

TRouble FEARED. Lumbermen Anxious About River Conditions. Forty Millions of Feet of Logs Are Lying Between Fredericton and Seven Islands and May Run Out at Any Time.

Lumbermen, not only in St. John, but all along the river are seriously worrying over the probability of a catastrophe in handling logs compared to which that of two seasons ago will in some respects be of minor importance. In order to prepare for whatever conditions may arise, the lumbermen held a meeting yesterday forenoon and decided to do at once everything which will tend to lessen the probable loss.

At the meeting held yesterday morning it was decided to notify all persons living along the river of the threatening danger and to ask them to assist in the province towns the gas used here ranks lowest. In Fredericton the highest average candle power was 18.18 and the lowest 16.01; Moncton, highest 21.70, lowest 16.49; Halifax, highest 18.53, lowest 16.25; Pictou, highest 18.90, lowest 17.21; Yarmouth, highest 18.12, lowest 17.70; and Charlottetown, highest 21.44, lowest 16.90. In St. John the highest was 18.93 and the lowest 16.42.

Mills Supplies. Belting, Red Strip Rubber, Goodhues' Leather, Milo Canvas, Jenkins' Genuine Valves, Files, Waste, Saws, Oils, Packing, Emery Wheels. WRITE FOR PRICES TO W.H. Thorne & Co., Ltd. Market Square, St. John.

VERY POOR GAS. Many Complaints Made About What is Supplied in St. John.

The corporation which supplies gas light to the city of St. John exacts almost the highest prices paid in Canada, and furnishes about the poorest gas that is supplied in any city of the size of St. John in the Dominion. In Montreal there is an agitation for 75 cent gas, and the prices now paid in Montreal and Toronto are little more than half the charge here. The quarterly gas bill rendered in St. John would seem to be high if the gas were good, but \$1.85 per thousand, with 10 cents off for cash, is held to be too steep for gas that gives a candle power as close to the minimum standard as the law allows. In keeping close to the dead line the company passed it twice last year, or rather there were two occasions when the official readings found the standard too high for the light. Various unofficial readings, reported by persons who tried to read books by gas light, indicate many more than two lapses. Out of 44 cities and towns in Canada enumerated in the official reports only three were better than St. John in the matter of the size of the gas bills as this year. There is a fair chance that if some account is not taken to improve the quality of the light, and to reduce the cost, an agitation for municipal ownership will arise and prevail.

At the meeting held yesterday morning it was decided to notify all persons living along the river of the threatening danger and to ask them to assist in the province towns the gas used here ranks lowest. In Fredericton the highest average candle power was 18.18 and the lowest 16.01; Moncton, highest 21.70, lowest 16.49; Halifax, highest 18.53, lowest 16.25; Pictou, highest 18.90, lowest 17.21; Yarmouth, highest 18.12, lowest 17.70; and Charlottetown, highest 21.44, lowest 16.90. In St. John the highest was 18.93 and the lowest 16.42.

In St. John the highest was 18.93 and the lowest 16.42.

P. E. ISLAND LIQUOR DEALER. Who for Some Time Has Been Seriously Ill.

CHARLOTTETOWN, March 7.—One of the most important industries in this province is that of dairying. In it our farmers are generally engaged, and together with the supplementary revenue derived from the industry, it forms a large share of our receipts. Last year there were manufactured in this province 2,729,556 pounds of cheese, net value, \$220,709. The milk received for these manufactures was 29,589,822 pounds. From 12,587,729 pounds of milk there were manufactured 555,547 pounds of butter, net value, \$87,707. Last summer was a very favorable year for dairying as pasturage was usually short and corn and root crops were almost a failure. The above results, then, under the circumstances, are gratifying to all.

At the meeting held yesterday morning it was decided to notify all persons living along the river of the threatening danger and to ask them to assist in the province towns the gas used here ranks lowest. In Fredericton the highest average candle power was 18.18 and the lowest 16.01; Moncton, highest 21.70, lowest 16.49; Halifax, highest 18.53, lowest 16.25; Pictou, highest 18.90, lowest 17.21; Yarmouth, highest 18.12, lowest 17.70; and Charlottetown, highest 21.44, lowest 16.90. In St. John the highest was 18.93 and the lowest 16.42.

THE TROUBLE BEGINS. The Fourth Session of the Ninth Parliament Opened Yesterday.

Mr. Belcourt, Member for Ottawa, Chosen Speaker—Announcement of Dr. Daniel's Election Received With Great Applause—Quite a Fashionable Attendance at the Ceremonies.

OTTAWA, March 10.—The commons this afternoon elected as its speaker for the remainder of the present parliament N. A. Belcourt of Ottawa. There was a good presentation of members on both sides when shortly after three o'clock, Colonel Smith, sergeant-at-arms, brought in the message. The speaker's chair was vacant and the only man who seemed to be in authority along with the sergeant was Mr. Flint, the clerk, who occupied his usual place at the head of the table immediately in front of the speaker's dais. The commoners waited in expectancy for the arrival of black rod. The three loud raps were given, Col. Smith grabbed the mace and went to investigate the noise. Having satisfied himself upon the point, the sergeant faced around and informed Mr. Flint that a messenger was in waiting from his honor the lieutenant governor.

At the meeting held yesterday morning it was decided to notify all persons living along the river of the threatening danger and to ask them to assist in the province towns the gas used here ranks lowest. In Fredericton the highest average candle power was 18.18 and the lowest 16.01; Moncton, highest 21.70, lowest 16.49; Halifax, highest 18.53, lowest 16.25; Pictou, highest 18.90, lowest 17.21; Yarmouth, highest 18.12, lowest 17.70; and Charlottetown, highest 21.44, lowest 16.90. In St. John the highest was 18.93 and the lowest 16.42.

CHAMBERLAIN Forces Balfour to Back Down. He Controls the Situation and the Premier Evades an Important Issue.

LONDON, March 9.—During the discussion of the army estimates in the house of commons tonight Premier Balfour said that so long as the army home defences were maintained in an adequate condition any invasion of this country by an organized force capable of reducing it to submission was merely a dream. But no man could blind himself to the fact that circumstances in the East were making Great Britain's great continental power, contentions with another great military power and these circumstances must be taken into account in framing the British army estimates.

At the meeting held yesterday morning it was decided to notify all persons living along the river of the threatening danger and to ask them to assist in the province towns the gas used here ranks lowest. In Fredericton the highest average candle power was 18.18 and the lowest 16.01; Moncton, highest 21.70, lowest 16.49; Halifax, highest 18.53, lowest 16.25; Pictou, highest 18.90, lowest 17.21; Yarmouth, highest 18.12, lowest 17.70; and Charlottetown, highest 21.44, lowest 16.90. In St. John the highest was 18.93 and the lowest 16.42.

FASTER THAN FOSTER. Prisoners in Yarmouth Capture a Companion Who Tried to Escape.

HALIFAX, March 10.—While at work in the jail yard at Yarmouth, William Foster, cook of the Luncheon Lightship, imprisoned for stealing sheep, broke away, climbed the fence, and ran away. Other prisoners worked with him and he was caught half a mile down the road, and half a mile down the road caught him and brought him back.

At the meeting held yesterday morning it was decided to notify all persons living along the river of the threatening danger and to ask them to assist in the province towns the gas used here ranks lowest. In Fredericton the highest average candle power was 18.18 and the lowest 16.01; Moncton, highest 21.70, lowest 16.49; Halifax, highest 18.53, lowest 16.25; Pictou, highest 18.90, lowest 17.21; Yarmouth, highest 18.12, lowest 17.70; and Charlottetown, highest 21.44, lowest 16.90. In St. John the highest was 18.93 and the lowest 16.42.

A BIG PRICE. American Company Paid \$1,500,000 for the Montreal Locomotive Works.

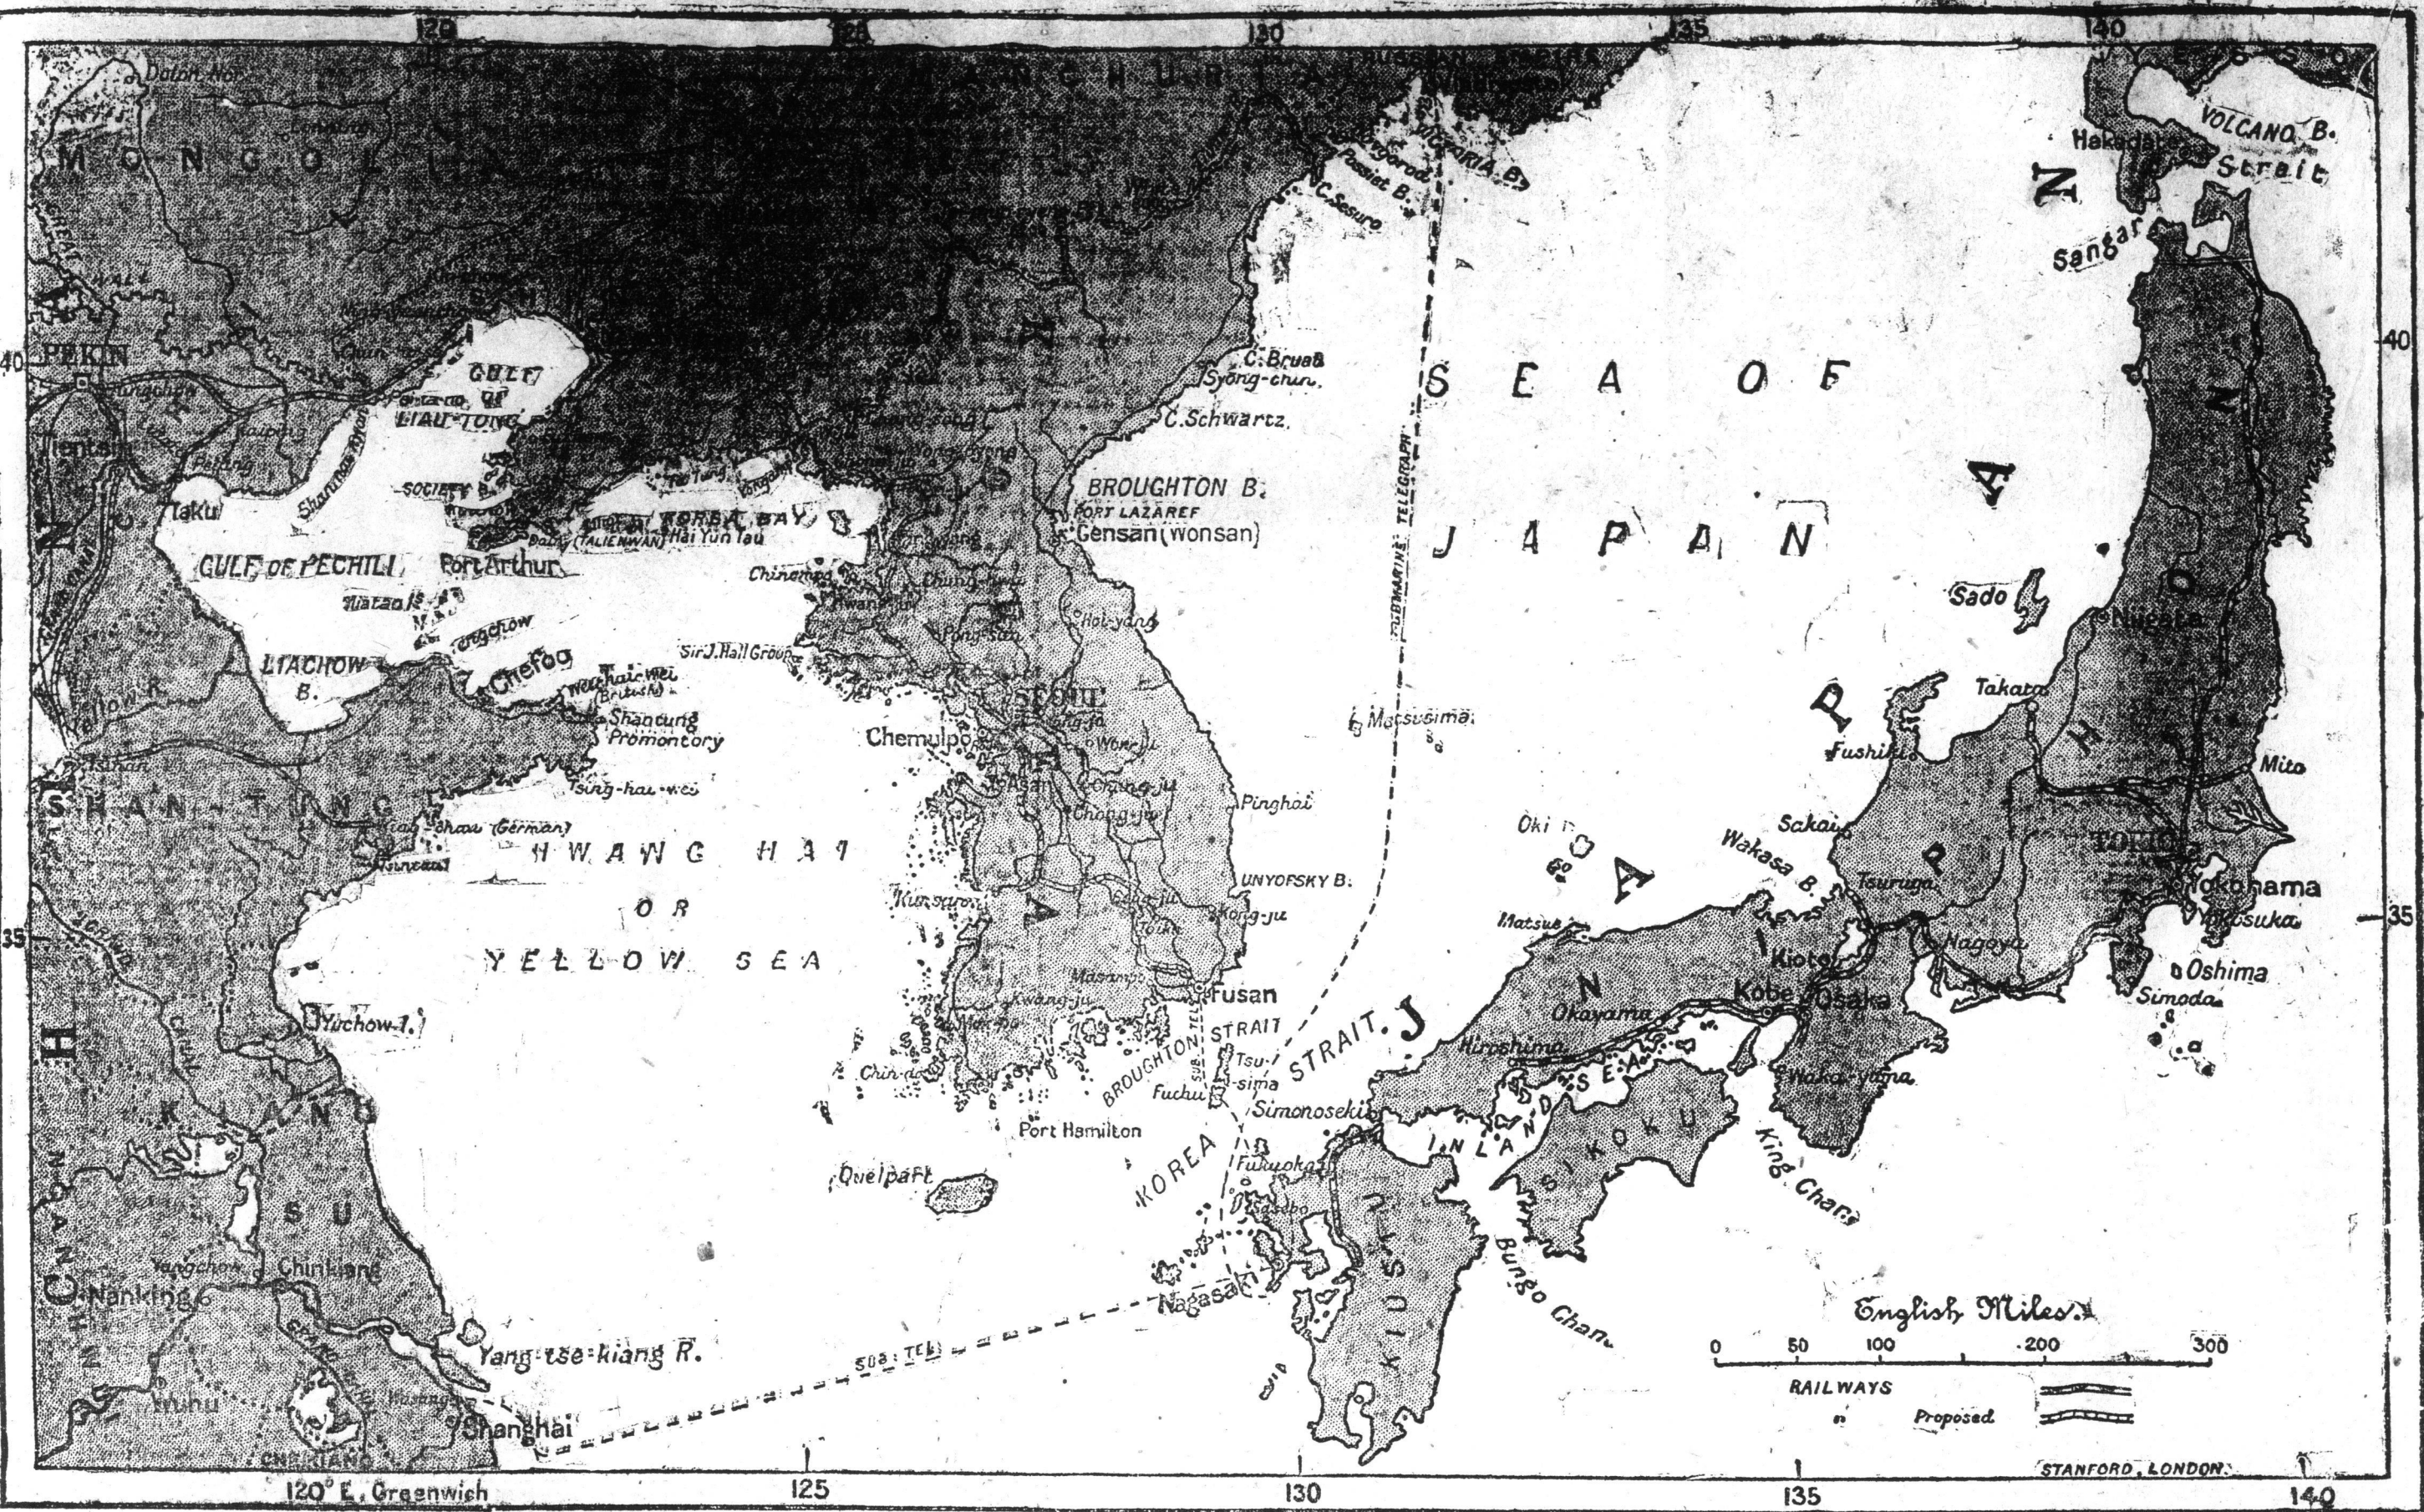

MONTREAL, March 9.—Details announced of the purchase of the plant and works of the Montreal Locomotive Works, Ltd., of Montreal, by the American Locomotive Company, show that the price paid was \$1,500,000. Of this \$400,000 will be used to retire bonds of the company and \$400,000 to pay various creditors, the balance, payable in four per cent bonds, going to vendors. The American Locomotive Company officials announced that an additional \$500,000 will be expended upon the plant, that two thousand men will be employed, and the capacity of the works to begin with will be one hundred and fifty locomotives per annum.

At the meeting held yesterday morning it was decided to notify all persons living along the river of the threatening danger and to ask them to assist in the province towns the gas used here ranks lowest. In Fredericton the highest average candle power was 18.18 and the lowest 16.01; Moncton, highest 21.70, lowest 16.49; Halifax, highest 18.53, lowest 16.25; Pictou, highest 18.90, lowest 17.21; Yarmouth, highest 18.12, lowest 17.70; and Charlottetown, highest 21.44, lowest 16.90. ## CHASED BY HUNGRY WOLVES.

### Commercial Travellers Had an Exciting Experience Near Winnipeg.

Only twelve miles from Winnipeg four commercial travellers had an exciting chase by a hungry pack of wolves a week or two ago. The Winnipeg Tribune tells the story:

"A pack of timber wolves was noticed on the road a short distance ahead of them. These animals invariably show their heads when approached, but on this occasion they gave promise of making a determined stand. The travellers, however, drove along, apparently unmindful of them, and when within a few feet of them the pack struck suddenly away amongst the drifts of snow and poplar scrub.

"The occupants of the rig became a little more easy at this juncture, believing that, as is customary, the animals would look for other prey. But in this they were disappointed. One of the occupants of the rig in glancing around happened to notice the outline of one of the giant animals as it leaped from one knoll to another. This was followed by the outlines of the others, until the whole pack was discovered to be doggedly following the rig.

"The travellers were without firearms of any kind, and then only did the real danger of their position dawn upon them. Wolves became much more dangerous and raging when they see a prospective prey retreating than when a stand is made. The men, too, did not lose any time in increasing the speed of their horse, and it rapidly resolved itself into a race between the travellers and the wolves. The hungry animals sped over the ground at lightning rate, and, becoming more daring, took to the road behind the fleeing rig. Fortunately the men were driving a good piece of horseflesh, and just managed to reach Stony Mountain ahead of the animals. Here they entered at breakneck pace, to the utter astonishment of one or two of the villagers, who happened to be about at that early hour of the morning.

"Of course the wolves gave up the hunt at this point, not daring to follow up the rig into the village. The winter has been particularly hard on these animals, and has been making them look for food other than by the usual channels. They were making their appearance very much closer to settled sections of the country than heretofore.

"The Winnipeg Telegram says that wolves are committing considerable depredations in many parts of the province. The long continued spell of cold weather, combined with the unusual snowfall, has driven the wolves from the timbered sections into the settlements, and depredations are reported from several sections.

"A party of lumbermen from the Fort Frances district say that the wolves are becoming daily more aggressive, and it is advisable for anyone who has snowfall, has driven the wolves from the timbered sections into the settlements, and depredations are reported from several sections.

## G. T. PACIFIC.

### Agreement Ratified in London Yesterday.

LONDON, March 8.—The Grand Trunk Railway shareholders at a meeting today ratified the agreement with the Canadian government for the construction of a Grand Trunk line to the Pacific.

LONDON, March 8.—The decision was arrived at after a prolonged discussion at the Grand Trunk meeting. The meeting was packed, and at one stage of the proceedings the tone was unmistakably hostile to embarking in so huge an enterprise. General Manager Hays, who had come from Canada specially to attend the meeting, saved the situation, and when the final vote was taken there were only a few opponents to the Grand Trunk Railway undertaking to build a transcontinental road.

Sir Charles Rivers Wilson, president of the company, explained the plan to extend the Grand Trunk to the Pacific. He declared that it was the most important question ever put before the shareholders of the Grand Trunk Railway. The new line, he added, was justified by the flow of prosperity from east to west, and the increasing immigration into Canada from the United States. The Grand Trunk could not hope to receive such generous treatment from the Canadian government as the Canadian Pacific Railroad, but the premier, Sir Wilfrid Laurier, had acted absolutely fair, in spite of violent political opposition, with the object of attaining additional facilities for the development of Canada. The president characterized the deposit demanded by the Canadian government in connection with the agreement as "an extremely unnecessary and unreasonable demand." Then one after another the shareholders representing blocks of 50,000 and more shares, rose and declared they had not had sufficient time to consider so huge an enterprise. An amendment was proposed by George Allen, who had resigned his seat in the directors on account of the proposition, in which Mr. Allen declared the intended action would ruin the Grand Trunk Railway.

OTTAWA, March 8.—Sir Wilfrid Laurier was notified by cable today that the shareholders of the Grand Trunk Railway at their annual meeting today approved of the Grand Trunk Pacific Railway project and the contract with the government for its construction.

Several large shareholders withdrew their proxies and placed them in the

## COUNTY COURTS.

### True Bill Against Walter Rollison—Three Years for Casey of Kent County.

RICHMOND, N. B., March 8.—The circuit court, Judge Hanington presiding, opened this morning. The grand jury selected Jas. Givens foreman. The only criminal case was the charge against Casey for breaking into a trunk at St. Louis and stealing five dollars and other valuables. The grand jury brought in a true bill. The prisoner pleaded guilty and was sentenced to three years in the penitentiary, in which institution he has served a previous term.

The case of W. D. Carter v. George Long is now before the court.

FREDERICTON, March 8.—The Sunbury county court opened at Burton this morning. Judge Wilson presiding. The attendance is large. Interest centred in the forgery case against Walter Rollison, on information of Dr. Dundas of Holy Station. The grand jury, after being out till after four o'clock this afternoon, returned a true bill on the count in the indictment charging Rollison with uttering a forged note, but threw out the count charging forgery.

The evidence of John T. Clark and A. B. Kitchen, both of this city, was taken and court adjourned till ten o'clock tomorrow morning.

R. W. McLeellan, clerk of peace, is prosecuting. J. D. Hazen, K. C., is watching the case as counsel for Dundas. The prisoner is defended by A. R. Slipp and R. B. Hanson.

AMHERST, N. S., March 8.—Barry S. Davidson, was tried by Judge Morse today on the charge of stealing jewelry, etc., from Mrs. J. B. Lambkin, and articles from Mr. Lambkin on January 18 in the King Edward hotel, Halifax. The prisoner pleaded guilty. Evidence given by Mr. Lambkin testified to having seen two young men, one of whom was the prisoner, going from the direction of the room on that day. Detective Sheffington gave evidence of finding some of the jewellery at Moncton, and other witnesses proved the sale of the same by the prisoner. His honor sentenced the prisoner to three years in Dorchester.

Chas. Davidson and Frank Stephenson, who had previously been found guilty of stealing a fur jacket from the Dominion Express Co., were up for sentence, and were given three years each in Dorchester. All the prisoners were sent to Dorchester today.

## SUMMER TRAIN SERVICE.

### Supt. Downie and the District Passenger Agent of the C. P. R. will be present at a meeting to be held soon in Boston.

Supt. Downie and the district passenger agent of the C. P. R. will be present at a meeting to be held soon in Boston between railroad men of the C. P. R. and those of Maine and Massachusetts railway lines, at which a summer schedule will be proposed.

It is proposed to start the Montreal train from here at either 5.35 p. m. or 6.45 p. m. and the Boston train at either 5.35 p. m. or 6.55 p. m. These trains now leave at 6 p. m. and 6.10 p. m. respectively. A Maine local express if being planned to connect with the Flying Yankee from here.

Beginning on May 1st the I. C. R. will put on the same suburban service that was given last spring. A train will leave St. John at 5.40 a. m. arriving at Hampton at 6.35. Returning it will leave Hampton at 6.45 arriving at St. John at 7.45 a. m. The Quebec express leaving here at 6 p. m. will stop at all points between St. John and Hampton. On June 1st the same full suburban service as last year will be put on.

HAMPSTEAD, QUEBENS CO., MARCH 4.—There is quite a lot of sickness around here. Mrs. Martha Slipp is quite sick with bronchial pneumonia. There was a very heavy wind, rain, thunder and lightning storm last night, the like of which was never known before at this time of the year. E. A. Fiewelling of the G. G. Fiewelling Manufacturing Co. of Hampton, and Captain Bolyea of the same place were here yesterday looking after pine logs.

A 2-year-old boy in Worcester, Mass., fell off a fourth story veranda recently, but fortunately landed in a snow bank and was uninjured.

## THE HORSE MARKET.

### Demand for Sound Horses Only.

Lame horses sell at less than half their actual value and no one desires for use or sale. The remedy is Kendall's Spavin Cure.

**KENDALL'S SPAVIN CURE**

Will work a permanent cure for Spavins, Ringbones, Splints, Curbs, and all other lamenesses. It cures thousands of cases annually. Such endorsements are the best evidence of its efficacy. It is a simple, safe, and reliable remedy. It is sold by all druggists and horsemen. Price \$1.00 per bottle. A trial bottle free. Write for a copy of our "Treatise on the Horse" and its Diseases. Name very truly, CLARK O. KENT.

Dr. B. J. Kendall Co., Genesee Falls, N. Y., U. S. A.

PROVINCIAL NEWS.

MILLTOWN, March 8.—The members of the Methodist choir and other friends gathered at the home of Mrs. A. W. Jackson, Main street, at Mrs. Jackson's invitation, last Friday evening, and celebrated the birthday of the organist of the choir, Miss Harriet Treacarten, who was greatly surprised when the cause of the gathering was discerned. A delicate and handsome birthday cake, upon which were burning candles formed into the figure representing her age, was presented to Miss Treacarten, who divided it among the guests. Music and games were the chief enjoyment of the evening. Miss Treacarten won the prize for "it." Ernest Hanson received the bobby prize.

Misses Martha Love and Mary Maxwell of Moore's Mills were recent visitors to Mrs. Annie Black, Queen street.

ORANGE GRAND LODGE IN SESSION AT ST. STEPHEN.

It Was Opened Last Tuesday, and the Time Was Occupied in Hearing Reports of Grand Officers.

ST. STEPHEN, N. B., March 8.—St. Stephen is honored today with the presence here of the officers and members of the Orange Grand Lodge to the number of about sixty, with a large contingent coming in on the evening train.

At the conclusion, the grand secretary said he read this, his most favorable report, with great pride and trusted that their deliberations might be conducted according to their great principles.

The grand secretary, Neil Morrison of St. John, read his report. He had the honor to present his sixth annual report. At no time had the order been so successful in its history.

CASTORIA For Infants and Children. The Kind You Have Always Bought.

WEEKLY SERMON.

A Good Prescription, by Dr. H. Richard Harris, of Grace Church, Philadelphia.

The text was from Psalms 1:1: "Blessed is the man that walketh not in the counsel of the ungodly..."

Presumably the man who wrote this psalm was not a physician. But at any rate he knew how to write a prescription. He knew how to write it so that it should meet exactly the cases to which it applied.

But we should make even a greater effort than that to know who is the happy man, who is the man who lives in the sunshine and can smile in all kinds of weather?

First—Well, let us see what there is in this precious prescription which makes it seem worth while to try it. It has quite a regular look to it. It has three ingredients which are united so that they all work in harmony.

Well, my friends, that is a good picture of the kind of life which the ungodly must live. They are in the dark, they work in the dark, they walk through the world in the dark.

Second—Then we come to the second ingredient in the prescription for happiness. The happy man is the man who has not good in the way of sinners.

A STRUGGLE FOR SUPREMACY

Meeting of the Madawaska Log Driving Co. Held Yesterday, Was of Much Interest Here.

A meeting of the Madawaska Log Driving Co. was held at Fort Kent, Me., yesterday forenoon. Among those present at the meeting was George V. Cunliffe, representing St. John and other millmen.
