Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

Library of the Public  
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives  
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

# TENDER FOR FIREWOOD.

To

JOSEPH HICKSON, Esq.,

*General Manager,*

MONTREAL.

Sir,

\_\_\_\_\_ hereby offer to supply the GRAND TRUNK RAILWAY COMPANY with \_\_\_\_\_ Cords Hard Wood and \_\_\_\_\_ Cords Soft Wood, conformable to the following specifications, to be delivered as follows:

_____ Station,	_____ Cords Hard Wood @ _____ $\frac{7}{8}$ Cord,	_____ Cords Soft Wood, @ _____ $\frac{7}{8}$ Cord
_____ " _____ " _____ " _____ " _____ " _____ "		
_____ " _____ " _____ " _____ " _____ " _____ "		

*Signed,*

## SPECIFICATIONS OF CORDWOOD.

All wood must be split from the body of the tree, to average four feet long from scarp to point, no stick to be of unreasonable size, must be free from all crooked, crotched, or knotty sticks, and cut from growing trees, with the bark on; to be delivered at the places agreed upon, and there closely and evenly piled up in piles not less than eight feet high, and in all cases with the bark uppermost, and a space of three feet left between every two piles. Suitable stringers must be firmly laid on the ground; when necessary the snow must be removed for that purpose, and upon them the said Wood shall be piled. Piles which may, from the melting of the snow or any other cause, fall down before the final measurement is made, must be repiled. The final measurement shall not be made until the snow and ice have so far disappeared as to admit of its being correctly taken.

All Wood delivered with the bark off will only be received at a reduction of twenty-five per cent. from the prices specified.

Soft Wood must not be mixed with Hard Wood, but kept in distinct and separate piles, the one from the other; the ends of piles must be well headed up; and where said ends of piles are headed up with the wood laid crosswise, only half the measurement of the same will be allowed.

Wood that is piled more than four feet below the level of the track will not be accepted.

All Hard Wood must be cut from Hickory, White Oak, Hard Maple, Beech, Black Birch, or Ironwood.

All Soft Wood must be cut from Tamarac, Hemlock, Soft Maple, White Ash, Rock or Grey Elm.

The whole to be perfectly sound.
