EXTRACT FROM REPORT TO ANNUAL MEETING.

" TAKING FIRE AND LIFE BUSINESS TOGETHER,

NO COMPANY CAN SHOW A SUCCESS,

ALMOST SIMULTANEOUSLY ARRIVED AT IN BOTH DEPARTMENTS,

EVEN APPROACHING IN EXTENT TO THAT OF THE ROYAL INSURANCE COMPANY."

PERCY M. DOVE, MANAGER AND ACTUARY.

# Royal Insurance Company.

## REPORT BY THE AUDITORS

TO THE ANNUAL MEETING IN AUGUST 1862.

"All the property of the Company, which amounts in the aggregate to £846,070,\* is real and substantial property. We have passed all the Documents, and all the Securities relating to that property, through our hands, and are perfectly satisfied that the amount is correctly represented, and that it is **SOLID, SUBSTANTIAL, and REAL.**"

\* THESE FUNDS, SINCE RAPIDLY ENHANCED,  
NOW EXCEED  
**ONE MILLION STERLING.**

THE FOLLOWING FACTS PROVE THE  
**HIGH STANDING OF THE COMPANY:—**  
ANNUAL FIRE REVENUE, £300,000.

No other FIRE Insurance Office has, under any circumstances, ever before attained to a similar Revenue in eighteen years from the time of its establishment.

No Office has advanced so rapidly, year by year, as the ROYAL, during such a period, unless by the purchase of other Offices, and by adding the revenues of such Offices to their own.

The increase of Fire Duty paid by the ROYAL proves, by a method of long acknowledged and unquestionable accuracy, the wonderful progress of the Establishment.

In the year 1862 alone, an amount exceeding £100,000 has been added to the Available Funds of the Company, after paying all Claims and Expenses.

The fact that out of a profit of £56,000 realised on Fire business last year, the sum of £34,000 only was paid in the shape of Dividend to the Proprietors, shows the utmost prudence on the part of the Directors, and gives the greatest possible security to Insurers.

The capability of paying a Sum exceeding £200,000 annually in Claims, notwithstanding these immense Reserves, exhibits a magnitude of operation having few equals.

THE FOLLOWING STATEMENT WILL EXHIBIT THE  
**RAPID GROWTH AND HIGH POSITION OF THE COMPANY**  
MORE CLEARLY THAN ANY OTHER THAT COULD BE PRODUCED:—

### FIRE DEPARTMENT.

Year.	Premium.	
1848	£31,346	—
1852	76,925	Increase in 4 years, £45,579
1856	151,733	" 8 " 120,387
1862	over 300,000	" 14 " 268,654

### LIFE DEPARTMENT.

Year.	New Sums Assured.	
1848	£48,764	—
1853	178,923	Increase in 5 years, 260 per Cent.
1858	387,752	" 10 " 690 "
1862	over 700,000	" 14 " 1350 "

# Royal Insurance Company.

## LIFE INVESTIGATION.

The ROYAL INSURANCE COMPANY recently published an account of the investigation into the Assets and Liabilities of its Life Department, under a novel form, and in as plain and intelligible a manner as the abstruseness of the subject admitted, together with the entire statements and valuations necessary for that purpose.

From the extensive Notices of this Pamphlet and its accompanying Diagrams, which have appeared in the Periodicals of the day, it has largely attracted the attention of vast numbers of persons in all parts of the United Kingdom, as well as in other parts of the World. A most satisfactory and conclusive evidence that such is the case, is afforded by the fact, that the

### SUM ASSURED ON NEW LIFE BUSINESS,

AN AMOUNT SELDOM ATTAINED BY EVEN THE

## P R E F A C E.

---

In presenting to the Inhabitants of Newfoundland a Directory of their Province, the Publisher begs to assure them that no pains have been spared to render the work, in every respect, thoroughly *reliable*. While in a work of this kind it is barely possible to escape a number of errors, he trusts that in the present Directory such errors are few ; and he will be thankful if such are pointed out,—and any other information supplied,—that they may be amended and added in a future edition.

The Publisher would direct special attention to the POST OFFICE DIRECTORY given in this work, so invaluable to the man of business, and which was kindly furnished by John Delaney, Esq., Postmaster General, to whom he is also much indebted for other valuable information.

To the Members of the Colonial Government the Publisher returns his sincere thanks for the cordiality with which they placed at his disposal all information tending to enhance the work ; and to those who by their subscriptions and liberal advertising patronage encouraged and supported his enterprise, he begs now to return his grateful acknowledgments.

FELLOWS' ORIGINAL  
**WORM LOZENGES.**

We can with pride and confidence point to

**FELLOWS' WORM LOZENGES,**

As the most elegant and perfect Remedy for those troublesome pests,

**INTESTINAL WORMS.**

After many years' careful study and experience success has crowned our efforts, and we now offer to the **WORLD** a Confection without a single fault, being Safe, Convenient, Effectual and Pleasant.

**SAFE,**

Because no injurious result can occur, let them be used in whatever quantity. They contain no Mineral Drug or Poisonous ingredient; and bear in mind, not a particle of Calomel enters their composition.

**CONVENIENT,**

Because they may be used without further preparation, and at any time.

**PLEASANT,**

Because children will eagerly devour all you give them, and ask for more

**EFFECTUAL,**

Because they never fail in expelling Worms from their dwelling-place, and they will always strengthen the weak and emaciated, even when he is not afflicted with Worms.

With these facts before them, who can fail to acknowledge that

**FELLOWS'**  
**WORM LOZENGES**

Are all that can be desired by the most fastidious? They are becoming known throughout America, and are prescribed by many unprejudiced Physicians.

Dr. Clay says:—"I was induced to try Fellows' Lozenges, having had a number of children under my care, whose stomachs were so irritable that the ordinary medicines could not be retained a moment, and the success that followed their use was so complete, that I can recommend them as one of the most pleasant and safe medicines that can be administered."—*Edward Clay, M.D.*

Dr. Hayes says:—"I have analyzed the Worm Lozenges prepared by Messrs. Fellows & Co., and find that they are free from Mercury and other metallic or mineral matter. These Lozenges are skilfully compounded, pleasant to the taste, safe, yet sure and effective in their action."—*A. A. Hayes, M.D.*

 Fellows' Worm Lozenge is the only Worm Remedy in existence combining harmless qualities with delicious taste and amazing power.

Do not be persuaded to take any other medicine in their stead ; but should your Apothecary not have

6. If the name and address of the sender be written on the parcel, it will, if delivery should fail from any cause, be returned unopened to the sender, on payment of an additional rate of 20 cents for the return conveyance.

MONEY ORDER BRANCH.

James Healy, Superintendent.

Office hours from 9 a.m. till 4 p.m.

Money Orders are now interchanged with the United Kingdom and Canada at the following rates of commission:

*Scale for the United Kingdom:*

Orders up to £2 stg., 1s. stg.; from £2 up to £5, 2s.; from £5 up to £7, 3s.; from £7 up to £10, 4s.

*Scale for Canada:*

Orders up to £5, 1s.; from £5 to £10, 2s.

No single order can be granted for more than £10.

No half-pence to be introduced in the orders.

SYSTEM.

1. Money Orders are made out in Forms, supplied for the use of the Money Order offices.

2. Persons applying for Money Orders, are recommended to use printed "Application Forms," supplied for that purpose.

3. The place of payment of a Money Order may be changed in accordance with Instructions provided therefor.

4. Alteration of Payee's name may be effected by issue of a new order and payment of commission thereon.

5. Applicants for Money Orders are expected to observe due care in the examination of the same, relative to filling and stamping. Defects in orders, when presented for payment, may cause difficulty and delay, for which the paying office is not to be held accountable.

6. Postmasters should be particularly careful to obtain from the person who presents a Money Order, whether the rightful owner or not, full information as to the Christian name, surname and address of the party who originally obtained it, unless such party be a firm, when the name of the firm will suffice. *The only exception to this rule is,*

When an Order is presented through a Bank, in which case, it will suffice, that the Order being properly signed, be also crossed with the banker's name.

7. As however, *after once paying a Money Order, by whomsoever presented, the office will not be liable to any further claim,* the public are strictly cautioned,

1st. To take all means to prevent the loss of the Money Order.

2nd. To be careful in taking out an Order, to state correctly the Christian as well as the surname of the party, in whose favor it is drawn.

3rd. To see that the name of the person taking out the Money Order is correctly known to the person in whose favor it is drawn.

8th. Payment of a Money Order must be obtained before the end of the sixth calendar month after that in which it was issued; otherwise a new order will be necessary, for which a second commission will be charged; and if the order be not paid before the twelfth calendar month after that in which it was issued, all claim to the money will be lost.

Neglect of the foregoing instructions will risk the loss of the money, besides leading to delay and trouble in obtaining payment.

The Money Order Offices in Newfoundland at present are: General Post Office, St. Johns Post Offices at Bay Bulls, Bonavista, Brigus, Burgo, Burin, Carbonear, Ferryland, Fogo, Greenspond, Harbor Breton, Harbor Grace, Placentia, Trepassey, Trinity, Twillingate.

9th. Postmasters should recommend the use of Money Orders for the transmission of moneys in preference to such transmission otherwise.

## THE LIFE ASSOCIATION OF SCOTLAND

Was constituted in 1838 expressly with the view of reducing the expense of Life Assurance to the lowest scale consistent with security, and has been eminently successful in attaining that object.

Under Class A, Policy Holders of the First Series by participation in profits are at present required to pay only 12s. 6d. per £, of their premiums, and new entrants can keep up their policies till they participate in the profits by payments of so small an amount as to enable many persons to make an adequate assurance provision, who could not do so under the ordinary system. For example:—Policies of £500 (with profits) can be obtained for the following payments for the first year. Age 20, £5 1s. 1d.; age 30, £6 11s. 3d.; age 40, £8 11s. 1d.; age 50, £12 5s.

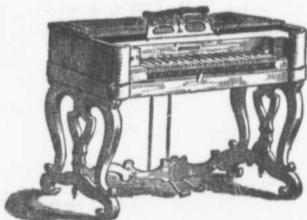

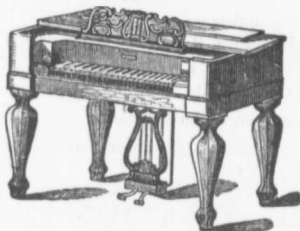

Class B Scheme, (Unconditional Assurance) is remarkable for simplicity. It obviates the objections hitherto urged against Life Assurance, and meets, to the fullest extent, the wants of the public in the present day.

## LOVELL'S SERIES OF SCHOOL BOOKS.

The Publisher has much pleasure in tendering his best thanks to the public of Canada and of the other British North American Provinces, for the very liberal support which has been accorded to his Series of School Books.

When a large amount of care and labor has been expended on an undertaking of a National Character, it is very gratifying to find, from substantial evidence, that the public have appreciated the enterprise, and approved of the manner in which it has been carried out. This has been essentially the case in reference to Lovell's Series of School Books.

The very favorable manner in which the Books have been received and reviewed by the Press of Canada and of the Lower Provinces, together with the flattering opinions expressed by some of the leading gentlemen of the Provinces, for which the Publisher is very grateful,—is perhaps the best guarantee of the utility of the Books which the public can receive.

There are very few Schools in British North America into which some of the Books have not been introduced, while in very many instances the whole Series has been adopted.

The following is an extract from the Report of the Rev. Dr. Ryerson, Chief Superintendent of Education in Upper Canada, for 1862-63, which appeared in the B. C. A. Almanac for 1864, at page 127:

It is worthy of remark that the text-books specially prepared and adapted for the Canadian schools are rapidly superseding those for which they were intended as substitutes.

On the adoption of the decimal system of currency in Canada it was felt that the existing Arithmetics should be adapted to it. This task was undertaken by Mr. Sangster, the mathematics teacher of the Normal School, who has compiled both a large and a small arithmetic, upon the plan of the National Arithmetic, greatly improved and illustrated by examples taken from Canadian statistics. These arithmetics published in an edition of Mr. Lovell's already used arithmetics, being not more than 782 schools in use, will enable the use of the old editions. A quantity has decreased during the year in the use of 1861 schools.

The same remark applies to Mr. Lovell's Canadian Geography compiled by Mr. Hodgson, and intended to supersede Morse's Geography, which had heretofore been permitted in the Province, the use of our better adapted for their use. The use of Morse's Geography has been discontinued in 700 schools during the year, while Lovell's Canadian Geography has been introduced in 1500 schools—being now used in 1500 schools.

The Publisher has therefore been encouraged to increase his facilities for the continued prosecution of the undertaking, by so enlarging and improving his Printing and Blank Book Establishment, that he is at present in a position to supply promptly any demand which may hereafter arise; and also to add to the Series, from time to time, such new works as may be conducive to the extension of general knowledge, and calculated to give a National tone to the feelings and aspiration of the youth of the Provinces,—an element which the Publisher considers essential to all Books intended for the instruction of youth. This has been judiciously in reduced throughout the Series.
