DYNAMITER CONFESSES CRIMES IN THE McNAMARA CONSPIRACY INVOLVING U.S. OFFICIALS

George E. Davies, Union Iron Worker, Says He Was Chosen to Kill Drew and Burns, and Was Mixed Up in Numerous Explosions.

NEW YORK, Oct. 2.—(Can. Press.)—Dynamite outrages that rivaled the exploits of the McNamara brothers and of Orrie McManigal, were confessed today by George E. Davies, a union iron worker. Davies, who was arrested here today, was the George O'Donnell who figured in the trial at Indianapolis that resulted in the conviction of Frank M. Ryan, president of the International Association of Bridge and Structural Iron Workers, and of 27 of his associates. His arrest and its consequences round up the work of the federal government, started more than two years ago, when the dynamiting of bridges and steel frame buildings all over the country became a national scandal.

All the explosions that Davies says he caused were touched on and testified to in the dynamiter's trial in Indianapolis, but the fact that Davies caused them remained unrevealed until he himself told it today.

Davies' confession resulted today in the arrest in Indianapolis of Harry Jones, secretary-treasurer of the Ironworkers. His confession supplements the evidence presented at the Indianapolis trial and makes fresh charges against some of the men there convicted and now in prison. Some of his revelations concern President Ryan, who is now out on bail pending appeal from a prison sentence of seven years.

Davies says that he was the man chosen to kill Walter Drew, attorney for the National Association of Bridge and Structural Iron Workers, in December, 1911, after Drew was charged with kidnaping John J. McManigal. It was suggested also that he tried to get William J. Burns, the detective employed by Drew and his associates to unearth the dynamite conspiracy. The price on Drew's head at that time, Davies said, was \$5000. "That I didn't want to mix up in such business," Davies said.

Davies consented to return to Indianapolis without extradition. His bail was fixed at \$10,000. The conspiracy thought to have been broken up by the conviction of Ryan and others still exists, according to Davies' confession. With the exception of Harry Jones, the men he mentions in connection with his various dynamite jobs, already had been arrested, although his confession indicated that the government had not obtained all the incriminating evidence against the defendants when they were tried at Indianapolis.

Full Confession. Apprehension of this "McManigal" of the east was due to Robert Foster, a Louisville detective, who shadowed the iron worker thru eastern cities. Finally, several weeks ago, when Davies was displeased with his treatment by the union, Foster persuaded him to make a full confession. This was on September 18. For a week Davies had been working in Pittsburgh for the Thompson-Stratford Company. Then the local delegates of the Ironworkers' Union told him he must pay a \$25 initiation fee to the local union or quit work. Davies quit. The detective told him he knew where his deeds anyway, and Davies, feeling that the union had deserted him, accompanied Foster to (Continued on Page 3, Column 2)

Robbers' Neat Haul

DAWSON, N.T., Oct. 2.—(Can. Press.)—Two masked and armed men forced employees of the Yukon Gold Company into submission on Lovett Hill, 3 miles from here, and robbed the company's sluice boxes of concentrated gravel valued at \$20,000. The men overcame by the robbers were bound and gagged and thrown into a ditch. The company had planned to make the season's clean-up this week.

BARONET DIED A DRUG FIEND

Sir Frederick Williams, Aged Twenty-Five, Was Found Unconscious in Paris Lodgings.

Special Cable to The World, Copyrighted by The Toronto World and N.Y. World. PARIS, Oct. 2.—Sir Frederick Williams, Baronet of Pillard Barnstaple, North Devon, aged 25, died Wednesday at the Paris Municipal Hospital, following an overdose of ether. Since coming to Paris early in the year he had become a drug slave. After he had been missing for several days he was found Tuesday unconscious in his lodgings. The growth of the drug habit had become almost standing heading in Paris newspapers, and hardly a week passed without the death of some student or demimondaine being reported as the result of drugs, which are generally obtained from the porters of Montmartre night establishments, in defiance of stringent official regulations.

KING OF BAVARIA IS NEARING DEATH

Special Cable to The World, Copyrighted by The Toronto World and N.Y. World. MUNICH, Oct. 2.—The condition of King Otto of Bavaria, who has been a lunatic since 1870, has changed for the worse, and his death is expected. The cause of his illness is said to be intestinal trouble caused by overfeeding. One of the symptoms of his madness has long been a constant craving for food and a desire to eat anything, even leaves and earth. A Commonplace Truth. The most sensible place for a man to wear a hat is on his head, and the most sensible place to buy a hat is at Dineen's, 140 Yonge street. Heavy Demand for Seats. Judging by the advance sale of seats for Mr. Cyril Maude's engagement at the Princess Theatre here next week, large and brilliant audiences are to be expected at each performance. The repertoire includes "Toddles," "The Second in Command," "Beauty and the Barge."

NINE PREMIERS WILL ATTEND MEETING

Every Province Will Be Represented at Conference to Be Held in Ottawa—Doubt as to British Columbia Attitude Dispelled by Sir Richard McBride's Intention to Be Present.

OTTAWA, Oct. 2.—(Special.)—The joint invitation of Sir James Whitney and Sir Lomer Gouin, to the several provinces of Canada, to be represented at a conference, to be held in Ottawa during the last week of this month has been accepted by all.

The doubt expressed in some quarters regarding the attitude of British Columbia was set at rest today by the semi-official announcement that Sir Richard McBride is leaving immediately to attend the conference. The doubt with regard to British Columbia's position was caused by Sir Richard McBride's withdrawal from the conference of 1908. The representatives of the other provinces conceded that British Columbia had made a good case for better terms and decided in 1908 to recommend that the Dominion Government grant \$1,000,000 additional over and above the fixed per capita subsidies, this million dollars to be paid in ten annual installments of \$100,000 each. As Premier Borden has made good his promise, and has referred to the British Columbia case to arbitration, Sir Richard has no hesitation in accepting the invitation to attend the forthcoming conference. Many questions of dominion-wide importance will be presented for consideration. The Maritime Provinces will again ask for a ruling on the issue of their diminishing representation in the federal parliament, and the west will insist on some decision regarding their crown lands and natural resources, still being under federal control.

SEVEN YEAR OLD GIRL FOUND DEAD

Hanged Herself Because She Could Not Remain at School.

DENVER, Colo., Oct. 2.—All last season, when her older brother and sister were attending public school, Miriam Scholtz, seven, begged to go with them. "Wait till next year," her mother promised. So last month when the public schools opened Miriam entered. Her eyes had not been strong from birth and now, in her eagerness to become "smart" like her brother and sister, she deviated nearly all her time to study. She was overjoyed at the opportunity. Yesterday a physician told Mrs. Scholtz the child might lose her sight if she continued to study. Today Mrs. Scholtz would not let the girl go to school. Miriam cried, then moped. This afternoon her mother found her hanging dead by a rope in the coal house.

CROWDED OUT

PRESIDENT OF MARKHAM FAIR

JAMES TORRANCE, to whose efforts the success of the Markham Fair largely is due.

FIFTEEN ARE RESCUED AT SEA

Arcadia Takes off Crew of British Freighter Templemore Burned Eight Hundred Miles Out.

BALTIMORE, Md., Oct. 2.—(Can. Press.)—Fifty-four shipwrecked persons from the British freight steamer Templemore, which was burned at sea 500 miles east of the Virginia capes, were brought here tonight by the Hamburg-American steamer Arcadia. No lives were lost and no one was seriously injured. The bulk of the burned vessel is believed now to be beneath the waters of the Atlantic. The value of the vessel and her cargo is estimated at \$700,000, covered by insurance. Spontaneous Combustion. Capt. Isaac Jones of the Templemore, which left Baltimore for Liverpool last Saturday, said the fire was discovered at 11:30 Monday night in the hold where cotton was stored, and it was his belief that it was caused by spontaneous combustion. "I ordered the hold flooded by means of three fighting apparatus which we had in every part of the ship," said Capt. Jones. "besides two powerful streams of water were sent into the ventilators just about the burning cotton. Within 20 minutes the fire reached the oil and lumber which was stored in the hold. I ordered the wireless operator to send out an 'S. O. S.' Word came at 11:50 that the Arcadia, 50 miles away, had heard our call and was coming to full speed. Still we fought the blaze, by men appearing unmindful of the danger. "I saw we had done the best we could, and three boats were lowered. No man left the ship until he received instructions to do so from me. I have never heard of men who behaved so admirably under such trying conditions. It was a few minutes after 1 o'clock when I left the ship. All on board preceded me to the boats. "Our experience in the small boats was the worst of all. A storm was raging and the wind nearly upset the slender bottoms. Under such conditions however, we managed to keep our boats' head to the wind until 3:30 o'clock, when the Arcadia came along. "Many of the crew were seasick and exhausted. Some were so weak they had to be lifted out of the boats. When the Arcadia started toward Baltimore, the Templemore was aflame from bow to stern."

WILL ENDEAVOR TO GET UNIFORM LAWS

Canada and United States to Co-Operate in Good Roads.

DETROIT, Oct. 2.—(Can. Press.)—Canada will be represented on the United States in an endeavor to obtain uniform laws pertaining to road building in the proposition made at the approval of Premier Huron, according to an announcement made at the American Road Congress here today by A. W. Campbell, deputy minister of railways and canal, for the Canadian government. Mr. Campbell said he would use his influence in urging the premier to consent to the appointment of a committee to confer with a committee representing the American Highway Association and the American Bar Association to evolve a plan for uniform road laws. "I realize that in Canada, as well as throughout the United States, we have forty varieties of road laws for every province," said Mr. Campbell. This tends to retard road work, and a nearly endorsed plan that would bring about practically the same laws for both the United States and Canada relative to good roads.

CHICAGO EXPORTER SAYS FREE WHEAT

Will Come Within Year When Canada Removes Counter-Vailing Duty.

MINNEAPOLIS, Oct. 2.—(Can. Press.)—That Minneapolis will get free Canadian wheat within a year is the opinion of the Chicago grain merchant, said Lloyd Canby, son of C. H. Canby, a prominent Chicago grain exporter, who was in Minneapolis today, and who declared that Chicago had figured out that Canada will take off the countervailing duty within that time, which will enable Western Canadian shippers to send grain to Minneapolis if they wish.

WILSON WILL SIGN NEW BILL TODAY, DEMOCRATIC TARIFF MAY BE IN FORCE SATURDAY

Virtue of Radium Gas. LONDON, Oct. 2.—(Can. Press.)—The Radium Institute announced tonight the discovery of the fact that the gas given off by the radium, is as efficient for curative purposes as radium itself. A method has also been discovered whereby the gas can be conveyed to medical men throughout the country, for use among their own patients.

WAITED SERMON BEFORE HE DIED

Victim of Tuberculosis Asked Minister to Deliver Funeral Oration While He Still Lived.

(Special to The Toronto World.) UNIONTOWN, Pa., Oct. 2.—Angus Tubbs, 41, who died of tuberculosis, today asked the Rev. P. H. Thompson, pastor of a Methodist Church, to preach his funeral sermon while he was alive. Startled by the strange request, Mr. Thompson asked Tubbs why it would not be better to wait until he had died. Tubbs answered that he would like to hear what the minister had to say about him. "All I ask of you is that you visit me a few hours before my end comes," he said. "I will arrange to have all the mourners here, and then you can go ahead and preach my funeral sermon. What difference does a few hours make? I am no better than a dead man now, and I would like to watch the funeral services." When Mr. Thompson refused to grant the request, Tubbs said he would try to get another minister. Physicians say Tubbs can live only a few days.

Charles T., one of the most celebrated of the Emperors of Germany, a few days before he died and while he was in normal health, to see what his funeral would be like, had himself arranged as if for burial, reposed in a coffin and listened to a service for several hours. Then he was taken ill—possibly from the exposure to which he had subjected himself—and died Sept. 21, 1888.

SIR WILLIAM MEREDITH REPRIMANDED JURYMAN.

Chief Justice Meredith called H. P. Eckardt into court yesterday afternoon and asked him how it was that he had summoned a juror to the trial, sitting on a jury. Mr. Eckardt offered the excuse that he had been moving and had forgotten the date. This did not satisfy his Lordship, and he gave Mr. Eckardt a severe reprimand. Mrs. Chamberlain commenced her case against the Toronto Railway Company, by suing the company for damages in connection with her mother's death on the morning of Dec. 18 last. Mrs. Margaret Bird, an elderly lady, was struck at King and Fortland streets by a car when she was crossing the street. Mrs. Chamberlain holds that the car was in charge of a "green" motorist, and that she was injured while passing and then threw on speed again, striking Mrs. Bird, who was crossing the street, and Thomas Joseph said he saw the car but did not stop. It slowed down and then bounded forward.

DOINGS OF THE DISCIPLES

BY DR. QUILL

Massey Hall was gloomy on Thursday. The heavens were dark with mist and rain. And the Disciples were all the while turning their minds to the dark lands of the world. It was the annual meeting of the Foreign Christian Missionary Society, The Congo, Philippines, Japan and India, passed in panoramic interest. The missionaries, who are picked men and women of the homeland were lights indeed. Truly they are showing the way upward whether the nations are aspiring. One lady, without complaint or moan, or fevers, heralded the cause of the Congo. "If you only knew," she said, "how great is our work, you could not remain away from us." A young man, with stentorian voice, described how he tackled the native government to do something for the university students of Manila, who were living under degrading conditions. Another energetic young fellow pointed out how in Japan he was settling the war spirit, which has been inflamed against the United States. His proposition is, that unless the Japanese adopt a higher moral standard they cannot expect to be accepted on an equality with Americans, in California or any other place. Such he tells them, and they are beginning to see the point. But it remained for Miss Mary Bloch, Hamilton, Ont., to set in practical light the business of the missionary. She gave a list of her duties, which included teaching and tolling, cooking and cabinetmaking. She was nurse and minister, and everybody roared at the earnest little woman declared innocently—"You need to include all lines in our business."

The rankest critics of missions will surely find pleasure in one part of the work. It is that now under the direction of C. T. Paul, a former citizen of Toronto, in Indianapolis there is a college of missions. This is the half-way house between theological or medical school and the foreign field. It gives men and women intimate knowledge of how the money is raised and should be spent. Next it gives them practice in how to disentangle the good from the evil in Oriental manners and customs. It turns the thought to matters of health and what to do in the face of plague. They are started in the study of their chosen language, and directed how to get best results from native teachers. President Paul has a picturesque array of assistants and special lecturers to deal with these and like problems. The building is called The Sarah Davis Detering Memorial, in honor of the mother of Mrs. Carleton G. Ferris, one of the ladies who made its erection possible. It is in close proximity to Butler College, and is already very popular.

The "crisis of missions" continued all afternoon. Again it would be as for a feast to find fault. Both the facts and the men who launched them with earnest voices, could not be discounted. A. C. Gray, of Eureka College, a young man whose splendid voice filled the hall, in passionate language pictured the Disciple field in the Congo as the battleground, but duties, which included teaching and (Continued on Page 2, Column 2)

TORONTO MAN WAS THE ONLY MOURNER

E. J. Smith Attended Funeral of Wallace Baker, Who Killed Himself.

(Special to The Toronto World.) NEW YORK, Oct. 2.—Wallace E. Baker, whose six reasons for his suicide at Manhattan Beach Point last Sunday were telegraphed to the Toronto World last night, will be the only mourner present, Baker's mother, who lives at No. 6 Church street, Montreal, being too feeble to come. "Smith, who arrived in New York and is staying at the Grand Union Hotel, made positive identification of the body at the morgue and will be directed to the formalities of the law, and would not be led into any discussion of Baker's life. He described himself as a friend of the Baked family."

SUNDAY SCHOOL ASS'N MEETING

Thousand Delegates Will Attend Big Convention at Ottawa.

AT OWEN SOUND ALSO

Long List of Prominent Speakers Has Already Been Prepared.

Secretary Brown of the Ontario Sunday School Association stated to the World that a thousand delegates were expected at the eastern Ontario convention at Ottawa.

SOUTH WATERLOO'S ANNUAL FALL FAIR

Auspicious Opening Yesterday—Splendid Show of Cattle, Sheep and Horses.

GALT, Oct. 2.—(Special.)—Today, the sixteenth annual exhibition of the South Waterloo Agricultural Association, opened at Dickson Park, and will last two days.

NEWS OF ST. MARY'S.

ST. MARY'S, Oct. 2.—(Special.)—Rev. Hugh Ferguson, inspector of the Children's Aid Society for the County of York, gave a lecture in the Methodist Church on Sunday night, after church services were dismissed.

GUELPH MILLER PASSES AWAY

James Little Lived in the City for Nearly Fifty Years.

WOMAN GETS TEN YEARS.

SASKATOON, Sask., Oct. 2.—(Can. Press.)—Mrs. Dora White, convicted last Saturday of manslaughter, for killing her husband, George White, at Govan, on June 2, was sentenced this afternoon to ten years' confinement at the Provincial Penitentiary.

Doings of the Disciples

By DR. QUILL

(Continued From Page 1.)

tween the Cross and the Crescent. He stated that Islam claims Africa as its own, and it is there that the forces meet. C. T. Paul took a survey of the world still untouched by missions.

B. W. Teabout, Cleveland, a still younger man of wealth, related some of his experiences as a visitor to China last spring. With strong thrilling voice he shouted—China can be Christianized. It will be.

All day the sky had been dull, but the spirit of the convention had dispelled all shadows and glowed with heavenly light. There were many particularly bright spots.

Another was in the happy manner whereby A. McLean, the president of the society, kept the idea of brotherhood in fact, the idea of a large family being one of the delegates.

Frederic than any of the above were further incidents. Eray men and women have dared the climates, the swamps, and the primitive conditions of foreign lands, with never a thought of except saving souls.

CURIOSITIES OF KOREAN MARRIAGES

Wedding Ceremony is Most Simple, Consisting Merely of a Procession.

The Koreans marry very young, generally between the ages of twelve and fifteen. For a woman to reach twenty without marrying is considered a terrible thing.

THE NURSERY CONDUCTED BY Elvion Murray

Training the Senses

The child is taken when his training begins in a state of naturalness as respects all the bodily tastes, and the mother should endeavor to keep him in that state, and to let no excess disturb the simplicity of nature.

Let the food be simply for nourishment. Never should food be taken for its own sake, but for the sake of promoting bodily and mental activity. Never attract attention to the taste or delicacy of food as objects in themselves, but only as means to make it good, pure, wholesome nourishment.

Above all, as a means of culture as well as a means of inspiration and a guide to conduct is recommended the Bible. No stories are told to the children so much as do well-selected Bible stories.

PREMIERS' MEETING POSTPONED A WEEK

They Will Confer October Twentieth, After the Governor-General's Return.

The conference of the provincial premiers of the Dominion, which was to have been called on Oct. 20, has been postponed by agreement until a week from that date.

While no reason is advanced for the change, it is considered that because of the return of the governor-general about that period, a later date would prove more propitious.

Instructors in Uniform. The management of the Riverside Roller Rink has put the instructors in a very nice gray uniform.

GOOPS By GELETT BURGESS

A Goop, to see a bottle smash, Threw it and laughed to hear it crash. It broke in pieces in the street; Alas, for horses' tender feet! Alas, for automobile tires! What do you think of Guy J. Byres? Don't Be A Goop!

ONE STANDARD FOR ENTIRE DOMINION

Conference to Put Boiler Inspection on a Uniform Basis.

There is a strong possibility that representatives from the different provinces will convene before long to discuss a standardization of boiler inspection.

No date has been set for the conference, but Hon. Dr. Reuma, minister of public works, has the matter under consideration.

THOUSANDS ATTEND MEAFORD'S BIG FAIR

MEAFORD, Oct. 2.—(Special.)—Favored with fine weather the Meaford and St. Vincent Agricultural Society's show here was a huge success, thousands of people attending.

OSPREY FEATHERS FAVORED FOR HATS

The publication of photographs of a society bride leaving for her honeymoon wearing a hat adorned by a tuft of what looked like osprey feathers won many admirations in many minds, but west-end milliners are not agreed that this is a sign of "coming vogue."

FOUNDER OF C. E. TO PREACH IN TORONTO.

Father Endeavor Clark, founder of the C.E. movement, will spend next Sunday in Toronto as the guest of Rev. Alex. Gilray.

Corn Cake for Afternoon Tea. Into a piece of bread or biscuit dough the size of an orange, knead and roll one cupful of granulated yellow meal, a tablespoonful of sugar and a little salt.

THE GARDEN CONDUCTED BY RACHEL R. TODD, M.D.

An Ancient Walled Garden

The tedious memory of those who have seen the garden, hidden from a starry night behind a solid wall of lowering grey stone—the memory of the iron gates, the wide rustic archway, above and surrounding it, lent a soothing touch that was strangely incongruous.

The Question of Quick and Easy Cleaning Narrows Down to This Old Dutch Cleanser

TRIED RECIPES

Beefsteak in Casserole.

Use two pounds of round steak cut from one to one and a half inches thick. The steak may be left whole or cut into pieces two inches square.

Squash Bisquit.

Put one half cup cooked squash thru a coarse sieve; add one tablespoon sugar and a pinch of salt. Heat one cup milk and one tablespoon butter together.

Brunswick Stew.

Cut up a four-pound fowl and cook it with a sliced onion, one-fourth pound of bacon and boiling water to cover, an hour and a half. Then add one pint of fresh lima beans, one pint of fresh corn from the cob, one teaspoonful salt, one-fourth teaspoonful pepper, and half a tablespoonful finely chopped parsley.

A Saturday Sale of Boots

A Sale That is All the More Opportune as This is the Time of Year When Good Honest Footwear is an Absolute Necessity—and Look at the Saving.

Women's American Boots \$2.45. Dainty button and laced styles in all leathers and combinations of leathers, with self and fancy tops.

Men's Goodyear Welted Boots \$2.95. Made on the newest lasts; suitable for dress and everyday wear; patent calf, gunmetal tan Russia calf, velours calf and Dongola kid leathers.

Men's \$5.50 Prospector Boots \$2.95. Men's High-top Prospecting Boots, water-proofed tan winter calf leather, triple thick Goodyear-welted soles and double reinforced shanks.

Boys' Goodyear Welted Boots \$2.45. Made on neat, easy-fitting styles in Blucher and button styles, tan Russia calf, gunmetal, patent calf, velours calf and fine vicid kid leathers.

STORE HOURS 8.30 A.M. TO 5.30 P.M. For Other Simpson Announcements See Other Page in This Paper

The Robert SIMPSON Company Limited

Mix the mushrooms and oyster liquor and add enough cream to make two cups. These are cold leather throughout and will give splendid wear; sizes 1 to 5. Regularly \$3.50, \$4.00, \$4.50 and \$5.00. Saturday 2.45

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL, DOMESTIC SCIENCE LECTURER

Succotash

ALL the world has contributed to our supply of beans; natives of Egypt, they were introduced into England by the Romans and many sacks of them were brought to America by the first settlers.

To Remove Paper.

A good way to remove old wall paper is to use the following solution. The pasty solution should be made of a thick flour and a few ounces of acetic acid. This paste solution should be applied with a brush to the old wall paper in quantities. After a few minutes the old paper can be removed in great strips very easily and with very little dust or dirt.

YOUNG SOLDIERS WERE INSPECTED

Cadets From University School Made Fine Showing at Annual Drill.

INSPECTORS EXTOLLED

Professors and Other Spectators Were Loud in Their Praises.

That success has crowned the efforts of those who were behind the movement whereby a cadet corps of the University of Toronto School was organized, was conclusively proven yesterday afternoon, when 70 soldierly-looking lads, dressed in uniforms of khaki with royal blue facings, marched past Major Barker of the headquarters staff, in the university stadium.

This marked the first annual inspection of the cadet corps, the formation of which was made possible by the generosity of Major R. W. Leonard of St. Catharines, one of the governors of the school, who donated \$1000 for the purpose.

The splendid appearance of the cadets and the military precision of their movements reflected the highest credit on their instructors, Lieut. G. N. Bramfit, Second P. Co., C.E., and Lieut. G. A. Cline, 10th Lincoln Regiment, both of whom are masters in the school membership in the corps is purely voluntary. By this means it is possible to have in the corps only those boys who are really enthusiastic.

Among those who were present were President Falconer of the university; Col. Long, professor in the department of chemistry, an officer of the Canadian engineers; Dean Baker of the faculty of arts; Dean Pakenham of the faculty of education; Prof. Sandeford, Prof. De Lury, Dr. Barton, Prof. V. E. Henderson and Prof. Crawford, head master of the school.

TARANTULA COMES OUT OF SUIT CASE

Stowaway Throws a Scare Into the Crowd of Hotel Lobby.

SAN FRANCISCO, Oct. 2.—Hygical "Ohs" from half a dozen women and tight drawers, and they tried to a place of safety caused consternation in the lobby of the St. Francis Hotel when a big spider of the tarantula variety sprang out of a suitcase in front of the desk, majestically holding a whole oyster cracker before him.

While employers and men spectators watched for a moment in as much awe as that exhibited by the women, Congressman Thomas D. Reilly of Meriden, Conn., was heard to remark: "That don't scare me any, for I always heard the big bugs stopped at this hotel."

It was just as the passengers from the Oceanic Steamship Sierra were standing at the desk awaiting room assignments that the big spider took possession for a few moments before he was captured and placed in captivity in the desk of Assistant Manager Tom Keating.

One of the several bell boys who had been bringing in baggage from the bus for a couple of suitcases on the floor behind the line of waiting guests and the jar brought out his spider-ship. It was evident that he was enjoying a meal for at the time he was jarred loose he came with his lunch in the shape of an oyster cracker.

The baggage from which the spider came was that of Mrs. H. Huffman of Los Angeles, who, with her son Frank and daughter Rose, has just returned from Honolulu. The spider got into the baggage on the steamer coming over.

HOW SHOULD MAN WEAR COAT COLLAR

Iowa Courts Decide a Vexed Question in Man's Haberdashery.

A singular, but sensible, decision was rendered some months ago and is reported in the Iowa courts. The "turn-down collar" has been a vexed question for some time, and the Iowa courts have decided in favor of the "stand-up collar" in the case of a man who was killed at a crossing on a railroad. The man was wearing a stand-up collar when he was struck by a train. The court decided that the stand-up collar was the safer type and that the man's death was caused by the fact that he was wearing a turn-down collar.

INTERESTING STORY OF DROPS OF WATER

Wonderful Method of Nature's Preservation of Her Products.

BERLIN, Sept. 23.—A German scientist who has been figuring out some curious bits of information about a drop of water is authority for the statement that one drop may remain in the ocean for ten days after it gets in and on the other hand it may be carried out to sea by a drop in about 2400 years, according to his calculations. The life of a drop of water outside the ocean is apparently a busy one, for in about the same time that it is on the average it will be again condensed into water. Then it may fall as rain in the Rocky Mountains, for instance, and reach the Gulf of the Great Lakes. But its life as fresh water is comparatively short, for if it is not soon carried out to sea by rivers it will in a few years reach the ocean again by being evaporated and then falling as rain. Of course, it cannot be said that any individual drop follows any given course. The drops lose their identity when they go to make up a stream or other body of water, and they are broken up into infinitesimal particles when the water is evaporated.

Railway Earnings

The percentage to the city from the Toronto Railway Co.'s earnings for September is \$42,288.75, \$5000 more than September of last year. The gross earnings were \$549,859.35; for September, 1912, they were \$496,557.70.

STAFF CUT DOWN TO SAVE EXPENSES

University Poorer Than Ever—President Will Call on I. B. Lucas.

MORE NEED THIS YEAR

Freshman Class is Larger by Thirty-Four Students.

A more generous grant to the University of Toronto will be the object of President Falconer's interview with the provincial treasurer as a result of the critical condition of the finances of the university. The president will furnish a full statement of the expenses of the institution, and the budget to be presented will be larger than the present standing grant.

The biological and German departments of the university will be left headless this year, in an effort to pare down the expenses of the staff, but it is understood that Dr. E. A. Benesley and Professor Neesler will be placed in full charge of these departments next year, when the finances will permit this being done.

There are now 860 medical students in the university who have to be accommodated for hospital work at the various hospitals, but this problem is being satisfactorily worked out, and the proximity of the new General Hospital has greatly simplified matters. A large increase in the first year men is noted this term, when 119 have registered, in contrast to the 85, who were enrolled last year.

SOLVING PROBLEM OF TRANSPORTATION

W. R. Lawson, an English economist, said after a study of conditions in America: "The science of transportation is to be the special contribution of the American people to political economy."

A study of the program of the American Electric Railway Association's Convention at Atlantic City, Oct. 15 to 17, just received by F. L. Hubbard of the Toronto Railway Co., would indicate that enough time, energy and brains are being expended to fully justify the Englishman's prophecy. The association is divided into four sections, each dealing with the special work of some department of the electric railway, while to the parent association is left consideration of general problems of the industry.

No less than 64 committees will report on a variety of subjects, bewildering to the layman and indistinct with what care problems of construction, operation and economy must be studied to perfect the highly developed, frequent and convenient transit service of the present day.

An attendance of some 5000 representing more than 400 of the most important companies in the United States, its possessions, Canada, Central and South America, is expected at Atlantic City.

BELGIUM'S OLDEST POPULATION KNOWN

M. Putot Attempts to Show Ancient History at Various Ages.

Prehistoric man has been traced in several periods in Belgium. M. Putot, Belgian geologist, has made a novel attempt to estimate the population at different stages. In the lower Neolithic period, five of Belgium's numerous caves seem to have been inhabited, their capacity being fifty to sixty persons. In the Mesolithic period, the population was probably 400. Retreat of the ice permitted leaving the shelters at the close of this period, and the settlers on the banks of the lakes may soon have numbered 1000 or 1500.

The coming of the Corvids forests, perhaps, devoured the population of 1000, which may have increased to 4,000 or 5,000 at the beginning of the polished stone age.

INTERESTING STORY OF DROPS OF WATER

Wonderful Method of Nature's Preservation of Her Products.

BERLIN, Sept. 23.—A German scientist who has been figuring out some curious bits of information about a drop of water is authority for the statement that one drop may remain in the ocean for ten days after it gets in and on the other hand it may be carried out to sea by a drop in about 2400 years, according to his calculations. The life of a drop of water outside the ocean is apparently a busy one, for in about the same time that it is on the average it will be again condensed into water. Then it may fall as rain in the Rocky Mountains, for instance, and reach the Gulf of the Great Lakes. But its life as fresh water is comparatively short, for if it is not soon carried out to sea by rivers it will in a few years reach the ocean again by being evaporated and then falling as rain. Of course, it cannot be said that any individual drop follows any given course. The drops lose their identity when they go to make up a stream or other body of water, and they are broken up into infinitesimal particles when the water is evaporated.

In The Sunday World

Rocking the boat has been made safe.

This summer and last, the life savers rescued 250 people who had upset from boats. They're a hardy crew, but they needs must be.

THE ISLE OF TABOGA

A Beautiful Spot in the Bay of Panama Where Are Located the Canal Zone Hospital.

By Willis J. Abbott. Author of "Panama and the Canal in Pictures and Prose." Copyright, 1913, Syndicate Publishing Co., New York. All rights reserved.

A flock of little white boats, each with a single oarsman, put out from the shore to meet you like a flock of gulls as your little steamer drops anchor in a bay of truly Mediterranean hues. To the traveled visitor the scene is irresistibly reminiscent of some little port of Southern Italy. But from the sea one looks upon a towering hill, bare toward the summit, closely covered lower down by mango, wild fig and cocoa trees, lorded just above the red roofs of the little town by a fringe of the graceful coconut palms. Then come the houses, now below, now until they descend to the curving beach, where the fishing boats are drawn up out of the reach of the tide, which rises some twenty feet.

Taboga once shared in the prosperity of the early Spanish rule, and enjoyed the honor of having entertained, for a few days, Sir Henry Morgan, whom England made a baronet and a colonial governor because of his services in the West Indies. Taboga must have treated him well, for he only did her to seek the town, but so deep was the devotion paid by him and his men to certain turns of excellent wine there discovered that they let a Spanish salson, deep-lad, with gold and silver, slip through their fingers rather than interrupt their drinking bout.

Just now the wine and wassail of Taboga is limited to about six grog shops, which seem an over supply for the handful of fishermen who inhabit its tumble-down hovels. Each bar, too, has its billiard table, and a reminder of Black Twain's islands in the South Sea, where the people earned an honest living by playing billiards. Some of the boats at anchor or drawn up on the beach sport some prosperity among them that go down to the sea in ships. One that I saw rigged with a fore and aft sail and a luger was blown out of a single log like a river cog and had a beam exceeding four feet. Below many of the houses

were lines hung with long strips of fish hanging out to dry, for it is a curious property of this atmosphere that, despite its humidity, it will cure animal tissues, both fish and flesh, quickly and without taint.

Agriculture in Taboga is limited to the culture of the pineapple, and the local variety is so highly esteemed in the Panama markets that some measure of prosperity might attend upon the Tabogans who did but undertake the raising of pineapples systematically and extensively. But not they. Their town was founded in the sixteenth century and certainly obtained its name, today, having been enhanced no doubt by the liberal mixture of negro blood with that of the native Indians. If the pineapples grow without too much attention, well and good. They will be sold, and the grog-shops will know that real money has come into the town. But as for seriously extending the business, well, that is a thing to think of for a long, long time, and the thought has not yet ripened.

As to the part of Taboga in the economy of the Canal work we have there a sanatorium inherited from the French, and used as a place of convalescence for almost recovered patients from the hospital of the Zone. After breaking the clear, soft air, gazing at the comfortable quarters and enjoying to the full a lunch costing fifty cents that would put Broadway's best to shame, and make the expensive and ill-ordered Tivoli dining-room seem like a "beanery" in comparison, one could well understand why every employe with fifty days' furlough leave to his credit gets just such a slight glimpse of Taboga as he needs to renew his strength.

Heredit and Education will be the subject of the inaugural lecture of Prof. Peter Sandeford, the newly-appointed member of the faculty of education of the University of Toronto at convocation hall at 8 o'clock tonight.

NO GAIN CONGESTION. MONTREAL, Oct. 2.—(Can. Press.)—Sir William Whyte of Winnipeg states that the report published in Toronto to the effect that there would be a congestion of grain transportation was inaccurate. Sir Whyte said that as far as the railways were concerned no congestion is possible. The yield would reach at least 100,000,000 bushels.

LADIES RAISED \$1200. GUELPH, Oct. 2.—(Special.)—The ladies committee which had charge of the collecting for the Children's Shelter have completed their labors, and alto full

returns have not yet been made, it is about \$1200. They aimed to raise \$1300.

Damage of \$150 was done to the building and contents of the Frazee Storage and Cartage Co. at 11 Eglinton street, by fire which broke out at 8 o'clock yesterday afternoon.

RECORD THIS YEAR AT OSGOODE HALL

More Students Registered Than Ever Before in History of School.

HARD TO FIND BERTHS Many Freshmen Offer Services to Lawyers Free of Charge.

A substantial increase in the number of first-year students at Osgoode Hall is noted for this year. Registration has never been so heavy since the founding of the Upper Canada Law Society. Four women have already registered, and two more are expected to increase the number within a few days.

The women already registered are: Miss Charlotte Wegg, B.A., St. Thomas; Miss Gertrude Alford, matriculant; Miss May Mary Maund of Kingston; Miss Lena Richardson of Toronto; Misses Maund and Richard spent one or more years at a university. Last year the number of first-year men was 108. There are 1 present over 200 students in the three years at Osgoode.

One student stated to The World that a large number of the first-year men are experiencing difficulty in locating themselves in "barriers" offices, and that whereas about \$4 a week could be secured easily last summer, it looks as if a number of the new men will have to give their services gratis in order to become attached to a barrister.

Among species that breed in large colonies the mortality is painfully obvious. An illustration being the great breeding colonies of jackass penguins and cormorants on Dassen Island, Cape Colony. In 1906 J. M. Nicholl found 40,000 birds, and estimated at 3,000,000 birds, with an enormous horde of cormorants and thousands of gulls and terns.

The penguins nesting in holes, were fairly protected. But the eggs and young of the cormorants seemed to give assistance during the breeding season to the gulls and ibises and great dexterity was shown in seizing such food in any unguarded moment.

AWFUL DEATH RATE IN NESTING BIRDS

New Light is Thrown on Appalling Mortality of Fledglings.

An aspect of bird life so far entirely neglected is found by W. P. Pycraft in his new work on "The Infancy of Animals." In the gimppees we get now and then of the appalling death rate among nestlings.

Death by violence seems to account for more victims than disease. For the latter fairly high power of resistance seems to have been established, and internal parasites at least can be tolerated to a quite surprising extent.

A half-fledged blackbird disembowelled by a dog showed two or three at most full-grown tapeworms, besides other parasites—yet the bird had not

completed its first three weeks of existence.

The Toronto World

FOUNDED 1880. A morning newspaper published every day in the year by The World Newspaper Company of Toronto...

FRIDAY MORNING, OCT. 3

NOT YOUR PROPERTY, SIR THOMAS.

October the first is becoming the most important day of the year in Canada. Then it is that Sir Thomas Shaugnessy reverses his annual address as president of the Canadian Pacific Railway Company...

Manchester wheat imports. The City of Manchester, England, gave great hostages to fortune when it assumed responsibility for the completion of its ship canal.

Passengers ran from live wire. Three women were knocked to the pavement and half a dozen others slightly injured in a mad rush to get clear of a live wire.

Thaw protest is not yet received. OTTAWA, Oct. 2.—The protest which Harry Thaw has lodged with the British Embassy at the Washington state department protesting against the alleged violation of his rights by the Canadian authorities...

QIL PROSPECTS IN CANADA. Now that oil bids fair to be the fuel of the future, so far as maritime transportation is concerned, the Federal and Provincial governments of Canada might bestir themselves to aid in placing the empire beyond the need of outside supplies.

FOR OUR VISITING POSTMASTERS. Hamilton Herald (last night)—The U. S. Government is said to be preparing to nationalize the telephone and telegraph systems.

PATTERSON NOT GUILTY. Albert L. Patterson, charged with manslaughter in causing the death of Annie May Jolly on Main street, Scarborough, Ontario, Sunday afternoon, July 13, was found not guilty.

NICOLETTI ON BAIL. The case of Frank Nicoletti charged with manslaughter in connection with the death of George D'Alessandro, was traversed to the fall assizes.

Canada Permanent Mortgage Corporation. Toronto Street, Toronto. Established 1885. 12345

companies have got a lesson from parcel post. Let us warn Sir Thomas that an act of parliament can make, and an act of parliament can unmake, the Canadian Pacific Railway Company.

CITY CAR LINE SERVICE. To travel over the civic street railway line on St. Clair ave. is in itself an education in the advantages of a public owned and operated service.

REEVES TO MEET HYDRO COMMITTEE. Information Will Be Dispensed re Proposed Radial and Agreement Drafted.

MANCHESTER WHEAT IMPORTS. The City of Manchester, England, gave great hostages to fortune when it assumed responsibility for the completion of its ship canal.

PASSENGERS RAN FROM LIVE WIRE. Three women were knocked to the pavement and half a dozen others slightly injured in a mad rush to get clear of a live wire.

THAW PROTEST IS NOT YET RECEIVED. OTTAWA, Oct. 2.—The protest which Harry Thaw has lodged with the British Embassy at the Washington state department protesting against the alleged violation of his rights by the Canadian authorities...

CHANGES UNLIKELY IN WORKMEN'S ACT
Final Report of Commissioner Available Within Two Weeks.

ALSO THE SCHEDULES
Problem of Compensation to Be Dealt With Quickly and Thoroughly.

The final report of the Ontario commissioner on the Workmen's Compensation Bill is in the hands of the printer, and will be available for distribution within two weeks.

It is not thought likely that any radical change in the makeup of the bill is to be expected. The draft, which was laid before the members during last session and the accompanying interim report are taken to outline fairly well the attitude of the commissioner in the more important features.

It is the intention of the government to deal with the compensation problem as rapidly and thoroughly as possible, and this will likely constitute one of the first measures to receive the attention of the members when the house is called.

GORKY HAS TUBERCULOSIS.
NAPLES, Oct. 2.—(Can. Press.)—Maxim Gorky, the Russian novelist, who lives at a villa on the island of Capri, is so ill with tuberculosis that he has been obliged to come here and submit to a special cure.

THE WEATHER

OBSERVATORY, TORONTO, Oct. 2.—Since last night a fairly important disturbance has developed over the New England States, causing a general, and in some districts quite heavy rain in Ontario, Quebec and the maritime provinces. A few light showers have occurred in Northern Alberta, but otherwise the weather in the west has been fine.

Minimum and maximum temperatures: Toronto, 45-63; Vancouver, 56-68; Kamloops, 52-58; Calgary, 44-58; Edmonton, 44-58; Battleford, 54-64; Prince Albert, 48-58; Moose Jaw, 49-73; Regina, 57-73; Winnipeg, 38-74; Fort Arthur, 46-60; Port Arthur, 48-58; London, 47-59; Toronto, 51-61; Kingston, 54-64; Ottawa, 50-64; Montreal, 50-62; Quebec, 48-54; St. John, 54-62; Halifax, 42-60.

Lower Lakes and Georgian Bay—Fresh to strong northwesterly winds, fair and cool. Ontario Valley and Upper St. Lawrence—North and northwest winds; fair and cool. Lower St. Lawrence—Northeast to northwest winds; showery at first, then clearing.

Atlantic—Strong winds and gales with rain. Maritime—Southwesterly, shifting to westerly winds; clearing.

CONDUCTED BY MRS EDMUND PHILLIPS

The Toronto Hunt Horse Show, Stables and Gymkhana commences today at 2:30 o'clock at the Hunt Club and continues tomorrow at 10:30 and 2:30 o'clock. A great deal of interest is being taken in the events of the extensive program for the two days. There will also be some polo, tennis, and other well-known men have entered their horses for the various races, etc., which gives so much more interest to the onlookers.

A few of the members of the executive of the Art Museum and the National Exhibition, present at the opening of the exhibition of pictures yesterday at the Grange, were Sir Edmund Walker, Dr. Orr, John Mackenzie, Mr. Joseph O'Brien, Mr. Percy Rogers, Mr. George Reid, Mr. Cassels, Mr. Foster, Mr. Honro Grier, Mr. James Murray, Mr. Jeffrey, Mr. A. M. Wickson, Prof. Major, Mr. C. H. G. Gwathney, Mrs. John Kent, Mrs. Joseph O'Brien, Mrs. George Reid. The exhibition, a small one, but very interesting, is on the upper floor of the Grange, and will be open until the 18th inst.

Miss Kathleen Caldwell is home again after a trip abroad.
Miss Mabel A. Carleton leaves today for New York, where she will remain until next week, going on from there to Boston, Mass., to attend the Carleton-Davidson wedding, which takes place on Oct. 22. She will not return to Toronto until the end of the month.

Mr. and Mrs. William Flery are on an extended trip abroad.
The cadets of the Royal Military College, Kingston, will hold their annual field sports on Saturday, after which they will entertain at tea.

GRAIN MOVEMENT AT WINNIPEG AS EVIDENCED IN CLEARING HOUSE STATEMENT.
WINNIPEG, Oct. 2.—(Can. Press.)—The unprecedented and rapid movement of grain thru Winnipeg again evidenced itself today when the manager of the local clearing house gave out his weekly statement. The figures indicate an advance of about 30 per cent. over the corresponding week of 1912, and an increase of 150 per cent. over the corresponding week of 1911.

ROBERT BROWNING

First of a Series of Lectures by Edward Howard Griggs

Edward Howard Griggs launched out last night in the Y.W.C. Hall, McGill street, on one of his famous lectures on the subject of the present one being "Robert Browning." They will continue every Thursday evening until the 11th inst. at 8 o'clock.

Griggs is probably the best known in Toronto than any other living poet. His life was wholly identical with his work. He was a man of letters, a philosopher and religious writer of the first rank. His personal affairs were not his personal affairs. There were no "poems" in his life. He was a man of letters, a philosopher and religious writer of the first rank.

Griggs is probably the best known in Toronto than any other living poet. His life was wholly identical with his work. He was a man of letters, a philosopher and religious writer of the first rank.

GREAT INTEREST IN CONFERENCE

Metropolitan Area Idea Meets With Great Favor in Municipalities.

ST. CLAIR NIGHT CARS

Will Be Taken Off the Route for Lack of Patronage.

The indications are that all the municipalities within the proposed metropolitan area will be well represented at the conference on Oct. 25 in this city. A. H. Wickham said yesterday, "I have been in personal touch with some of the leading men in the area and find there is an intelligent interest in the subject that will be discussed at the conference."

It is an agreeable surprise that municipalities beyond the twenty mile radius are desirous of attending the conference. Undoubtedly the advantages of a metropolitan area are widely appreciated. The mayor of Whitby, especially, has urged the advisability of including that municipality in the area, contending that the geographic situation justifies it. He has been invited to attend the conference and put his views before the other representatives.

From Leeds, England, I have just received a report upon the development of the metropolitan area policy there. It has been so successful that the area has now been doubled. The plan of forming a metropolitan district draining a watershed has been carried out there and is proved to be the most feasible.

St. Clair Night CARS. Because there is no demand for a service on the St. Clair avenue city car lines between midnight and early morning, the runs in those hours are to be discontinued after the end of this week. Nearly everybody in that district keeps good hours. Those who don't are owners of automobiles.

During September 15,000 people viewed the city from the city hall. The Harrison hall on 52nd street was open for the night and the Harrison hall on 52nd street was open for the night. The Harrison hall on 52nd street was open for the night.

TILLET THANKS CARSON FOR LEAD

LONDON, Oct. 2.—(Can. Press.)—Sen Tillet, secretary of the Dock, Wharf, Riverside and General Workers' Union of Great Britain, addressing the International Syndicalist Congress today said that he thanked Sir Edward Carson for his support of the union's cause.

JAPAN IS MAKING NO FRESH DEMANDS

PEKING, Oct. 2.—(Can. Press.)—The Japanese legation denies that Japan is making fresh demands on China, and points out that China's satisfactory compliance with the original requirements of the treaty of the punishment of the officers commanding the offending troops, and the execution of the soldiers who killed a British soldier, is the only condition of the Japanese demand that it is added, recognizing that Japan, time to make a proper investigation of the Chinese government and anticipates no evasion on these points.

A Message to Thin Weak, Scrawny Folks

An Easy Way to Gain 10 to 30 Lbs. of Solid, Healthy, Permanent Flesh.

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good, nourishing food, but I never gain weight. I cannot get any more out of my food than I am passing them out through the body as waste."

Finishing Up For Tomorrow

CHARLIE GAGE TURNS OUT WITH VARSITY

Husky Line Plunger Back in Harness Again—Argos Ready for Tigers.

The Argonauts put in a very light workout last night in preparation for their game in Hamilton Saturday, and all the team put in an appearance. A complete group practice was held, and the boys showed a lot of speed, nearly every one of them being well up on the ball all the time. It came out that the men after their strenuous work of the last week, and they took to the work-out with all kinds of stride. The position at flying wing seems to be the only one that is not filled to date, and it will depend on whether Ross Blinkey has recovered from his injury, or whether Everett Smith or Hennis Duke is the best man. The team will most likely line up as follows against the Tigers: Flying wing, Smith or Duke; halves, Gonsky, Loeckie and O'Connor; quarter, Symonds; scrumhalf, A. Sinclair; W. Jarvis and O. Murphy; right wing, Foster, Babe Burkhardt and Dede Eubank; left wing, Farlane, Heather and McMurray. These boys have lots of speed, and if the collection of stars at Hamilton makes a break it will be all over but the shouting. It will be a great game anyway, no matter who wins, and the Tigers will find that the scoulers are hitting up a fast clip also.

Charlie Gage made his initial appearance of the season at the Varsity practice last night, and he was hailed with delight by the players. He looked in good condition and put in a good work-out. He tore round like a two-year-old. He was in the game from start to finish. That fills another position on the Varsity line, as he will be back at the flying wing again. Sheely was out again, his hand being badly injured in the flying wing getting into. It is doubtful whether he is in good enough shape for Saturday's game, and Cassels may take his place.

Parkdale held a special practice at Victoria College rink last night, and Coach Curry did not let the boys let up for a minute from 6 o'clock until nearly midnight. The players were well tired out. Most of the ground more comfortable for tackling. Hughie Gall is getting down to his old-time form rapidly, and will do a lot to boost the paddlers' end of the game, as usual.

The management of the Argonaut Football Club has arranged with the C.P.R. for additional service on the Hamilton train on Saturday. Tickets for the game will be secured at the train from the offices of the club, and the hundreds of supporters of the club are expected to make the trip.

The University Settlement team would like a friendly game of Rugby on Saturday with any team under 15 years; river-rides preferred.

Riverdale Intermediate and Junior Rugby teams request a full turnout at tonight's practice on the main side of Don Mills, also on Monday, Wednesday and Friday nights of next week. Any players desirous of joining a fast or intermediate team will be made welcome.

Balmly Beach Rugby teams hold a practice tonight at Scarborough Beach at 8 o'clock, rain or shine. Every player is requested to be on hand. The senior city team play Capitals and the O.R.F.U. play Don Roving Club tomorrow afternoon at Scarborough Beach. The intermediates do not play, but every member of the team is requested to be on hand this evening, as the majority of the intermediates will be used against the Capitals Senior City team on Saturday. The back division for the O.R.F.U. team on Saturday will be picked from the following: Murbill, Chalmers, Irvine, Cummings, Warwick and Brown; for outside wings they have Conroy Smythe, Harvey Ascroft and Halloran. Starry and Stanfield will probably be used at middle. For the inside wings there are McTavish, Brown, O'Leary and Egan. Scrummages will be picked from Wright, Deat, Walter Reid, Donaldson, Lerslie and Johnston. Wright, who played last year, has been showing good form at centre scrumhalf. The Balmly Beach team will be much stronger on Saturday, and expect a good stiff game with the Dons.

The Senior City game with Capitals and Balmly Beach commences at 2 p.m. Saturday, and the O.R.F.U. game between Don Roving Club and Balmly Beach at 8:30 p.m. Both games will take place at Scarborough Beach.

Secretary Livingstone of the O.R.F.U. has notified the western Ontario group that the schedule they have arranged is unsatisfactory, as it does not decide the champions until the second week in November. The clubs declare that they do not want the championship in that time. It is likely that he will draw up another one to suit the laws of the union.

Art Black and Kilt turned out for the first time this season yesterday, with Ottawa, and although they lack confidence they expect to be ready soon. Rufus Ryan has been an absentee for the last few days, and he is causing considerable concern at his non-appearance.

Bert Gilligan displayed some great tackling at the red, black and white's practice.

Jimmie Cranshaw will likely play quarter for Montreal, as McEvoy has not arrived from England.

Silver Quilly will captain the team in the absence of Eddie Gerard.

F. Roberts sr. and F. Roberts jr. will play in the scrumhalf for Montreal on Saturday.

The Capital Junior O.R.F.U. team will leave for Peterboro Saturday morning at 3:45 via C.P.R. Tickets may be secured either at the game or at the practice tonight, when they line up against T. R. & A. at Aura Lee at 8 o'clock. It is imperative that every member be on hand tonight.

An Ottawa despatch has the following: Dutch Beckler and Eddie Flaher of the Hamilton Alerts and football team are said to be in Ottawa, and it is understood that they are being held at the Ottawa City-University football team. Job in the printing bureau is being found for Becker, and Peter will also get a civil service position. The local club has taken a mysterious stand, and will give out no information about the transaction.

The High Park Rugby Club, both their senior and intermediate teams will appear this evening at High Park boulevard, all players are requested to be on hand. The players arrived here none the worse for their trip, and they were through camp up at Ros Craig returned to discuss their plans. Norma Clark, the Alert middle wing, was expected out with the Tigers last night. He was supposed to have been to Ottawa with Becker, but suddenly changed his mind. Arthur Lee of McGill has been ordered out of the game by his doctor, and he will hardly play this year. Buster

Society Brand CLOTHES

HAMILTON LADIES REACH SEMI-FINALS

Miss Harvey and Miss Scott Survive Third Round—Miss Dodd Wins Again.

MONTREAL, Oct. 2.—In a pattering rain and over a wet, soaked course, the third round of the ladies' golf championship was played off at the Dixie Links today. Two of the English players and the American champion, Mrs. H. Barlow of Philadelphia, were eliminated from the first competition. The surprise of the day's play was the defeat of Mrs. Barlow by Miss Florence Scott of Hamilton, who scored an easy victory with 7 up and 5 to play. Miss Scott assumed the lead early in the match, and maintained it until the game finished on the thirteenth green.

Miss Dodd, the English champion, defeated Miss Gladys Ravenscroft 4 up and 2 to play. The golf played by this pair was exceptional. They played out for the greater number of holes, Miss Dodd equaling her opponent well up with it on the seven holes of the last round. Of the sixteen holes played, ten were halved. Miss Dodd won four and Miss Ravenscroft two. There was no advance until the sixth, where Miss Dodd won.

The meeting of Miss Florence Harvey of Hamilton and Miss Henry Anderson of Royal Montreal was of particular interest to Canadians. They were all square on four occasions. Miss Harvey finally winning by 2 up and 1 to play.

Miss Violet Pooley of Victoria, B.C., was the only winner forced to play over the whole course to defeat her opponent. The Irish player, the Irish champion, Miss Mabel Harrison, the Irish champion, lost the first half, being four up at the end of the sixth, and three at the turn. On the tenth Miss Pooley seemed to gather herself together, and thru her opponent's mistake in putting gained an advantage. After this she forced the Irish champion. They were all square at the fourteenth. The Irish champion was won by Miss Harrison by her better judgment on the green. The sixteenth went to Miss Pooley, which squared the score again. On the seventeenth they halved, and Miss Pooley won the eighteenth by one up. The gallery waited for the starting of the two English players, the other couples being allowed to start out almost alone.

In the consolation competition most of the matches went by default.

Championship—Third Round—Miss Duff, England, defeated Miss Ravenscroft, England, 4 up and 2 to play.

Miss Violet Pooley, Victoria, defeated Miss Mabel Harrison, Ireland, 1 up.

Miss Florence Scott, Hamilton, defeated Mrs. H. H. Barlow, Philadelphia, 7 up and 5 to play.

Miss F. Harvey, Hamilton, defeated Miss Anderson, R.M.G.C., 2 up and 1 to play.

First Consolation—Third Round—Miss Codvile, Royal Ottawa, defeated Miss Fraser, Royal Ottawa, 3 up and 2 to play.

Miss Page, R.M.G.C., defaulted to Miss Fellows, Toronto.

Mrs. Cooper defaulted to Miss Draper, Beaconsfield.

Mrs. Kilgill defeated Mrs. Glasco, Beaconsfield.

Second Consolation—Third Round—Mrs. Wm. Dobell, Quebec, won by default from Mrs. W. B. Scott, Kanawadi.

Miss Elician, Lanston, defaulted to Miss LeSueur, Ottawa.

Miss Thompson, R.M.G.C., defeated Miss Cooke, Rosedale, 4 up and 2 to play.

Mrs. Bernard, Toronto, won by default from Miss C. Pratt, Beaconsfield.

Third Consolation—Mrs. Mussen, R.M.G.C., defeated Mrs. Duncan, Toronto, 3 up and 2 to play.

Miss Baird, Halifax, won from Mrs. J. M. Robertson, Beaconsfield, by default.

Mrs. Thibbitt, Concord, N.B., 3 up and 1 to play.

Miss Savage, Beaconsfield, defeated Mrs. Fog, Quebec, 3 up and 1 to play.

Following is Friday's draw:

Championship semi-finals—Miss Dodd, England, v. Miss Scott, Hamilton; Miss Pooley v. Miss Harvey.

First consolation semi-finals—Miss Codvile v. Miss Fellows; Miss Draper v. Miss Kilgill.

Second consolation semi-finals—Mrs. Wm. Dobell, Quebec, v. Mrs. Bernard, Toronto; Miss LeSueur v. Miss Thompson.

Third consolation semi-final—Mrs. Baird, Halifax, v. Mrs. Christie v. Miss Savage.

Games called at 2 p.m.

Total number of cars of grain inspected on October 1 were 1483 against 601 for the corresponding day of last year. Of these cars, 1921 were "contract" and 114 empty and rejected. Inspections at Chicago were 60, Minneapolis 306 and Duluth 496, or a total of 854 cars.

OPPOSED TO SALE.
Protest Meeting Called in Clinton Street School Tomorrow.

Opposition to the plans of the Toronto Housing Board, has developed in the Bickford Park district, as is evidenced by the action of the ratepayers of four streets in the neighborhood who have called a meeting for tomorrow night at which an association will be formed to oppose the sale to the board of any part of the present park area. The meeting is to be held in Clinton Street School, and the park commissionee and the alderman of the ward are among those to be invited. Grace street, Canico street, Montreal street and Crawford street comprise the district from which the association's membership will be recruited.

GIANTS WIN ONE IN THREE CHANCES

Phillies Take Famous Postponed Game and One of Double-Header.

NEW YORK, Oct. 2.—The New York Philadelphia game on Aug. 30 at Philadelphia and stopped in the ninth inning by Umpire Eshelman. The postponed game was completed at the Polo Grounds today, Philadelphia winning by a score of 8 to 6. The first failed to score the longest game on record was brought to a quick finish. The unique entertainment afforded by the playing off of the postponed game preceded a double-header, the Giants winning the postponed game and Philadelphia the second 4 to 2. In the first game top safe, Willie Chalmers was hit hard. He went to pieces in the sixth inning when New York got four runs from five hits and two passes. The second game was called at the end of the sixth inning on account of darkness. Hearne, New York helped Philadelphia in scoring.

CRITICS DIVIDED ON THE OUTCOME

All Agree That "Breaks" Will Be Big Factor in Coming World Series.

NEW YORK, Oct. 2.—Opinion regarding the outcome of the world's series appears to be unusually divided. Philadelphia, prominent baseball players and writers are predicting a very close series of games with low scores predominating. All speak of the luck or break of the same being an important factor in the ultimate winning of the championship. The same situation has developed in the betting. Outside of the home cities of the two competing clubs the wagering is at even money. In Philadelphia the Athletics are slight favorites and supporters are quoting odds of 10 to 9 on the Giants to defeat the American League recruits. Expressions of opinion on the part of managers and players of other clubs are beginning to be heard here with the gathering of the advance guard for the opening game next Tuesday. Among those favoring the Athletics are Frank Chance, Napoleon Lajoie, Clark Griffith and Umpire Billy Evans. Some of those who are naming the Giants as probable winners are George Stallings, Johnny Jennings and Fred Clarke and Ty Cobb. Hughie Jennings and Bill Dahlen have joined the teams as so evenly matched that the outcome of the series is a toss up with luck playing a leading part. A consensus among 39 of the leading writers of the big league circuits show that they favor the Giants to win against nine for the Athletics and five for the Yankees. Almost without exception, however, they qualify their predictions by stating that the series of 1912 will be very evenly contested, and that the slightest break in the luck of the race will swing the championship one way or the other. The chief advantage accorded the Giants is their strength in the pitching department. The Athletics' adherents concede this point, but contend that the superior batting ability of the Athletics will more than offset the slight difference in the twisting form of the two stiffs.

ALBERTA'S NEW LOAN.

LONDON, Oct. 2.—(C.A.P.)—Underwriting arrangements are in progress for the issue of the Province of Alberta loan. The amount is five million dollars in 4 1/2 per cent. At 98. Existing debt over seven million dollars were quoted yesterday at 84 1/2.

WINDSOR NEXT IN LINE FOR HALF-MILE TRACK.

WINDSOR, Oct. 2.—Toronto parties have been in Windsor lately looking up a location for a half-mile race track and it is said that they will apply to the legislature for a charter. The promoters granted they would be on the same footing as the Windsor Jockey Club and there would be twenty-eight days of racing in Windsor every year instead of fourteen. The promoters of the new track are said to be working in the interest of the men who are conducting the Toronto half-mile affairs.

WESTERN ONTARIO Cricket Record

GUÉLPH, Oct. 3.—The following is the standing of the Western Ontario Cricket League for the season of 1912. Also the runs scored by each team. Guélp had the best batting average. Guélp batting averages the first three are Guélp men, in bowling, Mulrhead of Guélp leads in the splendid average of 2.18, by taking 56 wickets for 90 runs. Guélp also has the splendid record in defeating their opponents at an average of 46 runs per innings. The league standing:

Clubs	Won.	Lost.
Guélp	6	3
Stratford	6	2
Paris	4	5
Brantford	2	6
Twin City	2	6

Runs scored by each team: Guélp, 1926; Galt, 73; Paris, 62; Stratford, 45; Twin City, 42; Brantford, 38.

WARD SEVEN.

Since the World's exposure of the conditions prevailing in the system of sewage disposal in Ward Seven, considerable additional information has been volunteered about particular cases of insanitary conditions. One of these which appears to deserve investigation is found on Quebec avenue, south of Humberside avenue. Here, it is stated, the sewer sewer has a blind end and is not in any way connected with the main sewer. This branch is used by houses on both sides of it, and the effluent is deposited in what is practically a holding pool, and is allowed to filter thru the soil. It is impossible to maintain sanitary conditions in this neighborhood if such is the case and a resident on the street has endeavored to call attention to this source. This will probably proceed another subject for the citizens' mass meeting in the Annex street school next Tuesday evening.

The funeral of the late James Kerr, a prominent citizen, will be held at the Wyckwood funeral home, 388 Ossington avenue, at 10:30 a.m. tomorrow. The body will be in state at the funeral home, 388 Ossington avenue, at 10:30 a.m. tomorrow. The funeral will be held at the funeral home, 388 Ossington avenue, at 10:30 a.m. tomorrow.

HUGHIE JENNINGS AND DE WOLF HOPPER TO COVER WORLD SERIES FOR WORLD READERS

HUGHIE JENNINGS.

Realizing that the great battle for premier baseball honors, that opens next Tuesday between the New York Giants and the Philadelphia Athletics, will be one of the hardest fought series on record, The World has lined up a battery of the best known experts in the game, to write daily stories on the series. Hughie Jennings, one of the greatest managers in baseball, and a leader that knows every trick of the game, will supply a detailed account of every battle.

De Wolf Hopper, America's well-known comic opera star, and an ardent baseball fan, will cover the humorous side of the games. De Wolf Hopper is great on humor, and his stuff will be read with interest. The Canadian Press will give a play-by-play story each day, and several well-known New York experts will also give World readers the inside details of every game of the series. The Toronto World readers will be the best posted fans in Canada.

DE WOLF HOPPER.

LOOKS LIKE SCHANG TO DO RECEIVING FOR ATHLETICS

Former Bison to Catch Bender and Will Do the Bulk of the Work—Connie Mack Tuning Up His Squad.

PHILADELPHIA, Oct. 2.—Only four and one-half innings of the first game of the series with the New York team, which Manager Mack of Philadelphia intended should be used as a basis for putting his players in first-class trim for the world's series contests, could be played this afternoon. While New York was at bat in the fifth with the score 0-0, a hard shower caused Umpire Evans to suspend play. In a few minutes the field was so soggy that the game was called off. A double-header between the teams will be played tomorrow.

For the first time in a week, Manager Mack had his full strength in the field. All the members of his infield, McIntire, Collins, Baker and Barry, were in their usual positions. The outfield was composed of E. Murphy, Strunk and O'Rourke. When Bender and Schang were sent in at the start of the game it was taken as an indication that they would form a battery in the world's series, and that they would probably be the men selected to do this work in the first engagement of the big series.

The fans have been guessing as to whom Mack would pair off with Bender. Many believed that Thomas, who did the bulk of the back-stopping for the Athletics

against Chicago in 1910 and against New York in 1911, would again team up with the noted Indian ace, however, that the indications are, however, that Bender's delivery. Schang was slightly hurt in today's contest. A foul tip off Schang on the right hand and another on the left hand caused Manager Mack to declare tonight he did not believe the Schang continued to catch until the side was retired. Bender pitched only three innings. He had excellent control, and getting an infield single in the first, McIntire, and Peckinpaugh making a base hit to centre-field in the third. Only nine batsmen faced the Indian, as Mack was thrown out by Schang trying to steal second, and Peckinpaugh was grounded to Barry. Brown and Lapp became Philadelphia's battery in the fourth inning, and one on a fumble by Barry. The American League champions put up a snappy exhibition in the field, the infielders showing no signs of shakiness from their lay-off. At the bat Philadelphia did not stir up as being in form.

who they usually have trouble hitting Caldwell, who pitched for New York. In Caldwell's last appearance against Philadelphia at New York he shut them out and allowed only two hits. Today the home team made two strikes in four innings, O'Rourke and Baker each getting a hit. These were the only times when Philadelphia could bat the ball out of the infield.

Two games tomorrow will give Manager Mack the opportunity to use a large number of twirlers. The chances are that Bender, Blank and several of the young pitchers will work a few innings in the games.

FRANCE WONT DISCUSS LOAN
PARIS, Oct. 2.—(Can. Press)—L'Intransigent today says it learns Turkey has been informed that the French government cannot discuss the projected \$100,000,000 loan to the Turkish Government until the present Greece-Turkey situation has been settled. This attitude of France, the newspaper believes, will hasten a solution of the dangerous situation, and will remove the last obstacle to peace in the Balkans.

COURT GRANTS DISSOLUTION
MILWAUKEE, Wis., Oct. 2.—(Can. Press)—Judge Ferdinand A. Geiser, in the United States district court today, signed a decree of dissolution of the property of the "Allie-Chalmers" company, which act was a step toward closing up the administration of Otto H. Falk as receiver. Mr. Falk is now president of the reorganized company.

The matter comes in the action of the First National Bank and W. W. Nichols against the old corporation.

—AND THE WORST IS YET TO COME.

A GOOD COLLECTION SOUTH POLE RELICS

Articles From Antarctic Now Displayed at Earls-court.

At the Earls' Court Exhibition in London, there is now on view a collection of relics brought back from the South Pole by the Antarctic exploring ship Nova. Included in the exhibits is a big cooking pot, the interior of which had evidently been scraped clean by men at the point of starvation. There are also an empty provision bag, a sledging shovel, the inner lining of the tent in which the bodies of Captain Scott and companions were found by the party who went in search of them, and a much-thumbed cheap edition of Mary Johnston's story of old Virginia, "By Order of the Company." Curiously enough the book, when picked up in Captain Scott's

tent, was open at the chapter headed "We Go Out Into the Night." Among other relics are a theodolite which fixed the position of the South Pole, the camera with which photographs of the poles were taken, a sledging thermometer and compass, a repair bag, a lamp made from an empty tin to burn a mixture of vaseline and spirits, a typewriter, several sleeping bags, six of Captain Scott, Lieutenant Bowers and Dr. Wilson. And an instrument box which Captain Scott and his party used on the return journey from the pole.

The tent of death is perhaps the most striking of the relics, says London "Eid-Bite." It is the inner lining of the outer covering having been used as a pall for the bodies—a tiny structure, hardly to all appearances, fit shelter against the Antarctic blizzard.

EARLS-COURT VOTERS MEET.
The executive of the Earls-court District Voters' Association will meet this evening in the Dominion Bank Chambers, at 8 o'clock.

Holmes of the association will be in the chair.

RALPH ROSE STRICKEN
SAN FRANCISCO, Oct. 2.—(Can. Press)—Ralph Rose, world's champion shot-putter, is critically ill with typhoid fever at the home of a relative here. Rose was stricken suddenly last night.

The Philosopher of Folly
By Sherwood Hart
HELPING THINGS ALONG.

Old Binks was great at finding fault—he filled the vast ethereal vault with howls and wailings; it seems to be his strongest forte to make a fuss and paw and snort about the failings of all whose labor made him rich—his voice in upper C he'd pitch and have a spasms, "for," said he, "when these fits I throw the whole blamed boiler works must know I'm Head Bazzazum! This bunch of blacksmiths which I boss is sure the worst I've come across—they're thieves, and lazy; they loaf about their tasks all day, and do things in a dippy way which gets me crazy. When folks make kicks about mistakes made by the crowd of frauds and fakes in my employment I find the culprit and I baste the numskull to the king's own taste with keen enjoyment. I treat him to a grand tirade about the flendish slip he's made until he's dizzy. This simple plan I often find brings some slight solace to my mind and keeps me busy. It would not do to hand these boys—the many kindly words of praise which some folks pay 'em; it is a foolish policy to hand out praise, it seems to me—I'd rather flay 'em. If I can get 'em good and sore I think they'll show a little more of skill and hurry. For while I act up like a Turk they doubtless do a lot more work 'ru fear and worry."

OFFER MADE FOR RAILWAY HOLDINGS

BRANTFORD, Oct. 2.—(Special)—W. P. Kitchin, chief engineer of the Lake Erie and Northern Railway Company, has made an offer to buy the holdings of the company at \$75,000. The company is considered a money-making proposition and the bond holders who represent millions in capital invested will not consent to the deal.

It is announced that an appeal will be entered against the decision of Chief Justice Meredith whereby the street railway is obliged to pay all back taxes and make good within a year's time.

REWARD
£25
Will be paid to anyone who will give information that will lead to the discovery of the person or persons who have been guilty of the offence of stealing a horse from the White Horse Cellar.

TO LESSEN THE ENGLISH HOLIDAYS

British Workmen Waste Too Much Time on Vacation.

The subject of holidays among the working classes in England is being discussed in that country with much interest. There has been a steady growth in the number of occasions on which a cessation of work has become customary. Where only one day was formerly taken, now the day before the usual holiday and the day after are sometimes expected.

The subject has not been called to the attention of the northern advisory trades committee, and it proposes to consider it further and try to reduce the number of holidays and bring order out of the existing chaos.

There are now twenty-six days in a year recognized as legitimate occasions for holidays in most cities in England. They are as follows: Christmas Day, the following day, known as Boxing Day, and beginning on Good Friday and including the Monday following Easter Sunday; Whit Sunday, two days, race week, six days; a week known as Goose Week, August bank holiday, and three or four days for the Edinburgh strike, a holiday claimed by many workmen outside the Edinburgh works.

All these holidays are not universal over England. Instead of those omitted many places have local holidays, as the Fair Week in Hull, and the Goose Fair Week in Nottingham.

The effort being made is to lessen the number of holidays, and bring those retained into a more systematic order.

Little Willie Gettit

By George McManus

CANADA HE

Many Cities Foresight of

Canada is vast army of whom the most alarm by wise and sanitary. This was the plan of Mr. E. M. King of the C. Association. In support of it, an art survey of Fort William, showing congestion of many conventional cities. The system, however, is not laid on the "shack towns" of young, rapidly growing cities. In the case of the high water level in the vicinities of Montreal, one speaker, who has been a student of an Irish tenement, died. Statisticians, however, are not in the habit of making such a case.

Prof. Mayor said that not to Canada, made their country better. It was not a matter of houses, and in congestion was sanitation system. The fact that the largest Canadian was not fit to be as evidence of incompetence. Certain it is, however, that it is the duty of our government to see that the interests of the most of the country are protected. It is the duty of our government to see that the interests of the most of the country are protected. It is the duty of our government to see that the interests of the most of the country are protected.

"MADE-IN-IR TRAIN

LONDON, Oct. 2.—The Canadian idea of a "made-in-Ireland" train is in favor of the manufacturing of the United Kingdom. The scheme is being actively promoted by the British and Canadian governments. Addressed in the House of Commons, the British government has already expressed its interest in the scheme.

LONDON BANK RATE IS PUT UP HIGHER

But the Effect is Not an Immediate Injury to Stocks.

C.P.R. IS BULLED AGAIN Toronto Market Has Good Undertone, But Advances Limited.

Yesterday the Bank of England raised its rate to 5 per cent. This did not come altogether unexpected, considering the new disturbance in the Balkans, but it was somewhat of a surprise that securities were practically unshaken. In London, however, the latter stock actually showed some strength, and in the Toronto market more firmness was shown for some of the semi-investment shares.

C.P.R. on the statement of the president, that there was a possibility of segregating the company's outside assets was strong at New York and Montreal, and an unusual amount of the stock was dealt in here. Toronto Rails was in keen demand for a time in the morning, and advanced to 2 1/4% from 1 3/4% on Wednesday. Profit-taking and some liquidation from Toronto broke the price before noon to 1 1/2%, but the tone was stronger in the afternoon. The last sale at 1 1/2% left a net gain of 1 point, and buyers were bidding 1 1/4% at the close. Cement fell from 3/8 to 3/4 on offerings of about 900 shares, and of the 3/4 point rise was retained in the final dealing.

Power was firm at 2 1/4 in the morning, or 1/2 point up from the previous day, and rose to 2 1/4% in the afternoon, when C.P.R. was at 2 1/4% on Wednesday. Profit-taking and some liquidation from Toronto broke the price before noon to 1 1/2%, but the tone was stronger in the afternoon. The last sale at 1 1/2% left a net gain of 1 point, and buyers were bidding 1 1/4% at the close. Cement fell from 3/8 to 3/4 on offerings of about 900 shares, and of the 3/4 point rise was retained in the final dealing.

LAKE OF THE WOODS IS SIXTEEN PER CENT.

Profits Increase and Equal That Percentage on Common Stock.

LONDON, Oct. 2.—After a prolonged discussion in the cabinet of the Bank of England today decided to raise the bank rate from 4 1/2 to 5 per cent, as a precautionary measure in view of the disturbances in the Balkans. The bank's statement, which has been reported by over \$10,000,000 this week by experts to Egypt, shows that the bank's cash resources are sufficient to maintain its reserve. The bank's reserves are said to be sufficient to maintain its reserve. The bank's reserves are said to be sufficient to maintain its reserve.

Mr. Stuart Macfarlane has been appointed to succeed Mr. R. M. White as Toronto managing director of the Royal Securities Corporation, Limited. Gold Movement to Canada Ceases. Contrary to earlier expectations that from \$2,000,000 to \$3,000,000 additional gold coin was likely to be forwarded to Canada, it is stated by the bankers who forwarded the \$2,000,000 taken on this movement that the shipments to the Dominion from this country are not likely to be resumed until about the beginning of November. The demand for gold reserves in Canada is active on account of good general business and the crop movement. Conditions generally are said to be substantial than in a long time past—Financial America.

The City of Cobalt Mining Company, Limited

BY-LAW NUMBER THIRTY-NINE Whereas the Head Office of the City of Cobalt Mining Company, Limited, is in the Town of Cobalt, in the Province of Ontario, and whereas it is deemed expedient that the same should be changed to the City of Toronto in the said province, Now, therefore, the City of Cobalt Mining Company, Limited, enacts as follows: (1) That the Head Office of the City of Cobalt Mining Company, Limited, be and the same be changed to the City of Toronto, in the said province.

MONTREAL BANK CLEARINGS MONTREAL, Oct. 2.—Bank clearings for the week ended today were \$60,960,323, as compared with \$55,328,974 for the like week in 1912, and \$48,818,954 in 1911.

TRADING IS LIGHT FOUR STOCKS FAIR

Toronto Rails Again in Keen Demand—Cement Falls Back.

MONTREAL, Oct. 2.—C.P.R. was a strong stock today, and its share advanced both in London and in New York had a steady influence on the Montreal market. The rise of over three points in the international leader, however, stimulated no great activity in other stocks, with the exception of Montreal Power, which rose 1 1/2% and closed at the highest. Business for the day was larger by some 200 shares than on Wednesday. Profit-taking and some liquidation from Toronto broke the price before noon to 1 1/2%, but the tone was stronger in the afternoon. The last sale at 1 1/2% left a net gain of 1 point, and buyers were bidding 1 1/4% at the close. Cement fell from 3/8 to 3/4 on offerings of about 900 shares, and of the 3/4 point rise was retained in the final dealing.

C.P.R. opened 2 points higher here at 2 1/4% from 1 1/2% on Wednesday. Profit-taking and some liquidation from Toronto broke the price before noon to 1 1/2%, but the tone was stronger in the afternoon. The last sale at 1 1/2% left a net gain of 1 point, and buyers were bidding 1 1/4% at the close. Cement fell from 3/8 to 3/4 on offerings of about 900 shares, and of the 3/4 point rise was retained in the final dealing.

LAKE OF THE WOODS IS SIXTEEN PER CENT.

Profits Increase and Equal That Percentage on Common Stock.

MONTREAL, Oct. 2.—At the annual meeting of the Lake of the Woods Mining Company, held here yesterday, the following statement was submitted to the shareholders: The profit for the year shows an increase of \$2,500 over those of last year, and the surplus also shows a substantial increase. Profit for year, \$457,711.64 as against \$432,212.25 Paid out bonus of \$43,000.00 Surplus account, \$17,457.70 \$58,134.95 Written off goodwill, \$100,000.00 \$50,000.00 Written off property, \$50,000.00 \$50,000.00 The following officers and directors were elected: President and managing director, Lieut.-Col. Frank G. McDonald; secretary, Wm. W. Hutchinson; treasurer, Hon. Robert Mackay, G. L. Ross, Hastings, J. K. Rose, John Carson.

Opening: 120.3, 89.4, 100.0.

MONEY RATES FIRMER

London Market Not Depressed by Unexpected Advances. LONDON, Oct. 2.—Money was in strong demand today. Discount rates are being marked up to meet the bank rate.

OTTAWA BANK CLEARINGS

OTTAWA, Oct. 2.—Bank clearings for the week ended Oct. 2 were \$4,274,123, as compared with \$4,248,114 for corresponding week in 1912, as compared with \$15,127,240 for the same month last year.

C. N. R. EARNINGS.

Canadian Northern Railway, gross earnings for week ending Sept. 30, 1913, \$726,200 from July to date, \$5,245,500. Corresponding period last year, \$526,800. From July to date, \$5,245,500. Increase, \$199,400; from July 1 to date, \$591,500.

HEALY HITS OUT AGAINST LARKIN

NEW YORK, Oct. 2.—(Can. Press.)—A cable to The Tribune from London says: "Timothy Healy, member of parliament, made a vigorous attack yesterday on the methods of James Larkin in stating a case for the masters at Sir George Asquith's court of enquiry into the Dublin labor war of the last five years, he said, Dublin has been subjected to more strikes than during the entire existence of a free state. The strikes have been brought about by methods which should make trade unionists ashamed, and the masters have been driven to combine to preserve what little was left of the wreck of trade and commerce in Dublin."

STOCKS CROPT UP SPECULATIVITY IN QUOTET

Canadian Pacific, Took Smart Rise and Amalgamated Slightly Less Distinct.

NEW YORK, Oct. 2.—Stocks crept up today. There was no urgent bidding and speculation was quiet with long periods of stagnation, but the undertone was firm and offerings of stocks were small. The market grew stronger as the day advanced. Canadian Pacific was up 1/2% to 3 1/4% and Amalgamated, the leader in yesterday's market, rose 2 points to 2 1/2%. The new Pacific and other prominent shares were raised a point or more. Influences which have been brought to bear in the market recently seemed to give firmness to speculation. There were evidences of growing uneasiness among the shorts as prices revealed the trend of stocks. Advance in the Bank of England's discount rate from 4 1/2 to 5 per cent, followed by a sharp rise in money rates here, and a sharp rise in exchange on London, virtually no influence was exerted on speculative sentiment by the advance in the English bank rate. The widely reported of the bank offered plenty of evidence of the reasons for the change. Although the proportion of gold to liabilities remains considerably above the average for the world, the return was distinctly unfavorable. The weekly output of the bank of over \$200,000,000, a falling off from the 2 1/2 per cent rate of \$121,000,000 in loans and discounts. The bond market was steady.

SEVENTY-FIVE SACKS ARE BAGGED

SWASTIKA, Oct. 2.—Two new and important veins have been out on the Burns Lake, British Columbia. The new veins were struck while cross-cutting at the Teck-Hughes 75 sacks of high grade ore are being bagged. The ore was taken from No. 2 and No. 3 veins and will form part of a shipment of 100 sacks to be shipped to the Teck-Hughes mill. The new veins were struck while cross-cutting at the Teck-Hughes 75 sacks of high grade ore are being bagged. The ore was taken from No. 2 and No. 3 veins and will form part of a shipment of 100 sacks to be shipped to the Teck-Hughes mill.

INVESTIGATION OF ERICKSON'S ESCAPE

Prisoner Had Time to Cash Cheque and Do Other Things. COBALT, Oct. 2.—(Special.)—Superintendent Rogers of the constabulary was here yesterday at Gowganda investigating the escape of George Erickson, wanted by the Swedish Government for burglary and arson. It was claimed that Erickson made his escape while the constabulary was absent from the jail to get a telegram at three hundred yards, a distance of about three hundred yards. During the time, according to the evidence, Erickson and his associates sawed through the bars. At an earlier stage of the investigation it was found that Erickson had cashed a cheque, received a donation from admirers, and was outfitted with a couple of pistols.

DELAY IN MILL SIMPLY BUSINESS

Statement by Pearl Lake Co. Says That Financial Conditions Are Satisfactory. The following official statement was handed out by the Pearl Lake Company yesterday and will do good in allaying the fears of the owners which are being multiplied by malicious rumors. The mill is a simple building the Pearl Lake side of the mill race, and is being built by the Pearl Lake Company. It will be a simple building the Pearl Lake side of the mill race, and is being built by the Pearl Lake Company. It will be a simple building the Pearl Lake side of the mill race, and is being built by the Pearl Lake Company.

FURTHER DECLINE IN PEARL LAKE

Liquidation Dries Up and Price Rallies—Air is Now Cleared.

With Pearl Lake still in the throes of liquidation the Standard Mining Exchange gave no evidence of buoyancy yesterday. The announcement that Col. Stevenson was to be followed by Norman Fisher as manager at the Pearl Lake added further impetus to the attempt to mark down the price of the company's shares. Those given to making cool reflections were not satisfied that the change would not be beneficial and instanced Mr. Fisher's success at the Teck-Hughes to back up their argument. The price of the shares made a further decline to 1 1/2% before the selling exhausted itself, when an unsatisfied demand raised the price rapidly to 1 1/2%, which price the stock closed at. Excitement over Pearl Lake attracted attention from most other issues and where sales were forced prices were softer. Crown Reserve eased off to 154 and Macdonald's to 152. At the close the market had a more satisfactory appearance than in several days and brokers are for the time being more optimistic. The market has now been cleared and a more normal market will follow.

SEVENTY-FIVE SACKS ARE BAGGED

IMPERIAL BANK OF CANADA

Established 1875. Capital Authorized \$10,000,000. Capital Paid Up \$2,925,000. Reserve and Undivided Profits \$1,800,000. DRAFTS, MONEY ORDERS AND LETTERS OF CREDIT ISSUED. Available in any part of the world. SAVINGS DEPARTMENT. Interest allowed on deposits at all Branches of the Bank throughout the Dominion of Canada.

DISTURBS CONFIDENCE

The break in Pearl Lake has had the effect of disturbing confidence. We think the statement by the company was a laudable one and that the fall will be delayed a few months the effect has been over-drawn. On any further decline we would buy Pearl Lake if only for a turn, Peterson Lake, Bailey and Trefsbury should be bought on any weakness. We have received two assays of ore taken from the Teck-Hughes, one showing 47% and the other 46% in gold the ton. On these showings alone the shares at 30c have a speculative investment, which should turn into profit.
