Maitland Street Man Attacks Relative When Suffering From Epilepsy.

While temporarily insane from an epileptic fit, Wednesday evening, Wm. Brauer, living with his step-father at 582 Maitland street, attacked the latter, and gave him a severe beating. He created great excitement before he was everpowered. Later he was taken to Victoria Hospital, where he is recovering from the attack.

The young man has had three or four of these fits, but none of them were of a serious nature. ### WHEN BUZZERS ARE OBSTRUCTERS

The License Department Issues Orders to War on Little Signallers.

AS DEFINED

Held That Act Does Not Permit There Being Used During Prohibited Hours.

Toronto, Sept. 12.-War has been declared by the provincial license department upon electric bells, buzzers and other signals by which the offending hotelkeeper protects himself against the visits of police and license officers while doing an after-hours trade. The ease with which licensees have been able to baffle the officers in this manner has made it exceedingly difficult to put a stop to illegal selling, but the department has found an excellent method of making the hotelman toe the mark. The word "obstruction" in the liquor license act will hereafter apply by which warning is given to men in the har after hours, and the department is instructing its officers in every case that arises to prosecute.

Secret Warning.

Until recently the department was somewhat in doubt as to whether the hotel proprietor who offered no physical obstruction to an inspector entering the premises in the course of his duty, but who used secret means of warning his bartender and customers, could be prosecuted. The case upon which the department has based its action with respect to the "buzzer" type of "obstruction" was found by Mr. Eudo Saunders in a chance peru--sal of a volume of English cases. In a noted case in which an employee of the Automobile Association was on the Automobile Association was on trial it was held by the British court Famous Toronto Pastor Disthat the defendant was guilty of "obstructing" a police officer although his offence only amounted to giving a warning of the presence of the police to speeding autoists by turning the lapel of his coat, and showing a red rosette. This same system has been spoken of as likely to be introduced in Canada by autoists. Buzzers Are "Obstructing."

The chief license officer was struck by the application of the decision to birthplace, England, New Zealand and the "obstruction" offered by erring licensees through buzzers, etc. Shortly after he received word from License Inspector Beckett, of Owen Sound, that the buzzer had been used as a warning in a suspected place he had entered. He was given instructions to prosecute, and supplied with the de-tails of the English case. The conviction made was later upheld by the

The case reported from Windsor on Saturday was similar. The hotel proprietor gave warning by a buzzer when Inspector Pacaud entered, and delayed the inspector for some time by his tardiness in opening the door to the asked the department whether he could do anything, and received the nstructions that resulted in the conviction of the hotelman, and the im-

position of a \$100 fine. The fact that such wide meaning can be given the word "obstruction" is expected to bring about a large number of prosecutions in various parts of the Province.

Speaking to a reporter this morning about his sojourn in the West, Dr. Milligan said he had been highly gratified by the number of people he had met and from whom he received congratulations, who had attended his ministry in Toronto as students.

"There were so many of them," pressed with the importance of the thirty-four years' work in Toronto and it left me with, I trust, a deepened feeling of humble gratitude to the Great Head of the Church for condescending to honor me with such a ministry.'

Dr. Milligan took the opportunity during his trave's to inquire as to whether the company which is proposing to bring out immigrants to the West, intend to put them on the land as tenants or owners, and was pleased to hear, on good authority, that the people who cultivated the land were to be the absolute owners thereof.

"I hope," he said, "that landlordism will never find a local habitation and a name' in this great land of such potentialities for the well-being of industrious, deserving people, to stultify the hopes of all right-minded reople by bringing on the evils it has brought on in the Old Land

"Something should be lene to limit he holdings of land so that they may be of benefit to the occupants. This is done in New Zealand, where the large sheen runs are being cut un into smaller holdings which afford desirable livings for an agricultural population."

Aviator Made Prisoner Owing to an Accident to His Motor,

Tripoli, Sept. 11 .- The Turks, who to smuggle into Tripoli an aeroplane for scouting purposes, are at last in possession of a machine through a mishap to Captain Moizo, of the Italian army. Captain Moizo was making WONDERFUL DISCOVERY a flight from Zouara to Tripoli when the motor of his machine stopped and he was obliged to descend in a hostile country. He was made prisoner.

### THE TREASURE HUNTERS

Steamer is Fitting Out in Wales for the Cocos Islands.

New York, Sept. 11.—A London cable to the Tribune says: The treasure-hunt-ing steamer Melmore left Plymouth yes-terday for Barry, in South Wales, where terday for Barry, in South Wales, where she is to coal and provision before setting out for Cocos Island, in the Pacific, to recover jewels and treasure valued at \$100,000,000. The vessel will proceed from Barry to Panama, where she will be joined by Mrs. Barry Till and Miss Davis, who are among the principals in the expedition. These two are sisters, who were on Cocos Island last year, when, it is stated, they were successful in locating the exact whereabouts of the cave in which the treasure is concealed. They made drawings of the spot and brought them to England. The plans are now at the disposal of the syndicate.

### LABOR CONGRESS REPLIES TO LORD HAMILTON

Statement That Keir Hardie Is Not Accredited Representative Refuted.

Guelph, Sept. 11. - Resentment was strongly expressed at tonight's sesthe Dominion Trades and Labor Congress, concerning the statements credited to Lord Claude Hamilton in an interview published in a Toronto paper, that the congress should not take Keir Hardie, M.P., too seriously, as he did not represent the British Labor party.

This was declared false and a letter was read from the executive commit-tee of the British organization, in which Keir Hardie was appointed delegate, and saying that it was hoped his presence would stimulate interest in the Canadian movement.

Fraternal greetings were brought by John D. Smith, of Kansas City, representative of the American Federation of Labor, who reviewed the work across the border, and pointed out that so successful had they been along legislatiev lines there that they had elected fifteen men to Congress, all repre-

### NEVER RALLIED

Mrs. Samuel Day Fell and Fractured Her Hip at St. Thomas. [Special to The Advertiser.]

St. Thomas, Sept. 11. — The widow of the late Alderman Samuel Day passed away today at her residence here. Mrs. Day fell and fractured her hip two months ago while walking on her verandah, and never recovered from the effects.

The deceased was born on the Fitz-simons homestead, just outside the city limits, \$1 years ago. Her father, James Fitzsimons, was one of Elgin County's ploneers. Her husband, the late Samuel Day, predeceased her three years ago. Two sons, Afbert Day, of St. Thomas, and John Day, of Red Deer, Alberta, and one daughter, Miss Day, St. Thomas, survive.

### BACK FROM THE WILDS

[Canadian Press.] New York, Sept. 11.-After laying the foundation for an extensive biological exploration of practically unknown regions in Colombia, Ecuador, Peru and Brazil, Professor Leo N. Miller has re-turned to the American Museum of Natural History, bringing 2,300 specimens of birds and animals. Professor Miller was gone eighteen months, travelling as far as the unexplored Copueta region, from which atrocities on the part of

#### LONDON, THURSDAY, SEPT. 12. EHORT-SIGHTED ABUSE,

The Ottawa Citizen (Conservative) quotes approvingly the timely words of the Edmonton Journal on the Panama Canal act, and the morale of the United States people;

"The abuse of the United States that some of the English papers are indulging, is unwise and un-Too strong language can hardly be used in respect to the action of Congress in dealing with the Panama question. But Burke's remark about the foolishness of indicting a whole nation has particular application in this instance. The American press has condemnthe action of the Houses at Washington with a freedom that is quite unique in connection with a matter that has an international bearing, and full credit must be given to the sense of fairmindedness on the part of the American people. of which this is an evidence. proper thing to do is to trust to this to right the wrong which is being attempted. Criticism of Congress on the nart of one New York paper is worth more than that of the whole press of the Empire. What should be done is to strengthen the hands of the amounents of the Panama bill within the United States. By attacking the nation, we make their position one of the greatest difficulty."

As the Ottawa Citizen says, the Panama act "is meeting with even more strenuous opposition within the republic than it is outside." At least two English journals consider the United States justified in exempting her own home shipping from the tolls. The ground taken by the act is, therefore, somewhat debateable, although President Taft's argument may in the main be rejected without hesitation. European and British protests against the measure have been chiefly on the score of the earlier draft which was to exempt American foreign shipping as well as domestic. We in Canada have to bear this is mind.

However, we may be annoyed by the special injustice to Canadian interests, we ought, as yet at least, to our dissent with good temper and in due measure, trusting as far as possible to the common sense and sense of justice of our neighbors. That sense of justice has been remarkably displayed in the almost unanimous attitude of their press. We can afford for a while to refrain from vigorous comment, leaving American politicians to the censure of their

fellow citizens. To vilify the American nation just now would only be to stiffen its Government in ill-doing. It is not good national policy. We want American friendship and may want it yet more in the future. Great Britain. and Australia no less than Canada need American friendship. The British and Canadian press should be more considerate of imperial interests than wantonly and without certain cause to imperil the Anglo-

American fraternity. The present attitude of the United States press is a sign that the country is developing an international conscience as never before. The people, whose judgments and morals the press probably reflects with considerable accuracy, must not be judged altogether by the actions of legisla-

### THE CRISIS IN THE BALKANS.

The Balkans are boiling again. If the dispatches are not over-colored, war between Turkey and Bulgaria is imminent. There are stories of a clash between Bulgarian and Turkish troops following blood-thirsty "pogroms" in Macedonia. The Turks accuse the Bulgars of deliberately provoking recent massacres. At Ishtib, Macedonia, a bomb was thrown into a mosque, the Moslems retaliating by a butchery of Bulgar Christians. At Katchana, hundreds were killed by a bomb explosion in a bazaar and by Moslem repris-

It has been the dream of Bulgaria herself, freed from the Turkish yoke, by the Treaty of Berlin, to annex the contiguous territory of Macedonia where the Bulgars are numerous, A well-informed correspondent writes to a leading journal from Sofia, the Bulgarian capital:

"Europe must be shown that Turkey is savage and incorrigible, that she is in a chronic state of anarchy, that she is absolutely incapable of securing to her Christian subjects the most elementary conditions . o peace and human existence. It is also necessary to fill the cup of Bulgaria's patience and compel her, even against her will, to close with Turkey in a mortal combat,

It is necessary to give an objectlesson, a standing lesson, a startling lesson admitting of no doubt. The bomb is thrown that it may create a panic among the population, awaken the fanaticism of the Turkish mob, and throw it, maddened by fear and lust for revenge, against the authors of the outrage, against those who protect them, who sympathize with them, on whose behalf they act-in short, on the Bulgars."

"The mob will begin to massaci the Christians, and the authorities will either consciously shut their eyes to the excesses of the mob be-cause they, too, have been seized 5,924 horses were slaughtered for food with a fanatical hatred, or they will during the first six months of the pres-

not be able to stop them in time, because they are indolent, or incapable, or unorganized. Thus, one way or another, a pogrom will take place The news will then be carried to Bulgaria, to Europe, where it will find a well-prepared ground. The details will cause a thrill of horror in the hearts, will awaken a feeling of pity towards the victims, and one of hatred and contempt for the assassins. Bulgaria will be seized with a fever of excitement and lust for revenge which may prove too strong even for a peaceful and Turcophil Government, and European diplomacy will show its teeth and squeeze still tighter the loop with which it is trying to strangle Tur-

The correspondent shows a pro-Turkish bias, but there is undoubtedly conspiracy afoot to again dismember the Turkish Empire, and Austria is suspected of being the chief intrigant. The Austrian foreign minister, Count Berchtold, has circularized the powers, proposing that Macedonia and Albania be granted autonomous powers. It is not likely that Russia, which has been trying to paw her way to Constantinople, will agree to a plan which might be preparatory, as in Bosnia and Herzegovina, to the absorption of Macedonia and Albania into the Austrian Empire. But European intervention of some kind will be necessary if the Balkans take fire, Albania and Montenegro have been on the verge of open war with Turkey, and might strike her in the back, if she closed with Bulgaria. The Young Turks have been a sad disappointment to the friends of freedom; they have laid as heavy a hand on the Turkish Christians as did "Abdul the Damned," but the Military League, which is now in the ascendant at Constantinople, is composed of the more liberal elements of the Young Turkish party, and has shown a disposition to conciliate the non-Moslem groups. It will be probably the view of the British people that the Military League should have a fair

All these internal troubles are complicated by the war with Italy. Can Turkey emerge from these foreign and domestic troubles with a whole skin?

#### UNIONIST TACTICS IN MID-LOTHIAN.

The Morning Post of London, the chief organ of the tariff reform movement, chafed at the suppression of the tariff question in the Unionist canvass at Midlothian. Its correspondent in the constituency wrote that the Opposition fight was being made on the Insurance Act. "All other matters," he said, were mere feints; the Insurance Act was felt to be the key of the position, Home Rule and Welsh Disestablishment being to a great extent subsidiary. And the Post commented editori-

"A Unionist worker, who bases his case upon flaws in the Insurance Act and such political small beer does not set a high ideal before

or before the electors." The Post added that it was to be wished that Conservatives would trust more to the "great and glorious ideals of Unionism," whatever these may be. When the benefits of the Insurance Act begin to be paid out in January the Unionists will have to find another lectioneering asset, but they hope to break up the coalition before then, and force a general election. Their tactics in Ulster are designed to bring this about, so that they may have the aid of the temporary unpopularity of the

It can be shifted if the tenants are not paying the full economic reat. But cases of this kind are probably not sufficiently numerous to invalidate or greatly qualify the Globe's assertion. For the purposes of legislation, this maxim of the economists may be regarded as axiomatic. But it is not so apparent to the man in the street as the Globe supposes. If it were, there would be less popular delusion as to the beauty of indirect taxation.

#### HORSEFLESH CONSUMPTION IN-CREASES.

[London aily News.]
The consumption of horseflesh is in-creasing in Germany, For Berlin alone

ent year, as compared with 4,461 during the same period a year ago.

During the last few months from 20 to 30 new centres for the sale of horsefiesh have been opened in the horseffesh have been opened in working-class quarters of Berlin, The Radical Berliner Tageblatt is bitterly sarcastic over this record in horsefles consumption for the capital city of the empire. It suggests that very soon a record in the consumption of rat flesh will also be reached. Already, it says, the country is suffering from under-feeding. The consumption of meat is a good deal below the amount set by the imperial health office as necessary for proper nourishment.

Resolution Favoring Industrial Workers of World Meets With Opposition.

### CALLED REBEL CONCERN

William Glockling, of Toronto, Announces His Candidacy For the

[Canadian Press.]
Guelph, Sept. 12. — The Dominion
Trades and Labor Congress this morning engaged in a heated debate on a resolution introduced by Delegate Charles Nicholson, of the Twin City Trades Council, Berlin, recommending 'that a collection' be taken up at the convention for two members of the Industrial Workers' Association of the World, now in prison at Lawrence, Mass. Delegate Magnus Sinclair, of Toronto, declared the organization seeking financial assistance had been antagonistic to the labor movement Delegate Wiley, St. Catharines, likewise strenuously objected to the congress placing itself on record as having contributed funds to the support of men connected with a rebel organization. Delegates Rollo, Hamilton, suggested that the resolution be dropped. Delegate Pettypiece, of British Columbia, strongly urged the con-gress to support the resolution on the ground that the Industrial Workers' Association, though a rebel organiza-tion, had helped to fight the battles of the labor forces affiliated with the American Federation of Labor and the

Dominion Trades and Labor Council. Sent to Executive.

Acting Secretary James Simpson voiced protest against the resolution, which was followed by it being sent to the executive for further consideration.

Other resolutions were indorsed as The uniformity of books, not only in one municipality, but in all the municipalities, in connection with the

school system of Quebec. Condemning of the action of any company taking an injured worker out of Canada to avoid a coroner's in-quiry, except by distinct request of relatives, and urging the Government to insert a clause in all compensation acts in Canada to make illegal such action in the future.

Suggesting the enactment of a law compelling the manufacturers and importers of cement to use containers that will reduce the escape of cement dust to a minimum for the protection of the workmen. Recommending that the Dominion

Government appoint a chief labor com-missioner under the general direction of the Minister of Public Works for the Province of Quebec. That the Ontario Government, hav-

ing prohibited the cashing of pay checks in hotels, the legislation be so amended as to make it unlawful to pay wages by the check system, but exempting the employees of transportation companies. The election of officers will take

place this afternoon. Wm. Glockling, of Toronto, has announced his candidacy in opposition to President J. C. Watters, and Gus Frang, of Montrea will oppose Vice-President Bancroft, of Toronto.

[Canadian Press.]

Berlin, Sept. 12. - The greatest political gathering in point of numers, and in many respects the most important of the year, will begin at Saxony, on Sept. 15, when Chemnitz, the Social Democrats gather for their annual general meeting. Here officers will be elected, party differences adjusted, and the plan of campaign for

the ensuing year mapped out. Present indications are that the meeting will be marked by many sharp, if not bitter contests, for the number of resolutions to come before the delegates is much greater than on any previous occasion, and more than two score of them propose changes in the party statutes and bylaws.

All the party leaders, of whatever faction, deny the existence of any important diffrences of opinion within the party, but resolutions looking to the changes of the party organization affirm it. Back of them, although no one in authority will admit it, lies a movement to take from the present leaders of the organization a great part of the power now vested in them by enlarging certain important committees, creating new checks upon existing executive officers, and otherwise restricting the dominant faction in its conduct of party affairs. The other resolutions refer in the main to internal party affairs. It is unlikely that any platform change of any moment will be made, all wings of the party being fairly united as to that, although differing

### The Pretty Girl's Hands [By Margaret Hubbard Ayer.]

[Copyright: 1912.]

Several pretty girls and some who want to be pretty have asked me the est way to care for the hands, and I am going to answer them all at once Bessie, who is just fourteen, assures me dolefully that her hands are

ruined forever because she has always bitten her nails, and still continues value. A coin collector, however, might to bite them. Of course, if she goes on in this pessimistic frame of mind her hands will not improve. In the meantime, my dear Bessie, don't you think you could make an effort and control yourself and stop biting your nails without having to resort to the treatment given children, which consists in small slice of fat salt pork and cook rubbing a little extract of quassia on the fingernails and the tips of the fingers each time after washing them. The taste of this extract is very bitter, and it will remind you that you are doing a foolish thing and spoiling the looks of your hands, which poets call the "second face," and which should receive all the care and attention you can give them.

It isn't difficult to have soft and pretty hands, and I have known lots of girls who did housework whose hands were better looking than others who never washed a dish and never came in contact with a smoky and greasy

First of all, you must take pains to make the skin of your hands soft and white. A good cold cream or camphor cream should be used for this. As almost all of the articles used for the hands can be bought cheaper than they can be made. It is better to go to a reliable place and buy such things rather than to experiment with formulas.

No matter how good the formula, unless you happen to have the knack of making it properly, it will cost you more than the article manufactured by the wholesale, and consequently sold at a moderate price.

WHAT TO USE. Keep a small jar of cold cream near your washstand, and if you have kitchen work to do, have it near the sink. It will pay you to make some

or grease, and then dry off thoroughly in your own towel, There should also be a piece of pumice stone and a fresh cut lemon to remove stains or callous spots from the hands. If your hands are always very rough take a little good catmeal, boil it r, water sufficient to make a thin gruel, strain it through cheesecloth and add a little more water; use this liquid instead of fresh water for washing the

HOW TO MANICURE. Now as to the care of the nails. You only need a very few simple implements and if you take twenty minutes once a week, and two or three minutes every day, you ought to be able to keep your hands in good condition. The instruments you will need are an orange-wood stick, a nail file, some emery boards, a nail clipper, a nail polisher or piece of chamois, nail paste and polish. Instead of liquid bleach use lemon juice on a little piece of cotton, rolled round the point of your orange stick, for bleaching discolorations under the nail. First of all clip your nails in the shape desired. Don't cut them too long or too pointed. File the edges and finish off with the emery until the edge is perfectly soft and smooth. Wash the hands thoroughly and soak the nails in water; now press the skin or selvage around the nail gently away from the base, so that the half moon shows. If thin white skin clings to the nail, you can get it away with the orange stick and a little bit of powdered pumice. See that the edges of the nail are cleaned of this white skin. You should press the selvage down every evening before going to bed, as that will make the operation very much simpler, and will keep the nails in good condition especially if you dip your fingers in oil. Always keep the cuticle soft by generous application of cold cream, or olive oil.

Wash the hands one gain, apply a little bit of rose paste and then polish with the buffer and nail polish. Ridges on the nails are due to uric acid and they cannot be scraped or polished off, but when this condition of the blood is rectified, the nails will grow smooth again. If you've gotten your hands very dirty, instead of washing them at once

wash them with pure soap and lukewarm water DRY THOROUGHLY. Unless you dry your hands very thoroughly, you needn't expect to have them soft. Girls are very careless about drying their hands, and women who are no longer in their youth will find that the skin of the hands begins

to wrinkle and grow dry unless a good deal of attention is paid them. The older woman needs plenty of oil for her hands, either in the form of cold cream or pure olive oil, or some good skin food. She should rub them every night and she will be repaid for a little extra attention every day. The hand is a dead giveaway of a woman's age. I have seen lots of women whose faces have been skinned and operated on until they looked thirty years younger than they really were, but the hands have been forgotton, and proclaimed the exact age which they were trying to hide.

Baku, Russia, Sept. 11. — A school teacher named Romenco swam 30 miles in the Caspian Sea in 24 hours and 10 minutes and at the end showed no undue fatigue, despite the strong wind and boisterous sea with which he had to contend.

He claims to have beaten the record of T. W. Burgess, the champion English swimmer, who accomplished the journey be-tween Dover and Calais last year, and he has challenged the Britisher to a swimming con-test in June, 1913, from St. Petersburg to Stockholm, with rests allowed on islands on the way or aboard ships at anchor. Romenco proposes that there shall be eliminating trials from St. Petersburg to Cronstadt, a distance of 25 miles. This must be a non-stop contest.

## HOCKEY LEAGUE

N. H. A. Will Include Teams From Coast to Coast Is Plan of the Officials.

Montreal, Sept. 11. - It can be announced that a real National Hockey Association, stretching from coast to coast, is now a foregone conclusion. President Quinn, of the National Hockey Association, has been working on this plan for the last six months and the final spike has been driven in it, so to speak, by the arrival of Rollie Norman from the Lower Provinces.

A letter similar to the one received by Mr. Bannerman was written by Mr. Quinn to the Pacific coast and all the Maritime districts, and Mr. Norman came in person to bring the response to this, while Bruce Ridpath brought word from the Patricks that they were agreeable to the plan.

A meeting will therefore be held soon at which representatives from all the districts will assemble, and a hockey commission will then be formed to act as a court of last resort in cases of dispute in the four district leagues, which they will be unable to settle themselves. Thereby the game will be put upon the same basis as baseball. It will mean that the National Hockey Association will consist of a central district comprising Toronto, Montreal, Ottawa and Quebec; a Maritime district, a Soo district, and a Pacific coast

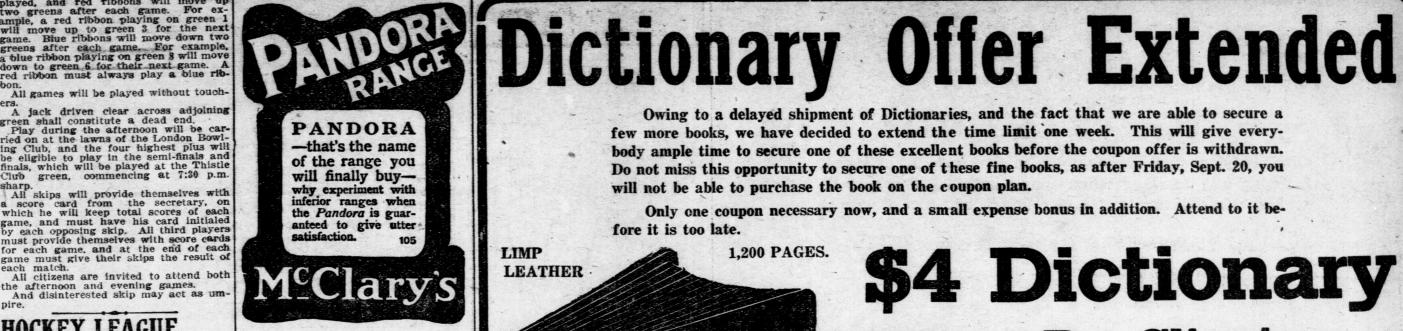

default.

The tournament will continue Thursday and Friday.

Champion Golfers Meet at Montreal To Decide Amateur Championships-The Scores Yesterday.

Montreal, Sept. 11.-In the second and third rounds of the amateur championships on the links of the Royal Montreal Golf Club at Dixie this morning and afternoon George S. Lyon, of the Lambton Golf Club, Toronto, made himself favorite among the other golfers present for the amateur championship by defeating F. R. Martin, of Hamilton, in the morning by 8 up and 2 to play, and W. R. Hutchison in the afternoon by 5 up and 4 to play. The largest crowds followed Mr. Lyon and his competitors, both morning and afternoon, as the fact of Mr. Lyon having six times won the championship and 'Mr. Martin having gained the same honor, made most feel that they were looking at games that would have an influence on who would be the final winner.

The semi-final of the consolation will be played in the afternoon
The arrangements for the interprovincial match of 18 holes will be made by the executive of the association to morrow at noon, and the match will be played off tomor w afternoon.

DAMAGED BY QUAKE

Constantinople, Sept. 11.-The famous nosque of Santa Sophia, built by Justinian in the sixth century, was coniderably damaged, it is feared, by the recent earthquake, which shook European Turkey.

Two years ago it was discovered that the huge dome of the mosque was forcing the supporting columns outwards, and the line of the dome itself has been

falling in. Sir Francis Fox, who re-cently restored the Winchester Cathe-dral in England, and Thos. G. Jackson, another well-known English architect, who were consulted by the Turkish of-ficials, placed strips of glass within the mosque as indicators in the event of the trouble spreading. "In this competition there are three points to decide," declared Mike, not quite sure whom he feared the more, James or the Watermelon. "Beauty of face, beauty of clothes and beauty of soul. The one who gets two points out of the three wins."

The Watermelon nodded and James grunted.

Mike glanced thoughtfully from one to the other, and decided that danger lay in either choice. "Neither of you," said he slowly and wisely, "win. The new act provides that municipalities must pay the expenses of their local officer in attending the annual conference, but some medical health officers are complaining that there should be some provision for recompensing them for the time lost. The new part of the health act requires municipality to pay its offastidiously adjusted his cuffs, with their ficer of health a fair salary, but this has not been acted upon, and probably will not be to any tent until the new year. ### DRANK CARBOLIC

Mrs. Joseph Norman Was Desponden Over Family Troubles.

[Special to The Advertiser.] Guelph, Sept. 12.-Tired of life and despondent over family matters, Mrs. Joseph Norman, residing with her sister, Mrs. John Searle, at No. 8 Toronto street, committed suicide early Wednesday by taking carbolic acid. It appears that the husband of the deceased woman left her about three years ago. Since then she has been working at the spinning mills in order to support herself and her boy, aged about five years. On several occa-sions her husband has appeared on the scene, determined to get possession of his son, and this worried the woman considerably.

On Saturday Norman arrived from Toronto, and again demanded the boy. Yesterday Mrs. Norman was called early, and replied, but did not appear for breakfast. Her sister found her unconscious with an empty bottle, which had contained carbolic acid, on her bed. She died before a physician reached the house.

Ottawa Separate School Board Rebels Against Bilingual Policy.

**NEW SCHOOL RULES** 

BLAMES THE ORANGEMEN

That Anglicanization of thelic Children Is Being Attempted.

Ottawa, Sept. 11.-The Separate school board will take a bold stand against the enforcement of the regulations in regard to bilingual schools, recently put in force by the Ontario Government. This was decided at tonight's meeting of that body, which lasted until after midnight, and where a motion was passed stating that the board would decline to enforce such regulations. As to the effect of this stand several trustees stated that the Government could do no more than cut off its grant of \$4,000, while others differed from them and stated that should it so desire the Separate schools of the capital could be rendered mere private institutions, for which taxes could not be collected. At length, however, two motions, moved by Trustee Genest, were carried.

Respectfully Declines. The first, after pointing out that the mode of teaching prescribed by the new resolution was detrimental to the pupils for whom the board had to provide, that the appointment of English rotestant inspectors over the heads of the bilingual Roman Catholic ones was objectionable, and that additional expense would be incurred, stated the board would be regretfully compelled to decline the said instructions. The second motion, addressed to the department of education, drew attention more particularly to the matter of the appointment of the Protestant inspectors. "The aim is not education, but the Anglicanization of our children," said Trustee Genest in the course of an eloquent address in

which he introduced his motion. Blames Orangemen. "The Orangemen are responsible for these regulations," said Dr. Free-land in seconding the motion. "The highest penalty the Government can enforce is to withdraw the grant of about \$4,000. We can collect our own taxes. It's up to Cathelics to stand by their guns. Let us demand our own Collegiate in Toronto and Normal Schools, too."
Trustee O'Neil, however, stated that

the Government could withdraw its inspectors and make private schools out of the Ottawa Separate institutions, so that taxes could not be collected.

Trustee Lanigan opposed the motions, but on a vote they both carried by large majorities. Trustee Genest stating that the Separate schools of the province would lead to that of Ottawa.

Throng of 45,000 Causes the Attendance Records for Day to Smash.

JUDGE DISCOVERS PERFECT BUTTER

Faultless-Great Day Before the Grandstand.

Farmers' Day eclipsed all attendance records, and today the directors of the Western Fair are jubilant. The exhibition is certain to be a success, financially and in every other particular. It is estimated that fully 45,000 people attended in the afternoon, and a night the crowd was augmented by many thousands of citizens.

Every feature of the Fair was at its best yesterday. The exhibits were all judged, and the visitors could readily distinguish the winners.

The grand stand was filled to suffocation. Not a single seat could be obtained in the covered stands, and the open stands drew well. The evening performance was equally well attended, many being in their seats for the latter exhibition much before 6 o'clock in the evening.

The attractions were carried out with much greater smoothness than on previous occasions. There was not "human parcel" to its destination. hitch. The celebrated Besses o' the Barn Band rendered two appreciated programs. To hear this organization play is well worth a trip to Queen's Park, Nothing finer has been heard in London for many a day.

> The Whippet Races. An additional feature was the whippet races. This is the first time an exhibition of this interesting sport has been given in London, and it is cer tain to be popular.

Blue Prince, one of the fastest whippets in Canada, created a world's record for the 200 yards' run. The previous time was 13 1-5 seconds, but Blue Frince went the distance in 121/2 seconds. He is a very speedy runner. He the Wonderful Freak Colt, with seven was always paying attention to his business. The open race was won by could have run faster, had not another dog bumped her.

J. Crossen, of Cobourg. The latter has gathered together a score of the finest specimens of roadsters on the continent, and the directors of the Western 4 are to be congratulated on securing so good an exhibit.

Mr. Crossen exhibited two teams, one 15.2 hands and over, and the other under that height. They are as smoothgoing fellows as one would care to see. Both were easy winners in their classes. In the roadster class Mr. Crossen won first and second each time. Miss K. L. Wilks, Galt, is showing a fine string of pacers. The directors were in a happy frame of mind last night, The weather last year, coupled with some extraordinary expenditures, had cut a big hole in the surplus, and many feared that another tad day this year would leave the Fair in debt. Three Have Appendicitis.

Messrs. Wellington Hough, Russell Winslow and J. Aldridge, three resi-

dents of Chelsea Green, are severely ill this week, all having developed acute cases of appendicitis. The first two mentioned were operated on on Tuesday in Victoria Hospital, and latest reports say they are on the road to recovery.

Suspended Sentence. John Anderson, who was arrested last week and committed for trial by Squire Chittick on a charge of stealing two razors from the residence of Mark Spencer, Westminster Township, appeared before Judge Macbeth Wednesday morning. He pleaded guilty and was allowed to go on suspended sentence.

Eleven Drunks Discharged. Thirteen men were lined up in the Carling street domicile this morning, each with the charge of drunkenness after his name on the court blotter. The magistrate was in a lenient mood, and eleven were discharged. Of the other two, Robert Quait, who was up Wednesday, paid his fine, got drunk again, and was back again in the evening. He was remanded for a week. The other man was placed on the prohib-itory list, and sent back to the cells to

To really appreciate "fine piano it is necessary to dro in at 195 Dundas street, next door to The Advertiser office, and hear the exhibition specimens of "the Martin-Orme" now being shown by the J. J. Callaghan Piano House. They are lo-cated at their present address because space could in no way be obtained at the Western Fair. The instruments in question rep-

esent the highest art in plano manufacture, and were specially selected by Mr. Owain Martin, who is without doubt the best judge of a piano in the country. Mr. Callaghan has arranged tha

these pianos be on view till the 19th inst., up till 9 p.m., so music-lovers will have every opportunity of hearing really first-class instruments. Intending purchasers should call a their earliest convenience, because prices seem to insure quick sale, be ing quite out of perspective with the undoubted quality of the pianos and player-pianos on view.

### DRILL FOR OIL

Another Rich Find May Be Made a Oil Springs.

[Special to The Advertiser.]
Oil Springs, Sept. 12.—In an effort to find a fine flowing oil well drillers are working here, and plan to go to the Trenton granite, which is about the Trenton granite, which is about 3,175 feet down. Some years ago a deep well was drilled in Petrolea, but no oil was located. It is thought that the drillers will find a good oil or gas field above the salt bed at the 1,200-foot level. Should oil be located another boom will take place at the Springs. The last big find in this field was 25 years ago, when oil was found at the 600-foot level.

fine cattle display, and this year is no exception to the rule.

All the various breeds are represented. The quality is much above the average, and the number of animals shown compares favorably with any exhibition of the kind in America. Capt. T. E. Robson, chairman of the cattle committee, is anxious to make this department a success, and he has accomplished his purpose. Western Ontario is in the heart of

mand attention. This is the case, par-ticularly with Holsteins. This fine breed is popular with the farmers, and as a result three of the best herds in Canada are being shown. They are those of A. Hulet, Nor-wieh; G. S. Gooderham, Bedford Park, and Haley Bros., of Springford. Mr. Gooderham won a large share of the prizes, but the other exhibitors all got a share. The herds are long on milk records, and there is not a bad indi-vidual in the lot. Mr. Gooderham is particularly pleased with the Western Fair, declaring it to be one of the finest exhibitions in Canada.

equally distributed between Alex. Hume & Co., Menie, and W. Stewart & Sons, from the same place. These exhibitors have everything their own way, and outsiders had no chance. In the beef breeds, there are many

entries, with keen competition. In the Aberdeen Angus, J. Bowman, of Guelph, and Thomas Broadfoot, of Fergus, swept the boards. Each gen-tleman has an excellent collection of the finest quality of animals, and they simply distribute the prizes among the dairy industry, and it was to be themselves expected that milk breeds would com-The Hereford classes furnish the

### LIKE AN ORIENTAL GARDEN IS THE BIG FLORAL SHOW

Riot of Color in the Horticulture Building With Vivid Crimsons and Delicate-Toned Blossoms.

As one enters the side door of the hall, the eye is first attracted by a fine showing of gladioli, so varied and gay as to be almost Oriental in effect. Here are many of gladioli, so varied and gay as to be almost Oriental in effect. Here are many shades of red, ranging from vivid scarlets and crimsons to palest pink and pastel tints, delicate creamy hues, and a new variety of almost blackish purple.

Many old favorites are descried as one wanders up and down the aisles. Coxcombs, marigolds, phlox, zinnias and petunias are seen in abundance. In the latter class both double and single specimens are of a particularly large size this year, and their veivety petals and delicate veinings are very beautiful.

Mr. Scott's Success.

Mr. Samuel Scott, of London, carried off the first award for the best display of annuals, including asters, phlox, verbenas, nasturtiums and many other flowers. Among the florists, both amateur and professional, there is considerable competition in the aster section. Huge vases

The floral display in the horticultural hall at the Western Fair rivals in beauty and variety the exhibit of any previous year.—To see the display at its best, the Fair visitor should really have made a tour of this building during the early days of the Exhibition, as the sultry weather of Monday and Tuesday proved rather trying for the specimens of single blooms.

And sometimes they are positive that the quality raised on the dear old farm surpasses any shown in the building, but as a rule they are pleased and pay respects to the fine display.

Best for Years. According to Mr. John Beaton, who has been the guard in this building for several years past, the agricultural display this Fair is the best for both as to quality and quantity. The only fault is that some of the fruits mature very rapidly in the warm weather and soon decay. In the centre tables the general display of vegetables catches the eye. Here are some cabbages which boast a diameter of forty-four inches; squashes of every shape and variety ever existing, not to mention some which never previously had existence; tomatoes which remind one of the quality only known to grow in English gardens, in addition to carrots,
