Rails and Gars for Sale

T V MILRS 30 LB. STER". RAILS IN GOOD der for relaying; Three Locomotives and Filty Logging Cars, immediate shipment. For particulars Epply to John J Gartshorn, 83 Front Street West; Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

Despute the neurness of the close of the year there continues to be a steady movement of lumber by rail. The demand from industrial establishments keeps up remarkably well and indicates that the stocks held by consumers are not large. Present prices of white pine offer little incentive to buyers to place orders for future delivery, yet some orders of this character are being booked by Toronto dealers. Both the pessimist and the optimist are to be found in the trade. The former bases his convictions on the reported large crop of pine logs and the belief that the crest of the present era of prosperity has almost been reached. The optimist, on the other hand, points out that wages are so exceedingly high and labor so scarce that the cut of logs is likely to be restricted thereby, and that nothing short of a general business depression, which is not likely to reveal itself, could restrain prices from maintaining their present level The balance of opinion favors the hopeful view and a satisfactory trade for 1903.

Whatever may be said of pine, it is gencrally admitted that higher prices for hardwoods are likely to rule next year, as the advance that has taken place has not been proportionate with the appreciation in the value of lumber of the coniferous variety. Inquiries for basswood, oak and birch are quite numerous. Shingles have recently fluctuated somewhat in price, but the bulk of the sales of XXX white pine have been made around \$3.25 wholesale in Toronto. Dealers complain of the

difficulty in securing a regular supply o white pine shingles owing to the smaller quantity now manufactured.

MANITOBA AND BRITISH COLUMBIA.

The demand for lumber has fallen off somewhat sharply, due in large measure to severe weather. The building requirement for the year, however, is largely supplied, and a continuance of quiet conditions may be expected for the next few weeks.

Manufacturers of British Columbia shingles have decided to discontinue night shifts in all mills and in addition to curtail the daily output by twenty-five per cent. By this means the shingle production of the province will be cartailed by fully sixty per cent. This has been found necessary on account of the present scarcity of logs and high price of timber. It is said that manufacturers have been turning over their output at little or no: profit.

GREAT, BRITAIN. Reports from the British market em-

phasize the prevailing disposition to postpone the closing of contracts for lumber until a univer-al basis of prices has been fixed. Neglect to do this in the past has resulted di astrously. Importers regard the prices asked by shippers as excessive. especially in regard to Baltic timber. No business of importance has yet been concladed with the North of Europe exporters, although usually half the first-openwater stocks of the following year have been placed by December. Contracting for Canadian lumber has been on a smaller scale than usual, although there seems to be less opposition to the prices asked by shippers. This is probably due to the lighter stocks of Canadian pine and spruce that are held at one or two of the leading importing centres. In the Surrey Commercial Docks at London the stock of pine deals on November 30th this year was 596 757 pieces, as compared with 693,520 pieces one year ago. The corresponding figures for spruce were 557,003 and 752,750 pieces. Battens and ends also show a decrease. There has been good buying at recent auction sales, for the reason that it is possible to purchase stock at a lower cost than orders can be placed for delivery next spring. It is pointed out that current prices leave the importer but a very small margin of profit. Second quality Quebec spruce. 3 x 9, is being sold liberally at £10 58 per standard. Indications point to love. prices for pit props. There is a continued enquiry for oak logs of large size, also for wagon planks.

UNITED STATES.

More interest is now centred in white pine "mension than in any other class of lumber. A short time ago the Mississippi Valley Lumbermen's Association declined to advance the price of dimension, on the ground that the conditions creating a scarcity were of an exceptional character and likely to be remedied in the near future. Nevertheless, individual firms are advancing their quotations. During the past season less dimension timber was manufactured than usual, for the reason that greater returns could be obtained by sawing the logs into inch lumber. Out of this unnatural ratio in prices grew the present shortage in dimension stock. In other respects the market is quiet and featureless. Upper grades are in good demand, while on the lower grades a concession of fifty cents per thousand is being offered by a few manufacturers who are anxious to realize. There has been very little buying of next year's stock and present appearances indicate that it will not start until after the turn of the year. A volume of business almost equalling that of the past season is generally predicted, and it is thought that prices of white pine will rule near the present basis. Hardwood prices, however, are expected to advance, as the stock at the mills is about 500,000,000 feet less than last year. Dealers are refusing orders for future delivery excepting on condition that the price then ruling is to be paid. There continues to be a strong demand for and marked scarcity of basswood. Efforts have been made to further advance the price of hemlock, but cutting of prices by some of the smaller concerns has discouraged this movement. The base price in New York city is \$16.50.

STOCKS AND PRICES.

XXXX white pine shingles are selling in the North Tonawanda market at \$3.75. J. L. Black & Sons, of Sackville, N. B., expect to cut 4,000,000 feet of logs this

The Hanbury Manufacturing Company, of Brandon, Man., are reported to have purchased timber limits in British Columbia.

Mershon, Schuette, Parker & Company have sold to Ontario parties all the lumber they had left on the mill docks at Midand, Ont., about 2,500,000 feet.

Watson & Todd, of Montreal, are reported to have secured the 1903 cut of McLachlin Bros.' mill at Arnprior. It will aggregate fully 40,000,000 feet, including white and red pine.

About eight hundred men are engaged this winter in the woods in the Port Arthur district, taking out saw logs, piles and ties. The North Shore Timber Company are not operating this season.

In Chicago prices of hemlock by carload are steady at \$13.50 to \$14, and sales from the yards are being made at \$15 to \$15.50 for ordinary lengths. In dimen. sions 2x12 and upwards the price at the yards ranges from \$17 to \$18.

The contract for scantling and curbing required by the City of Toronto during 1903 has been awarded to Reid & Company, of Esplanade street, as follows: 4x4 pine, \$17.39 ver thousand; 4x10 pine, \$18.30; 4x4 cedar,

Davidson & Thackray, of Ottawa, last week received a cablegram that the

deamer Tartar Prince, en route from New York to Cape Town, had been burned at sea. This firm had en board the vessel a stock of doors, sash and flooring for South Africa, and are heavy losers through the fire.

During the past season there were received in the Saginaw river by water 60,247,059 feet of lumber, as compared with 100,000,0000 feet last year. Considerably over 100,000,000 feet of this stock came from Ontario. Two rafts of logs, aggregating 6,000,000 feet, were received from Canada, the timber being cut on deeded lands.

According to the National Coopers' Journal, prices of cooperage stock are likely to advance in the near future. Staves are firmer with a rising tendency, and it is predicted that No 1 staves will seek a higher level permanently before very long. Hoops are high in price and not likely to go hack to former figures. Heading does not look so encouraging. but manufacturers are likely to take some action to secure a larger margin of profit. The corn crop of the United States is an important factor in bringing about and extending these conditions.

Messrs. S. P. Musson, Son & Company, under date of Movember 22nd, say that there have been no arrivals of either white pine or spruce within the fortnight, with the exception of 30,000 feet from the La-Have river, which was sold at \$26.15 for shipping, and \$21.65 for seconds. Both pine and spruce are wanted. Last sales of shingles have been made at \$4.89 to \$5.04 for Gaspe long cedar, \$1.82 for cedar laying, and \$1.65 to \$1.70 for spruce laying.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

The representative of the CANADA LUM-BERMAN to-day discussed prices with several local dealers. A careful scrutiny of the latest quotations in the market page showed but one change, that on pine 8 up s. c. sidings quoted at \$15 to \$17 per M. Latest figures are \$16 to \$19, with few, if any, selling.

Lumber manufacturers are at present engaged stocking up, and aside from the fact that standing stock is not to be had, it is difficult to get a promise on future cut. The manufacturers are endeavoring to ascertain "where they are at," and until they locate their bearings they will not hastily discuss contracts for future cuts. While some have already made contracts for next summer's cutting, they are quoting fancy prices simply to stand off wouldbe purchasers. Reliable reports show that a considerable quantity of the future cut was again secured by English havers at standing prices. The demand coming from the Americans has and will continue to have a tendency to keep prices in Ottawa and district buoyant. Said one dealer, "As long as the Americans come over and purchase stock at the "must have it at any cost" figures, the market will be unhealthy. Lumber is bringing mere than it is really worth on this side, but we must rest content to be governed in this matter from across the line. Until manufacturing conditions change and it is found inexpedient to pay the ruling high price for Onawa lumber, the local supply will command its own price."

Inquiries in other quarters went to show that high grade lumber is not to be nad and ordinary stuff continues firm. Lath and shingles are scarce.

The most significant feature of the rather dull market, however, seems to be contained in the fact that English buyers have renewed orders for next summer's cut at prices as high as reigned a year back.

The arrival of winter will give an impetus to the movement of supplies to the limits and resist the jobbers in retting their stocks of pulp wood to the stations. The fact that snow held off several weeks later this year than last, seciously inconvenienced the movement of supplies to the distant limits. The likes and rivers have all "taken" since the recent cold snap and the lumbermen are happy.

W.H. McAuliffe has again secured the cut of spruce at the St. Anthony Lumber Company's mill at Whitney. He thus controls all the cut of spruce of 1903.

The Upper Ottawa Improvement Compuny, at its annual meeting held last week, decided to build a fleet of five boats. two large steel tugs, two alligator tugs, and one small tug, a propeller. These bouts will be placed in commission on lake Temiscamingue and the Upper Ottawa. With them the towing business hitnerto carried on by Mr. Alexander Lumsden. ex-M.P.P., will be continued. This move wi'l give the company entire control of the business on the Ottawa river. Debentures for \$120,000 will be issued to meet the cost of the extension of operations. The company elected the following officers: President, Hiram Robinson; secretary, G. B. Greene; directors, J. R. Booth, Hiram Robinson, Alex Fraser, C. Berkeley Powell and F.P. Bronson.

OTTAWA, December 15, 1903.

LUMBERING OPERATIONS AROUND LITTLE CURRENT.

[PROM AN OCCASIONAL CORRESPONDENT.]

Mesers. J. & T. Conlon closed down the'r mill at Litt'e Current about the 20th November, having cut out all their stock. This firm installed a band saw as auxiliary to their gang in the large mill and have also added an electric light plant. Their capacity for next season will be in the neighborhood of 20 million feet.

Office and Yard:
571 Dorchester St., Montreal, P.Q. Telephone Main 368 Correspondence Solicited Limited, closed their mill down about the 1st of November, having cut out their stock. They had a very successful season, cutting about 22 million feet by running day and night continuously from the 1st of May throughout the summer season without any hitch. They have 300 men m their camps at Beaverstone. At present they have four camps on their limit at Beaverstone, and expect to get out about 18 million of logs. They have also just closed a deal with Messes, Sims Bros. for about 8 million feet more of high class logs, which they expect to get early in May. This will give them ample stock for their mill for the ensuing season.

The Anderson mill is now rented to Mr. C. Stewart, late of Honora, a practical mill man, who is open for contracts to saw. Messrs. Smith & Henderson will in all probability have their stock cut by Mr. Stewart,

Messrs, Sims Bros. have about 85,000 pieces on skids now and will get in over 100,000 logs. They have two camps and about 150 men employed.

Mesers. Smith & Henderson will probably get out one million feet of white pine, Norway and hemlock with one camp and 35 men.

Messrs. J. & T. Charlton are operating on McGregor Bay with one camp and 30 men, taking out cedar ties, posts and telegraph poles. This company also have a camp and about 60 men taking out pine logs north of Killarney. They will probably get out 3 million feet there for their Collingwood mill.

The McArthur Company have about 8 million feet on their dock, and J. & T. Conlon have about 23/2 million of lumber to be shipped first thing in the spring.

DOORS AND MOULDINGS

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to "Empire," CANADA LUMBERMAN.

have at present for sale at various points of shipment, by either rail or water route, on the Ottawa River, pine cuttings of different grades from seasons 1900 and 1901. Will quote upon small lots or heavy blocks

Correspondence Solicited

THE LONDON MARKET.

The pine deal market in London was very firm during November, and for special sizes and qualities rates have been obtainable which, if they are to become normal, must tend to cleck the consumption of the article in the long run. Messrs. Churchill & Sim say that for spruce deals this market has also been quite steady, but the demand has not been very free and there is no further rise. Oak timber and birch planks have been in fair de.

mand; the market for birch timber being adversely affected by the increasing supplies of the latter. For elm and ash timber there is no change to record. White piner timber has suffered in price whenever more than retail sales have been attempted.

From the St. Lawrence the import has been as follows:

1001 1002 Pine deals...1.338,000 pcs. 1,811,000 pcs. Spruce deals...703,000 " 3,743,000 " 12,000 " 97,000 " From New Brunswick:

1902 1901 Pine deals.....357,000 pcs. 216,000 pcs. Spruce deals....619,000 " 502,000 " 194,000 "

Current prices are as follows: St. Lawrence pine deals, 1st. hright and dry, regular sizes, £22 to £29 5s. per standard; oddments, £15 to £22 5s. 2nd bright and dry, regular sizes, £18 tos. to £23 54; oddments, £13 108. to £16 54. 3rd, bright and dry, regular sizes, £11 10s. to L14 54; oddments, £8 10s. to Lt1. 4th bright and dry, regular sizes, £10 58.

to Lii iost addments, L8 3s. to L9 10s. St. Lawrence spruce deals, 1st, regular sizes, £13 to £15 per standard; 2nd, regular sizes, £13 to £15 per standard; 2nd, regular sizes, £10 to £10 tos; 3rd, regular sizes, £9 to £0 ios; battens, £7 to £8 5s. New Brunswick sp. re deals, £9 to £10 per standard; oddments, battens and fourths, £7 cs. to £0. £7 54. to £9.

Quebec white pine timber, 82s. 6d. to 120s. per load of 50 cubic feet; oak, 85s. to 150s.; elm 120s. to 165s.; ash, 27s. 6d. to 155s.; birch, 120s. to 195s.

New Brunswick birch, 1903, to 1605, per load.

THE BOSTON MARKET.

While the Canand at Boston for spruce lumber is quiet, the supply is very small and prices hold firm in consequence: Ten and 12-inch dimensions, \$21 to \$22; 9-inch and under. Sto to \$20: 10 and 12-inch random lengths, 10 feet and up, \$20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, \$17 to \$17.50; all other randoms, pinch and under, 10 feet and up, \$18 to \$18.50; 5-inch and up, merchantable hards, \$17; matched boards \$18 to \$20; out spruce boards, \$14; bundle furring, \$17.

Hemlock is quiet at steady prices: Boards, 12, 14 and 16 feet stock, \$14.50 to \$15 for good eastern; Pennsylvania, No. 1, \$18 to \$19; No. 2, \$15 to \$16.

For western pine there is a fair demand, with a moderate supply and firm prices: Uppers, 1 to 2 in. \$82 to \$85; 214 to 3 in, \$87 to 488; 4-in. \$90; selects, 1 in. \$68; 11/4 to 13/4 in. \$70; 2-in. \$72; 21/2 to 3 in. \$80; 4 in. \$82; fine common, 1-in. \$62 to \$63; 1 1/2 to 11/2 in. \$65;

2-in. \$67.50; 23/2 to 3 in. \$72.50; 4-in. \$32.50; barn boards, \$23 to \$33; coffin hoards, \$28 to \$32.

There is a firm market for hardwood lumber, with maple and quartered oak especially active: Quartered oak, \$63 to \$75 ; plain oak, \$42 to \$47 ; common and rejects, \$20 to \$25; red oak, plain, \$43; whitewood, \$45 to \$47; sap and common, \$30 to \$35; brown ash, \$41 to \$44; white ash, \$43 to \$46; maple, \$28 to \$30; end-dried white maple, \$38 to \$42; birch, \$27 to \$30; birch, 75 per cent. red. \$45 to \$50; elm, \$29 to \$31.

Shingles are firm, with a steady request : Extra cedar, \$3.50 to \$3.55; clear, \$4 : second clear, \$2.50; extra No. 1, \$1.75 to \$1.80; British Columbia red cedar, 16inch, five butts to 2 inches, \$3.50 to \$3.60; 18-inch, five butts to 2 inches, \$4.25; five butts to 21/2 inches, \$4.50.

Spruce clapboards are in small supply and prices hold very firm : Extra, \$42 to \$42.50; clear, \$40 to \$40.50; second

lear,\$37.50 to \$38; extra No. 1,\$30 to \$32. Laths are firm and unchinged : One and five-eighths inch, \$3.40 to \$3.45; 11/2 inch, \$3.25 to \$3.30.

TRADE OPENINGS.

The following were among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 50th December. 1902. The names of the parties may be obtained from the publishers of this

Particulars are required of Canadian

firms in a position to export hickory pick and handle handles; ash, pine, spruce and basswood broom handles; ash hayfork and rake handles; shovel stems and D handles; tawn mowers and hay forks.
