Says They Must Stand Trial

Clemenceau Speaks Of Those Responsible for the War

Addresses Chamber of Deputies on Peace Treaty—Italian House Told by Tittoni That Settlement is in Sight for Next Week

Paris, July 12.—Premier Clemenceau yesterday appeared before the committee of the chamber of deputies which is considering the peace treaty and reviewed the circumstances under which the treaty was framed.

Regarding responsibility for the war, Clemenceau said it was a satisfaction to morality that the responsible persons would be tried, and with the Entente would maintain its position on that point.

Italian Questions. Rome, July 12.—(By the Ass's Press) Tommaso Tittoni, minister of foreign affairs, was loudly applauded yesterday when he announced to the chamber of deputies that it was his belief the negotiations going on in Paris would lead to a settlement in the course of the next week.

U. S. ARMY TRUCK COVER BRIDGE; SIX SOLDIERS DROWNED

Alexandria, Iowa, July 12.—Two officers and four privates were drowned when an army truck on route from Alexandria to Camp Humphrey plunged from a bridge into Greater Hunting Creek early this morning. Eighteen men were in the truck and some are unaccounted for.

RESOLUTIONS OF THE AGRICULTURE CONFERENCE

Winnipeg, July 12.—The agricultural conference in resolutions recommended the government to subject war surplus regular taxes the same as imposed on ordinary incomes, contending that bonds are "becoming concentrated in the possession of a few individuals and corporations."

STRONGLY OPPOSE OPENING OF CANADIAN MARKETS FOR UNRESTRICTED WHEAT TRADE

Winnipeg, July 12.—Strong opposition to the opening of the Canadian markets for unrestricted trade in wheat, in view of all the circumstances surrounding the business in Canada and in view of the action of the United States government, was voiced in a resolution adopted by the Canadian Council of Agriculture at its final session last night.

PICNIC. The Renforth Tennis Club and the Church of St. James The Less, at Renforth, will hold a picnic this afternoon on Long Island.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hiramson this morning. "Sir Robert Borden is looking for a finance minister. Sir Thomas White says he has got to the bottom of the barrel, and if the government wants any more it will have to dig."

Regarding the coal situation, Hiram said that since April the price of coal on the New York market has been steadily advancing until now it is close to 80 higher than it was.

GLAD TO HAVE TABLET PLACED IN POST OFFICE

Post Office Department at Ottawa Cheerfully Complies With Request

The post office authorities at Ottawa have cheerfully acceded to the request of the Women's Canadian Club of the city for the erection of a memorial tablet in the post office in honor of the units which have gone from New Brunswick to the war.

MEXICO SEIZES PROPERTY OF BRITISH COMPANY

Washington, July 12.—Confiscation by the Mexican government of property of the Scotch-American Oil Company, a British company with several American stockholders, the first actual confiscation under the Carranza decree which have seen the subjects of protest from Great Britain, Holland, France and the United States, was reported yesterday to the state department.

ST. JOHN TAX RATE CLIMBS TO \$2.62, LAST YEAR \$2.27; A GREAT INCOME INCREASE

The board of assessors this morning completed the compiling of the tax figures for this year, and have announced that this year the rate has been fixed at \$2.62, an increase of 35 cents over the rate last year.

EVERYBODY'S DOING IT. The fact that there is a big decrease in the value of personal estate is due to the fact that the amount on which the tax is based this year is only 50 per cent of the amount on which it was based last year.

FURTHER WORD ON COAL SITUATION

Regarding the coal situation a local dealer said today that since April the price of coal on the New York market has been steadily advancing until now it is close to 80 higher than it was.

EMPRESS TO TAKE GRAMPAN PASSENGERS

St. John's, Nfld., July 12.—One body was recovered yesterday from the ruins of the Allan liner Grampian, which collided with the steamer Empress of Britain on the coast of Newfoundland.

It Whips Splendidly!

YOU can have whipped cream for that extra-delicious, extra-appetizing dish—whipped cream—when ever you wish, for any unexpected occasion!

Carnation Milk "from Contented Cows" comes to you doubly richer than ordinary milk. It whips splendidly—of course, you must chill it first.

You can keep a supply of Carnation Milk handy on your pantry shelf. It will stay fresh and sweet for months. It is "whole" milk, sealed safe in airtight cans and sterilized. So it "keeps" several days even when the can is opened.

For whipping or as cream for tea, coffee, fruit or cereals, use Carnation Milk just as it comes to you. For the

children's drink—dilute it with an equal quantity of water. For cooking—add still more water.

Carnation Milk, you see, can be used in every way you use ordinary milk and cream. It is the only milk supply your home needs.

Another convenience—you buy it with your groceries. Your grocer is the Carnation Milkman. Order three or four trial cans (16 oz. tall size). Directions on every can. Begin to enjoy this economy and convenience—to-day. Our Recipe Booklet contains recipes for whipping, making desserts, general cooking, creamed dishes, etc. Write our Aylmer office for a free copy.

A BIG DEMAND FOR STEEL IS PREDICTED.

New York, July 12—A growing demand for iron and steel products for a long time to come is the outlook for these industries as seen by an official of the leading independent producers. Growth in the domestic population increased consuming power of the public, and inevitable development of many foreign countries, are factors expected in due time to create a heavy demand on both domestic and overseas plants. With some of the largest consumers of iron and steel as yet doing relatively little buying, it is pointed out that the American industry is operating at a very substantial rate. When the big consumers which have been taking little steel since the armistice, and in most instances for a long time before, come into the market for their normal requirements, it is believed there will be a demand that may tax to the utmost the producing capacity of the industry. Railroads, building trades, export consumers, and agricultural interests are mentioned as buyers which in varying degrees have failed to come into the market for their normal needs. All sooner or later must buy in quantity either directly or indirectly, as in the case of the agriculturists.

KING'S DAUGHTERS RE-ELECT OFFICERS AT LAST SESSION

The ninth triennial convention of the Dominion branch of the International Order of The King's Daughters and Sons held its closing sessions in the Guild yesterday. Throughout the convention was an inspiring and most successful one. At the election of officers those of the preceding year were all re-elected, the president, Miss Brown, by acclamation. The invitation of the British Columbia branch to hold the next triennial convention in that province was accepted, and it is probable that Vancouver will be the city chosen. The executive of the provincial branch meets this morning.

Miss Rita Bryan sang most acceptably, "I Want to Be Ready." The paper of the afternoon was read by Miss E. M. Gomersy of Montreal, and was on the subject of "How to advance the work of the Order in Canada." The paper was very practical and helpful and laid particular stress on the need for junior work. An interesting discussion followed.

The resolution committee report expressed heart-felt sympathy to the members in New Brunswick in the loss of their recording secretary, Mrs. O. L. Barbour, and to those members prevented by ill-health from attending the convention. Gratitude was expressed to the Dominion officers and the members of the executive for the excellent programme carried out and to all who took part in or in any way contributed to make the convention so successful.

The closing session held in the evening was opened by devotional exercises led by Miss Gomersy and was chiefly taken up with the reports of guild and rest room work. The reports were given in order, Mrs. W. H. Nice, St. John work; Mrs. MacMungie, Ottawa work; Mrs. Austin, Toronto work; Mrs. McArthur, Owen Sound work; and Mrs. George Henderson, Victoria (B. C.) work. Miss Freda Jenkins' solo "This is My Task" was much appreciated. After the singing of the hymn "God Be With You Till We Meet Again" Miss Brown addressed the members, pronounced the benediction and declared the convention closed. An executive meeting was held at the close of the final session.

A Woman Wishing a Lower Berth.
"Upper 5?"
"Right here, ma'am."
"Any chance of getting a lower?"
"No, ma'am; they're all taken."
"No chance even after we get started?"
"No, ma'am."
"That's what they told me at the ticket office."
"Yes, ma'am."
"I went early yesterday morning. Thought sure I'd get a lower going early as that—two days ahead. They told me they were all sold."
"Yes, ma'am."
"You don't think there'd be a chance of getting a lower?"
"No, ma'am."
"You would think going as early as that would be time, though."
"What time do we get in?"
"Six fifty."
"That's about—let's see—10 minutes before 6—no, 7—yes, 10 minutes to 7, isn't it?"
"Yes, ma'am."
"Do we have to get out then?"
"No, ma'am. You can stay in the car till 7:30."
"Well, better wake me about 7?"
"Yes, ma'am."
"O, porter!"
"Yes, ma'am."
"Better wake me at quarter to 7. Then I won't have to hurry."
"Yes, ma'am."
"And if you hear of a lower, you'll let me know, won't you?"
"Yes, ma'am—Atlanta Constitution."

At the Cathedral of St. Paul, Boston (Mass.), on July 4, Rev. Edward T. Sullivan, rector of Trinity church, Newton Centre, united in marriage William James Haynes, of Boston, and Frances Eme Beaufort, only daughter of the

"Sleep tight! It's a hot night But Polar Cub will keep you cool!"

Cool the moment you turn it on! Deliciously, wonderfully cool! So cool you will fall asleep on the hottest night as easily as in winter weather!

Polar Cub, busily perched beside your bed; on your desk at the office; in the kitchen—anywhere, wherever you are—will blow a refreshing arctic breeze your way. And it costs only \$7.50—a regular little electric whirlwind for just \$7.50, equipped with eight foot cord and plug. The bill for running it is next to nothing. Two speeds too—a big breeze and a bigger breeze—

So why toss and turn and lie awake these hot nights? Why sweeter in the kitchen? Why endure the dead heat of heavy office air?

Let Polar Cub keep you cool. Set it anywhere. Hang it on the wall. Adjust the breeze to any angle. Buy one today. Turn on the breeze and enjoy its grateful coolness all summer long.

Polar Cub Electric Fan \$7.50
Complete with cord and plug

LOCAL NEWS

SCHOOL TRUSTEES
E. A. Schofield has been appointed chairman of the board of school trustees for the consolidated school at Hampton, in place of J. Willard Smith, whose term has expired. A. H. Chipman has been appointed a member of the board, in place of William Langstroth, whose term has expired.

HOME AT NOON
Word received this morning by Mrs. Robinson, wife of Charles Robinson, secretary of the Returned Soldiers' Commission, was that he left McAdam Junction this morning at ten o'clock with the troops from the hospital ship Araguay. The train is expected to arrive here about noon today. There are among the troops twenty-eight new Brunswick and sixty for Nova Scotia.

THREE SONS IN KHAKI
Mr. John F. Gleason, who has been spending some weeks here, is returning to her home in New York today. Her son, Redmond, who just returned from overseas, is also going to New York today. Another son, Gerald, who returned from the war a little while ago, is already in New York. Redmond left St. John with the 2nd Divisional Train, C. A. S. C., under Colonel Massey in 1918 and has been a long period of service on the western front. Gerald was with the signal corps for two and one-half years at the front. Both came through the campaign without injury. A third son, Andrew, donned khaki at the age of fifteen years and is still in the service at Halifax.

JULY 12 PICNIC PROCEEDS ARE FOR ORPHANS

Several Celebrations in Various Parts of the Province Today

Several celebrations for the Twelfth of July today were arranged throughout the province, three in St. John county, one at Salmon River, for the lodges in that district, one at Lorneville for lodges in that district and the city lodges at "The Ferns," Bay Shore. The celebrations consist mostly of picnics and in some cases parades. The entire proceeds will go toward the orphanage fund for the building of the new Protestant orphanage. In fact in all Canada the proceeds are for the orphans. In Toronto a \$300,000 drive is being carried on for the purpose of building an addition to the institution there.

At "The Ferns" St. Mary's Band is to give two concerts. The committee in charge of the celebration there is composed of E. S. Hennigar, chairman, W. M. Campbell, secretary, and C. B. Ward, treasurer, assisted by other members of the lodges. The provincial committee in charge of the drive is composed of David Hipwell, William M. Campbell, Robert Wills and Neil J. Morrison. It is expected that a large amount for the fund will be raised throughout the province.

COMMISSIONER JONES ON STREET PAVING

Commenting on an editorial in the Standard yesterday morning with reference to paving Commissioner Jones said yesterday afternoon that the writer, in saying that he "is to be in charge of the water and sewerage department for the next nine months," is evidently laboring under the delusion that he is one of the commissioners who will stand for election next spring. Commissioner Jones pointed out that unless there is a general election, Commissioners Fisher and Thornton will be the two to stand at the next polling. With regard to his policy for payment of permanent paving work, Commissioner Jones said he was always in favor of bond issue.

Regarding the matter of "replacing a water main in which no leak has been discovered," the commissioner said that the Standard evidently refers to the main in King street. This main has been down for eighty years and the view of the fact that the city plans on putting permanent pavement in King street next year, the renewal of this pipe is considered advisable. "I imagine what the Standard would say," Mr. Jones remarked, "if the pavement were laid and a year later a burst occurred in the old pipe."

His decision to replace this pipe by one of larger dimensions, Mr. Jones said, was in consequence of a recommendation to this effect made by a party of expert engineers from the United States, who went into this matter thoroughly about a year ago. In view of the fact that this being a larger pipe and would therefore give an increased service, he was in favor of having the work paid for by bond issue rather than by the general assessment, which would bring the tax rate up to a great extent.

WILL NOT SEND DELEGATES TO LIBERAL CONVENTION

Winnipeg, July 12.—No representative of the Canadian Council of Agriculture will be sent to the national Liberal convention at Ottawa in August. This was decided after a lengthy discussion.

The fact that farmers' organizations have never been connected with any political party was given as the reason for declining the invitation. A memorandum elaborating on the farmers' platform will be sent to the convention.

TODAY'S GRAND CIRCUIT
Cleveland, July 12.—The opening meeting of the 1919 Grand Circuit harness racing season came to a close at North Randall today after one of the most successful meetings in the history of the track. Today's entire gate receipts were given to charity.

Four events are on today's card, with the free-for-all all pace in which six of the world's fastest wigglers will start the feature—Drextum J., Lillian H., Peter Nash, Single G., Un and Verlie Patchen—compose the field in this event, which is for \$2,500.

The other races include a 2:10 trot in which six start; the 2:20 trot with nine starters and the 2:10 pace in which seven go.

TWO BIG SURPRISES IN LAST WEEK FOR ST. JOHN FAMILIES

Return of Wanderers After Long Years of Absence

ONE 15 YEARS; OTHER 26

Alphonse Theriault and John McGrath Bring Joy to Relatives—Both Had Been in War—Mr. McGrath Reported Dead Ten Years Ago

With the arrival of one of the troop trains this week there not only returned to their homes soldiers who had been away from home here for two, three or four years, but two others who had not seen local relatives for from fifteen to twenty-six years.

John McGrath came back after having been away for the latter period, while Alphonse Theriault had been away for fifteen years. Both have been absent considerably through the United States but eventually found their way into khaki with the Canadian forces, with which they went across.

Mr. Theriault is a son of Jarvis Theriault of Campbellton and a brother of Mrs. George M. Flood, 123 Duke street, to whom he gave a most agreeable surprise a few days ago upon his arrival here. During his time away he has been mostly in the western states, spending several years in Seattle, but crossing to Canada joined a railway unit with which he went to France. He will return here a few days before going to Campbellton to see his father.

Quarter Century Away
John McGrath, who has been absent from the city for twenty-six years, is a son of the late Michael John McGrath, who died in the western states. He roamed from place to place, writing home frequently to let his friends and relatives know that he was still alive. About ten years ago his sister, Mrs. John F. Sheehan of 50 Moore street, received word that he was killed in Buffalo, New York. Thinking the news she had received was true she gave up all hope of seeing her brother again until this week when he walked in and gave her the greatest surprise of her life.

Mr. McGrath traveled from place to place until about eighteen months ago, when he came to St. John, N. B., and remained in England with the unit until he could get to France. He returned home on the S. S. Olympic transported on last Tuesday. Mr. McGrath has traveled almost around the world and has had some thrilling experiences. While en route from Halifax to this city on a troop train it was his duty to crawl through an open window to escape with his life.

Although having been away from the city for twenty-six years, there are a large number of his former boyhood friends who will be pleased to hear of his return. Mr. McGrath is spending a few days with his sister, Mrs. Sheehan.

A DISGRACE TO ST. JOHN; CONDITION OF STREETS

Strong Comment on Matter With Particular Reference to Douglas Avenue

A party of five American tourists arrived at the Royal Hotel on Tuesday and in the course of conversation they remarked that the good people of St. John ought to be ashamed of their streets. Everywhere they had noticed the roads in great shape but when they came to the main road into the city from the bridge, they thought it was a disgrace to the community and worse than in many small hamlets. Not only were there deep hollows that almost shook a car to pieces, but there was also a cloud of disgusting dust. They seemed to be impressed with the idea that instead of entering a beautiful thriving city of 60,000 people, they were coming into a village that spent nothing on its streets.

Another citizen remarked at the same time that no wonder this party, like others, got this impression. The property owners in Douglas avenue were disgraced with the way they had been treated. Surely the commissioners knew that this was the most important street in the city as it carried more traffic than any other, being the only westward inlet from and outlet to the county, yet there had not been one cent spent on it and no effort made to repair it.

The residents were complaining, but got no results, one threatened to make the city repair his property, another phoned the Times some time ago inviting a reporter to come over to observe the conditions; another, after painting his house, looked over it and asked the painter if he had put any paint on it and going over it found that the dust had ruined the first coat. He now has to put a second coat on to make the house look decent.

"These commissioners," the citizen added, "can pave all the back streets yet on the important highways they cannot spend a cent." The residents are asking why and how question now arises, "Can the people be taxed for streets that are not streets?"

EXTEND ROAD WORK TO ROTHEWAY POST-OFFICE

There will be general gratification among all who use the highway to learn that the provincial public works department has decided to extend the farm-macadam road as far as the post-office at Rotheway.

In order to co-operate and to facilitate the work, it will be necessary for those using the road from the end to be at the barrier at Colbrook at half-past eight in the morning.

Stores Open 8.30 a.m., Close 6 p.m.—Fridays 10 p.m., Saturday 1 o'clock

FOR BRIDES-TO-BE

The home of Mrs. J. I. Davis was the scene of a happy event last evening when friends of her daughter, Miss Clara Davis gathered and gave a shower in honor of her coming marriage. Many beautiful gifts were received by the young lady and a pleasant evening was greatly enjoyed. About twenty friends gathered at the home of Mrs. B. Wishart, St. Andrews street, last evening in honor of her sister, Miss Florence Crowe, and presented to her useful gifts in anticipation of a happy event which is to take place in the near future.

MILITARY REPORTS IN HIGH CIRCLES

It is said the post of inspector-general of the Canadian forces has been offered to Lieut. General Sir Arthur Currie by Sir Edw. Kemp, now in London, and that he is willing to accept. It is understood that he has also been mentioned as chief of the general staff, a post now held by General Gwatkin. General Elmslie has also been named for this appointment.

Shelter from the BURNING SUN

Introduced 40 years ago—still the best!
MENNEN'S TALCUM POWDERS

J. N. HARVEY USES AIR ROUTE

To a former St. John man belongs the honor of having used for the first time in Canada if not in the continent, a flying machine for conveying merchandise from one place to another. J. N. Harvey who formerly conducted a business in Union street, recently flew from Vancouver to Victoria in an aeroplane piloted by Lieut. Trim of the Aero League, with merchandise from his main store to the branch in Victoria. It had to be gotten there in a hurry and by taking the air route Mr. Harvey got there in an hour and three minutes, much less time than the regular steamer could have taken him in.

KEEP APPOINTMENT MADE DURING ST. MIHIEL DRIVE

Lawrence, Mass., July 9—In accordance with an agreement made under fire in France, Inspector Joseph H. Mulhare of the local police department and George Grey, a notorman, met at 10.30 this morning in front of the local transfer station. Each man was punctual as he said he would be when he made his promise last September.

CUT IN PIG IRON COST IS PROMISED

An engineering representative of the Morgan Construction Company of Worcester, Massachusetts, speaking at a recent meeting of the American Chemical Society in that city, said that an apparatus is being perfected by his company which will separate oxygen from air at a low cost, and that, by its use, it will be possible to reduce the cost of pig iron production 84 a ton.

NON-UNION EMPLOYEES STRIKE

Chicago, July 12—Seven thousand non-union employees of the Crane Company, including 1,000 women, went on strike yesterday. They demand the right to organize, the union scale of wages and a forty-four hour week. Work in nearly every department of the plant was at a standstill as a result. The company has maintained a co-operative profit sharing plan for employes for many years.

EDUCATIONAL

ROYAL VICTORIA COLLEGE

MONTREAL
A RESIDENTIAL COLLEGE FOR WOMEN STUDENTS ATTENDING MCGILL UNIVERSITY
Founded and endowed by the late Rt. Hon. Baron Strathcona and Mount Royal.
Courses leading to degrees in Arts, separate in the main from those for men, but under identical conditions; and to degrees in music.
Applications for residence should be made early as accommodation in the College is limited.
For prospectus and information apply to THE WARDEN.

Lower Canada College

Boarding School for Boys
Montreal—Canada.
Preparatory, Junior and Senior Departments.

Calendar Sent on Application.

OTTAWA LETTER

A Glance Back at the Session of Parliament and Comment on the Political Situation

Ottawa, July 8.—Parliament was far from idle during the four and a half months of the session which has just ended, as may be judged from a glance at the legislation which has been put through. It is true that, when it was summoned, the ministry was scarcely ready for it. The sudden ending of the war simply piled up the work to be done and the problems to be disposed of. The premier was absent; and there was some division of opinion and darkening of counsel among those who were left to carry on. The soldiers were coming back in ever increasing bodies; and they provided the first and most pressing of the many problems. What has been done with direct or indirect reference to the returned man occupied a great part of the attention of the government and of the house. The spirit shown was always the same: everything in the power of the country must be done for the veterans. The acts for the loan of \$25,000,000 for housing; the increases in pensions; the soldier land settlement act; the \$10,000,000 for technical education—even the changes in the tariff, had the soldier mainly in mind. Other acts passed of primary importance were those for federal aid to highways; for a department of public health; for a court of commerce and the re-organizing of combines; for the creation of an air board; the new immigration act; the amendment to the criminal code on the matter of section; the prohibition act; the militia act amendment; the by-elections act; the naturalization act; the bankruptcy act. Cost of Living. In many respects the most important feature of the session was the appointment of the cost of living committee of the house, to inquire into this troublesome and important question. Action was taken rather late in the session. The chief criticism of the present government is that it is inclined to do most things a little late. The committee was composed of the following members:

Challenge Cleanable Collars. The ideal collar for every day. Always keeps its shape and is an all round favorite with particular men. Cleaned simply by wiping with a cloth, it will outwear ten linen collars. For sale at all dealers. 35c or 3 for \$1. The Arlington Company of Canada. Sales Office: 63 Bay Street - TORONTO Montreal Winnipeg

KEATING'S SKILLS. Bugs, Flies, Roaches, Moths and All Insects. Keating's 25c. 25c. 25c.

faith in the milk-producing qualities of goats, declaring them to be superior to cows. Their milk, he says, is sweeter and, immune to tuberculosis, makes ideal food for infants and invalids. Seattle consumes 1,000 quarts of goat's milk daily, said the doctor, almost exclusively used by babies. It is recommended by physicians because its composition more nearly approaches that of mother's milk than any other domestic animal, he remarked. The doctor plans to establish a dairy this fall and aside from the sale of milk will manufacture Swiss cheese. The average daily production of a milk goat is from two to three quarts and a person can keep a goat at a cost of five cents a day, said Doctor Parker, alluding to the practicality of keeping goats by the average family.

Blenkins once joined a bear-hunting expedition. During the hunt, as he was resting by the side of a rock and talking with another hunter, he began boasting heavily. "If there's anything I do on, it's bear. A slice of bear steak nicely done is just perfect!" he said. "Well," said his companion, looking up, "I'm hanged if there isn't a bear now!" The man who "doted on bear" looked up, saw an immense grizzly standing on the top of the rock, gave a yell and leaped into the woods and disappeared. His companion soon overtook him and said to the fugitive as he came up: "I thought you liked bear?" "Well, I do," said the runaway, "but that one wasn't done enough."

Nicholson (Algoma), Stevens, Reid (Mackenzie), Douglas (Strathcona), Davis, Hoeken, Sutherland, Fielding, Davidson, Nesbitt, McColg, Sinclair (P. E. Island), Devin, Vien and Euler, and was instructed to inquire into the prices charged in Canada for foodstuffs, clothing, fuel and other necessities of life, and as to the rates of profit made thereon by dealers and others concerned in their production, distribution and sale; also as to rentals in industrial centres and returns on capital invested therein. It was given power to send for persons, papers and records. Its first session was on June 6, and it sat almost continuously for nearly a month. The time at their disposal did not

enable them to inquire into the matter of rentals at all. It did not find any great evidence of profiteering, although there were occasional evidences of inflation in prices, the general opinion being that the margin between the cost of production and what the consumer pays is not excessive. The basis of the high cost of living seems to be the high price of wheat. Individual cases of profiteering will be dealt with by the court of commerce, which was established as a result of the investigation. Attention was drawn to the possible advantages of co-operative buying and distributing. Another important committee was that on scientific research, for which the government is prepared to give substantial aid. It advocates the establishment of a central institute at Ottawa, somewhat along the lines of the bureau of standards at Washington, and will carry out its labors during the next session of parliament. Political. From a political viewpoint the session was one of the most interesting for many years. Union government was seen on trial under other than war conditions, when "the lid was off" so far as criticism and freedom of action went. And there was no lack of criticism. It came from both the front and the rear; and although the general aspect of the government is Conservative, the most of the trouble did not come from former Liberals in its ranks. There is a very aggressive Tory element to the right of the Speaker, led by Colonel Currie, which does not recognize that union was ever consummated; and never spares the susceptibility of former Liberals when it is in action. Then there is Sir Sam Hughes, who sits on the government side and votes with it, but who has some pet enemies in the government whom he delights to snipe at. It is a troublesome following for any leader; and it cannot be denied that Sir Thomas White has handled it well this session. He has been courteous throughout and has made many friends on the other side of the house; while he has held the party and the cabinet well together. The only break was the resignation of Green. When he left the government it was expected that there would be a wholesale desertion of the western members; but for various reasons the number of bolters dwindled down from day to day until it reached barely a dozen when the vote on the budget was taken. Those who remained with the government showed a good deal of independence; and the effect of their action may be for good. It certainly required more courage for them to remain than to go. Whatever action they took, they would be safe for the life of this parliament; while by remaining they took their political future in their hands, and will have to go and fight the matter out with an unfriendly electorate. As the details of the various caucuses come out, it would appear that they got about as much from the government on the tariff as they had agreed would be satisfactory. The complete removal of the duty on agricultural implements would have been an action that would have held them all together, even if the total reduction on the tariff had been a couple of millions less than it was; and under the circumstances it is rather surprising that the government did not take this course. With the decision to form a permanent unionist party, the necessity for tariff revision is apparent. If the government is to hold together, and this will have to be undertaken before the next session of parliament. There will be cabinet reorganization almost immediately; as it seems probable that both Macleau and Carvell will very soon consider that their contract has expired. If the premier can effect this by making a cabinet that is completely representative of both parties on a fifty-fifty basis, there is hope for the future of the union; otherwise, it will hardly live through another session of parliament. GOAT DAIRY IN SEATTLE. "Nanny's" Milk Especially Good for Infants and Invalids, Says Doctor. With the arrival in Seattle the other day of 800 goats from Tucson, Ariz., to be added to his herd on Cypress Island of the San Juan group, the largest herd in the northwest, Dr. Henry B. Parker of Urban said he is planning the establishment on a vast scale of a goat dairy industry next autumn, according to the Seattle Post Intelligencer. He has great

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, JULY 12, 1919

RELATIONS OF EMPLOYER AND THE EMPLOYEES

London, England—G. H. Roberts, M. P., the food controller, was the guest at the fortnightly luncheon of the National Liberal Club recently and delivered an address on "The Needs of Industry." In the course of his speech Mr. Roberts made a strong appeal for a better understanding between employer and employee and urged the great possibilities of joint industrial councils in preventing

labor friction. Mr. Roberts said that he was sure that everybody would acknowledge that during the war remarkable changes had taken place which before the war would have been regarded as impossible. The most remarkable was the elevation of the conditions of life of the industrial classes. That was particularly gratifying to him, as he had always claimed that the worker was entitled to live a fuller and securer life, and that it was the duty of everybody to arrange industry to that end. The first need in industry now, said Mr. Roberts amid laughter, was to get rid of such persons as himself—in their official capacities, of course, he added. His experience in government departments and particularly at the ministry of food had convinced him that the sooner they shook off the shackles that had fettered them during the war the better it would be for the community.

The refinement and delicacy of the flavor of

MORSE'S ORANGE PEKOE

makes it especially acceptable to the palate of the sick or convalescent.

This first cup of Tea-MORSE'S

production British trade would decline, mostly to the detriment of the working classes themselves. Mr. Roberts said that if it were not possible to provide employment for fifty weeks in the year, they must find through an extension of the insurance system an income for fifty-two weeks for every family in the land. In conclusion he advocated an extension of

joint industrial councils, and with regard to agriculture, in which he said he was greatly interested on account of his upbringing, he had found it necessary to modify to some extent his fiscal views.

About twenty friends gathered at the home of Mrs. B. Wisbart, St. Andrews street, last evening, in honor of her sister, Miss Florence Crowe, and presented her with a gift in recognition of a happy event which is to take place in the near future. Friends gathered at the home of Miss Clara Davis, 170 Queen street, last evening, and gave her a novelty shower in honor of a coming event. A very enjoyable time was had and a dainty supper served before the party finally left for their homes.

but it was as difficult to break off control as it had been to set it up. Mr. Roberts' Changed Opinions.

Dealing with the relationship between employer and employee, Mr. Roberts said that if internal strife were to succeed military war, not only would the country not recover, but they would lose their place in the world and they might start writing the decline and fall of the British Empire. He was an agitator, but experience mellowed and broadened his outlook and he had changed many of the opinions he held before the war and was prepared to acknowledge it. Continuing, Mr. Roberts said he felt that the classes who had combined to win

the war ought to remain together to reconstruct the country and embark on a career of greater grandeur than before. He believed that if they approached the claims of the workers in a proper spirit they would adjust the differences and secure prosperity for every class in the country. He did not think that the fact that trade unionism was spreading extensively among classes that previously would not embrace it need cause any alarm, because the organizing of these people would exercise a steadying influence on the labor movement. He claimed, however, that even if organized labor were able to extract greater concessions, those concessions were only warranted and only would be maintained if labor were induced to display an equal spirit and recognized that in return for higher wages better service must be given. Wage standards must not be forced beyond what industry would stand. Mr. Roberts said he had noticed among some classes a disinclination to honor agreements. To him that was an appalling thing, and the ultimate result must be a deterioration of character, to the permanent detriment of the country as a whole.

He wanted the worker to realize, Mr. Roberts continued, that he was in possession of the glorious British tradition that when the Briton made an agreement that was his bond and nothing should persuade him to break it. The workers must also understand that efficiency and production were the only means whereby they could hold their position in the markets of the world. Without increased output and improved

WILSON'S FLY PADS

Kill them all, and the germs too, 10c a packet at Druggists, Grocers and General Stores.

"I Made It Myself"

The little ones are so fond of these delicious puddings they don't think mother makes enough of them. So whenever she is willing they make one themselves. Mother lets them, quite often too, because she knows they're good for growing children. And she also knows that father has the habit of helping himself liberally whenever he gets the chance.

Let your family enjoy these wholesome puddings. Get a selection from your grocer. Tapioca, custard and chocolate, 15c. a package.

Public in United States Contributed More Than \$10,000,000 to the Wily Sharper; Some of the Games

(Boston Globe.) The American public contributed more than \$10,000,000 to the confidence man last year. On top of disgorging unheard-of amounts for war loans, war charity drives, Red Cross support, tobacco funds and what not. In spite of demands on cash resources such as have never before been made on our purses, we still have had enough left to turn over the price of a dreadnought to the fixed race promoter, the gilded brick shover and all the gentle and nimble brotherhood of the come-on. So says Wm. A. Pinkerton, head of the detective agency which bears his name. If one person in the country is in position to make an estimate of this sort Pinkerton is the man. In a recent interview the detective gave \$10,000,000 as his estimate for last year and added that this did not include the various stock jobbing schemes, which certainly must be the public for greater sums every season.

SPECIALIST SAID HE MUST OPERATE

He Took "FRUIT-A-TIVES" Instead, And Is Now In Perfect Health.

MME. F. GARRAU. 128 Papineau Ave., Montreal. "For three years I suffered great pain in the lower part of my body, with swelling and blotting. I saw a specialist, who carefully examined me and gave me several tonics to take, which did not help me. Then he told me I must undergo an operation. This I refused to permit. I heard about 'Fruit-a-tives' and the wonderful results it was giving because this medicine is made from fruit juices, so decided to try it.

He was buying banknotes which the operators represented as counterfeit, but which he knew to be real government currency, having been allowed to take one or two with him and having secretly got the opinion of some banker on their genuineness. When such a man opened his grip and found it full of newspapers or bricks instead of notes of value, he was naturally in no position to complain. The same tactics are used with greater success than ever today—with the difference, as Mr. Pinkerton points out, that the con man has turned his attention from the rustic to the banker and the business man.

Finally he was told that he was to play cards at a millionaire's club in New York with such men as W. K. Vanderbilt, J. P. Morgan, B. H. Macy and others. Thompson had a likely sounding plan for beating the game, and needed only the pawnbroker's capital. The man was led into a "club" specially rigged up for the occasion, and there met the millionaires, really crooks in evening dress and sunglasses.

Not long afterward the fixed fight was staged. The banker put up something like \$50,000 to be on the sure winner, against the savings of his fellow townsmen and the meek of nearby towns, so he thought. The fight was staged in a big stable, secretly and at night. The money being against the capital of the banker, insofar as any was actually put up, was of course supplied by the conspirators. The fight went along beautifully for a few rounds. The man backed by the supposed suckers was making a great

But in the fifth round the suckers' favorite accidentally hit the fixed winner a clout on the eye. The banker paled as he saw his man sink to the floor, with blood bubbling from his mouth where it had been placed in the fixed fight. The banker had bet on a sure thing, truly enough. Sure for the crooks. Then the man had almost to be dragged to court to testify against the celebrated Maybray gang, which had more than 100 members. More than \$0 were subsequently sent to prison.

Florida Fertile Also for Crooks. This little self-suppressing tragedy might be told along the same general lines. One of the supreme requisites of the con man is a large number of the right people under proper circumstances. Nowhere is this easier than in Florida, where gamblers smaller than the middle class class with money, the banker and politician of means—all of them brimming with social ambition, and thus ready to meet strangers and spend money. Any one who can pass himself off as rich and socially influential can make numerous acquaintances about the Florida resort hotels, and here a regular traffic in the fleeing of unwary business men is carried on.

So Florida is the very cynosure of the con man's eye. Here, in 1918, more than \$2,000,000 was taken by the confidence crew. This, again, is the estimate of the police authorities in New York and Chicago. Probably a third of the money got by the con man in America is now lifted at the Florida resorts and nearby. Not much of all this reaches the public eye or ear. In most cases the victim dares not complain to the authorities, for reasons of family or of standing in his home community. But the detective firms, large and small, are constantly deluged with the business of these victims, trying to recover some part of their losses without publicity. So the con man goes blithely ahead, holding out his loot where he dares. And the loot is ten millions a year.

LESSEN HOMEWORK

(Toronto Globe.) To a few pupils home-work, like class-work, is no real task. Such children are abnormal in their mental development and capacity. For the majority of the scholars home-work is a torture alike to themselves and their parents who are anxious to help them. There are many barriers to such assistance—unfamiliar engagements, illness, the fatigue of a day's work, and the fact that only a very limited number of adults have retained sufficient recollection of the formulae they knew and that are still in use to be able to work out the problems, though they may get to the right answers by other methods.

In a letter published in The Globe of Wednesday, signed "The Student's Friend," the writer says that he has taught for a quarter of a century from the country school up to the top, and I say with deep sorrow that conditions with regard to home-work are vastly more serious than many people know. Many students, to my knowledge, break down in health every year, and many more leave school completely disgusted with anything bookish or like school. He uses strong language in his denunciation of home-work, characterizing it as a very great crime against the childhood and youth of Ontario, and says that the burden of home-work arises from the pressure of examinations, and the curse of examinations in all their worst forms is due to the tyrannical methods of the Department of Education during the past ten years. Reform and reform examinations and home-work will disappear. . . . The rising generation must assume extraordinary burdens and duties, and in all fairness should be given a fighting chance. Just now their hands and feet are tied, there is a gag in their mouths, and a giant's club over their heads. Figuratively speaking, this club has already knocked out the brains of thousands. Remember 1918.

Thousands of parents have been pondering over such ideas as these so trenchantly expressed by "The Student's Friend." They have puzzled over the multiplicity of school subjects of late years, and the necessity of home-work after night throughout the school term, realizing that in many places these things were part of a drive in the effort to keep in the front rank of the battle as well as as hopeless and becoming reconciled to being classed as a moderate performer.

Parents who are not contented with the present system of home-work have a detrimental effect on the health in many cases. The majority of them would undoubtedly prefer to see school work end with school hours, even if these were lengthened a little, and home-work completely abolished. Most pupils would do as good, if not more excellent, work and enjoy better health if they had no home-work to do. Even if abolition of home-work is not

Baby's restless nights might be avoided. Scalded skin and other skin troubles are common causes of Baby's restlessness and often could be avoided by careful bathing with BABY'S OWN SOAP. The lather of Baby's Own Soap, made fragrant with natural flower perfume cleanses and heals the delicate skin and prepares him for restful sleep. And "Crown-ups" enjoy the beautiful, creamy lather and its clinging flower-fragrance as much as do the Babies. It is Best for Baby—so Best for You. In the interest of your skin buy Baby's Own Soap. It is sold almost everywhere. ALBERT SOAPS LIMITED, MONTREAL.

Safe Milk for INFANTS and INVALIDS. Nourishing, Digestible, No Cooking. For infants, Invalids and Growing Children. Rich Milk, Malted Grain Extract in Powder. One," he said, "when I asked him how he felt, said he was too busy to feel, and when I asked him what appealed to him as the most remarkable thing about the war, answered: 'The number of bullets that missed me.'"

Efficiency with Economy. The efficiency of the Briscoe Motor has been demonstrated in several ten-day, non-stop test runs, in one of which a record of over 29 miles to the gallon was established. In less spectacular fashion the Briscoe is proving its capability by year-in, year-out service, on all sorts of roads and under all sorts of conditions. The experienced motorist, seeking "efficiency with economy," knows that for motoring satisfaction one must always look beyond the external features. And so it is that this new model—thing of beauty though it is—depends for its popularity on that remarkable Motor and its ability to convert a small quantity of gasoline into a tremendous lot of power. The prices (f.o.b. Brockville) are subject to war tax: Special Touring, \$1,350; Standard Touring, \$1,225. THE CANADIAN BRISCOE MOTOR COMPANY, LIMITED. Factory, Brockville. Head Office, Toronto. F. W. DYKEMAN & COMPANY 45 Princess Street.

MUTT AND JEFF—IT'S A CINCH, THE DRAFT BOARDS BID THEIR WORK THOROUGHLY. By "BUD" FISHER. SIR, NOW THAT PEACE IS SIGNED I GUESS UNCLE SAM WON'T NEED ME ANY LONGER, SO I WANT TO GET MY DISCHARGE. ALL RIGHT! WHERE YOU FROM? PENASAPPA, CALIFORNIA! IT'S JUST A LITTLE TOWN! PENASAPPA! I NEVER HEARD OF THAT TOWN—I'LL HAVE TO LOOK IT UP. PENASAPPA! I CAN'T FIND ANY SUCH TOWN AS THAT! YOU DIDN'T HAVE ANY TROUBLE FINDING IT WHEN YOU DRAFTED ME!

SYDNEY GRIEVANCES AGAINST THE DOMINION GOVERNMENT

Sydney, July 11—A convention will probably be called soon to authorize a general strike of protest against the action of the dominion government in permitting the Canadian National Railways to buy coal in West Virginia while a large percentage of the miners of Nova Scotia are walking the streets idle. This decision was reached at a mass meeting of unemployed at Sydney Mines yesterday. Another matter in which the federal government is held responsible for the present depression in the coal fields is its failure to secure the return of the collier vessels necessary to the continuation of the St. Lawrence coal trade.

Speaking of the statement made that much of the difficulty connected with the miners' problem in Nova Scotia was due to the fact that men were at present working but half time, D. A. Cameron, M.P., states that certain factors are responsible for the working hour shortage which at present prevails in Cape Breton collieries.

First, the commandeering of ships by the imperial government which were formerly engaged in the St. Lawrence trade. Even if the ships are obtained for the St. Lawrence trade again, he maintained, freight rates would be prohibitive unless the pre-war charter was held to. Second, the increase of freight rates which has been made by the Canadian National Railway. The third factor, Mr. Cameron, said, is that the cost of coal at the pit mouth in Nova Scotia exceeded the cost of American coal delivered as far east as Montreal and probably Campbellton (N. B.).

Nurses Are Well Paid
With a practical knowledge of sick-room nursing you can earn from \$15 to \$30 a week. We enable you to qualify without leaving your own home. We supply the books free with instructions. Only your spare time is needed. Write us for particulars.

Train Into River In Nova Scotia; Maritime Is Wrecked; Two Killed

Amherst, N. S., July 11—A serious accident occurred tonight about 7 o'clock on the Maritime Coal Railway and Power Company's line which operates between Maccan and the town of Joggin Mines, when a mixed special train of about eleven cars of coal and one passenger car full of passengers for Maccan and points on the Canadian National Railways, was passing over a bridge at Maccan. The cast span which is of wood structure, collapsed and engine and several cars fell to the muddy river below, about thirty-five feet of a drop. As luck would have it the tide was very low and the engine was nearing the Maccan shore.

The passenger car with two or three freight cars remained on the track on the west shore. The Canadian Government Railways wrecking crane and pile driving apparatus is now making necessary repairs.

The crew on the locomotive jumped, only receiving slight injuries about the legs and arms.
Quebec, Que., July 11—By the derailment of the eastbound Maritime Express on the C. N. R. line today at 3:35 p. m. west of La Durantaye, county of Bellechasse, two men were killed and one was slightly injured.
The victims are:
Killed—Driver J. H. Pelletier and Fireman J. A. Leclerc, both of Riviere du Loup.

National Liberal Committee Called to Meet July 31

Ottawa, July 11—The national Liberal committee is called to meet in Ottawa on July 31, to arrange the agenda of the convention which takes place here on August 5, 6 and 7. The committee is composed of Liberal premiers and leaders of the opposition in the various provinces, members of parliament and senators. On the evening of August 4, a meeting of Liberal senators and members will take place.

ST. MARTINS DID MUCH FOR THE RED CROSS
These branches worked faithfully and well, especially in knitting socks. Since its organization the branch has forwarded to headquarters the following articles: Thirty pneumonia jackets, 725 wash cloths, 68 pairs bed socks, 9 night shirts, 120 dozen handkerchiefs, 30 dozen bandages, 88 pairs wristlets, 725 pairs knit socks, 143 pairs pyjamas, 19 bed jackets, 46 quilts, 15 feather pillows, 61 sheets, 1,182 pillow slips, 642 P. P. bags, 53 surgical shirts, 6 pairs bed socks, 2 pairs operation socks, 35 mouth wipes, 1 abdominal bandage, 6 comfort bags, 84 dusters, Serbian relief goods: Four child's night dresses, 6 child's dresses, 1 coat, 6 pairs mittens, 22 petticoats, 10 pairs drawers, 19 jackets. Sent to Halifax relief 983 articles of Red Cross supplies. Each year Christmas boxes were sent to the St. Martins boys overseas.
Contributed \$10 to the Duchess of Connaught hospital fund, \$50 for a bed in the Duchess of Connaught hospital, and \$25 to the British Red Cross. The total receipts of the society were \$1,244, expenditures \$1,284.05, leaving a balance of \$160.85 on hand, and Red Cross supplies valued at \$50, also a sewing machine.
Special mention should be made of Mrs. J. S. Lynch, who has acted as president ever since the formation of the branch. It is not too much to say that to her energy and devotion the credit of the good work done is largely due. At the annual meeting held on October 10, 1916, she was made a life member of the society as a token of appreciation of her services and her untiring efforts on behalf of the society. W. B. Bentley was also made a life member at the annual meeting held in December, 1918, in appreciation of his assistance given to the society. We are also much indebted to Councillor J. A. Howard, who in May 1917, secured a grant of \$500 from the municipal council.
Our chief income for 1918 was derived from the Red Cross dinner given on August 7, the day the St. Martins Shipbuilding Company launched their first schooner. Owing to the assistance given us by the shipbuilding company and the generosity and hard work of the members and volunteer workers the sum of \$228.45 was cleared.
We desire to place on record the society's thanks to those who, unable to attend our meetings, worked so faithfully at home for the cause.
KATHLEEN BENTLEY,
Secretary-Treasurer,
St. Martins Branch Red Cross Society.

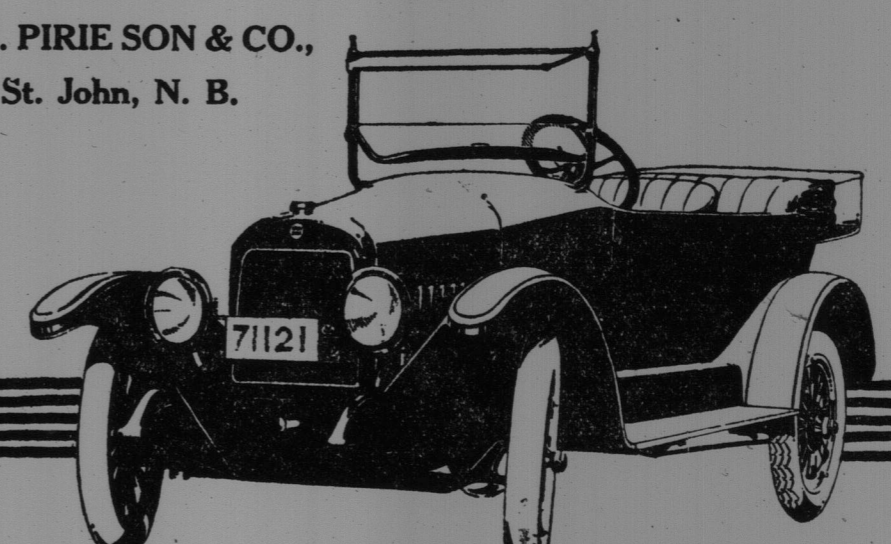

Maxwell: advanced by fine engineering
FIVE decided improvements have been made in the Maxwell. One makes it look better. Another makes the electrical unit far more efficient. A third makes the engine run sweeter, steadier, and gives it advanced economy. A fourth adds a comfort in seating. A fifth produces increased durability in the top.
But it isn't a new model Maxwell. For this car is merely the chassis of five years ago with all the advances made in fine engineering.
This is the original chassis Model of which 300,000 have been built to date—300,000 all alike basically, but each one better than the previous one.
Thus you get a sound, safe, extremely reliable car, refined to a degree, and at the same time you get the new improvements. The price is \$1395 f.o.b. Windsor.
You get a Maxwell now with the famous Hot Spot and Ram's-horn and you find a rare delight in more power and more mileage at the old-time cost.

NATIONAL MOTOR TRUCKS
Ask the Driver—He Knows
When it comes to the time for you to make a final choice, get into the driver's seat and say to yourself:
What is there about this Truck that will get into the heart of my driver and inspire in him a pride in its mechanical condition—a desire to always keep it fit?
There is no more exacting critic of a truck than the driver and it is for this reason that our slogan "Ask the Driver—He Knows" was created.
The driver that handles the wheel of a "National" is a satisfied driver. Beneath him he has a chassis assembly whose sturdiness and thrift has been proven through years of exacting service under all Canadian conditions.
He is always proud to handle such a Truck, and pride tends toward proper maintenance, fuel economy, cleanliness, lots of oil—in general, towards truck efficiency.
Send for a copy of the National Catalogue and when it comes to a question of "What Truck?—Ask the Driver—He Knows."

Dominant Value
The Gray Dort is the dominant value-car for 1919.
There are other cars bigger and heavier. There are cars lower in price. You do not need the costly weight and size, and you will not sacrifice Gray Dort refinements to save a few dollars. What you want and need is the balanced value of the Gray Dort. Sufficient power and speed from a wonderful motor; ample room and supreme comfort in riding and driving; standard equipment; beauty of line and finish; a real car, sturdy and long-lasting; and all this at a low price.
The touring car is \$1245; the Gray Dort Special—the car with added refinements and extra equipment, is \$135 extra; there are also a coupe, and a sedan. All prices f.o.b. Chatham and are subject to change without notice.

PROVINCIAL WELCOME TO SOLDIERS AT SAME TIME OF PRINCE'S VISIT

Citizens' Committee Also Complete Plans For the Peace Celebration on Saturday by Deciding on Automobile Parade in Morning—Fireworks in Evening to Surpass Anything Ever Seen in City.

At the meeting of the Citizens' Committee at the board of trade last evening, plans were arranged for the peace celebration to be held in the city on Saturday, July 19, and it was also decided that the returned soldiers' reunion and the celebration in honor of the arrival of the Prince of Wales should be united and held on August 14th and 15th respectively.

FINDS CURE FOR RHEUMATISM AFTER SUFFERING FIFTY YEARS

Now 83 Years Old—Regains Strength and Length of 'URIC ACID'

Goos Fishing; Back to Business, Feels Fine! How Others May Do It!

"I am eighty-three years old, and I doctored for rheumatism ever since I came out of the army over fifty years ago. Like many others, I spent money freely for so-called cures, and I have read about 'Uric Acid' cures, and I could not sleep nights, or walk without pain, my hands were sore and stiff, and I could not hold a pen. But now I feel as if I am in my prime, and can walk and ease or write all day with comfort. Friends are surprised at the change."

FREE TO ASTHMA SUFFERERS

A Pimple Remover That Never Fails

Dr. Hamilton Stands Behind His Formula. Bad blood is always responsible for pimples, blackheads and humors. Pimples, eczema and boils are the common result. I contend that to cure these ills, the liver, kidneys, and bowels must receive attention. My remedy, known as Dr. Hamilton's Pills of Mandrake and Butternut, invariably cures all these troubles. For putting life into weary organs, for forcing out every kind of waste and foreign matter, for making healthful, oxygenated blood, where can you find such efficiency as in Dr. Hamilton's Pills. In a thousand cases I have demonstrated that Dr. Hamilton's Pills cure facial blemishes and skin diseases.

Dr. Hamilton's Pills will not cure that tired, run-down condition, if they are not accompanied by a change in the diet. If Dr. Hamilton's Pills will not cure that tired, run-down condition, if they are not accompanied by a change in the diet. Get Dr. Hamilton's Pills and prove their merit today, 25c per box.

Stuffy Head Cleared Of Catarrh Germs By "Catarrhzone"

To catarrh victims we have just one word of advice—cure it now. The remedy is "Catarrhzone." That it will cure permanently you cannot doubt, for Catarrhzone has cured thousands; it will cure you, too. It acts in two ways: First, it destroys the mucus that checks the progress of the disease. Its second action is to heal the sore places of the lining of the nasal cavity, the sinuses, the lungs, bronchial tubes and nasal passages. In such absolute thoroughness that makes Catarrhzone so effective in grippe, catarrh, and colds. Then by its sedative action upon the mucous surfaces it clears away the cough and throat irritation very quickly. We owe something to a sense that has given us Catarrhzone—a wonderful remedy which so surely enables us to permanently cure disease of the mucous surfaces. It is useless, and this departure in the mode of treatment is an advance in medical science that every body can appreciate and value.

WHEN THE DAY IS DONE

I love to walk through a pillared wood. When the day is nearly done. And the high, deep aisles are all afloat. With the gold of the setting sun. And the squirrels and birds are one with me. And chatter and chirp from log and tree. And discords there are none. I drink my fill of the pungent air. That comes, when the twilight falls. From the far, green depths of the forest. The windowless, leaf-roofed halls. Are deep in dark—and the ferns grow high. And the moss, on the rocks is never dry. And the rare red lizard crawls. When the dark comes in, the leafy screen. And the glow dies out of the west. And only the mass of the wood is seen. And the day birds are at rest—Then comes the call of the whip-will. From his lonely haunt upon the hill. To his mate in her lonely nest. The owl croons from his perch on high. As the moon comes full and white. The gold of the stars flecks the blue of the sky. The tree toad's land is night. And over the note comes round and clear. And the chirp of the cricket is loud and near. And the night hawk wings his flight. Then I saunter home through the dew-damp fields. Where the bats show 'gainst the sky. As they feast on the gnats the warm earth yields. And the beetles go crawling by. And my soul awakes and my heart is light. With the joy and wonder of the night. And the earth and the heaven high—Earl L. Brownson, in Rochester Herald.

USE The Want Ad Way. If your eyes are weak and work-strained, your vision blurred, if you find it difficult to read and must wear glasses, go to your druggist and get a bottle of Bon-Opto tablets. Drop one in a fourth of a glass of water and bathe the eyes two to four times a day. Stronger eyes, clearer vision, and sweet relief will make you tell your friends about Bon-Opto.

OUCH! CORNS! LIFT CORNS OFF

Doesn't hurt a bit to lift any corn right off with fingers.

Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right off. It doesn't pain one bit. Yes, magic!

COUNCIL PLEDGED TO CREATION OF JUVENILE COURT

There was an interesting meeting of the finance committee of the county council yesterday afternoon in the city secretary's office in Prince of Wales street. The subject was the petition for the establishment of a juvenile court for the city and county of St. John, and the bringing of the matter before the next meeting of the council.

THE HORSE'S COLLAR

The collar should be just large enough to permit a man's hand to pass inside the collar between the lower end of the collar and the horse's neck. If the collar is too loose it will cause friction; if too tight it will choke the horse and cause the withers to rest on the collar.

ON THE MARRIAGE DAY

Romance ceases and history begins, and corns begin to go too soon "Putnam's" is applied—it takes out roots. Nothing so sure and painless as Putnam's Corn and Wart Extractor; try "Putnam's," 25c, at all dealers.

PLANS TO MAKE NEW YORK GREAT MEDICAL CENTRE

New York, July 11—Plans to make New York a world medical centre by erection of a \$300,000 medical college were announced here today by Dr. Royal S. Copeland, commissioner of health, after a meeting of prominent physicians and surgeons, at which New York Association for the Advancement of Medical Education and Medical Science was organized.

RECEPTION TO PASTOR

A reception to the new pastor of Zion Methodist church, Rev. M. E. Cronon, was tendered to him last evening by the congregation. F. A. Stidmore was in the chair and addressed the new pastor with words of welcome. F. S. Purdy and Rev. F. E. Boothroyd, the retiring pastor, also spoke. Rev. Mr. Boothroyd told of the good year just completed and prophesied even greater success for the coming year and assured all the members of the congregation that they were very fortunate to obtain Mr. Cronon as a pastor. Mr. Cronon has only recently returned from overseas where he has served for the past three years as a chaplain, having gone over with the 140th Battalion from New Brunswick. This is the first church since his return and before enlisting he was pastor of the Portland Methodist church. After the formal part of the reception was over, the ladies served a very dainty supper.

HERE IS PROGRAMME FOR PRINCE'S VISIT

Hon. W. E. Foster, premier of New Brunswick, last night gave The Telegraph the programme which will be carried out on the arrival of His Royal Highness, the Prince of Wales. He will review here his first port of call, presumably by warship, about 10 o'clock, on August 15, and will be met by the governor-general, the Duke of Devonshire, the prime minister, Sir Robert Borden, and some members of the dominion government, also Lieutenant-Governor Pugsley and Premier Foster accompanied by His Worship, Mayor Hayes. The Prince of Wales will only be able to spend one day in New Brunswick, but the authorities are endeavoring to fill that day with interest.

WIDESPREAD STRIKES SHAKE WHOLE FABRIC OF NATIONAL LIFE

Ottawa, July 11—Never in the history of Canadian industry have strikes produced so much indirect unemployment as during the present year. The situation at the Sydney Mines is but another instance to show how inter-related is industry today. The workers angrily demand of the municipality, the province and the government that something should be done to alleviate the situation. These are doing something, but it is believed in Ottawa that any governmental effort would be of little use in the face of the widespread industrial unrest and the frequent strikes which paralyze not only the industries in which they occur, but cause other industries to lay off their men because of the impossibility of getting needed raw materials.

ANY WOMAN'S STRUGGLE FOR GOOD HEALTH QUICKLY REWARDED

A SIMPLE HOME TREATMENT NOW ADVOCATED THAT GIVES FINE RESULTS. When a woman is tired, nervous, haggard and pale, when she is tired all day and ready to cry when night comes, she ought to know something is wrong. Putting off only makes matters worse. The best advice we can give any sickly woman is to test out the following treatment.

STREETS IN HALIFAX PAVED FROM END TO END

Halifax, like St. John, believes that good street are essential to the good name of the city. The streets in the sister city were nothing to boast about and were receiving such hard knocks that the new city administration over there has decided on a good, big, open paving programme which takes in many of its outlying streets. An extensive paving programme passed by the city council on Thursday night with that work on twenty-seven streets is to be started immediately. These twenty-seven streets will be paved from one end to the other. The work will be done by contract, awards having been made by tender. The tender deposits alone is about \$860,000 which represents an approximate expenditure of \$1,000,000.

END GERMAN BLOCKADE

Paris, July 11—(By The Associated Press)—The Council of Five has decided to raise the blockade against Germany to-morrow, it was announced tonight.

Sidelights On Sport

Considerable interest is being manifested in the game to take place this afternoon on the Queen square diamond between a picked team and the Galois baseball nine. The locals will line up as follows: Deyer, catcher; Chestnut, pitcher; McGovern, first base; Mahoney, second base; Gorman, third base; Lenihan, shortstop; Garnett, left field; Riley, centre field; Sterling, right field.

The Y. M. C. I. baseball nine left for Moncton this morning, where they will play two games with a picked team. The game will be this afternoon at 7 o'clock and the second this evening at 7 o'clock.

The suggestion that a good athletic field should be secured for High school boys in the form of a memorial to former members of the school who died in action is worthy of consideration. The

High school boys have been badly handicapped for years for want of a proper place to indulge in sport. Cincinnati was again closed the gap between themselves and the Giants and are now tied for the lead. The Reds are making a great showing this year and Brooklyn and Pittsburgh are putting up a better ball of ball. Chicago is expected to do well for it has a strong club.

The Yankees have met a snag in the Cleveland club and are dropping behind Chicago. The latter team has had an easy time trimming Philadelphia and is taking advantage of it.

The Toronto club are showing an improvement and have won three games in a row. Their wins did not avail them much for the Baltimore team has also been winning and maintaining a commanding lead.

Jack Johnson Grooming Championship Contender
"Big Smoke" is Training Capt. Bob Roper in Mexico City For Possible Bout With Dempsey

The black arm of Jack Johnson is reaching out for revenge. The laurels won in the ring at Toledo are not to rest on the brow of the world's champion untroubled by the winds of challenge.

In Mexico, amid the comfortable surroundings of the Mexican National Sporting Club at No. 63 Calle Bucarelli, Mexico City, Johnson is grooming Roper to be the next world's heavyweight monarch.

Daily, with the help of Charles Cutler, the wrestler, Johnson has been training Roper and teaching him all he knows. The old master of ring-craft is leaving no stone unturned to effect his second-hand come-back. Under his tutelage, Roper has progressed from a moderately skilled heavyweight into a fit contender for the title.

Johnson himself, stimulated by the new task, has apparently done much to climb out of the depths into which he had sunk since his Havana defeat. He is in the best of health and is doing well financially as a teacher of boxing. So far from being "strapped" Johnson is a proud possessor of \$10,000 worth of Liberty bonds.

YANKEES WILL BUILD HUGE STADIUM; NO LONGER WELCOME AT HOME OF GIANTS
New York, July 11.—Plans for a modern baseball stadium with a seating capacity of at least 40,000 are now being considered by officials of the New York American League club, and building operations may be under way within very short time. The site of the new stadium will be a home of their own next season.

There is a special treatment for skin blemishes

How to prevent blackheads

You can correct an oily skin

Five of the most famous skin treatments

Pale, sallow skins—the new steam treatment for them
Skin blemishes—how to get rid of them
Blackheads—how to prevent them
Oily skin and shiny nose—how to correct them
Conspicuous nose pores—how to reduce them

The new steam treatment

Pale, sallow skins
The new steam treatment for them
 One night a week try this treatment. Fill your bowl full of hot water—almost boiling hot. Bend over the top of the bowl and cover your head and the bowl with a heavy bath towel, so that no steam can escape. Steam your face for thirty seconds.
 Now lather a hot cloth with Woodbury's Facial Soap. With this, wash your face thoroughly, rubbing the lather well into the skin in an upward and outward direction. Rinse the skin well, first with warm water, then with cold, and finish by rubbing it for thirty seconds with a piece of ice.

Skin blemishes
How to get rid of them
 Just before retiring, wash in your usual way with warm water and Woodbury's Facial Soap and then dry your face. Now dip the tips of your fingers in warm water and rub them on the cake of Woodbury's until they are covered with a heavy cream-like lather. Cover each blemish with a thick coat of this soap cream and leave it on for ten minutes. Then rinse very carefully with clear, hot water; then with cold.
 Use Woodbury's regularly in your daily toilet. This will make your skin so firm and active that it will resist the frequent cause of blemishes and clear your skin.

Blackheads
How to keep your skin free from them
 Try the treatment given here. Apply hot cloths to the face until the skin is reddened. Then with a rough wash cloth, work up a heavy lather of Woodbury's Facial Soap and rub it into the pores thoroughly—always with an upward and outward motion. Rinse with clear, hot water, then with cold. Dry the skin carefully.
 To remove blackheads already formed, substitute a flesh brush for the wash cloth in the treatment above. Then protect the fingers with a handkerchief and press out the blackheads.

How to improve your skin
 Find out just what is the matter with it. Is it too oily? Is it growing coarse? Are the pores on nose and chin conspicuous? Whatever your trouble may be, examine your skin carefully and learn the special Woodbury treatment to remedy the condition.
 Your skin is changing every day. As old skin dies, new forms to take its place. By proper treatment you can make this new skin just what you would love to have it. Carry out this treatment faithfully. Before long your skin will take on the greater loveliness which the persistent use of Woodbury's Facial Soap brings.
 These famous Woodbury treatments for the commoner skin troubles have helped thousands of men and women. You will find them in detail together with scientific advice on the skin and scalp, in the booklet, "A Skin You Love to Touch," which is wrapped around every cake of Woodbury's Facial Soap.
 Get a cake of Woodbury's Facial Soap and begin tonight the treatment your skin needs. You will find Woodbury's on sale at any drug store or toilet goods counter in the United States or Canada. A 25-cent cake will last a month or six weeks.
 Sample cake of soap—Booklet of famous treatments—Samples of Woodbury's Facial Powder—Facial Cream and Cold Cream—sent to you for 15 cents.
 For 6 cents we will send a trial size cake (enough for a week or ten days of any Woodbury facial treatment) together with the booklet of treatments, "A Skin You Love to Touch." Or for 15 cents we will send you the treatment booklet and samples of Woodbury's Facial Soap, Facial Powder, Facial Cream and Cold Cream.
 Address The Andrew Jergens Co., Limited, Sherbrooke St., Perth, Ontario.

Conspicuous nose pores
How to reduce them
 Wrap a cloth from very hot water, lather it with Woodbury's Facial Soap, then hold it to your face. When the heat has expanded the pores, rub in very gently a fresh lather of Woodbury's. Repeat this hot water and lather application several times, stopping at once if your nose feels sensitive. Then finish by rubbing the nose for thirty seconds with a lump of ice.
 Do not expect to change in a week a condition resulting from years of neglect. But use this treatment persistently. It will gradually reduce the enlarged pores until they are inconspicuous.

For an oily skin and shiny nose
How to correct them
 With warm water work up a heavy lather of Woodbury's Facial Soap in your hands. Apply it to your face and rub it into the pores thoroughly—always with an upward and outward motion. Rinse with warm water, then with cold—the colder the better. If possible, rub your face for thirty seconds with a piece of ice.
 This treatment will make your skin fresher and clearer the first time you use it. Make it a nightly habit, and before long you will see a marked improvement.

For the commoner skin troubles
 You will find complete treatments, as well as scientific advice on the skin and scalp, in the booklet "A Skin You Love to Touch". This booklet is wrapped around every cake of Woodbury's Facial Soap.
