A \$25,000 LIBEL SUIT.

Brought by the Chairman of the Ontario Breweries Co. Against the Westminster Gazette.

LONDON, May 22.—Mr. Henry Seymour Foster, M.P., managing director and trustee of the Industrial Investment Corporation of London and the Ontario Breweries Company, brought suit in the High Court today for £25,000 damages against the Westminster Gazette for libel.

The basis of the suit is an article published in the Westminster Gazette which alleged that the shareholders in the corporation mentioned had appointed a committee to enquire into the affairs of the corporation, as they considered that the commission paid to Mr. Foster upon alleged profits ought to be immediately refunded. The article also said that the commission was £25,000, being the par value of the £5 per cent. Debentures of the company, was underwritten by the London and Colonial Company on May 29, 1910, while the public subscriptions of the trustees of the company opened on June 2, 1910.

Mr. Foster also began suits against The Standard, Chronicle, Financial Times and other papers for libel on grounds similar to those taken against the Westminster Gazette. The latter paper in its answer pleaded that the statements in the articles were true and therefore justifiable.

THINKS MINERS WILL WIN.

MR. P. T. BUCHANAN SIZES UP THE MINING STRIKE.

The Adoption of a Uniform District Rate and the Abolition of the Store Tax System Will Result in the Prevention of Similar Disturbances in the Future.

Mr. P. T. Buchanan, son of the late Hon. Isaac Buchanan and brother of President J. J. Buchanan of the Ameyville Congregational Gas Company at Sausalito, Pennsylvania, arrived in the city yesterday from the scene of the great coal strike.

The telegraphic dispatches would indicate that the failure of the national strike of local mines is a foregone conclusion. Mr. Buchanan entertains a strong opinion that the miners' strike will see for the first time in its history a successful conclusion of a miners' strike.

The strike was originated primarily to secure a uniform price per ton, and incidentally to get rid of the system of store pay. The uniform price fixed upon by the strikers was 75 cents per screened ton. Mr. Buchanan does not believe that this rate will be granted, but thinks that a compromise will be arrived at 70 to 74 cents per ton.

All the mine owners are backing the strikers, and think that a compromise will be arrived at 70 to 74 cents per ton. The former company has the contract for furnishing one-half the supply to the Consumers' Gas Company of this city.

MIN-OWNERS Will Employ Outdoors. PHILADELPHIA, May 22.—If the striking miners do not return at the old rate in the next few days, they will be employed outdoors, it is believed.

The first warm days of spring are hard to bear and the unwise individual crowds colds and sore throats, and the result is a summer of influenza. Every weight in standard English natural is now being almost everywhere in full swing.

Wants a New French Constitution. PARIS, May 22.—M. Arthur Meyer has written to the number of Chamber members the adoption of a new French constitution, based on the election by the Chambers of three consuls, who shall hold office for six years.

An Introduction. The birthday of Her Most Gracious Majesty the Queen will be joyfully celebrated by thousands of citizens, and will serve as an occasion to introduce to some who have not yet known it the famous East Kent brand, according to the most approved formula, using East Kent Golding hops and the purest spring water. Nothing could exceed the popularity to which this fine ale has attained in the few weeks during which it has been before our citizens.

FRENCH MINISTRY DEFEATED.

BY A MAJORITY OF 40 ON THE NIGHT-ROUPE BILL.

The Crisis Brought About by the Government Attempting to Prevent Workingmen From Joining Trades Unions—A Victory for the Socialists—Ministers Take Their Defeat Calmly.

PARIS, May 22.—There was great excitement in the Chamber Deputies when Deputy Guadet introduced the miners' eight-hour bill and demanded a vote of urgency upon it. This demand added a flood of stock Socialist arguments, in violent language, denouncing the Bourgeois, employers' treatment of miners as slaves, and the strong language and menacing gestures indulged in would lead to hand-to-hand encounters, but they did not prevent Deputy Dupuy shouting calls for order upon the chamber right and left and finally succeeded in obtaining quiet.

It did not last long, however, for M. Guadet soon began a hot altercation with the chair.

M. Berthouff not opposing urgency. He protested against the language used and denouncing the Bourgeois, and the fact that the Socialists alone voiced the sentiments of the workingmen. He demanded that the Chamber should vote on the bill and hasten its discussion.

The Ministry retreated. M. Guadet supported the demand for urgency and advised the reference of the bill to a special commission.

M. Guadet assented to the reference of the bill to a special commission and, concluding his speech by saying that the workingmen had commissioned him on May-day to introduce the bill and hasten its discussion.

M. Dupuy said the whole Chamber was in communication with the country. M. Guadet said he did not possess a monopoly of the views of the workingmen.

M. Guadet said every deputy was entitled to present to the chamber an expression of admiration of the people, without being sanctioned by the president or even by a majority of the chamber.

The bill was then, by a vote of 401 to 84, referred to a special commission.

Premier Casimir-Perier demanded the order of the day, pure and simple, and the demand was rejected by a vote of 265 to 225. All of the Ministers thereupon withdrew.

The cause of the crisis, though seemingly trifling, really related to the general policy of Premier Casimir-Perier and also to the Premier's relations to the government.

The workingmen's syndicates, under the laws of 1884, had become a powerful and effective force in the political life of the country.

The Government had determined to repress the same, and therefore, by continuing M. Dupuy's policy of closing the Labor Exchange, endeavored to prevent the railwaymen's congress.

In pursuance of this policy M. Jonast, Minister of Public Works, previously advised the railroad companies not to grant leave of absence to men in their employ.

Several moderates, including M. Guvet and Rameau resigned, but M. Guvet, with intense wrath, scathingly rebuking him for the sentiments he had uttered.

After the departure of Ministers from the Chamber M. de Rameau's order of the day recognizing the right of employment of the state to join the syndicates was carried by 251 to 225, and the Chamber adjourned until Monday.

At the Ministers left the Chamber the Radicals acted like a crowd of schoolboys, clapping their hands and jumping up and down shouting and indulging in all sorts of antics indicative of delight.

Several deputies rushed across the chamber and embraced Miller and Guvet.

The Socialist deputies acclaimed their victory with loud shouts of "Long live the Communist party!" and "Long live the Commune!"

The Minister resigned. As they resigned the Chamber adjourned until Monday.

This evening the Ministers left the private room in which they had been conferring and proceeded in a body to the Palais d'Elisee and formally tendered their resignation to President Carnot.

The Chamber of Deputies then adjourned until Monday.

WINNERS OF DIPLOMAS.

Result of the Technical School Examinations Announced.

At the regular meeting of the Technical School Board last night there were present: Wickens, A. Burke, Thomas Banton, Prof. Glatthorn, S. H. Towashand, Robert Glatthorn and D. J. O'Donoghue.

A resolution was passed thanking the Ontario Government for donating to the school a collection of mineral specimens from Ontario's World's Fair exhibition.

A draft lease of the building was submitted and referred to a special committee for amendment, as some of the clauses were not satisfactory.

The committee appointed to decide upon the designs for diplomas awarded the first prize, \$100, to J. H. Sheela, the second prize, \$50, to H. C. G. Camp and the third, \$25, to W. D. Williams.

The committee also decided to award a diploma to pupils of the school.

POLICE WENT TO PARADE.

They Will Not Participate in the Dominion Day Celebration.

The Board of Police Commissioners yesterday ratified the agreement with the Bell Telephone Company with regard to the signal service system.

The proposition from the City Council that they should take part in the Dominion Day celebration was taken up and the commissioners decided that the police would have nothing to do with the celebration.

The trustees report for April showed that 608 cases had been investigated and 670 children sent back to school.

Applications for additional police protection in the new town of East York, the West and East Ends of the city, but cannot at present be accepted.

CRIME REVEALED BY AN AP- PARITION.

Man's Skeleton Dug Up Near Cross, Ont., Showing Evidence of Murder.

Sturded—Detective Working on the Case—Story of the Alleged Crime as Related by Detective Wade.

CHOTOS, Ont., May 22.—Detective Walter Wade is working on a murder case 35 years old. His chief clue is a human skeleton, bearing unmistakable signs of a violent fracture. It is crushed in on the right side, as though by a heavy blow.

The skull in a few days ago by James Sutherland and Alexander Cooper, two most respectable men. With them were several other men, who were apparently searching for a human skeleton.

Robert Weldon and Robert Ellis, who were the cause of the search being made, Weldon and Ellis had been fishing. It was night when they returned home.

They told their tale to reaching their home and it suggested to two near neighbors the digging which took place next morning, and which revealed a human skull caved in as by a murderous crack.

Soon the news spread and by one of the neighbors was reported an event of long ago which might have to do with the remains found in the grave. Here is the story as told by Detective Wade.

In 1859 Charles Riley, a farmhand, mysteriously disappeared from the neighborhood and was never afterwards heard of.

His disappearance was the subject of the highest respect to believe, for he was a healthy, happy man, without any care in the world, having a snug sum laid up in wages, and being a general favorite in the neighborhood.

Statist still in the Contest

MONTREAL, May 22.—The 18th game of the great chess contest between Steinitz and Lasker, which was commenced this afternoon, was adjourned at 11 o'clock to-night. Lasker sealing his 55th move. At the hour of adjournment the position indicated that the game will result in a draw. Steinitz asked for a draw on the 48th move, but Lasker declined. Steinitz is in fine form and has evidently made up his mind to fight till the end. Some of his friends are still sanguine that he will yet prove a victor, despite the chances against him. Steinitz won 5, Lasker 5, adjourned, 1. The adjourned game will be resumed on Wednesday.

Crickets tips

East Toronto places the following team in the field Queen's Birthday, commencing at 10.30 a.m., on their own grounds against Varsity: D. Gregory, J. C. Snyder, F. J. Berry, G. A. Larkin, A. Vandier, Charles Hopkins, S. M. Ryan, A. Holmes, D. J. Le Roy, D. Saunders, J. Mayor.

The following will represent the Parkdale Crickets Club in their match with Bar Egges, Declare, St. Julien, Longdale and Galles being a few of those eligible to start. Fred Talar is supposed to be the richest jockey in America. He is now a member at 19th-street and Lenox-avenue, N.Y. city, for which he paid \$27,000 in cash. He spent \$10,000 in furnishing and fitting it up, going so far even as to construct a handsome Turkish bath.

Toronto Canoe Club

The members of the Toronto Canoe Club purpose holding an initial cruise to the Hamlet to-morrow. They will leave the Club House at 8.30 a.m. in the "Unk-De-Ho" and small canoes. They intend having dinner at Nurse's and will no doubt put in an enjoyable day.

THE TRACK IS GREATLY IMPROVED.

O. J. C. Executive Showed Good Judgment in Their Postponement—Accident to a Rider—More Animals.

As the result showed the Ontario Jockey Club used good judgment in postponing the opening of their meeting until to-morrow, as the track was certainly unfit yesterday for racing. Men were at work throughout the day both on the track and steepchase field draining the water off, and with the aid of the sun and wind towards evening the course was greatly improved. Should yesterday's fine weather continue a fairly good track could be secured to-morrow, though it could scarcely be fast. The steepchase course will be altered slightly, the board jump after the stone wall being moved more to the north so as to avoid a spot where it now lies. Everything possible is being done to put both field and track in shape, and visitors at Woodbine Park to-morrow will doubtless witness some good racing.

The rumor to the effect that Mr. William Hendrie would send his horse, Lochiel, over the course and claim the Queen's Plate proved to be untrue. Mr. Hendrie having no such intention. The O.J.C. executive are too old in the game to be caught napping, and had they not had the power to postpone no such action would have been taken. Those who think otherwise had better study the rules.

A large crowd of sight-seers gathered at the track yesterday evening to witness the new developments that might have transpired regarding the Plate winner. The postponement will certainly favor the Miller, but Mike Gorman, who trains Lou Daly, is very anxious and says that mud or dust will suit him.

There are many strangers in the city and a large number of New Yorkers, among the arrivals yesterday being Mr. Carr of Guttenberg and Jimmy McLaughlin, who will wield the flag. The American candidates for the Red Coat and other hunt races arrived at the track yesterday afternoon from Philadelphia, where they had been racing. The lot include Moggi, Lockwood, Fireworks, Landmark and Marousness. With them is Jimmy Rowan, the well-known steepchase rider.

A young man by the name of William Langley, in the employ of Col. Strachan of Montreal, while exercising Mars on the track yesterday had several ribs broken. The horse blundered on the club house track, throwing his rider over his head. He was taken to the hospital, where he is progressing favorably. A double or and Old Ireland are to be put at the jumping business, and will join Charley Gates' string at Leaside to-day.

Mr. Fenwick will be at the Palmer House to-day from 10 a.m. until to-morrow at noon to distribute bookmaker's badges. Refreshment is entered in the Woodbine Steeplechase and not in the Hunters' flat, as given out.

F. P. Dewar's Otter and Kenew are scheduled in all engagements. Badges good for the badge stand are on sale at J. E. Ellis & Co.'s to-day. Street railway tickets for members are on sale at the O.J.C. office, 28 Toronto-street.

Racing will open at Morris Park on May 30, Decoration Day. Owing to Jockey Goodale's unfortunate death, Eugene Leigh telegraphed for Martin to go West to ride the stable's horses located there, and Martin has left Gravesend.

STUDEBAKER THE WELCHER.

The Ex-Bookmaker Gives Many Reasons for His Course.

Leon Studerker is taking matters easy in this city. In an interview yesterday the Brooklyn Handicap welcher stated that he did not leave New York until the Thursday after the race. He did not leave Gravesend until the fifth and sixth races were finished and then boarded a car for New York city. Studerker gave his reasons for welching. He had a partner in the business. Their agreement was that \$2000 was the limit to stay out on any winner. Dr. Rice's victory would count them \$2000 a winter boot ticket, not at all as Gravesend and as the \$2000 was beyond Studerker's share he concluded to welch. He states that if his partner keeps the agreement they will redeem all the Dr. Rice tickets. A gentleman now in Toronto has been commissioned by the Brooklyn Jockey Club to effect a settlement, if possible. It is known that Studerker took in money on 25 winter boot tickets. The opinion among several of the visiting bookmakers is that \$2000 would cover Studerker's losses and that he could have paid up if he had chosen. Studerker came to Toronto via Montreal. He will take in the Canadian circuit of running races.

Charley Bennett, the ex-catcher of the Boston baseball team, who had both legs cut off in Kansas last winter, has written to his friend Horace G. Miller of New Castle, Pa., that he is in stamping round wooden pegs, trying to get the "flap" hard enough so that he can wear a pair of artificial limbs. He says that beyond doubt he will be able to walk around with the aid of a cane. He also writes that he will visit his old home at New Castle the last of the present month.

District Meeting Methodist Church. The annual meeting of the East Toronto District of the Methodist Church was held in the school room of Sherbourne-street Church yesterday. Thirty delegates were elected to the annual conference, and Rev. G. Webber was elected to the Stationing Committee, Thomas Thompson, Missionary Committee; Rev. R. N. Burns and Mr. N. W. Howell, Epworth League Committee; Rev. A. C. Crews and Mr. H. Hough, L.D., Sabbath School Committee. An increase in membership of 392 was reported from the several churches. The financial affairs of the district are in a satisfactory condition. Rev. Dr. Galbraith occupied the chair and Rev. W. J. Barkwell officiated as secretary.

DR. RICE'S COURSE.

The German Method of Teaching the Most Profitable to the Outside. Those who gathered in the lecture hall of the Normal School last night were well repaid for their going. Dr. Rice, prominent in educational circles across the border, was the principal speaker and introduced the subject, "The Scientific Method of Teaching." By means of many humorous illustrations he drew a comparison between scientific and unscientific methods of teaching. The old method was to give a child as many pages or paragraphs as he could read, and to insist that he should have the scholar recite in a sing-song, monotonous tone what he has thus learned. This was merely hearing a lesson, not teaching. It was merely hearing a lesson, not teaching. This was merely hearing a lesson, not teaching. This was merely hearing a lesson, not teaching.

ELECTRIC LIGHTING.

Meeting of Citizens to Promote Civic Ownership of Electric Plant.

A number of citizens held a meeting last evening in Forum building for the purpose of taking action with the object of securing municipal management of the electric light system. G. G. Forsey occupied the chair. E. A. Beckest on behalf of a committee appointed to report the matter upon the City Council reported having seen Ald. Bailey, who expressed himself favorable to the proposal. He stated that many citizens are of the opinion that the present method of the over-charge for gas and that the city intended to investigate the whole subject. He gave the following reasons for the feeling among the aldermen was decidedly favorable to municipal lighting. The project was approved by the City Council as soon as the city did its own lighting other companies would be glad to sell out to them.

The chairman urged the necessity of taking timely action in order to crystallize public sentiment on the subject in time to be effective. The question would soon be presented in a practical shape by the termination of the existing contracts with the Electric Light and Power Company next year. Before that period the citizens should have before them a definite, well-considered scheme for civic lighting. (Applause.)

The preliminary steps towards organization were considered, but it was decided to defer electing permanent officers until the next meeting. The undersigned ratepayers of Toronto, request the corporation to establish a municipal electric light plant to supply power for the streets, parks and water front, and to maintain the system under civic control.

Forms of the above petitions can be obtained by those desiring to aid the work of the committee by circulating them at the following places: A. Elvins, 308 Yonge-street; George A. Howell, Grip Publishing Company, 201 Yonge; F. E. Titus, 365 Spadina-avenue; F. A. Belcher, 41 Scott-street; G. G. Stannard, 1185 Queen-st. west; R. L. Thomson, 11 Gerard-street east.

Many Applications For New Trials. In the Court of Queen's Bench yesterday these applications were made for new trials: John Lizard, whose claim of \$500 for damages by flooding his house in Dufferin-street was dismissed; Eastmure & Lightburn, who claim \$20,000 from the Canada Accident Insurance Company for alleged wrongful dismissal of William Wright, who seeks \$700 from the Manufacturers' Life.

Deputy Attorney-General Cartwright will devote to-morrow whether the reserved case asked for by Mr. Murdoch on behalf of James Giles shall be granted or not. As to the application on behalf of Louis Evans, a copy of the extensive evidence, it is thought, will be submitted to the Attorney-General upon which the application will be considered. The decision will not be given for a number of days.

The decision of the Minister of Justice upon the application for a new trial for William Walter MacWherrell is expected by Mr. Robbarts on Friday afternoon or Saturday morning.

LANDED A MANEATER.

A Chicagoan's Capture of a 1000-Pound Shark in Florida.
Arthur J. Kirkwood, recently back from his place at Fort Worth, Fla., gives the following account of his capture of a man-eating shark and points to a big photograph of the same as corroborative testimony:
"I was fishing for bluefish in from seven to ten feet of water at the end of my dock, which runs about eighty feet into Lake Worth, when there came a tug that took line and all away. Then I loaded for bear, or in other words, baited for shark with a five-eight-inch line with three feet of iron chain at the end and a large cork baited with a bluefish. The weight of the chain sank the bait to the bottom. To seize his prey the shark must turn on his back. When the prey lies at the bottom the shark just tosses it up with his nose, something like a greyhound killing a rabbit, then snatches and runs off with it. This shark did this and ran the line out taut, but I held him. It took seven of us to haul him to the shore, where he was shot through the head, dying as quickly as a pig, and then it took all our united strength to haul him up to a beam to have him photographed. He was a regular man-eater, weighed over 1100 pounds and had three teeth of big sharp teeth. The look had stuck in his jaw, and his skin, which is tougher than the toughest leather, had prevented him from breaking away.
"It was the first time such a large shark had been captured in Lake Worth, which is an arm of the sea. The seven-mile-long peninsula, on which the hotels and private residences stand, runs between the lake, as it is called, and the Atlantic Ocean. Scores of sharks may be seen any day at the inlet from the ocean to the lake. This fellow was caught two and one-half miles inland from the inlet. There were two pilot fish, the sharks' constant companions, hanging to him when he was caught—fellows from eighteen to twenty-four pounds weight, attached to his body by the suction plates of their jaws.
"There are three kinds of sharks known at Lake Worth—the man-eater, the shore-nosed, and the blue shark. The last two are harmless, and the man-eater is considered harmless there also, for he has plenty of fish to eat, and hasn't been known to hunt for human tit-bits.
"Lake Worth is a very fine, pretty, healthy place, and has become very popular with Chicago people. George E. Davis, George R. Swift, and others from here have nice residences along the lake. Since Flagler, the Standard Oil millionaire, built his railroad direct from Jacksonville property has boomed marvellously. Land that went at \$25 to \$50 a acre a short time ago now sells at \$1500. It is a beautiful resort, and I am deeply in love with it.
"Mr. Kirkwood's house on Wellington avenue is full of trophies and tokens of that part of Florida. Sharks' fins and saccos hang on the wall, and a number of lively chumaleons skip about and match flies among the geraniums on the windows.
"Divorce Made Easy.
"In Egypt divorces come even easier than in Dakota. Our consul to the court of the Khedive tells of an alienist that took place between one of his most trusted servants and a veiled lady, his wife, which squabble resulted in divorce in less than five minutes. The woman opened with reproaches emanating from the woman. "Take care," warned the man. "I put you from me!" Nothing daunted, the virago continued until the exasperated man again repeated, "I put you from me." Still the torrent of abuse flowed unceasingly. Worried beyond endurance, the servant entered the house and secured 20 shillings out of his year's salary of £10 and returning to the woman said: "Here is your dowry—now for the third and last time I repeat: 'I put you from me.'" At these words the woman went her way and the astonished American learned that he had witnessed divorce proceedings, for in Egypt the assertion, "I put you from me," made three times to a wife by her husband, constitutes a solemn divorce without alimony, and once the words are said the woman has no right to any further support from the man—Omnia Bene.
"A Matter of Death.
"Kind Lady—I see a little girl and her little brother crying over there. Do you know what is the matter?
"Little Miss—The little girl is crying because some bad boys tied a tin can to a poor dog's tail. I don't know what the little boy is crying for. Mobley 'cause he didn't get there in time to see it.
"If you are dependent, low spirited, irritable and nervous, and unpleasant sensations are felt invariably after eating, get a bottle of **Dr. J. C. Leman's Vegetable Discovery** and it will give you relief. You have heard of Dr. J. C. Leman, Dr. J. C. Leman writes: "Four bottles of **Vegetable Discovery** entirely cured me. My dyspepsia was one of the worst cases; I now feel like a new man."

WONDERS OF THE HUMAN LUNGS.

Six Hundred Million Air Cells Aid in Purifying the Blood.
The importance of the lungs as a means of purification of the blood and of promoting the general welfare of the human organism may be inferred from their protection, so nearly surrounded by strong bony structures. The same may be inferred from their constant action, without a minute's vacation, ordinarily, at any one time, from the dawn of life till its close.
Nor are these five lobes servants, in their general capacity, controlled by mental influences—will power—but continue their activity whether we are awake or asleep, whether we are sensible or insensible—managing their own affairs. Their appropriate mission is the supply of pure air to the system, the most important design of which is its purification, carrying all particles of impure and dead matter, which are ever accumulating as the result of age and the exercise of the organic functions.
To effect this very important result, this purification of a body constantly becoming impure, or, necessarily, there are 600,000,000 (by estimate) of air cells, all of these being more or less inflated by each breath. As small as these must be, it is estimated that the outer surface of each has an average of five minute blood vessels, containing the blood from the general system sent there for revitalizing, that it may continue to sustain and care for the body.
The theory is that the iron in the blood attracts the oxygen of the breath through the membranes, resulting in an actual combustion, burning waste matters, and, in this way, sustaining the warmth of the body, our clothing doing nothing in this regard, beyond regulating the escape of the heat thus produced, and preventing the natural ingress of the cold from without. After the burning of these refuse matters—by which a deadly gas is produced, as in all combustion, which, with what we may call ashes, are drawn through those membranes, entering the air cells, soon to be thrown out by the expired breath, as this gas is particularly poisonous to the lungs.
That such impurities may not be breathed they ascend, being lighter than the cool air, till the poison gas becomes cool, when it falls to the surface of the earth, where it is absorbed as one of the most important of the fertilizers, vegetation being sustained more in its work of purifying the air than by the soil. The average capacity of the lungs of a full-sized man is about one gallon, though only about one-half of the air is thrown out at any one time, the rest remaining, aiding in the purification of the body.
It is estimated that the lungs are supplied annually with 100,000 cubic feet of air, breathing 7,000,000 times, purifying 3500 tons of blood. In view of such a stupendous amount of toil performed by the lungs, with the importance of this purification of the body, without which health and life can be continued but a short time, it is of the utmost importance that we have a generous supply of pure air, while the natural supply would be sufficient, probably, if the population of the earth should be increased a hundredfold, particularly since the vegetable world is constantly employed in its purification. We have simply to open our doors and windows, freely breathing our part, in doing which we shall not rob our neighbors.—Boston Traveler.
The Swell Salute.
The very latest fashion in uncovering the head; as a salute, has reached Boston by the way of New York. It consists in lifting the hat from the head and then suddenly thrusting it straight out before you at arm's length. On Broadway no other style of salutation is recognized in good form, but in the crowded and narrow streets of Boston it is most difficult of achievement. It is not unusual for a man who attempts it not only to smash his hat, but to waste ten minutes in apologizing to the people who were too near him when he executed the salute. It has been done with such a jerk to be effective that one states a good chance of giving the person in front of him a notion that he has been sandbagged, and it is difficult to explain away an impression like that.
It is felt by the swells that, much as they would like to adopt the fashion, it is hardly practicable in Boston, unless the city government passes an ordinance obliging pedestrians to keep a certain distance apart in the streets, as cars are supposed to do.—Boston Journal.

Rev. Mackwell and Ellen Terry.
Editor World: Permit me to enter my protest against a cruel and unjust remark made by the Rev. W. J. Barkwell last Sunday in his discourse re theatre.
Miss Ellen Terry, who the rev. gentleman says, is morally destroyed, a lady upon whom, I believe, the breath of scandal has never rested, who is honored and respected the world over, and often appears before Her Majesty Queen Victoria, by Her Majesty's special request, and who is also a welcome guest to the house of the earl of London; a lady who has devoted her life to purifying and elevating the stage. It must be extremely distasteful to a large portion of our "intelligent" citizens to read such remarks as I have referred to. As to what the rev. gentleman may think of the theatre, I am not qualified to say, but when he goes out of his way to maliciously malign the character of such a noble actress as Miss Ellen Terry he is barking up the wrong tree, and very to be made the same remark in London, Eng., the house of the lady, he would most likely be presented with a coat of feathers.
