COMMERCIAL ADVERTISER

A SUMMARY OF FINANCIAL, COMMERCIAL AND MINING NEWS.

Vol. 2. No. 11. MONTREAL, TUESDAY, JUNE 13 1899. Price 3 cents

Montreal Stock Market.

**MARKET INCLINED TO BE WEAK—
ALL ISSUES DECLINE SLIGHTLY
EXCEPT ROYAL ELECTRIC AND
TWIN CITY.**

This morning's market was a decided contrast to yesterday's. Yesterday morning Montreal Street opened at 330 and advanced to 337; this morning it opened at 334 and declined to 332. The bulls talk about the purchase by Montreal Street of the Belt Line and the Park & Island Ry., which means of course, an increase in the capital. The absorption of these roads by the Street Ry. is bound to come, and this fact, together with the splendid earnings which for the past three days were away over \$1066.00 per day increase, is a strong bull argument. Quotations for Pacific from London are 100½ as compared with 101½ to 100½ yesterday, and the stock here sold down to 97. Twin City was steady, Toronto Rails weak, in fact the market generally was decidedly off color. The trouble among the miners in British Columbia, and the fact of the closing down of the Payne mine from this cause, has made the market for this class of security heavy. Payne sold down to 366 and Republic to 126½.

Canadian Pacific—Opening sales were made in this security at 97, and although small lots sold at 97½ and 97½, the bulk of the trading was done at 97. The resignation of Sir Wm. Van Horne, which has been talked of for some time, has at last, taken place, but the company will still have the benefit of his advice and ripe experience on all knotty points. Sir William could not have chosen a better time to resign. The company is in a splendid condition. Good business, phenomenal increase in earnings, with the splendid prospects, all indicate that Pacific is a purchase.

Montreal Street—Although this security

did not recede quite as quick as it advanced, yesterday morning, the recession was quite pronounced. The trading was light, only 160 shares of the old and 225 of the new being dealt in, but the price of the old dropped to 332 and of the new to 330, the closing quotations being 330 to 332 for the old, and 329½ to 330 for the new.

Twin City—All sales in this security were made at 69½. One hundred and fifty shares were traded in, and the closing quotations were 69 to 69½.

Toronto Rails was dealt in to the extent of 105 shares. Opening at 118½, at which figure 50 shares were disposed of, it sold at 118½ for another 50, and finally closed at 118½ for a small lot of 5 shares. The closing quotations were 118½ to 118½.

Montreal Gas was steady. Fifty shares represented the trading, all at 203, the bid and asked being 202½ to 203½.

Richelieu & Ont. was steady to strong around 112½, at which price all sales were made, the closing quotations being 112 to 114.

Royal Electric sold at 188 to 189½. At the latter price 75 shares changed hands, and at the former 25, the closing quotations being 187½ to 189.

In the mining issues Payne was dealt in to the extent of 3500 shares, opening at 375, at which price 1000 shares changed hands. The next lot of 1500 sold at 360, then 500 at 368 and the last sale of 500 was made at 366. The closing bid and asked being 364 to 366.

Republic was weak, opening at 127½ and selling at the close at 126½, with 127 bid and 128 asked. Now is the time to buy Republic. The strike will not affect the Republic district and the news from the mine is better than over.

The balance of trading consisted of 50 shares Dominion Coal Com. at 56½, 12 Bank of Montreal at 251, 2 Merchants Bank at 16½, and \$6,000 4 p.c. City Bonds at 106.

DEWAR'S SPECIAL LIQUEUR IS UNDOUBTEDLY THE GENTLEMAN'S WHISKY

MONTREAL MINING EXCHANGE.

The news which carried a ripple of excitement on the Exchange this morning was the closing of Payne mine owing to the later strike. This news has affected the price of Payne, Republic and War Eagle.

The market was dead five issues only being dealt in and some of those at reduced prices.

Tight money is still the cry and has doubtless an effect in such stocks as War Eagle, Payne and Republic which are held to a certain extent on margin.

Virtue sales of 2000 shares were made at 48. The closing quotations being 45 to 48.

Republic was decidedly off color, but the business was light 1000 shares changing hands at 127. We still say buy Republic. Montreal-London sold to the extent of 1000 shares at 56 and was quoted at the close 55 to 57.

Golden star changed hands at 74 and was quoted at the close 73 1/2 to 75.

Slocan Sovereign was also dealt in lightly 1500 shares selling at 27.

Virtue—2000, 48.
 Republic—1000, 127.
 Montreal-London—1000, 56.
 Golden Star—500, 74.

**INVESTORS GUIDE
 TO TORONTO RELIABLE BROKERS.**

REPUBLIC STOCKS.

I have some special offerings on hand, and it will repay the investor to keep in close touch with me. Commissioner H. L. Percy my Republic representative arrives in Toronto within the next fourteen days. Upon his arrival we shall take pleasure in laying a promising proposition before the investing public. Associated with us in the undertaking—which is by the way in the neighborhood of the great Mountain Mon—are General Manager James F. Harvey of the Republic, Jim Blain, and Lone Pine, mines, Thomas Clark of Republic, and other experienced mining men. Among the lower priced Republic stock list just now I can recommend Reindser, Jumbo and Golden Lion-Little Four Consolidated. Particulars upon application.

NEW YORK EXCHANGE.

SETTLEMENT DAY IN LONDON— GRANGERS FIRM—METROPOLITAN ADVANCES.

New York, June 13.

The London market for Americans opened weak, but has since improved, and now, though showing considerable irregularity, is steadier. L. N., St. P. and Atch. are strong. The fortnightly settlement begins in that market to-day, and it is quite possible that it will show a short interest on Americans. London having been a considerable seller of stocks in the last two weeks.

Yesterday's market was almost uniformly strong until within the last half hour of business, when there was a slight shading of values. In some cases this shading resulted in declines of something over 1 p.c., but did not affect the whole list very seriously.

The largest declines in the late trading were in Sugar, Con. Gas and Manhattan. There was no news affecting the price of sugar, but when we consider that the stock has advanced over 20 points in last two weeks without any serious reaction, it seems that some decline is quite in order; the same people who were bullish on sugar at 140 are still bullish on it, and state that it will go higher. Consolidated Gas has advanced in the last few days on reported rumors that there was soon to be some sort of settlement in local Gas war, and until 180 was reached there seemed to be very little stock for sale. After that prices was crossed, however, there seemed to be some stock offering.

The Flower party were large buyers of Federal Steel. The advance is based on expectations of an early dividend of 5 per cent.

The varying rumors in regard to A. S. W. and the dividend on the common were again reflected in the market. It has had a considerable rise, which has been almost uninterrupted, and conservative people are beginning to look for a reaction.

It was not surprising that the speculation in stocks yesterday was so indifferent to the unfavorable character of the Government Crop Report showing the conditions on June 1st.

There will be no further speculative selling of the Grangers by holders unless the future develops some crop accident. Operators in the Industrials derive considerable side satisfaction from the ability of the railroads to keep on scoring gains over the exceptionally large revenues of the previous year. There is a plenty of statistics establishing the fact of the country's prosperity.

A remarkable feature of the industrial situation is the absence of labor troubles of any great consequence.

The banks and other financial institutions are recognizing that investment in industrial enterprises has come to stay, unless it should be interrupted by some economic cataclysm.

New York, noon, June 13.

This morning's market has displayed a general under-tone of strength, and there

have been several special movements which have disclosed considerable buoyancy and have resulted in materially better prices for the stocks which enjoyed them. Prices at the opening were at about last night's closing, and most of the commission house orders seemed to be on the buying side.

NEWS OF THE MINES.

STRIKE ON THE CHRISTINA.

An important strike of ore has been made on the Kettle River Mining & Development Company's property, the Christina, near Grand Forks. This property is on Pathfinder mountain, about 1000 feet south of the Diamond Hitch. The property has been recently surveyed for a crown grant, and a force of men is now working on the property. The work so far done discloses a vein about 1500 feet long, varying in width from 8 to 18 feet, assays from which give the following values:

No. 1, gold 1.80 oz., silver 20 oz., value \$49.

No. 2, gold 0.52 oz., silver 6.04 oz., value \$14.65.

No. 3, gold 2.44 oz., silver 21.08 oz., value \$62.97.

No. 4, gold 1.80 oz., silver 13.38 oz., value \$62.70.

No. 5, gold 1.48 oz., silver 24.32 oz., value 44.40.

No. 6, gold .72 oz., silver 6.56 oz., value \$18.66.

No. 7, gold 1.4 oz., silver 14.6 oz., value \$37.50.

No. 8, gold .44 oz., silver 5.25 oz., value \$12.25.

No. 9, gold .40 oz., silver 2.03 oz., value \$9.40.

THE BUNKER HILL.

John Y. Cole returned recently from a visit to the Bunker Hill property on the Proctor mountain, in the Pend d'Oreille country. He brought back with him several samples of ore from the Bunker Hill, one of which has been placed on exhibition in the window of "The Minor" office. In speaking of the Bunker Hill, Mr Cole said,

"We have been engaged in crosscutting the lead in several places and find that it is five feet in width, and that the chute is over 200 feet long. My mission was to look into the matters of a wagon road and a mill site. The intention is soon to install a 10-stamp mill, as there is ample ore in sight to keep it in ore for two years. There is a splendid site 2000 feet below the mine and on a creek where there is ample water power, which can be secured by building a flume 2000 feet in length. It is likely that we will have to put in a boiler with which to saw the lumber for the mill and the flume. A wagon road will have to be constructed for a distance of four miles, over which the mill plant will be hauled to the mill site. The Bunker Hill is 14 miles from the Nelson & Fort Sheppard railway, and there is a good road for 10 miles of this distance. We expect to have the mill running in about four months from now. J. J. Warren will order it when he gets back to Toronto."

A YEAR'S WORK.

In Five Properties Over Three Miles of Work Done by the B. A. C.

A good deal of the work that has been going on in some of the properties of this camp during the past twelve months can be obtained from the following figures. It will be seen that only five mines are mentioned, and that the list does not include Le Roi, Centro Star or War Eagle, yet 16,454 feet, or over three miles of work is accounted for by the British America Corporation.

Underground work done during the year ending May 1, 1899:

Mine	Crosscuts		Raises		Shaft
	No. ft.	Drifts	No. ft.	Winzes	
Col.-Koot.....	5,066		520		
Great West.....	1,039				231
Nickel Plate.....	4,163		140		
Josie.....	2,696		226		
No. 1.....	2,000		53		320
	14,974		939		551

A grand total of 16,454 feet, or 3 1/2 miles.

PROMISING CLAIMS.

The result of an assay of specimens taken from the outcroppings of E. Wright's claim on Green mountain, Murphy creek, shows \$17.60 in gold. Mr. Wright's claim is located next to Samuel Simpson's property, the One-I-See, samples from which, taken at various depths, assayed \$300, \$202, and \$300. The same ledge is well defined in both properties and Mr. Wright is satisfied that he has a very valuable claim. The assays were of gold only, but the ore is also rich in copper. Mr. Wright intends leaving for his claim a week from to-morrow, and taking men with him to start development work. As yet the snow is too deep to allow him to go through easily.

MOTHER LODE IS LOOKING WELL.

Michael Shick is in from the Burnt Basin and reports that good progress is being made on the Mother Lode. One vein of free milling ore has been stripped for about 200 feet, and a vein of high grade ore from five to six feet in width has been stripped. There is another vein of base ore that runs

13 p.c. in copper that has been stripped for a distance of 1000 feet. The intention now is to run a tunnel for a distance of 300 feet for the purpose of tapping these lodges.

CHICAGO MARKET—June 13, 1899.

FROM OUR SPECIAL CORRESPONDENT.

CHICAGO MARKET.

Table with columns for Closing Prices June 7 to 12 and To-day's Prices. Rows include Wheat, Corn, Oats, Pork, Lard, and Stribs with sub-rows for July, Sept, and Dec.

MARKET CLOSES FIRM — PROVISIONS STRONG—CABLES STEADY.

Chicago, June 13.

The market failed to recover from the reaction of yesterday. The feeling on the curb, before the opening of the market, was reactionary, the opening quotations showing a decline of a quarter.

Cables were lower, the big increase in the visible as well as a large increase of wheat on passage to the United Kingdom—caused mostly by the large Argentine shipments—were bearish factors.

The stock market fails to reflect any serious damage to the grain centres, all grain carrying roads are strong with advancing tendencies, which would scarcely be the case, were the wheat prospects through which these Grangers run almost ruined.

We have also had the usual talk lately of a possible wheat corner. A great deal of the cereal has been unloaded during the past week or two, and a great deal of it has been absorbed, such fears, however are scarcely warranted. The experience of Joe Leiter is too fresh in the minds of his countrymen for anybody to follow in his footsteps just at present.

A far more important factor in the market situation to-day is the remarkable movement of wheat from farmer's hand to market this is all the more remarkable since the great decline in the winter wheat condition is generally admitted.

For the past ten days the primary receipts were the largest on record for corresponding dates and with the present week the total for fifty weeks from July 1st is likely to surpass all previous records.

The spring wheat outlook continues satisfactory and Snow's report refers to prospects as about equal with a year ago.

Wheat, including flour, shipments for the week aggregate 3,153,047 bushels, against 3,596,065 bushels last week, 4,730,982 bushels in the corresponding week of 1898, 1,890,322 bushels in 1897, 2,923,695 bushels in 1896, and 1,781,737 bushels in 1895. Since July 1 this season the exports of wheat aggregate 215,223,485 bushels, against 220,876,046 bushels last year. Corn exports for the week aggregate 3,339,889 bushels, against 3,922,497 bushels last week, 4,874,303 bushels in this week a year ago, 2,398,294 bushels in 1897, 1,536,829 bushels in 1896, and 655,753 bushels in 1895. Since July 1 this season corn exports aggregate 160,140,425 bushels, against 186,779,320 bushels during the same period a year ago.
