The First in The Province

(Yarmouth Herald)
Mr. V. S. Sweeney has just imported a handsome Buick auto hearse to be used in connection with his undertaking business. The machine has, by its style of construction, a very massive appearance. It is beautifully finished and equipped in every way and is the first of its kind to come to the Maritime Provinces. The interior is all of mahogany whilst the chauffeur cab is splendidly upholstered in leather and is enclosed with heavy bevelled plate glass door and front.

Apples netting \$10 a barrel has been lately the good news for some shippers to England.

Our pastor, Mr. Sallsman closed the special meetings, on Thursday evening, the 13th. Our roads are becoming dusty and if the frost was out of the ground, it would be like Spring. Miss Louisa Hudson, of Parker's Cove, is the guest of Mrs. David Kearns.

How They Carried Their Skates

The Yarmouth Herald says:—Good skating has prevailed on Milton Ponds for several days past, and many young persons took advantage of it on Sunday afternoon. To one who does not indulge in such pleasure, considerable amusement was created by the way many took their skates to and from the ponds, plainly showing the camouflage of conscience. Some walked boldly out with skates in their hand or over the shoulder, others whose conscience just pried a little had them wrapped in paper, whilst one or two others were noticed with a knitting bag which they had borrowed from a sister or wife in which to carry their skates and as they supposed more securely hid them from view.

AN INTERESTING LETTER

Jack Freeman Gives A Short Sketch of
Doings At the Front

Nov. 14, 1913.
Camp La Valbonne
Darling Mother and Father,
This has been an awfully cold day
and it really is beginning to be re-
gular fall weather at last. It is real
invigorating though and puts a lot
of pep into a fellow. We are still
drilling as hard as ever but there
are rumors around that the school
is going to disband on account of
the war ending. I don't know how
true it is but my personal opinion
of the thing is that about seventy-
five to eighty percent of the mem-
bers now will be sent back to their
former outfits, and the remainder of
the men who will without a doubt
be old infantry men with years of
experience at the game, will receive
commissions. Just think, there are
in the whereabouts of ten thousand
men in this camp who, if the war
had lasted would have been com-
missioned, but who now stand little
chance. Of course, that is all in the
game and if I am one of those to be
sent back, I will not feel that it is
on account of negligence or lack of
the stuff that put me there, but just
simply that my government has no
further use for me to continue my
work to become an officer. There-
fore, I say, I will not feel that I have
failed in my undertaking, for not
having had the opportunity to bring
it to a finish. I would have liked
very much to have received a com-
mission, but the ending of the war
is worth a thousand of them to me.
I would like very much to go back
to H troop, because I know that it
will come in for a good share of the
glory when all things are summed
up, for having been a member of the
only unit of American cavalry to go
into action in this great war. We
were cited twice for our good work
and when I left we were expecting
another. I don't think you fully
realize what our part in the fighting
really was. I will try to explain as
far as I can so as to give you a little
idea any way. First it would be
interesting to tell you of what battles
we were in. Our debut was made
when the St. Michael salient was
reduced. In this battle we went
over the top with the fourth wave.
Our duties were all in the day time,
and we were given the task to keep
in contact with the enemy and to
draw his machine gun fire so that
the tanks and infantry could ad-
vance. So you see we were the first
men in the whole advance, sometimes
being as far as two miles ahead of
our front line where the infantry was
waiting to follow us up. Here is
where my horse was shot from under
me by a machine gunner. He was
in a tree as far as I could make out
when he fired on me. This same
day our whole squadron was caught
in an ambush and escaped serious
losses only by the hand of God. It
is the way I figure it. If I had the
paper I could write you a book on
what happened in the two days the
St. Michael drive lasted, but I will
wait till I get home when I can make
it more interesting.

After coming out of this push we
had three days rest and then started
our ten days like to Verdun. I
won't attempt to say anything of
the hardships we suffered on this
march. We arrived at our destina-
tion three days before the battle of
the Argonne started Sept. 26. The
night the battle opened found us on
our way to the front line. The first
day we couldn't operate on account
of the barbed wire entanglements
and big shell craters which made it
impossible for a horse to navigate.
On the next day we went into action.
At 4.30 a. m. we went over the top
to find the enemy and to locate ma-
chine gun nests, but instead of that
the enemy's artillery found us and
we were caught hell. I can't tell you
on paper much about that day be-
cause I'll be darned if I remember
much. I guess I wasn't myself, but
some one else. Our troop managed
to get itself together and we charg-
ed for the shelter of woods where we
lay the rest of that day and night
under a terrific barrage from the
Germans of gas and shrapnel and
high explosives. Honest to good-
ness, dears, I think God was right
in those woods with us that night to
steer those shells because they hit
every place excepting the one spot
where we were boxed in. One poor
boy did get hit direct in the leg with
a gas shell which tore it completely
off. My God, but he had nerve
though. After being hit, he sat
down, put his gas mask on and then
hollered for help with what strength
he had left. Two or three of us ran
to him and saved him from bleeding
to death by putting a turkikey on
his stump. I have got Sister Anna
skun a mile now for being a nurse.

For the next six or seven days un-
til I came here this is what we went
through. Day and night no sleep
no rest and sometimes we would get
one meal a day, or perhaps none at
all. The courage of our American
boys was the most marvellous thing
in the world. No one kicked or
grumbled, every man went to the job

without a word and with the deter-
mination to end the war or to die
in the attempt. You no doubt have
read about this battle of the Ar-
gonne, which will go down in history
as the hardest and bloodiest of the
war. If you could see the territory
over which we fought you would
wonder how anything could drive
the Germans from it. Miles and
miles of thick forest and underbrush
with line after line of natural hill
defenses which were almost impreg-
nable, and would have been to any
but the much touted Hindenburg line,
not concrete and steel trenches but
simply a line of natural defenses.
The Dutchman never expected to be
driven from this part of the line.
Why dears, they had dugouts built,
the interior of which would make a
suite of rooms at the Copley Plaza
look sick. I slept in a dugout one
night where we had everything from
fancy wall paper to spring beds;
simply fitted out like home.
Some of the dugouts even had
pouches in them. No one would dare
touch it though for fear the keys
were mined. Jerry made a practice
of pulling those dirty tricks such as
mining things that would be likely
to attract the Americans. A great
many men lost good arms and hands
on account of being too eager for
souvenirs.

I can't begin to relate the things
I have seen and experienced, and
any how, I would rather wait till I
come home when we can all sit a-
round that old kitchen stove and
bat them out like we used to in old
times. Gee, it sure is great to be
able to say when I come home in-
stead of if I come home.

Well, darling loved ones, I must
say good-night now. For heavens
sake, take care of yourselves and be
very careful of that epidemic.
God bless you, darlings.
Your son,
JACKIE

CORRESPONDENCE

Is Our Sabbath Law Disregarded?

To the Editor of the MONITOR:
Dear Sir— I would like through
the columns of your most valued
paper to make an inquiry in regard to
our Sabbath. Have we lost our old
Sabbath? God commanded, "Remem-
ber the Sabbath day, to keep it holy."
Six days shalt thou labour and do all
thy work. But the seventh day is the
Sabbath of the Lord thy God, in it
thou shalt not do any work, or is that
the Sabbath law is being disregarded?
I would like to call the attention of
the public to some of the things that
are being done here on the bay shore
in the little village of Hampton and
vicinity. On one occasion one
Sabbath morning the writer was to
some degree surprised to see passing
his door a flock of lambs, probably
fifty or sixty in number being driven
by three men. These lambs were not
being driven because they had to be
but because the owner wanted to get
them to their destination.
On other occasions I have seen
teams go by with lambs which I
supposed had their legs tied, but I
have learned since that the driver
in order to keep them quiet had cut
their throats instead. Is not this a
horrible sight on the Sabbath day?
Put, Mr. Editor, is this all? Oh no,
not by any means. On the Sabbath
of Jan. 19th there arrived on the bay
shore from the valley a number of
men with teams who worked until
they got their fill of pork that had
been knocking about the beach for
some time. I cannot see why any
one should disregard the laws of
God and man to such degree. I would
like to ask some one in authority if
affairs cannot be remedied. Is there
no law for these things? If there is I
would like to ask if there cannot be
some one, or a number, appointed to
see that the Sabbath law is observed?
If this thing is allowed to continue it
is hard to tell what effect it may have
on the coming generation.

Hampton, N. S., Jan. 24, 1919

Restoring Anglican Churches

The Anglican churches of Halifax,
most of which were damaged in the ex-
plosion of 1917 are being restored as
rapidly as possible, according to Very
Rev. Dean Lloyd of the Halifax Cathed-
ral who was in St. John recently at-
tending a meeting of the board of
governors of Kings College. Repairs
have been made to Trinity and St.
George's and the others will be in
good condition as soon as arrange-
ments can be perfected. The church in
Dartmouth, which was destroyed has
not been restored. Bishop Richard-
son of this diocese recently issued a
call to the congregations to aid the
Halifax church restoration fund as
numerous parishioners in that city
were either killed, injured or suffered
heavy financial losses.

Thought His Feet Were Rabbits

(Digby Courier)
There was quite a shooting ac-
cident here last Thursday afternoon
when Charles VanTassel was shot
through the feet. In company with
Lee Dennison he was rabbiting on the
Bay road. The two men were separat-
ed for a few minutes and Dennison,
hearing a slight sound in the bushes
which he took to be a rabbit, fired
and the charge entered VanTassel's
feet. He was helped home and is get-
ting along all right.

Plans are now in course of preparation for a new Masonic building on the site of the present Masonic Hall on Salter and Grandville Sts., Halifax, and the vacant lot adjoining Salter and Barrington Sts.

A number of representatives from the various churches last Wednesday evening thought it advisable to form a reform league and appoint a committee to wait on the Town Council at one of its regular meetings.

The soldiers' reception committee wish to give public notice that in the future when returned soldiers are arriving from Halifax the town whistles will blow at 12 a. m. and when soldiers are arriving via St. John and Digby, will blow at 1:30 p. m.

Schools and public functions have resumed in Annapolis. Thursday's Spectator says: "Health Officer Withers reported to the Mayor yesterday that the town had now a clear bill of health and His Worship promptly issued the edict lifting the ban."

Slave wood and hoop poles are now reported to be in special demand as there is likely to be a shortage of apple barrels in this province next Fall. Hoop poles are reported worth \$8 a thousand and a man may cut 400 or 500 a day if he hits a good place.

The Keatsville Advertiser is appearing in an elevated form with improved make-up and splendid print under the management of Mr. Con. H. Chisholm, formerly of the Digby Courier.

The death of Captain Nelson A. Withers, officer commanding the government steamer Aberdeen, took place Thursday morning at the Park Emergency Hospital St. John, from pneumonia following influenza. He was one of the most popular commanders in the government employ.

The town was again decorated with bunting yesterday in honor of more returned heroes. This time it was Messrs. Ralph Rice, of Carleton Corner, and F. F. Johnson of Bridgetown East. The Mayor and public officials of the town were on their job as usual to give the boys a hearty welcome.

The potato trade in New Brunswick has flattened out considerably this month. Dealers up the St. John River have marked down the price to \$1.75 a barrel to coopers. The markets in Boston are in overstocked condition and the demand is poor.

Daylight Savings Bill of last session is practically certain to be renewed when Parliament meets. Inquiry at Ottawa shows that opposition to the bill, as expressed in communications received by the government, is very slight, much less, as a matter of fact, than it was before the country had given daylight saving a trial.

The last instalment on the Victory Bonds taken by the Riverside Cemetery Co., on Nov. 11th, comes due the first of March. Lot owners in arrears with their taxes are requested to send in all back dues before that date as every available dollar will be required to meet this payment of \$150. Remember this is a patriotic as well as personal obligation.

J. W. Beckwith is paying 62 cents per doz. for strictly fresh Eggs and 45 cents per lb for Butter.

Married in Clarence

MONTGOMERY—WHITMAN
A wedding of unusual interest was celebrated Wednesday morning, at nine o'clock, Feb. 12th, in the Clarence Baptist Church. The principals were—Mr. James A. Montgomery, of Churchbridge, Sask., and Miss Viola Betton Whitman, daughter of Mr. and Mrs. W. H. Whitman. The bridal party entered the church to the strains of Lohengrin's Wedding March played by Mrs. I. A. Corbett. The bride was accompanied by her brother, Corp. Arthur Whitman, Rev. I. A. Corbett, pastor, officiated.

The bride's dress was of white georgette crepe, with panel of charmeuse satin, with heavy silk fringe, and a fichu and girdle of silk net with beaded trimming. She also wore the conventional bride veil held in place with orange blossoms, and carried a beautiful bouquet of carnations and roses. The bridesmaid, Miss Ruth Ward, of Clarence, was veiled in white silk mull, with pink charmesue trimmings and wore a black picture hat. The groom was supported by Mr. J. A. White.

The ushers were six young ladies, Misses Belle and Marguerite Marshall, Vesta Jackson, Pearl Sprout, Muriel Whitman, and Edna Kelly. They looked very winsome in white silk dresses.

The bride was for many years a teacher in Nova Scotia and Western Canada. She spent the last year with her parents and taught the local school. Mr. Montgomery is a native of Minnesota, but has resided the last six years in Western Canada, where he attended Regina College, and Wesley College, Winnipeg. He was a medical student at the latter College in 1915 when he enlisted with the C. M. C. for overseas service doing Field Ambulance work in France.

A large number of friends gathered at the church to witness the ceremony. The church was prettily decorated for the occasion. The groom's gifts to the bride was necklace of pearls and diamonds. The gifts included a new, linen etc.

The brides' travelling suit was of blue serge with smart hat of blue and gold satin straw. Mr. and Mrs. Montgomery left for St. John, Quebec, and other Canadian and United States cities followed by the best wishes of many friends. Mr. Montgomery returns to hospital duties in England for some months after which they will reside in Churchbridge, Saskatchewan, where Mrs. Montgomery will be near four married brothers and a sister's family.

St. Mary's Bay Shore Will Have Busy Year

Yarmouth Herald. A Yarmouth business man last week visited many of the shipping centres along the St. Mary's Bay shore and informs the Herald that everything points to another very busy year in the several of the shipyards located in that section of the province.

The various companies are very optimistic over the future, and are confident that a good demand will be had for the products of their yards for some time to come.

Belliveau's Cove is perhaps the busiest section and in its three shipyards there are upwards of 125 men employed and all are receiving excellent remuneration for their services.

At Grosses - Coques, Launierville, Church Point, Little Brook, Comeauville, Meteghan and Meteghan River the work of ship constructions is being pushed to its utmost on vessels in all stages, either well advanced or some cases good length keels are now being put down, which will assure the shipwrights a very busy and prosperous season for some months to come.

The St. Mary's Bay shipbuilding companies, who are really the pioneers in this province of the present shipbuilding boom, are to be commended on their zeal and enterprise in their undertakings and for the determination by which they intend to carry on as long as the demand for sailing craft looks favorable.

Compulsory Attendance Act

By a resolution of the Board of School Commissioners, passed at its regular yearly meeting held on Tuesday, the 11th inst. it was resolved that the Compulsory Attendance Act, be strictly enforced in the town of Bridgetown, and that the Clerk be instructed to notify every parent, whose child or children are not attending school that unless they cause such children to attend school at once, as required by section 123 of the act, they are liable to a penalty of \$20.00 or in default imprisonment for one month for such non-compliance.

For the information of parents I would say that section 123 of the act provides that every child between the ages of six and sixteen, living in the town, shall attend schools during school hours every day such school is open.

The Truant officer has been instructed to arrest all habitual truants and have them punished as the act directs.

Smoking either on the school grounds or in the school building by any of the scholars is strictly forbidden and any pupil found smoking will be severely dealt with. Children under sixteen years of age found smoking either on the school grounds or on the public St., will be punished under the criminal code, and any one found selling either cigarettes or tobacco to this class will be dealt with as in said code provided.

Dated February 12th 1919.
HARRY RUGGLES, Clerk.

IMPORTANT

One of the most important branches of the town government is the proper management of its finances—the prompt collection of all taxes etc. It is therefore necessary that we have a good, reliable town clerk, even if it costs considerable money to obtain one. In other words there is no economy in cheap help. We think a large majority of our citizens regret to learn that Mr. Harry Ruggles, barrister, has sent in his resignation to the Council after faithfully performing the duties of Town Clerk of Bridgetown since April 1st, 1910—nine years.

Mr. Ruggles was Bridgetown's first mayor, having been elected Sept. 27th, 1897, the date of incorporation, continuing in office until February, 1901. He also served a term as mayor from February, 1909, to February, 1910.

Mr. Ruggles is a big taxpayer and has always studied the town's best interests. He has also performed the duties of town clerk and given great assistance to the Mayor and Council at a remuneration of about one half paid for similar services in other towns of this size. Considering the office rent, heat, light, telephone, etc., for which he has made no charge, his services are costing less than half that which is being paid in Digby, and we can assure our readers that the clerk in Digby is far from being overpaid for the work he performs. We believe that our Mayor and members of our council would be serving the town's best interests if they can in any way arrange to have Mr. Ruggles continue in office for at least as long a term as he has already served. We wish them success in their efforts along that direction.

SIR WILFRED DEAD

Sudden Demise of Aged Liberal Leader

At 2.50 Monday afternoon Sir Wilfred Laurier, Canada's celebrated statesman, passed peacefully away, his death being caused by a stroke of apoplexy. Sir Wilfred was 75 years of age and had held a prominent place in Canada's public affairs for nearly half a century. Flags are flying at half mast in every part of Canada and the people in every corner of our wide dominion will bow their heads in memory of the great man who has gone.

I. O. O. F.

Miss Kate Milligan, of Summerside, P. E. I., vice-president of the Rebekah Assembly for the Maritime Provinces and the Dominion of Newfoundland, arrived here Friday remaining until yesterday, the guest of Mrs. J. W. Peters, past president. Monday night Miss Milligan made Autumn Leaf Rebekah Lodge No. 41, an official visit and witnessed the initiation of a candidate. The members of Autumn Leaf's Degree Staff were highly complimented on their work. Refreshments were served. The attendance was large.

Death of William H. Burns

We regret to chronicle this week the death of one of our oldest and best known residents. We refer to Mr. William H. Burns, who passed peacefully away at the home of his son, Mr. Percy Burns, 21st St., Sunday evening after more than a year's illness. Mr. Burns was born in Ontario in 1842, but had spent the greater portion of his life in Bridgetown, having for years carried on a successful blacksmithing business. He is survived by widow, two daughters Mrs. Arthur Patry of Bridgetown, and Mrs. Geo. Jones, Ohio, N. S. A., and three sons—Stewart of Los Angeles, Cal., Percy and Robert Burns, of Bridgetown. The funeral takes place at 2.30 this afternoon, with interment at Riverside Cemetery. The services will be conducted by Rev. W. J. W. Sweetnam, pastor of the Bridgetown Methodist Church, of which the deceased was a member, assisted by Rev. Dr. Just. The MONITOR extends its deepest sympathy to the bereaved ones.

The Universality of the Telephone

THE loyal citizen backs up home institutions. There is probably no public utility in which the best interests of Nova Scotia are bound up as they are in the telephone. It serves well-nigh universally; it should be supported likewise.

Today, one person in every twenty-two in this province actually pays for a telephone. Soon it will be one in ten.

Every telephone subscriber owes it to himself and his community to be a telephone stockholder, to share in the prosperity of this company and to have a voice in its management and operation, thus making it a huge cooperative enterprise.

As an investment for the Nova Scotian, it is unexcelled because its plant and operation are always under his eye, so that he can intimately observe them from day to day.

RENNIE'S SEEDS

A Billion and a Half Worth of Food Required

The greater part of Europe is on the verge of starvation. Over twenty million tons of food must be sent overseas. This makes the necessity for increasing our home grown output of food products greater than ever—people must eat more vegetables.

Every horticulturist should exercise careful judgment to insure that he sows seeds, which have been proven of the highest quality by germination. Our Trial Grounds at Long Branch are operated for the purpose of safeguarding our customers. All seeds which do not come up to the high standard of Rennie Quality are at once discarded.

Cause of Early Old Age

The celebrated Dr. Michenoff, an authority on early old age, says that it is "caused by poisons generated in the intestine." When your stomach digests food properly it is absorbed without forming poisonous matter. Poisons bring on early old age and premature death. 15 to 30 drops of "Seigel's Syrup" after meals makes your digestion sound.
