RUSSIANS ARE SURRENDERING.

Heart Sick and Battle Weary They Yield Themselves to Their Conquerors Rather than Prolong a Useless Struggle-- Japs Chasing Czar's Army.

OFFICIAL REPORTS ON CASUALTIES.

Russians Claim to Have Lost 47,581 Officers and Men, and Japanese 41,222.

Table with columns: KUROPATKIN'S REPORT, OYAMA'S REPORT, Japanese Losses, Russian Prisoners, Russian dead on field, Russian killed or wounded.

Table with columns: SPOILS TAKEN BY JAPANESE, Flags, Guns, Rifles, Ammunition wagons, Carts, Shells, Ammunition, rounds, Cereals, bushels, Fodder, bushels, Clothing, cartloads, Horses, Bread, rations, Fuel, tons, Hay, tons.

Japanese left armies, Wednesday, March 8, via Yinkow, March 13. (Delayed in transmission)--From noon, until darkness yesterday, the left column of Gen. Okta's army fought a desperate fight near Lik-ampu, seven miles north of the river Hun, and five miles west of the railway. The Russian forces out-bered the Japanese three to one. The Russians had been heavily reinforced, from the south, rushed out of their trenches to meet the advancing Japanese, and a fierce hand-to-hand fight ensued, the soldiers using their bayonets and the others their swords. The Russian casualties were over 10,000 killed, and wounded, and the Japanese a little over 3,000. The Russian dead, were left on the field in heaps, among them many staff officers. Last night part of the extreme left army reached the railway, between Mukden and The Pass, destroying it, thereby preventing the trains from running north. The Russians today, are retiring in large bodies along the main highway. A large Japanese force is holding the main road to cut the Russian retreat. It was fortunate that hours of the left army was across the railway, last night, as it probably changed the outcome of the battle.

Without the railway the Russians cannot remove their wounded nor their heavy guns which will probably fall into the hands of the Japanese. The Russians in the center near the railway began retreating at midnight. The Japanese pursuing briskly, captured a few heavy guns and machine guns. The right wing of Gen. Okta's army is today attacking Subjatan Station, ten miles south of Mukden. The station is well fortified with heavy guns which were stubbornly defended. It was the centre of operations against the villages north and east of the railway line where the Russians have strong works, which were gallantly defended. The Japanese at noon occupied the villages on the main highway, five miles south of Mukden, continuing their pursuit of the Russians who hastily retired towards the north. Large bodies of the Russians have been moving steadily from Mukden north west along the railway. The Russian forces today became almost a pursuit, the centre following in retreat, the wings holding the line giving the extreme left time to firmly establish its position astride the railway.

Many Russians Surrender. Gen. Kuroki's Headquarters in the field, via Fusan, March 14. The country is swarming with hungry, disheartened Russians who are surrendering in squads to any pursuing Japanese they meet. Leading Japanese officers have refused to criticize the lack of mobility displayed while driving the Russians beyond The Pass. Most of the foreign attaches with the Russian army, including two American and British officers, were captured at Mukden.

Still Driving Them Out. Tokio, Mar. 14--11 a. m.--A telegram received today from headquarters in the field says: "In the direction of Sing Ching, our forces have been dislodging the enemy from Yinkow, 18 miles east of Fushan, and on March 11 occupied that place. "In the direction of the Shakkhe river, all of our forces are continuing the pursuit of the retreating enemy and many Russian officers and men are surrendering to our train guards in the mountainous district east of the Tie Pass road. Additional spoils taken in the direction of the Shakkhe river are guns and carts captured south east of Chutlitasze. They exceed one thousand and are loaded with various military supplies.

IN HIS IMAGINATION.

A Star Reporter Saw a Strike of Freight Handlers, But There Was no Ground for the Story-- The Alleged Strikers Never Heard of it.

Last evening the St. John Star published a sensational story under the caption "Prospect of a strike on the I. C. R." The Star went on in a sensational third-of-a-column story to tell of grumbling, discontent and dissatisfaction, and the writer, in his most imaginative way, said that the seed sowed at the early part of the season "sent up a healthy sprout through the soil Sunday, with the promise that the harvest will be a good one. The writer may be a well-skilled horticulturist, but the seed he has sown for a strike among the freight handlers will not bear fruit. The Star further says "the men went to work, but with little grace, and in their kick have the sympathy of the entire union." In connection with this sensational article Mr. Ross, terminal superintendent, has stated that he had not heard of any strike. Two men called on him and asked if they would not be entitled to double pay, claiming that the men who shovelled snow were allowed double time on Sunday. Mr. Ross did not consider the comparison a good one. The snow shovellers were temporary employees, whereas the freight handlers were permanent. He could not consent to giving them a double day's pay, and told them that the matter would have to be referred to higher authority. One of the freight handlers who worked last Sunday, was interviewed by a Times reporter this morning. "Did you see that report about the threatened strike, published in the Star?" asked the scribe. "Yes! It is a tissue of falsehoods, nothing more nor less. We simply asked for double time and Mr. Ross said he could not allow it to permanent men, unless he had authority from headquarters. We understood the situation, and every man went to work. Ours was not a demand but simply a request. Two men called on Mr. Ross, and presented our claims that we considered we should be paid double for working on Sunday. A strike was entirely out of the question, and must have been the result of a most vivid imagination on the part of the writer in the Star." The above statement shows the actual state of affairs.

"SLIDE PATSKY, SLIDE!"

BUSINESS TRANSFER.

Henderson & Potts Have Purchased Paint Factory of Jas. Robertson & Co.

The paint works of the Jas. Robertson Co., Ltd., have been purchased by Henderson & Potts, Ltd., of Halifax and Montreal. Mr. Thompson representing the latter firm took possession on Feb. 27th. Mr. Thompson is a practical man at the business, he having put in the plant at Montreal, and since taking charge here, has made many improvements. It is the intention of the purchasers to put the plant in first class shape, and they will make any improvements the trade warrants. It is expected that the company will start manufacturing tomorrow, and they will carry a full line of all kinds of their goods. An office has been fitted up in the building, and the New Brunswick trade will be supplied from this factory. The firm of Henderson and Potts is well known here, besides the factories at Halifax, and Montreal, they have a large branch at Winnipeg, and their business extends all over Canada, and also in the West Indies and Newfoundland. They are sole representatives for Canada and Newfoundland of Brandram Bros. and Co., London, England, white lead manufacturers. The saw works of the Jas. Robertson Co., saw some time ago to the Canada Saw Co., so that now the company can give their undivided attention to lead pipe manufacturing, brass foundry, heavy metals and plumbing supplies.

MASSACHUSETTS LEGISLATURE.

Committee Favors Free Trade With Canada and Newfoundland.

Boston, Mar. 14.--The removal of the duty on hides and the establishment of free trade relations between the United States and Canada and Newfoundland, as well as a general re-adjustment of the tariff, are favored in resolutions which the joint committee on federal relations has voted to unanimously report to the Massachusetts legislature.

ZION ESTATE OF \$21,000,000

Dowie Assures the Faithful He Will Not Abandon Them.

Chicago, March 14.--John Alexander Dowie, head of the Christian Catholic church, who is now in the city of Mexico, in a communication to his people, denies the report that he will never return to Zion City. He would never return to Zion City, he said. "I would say that the rumor that I would never return to Zion City is untrue, if by that it is meant that Zion City will cease to be the headquarters of the church. It is to remain continuously in Zion City until I pay my next visit to Mexico. Zion City will continue to be the headquarters of the church. The estate of Zion shows a balance of \$21,000,000 over all present and future liabilities."

TOWN WIPED OUT.

Winnipeg, March 14.--(Special)--Half of the town of Ponoka, N. W. T., was destroyed by fire last night. Fairly big store and the Bank of Commerce were destroyed. The loss is estimated at \$100,000.

THE REPORT IS DENIED.

Hon. Mr. Fitzpatrick Has Not Resigned -- The Fight Over the School Question.

Ottawa, Mar. 14.--(Special)--The story that Hon. Charles Fitzpatrick has resigned the post of minister of justice is laughed at here. Mr. Fitzpatrick was engaged on departmental work last night in his office at the department, and because he could not be in his seat in the commons at the same time the rumor was put in circulation that he had resigned. This was the only foundation there was for the report. The premier ridiculed the story and Mr. Fitzpatrick laughed heartily over it. Months ago the Jacques Cartier club, of Montreal, a conservative organization, has got petitions printed and circulated all over the province of Quebec in favor of the bill being put through the commons, as it now stands. These petitions are being forwarded in printed envelopes addressed to Sir Wilfrid Laurier. The Quebec conservatives have made up their minds to have as many petitions for, as Dr. Sproule can get against the bill and so the fight goes on. The education clause which has been amended in the direction already indicated will not suit either of these parties. The Ancient Order of Hibernians of the county of Carleton, has passed a strong resolution to the effect that in the interest of immigration, the rights of the minority should be safeguarded, and therefore that the school clause in the bill should go through as it now stands. The resolution asks that the minority have the right to their own schools and have an equitable proportional share of the government fund for education, and the order pledges itself to stand by the minority getting legal enjoyment of this right.

CHILDREN WERE ROASTED TO DEATH.

Another New York Fire Horror Destroys at Least a Score of Lives in a Five Story Tenement House Trap This Morning.

New York, Mar. 14.--At least a score were burned to death, several so badly hurt that they may die, and forty others received slighter hurts, in a fire that practically destroyed a five story tenement house in Allen street early today. The fire had gained great headway before it became known to most of the tenants and the escape of many of them was cut off when too late to save themselves. Crowded fire escapes in the rear of the tenement house were largely responsible for so many deaths and injuries among its population, which approached 200 souls. The scenes near the building after the fire was over and when the search for the dead was begun was heartrending. Nothing so pitiable, of such proportions has been seen in New York since the Slocum disaster. The position of those who had taken refuge on the rubbish-choked fire escapes became more desperate every minute as the flames roared through windows on every floor. They failed to jump and they could not climb until the scaling ladders reached them, so intense was the heat. Many and many one would spring to the ground with a scream. A baby flung into the arms of a policeman on the ground was immediately followed by the mother, who threw herself headlong. Her body struck the policeman on the head and he fell unconscious. The woman escaped hurt by the fall, but she had been badly burned. The baby was not hurt at all. Death was reaping a harvest on other fire escapes on the building as well at this time. At the rear, two men and two women were seen descending the fire escapes, their progress being blocked by some box of rubbish. When between the third and fourth floors, flames started up from the third floor windows, enveloped the two men and women and they fell roasted to death. Their bodies were got down by the firemen. On the top of the fire escape at the other side of the house lay the bodies of Mrs. Solomon and her two sons, Isaac and Jacob. It was horrible. The crowd on the street had seen the mother and her two sons come from their apartments, the mother first, and the sons following, each holding to her and trying to help her. A blast of wind drove the flames upon them and mother and sons fell on the fire escape, and were suffocated and burned to death. Three other members of the Solomon family were seen to look from the windows and then fall back into the burning building. They were not seen again. The elder Solomon, the husband and father, was one of those rescued by Patrolman Dwan. When he reached the street his whiskers had been burned off and he wore nothing but underclothing. For more than an hour he wandered around in this condition, searching for his wife and children, who came upon the bodies, after they had been removed from the fire escape. As he recognized the charred bodies he broke into passionate weeping and agonized cries. His experience was paralleled by dozens of others in the houses. After the fire was under control, the street was filled with half-dressed weeping people, seeking for their relatives, imploring the firemen and police to go into the burning building and rescue the loved ones whom they believed perishing there. The dead thus far discovered are: Rachel Solomon, 45; Jacob Solomon, 16; Isaac Solomon, 18; Jessie Cohen, 15; Rose Weiner, 28; Sandy Weiner, 14; Tola Laskowitz, 10; Harry Kaufmann, 10; Ross Miller, 4; Morris Miller, 5 months old.

A Lamp Exploded.

The fire started in the basement, occupied by Isaac Davis, wife and three children. Davis had been out last night and returning to his home early this morning, went into his store on the same floor just in time to see a kerosene lamp in the rear explode. The flames had spread with startling rapidity, and when the persons who had been sleeping on the upper floors awoke, they found themselves confronted by a wall of flames on nearly every side. Scenes of the wildest description followed, when the panic-stricken scores, fighting for their lives, rushed for the fire escapes, only to find them littered with rubbish of all descriptions, and almost impassable.

Roasting to Death.

Down through this cluttered narrow passage-way, flowed a stream of rubbish. On some of the escapes, the rubbish was so closely packed, that it became impossible to pass certain points, and men, women and children, stood literally roasting to death, as the flames roared through windows around them. In the meantime, firemen had run up ladders at other points around the building and dozens of people were being taken from the crowded fire escapes, and upper windows. By this time, the building was a furnace and the rescue were effected in many cases only after the greatest show of bravery on the part of the firemen and rescue workers. Twelve persons were taken from the building, suffering from partial suffocation and burns. Five of them were removed to Bellevue Hospital, in a serious condition. The fire started on the ground floor and burned through the building to the roof.

The Times New Reporter.

A few days ago, two sparrows, with the mistaken notion that spring had come, hid some of their eggs in the gutter. Some of Sir Wilfrid's colleagues refuse to come to the scratch. This item is copyrighted. A Kings county farmer told the Times this morning, that his crops were suffering for rain. The dry spell has made the vegetables quite stinky. Musical Item--A man named Sharp was looking for a flat this morning. A MODERN NOAH. As the Times new reporter was standing on the corner of Duke and Prince William streets, early last evening he was accosted by a pedestrian, who pointed to a ray of light issuing from the window of a nearby store. "What's going on in there?" the pedestrian asked. "I don't know," said the new reporter, "but I will find out." "Then come with me," said the pedestrian. With that he led the way up Duke street and in behind the store, where the light had been seen. A friendly window presented itself. "Look," said the pedestrian. The new reporter looked. This is what he saw. Down on his knees on the floor was the proprietor of the store. In one hand he held a hammer and in the other some nails. AIF around him were evidences of a strenuous life, while an object that looked like a cross between Noah's ark and Pih war canoe loomed up dark beside him. (Calmly and deliberately, he nailed a plank on the side of the object. The new reporter went through the window and approached the modern Noah. "What are you doing?" he asked. "Building a boat for the flood." "Why, what's going to bring a flood? We will have no flood." "Come here," yelled the boatbuilder, and he hustled the reporter out to a huge ice and snow pile on the corner. "See that?" he demanded, and then he pointed to a frozen catch basin. "That has been frozen all winter. I called the attention of the authorities to it. On Saturday a water works employe came and looked at it and went away. Today another one came and also went away. I expect another tomorrow. They are determined that catch basin shall not escape. But it is still frozen. When soft weather comes and the catch basin is still frozen, I will be flooded out. Perhaps my family will be drowned, unless I take precautions. So I have built this boat and when I get it finished we will sleep in it upstairs. When the flood comes we will launch it out of the bed-room window. Great scheme, eh? But I must go now, for it is time for one swimmy lesson." "Say," said the new reporter, "suppose the city fixes the catch basin? Get out, you fool! They don't do things that way in St. John." "As the aldermen vote the estimates for the various boards they sigh and sing-- "We saw, but who shall reap?" "Oh, what will the harvest be?" It is stated that one of the engines in the Carleton electric light station, was bought ten years ago for \$250, and was then nine years old. How old is Ann? Another man was caught this morning, opening a gutter on the edge of one of the streets. He was unable to explain why he did it, and was severely reprimanded.

MONCTON'S WATER SUPPLY.

Means of Purifying it Has Been Discovered -- Ask Hon. Mr. Emmerson to Present Protest Against Autonomy Bill--I. C. R. Accident.

Moncton, March 14.--(Special)--Citizens rejoicing over the result of an experiment with Dr. Moore's method of treating water supply, containing offensive tastes and odor during the winter months. For years Moncton water in winter has been a source of trouble, on account of the color and taste, and many citizens would not use it. Recently correspondence was opened with Dr. D. Moore, physiologist and algologist, Dept. of Agriculture, Washington, who had been experimenting with copper sulphate, in cases similar to that of Moncton. Samples of water were recently sent to Dr. Moore, who reports that the trouble is due to the existence of a small plant, which is killed by the use of copper sulphate. The experiment has been tried by the civic authorities, with the result that the odor and bad taste in the water were almost eliminated. The water engineer believes Dr. Moore's experiment is the solution of the trouble with Moncton water in the winter season. There was a traffic blockade on the I. C. R. near Amherst for several hours this morning, by a freight train up. Three cars on McLeod's special left the rails, and were badly broken up. The wreck occurred about one o'clock, and the line was not clear till about ten this morning. No one was injured. G. T. Champagne of the I. C. R. dining car service, was taken off the Maritime Express upon arrival here from Montreal yesterday, suffering with an attack of appendicitis and was taken to the hospital for treatment. The police committee will recommend the appointment of Leslie Chap-pell, the present marshal of Shediac, to take office "Spot's" place on the police force here the first of May, when the latter's resignation takes effect. The Evangelical Alliance and a meeting last night, passed a resolution protesting against the autonomy bill presented in the dominion parliament, and through Westmoreland's representative, Hon. H. R. Emmerson, ask that the new provinces be left entirely free in all questions pertaining to education.

CHAIRMAN WADE COMING EAST.

Ottawa, March 14.--(Special)--P. B. Wade, chairman of the transcontinental railway commission, left today for the maritime provinces. He goes to arrange for the report which parliament wants as to the progress of the work of the commission. Mr. Wade is accompanied by the assistant engineer of the commission, a special immigrant train with passengers from the Ionian will pass through here this afternoon about 6 o'clock. The immigrants numbering over two hundred are from the Ionian and will proceed west.

THE EVENING TIMES, ST. JOHN, N. B., TUESDAY, MARCH 14 1905.

SHORT STORY. With the Aid Of Whittier COMPLETE IN THIS NUMBER.

“Aren't you glad you came, Malcolm?” The girl's voice was sweet and joyous, and she looked with a bright smile into her companion's somewhat heavy face. “Suppose you've been very happy since you left, Whittier?” “Aren't you glad you came, Malcolm?” “I've been the four happiest years of my life. Weren't the chess days exciting?” “Very pretty, Whittier,” absent-mindedly gazed at the laughing beauty—the easy, dainty young woman in her evening dress, the girls with their white dresses and fluttering ribbons beneath the swinging Japanese lanterns, congratulating, chatting, moving on again in seemingly endless procession. “What is the matter, Malcolm? Did you think it was silly—the ‘daisy chain’?” “No, Whittier, I thought it all very interesting, and you girls in your white gowns looked very beautiful.” “But there is something, Malcolm,” insisted the girl, “and you haven't said that you are glad that you are not here, as if you were happy.” “I am glad I came, Whittier, for I've learned many things, but I can't truthfully say that the knowledge makes me happy.” “The cluster of roses at the girl's breast troubled like things endowed with sentient life, but the girl only said gently, ‘Whittier.’” “It is not well,” he answered in a voice harsh with repressed emotion, “but four years ago we were engaged—a tentative sort of engagement, I admit, which your parents disapproved because they knew that with your disposition opposition would only make you more determined and because they were wise enough to look ahead to this. They knew then what I begin to see now.” “The girl made no answer. She hardly seemed to hear the harsh, bitter words with the half hidden strain of anguish.” “For four years you have lived like this,” a slight gesture indicating the thing had leters them. “Your daily satisfaction has been with persons of refinement and culture. It is all about you, conversers, in the very atmosphere. While I, he laughed gratefully. “I have improved my mind and developed my tastes by being with a lot of ignorant Scandinavian. I've hardly spoken to another person.” “But you've been successful, Malcolm,” with gentle sympathy. “What?” “Oh, I know what he said. I know his conception of the word success. I've made money. In the richest

The girl laughed a low, sweet laugh of infectious merriment. “Malcolm, you are too funny! It is just as you were when we were children. You are willing to give away your cooky, but you won't have some one come up and grab it.” “I suppose I don't say things right. You know—the hurt showing in face and voice. ‘I'm not willing to give you up, but I'm going to for your own happiness. You will meet many other men far more worthy of you than a rough farmer like me. But, oh, Whittier, there'll never be any one who can love you more than I do!’ Whittier, Whittier!”

He made no attempt to touch her. On the contrary, he drew farther away, as if to emphasize the gulf he felt must lie between them. “For a few minutes neither spoke; then the girl said gently and with seeming irresolution, ‘Malcolm, do you recall Whittier's idyl of ‘Bearcamp Water’?’ You recited it once in school.” “I have forgotten. What was it like, Whittier? She evidently wants to leave an amicable subject as soon as possible, though he, cut to the quick, by her seeming indifference.

“One stanza has a particular bearing on the present situation,” she said slowly, after a pause. Whittier looked across the brilliant campus. Her mother was coming, and in her heart Whittier knew that Malcolm's muttered words were true. In the eyes of the ambitious matron far from the heights for which she had destined her beautiful daughter. She had forgotten the Whittier's, Malcolm's muttered words were true. In the eyes of the ambitious matron far from the heights for which she had destined her beautiful daughter. She had forgotten the Whittier's, Malcolm's muttered words were true. In the eyes of the ambitious matron far from the heights for which she had destined her beautiful daughter. She had forgotten the Whittier's, Malcolm's muttered words were true.

“The next time, Whittier? Can you say that, too?” he whispered. “It has always been true,” she answered softly. “The years have made no change in my heart, and I love you.”

CIVIC SAFETY BOARD MAKES ITS ESTIMATE.

What the Taxpayers Will Be Asked to Pay For Police, Fire and Lighting Departments This Year--An Interesting Meeting at City Hall Yesterday.

The estimates for the fire, police, and lighting departments were passed by the safety board yesterday. A number of additional two-way hydrants are to be placed in the streets and improved fire protection is to be provided for Sand Point warehouse. Ald. Maxwell occupied the chair and Ald. Lewis, Tilley, Holder, Hamm, Carleton, Macrae, Bullock and Frink were present, with the director, Chief Kerr and the common clerk. Policeman Earle was appointed janitor at \$45 a month. The board will recommend that Fireman Sprague, who had been suspended by Chief Kerr, be dismissed and Samuel T. Taylor appointed. Chief Kerr's report was taken up section by section. Ald. Hamm did not think that the city's veterinary surgeon was half well enough paid. He received \$120. It was increased to \$150. The director then read the estimated expenditure for the fire department for 1905 as follows: John Kerr, chief engine, \$2,000.00; E. P. Leonard, superintendent fire alarm, 900.00; Sixteen drivers, hose, at \$540 per annum, 8,640.00; Six drivers, chemical, at \$540 per annum, 3,240.00; Five engineers, at \$720 per annum, 3,600.00; Annual pay roll call, 8,000.00; Substitute drivers during holidays, 220 days at \$1.80, 396.00; Substitute drivers during holidays, 90 days at \$2.00, 180.00; H. BELOW ZERO AT GRAND FALLS.

A St. Patrick's Night Entertainment--Personal Notes--Special Services.

Grand Falls, March 13--Mrs. Roger McCue, Gillespie Settlement, died on Friday of cancer, after a lingering illness. Angus McLeod, has purchased a handsome, costly, modern designed hearth, which will prove of great accommodation to the community, since heretofore it has been necessary to send to Limestone, Me., for a hearth when required at a funeral. Bert Currier, Marie Costigan, and Jack Burgess, who have been employed on the Grand Trunk Pacific survey during the winter, have returned home. J. S. Arthur, and C. G. Gatecombe, who are in town, have been today. Horace Longley and C. O. Foss, engineers on the Grand Trunk Pacific survey, are in town. Wm. Beaman, Woodstock, was in town for a few days, last week. Rev. J. R. Hopkins, Tobique, held the usual religious services in the Episcopal church, here yesterday. W. J. Nagler, St. John, passed Sunday at the Curless House. The Emerald Dramatic Club, will celebrate St. Patrick's day by a dramatic and musical entertainment in the evening of that day. The Irish drama, "The four leaved shamrock," will be played, followed by a rollicking farce, "Who got the pig?"--Sings, choruses, tableaux, and specialties will be interspersed between the acts. The proceeds will be voted to the Assumption church. During Lent, special services will be held in the Catholic church every Friday evening, followed by instructions and "The way of the Cross." Wm. McCluskey, who was stricken with paralysis some time ago, is now recovering. All indications of spring, have departed. The mild weather has been followed by a freezing, cold snap, and this morning the mercury is again below the zero mark. Paul Michaud, still continues to be in a precarious condition, and no hopes are entertained regarding his recovery. Mrs. T. Medley, Richards, Edmundston, is in town visiting friends.

ORCHARDS IN DANGER

As a Result of the Very Severe Winter in the Valley.

Recent Deaths--News of the Churches--Pastors Called--St. John Men Sing at Church Service in Annapolis. Annapolis, March 13--The lumbermen are reported to be coming out of the woods. Owing to the great depth of snow, it is impossible for operations to be carried on. A very serious reality is facing the fruit growers throughout the Annapolis Valley, especially those who have young or half grown orchards. A number of such are completely buried under the immense snow drifts and will require a great amount of labor to save them from spitting from the trunk and being utterly ruined. The Dominion Atlantic railway from Halifax to Yarmouth is now running on schedule time and the accumulated freight is now being moved rapidly forward to points of destination. Seven hundred barrels of apples were shipped to St. John via S. S. Granville last week. The shippers were Messrs S. E. Bancroft of Round Hill and Arthur Harris. The apples from Round Hill had to be trucked from that point to the steamer's wharf here, a work of considerable difficulty on account of the heavy condition of the roads. The Anglican churches throughout the Diocese of Nova Scotia, collections were taken in aid of the Clergy Superannuation Fund. Owing to a serious diminution of income last year, the committees were compelled to make a reduction of 25 per cent. on the half yearly payments of pensions in January 1905. It is understood there was a liberal response. The Annapolis Co. Conference of the Baptist church meets here today and tomorrow, a very interesting programme has been prepared. The Conference has been twice postponed on account of heavy weather and rough seas. A large attendance of Clergymen and delegates is expected. Formerly of this place, occurred in Halifax, on Wednesday morning last, Mrs. Hall was a daughter. The late Tarbell Winslow of Lequille. Three sisters survive her, Mrs. Augustus Harris and Miss Ada Whelan of this place, and Mrs. Emma Johnson, of Wolfville. The body was brought here on Friday's Halifax express, and the funeral took place from St. Luke's church, the interment being in St. Alban's cemetery. A telephone message, from Bear River, announces the news of the death, of the late Captain Reed, of that place, for many years a resident of that place, but recently living in Somerville, Mass. A telegram from Somerville, announced the death to his friends in Bear River. He leaves a wife, the late Miss Agnes Link of the W. W. Telegraph office at Bear River, and two sons and three daughters. Rev. M. C. Higgins, has accepted a call to the pastorate of the Baptist church, at Goldboro, Guysboro county, and will shortly commence his labors there. Rev. F. P. Greatorex, of Granville Ferry, who was temporarily in charge of the parish of the Church of England at Dartmouth, has been elected as rector of the parish. Mr. Greatorex and daughter, and with him, in Dartmouth. On Sunday evening, Rev. M. Henderson, Methodist, (in the absence of the pastor), preached in the Presbyterian church, from the words of St. Paul, "The time is short." The choir, which is exceptionally good, rendered the hymns with good effect, as did also a male quartette. Solos by Walter H. Belding, and Mr. McCarty, from St. John, were much admired.

FIRE IN ANNAPOLIS.

Annapolis, March 14--(Special)--Fire of an early hour this morning consumed the building and stock of the store on Main St., occupied by David Richardson as a tobacco and liquor store. The building was owned by Mrs. M. Riordan and was uninsured. The people of St. George are still awaiting deliverance. This morning a group gathered in a telephone office, called up a St. John man, and asked him to read the headlines in the Daily Telegraph. The citizen, complied, and the man at the other end of the wire repeated the news to the rest of the party. Mrs. Handout--"After you eat that pie I shall expect you to save some wood." "Wary Wife" means to tell the pie dole lady; if there's anything in the pie dole head I wish yerd say so before I see 'em!

PRISONERS OF JAPAN.

Thousands of Russians in One Japanese City.

Cited Natives Throng to Nagoya to See Huge Slaves Guarded by Little Japs—Kind Treatment—Suffering of Wounded.

for they seem to show interest in looking around the city and peeping into the shops. Especially they like to see Nagoya Castle, and time hangs heavy on their hands.

The Japanese people carry to them many little gifts, bottles of sake, cups of rice, Japanese sweetmeats, and though they look and gaze upon them with curiosity, they are kindly and sympathetic. And they will come to the fence and toss over oranges, grape fruit, cigarettes, parchments, beans and cakes.

A little girl whom I know came running from the garden to meet me yesterday crying with a gleam of delight in her eyes and with a breathless voice, "Oh, I bought some cakes and parchments, and they were pleasant to take I determined to try them with my children. Our family physician told me he knew them to be perfectly safe and nothing better could be used for catarrh, coughs and colds."

So I gave them to the children and have continued to do so ever since, whenever there is the least sign of croup or sore throat and I no longer dread the approach of cold weather as I once did.

Stuart's Catarrh Tablets not only cured me of throat, nasal and throat catarrh, they have saved me many an afternoon with my little ones. The children like the taste of them and they break up a croupy cold or an obstinate, deep seated cough.

People who have used sprays, inhalers, salves or washes for catarrh and have found how useless they are, will be agreeably surprised at the results following the use of a pleasant, convenient, internal remedy in tablet form. Stuart's Catarrh Tablets which cost 50 cents full sized package.

SHE MADE A CHANGE.

A Charleston Mother Did so With Advantage to Herself and Children.

A mother living in Charlottetown, Mass., the happy possessor of four children writes, "Every fall and winter I have laid in a stock of cough remedies, croup mixtures and throat medicines, for my children, and for some time they never seem to be free from colds, coughs or sore throat."

This fall I made a change in the usual program. I had myself been cured of an obstinate catarrh, from which I had suffered for years, by Stuart's Catarrh Tablets, and as they were pleasant to take I determined to try them with my children. Our family physician told me he knew them to be perfectly safe and nothing better could be used for catarrh, coughs and colds."

So I gave them to the children and have continued to do so ever since, whenever there is the least sign of croup or sore throat and I no longer dread the approach of cold weather as I once did.

MORNING NEWS IN BRIEF.

Local. There was no meeting of the board of school trustees last evening as there was not a quorum present.

The steamer Stanley was able to get back to Gagetown Saturday after being in the ice off Cape Bear for a week.

In St. Dunstan's church, Fredericton, Rev. Father O'Neil, of Silver Falls, will preach the St. Patrick's day sermon.

There was an excellent meeting last night in Berryman's hall, Rev. Mr. Seais preached an earnest sermon from the question of a young man to Jesus—"What good things must I do to inherit eternal life?" There was a large audience.

The educational committee of the board of trade held a meeting yesterday to discuss the subject of manual training in the schools. W. S. Fisher was in the chair and a sub-committee was appointed to confer with the board of school trustees on the matter.

Hon. J. G. Forbes gave a very interesting talk on his recent visit to England before the members of the St. Andrew's Church Guild in the school room, last evening.

Children Are Underfed.

THE RESULT IS WEAKNESS, RICKETS, ST. VITUS' DANCE AND MANY ILLS OF CHILDHOOD—THE CURE IS

Dr. Chase's Nerve Food.

"Nine-tenths of children are underfed," writes a great English scientist who made an exhaustive study of the subject.

Children require double nourishment—to enable them to grow as well as to repair the wear and tear consequent on living.

After exercise of mind and body together with growth and physiological changes, consume nerve force at a tremendous rate, exhaust the supply of rich blood and leave the body weak and liable to disease.

As a means of restoring the vitality of weak, puny children there is no preparation so effective as Dr. Chase's Nerve Food.

Being mild and gentle in action and powerful as a creator of new rich blood and nerve force, this great food cure is admirably suited to the needs of childhood, soon adds new firm flesh and tissue to the weak and emaciated body and restores the vigor of robust childhood.

CIVIC ELECTIONS AT FREDERICTON.

Dr. G. J. McNally Is Elected Mayor—Over Ald. Farrell—The Ward Contests.

Fredericton, N. B., March 13—One of the most spirited civic contests which Fredericton has seen for a number of years took place today.

Dr. G. J. McNally was elected mayor by a majority of 103 over Alderman Patrick Farrell, and two out of seven aldermen who sought re-election were defeated.

The honor of leading the poll fell to Mr. Chestnut, who secured 671 votes out of a total of 880 cast.

For mayor—Dr. McNally, 489; Ald. Farrell, 386. Majority for McNally, 103.

Wellington ward—Ald. D. J. Stockford and Moses Mitchell by acclamation. St. Ann's ward—Ald. George Ross, 606; Ald. W. E. Everett, 567; Cornelius Kelly, 317.

What We Are Doing

Helping Misplaced and Dissatisfied People to Change Their Work

Many a good man that would make a success in Electrical, Mechanical, or Civil Engineering, or in Architecture, or in business as an Advertiser, Window Trimmer, or Show-Card Writer, is working today for very low wages or in a distasteful position.

Many a bright woman that would make a success in Illustrating or Designing in Architectural Drawing and Rendering, or in Ad Writing, or as a secretary through a knowledge of Stenography, Typewriting, and Correspondence, is eking out a scant living as clerk, housekeeper, or seamstress.

The trouble is that they do not know how to change to a more desirable or lucrative occupation. The I. C. S. solves the problem for them. We have prepared thousands for salaried positions in new lines of work, at their homes, in spare time, and at small expense. They held their old positions until they changed to the new with a salary better than before.

Qualifying Young People to Start Work at Good Salaries

We train young men and women, by mail, at home, in spare time, and at small cost, for positions in which they earn GOOD SALARIES AT THE START and in advance.

A few months devoted to earnest study of Mechanical or Architectural Drawing, of Newspaper Illustrating, of Carpet, Wallpaper, or Linoleum Design, of Show-Card Writing, of Typewriting, Stenography, Bookkeeping, or Correspondence, will qualify any young man or woman for a good position at the start in any of these occupations, without previous experience. All we ask is that you follow our instructions. We guarantee to make you a success in your chosen line of work.

Teaching Mechanics the Theory of Their Trade

In nearly every machine shop, drafting room, industrial plant, etc., we have students that have secured promotion and advance in salary through study in our schools. The increased value of an employe that masters the theory of his trade or profession brings prompt and substantial recognition.

NELSON-BRITT MATCH HAS BEEN CANCELLED.

Latter Will Meet White the English Champion-- Mohawks Given the Decision on Disputed Goal--Stanley Cup Games This Week--General Sporting News.

THE RING.

Nelson-Britt Match Off.

San Francisco, March 14.—The battling Nelson-Jimmy Britt fight is off, and Britt's opponent next month will be James White, the English champion. The change in Yosemite club's plan, was decided upon late last night, when Billy Nolan, Nelson's manager, announced he would not box under the arrangement entered into before the Corbett-Nelson bout took place.

It appears manager Coffroth entered into an agreement with both Nelson and Britt. Nelson agreed to box for 45 percent of the gate receipts, and it was stipulated each man should put up a forfeit of \$1,500 to bind the contract with the club. Nolan claimed last night, this agreement was rendered void, by the fact that Britt had not deposited his forfeit until the day after the Nelson-Corbett contest.

"In any case," said Nolan to Coffroth, "Nelson will not box for less than 65 percent, as he understands Britt is getting an additional 10 percent for making the match."

Coffroth refused to give more than the agreed percentage, so the match was declared off, and Coffroth announced James White would take Nelson's place.

Believing that a hitch was imminent, Coffroth for days, had both in communication with Tom O'Rourke of New York, who reports White in this country. A telegram from O'Rourke reads as follows: "White accepts your terms. Arrives here Thursday. Make match very late in April, to give him time to train."

John L. on Oeler. John L. Sullivan, who is 46 years old, in a letter to a New York newspaper, has this to say in answer to Dr. Oeler, who is alleged to have said that men are useless after the age of 40.

"Demosthenes delivered his oratorical masterpiece at 54; Aristotle did his greatest work at 50; Plato, when he was past 55; Chaucer wrote the Canterbury tales, and other famous works, after he was 40."

Spinoza, Laurence, Sterne, Cervantes, Oliver Cromwell, Titian, Leonardo, di Vinci, Sir Christopher Wren and Pasteur are mentioned by Sullivan, as having attained fame after they were 40. To show that he is serious in the matter, the mighty John L. has put his seal of approval on the words of these men, by writing, in a bold hand, across the page upon which their words are set forth, the following lines:

"This is correct, John L. Sullivan."

What Geo. Dixon is Doing. George Dixon's last bout in London, was with "Darkey" Haley, for six rounds. Dixon did the best at the start, but Haley evened up in the fifth round. The bout was called a draw. Dixon has been challenging George Moore, who says he hears that Dixon can get backing.

Young Kenny Trims Goodwin. Salem, Mass., Mar. 14.—Young Kenny, of Lawrence, received the decision over Chester Goodwin in a 15-round contest before the Apollo, A. C. last night. It was a fast fight and both men were severely punished.

Billy Gardner Knocked Out. Cambridge, Mass., Mar. 14.—Billy Gardner, of Lowell, was knocked out by Larry Connolly, of South Boston, in the second round of a scheduled ten round bout before the Middlesex, A. A. last night.

Mohawks Get the Game. A meeting of the New Brunswick provincial hockey league executive was held last evening and the following representatives were present: Halane and Norman of Sackville; Bilsard from the Neptunes, and Andrew Tufts from the Mohawks. This constituted a quorum. Frank Norman was elected chairman. The business of the meeting was to decide the winner of the Moncton-Mohawk game in this city on Feb. 17th. The Moncton team seemingly backed down from their assertions of that night; they had no representative present, nor did they send any written statement of their case.

Sworn affidavits were read from responsible citizens who were present at the match, and who testified that the goal in dispute had been made fairly, and in no doubtful fashion. The referee's statement that in his opinion a goal had been scored, was also laid before the executive. For these reasons the executive unanimously decided that the Mohawks had won the game in question and the winners. This gives the local club the third place in the league series.

Stanley Cup Games. Montreal, Mar. 14.—The Victoria hockey team has been notified that it will have to play Ottawa for the Stanley Cup on Thursday and Friday of this week.

Mariboros Want It Too. Toronto, Mar. 14.—The Mariboros on Thursday forwarded their challenge for the Stanley Cup to Trustee P. D. Ross, at Ottawa. They do not expect, nor do they ask, to play for the trophy this year, but are getting in early to be the first for next season.

Annapolis Ladies Play. The Times Annapolis correspondent writes: "The prettiest hockey teams that have crossed sticks in the rink this season, faced the puck here on Thursday evening last. It was the first ladies' hockey match this winter and a large number was in attendance to witness the game. One team was captained by Miss Ethel Lavitt and the other by Miss Nellie McMillan. The first half closed with a score of 1-1. In the second half, the play became exciting and Miss McMillan added another goal to the score of her team, while the other team failed to score. It is said that another match will shortly take place."

YACHTING. A New Boat For R. N. S. Y. S. David W. Robb of Amherst, N. S., member of the Royal Nova Scotia yacht squadron, has purchased the keel schooner Adrienne from Henry F. Smith of Boston. The Adrienne was built by Lawley & Son, South Boston, in 1893, and is 37.6 feet over all. She was given a new stern in 1897, and a new bow in 1899.

A Fast Boat. London, March 13.—The Yarrow built, 40 foot, twin screw motor boat "Napier II," made 26 knots an hour in a trial run on the Thames at Greenwich Wednesday. The "Napier II," is built to compete for the British International cup, which is now held in France, and which is to be raced for this summer. Records by motor boats are in a rather chaotic state. Boats "make wonderful time when going by themselves, and many

of the alleged trials will not bear investigation. The fastest time made over a measured mile course in this country was at the rate of 28.66 statute miles an hour. This was made by the "Ontario" on the Hudson River last fall. The "Challenger" is alleged to have beaten this record recently in Florida, but she did not go over a properly surveyed course, and so the record will not stand. On the Thames there is a measured course over which the torpedo boats are tried, and the "Napier II," a time, 26 knots an hour, is equal to 29.9 statute miles. This is the fastest time ever made by an auto boat.

Capt. Barr to Race. Mr. Wilson Marshall, owner of the three masted schooner "Atlantic," has engaged Captain Charles Barr, to sell that yacht in the ocean race for the German Emperor's cup. Captain Barr will take charge of the "Atlantic" in a few days, and will at once begin overhauling the yacht and getting her ready for the big contest across the ocean. The "Atlantic" has been lowered from the Morse dry dock. A lead coil weighing about seventy tons has been fitted to the vessel, which, it is expected, will help her considerably in sailing in strong winds. As soon as the yacht has been overhauled she will be tried, and Captain Barr will find out all he can about the yacht before the time for starting the race.

BOWLING. Last Night's Game. There was a large audience at Riehey's Alloys last night when the fourth game in the hand-pin tournament for the Riehey prizes was played. The contestants were Capt. C. Nichol's team vs. Capt. W. Johnston's quintette, and the former won by 38 pins. The score was somewhat lower than the average but the game was close and exciting. The teams were:

Down South. New Orleans, March 10.—Even with Waddell the Philadelphia Athletics were unable to trim the home club here. The "Rube" was big enough a card to draw out a crowd in excess of 4,000, but the Pelicans profited by their superior condition and won 8 to 5.

Waddell pitched the first five innings, and barring his wildness did excellent work. He left the game with the score 3 to 2 in favor of his team. Then McCrane, who had not pitched a ball this season, was sent in to finish the contest, and his wildness enabled the home team to pull out the victory.

The Chicago Nationals defeated Los Angeles 3 to 2 in a close game before a big crowd. Casey, Tinker and Evers made star plays. Weimer allowed only two hits in four innings.

Suffered Intense Pain Around The Heart For Four Years. Was Very Dizzy. Four Boxes of Milburn's Heart and Nerve Pills Effected a Complete Cure.

They are a specific for all troubles arising from weak condition of the heart or from the nervous system. Post troubles such as Fainting of the Heart, Sleeplessness, Nervousness, Faint or Dizzy Spells, Shortness of Breath, Starting in the Sleep, Cold, Clammy Hands or Feet, Brain Fog, etc., we would strongly advise the early use of Milburn's Heart and Nerve Pills, as this remedy, taken in time, has been the means of saving many a life and restoring strength to those who were weak, nervous, health-shattered invalids.

Mrs. E. Kilmer, Humboldt, Ont., writes: "Allow me to tell you of the great results I have derived from Milburn's Heart and Nerve Pills. For four years I suffered intense pain around the heart, and was very dizzy. After using four boxes of Milburn's Heart and Nerve Pills, I was completely cured."

Edward Terry's Visit. Edward Terry, the well known English actor, is not only a believer in the Simple Life but also in the serious life. Mr. Terry is a student of subjects dealing with ancient times, and in England he is quite an expert archaeologist. Mr. Terry is interested in the movement now being headed by a professor from Oxford University, who is starting a fund to cover the expense of digging out the ruins of the ancient city of Herculaneum. Edward Terry will appear at the York Theatre on March 23, for one night only.
