LEAGUE OF NATIONS BEGINS TO TAKE DEFINITE SHAPE
Sir Arthur Pearson Receives Field Marshal Haig Explains
Taken of Toronto's Esteem How Germans Were Defeated

ARMISTICE TERMS
ARE NOT ENTIRELY
COMPLIED WITH
Germany Has Only Ten Days
More to Hand Over War
Material and U-Boats.

HOLD MANY PRISONERS
Doubted Whether Allies Will
Agree to a Further Ex-
tension of Time.

Paris, Jan. 7.—Only ten days remain
before the expiration of the time al-
located to Germany for the meeting of
the armistice terms of Marshal Foch,
and many of the details are not
yet entirely complied with. This is
particularly true as concerns article 4
of the armistice, regarding the surren-
der of war materials, especially guns
and airplanes.

About 5,000 motor trucks have been
delivered up, but the number of rail-
road engines turned over equals only
half the number stipulated in the
armistice—5,000. A great number of the
150,000 railway cars in good working
order called for are still undelivered.
In addition naval units, including sub-
marines, remain in German possession,
although under the terms of the armistice
they should have been surrendered.

Added to the non-fulfillment of the
surrender of war paraphernalia is the
failure of Germany to abide by her
agreement to repatriate immediately
a great number of entente soldiers
held as prisoners, and in high quar-
ters here the question has arisen if,
in spite of Marshal Foch's accustomed
indulgence, the inter-allied command
will not be more severe in its dealings
with Germany when the expected re-
quest by Germany for a further delay
in meeting the allied terms comes up
for discussion.

VICTORIA CROSSES WON
BY MINISTERS' SONS

St. Catharines, Ont., Jan. 7.—Rev.
George Honey of the Louth and
Grimsby Methodist circuit, presiding
father of Lieut. Samuel Lewis Honey,
the posthumous award of the Victo-
ria Cross to whom was announced
in a news cable last night from Lon-
don.

Lieut. Graham Thompson Lyall,
who enlisted from St. Catharines and
was killed in the German field guns
captured by him to the 18th Regiment,
to which, he writes, "I am
indebted for the rudiments of my
military knowledge." Lieut. Lyall
went overseas as a lance-corporal
with the 51st battalion.

MILITIA CHANGES
IN THIS DISTRICT

Col. Bennett May Go West—
Major Campbell Ap-
pointed A.A.G.

Lieut.-Colonel C. C. Bennett, D.S.O.,
who has been assistant adjutant gen-
eral for this district since September
1915, when Lieut. Col. George resigned,
will shortly relinquish his position if
it rumored and will be given a simi-
larly responsible one in a western mil-
itary district.

On Col. Bennett's return from over-
seas last summer he went to Victoria,
B. C., but later was appointed to his
present position here. It is thought
that Col. J. I. McLaren who was formerly
camp commander at Niagara and
Exhibition, will be given the post of
A.A.G. for this district.

Lieut.-Col. McVicar, at present con-
sultant on medicine in this district, will
probably take command at the Dom-
inion Military Orthopaedic Hospital
on Christie street when it is completed,
also it has not been officially de-
cided yet who will be given the post.

Major George Washington will leave
shortly for Siberia where he will take
an active part with the Canadians.
Col. Rickford, who is in command of
the C.S.E.F. has requested his services
recognizing his ability as a military
man.

Confirmation of the appointment of
Major B. S. Campbell to the position
of A.A.G. and Q.M.G. in M. D. No. 2,
has been received from Ottawa. Major
Campbell has been in this office for
a considerable length of time and is
thoroughly conversant with the work.

BRITISH LABOR TO BE
OFFICIAL OPPOSITION

London, Jan. 7.—At a joint meeting
of the executive of the Labor party
and Labor members of parliament, a
resolution was passed with one dis-
sent in favor of the Labor party in
the house of commons becoming the
official opposition.

Britain's New Warships
Greatest in the World

LONDON, Jan. 7.—Altho no official statement has yet been
made, it is understood that the British warship Hood, now
nearing completion, will be the largest fighting vessel of
the world. She is 894 feet long and will carry eight 15-inch guns.
Her hull is fitted with an outer cushion against which tor-
pedoes and mines will explode harmlessly. She is expected to
attain a speed of at least 40 miles an hour.
The Hood will cost three and three-quarter million pounds
sterling. It is stated that three other battle cruisers of the same
type are being built.

JANITORS AND WAITERS
ON STRIKE IN WARSAW

Demand Doors of Apartment Houses Be Closed at
Nine o'Clock—Charge One Mark for Every Time
Door is Opened After That.

Warsaw, Jan. 5.—The waiters and
janitors of Warsaw, who are among
the few having steady work and good
pay, have gone on strike, and the
house servants are expected to follow
their example. The domestics, even
now, are only consenting to work if
the mistress does her share of the
labors of the household, especially
the dish-washing and similar services.
The waiters demand fifteen per cent
of the profits of the hotels and restau-
rants, while the cooks are asking
twenty-five per cent.
The janitors demand a ten-hour day,

PUT STOCK YARDS
UNDER GOVERNMENT

Make Prediction That All in
Canada Will Be Taken
Over in Few Weeks.

Brandon, Man., Jan. 7.—That the
Canadian stock yards will be under
Canadian Government control within
the next few weeks, was one of the
starting statements made at the
Swinereeders' Association meeting
this morning. A. G. Hawkes, director
of the Saskatchewan Grain Growers'
Association, said that there were bitter
complaints of graft at the Winni-
peg Stock Yards and that the farmers
complained justly that the people be-
lieved they received the sixty cents
per pound which bacon calls for.

The Swinereeders' Association of
Ontario has the following: Presi-
dent, D. W. Agnew, Doullas, Man.;
vice-president, W. J. McKilloan, Bran-
don.

View in Toronto.
Locally on the Union Stock Yards
the question of government control,
or less under discussion and rumors of
approaching changes have been cur-
rent. Deputations have from time to
time been made to the view of
adjusting grievances and following the
appointment of Mr. Arkell, the live
stock commissioner, the whole matter
of government control has assumed a
more definite basis than hitherto.

Within the last three weeks W. H.
Shields, president of the Toronto Live
Stock Exchange, and Frank C. Fletch-
er, manager of the Union Stock Yards,
have visited a number of the large
American and Canadian centres of live
stock trading, among the rest Wind-
peg, where they attended an important
meeting of the live stock men at which
Live Stock Commissioner Arkell was
present and where the whole question
of government control was fully dis-
cussed.

"Federal legislation has as a matter
of fact been already in existence," said
President Shields last night, "looking
toward this end, and much depends
upon the action of the commissioner,
but it is not considered likely in any
event that any drastic action will be
taken before next fall. The idea is
not to acquire, but to exercise con-
trol or something after the nature of
the railway boards. The question is
somewhat involved and there are many
points upon which the Toronto men
have from time to time conferred with
the government representative and live
stock men from other centres."

TO MAKE KNOWN VIEWS
OF LABOR CLASS

London, Jan. 7.—The labor corres-
pondent of The Times, in an article
on the world labor congress, which is
to meet in Lausanne, Switzerland, next
Monday, says that, according to state-
ments of the promoters, the object of
the congress primarily is to make
known the opinion of the working
classes of all countries on the terms
of peace, especially the establishment
of a league of nations; to draw up a
charter of international labor organiza-
tions and endeavor to obtain light on
the situation in Russia and to make
an effort to aid the Russian people to
cope with it.
Invitations have been sent to all
organizations represented at the last
inter-allied labor conference, including
the A. P. of L.

DATE FOR PARLIAMENT
TO BE ANNOUNCED SOON

Ottawa, Jan. 7.—The opening day
of parliament, it is expected, will be
decided by the cabinet within the next
few days. Arrangements, in fact, have
been under way for some weeks, look-
ing to an opening early in February.
There is a possibility that the govern-
ment will, this session, revert to the
old practice of opening on Thursday.
In that event, parliament would prob-
ably open on Feb. 6 or Feb. 13. Last
session, parliament opened on a Mon-
day.

Prominent Men Pay Tribute
to Sir Arthur Pearson
at Massey Hall.

CUP PRESENTED
City Shows Appreciation of
Blind Baronet's Life
Work.

The Canadian soldiers who were
blinded in the war received a public
testimonial last night in Massey Hall
when Sir Arthur Pearson, Bart.,
G.B.E., spoke under the auspices of
the Canadian National Institute for
the Blind. The chair was occupied
by Hon. W. J. Hanna, K.C., and other
speakers, including Hon. Sir Wm.
Hearst, K.C.M.G., Hon. Sir James
Loughheed, K.C.M.G., and Capt. E. A.
Baker, M.C. Orlin de Guere, followed
by Sir Arthur Pearson.

The proceedings were opened by the
singing of the "Maple Leaf Forever,"
the audience being led by the 48th
Highlanders Band.

MINISTERS AWAY
FROM PARLIAMENT

House Will Probably Sit With
Eight Departments
Unrepresented.

Ottawa, Jan. 7.—Parliament, which
will probably be called for the second
week in February, will meet this
year under peculiar and somewhat
awkward conditions. If, as seems
now probable, Sir Robert Borden and
his colleagues now in England re-
main there for the peace negotiations,
there will be no less than eight of
the sixteen main departments of state
unrepresented in the commons by
their responsible ministers.

With Sir Robert Borden, Sir
George Foster, Sir Edward Kemp,
Hon. C. J. Doherty and Hon. Arthur
Sifton in London, the important de-
partments of external affairs, trade
and commerce, military and
defence, justice and customs and in-
land revenue, will have no minister
in the commons able to explain fully
the department of law, and give an
account of stewardship. Furthermore,
the labor department, and the
department of soldiers' civil re-
establishment, all with large respon-
sibilities to the commons, are now in
charge of senators, Hon. Messrs. Bon-
din and Robertson, and Sir James
Loughheed, are appointees of the
crown and have not been elected by
the people.

Col. Hugh Clark, M.P., it is true,
has recently been appointed parlia-
mentary secretary for the soldiers'
civil re-establishment department, and
can take charge of the explanation
for that department in the commons,
but the government, as yet, has not
devised any commons representation
for the labor and postoffice depart-
ments. It was stated today that the
question of appointing parliamentary
secretaries for these two departments
"had not yet been considered."

Another phase of the new departure
from the established principles of re-
sponsible government, which the oppo-
sition critics will doubtless emphasize
when the house meets, is the govern-
ment's failure to fill the present vac-
ancies in the commons by holding by-
-elections. There are three con-
stituencies unrepresented, namely,
Loughheed, North Ontario and Assini-
boia.

It is probable that parliament will
meet with these seats still vacant. A
cabinet minister said today that the
question of by-elections had not been
dealt with by the cabinet. The fact
seems to be that the Union govern-
ment is not too confident that a
Unionist candidate can win out in any
of these constituencies against prob-
able straight Liberal and straight
Conservative candidates.

NOT A HOOT GREETED
LAUDER AT MONTREAL

Montreal, Jan. 7.—Harry Lauder's
appearance on the stage here tonight
was greeted with an ovation, and not
a solitary hoot was heard on his en-
trance and exit from the theatre.
Scores of uniformed and plainclothes
policemen were scattered about the
theatre.

HOW THE BRITISH
FOOLED GERMANS

Haig Tells How, in Attack
at Amiens, Huns Were
Led to Believe That the
Attempt Would Be Made
in Flanders.

London, Jan. 7.—An historic docu-
ment written by Field Marshal Sir
Douglas Haig, commander-in-chief of
the British armies on the western
front, is to be published tomorrow. It
deals with the operations of the
British armies from the end of April,
1918, when the situation was most
critical, up to the conclusion of the
armistice.

The document opens with a recapit-
ulation of the situation when the British
armies had been forced to give ground
before the tremendous German on-
slaught in the spring offensive, and
when the German forces on the west-
ern front greatly outnumbered those
of the allies. The only course open
for the allies was to preserve their
front unbroken until summer could
bring additional American forces, and
enable them to face the Germans on
something like a footing of equality.

"By an exhibition of wonderful tena-
cidity," says the document, "the allied
armies pressed their line intact
until July 15—when they did more
than anything like a footing of equality
success of the allied counter-attack on
that date marked the turning point in
the year's campaign. There followed,
he adds, a complete change in the
whole military situation.

"The German army," Haig con-
tinues, "had made its effort, and had
failed. The period of its maximum
strength had been passed, and the
bulk of the reserves accumulated dur-
ing the winter had been used up. On
the other hand, the position of the
allies in regard to troops had greatly
improved."

"Fresh troops made available dur-
ing the late spring and the early sum-
mer, had been incorporated and trained
in the year's campaign. There followed,
he adds, a complete change in the
whole military situation.

BEGINNING WORK
ON VARIOUS PLANS
TO FORM LEAGUE

Lord Robert Cecil's Scheme
Outlines Broad and Com-
prehensive Body.

FRENCH MORE SPECIFIC
American Plan Would Em-
brace All Nations, With No
Balance of Power.

Paris, Jan. 7.—The return to Paris
of President Wilson, the arrival of
Lord Robert Cecil, the special dele-
gate of the British Government on the
league of nations, and the presence
here of Leon Bourgeois, the French
representative of the same subject,
marked the inauguration of the work
on the definite terms by which the
league is to be constituted.

Already considerable progress has
been made on the various tentative
proposals put forward, but the re-
cent absence of the president these
have not taken definite form, as it is
recognized that he personally will take
a leading part in the final formation
of the plans. Meanwhile, however,
the various governments chiefly in-
terested are presenting outlines in
quite definite form.

Two British plans of this tentative
nature have been presented—one by
Lord Robert Cecil, the other by Lieut-
enant J. C. Smuts, the former being
the French plan, as formulated by M.
Bourgeois, has also been set forth.
And these are being compared by the
American specialists who are pre-
paring the ground work for President
Wilson.

Lord Robert Cecil's plan, broad
and comprehensive organization of
the league of nations, but thus far it
is in general terms and has not
yet been reduced to definite terms of
enactment as it would appear in a
draft. Gen. Smuts' plan is along
similar lines, but more general, and
of such a league of nations, Gen.
Smuts will come here with the British
prime minister, David Lloyd George.

Both of these plans are receiving
careful study by the American au-
thorities and, it is declared, both are
regarded in a most favorable light,
but it still remains to reduce the gen-
eral principles to concrete terms.

M. Bourgeois' plan, embodying the
French point of view, which also
embraces a number of specific
details, including compulsory arbitra-
tion, restriction of excessive arma-
ments, an international tribunal, a
series of sanctions or penalties for
enforcing observance of the league's
decisions. The sanctions include
various diplomatic, judicial and eco-
nomic measures, whereby the united
nations may enforce their decrees.

The American viewpoint, as it is
now being formulated by the special-
ists as the ground work for the
president, seeks to reach an accord on
fundamentals on which all agree, and
present them in simple working
form. One of the chief of these
fundamentals is the formation of a
league which will embrace all the
nations of the world, but not one
which will establish any balance of
power among a group of nations.

Also, care is being taken that the
influence of the various nations in the
league would be in accordance with
their size and importance, so that the
great powers and the small powers
would have voices according to their
standing.

Another feature especially concern-
ing small undeveloped nations is to
be established, according to the Ameri-
can plan, a system of international
trusteeship, whereby the various larger
nations having a developed and stable
civilization will act as trustees for the
society of nations in fostering the
progress and development of undevel-
oped communities.

Must Have Permanent Seat.
It is recognized that the league of
nations will have to have some estab-
lished and permanent seat for its ex-
tensive international work, and the
gradual conviction is taking form
that this seat will be Versailles. The
decision as to this, however, must be
the natural outgrowth of the peace
conference.

Reports that the working organiza-
tion might be located in Holland, and
Belgium are declared to be incorrect,
as it is pointed out that the present
moment is not the time for the final
decision on the location of the league
conventions and the peace organiza-
tion at the Hague, Bern and other places.

Versailles, on the contrary, is felt
to embody the spirit of the present
movement for the restoration of the
peace on an enduring basis and the
creation of a league of nations, and
also to have practical facilities which
will progressively develop into the
formal gathering of the inter-allied
conference, and that in turn, to the
peace congress, in which a number
of committees will be charged with
the various international subjects be-
fore the congress. And out of these
successive stages it is expected that
a league of nations will be embodied
as a tangible entity, organized as
well as a documentary treaty.

The exchange of views on the ten-
tative plans is permitting such mu-

FIVE BIG NATIONS
WILL FORM LEAGUE
Will Create Arbitral Court Backed
By Combined Power of All

Paris, Jan. 7.—As far as it has
been developed, the general
scheme for a league of nations
agrees with previous forecasts.
It is learned that the United
States, Great Britain, France,
Italy and Japan will form the
nucleus and will declare that the
league will preserve the peace of
the world and justice to all.
An arbitral court will be cre-
ated and it will be backed by the
combined force of all.
The centre powers and neutral
nations, it is added, will be taken
in as probationers as they dem-
onstrate that they are a self-
governing people, and give evi-
dence of good faith to abide by
the decisions of the league.

GERMANS PREPARE
FOR PEACE CONGRESS

Papers Will Be Taken to Paris
by About Hundred Delegates
and Staff.

London, Jan. 7.—Preparations for
the peace conference are being made
by the German premier, and a num-
ber of papers have been made ready
according to the Amsterdam corre-
spondent of The Daily Express. These
will be taken to Paris by the German
peace delegates and their staff, which
includes secretaries and assistants,
numbers about one hundred.

It has been arranged, says the cor-
respondent, that every ministry shall
be represented by at least one official
of first rank. The foreign office will
be in full force with Count von
Brockdorf-Rantzau, the foreign min-
ister, at the head, and possibly with
Carl Kautsky and Dr. Eduard Davies.

Both of these plans are receiving
careful study by the American au-
thorities and, it is declared, both are
regarded in a most favorable light,
but it still remains to reduce the gen-
eral principles to concrete terms.

STATEMENT BY LAUDER TO FRENCH-CANADIANS

On Reaching Montreal, Without Incident, Refutes Idea of Racial Condemnation. Montreal, Jan. 7.—"When I made my statement here before the Rotary Club last year, racial condemnation was never in my mind, and I do not wish to bear any such interpretation. The shriller and slacker of whatever nationality were my objective, as a matter of fact, everything that is loyally national has my sincere admiration. The French-Canadian fighter is my friend, and I am his, with my whole soul." This statement was issued by Harry Lauder, the Scottish comedian, this afternoon, after a committee, headed by G. Constant, representing the French-Canadian people, had waited upon him at the Windsor Hotel. The statement will go to the heart of the French-Canadian population of this city. It is thought that the explanation will remove the feelings of discord caused by Mr. Lauder's speech against slackers, which was resented by French-Canadians, and which crystallized in the publication in the

ASK SAME-FOOTING AS FIGHTING UNITS

Army Service Corps Restless at Delay in Demobilization, and Unrest Spreads. London, Jan. 7.—The unrest in the British Army Service units is largely due to the fact that the corps contains numbers of long-service infantrymen transferred on account of wounds and health, who claim their demobilization and argue that they are penalized by transfer from the fighting units as the Army Service Corps will be last to demobilize. The men in the Army Service Corps wish to be placed on the same footing as the fighting units. The unrest has spread to a number of centres, including Aldershot, but it does not warrant an alarmist view of the situation. It was summed up today by the soldier chairman of a meeting of soldiers at Bromley in the following words: "Demonstrations have been started to ginger up the government as at the present rate of demobilization apparently we shall be soldiering in 1925." It is certain that the protests will have a beneficial result. Newspapers of all shades of political opinion pay a tribute to the sensible manner in

ANARCHY REIGNS IN POLISH CITIES

Workers Imp'oning Employers and Compelling Them to Pay Money. Warsaw, Jan. 7.—Lodz and other Polish cities are reported in a state of virtual anarchy, with the rougher element doing as it pleases. There has been frequent firing of rifles, but no casualties as yet have been reported. The workers, the reports state, have adopted the habit when they feel the need of money, of demanding it from the employers if they see them in the streets or in surrounding houses, and imprisoning them until they give what is asked. The employers have already made up a fund of 10,000,000 marks for the laborers, but this does not satisfy them and the workmen are now demanding 250 marks each. The reports say the men frequently spend the day parading the streets with red flags and listening to agitators deliver speeches, the crowds howling: "Down with the Jews," and "Down with the mayor." The agitators are said to be spreading the report that if the allies come they will act much as did the Germans, who are credited with having stolen so thoroughly that a Jew is quoted as saying: "When the Russians were

ADRIFF 18 HOURS IN A SMALL BOAT

Baltimore, Jan. 7.—The ocean-going tug Piedmont sank off the Virginia coast last Sunday night, three of her crew of eight died of exposure, and a fourth man is not expected to live. The rest of the crew, including Capt. T. L. Stow, Mate George McManus and the first and second engineers, all of New York City and vicinity, were brought here today by the steamer Lake Lida. They had been adrift in a small boat for 18 hours before being picked up by the Lake Lida.

FRENCH LEADERS HONORED.

Paris, Jan. 7.—The Jagellon University of Craoov, one of the oldest in Europe, has bestowed the degree of Doctor Honoris Causa on Premier Clemenceau, Marshal Foch and Cardinal Mercier.

AUSTRIAN SHIPS AT TOULON.

Toulon, France, Jan. 7.—The Austro-Hungarian battleship Salzburg, requisitioned by France, has arrived at this port. She is the first enemy ship to drop anchor in French waters.

POLES ADVANCING ON BRANDENBURG

Nearing Thorn and Are Now Within Seven Miles of the Border. Berne, Jan. 7.—Polish troops with artillery are advancing toward Thorn, north of the Polish-Prussian border, according to despatches received here from German sources. In Brandenburg, the population, it is added, is fleeing westward owing to the advance of the Poles, who are now within seven miles of the border of Brandenburg. Fighting at Posen. Berlin, Jan. 7.—There has been further shooting in Posen and lively street fighting between the Poles and home guards at Gneisen and Strelow, according to special despatches received here. All rail traffic to Gneisen has been stopped. In Bromberg, northeast of Posen, the representatives of the German Government have been arrested by the Polish Soldiers and Workmen's Council. Polish troops are reported continuing their advance northward, parallel to the railway from Kreuz, thru Schneidemuhl to Danzig. The Poles now hold the railway from Schneidemuhl to Bromberg. At a point west of Schneidemuhl, German troops are concentrated to contest the Polish advance.

SEINE RISING AT PARIS.

Paris, Jan. 7.—The flooded waters of the Seine rose overnight nearly eight inches over yesterday's level, and water began to filter into the cellars in some sections.

BARON MICHELHAM DEAD.

London, Jan. 7.—Baron Michelham, formerly a member of the firm of Herbert Stern and Company in London and Paris, died in London today. His death was due to pneumonia.

HERBERT STERN, FIRST BARON MICHELHAM.

Herbert Stern, first Baron Michelham, was born in 1851 and was the son of Baron Hermann De Stern. He was raised to the peerage in 1912. Baron Michelham was well known as a philanthropist. In 1915 during the German Zeppelin raids in London he offered \$5,000 each to British airmen for the first ten dirigibles destroyed. His heir is the Hon. Hermann Alfred Stern, who is 19 years old.

GENERAL REVIEW

Official Answers to Most Questions Concerning Pensions. BIG ORGANIZATION Eighteen Branch Offices Are Opened in Different Parts of Canada.

Owing to the numerous inquiries from dependents and to the amount of doubt existing in the minds of the general public as to the rules governing the following facts have been furnished by the militia authorities, Ottawa, and will be found to answer all general questions concerning the subject.

The board of pension commissioners in a civil body with a head office at Ottawa, and branch offices at the following eighteen cities in Canada: Calgary, Alta., 504 Herald Building; Charlottetown, P.E.I., Richmond; Edmonton, Alta., 412 McLeod Bldg.; Halifax, N.S., 205 Dennis Bldg.; Hamilton, Ont., Bell Telephone Bldg.; Kingston, Ont., 61 Brock st.; London, Ont., 85 Bank of Toronto Bldg.; Montreal, P. Q., 306 Drummond Bldg.; Ottawa, Ont., 11 Carlton Chambers; Quebec, P. Q., 702 Victoria Bldg.; Regina, Sask., 713 McCallum-Hill Bldg.; St. John, N.B., 43 Canada Hill Bldg.; Saskatoon, Sask., 702 Canada Bldg.; Toronto, Ont., 59 Yonge st.; Vancouver, B.C., 111 Rogers Bldg.; Victoria, B.C., 504 Union Bank Bldg.; Winnipeg, Man., 702 Notre Dame st. Bldg.

Branch offices in London, England, and the pensions and disabilities board, St. John's, Nfld. Soldiers dependents should apply at the nearest branch office which also sends visitors to call on pensioners in their homes to hold medical re-examinations and to handle complaints.

Re-examination. If a man is discharged with a pension, he should apply to the district office where a medical re-examination will be held. If a pension is compensation paid as a right to any soldier or sailor who was disabled during his service, protracted medical treatment fails to restore his full normal capacity.

All soldiers are not entitled to pensions. Pensions are awarded for disability only and the position makes it absolutely essential. The amount of a pension is based on the extent of the handicap suffered and the percentages have been worked out so as to be both accurate and fair.

A medical board decides the percentage of the handicap. An examination was performed at the parliament buildings, yesterday morning, when the lieutenant-governor presented Major Gregory Clark Toronto, with the Military Cross. At Major Clark's request the presentation was made in private and the lieutenant-governor awarded the gallantry star to his conspicuous son, Vimy Ridge on April 9, 1917. In that battle he assumed command and his initiative and ability gained him his objective and consolidated his position. He set a fine example of courage and initiative.

Won Military Medal. T. R. Morris, 150 Roxton road, has been notified that his son, Signaller Russell Morris, was awarded the Military Medal. Signaller Morris enlisted in the 41st Battery, shortly after his eighteenth birthday, September, 1915, and left for overseas in February, 1916. In July of the same year he went over to France, and has since been engaged in many of the important engagements up to the signing of the armistice.

Kingston, Ont., Jan. 7.—J. J. Graham, formerly chief of police at Napanee, who has been an inspector with the Toronto police at Ottawa, has been transferred to Kingston where he will make his headquarters. Three Ottawa men have been sent here to work on the fact that the men have been brought here from Ottawa because of much criticism on the part of the members of the Great War Veterans' Association and they will ask that Kingston should have the first chance of such positions.

ALLEGED COMBINE OF PAPER MAKERS. Bookpaper Users to Appeal to the Dominion Government. At a meeting of publishers of magazines, farm papers, religious and business newspapers, in Canada, held yesterday in Toronto, to consider the refusal of the paper controller for Canada to carry out his instructions, it was decided that a deputation should wait on the government next week to urge that Controller Fringie be ordered to carry out the instruction of the order-in-council, appointing him to investigate the extraordinary rise in the prices of book papers in Canada.

Regarding the prices of book papers in Canada, the government accountants' figures show that the margin of profit to the makers, rose steadily from 1914 up to 1918 it was nearly 400 per cent. higher than in 1914, yet in spite of this fact the paper controller refuses to make a proper investigation. At their meeting yesterday, the publishers declared that there are substantial reasons for believing that there is a combine among the makers of book papers, and it was resolved to have the alleged combine investigated.

VETERANS

RETURNED MEN SEEK DISCHARGE. Express Disatisfaction at Being Put to Menial Tasks.

There seems to be considerable dissatisfaction among the men who have been returned from England during the last few weeks, particularly those who have not been to France. They maintain that they should be given the same consideration as the Royal Air Force men who have practically been discharged, with the exception of the mechanics. The ground is taken by them that their services are not necessary to the army, and that they are put to menial tasks and opportunities to get positions in civil life are open to them, but they cannot take advantage of these opportunities because they are unable to secure their discharge.

Officers' Children. The children of disabled members of the forces up to the rank of major (militia) or lieutenant commander (naval) will be now entitled, when the number of the forces is entitled to a total disability pension, to the following allowances: (1) First child, \$12 per month. (2) Second child, \$10 a month. (3) Third and subsequent children \$8 a month.

INSANE SOLDIERS CONSTITUTE PROBLEM. "We have, unfortunately, between 800 and 1000 insane soldiers on our hands, who will require care for many years, as well as many tubercular patients," was the statement made by Sir James Loughheed, head of the department of military establishments, yesterday, on the occasion of his visit to Toronto to hear Sir Arthur Pearson at Massey Hall.

Presented With the M.C. An investiture ceremony was performed at the parliament buildings, yesterday morning, when the lieutenant-governor presented Major Gregory Clark Toronto, with the Military Cross. MILITARY HOSPITALS SUPPLIED WITH BOOKS

Thru the offices of Hon. Dr. H. J. Cody, minister of education, over 10,000 books for returned soldiers have been supplied to libraries at several military hospitals and other institutions, such as St. Andrew's College, Davisville, Guelph Sanatorium, Movat Sanatorium, Kingston, and to the 3rd Depot Battalion, Canadian Garrison, Ottawa. Sixteen military camps benefited last summer.

Officers' Children. The children of disabled members of the forces up to the rank of major (militia) or lieutenant commander (naval) will be now entitled, when the number of the forces is entitled to a total disability pension, to the following allowances: (1) First child, \$12 per month. (2) Second child, \$10 a month. (3) Third and subsequent children \$8 a month.

INSANE SOLDIERS CONSTITUTE PROBLEM. "We have, unfortunately, between 800 and 1000 insane soldiers on our hands, who will require care for many years, as well as many tubercular patients," was the statement made by Sir James Loughheed, head of the department of military establishments, yesterday, on the occasion of his visit to Toronto to hear Sir Arthur Pearson at Massey Hall.

Presented With the M.C. An investiture ceremony was performed at the parliament buildings, yesterday morning, when the lieutenant-governor presented Major Gregory Clark Toronto, with the Military Cross. At Major Clark's request the presentation was made in private and the lieutenant-governor awarded the gallantry star to his conspicuous son, Vimy Ridge on April 9, 1917.

WHAT THE BLIND CAN ACCOMPLISH

Sir Arthur Pearson's Speech to Empire Club at Toronto. FELT THE COLOR Blind Teaching the Blind, is Chief Element of Success.

Sir Arthur Pearson had a tremendous reception at the Empire Club luncheon yesterday in the King Edward. The crowded banquet hall received him standing and with applause and rose again and cheered him when he closed his brilliant address. At the guest table, presided over by the president, R. A. Stapells, for the first time, were the Lord Bishop of Toronto, Premier Sir William Hearst, Sir James Loughheed, Senator Nichols, Hon. W. J. Hanna, Hon. R. A. Pym, W. K. George, Capt. Baker, M.C., Lieut. Pearson, among others. Mr. Stapells having suitably acknowledged Sir Arthur's cordial reception, and Mr. Somerville having announced the visit for next Tuesday of Captain Carpenter, the hero of Zestenberg, the chairman paid a moving tribute to Private Bill Dies, who was also present at the guest table as one of Sir Arthur's trained students from St. Dunstan's.

## A National Policy in Nickel!

A new security offering in London of interest to Canadians is the issue of non-cumulative preference shares of the Mond Nickel Company, Limited, the issue price of which was \$1.00. The prospectus explains the purpose of the issue as follows:  
"Owing to the continued growth and development of the company's business, considerable sums of money have had to be utilized to complete the extension of the company's refining works, part of which is already in operation. These extensions are completed, the output of the company's products will be increased by 50 per cent. Further working capital is also necessary for the company in order to carry on the increased volume of business and to pay off certain liabilities."  
The company's works are in the Sudbury district, its smelting works at Coniston, Ont., and its refinery at Swansea, Wales. The fact that plant extension is being undertaken at this time is encouraged by the fact that the future of the nickel industry in the face of the expanding activities of the International Nickel Corporation and the increased production of the metal to be looked for from the completion of the new British-American Nickel Company's plants.  
The Mond Company's profits have risen steadily. In the last year before the war net profits were \$1,145,000. Annual statements since 1914 have shown a progressive rise to \$300,000 in 1915, \$327,369 in 1916, \$327,249 in 1917 and \$531,845 in 1918.

The World directs the attention of the Heist government in Ontario and the Borden government at Ottawa, and especially the attention of the minister of finance in the latter, Sir Thomas White, to the above statement now being printed in the Canadian press.

If it is a fact, and we believe it is a fact, that the agitation that has borne fruit in connection with the International Nickel Company, and that that great concern has been compelled to put its refining plant in the Province of Ontario, and to pay an annual revenue to this province of \$1,300,000, then should not the same policy be followed to compel the Mond Nickel Company to put its refining plant in Canada and pay a proportionate income to this province?

Also, does it not follow that Sir Thomas White, who is hard pressed to find means to carry on the government of the country and to provide for our war debt, should insist on the refining of the Sudbury ore of the Mond Company in this country, also, and to make it subject to the war taxes of Canada?

The International Nickel Company in one year paid, we believe, over \$3,000,000 to the government of the United States as war tax on profits made from the refining in the United States of nickel ore brought from Sudbury in Canada!

The British-American Nickel Company is also building a plant for electric refining on the Ottawa River, and it, too, will be subject to paying taxes to the province, and we trust to the Dominion as well; but it requires the enforcement of the national policy up to the hilt to bring this about, especially in view of the fact that notwithstanding the assurances given by the British Government at the outbreak of the war and thereafter, there was no German control of the output of the nickel ore mined at Sudbury.

The World believes that the nickel mines of Canada contain the greatest store of metal values of any mines in the world; and inasmuch as we almost have a monopoly as far as is known to date of the nickel ores of the world, it does seem to be the height of folly to allow other countries to reap the profits and other countries to tax the profits and workmen other than Canadians to do the work in connection with the refining of these ores.

The Legislature of Ontario and the Parliament of Canada had better look into the proposition. Just what view these two bodies will take later on in connection with the ascertaining where the Germans got their nickel for use in the war and during the war, we do not yet know, but a paper that professes to speak for the Liberal party made an announcement a few days ago that the whole nickel question would be discussed at the coming session of parliament.

## Theodore Roosevelt, American.

The outstanding characteristic of Theodore Roosevelt was his robust and intense Americanism. His forefathers must have come, at some remote time, from some European country, but that fact never influenced his character, his life, or his public career. He was an American who loved America as an Englishman loves England, or a Frenchman loves France. In his heart there was no divided allegiance between the old and the new world.

Hence his strength and his weakness, his virtues and his failings alike were racy of the soil. He was adventurous, impulsive, emotional, and yet a practical man of affairs. He had a liking for the striking and dra-

## A GOOD MAN GONE

matic which is so characteristic of the American people, and was all the more successful because he utterly lacked their keen sense of the ridiculous.  
We think of Colonel Roosevelt today as a fearless American who championed the cause of the allies in the United States, who demanded vengeance for the sinking of the Lusitania and threw himself with whole-hearted energy into the prosecution of the war. Yet we believe that he will rather be remembered in history as the world statesman who brought about the Treaty of Portsmouth and ended the Russo-Japanese war. In the domestic field his greatest achievement was the passage of the law forbidding rebates by railway companies. But it was after all rather his personality than his achievements that counted. He became one of the very few men of whom practically everybody in the world had heard.

Years ago our American neighbors fancied a strong resemblance between their president and the German Emperor. Both were men of wonderful versatility, both were intensely national, and both were supposed to be always armed with the big stick. A strong effort was made by the Kaiser to influence and attract President Roosevelt. Indeed for years a steady propaganda went on having for its object a German-American entente against Britain. But when the time of testing came, Theodore Roosevelt denounced the Kaiser and all his works and did all he could to hurry his own country to the assistance of Belgium, France and England. Probably no man showed greater spirit in fighting German influence in the United States than did Theodore Roosevelt after the war was on in earnest and he came to see all that it portended for liberty and civilization.

## What Happened to Burlington.

The people who live in Burlington did not turn out Mayor Coleman and the Town Council which stood up for their rights against the Hamilton Electric Radial Railway Company. The turning out was done by people who owned property in Burlington and have a perfect right to vote there, but who do not often brighten by their presence that prosperous municipality. They poured in from Toronto, Hamilton and other places to vote, many of them, for the first time in their lives at the civic election! The influence of three great corporations is said to have tilted the scales against the re-election of the ticket headed by Mayor Coleman. The Dominion Power and Transmission Company, The Dominion Canners, Limited, and The Dominion Steel Foundry were apparently three souls with but a single thought, three hearts that beat as one.

Birds of a feather flock together and we cannot be surprised to find the big corporations line up in mutual support when occasion requires. But what support did the Town of Burlington get from other municipalities in Ontario; from the newspapers of Hamilton, from Toronto papers like The Globe, Star, and Telegraph; from the Hydro Radial Commission; from the Ontario Government, and from the government at Ottawa? The little town was left to make its fight single-handed. An arrogant corporation refused to obey the order of the Dominion Railway Commission, and the federal government confessed itself impotent. The Ontario Government did not lift a finger. Attorney General Lucas, like the woman who saw her husband fighting a bear, absolutely refused to take sides in the controversy. He did not feel called upon to see that the law was obeyed, but like his famous predecessor in office, Sir John Gibson, practically said, "I am not a policeman."

But we need a policeman who will enforce the law. Dogberry should no longer be the beau ideal of Canadian officialdom. The people of Burlington may well be discouraged. But we doubt when the time comes for action if they will break the bylaw which has so far protected them. They should not give up the fight!

## SIXTY-FIVE MILLIONS FROM BUSINESS WAR TAX

Ottawa, Jan. 6.—The total amount of assessments made under the Business Profits War Tax Act to date is over fifty-eight million dollars, of which over fifty-four million dollars have been collected. It is estimated that by the end of the fiscal year about sixty-five million dollars will be realized. This is more than double the estimate made in the budget speech in which the Business Profits War Tax Act was introduced.

## Arranging Canadian Credits for Reconstruction Work in France

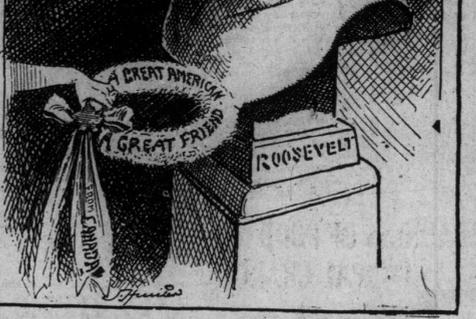

Ottawa, Jan. 6.—With reference to the matter of Canadian credits to be available for the purchase of commodities in Canada, required for the rebuilding of France, it is stated officially that after the signing of the armistice, negotiations were opened by the minister of finance, with representatives of the French government. It is expected that the representatives of the Canadian trade mission will be able to complete arrangements at an early date.

## SIMCOE I. O. D. E.

Simcoe, Jan. 6.—At the nomination meeting of the local chapter, I.O.D.E., held today, Mrs. W. B. Tomlinson was elected regent, and her predecessor, Mrs. Richard Edmonds, vice-regent, both by acclamation. The elections of the office bearers take place next month.

## POLITICAL NOTES AND VIEWS

From comments of the press we might easily come to the conclusion that the tariff question is not likely to disturb or prematurely hasten the dissolution of Union government. Quite recently we quoted from The Winnipeg Free Press, The Winnipeg Tribune and The Calgary Albertan, all three are Liberal Unionist newspapers that believe theoretically in a sweeping tariff reduction headed toward the goal of free trade. Yet all three strongly favor the continuance of the Union government during the reconstruction period. Indeed, we might go further and say they all recoil with horror from the prospect of Canada ever returning to the two party system as it existed before the war.

IDA AT THE CITY HALL

## LONDON PAPERS PRAISE ROOSEVELT

Times Says, Even His Enemies Respected Him as a Great American.

London, Jan. 7.—This morning's London newspapers print full accounts of Theodore Roosevelt's death, together with long sketches of the former president, and lengthy editorial comment on his life and work. "With Roosevelt there disappears from the world a great American and a great friend of Britain," says The Daily Mail. "He was ever a fighter, continuously challenging criticism, as must a man whose primal quality is pure energy rather than pure reason. We think of him as the greatest of our age, a man who made a great place in the world by dint of his great and very American qualities."  
The Daily Telegraph says: "In Roosevelt the world loses one of its elemental figures, one of those who are not more than twice or thrice in a generation struck off the roll of mankind as personifying to a supreme degree some human force at work in history of the times. No man did more to awaken the spirit of democracy, to give a new meaning to the effective word power in the American people, and his famous phrase, 'Right diplomacy for national greatness in a world of competing ambitions' is a motto that will live as long as the world endures."  
The Daily Graphic says: "A lover of nature, a genuine devotee of sport, a hard worker, a man of letters in all its wholesome aspects, Theodore Roosevelt was as nearly complete a man as can be imagined."  
The Times says: "In politics, as in all else, he was a vigorous fighting man, and death hardly follows his untimely end. He was not ranked with the lofty creative geniuses of politics, but his name will go down among those of American presidents who served his country with a character that attaches to the name of Lincoln; as one who was a great abiding force in morals as well as politics and who served his country with an unwearied earnestness and zeal."  
The Post says: "It is not every voice that carries across the Atlantic, but Roosevelt's undoubted did. He was listened to here almost as attentively as in America, and his familiar downright agents will be missed. The world can ill spare the big man now, and even the strongest opponents of Roosevelt's policies admit that Roosevelt was a big man."

Few men, however eminent, are known outside their own country, but Roosevelt was one," says The Express. "His ideals may be described as the cause of right government and progress, backed by the big stick."  
The Chronicle says: "History places some big things in his record, but bigger than any perhaps was the challenging impact of his personality on the world in which he lived."

## GRANT \$100,000,000 FOR RELIEF IN EUROPE

Washington, Jan. 6.—By a vote described as "very close" the house appropriations committee today approved the request of President Wilson that Congress appropriate \$100,000,000 for relief work in Europe, outside of Germany. The bill as finally agreed upon, will be reported to the house tomorrow. No announcement of the vote was made, but it was understood that it was 7 to 6, with Chairman Clegg in the majority. The bill, as finally approved, the bill, president discretionary authority in the use of the money, and it is stated that it provides that while food shall be given free to starving people unable to pay for it, the expenditure shall be limited to the relief of the people of whom the relief is furnished.

## TO FIGHT FLU IN ALASKA.

Washington, Jan. 7.—A resolution by Senator Jones of Washington, appropriating \$100,000 for government aid in fighting influenza in Alaska was adopted today by the senate and sent to the house. Senators Jones and Simcoo said the disease was raging among both whites and natives, and that Governor Strong of Alaska reported government aid was imperative.

## COL LANG RETURNS.

Halifax, N.S., Jan. 6.—Col. W. R. Lang, who came to Halifax a year ago with Gen. Leslie, to take over the duties of acting G.S.O., upon the retirement of Major A. N. Jones, is expected to return to Toronto on Jan. 31. His successor has not yet been named.

## THE WIFE

By JANE PHELPS

Ruth receives the congratulations of her friends.  
CHAPTER CXXXII.  
Arthur Mandel had seen the announcement that Brian had been advanced and decorated for his bravery under fire and his heart sank. He knew something of the government as an action must naturally have been taken by his act. But in a way he thought that he begrudged his country his service Brian had done or that he thought with anything but pleasure that a gallant officer's life had been saved by his act. But in a way he seemed to make Ruth seem far away—his winning her more doubtful.  
Ruth heard from Brian. Their letters crossed. He told very simply of what he had done to win his advancement, making light of the danger, but showing in every line his gratitude that he had been able to save the life of the officer.

Ruth showed the letter to her aunt. "A very nice letter, Ruth. It shows much fine feeling," she had commented after reading it. "He did a very brave action."  
It pleased Ruth enormously to think that her aunt praised Brian in any way, for anything she might have said. The lady's prejudice was strong, she had so objected to Brian that Ruth took it as a good omen that she spoke kindly of him now.  
The next day she told her aunt what that night; to discuss the wonderful news and congratulate Ruth that Brian had come thru in safety. Mrs. Curtis also called up and told her wonderful she and Mr. Curtis thought him. All her friends were only Arthur Mandel—whom she had come to consider friend as well as employer—were more than glad. Even Mrs. Livingston wrote Ruth a little note, telling her that she sympathized with her in her joy.  
The next day she told her aunt what that night; to discuss the wonderful news and congratulate Ruth that Brian had come thru in safety. Mrs. Curtis also called up and told her wonderful she and Mr. Curtis thought him. All her friends were only Arthur Mandel—whom she had come to consider friend as well as employer—were more than glad. Even Mrs. Livingston wrote Ruth a little note, telling her that she sympathized with her in her joy.

The chances are that the government will get thru the coming session. The western ministers, all free traders, will probably agree to the tariff issue being sidetracked for that long, at least. Quite possibly the majority, perhaps all of the low-tariff members from the west may agree to keep the tariff question that much longer in abeyance.  
An attempt to enflame the government forces will undoubtedly be made by the repeal of the "Three Emes" provisions Act. Sir Wilfrid Laurier denounces the act as one of the most iniquitous and disgraceful laws ever spread upon the statute book. In this view several members of the Union government, and undoubtedly occur. Moreover, many of the western members supporting the government will strongly favor the repeal. One or two of them took occasion to say so on the floor of the house at the last session.  
The government might find an easy way out of this difficulty by saying that the act would soon be repealed by its own limitations, for the disfranchisement of the naturalized citizens of alien origin ceases automatically upon demobilization after the conclusion of peace. They might give a pledge to have demobilization completed within a year, which would be time enough for any possible general election. But the government would find itself confronted not only by the demand from the west that the act be repealed, but by a contrary demand from Ontario that the act be extended and made stronger, if possible. It would, therefore, not be surprising to find the entire Elections Act referred to a special committee of the house for revision and codification.  
The government will, therefore, have to do some clean skating to get over the session. But they will probably get over, even though in places the ice be a little thin. Their great salvation will be that no one is anxious for an immediate election, and the ordinary member of parliament is no keener than anyone else to throw himself out of a job.

## A Line of Cheer Each Day of the Year

THE EVER-YOUNG.

Since I have learned the fact so true  
That with each day I'm born anew,  
And with each dawn a new line of cheer  
Begins another, fresher, year,  
I've felt as young as any boy  
Who greets the morning with joy,  
And nod my path with youthful zest,  
And wait the end with interest.

## MADE RAPID FLIGHT.

Detroit, Jan. 7.—Flying 200 miles from Dayton, Ohio, in 95 minutes, the two map-making machines of the squadron of three planes which left Ellington Field, Houston, Texas, December 14, arrived here this afternoon, covering the complete trip of 1476 miles from the gulf in 878 minutes flying time.

## THE TORONTO WORLD

tractors may continue to be reeated and that would be quite a sop to the western grain grower. A royal commission might be appointed to take testimony upon and investigate the tariff question. But all these things would be mere palliatives or makeshifts which at best could only postpone the irrepressible conflict. Sooner or later we are going to have a Dominion general election on the tariff issue.  
The members of the Union government do not even pretend to be in accord on the tariff question. The majority of them are protectionists, but some are out and out free traders. It would be absolutely impossible for the government as at present constituted to formulate or carry into effect anything like a permanent tariff policy. All they can do is to agree among themselves to sidetrack the tariff for the coming session at least. They all agree, but in a way an election would be out of the question until all the soldiers return to Canada, and they will probably all agree in saying that sooner or later the tariff issue must be submitted to the arbitration of a general election.

All this is simple enough as far as it goes. The members of the government will avoid disagreeing among themselves on the tariff question by declining to discuss the subject. Upon this understanding they may carry on for quite a time, or, at least, until they thought that the "reconstruction period" had come to an end. The next question is, How far will they be able to preserve that discreet and dignified silence?  
Beyond doubt, a resolution will be offered by some opposition member during the session calling for a radical reduction in tariff duties along the lines laid down in the platform recently adopted by the Canadian Council of Agriculture. The government will undoubtedly vote down the resolution, not because it does not express the views entertained by some of its members, but because they think it best to continue and preserve the Union government by doing nothing with the resolution which would mean the downfall of the government, and call upon their supporters to subordinate their personal interests to the tariff for the sake of preserving the Union government. Such a resolution last session would have been voted down overwhelmingly, for all the western members were united in believing that the government must have an absolutely free hand until the war was over. Now that the war is over, they may take the position that the government should not be embarrassed until after demobilization, or, perhaps, until after the reconstruction period is safely passed.

The remark went home. Ruth flushed crimson and at once changed the subject. She knew Mandel had heard, she hoped he did not care too much, but she would hate to make him suffer or know he was unhappy.  
Her aunt noticed the blush and misinterpreted it.  
"Why, how are they aren't together?" they are exactly suited to one another. Then: "But who knows what then, but Ruth is young."  
Then, before she had been accustomed themselves to thinking of Brian as a lieutenant, came other news.  
"Tomorrow—Brian is Wounded, but Not Severely."

## GERMAN GOLD AIDED MEXICAN BANDIT LEADER

Washington, Jan. 7.—Evidence disclosed today that Francisco Villa, the Mexican bandit leader, received \$300,000 worth of munitions supplied by a German agent through the Mississippi Valley Trust Company of St. Louis in 1915, was presented today to the senate committee investigating German propaganda by Major E. Lowry Humes, in charge of the investigation.  
Major Humes said the money was sent by F. A. Sommerfeld, now interned as an enemy alien, who received credit to that extent from the St. Louis bank thru the Guaranty Trust Company of New York.  
The munitions were manufactured by the Western Cartridge Company at Akron, Ill., and shipped to El Paso, a brother of the Mexican bandit, at El Paso, Texas, according to the documents presented by Major Humes.

## R. B. RICE WINS GALT BONSPIEL

## G. S. Lyon Remains in Second Competition, Where Mooney Gibson is in Semi-Finals.

Galt, Ont., Jan. 7.—R. B. Rice's Queen City rink tonight won the Manufacturers' event, the chief competition in the Galt Curling Club's big bonspiel, defeating Tom Thaburn's Brampton quartet by a score of 7-3. The final game was a tame affair, the Ontario rink looking well to the sticky ice and played to mid-winter form, while the veteran Thaburn could not get going.

Play in the 'spiel continued until two o'clock this morning, and was resumed at nine. While the ice was sticky today, there was no decline in the enthusiasm of those taking part. In several matches today extra ends had to be played.

Geo. S. Lyon's Toronto four is still in the running for the second event and going strong. Mooney Gibson, who is as big a star at curling as he is in baseball, won an exciting match tonight from an older London rink in an extra end, 10-3, and qualified for the semi-finals of the second event, and is now sure of being in the prize money. No curling competition in this city in which the game has been played for over fifty years, has created the interest that there has been in this 'spiel. There were large galleries of spectators at both rinks tonight.

## SKATING CARNIVAL

The skating carnival at the Arenas next Friday night is filling a much felt want in giving amateur hockey players a chance to show their speed. Smilie, Glen Smith, "Moose" Heffernan, Red Green, Jack Gain, Harold Parlor, Bud MacLean, Jerry Leflamme, Stewart Sullivan, Leroy Rennie and Box are going to perform. The races start at 8 o'clock. The races are under the management of the 109th Regiment, Brigadier-General, and will be officiated by Mayor Church who will act as honorary referee, and will present the prizes and judge the costumes.

## VETERANS V. DENTALS TONIGHT

Veterans and Dentals yesterday afternoon put on the finishing touches in preparation for tonight's game at the Arenas. Tickets went on sale yesterday morning at the Arenas and already many have been disposed of. Indications are that a good crowd will attend. The line-up:

Veterans—Goal, Maxwell; defence, Bennett and Young; right wing, Leroux; left wing, Schumacher; centre, Parlow; substitutes, DeFoe and Stroud or Milne.

Dentals—Goal, Stewart; defence, Smith and Box; right wing, McCaffery; left wing, Smilie; centre, Hudson; substitutes, Brown and Rennie.

## MAUPON IS VICTOR

Chicago, Jan. 7.—Pierre Maupon defeated Auzie Klechhofer last night in the first block of their three nights' match for the three-cushion billiard championship, 50 to 48. It took the Mexican challenger 46 innings to wrest victory from the champion. The winner's high run was five and the loser's four.

## CANADIENS NOSE OUT ARENAS IN BRILLIANT PRO FIXTURE

## Lalonde's Pinch-Hitting in Final Period Turned the Trick—Dazzling Speed and Quick Scoring the Order.

Neway Lalonde is the greatest pinch-hitter in hockey. The old boy was head and shoulders over anybody on the ice at the Arenas last night and he beat the Arenas all by himself. The Canadiens won the heat 7 to 6 and it was Neway's noddle that turned the trick. The centre ice wizard saved himself throughout the game, opened up the spurs when they counted in the last period, scored two goals and made the third Canadian tally of this round possible. This tells the tale of the finish to the best pro fixture of the year.

It was a grand little affair from the first bell to the last. The hockey was excellent, it was clean and the speed was dazzling. The Toronto team showed a sparkling brand but it was the older heads on the visiting outfit that came back to the Arenas. The Canadiens were better at work close to the nets. They did not have as many chances as the home boys, but Lalonde carried away the honors with his clotting in the tight spots when it counted most.

Close to four thousand fans viewed the contest and they were satisfied with what was offered. The Canadiens were the better of the two teams. They showed faithful practice at the passing game, but must brush up on their work close to the net. They failed to get on the job to bat in the rebounds. Cleghorn was a pastime at this stage for the visitors. Lalonde took a hand at this little game at times. It was the cleanest game of the year. Only two minor penalties were handed out and Cleghorn gathered in both. One was no laughing matter.

## PITRE STAYED HOME

The Canadiens arrived without Pitre and were missing the serving of the foxy Lalonde for the first period. Lalonde misjudged the width of the projecting iron on the nets in the first few minutes and cut a bad gash in his head by bumping the iron. Lalonde was out for the second period. Corbeau got a nasty gash in his leg in the second session, but came back in the third round and played bang-up hockey. The Arenas came thru the game without any injuries. The score was tied no less than five times and the hockey was hair-raising at all times. The rough stuff was left out of the argument throughout and the fans thoroughly enjoyed it. The teams worked hard and it was a dazzling pace and the passing was almost perfect. Veziua was the grand player of the old Joe Hall on the Canadian defence. Hall was in rare form and his blocking was masterful. He was also a strong rusher and grabbed two pretty goals. Cleghorn's long suit was to perform. The Canadiens were in the lead for the full session. Lalonde's work has been explained. Lalonde and Corbeau did a man's man service on the defence for the Arenas. Cameron broke away several times and fitted into two plays to get himself loose. Crawford was a bear for work close to the net. He was a Frenchman and his checking plainly had the Frenchmen worried. Skinner went well in the game, but his shooting was off colour. Little Donnelly was wonderful. He did not have much luck. Meeking was not used much, and Adams was also only on occasionally. Crawford was the big man on the forward line. He checked for the full session and did some useful puck-carrying.

Had a Lead Here. The first was an interesting period. They gathered two goals in the first ten minutes and the Arenas had a good margin of the play. They gathered two goals in the first ten minutes and the Arenas had a good margin of the play. They gathered two goals in the first ten minutes and the Arenas had a good margin of the play.

INTERDENOMINATIONAL LEAGUE. Walmer Road Baptists beat the Bloor Street Baptists in the Interdenominational Hockey League game last night at the Arenas. The score was 3-0.

Onto net for long spells. He was rewarded by getting a score when he batted in the rebound from Berlanquette's shot. There was no further scoring in the period. The Canadiens then the fans dizzy. Canadiens tied the score two minutes after the start when Cleghorn batted in one from a scramble. This put the needed ginger into the contest and end to end rushes featured. Away went the Canadiens in front when Hall opened up a rush and went clean through the net. The Canadiens were netted the rubber from close quarters. Dennyay got inside, but Veziua bounced the puck away with a side knee. The Arenas were on even terms again when Meeking grabbed a goal. Crawford carried it down and shot, and Meeking tied the score again by a lone rush and pulled Lindsay aside and sent the teams tore up and down until the fans thought they would drop. Noble got the puck in front again. Noble got the puck in front again. Noble got the puck in front again.

NEWAY LALONDE hogged the play in the last round. He tied up the score soon after the start. He combined with Corbeau and went right thru with pretty dodging. Once again the Arenas took the lead. Crawford went thru and passed back to Skinner, who scored. Old Neway was a net piece of work and sidestepped the whole local crew went up to give the Canadiens a good start.

NEWAY made the winning goal and scored three more. He carried the puck in and faked a shot. He carried the puck in and faked a shot. He carried the puck in and faked a shot.

Tommy! we cannot praise you too much with our lays, Nor shower on you too much our lasting gratitude for your deeds. But while your name we bless, We keep, my lad, no less, For Jack, an equally heratfot Beauty-tude.

## CANADIAN HORSES AT MT. CLEMENS

## Nat Ray Sends Freddie Grant Fast Mile, Preparing for Ice Meeting.

Detroit, Jan. 7.—With the daily arrival of horses at Mt. Clemens for the big winter race meeting the week of the 15th, the track now is in superior condition, many fast miles and quarters are being reeled off by the entrants in preparation for the coming contests.

Nat Ray has worked his new pacer Freddie Grant, by Grattan Royal, who has sent a mile in 2:14, and the last quarter in :32, and it will take some pacer to head the speedy Canadian. But there are many in his class to dispute his right to the money, and great race is looking forward to when the strike Vic Fleming with Lute Grant, also by Grattan Royal, who paced a fourth here at the fall meeting in 2:10, 4 and 5 to 3.

In the same event Bill Shively has Lute Grant, who has sent a mile in 2:14, and there has been considerable discussion in Herb Stricker's as to the relative merits of these pacers.

Vic Fleming arrived this week with Lute Grant; also the veteran ice pacer Mussel Shell, 2:16, who meets the fast Roy Grattan, 2:07, to renew their battle of last winter. Billy Sunday, the pacer of Ben B. Porter, of Burlington, Ont., is also a member of the Flemish stable and is expected to do his share towards the spring training bills.

Robert Trench's stable from Teaneck, N.J., arrived Saturday in charge of Johnny Miller, headed by Roy Grattan, 2:07, a consistent winner on the Michigan circuit. Chipway Bay, 2:13 1/2, Phyllis Admiral, a pacer now converted to the trot, and who has shown up the balance of very strong stable, and W. Milroy, who has shown much improvement lately and will be one of the best trotters in the show classes and.

The track is now flooded and in the best possible shape for racing, and many fast miles and quarters are being tramped by the horses getting ready and a large winter meeting yet given is in prospect.

Many reservations have been made for the Ottawa and Kingston, Ont., N.Y., for stable accommodations. The racing will start at 1:30 promptly each day, beginning Monday, Jan. 12. Car service to and from the track and a large banquet enclosure of 5000 capacity is provided for the public.

BANK SHARES MAKE STRIKING ADVANCES

Commerce Sells Up Four Points—General Market Lacks Decided Trend.

Strength of the bank shares with interest largely centered in Bank of Commerce, provided almost the only noteworthy feature in the trading on the Toronto Exchange yesterday.

Commerce sold at 213, an advance of four points, and at the close 214 was bid for more, with none offered.

Bank shares sold, in general, were quoted at either the highest prices of the movement or on a level with the best prices in the market.

The general market showed no decided trend. Smelters was a shade firmer at 20, but the Canada Steamships issues and Steel of Canada came out at slight concessions.

Steamships preferred at 78-4 was 1-4 lower, and Steel of Canada at 64-1 was also 1-4 down.

Maple Leaf was in fair demand at 133-1-2, unchanged.

In the utility group, Twin City was of a point at 40.

Railway was down 1-2 at 64-1-2, and Brazilian unchanged at 53.

In the war loans the 1917 Victory issue overshadowed all others in activity, and at 102-1-4 an advance of 1-4 was shown.

Stocks are Quiet and Irregular, Reflecting Uncertain Tone in New York.

Montreal, Jan. 7.—A good business for bonds, with a record price of 102 for the 1917 Victory issue, was the most encouraging feature of today's business on the Montreal Stock Exchange.

Transactions in 1917 Victory bonds, which were reported with the high quotation of 102-1-4 in most of the trading, continued to be the feature of the day.

On the heavy side were Car common, 195-1/2, and Maple Leaf, 133-1/2, lower, at 102; Laurentide, 102-1/2, lower, at 102; Laurentide, 102-1/2, lower, at 102.

Power reacted 3/4, to 60-1/2, closing heavy, at 60-1/2.

Total business for the day, 219 shares, 55 unlisted shares and \$36,850 bonds.

HONOR ROOSEVELT'S MEMORY

KEORA AND BAILEY ACTIVE AND STRONG

Cobalt Stocks Show Better Tone—Representative Gold Issues Little Changed.

Two low-priced stocks, Keora of the gold group, and Bailey of the Cobalt list, furnished most of the action on the Standard Stock Exchange yesterday.

The majority of issues showed little change, but an encouraging sign was the greater firmness of the silver, which appeared to have largely recovered from the depressing influence of the report of power troubles.

Keora is the center of bullish gossip to the effect that new capital, which will enable development work to be resumed on this long-Idle property, is in sight.

In some quarters it is contended that the indications on the Keora would warrant a liberal expenditure of \$250,000.

Development, and as there are rumors that it is possible that Keora may be included at any time, 15,000 shares of Keora were sold yesterday, after a strong opening at 11, the price rose 13 and closed at the top for a net gain of 2 1/2.

The other hand, the price moved up 1/4 to 6, and the turnover of 23,000 shares was easily the largest of the day.

The Cobalt held some points of interest, apart from Bailey, McKinley-Darragh, which sold up 1/4 to 4 1/2.

It is stated that the new vein cut on the level of the McKinley is about two inches wide and very high grade. Crown Reserve was steady at 33.

The vein on the property is being stopped in readiness for shipment of ore in the month. Peterson Lake was firm, some small lots selling up to 10.

There is a "street" rumor that an offer has been made for control of the property of both McKinley-Darragh and the management. Timiskaming recovered ground lately lost by rallying two points to 4 1/2.

On the other hand, Schumacher at 32 1/2, on the other hand, Schumacher at 32 1/2, on the other hand, Schumacher at 32 1/2.

SEeks TO END BAILEY FIGHT

D. G. Lorsch of the Standard Stock Exchange is submitting a plan to share holders of the Bailey-Cobalt, which is being fought in litigation.

Lorsch has been contending factions Mr. Peterson Lake, which is being fought in litigation.

LA ROSE PROCEEDS WITH DEVELOPMENT PROGRAM

Cobalt, Jan. 7.—The boundary trouble with the O'Brien, which will come up for settlement soon, is not deterring La Rose from going ahead with underground development, and already the main shaft has been put down to another level, a depth of 470 feet.

The ore bodies opened up along the 470-foot level were close to the lower contact, and the fact that good milling values are proven to exist about 130 feet farther down clearly indicates a very large tonnage of "pay" ore will be available, and materially increase company earnings.

CROSS-CUT IN GIFFORD SHOWS GOOD RESULTS

Cobalt, Jan. 7.—Development at the 360-foot level in the cross-cut at Gifford-Cobalt continues to be most encouraging.

The cross-cut of the last vein cut, which has a width of 11 inches, show a very heavy mineralization.

CROWN RESERVE'S FIND.

Cobalt, Jan. 7.—Crown Reserve's find in the east part of the property is growing in importance. The new vein has been drilled on about 100 feet, all of which is in good ore.

AT MCKINLEY-DARRAGH.

Cobalt, Jan. 7.—McKinley-Darragh is putting in a pump to excavate old tails when the mill is started up again in the spring. It is expected that the tonnage treated will amount to close to 250 tons a day when the mill is restarted.

ASSOCIATED GOLDFIELDS HAS WIDE ORE BODIES

Considerable Free Gold Is Shown—Low Cost of Treatment.

J. T. Eastwood, the mining broker, has returned from a visit to the properties of the Associated Goldfields Mining Company enthusiastic over the results of development work and over the outlook for a large percentage of profit because of the remarkably low cost of treating ore which he says the company's control of extensive water powers in the district should ensure.

Block 'B' consists of 87 acres. A shaft has been sunk to the 500 foot level, all of which is in pay ore. They have a cross-cut of about 120 feet to the east and west, which shows a very high grade of ore in progress at the present time.

Block 'C' consists of 120 acres. The ore body on this property is from 200 feet wide, on which about 20 test-pits have been sunk to a depth of 11 to 20 feet, also a tunnel about 100 feet, all showing visible gold.

Block 'D' consists of 280 acres and immediately adjoins block 'C'. This ore body is at the least 70 feet wide and has a depth of 150 feet. The plan further provides for \$50,000 working capital for the new enterprise.
