MOBS ATTACK SEVERAL SHOPS

Chamber of Labor Insistent That Price of Necessities be Lowered and Think Government Not in Sympathy With Them.

Rome, July 9.—The Chamber of Labor has proclaimed a general strike for Tuesday, as a sign of protest against the police and military measures adopted by the government to prevent further disorders.

The Chamber of Labor maintains that these measures were adopted to prevent the lowering of the price of necessities, as demanded by the people.

During this morning the strike was not quite general because only the Popolo Romano, published last night the decision of the Chamber of Labor to call a strike.

The food shops were crammed with people today buying provisions in the fear of being caught with scanty supplies.

Minneapolis, N. Y., July 9.—The British dirigible R-34 will leave Roosevelt Field on her return flight to Scotland between 11 and 12 o'clock tonight, according to an announcement made by Major H. C. Fuller, representative of the British Air Force.

Minneapolis, N. Y., July 9.—The great ship, held in leash by 1,000 balloon men, was released at 11.55 o'clock and floated leisurely up to a height of 200 feet with her motors silent.

The dirigible was skimming along at a speed of about 35 to 40 miles an hour.

Major G. C. H. Cooke, navigation officer, said before the start, that the dirigible was skimming along at a speed of 35 to 40 miles an hour.

Up to 12 o'clock the R-34 had drifted side ways in the current of a southwest wind. At this hour she nosed into the wind, now sailing at about 90 feet, and one minute later disappeared from the view of the crowds at Roosevelt Field.

It was just 11.55 o'clock when a bell rang aboard the R-34, signalling that the hour of departure was at hand.

Toronto, Ont., July 9.—Sir Thomas White, Dominion Minister of Finance, speaking to the Canadian Press tonight, expressed himself as greatly pleased with the success of the Canadian loan in New York.

The result, he said, would be more firmly establish the credit of Canada among American investors and facilitate the future sale of Canadian provincial, municipal and other securities. This would tend to favorably influence exchange conditions between Canada and the United States.

The minister stated that all the Dominion's external maturities were now arranged for a long time to come. On July 1st, he said, a sterling obligation of about \$20,000,000 was paid off in London, and there were no further maturities there for many years to come.

BEING SCEPTICAL OF SUCCESS BOUND TO BE PRODUCTIVE IN STANDARD'S CONTEST

In Each of the Four Districts in The Standard's \$10,000.00 Prize Contest There is Ample Room for Many Candidates to Enter Their Names and be Winners at the End of the Contest—There Are Votes Galore in All Sections Waiting for Candidates to Call and Claim Them.

QUESTIONS ANSWERED PUBLICLY TO AID CANDIDATES WISHING TO ENTER.

Being sceptical of success in any venture, where one knows that well applied effort is bound to be productive, is often times an incentive to greater endeavor, assuring the achievement one is seeking. It is a well established fact that among those successful in public life, a feeling of timidity or hesitation often goes before the greatest accomplishment.

Emma Eames, the noted prima donna, has said that often before a public appearance in which she scored her greatest success, she was tempted by a nearly overwhelming desire to run away.

Candidates who are imbued with the "run-away" feeling should have foremost in their minds the value of the prizes The Standard is offering for a little extra effort during the next ten weeks. If the value of the prizes to be won is constantly before a prospective candidate, it will overshadow any feeling of timidity, will cause them to enter the contest at once and by entering the contest at once a big vote will result by virtue of the fact that at the present time the field for contesting subscriptions has not been touched. Those first in the field will be the ones who will reap the greatest harvest, the ones who will come out the big winners at the close of the contest.

The contest territory has been divided into four districts and there will be one Grand Prize and a second and third prize awarded in each district as follows:

A \$2,750.00 Chalmers Touring Car, a \$1,450.00 Overland Touring Car, a \$1,415.00 Maxwell Touring Car, a \$1,390.00 Buick Touring Car, a \$1,350.00 Heintzman 4 Co. Upright Piano, one to each district. Four \$180.00 Brunswick Cabinet Phonographs, one to each district, and a commission of ten per cent. to those who remain active until the end of the contest and who do not win one of the above prizes, so everybody wins in this contest.

To the candidate in each district securing the greatest number of votes, the automobiles will be awarded, the candidate getting the greatest number of votes in the entire contest territory will have first choice of the four automobiles, the next highest candidate in another district will have second choice, the next highest in still another district will have third choice and the remaining automobile after three districts have been eliminated, will go to the highest candidate in the remaining fourth district. The four plans will be awarded to the second highest vote-getter in each district and the photographs will be awarded to the third highest vote-getter in each district. The ten per cent. commission will go to those not winning one of the above prizes.

The conditions are simple—you have only two things to do—first send in your application, using an application blank or write a letter to the Contest Manager. Second, let your friends know you are entered in the contest and want to win one of the prizes.

A vote coupon will appear in all issues of The Standard, and will be good for one vote. There is another way to get votes, lots of votes and much faster than cutting out the Voting Coupons that are printed from day to day. Paid-advance subscriptions to The Standard and the Semi-Weekly Standard entitles the person securing them to a handsome bonus vote as described in the schedule.

To aid the contestants in getting subscriptions, a supply of subscription blanks will be sent to every contestant as soon as entered.

"How May I Enter?"

Some of the questions asked the Contest Manager are herewith given together with their answers in order that all may benefit thereby.

"How may I enter the contest without being nominated by a friend?"

"Must one be a subscriber to The Standard in order to enter the contest?"

"Must I mail or bring in subscriptions and votes myself?"

"If a person is already taking The Standard, may I have them pay in advance from the time they are already paid up to and will I get credit for the votes?"

THE ANSWERS.

To enter the contest, all that is necessary is to clip the application blank which appears elsewhere in this issue and send it to the Contest Manager or write him a letter telling him that you wish to enter the contest. It is not necessary for one to be a subscriber to The Standard in order to become a candidate but your own subscription sent in at any time will mean a large number of votes to you. If you send in your own subscription for the first one and for a period of four years, you will be entitled to 12,975 votes, that is on a city subscription by carrier and this is the largest possible vote any candidate can get on a single subscription.

You or your friends may mail or bring in votes clipped from The Standard, also subscriptions on which votes will be allowed for the candidate who is named. It is not necessary for a candidate to bring or send the votes or subscriptions personally. It is only necessary that the name of the candidate appear on the votes or subscriptions in order that the candidate get full credit for the votes.

You are at liberty to get any person now subscribing to The Standard to extend his subscription, and credit for the votes will be allowed.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are usually due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by the Ross Drug Co. in St. John and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly with bitro-phosphate the body cells get the necessary phosphoric food elements, bitro-phosphate quickly produces a welcome transformation in the appearance; the increase in weight frequently being astonishing.

This increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear, dull eyes become bright, and pale cheeks glow with the bloom of perfect health.

CAUTION:—Although bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.

INJURED MAN BESIDE A COFFIN

Was Passenger in Baggage Car of Halifax Express Yesterday — Comment on Method of Transporting an Invalid.

The C. P. R. train for Halifax, scheduled to leave at 12.50 p.m., did not pull out yesterday until after 1.35. The delay was caused mostly by the number of passengers and the great amount of baggage brought by the Boston train.

In a baggage car, next the pine box covered coffin which was going to Halifax was placed a rough spring mat and mattress, on which lay a man suffering from an injury. Considerable comment was heard from the large number of passengers upon this rather rough method of transporting an invalid, and one who was apparently in great pain.

Only One Soldier Was Badly Injured

Pte. Corbett is Only Injured Man on Wrecked Troop Train Who is Confined to Hospital — West St. John Man Had Hand Badly Cut.

Pte. J. L. Corbett, Rotherdale, Pictou county, is the only passenger of the N. B. Olympo troop train accident who has remained confined to hospital. His left thigh is injured and it is thought that his spine is also injured.

Pte. E. L. McPherson, West St. John, had five stitches put in his hand but stated last night that he was feeling all right. The other men who were injured, Ptes. Cecil Harrington, Main street (out on nose), John H. Cullinan, Cliff street (scalp wound), J. L. LeBlanc, Moncton (sprain), J. Penderbury, Carleton (out about head), A. Long, Clair (scalp, were all given medical attention on arrival of the train here and are not considered seriously hurt. According to the statement of the boys the three cars which left the rails rolled over and over and it was only a miracle that so few were hurt and those so slightly.

The curve near Atkinson's Sidings has always been considered a bad bit of road, and this accident seems to bear out the statement.

It was about 1.15 yesterday morning when the train struck the curve and the cars rolled over the embankment. Most of the soldiers were asleep and were awakened in the darkness and danger of the derailment in a miniature barrage of hit bags, helmets and other paraphernalia which rained upon them from all sides. As soon as it was found that matters were not serious some of the boys lighted fires near the track for the dual purpose of getting heat and illumination, and all were kept in good spirits until help came.

To show that they were undaunted, the passenger coaches of the train on which they arrived here yesterday at noon bore aloft signs as "St. John or Bust," "St. John if We Have to Walk There," "Glad to See the Old Faces Again," "You Bet We're Glad to Be Home," "On to St. John." Above the ventilators of the coaches some of the boys had placed bouquets and ferns which were picked up at the scene of the derailment.

ST. JOHN, N. B., THURSDAY, JULY 10, 1919.

TONIGHT'S MEETINGS.

Two Liberal meetings are to be held in St. John this evening, one called by Hon. W. E. Foster, the alleged liberal representative for New Brunswick of the Liberal National Committee; the other by the chairman of the Liberal executive for the constituency of St. John-Albert. This latter meeting is for the purpose of keeping watch on what is being done by Mr. Foster, and, if necessary, interfering to prevent complications. The Belyea-Bremery-Broderick party which formed the active opposition to Union government has been seriously considering during the past week or so its policy in view of the situation which has arisen. At first leaders of this party were inclined to favor the proposal that they should attend Mr. Foster's little reception and endeavor to swing things their own way by nominating the delegates already chosen by themselves. This plan was later discarded in view of the information that Mr. Foster and his clique have made arrangements to staff their own meeting for the purpose of outwitting any such attempt. Then the wild line Liberals discussed among themselves the advisability of breaking up the Foster gathering on the ground that it is improperly called and is not authorized under the organization of the National Liberal party. This plan, too, has been ultimately rejected, and in place of these proposals comes the announcement of the second gathering of the true opposition in the interests of preparedness. This meeting will be ready to take advantage of any opportunity that may arise.

The feeling between the two groups is inclined to be somewhat bitter. Those who opposed Union in 1917 resent the attitude of Mr. Foster and a few of his friends who insinuate that the liberal opposition in this constituency "should not be controlled by a bunch like that." Indeed the attitude of the Foster group throughout this whole affair has been such as must more deeply embitter those who believe themselves to be the backbone of the old liberal party, who have bravely coped with their opposition to Union Government, and who instead of displaying the cowardice so apparent in the attitude of Mr. Foster have had courage enough to stand by their own convictions and fight their political battles unaided by those who are now attempting to control the policy of their party in this constituency.

ON BOTH SIDES.

The Telegraph is attempting the rather difficult operation of straddling the fence with a foot on the ground on either side. Its position in the present political situation is ludicrous. One day it issues a pathetic appeal to the liberals to get together and forget their differences in order that they may smash the naughty Conservatives and the indifferent Liberals who now support Union Government, and the very next day it breathes the Standard for daring to criticize the policy of Hon. Mr. Carvell. This week's effort has been rather more barefaced than anything that has gone before, for the cracking of the whip over the heads of those who have ventured to disagree with Hon. W. E. Foster cannot be regarded as other than a direct challenge to the Minister of Public Works in the Union Government. With tears running all over the editorial page The Telegraph bears the St. John-Albert liberals to rally to the support of Mr. Foster and assist him in selecting candidates to the National Liberal Convention, which convention will attempt to reorganize the liberal party in this district for the purpose of killing Mr. Carvell, Mr. Ekin and other Liberal-Unionists as the saviors of the county. The Telegraph has never supported Union Government. It has merely pretended support and during the past two years has taken every opportunity in an underhand way to belittle the efforts of that administration, a policy which has robbed it of whatever regard its own party friends may have previously expressed. Without sufficient courage to throw out the cloak of hypocrisy under which it has attempted to hide since Union was organized, it reaches out from behind this disguise and stabs in the back those who have looked to it for support in federal affairs. Perhaps the solution of this may be found in the current rumor that Mr. Foster, carried away by the flattery of a few friends, has concluded that the provincial arena does not afford sufficient scope for his exceptional abilities and has decided to enter federal politics, appearing in the ranks as the opponent of the one really capable Liberal politician in this province who had courage enough to associate himself with Union. Evidently The Telegraph considers Mr. Foster a better guess than Mr. Carvell and is prepared to back him.

JAPANESE IN THE WEST.

Japanese aggression is again coming into the limelight on the Pacific Coast. Senator Phelan, of California, warns the American people that the

Japanese are not living up to the gentlemen's agreement under which emigration from Japan was to be restricted. He contends that during the past two or three years large numbers of Japanese women who were described as wives of Japanese residents of the Pacific states sent over ostensibly to join their husbands, have gained admittance to America, but that these women as a matter of fact are untrained laborers who are entering into competition with white labor on the east coast, and at the same time are adding to the increase of Japanese in these cities.

It is pointed out that during the past ten years the birth rate of the white population has decreased nine per cent., while the Japanese have shown an increase of three thousand per cent.; thus out of the total number of births in 1918, one-third were Japanese, indicating that approximately one-third of the population now consists of Japanese. The influx of women laborers who marry after coming to California aggravates the situation and creates a menace to which Senator Phelan believes United States Congress should devote some attention.

SIR THOMAS WHITE.

This country cannot afford to be deprived of the services of Sir Thomas White, who for several years has occupied the position of Minister of Finance with entire satisfaction to the country and with great credit to himself. His administration of that important department during a critical time has won the commendation not only of friends but of some of the greatest financiers in the Allied nations, and it is very largely due to his exceptional ability in this regard that our country is today in the enviable position it holds respecting war finance. For some time rumors have been current of Sir Thomas White's approaching retirement from public life, and today these reports take more definite form, going so far as to intimate that his resignation is now in the hands of the Premier. If this is indeed true, Canadian national administration suffers a loss. There may be some capable of filling his place in a satisfactory manner, but there are very few indeed of his type available in this country today, and with the record which he has made for himself, particularly during the past six or eight months, his loss will be severely felt by the Dominion administration. Naturally any man entertains a desire to devote himself to his family and his private business affairs, and in such a position as Sir Thomas White holds this is practically impossible. But there are men from whom sacrifices are at times required and the present Minister of Finance is one of them. It is sincerely to be hoped that he will respond favorably to the requests now no doubt being made, to reorganize his determination and remain in the Government until such time as the country no longer feels the entire necessity for his presence.

BRITISH JUSTICE.

The New York Times, discussing the proposed trial of the ex-emperor William, pays a high tribute to British justice. After pointing out that the ex-emperor is a lucky man in being permitted to appear for trial on English soil, The Times goes on to say: "There is a traditional fairness and impartiality about English justice which no other country, not even our own, has been able to surpass. The object of French and Italian courts is to obtain a conviction; the aim of the English court is to administer justice. Our own practice is marred by far too much opportunity for delay, by various technicalities that cheat justice of her due. It is not going too far to say that the future of a criminal here is almost a gamble with personal or local prejudices vying largely into the decisions of the court and jury. But in England justice is justice. The personality of the accused is forgotten the moment he takes his place in the dock. Few technicalities intervene. A change of venue on the ground of local prejudice is of rare occurrence. For the reason that the English mind cannot conceive of a prejudice overruling the ordinary processes of justice. Of course this has not always been the case. It is the present day course of justice in England, coming from a rigid pruning which has cut away all the unjust rules that once made it so hard for an accused man to obtain justice in an English court. Our friends in France and Italy are still struggling with that problem and have not yet solved it. And we are not the nation to cast a stone at them."

WHAT THEY SAY

Why Not? Syracuse Herald—The country that is strong enough to make a man out of a job and put him in the army ought to be strong enough to take him out of the army and put him in a job.

Keep Pegging. Amherst Standard—The sensible course for every man is to keep

steadily at work during these times of depression and readjustment and hang on to the job that he has. To go on a strike or quit work at this time is very ill-advised. It is the worst thing a man can do for himself and the community.

May Retire. Rochester Express—It is announced that Chomson contemplates an early retirement from the world stage on which he has played so great a part. He is the foremost and most forceful man in public life today. Impassioned, indomitable, he has voiced all that was noble, sacrificial and dauntless in France as no other man now living has voiced the people for whom he spoke.

Can't Be Trusted. Memphis Commercial—Promises of the Mexican authorities that the lives of Americans in Mexico and on the border within the United States will be protected may be taken for what they are worth, but the United States should see to it that they are kept. Probably there can be no better way to do this than to inform all the factories in that neighboring country that there must be a neutral zone on the border respected by all belligerents.

A Milk Bar. New York Globe—And now it is a milk bar. A non-intoxicating bar. On Seventh avenue near Forty-eighth street. So far as we have been able to learn it is the first of its kind in New York. Not only is milk sold, but non-intoxicating cocktails, beer, gin, and cream de menthe. The man in charge told us that these non-intoxicating drinks tasted exactly like the real thing, that they were served almost gratis, and that those who drank them were pleased. The only difference, no alcohol.

The Shrinking Dollar. Nation's Business for July—We are in possession now of the fifty-cent dollar. For that coin will buy just about half of what it would in 1915. Widows living on the incomes of bonds and annuities that were sufficient in 1915 have been forced to apply for charity.

You have lost just half the money you put in the bank in 1915. Great fortunes invested in securities with a fixed return have shrunk to half their real value, although the figures remain the same.

If you take out life insurance today you must take out just twice as much as in 1915 to give your family the same amount of real income.

China's Refusal. New York Globe—However sympathetic one may be with the Chinese demand that they be permitted the restoration of full national rights in Shanghai, it must be admitted that her refusal to sign with the other powers the proposed pact is a serious setback to her progress toward autonomy. Japan has promised the European powers to restore Kiaochow to China within a period estimated at two or three months, and Japan is, or has been, as good as her word in the matter of treaty obligations.

A BIT OF FUN

His Old Silk Hat. Sentimental Young Thing—"T-to think, G-George, (sob) that you should use that hat you married me in (sob) to force rhubarb!"—London Saturday Journal.

What the Trouble Was. In his later years Edward Everett was greatly troubled with deafness. A friend, who was consulting with him, asked: "What is the trouble, is it deafness?" "No," Everett responded, whimsically, "war."

Balled Up. "Betty has an India rubber imagination." "India rubber isn't the term—there are bounds to India rubber!"

But Who'd Run the Ship? London Times Personal—"James A. I. Please understand that were we the last two persons on earth and I found myself on the same continent that contained you, I should emigrate."

How Could He? "I'm terribly worried," I wrote Jack in my letter. He replied that I had told him I didn't mean to reconsider my decision not to change my mind, and he seemed to have understood me."—Cassell's Saturday Journal.

A Bachelor says that he isn't going to get married until he meets a woman who is neither curious nor talkative. He is a hopeless case.

Slightly Mired. A fervent but unlettered preacher among the mountain-whites of the Carolinas was exhorting his flock to come forward and take advantage of the "means of grace." "It ain't pride that keeps yer settin' in yare seats," he cried. "Come to the altar and get down on your knees and if they are too stiff with pride, lie 'em, lie 'em, as 'e says in the Scriptures, 'with the sin of Patmos.'"

"It's the best thing nowadays to invest your money in a going concern."

"Yes, but the trouble is to find out which way the concern is going."

Just Like the Others. "There's a wader in our restaurant named 'Scates'."

"Ah! Expect everyone to slip him, I suppose."

Girl and Judge.

A venerable justice sat in the place of honor at a reception. As a young lady of dazzling charms walked past he exclaimed almost involuntarily: "What a beautiful girl!"

The young woman overheard the justice's compliment, turned and gave him a radiant smile.

"What an excellent judge!" she said.

"Before you married my daughter didn't you say that two could live as cheaply as one?" "So they could—as cheaply as one can now."

GEO. H. COCKBURN RETURNS HOME

Resigned His Commission as Lieut. in 71st, Left Law Practice and Went into Battle as a Gunner—Returned Home from Overseas Yesterday.

Among the men who arrived at Halifax on the Olympic on Tuesday and passed through this city yesterday on route to his home in St. Andrews, was Geo. H. Cockburn. Mr. Cockburn was a lieutenant in the 71st at the outbreak of the war, and tried for a commission for overseas service but failed to get recognition. He was determined to serve his country in the great crisis, for which purpose he resigned his commission and enlisted as a gunner with the 9th Siege Battery, and went overseas with that unit. In France he was attached to the 3rd Canadian Heavy Siege Battery and fought with that unit until the close of the war.

At the time of the armistice Mr. Cockburn was at Jamnages, Belgium. Since then he has taken a three months' post graduate course in law at the University of Edinburgh. Before enlisting Mr. Cockburn had been admitted to the Bar and had been in practice two years at St. Stephen, where he will again take up the business at a stake. He is a son of M. N. Cockburn, K. C., with whom he will be associated in the law business.

THE POLICE FORCE OF THE BODY
DAY and night—without ceasing—a struggle is going on in your body between the germs of disease and the white blood corpuscles—the police force of the human body.
 If this police force weakens, disease germs gain a foothold—sickness follows.
 Constipation is the most common and dangerous way of corrupting the human police force. Food waste remains too long in the intestines—decays—poisons the blood—and opens the way for attack by the germs that cause tuberculosis, diphtheria, pneumonia and a multitude of other ills.
 The culpable habit of using salts, pills, mineral waters, castor oil, etc., to force the bowels to move, makes this condition even worse, as constipation returns almost immediately.
 Nujol is entirely different from drugs as it does not force or irritate the bowels.
 Nujol prevents stagnation by softening the food waste and encouraging the intestinal muscles to act naturally, thus removing the cause of constipation and self-poisoning. It is absolutely harmless and pleasant. Nujol helps Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world.
 Get a bottle of Nujol from your druggist today and keep your police force on the job.

Returned Soldiers Had Narrow Escape

Train With 250 New Brunswick Men Bound for St. John Was Derailed and Three Cars Topped Over Embankment—Men Arrived Here Yesterday.

About two hundred and fifty men for New Brunswick, who crossed on the Olympic, reached St. John yesterday at noon and were given a warm welcome by friends. Owing to the news of an accident to the train having reached the city many were on the anxious seat until the train arrived, wondering whether loved ones had come back safely from Europe only to meet injury near home. Fortunately none were seriously hurt, and the minds of those at home were put at rest with the arrival of the troop train.

The run-off occurred at Atkinson's Sliding, about forty-eight miles west of Truro. The train was going about thirty-five miles an hour. Three of the cars toppled over an embankment, and the boys got quite a shaking up. On arrival here Ptes. LeBlanc, Armstrong, Cullinan, Whitty and Long were taken to the Lancaster Military Hospital for treatment, having sustained cuts and bruises.

The men were met here by representatives of the Citizens' Reception Committee and K. of C., and the usual gifts were passed around, after which they marched to the Armories for discharge.

Lieut. Eric Leger, of Richibucto, son of A. T. Leger, M. P. for Kent, was among those who came yesterday. He enlisted as a private with the 15th and won his commission on the field.

Pte. E. L. McPeake, of West St. John, was over four years away, going over in May, 1915, with the Victoria Rifles.

Dvr. George A. Chesley, one of three brothers who enlisted early in the war, returned yesterday, the only one of the three to come back. Frank and Harold lying in soldiers' graves "In Flanders Fields."

C. S. M. Frederick B. Ross, M. B., one of the original 26th, returned yesterday. He passed through four years of fighting and escaped injury until the day before the armistice was signed.

Soldiers Given Grand Reception

Second Party of New Brunswick Returned Men Arrived at 5.30 O'clock Yesterday Afternoon from Overseas.

The following men, who were passengers on the S. S. Olympic which arrived at Halifax Tuesday afternoon came through on the C. P. R. yesterday afternoon at 5.30. As these men received their discharge at Halifax they were at liberty to drop off at any station en route.

An excellent reception was given the boys, as on former occasions; fruit, confections and tobacco were freely dispensed and words of welcome and cheer were offered by the representatives of the various patriotic committees.

Merchant Nearly Put Out of Business

Had to Close Store Because He Was So Run-Down—Gains Twelve Pounds By Taking Tanlac—"Best Medicine on Earth," He Says.

"When I say that Tanlac is the best medicine I have ever seen, I know just what I am talking about, for since taking it all my troubles have been overcome, and I have gained exactly twelve pounds," said M. K. Tatar, a well-known merchant who lives at 12806 123rd street, West Edmonton, a few days ago.

"I had a bad spell of influenza about four months ago," he continued, "and it didn't lack very much of putting me out of business altogether. I was so nervous that I was not able to do my work and had to keep my store closed up for a long time. To tell you the truth, I didn't have any idea that I would ever be a well man again.

"This Tanlac seemed to be doing so many people so much good, so I finally decided that if others got so much benefit from it, it ought to help me, too, and I bought a bottle and commenced taking it. I have taken three bottles of Tanlac so far, and it certainly has done me a world of good. My appetite came back before I had finished my first bottle, and now I eat just anything I want and I never suffer a particle from it afterwards. I am never bloated from gas, and those awful pains I used to have in the pit of my stomach have left me entirely. My nerves are as steady as they ever were, and I go to bed now, and sleep just like a boy all night long. I am as strong and well as I ever was in my life, and can attend to my business as well as ever. I have gained a lot in weight, and just feel fine and dandy all the time. That is what Tanlac did for me, and if you find anybody who doubts this statement just send them to my store, and I will soon convince them that every word of it is true, and that Tanlac is the best medicine on earth to build a man up who is all run-down like I was."

Tanlac is sold in St. John by Ross Drug Co., and F. W. Munro under the personal direction of a special Tanlac representative.—Adv't.

Why all this Precaution?
 JUST wherein lies the reason for the use of vegetable preparations for infants and children?
 Why are any but vegetable preparations unsafe for infants and children?
 Why are Syrups, Cordials and Drops condemned by all Physicians and most laymen?
 Why has the Government placed a ban on all preparations containing, among other poisonous drugs, Opium in its variously prepared forms and pleasing tastes, and under its innumerable names?
 These are questions that every Mother will do well to inquire about. Any Physician will recommend the keeping of Fletcher's Castoria in the house for the common ailments of infants and children.

Children Cry For Fletcher's CASTORIA
 The False and the True.
 Advertising by the use of large space, the expenditure of huge sums of money have placed on the market, have put in your home, perhaps, many articles that today have been discarded, as you will readily admit. Do you recall anything that has more modestly appealed to the public than has Fletcher's Castoria—modest in all its claims, pleading at all times—and truthfully—for "babies"?
 The big splash, the misleading claims may win for a time, but the honest truth-telling advertiser is like the old story of the tortoise that beat the hare.
 Mothers everywhere, and their daughters, now mothers, speak frankly, glowingly, enthusiastically in praise of Fletcher's Castoria. Speak of it lovingly as a friend that has brought comfort, cheer and smiles to their little one.
 There are substitutes and imitations as there are for the diamond, for anything of value. One might almost say that that which is not copied has no value. So you have had the signature of Chas. H. Fletcher and a copy of the genuine wrapper kept constantly before you that you may guard against the false and the untrue.

EASIER MONEY AND STOCK MARKET ON UPWARD TREND

Tone Moderately Firm on the Opening But Strengthened on Canadian Pacific's Nine Point Rise.

New York, July 9.—Under the influence of easier money today the stock market resumed the upward movement which marked the reopening of operations after last week's triple holiday.

The tone was only moderately firm at the opening but strengthened almost immediately on Canadian Pacific's nine point rise, the jump in that stock being attributed to something more tangible than a drive against the shorts.

In the last half hour, after publication of the government crop report and announcement of the ratification of the peace treaty by the German assembly, the market was stirred into furious activity, numerous leaders recording best prices of the session.

Among the stocks then in favor were shipping, electrical equipment, Ohio Gas, American Paper and International Paper, Canadian Pacific also breaking into new high ground.

When the Huns Were Off Our Coast

THE outbreak of war brought a new problem to Canada—the guarding of our coast from German raiders and submarines. Everything that was done at the time was shrouded in mystery, for the censorship did not permit any mention to be made of defense measures.

He describes how the coast was patrolled; the troopships convoyed; and the seas swept of mines; the shores guarded; the harbors watched. Altogether a complete and fascinating story of a page in Canadian history that may never again be duplicated.

STOMACH TROUBLES ARE DUE TO ACIDITY Tells Safe, Certain, Speedy Relief For Aids Indigestion. So-called stomach troubles, such as indigestion, gas, sourness, stomach ache and inability to retain food are in probably nine cases out of ten, simply evidence that excessive secretion of acid is taking place in the stomach, causing the formation of gas and acid indigestion. Gas distends the stomach and causes that full, oppressive, burning feeling sometimes known as heart-burn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excess development or secretion of acid. To stop or prevent this souring of the food contents of the stomach and to neutralize the acid, and make it bland and harmless, a teaspoonful of bisulphated magnesia, a good and effective corrector of acid stomach, should be taken in a quarter of a glass of hot or cold water after eating, or whenever gas, sourness or acidity is felt. This sweetens the stomach and neutralizes the acidity in a few moments and is a perfectly harmless and inexpensive remedy to use. An antacid, such as bisulphated magnesia which can be obtained from any druggist in either powder or tablet form enables the stomach to do its work properly without the aid of artificial digestion. Magnesia comes in several forms, so be certain to ask for any and take only Bisulphated Magnesia, which is especially prepared for the above purpose.

Told Story of the Winnipeg Strike

F. G. Tipping, Past President of Winnipeg T. & L. Council, Addressed Labor Men Last Evening and Proved Most Convincing Speaker.

The meeting called last night by the Trades and Labor Council to hear F. G. Tipping, past president of the Winnipeg Trades and Labor Council, tell the story of the Winnipeg strike and place before the labor men of the east the reasons why the Trades and Labor Council of that city are asking for aid by jury trial for the men of foreign names arrested in connection with the strike, was fairly well attended, and Mr. Tipping proved a most convincing speaker. He did not ask his audience to endorse the strike or any of the acts of the strike committee, but he did ask them to trial the government for the right of trial by jury for men arrested in connection with it, and stated that it was done and the men convicted, the labor men of Winnipeg would make no objection to the punishment handed out. He also made an appeal for assistance in raising a defence fund for the men arrested. At the close of his address the speakers of the evening, and very generally signed by those present.

F. A. Campbell, president of the Trades and Labor Council, occupied the chair, and before calling on the speaker asked Commissioner Jones and P. C. Sharkey to take seats on the meeting. He said the object of the meeting was to place before the labor organizations of St. John the actual state of affairs in Winnipeg, and to introduce the speakers of the evening. Mr. Tipping on rising was given a hearty cheer. In opening, he thanked the Trades and Labor Council for providing him a chance to place before the public the labor side of the case, for up to the present time only one side had been told. He did not ask them to endorse the strike but to listen to their side of the case.

The sympathetic strike was called in Winnipeg for two objects: first, the securing for metal workers of recognition of the union in the coal pits, shops, and second, the supporting of the building trades in their efforts to raise a wage. When the local labor voted to strike, the Trades and Labor Council had formed a strike committee composed of the president, secretary and two others of the council, and three from the local. It was decided by the committee that some should not come out and among these was the police. After two or three days it was thought best to send back to work the men who worked in the bakeries and the drivers of the bread and milk wagons, and because some of the strikers thought the men working were scabs the cards which had been talked about so much had been issued showing they were at work with the consent of the strike committee. This, he claimed, was the only foundation for the so called "Scab" control.

In connection with the police, Mr. Tipping said the responsibility for their being out lay with the police commission, who asked them to sign an agreement not to affiliate with any other labor organization, and on their refusal to do so dismissed them and appointed special policemen in their place.

Referring to the parade in which men were injured and one man shot, Mr. Tipping said this was held against the advice of the strike committee; he realized that it would do their cause no good, he had offered opposition to constituted authority.

Dealing with the arrest of the labor leaders, the speaker said it had been the intention of the Government at that time to deport all the men arrested, no matter how long they had been a resident of Canada, charged as these men were with sedition and conspiracy. The labor men of Winnipeg were not kicking about the arrest of these men and were prepared to abide by the consequences of a trial by jury, but they were objecting to that method of disposing of them.

Of the men arrested with long hair, names, one was a returned soldier, who had enlisted in 1915 and was wounded while in the service; another was a soldier in uniform, arrested at the Minto street barracks; another was a student at the University of Manitoba; and during the war secretary of the Jewish relief fund, and another was the editor of a financial newspaper who had been given permission by the Dominion Government to start publishing again.

The Public Safety Not Looked After

Coroner's Jury Last Evening Score City Officials and Board of Health, and Recommend More Restrictions Regarding Public Dumps.

"We the jury empanelled to enquire into the cause of death of Marjory Cheryl Gibbons do find from the evidence given, that factory E. Gibbons died at her home, Metcalf street extension, on June 29, from burns received from her clothing burning, having caught fire in Elm street dump."

From evidence given at the inquest the jury has come to the conclusion that the city authorities and Board of Health have not been looking after the public safety and welfare.

We would recommend that the proper authorities be asked to look into the condition of Elm street dump and compel the owners to put restrictions in the kind of materials dumped on this and all other dumps in close proximity to residential houses.

The above verdict was rendered by the jury summoned to enquire into the cause of death of little Marjory Gibbons, whose clothing caught fire on Elm street dump.

Hon. W. F. Roberts, M. D., minister of public health, was one of the witnesses, and stated no complaint had been made to him concerning the condition of the Elm street dump.

The first witness was Leo Macaulay. He was with the little girl when her clothing caught fire on the dump and as she stooped to put down a bunch of daisies the flames caught her dress.

John Gibbons, father of the child, told of her coming home to the house with her clothing alight. He said she had been by her fire in the dump for several weeks, but he had never thought of it being dangerous.

CEDAR HILL LOT-HOLDERS' MEETING

Met Last Evening to Consider Extending Bounds of Present Cemetery—Adjourned for Three Weeks for Further Information.

The meeting of the lot holders of Cedar Hill cemetery to consider the matter of extending the bounds of the present cemetery held last evening in Temperance Hall, Fairville, was adjourned for three weeks for further information. At a meeting held two weeks ago the directors were asked to prepare a statement showing the receipts and expenditures from the various sources, but owing to the fact that the books of the company are in the hands of a committee appointed at the last annual meeting, they were not able to prepare this in time for the evening. A further adjournment was made. President E. O. Jones was not able to be present and the chair was occupied by W. H. Altnham, secretary.

The proposition laid before the lot holders by the directors is to buy a piece of land out of the Man-wesolich Road, as they are unable to acquire it, and to provide a sufficient revenue to keep the cemetery in good shape, the amount received from the opening of graves and care of lots not being enough to pay expenses of carrying on the place.
