CARVELL BRINGS SMITH TO TIME

As the result of F. B. Carvell's visit to Ottawa, and his representations to the acting premier, Sir George E. Foster, the farmers of Carleton and Victoria counties will be at least \$30,000 richer.

Mr. Carvell's open letter to his constituents, which explains the matter, follows:

To the Farmers of the Counties of Victoria and Carleton.

Dear Sirs,—About a month ago, after learning the price which the government was paying Mr. B. F. Smith for 15,000 tons of hay, to be supplied to and paid for by the British government, I wrote you a letter giving you the facts of the case, and telling you that you were entitled to \$15 for your loose hay in your barns.

I am not going over the nature of the replies made by Mr. Smith, nor the manner in which he has tried to draw me away from the main issue, and discuss matters having no relation to the price of your hay, but I want to tell you that Monday and Tuesday of this week I discussed the matter, from every standpoint, with Sir George E. Foster, the acting premier of Canada, at his office in Ottawa, and with Dr. Ruddick, the official of the agricultural department having to do with hay purchases.

I learned there that the Atlantic Hay Company, which is really Mr. Smith, has a contract for 15,000 tons of hay at \$23 per ton delivered in St. John, compressed, and that he gave them the impression, from the beginning, that he was paying you \$15 for your hay.

I pointed out to Sir George that as an embargo has been placed against the exportation of hay from Canada to the United States, the farmers of this province had only one possible market, namely, the Atlantic Hay Company, and you would be compelled to accept the price which they would be willing to offer.

After my first letter, as you know, the price went up a dollar per ton, which meant \$15,000 to you. I am now happy to inform you that Mr. Smith will be notified from Ottawa before this letter is made public, that he must either pay \$15 for your hay loose, or a part of the contract will be given to other men who will be only too happy to pay you that price.

This means a Christmas present to you of \$30,000, in addition to the \$15,000 already secured.

Mr. Smith has been notified, and I understand, has gone to Ottawa. He must take his choice, and make it quickly, and just here I want to tell you that even at that price, you are getting \$1.50 less per ton for your hay than the farmers of Quebec are receiving for theirs of the same quality, where the hay is being purchased direct by the government and compressed by them.

Sir George also decided that this price must be retroactive, and Smith will be compelled to pay \$15 per ton to those of you from whom he had bought hay for \$12, \$12.50 and \$13 per ton, the same as he pays in the future, and any of you who have been foolish enough to sell at the lesser price, can receive the difference by pressing your claims.

This arrangement in no way disposes of an investigation into the scandals of last year. My object this year was not to obtain a scandal, but secure you a fair price for your product.

I learned while in Ottawa all the facts regarding last year's business, and find that Smith made not less than \$6 on every ton of hay purchased from you

for war contracts, during the past season, and had I not interfered he would have made at least \$5 on each ton during the present year.

Wishing you a merry Christmas, a happy New Year, and a speedy delivery from the clutches of such patriotic gentleman as have, from the public standpoint, been handling your lumber, potatoes and hay, during the past four or five years, believe me,

Sincerely yours,
F. B. Carvell.

LUMBER NOTES

John A. Morrison, of Fredericton, will cut 2,000,000 feet of lumber for the St. John Lumber Company this winter.

Philip N. LeBlanc Limited has been incorporated with head office at Moncton to carry on business as loggers, lumber manufacturers, etc. Those interested are P. N. LeBlanc, V. LeBlanc, J. A. LeBlanc and N. J. LeBlanc all of the city of Moncton. The capital stock of the company is \$25,000.

Sullivan's mill, Nelson, was closed down for the season during the last week of November. It commenced sawing this year about June 1 and was operated night and day without interruption employing about 100 men. Mr. Sullivan intends to make extensive improvements to the plant in the near future. Formerly this plant had been idle for six years.

Fraser Limited, who recently purchased the Timothy Lynch Company Limited property, on the Miramichi waters will erect a new mill on the site of the present Lynch Mill at Nelson.

The Richards Manufacturing Company of Campbellton, started up their winter mills at Kedge-wood the latter part of November. Their mills at Richardsville was closed down for the winter about the same time.

Robert J. Potts, of Hartland will cut 7,000,000 feet for the St. John Lumber Company, of Van Buren, this winter.

Arthur L. Noble, Fredericton, will cut 5,000,000 feet this winter for the Stetson, Cutler Company.

Beavers had to be Killed

Beavers did so much damage at Merry Brook, Victoria County, that it became necessary for the Department of Lands and Mines to issue instructions to the game warden in that section to kill a number of them.

According to reports received at the Department a colony of beavers were damming the brook so successfully as to cause destruction of property in that section and the residents asked that some measures be taken to protect their interests. The only way out of the situation was to order the game warden to kill some of the beavers, it being found after investigation that the reports received were correct in every detail.

Ten of the beavers were accordingly killed and their skins are to be sold by the Department during this month. The case is an exceptional one and the Department are not likely to have to adopt such measures to stop the beavers in their work in the future. The colony of beavers near Merry Brook is the largest in the province.

W. C. Craig, J. E. McCollom and John F. Murdoch came to Hartland to spend Christmas with their families. Mr. Murdoch has a situation as overseer for the Fraser-Matheson Lumber Co. at Ste. Eulatoire, Que., where on Boundary Lake and the N. T. R. the firm carries on a big business. During the past summer at Eastcourt a new mill was built which will cut seven million the coming season.

LETTER FROM DR. M'INTOSH

The following letter from Dr. MacIntosh, while he was sojourning at Cairo, Egypt, will interest Observer readers. The letter is dated Nov. 1 and reads:

Just a line from up the Nile. Had a glorious trip up to this beautiful city. This is surely a wonderful country if properly developed. Think of 150 miles of irrigated intervals we passed and I don't know how many more there are. It appears to be very fertile and grows fine crops of corn which seems to be their principal grain. They still cultivate the land as they did in Biblical days: their implements and methods appear equally as primitive. The wooden plough, the peculiar looking oxen, the camels, donkeys, etc. I passed a great many villages of mud huts that looked very dirty and unsanitary but I've found there is little disease and they live to a good old age. The country appears to be over populated and the poor seem to greatly outnumber all other classes. About 99% of the people seem to be settled down and 75% of these are doing nothing.

There is very much of interest in this country. Have ridden out to the edge of the desert on a train, then on camels to visit the pyramids and sphinx then after lunch at this world renowned hotel have taken in the citadel stormed by Napoleon, the coronation Mosque (300 in city.) The tomb of the Kings the Blue Mosque, an exact replica of the great Mosque at Mecca, and from the minaret here saw the sun set across the Nile.

Am delighted with the trip and only wish I had time to worry you with a longer description of the country and our doings out here. With best wishes to all the family and friends at Hartland,

I am yours sincerely,
L. deC. MacIntosh.

A few days ago J. B. Daggett, Secretary of Agriculture, received a letter from Dr. MacIntosh written on board the P. and O. S. N. Company's steamer Kalyan, being used as a transport for the 31st Casualty Clearing Hospital and other units. In his letter he speaks of the trip through the Mediterranean, now the most dangerous of the war zones.

Extracts from Dr. MacIntosh's letter follow:

I left Egypt several days ago and was glad to get away even to face the submarines in this end of the world. We had a couple of rough days, but I spent them comfortably in bed, where I took my meals. We just had a destroyer to see us through a particularly dangerous narrow place. It has left us to go back to its escort at Samoa.

"I have passed hundreds of the thousands of islands, a very fine ground for submarines to operate, but we expect to reach port tonight. I may send some letters from there.

"Well, I am surely getting about some and seeing the world, and will experience some of the most dangerous part I could take without going into the trenches. It is sure some scrap out here."

Major W. W. Melville Coming Home

Word has been received that Major W. W. Melville, who went to the front with the first contingent in command of the Brighton Engineers, has been granted a furlough and will visit his family at Florenceville. He has been on the firing line for almost a year continuously.

WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body.

In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamlike sleep, irritability and unless corrected, leads straight to a breakdown.

To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutriment gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. Free from harmful drugs. Scott & Bowne, Toronto, Ont.

Vol. VII. DEC. 29, 1915 No. 20

CHRISTMAS PRESENT TO THE FARMERS

On the day before Christmas F. B. Carvell, M. P., through the columns of the St. John Telegraph, addressed an open letter to the farmers of Carleton and Victoria. This letter is reprinted in full on the first page of this issue.

So plain and succinct is the Christmas message of Mr. Carvell that little comment is necessary. Any one who can read can understand it.

An Ottawa despatch says that Mr. Carvell while there interviewed Sir George E. Foster, acting premier, and asked for a contract for 5000 tons of hay at \$23, delivered at St. John, and part of the contract to be that the farmers be paid \$15 per ton. He also asked that the embargo be lifted off hay going to the States from New Brunswick. He met with no success with either of these propositions; but the third proposition, that B. F. Smith be compelled to pay the \$15 for loose hay, will evidently be granted.

At Harland, during November and part of October, the farmers were being paid \$13.50 to \$14 for pressed hay, which is equivalent to \$12.25 and \$12.75 loose. Almost immediately after Mr. Carvell's expose, the price jumped to \$15 for pressed hay. It will go to \$16 and more.

A strange fact comes to light from a former Liberal, who said he understood hay was \$15 all the fall. He had hay to sell and was selling it. Other farmers claim they agreed and did sell their hay for \$12, and that they mean to get the other three dollars.

POLITICAL PURITY

Mr. Fleming, condemned by a Royal Commission, removed himself from office, and the Standard and other newspapers defenders of the local government said the administration as such was unstained and above suspicion.

To prove it the government caused the Legislature to adopt a resolution whitewashing Mr. Fleming. That is to say, in the face of the Royal Commission's report, the local government and its followers officially pronounced Mr. Fleming "all right." Defenders of the government swallowed that dose, too.

There was more to come. Just to show that the Conservative party in New Brunswick was wholly honest, sincere and public-spirited, Mr. Fleming, in public convention, was adopted as the Federal Conservative candidate in Carleton-Victoria.

We come now to the Chandler report. One of the members of the Legislature for Kent, Mr. Sheridan, did not wait for the report of Mr. Commissioner Chandler. Mr. Sheridan resigned. The Conservative leaders did not hesitate a moment. Before Mr. Chandler could pronounce upon the retiring member for Kent they made him an Indian commissioner. The local government, of course, is not responsible. And the Federal government could

not be supposed to know that Mr. Sheridan was anything but the best man for the job. The plain inference is that both governments, and Mr. Sheridan, are above suspicion.

The Chandler report indicates that something ought to be done in the matter of Messrs. Stewart and Robichaud, two of the representatives from Gloucester. The procedure should be simple enough. The Legislature, by direction of the Clarke government, should pass resolutions expressing confidence in these gentlemen and the Federal government give them positions or make them standard bearers in the next Dominion election. The precedents are clear. The public—these governments think—will just have to stand for it.—Telegraph.

The Chatham World, of which J. L. Stewart, M. P., is editor and proprietor, has this day to say editorially:

"The Globe calls upon Mr. A. J. H. Stewart, M. P. for Gloucester, to resign and says that the Chandler report makes it imperative that Mr. Clarke force it if Mr. Stewart fails to act promptly. Nonsense! How can a government and legislature that endorse and condoned the conduct of Fleming except the member for Gloucester? Why strain at the Gloucester gnat after swallowing the Carleton camel?"

In another article the World reviews the Chandler report warning the public against the St. John Standard's attempt to represent it as a certificate of character for the local government.

Waterville News

Miss Ethel Nevers, the teacher held a very interesting program in the school house, on Dec 15. The choruses, dialogues and recitations were all well rendered, the little ones doing their respective parts in a splendid manner.

After the program speeches were made by W. J. Davis and others and after that, Miss Viola Britton presented Miss Nevers with a beautiful gold clock and the following address:

Dear Miss Nevers: We have come to the last day of school for another term and it usually brings a feeling of pleasure to be free from our studies, but on this occasion there is a feeling of regret for it is the last day that you shall be with us, as our teacher.

During the short time that you have been here the keen interest you have shown for each one, has made for you a link in the chain of friendship which shall never be broken.

We all, as pupils, shall ever have the kindest thoughts of you and we want you to accept this little gift, in the true spirit in it is given, that of love, which should be first in everything, at this season of the year.

And as the hands turn and it ticks the time away may it ever be a happy reminder of the short period you spent in Waterville.

With best Wishes for a very Happy Christmas.

Cox-McKay Nuptials

On Wednesday, December 22 at five o'clock in the afternoon, a quiet wedding took place at the home of Mr. and Mrs. Milford G. Cox of Knoxford when their youngest daughter, Iva Lydia, became the wife of Barry Floyd McKay of Florenceville. The

bride was beautiful dressed in white silk trimmed with plaited silk tulle and shadow-lace bolero and wore a bridal veil. The wedding march was rendered by Mrs. Frank Buchanan and the ceremony was performed by Rev. M. H. Manuel. Owing to the recent death of the groom's mother only the immediate relatives of the contracting parties were invited. A number of dainty and costly gifts were received besides cash donations. After the wedding a bountiful supper was served. The popular young couple have the best wishes of many friends. They will reside during the present winter at the home of the bride.

Girls! Try it! Hair gets soft, fluffy and beautiful—Get a 25 cent bottle of Danderine.

If you care for heavy hair that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots flinch, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Danderine from any drug store and just try it.

U. S. EMBARGO ON POTATOES LIFTED

The Federal United States quarantine against shipments from foreign countries of potatoes affected with powdery scab has been removed this week by an order of the Department of Agriculture at Washington, to be effective Jan. 1.

"Canadian potatoes may be shipped into the United States without certification under an arrangement with the Canadian Minister of Agriculture," says the Washington announcement, "but inspection at ports of entry of potatoes from other countries will continue."

Although the New Brunswick Department of Agriculture has not been officially advised of the passage of the order, Mr. J. B. Daggett, Secretary for Agriculture, said it had been expected that the embargo would be lifted on January 1st.

SOUR, ACID STOMACHS, CASES OF INDIGESTION

Each "Pape's Diapain" digests 3000 grains of food, ending all stomach misery in five minutes.

Time! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eruptions of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapain is noted for its speed in regulating upset stomachs. It is the surest, quickest stomach remedy in the whole world and besides it is harmless. Put an end to stomach trouble forever by getting a large fifty-cent case of Pape's Diapain from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder. It's the quickest, surest and most harmless stomach doctor in the world.

AKES OFF DANDEUFF, HAIR STOPS FALLING

Save your Hair! Get a 25 cent bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lose it if you will just try a little Danderine. Save your hair! Try

P. B. Quarterly Meeting

The January quarterly meeting of the Primitive Baptists will convene with the church at Lansdowne the first day of January 1916 at 10.30 a.m. The Primitive Baptist ministry and laity are requested to take due notice and give a liberal attendance at this session. The increase in the first half of our denominational year has been quite satisfactory and we hope that God's blessing will crown our efforts at this session. All are welcome to this feast of good spiritual and temporal bill of fare.—C. H. Orser, Reporter.

10 CENT "CASCARETS" FOR LIVER AND BOWELS

Cure Sick Headache, Constipation, Biliousness, Sour Stomach, Bad Breath—Candy Cathartic.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable you are from constipation, indigestion, biliousness and sluggish bowels—you always get relief with Cascarets. They immediately cleanse and regulate the stomach, remove the sour, fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter from the intestines and bowels. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet and head clear for months. They work while you sleep.

NERVOUS HEADACHE

Miss Evelyn M. Riser, Dublin Shore, Lunenburg, N.S., writes: "I suffered from severe headaches for two years. In fact, I had headaches day and night. My appetite was very poor and I frequently had pains in the back. After using a few boxes of Dr. Chase's Nerve Food the headaches disappeared, appetite improved and I gained in health and strength. I am very thankful for the benefit obtained from the use of Dr. Chase's Nerve Food, for I am well again after two years of misery."

The object of pain seems to be to give warning that something is wrong in the human system. For this reason, when you have a headache, for instance, you should honestly seek for the cause.

Headache is not a disease in itself, but rather a symptom. If you find other indications that the nervous system is exhausted—if you are restless, nervous, sleepless and irritable—you may rightly suppose that to be the cause of the headache.

The headache warns you that with neglect of the nervous system you later expect nervous prostration, locomotor ataxia, or some form of paralysis. Wisdom suggests the use of such treatment as Dr. Chase's Nerve Food to build up the system, and thereby remove the cause of the headache, as well as prevent more serious troubles.

The use of headache powders is not only a dangerous practice, but the shock to the system of drugs which are so powerful and poisonous as to immediately stop pain is most harmful. The relief is merely temporary, and with this danger signal removed the disease which caused the headache continues to develop until results are serious. The moral is, when you have headaches or pain of any kind look for the cause and remove it.

Dr. Chase's Nerve Food is not intended as a mere relief for headache. It cures by supplying the ingredients from which nature rebuilds and revitalizes the wasted nerve cells. Some patience is required for this reconstructive process, but the results are wonderfully satisfying, because they are both thorough and lasting.

If you would be freed from headaches, as was the writer of the letter quoted above, put Dr. Chase's Nerve Food to the test. Working, as it does, hand in hand with Nature, it can no more fail than can other of Nature's laws.
