations have been compiled into a lengthy tabulated report which has been sent to the War Department at Washington.

Most of the available supplies are stored in the two cities of Panama and Colon. The stores available in the provincial districts are estimated sufficient for the interior population for perhaps six months. This is due to the fact that the merchants in the interior order larger quantities of staples than do the city merchants because of the lack of transportation. The report also brought out the information that there are probably 400,000 head of cattle within the borders of the country, but they would not be immediately available owing to the difficulties of transportation to the canal cities.

The investigation was made with the view of ascertaining just how long the available food supplies would last in case of trouble between the United States and some foreign power which might be able to prevent the importation of food stuffs into the Panama republic and thus the canal zone.

ZEPPELIN HUNTING

Zepplin hunting is not so easy as it seems to the land-going critics, who think it gross carelessness that any Zeppelin has been allowed to sail over English soil and get away.

The first message of a raid may come from a point in Holland or Flanders or some outlying English coast watch station. It gives the time of passing, the general direction and the estimated height of the airship. On receipt of this at the aerodrome, the scout planes start out.

Usually the Zeppelin chooses a dark night for a raid. Its machine-guns amply protect its giant frame from air attacks at its height, level and below. But the gas bags render it vulnerable from above. To be at an advantage, the chaser must arise to a greater height than the invader, which is able to attain a maximum height of about 11,000 feet.

Unlike the gas ship, which can ascend swiftly at will, the aeroplane has to circle up slowly and laboriously. The scout probably starts out in the pitch dark with clouds to pass thru. After the necessary altitude is reached he has to speculate perhaps vaguely as to his position and then settle on his course. If he is sailing over country occupied by the Germans, he has to dodge the searchlights which are touching up the clouds. Once caught, the shrapnel from the anti-aircraft guns begins to burst. The scout then has to drive, circle, reverse and dodge about until he gets out of range and safe into the dark again. It requires all the nerve the airman possesses to keep himself under control while the shells burst with blinding flashes and the searchlights play on the clouds.

Safe into the dark, the hunter watches for his first clue—A Zeppelin signal from below in the form of fire flashes. This seen, he shapes his course for it.

If the moon is due to come up at this time, the work is simplified, for the form of the Zeppelin may be easily seen if within range. If unaware of the impending attack, the enemy's course is regular with the long sausage like form running on a level.

The problem is now to keep clear of the Zeppelin's ears. The Zeppelin's engines can be slowed down so that the louder buzz of the aeroplane may be overheard.

If the Zeppelin detects the noise of the attacker, he flashes lights that illuminate all of the surrounding clouds. Once he sees the object of his search, his machine-guns begin to play.

There is a case recounted by an aviator where his passing aeroplane took refuge in a cloud and then passed over and dropped bombs along what he thought was the Zeppelin's probable course, which he based on the sound of the enemy's machine guns. At the same time, the Zeppelin was firing into the cloud in the hope of getting in a chance shot at the pursuer. Each lost the other in the clouds, and the Britisher returned to his base without knowing whether or not he had damaged his enemy. The Zeppelin probably did the same thing.

Each lost the other in the clouds, and the Britisher returned to his base without knowing whether or not he had damaged his enemy. The Zeppelin probably did the same thing.

With the commencement of genuine hot weather there's the juice to pay.

The German official report boasts of the retaking of a cemetery just as if their whole precipitation of this war was not intended to make the best part of Europe that.

The report that the Turkish Sultan is dead, has not been confirmed. It is quite certain, however, that the Turkish cause is fast approaching that state.

The alleged using of a U. S. ship as a shield by a German submarine is the latest twist the Kaiserites have put in the tail feathers of the American eagle.

Ninety thousand more have enrolled in response to the appeal of Lloyd George for more men to make ammunition. With the case clearly stated the response has proved satisfactorily prompt.

Botha's reply to a congratulatory cablegram from Lord Kitchener was characteristic of this fine, Britisher as follows:

"I most cordially thank you for your kind congratulations, which are highly appreciated by all. I hope that soon many of my men here will take their share in the greater task in Europe."

GERMANS

(Continued from Page 1)

monitors had fired for six hours the aeroplanes reported that the Konigsberg's masts were still standing.

"A salvo then burst on her and she caught fire heavily between her masts. She continued to fire with one gun intermittently for a while, but for the last part of the engagement she did not fire at all, either on account of lack of ammunition or the disablement of her guns. Although not totally destroyed as a result of this engagement, she probably was incapacitated.

A DIFFICULT TASK.

"The task of the monitors was an extremely perplexing one, owing to the difficulty of spotting shots, but they were assisted by H.M.S. Weymouth, Captain D. Crampton on which the Commander-in-chief flew his flag and which followed them across the bar of the river and engaged the small gun on the bank, while H.M.S. Pioneer, Acting Commander T. W. Biddlecombe, Royal Australian Navy, engaged the guns at the mouth of the river.

"To complete the destruction of the Konigsberg the Commander-in-chief ordered a further attack on July 11, and a telegram now has been received stating that the ship is a total wreck. In this last engagement our casualties were only two men wounded on the Mersey."

The Konigsberg was a protected cruiser of 3250 tons. She had a speed of 23.5 knots and carried several quick-firing guns.

The Weymouth, is a protected cruiser of 3350 tons. She had a speed of 24.75 knots. Her armament is considerably heavier than that of the Konigsberg.

The Pioneer, a sister of the Psyche, has a displacement of 2200 tons and a speed of 20 knots. Her armament consists of eight 4-inch and several quick-firing guns.

GOLD FLOWS IN. Paris, July 13—The flow of gold from the private stocks of the public into the Bank of France continues. More than 10,000 persons deposited gold at the bank during Friday and Saturday.

Recently the Bank of France extended an invitation to the public to turn in its private hoards of gold to strengthen the national reserve. The response was such that the bank had to designate a half dozen receiving tellers to take the coin offered. The certificates given for the gold bear the inscription that the exchange was made for "national defense."

Preserving:-

LANTIC Sugar is the best sugar for preserves and jelly, because it is pure cane of extra fine granulation and dissolves quickly, with no gritty grains; and because it is kept pure and free from specks and dirt by the original packages of guaranteed weight filled at the refinery, 2 lb. and 5 lb. cartons, and 10 lb. and 20 lb. bags. 100 lb. bags coarser granulation.

Buy in original packages and look for the LANTIC Red Ball on each package.

Send your address and small Red Ball Trade Mark from bag or top end of carton and we will mail you book of 50 assorted Fruit Jar Labels—printed and gummed ready to put on the jars.

PRICE OF COAL.

London, July 13—A bill governing the price of coal, was introduced in the House of Commons today by Walter Runciman, president of the Board of Trade.

REIGN OF TERROR.

London, July 13—The correspondence of The Daily Express telegraph from Athens:

"The Young Turk party is subjecting its political opponents to a reign of terror equal to the time. Abdul Hamid was deposed. Numerous persons have been thrown into the Bosphorus and drowned, notably Oskan and Haladjian, formerly Armenian ministers."

With each bag of peanuts, a carnation free, Saturday, July 17th. Peacemaker's, Market Square, and 270 Colborne Street.

TERRIBLE

(Continued from Page 1)

the artillery at the portion of the line against which the attack was obviously being prepared was quickly and strongly reinforced. French and British machine guns were rushed to the front till a perfect wall of heavy and light guns were in position.

Then there was a short interval of silence and waiting almost oppressive. Suddenly the stillness was riven by a tremendous burst of shells from the Turkish guns and for a time shrapnel poured down on the French front, but the men were safely positioned in dug-outs and little loss was experienced.

GOBBEN SHELLS TRENCHES

From the straits loud booming began. It was the battered Goeben at work again, and during the bombardment she pounded our right flank with some forty eleven-inch shells. Many did not burst. They were apparently of Turkish manufacture. This hail of shells lasted just an hour and a half, and was the fiercest bombardment to which our lines have been subjected during the weeks of struggle on the peninsula. No sooner had the heavy fire ceased than a great solid mass of Turks leaped forward to attack. On they came, the silence unbroken save for their shouts, until they reached a point within 60 or 70 yards of the French position, when from 200 well placed machine guns a devastating answering fire burst from our allies' trenches. The rifles joined in 20,000 of them. The big guns flared and lighted up the lurid scene at intervals.

TURKS IN FRENCH TRENCHES

With fine bravery the enemy came on, not hesitating before this inferno of death. In a terribly cut-up condition the stormers reached the barbed-wire entanglements, only to find to their dismay that their artillery had been ineffective in an attempt to demolish it. The slaughter here was terrible, yet at three points the enemy managed to swarm into the French trenches and even succeeded in turning some of the French weapons on the defending troops. The second French line however hurled itself instantly on the foe. "We were so closely mixed up together," a French soldier told me, "that it was almost impossible to use the bayonet, and we had to clear a way for ourselves by simply pushing the Turks back into the trenches. There we fell upon them, ramming our bayonets into the solid mass. Once we had cleared a little way for ourselves in this way we rushed forward, and then the Turks, now badly supported, turned to flee. Into a straggling, retreating mass our Maxim's poured streams of death, mowing the enemy down in heaps."

A GHOSTLY SPECTACLE.

Meanwhile the naval division had been sustaining a portion of the attack, and they, too, turned machine guns on the wreck of the lately attacking force. Firmly held on the enemy were the ships' searchlights, thus providing a ghostly target for our deadly guns and hard-worked rifles. In a short space of time the field presented a most appalling spectacle. Soldiers who fought in some of the fiercest fights in France and Flanders, and who had been through terrible experiences provided by the landing of the allied forces on the peninsula, they were sickened at the awful sight which lay before their eyes when the dim morning twilight spread over the scene. Bodies

were lying four and five deep upon the ground. In all the positions fallen men lay strewn on the barbed wire entanglements, while many of the enemy's dead still stood erect, propped up against the masses of their stricken comrades.

Farther and farther amid yells and groans mixed with the shouts and the whistlings of the officers the battered and beaten rabble retreated, followed

by relentless death. "The sight," said one soldier, "was so terrible that many of us could not fire our guns or rifles so much did the horrible vision of slaughter make the men tremble."

This specially affected those in charge of the machine guns that night. The battle was an awful nightmare of horror. At last the poor remnant of the Turks' attacking force was sheltered in the trenches in front of Achi Baba's slopes.

TURK FORCE SPENT

The opposition our counter attack met with was very feeble, and the first line attackers easily carried the first line of the Turkish position. Then the second line of our troops swept along with their comrades, and, after a fairly stubborn struggle, the Turks were seen in headlong retreat. The enemy's guns developed

surprising activity, and for the following two hours our men in the new positions were subjected to a bombardment of between seven and eight thousand shells. This died down and then the enemy attempted to recover the lost ground. No fewer than seven times did the Turks hurl themselves against our new lines. On every occasion they were driven back with heavy losses.

The Store will close on Wednesday at 1 o'clock, that means extra business during the morning and some tempting bargains are out for the five hours business. Be sure and visit the store during the morning.

TO THE FRONT

Mr. Fred Breodon has left for the front and was seen off at Montreal by his father, Mr. H. M. Breodon. Jack Breodon has also offered his services and expects to leave shortly.

PURLOINING IMPLEMENTS

Yesterday High Constable Kerr had a case of some missing farm implements to investigate on the Keserve. He found the man in possession and met with a recital of the ancient story that he "had bought them from an unknown person." It did not quite agree with Constable Kerr's idea, however, and the Red Man will appear to-day.

RECRUITING

Three men were accepted by the Dufferin regiment last night at the Dufferin barracks. The recruits are settling down in earnest to gather in recruits and from now on larger numbers are expected to enlist each night. There is no reason why this should not be so because the Dufferin Rifles have as energetic and efficient officers as any regiment in Canada. Now that all the officers are in the city and ready and willing to attend to the campaign, the regiment will soon have rounded up as fine a lot of men as ever donned a uniform.

A NEAR FIGHT

Last night while waiting for the ball scores, a Greek and a farmer staged a near fight. The farmer said the Greek blocked his way with his candy cart, and threatened to "beat his head off." The Greek said he'd show him and went off for a policeman. When he returned the farmer had gone—being in fact in the livery stable—and the Greek prowled around for five minutes trying to locate him. He couldn't find him, however, so nothing happened, much to the disappointment of the crowd, which was longing for excitement.

TOOK MR. HENRY'S CAR.

Says the Godefrich Star.—Two bad automobile accidents occurred on Dominion Day in which the machines were considerably damaged, and in one case one of those driving was seriously hurt. About noon Jack Swartz and a companion came to grief in a joy ride which proved a costly affair and might have resulted in serious injury to Jack himself. Mr. Robert Henry's Ford car was standing on the Square and Swartz and his companion jumped in and started on a joy ride. Along Caledonia Terrace they struck some loose sand and lost control of the machine, which capsized and caught Jack by the back of the neck. His companion freed himself and succeeded in holding the car up, and when Tait, who was passing, gave assistance Swartz was freed from his predicament. The steering gear, wind shield, back of the car and running boards were considerably damaged and it probably cost Swartz about \$150 for his lark.

The kind donation of tobacco for the old men is gratefully acknowledged, the gift of Mrs. E. Patterson and daughter, Market street, Mrs. Roberts, Miss Leinster and the Misses Livingston also kindly entertained the old ladies to a luncheon when a most enjoyable program was rendered.

RUMOR UNFOUNDED

There was a rumor in circulation last evening that several people, three or four presumably, had been seriously injured in an accident on the Brantford and Paris road, while crossing the G.T.R. tracks in their auto, they had been struck by the train at about ten o'clock. No such occurrence ever happened, however.

BRANTFORD BOYS.

A report from the aviation camp at Toronto says that five vacancies at Long Branch will be filled by the following: Ross Courtnage, of Brantford; A. T. Cowley, Vancouver, M. Van Allan, A. J. Nightingale, and R. D. Delamere. M. Van Allen above referred to is also a former Brantford boy, the son of the late E. Van Allen, for some years head of the Massey-Harris works here.

LOOKS SUSPICIOUS

In the early morning hours two men were seen to stop on the Brant Avenue and to quietly proceed towards an establishment which has been running night and day on machinery for the production of war munitions. They finally noticed they were observed, and made a dash for the auto, starting off in the machine at top speed towards Paris.

EPWORTH LEAGUE.

The usual weekly meeting of the Wellington street Epworth League was held last night in the church parlors. The meeting was in charge of the Missionary Committee and was led by Mr. Stanley Nash. The Scripture lesson was read by Miss Hattie Hayward. The Secretary read a very interesting letter from our ex-president, Mr. Joe Daniel, who is at the military camp at Niagara-on-the-Lake. Then our delegate to the summer school, Miss Hazel Ryerson, gave her report which was very interesting. A missionary address by Miss Annie Crooker was much enjoyed. An instrumental solo by Mr. Fred Coles and a vocal solo by Miss Alice Bloxham were greatly appreciated.

MIX-UP IN BALL SCORE.

A mistake in transmission led to a peculiar mix-up in reporting the Brantford-Ottawa game yesterday. Brantford scored a run in the second, and also one in the third inning, winning the game two to one, but the report over the wire gave them 0 runs in the second and 1 in the third. As a result the score was billed 1-1 at the end of the ninth, and the crowd stood around the bulletin boards for forty minutes, wondering what sort of overtime game it was which took so long to finish. The telegraph company finally located the error and the crowd found that it wasn't an overtime game at all. As Brantford won, there was no complaint, but there would likely have been some roar had Brantford scored a loss.

LODGES HELD OUTING

The Oshweken, Paris, Victoria Mills, 24, 25, 742 and 297 L. O. L. Lodges left the city yesterday via T. H. and B. railway. On their arrival in Dundas, after dinner, a huge parade of between nine and ten thousand Orangemen was formed up and proceeded to the Dundas Driving park, where several prominent speakers addressed the assembly. After that baseball and other sports held sway until the evening. The local delegation was accompanied by the L. O. L. Band and Oshweken L.O.L. Band. The party returned to the city about 10.30 last evening.

ADD RECRUITING

Seven more men were added to the Dragoons strength last night, and several more are ready for the doctor. The Dragoon officers are delighted at the way the recruits are coming in, 42 men having now enlisted. A great deal of credit is due to the officers themselves, who have worked hard in order to fill up the ranks. Every day now the Dragoons are drilling about the streets and they look quite fit even at this early stage. The service this morning was conducted by the Rev. G. A. Woodside of Zion Presbyterian Church. These services are very much appreciated by the men, is shown by the attentive and reverent hearing they give the speaker and by the heartiness and vigor in which they sing the hymns.

CITY DROVE A GOOD BARGAIN ON PROPERTY

A good many years ago when the city offered the Waterous Engine Works \$40,000 for their property on Dalhousie street, in connection with their proposal to erect new works on their present site, a good many wise-aces claimed that the city was not getting value for the money, and it took some hard work to carry the by-law.

It will not be out of the way to review just how the account stands. In the first place rentals from the buildings left standing for some time brought in some 3 1/2 per cent. Since their removal, property sales have totalled \$71,420, of which the Dominion Government paid \$42,711 for the site of the fine new public building just completed. Still remaining, there is land of an estimated value of \$28,000. Tabulated, the matter thus stands:

Table with 2 columns: Item, Value. Original payment for property \$40,000. Sold 71,420. Still held 28,000. Total \$99,420.

Profit \$59,000, not counting rentals for lengthy period. The debentures in connection with the original purchase fall due on Jan. 15th, 1916, and the money is on hand to meet them.

With the City Police

A tale that flavored of the horse lives, between a gallant dragoon and the brothers Clouse, was terminated after very long-winded stories from both gentlemen and a short story of square dealing from the soldier. It was a case of conversion and provided amazement and amusement as incident after incident unravelled themselves from the tangled skein of evidence.

Called for ten o'clock this morning, promptly at 10.25 it met—a tribute to Father Time that was given with a generous slice of other people's time. Things were bright at court this morning and hot, and the combination produced slightly irritable feelings on the part of many assembled at the Court of Police Jurisdiction. Midway the Magistrate was beginning to grow somewhat weary of the reiterated defence of the brothers, and the City Solicitor agreed it looked a put up job by the brothers on the soldier. Ras Clouse was again called and told the story of the deal and it was a mixed account of one horse in another buggy and another horse in some other buggy. Complainant called averred he had seen every pass between brothers, but it did not refer to his deal and he had nothing to state on that matter. The case, after considerable discussion, was left over for the presentation of further witnesses. The Sloan v. Boylan case came up, but was settled by Sloan agreeing to clear up the damage caused the Chinaman.

LUCK AND THE WAR

Cincinnati Times-Star—It is reported that General Von Mackensen has been made a field marshal for his services in the drive against Przemyel and Lemberg. Luck plays a considerable part in war, as indeed it does in most of the activities of men. Von Hindenburg became a field marshal and the great popular idol of Germany because of his successes against the Russians in East Prussia. And now Von Mackensen is receiving the reward of his victories in Galicia. Meantime the German generals in the west have not been winning many field marshal's batons. As popular heroes they rank far below Von Hindenburg and Von Mackensen. And yet the western army has commanders quite as able as either of the two great men who have won great fame in the East.

The Courts decided that French-Canadian school boards must obey Rule 17 of the educational regulations.

MOHAWK (Continued from Page 1)

Mr. Cromar, the contractor who has charge of the general improvement work, then met the party and conducted them around the grounds. The large pavilion was the first building inspected. It has been raised and a new foundation will be placed under it. The old foundation was in good condition and only needed painting. The roof will be lowered two and a half feet, and when painted green and white, with awnings on the sides, the place will look entirely different.

It was decided after some discussion to place cement posts under the building as it would not only be cheaper but also stronger, or more endurable than cedar posts. The unsightly erection formerly called the "Bump the Bumper" will be torn down as it was both dangerous and useless. The lumber will be used for lunch tables.

The next building inspected used to be a refreshment stand. It is of a fairly decent size and will be fitted up as a temporary caretaker's residence. The lunch tables are situated not far from this place, and a good suggestion was made by Mr. Cromar in this connection. He stated that the tables had been made, they should be arranged and made stationary. Then a roof of some kind, preferably of galvanized iron, could be placed over them.

Mr. Cockshut stated that Messrs Jackson and Moore, of Victoria Park, Niagara Falls, would visit the park in a week and give some suggestions concerning the work.

AEROPLANES ARE QUITE COMMON AROUND HERE

More evidence that an aeroplane was hovering over Brantford Sunday night, and probably the night before reached the Courier office late yesterday. A lady in the East ward testified that on Sunday night, or rather early Monday morning, a dazzling bright light swept across her verandah. The source of the light seemed to be a searchlight beam in the air, and at the time that the light was shown, she could hear the sound of an engine, which she thought belonged to a motor car. While the light came from high in the air, she was unable to see even indirectly the outline of any object whatever. This lady told her experience to a friend of hers who claimed to have noticed a similar occurrence last Saturday night. Whether it is, however, cared to say anything about it, fearing their story would be ridiculed. It was only when they saw an account of the aeroplane in last night's Courier that their experiences were related to a newsman, and so supplied confirmation of the belief that a mysterious flying machine is operating about the city.

Welding an Empire Together

By Special Wire to the Courier. London, July 13.—"Four days before the war broke out, I telegraphed to the Imperial Government that if there were war, Canada would regard it as her own," Sir Robert L. Borden, the Premier of Canada, told a cheering audience at a luncheon given in the House of Commons in his honor this afternoon.

The Canadian premier declared that for all purposes, the resources of the Empire were abundant, and that the Empire could congratulate itself on the condition of affairs today. "I have no fear for the future, though the struggle may be long," Sir Robert said. "In whatever is necessary to bring the war to an honorable conclusion Canada is prepared to take part. This is true of the whole empire."

Premier Borden went on to say that it was impossible to believe that the democracies of the Empire, though unprepared, would not prove their efficiency in this grave peril. After peace was established, he said, there would be large matters for consideration for the Dominion, but the difficult and complex problems, he thought, doubtless would find wise and just solution. A Bonar Law, British minister of the Colonies, in a toast to "Canada at the war," expressed the opinion that the help of the Dominions was likely to prove a decisive factor. He hoped that one result of the upheaval would be the welding of the Empire in unbreakable bonds.

STATE INSURANCE.

By Special Wire to the Courier. London, July 13.—The government has completed a plan for state insurance against damages by air-craft and bombardment in which it will work in connection with fire insurance offices. The rates to be charged in all districts will be identical and private dwellings are fixed at two shillings per cent against air craft, and three shillings against air craft and bombardment.

PROSECUTIONS MAY FOLLOW.

Winnipeg, July 13.—R. A. Bonar, K.C., and E. W. Craig, have been appointed by the Attorney-General's Department to prepare for and take charge of any criminal prosecutions arising out of the Parliament Buildings affair.

A warlike scene was presented in Buckingham Palace at the investiture held by the King.

E. B. Crompton & Co. LIMITED The House of Quality Soap Values E. B. Crompton & Co. LIMITED TOWELS! SOAP! WATER! The Late Rev. Henry Ward Beecher of Brooklyn, N. Y., used to say, "If Cleanliness is next to Godliness--then SOAP and TOWELS must be considered as a means of Grace." The reader of this will endorse that statement. The Full Dinner Pail Is what we need in Canada N.P. SOAP is made in Canada by Canadian workmen and helps keep the dinner pail full by costing less and giving more and better soap for the money. One 15c bar of N.P. SOAP weighs more than four or five ordinary cakes

BRYAN ISSUES NEW STATEMENT

Hermosa Beach, Cal. July 13.—William J. Bryan, former secretary of state, who is spending a brief vacation here with his son, issued a statement to-day in explanation of what he meant by "unnecessary risk" contained in his comment in connection with the last German note. He said: "Any traveller takes an unnecessary risk when he goes into the war zone on a belligerent ship, knowing that it is subject to attack by submarine. A traveller also takes unnecessary risks when he rides on a neutral ship carrying ammunition. I believe that our government would be justified in separating passengers from ammunition, but until this is done, American travellers would be justified in refusing to take passage on belligerent ships or a neutral ship carrying ammunition. "If patriotism requires a man to risk his life, for his country when his country is engaged in war it would seem to be patriotic for a citizen to avoid risks that might involve his country in war."

CITY COUNCIL

(Continued from Page 1) cluded, Ald. Ryerson moved that they be passed and ordered to be paid. Carried.

BOARD OF WORKS REPORT

That the Board of Works be authorized to oil the Hamilton Road from the Radial crossing at the East side of Echo Place to the 27th station, where the Radial crosses again, the work to be done at the expense of the Cainsville Progressive Association. That the City Treasurer be authorized to pay the Warren Bituminous Paving Company amount due them for interest on retained money in connection with the Warrenite pavement on Queen St. as provided in the agreement of By-law No. 1042. It was moved by Ald. Calbeck that the report as read be adopted. Carried.

WARNER ALLOWED OTTAWA THREE HITS

Roberts' Wild Pitch Lost Game For Ottawa.

Ottawa, July 13.—Warner and his Brantford Red Sox made it two straight on the Senators by taking yesterday's game, 2 to 1. Warner held Ottawa to three hits, and though Roberts allowed only five, a base on balls in the second and a wild pitch in the third enabled Brantford to score their runs. Score:—R. H. E., Brantford, 2-0-100 000-2 5 3; Ottawa, 1-0-000 100 000-1 3 2. Warner and Dunn; Roberts and Lage.

HAMS ARE GETTING CLOSE TO LEADERS

Cristall's Team Wins While the Saints Administer Defeat to Leafs.

Hamilton, July 13.—Hamilton defeated London, the tail-enders yesterday afternoon in a game delayed by showers. Dolan was on the mound for Hamilton and held the visitors scoreless, except in the second inning. Score:—R. H. E., London, 1-0-010 000-1 7 1; Hamilton, 2-0-030 100 000-1 9 2. Hammond and Lacroix; Dolan and Lamond.

WILKINSON BEAT LEADERS.
St. Thomas, July 13.—Only four hits were secured of Wilkinson yesterday, while Kirby was hit hard and St. Thomas won. Pay, the new third-baseman secured from the South Michigan League by Manager Stewart made a good showing. Score:—R. H. E., Guelph, 1-0-000 000 102-3 4 1.

SPORT IS REVIVED IN GREAT BRITAIN

Cricket and Golf Again Played After War Slump—Racing Expected.

London, July 13.—Sport in the British Isles is gradually getting back to its normal condition. The Football Association's decision this week to play off next season's soccer league games, beginning in Scotland on August 14 and in England on September 1, has brought increased confidence to every sportsman in the country that in the near future every branch of sport will be in full swing. Cricket is now being played everywhere, especially by the various leagues in the North of England, and while no county games have yet taken place, Yorkshire, Lancashire and Surrey counties are preparing to arrange a few matches in August and September.

Surrey's fine ground at Kennington Oval, which was taken over by the military authorities at the commencement of the war for the use of the troops, was released last month, and many games have been played recently between the public schools and regimental teams.

It is confidently expected that horse racing will be resumed throughout the country by the end of this month as the result of a large petition signed by several thousands which was presented to the Government by Colonel Hill Walker, the well-known owner.

Golf is in full swing and the leading professionals have had a busy time lately giving exhibition games. Harry Vardon, Taylor and Braid in particular receiving a number of engagements. Strong hopes are now held out that with the boom in other sports it may be possible after all to hold the open championship in September. Athletic meetings, which were all

PITCHED TWENTY-FOUR CONSECUTIVE INNINGS

Record Feat of Cedar Rapids Pitcher—Big League Gossip.

(Toronto Star.)
Pitcher Melling of the Cedar Rapids, General Association team, 10-day is believed to hold the "iron man" record. He pitched twenty-four innings in a double-header, allowed two runs, 15 hits, and won both games on Sunday.

Tyrus Cobb and Sam Crawford again staged their time-worn act, outting the ball game on the list. Sam tied the score with the Red Sox with a triple, then won the game with a double, while Cobb got three hits and stole a flock of bases.

The loss was hard on the Red Sox, for they needed all the games to catch the fleeing White Sox. Cleveland played swell ball against the Yanks. It took them 12 innings to lose, whereas they generally manage to do it in nine easily.

The Browns and Athletics are staging a warm battle for sixth place, but somehow the fans don't seem interested in them.

The New York Giants have secured First Baseman, George Kelly of the Victoria club, North-western League. Kelly is a nephew of Bill Lange, famous Chicago centre-fielder, and is six feet three inches in height, weighs 190, and is only 19 years old.

Right after Mr. Cobb wrote that Ray Shalk was the best catcher in any league, the Senators had to go out and steal six bases off him.

THE LATTER TOOK ADVANTAGE OF ERRORS

Declared off on account of the war, are now being held each week in different parts of the country.

Scores:—
First game R. H. E., Buffalo 2-0-2 9 0; Harrisburg 3-8-2
Batteries—Fullenweider and Onslow; Schacht and Heckinger.
Second game R. H. E., Buffalo 6-11-1; Harrisburg 4-15-4
Batteries—Tyson, Bader LaFitte and Lalonde; Goodbread, Lee and Snow.

TIES COBB'S RECORD
San Francisco, July 13.—Jack News, Oakland's first baseman in the Pacific Coast League rit safely in both games yesterday with San Francisco making 40 consecutive games in which he has made at least one hit. This ties the world's record, held by Ty Cobb.

ATHLETICS AT LONDON
London, July 13.—Under the patronage of Lord Brooke and the Right Hon. Laurence Hardy, M. P., an excellent program of military sports was gone through on Saturday by the 4th Brigade, C. E. F. at West Sandling Camp. A cup was offered by Lord Brooke for the battalion winning the highest number of points the result being—19th battalion, 55 points; 21st battalion, 38 points; 20th battalion, 9 points; 18th battalion, 6 points. Prizes were distributed by Lady Brooke.

A minor accident occurred in the 220 yard dash, when Ford of the 21st battalion collided with another man, the former having a rib broken. He was removed to the hospital.

ONONDAGA COUNCIL

A special meeting of the Council was held in Mitchell Hall at 2 p.m. All the members present.

A communication from Sturgeons, Limited, regarding paints for bridges, was read and ordered filed.

K. W. Cowen interviewed the Council regarding two lambs he had killed by dogs, value \$18.00. After making satisfactory affidavit, his claim was allowed for two-third value, \$10.66, which together with the following accounts were ordered paid, namely:—American Road Machinery for two grade wheels, \$25.00, and two worm gears \$3.50; Brantford Courier, Public Notices \$23.75; D. W. Moore, Voters' List, \$24.00; Mickle-Dymont Co., pine plank \$8.13; Stratford Corrugated Pine Co., 8 culverts, \$85.00; Shira Milling Co., oak plank, etc., \$138.23; A. B. Rose, telephone, etc., \$1.50; A. W. Vansickle, express charges, \$1.25.

The By-law confirming the closing of a portion of the highway between the 2nd and 3rd concessions, East of Fairchild's Creek and sale of said portion, received its first and second readings and, as there were no objections, the third reading, and was formally passed, signed and sealed.

On account of the appeal of the Grand River Oil Co. against the decision of the Court of Revision of June 7th the Reeve and Councillor Vansickle were instructed to appear on behalf of the Township at the hearing, by the County Judge, of the appeal on July 7th.

The Council adjourned to meet in regular session in Onondaga Town Hall on Aug. 2nd, 1.30 p.m., when rates for the different funds will be struck. The County are asking for nearly double of last year, partly owing to the War Tax, so the rate for the County will be somewhat higher.

Onondaga, July 8, His Honor Judge Hardy, having appointed July 7, for hearing the appeal of the Grand River Gas Co. met the interested parties in the Town Hall at 10.30 a.m. The Judge while thinking the Gas Co. had not

Junior City League

STARS WIN TWO

The Junior Stars journeyed to Holmedale on Saturday to play the Holmedale City Leaguers. In a slugfest which lasted twelve innings, the stars came out on top 15 runs to 14. The batteries for the winners were Leonard, Walkers and Cammell.

Last evening in a junior league fixture at Tutela Park the Stars defeated the Eagles 6 to 0. Both pitchers hurled good ball, but the Stars gave their pitcher better support, they pulling off a fast double play which nearly resulted in a triple, but for a wide throw on the last out. The Stars now have the lead in Section A of the junior league. The batteries for the Stars: Davies and Walkers; the Eagles: Mather and Elliot. Umpire Stolman.

SAVED FROM DROWNING
Chatham, July 13.—Arthur McNaughton, aged 18 years, thwarted an attempted suicide by drowning on the part of Reginald King, some years his senior yesterday afternoon, by leaping into the River Thames from the Fifth street bridge and bringing the man to shore after a desperate struggle. King had leaped into the river but a few seconds before, and McNaughton plunged in after him without waiting to remove his clothes. A movement is on foot to have McNaughton suitably rewarded.

Asked if players would be left jobless if the Federal League went to the wall, President Towner of the National League said: "Not at all. I might say however, that the National League does not blacklist ball players unless they have been guilty of dishonesty."

Bowling

Three rinks of lawn bowlers left this morning for Burlington to compete in the Burlington Tournament, which is being held at the Burlington Country Club, Brant House. The rinks will be one from the Dufferins, skipped by Jno. S. Dowling; one from the Pastimes, skipped by Mr. T. McPhail and one from the Heather's, skipped by Dr. Wiley. McPhail's and Dowling's rinks are drawn against rinks from High Park Club of Toronto, while Dr. Wiley's rink plays Chambers' of Hamilton. Everybody hopes one of the three will bring home the trophy.

Soft Ball

The Beavers met the Clerks last night at Recreation Park in a city softball game about 500 people. The game was a pitchers' battle between Simmons and Woolams. G. Berry started for the clerks and Stuart, the first man up for the Beavers singled, being the only hit the Beavers got. Woolams was called in, in the second with one down and two on, and held the Beavers hitless. Simmons held the clerks to two hits, Bragg and Cammell connecting. All the runs were scored on passed balls, errors starting the men around. The score:—R. H. E., Beavers, 1-0-00000101-2 1 4; Clerks, 1-00000000-1 2 5.

Batteries: Beavers—Simmons and Stuart; Clerks: G. Berry, Woolams and Kiersey. Hits off Berry, 1 in 1 2/3 innings; off Woolams, 0 in 2-3 innings. First on errors, Beavers 4; Clerks 2. Struck out by Berry 0; by Woolams 9; Simmons 18. Bases on balls, off Berry, 0; off Woolams 3, off Simmons 1. Left on bases, Beavers 7; Clerks 4. Umpires, G. Wright and McGraw; scorer, Mears.

The teams were as follows: Beavers—Stuart, c.; Kaufman, 1; Moss, ss; Marlet, 2b; Hackburn, 3b; Dowling, 1b; Graham, 3b; McQueen, cf; Simmons, p.

Clerks—J. Berry, 2b; Woolams, 1; and G. Bragg, ss; G. Berry, p and Kiersey, 1b; Carpenter, 1b; Kiersey, c.; Cammell, 3b; Schofield, rf.

NOTES.
J. Berry made a great one-hand catch off Dowling's foul fly. Simmons showed his worth in the eighth after Bragg got a life on an error and advanced to third on passed balls; he struck out the next three batters.

The Beavers had a chance on second and third, McQuinn struck the air.

Ford Touring Car
Price \$590

Prices of Ford spare parts have been reduced an average of ten per cent. A Ford touring car may now be bought, part by part, for but \$38.87 more than the price of the car ready to run. Another big slice off the "after cost" of motoring.

Buyers of Ford cars will share in our profits if we sell 20,000 cars between August 1, 1914, and August 1, 1915.

Runabouts, \$200; Town Car, \$310; R. O. B. Ford, Touring, with all equipment, including electric headlights. Cars on display and sale at

SUTHERLAND'S China Sale Is On

During the China Sale we are now having, we have made a lot of remnants, such as Salad Bowls, Cake Plates, Celery Trays, Fruit Sets, Chocolate Pots, etc., as well as a number of odd dozens of plates, all of odd sizes; these we will clear out at Half Off Regular Price.

Remember, all our French China Dinner Sets One Quarter Off.

SEE THE BARGAINS!

JAMES L. SUTHERLAND

IMPORTER OF FINE CHINA

BOTHA IS THANKED BY PARLIAMENT

By Special Wire to the Courier.

London, July 13.—The House of Commons voted today its hearty thanks to Gen. Louis Botha, General Jan Christian Smuts and the forces of the Union of South Africa upon the successful conclusion of the campaign in German Southwest Africa. Premier Asquith, who moved the resolution, paid tribute to what he characterized as "the remarkable campaign which has just been brought to a remarkable and glorious conclusion."

Points for Mothers

A Bad Habit Cured.

A delightful experience is told by a teacher that touches upon a child, an imaginative boy of seven, who was ideally polite and obedient to his parents, but who would, in spite of daily admonitions, insist on putting on his shoes and buttoning them every morning before putting on his trousers, which, of course, would not go on over the shoes. This daily blunder rendered him quite miserable as well as his parents. He would cry with shame and disappointment because he missed his breakfast with his father, promising to try to remember, but so regularly forgetting that his parents began to suspect some latent stubbornness if not deceit in the occurrence.

TORTURED BY RHEUMATISM

Sunday School Supt. Tells How "Fruit-a-lives" Relieved

TORONTO, Ont., Oct. 1st, 1913. "I have lived in this city for more than 12 years and am well known. I suffered from Rheumatism, especially in my hands. I spent a lot of money without any good results. I have taken "Fruit-a-lives" for 18 months now and am pleased to tell you that I am well. All the enlargement has not left my hands, and perhaps never will, but the soreness is all gone and I can do any kind of work. I have gained 35 pounds in eighteen months."

R. A. WAUGH.
50c. a box, 6 for \$2.50, trial size 25c. At all dealers or direct from Fruit-a-lives Limited, Ottawa.

Wood's Peppinodine.
The Great English Remedy. Tones and invigorates the whole nervous system, makes new blood in old veins. SOLDIERS LETTER

How the 19th Battalion is kept busy in England getting ready for the Germans is told in the following interesting letter from Lance Corp. J. Drake, to his wife in Brantford. Many of his friends will be pleased to learn he is in good trim.

Lance Corp. J. Drake, C. Company, 19th Battalion, 4th Brigade.
June 26th, 1915.
My dear wife,—I received your letter of June 13th, and I am surprised at the press on that side of the water publishing the news that we were in France. We are of course, still in England.

Time and again the 19th Batt. has been complimented on its efficiency, and, of course, it goes without saying we are all anxious to be in the fighting line to avenge those gallant boys of ours of the 1st Contingent who have been tortured by gas and by other despicable German means.

C. Company, that is the company which the 2nd Brantford boys are in, is the 2nd shooting company of the 19th Batt. B. Co's takes first place. No. 9 Platoon, that is the leading platoon, has 19 of the 3 first-class shots in the company—some shooting, eh! They spare neither time nor energy here in keeping us fit. Here is a list of the daily routine, which is only altered by a 12 mile route march or a night bivouac and outpost work: Reveille 5.30; roll call 6.00; breakfast, 6.30; physical drill 7.30 to 8.30; C.O.'s parade, 9.00. We then parade in heavy marching order and march up to the top of a steep hill (we dome put here for the purpose) and the morning's amusement is usually trench digging and bayonet fighting, using instead of men bags hung up on a wire stuffed with twigs and straw. We got back to camp at 12.00. Dinner 12.00 to 1.00. Afternoon parade 1.15 until 4.30, so you see they keep us busy enough, but the remark has been passed by more than one Inspector General that the 19th Batt. is a credit to the country it represents and the only wish we know of at present, is that we will still deserve that compliment after we have been given a chance to uphold the name so gallantly made by our comrades of the 1st Canadian Contingent.

I might add, although I know as far as our own particular family circle is concerned, we are all with the colors. I can count 10 at any rate, and seven of them have their names spelled beginning with 'D', but the fighting as yet is still good all along the line, and I still say to those who can, to dig in and get their name up, because we do not know yet, what resources we may be called on to supply.

This is an awful war, and we would all like to see it ended, but there can be no end until the Militarism of Germany is broken. The Dominion of Canada is doing her share nobly in helping to achieve this object, and I am sure there are none prouder than I and my comrades of the 19th Batt., that we are willing to do our share.

I have seen several of the 4th, since I have been here, and I hope the time is not far distant when I can shake hands with Harry and Albert, and I earnestly pray that we may all return together.

I remain,
Your affectionate husband,
JACK.

REAL DOWNRIGHT THRIFT.
Cleveland Plain Dealer—"Wastefulness is a habit universal, though Americans probably have it more pronounced than most people. We throw away enough money every year in petty extravagance to finance a war. Most of us have no conception of what real, downright thrift means. Were the people of the United States to eliminate wastes, as Asquith asks the people of England to; were Americans to intensify the cultivation of the soil as the Germans have; were we of a nation at peace to adopt voluntarily some of the arts of thrift which Europeans have adopted through necessity, the result would be a national bracing up whose effects would be lasting and incalculably beneficial."

July 12th was celebrated very successfully at many points in Ontario. Lieut.-Col. J. A. Currie, M.P., arrived in Montreal yesterday from Britain.

General Botha will send soldiers to the European Theatre of war. It is reported that the Russians are sending troops to the Dardanelles. Hon. Robert Rogers visited Toronto yesterday to inspect government works on the harbor. 6

Toronto recruiting officers secured many enlistments at yesterday Orange celebration.

THE PROBS

Toronto, July 13.—Disturbances are
developing over the Gulf of St. Law-
rence and also over the western states.
The weather of the past day has been
mostly fine in all the provinces, but
showers have occurred in Alberta and
Manitoba, and there have been heavy
thunderstorms at a few points in
Ontario.

Forecasts.
Light to moderate winds, mostly fine
and warm, thunderstorms in a few lo-
calities. Wednesday—Fine.

ITALIANS ADVANCE SLOWLY

By Special Wire to the Courier.

Geneva, via Paris, July 13.—The
Italians are advancing very slowly
lately. The task of breaking through
the natural Alpine fortresses is more
difficult, as the Austrians now have
been fully reinforced. One of the chief
difficulties the Italians are meeting
with is the destruction of the wire
entanglements in the mountain passes
by indirect artillery fire.

King Victor Emmanuel, who is in
the danger zone, watched the bom-
bardment of Malborghetto for an
hour.

According to an Innsbruck despatch
the Germans are concentrating a new
army under command of General Lun-
dendorff in the vicinity of Munich. Its
destination is said to be Trent.

The Russians are returning about
6000 Italians who were held prisoners
in Galicia by the Austrians to Italy.
The men will be sent home by way
of Roumania.

As the Austrian airmen outnumber
the Italian airmen, France is sending
some of her aviators to Italy.

LOSS NOT SERIOUS

By Special Wire to the Courier.

Paris, July 13.—The loss of the
Souchez cemetery and adjacent trenches
by the French which was indicated
in the French official statement of
yesterday, while regrettable, does
not affect the principal defences in
this region, according to French mili-
tary writers. It is a warning, however,
says Col. Rousset in the Petit Parisien
that will not be neglected. The Ger-
mans visibly are redoubting their ef-
forts to capture the French fortress
of Verdun. After the failure of their
plans in the forest of Argonne, they
are trying to concentrate attacks in
the Woivre district to obtain the most
accessible parts of the citadel by at-
tempting to establish batteries with
the idea of reaching the city. The
outer works, however, in the opinion
of the French military officials are
solidly guarded and are equipped with
all means for reply.

HOW'S THIS?
We offer One Hundred Dollars Re-
ward for any case of Catarah that
cannot be cured by Hall's Catarah
Cure.

LLOYD GEORGE TELLS PEOPLE ABOUT ENEMY

And Warns That Teutonic Resources are Very Great.

London, July 13.—That the Teu-
tonic allies are turning out 250,000
shells a day was one of the main
statements made by David Lloyd
George in his great speech in the
House of Commons a few days ago in
moving the adoption of the munitions
of war supply bill. The Minister of
Munitions said in part:

SUPERIORITY IN MEN.
"We have an undoubted superiority
in men—(cheers)—in numbers—and I
am assured by all those who have
been at the front that it is not mere-
ly a superiority in numbers, but in
the quality of men—(cheers)—and
therefore, it is purely a question of
equipping them with the necessary
amount of material to support their
valor in the attacks which they make
on the lines of the enemy." He heard
the other day on very good authority
—and this will give the House an idea
of the tremendous preparations made
by the enemy for this war, and of
the expansion which has taken place
ever since the war—that the central Eu-
ropean powers are turning out 250,000
shells per day.

8,000,000 SHELLS A MONTH
"That is very nearly eight million
shells per month. The problem of
victory for us is how to equal, how to
surpass, that tremendous production.
(Hear, hear). The problem of speedy
victory is the accomplishment of that
aim with the least possible waste of
time. (Cheers.) Any obstacle, and
mismanagement, any slackness and
indifference, any delay which prevent
or delay mobilization of all our
resources at the earliest possible mo-
ment postpone victory. The question
which in the Minister of Munitions we
have ourselves to achieve, is how
we achieve that purpose? I say that
we can accomplish that object of not
merely equaling the German and
Austrian output of munitions, but if
we are in earnest we can surpass it.
(Cheers). The central European
powers have, probably, attained
something like the limits of their pos-
sible output. We have only just
crossed the threshold of our possibili-
ties.

TEMPORARY PREPONDERANCE
"Germany has achieved a temporary
preponderance of material. She
has done it in two ways. She accumu-
lated great stores before the war. She
has mobilized the whole of her in-
dustries having the war in view, and
doubt taken steps before the war to
be ready for the mobilization of the
workshops immediately after the war
was declared. Her preponderance in
two or three directions is very nota-
ble. I mention this because it is es-
sential they should be understood in
inviting the assistance of the com-
munity to enable us to compete with
this formidable enemy. The superiority
of the German in material is
most marked in their heavy guns,
their high explosive shells, their
rifles, and perhaps most of all their
machine guns. These have turned out
to be the most formidable
weapons in the war. They have al-
most superseded the rifle and rendered
it unnecessary.

GERMANY'S PREPAREDNESS
"The problem of victory is a prob-
lem of mobilizing our resources for
the purpose of increasing the material
of the German. The conditions of
things with which we were confront-
ed at the beginning of war? Germany
had been preparing for years. (Hear,
hear). She had been preparing in a
direction which we hardly suspected.
We naturally were anxious to see
what was making great secret prepara-
tions to strengthen her navy and to de-
velop a sudden surprise attack upon
us. I think on the whole there was
nothing that we had not anticipated.
There was nothing she had done for
her navy that we were not prepared
against. There has been no surprise
in the turning out of any expedients
which we had not been foreseen of
so far as the navy was concerned. The
strength developed by the submarines
has been surprising; but the number
and the fact that they possessed them
was no surprise. That was not the
case with her armies. I ventured to
call attention in 1913 to the fact that
in my judgment Germany was con-
centrating upon developing the
strength of her armies and not of her
navy and I got rather a bad time.
What was the fact? Germany had un-
doubtedly been preparing. She had
been piling up material until she was
ready. She was on the best of terms
with everybody."

LIKELY BE LET OFF
Paris, July 13.—Major Julien of the
Paris permanent court martial, has
completed the report he will present
to that tribunal regarding the case of
Raymond Swoboda, who professes to
be an American citizen, and who was
charged with espionage after having
been arrested on suspicion that he was
responsible for the fire aboard the
Steamship La Touraine. Inasmuch as
experts have decided the steamer fire
was the result of an accident, and as
there is no strong evidence that Swo-
boda was a spy, it is considered prob-
able the case will be dismissed.

STEAMER WRECKED
Detroit, Mich., July 13.—A report
reached here this morning that the
crew of the Steamer Choctaw, of the
Cleveland Cliffs Iron Company, had
Cleveland, wrecked Sunday night or
Monday morning in Lake Huron, had
reached Port Huron safely aboard the
Steamer Walconda. It is believed
the Choctaw and Walconda collided,
the former sinking.

Violation Especially Included

Paris, July 13.—Cardinal Garrari,
papal secretary of state, has given the
seignior minister to the vatican a
letter in which the cardinal says the
violation of Belgian neutrality by
Germany was expressly included by
Pope Benedict among the acts which
His Holiness condemned in his con-
sistorial allocution of January 22, ac-
cording to a despatch received by La
Croix from its Rome correspondent.
The cardinal La Croix asserts, de-
clared in his letter that the pope made
no such reply as was attributed to
him by Louis La Tapie of the Paris
Liberte, when questioned regarding
the violation of Belgian neutrality.

In his account of his interview with
the pope, M. La Tapie said his holiness
replied: "That was under the
pontificate of Pius X." In answering
the question: "Is it necessary to en-
quire as to whether the neutrality of
Belgium has been violated?"
In his allocution at the consistory
of January 22 Pope Benedict said:
"Concerning our beloved Belgium
people we showed our sympathy in
our letter to Cardinal Mercier. Here
we make appeal to the sentiment of
humanity of those who cross the fron-
tier of hostile nations conjuring them
not to devastate the invaded regions
more than is absolutely necessary
from the standpoint of military occu-
pation and, above all, not to wound
without actual necessity the feelings
of the inhabitants in their dearest
possessions, their sacred temples,
their ministers of God, their rights,
their religion and their faith."

With each bag of peanuts, a carna-
tion free, Saturday, July 17th. Pea-
nuckle's, Market Square, and 270
Colborne Street.

Glasses Are Not A Luxury

they are a necessity. Nobody wears them unless they have to. But if they have to, then it is their duty to get the best. You cannot trifle with the eyes. Good Glasses will help them. Poor Glasses will injure them. If you think you need Glasses come here and get a free examination. We will fit you with the kind that will positively benefit you at small cost.
