Attorney-General Treats Attempt to Block Chippewa Work Lightly.

Two writs were served by the Elec-tric Development Co. of Ontario on Hon. I. B. Lucas yesterlay, one upon him as atterney general of the pro-vince, the other upon him as a member of the Hydro-Electric Commission. The writs practically demand, first, a declaration that the Chippawa Creek development is illegal, and, second, an njunction to restrain the commission rom further development of Niagara nter power. The writs were issued in Welland, on application from D. L.

ompany.
"We do not take them very serious"," said the attorney-general just after he had been served with the writs. It was his opinion that they were issued without due authority. The Hydro-Electric Commission Act sets forth that no writ shall be issued against any member of it for his connection with the commission, without a first with the commission, without a flat from the attorney-general. Such flat has not been granted in this case. Or this ground, and on other grounds that will appear before the end of ten days before the writ is returnable, the at-torney-general was inclined to think that counter-action would be taken to have the writs set aside. LARIS, Aug. 31 .- The French official communication issued this evening reports some progress for the French south of the Somme, near Estrees and Soyecourt, but says that elsewhere along the French front there is nothing

important to report. The text reads: "On the Somme front our artillery displayed great activity during the day. North of the river a German grenade attack on our positions at Maurepas Wood was easily repulsed. "South of the Somme we succeeded in local operations which resulted in progress south of the Village of Estrees and southwest of Soyecourt

Wood, where we took prisoners.
"The customary cannonade occurred on the rest of the front." The afternoon statement says:
"The night was calm on the greater part of the front. In Lorraine today toward the end of the day, the Germans attempted a surprise attack in Parroy forest. They penetrated a portion of one of our trenches, when they were criven out immediately by our counter-attack."

LONDON, Aug. 31.-The latest de. relopment in the Greek situation is the brief announcement made at Athens that a general election in Greece will be held on Oct. 8, thus confirming recent advices that the Zaimis ministry was about to give up office. The election will, of course, turn upon the demands of ex. Premier Venizelos that Greece assert her sovereign rights in the face of Bulgar aggression, and little doubt of the triumph of Verizelists is felt, tho it is regretted that a further delay of more than five weeks

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

OUMANIA'S invasion of Transylvania is meeting with almost uninterrupted success. Occupation of the important City of Kronstadt, Eaton has been offered the position of whose evacuation by the enemy was indicated in Vienna's communication Wednesday night, is unofficially reported and a number of villages have fallen into the hands of the invaders, who are stated to be pournig over the border at many points along the whole four hundred mile stretch not yet stated formally whether he of the Transylvanian front. The Austrians are stoutly holding to their will accept. Sir Herbert Ames has of the Transylvanian front. The Austrians are stoutly holding to their positions near the Iron Gates on the Danube, but elsewhere are falling back to their second fortified line of defence on virtually the whole front.

The Greek tangle presents the complexities of the Chinese puzzle. Doubt is thrown upon the report that King Constantine had fled from the wrath of his subjects, but he appears to be virtually in hiding and danger of assasination in the midst of the present chaos is undoubtedly great. An Athens despatch of Wednesday, which was delayed in transmission, declared events would be moving rapidly and that within forty-eight hours Greece would be lined up with the entente allies. However, the latest word from Athens is that a general election will be held on October 3, which looks like a fresh attempt at delay.

Comparative inactivity on the part of the British and French armies operating under Gen. Sarrail, on the Saloniki front, may be traceable to the acutely disturbed conditions of Greece. While there seems to be no danger lurking for the allied forces of a stab in the back, a clearer atmosphere is needed. The fact that the British press representative at Saloniki gave credeence to rumors of outbreak of fighting between Anglo-French forces and Greeks at Piraeus, and that he described the whole situation as "extraordinarily involved even for the Balkans" indicates new cross-currents in troubled waters. It has been asserted that a number of leading army officers share Constantine's pro-German views, but the rank and file would certainly represent the overwhelmingly pro-ally leantags of the masses.

In the second Balkan war, the Bulgar learned that the Serb is a first-class fighting man and the lesson is being repeated in the present clash on the Macedonian front. The Serbians on the left wing of the

LONDON, Aug. 31, 11 p.m.—The and English speculation is that focussed on the Balkans and the German Field Marshal Von Hindenburg. allies battle line, have been thrusting back Bulgar attacks with great regularity. Fighting in the past few days has been particularly severe and the enemy's losses correspondingly heavy.

Apart from the Greek situation interest is being divided between the Balkan operations and surmise concerning the general campaign plans of Von Hindenburg. British expert opinion is inclined to hold to the view that this appointment portends the resumption of a big Austro-German of-fensive on the eastern front and it is thought that the kaiser's hope of a fensive on the eastern front and it is thought that the Raiser's hope of triumphant entry into Petrograd has not been finally abandoned. If such an enterprise as this is attempted, it will be a final admission of complete failure in the west. Moreover, it is inconceivable that the Russians with their immense reserves of fully trained men and abundant supply of muntheir immense reserves. itions from Japan, could be forced back as they were in the Austro-German drive of last year.

Is the German morale definitely giving way under the terrific pounding of British and French artillery on the Somme front during the past two months? Incidents, small in themselves, often carry deep significance and the ready surrender of small parties of the enemy during the past few days may be symptomatic of a widespread disorder. Frederick Palmer, the veteran correspondent on the British front, has been struck by this recently developed Teutonic tendency to submit tameely, and the British official report of yesterday, commenting on the capture of a number of Germans who had been defending a salient south of Martinpuich. says: "They belonged to a Bavarian regiment and their willingness to surrender instead of returning to their lines is interesting." The Bavarian has usually been rated a stout opponent, but, with true Teutonic phlegm, he is ready to admit when he has had more than enough.

REHEARSAL FOR C. N. E. Soldiers With Blackened Faces Attack the "Hun" Trenches.

Held.

special to The Toronto World. CAMP BORDEN, Aug. 31.-A spectacular event in camp tonight was a representation of how a raiding bombing party would carry out an attack on the Hun trenches after dark. Mines, rifles, grenades, bombs, star

shells and rockets were included in the device used by the opposing sides. It was the first time night bombing work has been tried here. The contest, which was conducted under the direction of Capt. N. P. Kelly, district hombing officer, was a rehearsal for the grenade throwing exhibition to be given next week at nights before the grand stand at the C.N.E., Toronto.

Several hundred soldiers were spectators of the mimic battle. The raiding party advanced toward the "Hun" trenches with faces blacked, as is the custom at the front.

The climax of the battle was the blowing up of the enemy's machine gun emplacements by the exploding of land mines.

An interesting ceremony this afternoon was the presentation of colors to the 161st Huron battalion. The colors are a gift from the Ladies' Aid Society of Exeter. Capt. J. K. Farrfull, 161st Battalion, chaplain conscreated the colors. Rev D. W. Collins of Windsor, formerly of Exeter, spoke on behalf of the presentation committee in reply

CAMP BORDEN, Aug. 31.—In view of an urgent need for reinforcements for the signal training depot, Ottawa, tion to Campaign Comand the Engineers' training depot, Ottawa, and the Engineers' training depot, militia headquarters has authorized voluntary transfers of men from other units who have the required qualifica-

cations, and that "if such transfers are not voluntary made in Canada, they will apparently be ordered in England, in order to obtain the men required."

It is not intended that such a number of applications should be granted in the case of any one bettellion as will in the case of any one battalion as wil in the case of any one battalion as will embarass any unit under orders to proceed overseas, but this is not a matter which is to be left to the discretion of C.O.'s, but to be reported to Camp Borden headquarters for trans-

mission to Ottawa, for a ruling.

Most men required for the Engineers are carpenters, but plumbers, blacksmiths, bricklayers and masons are also needed. For signalers telegraphers, telephonists, instrument repairers, linemen are among those required, and electricians are required by both de-

Word received here today told of the safe arrival in England of the 127th York County Battalion. Lt.-Col. F. F. Clarke, commander; 129th Wentworth, Lt.-Col. W. E. S. Knowles, and 135th Middlesex, Lt.-Col. R. Robson. All three units left Camp Borden during

August.

Three more battalions will go soon to Niagara Camp. The 220th Yorks, Mount Dennis, Lt.-Col. B. H. Brown, go Sept. 6 and 8; the 234th Peel, West Toronto, Lt.-Col. W. Wallace, Sept. 5 and 7; 182nd Ontario, Lt.-Col. A. A. Cockburn, Whitby, Sept. 5 and 7. Officers of the active militia who obtain appointments in the Cornellor. August. obtain appointments in the Canadian expeditionary force of a lower rank than that held by them in the active militia have been notified that they are to wear rank badges and sign themselves according to their C.E.F. rank and not the rank they hold in the militia.

Too Many Are "Sick."

It is stated by headquarters here that in the case of many battalions at Camp Borden men who are on pass do not return when they should, the teason being given that they are sick. Also, it is reported that in certain battalions men are allowed to go on pass when they parade sick. It is declared that this latter practice must

immediately stop.

In regard to men absent from their units and said to be sick, the office of the assistant director of medical services must be notified at once. Arrangements will then be made to have the man seen by an army medical corps officer.

If at all possible he will at once be transferred to the base hospital at Toronto. If this is not feasible the A.D.M.S. will arrange to have the cases cared for locally. Forty-five electric lights are permitted in each battalion's lines. Lights in excess of this number will not be permitted without special authority.

Guard is Acquitted.

Corporal E. G. Simpson (48th Highlanders) of Stanley Barracks guard, who was tried by district courtmartial on Aug. 21 on the charge of "when on active service, without reasonable excuse, allowing a prisoner committed to his charge to exceed the control of the charge to exceed the committed to his charge to the charge t committed to his charge to escape," was today announced to have been found "not guilty of the charge and conorably acquitted of the same." A board of officers, composed of Captains William Kirk, C.S.C.I., and W. A. Woodcock, T. H. McNair, both of 220th, will assemble at Toronto at 9 a.m. tomorrow for the purpose of examining the NCC's class of the examining the N.C.O.'s class of the 220th York County Battalion.

OBJECT TO POLICY OF HYDRO RADIAL

Association Heads and Citi zens Condemn Attitude of Government.

PRESENT RESOLUTION

Legislation Embodies Several Measures Believed to Be Solution.

Forty representatives of Ontario municipalities were present yesterday afternoon at a meeting of the general executive of the Hydro Electric Railway Association of Ontario, in the city hall, when protests regarding the Ontario Government's laxity in connection with the hydro-radial policy in the province were registered. The actions of the Ontario Government respecting hydro power and radials have apparently been carefully followed by the association, and yesterday's ses-sion came in the nature of a climax which provided an opportunity for the ers to air their grievances. lengthy resolution calling upon legislature to undertake certain

CANADA AT WAR EMPHASIZED BY MILITARY DAY AT EXHIBITION

MILITARY REVIEW WITNESSED BY VERY ENTHUSIASTIC CROWD

Major-General Logie, Guest of Honor at Exhibition Yesterday, Delighted With Workings of Model Camp and Fine Appearance of the Men.

"You will have the honor next veek of forming a guard for His Royal Highness the Duke of Connaught, and it you conduct yourselves then as you have done today there will be no smarter guard in Canada." This twas the message given by Major-General Logie at the close of the review on the Exhibition campus, which formed the principal feature of military day at the National Exhibition. More than proud and with every reason for the sentiment, were the men of the platoon of the 169th, who received this unqualified praise from the general who had just re-viewed their ranks, where he had found everything to justify his encomiums for the splendid military appearance of the men and the fine manner in which they had gone thru the various manoeuvres and drill.

Comparing them with the noted 35th, Gen. Logie told the men who now occupy Exhibition Model Camp that they were the equal and in some respects in advance of their predecessors of last season. Their conduct and work were an admirable object lesson. Their code was high, and any man who failed in this respect would be disciplined by his comrades.

Major-General Logie, accompanied by Ccl. Bickford, came on to the field Previous to their coming the men had been put thru a course of firill, but at the appearance of the general and his aide the word was given by the officer commanding, Major Gass, and the khaki ranks became like so many bronze statues, remaining so while the military figure, whose movements were easily followed by the scarlet band about his cap, moved between the ranks, inspecting and noting with experienced eye the faultless equipment and stand of the lines under inspection.

Following this came the march past, when the platoon, headed by their fine band playing a spirited their fine band playing a spirited march, filed by the general, who stood at the salute, when he and the officers exchanged courtesies, and the different companies aroused the enthusiasm of the spectators by their regularity of step and soldierly appearance. The sun beat down with its hottest rays and the dust flew at times from the tramp of the marching feet, but the glitter of the lines of bayonets which gleamed like flashes

In addition to that, there is someburnished silver, and the concentrated interest of the spectators were compensating features of the FROM WINNIPEG TO

Physical Drill. When the reviewing officer had left the field an exhibition of physical was given by the platoon. The band took position on the stand and the men formed in front, where they opened ranks, and under the cor Sergt. Wade gave as fine a display as could be witnessed anywhere of various physical movements. When

the men, after laying down their arms, cap and belt and lastly their arms, cap and belt and lastly their coats, revealing as they did their white jerseys wish the letters 169 tion, it was little thought that the outlined in blue upon the breast of eastern section would be taken over each, a great shout went up from the and operated by the government. Pospectators in admiration of the splendid men before them. Every movement of the platoon was as simultaneous as if but one man formed the motive power of the problem. ed the motive power of the whole.

Particularly strenuous was the novement where the men placed their palms on the ground and laid them-selves almost prone on the ground, afterwards raising themselves without other support to a standing position.
The dance with the fling step to the inspiring music of the "Keel Row" was another number which called out he applause of the surrounding speclaters. As the men marched off the field they were accompanied by the crowd to the camp grounds, where tifteen minutes later they gave an exhibition of trench warfare which formed another feature of interest for the onlookers, who surrounded the encircling lines of their entrenchments. Excitement ran high as the men marched into the enclosure which led the irenches Forming where the to the irenches Forming where the shallow communicating trenches are situated, the platoon divisions were inspected by their officers before the word was given for their entrance into

zag course was followed by an occasional head which appeared above the parapet. Meantime, the attack from the British lines had commenced, the boom of heavy cannon being represented by the muffled beat of the big drum, and the answer coming in the shape of sharp bombs from the opposing German trenches. When the of lifles and fixed bayonets at last appeared above the first British trench the excitement became almost as keen as if warfare were a present reality. The crack, crack of firearms, the smoke from fuses which passed be-tween the trenches, and the moment when the hands of the men came above the parapet taking hold of the wooden

the underground passages.

As the men disappeared, their zig-

support above each by which they raised themselves from the place in which they were hitherto hidden, together with the final charge were all moments of extreme interest. As the men with a shout rushed with advancing bayonets upon their foe, as represented by the sand bags raised upon the opposing lines, the scene was almost as icalistic as if the attack had been made somewhere in France

The route march of the 169th thru the grounds, which took place at 4.30 p.m., was still another feature of the day's proceedings, when the Exhibiich crowds bordered the line of march, their patriotism receiving a new impetus from the spirited martial music the band and from the stalwart appearance of the men, who are such worthy representatives of the bravest of the nation.

NEWSPAPER MEN WILL BE **DIRECTOR'S GUESTS TODAY**

Already There Have Been Four Days of Fine Weather, Good Crowds and Big Business at the Exhibition.

Military Day at the Exhibition was the fourth day of good weather, the tourth day of good crowds and the fourth reason why everybody is saying: "On to the million." It seemed particularly fitting that a Military Day should be upon the program, and that it should follow Children's Day—for it is the children the men at the front are fighting for.

Major-General Logie and staff arrived on the grounds early and appeared to enjoy the festivities. Thousands of spectators witnessed the military review in the square west of the government and transportation buildings, and were able to come to an opinion regarding the excellent training which the overseas Canadian troops are getting.

Today is Press Day. It is the day upon which the newspaper men of the province, and not a few of other provinces thruout the Dominion, renew acquaintances, talk over old times, early days in the business and so forth.

These are the men who have helped to make the Exhibition what it is and the directors are always glad to have them as their guests.

EXPECT RECRUITING TO BECOME ACTIVE

Seventeen Enlist From Total of Twenty-Four Applicants.

OPEN DEPOT NEAR EX.

Three Hundred Horse Transport Drivers Needed Now for Overseas.

Recruiting yesterday assumed greater activity than for the first three days of the week. Seventeen recruits were attested out of 24 who applied. Notwithstanding the large crowds in the city for the Exhibition, the recruiting sergeants are meeting with little success in their efforts this week, probably due to the fact that the eligibles are devoting their thoughts for the time being to the less serious aspects of life. More activity in recruiting is anticipated before the close, at the end of next week. Of those who enlisted yesterday, five joined the A.S.C., and the other units increased their strengths as follows: 166th 1, 242nd 1, 67th and 70th Batteries 1 each, No. 1 Construction Battalion 1, R.C.D. 3, and the Guards 3.

The 69th Battery has recruited over strength, and the only recruits wanted now are a limited number of shoeing smiths. Those who wish to join should apply at the 69th Battery or-

derly room, the armories.

A call has been issued by the Divisional Signaling Company for men of the following trades: Telegraphers, telephonists, instrument repairers, lineman men, electricians, motor cyclists and shoeing smiths, carriage smiths, harness makers and drivers. It is advisable for any who are engaged in the above occupations that they should enlist with the Divisional Signalers, as they will be able to follow their usual trade while in the service. Application should be made to the recruiting office of the Divisional Signalers. office of the Divisional Signalers at

the armories.

The Engineer Training Depot, which is stationed at Valcartier, has permission to recruit thruout the entire Dominion, and men of the following trades are asked for: Engineers, carpenters, wheelwrights, harness and saddle makers, blacksmiths, railroad construction workers, drivers, etc. Lieut J. L. Mallory is in charge of recruiting for this unit in Toronto, and he will be glad to furnish any inforhe will be glad to furnish any infor-mation to intending recruits, who may

No. 1 Construction Battalion, now encamped at Valcartier, will proceed overseas as soon as 20 men have been obtained. This battalion, commanded by Lt.-Col. B. Ripley, is officered entirely by well-known engineers and tirely by well-known engineers and contractors, and is to carry on construction work at the front. A large number of applications have been rebut the lists are to be kept open at the accruiting depot, the armories, a few days longer, before a final choice is made. Lieut. F. A. McNair has charge of recruiting here.

C.A.S.C. have received orders to recruit at once 300 horse transport drivers, which are urgently needed to complete the draft going overseas shortly, also bakers, butchers, blackemiths, carpenters and fitters. No. 2 C.A.S.C. depot is quartered at Camp Borden, and recruits will receive Army Service Corps training. There is an opening for two good cooks for overscas service. Applicants to join should apply to Lieut. R. M. Adams,

the war.

Should the present favorable weather continue the Canadian National Exhibition of 1916 promises to be almost a record. The attractions are of a sterling character, and the grand stand performance, which adds considerably to the attendance, includes a military spectacle which has never been surpassed in previous exhibitions. It was a happy conception in the midst of the military display to introduce the massed groups of dancers. The Scottish Highland fling, the Irish jig, the English hornpipe, with their hundred performers, are more picturstand performance, which adds conhundred performers, are more picturesque than most of the ballets.

lows that the affairs decided by such voting will gravitate continually into the control of two antagonized party organizations. This is, of course, tame stuff compared with heady shoutings and accusations against plutocrats, rich Jews, privileged families, and party funds, but it is the simple essential of this question. Voting, like any other process, is subject to scientific treatment; there is one right method of voting which automatically desiroys bilaterality, and there is a considerable variety of wrong methods amenable to manpulation and fruitful of corruption and erfeebling complications. The sane method of voting is known as proportional representation with large constituencies and the single transferable vote, and it is as reasonable and necessary that the country should adopt it as soon as possible as that it should adopt the right types of aeroplane and the best sorts of gun. The advantage of this method is not a matter of opinion, but a matter of demonstration; it needs but an hour or so of enquiry to convince any intelligent person of its merit and desirability and of the fatal and incurable mischiefs of any other method. It is the custom of the melodramatic school of political writers to speak of proportional representation as a "fad"; but it is no more a fad to want the The Swedish drill by the 169th Batalion recalled the performance of the 6th of last year, and there could be o higher praise. The comments of merican visitors on this splendid ody of men were more than flattering to Canadian standards.

Of the Exhibition in general, the verdict is most satisfactory. The war exhibits are attractive beyond any previous record. The unique toy exhibit throws a fascinating side-light on the ramifications of political economy as influenced by war. But it is too gigantic a task to particularize among such a host of attractions. The big shell-making in the process building is of immediate interest, however, school of political writers to speak of proportional representation as a "fad"; but it is no more a fad to want the method of proportional representation in parliamentary elections than it is to want copper wire instead of gingerbeer bottle wire in an electrical installation, or wheaten flour instead of chaff in a loaf. With it parliamentary institutions will work freely, without it the well-like the control of the control the south sea curios, the flower maze, the submarine and scout patrol, King George's horse, are a few of the novelties, but there are scores of others, and all the standard departments display finer exhibits than ever.

British Empire and the liberty and freedom and righteousness which she represents and which permeates her very being. People have been astounded at the majesty and sublimity of the spectacle presented nightly and the memory of the occasion will linger long after 1916 has passed into the far beyond.

There will not be one of the twenty odd thousand who witnessed the production last night who will forget what was seen and heard. The choir in the abbey had rendered "O God, Our Help in Ages Past," and other old familiar hymns so dear to the hearts of many, and which have brought so much comfort to those who have suffered the pangs of war. Finally, when "Praise God From Whom All Blessings Flow" was echoed acress to that vast congregation, every person on the stand stood reverently until its last chords had died away. They arose with one impulse, and men bared their heads.

It was a wonderful sight something that will never be forgotten,

Newark Beaten With Enzmann on the Mound-Leafs Scored All Runs in Fourth.

pill with his left hand and signs his pay cheque with his right, tossed hi glove nto the box yesterday afternoon, in the opening game of the series with Newark, cheque with his right, tossed his glove and that of Enzman as well, and the Indian sign on the Indians. The Leafs followed up their good work against Richmond, and emerged on the long end of a 3-to-1 score. The last appearance of Thompson on the firing line was on Monday against Richmond. On that occasion he held the Virginians to three lone hits. He duplicated the feat yesterday, and the cellar occupants had to be content with three hits, one of them a double. Thompson's performance is all the more creditable because he outpitched the best man on the Newark pitching staff. Any time Johnny Enzman works against the Leafs, the fans generally look for a defeat. Enzman is a good days against the Leafs. Yesterday was the exception, however. The locals made twice as many hits as the visitors, which is nothing much to boast of. It was not hitting of the Leafs that won the game. Not one of the six safeties gathered off Enzman figured in the scoring. It was Mr. Enzman himself that presented the Leafs with the game that drew up closer to Providence. cheque with his right, tossed his glove

Mr. Enzman himself that presented the Leafs with the game that drew up closer to Providence.

The "big doin's" occurred in the fourth session. Enzman very generously contributed free walks to Trout and Red Murray. Then Graham put down a bunt, which was intended for a sacrifice. Enzman fielded the ball, but must have become mixed in his mathematical calculations. He threw, or, rather, intended to throw, to third to force Trout. The throw was nowhere near the bag, and the ball rolled to left field. Trout and Murray, of course, were both on the dead run when Graham hit the ball, and before it was fielded both Trout and Murray had scampered home. Meanwhile, Graham kept on going, and when the ball was thrown home in an effort to catch Murray, Graham raced around to third. "Lena" Blackburne then drove a long fly to right field, on which Graham came home. Thus the three runs were scored without a hit. Smith, the next man up, singled, but was caught off first.

Newark scored in the first innings and it was a case of come from behind and win for the Leafs. Cable was out when Durgin hit an easy grounder to Graham. The latter fielded the ball without a fumble, but made a bad throw to Thompson, who ran over to cover the bag. Then Kibler ripped off a double to right centre, on which Durgin scored. Kibler tried to stretch the hit into a triple, but a relay throw caught him. Thompson then held Newark hitless until the seventh, in which session they threatened to score. Schwart batted for Durgin, but was an easy out. Kibler, however, was given four wide ones and went around to third on Witter's single. Stafford was then walked, filling the bases. The situation was dangerous, as only one was out. Healey hit one at Thompson. The latter

Largest Outside Dominion Fixture -Official Draw-Play Tomorrow.

Again all records are broken for the Baimy Beach lawn bowling tournament, the magnificent entry of 1v8 rinks being made—play to commence at 2 o'clock. Saturday. This is probably the largest entry for any tournament, outside of the big Dominion fixture in August of each year. Forty-four rinks entered in the first tournament held by the Beach Club in 1908 and the number has steadily increased each year. The popularity of the meeting is emphasized by the readiness shown by the other clubs of the city in placing their lawns at the disposal of the east end club, and the committee are deeply grateful for this privilege. It is expected that the third round of the trophy will be reached by Saturday evening and the finals by Monday at 5.30 p.m., the consolation to be completed later in the week. OTTAWA Aug. 31.—Fine weather again prevailed today for the running of the fifth day's card at Connaught Park. The feature was the military handicap, which went to Zollicoffer's Christie with the Montreal horse Thornhill second and Grumpy third. Jockey Robinson rode four winners again this afternoon, thus making it eleven in the past three days. He leaves for New York tomorrow to ride in the Futurity. Charlie Crew of Toronto had two winners in Pepper Sauce and Miss Gayle. Pepper Sauce won from a number of good American horses. Robinson put Christie, Graphic, Miss Gayle and Lady Butterfly over. Nissouri to take necessary steps to establish and open the school for the fall term by Justice Masten in Osgoode Hall yesterday. He granted a stay, however, to learn what had been done at the meeting of the board Wednesday night. The judge suggested that everything pointed to an inclination to delay the opening. Counsel for the board argued that no default had been shown, and said that because three trustees had resigned a quorum was impossible.

WALL STREET IS IN HOPEFUL MOOD

Stocks in General Scored Gains, But Weakened Toward Close.

STEEL ROSE SHARPLY

Copper Stocks Also Prominent-Late Washington Advices a Damper.

NEW YORK, Aug. 31.—Wall street's unswerving confidence in an amicable adjustment of the railway labor dispute found expression today in a further advance of prices, after an early period of hesitation and doubt.

U. S. Steel repeated its high record of 99%, made last week, and Mercantile Marines attained new heights, the common advancing 1½ to 44%, and the preferred 1½ to 104%. Other new maximums included Inspiration Copper, which rose 2 to 58, and Kelly-Springfield Tire, which made a grogs gain of 3½ at 79%. A very considerable part of these gains was obliterated in the last few minutes of trading, with the publication of a report from Washington that the president's plea with the representatives of the brotherhoods had failed. In the main, however, closing prices disclosed decided preponderance of net advances. Rails and other seasoned stocks were in general demand, the inquiry originating largely with the sbort interest, which had sold stocks in expectation of strike. Commission houses also reported buying from interior sources in touch with railroad conditions.

Coppers were Strong.

Coppers as a group followed the lead of Inspiration, with extreme advances of 1 to 3 points, and minor industrials took their cue from Steel, with gains of almost as much. Equipments were only moderately active, the same condition applying to Munitions. Motors, the Zinc shares and Sugars. Total sales amounted to \$20,000 shares.

Marks duplicated their recent minimum of 70½ in the foreign exchange

Marks duplicated their recent minimum of 70½ in the foreign exchange market, and rubles yielded some of their advance at 34 with sterling and francs virtually unaltered.

Bonds were steady, with total sales (par value) \$2,270,000.

Inside buying, which is reported to be going on in McIntyre, continued yesterday and the stock held well around 134 to 135. Porcupine Crown was moderately active at 67. Teck-Hughes was active in the morning session, selling up to 36, and West Dome Consolidated, following the good news from the property, sold up to 39 and closed with 38 3-4 bid.

Bar silver was higher yesterday at 67 1-4 which is a new high for the present movement. This fact had little or no influence on the Cobalt stocks where transactions were very light and scattered. Beaver was steady at 41 to 41 1-2, and Chambers-Ferland 1-2 point tter at 18. McKinley-Darragh went up fractionally to 59. Timiskaming was unchanged at 58 1-2 and Seneca up a point at 29. Heron & Co. had the following at the close:

MONTREAL, Aug. 31.—There was little feature to this morning's session. This afternoon there was some response locally to a strong New York market, but no pronounced advance. The strike is still the most important market influence, and there was a great variety of rumors current today of developments in this quarter. One theory advanced to account for the

WHEAT HIGHER ON WASHINGTON NEWS

Hope of Speedy Settlement of Railway Troubles Gave Prices Uplift.

EUROPE HEAVY BUYER

Expectation of Greece's Entry Into War Also Bullish Factor.

CHICAGO, Aug. 31.—Reassuring advices that the charces of a strike were much less threstening brought about a sharp rally today in the wheat market here. In consequence the close, althounsettled, was 3c to 3%c not higher, with September at \$1.42% and December at \$1.45% to \$1.46. Other leading staples, too, scored gains—corn %c to 3%c to 1%c; oats %c to %c, and provisions 12%c to 60c.

oats %c to %c, and provisions 12%c to 60c.

At first the wheat trade gave only transient notice to reports that renewed efforts were being made to postpone or avert the strike. Moderate upturns, which took place in values, failed to hold and the market unerwent a material sag owing to assertions that within 48 hours Greece was likely to abandon neutrality. It was not until definite word of progress toward a strike settlement was received from Washington that speculative sentiment here swung conclusively to the bull side. The resulting advance of prices was accompanied by word that all wheat offered for export had been eagerly snapped up by Europe.

It was estimated that the deliveries in

port had been eagerly snapped up by Europe.

It was estimated that the deliveries in Chicago would an ount to as much as 4,500,000 bushels. This total, however, was said to be equal to only one week's average requirement for Europe from now till the end of the season.

Corn Also Strong.

Corn, like wheat, derived strength chiefly from the improved outlook that railway operations would suffer no interruption. For a while, tho, the market was depressed by disclosures that yesterday's bearish crop estimates had turned cut to be erroneous. Oats hardened in sympathy with wheat and corn. Export houses were good buyers.

Highest quotations on hogs since 1866 sent provisions sharply up grade. The bulk of the trading was in lard, but pork led the advance.

WINNIPEG GRAIN MARKET.

WINNIPEG, Aug. 31.—Wheat closed today 2½c up for October, 2½c better for November, and 2½c up for December. Oats were ½c to ¾c higher. Barley was ½c higher for October, Flax dropped 2½c for October, 2½c for November and 2½c for December. The trade was only fair, the the market was at times very active, and prices moved at a lively clip.

very active, and prices moved at a lively clip.

Very little export trade was done today, and for a time it seemed as if the market was feeling the want of this buying. Later news came thru that the strike would probably be settled or postponed and prices rallied sharply. The fact that Greece may be about to enter the war had very little effect.

Cash wheat was strong with 7c overpaid for No. 1 northern. Exporters were good buyers. Oats were dull and neglected.

FIND JEWELRY ON MAN ARRESTED ON SUSPICION Charged with carrying a loaded revolver without a permit, J. Pearce of New York City, was arrested yester-

day afternoon on Queen street by Detectives Nursey and Young. Pearce was observed by the detectives acting in a strange manner and was taken into custody as a supicious character. The revolver, a Colt, had nine chambers loaded and one cartridge in the barrel. When searched at the police station a diamond broach, forget-me-not pattern, a pair of cluster forget-me-not pattern, a pair of chister diamond and ruby earrings, a diamond lavaliere worth \$700, and a lady's watch, with blue face, platinum case, a large diamond in the centre of the back of the case and surrounded by chip diamonds, were found on Pearce. Pearce said the jewelry belonged to his wife. The police are investigating Pearce's antecedents, and a more serious charge may be laid later.
