## JESUITS WON'T MAKE GOOD CITIZENS

**"We Can Never Make Canadians of Them," Says the Rev. C. O. Johnson in the Last of His Sensational Sermons— "Their Aim Is Subjugation of the World."**

"We can never make Canadians of Jesuits," declared Rev. C. O. Johnson at West Queen-street Methodist Church last night before a congregation which packed the edifice, and frequently applauded the utterances of the preacher.

"Jesuits in Politics" was the topic. Introducing the subject Rev. Mr. Johnson referred to the atrocities charged against them by historians. These atrocities were perpetrated for the sole purpose of subjugating the will of the people, whose persons were under the sway of the Jesuit order.

The purpose of Jesuitism had not changed. Its aim was the subjugation of the world to itself under the guise of religion.

"A Jesuit cannot be loyal to any nation. He cannot be a Canadian or an American. He can only be a Jesuit. He can only be loyal to the dictates of the black Pope."

"Does Bourassa think that he can establish nationalism by the aid of the Jesuits?" It so Bourassa will not be the only man who has been similarly deceived.

"Whatever Bourassa may enact it will be impossible for him to create."

## TO PURCHASE ELEVATORS

Expected That Government Will Provide Appropriation—Tariff Bill Has Smooth Sailing.

**OTTAWA, Feb. 11.—(Special).—**Two bills which are at present before the house, will likely get their third reading this week. They are the grain act, and the bill to establish the tariff commission.

Before the grain bill finally passes the house it is expected that Hon. Geo. E. Foster will make an important announcement outlining the policy of the government in regard to terminal elevators at the head of the lakes.

It is understood that there will be an appropriation in the supplementary estimates for the purchase of government-owned elevators. Just how far the government will go is not known as yet.

The third reading of the tariff bill is not expected to be marked by a long debate or a division. The overwhelming majority of the government on the second reading has not encouraged the opposition to continue the fight against the bill.

## Must Repeal Navy Bill, Say Quebec Members in Chorus

**Le Nationaliste Publishes Replies to Its Query in Which Sir Rodolphe Forget and Numerous Others Show Sympathy With Bourassa's Stand.**

**MONTREAL, Feb. 11.—(Special).—**Mr. Henri Bourassa and his friends appear to be determined upon the repeal of the naval bill Le Nationaliste to-day contains a number of interviews on the subject. Sir Rodolphe Forget, M. P., says: "In reply to your telegram, I may say that I am in favor of the repeal of the naval law."

Mr. Honore Achim, M. P., for Labelle: "I said during my campaign that the measure was a bad one and I have not changed my opinion. I say that the law should be repealed."

Mr. J. O. Lavallée, M. P., for Bellechasse: "My opinion as to the repeal of the law has never changed, and I will be in favor of any measure in this sense, provided it may be presented in a proper way and not in the hurried manner as proposed in certain quarters. The shelving of the Laurier project and the attitude of the government on the question is satisfactory to me."

Mr. Paul Emile Lamarche, M. P., for Nicolet: "Logic and sincerity are still the best policies to act upon. The consequences of the 21st of September have not caused me to change my opinion so often expressed. The law should be repealed and I hope the executive it-

## WILL DISCUSS GOOD ROADS

**Senate Reading Room—rent Associations, 28 and 27.**

Delegates from the different Good Roads Associations of the province will meet at a convention in the York County municipal building, Adelaide-st., on Feb. 26 and 27. The purpose of the convention is to formulate a definite plan for a federal and provincial good roads system. Among the speakers will be Hon. Paul D. Sargeant, assistant director of government roads for Washington, D.C.; Dr. Reame, provincial minister of public works, and Andrew Broder, M.P.

## ODD MAN WINS COST HIM \$24

**Matching Quarters in Zero Weather Was a Poor Sort of Amusement for Joseph Sanders.**

Matching quarters in zero weather in a doorway near King and York streets on Saturday night was the interesting little game played by a trio of enthusiasts when Detective Guthrie and Murray spotted them. Like a flash the game broke up, and one man ran. He was footloose, but Detective Guthrie was stronger in the Marathonic stunt, and grabbed the man after a few hundred yards had been covered. He was Joseph Cronin of Albany, N.Y. Meanwhile Detective Murray had collared Joseph Brady of Montreal, and Joseph A. Sanders of Dundalk. The latter felt his pockets, and found nothing answering the feel, and decided that he was shy \$24. So Cronin and Brady were arrested and charged with the theft of the money. Sanders claimed they had some sort of an ingenious system, and played "odd man win" to perfection. Sanders, a middle-aged man, just lately came to the city.

## Pope Stronger in Canada Than Italy

**Wouldn't Dare Declare Civil Marriage Illegal There, Says Baptist Minister.**

**MONTREAL, Feb. 11.—(Can. Press).—**Addressing his congregation of French-Canadians last night at the Oratory on Manoe Street, Rev. Dr. Thierrien, president of the Baptist Association, said that Canada was worse off than Italy in the clash between civil and religious authority. For in Italy, he said, the home of the Roman Catholic, neither the Pope nor any of his cardinals dared to declare a marriage illegal which had been celebrated before the civil authorities.

It was high time, he declared, that such a scandalous condition in the marriage laws of Canada was remedied, and it should be impossible for any one church to claim authority over the validity of a marriage performed by another church under authorization and with the consent of the governor-general.

## FRANCE VICTIM OF GERMAN BULLYING

**Bitter Denunciation Heard in the French Senate Concerning Alleged Surrender in Morocco, But Treaty Is Ratified—Under German Domination Since 1870.**

**PARIS, Feb. 10.—**The senate this afternoon voted for the ratification of the Franco-German treaty in regard to Morocco. The vote was 222 to 48, which showed that about thirty members abstained from voting.

"The ratification of the accord, with the concurrence of the chamber of deputies, was signalled by a dramatic speech by ex-Premier Clemenceau, in which he characterized the treaty as a "diplomatic monster." He attacked the concessions made to Germany, saying that the negotiations should not have been taken up under the threat of the Panther's guns. He doubted if the accord would be an instrument of peace, as he saw no indications of good will and moderation on the part of Germany, which five times since 1870 had menaced France with war without provocation.

Shouldn't Be Vassals.

M. Clemenceau closed the debate with a characteristic criticism of the treaty, which he declared could not possibly be defended. France had her finger on the trigger and should have said "No" to the negotiations conducted "under the guns of Agadir." The attitude of the nation in the recent crisis, however, was an excellent omen for the future and he added: "All people have a right to their share of life and that is what Germany has denied France since 1870." He repudiated any idea of rapprochement with Germany and said that the defeat of 1870 ought not to involve a state of vassalage.

Premier Poincare said that while the treaty was not perfect, it was necessary to ratify it as a matter of policy and in the interest of the triple entente.

## COAL IS SCARCE AND SO IS WORK

**City Relief Officer Has Been Kept Busy Helping People Who Cannot Pay High Prices.**

The recent cold snap had a disastrous effect on the coal bins, and while this brought joy to the hearts of the dealers it also brought a great deal of distress to many homes who had not the means with which to replenish the supply. City Relief Officer Coyell stated last night that the number of applications for free fuel was greater than at any time since he had been connected with the department. All these applications are investigated, and many cases of genuine distress have been revealed.

Samuel Arnold, secretary of the Associated Charities, attributes the present conditions to the large number who are unemployed. There are at least 800 men out of work, he said, and hence under such conditions destitution is inevitable.

Canon Dixon, who is keenly interested in the welfare of the poor classes, said yesterday that there was much destitution in his parish that he had ever known before.

With warm weather there will be more work and more work will mean more coal and less distress.

## SEVEN DROWNED IN DAM BURST

**Flood of Water Swept Thru Valley at Union Bay, B. C., Creating Havoc.**

**VANCOUVER, Feb. 11.—(Can. Press).—**The bursting of a dam at a small lake near Union Bay Saturday afternoon let loose an immense flood of water, which coursed down the valley, destroying forty-five dwellings with a property loss variously estimated at between \$20,000 and \$30,000. Seven persons, all of whom are believed to be Chinese, are missing.

The accident occurred about 5.30 p.m., when, thru the heavy rains, the dam used by the Canadian Collieries and owned by Mackenzie & Mann, in generating power for their plant at Union Bay, collapsed. The residents of the district, known as Chinatown, had but five minutes warning before the huge body of water swept down the valley. Many fled to the surrounding highlands, while others sought refuge on the tops of their houses. When the flood reached the settlements its depth was estimated at fifteen feet.

## SCARBORO FARM NOW.

The west 50 acres of the McMillin-ray farm in Scarborough, just east of the townline and south of St. Clair avenue, and adjoining the Maney farms, has been sold to F. B. Traumer for \$750 an acre, or \$37,500. The deal was put thru by S. J. Murphy & Co.

## Written for Rose Stahl.

The comedy "Maggie Pepper," which delighted large audiences here last season and which will open a week's engagement at the Princess, was written especially for Rose Stahl by the noted author Charles Klein. It is a case of a clever actress in a great play.

## G.P.R. MAY APPEAL

The World was told last night that the Canadian Pacific Railway was disposed to appeal to the highest court the decision of the railway board, ordering York-street to remain open at the proposed new station. There may be something in this report. One man, who professed to be posted, said he believed the Canadian Pacific never had any intention of being a party to the new Union Station or the Esplanade widened, but that it was their intention to go to the north portion of the city with all their station facilities, and to put up a big station of their own.

## GOLD WEATHER IS ABOUT OVER

**Warm Wave Is Traveling Eastward Slowly and Should Strike Toronto This Week.**

The cold wave of the past few days has evidently spent itself, and the citizens of Toronto may now look forward to a little milder weather, although there is no immediate prospect of a thaw. Householders must keep burning the precious coal at home for some time yet. Advice from the west state that it is getting a great deal milder and that the wave is traveling slowly eastward, which is a relief. The thermometer yesterday showed 6 below in the morning, but rose off to 8 above for the rest of the day. Even the ice dealers, who prayed for cold weather some time ago, seem to be satisfied with the brand handed out in the past few days, and are not averse to a thaw.

## Much Labor Legislation.

In the last few years the Laborites have been enacted into laws of the parliament the Trades Disputes Act, which permits peaceful picketing during strikes; an act to provide for the feeding of school children; the Compensation of Workmen Act, which provides for the payment of compensation to workmen injured on the job.

## TWO COUNTY ORANGE LODGES FOR EAST AND WEST TORONTO

**Yonge St. Will Be the Dividing Line and New Hall at College and Euclid Will Be Headquarters for Western District.**

There is a move to divide the Orange County of Toronto into two counties, according to rumor. It is proposed to divide the present county into east and west Toronto, with Yonge-street as the boundary line.

There has been a feeling for some time that the present county is too big, and therefore hard to administer. For purposes of the association the City of Toronto is a county and for a long time it has been the largest in Canada. It consists of nearly 100 primary lodges, besides having three or four district lodges.

The World is informed that the proposal may take definite shape with the completion of the new Orange hall at the corner of Euclid-avenue and College-street. According to those who favor the proposal of two counties this building could be used as the West Toronto County Hall, and Victoria Hall, the present county headquarters, as the East Toronto County Hall.

## ANTI-HOME RULE MEETING.

Secretary W. Lee announced yesterday that Wednesday, Feb. 25, had been selected for the O.C.C.L. demonstration at Massey Hall to express sympathy with the Ulster loyalists in their opposition to the home rule bill.

Mayor Geary will be chairman. Platform invitations will be issued to all the Protestant ministers in Toronto.

The various Protestant benevolent societies will be invited to send representatives.

## FEAR NIAGARA ICE JAM.

**NIAGARA FALLS, Ont., Feb. 11.—(Special).—**Fears that an ice jam similar to that of three years ago will form in the lower river, are expressed by river men. The thermometer hovering below zero increases the danger, as reports from down the river points tonight say the ice is moving slowly and the river is almost choked at the mouth. It was 16 below zero at midnight Saturday.

## PEACH CROP RUINED?

**LEAMINGTON, Feb. 11.—**Each grower in this district declares that the crop will be almost a complete failure because of the cold weather on Saturday morning, when the thermometer registered 19 below.

## LABOR AIMS NOW TO DOMINATE BRITAIN

**Tremendous Strides Made in Legislation to Better Conditions of Workers Regarded as Only Half a Loaf—Objection to Woman's Suffrage Complicates Situation.**

**LONDON, Feb. 10.—(Can. Press).—**Since the Liberal party returned to power in 1905, and particularly since it has depended for its political life on the support of the Labor and Nationalist parties, more legislation of the kind advocated by trades unions has been enacted than in any similar period in the history of the country. Still, labor, or at least the independent labor party, which is largely dominated by the socialists, is not satisfied and has arranged a program which, as last year's president of the party, Ben Turner, admitted, contains expectations much greater than the possibilities.

Mr. Turner said that the party had not done all that it should have done, the fault lying in the fact that it lacked numerical strength. Its business now is, he added, to make it the dominating, controlling, guiding and ruling party of the state.

Much Labor Legislation.

In the last few years the Laborites have been enacted into laws of the parliament the Trades Disputes Act, which permits peaceful picketing during strikes; an act to provide for the feeding of school children; the Compensation of Workmen Act, which provides for the payment of compensation to workmen injured on the job.

## CIGAR STORE ENTERED

**Burglars Broke Window in Alive Ballard's and Stole Watch.**

Removing the plate glass of the rear door thieves effected an entrance into Alive Ballard's cigar store, Yonge-street, early Saturday morning. Seemingly they were disturbed in their game, for they only got away with a gold watch, belonging to one of the clerks, and a small quantity of tobacco. About 3 o'clock Constable Mead came upon the scene and discovered that the store had been entered. A posse of officers were immediately sent on a scurrying expedition, but as yet no arrests have been made.

## OPEN PARKDALE BAPTIST CHURCH

**New Building Was Crowded On Three Occasions, When Special Services Were Held.**

Parkdale Baptists opened their new church at the corner of Queen and Calder-streets yesterday with appropriate services and immense audiences. The building is a magnificent one through and is a credit to the district. Large sliding doors separate the church from the Sunday school. The doors, when raised, disclose a large Sunday school room, which can be utilized as an annex to the church when needed. Rev. T. E. Grigg, the pastor, preached at both services yesterday. A large orchestra supplied the music, as the new organ has not been installed as yet. The afternoon services were conducted by Rev. W. A. Cameron, former pastor of the church, and in the evening the pastor preached to an audience that completely filled the edifice, the new Sunday school wing having to be utilized to accommodate the large crowd. W. H. Norris was soloist both morning and evening, while Mr. Quarrington sang in the afternoon.

## LABOR TEMPLE OFFICERS

**Receipts at Building Last Year Were More Than Ten Thousand Dollars.**

The Labor Temple Co., who control the Temple on Church-street, held their annual meeting and election of officers Saturday evening. Dave Carey occupied the chair, and a very successful year was reported. The total receipts were \$10,297.97; expenditures \$804.16, showing a balance of \$2,224.81, and a cash surplus in the bank of \$32,216. Total assets, \$48,921.81, and a surplus above liabilities of \$22,113.72. Another very successful year is looked forward to by the organization.

After the meeting the following directors were elected for the ensuing year: James Simpson, David Carey, W. Storey, G. Gibbons, L. H. Gibbins, J. Spenser, G. McFadden, Jas. Watt, Jas. Ralph, W. Ayers, A. Thompson, Thos. Walsh, Thos. Doolin, A. C. Sanders, W. Glocking.

## SEXTON DIED IN CHURCH.

**LONDON, Feb. 10.—**Edward Elliott, sexton of St. John the Evangelist Church, was found dead in the basement of the church about 10 o'clock tonight, where he had gone to attend the heating apparatus. Acute indigestion was the cause.

## DANCE HALL PATRONS, HOTEL GUESTS AND TENEMENT DWELLERS FLED FROM BLAZE WHICH DID \$300,000 DAMAGE NEAR BOWERY—DRIVEN FORTH IN ZERO WEATHER.

**NEW YORK, Feb. 10.—(Can. Press).—**A fire so serious that all of the fire fighting apparatus in the city was summoned to combat it broke out late tonight in one of the most congested sections of New York, near the Bowery, throwing thousands of tenants, hotel guests, theatergoers and others in a panic. In place of the great casualty list which the police feared, the reports from the scene were startling from the fact that not a single serious injury was reported. The wonder of it was great when the police figured out that nearly 5000 persons were driven from crowded buildings at a late night hour, some in panic, in the streets, where they shivered in cold near zero. The total damage was about \$300,000.

The rout which the fire caused was summed up as follows:

## HOTELMEN WANT FLAT RATE FOR ONTARIO

**Five Per Cent. Tax on Receipts Over \$60 a Day Is Regarded as Unfair by Local Liquor Dealers, Because City Taxes and Licenses Are Very High.**

The Toronto Hotelkeepers' Association are on the warpath. Before the present session of the legislature is at an end the executive of the association will make a suggestion to Provincial Secretary Hanna, asking for the removal of the five per cent. tax on bar receipts over \$60. As an alternative, the Toronto hotelkeepers suggest the establishment of a general flat rate on gross receipts for the whole province. The abnormally large high taxes that the Toronto hotelkeepers have to pay coupled with the fact that their annual license amounts to \$1,600, appears to be a big enough handicap without the five per cent. tax, they say.

The license for hotels outside the city limits, say at the Humber, is not much more than \$120 per annum, and yet it is alleged that these hotelkeepers often take in as much as some of the Toronto bars with heavy expenses to meet. By the proposed new arrangement the Toronto men would not be compelled to bear the burden of contributing nearly all the tax on bar receipts for the province.

For nearly a year the local hotelkeepers have been furnishing the government with a sworn statement of their receipts, so that it would be quite easy for the provincial license department, with all the data they have at hand, to strike a graded flat rate for the entire province.

## STOLE JEWELRY WORTH \$5000

**Two Men Smashed Window in New York Store and Snatched Tray of Diamonds.**

**NEW YORK, Feb. 11.—(Special).—**Two seedy looking men who entered the jewelry store of Max Machlis, No. 16 Clinton-street, at 8.30 last night, ostensibly to purchase an alarm clock, smashed the plate glass window in the front with a hammer as they were leaving the place, set off \$5000 worth of diamonds and jewelry which were on exhibition there and escaped in spite of the fact that a score of persons pursued them a distance of ten blocks.

Machlis and his wife were standing to customers when the two men entered. Machlis was in the rear behind a counter and his wife was close to the door. There were about ten customers in the place.

## FIRE IMPERILS 5000 PEOPLE BUT ALL GET AWAY SCATHELESS

**Dance Hall Patrons, Hotel Guests and Tenement Dwellers Fled From Blaze Which Did \$300,000 Damage Near Bowery—Driven Forth in Zero Weather.**

**NEW YORK, Feb. 10.—(Can. Press).—**A fire so serious that all of the fire fighting apparatus in the city was summoned to combat it broke out late tonight in one of the most congested sections of New York, near the Bowery, throwing thousands of tenants, hotel guests, theatergoers and others in a panic. In place of the great casualty list which the police feared, the reports from the scene were startling from the fact that not a single serious injury was reported. ## THE BIG EYES CLUB.

**J. P. Mabey, chairman of the Railway Commission, gave judgment on Saturday based on Toronto being a city of a million.**

When is the city hall, the mayor and the council, to get in that class?

When are our newspapers to get in that class? Come on, boys and join the Big-Eyes Club.

HAMILTON HOTELS HOTEL ROYAL

HAMILTON HAPPENINGS

LEVEL CROSSING CLAIMS VICTIM AT HAMILTON

Russian Jew, Driving Home, Struck by Train—Frightened Horse Charges Crowd.

HAMILTON, Feb. 11.—(Special.)—Morris Studez, a Russian Jew, 30 years old, living at 377 Sherman-avenue north, was almost instantly killed at the Sherman-avenue crossing of the Grand Trunk Railway, when an east-bound passenger train about 9 o'clock Saturday morning crashed into the grocery wagon which Studez was driving across the railway tracks.

The body of the victim and the top of the wagon were carried several blocks by the train before it could be stopped. The gates at the crossing, which are ordinarily used for the protection of the public, were out of order when the accident occurred, and the railway company's watchman was also absent at the time, owing, it is said, to his being sick. The body of Studez was removed to the city morgue, where Coroner Hopkins opened an inquest at noon Saturday. The enquiry into the circumstances of the man's death will be continued at the central police station on Thursday night of this week.

Serious Runaway. A runaway with nearly fatal results occurred shortly after 6 o'clock Saturday evening, when a horse attached to a cutter which had been left standing at the corner of Hughson and King-streets, became frightened and bolted down King-street, in front of the Waldorf Hotel it ran onto the sidewalk, and into a crowd of people, John Corner, Burlington; Alex. Bolinski, 878 Sherman-avenue north, and a woman whose identity is unknown, were knocked down by the frantic animal.

Needn't Fear Bilingualism. "Bilingualism a Bogey" was practically the opinion expressed of that troublesome subject this morning by Rev. J. E. Hockey of Waterloo, who was the preacher at the anniversary services of the Simcoe-street Methodist Church. "We have no occasion to fear bilingualism," declared the speaker. "For every English child who is being taught French, you may be sure there are a hundred French children learning English." The speaker also touched upon church union, and averred that if we can not have church union we must at least have unity of church.

John A. Brashear, the Pittsburgh American who has risen from the position of a poorly paid mechanic, in his younger days, to present world-wide fame among astronomers as the maker of a marvelous telescope, was attached speaker at the Canadian Club luncheon at the Waldorf Hotel last night. His subject was "A Trip Through the Stars." The lecture was profusely illustrated with photographs of stars and planets, and was greatly enjoyed by members of the club.

John Billings, president of the hospital board for the last ten years, died at his residence early this evening, after several weeks' illness, at the age of 71 years. Mr. Billings was one of the founders of the Tuckett Tobacco Co. in this city, the success of which was being conducted under the name of Tuckett and Billings. Mr. Billings resigned from the business several years ago.

Robert Redshaw, an employee of the T. H. and B. roundhouse, was severely burned by the explosion of a torch while at work early this morning. He was taken to the City Hospital and is in a serious condition.

Hotel Harrahan, corner Barton and Catharine-streets, Hamilton, is being entirely situated and easily reached from all parts of the city. Erected in 1908. Modern and strictly first-class American plan. Rates \$1.50 to \$2.00 per day. Thos. Harrahan, proprietor. Phone 1445.

HE REFUSED CHAMPAGNE.

At a dinner party the other evening, a hostess was much surprised to notice that one of her guests, a well known "bon vivant," refused champagne and asked if he might have a little Rye and Radnor. He explained, however, that he found that Radnor Whiskey was so deliciously with Canadian Whiskey that he preferred it to any other beverages.

A Snap, \$255.00. Ontario Diamond Co. 90 Yonge Street, Toronto.

Pastor Russell's Sermon

MADRAS, India, Feb. 11.—The "Foreign Missions Investigation Committee" is here. Our finest attention and the Victoria Hall, was crowded to hear Pastor Russell. He spoke twice today. We report one of his discourses from the text: "The blessing of the Lord, it maketh rich, and he addeth no sorrow therewith." (Proverbs x, 22). He said: "The thing which strikes me especially as I visit your great city for the first time is the marked contrast between the palaces of Blacktown—the contrast between great riches and great poverty. But think not that I have come into your midst to speak words which would engender strife or even discontent. Rather my message is one of peace. I bear you the message of the Kingdom of God's dear Son—the kingdom for which we have all so long prayed, 'Thy Kingdom come; Thy will be done on earth, as it is in heaven.' While the attainment of a share in that kingdom will mean the acquisition of the 'Pearl of Great Price,' which is promised to the faithful followers of Jesus, nevertheless, the kingdom itself will bring blessings, thru Abraham's seed, to every nation.

The luxuries, mental and physical, which prevail among us as members of a fallen race, produce naturally our recognition of aspects which are social conditions; it is well, therefore, that we should not accept the rabid views entertained by many, but we should think soberly and dispassionately. We should remember that God Himself is very rich. All the gold and the silver are His, and the cattle upon a thousand hills are His. His power, beyond human comprehension. We should remember that it is written that 'Abraham was very rich' and that his riches did not interfere with the fact that he 'was the friend of God,' and that to him God gave that great promise secured by divine oath, which is the basis of all hope for the blessing of the world: 'In thee and in thy seed shall all the families of the earth be blessed.' Other noble characters on the pages of history are noted as having possessed great wealth.

We should therefore view the matter of poverty and riches philosophically. Both poor and rich should be encouraged to use faithfully the opportunities which they possess and to wait patiently for the Lord's time and way for the introduction of the new order of things which He has promised, assured that it is not in our power to hasten or delay the divine program.

The apostle says, "Charge those amongst you who are rich that they trust not in uncertain riches." The history of centuries corroborates the apostle's words. The rich and prominent of one day become the poor and forgotten of another. "Riches take wings" in a manner that poverty rarely imitates. The talents and opportunities which have brought great wealth to some of our prominent Americans have brought wealth and prosperity in smaller measure to those associated with them in their enterprises. Indeed, in some respects the entire world, and particularly America, owe a debt of gratitude for their energies and perseverance in the exercise of their talents and opportunities along the broad lines.

Our text is an epitomized statement of the gospel of Christ. All God's blessings for our race will come thru the seed of Abraham—the Christ. The giving of His Son to be man's Redeemer and Deliverer from sin and death was God's blessing to man-making man rich. Messiah, having died for the redemption of the world, is about to bestow upon men the divine blessing promised to Abraham—"In thee and in thy seed shall all the families of the earth be blessed."

That blessing to the non-elect world will be a glorious opportunity for rising up out of sin and death conditions to full human perfection in image and likeness of God—as Adam possessed this before his fall. It will mean the bringing of the earth to the conditions pictured in Eden. The earth, God declares, He formed not in vain, but to be inhabited. At present man is in a condition of enmity and separation from his Creator and his earthly home is disordered. God's footstool, for six thousand years, has been the scene of a terrible reign of sin and death.

The only hope is in Messiah's Kingdom, which God has promised shall be established for the overthrow of Satan, the abolishing of ignorance and superstition, the enlightenment of mankind and the uplift of all the willing and obedient and for the destruction of the willfully wicked in the second death.

But before the Kingdom could be established a redemptive work was necessary for the satisfaction of justice on behalf of Adam, the sinner, and his race involved with him. By the grace of God Jesus has appeared and, as a corresponding price, has died, the just for the unjust, that He might bring us back into harmony with God and bring in the glorious and long-promised thousand years of restitution. —Acts III, 19-21.

COL. HENRY WING IS DEAD. LEWISTON, Me., Feb. 10.—Col. Henry A. Wing, founder of the Lewiston Military Station, and for many years prominent in Maine newspaper circles and public affairs, died today after a year's illness, aged 88.

Wilson's Invalids' Port

For Convalescence: Wilson's Invalids' Port (A la Quina du Pérou) A Big Bracing Tonic. It restores the diminished power of resistance and thus guards you against further infection by disease agents. It is adapted to the enfeebled digestive and assimilative power of the patient, overcomes biliousness, impairs nutrition and depressed nerve force.

PUBLIC AMUSEMENTS

GRAND OPERA ENGAGEMENT. The Montreal Opera Company, one hundred artists, arrived in Toronto early last evening on a special train of ten cars. Most of the principals have given a concert at Toronto, and are looking forward with eager anticipation to the forthright enunciation of the grand opera, which commences to-night. The company carries a complete and separate wardrobe of costumes, properties and scenery for every one of the twelve operas to be produced during the season. The orchestra alone numbers as many as the grand opera company that visits Toronto, and the unique feature of this engagement is that the company will be cast of Puccini's famous opera, "La Tosca," which has had but one previous presentation in Toronto, Madame Ferrabini will be seen in the title role, which she is probably the greatest living exponent of the role anywhere. The tenor role will be sung by Ugo Colombini, whom Torontonians will give a warm welcome, and the mezzo-soprano role will be heard in the person of Signor Nicoletti, one of the most noted baritone artists of the Italian continent.

How intensely the girls in the department store are interested in their work has been demonstrated many times by Miss Rose, who comes to the store every night, and remains for the balance of the week, with matinee Wednesday and Saturday. The new play, "Maggie Pepper," on the occasion of the grand performance of the evening, with Miss Rose, with the consent of her manager, Henry B. Harris, Miss Stahl is giving a private performance to a house full of the girls whose lives she has studied. Of course, the part which Miss Stahl performs is not only very interesting, but also very instructive. She discovered shortly after beginning her engagement at the Harris store, that she was not only a good shopper and give her name for the delivery of goods without being a living being, but also a very good person in the play. This, of course, was pleasant, but sometimes embarrassing. She therefore invented a scheme to avoid this.

Recently Miss Stahl and a friend went to a big department store, and Miss Stahl made a purchase. She ordered it sent to Miss Marie Brown at a Forty-fourth street hotel. On leaving the store the friend said: "When you send that to somebody to whom you want to make a present, 'Not at all,' replied the actress. 'I sent it to my friend, I used my friend's name.' Then she explained.

"THE LIGHT ETERNAL." Lofly ideals and sentiments that ring as true today as in the fourth century, are the keynote of "The Light Eternal," the big religious play, which will be given at the Grand all this week. All the glories of the religious drama, in its costumes and scenic settings can lend has been utilized in making this production worthy of the occasion. The play, which has been consulted for the theme, and the horrible tortures of the early martyrs make the climax for a story of love and religious devotion. Through the four acts the earnest and beautiful story is unfolded in the portrayal of the excellent cast, and the religious sentiment of the audience into a living drama, and a story of enthusiasm invariably greets the close of the third act—where the Christian sign appears above the entrance to the pagan god of gods, Jupiter. The name of Louise Dunbar, appearing in the principal feminine role, lends to the offering an added eclat, gained by her fine training and artistic achievement. A certain strength and fire characterizes her portrayal of the role of Arctania, that suggests the imperious beauty of the Roman court, while her gentler moments have the tenderness of a loving woman. However, Miss Dunbar's personal and artistic marked dramatic skill cast but slight shadow over the drama, and a story of enthusiasm invariably greets the close of the third act—where the Christian sign appears above the entrance to the pagan god of gods, Jupiter. The name of Louise Dunbar, appearing in the principal feminine role, lends to the offering an added eclat, gained by her fine training and artistic achievement.

"THE PASSING PARADE." The George North Amusement Company's organization, "The Passing Parade," will be given at the Grand all this week. It is one of the largest and most interesting spectacles ever brought around the country for the entertainment of the burlesque clientele and has all the features that go to make up a two dollar attraction. This production comes under the head of "dainty burlesque," which in the last two years has placed burlesque companies on an equal level with the best attractions before the public. The show contains the best features that a liberal expenditure can secure, and has for principals the superb beauty of Ronald Chas. Aveline, Leo Rose, Al Canfield, George Mayo, Helen Ely, Anna Belle, Libby Blondell and Carrie Behr.

DEMOCRATIC BOLT SHOT SAYS PRESIDENT TAFT WHOSE MOOD IS DEFIANT. WASHINGTON, Feb. 10.—(Can. Press).—Speaking with campaign fervor and defiance, President Taft told an enthusiastic gathering at the annual banquet of the League of State Republican Clubs that he welcomed the coming campaign as "a four-month period in which to get rid of lies and misrepresentations."

MACKLYN ARBUCKLE AT SHEA'S. Macklyn Arbuckle will head the bill at Shea's Theatre this week in a new one-act play, "The Reform Candidate," written by Edgar A. Guest. The play is a strong appeal to both men and women and has a moral element which is not only instructive, but also humorous, philosophical and timely.

LAW OF CRIMINAL LIBEL. A book on this subject, from the press of the Carwell Publishing Company, has more than a passing interest for the newspapers. The law of libel is inseparably connected with the newspaper press. Before it was amended in this province, a libel editor was almost a necessity on the staff of every daily newspaper; the journalist's path was strewn with many pitfalls. The author of the work, John King, K.C., did much to have the law amended. Mr. King, who was for many years the legal adviser of the Canadian Press Association, drafted amendments to the law of libel, civil and criminal, which greatly improved the position of newspaper writers and publishers; and in his professional practice he has been successful in securing decisions from the courts and judges which have settled the law acceptably on not a few important points.

Elizabeth Murray's Boston Tour. Elizabeth Murray, the comedienne, "Madame Sherry" at the Ephesus Theatre next week, carries her two dozen blue ribbon prizes on tour. These blue ribbon prizes are known to gaze upon the faces of the country, for Mrs. Murray gives them the run of the house back of the scenes. Their names, Footlight and Chrysalis, are taken from the theatre vocabulary.

THEIR GROUP Romp Away From T.A.A.C. in Final Senior Game—Will Now Meet Kingston for Senior Championship

Eatons completely outclassed T.A.A.C. in a Senior O.H.A. game Saturday night at the Excelsior Rink, and the final score read 14 to 6.

Much was expected of the crimson team on account of a win over the Big Store earlier in the season, but they failed to show the necessary class and the outcome of the game was never in doubt.

With the exception of the first fifteen or twenty minutes of play, the game was anything but a good exhibition of hockey. Both teams were on edge at the start and the game had all the appearance of a great struggle.

Eatons notched four in a row from the commencement of the second period, and the game looked like a burlesque. Crane secured the final goal of the match.

Poynton featured for Eatons, ably assisted by Mackenzie and Laflamme, this time playing the role of a forward.

MONDAY MORNING, FEB. 12, 1912.

IS MAYOR GEARY TO GET BIG EYES?

The first man to join the Big-Eyes Club is Chairman Mabee of the Board of Railway Commissioners. In giving his judgment on Saturday against the closing of York-street he said: "We feel that in considering these plans we should not figure on present conditions only. We feel that the rapid development of the city, the establishment of a deep water harbor, and the growth of the country will produce an increase in traffic in the future which at present is not even dreamed of, and we feel that it would be a great mistake to send all the traffic from this mile and a quarter of waterfront around by Bay-street."

That is, the railway board have eyes big enough to see that Toronto is shortly to be a city of a million people, and that if we are to be equal to such a destiny we must begin now to plan for it. No city of a million can be built on an area that is giving civilization only to 200,000 people, although Toronto's population close on to half a million. If ever there has been anyone convinced of being small in their ideas and unequal to the task of solving what is ahead of Toronto, it is those men and newspapers that defeated the annexation of North Toronto, the building of the Bloor-street viaduct and the Teravay-street tube. As a consequence there is nothing left now but for the city council to take up all these questions anew and submit the tube and viaduct questions to the public at the earliest possible moment.

If we don't get started now on this and other necessary improvements Toronto will be in a mess and the growth of the city held back. Up to the present moment, the over six weeks of the year have gone by, the city council has failed to settle even one of the problems before it. Everything is being delayed, everything is being put off, no quick action is being taken. There is only one possible solution of these questions, and it is to do the things that have been proposed. We have got to have a bigger city, we have got to have the tubes, and we have to have more high-level bridges leading out of the city. And we have got to make provision for the traffic to come into Toronto, and there is no other provision like the Teravay-street tube as a way in for the Kingston-road radial, the Metropolitan and the Weston radials.

For his part the mayor made any proposition in a way of compelling the steam railways to give Toronto a suitable suburban service. This, too, has apparently been dropped. Nor have they dealt yet with the suggestion of finding a first-class traffic expert to advise the city and to manage its municipal lines that are now being constructed.

What one question does the mayor propose to deal with and close up this week? And what one next week, and so on week after week take one at a time and get rid of it by doing it.

THE EQUALIZATION OF RAILWAY RATES. The more we read the western papers, the more we are convinced that the fastest and the right way to secure railway rates in Manitoba and the west put on an equality with the other provinces in the east, would be by a declaration in favor of such a principle by the house of commons, either as the opinion of the house, or as a bill introduced in the railway act.

and things of that kind. We do not accept this doctrine at all; but we say that inasmuch as the railways have been aided as national undertakings and out of the national purse, the more fact of costing more to build a road in one province than in another ought not to call for discrimination.

National railways should give equality of treatment to all the people of the nation. That is our view of it, and we are confident that this view will ultimately obtain. If parliament had the courage, it would obtain in five minutes, and if the newspapers would call upon parliament to declare it, it would obtain in five minutes.

EGGS AND EGGS.

A morning paper which shall be named, for it really knows better, is editorially expected over the problem of the price of eggs. Eggs are sold by the farmers as low as 30 cents in the country, but new laid eggs cost 50 cents in Toronto is the complaint. The trouble with the journal in question is that it always makes its arguments without any direct relation to the facts, and thus it is gradually losing any weight it formerly had. Strictly new laid eggs are eggs that have been laid within 24 hours, and they are worth all of 50 cents a dozen. They are, as a rule, only to be procured for city sale inside the city limits. There is a movement now on foot to suppress the keeping of poultry in the city altogether. It will merely raise the price of eggs. These city eggs are generally of the best quality, being the produce of wheat-fed stock.

It is practically impossible for the farmer to get his eggs to the grocer within 24 hours. He might do it once a week, but even then he has a week's supply of eggs, from one to seven days old, fresh eggs, but by no means "strictly new laid." The eggs one hears of in the north or the west, a hundred miles or more away, may sell for 25 cents a dozen, where they are produced, but they cost, where they are produced, "strictly new laid" at points several days distance off by rail.

The problem of getting eggs on the market or to the consumer within 24 hours of being laid, is the problem whose successful solution means a fortune to the poultry man. On the Hudson River there are several big egg farms which cater to the New York trade. The eggs are all gathered on these farms, which have from 5000 to 10,000 laying hens, as soon as possible. They are dated, stamped, packed in special boxes, and shipped at once. The consumer has these eggs for breakfast at a dollar a dozen, according to the season. If the morning journal wants cheap eggs, they can be had in any Toronto store, but if the journalist is an epurated with a palate educated beyond his pay, he must be prepared to pay for his choice.

In fact the high cost of living is to a great degree the result of an extension of the standard of living, which used to be confined to a comparatively small portion of society, to the whole range of the population. How many people are having meat three times a day, whose fathers used to have it once a week? How many families make porridge the chief and sometimes the only dish at breakfast as often used to be done? How many are now buying the best and choicest cuts who were formerly satisfied with the moderate priced joints? And how many are outraged and insulted at the suggestion that the older and more economical way was quite good enough. The families which have stuck to the old, simple ways of living, who find, for example, whole wheat bread and butter and fruit an ample and wholesome supper, are not the families complaining of the high cost of living. Charles Dickens tells how when he was a boy he was tempted sometimes to spend his dinner money on stale confectionery. A good many people are still in that stage of indiscrimination.

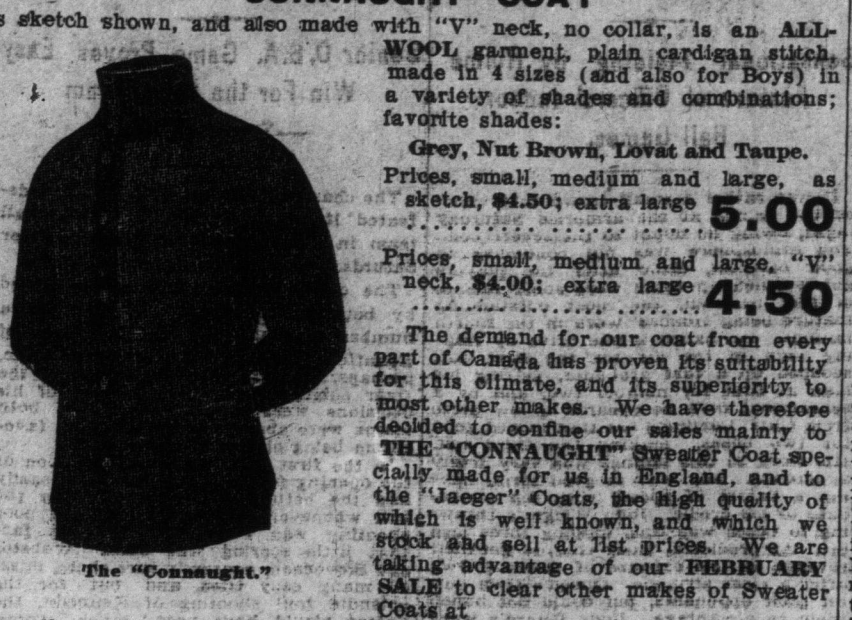

MENTAL DEFICIENTS. If Mr. Rowell wants a real ground of attack upon the government, he might like to see the case of over-crowded hospitals for the weak-minded and insane, and keep at it till something is done. It might not be so sensational as proving that Sir James has the good sense to change his mind occasionally, but it would be of more use to the community.

The case of a child of degenerate type which came before the commission of the juvenile court on Saturday is one of which Ontario has a right to be ashamed. The boy is eleven years old, and is utterly devoid of moral sense. He is a menace to other children, whom he has attacked. He cannot be allowed in a public school nor in the Children's Shelter, and Superintendent Downey of the Orillia Institution declares he has a list of 300 waiting for admission for whom there is no room. After this one case is disposed of there ought to be indignation enough left over to deal with these 300. Under the circumstances all that Commissioner Starr could do was to evade the law and send the boy to the personal custody of Governor Chambers, who will provide for him in the jail hospital. Nor is this boy's the only case of juvenile abnormality for which there is no proper accommodation.

There is evidently a huge problem here awaiting attention. It may be that in the proposed removal and reconstruction of the Queen Street Hospital for the Insane provision will be made for the 300 to whom Mr. Downey alludes, but the public would like to

Sweater Coats Essential Winter Sports

Afford comfort for general wear. Equally suitable for Gentlemen and Ladies. Our "CONNAUGHT" COAT

as sketch shown, and also made with "V" neck, no collar, is an ALL-WOOL garment, plain, cardigan style, made in 4 sizes and also for Boys in a variety of shades and combinations; favorite shades: Grey, Nut Brown, Lovat and Taupe. ANNOUNCEMENTS. 10th February, 1912. Motions set down for single court for Monday, 12th inst., at 11 a.m.:

- 1-Hamilton v. Lester. 2-Dominion Bellis v. Jester. 3-Caval v. O'Belne. 4-Elliott v. O'Belne. 5-R. Jones and Cumming.

MORE OPTIMISM NEEDED.

The War in China Affects One of Montreal's Industries. There is only one place in the world where you can buy the China Wood Oil which was recently discovered to respond to a secret process for making the highest class of waterproof varnish. "Dyke's" Varnishes, they are called, because the city recently destroyed by the revolutionists in China was the seat of the oil industry.

When the trouble in China grew serious, and the missionaries were flying for safety, the president of the Holland Varnish Company in Montreal noticed that they had imported sufficient of the valuable oil to last them purposes until July. Mr. Holland had discovered, after some years of research, a process for using this wonderful China Wood Oil. The company now finds that the tremendous increase in their trade throughout the world has exceeded their anticipations and they have to import more oil and pay nearly 25 per cent. more for their oil. Naturally the Holland Varnish Company are keen readers of the war news from China.

FIRE IN POWER STATION.

One of the generators in the sub-station of the Toronto Power Company, Davenport-road, was damaged by fire which broke out shortly after 1 o'clock Sunday morning. About \$200 damage was done to the station itself, while the generator was injured to the extent of \$400. The fire originated in the boiler room, and spread to the sub-station. The fire department was largely instrumental in holding the damage to such a small figure. The sub-station feeds the west end of the city, and the fire caused a considerable interruption of traffic, which was not hindered to any extent.

FIRES COAL RIOT IN FRANCE.

MONS, France, Feb. 10. (Can. Press.) A detachment of chasseurs came into conflict to-night with striking coal miners who have been engaged in serious disorders. The chasseurs charged the strikers with their bayonets and then fired a volley into the mob, two of whom were killed. The enraged rioters attacked the troops so fiercely that the soldiers broke ranks and fled. Subsequently they rallied and charged again, scattering the mob, numbers of which were injured.

FINE CHURCH AT IROQUOIS BURNED.

IROQUOIS, Feb. 11.—The fine Methodist church erected here in 1857, at a cost of \$25,000, was gutted by fire today. When discovered, the fire had made such headway that the volunteer fire brigade were powerless. Some valuable relics were lost.

is the very thing which Duryea agreed to give to the company. The agreement provides that he shall disclose special processes of knowledge and skill for the benefit of the company. Duryea has not in any way carried out this obligation. During the argument his counsel said that the agreement was made in 1870, and that it was to be limited, making the necessary disclosures to the company, so that the patents may be successfully operated, then the only question will be the damages already sustained by the company. These I assess at the sum of \$750, plus the cost of any royalty on the output. If he fails to make the disclosure then he must answer in damages and a substantial sum will be awarded. The question of damages up to the present, by reason of the delay, will be dealt with later on, and if the parties cannot now agree as to the amount of the disclosure of these special processes, I may be spoken to. I find nothing in the statement of the inventor to justify and claim for a purified starch as distinct from a modified starch. The patent being in the hands of the plaintiff, and I might rest my judgment upon this branch of the case here, but the parties desire and are entitled to my findings in the interest of justice, and I have come to the conclusion that the plaintiff's patent is radically and essentially different from the modification intended to be the subject of the Duryea patent. I have then come to the conclusion that there is no infringement of the plaintiff's patent, and I do not think costs should be awarded against the plaintiff. The defendants' contention that the plaintiff has succeeded upon the issues of greatest importance, and which have been most expensive to try. The plaintiff's counsel has taken costs into consideration, it is that a balance of \$425,000 is found in favor of the plaintiff, who has made the disclosure in the terms agreed upon.

Divisional Court. Before the Chancellor, Letchford, J. Smith v. G. T. R. Co. - J. R. Logan (partner) for plaintiff; W. B. Foster for defendant. An appeal by the plaintiff from the judgment of Britton, J., of Dec. 15, 1911. An action by Jean Smith, plaintiff, and administrator of Charles Duryea, defendant, against the Great Northern Railway Company, defendant, for damages for the loss of a locomotive engine which was destroyed by fire on July 20, 1911, and the loss of the contents of a baggage car which was destroyed by fire on the same date. The plaintiff claims that the engine and baggage car were destroyed by fire which was caused by the negligence of the defendant. The defendant claims that the engine and baggage car were destroyed by fire which was caused by the negligence of the plaintiff. The court found in favor of the plaintiff, and awarded damages of \$425,000, plus costs.

Master's Chambers. Before Cartwright, K.C. Master. Brodie v. Patterson - J. B. Charles, K.C., for owner; J. P. Maclean for plaintiff. Motion by the owner of the equity of redemption in certain lands in Lake Superior, to extend the time of redemption until 1st March prox., with a view to enable him to redeem by a fresh loan or a sale.

Order made. Shea v. Shea - McLarty (Robbette A. Shea) for plaintiff; J. B. Charles, K.C., for defendant. Motion by plaintiff for an order vacating certificate of his pendens. Order made.

Order made. Weber v. Cross - J. Mitchell, for defendant. Motion by defendant for an order for an order of discharge of lien and his pendens. Order made.

Keating v. Hames - Gordon (Barrington) for plaintiff; Hamer and O'Kelly, judgment creditors. Motion by judgment creditors for an attaching order. Order made, returnable in the court on 1st inst. on widow of plaintiff at New York.

Before Sutherland, J. Weber v. Bowman - A. B. McBride (Weber) for plaintiff; Wm. Cram (Bowman) for defendant. An action by plaintiff, a farmer, against defendant, a miller, for damages for the obstruction of the waters of a stream flowing through plaintiff's land, and for an injunction. Judgment: I direct judgment to be entered for plaintiff for an injunction restraining defendant from flooding and swelling the waters in the stream in question so as to go within the three-foot limit for defendant's mill, and for \$25 damages from the time the dam was constructed until the date of this judgment, and for the amount of damages, in which case one is directed to the Master at Berlin, who is to have the discretion of the court as to the reference as to the amount of damages. In which case one is directed to the Master at Berlin, who is to have the discretion of the court as to the reference as to the amount of damages.

Before Middleton, J. Duryea v. Kaufmann - N. W. Rowell, K.C., and S. C. Wood, for plaintiff; D. L. McCarty, K.C., and F. McCarty, for defendant. This is an action by Duryea, a chemist, for many years in connection with the manufacture of starch and starch products in the United States against Kaufmann and the Edwardsburg Starch Co., for damages, for an account of profits, for royalty, etc. Judgment: In the manufacture of this modified starch process and skill to be acquired from the patent itself, are necessary to enable the company to obtain the best results. The nature of this special knowledge and skill was not disclosed upon the hearing, but it was said that it related to certain secret testing methods necessary to enable any pre-determined degree of modification to be readily and accurately obtained. This

O.K. A Royal Brew! A good many men say that "Gold Label" is the finest Ale that we have ever brewed. It's all a matter of taste. If you prefer a rich, old, creamy ale—that proves its quality by its delightful flavor—just try "Gold Label." Every bottle sealed with an easily opened "Crown" stopper. O'Keefe's "Gold Label" Ale "The Beer that is always O.K." 123

MICHIE'S GLENERNAN SCOTCH WHISKY A Blend of Pure Highland Malts BOTTLED IN SCOTLAND EXCLUSIVELY FOR Michie & Co., Ltd., 7 King St. W. TORONTO

allowed and judgment to be entered for the plaintiff for \$150, with costs of action and appeal. For a Comfortable Trip to Montreal secure a berth in a Pullman sleeper on a Grand Trunk train. The smooth roadbed, laid with 100-pound steel rails, together with the only double-track line, makes this the "delectable" route. Four Grand Trunk trains leave Toronto daily, the 9 a.m. and 10.30 p.m. being particularly attractive, the former carrying dining car and parlor-library car to Montreal, while the latter has five or more Pullman sleepers to Montreal, and the latter has double-truck electric lighted real daily (which may be occupied at 9 p.m.) and a through Ottawa sleeper. The Grand Trunk is the only double-truck route. Electric lighted dining cars and parlor-library cars are also available. Tickets, berth, and dining and parlor tickets may be obtained at Grand Trunk City Ticket Office, North-west corner King and York-streets. Phone Main 4200.

Aviator Fell into Sea. ANTIHER, France, Feb. 10.—The American aviator, Hugh Robinson, while making a flight to-day in his American hydroplane, in a series of trials before French officials, fell into the sea. He was descending after having sojourned for a time, and his machine was caught between the heavy wind and the swell of the sea and Robinson was not hurt and swam ashore.

"HAVE you Tuckett's Cigarettes?" "Yes, sir, what kind?" "Club Virginias, please. May seem like a strange thing, but nearly all you tobacco men keep Tuckett's, and what's more, you never seem to offer substitutes for them." "Is that so? Well, I guess 'tould be 'bout as much as our trade is worth. Customers as a rule know what they want, and ask for it by name. Personally, I know the Tuckett line is O.K. Handled it, in fact, ever since I went into business. They put real quality in their cigarettes, and I tell you there's nothing like quality after all to please people and make them steady customers." Tuckett's Cigarettes. The dealer's statement is borne out by the facts. In each package you'll find ten arguments in favor of smoking Tuckett's. Demand the evidence. Your judgment will endorse everything the dealer and our advertising may say about them. Three Varieties: Tuckett's Club Virginia, 15c for 10 Tuckett's Special Turkish, 15c for 10 Tuckett's T. A. B., 10c for 10 TUCKETT LIMITED, HAMILTON, CANADA

## SPRING SKIRT MODELS.

Smart, well-tailored skirts of Panama cloth, in black and navy, six-gored, with the high waist, plain front and back panels. An inverted pleat is let in at the foot of the side-gores, self-covered buttons are used as ornaments. Tuesday.....5.00

## GIRLS' GREY PONYETTE COATS.

An occasion for prompt and decisive action for values such as these are as good as gone when advertised. Made of good quality material, lined throughout with broad faced saten, single-breasted, with storm collar and trimmed with oxidized buttons. Ages 8 to 12 years. Tuesday.....6.89

## First Production of the New Season in the Corset Section

Before the new styles can be placed on the market it is necessary for the great modistes to decide on the general figure lines that must be supplied by the corsetiere as a foundation for their creations.

These new corsets are already arriving, not marked by any extreme changes, and including many styles for which our customers are already waiting. This for Tuesday you will welcome.

## ELEGANT ROYAL WORCESTER CORSETS.

300 pairs of them, two beautiful new spring models, in fine white saten, medium and extra long, medium or low bust, rustproof boning, double steels in front sections, four wide side steels, bust draw cord, four garters, fine lace and ribbon; sizes 18 to 26 inches. Tuesday, per pair.....1.25 (Phone orders filled.)

Money Saved By Price Giving

# FURNITURE

This sale illustrates perfectly the best theory of departmental selling.

We would rather sell much furniture with a very small margin of profit than a little with the necessary large gain. It's a saving for you, and in the end better for us.

The prices named below are very close to cost of production, and offer rare opportunities for good buying:

Dressers, in quarter-cut oak, finished golden, Princess style, with oval bevel plate mirror. February Furniture Sale.....19.75

Dressers, finished dull mahogany, colonial style, heavy British plate mirror, drawers trimmed with wooden knobs. February Furniture Sale.....20.90

Dressers, in quartered oak, finished Princess style, with oval shaped bevel plate mirror. February Furniture Sale.....11.75

Dressers, in hardwood, rich golden oak finish, three deep drawers and bevelled mirror. February Furniture Sale.....6.50

Dressers, in hardwood, colonial pattern, and finished mission oak, trimmings are wooden knobs, heavy square mirror. February Furniture Sale.....18.40

Wooden Bedsteads, in selected quartered oak, finished rich golden, also in mahogany, in full size only, carefully made, and beautifully finished. February Furniture Sale.....19.00

Chiffoniers, in mahogany, dull finish, oval plate mirror; three long deep drawers, two short drawers and cupboard. February Furniture Sale.....24.75

Chiffoniers, in dull finished mahogany, full swell fronts, with wood knobs for trimmings. February Furniture Sale.....27.00

Dressing Tables, in selected quarter-cut oak, dull-waxed finish, oval bevelled plate mirror, and two short moulded front drawers. February Furniture Sale.....17.75

## Well-Made Clothes are Your Right

Men who think it is necessary to put up with the cheaply-made, poorly-fitting garments so often taken for "money's worth," both in ready-to-wear and order suits, coats, etc., will be agreeably surprised when they have compared prices and qualities on our clothing floors. These Tuesday items are typical of our values:

## Big Sale of Men's Overcoats

Made from fancy English tweeds in greys, browns and fancy patterns, grey chevrons, black beavers and Meltons, in Chesterfield style with black velvet and self collars, single breasted ulsters, with two-way convertible collars, best mohair linings, excellently tailored; every coat a big bargain.
