Saver's Circular reports continued inactivity in American securities—prices almost unchanged.

The weekly returns of the Bank of France exhibit an increase in cash of nearly twelve and a half million francs.

There is a movement among working classes in London, avowedly for the purpose of getting shorter time and higher wages was spreading. The movement so far had been legal and pacific but it was supposed it would increase under conviction that operatives must be kept contented at any cost.

Spain. Cortes opened 22nd inst.—Queen's speech expresses the hope of a prompt solution of the Peruvian Question—but is silent on the subject of San Domingo.

Spain has no ambitious projects upon South American republics. The speech announces bills regulating financial questions and modifications in law on the Press.—Another paragraph was as follows:—"I am bound to state the general condition of monarchy considered in all its extent is not very satisfactory and to remedy this I shall lay before you a bill of great importance.—This is supposed to refer to San Domingo."

**NEW ORLEANS, Nov. 28, 1864.**

Mr. INGS. Sir.—I take the liberty of sending you a list containing the names of Officers and Great Britain and the Colonies have furnished the U. S. Navy in the present struggle.

England, 115; Scotland, 54; Ireland, 165; Canada, 24; Nova Scotia, 16; New Brunswick, 8; Newfoundland, 2; Prince Edward Island, 4; other small places, 3; making a total 323.

The names of the P. E. Island's are George Wisner, Daniel McLean, Peter Barelay, and J. N. VanBuitrik.

Having no doubt that the above item may be interesting to some of your numerous readers, (being official) I give it to you for what it is worth. Your Obt. Servant, AN OFFICER.

Colonial and foreign mails were received at the General Post Office on Wednesday night last, and on Friday night, in addition to these mails, the English Mail per steamship Asia from Liverpool to Halifax, was also received. An extensive synopsis of the news received by these arrivals will be found in this day's paper.

We received by the last English mail a copy of a semi-weekly paper named *The Goulburn Argus*. It is published in Goulburn, New South Wales, by a respected friend who left this island in the Brig *Prince Edward* for New Zealand, some five years ago, viz: Mr. John Walsh. We congratulate our friend upon his success at the antipodes, and we hope that the *Argus* will long prove a source of profit and honor to himself. It affords us unfeigned pleasure to chronicle the honorable progress which many of the sons of Prince Edward Island make by their industry and talents in whatever land they adopt as a home. We may also here mention the name of another young man, a fellow passenger of Mr. Walsh, who had carried out for himself an honorable and remunerative position in Australia.

Mr. Charles Badge, son of the late W. H. Badge, Esq. This young man having started for Melbourne shortly after his arrival in New Zealand, obtained a situation as operator in the Telegraph Department of that city, and has gradually risen until at the present time he is Inspector of Telegraph Offices for the District of Melbourne, with a salary of four or five hundred pounds sterling per annum.

In Halifax they have had some two or three fierce debates on the Union Question during the past week. According to the admission of a Halifax union paper, we learn that the majority of that city are opposed to the scheme, and we are also led to infer that the majority of the people of Nova Scotia are opposed to it. Now, if a majority or even a powerful minority in that Province—which will certainly derive more advantages from the Inter-Colonial railroad than any other portion of the Confederacy—are opposed to the Union, how much more reasonable is the opposition of this Island. Except in a few instances of fanatic and patriotic individuals in our midst, it is admitted on all hands that this Island is justified in rejecting the terms of the Conference, and if our address to the scheme is required, considerably more handsome terms than those now offered will have to be substituted. That is a settled point.

The Ladies of the Catholic Benevolent Society have much pleasure in acknowledging the receipt of £15 from the Rev. Mr. Trudelle, President of the St. Cecilia Choral Society, for the benefit of the poor.

No telegraph despatch last night, in consequence of the lines being down.

By Telegram we learn that the Barque "Mirabeau," Murhead, Master, from Sumneride, for Liverpool, timber laden, was lost at St. Mary's Bay, Nfld., on the 7th Dec. last. Vessel insured in the Marine Insurance Office of this City.—*Id.*

Amount of Produce shipped from the port of Georgetown for the quarter ended 31st December, 1864: 111,704 bush. Oats; 4,998 bush. Barley; 39,455 " Potatoes; 620 " Turnips.

W. B. AITKEN, Controller.

Maximilian, with the entire territory of the colony of Honduras and its caves and islands, are incorporated with his empire from the first of October last. England's treaty claims to Honduras seem entirely ignored.

HO. FOR THE FRONTIER.—The only two companies that are to leave Quebec for the present—the Victoria Rifles and Diamond Harbor Rifles—will start on Monday afternoon. Officers and privates alike are in high spirits at their approaching departure to assume the regular duties of soldiers.—*Quebec Gazette.*

MARKER DISASTERS IN CAPE BRETON.—The *Charon*, learns from a passenger by the *Delta*, (arrived at this port yesterday), that just as the steamer sailed from the harbor at Sydney, intelligence was received to the effect that a great freshet had occurred in several parts of the island of Cape Breton, which caused a great amount of damage.—Between North and South Sydney, the bridges had been swept away, and in other places the roads were flooded and bridges much damaged. Before the storm commenced, there had been a heavy snow storm. We learn from the same source, that the body of Capt. Bragg, of the *Star of the East*, recently wrecked, is of the crew, and two passengers had been washed ashore, at Mainland. A letter received at Sydney, from Archat, states that there were nine wrecks along the coast, near that place. Among them were the Brig *Robert D'On*, and set-owners *Amston*, and *Moving Star*, which were total wrecks. The brig *Kachiv*, was ashore, but her condition was not known.—*Id.*

ESPELERS IN MARSEILLES.—By a curious coincidence, the two distinguished inhabitants of the city of Marseilles at this moment are Irishmen, although subjects of the Emperor of the French. The Bishop of the diocese is Monsignor Etienne. Cronin, and Commandant of the district General Patrick O'Malley, lately returned from Algeria. The General is one of the most distinguished infantry officers in the service of the Emperor. He received his promotion for special gallantry on the bloody field of Magenta. The Regiment of which he had command was assigned a strategic post at the village of Buffalora, when it not only held its position under circumstances of imminent danger, but also succeeded in taking up another more favorable position in which it contributed in a great degree to secure the victory for the arms of France. It was probably owing to the bayonet charge of this Regiment at an Austrian Brigade that the Emperor was prevented from being taken prisoner, a circumstance which would have slightly altered the fortunes of the day. For this service O'Malley was made General of Brigade. He subsequently served in China, having been present at the capture of Tsin Sien and the sacking of the Summer Palace of the Brother of the Sun. He is a Mayo man, by origin, if not by birth, and is the son of a "rebel" of 1798.

TO CORRESPONDENTS.—"Fair Play" and "An Irishman" will appear next week.

WE will commence next week to publish a series of original articles upon the Land Question.

Mr. Edmund Barron, will call at this Office he will find a letter addressed to our care for him, and bearing the post mark "Waterford, Dec. 21, 1864."

Medical Notices.

HOLLOWAY'S OINTMENT AND PILL.—Insistent relief.—Sores which are daily extending, ulcers which are hourly deepening, may be arrested in their torturing progress and induced to take a healthy action by applying this healing Ointment, and taking these purifying Pills. They act with such extraordinary promptitude and effect, that old ulcers of the legs, inflammations caused by varicose veins, and cramps of the lower limbs, can usually be cured, and are quickly eradicated by the joint agency of these powerful remedies, which soothe, soothe, and stimulate sluggish, vascular and nervous actions. In constitutions breaking down under piles, fistulas, and other similarly painful troubles, a few applications of this cooling Ointment will give comfort, and a persistence in its use will with certainty effect a cure.

We have frequently heard of others effecting this would not be without their *WITCHAMYLIN*, from the birth of the child until it had finished with the teething stage, under any consideration whatsoever. It gives an infant comfort with entire safety, and its parents unbroken rest at night. 25 cents a bottle.

CONSULS OF THE UNITED STATES OF AMERICA

DEPARTMENT OF STATE, Washington, Dec. 17, 1864.

The President directs that except immigrant passengers directly entering an American port by sea, benefith no traveller shall be allowed to enter the United States, for a foreign country, without a passport. If a citizen, the passport must be from this Department, or from some United States Minister or Consul abroad, and if an alien, the passport to be countersigned by a diplomatic Agent or Consul of the United States. This regulation is intended to apply especially to persons proposing to come to the United States from the neighboring British Provinces. Its observance will be strictly enforced by all officers, civil, military and naval, in the service of the United States, and the State and municipal authorities requested to aid in its execution. It is requested however, that immigrant passengers, coming in steamers, shall be exempted, or any other persons who may set out on their way either before intelligence of this regulation could reasonably be expected to reach the country from which they may have started.

WILLIAM H. SEWARD.
