THE GOVERNMENT'S NEGLECT GLOUCESTER COUNTY

Service to the Island

FREDERICTON, N. B., May 29.—
The independent members for Gloucester are up in arms against the government of New Brunswick because the subsidy for the steamer Beaver which was granted by the late government this year is to be cut off. This steamer plies between the islands of Shippegan and Miscou and the mainland and is practically the only means of communication the people of these islands which are rapidly growing in importance, have. For many years little attention was given to the development of these two islands which form part of the parish of Shippegan. Their growing importance was first recognized some years ago when Chief Commissioner Labillois, built a road in Miscou, the first they ever had which has proved a great convenience to the people and facilited further settlement. part of the new government in the future of Gloucester, inspired perhaps by purely political motives.

Dr. Sormany who waited upon Mr. Flemming in connection with the subsidy was informed that the government had decided not to continue it and were sustained in this course by Messrs. Stewart and Wetzell, who had been government candidates in the recent election. These gentlemen, it will be remembered, lost their deposits. The fact that they have advised the government in the course taken indicates that the refusal to grant the subsidy or to reconsider the matter is based entirely on political grounds and given a nasty complexion to the whole affair. Hitherto the commercial needs of a community have been separated from political issues in this province, but it now looks as if subsidies were to be granted in return for political support, and refused when that support was either withdrawn or not given.

In his enquiry made to the government yesterday also, the question if the fact that the independent members for Gloucester voted with the oposition on the highway bill had anything to do with the refusal on the part of the government to continue the subsidy, there are several other enquiries along the same lipe involved in the question, the answers to which are awaited with considerable interest by all parties in the house.

HALIFAX, N. S., May 29. — Word was received today by President Lithgow from the Secretary of the Canadian committee at Ottawa that the English definition of amateur rules govern the Olympic trials and as they do not allow of any one but "Gentlemen," that is persons who do not work for a living taking part, Halifax is cut out completely. The announcement has caused a great deal of comment and much bitter feeling. Our local clubs had assurances that the Canadian definition would apply but the clubs had assurances that the Canadian definition would apply but the latest announcement is most disappointing. DR. PUGSLEY'S LETTER

One Mr. Smith Has a Thirst for Knowledge

Mr. Babbitt said he had not noticed the Ottawa mark, as it was not his custom to do so. All he could say was that he remembered that the letter bore the date of 27th of February, and it was received 9th of March, as he deposited the checks as soon as he received them, and that was the date they were put in the bank.

Hon. Mr. Flemming was called and stated that the envelope had never come into his possession. When he assumed office the two letters of Dr. Pugsley were handed to him in one

sumed office the two letters of Dr. Pugsley were handed to him in one large envelope. The first letter dated February 22, contained the statement of an account against the province for \$3670, and the other letter February 27th, referred to the two enclosed cheeks. In the letter letter wasten checks. In the latter letter the writer said he enclosed the checks to cover his overdraft, as the government being then busy would not probably have for plan of Atlantic Quebec & Western Railway; he also to consider and determine claim for ordinary traveling expenses last fiscal year, also expenses inter-provincial conference, October, 1906; expenses to Washington re forestry matters, and other items contained in my account rendered. I will pay expenses of arbitrator, and am mailing you check for \$500 for this purpose. This is, I think you will agree with me, a fair proposition and should be accented by well as the government being then busy would not probably have time to pass upon his account. Mr.Flemming was examined at length by the committee, He said that the statement made that the ex-Attorney General's drafts covered claims he had against the Province was most absurd. in the past year or so. The argument put up that interest should be charged on the claims as well as the overdrafts

penditure of the Central Railway and these were discussed at length. Members of the committee expressed the opinion that the commissioners should have given to the department a detailed account of how the money was expanded. Chairman Pinder criticized strongly the payment of \$1083.00 to Mr. Skinner as acting judge of probates for St. John during the late Judge Trueman's absence while the latter had received the full salaray, as the understanding had been that the leave of absence should be no additional expense. Other items were taken up and the meeting adjourned at 1 o'clock.

FREDERICTON, N. B., May 29.

The public accounts committee of the legislature held an interesting session this morning, Dr. Pugsley's tranvactions with the province being the matter chiefly under discussion. Mr. Smith a member of the committee who was not present yesterday afternoon, said he wished today to more thoroughly look into the matter. He said that he had seen it stated in this morning's papers that the ex-Attorney General forwarded a letter dated the 27th of February last to the province which contained two checks amounting to

Questioned further by Mr. Smith the provincial secretary said that these overdrafts never saw the light of the day as they were carried under the suspense account and this account was never made public.

The committee also took up the exchisyements in promoting public unserving propositions. Josiah Wood and H. A. Powell, the county may well rally enthusiastically to his support. SEVERAL DROWNED

On the lumber drives on the upper St. John river this year there have been at least two fatal accidents.

Che of the unfortunate victims was Mrses Thierault, residing near Bathurst, who was employed on W. J. Noble's drive for the Cushing concern.

Another of the victims was a man residing near Caribou, Me., who was employed on Sweeney's drive on the Poquol. He was drowned as the drive was coming out of the brook into the main river, by falling from a log into about eight feet of vater. The man was one of the best stream drivers and most active men on the drive, but went to his end without being able, for some resson or other, to make a strong fight for life.

That the railway considers the eastern part of the harbor development is shown by the fact that for some time past photographers in the employ of the Grand Trunk Pacific have been engaged in taking views of Courtenay Bay from various points. The photographs obtained have been forwarded to the headquarters of the railway and will no doubt have considerable influence on the decision of those controlling the road to use St. John as a terminus or to pass it by.

AMMENDMENTS TO THE COMPENSATION BILL

Mr. Hatheway and Others Deny Having Made Any Promises to the Labor Men

FREDERICTON, May 28.—In the legislature today there was a lively debate on the compensation bill. When this bill came up for its third reading, Mr. Hatheway presented an amendment and was followed by Mr. McInerney with another. Messrs. Lowell and McKeown wanted to know if these had received the approval of the labor unions, Mr. McInerney denied that any pledge had been given the unions but admitted that there was an understanding. Mr. Wilson squirmed out of the corner without saying anything. the corner without saying anything.

Particular Time Will This Fact Interest You?

Dollar for dollar, the price you pay us for Ready-to Wear Clothes is met on the level by the quality and style you obtain.

This is plain talk. We believe in our Clothes, and have had them made for us by tailors who, we tell you, are the best in the business—20th Century, and several others whose goods have been very carefully selected to sell at prices not produced by the former.

These makers all count merit as their watchword; their clothes will fit and wear and give you style. The finest styles we ever assembled for a season's business are here to-day.

we are assured, a splendid supporting company and the play will be beautifully mounted.

There is no actor or play before the theatre going public today so universally loved, by the children especially, as is Thomas Jefferson and his grand old romance of the Catskills, "Rip Van Winkle." The names of Jefferson and "Rip Van Winkle." are synonymous. Theatregoers have laughed with them and shared the sorrows of old "Rip" many and many a time and the indications are that they will continue doing so for many years to come, and their children and grand-children will do likewise.

The Palace Tonight

A programme of exceptional merit has beeen prepared at The Princess for Friday and Saturday. Our leading pleture, George Washington at Valley Forge. This picture is one of the finest productions on the road, showing the hardships the American army were forced to endure during the winter they were encamped at that spot. The bravery exhibited by the army at this trying time will appeal to the English as well as the Americans. The excellent staff of singers will be heard in new numbers. Louis Monohan will sing, Star of My Life. Those who have not yet heard Mr. Monohan should not fail to do so. Miss Ellis, a new singer to the St. John theatregoers, will be heard in, Tell Me Will My Dream The Palace Tonight

"KING'S MESSENGER" AT THE NICKEL.

The Nickel has a great bill for the week-end and the children on Satur-lay in which the grandly spectacular film "The King's Messenger" is the leading item. This is a story of the days of chivalry with knights and ladies, kings and queens the principals. Then comes the new Pathe success, The Foundling, a story of a babe who grew up in a cottager's home and met with many adventures. The third picture is a laugh-maker, A Porter By Chance, made by those premier funfactors, Pathe Freres. All three are brand new, the latter two bearing the issue date of May 25th, last Monday. Last evening Mr. Cairns was encored time and again for his emotional rendering of the new ballad, "I'm Starving For One Sight of You," and Miss Wren was well received in her new song, "When Springtime Brings The Roses, Jessie Dear." This is a great show for the children tomorrow.

AT THE UNIQUE. A rare treat is in store for all those who attend the Unique today, an extra fine programme of pictures and songs have been secured. A Misalliance, one of the best pictures yet produced. The daughter of a poor drunkard who supported herself by singing and dancing, met a nobleman and in spite of her poverty and the opposition of his family they are married. Two years later his regiment is ordered to war and, with a heavy heart, he leaves his loved ones. After an engagement, the nobleman is A rare treat is in store for all those After an engagement, the nobleman is missing and is reported as being killed, and on hearing this his mother turns his wife out of the house and she is forced to return to her father and his poverty. Shortly after this her husband returns, as the report that he was killed was false, and she is restored to her returns, as the report that he was killed was false, and she is restored to her rightful place. The new pictures at the Happy Half Hour today are four in number, and have never been seen here before. The Lovers' Tribulations is a laugh from start to finish. It concerns a hardhearted father who refuses to allow his daughter to wed the man of her choice. They finally wed, but not before the lover has assumed all manner of disgulses. The Memory of His Mother is a vathetic dramatic picture throughout which there runs' a charming love story. The Two Guides is a very strong dramatic picture. The scenes are laid in France and incidentally splendid views of the coast of Brittany, in France, are shown. "Where are you going, Buster?" Halvord looked down upon the sturdy figure of Dicky Bennington, otherwise, Mededed to add some of the fish to their picnic fare, so he built a rude vist with the training tra

ingly. "Lead on, my youthful tempter! But suppose we stop for some lunch first."

Halvord's boarding house was just around the corner and soon he had an ample lunch put up to supplement Fuster's well-filled box. Together they turned their steps across the fields to where the "river" scarcely more than a brook, tumbled over the rocks in its haste to join the large stream beyond. They found a little nook in the rocky wall, where the gray rocks widened slightly to form a grassy lawn, fringed with trees, just unfording their leaves. There was still sufficient hint of a chill in the air to lend sqarkle to the sunny warmth and to Halvord, long buried at his desk, and the intricate analysis which formed his work, it seemed as though he had become a hoy again as he dug angle-worms with a bit of broken branch and impaled them in a box.

Never on his fishing trips during vacation time had he enjoyed half the

them in a box.

Never on his fishing trips during vacation time had he enjoyed half the sport with costly rods and reels, that he found in the grimy length of line which Buster extracted from his pocket. It required some surgical tailoring to remove the barb of the hook which had fastened itself in the lining and Halvord watched the proceeding with eyes suddenly grown young.

Star —Spring Truant y? lipeKu It was too early in the season for the fish to be finical as to fare, so the worms were more eagerly accepted than the fanciest flies would be early in the season. By noon the two had

Fifty Three Little Fights With Japanese This Month-Nearly Six Hundred Killed

SEOUL, Korea, May 29.—According to military reports a total of 53 engagements were fought during the month of May in the campaign of the Japanese forces against Korean insurgents and rioters. Five hundred and forty-nine insurgents were killed and many wounded and a large number captured. The Japanese lost 30 killed. The insurgents invariably outnumbered the Japanese 5 to 1. Many of the Korean insurgents who have given the Japanese administration much trouble are surrendering. In fact the insurrectionary movement has lost all semblance of organization and control since the only recognized Korean insurgent leader came to Seoul on May 27 and gave himself up. At the Japanese military headquarters it is confidently predicted that the entire disturbing element in Korea will be subtilled within sixty days. Gendarmes are now thoroughly distributed throughout the affected provinces. are now thoroughly distribution throughout the affected provinces.

DETROIT, May 29.—Speaking last night at the annual banquet which closed the convention of the International Master Boller Makers' Association, Charles M. Schwab, predicted that in ten years the annual production of steel in this country would be forty million tons as against 25,000,000 in 1907. Mr. Schwab said that while there existed today the greatest depression ever known in the history of the steel trade, conditions were steadily improving. when these little creatures are at their best.

In great cities of Europe are stores devoted entirely to them, each ornamented by an immense gilt snail over the door as a sign. Huge tubs of snalls in the rough are displayed, and there are besides dishes of carefully prepared mollusks al! ready for eating. These have been cooked, extracted from their shells and minced. The meat is then mixed with butter, chopped parsley and herbs, and the shells, trimmed, and made attractive, are refilled with this prepared paste.

The most popular snalls today come from Dijn and Macon, in Burgundy, where they are fed on vine leaves, and the parks, as the local snail farms are called, open their gates in the month of August, when the little creatures bestir themselves actively.

A serious fire was narrowly averted on Thursday night at the Minto Hotel, Grand Falls. One of the guests in coming down stairs late at night, slipped and fell. A lamp, which he was carrying, exploded and set fire to some objects around. Others in the house were aroused and, with some difficulty the fire was extinguished before any damage was done.—Victoria Co. News.

A happy event took place Wednesday evening at the residence of William McKee, City Road, when Walter B. Hornebrook, of Chipman, Queens County. was united in marriage with Miss Sylvia McDougall, of the same place. The ceremony was performed by Rev. L. A. McLean. The bride received many useful and handsome presents, among which was a cheque from the groom's parents. Mr. and Mrs. Hornebrook will reside in Chipman.

A serious fire was narrowly averted on the Minto Horself of the Ship Laborers' Association. In consequence of the state ments made by the members from St. John in the provincial legislature yesterday denying Mr. John Sullivan's emphatic assertion that direct promises of a compensation bill had been made before the election, the Star this morning took the trouble to interview Mr. Sullivan. He was found at work at No. 5 warehouse and in reply to an enquiry said, "That was a great piece you had in the paper yesterday about the compensation bill, but what's the use of talking about it, we're not going to get it anyway." Were there any promises? "No, there wern't. They never promised us anything and what's more, I never said they did. That report that you had from Fredericton when we went up there to talk about the bill, was not true. I never said we promised to vote for them if they agreed to give us the bill. If that's all you want to talk about I'll go back to my work."

DR. PETERSON SUGGESTS

In conversation with the Sun ties morning Dr. Peterson advocated a union which would add strength to them all without detracting anything from the present advantages of the various institutions.

This board should make up the examinations and conduct them, granting the degrees according to results. Care could be taken to see that every college and every interest was represented, and that the examinations be absolutely impartial.

the degrees according to results. Care could be taken to see that every college and every interest was represented, and that the examinations be absolutely impartial.

While the degrees of the various colleges of the maritime provinces now represent a high standard of scholarship, the degrees granted by a union of all the colleges would carry more weight and represent to the average person a more exact standard by which to judge the efficiency of the graduates.

The regular monthly meeting of the Free Kindergarten Association was held yesterday. Reports were received from the different teachers. It was shown that the average attendance during the month was:—Waterloo St. Kindergarten 31; Brussels St., 22, and Portland St., 23. These averages are lower than usual because of the fact that considerable sickness has existed in the families of some of the children attending the Kindergartens. During the spring the special subjects to which attention has been given have

ates.

Dr. Peterson spoke very highly of work now being done in the various maritime colleges. Referring to the closing exercises at Fredericton, at which he was present yesterday, the principle said that looking at the work done in the college as one accustomed to judge, he was deeply impressed with the results.

to judge, he was deeply impressed with the results.

There was a spirit in such a college which could not be developed in an immense institution where the students and professors could not become so intimately acquainted with each other.

He appreciated the work which such colleges did, but we wanted to remember that we were building, as we hoped, not for years but for centuries, and should look towards the development of the colleges that would make for the best results in the future.

Principal Peterson was entertained at luncheon at the Union Club at 1.30

from the south and the building of their homes.

All the pupils from the Kindergar-tens united in celebrating Arbor Day in Rockwood Fark for which lunch was donated by friends. The little ones, about one hundred and fifty in all, spent a very happy as well as a very profitable day among the trees and wild flowers. Several of the teachers report that clothing is very much needed, winter apparel being worn out and the spring necessities not yet provided. Foot-wear is particularly needed, and friends having any useful clothing for the children might telephone 334. Parcels will be called for or directions given where the same might be sent.

their hands.

The local Kennel Association is now affiliated with the Canadian Kennel Club which is the national governing Club which is the national governing body. This affiliation requires that shows run under the auspices of local clubs be governed by the Canadian regulations. This makes the rules uniform with other shows and as this is much more satisfactory to the exhibition, it renders it easier for the management to get a good list of entries. It is understood that some entries have already been promised from Montreal and Toronto. St. John and other local points can put up good competition in most lines and the show will probably be the best ever held here.
