THE HECATE STRAITS

The United States Government Quesa tions Jurisdiction of the Dominion. Ottawa, April 19.-Messrs, H. H. Watson and J. Milner Atkin, of Vane couver, are in Ottawa, interviewing the Lake Minister of Marine and Fisheries and the Premier, urging that the Canadian Government take immediate steps to exercise its rights of jurisdiction over office of the Commissioners of the Transcontinental Railway at Ottawa, until 12 o'clock noon of the 27th day of April, 1909, for the construction and erection commission and erection of American fishermen from Seattle. of American fishermen from Seattle. Last year a total of 55,000,000 pounds of station buildings, section and tool was caught by Americans. There is a duty of one cent a pound on Canadian fish taken to the States, and Messrs. Watson and Atkin, who represent the Canadian iFshing Company, of Vancouver, assert that it is high time the rights of the Canadian fishermen were protected. The matter will probably be taken up at once by the Government with the American authorities, there being a question raised by the United

States as to the exclusive jurisdiction of Canada over Hecate Straits.

The British preference lowered the duty from 35 to 231/2 per cent, but upon the woollen manufacturers representing that they could not compete on this basis, the tariff was raised to 30 per cent. Easy Prey to His Visionary Exploits.

Paris, April 19. - The strange story of the industrial exploits of a German manufacturer is told today. The man in question, who was arrested in his ilia at Vesinet, owned the workshop f a chemical products company at Croissy. Many inhabitants of the disrict were shareholders.

First of all the emissaries of the nanufacturer informed the shareholders that there had been a little misunderstanding, and that the affair would be settled in a few days. Unfortunately for the manufacturer, M. Hirsch, the examining magistrate at Versailles, found interesting papers at Vesinet and Croissy, and these fur- down. nished particulars of the life story of the pretended chemist.

Of German origin, he went to Belment for abuse of confidence. By the time the firemen had followed him through the window the dog was in the rear room barking for assistance. Capt. Riley and Fireman McMahon responded and found Mrs. Schumacher halfway out of a rear window and trying her best to throw herself to the ground. him a permit for his Marathon on May 22. Here is what the Torcuto Telegram has to say on the subject:

The first shot in another athletic war was fired by the C.A.A.U. this morning, when that august body refused to grant Tom Flanagan a permit to hold an amateur Marathon at Scarboro Beach on May 22. The above body, it is said, thinks Flanagan's Marathon comes too close to that one at Hamilton, to be pulled off Monday. May 24, and that Hamilton had their permit in first.

Hostilities first began when certain gentlemen in the local sporting world matched up Longboat and Shrubb to run at the Island or Rosedale. But they had inadvertently failed to reckon without the illustrious Flanagan, who thought he too might have figured in the deal. Pat Powers, who holds the Indian by contract, opined that he too thought Flanagan should be considered, and wrote The Big Firm that unless Thomas figured in the divide there would be no race. This was not to the liking of this collection of master minds, who executed a fading specialty, calling the race off, also maledictions upon the head of Flanagan.

and allow that excellent body of hard thinkers to waltz all over him they are muchly mistaken, for such is not going to be the case. Instead Brother Thomas clears for action, at the same time pour ing a broadside into the C.A.A.U. He has sent them an ultimatum, giving them 48 hours to grant him a permit for

Interment took place at Mount Hope Cemetery on Sunday, but on the orders of the Attorney-General's department, the body will be exhumed. and an inquest held. In the meantime Saul Gagnon, a French-Canadian, under arrest at Cobalt on a charge of assault and robbery, will likely have the charge of murder against him changed to that of murder.

In the fall of last year, two women, Ethel Crawford and the Smith woman, were attacked in their home, it is alleged, by Gagnon, who was under the influence of liquor. Using an axe, he beat the women in a terrible manner, and from the effects the Smith woman never recovered, lying in St. Michael's Hospital, whence she was brought from Cobalt, as stated, Sat-

The hospital authorities were unaware that anyone was under arrest in connection with the case, hence the burial.

Dr. Banks remarked that by far the larger part of Arabia had never been visited by a white man, and especially was this so of the central part, which is largely desert land. Dr. Banks knocked the prevalent impression that a desert is a mass of drifting sand, rather severely on the head, by statas a board. After last night's drill the officers of the Seventh Regiment held a meeting, at which they decided to revive the former method of paying the men for drills. This custom was in vogue some years ago, and tended greatly to increase the numerical strength of the regiment. The proposed sum is 25 cents, and as there are 24 drills a year, this would amount to \$6 for the season. The men are very much pleased at the move, and hope the arrangements are final. Of late this drill money has gone towards defraying expenses of the regiment for holiday trips.
