367 ESCAPE DEATH AS STEAMER BURNS

\$3,000,000 LOSS AS CLYDE LINER IS SCUTTLED

Passengers and Crew Taken Off; One Man Drowned

NARROW ESCAPES Many Jump Into Water And Are Picked Up by Coast Guards

LEWES, Del., Nov. 18.—One life was lost in the race with death by the blazing Clyde liner Lenape, off the Delaware Capes, early today. All the remainder of her passengers and crew, numbering 367, were safely accounted for. Of these about nine passengers and crew members suffered exposure and burns, and were taken to the hospital here.

The man who lost his life was identified as Robert Leverton, about 60 years old, believed to be of Williamansett, Mass. His body was picked up in Delaware Bay by a fisherman.

Following the removal of passengers, the Lenape was scuttled inside the Delaware Breakwater. Officials estimate the damage to cargo and vessel at \$3,000,000.

LEWES, Delaware, Nov. 18.—All the passengers and crew of the burned Clyde liner Lenape, except 26, who are aboard the coast guard cutter Kickapoo, have been landed here. Those aboard the Kickapoo also are expected to be brought here shortly. About 150 passengers and nearly 100 members of the crew were assembled here.

LEAP INTO WATER. Many of the passengers had a narrow escape with their lives when the flames swept the vessel away just as safety apparently was assured. Many were forced to jump into the water or hang over the side of the vessel on the ropes, to escape the scorching heat. All were picked up by the coast guard rescuers.

The fire started in an after-hold before 11 o'clock last night. It was not discovered until it had made considerable headway. Although S. O. S. calls were sent out immediately the first efforts of the crew to combat the flames appeared so successful that no attempt was made to remove passengers before reaching the breakwater. Professors of assistance from several ships appearing toward the Lenape were declined, Captain Devereaux said.

HEROIC RESCUES. Tales of heroic rescues by Captain Irving Steele, of the Lewes coast guard, as the Lenape, a mass of flames, drifted helplessly inside the breakwater, were related by David W. Burbage, Lewes agent of the Clyde line.

Captain Steele, in a patrol boat, was the first to reach the side of the ill-fated vessel. As she swung parallel with the wind, which swept a scorching draft from end to end, and the decks layed into flame.

The Lenape's life boats were dropped over the sides, as rapidly as the davits could be operated. Captain Steele gathered six in tow and rushed them to the pilot boat Philadelphia.

MEANWHILE passengers who had been unable to reach the boats, were dangling from the ends of ropes, over the sides, as close to the water as possible, to escape the scorching heat.

Captain Steele drove his craft under the blazing sides of the liner, and picked many of the struggling passengers from midair. Those who had dropped into the water, were lifted over the sides of the patrol boat.

When all had been rescued, he took in tow all the remaining life boats in the water, and placed his charges aboard the Philadelphia, standing off as a hospital ship, away from the flames. Captain Steele then cruised about the ship of flame to make certain none had been overlooked.

Peace Pact Between Warring Chinese Factions Reported; Premiership To Be Debated

QAHAGAI, Nov. 18.—The Eastern-News Agency learns from Peking that representatives of Feng Yu Hsiang, the Christian general, and Marshal Chang Tso Lin, the Manchurian war lord, have signed a peace agreement under which no Manchurian troops are to be stationed at Tientsin, but all are to retire 30 miles east of the Peking-Hankow line. It is also agreed to establish a joint office at Peking to discuss the questions of the premiership, the reconstruction of the cabinet and the election of a president.

38 Rescued As Vessel Sinks

CINCINNATI, Nov. 18.—Eight passengers and the crew of 30 men were removed safely from the Ohio river steamboat Greenwood, when she sank at the wharf here last night after being rammed by the steamer Chris Greene. The Greenwood, loaded with freight, was about to cast off for Pittsburgh, when the Chris Greene crashed into her stern. The passengers and crew were transferred to wharf boats, and a part of the cargo was saved.

ONE DEAD, 19 HURT AS TRAIN DITCHED

Locomotive Goes Over Embankment, With Baggage Car Piled on Top. TACOMA, Wash., Nov. 18.—Engineer E. M. Putnam, of Tacoma, was killed and 19 others injured when a Northern Pacific passenger train, Gray's Harbor to Tacoma, went into the ditch two miles east of Olympia, shortly before 7 o'clock last night. P. X. Simpson, a badly injured man, was taken to Olympia with news of the accident and a relief train bearing doctors and nurses was started for the scene.

PAY \$200 OR TAKE JAIL FOR 6 MONTHS

Louis Austin Was in Court Today Following Seizure of 'Still'. Louis Austin, aged 26 years, pleaded guilty in the police court this morning to having a "still" unlawfully in his possession in his house in Duke street on Aug. 24. The information was laid by Infant Revenue Officer Walter P. Davies. The still was referred to in the "Times-Star" at that time. The accused said that the "still" was really not his but since it had been found in his house he could not do much else than plead guilty.

Two Are Promoted In Postal Service

Two recent promotions in the post office service will be heard of with interest. H. B. Beck, of East Saint John, has been promoted to chief clerk in the office of the district superintendent as chief clerk in succession to W. W. Hatch, who was superannuated some weeks ago.

Operation of Vancouver Elevators Not Affected by Prairie Stoppage

YANCOUVER, B. C., Nov. 18.—Approximately 18,000,000 bushels of wheat are in Vancouver elevators or on route for this point, and no inconvenience is being occasioned by the embargo on the westward movement. Operations at the elevators are not retarded by the stoppage of the movement on the prairies.

Youth and Girl, Sweethearts, Held as Bandits In Vancouver

YANCOUVER, B. C., Nov. 18.—Harold Mawson, 21, and a girl, 17 years old, alleged sweethearts, are under arrest here on a charge of having held up and robbed John Singleton, taxi-cab driver, of \$8 on the night of October 22. The couple, it is alleged, engaged Singleton late at night, to drive them to Point Grey, a suburb, and when in the vicinity of Dunbar Heights the man held up the driver, while the girl is alleged to have frisked him for his money.

HAMILTON TALK IS ANSWERED BY TASCHEREAU

Breach of Faith Over Conscription Is Charged

LEADER TWITTED Scored by Quebec Premier For Ignoring Province During Election Campaign. QUEBEC, Que., Nov. 18.—The Right Hon. Arthur Meighen, leader of the opposition, was the instrument of his own defeat in Quebec at the last federal elections. He had ignored Quebec by not delivering any public address in the province, and he also shared, as a member of the Borden cabinet of 1916, equal responsibility with the then Premier, for the breach of faith which had been practised in establishing conscription, after Sir Robert Borden had stated in the House of Commons that there would be no conscription. Such, in sum, is the allegation brought by Hon. L. A. Taschereau, Premier of Quebec, against the leader of the opposition, in a statement issued to the Canadian Press last night.

LEADER TWITTED

Scored by Quebec Premier For Ignoring Province During Election Campaign. The statement is in reply to Right Hon. Mr. Meighen's speech at Hamilton last night, where Meighen took exception to the manner in which the Liberals of Quebec conducted their last campaign. "TASCHEREAU'S REMARKS. "Never," said Mr. Meighen, "in the history of elections in this Dominion, has a great party stooped to methods so open to dishonor and so dangerous as the Liberals of Quebec have done in the late campaign in the province of Quebec. "The Opposition leader quoted from the French language newspaper Le Canada, edited by a Liberal member of parliament, a portion of a speech attributed to Hon. Mr. Taschereau on the island of Orleans, wherein the Quebec premier was declared to have said: "I believe I am guilty of no wrong when I say that Meighen is the man of conscription, that it was he who sent our men to fight in Flanders Field. It is he who by his policy has brought the conscription of 60,000 Canadians. Has he grown better since? Has he reformed? Has he had perfect contentment?"

COMMUNISM IS TAUGHT IN THE U. S.

Schools Organized in Several Centres, Movement Leaders Declare. MINNEAPOLIS, Nov. 18.—Communist schools, teaching the theory of Communism and Leninism, are being organized in a number of cities in the United States, Communist leaders here declared today. C. A. Hathaway, Northwest organizer of the Workers' Party, established the school here under the direction of a central executive committee in Chicago. The school opened today to run for 20 weeks. "Young workers," the junior communists, are being supplied with literature for distribution in the city's schools, aimed to offset American education week in the schools. "We want education for action, not abstract education," Mr. Hathaway said. "We are teaching our young people that the constitution of the United States is the bulwark of class rule, and that the workers must promote the needed change."

CARGO OF PAPER TO BE SHIPPED HERE

New York Sends Commissioner Bullock Word—Inquiry For Warehouse Space. According to advice received today by Commissioner Bullock, the first cargo of paper to be shipped from this port by water will go from here early next month. He received a request from New York parties for information as to the accommodation which could be provided for the handling of this cargo, which it is understood is to come here over C. P. R. rails and be carried from here to its destination by steamer. The commissioner also received a query as to whether it would be possible to have 160 cars of freight unloaded in one of the city sheds for shipment between February 5 and 15. The commissioner said he felt obliged in the latter case to tell the parties that under present conditions it would be impossible to grant them this privilege, as all the berths will be needed to handle the business expected this winter. He said that if the city had available one or two surplus berths, he could have told the prospective shipper that the accommodation asked could be had.

Winnipeg G.W.V.A. Gets \$25,000 Gift

Winnipeg, Man., Nov. 18.—The Winnipeg branch of the Great War Veterans Association has received a gift of \$25,000 from A. R. McNichol, local financier, who has recently given nearly one million dollars to local charitable and welfare institutions. Mr. McNichol recalls a meeting in Quebec around that time, when the youthful Quebecers were asked to sign registration cards, which, despite assurances that they had nothing to do with conscription, were however, used as a basis for that policy. The Quebec Premier, twitting Meighen with a change of heart in his Hamilton speech, wherein Mr. Meighen had asserted that before troops would again be dispatched, any war, the judgment of the people would be sought, and asks why the opposition leader had not the courage to expound this point in Quebec. Mr. Taschereau points to the campaign of Hon. E. L. Patenaude and his letter's adherents, as indicating that the Conservatives of Quebec were hostile to Mr. Meighen's "imperialism," and suggests that this was a clear repudiation of Mr. Meighen "and his past conduct" by the province of Quebec. He reproaches Mr. Meighen for not coming into Quebec to expound his policies with regard to the national and economic question, which the people were capable of considering as such.

Crippled Veteran Gets Bravery Medal

Winnipeg, Man., Nov. 18.—The bronze medal of the Royal Humane Society has been awarded to T. W. Lunn, a crippled returned soldier, who was responsible for the rescue of three persons from drowning at Winnipeg Beach, local summer resort, in 1923.

William Moore, son of 'Dinky' Moore, New York's famous restaurateur, took as his bride Mary Stafford Green, adopted daughter of Col. Edward H. R. Green, son of Hetty Green. Miss Stafford was adopted in the sense that Green saw to it that she received an education in her early life.

SITUATION IN SYRIA LOOKED ON AS SERIOUS

French Charged With Fomenting Religious Strife

BEIRUT IN DANGER

Another Uprising in Damascus And Vicinity Is Now Feared. Canadian Press. BEIRUT, Nov. 18.—Accusations by the leaders of the Djebel Druze tribesmen that the French authorities in Syria are endeavoring to precipitate religious warfare apparently are likely to develop into a widespread revolutionary movement. The inflaming of religious prejudices and the alleged sending of Mediterranean coast Christian civilians to being roundly condemned by Europeans in Beirut. Unless the French cease their alleged practice of arming Christian volunteers, the Moslems, who assert that they have ordered their followers not to attack Christians, will withdraw such protection. REBELS STRONG. It is asserted that a short distance west of Damascus, the insurgents have established headquarters at Hasbaya and that their strength is from 20,000 to 25,000 men. During the last two weeks, the French have received only 1,000 reinforcements. It is understood that another uprising is feared in Damascus. SITUATION SERIOUS. LONDON, Nov. 18.—The correspondent of the Daily Mail at Damascus, says stress on the seriousness of the situation due to the hostilities between the Druze tribesmen and other rebels, and the French forces. The correspondent reports both Beirut and Damascus as being imperilled by a threatened junction of tribesmen with the forces of Said Atrash, brother of Sultan Fakhri Atrash, chief of the Druzes. BEIRUT IN DANGER. Such a combined force, the despatch adds, could easily seize Beirut which is defended only by a few guns, and it is understood the rebels capture it, the French will not hesitate to bombard the city. Lack of organization and cohesion among the rebels seems to be the only factor likely to save the situation. The correspondent mentions a report that peace overtures have been made to the French by Sultan Atrash, who is believed to have initiated them, owing to satisfaction over the removal of General Ferral as High Commissioner in Syria. VISIONS VICTORY. "We in Quebec have no lessons to receive in patriotism from Mr. Meighen," said the minister. "Leave alone, Mr. Meighen, and brush the mud and dirt off your own clothes before you bother with a peck of dust on ours." Mr. Cardin believed that the Liberal party would emerge from the present difficulty, and appealed for confidence of the people in their public men. OTTAWA, Nov. 18.—Writs for by-election in Bagot, will be issued today. Nomination Day will be on Monday, November 30, and polling on Monday, December 7. DEPOSIT FORFEITED. Percy Dalton failed to appear in court this morning to answer to a charge of assaulting Patrick Monahan in a house in Coburg street and his deposit of \$20 was forfeited. E. J. Henneberry, appeared for Monahan while G. H. V. Belyea, K. C., has been representing Dalton. HOLIDAY WOUNDED. Holiday grabbed Towers, the crown prosecutor said, and two more shots were fired by Towers, Holiday being wounded in the lungs. He knocked Towers down and disarmed him. Towers was put in charge of Hester by Arus Elliott, to whom Towers was said to have admitted: "I shot Gilmore."

MORIN NAMED IN BAGOT VACANCY

Will Contest for Liberals Opening Caused by Death of J. E. Marcile. Canadian Press. MONTREAL, Nov. 18.—Mr. G. D. Morin, notary of St. Pie, was yesterday nominated Liberal candidate to contest the federal constituency of Bagot, rendered vacant by the death of the member-elect, J. E. Marcile. The nomination was featured by an address of Hon. P. J. A. Cardin, Minister of Marine and Fisheries, who had attacked Right Hon. Arthur Meighen and declared that the opposition leader had "insulted the good people of Quebec."

DOCTOR TESTIFIES

The prison doctor testified that in his opinion Towers was not mentally fit to follow the course of his trial. He was mentally very dull, the doctor said, and was suffering from malaria. Justice Kowalick, the presiding judge, remarked: "That is a very mild word; a great many people are dull." The jury found that the prisoner was fit to be tried, and Hester and Towers were arraigned. He pleaded not guilty. CASE OUTLINED. The prosecuting counsel, A. J. Rogers, then related the story of the tragedy on the Melita, as outlined by him, at the magisterial hearing at Southampton, on November 5. This was that on the night of October 20, Towers, and Captain Byers, the ship's doctor, attended an opera in Antwerp, but that Towers seemed uneasy, and left before the opera was finished, and Byers did not see him again until after the tragedy. TOWERS BOARDED THE MELITA at 1.55 on the morning of October 21, and asked the quartermaster and others on the ship, whether Captain Clews was aboard. He instructed Third Officer McEellan to go ashore and arrange for a supply of fresh water for the ship. Almost immediately after McEellan had gone ashore, Towers shot and killed Captain Clews. GILMOUR IS SHOT. At 3.30 that morning the crown prosecutor proceeded. Towers went to the room occupied by John Holliday, second engineer of the Melita, obtained matches there and then went to the room occupied by David K. Gilmour, assistant chief engineer of the ship, the room being on the same deck. Towers asked Gilmour about ship listing and Gilmour replied that if Towers had been on the ship, where he ought to have been, he would have known all about it. A few moments later, Holliday heard a shot and heard Gilmour shouting "Murder." Holliday went to Gilmour's room, where Gilmour was lying on his bunk, bleeding from a wound at his mouth. Towers was present, and Holliday asked him what he had done. Towers said: "Stand back, or you will get hit."

\$3,000,000 Loss In New Orleans Blaze; River Docks Are Swept

NEW ORLEANS, La., Nov. 18.—Fire breaking out suddenly on the Mississippi River docks this morning was pronounced under control, after causing a property loss estimated by police and fire department officials, at more than \$3,000,000. After sub-light, had died down and no further danger was anticipated, extended over a seven block section of the water front, firemen turned streams of water over business buildings facing the river front, to avert danger of a spread of flames. A high wind which had fanned the blaze into intensity during the first hour of the fight, had died down and no further danger was anticipated.

JURY DECIDES PRISONER'S FIT FOR TRIAL

Prison Doctor Testifies Former Officer Dull Mentally

CASE IS OUTLINED

Prosecutor Tells of Heated Scene Between Towers And Clews. Canadian Press. WINCHESTER, England, Nov. 18.—Thomas Towers, former first officer of the Canadian Pacific liner Melita, was adjudged guilty of murder, but insane, and ordered to be detained "during the King's pleasure," at the conclusion of his trial for the murder of Captain A. H. Clews of the Melita at Antwerp on October 21. Captain Clews was a nephew of the late Henry Clews, Wall Street banker. There was an unexpected incident at the opening of the trial. The prisoner's counsel asked for a jury to be sworn to consider the question whether the prisoner was in a fit state of mind to be tried.

DOCTOR TESTIFIES

The prison doctor testified that in his opinion Towers was not mentally fit to follow the course of his trial. He was mentally very dull, the doctor said, and was suffering from malaria. Dies Soon After Entering Hospital

MONCTON, Nov. 17.—The death of Gordon Joseph Hennessey, a well known resident of Irishtown, occurred in Moncton suddenly yesterday. He collapsed just as he entered the Hotel Dieb Hospital where he had been brought by his brother for treatment. He had not been in good health for some time, but there was no indication that his condition was serious. He was 40 years of age and was a resident of Irishtown. He was a son of the late Patrick Hennessey and was highly esteemed by a large circle of friends. He is survived by one brother, William A. Hennessey, of Irishtown.

SPEAKS OF "QUIBLERS"

Speaking on "Quibblers" Evangelist John H. Wells, in his address in the Coburg street Christian church last night, referred to the Bible incident of the restoring of the sight of the man born blind by Christ. Who appointed the eyes with clay and told the blind man to go and wash. The lessons which he drew from the story were that obedience was necessary to salvation, and that forgiveness of sins was not promised unless there was obedience to the will of God. Mr. Wells said that the arguing man had no time to work, and the working man had no time to argue.

AN OLD RECIPE TO DARKEN HAIR

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays we simply ask at any drug store for "Weyth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, for only 75 cents. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

Work Seem Too Hard? The things that handicap us the most are not so often the obvious things. For instance, study what causes fatigue. To blame it on the work you do is to get nowhere. Forty per cent of fatigue comes from the effort put into seeing. It is costing four in five far more than forty per cent of their energy simply to keep their eyes working. Most Glasses are prescribed for the relief and correction of eye-strain—and not so much for dim sight, as one might imagine. Find out if your eyes really are spending your energy more than natural. Boy Scout Movement Barred In Argentina

BUENOS AIRES, Nov. 18.—The Boy Scout movement has been characterized in Argentina as a harmful influence on the younger generation because of its militaristic tendencies. This opinion was formally expressed by a special committee of the National Council of Education here when recommending that the National Association of Argentine Boy Scouts be denied the right to organize troops in the public schools of Buenos Aires. "The Boy Scouts which are organized in this country present a military character which is not in accordance with the fundamental principles of our pedagogical ideals," said the committee's report.

A. had an illustrated lecture from Dr. William Macintosh on a canoeing trip on the Saint John River at its meeting last night and the wittily delivered lecture was received with hearty applause. Cordial thanks were extended to Dr. Macintosh by R. Edgar Adams, the president, assisted by other kindergartners, gave a demonstration of playing children's games. There were about 60 present. Rev. R. G. Fulton led the devotions and Miss Bessie Holder presided. Miss Vivian Fowler was leader of the junior department. Miss Laura Myles was leader of the primary department group; Miss Ada Finley was leader of the beginners' group, which studied mental characteristics and instinctive behaviours.

COURSE CONTINUES.

The children's department Sunday school workers at their training course in Centenary church last night specially appreciated the period in which Miss Edna Colwell and Miss Louise Estey, assisted by other kindergartners, gave a demonstration of playing children's games. There were about 60 present. Rev. R. G. Fulton led the devotions and Miss Bessie Holder presided. Miss Vivian Fowler was leader of the junior department. Miss Laura Myles was leader of the primary department group; Miss Ada Finley was leader of the beginners' group, which studied mental characteristics and instinctive behaviours.

MARITIME DAY AT WINNIPEG.

Maritime day at the Winnipeg conference proved a fruitful one. The delegates from these provinces had an opportunity for the first time to place before representatives of every part of the Dominion the real position of the Maritimes, and to bring about that national understanding of our situation and our claims which is essential to favorable action.

entirely conflicting statements from both parties to the dispute. The commission, by giving the inquiry all reasonable scope, may be depended upon to dissipate much of the confusion, and to give the people at large a clear idea as to what the demands of justice are. That in itself will be of great importance.

The Montreal Gazette, in discussing the Winnipeg conference, says "the meeting is the fruit of long preparation and some painstaking missionary work in which Mr. S. B. Gundy of Toronto and Mr. A. M. Belding of Saint John have been the most active participants."

The British Board of Trade figures for the first nine months of this year indicate a marked expansion of Empire trade. During the period in question Canada exported to the British Isles products exceeding in value by \$25,000,000 the exports of the corresponding period of last year.

Maritime Day at Winnipeg evidently produced dividends. It marks one more step along the road to Maritime prosperity.

DIGGING DEEP.

The Rhodes interim settlement of the Nova Scotia coal strike will expire in February. It was a compromise agreement intended to relieve the province of the tremendous loss and dislocation of business brought about by the shutting down of the mines, pending a searching investigation by an impartial commission, looking toward the establishment of a satisfactory working agreement.

The commission, which is now fairly launched upon its work, is evidently going to dig deep, being clearly convinced that the situation is one calling for the kind of inquiry that will leave none of the vital problems untouched.

The Duncan commission, it becomes increasingly clear, is facing a task of extreme difficulty. That it will be impartial and courageous may be safely assumed from the character of its personnel. There has been a great deal of bitterness between the conflicting parties in the Cape Breton coal area for many years past, and during the last strike this was more than ever in evidence.

The public has been considerably confused in the past by positive and

INGENIOUS DEFENSE. A LAWYER was defending a man accused of housebreaking, and said to the court:

"Your Honor, I submit that my client did not break into the house at all. He found the parlor window open and merely inserted his right arm and removed a few trifling articles. Now, my client's arm is not himself, and I fail to see how you can punish the whole individual for an offense committed by only one of his limbs."

"That argument," said the judge, "is very well put. Following it logically, I sentence the defendant's arm to one year's imprisonment. He can accompany it or not, as he chooses."

WHEN PLAYED SAFE. British Premier was a young country solicitor in Wales, he was riding home in his dog-cart one day and came upon a little Welsh girl trudging along so wearily that he offered her a ride. She accepted silently, but all the way along, although he tried to engage her in conversation, he could not get her to say anything more than a timid "Yes" or "No."

SOME days afterwards the girl's mother happened to meet Lloyd George, and said to him smilingly, "Do you remember that little girl rode home with you a short time ago? Well, when she got home she said, 'Mamma, I rode home from school with Mr. Lloyd George, the lawyer, and he kept talking to me, and I didn't know what ever to do for you know Mr. Lloyd George charges when you talk with him, and I hadn't any money.'"

HIS QUERY. THE famous criminal lawyer had won a shockingly bad case by eloquence and trickery, and a rival lawyer said to him, bitterly:

"Is there any case so low, so foul, so vilely-crooked and shameful that you'd refuse it?"

"Well, I don't know," the other answered with a smile, "What have you been doing now?"

GOOD DEFINITION. JIMMY is three years old and very fond of telling his dreams at the breakfast table.

Jimmy's answer came quick and sure: "Yes, I do. It's moving-pictures while you're asleep."

A new story is told about Bishop Henry C. Potter. It seems that a lay reader had been complaining to the Bishop that he and his fellows were nowhere recognized in the Prayer Book. The Best of Advice

BY CLARK KINNAIRD

THE BEST TIME TO ENJOY YOURSELF

EXPERIENCE seems to show that there is great wisdom in Seneca's advice, to LIVE EACH DAY AS IF IT WERE OUR WHOLE LIFE.

Instead of always thinking about our plans and anxiously looking to the future, or of giving ourselves up to regret for the past, we should never forget that the present is the only reality, the ONLY CERTAINTY.

Both the past and the future are of less consequence to us than we generally think. The past was very different from what we suppose it to have been.

THE present alone is true and actual. It is the only time that possesses full reality, and our existence lies in it exclusively.

We ought then, to enjoy every hour with a full consciousness of its value. We shall hardly be able to do this if we bemoan the past and worry about the future.

"It is," Schopenhauer remarks, "the height of folly to refuse the present hour of happiness, or want only to spoil it by vexation at bygone or un-certain about what is to come."

"There is a time for forethought, yes, even for repentance; but when it is over, let us think what is past as something to which we have said farewell—and of the future as of that which lies beyond our power, in the lap of the gods."

WE appreciate and enjoy the present more when, in those days when we are well and strong, we remember how, in sickness and sorrow, every past hour that was free from pain and privation seemed in our memory so infinitely to be envied—as it were, a lost paradise.

But most of us live through our days of happiness without noticing them; and it is only when pain comes upon us that we wish them back.

If we are not careful, a thousand gay and pleasant hours of our lives are wasted in ill-humor; we let them slip by unenjoyed.

The present is the time to enjoy yourself. To repeat, live each day as if it were your whole life.

—John Howard Payne.

Doubtless the woman whose skill, recently found in London, was exhibited and described at a meeting of the Zoological Society by Warren R. It is said, however, that this discovery confirms the knowledge that, before the age of Neolithic culture began in the south of England, there was an indigenous population living for the most part in caves, ignorant of pottery or of metals, but making implements of stone, showing a strong artistic sense and living as nomad hunters.

A newspaper story of the sentiments of those early folk, if they could be transported into the metropolis today, would make "A Connecticut Yankee at the Court of King Arthur" tame reading in comparison.

THE FARMER'S MARKET. (Quebec Evening.)

If a farmer is to prosper and know what it is to have plenty, he must be able to load his cart with a full load and go into the towns and villages to cater to his clientele. Towns, villages and country all depend directly or indirectly on industries. If industries are depressed, farmers cannot possibly prosper.

Establish our vast home market, guarantee to our industries the prosperity to which they are entitled, and we shall see the agricultural classes having a taste of that ease which should come to them as a right after the hard work of the farm and the sacrifices which that imposes.

Charlottetown Resolutions Termed Seaboard Bill of Rights As Boards of Trade Hear Case

Secession Idea Ridiculed as One Not Finding Support of "Consequence" But Serious Danger is Seen in Unconcern Attitude

M'KENNA PRESENTS CAUSE FOR EAST

McLean Urges Conference Pledge Support to Delegation From Atlantic Coast; Turnbull Points Out Utilizing Eastern Ports Key to Country's Safety

WINNIPEG, Nov. 17.—A demand for "common justice," a fair share in the benefits as well as the partnership of Confederation and a serious consideration of their problems as a national obligation, was the dominant keynote of frank presentation of the difficulties confronting the Maritime Provinces by the leading delegates from the Maritimes at today's session of the National Economic Conference here.

Many matters were brought to the attention of the conference and despite a congestion of scheduled business, it was unanimously agreed to afford every opportunity to the Maritime representatives to fully realize their cases.

SERIOUS DANGER

*Secession of the Maritime Provinces was ridiculed as an idea which at the present would not find support of "consequence."

A. M. Belding, of the Telegraph-Journal and Times-Star, Saint John, N. B., who recently toured the Dominion in the interest of the Maritimes, declared that there was a serious danger, however, in adopting an attitude of unconcern toward the Maritime Provinces.

"We are proud people," he declared, "and would rather cut loose into the storms of uncharted seas than be considered as mendicants at the doors of this Dominion."

HELD BILL OF RIGHTS

Resolutions passed at the Charlottetown conference early this month, embodying the attitude of the Maritimes with respect to immigration, freight rates, port equipment and other important questions were regarded as the Maritime's "bill of rights." "Do not send us home feeling that we have failed in our mission," he said. Utilization of the Maritime ports, according to D. R. Turnbull, President of the Halifax Board of Trade, was the key to national safety.

"Unless Canada takes full advantage of these ports, they will dry up, and we will cease to be a nation, and would constitute a 'blight' on the memory of those statesmen who were instrumental in bringing about Confederation."

STAGGERING UNDER LOAD

"We are staggering under a great load as we can bear," Mr. Turnbull said. "I would suggest that further expenditures on new railways and waterways, unless as feeders to main lines, should be discontinued, and that no further outlays be made in establishing ocean ports at unnatural and un-geographical points, until such a time as Canada can afford these luxuries. Let us carry our own exports over our own railways to our own seaports. He believed that a new thought would be born as the result of the conference which would make the Maritime Provinces a prosperous, happy and united portion of the Empire."

UNITY HELD WATCHWORD

"Unity was the watchword in time of confederation, in peace time and during the war period. We are asking for unity now," declared H. K. Smith, of Amherst, N. S. "We are not appealing for unity of patriotism but unity on economic matters," he said. The Maritimes could not find markets for their produce and lack of ocean facilities. The once prosperous settlements of Nova Scotia, New Brunswick and Prince Edward Island were held in the stranglehold of depression.

"We are asking for a solution of the Maritime problems as a national obligation." Mr. McLean, Bathurst, N. B., urged the conference to pledge its support to the Maritimes delegation so that they could appear before the leaders of industrial Canada. "Heretofore the cards have been stacked against us and they are stacked against us today. We are nothing but the victims of the Dominion; the rest of the Dominion; all we seek is a chance of working out our own destiny," Mr. McLean asserted.

EMPHASIZES DANGER

A. D. Ganong, of St. Stephen, N. B., emphasized the danger of isolating the Maritimes and development of sentiment favorable to the New England states. Such a development, he believed, was fraught with serious consequences.

Senator McArthur, Summerside, P. E. I., and I. W. Simms, Saint John, wound up the appeal and joined in the combined plea for sympathetic consideration of the Maritime position.

M'KENNA SPEAKS

The Maritime delegation had not ventured forth to recite their plea in troubles or inflict local difficulties upon the conference, declared J. D. McKenna, president of the New Brunswick Publishing Company and member of the Saint John Board of Trade, in presenting the problems of the Maritime Provinces to the Associated Boards of Trade of Canada here today. "We are here to state frankly and honestly those matters which we consider the people of Canada should know and accord sympathetic assistance in solving," he declared.

PROMISES UNFULFILLED

At the time of Confederation promises were made by the leading men of Upper and Lower Canada of good things to come for the Maritimes when federated.

East Supported

WINNIPEG, Nov. 17.—Representations made by delegates of the Maritime Provinces for support in the fight for rights said to be promised when these provinces entered Confederation are likely to receive the sympathetic consideration of the conference of Boards of Trade and Chambers of Commerce at the closing session tomorrow afternoon.

This was indicated tonight when representatives of Boards of Trade in Toronto, Montreal, Quebec and Western cities and the Maritimes undertook to support any reasonable proposals for remedying the difficulties under which the Maritime Provinces labor.

Trade which will function with adequate representation from all the provinces. The details of the organization will be worked out before the close of the conference tomorrow, while important resolutions dealing with the various national and sectional subjects brought before the conference will be submitted. A large number of topics are still to be discussed, but lack of time may preclude their consideration.

PACIFIC ROUTE TALKED

The possibilities of the Pacific trade route and the unutilized market opening up to Vancouver and other Pacific ports, were reviewed by A. M. Dollar, president of the Vancouver Board of Trade.

He predicted that the future centre of world's commerce would ultimately change from the Atlantic to the Pacific, and as an outlet for the agricultural produce of Western Canada, the Canadian Pacific ports were steadily expanding. In the past decade, Canada's exports to the Orient had increased nearly tenfold while the Panama Canal had materially added to the potentialities of the Pacific trade route.

ST. LAWRENCE PROJECT

Outlining the possibilities of the St. Lawrence waterways development project, Brigadier-General H. Mitchell, member of the Toronto Board of Trade, asserted that free and adequate access from the sea to the interior of the country, had unlimited possibilities commercially for Canada. Much time and discussion would still be required, the speaker said, before public opinion would be crystallized in definite action on an undertaking of such great magnitude.

A good deal of information and authoritative recommendations are still needed to bring it about," he said.

IMMIGRATION TALKED

A vigorous discussion, turning mainly to the subject of immigration, occurred at last night's session. Speakers emphasized that immigration must be stimulated. The consensus of opinion was that the tide of immigration could be swelled through the force of public opinion exerted through the bodies represented at the conference in every city and town of the Dominion.

Declaring he had been for many years interested in the question of immigration, Colonel Brown, London, Ont., pointed out the fact that there were 400,000 acres of uncultivated land in that section of Ontario, which raised 45 per cent. of the field crops of the province, and 50 per cent. of the live stock.

U. S. COMPARISON

In the past, a measure of the immigration was due to the feeling, erroneously held by some people, that by living in Canada they were inferior to their neighbors in the United States. This inferiority complex was engendered through the shadow of a population of 100,000,000 people, with immense resources. The complaint was made that the educated young men of Canada would be well advised to follow along the same line. "We are despoiling our country by shipping out our life blood in the form of raw materials," said Mr. Thompson. "While we want people on the land, we must provide some outlet for their offspring," he declared.

DISGUSTED WITH POLICY

One trip through Europe had disgusted him with the immigration policy of the Federal Government, declared C. W. Petersen, of Calgary. He had found in Europe, a first class exclusion agency, he said. In Great Britain, outside of the two railways, there was nothing being done and the railways were doing the best they could, under adverse conditions. Canada had a population of 15,000,000 people, and the doors should be thrown open, and every effort made to get these people.

MR. SCLANDERS SPEAKS

Hearty accord with the views of Mr. Petersen, was expressed by E. MacIver, immigration, declared Mr. Sclanders, was the greatest political blunder any country ever made, and the sooner the restriction is removed, the better the country would be. If admission was granted to all wealthy, God fearing people, with the Anglo-Saxon dominance already in the country, Canada could soon produce a higher type of composite individual. Development should be two fold, agricultural and industrial.

While many of the young men from the Maritimes came to Western Canada, they were not regarded to be a section of the Dominion, but they were

SMUGGLING TALKED OF

Addresses of interest were also delivered by Paul E. Joubert, president of La Chambre de Commerce, Montreal, and G. Henderson, of the Montreal Board of Trade, respectively, dealing with the attempts directed toward the suppression of smuggling and commercial arbitration.

Assurance is already given of the organization of a Dominion Board of

brudged to another country. A United States senator had sought to place Canada under the quota law, which would have stopped the least from Canada to the United States. The United States government had taken the stand that when the government of Canada asked to have this bill put in force, it would be put through, but as yet the government of Canada had not taken steps to stop this leak.

WEST OPTIMISTIC

Colonel Robert Starks, Montreal, spoke briefly on the steps that were being taken to settle the Northern district of the province of Quebec, and C. W. Rowley, Toronto, had a word to say for the farmers of Western Canada. The condition of the western farmer, said Mr. Rowley, was not nearly so bad as one would think. While some were hard up, many were making money, and the people of the country had the heart and would come out all right.

Deaths

Mrs. Ruth Huestis
At Upper Gagetown on Saturday, Nov. 14, Mrs. Ruth Huestis, aged 91 years, passed away. Mrs. Huestis was in good health and able to be around within a few days of her death. She had no family but leaves many relatives to mourn.

In early life she joined the Baptist church and was one of its faithful supporters. Her husband predeceased her about four months ago.

The burial services were conducted by the Rev. J. E. Gooline.

Mrs. T. C. Patterson
SACKVILLE, Nov. 17.—Mrs. Thos. C. Patterson, aged 68, died today after several weeks' illness. Besides her husband she leaves one son, J. H. Patterson, of Penitentiary, B. C. also two sisters, Mrs. Lowe, St. Martins, N. B., and Mrs. Coates, of Calgary, Alta., and two brothers, Enley, Berkeley, Cal., and Hibbert, Victoria, B. C. She was born at Brookdale, N. S., but resided in this vicinity for more than 40 years and was highly esteemed by a large circle of friends.

John G. Hamilton
ST. STEPHEN, Nov. 17.—In the death of John G. Hamilton, which occurred at midnight Monday, St. Stephen lost another of its valued and

most respected citizens, a man of general personality and sterling character. His last illness had been of only a week's duration, his death being caused by poisoning, the result of diabetes of long standing.

In politics he was a Liberal, taking an active part in both Canadian and local affairs. He leaves one daughter, Mrs. W. B. Hawthorne, of this town, and two sons, James, of St. Stephen, and Ashton, of Brockton, Mass. The funeral will be held Thursday afternoon at 2.30. Interment will be in the St. Stephen rural cemetery.

Miss Flora LeBlanc
MONCTON, Nov. 17.—The death of Flora LeBlanc occurred at the home of her sister, Mrs. Leandre Leger, 69 Ferguson street, today. She was 22 years of age. She is survived by her mother, three sisters, Mrs. Leandre Leger, Mrs. Melas Belliveau and Eda; also two brothers, Arthur and Richard.

Frank F. Dunfield
MONCTON, Nov. 17.—The death of Frank F. Dunfield, a former New Brunswick, occurred on Oct. 23 at his home in Berlin, Mass., his funeral being held in that town on Nov. 1. He was born in Cornhill, Kings county, on July 29, 1877. He graduated from Bates College in 1904, and received his master's degree from Dartmouth in 1912. From 1904 to 1920 he taught in the United States, being principal in high schools of New England. In 1920 he moved from

Middletown, Conn., to Berlin, Mass. He was town treasurer of the latter town and prominent in the business life of the community, having been elected president of the Board of Trade there for the third year.

Mrs. A. Melanson
BATHURST, Nov. 17.—(Special)—Much sympathy is expressed for Alder Melanson, sub-manager of Burns and Melanson, Ltd., in the death of his wife after a lingering illness. She is survived by her husband and one sister, Miss Sarah Frances Meahan, and one brother, Dr. J. C. Meahan.

Mrs. Leo Moran
CHATHAM, Nov. 17.—Relatives of Mrs. Leo Moran have received word of her sudden death in Boston, on Monday. She is survived by her husband and one young daughter, also by her parents, Mr. and Mrs. Thomas Clancy, two sisters and two brothers. Interment will be made at Boston.

Weddings

Latham-MacDonald.
The home of Mrs. Gilbert Smith, 11 Carolina Avenue, Jamaica Plain, Mass., was the scene of a pretty nuptial event Thursday evening, Nov. 12, at 7.30 o'clock, when Miss Margaret MacDonald, daughter of Mrs. Effie MacDonald, of Sydney, C. B., became the bride of Percy Latham, youngest son of Mrs. Jane Latham, formerly of Saint John, but now living in Jamaica Plain, the officiating clergy being the Rev. Thomas Campbell, rector of St. John's Episcopal church, Jamaica Plain.

The bride looked very charming in a gown of white duchess satin with pearl trimmings, veil and orange blossoms. She carried a shower-bouquet of bridal roses and lily of the valley. Mrs. Chester Chapman, of Brookline, consisting of the bride, was matron of honor. She was becomingly attired in a gown of pink satin and carried a bouquet of Ophelia roses. George Latham, brother of the groom, was best man.

The bride entered the room to the strains of Lohengrin, pleasingly rendered by George Wellington, of Fitchburg, Mass. She was given away by Neil MacKary, her cousin. The house was prettily decorated with plants and cut flowers. For the honeymoon wedding supper was served after the ceremony, Mrs. Smith, sister of the groom, presiding, after which dancing was enjoyed. Numerous gifts testified to the popularity of the bride and groom.

Why Should Wives Feel That They Have Exclusive Right to the Use and Hospitality of the Home?—The Mere Husband Who Pays Rent, Food, Heat and Light Costs Rarely Entertains His Family and Friends and Seldom Has Even One Room to Himself.

IT is a matter of continual wonder to me that women do not realize how unjustly they treat their husbands about their homes. Of course, a woman's home is her castle and all that, and it is right and proper that she should be the ruler of it.

A prominent actress appearing in a play on the New York stage was required to change her costume 12 times at each performance. With the change into street costume this made 14 changes a day, and double that number on each of the two matinee days—a total of 28 changes in the course of a week.

But all of that does not give the wife the right to monopolize the home and use it for her sole behoof and benefit, as so many women think it does. The man who pays the freight; the man who buys the house and who supports it should have a few poor, simple privileges in it which even a wife should recognize and respect.

He seldom does, however. There is not one home in a thousand where the man of the house has even a room of his own which he can furnish in accordance with his own taste and where he can pass around as much as he likes and indulge in his personal fads.

I HAVE known many men who tried to establish dens for themselves in their houses, but before they got fairly settled, with their collections of stamps, or fishing rods, or stuffed animals, or what not disposed around them their wives decided that it would be the place for a sewing room or the nursery, and the collections went to the attic and the sewing machine and the cradle crowded the poor husbands out.

Three hooks in a closet and a couple of drawers in a chiffonier are about all that most men get for their own private use in their homes, and at that they generally find that their wives and daughters have superimposed feminine frigidities over their best suits and parked their pin stockings on top of their shirts.

WHY women should feel that they have an exclusive right to exercise the hospitality of the home nobody knows, but they do. If you will observe you will see that in most homes it is the wife's family who are perpetually billeted in the spare bedroom, while the husband's family makes few and occasional visits. You will observe that there are ten men who have their mothers-in-law living with them to one man whose mother resides under his roof.

AS TO the friends who come to the house, the wife considers it her prerogative to settle that little matter by herself, and thinks that her husband has nothing to do with it. She spreads the mat with "Welcome" on it for those she likes, and slams and bolts the door in the faces of those she doesn't fancy. And she practically never fancies her husband's old friends.

His wife has frozen them out and substituted her own cronies for them. She expects him to be nice to his friends, but she doesn't feel it incumbent on her to be nice to his friends. Which is queer feminine logic.

Wives are always complaining that their husbands are not willing to stay at home. Perhaps the remedy is making the home democracy instead of an autocracy. If men had more rights and privileges at home they might like staying in it better.

With the Women of Today

THERE is only one "lady weather-man" in the world, so far as is known. She is Miss E. W. Pilkington, in charge of the meteorological station at Exton, England. Miss Pilkington succeeded her father, who had held the post for 26 years.

Miss Pilkington tries to inject a little humor into the serious business of forecasting the weather, couching the prognostications in original language. "Every day in every way it grows warmer and warmer," was one of her sayings. "All the weather factors are dressed in their Sunday best," she added. East winds she refers to as "Oriental character."

Mrs. Fannelle Sutherland, police judge of Paris, Bourbon county, Ky., is one of the only two women who preside over city tribunals in the United States. Judge Sutherland asserts that women make better jurors than men, that they are not afraid to stand for their convictions in making a decision, and that they have more respect for law.

A POET IN THE MOUNTAINS

FROM the pen of Michael Hargadon, of Montreal, a true and authentic poet, says J. B. Doland in the Catholic Register, comes this pretty volume "Among the Mountains," containing seven beautiful poems on the Canadian Rockies. Titles of the poems are: "Rhine," "Lake Louise," "Moraine Lakes," "Emerald Lake," "Glacier," "Waterfall," and "Camp Song."

What more than Banff would one require To make a paradise? A poem on a waterfall contains these lines: Never old your music ringing Since the earth was planned, Moving always to the swinging Of the mighty Master wand

There is no grander place to live, And when through death we go, It would be sweet if we could come To dwell along the Bow, With all the luxuries of earth, And much that heaven supplies.

Pauline Frederick Is Back From Great Triumph

By RUSSELL J. BIRDWELL. The greatest ambassador to Australia, that the United States has ever had is coming home.

Pauline Frederick, so acclaimed by the enthusiastic press and public of the Antipodes, has just completed, under the guidance of Reg. L. "Snowy" Baker, noted Australian sportsman, one of the most remarkable stage tours ever made by an American actress.

Nine months ago Polly sailed from San Francisco for Australia on a 14-weeks tour in "Spring Cleaning" and "The Lady." After landing in Melbourne, Pauline took the Anzacs by storm.

According to reports from Australia, never has a person from the States so entirely won over the hearts of the Antipodean inhabitants. Every night race horses to merchandise was named in her honor.

Pauline plans to re-enter motion pictures on her arrival in Hollywood.

Now Science Gives A Lift To Raisers of Oysters

By DAVID DIETZ.

SCIENCE is coming to the aid of the oyster industry in the same way that it has been helping agriculture for many years. Just as by studying soil conditions and the nature and habits of plants, science taught the farmer how to grow bigger and better crops, so it is now teaching the oyster fisher the same valuable lesson.

The U. S. Bureau of Fisheries has just announced the completion of an important study of the feeding habits of oysters. The bureau finds that the oyster gets 95 per cent. of its food from the water which it drinks, or to put the case more accurately, filters in and out through its gills. The average oyster, the bureau finds, filters in seven hours and a half gallons of water every 24 hours.

"What is it," said Mister Dodger, "that is round and bright and shiny and has a face on it?" "Mi-ew!" laughed the cat. "That's certainly easy. I think you made it up just for me. It's the moon!"

German Population At Pre-War Level

BERLIN, Nov. 12.—Germany appears to be well advanced on the road to making good the loss of population, if not of territory, suffered by the Versailles treaty.

Complete returns of the June census put Germany's total population at 68.3 millions. This represents a gain of 3.3 millions over the 1919 census when the population had dropped from 67.8, in 1914, to 60 millions.

War and blockade were responsible for 20 per cent. of this shrinkage. The remainder was lost with the provinces ceded to France, Denmark, Poland and Czechoslovakia.

Despite these contributions to the toll of war and peace, Germany's present territory has already reached and surpassed its pre-war population. The birth-rate, far below the death-rate at the time of the armistice, has been rising steadily.

Saint John Association for Combatting Tuberculosis Has Annual Meeting

A. M. Peters Re-elected President—Seek Enforcement of Law Re Expectoration

The Saint John Society for the Prevention of Tuberculosis at its annual meeting last night appointed a committee to approach the City Council regarding the enforcement of the by-law forbidding expectoration on the streets and in public places.

A. M. Peters, president of the society, said that in Western Canada infringing this by-law led to arrest and that he had been horrified when he came to Saint John to see how the by-law was disregarded here.

Dr. H. A. Farris said that he felt like wearing rubber boots when he went through the city market because of expectoration and nothing was done about the enforcement of the law. He had seen a policeman spit into a public room. Dr. Farris pointed out that not only tuberculosis, but whooping cough, measles and many other diseases, are spread through expectoration.

The meeting was held in the Health Centre with Mr. Peters in the chair and received very gratifying reports of the work of the society. Mr. Peters was re-elected as president.

SECRETARY'S REPORT

The secretary's report reviewed the activities of the year and extended hearty thanks to Dr. Farris and his assistants at the county hospital for their work at the tuberculosis clinic.

The treasurer's report showed a balance of \$114.99, as against the balance of \$185.07 with which the year had been started. Receipts included Christmas seals, amounting to \$1,076.59; municipal grant, \$918; donations, \$249.85. Expenses included Christmas seals, \$115, and salaries, \$3,000.

CLINIC REPORT

The clinic report, given by Miss Alice Hegan, showed 323 new cases and 104 readmissions had been on the register with 330 on the register at the end of the year. At 131 clinics the attendance was 996. There were 216 X-rays, 289 fluoroscopic tests, 89 patients receiving free medicine and 20 receiving free milk, while the nurses made 4,810 visits, had 107 contacts examined and 46 reported to the Board of Health. During the year eight patients died, 10 were sent to River Glade and 48 to the county hospital.

ELECTION OF OFFICERS

The election of officers resulted as follows: President, A. M. Peters; vice-presidents, first, J. A. Likely; second, Rev. A. L. Fleming; treasurer, Miss H. Sidney Smith; secretary, Miss K. Bell; assistant secretary, Mrs. Campbell Mackay; additional members of the executive, Mrs. G. E. Barbour, Mrs. Arthur Bowman, Mrs. Bushy, Mrs. W. H. Shaw, Miss Hilda Shaw, Mrs. F. B. Ellis, Mrs. Hauer, Mrs. R. B. Buchanan, Mrs. Daisy Peters, Mrs. J. Goldman, Mrs. Bruce Burpee, Miss Agnes Warner, Mrs. M. B. Edwards, Mrs. F. G. Marr, Mrs. J. H. Doody, Mrs. F. Taylor, E. L. Hyman, F. H. Schofield, D. C. Clinch, T. E. G. Armstrong, C. C. Kirby, Rev. W. M. Duke, George Ewing, H. A. Porter, F. G. Spencer, G. E. Barbour and I. H. Northrup, and ex-officio, Dr. H. A. Farris, Dr. William Warwick and Miss Hegan.

DR. FARRIS HEARD

Dr. Farris spoke of the preparations for the sale of the Christmas seals this year emphasizing the good which the seals do in bringing the interest of people and spreading information.

Dr. Farris presided lightly over the work of the nurses, Miss Hegan and Miss

Brophy, especially in demonstrating the clinic work. A 35 per cent. reduction had been made in the death rate during the year. He stressed the fact that tuberculosis is a curable, preventable and unnecessary disease.

Dr. J. G. Wherrett, provincial traveling diagnostician congratulated the Association on the work being done in Saint John. He said that in the sixteen years the Association had been in existence the deaths in Saint John from tuberculosis had been cut in half although the population had increased from 40,000 to 47,000.

DR. WARWICK SPEAKS

Dr. William Warwick, district medical health officer, spoke of the growing realization by the authorities in outside counties that advanced cases of tuberculosis, if not looked after, would mean a larger problem in the days to come. He believed that poor housing conditions in Saint John and throughout the province were a serious obstacle in the fight against tuberculosis. He thought there was need for much educational work, in better living methods and in nutritional values.

Mr. Peters declared much of the success of the Association was due to the enthusiasm of Dr. Farris.

Dr. Farris said he hoped himself to see the day when tuberculosis was pretty well under control. He held the disease could be conquered in the present generation. He found there was appalling ignorance in Saint John regarding the County Hospital and he reminded his hearers that 25 per cent. of the patients were discharged as non-tubercular and that at the tuberculosis clinic of the society not more than 15 per cent. of those attending were told they were tubercular. Rest, he said, was the big factor in the cure of tuberculosis and climate was of no importance.

A resolution of regret in the death of Mrs. David McLellan was passed.

COUNTY HOSPITAL

He spoke of the splendid equipment at the County Hospital and urged the

Teach your Children to PREVENT Tooth Decay

See that your children get the full benefit of your experience. Teach them early in life to preserve their health by preventing the decay of their teeth. Teach them to clean their teeth regularly.

Colgate's is the ideal dentifrice for children because it is safe. It contains no strong drugs or harsh grit. It cleanses thoroughly and polishes—removes food deposits. Its delicious flavour simplifies the teaching of Dental Hygiene to young people.

For the sake of their future health and happiness—see that your children use Colgate's Dental Cream every day—night and morning—and take them to the dentist at least twice a year.

DR. FARRIS HEARD

Dr. Farris spoke of the preparations for the sale of the Christmas seals this year emphasizing the good which the seals do in bringing the interest of people and spreading information.

Dr. Farris presided lightly over the work of the nurses, Miss Hegan and Miss

members to visit the institution. He pointed out the absurdity of people turning away with fear from a tubercular patient who was taking every precaution not to spread the disease and not worrying at all about the man who was expectorating everywhere.

Hon. Dr. H. J. Taylor, Minister of Public Health, Dr. Roberts and Dr. Collins of River Glade, regretted their inability to attend, although specially invited.

PORTLAND UNITED W.M.S. HAS BIRTHDAY

The annual birthday party of the Portland United W. M. S. yesterday evening in the new parsonage, Main street, was greatly enjoyed. Mrs. James Stephenson was general convener and was assisted in receiving by Mrs. E. A. Goodwin, wife of the pastor, and Miss Henderson. Mrs. Fred Smiler and Mrs. Allan Lingley had charge of the program. A piano solo by Miss Emma Chow and a vocal solo by Miss Phyllis MacGowan, were followed by a missionary contest. Miss McIntyre read a short sketch of Canadian missionaries at home and abroad. Dainty refreshments were served. Miss Dora Worden ushered the members to the dining room where Mrs. Duncan G. Lingley and Mrs. A. J. Myles poured tea and coffee at the prettily appointed table decorated with pink rose buds in bud vases.

FUND GOING WELL

Rev. J. S. Bonnell returned yesterday from Yarmouth where two mass meetings were held on the previous evening, one in the Wesley church and one in the Yarmouth Kirk, both churches be-

ing in the United Church of Canada. The speakers at the two mass meetings were Rev. Dr. J. W. McConnell and Mr. Bonnell, who alternated at the churches. Mr. Bonnell said last night that the reports which had been received from the churches in the Annapolis Valley indicated that in each congregation the allocation for maintenance and extension fund would be oversubscribed.

Do you know that Bon Ami comes in two forms—cake and powder? Both are made from the same ingredients—both have the same wonderful gift of cleaning and polishing without scratching.

For some purposes you'll want the Bon Ami powder in its handy, sifter-top tin—it's so easy to shake out on a damp cloth. For other uses you'll prefer the solid Bon Ami cake that you can rub on the cloth like soap.

Most housewives keep both the cake and powder always on hand. These two "partners in cleanliness" are unequalled for cleaning and polishing all the things listed at the right.

Case of East Is Given Day At Conference

BY A. M. BELDING.

WINNIPEG, Nov. 17—This was Maritime Province day at the conference. J. D. McKenna this morning presented the case for the Maritimes in a speech of 40 minutes that covered the whole ground and was frequently punctuated with hearty applause. Afterward he was personally congratulated by many delegates from the other provinces.

In the afternoon the Maritime situation was presented with vigor by A. M. Belding, Angus McLean, L. W. Simms, R. K. Smith, of Amherst, Senator McArthur, of Summerside, A. D. Ganong and J. D. Palmer.

Again in the evening the subject came up and warm sympathy was expressed by representatives of the Toronto, Montreal, Calgary and Quebec Boards of Trade.

ANSWERS OBJECTION

A discordant note by one western delegate brought A. M. Belding to his feet with a quick reminder that the action of the Maritimes since early last winter was not a series of idle gestures, but that the Charlottetown resolutions were the considered and solemn declaration of these provinces concerning their needs, and he made a strong appeal to the conference to endorse them. A resolution of conference will be adopted tomorrow.

The Maritime delegates were tonight dined by the Maritime Province Association of Winnipeg in royal fashion, but had to leave early to attend the conference meeting.

Doughty Expected To Be Freed Soon

OTTAWA, Nov. 17—Because of good behaviour during the four years and nine months of his confinement in Kingston penitentiary, John Doughty, former secretary to Ambrose Small, will probably obtain his liberty early in the New Year. The exact date of his release is indefinite. It depends entirely on his conduct during the remainder of his period of confinement.

COST OF LIVING RISES

OTTAWA, Nov. 17—Cost of living is up again. The Department of Labor figures give the family budget at \$10.89 at the beginning of October, as against \$10.81 for September and \$10.81 for October, 1924.

ACCIDENTAL DEATH VERDICT RETURNED

Evidence All Wore Life-belts Given in Case of Shelburne Tragedy

SHELburne, N. S., Nov. 17

—Evidence heard at the inquest this afternoon into the drowning in the harbor last night of eight members of the crew of the United States Coast-guard Cutter Morrill, indicated that all of the nine men, who put off in the 26-foot ship's boat from Cox's Wharf at 5 o'clock last night in a gale and rain-storm, wore regulation lifebelts. This is in contradiction to previous reports that the men had not had time to don the life jackets.

JURY'S VERDICT

The verdict of the coroner's jury was that the eight men had met death due to the accidental capsizing of a boat in a heavy gale of wind.

Three Fined After Liquor Raid Is Made

MONCTON, Nov. 17—In the police court here today Arsene Arsenault was charged with having liquor in his possession and two others with drunkenness. Arsenault was fined \$150 and \$2.50 costs in default of payment three months in Dorchester jail. The other two were fined \$5 and \$10 respectively.

Montreal Judge Punishes Bigamist

MONTREAL, Nov. 17—Charles Stewart Martin was today sentenced to two years for bigamy by Judge Cusson in the Court of Sessions. Evidence showed that in May, 1919,

VOLSTEAD ACT IS CALLED FAILURE

Drunkness Figures in U. S. Striking, Says Moderation League

NEW YORK, Nov. 18.—A survey by the Moderation League, Inc., made public indicates that drunkenness in the United States has increased since 1920 until arrests for intoxication in 1924 nearly reached the pre-prohibition level.

Compilations of arrests in 300 cities or towns in the United States with a population of 4,000 or more showed that 606,737 persons were arrested for drunkenness in 1914 and 490,782 were arrested in 1924.

"We cannot escape the conclusion," the league stated, "that the Volstead Act has failed utterly to do what was intended to do—promote temperance and sobriety."

According to the league figures in 1914 and 1915 the average for arrests for drunkenness remained practically the same but increased in 1916 and 1917. In 1918 and 1919 emergency war time restrictions on alcoholic liquors caused drunkenness to take a big drop.

In 1920 the figure dropped to 226,070, but after that gradually rose to about the pre-prohibition level.

CALLS FIGURES STARTLING.

The league stated that it determined upon its comprehensive survey of prohibition condition because "the figures for arrests for drunkenness published in 1924 by the World League against alcoholism were so startling."

Canada Potato Crop Valued at \$64,486,000

OTTAWA, Nov. 17.—Smaller yields and higher returns is the story of Canada's potato harvest in 1925. The preliminary estimate issued by the Dominion Bureau of Statistics shows that 44,497,000 hundredweights of potatoes were gathered this fall from 545,891 acres. The average price of the tubers was \$1.45 per bushel, making the estimated value of the crop \$64,486,000, which is about \$18,500,000 more than the 1924 crop.

MARRIED MEN WIN

Well Argued Debate is Held by St. Andrew's Young Men's Club

The married men won in a well argued debate held last night at a meeting of the Young Men's Club of St. Andrew's church. J. J. Murray, president, was in the chair. The resolution was "Resolved that single life is preferable to married life." The affirmative was supported by Charles McInnis, Donald Young and Harry Rossiter. The negative side team was composed of Ira Sewell, J. A. Robertson and G. Piers. The judges were Dodd Tweedie, Harold Gregg and R. H. Gale. In announcing the negative side the winners they complimented the teams on the arguments and presentation and said the negative had won only by a small margin.

After the debate there were several closely contested games of volley ball. At the next evening in the public speaking course of the club Rev. J. S. Bonnell will take up the criticism of the papers on Saint John as the winter port of Canada which have been submitted by the members. He hopes to have a paper from every member of the club.

NOTES TELL ALLIED PLAINS TO LIGHTEN GERMAN BURDENS
Cologne Evacuation; Troop Reduction in 2 Zones Decided

MANY ORDINANCES WILL BE ABOLISHED
Changes Decried in Order to Anticipate Good Will of Teutons

RECIPROCATION ANTICIPATED
The documents emphasize that the allies in this showing confidence in the goodwill of the German government and people, are anticipating reciprocity of such confidence and goodwill.

READY TO GIVE AMNESTY
The note, recalling the concessions already announced, intimates that the Rhineland Commission is prepared to grant large measures of amnesty on sufficient guarantees being given by Germany with regard to the position of individuals having relations with the occupying armies.

ADVANTAGES REVEALED
The note indicates the advantages of the foregoing to the German population and the relations with the occupying forces-that the reduction in troops to figures approaching normal will enable the return of land and public buildings heretofore used for billeting troops and the suppression of the system of delegates entrusted with liaison duties between the occupying troops and the German authorities.

Cut In Freight Rates Asked By Lumbermen's Association

MONTREAL, Nov. 17.—A request for a 25 per cent reduction in freight rates on shipments of lumber from eastern Canada to New England was made by a delegation of officers of the Canadian Lumbermen's Association, which waited on the Canadian Pacific Railway and the Canadian National Railway today and which will approach the Boston & Maine, the Boston & Albany and the New York, New Haven & Hartford railways for similar concessions.

BRITISH COLUMBIA

Lumber from British Columbia and the west coast of the United States can be brought via the Panama Canal to New York and New England "cheaper than we can produce, let alone sell," Mr. Champoux's claim. The low water rates on this route had lost to lumbermen of eastern Canada most of their New England market.

CRITICISMS STATEMENT

Mr. Champoux criticized the statement issued by the federal Department of Lands and Forests stating that this year's cut was one-third over the average for the last 10 years. Amongst the delegates who met the railway representatives were David Champoux, of Campbellton, N. B., president of the Canadian Lumbermen's Association; R. L. Sargent, of Ottawa, secretary; Arthur H. Campbell, of Montreal; George P. Bulchibie, Bathurst, N. B.; W. E. Golding, of

N. B. COMPARED BY MONTREALER TO FAMED NEW ZEALANDERS

ALL BUT ONE OF WINNERS ON SCHOOL OUTFITS

MacTier Cup Winners Definitely Through for the Season

FREDERICTON, N. B., Nov. 18.—Placing the MacTier Cup away carefully and doffing their football tops with a tinge of regret, University of New Brunswick's brilliant 1925 rugby eleven turns to the classroom and lectures now. The team will not play again this year, according to announcements at a dinner Monday night.

FOUR PLAYERS LEFT

Four players will be graduated in May next and lost to the team. They are Fraser and Seely of the three quarters and MacPhail and Odell of the forwards. Academy standing must be maintained to permit of students representing their college on teams and that also enters into the situation and changes the personnel.

BURDEN CONGRATULATED

Coach Burden has been heartily congratulated upon the way in which he worked the team up. Coach Cass of Fredericton High whose team won the New Brunswick school title at Sackville Tuesday deserves credit also for his instructional work as more than half the team learned football with him. Ability to play school rugby evidently is what makes successful college teams nowadays.

COMPARED TO N. Z.

A letter to Chancellor C. C. Jones congratulating him upon the brilliant rugby played in Montreal Saturday which was read by the chancellor before the Fredericton U. N. B. Club. Tuesday night, stated that Captain Seager, of the Montreal English Club who played against the U. N. B. team, had characterized the red and black wearing Saturday as being as good as that of the New Zealand team which played in the Old Country two years ago.

Series of City Meets Strongly Urged At Annual Skating Meeting

Along The Sport Trail

By JOHN A. DUNLOP.

ONE WEEK from tomorrow night, the curtain goes up on the 1925 professional hockey season in the east at Boston when Pittsburgh invades the Hub. The informal opening took place this week with Victoria Cougars and Montreal Maroons doing the honors at Montreal. Tonight, Canadiens hook up in Montreal with the Pacific Coast team. This will be the greatest season in the history of hockey due to the inclusion of three big American cities in the circuit, Pittsburgh, New York and Boston, and some attendance records are bound to go. That hockey will flourish in these big cities is a question that few people ever think about for the idea of hockey falling to draw big crowds is seldom considered. The game is an attractive one and the time is not far distant when a purely United States league will be in operation. There has been a lot of talk on the other side about developing their juniors and thus doing away with the practice of securing Canadian stars. If they started now on an extensive program in this direction, it would take between five and ten years for any results to show. In contrast to what might be termed this artificial and forced method, we have in Canada a natural system of development springing from our rather rigorous winter climate that makes a playing surface out of every pond. On paper, this U. S. junior development sounds good but in our humble opinion so long as our friend Jack Frost quarters most of his legions above the international boundary just so long will Canada provide the real hockey stars of the entire world. And that means until Gabriel plays his saxophone.

GENTS by the name of Bogoljubow and P'gairtychuk, they say, are in the running at the international chess tourney at Moscow these days. The makers of the Pullman cars should take note.

THEY KNOW how to appreciate their athletic heroes at Fredericton, whatever else may be said of the capital city. Hardly had the wires finished ticking off the news of U. N. B.'s win of the MacTier Cup before the Common Council had met in extraordinary session and prepared plans for a welcome. The students and co-eds combined and a splendid demonstration was tendered the young gridiron heroes. There is nothing like getting the glad hand as you step off the train and see that the home folks appreciate what you have done. It was a great and notable victory and further enhanced Fredericton's sporting reputation. When you look back over the capital city's record in the athletic world, it is surprising the number of times they can produce a winner. It seems to be a characteristic to be thorough in the matter and leaving nothing to chance. For its population, Fredericton is in the front rank of Maritime cities. A poor entry from Fredericton is a rarity these days.

ROGER PECKINPAUGH says that Buckey Harris asked Walter Johnson at every inning if he wanted to quit. Asking the big Swede to quit is like our asking the government for a station. Buckey should have been more polished and used the word "retire." There's a difference.

THE ADMIRAL BEATTY'S generous offer to the Saint John Amateur Skating Association at the annual meeting last night in inviting Clas Thunberg, Olympic champion, to accept the hospitality of the hotel during his stay here was greeted with generous applause and well it might. Wholly apart from the monetary consideration involved in the offer is something deeper and finer, and that is the quiet recognition by Manager Peters of the fact that this meet is a co-operative affair and needs the backing and boosting of every citizen. The Admiral Beatty has done its share well and has set the pace for citizens to follow. The offer was totally unexpected to the association and it aroused considerable enthusiasm among those present. At no cost to the association—and when you get down to bedrock that means Saint John—the Olympic champion will be looked after in the best possible manner. Is that not something to rouse up considerable pep in regard to the big meet? We only hope the contagion of this public-spirited example will spread its good work throughout the city and that we shall all unite for the common good. Can Saint John for once stop all bickering and petty quarrelling and set our eyes on the goal ahead and overlook the many little difficulties that will cause irritation? If we do this resolutely and give the local association what it needs—our co-operation—that job will be easy. A united, solid front is what we need. In union there is strength.

ATTACKED BY RAM.

Percy Canning, an elderly farm hand, had his shoulder broken when he was attacked by a ram while herding cattle on John O'Regan's farm near Spruce Lake last Friday. He was cared for at the home of Mr. and Mrs. Hurlie for several days as he did not wish a doctor, but yesterday, as he was still suffering considerable pain, he was brought to the General Public Hospital. His condition is not considered serious.

A. P. PATERSON AGAIN HEADS ASSOCIATION

N. B. Skating Body Also Holds Its Annual Session

SKATING got properly set for a flying start at the annual meetings of the New Brunswick Skating Association and the Saint John Skating Association in the Board of Trade rooms last evening with the presidents in both cases being re-elected. Frank White heading the provincial body and A. P. Paterson of the local one. Encouraging reports were received at both meetings and talk regarding a series of local meets for skaters in the city was heard in its final third round with regard to the law.

SECRETARY'S REPORT

In his report, Secretary D. J. Corr, reviewed the activities here for the past few years in conducting championship meets which had proved very successful and spoke about the premier meet that is to be held this coming season. He also spoke about the series of local skating meets held last winter and re-late in the season and it was unable to finish out the schedule, but hoped that the series would be started earlier this season. The membership drive last year was responsible in over 5000 citizens joining the association, giving it the largest membership of any skating association in North America.

Last year the association had financed Charles Gorman and Willie Logan on the circuit and both had performed wonderfully well and he would not be surprised to see Charlie Gorman win the World's title from Thunberg this season.

After the report of L. V. Lingley, treasurer, had been read, a nominating committee composed of Frank White, Thomas Nagle and K. J. MacLachlan, H. P. Boyaner, Warren Gray, C. A. Owens, Shirley Ellis, K. J. MacLachlan, P. D. McAvity, R. S. Sims, S. A. Payne, T. A. Armour, Frank T. Lewis, H. P. Robinson, H. G. Ellis, Frank White, H. J. Sheehan, J. C. Chesley, Paul Quinn, N. P. McLeod, Roy Henderson, Thomas Nagle, T. E. Simpson, H. M. Cleary.

A communication was read from W. J. Stack and N. Jenkins who requested the privilege to supply 15,000 programmes for the World's meet and would pay the Association \$500 for the privilege. The matter was left in the hands of the executive, but the executive appointed a strong committee to take up the matter with the school board, and also another committee be appointed to look after the holding of a series of city races this season.

On motion a hearty vote of thanks was tendered D. J. Corr for the excellent work he has accomplished during the past few years in the holding of skating meets in the city, and for his untiring efforts in making arrangements for the coming world's evening.

When asked what he thought about holding a big meet on Lily Lake, Joe Tebo replied that the Lake was there if it was needed, former meets had been conducted there, but he was quite willing that some other rink should have the opportunity to hold the meet if the Association so wished.

A GOOD OFFER

Great applause greeted the reading of a letter from H. A. Peters, manager of the Admiral Beatty Hotel Company, Ltd., who said he took great pleasure in extending to Clas Thunberg a hearty invitation to accept the hospitality of the Admiral Beatty Hotel while participating in the struggle for the World's Championship. He wished the association continued success in the contemplated meet. On motion the secretary was instructed to acknowledge the receipt of the letter and the matter was left in the hands of the executive for further action.

SHADE DROPPED SLATTERY THREE TIMES IN THE FINAL THIRD ROUND WITH REGARDS TO THE LAW. SLATTERY BECAME OVERCONFIDENT OF HIS OWN ABILITY. THREE MONTHS AFTER THE SHADE (FRANK BESSERBERG) CONQUERED SLATTERY THAT HE HAD NOT ARRIVED.

The president called for expressions of opinion regarding the holding of the series of local meets last season. Charles Lingley of the South End said that a number of races had been held in the South End, they had been well attended and were very successful and he thought the idea a good one and that it should be continued.

H. A. Nixon, who had acted as director of last year's meets, stated that the boys were enthusiastic over the series and were looking for more races during the coming season.

John Thornton said that he was in accord with the others that the races should be held again this season.

After the report of the New Brunswick Amateur Skating Association was held in the Board of Trade rooms at 7:30 o'clock last evening with President Frank White in the chair. In opening the meeting, Mr. White thanked all for their co-operation during the past season and hoped that the merchants would back up such a move.

After the president announced that the executive committee would meet at the office of Thomas Nagle, Prince William street, this afternoon at 4 o'clock, the meeting adjourned.

ENTRIES INDOOR MEET TO CLOSE ON SATURDAY

Practise Hours At Arena Announced by Management

ENTRIES for the Maritime indoor track and field meet to be held at the Arena on Friday, November 27, are coming in fast and every event is expected to be hotly contested. There is a promising crop of junior entries that speaks well for the future of the game here and some good competition is bound to result. The entries will close on Saturday of this week, W. B. Stirling, vice-president of the M. P. B. and chairman of the committee in charge, said this morning.

In connection with practice for the meet, Fred Finley, of the Arena management, announced this morning that the rink would be thrown open to entrants who wish to get in some limbering-up exercises tomorrow night from 7 until 9 o'clock. The rink also will be open on Saturday afternoon for entrants from 2 o'clock until 6 o'clock. It is expected many of the boys will avail themselves of this privilege. Mr. Stirling said he expected several entries from outside.

CITY BASKETBALL TO OPEN TONIGHT

Nationals to Meet Champion Trojan Outfit on Saturday Night

The opening of the City Basketball League takes place tonight on the Y. M. C. A. floor with the Nationals and Y. M. C. I. carded for the senior fixture and the St. Peter's vs. Victoria and the Y. M. C. I. vs. Central Baptist in the intermediate section. It is probable that Frank White will toss the first ball and that H. T. C. Heston will referee the senior game. Walter Golding will handle the whistle for the intermediate games.

On Saturday night, the main attraction will be the initial appearance for the 1925 season of the Trojan Seniors. They have practically the same outfit as last year. They will be opposed by the Nationals A. C. team, composed of Urquhart and Wittner, former Trojan men, on the forward line, Ed. Youmans at centre, with Kirke and Pollard on defence. They have shaped up well in practice.

SAINT JOHN LAWYER CASES GAZETTED

Official Announcement Calls on Davidson and Hulton to Show Cause

In the matter of Sidney H. Hulton and Roy A. Davidson, barristers, of Saint John, the following notice is published in the Royal Gazette, issued in Fredericton today: "On motion of the Honorable J. B. M. Baxter, Attorney-General, in support of motion for a declaration that the said Sidney H. Hulton and Roy A. Davidson have been guilty of acts which render them unworthy of continuing as attorneys and barristers of this court, and for an order that they be disbarred and struck off the roll of barristers and attorneys of the said court; and on hearing the resolution of the council of the Barristers' Society of New Brunswick passed at a regular meeting of the said council held on Tuesday, the 10th day of November, 1925, declaring that the said Sidney H. Hulton and Roy A. Davidson and each of them had been guilty of acts rendering them unworthy of continuing as attorneys and barristers of this court and requesting the Attorney-General to present the said resolution and the sworn testimony upon which the same is founded to this court; and upon hearing the said resolution read and what was alleged by the said council, it is ordered that the said Sidney H. Hulton and Roy A. Davidson do show cause on the first day of the next session of this court, being the ninth day of February next, why an order should not be made disbarring the said Sidney H. Hulton and Roy A. Davidson and each of them; and why; the name of each of them should not be struck off the roll of attorneys and barristers of this court. "And it is further ordered that service of this rule be effected by publication thereof in two issues of the Royal Gazette."

Farmer Meets With Heavy Fire Loss

George Caldwell, of Middle Simonds, Carleton county, met with a severe loss by fire at 6 o'clock on Monday morning. He had been feeding his cattle by lantern light, when the lantern upset. His new house, woodshed, wagon shed and granary were completely destroyed. Total loss \$10,000 with \$1,000 insurance.

Shift Gives New School Room; Trustees Rent Union St. Floor

By the moving of the manual training class from the former synagogue building and shifting one of the Grade 10 classes from the High School to the synagogue the School Trustees have been able to provide a room for Grade 12, which has been meeting in the assembly hall of the High School. The trustees have leased the upper floor of the Dr. C. M. Pratt building in

Union street, just opposite the High School, formerly occupied by the D. S. C. R., and yesterday afternoon and this morning were busy moving the tools and desks from the synagogue building to the new quarters. The Grade 10, taught by W. T. Denham, will be moved into the quarters vacated by the manual training class and the room which they vacate will be used by the Grade 12 class.
