**NEXT CONVENTION
IN QUEEN CITY**

Association for Prevention of
Tuberculosis Decide to
Meet in Toronto.

DR. SCHROEDER'S SPEECH
Dangers of Infection From Bovine
Tuberculosis Were Pointed Out.

The next annual convention of the Canadian Association for the Prevention of Tuberculosis will be held in Toronto.

At the meeting of the executive yesterday afternoon this invitation was received, and it was decided to accept it.

The convention finished its labors last night. From every standpoint it has been highly successful, and the delegates are well satisfied with the arrangements made for the entertainment.

The report of the nominating committee was read yesterday recommending the appointment of the following officers:

The Officers.
President.
J. George Adams, M. A., M. D., LL. D., F. R. S., professor of pathology, McGill University, Montreal.
Vice-Presidents.
Col. Jeffrey H. Burdett, Montreal.
Hon. Senator Belue, Montreal.
Hon. Senator Edwards, Ottawa.
Sir James A. Grant, M. D., K. C., M. C., Ottawa.
J. A. Hutchinson, M. D., medical officer of health, Westmount, Que.
H. D. Johnson, M. D., Charlottetown.
P. E. L. Laberge, medical officer of health, Montreal.
James Manuel, Ottawa.
Hon. D. Marshall, minister of agriculture, Edmonton.
H. H. Miller, M. P., Hanover, Ont.
Hon. W. R. Motherwell, commissioner of agriculture and provincial secretary, Regina.
Geo. H. Porter, M. P., Ottawa.
J. G. Rutherford, V. S. C. M. G., veterinary director-general, Ottawa.
P. L. Schaffner, M. D., M. P., Boissevain, Man.
Wm. Southam, Hamilton.
Hon. H. E. Young, minister of education, Victoria, B. C.
Hon. Adam Beck, London.
J. W. Daniel, M. P., St. John, N. B.
J. H. Elliott, M. D., Toronto.
C. J. Fagan, M. D., secretary provincial board of health, Victoria, B. C.
Sir Hugh Graham, Montreal.
The Most Rev. Charles Hamilton, D. D., Archbishop of Ottawa.
J. D. Lafferty, M. D., Calgary, chairman provincial board of health, province of Alberta, registrar College of Physicians and Surgeons, Alberta.
R. M. Simpson, M. D., Winnipeg.
R. W. Bruce, Smith, D. Inspector of hospitals and charities, Toronto.
Smith L. Walker, M. D., Truro, N. S.
Dr. C. D. Parfitt, Gravenhurst.
Dr. Black, Hants.
Dr. McCulloch, Toronto.
Honorary Treasurer—George Burn, Ottawa.

Secretary—Dr. George D. Porter, Toronto.

The report was considered most satisfactory, and the above-named will conduct the affairs of the organization for the coming year.

At Springbank.
The afternoon yesterday was spent at Springbank. The city undertook the entertainment of the visitors, and at the conclusion of the morning session they were taken to Springbank in special cars. Here a lunch was prepared, and about 100 sat down to a most excellent meal.

Meat made a speech of welcome, followed by an address by Hon. Adam Beck, reviewing the work done here for consumptives. Mrs. John Staveley spoke on behalf of the ladies, and outlined how they were assisting the sanatorium here.

Professor Adams, president of the association, Dr. Hastings, medical health officer, Toronto, and Dr. Montzambert, of Ottawa, spoke briefly.

Part of the afternoon was spent in a free and easy time. Later, the delegates inspected the Byron Sanatorium. All expressed themselves as delighted with the surroundings of the institution and the buildings and the rest of it. Many complimentary things were said of the place.

Many of the delegates, after the inspection, went sight seeing. The night session was very well attended.

Dr. Schroeder's Address.
One of the most interesting and instructive sessions of the convention was the final address last night. Dr. E. C. Schroeder, of the Bureau of Animal Industry, Washington, D. C., and a leading American expert in the particular field delivered an address on "The Relation of Bovine Tuberculosis to Public Health," which bristled with scientific argument and array of facts and deductions.

**Burdock
Blood Bitters**

**CURES ALL
Skin Diseases.**

All diseases of the skin are, more or less, directly occasioned by a bad state of the blood, and it is absolutely impossible to eradicate them from the system unless you put your blood into good shape.

The following skin diseases are curable by Burdock Blood Bitters through its wonderful cleansing, purifying action on the blood, and its renovating action on the system, viz.: Salt Rheum, Tetter, Shingles, Scurf, Erysipelas, Itching and Burning Rashes, Ulcers, Sores, etc.

Miss Stella Eichel, Maitland Forks, N.S., writes: "I have been bothered with salt rheum, on my hands, for three years, and it itched so I did not know what to do. I tried every remedy, but nothing seemed to be any good. I heard of Burdock Blood Bitters and bought two bottles of it, and now I am perfectly cured and have no salt rheum on my hands any more."

"I cannot speak too highly of Burdock Blood Bitters."

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

they have actually succeeded in developing one form from the other. Tuberculosis is a slowly progressing disease, characterized by well-marked periods or stages in its development. And many authorities and investigators claim that bovine tuberculosis does not and should not occur among adult humans.

Sources of Infection.
The chief sources of infection with bovine tuberculosis would be meat and meat products, but meat is always cooked or sterilized before eating, and hence it is rarely a cause of the disease. Milk, cream, butter and other dairy products, however, are consumed in their fresh state, and are, therefore, chief sources of tubercular infection of the bovine type.

Dr. Schroeder would have every precaution taken to prevent the sale of milk from tubercular cows. Although this would be by no means an easy matter. He advised the convention as to the best way to prevent it, to interest the government and secure the enacting of laws requiring the farmers to separate their cows; to put those which are perfectly healthy and those from which the slightest affection. In this way a perfectly sound strain would be developed, and the farmers, as well as the public generally, would benefit as a result.

Following the close of Dr. Schroeder's address, votes of thanks were passed by the association to the lecturer, Dr. Schroeder, to the board of health, to the ladies of the hospital, to the hospital nurses and to the press.

**JUDGE COULTER WILL
CONFER THE DEGREE**

Judge Coulter, of St. Thomas, will confer the degrees tonight on the graduates of the Western University at the convocation to be held in Convocation Hall. Mr. Neville Ward receives the degree of Master of Arts, and the following students will become Bachelors of Arts—Miss Muriel Powell, who wins the governor-general's gold medal for proficiency; Mr. D. E. Cameron, Miss E. Y. Carothers, Mr. Charles Evans, Miss S. Giles, Mr. Edwin Hawkins, Miss Lenore Taylor and Miss Agnes Vroom.

**DECISION IN
BIG MINING CASE**

Privy Council Upholds Canadian Courts in Sterling Mines

Montreal, May 19.—According to a private cable received here, the judicial committee of the Privy Council gave judgment in the famous case of the Sterling Mines.

SHE WAS SURPRISED

When Dr. Morse's Indian Root Pills Cured her Chronic Liver Complaint

Mrs. R. Smith, of Winnipeg, Man., tells an interesting story of relief from almost intolerable sufferings:

"I can hardly tell you how great my sufferings have been. Chronic liver complaint accompanied by biliousness was a daily source of trial to me. Every day I experienced the sickening effect of these ailments. I longed for some medicine that should permanently drive them away."

Hearing of Dr. Morse's Indian Root Pills, I thought they were worthy of a trial. My surprise was indeed great. From the very first I experienced relief. Continuing with them I found my troubles were slowly but surely leaving me, and before long I once more knew what it was to be free from the harassing effects of the ailments that had long sickened and weakened me. So great is my faith in Dr. Morse's Indian Pills that I shall never on any account be without them."

A first payment of 10% of the amount of bonds subscribed for must accompany application. Said payment may be either in cash, draft or marked check (payable at par in Toronto).

25% will be payable on allotment.
25% will be payable on July 1st, 1911.
25% will be payable on Aug. 1st, 1911.

And the balance will be payable Sept. 1st, 1911.

Subscriptions may be paid in full upon receipt of allotment. Definite Bonds and bonus of common stock to be delivered upon final payment.

If no allotment be made, first payment will be returned, and if a smaller amount be allotted than subscribed for, the balance of the first payment will be applied upon amount due.

Failure to make payments when due will render the first payment liable to forfeiture.

The right is reserved to reject any application, to award a smaller amount than applied for, and to close the subscription list at any time without notice.

1. The Company began business on October 1st, 1910, consolidating the businesses of the King Radiator Company, Limited, and the Expanded Metal and Fireproofing Company, Limited, both of Toronto.

2. The Company owns and operates a new and thoroughly modern plant on St. Helen's Avenue, Toronto, which covers about 3 acres of land, and is equipped for the manufacture of Hot Water Boilers and Radiators; also a new plant on Fraser Avenue, Toronto, of Concrete Fireproof Construction, equipped with modern machinery and tools for the manufacture of Expanded Metal, Metal Lath, Reinforcement Rods and Fenestra Sash. The Company owns the exclusive right for Canada for the manufacture of "FENESTRA STEEL SASH" and "CASEMENTS," which goods are now being installed throughout the world in fireproof construction.

3. The earnings for the three months ending December 31st, 1910, as certified to by Messrs. George A. Touche & Company, Chartered Accountants, of London, England, New York and Toronto, would average, for the year almost three times the interest on the entire amount of Bonds now offered for sale, without making any allowance whatever for the increase in business for the remaining nine months of the year. The consolidated business will show largely increased earnings, following the introduction of new and modern methods whereby great economies are to be secured.

4. The issue of \$750,000 of bonds is for the purpose of the extension of the business, the erection of a new plant at St. Catharines, Ont., and the purchase of other plants in kindred lines of business which the Company is now arranging to acquire.

5. The St. Catharines plant will have a capacity for a daily output of 150 tons of iron for the manufacture of Boilers, Radiators, Soil Pipe, Cast Iron Fittings, and heavy commercial castings. This latter plant is made necessary by reason of the demand for the Company's products having assumed such proportions as to tax to the utmost the Company's present capacity.

6. The above issue of bonds forms a first charge upon the Real Estate Works, Plants and Assets of the Company, and the Trust Deed provides that all further issues of Bonds are limited to 75% of actual expenditures to be made on capital account for the acquisition of further properties.

7. All legal matters pertaining to the issue of these securities have been passed upon by Messrs. Brown, Montgomery & McMichael, of Montreal, and Messrs. Dunbar & Dunbar, of Guelph.

8. A special circular with full particulars, and with application form, will be furnished upon request.

**U. S. SENATE OPPOSES
FREE PAPER C**

An Amendment Made
Reciprocity Agree

Washington, May 18.—The bill to make the gift of unimproved free pulp and from unimproved lands, as by the amendment of the Representatives, and with a few other minor changes, as if the Senate finance would report the reciprocity clause, which will make free paper an event of the indecision, was proposed by Senator New York, today.

The manner in which it was suggested that it had heartily there, and subsequent inquiry several senators showed that predilection to adoption. Pa. manufacturers present also show confidence.

The effect of making an amendment to the bill is taken to mean members of the committee to reciprocity, that the bill as amended will be favorably reported. Gillingham said as much, though while Senator Smoot correspondent that it was possible to add this amendment, he said that it was necessary to make the bill to the agreement with the ministers, and then report probably about a week from day.

U. S. SENATE OPPOSES FREE PAPER CLAUSE

An Amendment Made to the
Reciprocity Agreement.

Washington, May 18.—The Senate will refuse to make the gift to Canada of immediate free pulp and paper from unreserved lands, as proposed by the amendment of the House of Representatives, and with this and a few other minor changes, it looks as if the Senate finance committee would report the reciprocity bill next week. The amendment to the paper clause, which will make free trade in paper an event of the indefinite future, was proposed by Senator Root of New York, today, and at once caused a flutter in the committee. The manner in which it was received suggested that it had heavy support there, and subsequent inquiry from several senators showed that it seems destined to adoption. Paper manufacturers present also shared this confidence.

The effect of making an amendment to the bill is taken to mean, even by members of the committee opposed to reciprocity, that the bill as amended will be favorably reported. Senator Gillingham said as much this afternoon, while Senator Smoot told your correspondent that it was proposed to add this amendment and a few other slight ones, which he said, were necessary to make the bill conform to the agreement with the Canadian ministers, and then report on Saturday.

SCARED ATTENDANTS WITH AN AXE

Montreal Man Object to Relative Going to Hospital.

Montreal, May 19.—Swinging an axe about his head, Edward Welsh yesterday threatened to kill the attendants of the Victoria Hospital, who had come with the ambulance to remove his aged aunt, who lay seriously ill at her home. Welsh has been demanded to jail for eight days for his audacity. It is believed that he is insane.

When the attendants entered Welsh forced them back, and, grasping an axe, threatened to kill the first one who advanced towards the room in

Spring Humors

RESULT FROM THE POISONED
CONDITION OF THE BLOOD.

Discharge Is Checked—Sores Are
Cleansed Out and Healed by
Dr. Chase's Ointment

Aside from the suffering caused by pimples, sores and skin eruptions, there is the annoyance and embarrassment to which they give rise, particularly when on the hands or face. It is quite proper to try to get the blood right by use of internal treatment, but this is a tedious method of overcoming the skin troubles, which can so readily be gotten rid of by using Dr. Chase's Ointment.

The three principal ingredients of this great, soothing, healing ointment are the most potent known to the medical profession as a means of cleansing out sores and ulcers, destroying morbid growth, lessening the discharge, preventing blood-poisoning and stimulating the healing process.

Dr. Chase's Ointment stops itching almost as soon as applied, and often heals almost like magic.

The time required for cure depends on the nature of the ailment, but in like internal treatment, the benefits are apparent to the eye, and you can note from day to day the improvement made.

The wonderful success of Dr. Chase's Ointment in the cure of eczema, salt rheum, psoriasis and old sores and wounds is sufficient proof that it is bound to be satisfactory in the treatment of the less severe diseases of the skin. Sixty cents a box, at all dealers, or Edmondson, Bates & Co., Limited, Toronto. Sample box free if you mention this paper.

VERY LITTLE DAMAGE TO BRITISH TRADE

Canada-U. S. Trade Pact Does
Not Affect Mother Country
Seriously.

London, May 19.—In the House of Lords yesterday, Lord Selborne said that the reciprocity agreement between the United States and Canada was specially directed against British preference. It was the first time that one part of the empire had obtained better terms from a foreign country than had the United Kingdom. Nearly \$15,000,000 of British produce would be dutiable, while that from Canada would be free or lower than from Great Britain. It was most important to the American farmer and miller that the wheat flour now manufactured in Canada should be manufactured in the United States. It would make matters more difficult for the British miller and consumer.

Lord Lucas replied that the damage to the British trade under the proposal was of the slightest importance. The concessions to the United States were the same as to France and other favored nations. Canada was perfectly within its statutory rights, and the United Kingdom could not interfere.

To offer Canada the same advantage as the United States we must consider the natural laws of geography. What would foster British trade in Canada to compensate for what we lose would be the rapid development of Canada, which must have a fair field and no interference.

The total British exports to Canada was \$100,000,000 annually. Of that amount \$4,845,000 was under agreement and \$880,000 free.

Of all nations Britain obtains a substantial preference of \$2,235,000, leaving \$1,659,000, or 1 1/2 per cent, of the total whereon the preference is annulled.

CABLEGRAM RATES CUT

British Government Gets Reduction of
50 Per Cent on Non-Code Messages.

London, May 19.—In the House of Commons last night Postmaster-General Samuel announced that he had arranged with the cable companies for a reduction of 50 per cent on all non-code cablegrams liable to be deferred no longer than 24 hours. The rates for the foreign parcels post, he said, had been reduced 20 per cent.

The Government has decided to secure the control of cable rates through the licenses necessary to the landing of the cables on British shores. The licenses come up for renewal periodically and the Government henceforth on such occasions will oppose such rates as it might think excessive. If the company should disagree the question will then be arbitrated.

The use of the aerographic system made an increase in 1910 of 60 per cent. The increase has been mainly since the publicity given to the effective use of wireless in the Crippen case. It is recalled that the public considered wireless more or less a toy until the escaped murderer was captured by means of it. Since then wireless has rapidly grown in favor, and the number of stations has increased from 130 to 290. The Government's purchase of aerographic stations, some time ago promised to be a wise move, and new stations, including one at Valencia, are now announced.

Arrangements have been made with mail steamers whereby the delivery of the post from America is quickened to twelve hours. The Government has also arranged with the Cunard line so that all eastbound ships, except the Lusitania and the Mauretania, will resume calling at Queenstown.

ARRESTED A JUDGE

Policeman Accused Later With
Blocking the Sidewalk.

Vancouver, B. C., May 19.—Judge W. W. B. McInnes, formerly a member of the House of Commons, was placed under arrest yesterday afternoon at three o'clock.

The judge was talking with a friend at the corner of Richards and Hastings streets, when Policeman No. 101 came along and accused him of blocking the sidewalk. He ordered the judge to move. The judge said he was not in the way of traffic and declined to move. The policeman, not knowing who he was, placed him under arrest. A crowd of a couple of thousand immediately gathered while the policeman sent for a patrol wagon.

Several friends of the judge rushed away to telephone to the chief of police and the judges in his behalf. A number of people in the crowd threatened to rescue the judge, and a riot was nearly started.

Just at this moment, J. A. Russell, a barrister, appeared and attempted to identify Judge McInnes. The policeman ordered Russell to go about his business, and said: "This man is under arrest and I am going to keep him." Another policeman arrived and induced the first officer to allow Judge McInnes to accompany Mr. Russell to the latter's office. They departed, while the crowd jeered the policeman.

A few minutes later Judge McInnes was released.

NARROW DUTCH COLLARS NOW

Rather narrower are the new Dutch collars, and very dainty in style as well. Real lace as well as the best imitations, also hand-embroidered in both ecru and white, is used in making these becoming accessories.

Small, simple made bows are worn with these collars, and these are made either of a material matching the gown, or of silk of a contrasting shade.

DEAD, AGED 101

Toronto, May 18.—Living to the ripe old age of 101 years, and retaining all her mental and physical faculties to the end, Mrs. Jane Judah, widow of the late Adolphus S. Judah, died today at 213 Lippincott street, Mrs. Judah moved to Toronto 76 years ago. She had lived under six British sovereigns.

She had seldom complained of any illness and was able to be around until within two weeks of her death. At the age of 95 she made garments for her great-grand-nieces without the aid of glasses, the handwork being of the neatest.

PEACE CONFERENCE

Juarez, May 18.—Judge Gonzales and Dr. Gomez conferred in an El Paso hotel at 2:30 o'clock today concerning peace terms. Judge Gonzalez officially transmitted to Dr. Gomez for Senator Madero the invitation for the latter to come to Mexico City.

GRAFTON & CO. LIMITED

We Have Just the Sort of Clothing You Want, Sir!

And Our Prices Are One-Quarter to One-Third Less Than Those of Other Stores

How do we know what you want? Because we've been supplying men with clothing for sixty-eight years and we've gauged their wants so correctly that our business has grown to be the largest in the country.

We've been so very successful in satisfying the clothing wants of all sort and conditions of men that we have a pretty good idea of what every man likes. That's why we are so confident about being able to please you. We know you want clothing that is up to date, that fits well, that will hold its shape, and that will wear well—and that's just the clothing we are prepared to sell to you. We have it in such a great variety of styles, fabrics, patterns and colors that it will be a very easy matter to give you something to exactly meet your requirements.

Of course, we couldn't be sure our Clothing was so absolutely right in every way if we didn't make all of it ourselves—as we do in our own factory. We put the best possible fabrics and workmanship into our garments, and we know that nothing better can be made. We don't have to place any dependence on anyone else nor take anyone's word for it that the clothing is right—as other stores do. This is another reason why we are able to so thoroughly satisfy our customers.

And most important of all, by making the Clothing ourselves, we're able to eliminate the middleman's profit and sell directly to you at one-fourth to one-third less than you'd have to pay for equal grades in any other store in the city.

SUITS - \$5.00 to \$22.00

FRANCE'S PROBLEM

Statistics Show Disastrous Conditions in the Republic.

[Canadian Press.] Paris, May 18.—The Journal Officiel publishes an article by Dr. Jacques Bertillon, chief statistician of Paris, calling attention to the disastrous results of the birth and death statistics in France for 1910. The complete figures are as follows:

Marriages, 309,289; divorce, 13,019; births, 74,358; deaths, 70,707. The births are the lowest for a century. In 1859 the births numbered 1,018,000. They dwindled to 984,000 in 1867, and numbered 898,000 in 1887. The number of deaths in 1910 was exceptionally low; yet the excess of births over deaths was only 70,581, compared with 884,961 in Germany. Dr. Bertillon concludes by declaring that there is no reason, physiological or economic, which prevents France from increasing as other nations.

ATTACK LONG SAULT BILL
Albany, N. Y., May 18.—The constitutionality of the charter of the Long Sault Development Company, granted by the legislature in 1907, was attacked yesterday at a hearing on Senator Burd's bill, which seeks to repeal it. RAILWAYS LIABLE TO THE FARMERS

For the Cattle Killed and Land
Damaged by Crossings.

AMENDMENT TO THE ACT

Leading Opposition Members Fall Out
During the Debate.

Ottawa, Ont., May 18.—Hon. Mr. Graham's bill to amend the railway act, was under discussion in the Commons today, and caused a clash between leading members of the Opposition.

Progress was being made with the Minister of Railways' measure in committee of the whole, which, as previously outlined, is largely non-contentious, and aims principally to tighten the reins of control over transportation companies. Both Hon. Messrs. Fielding and Graham expressed the hope that the House would devote itself with diligence to the consideration and adoption of a large portion of the bill as was possible, and expressed their willingness, should any contentious clauses be found to exist, to allow them to remain over for further consideration after the recess.

Helps Londoners.
The House had reached the consideration of clause seven, which amends the existing law by requiring the railway to make such compensation to adjacent or abutting land-owners, in cases where the line crosses a highway, as the railway board deems proper and determines. Heretofore no such provision for compensation existed, and the original clause was considered to be an acrimonious lawsuit-breeding.

Approval from both sides of the House had been given, when unexpected obstruction developed. Messrs. Lennox and Lancaster, two of the members, who had been found by the House to be "country lawyers," took issue with the immediate passing of the clause.

Mr. Lennox rose and took issue with the fellow-member. He was heartily in favor of the clause, which would be a boon to the property-owner and remove the dangers of interminable litigation. He hoped that it should be heartily supported by both sides.

Thereupon Mr. Lennox retorted, with all due deference, he thought he had made about as much of his party colleague. "Now take your medicine again," came the cry from the Liberal benches amid much laughter.

Cattle Protection.
The clause to protect cattle, asked for by the Farmers' Association of Canada, met vigorous opposition from Mr. Lancaster. With all due respect to the farmers, he maintained that the existing law was "working splendidly." It was merely a matter of assiduity. If the owner allowed his animal to escape, or if it escaped through the negligence of an owner, he had no redress, and should not have any. In Mr. Lancaster's opinion, while the railway were responsible, it was liable. "Why change all this?" he asked.

Hon. Mr. Graham said the purpose of the clause was to make the railway responsible for cattle killed upon the track. The conditions in Ontario and the east were so different from those in the west, and so difficult to deal with, that a section of equity to both.

His study of the situation in the west showed that it was impossible, in fairness, to hold the railway responsible if it was not. "My first idea," said the minister, "was to make the railway responsible for cattle killed, without reservation, but this was deemed very drastic. The chairman of the railway commission, Mr. P. J. McLean, said that he would not have any. In Mr. Lancaster's opinion, while the railway were responsible, it was liable. "Why change all this?" he asked.

Duplex Stencilled Serim; worth 35c and 40c
yard, at yard.....26c

Lace Curtain Special

To the first ten buyers of Lace Curtains on
Saturday morning we will give as a premium,
FREE, a Japanese Rug, usually sold at 75c.

206 DUNDAS ST

ALL HIS WEALTH LEFT TO MONTREAL

Splendid Fortune Placed at
Disposal of Mayor and
Council.

Montreal, Que., May 19.—I will and bequeath all the money realized by me as a result of the visit of the three judges of the divisional court to Montreal, and their interview with the octogenarian while there. When the argument is resumed at Osgoode Hall on Monday the 22nd, for the plaintiff, Miss Fraser, will probably contend that the stenographers' report of the examination of Michael Fraser by Chief Justice Macleod and his colleagues undoubtedly shows that the memory of Michael Fraser is sadly shattered. The attempt to secure a declaration of lunacy is not likely to be urged, but Miss Macleod's lawyers will follow a line indicated some time ago in an earlier stage of the case. They will most likely contend that they do not have to prove lunacy, but if they can show that Mr. Fraser is unable to manage his affairs they will have done sufficient to entitle them to an order appointing a committee to administer his estate. In such an event costs would naturally be awarded the plaintiffs out of the estate.

In support of this contention it will be pointed out that Michael Fraser has no recollection of turning over his estate to his young wife. According to his answers, given to the judges, he had "just hinted to her that she would get it when he was gone."

NO END IN SIGHT FOR FRASER CASE

Indications Are That Visit of
Judges to Old Man Has
Not Settled Matter.

Toronto, May 18.—Indications are that the Michael Fraser case is by no means over as a result of the visit of the three judges of the divisional court to Montreal, and their interview with the octogenarian while there. When the argument is resumed at Osgoode Hall on Monday the 22nd, for the plaintiff, Miss Fraser, will probably contend that the stenographers' report of the examination of Michael Fraser by Chief Justice Macleod and his colleagues undoubtedly shows that the memory of Michael Fraser is sadly shattered. The attempt to secure a declaration of lunacy is not likely to be urged, but Miss Macleod's lawyers will follow a line indicated some time ago in an earlier stage of the case. They will most likely contend that they do not have to prove lunacy, but if they can show that Mr. Fraser is unable to manage his affairs they will have done sufficient to entitle them to an order appointing a committee to administer his estate. In such an event costs would naturally be awarded the plaintiffs out of the estate.

A PECULIAR CASE OF A COLORED MAN

Disease With Which Fred Topp
Is Afflicted Puzzles the
Doctors.

One of the most peculiar cases that the staff at Victoria Hospital, had ever had to deal with was brought in from the House of Refuge a couple of days ago, and large numbers of local physicians have been constantly visiting the hospital and taking photos and making many notes. The patient is a colored man by the name of Fred Topp, and he is suffering from a spinal disease known as Syringomyelia. In its development the disease causes degeneration of the spinal cord, and Topp's limbs are badly deformed. His hands are absolutely useless, and the man cannot feed himself, or dress himself. His feet and legs are also affected, and his head is very large and peculiarly shaped. At times he suffers a great deal.

"It is a case in a hundred thousand," said Superintendent Heard to The Advertiser. "The physicians are greatly interested in watching the progress of the disease, and many have come a long way to see the man and note the symptoms and make a diagnosis. The case is not likely to be fatal at all, but simply distorts the various limbs and renders them useless. It is fortunate that the man is so docile, and that he has been so most distressing to the visitors."

THE SEAMEN'S STRIKE

Date of the Walkout To Be Kept a
Secret by Union Leaders.

[Canadian Press.]
Glasgow, May 19.—At a largely attended meeting of seamen today Secretary French, of the Seamen's Union, stated that the date for a general strike at all ports had been fixed, but that the union officials had decided to keep the date secret until the eve of the day that the strike was to become effective.

He promised the shipping federation the highest light ever known among the transport workers of Great Britain. The ship owners on the Clyde do not take much stock in these threats, but are preparing for emergencies. It is reported here that May 25 has been chosen as the day upon which to quit work.

FINANCIAL

MAY PRICES EASIER
OATS PRICES UNCHANGED

Dressed Hogs Are Likely
Firm—Butter and Eggs
in Demand.

Hay was slightly easier on the market this morning, the ruling being between \$11 and \$12. A fairly large number of loads made up, but they were not so active as they have been for some days past. The price of hay is likely to be steady, but more active on the part of the buyers have been for the past few days, and the price is likely to be a fair activity.

The quotations are as follows:
Grain, Per Cwt.
Barley, per cwt.....15 to 16
Oats, per cwt.....14 to 15
Wheat, per cwt.....18 to 19
New wheat, per bushel.....10 to 11
Hungarian seed, per bushel.....10 to 11
Hay, per ton.....12 to 13
Straw, per ton.....6 to 7
Produce, per ton.....10 to 11

Dairy Produce.
Butter, creamery, lb.....22 to 23
Butter, dairy, lb.....21 to 22
Cheese, per lb.....18 to 19
Eggs, fresh-laid, dozen.....17 to 18
Eggs, graded, lb.....15 to 16
Honey, sections, dozen.....12 to 13
Honey, bulk, lb.....10 to 11

Poultry, Dressed.
Turkeys, lb, retail.....14 to 15
Turkeys, lb, wholesale.....13 to 14
Chickens, lb, retail.....12 to 13
Chickens, lb, wholesale.....11 to 12
Ducks, per lb.....10 to 11
Ducks, per lb.....9 to 10
Spring chickens, lb.....12 to 13
Old hen, per lb.....10 to 11

Butchers' Meats.
Lamb, per cwt.....20 to 21
Dressed hogs, cwt.....18 to 19
Veal, per cwt.....16 to 17
Pork, forequarters, lb.....12 to 13
Pork, hindquarters, lb.....11 to 12
Small pigs, pair.....10 to 11

Live Stock.
Sheep, per lb.....10 to 11
Cattle, per lb.....9 to 10
Hogs, per lb.....8 to 9
Pigs, per lb.....7 to 8
Small pigs, pair.....10 to 11

Vegetables.
Asparagus, dozen bunches.....50 to 60
Artichokes, per peck.....20 to 25
Parsnips, per bushel.....10 to 15
Green beans, lb.....10 to 15
Peas, per bushel.....10 to 15
Lettuce, per dozen.....40 to 50
Cauliflower, per dozen.....30 to 40
Navy beans, per bushel.....20 to 25
Broad beans, per bushel.....20 to 25
