LOOKING FORWARD TO MINISTER'S VISIT

Interest in Campbellton Centres in Dr. Pugsley

Relief Stations Busy

Relief Committee Decide to Erect Temporary Offices in Business Section of the Town—People Enjoying Warm Summer Weather

Staff Correspondence

Cambleton, N. B., July 27—All interest in Campbellton now centered in the visit to be paid by Hon. Dr. Pugsley, minister of public works, who is expected to arrive here tomorrow.

The executive committee of which G. G. McKenzie is chairman has been delegated to meet the minister and assist him in making a personal inspection of the ruins. The extreme suffering which are being endured by the stricken people in the city is one of the many things which will be brought to Dr. Pugsley's attention.

Notwithstanding the fact that labor is plentiful here and over a thousand are being employed there has been no let up as yet in the demand at the relief station for food supplies.

At a meeting of the relief committee held last night it was decided to have temporary offices erected for the building committee in the business section of the town. The lot formerly owned by the members of the Church of England has been selected as the site.

The rain storms here have completely subsided and in their place the people are enjoying ideal summer weather. There is an abundance of sunshine today and it gives promise of being extremely warm. (Continued on page 3, third column.)

YACHTS ARE READY FOR TODAY'S RACE

Crew of Canadian Challenger Feel That Their Boat is as Fast as the Cup Boat

Manchester, Mass., July 27—Having failed to shake the American grip on the Seawanhaka Cup in the first race over a triangular course, the challenger St. Lawrence of the Royal St. Lawrence Yacht Club, came over from her moorings at Marble Head today to show her ability against the defender Massachusetts of the Manchester Yacht Club, in a windward and leeward race. The boats have not been matched in a run down the wind under equal conditions. There was some interest, therefore, in the leeward part of today's race, while the accident to the challenger yesterday when he got line pulled out, left it a question whether the more yachtsmen of the defender would be able to make a matter of conjecture, but her crew was positive, after the race, that she is fully as fast, if not faster, than the Massachusetts of today.

Early weather conditions today were not quite so strong as yesterday, a soft southerly having taken place of the refreshing breeze of the first day's race.

U. S. IMMIGRATION

1,041,570 New Settlers Entered Uncle Sam's Territory Last Year

Italians and Poles Most Numerous

Washington, July 27—A total of 233,403 Italians and of 128,348 Poles, the two countries furnishing the highest number of arrivals, are among the factors in the grand total of 1,041,570 immigrants admitted into this country during the past fiscal year. This is 280,746 less than the previous year. The final figures were made public by Commissioner General Keefe today.

Besides this grand total 199,667 non-immigrant aliens were admitted, 23,270 aliens were departed and 243,191 United States citizens arrived. The grand total of all this inward immigration movement during June only was 127,092. During the fiscal year, the Chinese immigrants numbered 170, Japanese 2,788, English 53,498, Irish 38,282, Jewish 94,273, and Germans 71,389. There were 27,302 Magyars, 61 Pacific Islanders, 4,969 black Africans and 1782 East Indians.

Over the Canadian border, in the period between July, 1909, and April, 1910, inclusive, 47,888 immigrant aliens were admitted, against 29,680 emigrants departed, and 8,469 non-immigrant aliens were admitted, against 22,799 non-emigrant aliens departed.

During the same period 118 Polyzanians, two Anarchists, 120 idiots, imbeciles and feeble-minded, 109 insane, nine professional beggars, 11 paupers, 2,471 with health-some diseases, 12,022 persons likely to become public charges, and 1,365 contract laborers were deported from all ports.

MANY CURES REPORTED AT SHRINES OF STE. ANNE

Huge Processions in Chicago and Ste. Anne, Ill., Where Sacred Relics Were Secured From Canadian Shrine

Chicago, July 27—A procession of 2,000 pilgrims whose homes are scattered from ocean to ocean, among them some who came on crutches, in wheel chairs and by train, marked the close of the festival of Ste. Anne, which has been in progress for nine days at Ste. Anne's church.

The bride, who is one of Seckville's most popular young ladies, was very charmingly gowned in silk voile with passementerie trimmings and orange, and wore a bridal veil and orange blossoms. She carried a beautiful bouquet of white carnations and maidenhair. Her bridesmaid, Miss Pauline Ring of St. John, who was pretty gowned in blue and white muslin with lace trimmings and a picture hat to match. The groom was supported by his brother, Luther, of Charlottetown. The nuptial knot was tied by the father of the bride, assisted by Revs. Bell, Sprague and Rogers.

TO STOCK LAKES AND RIVERS WITH FISH

Rev. Dr. Hindley of Spokane Chamber of Commerce Urges That Something Be Done

Spokane, Wash., July 27—Carrying out a plan to stock the lakes and rivers in the district with fish, as outlined in his dispatch several weeks ago, Rev. Dr. William J. Hindley, chairman of a special committee of the Spokane Chamber of Commerce, has sent a letter to the commissioner of the United States fish department requesting him to send a representative to this country with a view to making a thorough investigation of conditions in the inland Empire, as well as to provide the people with the pleasure incidental to fishing, adding: "We need advice. We have plenty of money forthcoming to put into effect any broad plan that can be evolved. We believe we have lake and stream districts unequalled in the United States for the propagation of fresh water food fishes. We therefore ask for a representative, to examine such matters, to make a study of our waters and the proper fish to be planted."

PERSISTENT WOODER REAPS HIS REWARD

Spokane, Wash., July 27—Miss Ella T. Maloney, of Spokane, the first woman to settle on a claim in the Coeur d'Alene reservation in northern Idaho, where she won 100 acres of farm land at Uncle Sam's big lottery last August, and Frank Custer, a timber cruiser and locator, living at Harrison, Idaho, are to be married in a short time, thus bringing to a pretty culmination a romance that began eleven months ago. Miss Maloney received bushels of letters from various parts of the United States, Canada and Mexico when it was announced that she had the first choice on the big reservation, and most of the misses costumed proposals of marriage. One after the other she declined, until Custer, who located the claim for her, and showed her over the property, remained alone in the field. Custer was ardent and persistent in his wooing, and since the beginning of May, when Miss Maloney took possession of the claim, he has been a regular visitor at the homestead, which is three miles from the town of Harrison.

MONTREAL NURSES SAVE MANY YOUNG LIVES

Montreal, July 27—The two nurses doing pioneer work throughout the poorer quarters of the city, instructing mothers in the proper care of their infants during the summer months, are doing good work. Dr. J. E. Lainez stated this morning that they were everywhere being welcomed by the women who had attentively followed the instructions given them. The great handicap to the work was the inadequacy of the force at his command. The two nurses had frequently been unable to visit families before the lapse of a few days, and by that time the more weakly of the infants had often died.

One hundred and sixteen infants under two years of age died in Montreal last week of enteric fever.

THE RAILWAY COMMISSION HERE TODAY

Members are Making a Tour of the Railway Lines in the Maritime Provinces—Express and Pullman Rates Under Consideration

The members of the Railway Commission of Canada arrived in the city in Montreal train at noon. The Commissioners are J. P. Mabee, chairman; A. J. Nixon, R. Richardson, and G. G. McPherson. They came by the I. C. R. to River du Loup and over the Temiscouata Railway connecting with the C. P. R. by way of Woodstock. They are bound for Moncton and from there will go to Nova Scotia connecting with the N. S. R. to Yarmouth and from thence over the Halifax and Southwestern to Halifax. They will also make a trip over the Prince Edward Island Railway, and will return over the I. C. R. to Montreal.

Chairman Mabee to a Times-Star reporter said that the purpose of their trip was merely for investigating conditions, and that they would hold no public meetings. Of the more important matters at present occupying the attention of the commission was the express company rates and also the Pullman rates. The whole system of express rates was receiving the most grave attention in an endeavor to ascertain whether or not the rates were excessive. As to the matter of Pullman rates, Chairman Mabee said that there had been a reduction made in the United States, but that did not necessarily follow that it should be done on this side of the line, as conditions would vary.

The proceedings are expected to terminate August 10, Mr. Root delivering the closing speech.

W. T. Whitehead Declines Offer on Account of Health—Lightning Kills Cows—Circus in Town

Fredericton, N. B., July 27—(Special)—W. T. Whitehead, late manager of Grand Falls this morning and has its tents pitched at Scully's Grove. The street party was held in the afternoon and was witnessed by a large crowd.

W. T. Whitehead, late manager of the New Brunswick Railway Company's lands, has been offered a lucrative position by a syndicate which owns a large tract of timber land in Wisconsin. He was asked to act in an advisory capacity and establish headquarters at Duluth. On account of his declining health he has been obliged to decline the offer.

Two cows owned by Herbert Lawrence, of Prince William, were struck by lightning and instantly killed in pasture during Monday night's storm.

Judge Wilson this morning delivered judgment in the case of Lydia E. Yerxa vs. the School Trustees of the Parish of Brighton. The plaintiff sued to recover sixty-five dollars salary alleged to be due her. His honor ruled in favor of the defendants. The weak point in the plaintiff's case was that she was teaching without a license.

W. B. Bamford, general freight agent of the C. P. R., will be here next week to hear the grievance of the board of trade over freight rate discrimination.

LAURIER MAY BE FIRST PASSENGER

On Hundred Mile Section of Trunk continental to Prince Rupert

Vancouver, B. C., July 27—(Special)—A Prince Rupert despatch says Sir Wilfrid Laurier may be the first passenger on the hundred mile section of the National Transcontinental Railway to Prince Rupert. Nine miles east, the bridge over Searns Rapids will be constructed before the premier's visit. Track layers are making good headway this side of Yellow Head Pass. The rock work is heavy. Four hundred and fifty miles of roadbed must be made before gangs from the east shake hands with gangs from the west. The work is well up to schedule time.

FAMOUS GEMS OF PROSE

THE AMERICAN FLAG By Henry Ward Beecher

A THOUGHTFUL mind, when it sees a nation's flag, sees not the flag only, but the nation itself; and whatever may be its symbols, its insignia, he reads chiefly in the flag the government, the principles, the truths, the history, which belong to the nation.

When the French tricolor rolls out to the wind, we see France. When the new-found Italian flag is unfurled, we see resurrected Italy. When the united crosses of St. Andrew and St. George, on a fiery ground, set forth the banner of old England, we see not the cloth merely; there rises up before the mind the noble aspect of that monarchy which, more than any other on the globe, has advanced its banner for liberty, law, and national prosperity.

This nation has a banner, too; and wherever it has streamed abroad, men have soon daybreak bursting on their eyes; for the American flag has been the symbol of liberty, and men have rejoiced in it. Not another flag on the globe had such an errand, or went forth upon the sea, carrying everywhere, the world around, such hope for the captive and such glorious tidings. The stars, upon it were to the pining nations like the morning stars of God, and the stripes upon it were beams of morning light.

As at early dawn the stars shine forth even while it grows light, and then, as the sun advances, that line breaks into banks and streaming lines of color, the glowing red and intense white, striving together and ribbing the horizon with bars effulgent, so, on the American flag, stars and beams of many-colored lights shine out together. And wherever the flag comes, and men behold it, they see in its sacred emblazonry no rampant lion and no fierce eagle; they see the symbols of light. It is the banner of dawn; it means Liberty.

Consider the men who devised and set forth this banner; they were men who had taken their lives in their hands, and consecrated all their worldly possessions—for what? For the doctrine, and for the personal fact, of liberty—for the right of all men to liberty.

If anyone, then, asks me the meaning of our flag, I say to him—it means just what Concord and Lexington meant; what Bunker Hill meant; which, was, in short, the rising up of a valiant young people against an old tyranny to establish the most momentous doctrine that the world has ever known, or has since known—the right of men to their own selves and to their liberties.

The history of this banner is all on the side of liberty. Under it, rode Washington and his armies; before it, Burgoyne laid down his arms. It waved on the highlands at West Point; it floated over old fort Montgomery. When Arnold would have surrendered those valuable fortresses and precious legacies, his night was turned unto day, and his treachery was driven away by the beams of light from this starry banner.

It cheered our army, driven from New York and in their solitary pilgrimage through New Jersey. It streamed in light over the soldiers' heads at Trenton Forge and Morristown. It crossed the waters rolling with ice at Valley Forge, and when its stars gleamed in the cold morning with victory, a new day of hope dawned on the despondency of this nation. And when the long years of war were drawing to a close, underneath the folds of this immortal banner sat Washington, while Yorktown surrendered its hosts, and our revolutionary struggles ended with victory.

How glorious, then, has been its origin! How glorious has been its history! How divine its meaning! In all the world is there another banner that carries such hope, such grandeur of spirit, such soul-inspiring truth, as our dear old American flag? Made by liberty, made for liberty, nourished in its spirit, carried in its service, and never, not once, in all the earth made to stoop to despotism!

Accept it, then, in its fullness of meaning. It is not a painted rag. It is a whole national history. It is the Constitution. It is the Government. It is the free people that stand in the Government, on the Constitution. Forget not what it means; and, for the sake of its meaning, be true to your country's flag.

Let us, then, twice each thread of the glorious tissues of our country's flag about our heartstrings; and, looking upon our homes and catching the spirit that breathes upon us from the battlements of our fathers, let us resolve, come weal or woe, we will, in life and in death, now and forever, stand by the stars and stripes. They have unfurled from the snows of Canada to the plains of New Orleans, in the halls of the Montezumas, and amidst the solitude of every sea; and everywhere, as the luminous symbol of resistless and beneficent power, they have led the brave to victory and to glory. They have floated over our cradles; let it be our prayer and our struggle that they shall float over our graves.

BOY CHAINED TO A WASHTUB AT HOME

New York, July 27.—William Leggett, in charge of the Prevention of Cruelty to Children, found Rosario Nictito, ten years old, chained by the leg to a stationary washtub in his home, on the top floor of a tenement at No. 32 Stanton street.

The boy had been in the Children's Court twice for running away. The last time was on May 23, when Judge Hoyt suggested placing him in an institution, but at the request of the father, Pietro Nictito, a brass bed maker, released him on probation until July 26.

Rosario was lying under the tub. He was dirty and his clothes were in rags. A stout dog chain six feet long was secured to his ankle with a padlock. The other end was fastened to one of the tub posts with a copper loop.

Mr. Leggett released the boy and took him to the quarters of the society, where he was bathed, clothed and fed. He told a heart-rending story of cruelty, and it was decided to summon Nictito to the Children's Court, where Judge Wyatt will investigate Rosario's story.

At the meeting of the board of works, yesterday James L. Carleton, ex-inspector, and Engineer Murdoch made statements, samples of the concrete were examined, and as a result of a lengthy discussion the matter was allowed to drop, the members supporting the engineer's contention that the work was being done according to the specifications, as the engineer said, so, and was the final court.

Tenders for the permanent paving in German street were opened and the bids were referred to the engineer to report to the council. Those tendering were McDonald & McLeod, Carrite Patterson Manufacturing Company, Hassam Paving Company, and Westman Paving Company. There were two bids for tenders for hard pine paving blocks four inches long, P. E. Sayre & Co. and C. E. Harding & Co. It was decided that the engineer should bring in a written report on \$4 per day.

The matter of the Main street paving coming up, the chairman explained that he felt it his duty to bring it before the board. City Engineer Murdoch told of the appointment of Mr. Carleton as inspector at \$4 per day.

After Mr. Carleton had retired, Mr. Baxter said that while he had differed with the City Engineer on a number of occasions he had implicit faith in that official. He was the man whom they would hold responsible for permanent paving work, and he had said that it was according to specifications and that was the way of it, so far as the board were concerned. There was considerable discussion on the matter, but the feeling of the board seemed to be that the work was being carried on all right.

At the evening session the request of the Exhibition Association to close up the southern end of Westworth street during the exhibition, was granted, the street to be closed on Sept. 1. On recommendation of the city engineer, the request of the Street Railway Company to make changes in their tracks in Westworth street was granted. With reference to a complaint of Mrs. Alice Wheeler of Murray street, her lots were always damp by the grade of the street, the engineer said that the harbor master and Ald. Jones. Their papers advocate: British Connection Honesty in Public Life Measures for the Material Progress and Moral Advancement of our Great Dominion. No Graft No Deals "The Shamrock, Thistle, Rose entwined The Maple Leaf forever."

WHO IS AFRAID? It would be idle to deny that yesterday's failure to ensure into the matter of the Main street pavement has further shaken public confidence in the board of works. Not for a long time has there been as much criticism in connection with a civic contract, or as much questioning of motives and conduct. It was of course a simple and expeditious method of solving the whole matter to fall back upon the specifications and throw the responsibility upon the engineer, but that does not answer the assertion of Inspector Carleton.

Why did the council specify a more expensive material if it meant to accept a cheaper? The tenders figured on the more expensive kind, and would of course make a profit thereon. How much greater is the profit on the cheaper material more quickly laid? The Globe has written called upon Mayor Frink to act, and plainly intimates that certain civic departments would bear looking into. The feeling that there is something wrong about this paving contract is so general that it cannot be ignored, and suspicion will be deepened by yesterday's failure of the board of works to probe the matter. There will be other paving contracts, involving a large amount of money. The taxpayers ought to be able to assure themselves that sound business methods will prevail. They do not have that assurance at the present time.

WHY NOT UNITE? The new town of Melville, on the line of the Grand Trunk Pacific, is trying a practical experiment in church union. The greater part of the people of that incipient town are organizing themselves into a single church, irrespective of denomination, except in so far as trustees are chosen from as many denominations as possible. It is stated that the plan meets with the approval of the two great churches most largely represented, and this should ensure the success of a plan that might well be adopted in many other communities.

CROPS EAST AND WEST Ontario, the banner agricultural province of Canada, will have, it is said, a heavier harvest this year than usual. In Quebec, also, the outlook is excellent. The introduction to the July crop report of the department of agriculture of the Province of Quebec makes pleasant reading: "The appearance of the crops, with but few exceptions, most satisfactory. The meadows and pastures are excellent, hay-making having begun July 1st. Under the influence of favorable weather the cereal and fruits look much better now than they were at one time thought they would." The crops in the maritime provinces will also be good this year.

Any disposition on the part of members of the city council to joke at the expense of the newspapers will be regarded by the press with due solemnity. The resignation of Inspector Carleton is not a joke, and the smile on the faces of members of the city council may presently fade away. The newspapers may still be doing business when there is a new city council.

The British Columbia government will establish three mine rescue stations in the coal areas, according to a Victoria dispatch.

AT THE FRONT Not the soldiers only are at the front today. Not alone the boys in blue who face the stubborn foe, in the tent and in the charge, and on the weary way, there are unseen sentinels who watch with eyes aglow.

Mothers who have sent their sons to battle for the right, wives and sweethearts all day long, whose throbbing hearts are there. A host of loyal loving ones who help the gallant fight by beating at the throne of God, with never-ceasing prayer.

These may not tread the jungle, nor storm the frowning hill, they stand not in the rifle-pit, they man no sullen gun! But they are with the army, and with strength their pulses thrill, and their will the victor's part, when once the strife is done.

IN LIGHTER VEIN WHAT CAME UP. A young man wishing to have a bit of fun at a farmer's expense passed a few remarks about his cattle and his garden, and then said he had set some lettuce and cabbages which had not grown up. The farmer said: "Oh, that's nothing. I set some carrot seed and what do you think came up?" "Don't know," replied the young man. "Farmer—'Why old Brown's donkey, and ate the lot.'"—Brooklyn Citizen.

AFRICAN MISSIONS Mr. Roosevelt is a vigorous defender of Christian missions in Africa. He reminds those who lay emphasis upon the errors of missionaries and the shortcomings of their flocks that even if the present light be feeble and gray "it has at least dispelled a worse than Stygian darkness." Then he goes on: "As soon as native African religions—practically none of which have hitherto evolved any substantial ethical basis—develop beyond the most primitive stage they tend, notably in middle and western Africa, to grow into malign creeds of unspeakable cruelty and immorality, with a bestial and revolting ritual and ceremonial. Even a poorly taught and imperfectly understood Christianity, with its underlying foundation of justice and mercy, represents an immeasurable advance on such a creed."

Where the natives are more intelligent, as in Uganda, Mr. Roosevelt declares that the results of missionary effort are astounding. The majority of the people are now Christian, either Protestant or Catholic, "and show their Christianity by putting conduct before ceremonial and dogma." "Most fortunately," he adds, "Protestant and Catholic seem now to be growing to work in charity together, and to show rivalry only in healthy effort against the common foe; there is certainly enough evil in the world to offer a target at which all good men can direct their shafts, without expending them on one another. This is a valuable testimony. The Christian churches can do the best work where they put aside points of difference and unite to convert the heathen to a line of conduct based upon the teachings of the Founder of the Christian religion. Where those teachings are followed there is no room for religious strife."

Gov. Tweedie again appeals on behalf of stricken Campbellton. What does the provincial government propose to do in the matter? Mr. Hazen has not answered this question.

The dreadful news comes from Cuba that a general and twelve soldiers have taken to the bush with a determination to overthrow the government. Thirteen may be a lucky number—in Cuba.

Any disposition on the part of members of the city council to joke at the expense of the newspapers will be regarded by the press with due solemnity. The resignation of Inspector Carleton is not a joke, and the smile on the faces of members of the city council may presently fade away. "XXX" Balata Belting The most important part of every power plant is the Belting—that is where the power expense shows. "XXX" Balata Belting not only saves power, but its long service reduces the expenditure for belting. A satisfied customer is the best advertisement of any product. Those who have used "XXX" Balata Belting say it is the only Balata Belting that has given satisfaction on small pulley or high speed work, and that there is nothing better in this class of belting made. Give "XXX" Balata Belting a Trial and let it prove its worth. WE WILL GIVE ANY REASONABLE GUARANTEE. T. McAVITY & SONS, LTD., 13 KING ST.

EMPIRE MARKSMEN Lord Roberts has issued the following appeal: I am most anxious that every man and youth belonging to the empire shall attain the best means of doing so is to begin with the miniature rifle. Some of the most famous shots of the day began in this manner, and I feel sure that if the movement became more general the day would not be far distant when his majesty the king would reign over an empire of marksmen. At present there are affiliated to the Society of Miniature Rifle Clubs over 2,000 clubs, representing a membership of about 250,000. Great progress has been made since the formation of the society in 1903 but much still remains to be done. As an incentive to further effort, the Daily Mail has kindly offered to present each year for competition a fifty-guinea cup and silver commemorative medals, and I sincerely hope that every miniature rifle club at home and abroad which is affiliated to the Society of Miniature Rifle Clubs will make a special effort to enter a representative team. I would appeal to the editors of the imperial press to assist in this movement, and I would suggest that they can best be done by urging on their readers the great importance of rifle shooting and encouraging them to form miniature rifle clubs and affiliate themselves to the Society of Miniature Rifle Clubs in order that there may be one vast organization entirely devoted to the welfare and development of this particular branch of rifle shooting, which is the easiest and cheapest form of bringing instructive facilities to the doors of the people.

Synopsis of Canadian Northwest Land Regulations.

ANY person who is the sole head of a family or any male over 18 years old, who has not obtained a quarter section of available Dominion land in Manitoba, Saskatchewan, or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of the homesteader.

Duties—Six months' residence upon an unoccupied section of the land in each of three years. A homesteader may live within five miles of his homestead on a farm of at least 20 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister. In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$20.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased home stead in certain districts. Price \$30.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Designing Municipal Harbour, N. S."

will be received until Tuesday, August 9, 1910, for dredging required at the place mentioned. Tenders will not be considered unless made on the form supplied and signed with the actual signatures of tenders. Combined specification and form of tender can be obtained on application to the Asst. Secretary, Department of Public Works, Ottawa. Tenders must include the towing of the plant to and from the work. Only dredges can be employed which are registered in Canada at the time of the filing of tenders. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tenders. An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for fifty hundred dollars (\$1,500.00) must accompany each tender. The cheque will be returned in case of non-acceptance of tender. The Department does not bind itself to accept the lowest or any tender. By order, R. C. DESROCHERS, Asst. Secretary, Department of Public Works, Ottawa, July 27, 1910.

Jarvis & Whittaker, 74 Prince Wm. St. Coreans Very Devout

Rev. Dr. Fenwick, for twenty-one years a missionary in Korea, preached to two large audiences in Eskine and Davenport Road Presbyterian churches, Toronto, on Sunday morning and evening. He described the work amongst the Coreans, which he has seen grow from the very beginning. When he went there first there was only one missionary in the land and now there are close upon one million native Christians. The Coreans make very devout Christians as is evidenced partly by the attendance at mid-week prayer meetings. Sometimes there are 1,500 present, a much larger number than is ever dreamed of in this land. Option is one of the worst enemies of the Coreans, but even victims of this awful habit have been converted.

Tips

On Buying or Selling a Second-Hand Musical Instrument

Shakespeare knew human nature. He believed music was one of the most essential things in the make-up of a man. So it is. Teach your children to love it. Have it in your home. Buy a second-hand instrument and save money—for instance, a Phonograph. Maybe you have some instrument that you are tired of. Trade or sell it. One of our little Want Ads will do the trick—for but a few pennies. Maybe we advertise a bargain today. Look.

LOCAL NEWS

The City Cornet Band will give a concert at Seaside Park tonight.

The dust-laying mixture which provoked so much comment and other feelings along Douglas Avenue is now being experimented with on the Market Road, which has become a "great black way."

The New Orleans, Louisiana, says: "Street rumor has it that the Johnson's Limited building has been sold to a big St. John, N. B., firm for a consideration in the vicinity of \$17,000."

The water department has been making very slow progress in laying a new water main between Duke and Queen streets, and housekeepers are weary of the notices from day to day that the water will be shut off for a certain period.

A special squad of policemen will be worn in today for duty tomorrow on the circus grounds at Fairville. Some of the local policemen will probably be on hand, and it is likely that some of the newcomers will also be in uniform.

Mrs. W. C. Matthews, of St. John, superintendent of primary work for the Methodist conference in N. B. and P. E. I., will deliver an address at St. Luke's church, Chatham, on Friday evening on the subject of Sunday-school work.

David Ross, of the Western Union Telegraph Company, has resigned his position as Fredericton to accept one with the Great Northwestern Telegraph Company at Montreal. Mr. Charles Upham, of Sussex, has been appointed operator in his place.

On Monday night last, while standing in Somerset street, Fred Connell, of Mill street, was struck in the face by a man, who claims, was John Kelly, a painter. Connell says there was not the slightest provocation for the assault, and he will take proceedings.

Frank del. Clements, of Clements & Co., dealers in potatoes and general farm produce, of Fredericton, is authority for the statement that the potato crop in York county this season at present appears to be about one-quarter short of the average and the acreage is about a fifth short of last year.

Chas. T. McLaughlin, the young lad sentenced by Judge Forbes to eight years in Dorchester on being convicted of assault on several children, was taken this morning on the first stage of the journey in charge of Turnkey Wm. Cunningham. The boy did not seem to mind the thought of what was in store for him, but presented his usual downcast appearance and was as taciturn as he has been since being placed in custody.

There will be a meeting of the Grand Falls Power Company (the Kingston and New York Company), in this city this afternoon. Barton E. Kingman and Harry McLaughlin, of New York, arrived in the city at noon, and will be present at the meeting. Whether the matter of the reported transfer to the Grand Falls Power Company of Ottawa, the Van Horne interests, will be taken up, could not be learned.

The residence of John McKenzie, of Upper Douglas street, was struck by lightning Monday morning. The bolt entered through the roof of the kitchen, ripped some of the plaster off the wall, set fire to some clothes and went through the floor beside a pump. Mrs. McKenzie received a severe shock. A doctor was at once summoned and she recovered after restoratives had been applied.—Chatham Commercial.

A. G. DANN OF BANK OF B. N. A. HEARS OF FATHER'S DEATH

Announcement in Today's Special Cable to Times—Was Visiting Brother in England

The news of the death of Rev. A. G. Dann, referred to in the Times' special cable, was a terrible shock to his son, A. G. Dann, in the Bank of British North America, Prince William street. Rev. Mr. Dann, accompanied by his wife, and young son, Hugh, was on a visit to his brother, Rev. J. W. Dann, in Bristol, England, having left his parsonage in London, Oct. 10, 1909, and was expected to occupy his brother's pulpit next Sunday. Almost immediately upon his arrival in the old country, the minister was taken sick, and died a little after reaching his brother's vicarage. He was apparently in excellent health on leaving London.

Besides Mr. Dann of the Bank of British North America, here, the deceased is survived by his wife, three sons and two daughters. His sons are Captain W. R. H. Dann, at present in East Africa; Eyre Dann, enroute to Winnipeg, Hugh, with his mother in England. The daughters are Mrs. W. C. Duncon, Alberta, and Mrs. Chas. Patton, of Dublin.

POLICE COURT

In the police court this morning John Colorhan was fined \$4 on a charge of drunkenness, and the same penalty was meted to Robert King on a similar charge. In the absence of Judge Ritchie, Sitting Magistrate Henderson presided. John Colorhan was fined \$20 for a breach of the peace, he having struck a man named Crowley in Market Square last night. James McCarron pleaded not guilty to throwing peanut shells in Charlotte street last Saturday, and the case was postponed until Monday at 10 a. m. when James McCafferty, also reported, will be summoned to attend.

JEWS PERSECUTED

That the Jewish people in St. John are receiving a measure of persecution was the complaint of Rabbi Andur, of the Hazen Avenue Synagogue, who called upon Mayor Frink this morning. While His Worship could say or do nothing that would improve matters, he agreed with the Rabbi that not only were the Hebrews subjected to abusive language, but to much personal violence. This the mayor was able to state from his personal observation.

FOOD FOR THOUGHT FOR THE TAXPAYER

What Ex-Inspector Carleton Told the Board of Works at Yesterday's Meeting in City Hall

When called before the board of works yesterday ex-inspector Carleton explained his position with regard to the Main street pavement. He said that Mr. Murdoch had handed him the specifications for the work. He thought that when a specification was made out for work, the work must be carried out. In the specifications it was a condition that the roads must be rolled. Instead of this the contractors dumped in stone which in his opinion was too heavy. He held up the work till he got a letter from Mr. Murdoch. After putting in the six inches of stone they made the grade. He could himself do an honest job with this or not just as he pleased. He claimed the foundation as laid was very concrete. Graveling work among builders was not looked upon as concrete. In many instances, he said, he saw the earth color coming through the top. No amount of money, he said, could have induced him to remain on the job. He had nothing to gain by his action, but if the aldermen failed to see a him he had something to lose, as his reputation as a mechanic would sink some degrees. He did not hesitate to say that, had the specifications been carried out, the work would have been better. He claimed that too much water had been used and that, therefore, the cement was of an inferior quality.

\$25,000 IN PRIZES AND MANY MEDALS FOR EXHIBITORS

Magnificent Cash Prizes and Special Medals and Trophies to be Awarded at the Dominion Fair.

Over \$25,000 is to be distributed at the Dominion Exhibition in St. John, September 2 to 15 next, in awards for live stock, agricultural and horticultural products, dairy shows, poultry, horse exhibits, Women's Work, and educational departments. This is a magnificent sum, made possible by the very generous grant of the Federal, Provincial and the Governments and exhibitors from all sections of the Dominion will profit by it greatly.

A strenuous competition has thus been induced in all the departments above mentioned, with the result that even in face of the fact that new buildings have been erected and a general rearrangement of spaces effected there is scant, if any, room for an overflow of exhibitors. In addition to the cash prizes of \$25,000 there will be magnificent silver trophies, gold, silver and bronze medals, diplomas and badges of merit.

Among the special trophies is a huge solid silver, gold-lined cup with ebony base presented by the Bank of New Brunswick for the best Shorthorn Bull; another trophy is a silver cup by the same banking institution for the best Agricultural Horse; The Pettie Manufacturing Company, of Fredericton, will give a Lady's Gold Watch for the best 10 pound roll of fruit butters made from cream separated by the machinery; The Canadian Horse Society of Great Britain will donate two gold medals and one silver medal for the best Canadian bred Clydesdale Stallion; the best Clyde Stallion any age, and the best Clyde mare or filly; Special cash prizes are to be given by the Holstein-Friesian Association of Canada; a special prize by the Hackney Horse Society of Great Britain in the Hackney classes; gold, silver and bronze medals by the Canadian Bank of Commerce, for Grand Champion Bred, Bred and Grand Champion Ram, and for best herd of dairy cattle.

In the agricultural section, the Provincial Chemical Fertilizer Company, Limited, of St. John, offer cash awards to bona fide growers, and Messrs. W. A. Lee, Bump & Co. seedsmen of Philadelphia, make similar cash awards, as does the Bowker Fertilizer Company, of Boston, Mass. Numerous other medals will be awarded by the Exhibition Association, not only in the live stock and farming departments, but in the educational and industrial sections as well.

In addition to these fine awards, the Toronto Open Air Horse Parade Association has donated a sterling silver cup for the best commercial horse-delivery horse, etc.

HE SPOKE IN MONCTON

Concerning the accident to Rev. Mr. McLaughlin in Belfast, Ireland, as told in the public dispatches the Moncton Transcript says: Rev. W. J. McLaughlin came to that country under the name of the late Dr. O'Shaughnessy as a delegate from Ireland to the Supreme Court of the Rev. J. F. A. as a speaker he captured Toronto and took charge of a Presbyterian church there and afterwards as stated moved to Chicago. He also spoke in Moncton some years ago at the meeting of the High Court of New Brunswick, I. O. F., held in the Oddfellows Hall, Y. M. C. A. building.

E. D. C. Playgrounds

The Every Day Club has sent its little portable organ to the playgrounds, for the use of the teachers in connection with the singing of the children. Besides the free play in which the children indulge, great progress is being made with kindergarten work, with also some basketry and clay modelling, in which some of the children show a remarkable interest. Quite a number of mothers who live near these grounds visit them from day to day.

Boys and Cigarettes

Cigarette smoking by small boys in St. John is an increasing evil. A large boy was seen last evening passing a package to a group of four gawdier boys, each of whom took a cigarette and lighted it. When a citizen protested there was a hasty flight. At the Every Day Club ground it was necessary early in the season to close the ground as soon as a ball game was over, as boys stole in to search for stumps of cigars and cigarettes.

No Longer Amateurs

It is an interesting fact in regard to sport that of five young men reinstated last winter on their own pledge that they would remain in the amateur ranks only one, "Hally" Clawson, has kept the pledge. Mahoney, Sweeney, Dolan and Crowley have all played ball with professionals. It is stated that Strick, Covey, Brooks, Garnett, Walsh and perhaps others from St. John may take part in the maritime championships in Charlottetown next month.

ANOTHER LARGE STOCK OF Trunks, Bags and Suit Cases

ARRIVED YESTERDAY, FRESH FROM THE FACTORY

We have been selling Trunks, Travelling Bags, and Suit Cases at a lively rate this season. About three months ago we received our spring stock, enough, we thought, to do us all through the season. We told you then that we were going to sell them at prices that would make them move rapidly, and they did move much more rapidly even than we had expected, and we found it necessary to order again and again even larger lots than the first. Yesterday the fourth shipment arrived, they are a splendid lot and are on sale.

An Inspection of Our Glenwood Ranges Will Show You Why They Sell So Readily

That is why we want every one to see the Glenwood Ranges. We have the Ranges that are built right here in St. John, that can't be beat for their working qualities or their way of construction. The centres are all inter-changeable, the grate slides out on its bearings, the oven bottom can be removed without taking the stove apart. The nickel is fastened with a spring, easy to remove for cleaning, the damper has a short handle and the draft direct, large oven, easy on fuel and a guaranteed baker. Come in and examine them for yourself, whether you want one now or a year from now, we are always pleased to show our stoves.
