Fleming to said position of Assessment Commissioner is illegal and void.

Sanderson's Evidence.

The first witness was Thomas Sanderson of the City Clerk's department. He testified that he was present at the meeting of the Council when Fleming was appointed Assessment Commissioner and John Shaw elected Mayor. Shown a copy of the minutes of the meeting he said they were correct. He also identified and testified to the correctness of a copy of the bylaw which Mr. Macdonald handed him for examination. He was present when the report of the Special Committee was presented.

Mr. Macdonald: Who was in the chair when that report was presented?

Witness: Ald. Allen, I think.

Mr. Macdonald: The minutes don't state that.

Witness: I think not. Mr. Macdonald: Then to that extent the minutes are inaccurate?
Witness: I don't know that they are inr. Macdonald: Well, it is a fact that 'Ald. Allen was in the chair and the min-utes don't show it. We will leave it at that.

Witness was present when the Mayor tendered his resignation. He was handed a copy of The World of Aug. 6, and after reading it he swore that the report agreed with his recollection of the proceedings. No public record was kept of the unwritten part of the proceedings, such as the Mayor's remarks when accepting the Council's offer.

AFTER THE FACTS OF THE CITY HALL DEAL

Corporation Counsel Fullerton, a Man Who Objects to Everything.

Ernest Albert Macdonald is Now at Work With His Little Pick-Ax Before a Special Examiner in Connection With His Injunction Proceedings to Unseat Ex-Mayor Fleming From His Nice Fat Office-Were the Minutes of the Council Accurately Recorded?-All the City Aldermen and John Shaw Must Go Into the Sweat-Box Now.

Ex-Mayor Fleming feigns contempt for the egal proceedings instituted by E. A. Mactonald to oust him from the Assessment Commissionership and, it may be, upset the memorable day and night when the deal s memorable day and night when the deal was put through by which the then Mayor was given a fat job at \$4000 per annum and John Shaw was secretly voted into the Mayor's chair. But E. A. has contempt for Mr. Fleming's contempt, and is proceeding to show the whole deal up. Yesterday afternoon in Examiner Bruce's chambers, before Examiner Wickham, three wittens to the contrary. nesses were examined, and their evidence was interesting enough to warrant a pretty full report. The three witnesses were Ald. Scott, Ald. Allen and Thomas Sanderson of the City Clerk's department. Mr. Macdonald conducted the examinations himself.

Sented beside him.

Fullerton appeared on behalf of the city Ald, Allen : Well, I approved of the

light as possible. Mr. Fullerton's objections were overruled so often that he announced at the close of the proceedings that he would not consent to have further examination before Mr. Wickham in this case.

What Macdonald Charges.

The endorsement on the writ of summons reads as follows:

"The plaintiff's claim is for an injunction restraining the defendants, their servants and agents from placing Robert J. Fleming in the position of Assessment Commissioner for the city of Toronto and from a fing in the position of Assessment Commissioner for the city of Toronto and from carrying out a contract entered into by the Aid. Allen: I would if I thought he was fitted for the position and would discharge the extra duties in a satisfactory manner.

Mr. Macdonald: Would you have voted for Mr. Fleming and for \$4000 if he had not been Mayor?

Mr. Fullerton objected, but Ald. Allen said: "That is easily answered. I would have voted for him and for the \$4000, considering the extra duties."

In reply to further questioning, Ald. Allen testified that he had been deputed to wait upon the Mayor. His Worship said he would come into the Council chamber and speak for himself. His Worship followed witness in.

Mr. Macdonald: Did he verbally accept the offer?

Ald., Allen: He made some work.

Niagara, Ont., Aug. 30.-Close matches and exciting contests were witnessed in to-day's rounds of the international tournant, and the fight between Fischer of New York and Budlong of Harvard was dence, and the Stars replace the Bisons in brilliant and keen. Fischer is playing with great dash, but Budlong captured the first set and ran him very close in the next two, covering the court remarkably well. Whitman's general all-round work simply discounted the efforts of Sheldon, who failed to send in his fine smashes. Bond beat Neely in brilliant style and goes into the semi-finals. In the handicap the match of the day was that in which Bond met Budlong, each playing on the same mark. Bydlong lost the first set and then took the next two. Avery, whom Sheldon owen 15, beat the latter, and Whitman, owing half 40, beat Matthews at scratch quite easily, but the surprise of the day was MacMaster's victory over Neely, who had previously defeated Ware, and it looks now as if the Toronto player had a good show. ONE RELIABLE UMPIRE.

Hamilton, Aug. 30.—(Special.)—The Hamilton baseball team paralyzed the Londons here to-day. The visitors were like children in the hands of Stroud's sluggers. Only 32 went to bat against McGinnis in eight landings, and only three hits were made off his delivery. The Hams made eight hits off Johnson in two landings, and then Kershaw was substituted. The Londons refused to play with Patton as umpire, and Cal. Davis, President of the league, umpired. He gave satisfaction. ONE RELIABLE UMPIRE.

Mr. Gamble of Toronto, general manager of the Dominion Bank, stated yesterday that the outside estimate of the loss to the bank was \$15,000. The thief, or thieves, got through the combination without breaking into or blowing open the vault. A broken door at the back of the building, through which entrance was obtained to the bank, was the only evidence of the work of cracksmen. There were two combinations, and none of the four employes knew both. The vault was locked up as usual on Friday night. "The whole affair," said he, "is a mystery to me."

when I arrived there the city had a population of between 1500 and 2000 persons. It is a typical frontier mining town, a city of tents and rude cabins. There are few Americans who need to be told what sort of place Dawson is and what manner of men and women give it life. Dance halls and salooms, ambling and drunkenness, noise, excitement, license, tell the story of the town. The men have money and spend it. It flows like water, and those that give it up have the fever and the hope that go with money easily won and lightly lost.

"I discovered that the man whose life belonged to the state was not in Dawson. Then I went out to the creeks, where the seekers after gold were preparing for their winter diggings, The stories of Yukon wealth have not been exaggerated. On July 12 I left the creeks and returned to Dawson. At that time there were about 700 men in the diggings. When I returned I received the search, and next day Novak was my prisoner. STORE OPEN 8 A.M. TO 6 P.M.

THE tens of thousands who will visit the Exhibition will have Simpson's store in their minds. It is one of the current questions the country over: "Have you seen Simpson's beautiful store?" It is full of attractions, and visitors are ever welcome

within its walls. There is none of the old style of storekeeping here—assailing you to buy before you enter the doors even and taking away all pleasure of seeing things by chasing after you when you are within the store.

If you see what you want, and it would be strange if did not see much that you want, then it is your pleasure to buy. It is always to your profit to buy, for we sell goods lower than any other store—a bold, broad statement, but one that is indisputable.

EARLY FALL FURNITURE SALE.

For twenty-five years this store has been known as a great Dry Goods store. We are greater to-day in these lines than ever, and we are likewise much more than a Dry Goods store. Our program is to serve every want of the home. Furniture is an item that engages much attention, one whole floor being given over to this department. We introduce visitors to the Furniture Section by a special sale during the two weeks of Exhibition.

News has just reached Hong Kong of the prevalence of pirates on the Canton River. One of the sons of Captain Chunk Kewi, a Straits millionaire, Chunk Kewi, a few of his relatives, hired a boat and were proceeding to their native place. On the second day their native place. On the second day the boat stuck in the mud and could not proceed. During the night a gang of men with painted faces and fully armed boarded the boat. With revolvers leveled at the passengers they commanded silence, while four men begin at once to look for plunder. Ah Phin brought from the Straits jewelry amounting in value to \$50,000 and \$20,000 in cash. This the pirates took, besides clothing, etc. When they had satisfied themselves that nothing was to be obtained they left the boat, after threatening the victims with instant in the proceed-ings except voting.

Balfour, the Oarsman, Dend. London, Aug. 30.—E. R. Balfour, the famous Oxford oarsman, died on Friday in Scotland. He was captain of the Rugby football team while at that school, and, at Oxford, where he was school, and, at Oxford, where he was immensely popular, was a member of the dark blue crew in 1896 and in 1897. He pulled No. 5 with the Leander crew at Henley this year, and with Guy Nickalls won the pair. Mr. Balfour's death was due to his lack of caution in failing to change his clothes after having been drenched with rain while out shooting. A fatal attack of pneamonia resulted fatally.

Ald. Scott: I would not say canvassing. I raised the question of Mr. Forman's competency to fill the office, and there was some talk about the extra duties. Mr. Fleming said that, in his opinion, the salary should not be considered, because of the possibilities of immense advantage from a proper discharge of the duties.

"I Think He Would Not." Mr. Macdonald again pressed his ques-tion as to whether in witness' opinion Mr. Fleming would have got the position at \$4000 if he had resigned and then become \$4000 if he had resigned and then become an applicant.

Mr. Fullerton: I advise witness not to answer that question.

The Examiner remarked that the witness might follow the advice of his counsel or not, just as he pleased.

Ald. Scott: I have no counsel here. I am simply a witness as between the parties, and I have nothing to conceal. In my opinion he would not.

Mr. Macdonald: Then it was a hold-up?

Ald. Scott: I would not say that.

Ald. Scott: I would not say that.

More Objections.

This concluded the examination, and Mr. Macdonald announced that ne had spoken to Ald. Carlyle, and he also wished to examine Ald. Burns and Crane at 10 o'clock to-morrow morning. He thought they were willing to come, and this would expedite matters. He would pay them when they came. matters. He would pay them when they came.

Mr. Fullerton: As far as the aldermen are concerned, they may come when they choose, but as for my department, there must be the usual notice.

Mr. Macdonald: Place all the sticks in the way you can. We will try and find a way of getting over them.

These three witnesses will be examined on Thursday.

It is evident that the scope of the examination will extend so as to test the legality of Mr. Shaw's election. It is contended that the vote by ballot was illegal, as the law calls for open voting in representative bodies like the City Council, and the sympathy of the electors is entirely with open and above-board voting.

SPAIN'S OTHER TROUBLE. Rebels Attacking Towns in Manila-Many

Lives Were Sacrificed in Several Scrimmages - An Awful Flood. Tacoma, Wash., Aug. 30 .- The latest advices from Manila papers show that the rebellion is still far from being crushed. A determined attack has been of the is city, an ingo on the important town of Magaran and on the important town of Magaran and carlang, in Laguna Province, by a party of rebels under command of Miguel Malvar. The Spanish troops being outnumbered retired to the convent, where they fortified themselves until the arrival of the troops sent by General Imramillo, when the rebels retired, leaving 25 dead, and carrying their wounded off, as usual. The Spanish loss is not stated.

Senator Frye Renies Chandler's Story That That 10 Per Cent. Clause in the Dingley Tariff Was a Legislative Trick. Auurn, Me., Aug. 30.-Senator Frye says that Senator Chandler is mistaken

regarding his statement that the tariff clause providing for a 10 per cent. additional duty on foreign manufactured goods brought into the United States through Canada was passed by a legislative trick. Senator Frye continuing, referred to the fact that all tariff laws for a great many years have contained a 10 per cent, discriminating clause on dutiable goods. "The committee," says Senator Frye, "recommended that this provision be amended so that the free as well as dutiable goods be included and that the per centage be reduced, but did not name the reduction. The favored countries are Canada and the United States, the former of which will soon be one of the most important of the exporting countries, its excess over last year's production being 7,000,000 bushels of wheat and 20,000,000 of oats. Its output of all sorts of grain was 270,000,000 of bushels.

output of all sorts of grain was 270,000,000 of bushels.

The yield of wheat in Great Britain this season is fifty millions of bushels, against 63,000,000 bushels last year.

The wheat area of British India is reduced from 23,000,000 acres to 18,000,000 acres and the wheat yield from 234,000,000 bushels to 202,000,000 bushels. The United States, which has reduced its area sown in oats by 2,000,000 acres, that sown in corn by a million acres, while that in other grains remains nearly unchanged, will nevertheless dispose of 534,000,000 bushels of wheat, against 434,000,000 bushels last year, allowing the exportation of 160,000,000 bushels of wheat, while the exports of corn will possibly be 50,000,000 greater than those of last year. The prospects for oats and barley are less favorable than in 1896. The price of bread in Austria has already risen 30 per cent.

New York, Aug. 30.—The Evening Post says: "On the security market to-day's movement of prices was more or less irregular. The general tendency was upward, and a number of further moteworthy advances were attained, especially in the low-priced stocks. Some other shares, however, the gramgers in particular, held back on the besign of the stocks of the state of the sta pecially in the low-priced stocks. Some other shares, however, the grangers in particular, held back on the basis of the rather pessimistic expert estimates regarding corn. Outside the granger stocks, immediately influenced by the corn crop discussion, the tendency of prices continued upward and the transactions, as a whole, mounted to figures larger than those of any day last week."

Agriculture has issued its annual estimate, in which it describes the world's harvest as extraordinarily light. The total yield of wheat is placed at \$73,760,000 metric hundred weight, while the present, hannual requirements are estimated at 655,150,000 metric harded weight. It is calculated that for 1897 and 1898 there will be a shortage of 50,800,000 hundred weight. The stocks remaining on hand from 1896 are approximately estimated at somewhere between 38,000,000 and 45,000,000. The total supply for the year, reckoning both the present stocks and the harvest, is estimated at from 610,000,000 to bushels; barley, 106,400,000; cast, 162,400,000, and corn 165,200,000. The report states that many exporting countries, such as European Turkey, Egypt, Australia and Austria-Hungary, will either be unable to export grain or will be compelled to import, while others, including British India, Argentina and Chili, will have their wheat export considerably reduced.
