COBALT GETS A CHIEF FROM FIRE DEPARTMENT

Lieut. Kappelle Gets the Job—Chief Ten Eyck is to Have An Automobile.

HAMILTON, Ont., Sept. 8.—(Special.)—Lieutenant Alf. Kappelle of the Bay-street Fire Station has been appointed chief of the Cobalt Fire Department. The position was offered to him with \$1000 salary, and this afternoon he wired his acceptance. Kappelle is a young man, and is an effective fireman. He has been in the department for a number of years, and makes the fifth chief who has been selected from the local department within less than a decade.

The fire and water committee tonight instructed Chief Ten Eyck to purchase a car and a horse for the department. The chief strongly recommended an auto over a horse for fire department use, but the initial expense was greater than for horses, the maintenance was not as much. It is proposed to get the chief one of the touring car type of automobile, which can be used to carry reinforcements to fires also. One of firemen who has refused to pay an insurance agent for premiums which the latter had paid for him last year will be expected to do so or be dismissed from the department. It is necessary for every fireman to carry at least \$1000 insurance according to the rules of the department. The committee decided to repair combination John-street Station at a cost of \$75,000.

On a charge of intimidating Wm. Forbes, a witness in a disorderly house case in the police court on Tuesday, James Brooks, Napier-street, was arrested on a warrant. Misrepresentation Alleged. George S. Kerr, acting for R. S. Morris, to-day filed the particulars in the charges of bribery, corruption and misrepresentation in his action to restrain the city from entering into a contract with the hydro-electric commission. None of the names of those who were bribed or corrupted were given, but T. J. Stewart, M.P., and A. A. J. Wright, are charged with misrepresentation in their addresses before the public before the by-law was submitted. The alleged misrepresentations consisted in stating that the city would not be bound by the contract, that the street lighting contract made in July, 1908, was not binding on the city. Mr. Stewart stated when questioned with the charge made against him, that he would back up his statements.

Magistrate J. H. Fealing sentenced Fred. Fowler, who was caught in the act of burglarizing a house on East Main-street a week ago, to five years in Kingston penitentiary. William Marks who was brought from Detroit to stand trial on the charge of procuring Maud Dunfee, a young girl, for immoral purposes, was acquitted this morning by Judge Monk because she was not of previous chaste character.

Caterers Have Grievance. The local caterers and hotelmen are annoyed because the local committee in charge of the banquet to be held in connection with the Canadian manufacturers' banquet, gave the contract for the banquet to a Toronto firm. At Dundas this afternoon, Miss Marion Dickson Gwynn, third daughter of Lieut.-Col. and Mrs. Gwynn, was married to Britton Osler, son of Judge Osler, of Toronto.

Mrs. James Cook, of Brooklyn, N.Y., died suddenly at the Hotel Royal this morning from heart failure. She had been in the city since April and was an Aunt of Dr. Laurin. While in Toronto call on Authors & Cox, 185 Church-street, makers of Artificial Limbs, Trusses, etc., and artificial Appliances, Supporters, etc. Olden and most reliable manufacturers in Canada.

HON. MR. MURPHY HITS CHIEF ORGAN Continued From Page 1. take' The Globe had no authority to do as it did. It was mistaken in its statements. 'Now, that was not the only case. Some time ago, before the commencement of one session of parliament, the Globe published what purported to be a program of what would be dealt with during the session. It was not authoritative. The result was that when the government failed to deal with these matters that had been thus listed by the Globe, we were said to be failing to carry out the program. We were very seriously embarrassed.

Globe's Quick Turn. 'Later on the Globe started in to pat Sir James Whitney on the back. It said that he had put forth and was carrying out some policies that pleased him. And then about a month before the provincial elections, it finds that it suddenly has to change front. It criticizes Sir James Whitney. We begin to hear something about a man called MacKay, who is said to be the leader of the Liberal opposition in Ontario. Only then does the Globe wake up and change front. So sudden, this

York County and Suburbs MANY ATTEND FUNERAL OF LATE WILLIAM COX Serious Accident in West Toronto—East Toronto News—Suburban Notes.

THORNHILL, Sept. 8.—(Special.)—No more striking tribute was ever accorded to the memory of a departed citizen than that which the city of York has today manifested in the sad rites of the late William Cox. The funeral was held in the presence of a large number of friends and relatives at the home and graveside were conducted by Rev. Wm. Douglas. The service was a touching and beautiful one, and the death of the deceased was a great loss to the community.

EAST TORONTO, Sept. 8.—The Queen City Cricket Club lost to the West End club yesterday by the close score of 68-59. The match was played on the Queen City grounds in Scarborough. The West End team was a strong one, and the Queen City team was unable to match their strength.

Not Isolated Case. 'This charter business is not an isolated case with the Globe. It is the duty of everybody bringing about some degree of harmonious working between the press and the party. I don't want the Globe to sacrifice its independence of action and utterance. No. But I want fair treatment from a Liberal paper. The Liberal party is all right. (Cheers.) The Globe to a certain extent is all right. (Cheers.) And the Liberal ministers are all right. But look here! There is news going on in Ottawa all the time, and the papers seem to think that there is news only while parliament is in session. I venture to say that there is more news and better political news going on during the year in the regular work of the departments than in parliament. But the papers don't get it.

Mr. Ewan's Reply. John A. Ewan of the Globe thanked Hon. Mr. Murphy for his frank utterance, and was not averse to the press being criticized. This was the proper place for that. In regard to the Hodgins charges the Liberal press had done some good work. Everybody knows the Globe conducted a campaign against the Dufferin race track and succeeded in having the charter refused, said Mr. Ewan. And what position would the Globe be in if it kept silent when the friends of the Globe did the thing the enemies had refused?

WEST TORONTO, Sept. 8.—(Special.)—Solicitor T. A. Gibson and Mr. Gibson, who arrived home a day or two ago from a delightful two months' trip across the briny, are receiving the congratulations of their friends. They had a fine voyage, both to and fro, and in their wanderings visited England, Ireland and Scotland. In the latter place spending a delightful time in the highlands, and in Lanarkshire, the home of his father, in Glasgow, Edinburgh and Ireland many points of interest were visited. Paris was included in the itinerary, while London commanded a good deal of their time and attention. 'Adopting a delightful voyage and holiday,' said the solicitor. Passage was made by the daughter of W. G. Ellis, president of the North Toronto Ratepayers' Association, has called to the attention of the ratepayers' association at H. H. Ball's residence, corner of Yonge and Merton streets, for Monday night.

The Toronto World

WHERE IS THE MAN? With the resignation of City Solicitor Chisholm, the question of the capacity and efficiency of Toronto's legal department becomes acute.

And in that reorganization it will be necessary to go on the assumption that the best legal ability in the land is none too great for the needs of this city, no matter what the expense in salaries may be.

It is the city that can get the services of County Crown Attorney Drayton at even \$10,000, it will make a wise choice. Don't hittle on salary; get the man to head the department, and let him work out the organization.

WHO OWNS THE POLE? So important does the ownership of the mathematical point known as the North Pole appear, that it has actually formed the subject of debate in the mother of parliaments.

Should the icefields of the Arctic Ocean extend over the site, as seems probable, these cannot be annexed and will remain as free as the sea they cover.

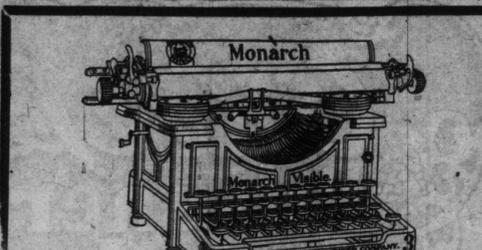

BRITISH LAND TAXATION. That the bulk of taxation necessary for national necessities should be exacted from those best able to bear it, does not on the surface appear an unreasonable, much less a revolutionary proposal.

A Typewriter Exhibit

We are holding every day, during the progress of the Fair, a special exhibition of the famous Light-Touch, Long-Wearing Monarch Visible Typewriter at our store, 98 King Street West.

We shall be glad to explain in detail to all visitors the many essential and sensible devices on the Monarch for the rapid and accurate handling of all office detail.

We especially invite an examination of the special machine we are showing, which writes every possible office detail, and which is really two typewriters in one.

We shall be glad to have all our customers, who are visiting the city, make our store their headquarters. A stenographer is always at their disposal.

We have some special bargains in second-hand typewriters of all makes.

DELAY IN POILING BOX BRIGADE LOST NO TIME

Chief Thompson Answers Criticism of Way Big Fire Was Handled.

"I have not the least doubt that if the people at the parliament buildings had pulled the box when the fire was first discovered the outbreak would have been confined to the section in which it started."

So said Fire Chief Thompson to the fire and light committee yesterday afternoon, in replying to comments which have been passed upon his department's report of the efficiency of the work of the firemen.

"Rumors were being circulated about the grounds," he said, "by members of the government and others, to the effect that the delay of the fire department in getting to the fire was the cause of a very large amount of the destruction. I dare say that is true, but the cause of the delay cannot be attributed to the fire department. The delay rests with the government and the government officials for having failed to send in an alarm directly to the fire department."

Prevented Spread. The fire chief went on to explain that on arrival at the fire the firemen contracted all their efforts to prevent the flames spreading to the east and reaching the main building.

As to the criticisms of the way in which the fire was handled, the chief said that it was being fought mostly from the inside, where the public could not see what was being done.

Single Court. Before Britton, J. Tremaine v. Langstaff—J. H. Cooke, for plaintiff, moved ex parte for an injunction to restrain defendant from entering the premises known as the Hawthorne Mineral Springs, situate on the west side of Yonge-street, and from doing any act to prejudice the rights of the plaintiff. Injunction granted until Sept. 16, inst.

Divisional Court. Before Falconbridge, C.J.; Britton, J.; Riddell, J. Woodburn Mining Co. v. G. T. R. Co.—J. E. Elliott (Clerke) for plaintiffs, W. E. Foster for defendants. Judgment (B.). This was an appeal from the judgment of the county judge of Middlesex. The action was for a contract, to recover the value of a horse killed on defendants' railway, owing, as was alleged, to the negligence of defendants. The defendant owned the siding in question and the plaintiffs asked the company to allow them to use the siding for the better accommodation of the shipments by rail of the products of their mill, and the company assented. Held that there was no duty of defendants to keep the gate to the siding closed, but that such duty belonged under the contract, to the plaintiffs. The action was dismissed and plaintiffs' appeal from that judgment is now dismissed with costs.

Wade v. Livingstone—W. M. Reade, K.C. for defendant, on an appeal from the judgment of MacMahon, J. J. A. Scullen (Berlin), for plaintiff Judgment (B). The action was upon a promissory note made by Hannah Boehmer and A. O. Boehmer and endorsed by the defendant, dated May 3, 1905, for \$200, payable three months after date. The court now finds that the note was an accommodation note, given to partly secure a debt from Boehmers to Erb for \$25,000, and that such debt was paid by Erb to King, 25 shares in hotel company stock for the amount of \$25,000. The court now finds that the note was an accommodation note, given to partly secure a debt from Boehmers to Erb for \$25,000, and that such debt was paid by Erb to King, 25 shares in hotel company stock for the amount of \$25,000. Whitney Can't Promise Money for Sanitaria. Will Consider Request as Ordinary Business Transaction, Says Sir James.

Sir James Whitney did not give an enormous amount of encouragement to a deputation of about forty representatives of the Association of Ontario Municipalities for settlement of Comptroller James Whitney in reply, "but I think by most presumably in the game. Thousands of dollars worth of freight disappeared."

Dr. Lockhart, Hespeler introduced the resolution. He said that state sentinels formed the best means for fighting the disease. They were anxious for the government to take hold of the question and if it did not think the suggestion of the association best, to adopt what it (the government), was assured, would be the best method of dealing with the disease. He thought wisdom in not acting too hastily. The difficulty appeared to him to be in the fact that indigent cases did not reach the physician until an advanced stage had been reached, and hospitals did not care to receive advanced cases.

"There is no room for argument for the need of some improvement in the treatment of the disease," declared Sir James Whitney in reply, "but I think we can trust medical science to keep pace with the times. There is nothing easier for men or municipalities than to say 'Let us get the government to take hold of this thing.' He thought there was a limit to the powers of any government. The government must face the question from the standpoint of an ordinary business transaction. The government is a trustee for the people and must not fritter away their money. Within the last five years many heavy responsibilities had been placed upon them."

"Supposing we have the means, where are we to stop? Why not open a sanatorium for smallpox?" this premier continued.

"That is not a parallel case," he said.

The premier was in favor of withdrawing the grant from any hospital that refused to take in a tubercular patient.

"It has been suggested," observed Sir James, "that when a doctor finds tubercular bacilli in the system of a patient, he should notify the government, which would send him down—not to him—but to the patient, a mass of papers to be read by some of the government's officers, that he may be boycotted in the neighborhood. It is monstrous government."

In promising consideration to the request, the premier concluded by saying that it would not do for them or the people of the country to run away with the idea that the government had only to look at the disease, and then spend money without considering the finances of the province.

AN UNQUALIFIED SUCCESS. No Controversy Pending to Take Away From Merits of "Star" Beer. Messrs. the O'Keefe Brewery Company state that they haven't formed any conclusions yet as to who should have the credit of discovering the north pole. It may, they say, be Dr. Cook, and again it may be Peary. But one thing the O'Keefe people are decided on, and they take credit for it themselves, and that is that "Star" beer is one of the best things that has happened yet, when the question of refreshing, invigorating and without non-injurious, intoxicating beverages is under discussion.

# GLENAVEY HEIGHTS

## An Opportunity to Secure a Suburban Home with Beautiful Grounds.

An excellent opportunity to secure large and beautiful grounds on which to build a home.

GLENAVEY HEIGHTS comprises 60 acres that will be divided into lots of an acre or more to suit purchasers.

The accessibility of Glenavey Heights makes this property particularly desirable. It is approached by the best thoroughfare in North Toronto, Broadway Avenue.

The view over Lake Ontario is unsurpassed, as is the view of centre Toronto and the surrounding country.

Their ideal location makes it necessary to restrict moderately all buildings, and the district will be maintained as a high-class residential section.

GLENAVEY HEIGHTS will be the Rosedale of a newer and larger Toronto when the railways complete their plans now under way in regard to their new terminals at the north end of the city.

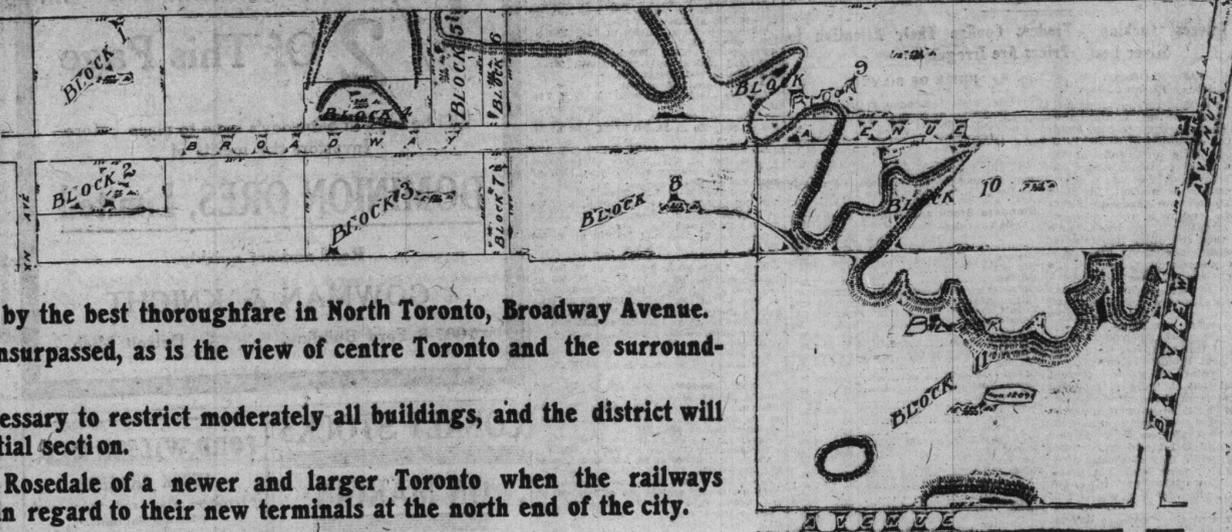

As an investment you cannot afford to miss this opportunity.

Lots will range from \$1500 to \$2500, each lot containing not less than one acre. Compare these prices with the prices of other suburban property.

GLENAVEY HEIGHTS will be handled exclusively by A. C. Jennings & Co., Real Estate Brokers. Increased business has necessitated the establishment of offices at 405 Crown Life Building and Corner of Broadway Avenue and Yonge Street, North Toronto.

Montreal Live Stock.  
MONTREAL, Sept. 8.—(Special)—At the Canadian Pacific live stock market this morning the offerings were 500 cattle, 240 sheep, 600 lambs, 1000 hogs and 250 calves. There was no important change in the condition of the market for cattle since Monday, prices being well maintained at the advance noted then, owing to the fact that the demand was good from local buyers, of which the gathering was large, and on the whole a very active trade was done. Choice steers sold at 4 1/2c to 5 1/2c; good at 4 1/2c to 4 3/4c; medium at 3 3/4c to 4 1/2c; selected lots at 4 1/2c and 4 3/4c per lb.  
There were no new developments in the hog situation, prices being firm at the advance. The supply was only fair, for which the demand was good, and active trade was done. Choice steers sold at 4 1/2c to 5 1/2c; good at 4 1/2c to 4 3/4c; medium at 3 3/4c to 4 1/2c; selected lots at 4 1/2c and 4 3/4c per lb.  
There were no new developments in the sheep situation, prices being firm at the advance. The supply was only fair, for which the demand was good, and active trade was done. Choice steers sold at 4 1/2c to 5 1/2c; good at 4 1/2c to 4 3/4c; medium at 3 3/4c to 4 1/2c; selected lots at 4 1/2c and 4 3/4c per lb.

During the month of the season our market swung in 1/2c changes, the fractionally higher than last prices of yesterday. We cannot say that the general situation is at all changed.  
Corn—The principal feature in corn prior to the issuance of government figures was the weakness in cash prices, 5c to 1 1/2c lower and liquidation in the September. The deferred futures held steady to firm. The farmers in the States are willing to contract, corn is ready on the board of exchange, and considerable corn is being bought on this basis or even cheaper at stations, but with sales of December and May.  
Oats—The general trend of prices was easier in a very dull and uninteresting market. There was moderate buying of corn by commission houses, while local elevator interest was quiet. Cash market was steady with prices about as yesterday.  
R. B. Lyman & Co. wired R. B. Holden at the close of the market.  
Wheat—The report is rather bullish, but the trade takes so little stock in the government figures it will not change the bearish sentiment very much. December and May wheat is a purchase on hard ships.  
"We have had a very fair market," was the way one merchant put it. "The people have not been falling over themselves to purchase our stock, but altogether things have been very satisfactory."  
There was little change in the current quotations.
