THE GREEKS AT THE FEAST. BY THE REV. EDWARD C. JONES.
(From the Banner of the Cross.)

"Sir, we would see Jesus."

They wandered through the massive gates,
And gazed upon the motley throng.
They heard the white-robed band pour out,
The flood of solemn, ancient song.

The turbaned Rabbi and the Scribe, In broidered robes and fringes gay, Pressed on with eager glance to join, The rites of that thrice festal day.

But they—the Grecian Pilgrims— saw, No magic show to bind them there, Though incense with a perfumed cloud, Was filling fast the Ilouse of Prayer.

The Sanhedrim enthroned in state,
To these poor wanderers all were nought.
For, Jesus in that clustered throng,
For, Him, the Christ, alone they sought.

Sir, we would see him—for our ears
Have heard his godlike acts of love,
Sir, we would see him—for his heart,
Attunes itself to heaven above.

Thus, Saviour, when thy courts we tread,
'Tis only Thee we long to view,
Thee in the Sacramental grace,
Thee in the blest baptismal dew;

Thee in the read and spoken word,
Thee in the Church's ancient hymn,
Thee would we see, our risen Lord,
Now throued above the Seraphim.

And, oh, when faith is merged in sight, And death's mysterious shadows flee, The first in that unfading world. The just made perfect long to see. The rainbow round the throne grows dim,
The pearly gates attract no more.
For heart and eye with Christ are filled,
And Faith can have no richer store,

"Oh! stranger, have ye ever stood, fanned by the favouring gale, at Edderthorpe, or Billingley, near Wombwell's fertile vale? And have ye heard, in such an hour, come on in fifth! swells, O'er yender vale the music sweet of Darfield's tuneful bells? If such hath been, in youth or age, but once your happy lot. Or have you ever in happy boyhood, when reclined on your early pillow at the "witching hour of night," been awakened from that sweet repose by the melody of those bells, borne by the "favouring gale" through the open casement, and lulling you with sounds of the most celestial music? If such, with the poet, has been your lot, then I am sure you will excuse the brief sketch I am about to give of the delightful village of Darfield, and its far-famed church and bells.

FRATERNIZING WITH DISSENT.—It appears that the Rev. J. Jordan, Vicar of Enstone, was to have preached a sermon on behalf of the Weslesyan Missionary Society, in the Rev. T. There is a distinction familiar to every sciolist in ecclesiastical affairs, between "order" and "jurisdiction." Order is the sprittual power derived by ordination from Christ, the Head of the Church. Jurisdiction is the right to exercise this sprittual power in a particular place or diucese. By reason of the connection between the Church and the State in England, jurisdiction there is derived from the crown. In this country, jurisdiction comes from an election by the people. But there are analogous cases even here to the English practice. Now, I happen to know something of the writings not only of the Prelates in question, but also of those who have been charged with inveighing against the doctrine he propounds; though it will be found that they do not inveigh against that or any other doctrine of our Church, but only against the manner in which that doctrine is upheld by writers of a similar class with your correspondent. On the next day, in the morning! I called at Kermit's office, and asked if he was in; I was told he was in the back room; I went in, found him attention which no comment of ours could enhance: sitting at a writing desk, told him who I was, and said, of a gentleman to listen to what I had to say. I make this public that clergymen and gentlemen may avoid machinery which is soon to be put in motion, under the parent Society exhibits a small increase over the business with any line of ships that may bring them into contact with said Kermit, who treated me like a brute.

Every thing almost, for the relief of this dearth of the bread of life, depended upon the zeal and activity of the Laity, especially in places where they could give liberally and largely; and where it would be found, that the more they gave the more they would be disposed to give. In the more remote towns five shillings would be as much felt as five pounds in a place like Toronto. , he had but little difficulty in raising £25 for a special church purpose, in a locality to which such a contribution was more of a burthen than £150 would be to this wealthy city. He hoped, therefore, that Toronto would set a liberal example; and that Church people generally would manifest their confidence in the Society by an increased liberality in supporting it.

HUGH C. BAKER, Esq., stated, that as the resolution had been placed in his hands only half-an-hour before, there had been no time for preparation. He observed, that the usefulness of the Society was on all hands admitted; but still it remains a cause of regret that it does not yet in-clude one-half of the members of the Church. Greater exertions must be made. If each member of the Society did every thing in his power to procure another, how soon would our members be doubled. The REV. WM. BETTRIDGE, in proposing the fourth Resolution observed, that he was not acquainted with any detailed operations of these Societies; but as they are called sister to our own, so we may assume that their objects are similar if not identical. We can and do rejoice over the prosperity of this Society, and we may rejoice in the prosperity of others. Varied are the objects of our Society but to one he especially desired to draw their attention: "the creation of a fund towards the augmentation of the stipends of poor Clergymen." If it be granted, as it must be, that the whole body of the Clergy of this Diocese are very inadequatedly paid, and in consequence necessarily exposed to very great privations, the importance of this part of this Society's plan must be too obvious to require remark. Something, by God's blessing, has been done, but so much remains to be done that the full effective services of the Clergy must be greatly impeded; for it is impossible that a man whose mind is necessarily weighed down with domestic anxieties, arising from inadequacy of means ion, although, during to supply the wants of a family, should act either with the energy or the efficiency of one whose b care. Indeed, we may assert, without fear of contradiction, that the efficiency of our holy ministrations will be materially affected by the independence of the Ministers. When he (Mr. 3.) used the word independence, it cannot be supposed that luxury—the thing is impossible in this colony; therefore it will be readily allowed he meant no such absurdity: what he meant by independence was that a minister may be enabled to live as becomes the station to which it has pleased God to call him, and to provide for the instruction of his children. The charge of extravagance will not lie against this definition. And can'it be said that this independence is possessed by the clergy generally? not by one in twenty. To secure this independence appears obviously the design of the Society, and in the attainment of which all must rejoice. There may, however exist a difference of opinion as to the means of attaining the object; he (Mr. B.) concieved its attainment not practicable by the mere increase in the numbers of our clergy. None can doubt the importance of extending the ministrations of our Church; as a Missionary branch of the Church Catholie this necessity was laid upon as by Divine authority; but he (Mr. B.) conceived that the increase of numbers without a due proon for their decent maintenance would only increase the evil already acknowledged to exist. A pauperized Clergy would not be less inefficient because they are numerous. A measure of independence is essential, to preserve the Clergy from that cold and heartless pity which might be readily mistaken for

Neither did he (Mr. B.) conceive that this degree of neces. sary independence could be secured to the Clergy by the volun. tary principle in the ordinary acceptation of the word. There is a sense which all might approve,—that is, the free-will offerings of a people to their pastor, not ostentationally on a given day, but privately and heartily. The eleemosynary sheet he (Mr. B.) greatly objected to as degrading to the character of the clergy, and as invariably resulting in disappointment.

Many are the instances he (Mr. B.) could state of the inefficiency of this method to secure the well-being of the clergy. Another phase of the voluntary principle, less objectionable than the one now spoken of, is the renting of pews. This system under proper management, which he (Mr. B.) believed to be within the province of his Lordship to direct, would doubtless work efficiently. If the minister be known as the letter of the pews, his income will be greatly decreased. But if the Churchwardens were pledged to the clergyman to pay to him halfyearly the amount [or nearly] of the pew-rents, the people would soon understand that a refusal to pay would involve them in legal expenses. It may be whispered that the minist The REV. T. B. Resolved 6,-That the thanks of this meeting be preented to the Officers of the Society, for their services

The REV. JOHN WILSON remarked, that the resolution which had been intrusted to him, commended itself to the hearts of all the members of the Society. They indeed owed a debt of deep gratitude to the office-bearers for the very faithful and effective manner in which they had performed their duties. Much labour, both mental and bodily, was required to prepare the documents, and arrange the business details of the nouthly and other meetings-and nothing could exceed the sion with which all the parts of the machinery, so to speak did work. While they awarded their thanks to the officebearers, however, they must not stop short here, but zealously co-operate with them. He trusted that Toronto, which contained so much of the wealth and respectability of the Province, would be foremost in the good work. It was cheering to know that a great wakening was going on among Churchmen who were becoming daily more and more alive to their privileges and esponsibilities :- and he believed that he was justified in asserting, that the Church at this moment was in a purer, and more prosperous state than it had been since the period of the blessed Reformation. If all faithfully performed their parts, Gods blessing would assuredly be with them: and it was one of the most pleasing features of their Society, that every one however humble he might be, could join in furtherance of the holy cause. In conclusion, the Rev. gentleman expressed, n warm terms, his hope that their beloved Diocesan, would long be spared to preside over the Society, and give it the benefit

The REV. DR. LUNDY in seconding the resolution observed, that he heartily concurred with the mover thereof, in his expression of commendation of the officers of the Society. Where all were so efficient it would be invidious to particularise and yet he could not refrain from remarking that the valuable services of the Secretary were afforded without any remuneration, but that amidst his varied occupations, scholastic as well as clerical, he found time to superintend the business of the Mr. Turner, for W. REV. F. L. OSLER-No Society can prosper unless it be conducted by persons who have its welfare at heart. He was sleased to witness the improvement in the affairs of the Society. He was bappy to hail its formation, and, upon his return to his own Parish, he had proceeded to organize at once a Parochia Association. He then stood alone; but now each Parish in the Simcoe District has its Parochial Association. He differed from his Reverend brother (Mr. Bettridge) in the opinion that no addition should be made to our ranks until something has been done to augment the scanty income of the present Clergy. Although severe privation might have to be endured, still the scattered sheep must not be abandoned. He felt sure that many would be willing to suffer hardships in order to bring together the wandering flock. The Church is the great instrument, under God, of prolonging our connexion with the mother land, by teaching us to "fear God and honour the Queen." The Church is the great antidote to the treason of wicked and rebellious men. During the last rebellion, there was not a member of the Church but was willing to fight for his country and his Queen. Oh! that we may be willing to endure the Cross, that we may minister to the wants of our perishing felow-creatures, else the wolf will gain access to the fold, and worry the sheep, and the insidious traitor will creep in with his poison and sedition, and turn away many from their allegiance. All must desire to see the Clergy independent, yet in the in fancy of the Church, we must be specially careful to take out of the mouths of the dissenters the calumny that the Clergy of the Church of England will go only to wealthy congregation -will labour only where they are well paid. Let us cheerfully assume the blessed office and employment of preaching the gos-pel, although we may not possess absolute independence, and let us labour on in faith and hope that, with God's blessing, the means for ensuring this independence will ultimately be pro-

MR. DARLING said, that on an occasion similar to the present, a brother clergyman commenced an address by observing that resolution, No. 7 or 8, signified by a free Irish translation "no speech !"-a translation which he (Mr. D.) thought even more remarkable for its judiciousness than for its freedom. At that advanced stage of the proceedings it would be very unwise, and after the able and eloquent speeches to which they had listened, it would be very presumptuous in him to occupy their time by any remarks of his own; and he would accordingly content himself with merely moving the resolution which he had the honour of being intrusted with. He was sure that every one present were satisfied, that those gentlemen (the office-bearers of the Society), by the able, indefatigable, and courteous manner in which they had discharged their duties, had laid them (the Society) under a weight of obligation which must lead them all to look upon their continuance in office as a matter of heartfelt congratulation.

The disgraceful and dangerous state of the roads, leading into the city, has not escaped the attention of the Grand Jury, and they accordingly made a presentment on the subject to the Court, designating these roads as a nuisance, which in their present condition they certainly are, - and a dangerous nuisance by which in one instance at least, life has been lost; by which in nerous cases serious injury has been caused to horses and vehicles, besides continual danger and serious alarm to travel-lers, constantly occurring. The object of the Grand Jury was, to have the responsible parties indicted, for the disgracefully dangerous state in which these roads are kept, but as appears from the subjoined letter from them, addressed to the Provincial Secretary at Montreal, they were advised by Dr. Connor, Counsel for the Crown, that such a proceeding could not be taken, inasmuch as the roads in question are not under the charge of the Corporation of the city of Toronto, and the Department of Public Works, being a branch of the Provincial Government, and not an incorporated body, cannot be proceeded against in the manner indicted. My DEAR DOCT.—I suppose you wonder why I have not written you before this to report progress, but the fact is, I have been so little of an invalid, that I have bad nothing to write to a Dr. about. When you requested me to procure a bottle of Dr. Sherwood's Galvanic Embrocation, I had so little faith in any remedy that it was with great reluctance that I could try it, but to my surprise I commenced getting better after the first application, and it was not two weeks before I felt as well as I ever was. I would now recommend you to prescribe it hereafter to every one that may be so unfortunate as to be afflicted with the disease.

A CHILD'S EVENING PRAYEB. BY SAMUEL TAYLOR COLERIDGE.

[The following simple and beautiful lines were composed by the great poet above named, for the use of his daughter when a child. A very little ingenuity will be sufficient to make such alterations as may be necessary to suit the prayer to the circumstances of every firstle.]

Ere on my bed my limbs I lay, God grant me grace my prayers to say;— O God! preserve my mother dear, In health and strength for many a year; And O! preserve my father too, That I may pay him reverence due,—
And may I best my thoughts employ,
To be my parents hope and joy,
And oh! preserve my brothers both
From evil doings and from sloth, And may we always love each other Our friends, our father and our moth And still, O Lord to me impart An innocent and grateful heart,
That after my last sleep I may
Awake to thy eternal day!

Amen.
