HOUSE MAY COMPROMISE ON ANTI-BL BILL BY A LIMIT TO RACING

J. B. McColl Submits an Amendment Which Would Cut the Meetings to Less Than 100 Days in Year.

SIFTON FOR COMPROMISE BUT SOME FAVOR BILL

OTTAWA, April 6.—(Special.)—After a whole day devoted to the Miller bill to prevent race track betting, it begins to look as if a compromise will be reached. Several members who spoke declared their support for the bill as presented, but Hon. Clifford Sifton, also sympathizing with the objects desired, contended that it was going too far to imperial the large interests involved to the extent that would be done, and called for a compromise. J. B. McColl, one of the members of the investigating committee, who did not agree with the findings of the majority of the committee, late tonight declared the adoption of the amendment to sec. 235, regarding betting. The W. F. Maclean pointed out, would reduce racing in Canada to less than 100 days in a year, whereas it is now twice that. He thought this offered a compromise substantial enough to be agreed upon by the house. The bill will be taken up again tomorrow.

French Members Objected.

When Mr. Miller launched his bill this morning, he began quoting from the evidence taken by the investigating committee, and was interrupted by C. A. Wilson (Laval), who objected that evidence had not been printed in French, and that some of the members could not understand it. He asked for a ruling from the speaker whether the evidence could be quoted. Speaker March said he had looked at authorities. There were none since Confederation, but before that time Speaker Turcotte had ruled on a similar question in relation to the bill. The point was well taken. However, on this evidence, he ruled against Mr. Wilson's point, on the ground of public policy. The ruling was challenged and on a vote the speaker's decision was sustained by 99 to 95. Among the prominent English members that voted against suspending the speaker's ruling were: Hart, Russell, Meigs, Sealey, Allen, Porter, Lancaster, Barkin, Bisher, Crotty, Macdonnell, Price, Wilcox, Worthington, Stimpel and Glen Campbell. Practically all of the French members voted against the speaker. Sir Wilfrid and Mr. Borden voted in support of the ruling.

Mr. Miller's Contentions.

Mr. Miller largely admitted the statement that the thoroughbred is of advantage in the breeding of many kinds of horses. He said Mr. Miller, "But the second statement that racing is necessary to maintain the thoroughbred, which we must admit, is admitted that the race track is one of the means that is found useful in the development of the thoroughbred horse."

The third statement that professional betting is necessary to maintain racing was absolutely denied and refused to admit. Mr. Miller contended that horse racing is the sport of kings and should not be prevented, we say it has never been the desire or intention of the promoters of this bill to interfere with horse racing, and we do not think that the bill, if carried into effect, will do away with horse racing.

E. A. Lancaster (Lincoln) asked if he did not think it would be fair to read as far as possible of the evidence, or none at all, because only printed in one language, and Mr. Miller replied that there was not one member of the house who was unable to read it in his own language. Mr. Miller contended that the Hughes anti-race track gambling law in New York State, the price of some race horses had dropped from \$10,000 to \$100.

Under this contract, 8000 cubic yards of earth will be removed to provide for the foundations of the building in question. This does not include the quantity which will be taken out in the construction of the tunnels.

Woodbine Gambling University.

In the afternoon Mr. Miller described the Woodbine track at Toronto as a "bookmakers' university." During 1909 the bookmakers paid out in the racing track of Canada some four and a half million dollars. At the Woodbine track there were fifty bookmakers each day. Each had five assistants at \$10 per day. As the public had to furnish the profits for this huge organization, the whole tax would be two million dollars in 12 months, paid out of the pockets of the Canadian public.

W. F. Maclean interrupted to say "out of the pockets of the betting public." Mr. Miller agreed, and pointed out that the bookmakers came almost entirely from the United States. The majority of the members of the Vancouver Racing Association were in favor of his bill. Gambling, he said, was one of the worst curses that could afflict a nation.

Continued on Page 7, Column 4.

HOW THE TROUBLE BEGAN.

The trouble between Peru and Ecuador, which threatens hostilities, began with a boundary dispute which is still before King Alfonso, the mutual selected arbitrator. Ill feeling has continued and there have been demonstrations in both countries against the representative of the other.

Colombia has expressed a popular sympathy with Ecuador, and as Chile also has a dispute with Peru over the Province of Tacna and Arica, the latter favors the unconditional of three states possible.

The Toronto World

TWELVE PAGES—THURSDAY MORNING APRIL 7 1910—TWELVE PAGES

30TH YEAR.

GOVERNMENT BY COMMISSION APPROVED

Prominent Toronto Citizens Speak in Commendation of Position Taken by World—Set Civic Fathers Thinking.

Pretty universal commendation was the reception meted out to the plea of The World yesterday morning for civic government by commission, according to the opinion gathered around town from men prominent in all walks of life. That the present civic representatives were not quite as enthusiastic as some of the others is perhaps not to be wondered at under the circumstances.

G. T. Somers, second vice-president of the board of trade, stated that he would be pleased if Toronto could get government by commission, provided the right kind of commissioners could be secured. The council of the board of trade had been advocating that form of government for a long time. "The state you advocated appealed to me very strongly," he said. "Good things like this come slowly, but they do come after a hot war."

W. K. McNaught, M.L.A., said he was in favor of municipal government by commission. The only difficulty he saw was in getting the right men. The election would need to be carefully safeguarded. The idea was excellent. It had been arranged so that none but competent men got the positions.

"I have always been in favor of it," said W. K. George, when approached on the question of government by commission. "It would be decidedly advantageous for the city if it were adopted," he said.

Has Served Admirably.

"There are a number of men such that sort of government has served admirably," said Sir James Whitney, "but under ordinary conditions, would submit to it or not, is a question on which I have not formed an opinion."

Inspector James L. Hughes thinks that the idea of higher-up in the government of the city by adopting the commission plan. He is of the opinion that there is room for improvement. He thought it would have more permanence than the present system of civic government.

Mr. Wade, the assignee, is convinced that the idea to run a municipality, if it were tried here it undoubtedly would result in saving the city many dollars.

Rev. William B. Creighton, D.D., editor of The Christian Guardian, said he thought government by commission was the ideal way to run a municipality. He did not have very great confidence in the people of Toronto, he said. "The people are too indifferent," he said. He thought the citizens would not take the pains to improve the present way of running the municipality.

Set Civic Fathers Thinking.

The idea of civic government by commission has set the members of the city council thinking. "Few of them," however, have made up their minds as to the desirability or otherwise of a change in the city's business methods.

The important matter. We want more time and further information" was the sentiment expressed yesterday by Controllers Spence and Foster. Ald. Weston and others spoken to by The World yesterday. All admitted that the commission plan was worth consideration, but further than that they would not commit themselves.

Controller Church and Ald. Maguire came out definitely in opposition. "I don't think it is a good idea," said the former. "In my opinion the whole key to the situation is in having strong administrators as heads of departments in the various divisions of the government in Toronto. Even if sometimes incompetent, it is honest. Things don't go on here like they do in United States cities. The present board of control system is virtually government by commission."

Ald. Maguire said he didn't see anything radically wrong in things as they are. Toronto had better pavements, better buildings and was in a better financial position than any other city on the continent. A "big" man would not have one chance in a thousand of election to a commission. The man who made himself a "good fellow" throughout the city by joining lodges and so on would get the votes.

Should Prove Satisfactory.

N. L. Martin, of N. L. Martin & Co., assessor, could see no reason why government by commission should not prove to be as satisfactory as it has in the cities in which it has been tried. When a man is elected from a ward for a term of one year, he takes a hard in running the city, without having had previous experience, but in and upsets things, said Mr. Martin.

WANTS TO GET ON A NEW FOOTING

MR. BORDEN: I'm not sure, mother, whether these need darning, or whether I need new socks.

KITCHENER GLIDES AWAY MAY NOT VISIT CANADA

Takes Ship For Frisco, Ostensibly For an Inspection of the New Trans-Andean Railway.

VICTORIA, B. C., April 6.—(Special.)—Advice by steamer Marama, arriving to-day, and on which Field Marshal Lord Kitchener was expected from Australia, are that his excellency canceled his plan at the last moment, proceeding to Tahiti, whence he is now en route to San Francisco by the Mariposa.

He is officially stated to be intending to proceed from San Francisco to Quito, with the object of inspecting the Trans-Andean railways in respect to their military advantages.

At the last moment, a message from Brisbane to your correspondent suggests, however, that this is merely a feint announcement, and that his excellency intends coming north to British Columbia from San Francisco in cog, and thus leisurely crossing Canada, familiarizing himself with its naval and military defence features, sentiments and conditions generally, insuring upon his incognito being respected.

There was disappointment in Honolulu when the Marama arrived without the distinguished soldier. The governor had arranged a large reception and met the lines with representative deputations to welcome him.

The most notable arriving passenger was Lady Sarny, wife of the late Duke of Marlborough, who represented the London Standard at the meeting and who is world-touring with her husband, Colonel Wilson and party.

EMPLOYEES TO GET BENEFIT

Western Union Telegraph Company is Not to Cut "Melons" Hereafter.

NEW YORK, April 6.—Improvements and increased wages for employees, rather than melons for stockholders, is to be the aim of the Western Union Telegraph Company hereafter.

This resolution was adopted to-day at a meeting of the executive committee of the company in New York.

Archbishop Bourne is uncertain about his power to attend the Eucharistic conference at Montreal. Archbishop Bourne is the Roman Catholic primate of England.

Basis of Merging Of Coal and Steel

Capital to Unite Dominion Companies With Share for Share Exchange.

MONTREAL, April 6.—(Special.)—Your correspondent has secured what well-posted bankers here consider the basis of union between the Dominion Iron and Steel Company and the Dominion Coal Company.

It is understood that the old plan of a "holding" company will be revived, and, as a matter of fact, the terms of such company are about decided upon by the power that is, viz. J. H. Plummer.

The capital of the holding company will be \$35,000,000, equaling twenty millions of steel values and fifteen millions of coal stock. An exchange of the new security will be made for both the Steel and Coal stock, share for share, with a dividend at the rate of four per cent. per annum, for two or three years on the holding company's stock, to be equally guaranteed by both the old companies.

The report of the Dominion Coal Company's operations for the past year evokes the statement that not sufficient stress is laid on the fact that the cost to the company of resisting the great strike, from July last to the present time, reaches not less than \$1,250,000.

LAVAL STUDENTS FIGHT POLICE

Ten Are Arrested, While Two Blue Coats Are Injured.

MONTREAL, April 6.—(Special.)—A serious fight took place this afternoon between the Laval students and the police, one of whom had warned the boys not to spit on the sidewalk.

A free fight followed, and while two policemen were badly hurt, ten of the students were arrested. Later they were liberated on bail.

HONORS FOR CIVIC REFORMERS.

MONTREAL, April 6.—The governors of McGill University have decided to confer the honorary degree of LL.D. on Senator Danvers and Ex-Mayor Lapointe in recognition of their services for civic reform.

BANKER TO BE INDICTED FOR BRIBING OFFICIALS

And Another One Pleads Guilty to Having Participated in Pittsburg Carnival.

PITTSBURG, Pa., April 6.—The grand investigating grand jury late to-day returned a presentment ordering the indictment of Frank N. Hoffstot, prominent steel manufacturer and banker, on two charges of conspiracy and bribery. Mr. Hoffstot now makes his home in New York.

He is ordered indicted upon charges of having, in 1908, paid \$35,000 to Chas. Stewart, at that time member of select committee, for the purpose of securing the selection of the Farmers' Deposit, Second National and German National Banks, as city depositories.

The jury finds that Hoffstot also solicited from James N. Young, cashier of the Second National Bank of Pittsburg, \$20,000 to be paid to Stewart to ensure the selection of the Second National as a city depository.

Hoffstot, president of the Pressed Steel Car Co., one of the largest industries of his kind in the country, recently figured prominently in the public eye while a strike was on in his plant in McKees Rocks. During the strike many persons were killed and the state troopers were called out.

In addition, he is president and director of the Chicago Calumet River Railroad, and of the Western Steel Car and Foundry Co. He is secretary and treasurer of the Canada Car Co., Limited; of the Chicago Calumet River Railroad, and of the Western Steel Car and Foundry Co. He is secretary and treasurer of the Chicago Calumet River Railroad, and of the Western Steel Car and Foundry Co.

BISHOP CAMERON DEAD

Oldest Dignitary of Roman Catholic Church in America.

ANTIGONISH, N. S., April 6.—(Special.)—The Right Rev. John Cameron, D.D., Bishop of Antigonish, died suddenly at 11:30 o'clock to-night. He was the oldest living student of the prophecies at Rome, and the oldest bishop in America. He was born at St. Andrew's, Antigonish County, on Feb. 15, 1829.

CALLED A PASTOR

Rev. T. T. Shields Will Be Invited to Jarvis Street Pulpit.

Rev. T. T. Shields, R.A., will be asked to take the pulpit of Jarvis-street Baptist Church, which has been vacant for over a year. It was so decided at a meeting of the members of the church last night. J. Lugdin was chairman of the meeting.

Rev. Mr. Shields is now the pastor of Adelaide-street Baptist Church in London, Ont. He has been there for the past five or six years. Personally he is spoken of as being a strong speaker and a man of winning personality. He is a young man, being about 35 years of age.

GRAZED BY DRINK SHOTS LIFE AND SELF

Tragedy at Small Hamlet Near Guelph—Was Climax to a Week of Quarrelling.

GUELPH, April 6.—(Special.)—Albert Adams, a well-known and well-to-do blacksmith at Weissenburg, a hamlet eight miles from Guelph, shot his wife this afternoon, and a moment later turned the revolver upon himself. The tragedy occurred about 4 o'clock in Adams' comfortable brick residence beside his shop. The only eye-witness was Louisa Hauck, a girl who had been hired for a few days to help with the house cleaning, altho in the yard just outside the door, the three children, Ham, aged 10; Hughie, aged 7, and Minda, aged 5, continued playing, quite unconscious of the grim occurrence.

Adams, who had been quarrelling with his wife a good deal all week, and particularly this morning, having been on one of his occasional rages, left for Guelph at 11 o'clock this morning, and bought a new \$2 calibre five-chamber revolver. Upon his return he found his wife and Miss Hauck in the kitchen, busy with preparing. He sat in the corner a short time without saying anything. The women paid no heed to him.

"Have you nothing to say to me?" he asked his wife. Whereat the girl replied they were too busy to talk. "Why not?" he asked. "I have said Adams, and walking between the two women, he drew the revolver from his coat pocket and, pressing it against his wife's breast, said:

"The bullet entered a little too high to reach the heart, but punctured the large artery. Turning from him, the wounded woman ran from the house, thru the front gate and along the road a distance of over 100 feet to the C. P. R. crossing, screaming that she was dying, and calling for help. At the crossing she turned, but the internal bleeding weakened her so that she fell to the ground, some 15 yards from the gate.

Louisa Hauck, after the shot was fired, and fearing that Adams might turn upon her, ran out the back door to Robt's Hotel, calling for help. Adams, and walking between the two women, he drew the revolver from his coat pocket and, pressing it against his wife's breast, said:

Just as Miss Hauck was rushing from the house she heard another shot, probably the one which Adams took his own life, for he may have fired again at his wife, as she was running up the road.

Dr. F. J. Kirby, of New Germany, and the Rev. Father Foster of the same place, arrived soon afterwards. They found Mrs. Adams dead under the hedge, and in the kitchen the prostrate body of Adams, with a wound in his chest. In almost exactly the same spot as that which killed his wife, the bullet entered the chest, a few feet from his hand, were three exploded cartridges, and two still unexploded. The children by his side, crying and running back and forth between the prostrate bodies.

Major H. D. Mervin, high constable of Wellington County, and Constable Young, made an examination of the premises and sent for Coroner Dr. McLean of Guelph.

Dr. McLean, who is a specialist in drink, and when drunk a bad temper. On other times he was a good husband.

Father Foster said that the hotel-keeper in Weissenburg had refused for the past year or so to give Adams whiskey, but that he had made a practice of keeping plenty of hard liquor in his cellar, and had almost the same effect upon him.

Albert Adams was about 38 years of age, and was a son of the late Ignatius Adams of New Germany. He is survived by two brothers, Joseph Adams of Toronto and Ignatius Adams, who lives on the old homestead. There are five sisters, Mrs. M. Brohm of Winterville, Mrs. Adam Starr of Preston, Mrs. William Ott and Mrs. Charles Smith, both of Berlin.

Mrs. Adams was Mary, the eldest daughter of the late Henry Reinhart of New Germany, and she was also very well connected in this district. Mrs. Hauck of Guelph is a sister.

A RETROSPECT.

April 7, 1894.—Patrick James Whalen shot Hon. Darcy McGee in Ottawa, Parliament adjourned.

April 7, 1884.—The imperial privy council overruled the disallowance re-issued by the governor-general-in-council, sustaining the Legislature of Ontario. "Echeats in Real Property" and the "Streams Bill" were marked triumphs for Premier Mowat of Ontario.

HAMILTON HAPPENINGS

CALL ELORA PASTOR TO WESTMINSTER CHURCH

Hughson Street Baptists Still Undecided—Lively Boxing Bout

HAMILTON, April 6.—(Special.)—Westminster Church congregation to-night extended a unanimous call to Rev. W. L. Williams, Chalmers' Church, Elora.

Hughson-street Baptist Church congregation also met to-night to consider a call to a pastor.

The Klitties held their first spring parade to-night, and 400 men turned out. The prizes for the indoor rifle matches and the regimental cup for teams were presented. A company won the latter.

The Hamilton Spector road race from Bramford to Hamilton, the full marathon distance, will take place again on May 24.

The winner will be entered for the English marathon held under the auspices of the Polytechnic barriers each May, the first contestant, whose expenses will be defrayed by the Spector, to go over in 1911.

The Boxing Bout

The boxing bouts held this evening at the Army rink, provided as much fighting as the fans could want. As an added attraction, Frank Carroll of Toronto, got into a mix-up with Ed. Campbell of Niagara Falls, and the police had to separate the two.

Larner of Dundas, and Robins of Hamilton, met in the first round, billed to go four rounds.

Larner, putting the Hamilton sent in a hard right to his opponent's jaw, still scores spread until almost the whole of my head was affected. As the doctor's treatment did me very little good I left it off and tried various home remedies.

Hotel Hanrahan, corner Barton and Catharine-streets, Hamilton, conveniently situated and easily reached from all parts of the city.

Modern and strictly first-class. American plan. Rates \$1.50 to \$3 per day. Thomas Hanrahan, proprietor. Phone 1424.

A Pittsburg despatch says: Mrs. Margaret D. Ribetti, wife of Dr. G. E. Ribetti, died at her home, No. 226 Collins-avenue, of heart disease.

Mrs. Ribetti was a member of the Liberty Presbyterian Church and was prominent in religious work. She and a sister, Miss J. M. Buchanan, were the first Italian Sunday school in Pittsburg, which later developed into the Italian Church. She was born in Edinburgh, Scotland, was educated at Edinburgh and at Hamilton, Ont. She is survived by her husband, two sisters, Miss J. M. Buchanan and Miss H. E. Buchanan of Hamilton, Ont., and three brothers.

James McLeary, of the Terminal Hotel, was fined \$30 for selling liquor on Sunday.

Arthur Poole states that when he asked Thomas Wren for his wages, the latter assaulted him. Wren was committed for trial.

Mrs. Adelaide Hoodless' will has been filed. She left \$26,537.50 in property and stocks, divided between husband, two daughters and son.

Case, the hotelman, left \$15,000, among his wife and two children.

The Hamilton City Sunday School Association wants the Ontario association to hold its annual convention here.

The city hall gossip is naming James Bain as the successor to James McFarlane, as chief engineer at the Beach.

Controlled Bailey will draw the board of control's attention to the fact that the dog-by-law is being flagrantly and openly violated.

He would like to clear the animals out of the city.

The Hamilton Improvement Society want scavengers to take the boxes and barrels from the yards of householders.

The executive of the National Council of Women this morning decided to hold the annual convention in Halifax in June 23. The officers nominated were: Lady Edgar, president; Lady Laurier, Mrs. Robert Thompson, Lady Taylor.

NEW PRESIDENT KICKED AT ADVANCE TO STEWART

Made It Clear to the Directors That They Were Responsible For Notes.

Aemilius Jarvis, who assumed the presidency of the Sovereign Bank on May 1, 1907, took the stand in the non-jury assize court yesterday, in the action brought by Curator Stewart against the directors. It was previous to his taking office that the loan was obtained from the Morgans.

GASOLINE VOIDED POLICY

Winnipeg Oil Company Loses Suit to Collect Insurance.

WINNIPEG, April 6.—(Special.)—Justice Metcalfe to-day gave decision in the case of the Prairie Oil Co. v. the Standard Mutual Fire Insurance Co. Placing responsibility on the insured to comply strictly with all details of a policy.

SENSATIONAL EXPERIENCES IN SEARCH OF A CURE.

\$50 For One Specialist Alone!

The varied and costly experiences of some people who suffer from skin diseases and get into the hands of so-called "specialists" are rarely heard of. Almost daily the proprietors of Zam-Buk are receiving letters of gratitude from persons who have been cured by Zam-Buk, and in many cases these letters tell a story of suffering in the search for cure which is truly pitiful.

Mr. Arthur Fairbank of 547 Lansdowne-avenue, Toronto, says: "Some time ago I had a bad eruption on my forehead, which I attribute to getting infected at the barber's. This eruption became very sore and spread over my scalp in the form of open sores. I went to a doctor, who treated me for it. Still the sores spread until almost the whole of my head was affected. As the doctor's treatment did me very little good I left it off and tried various home remedies. I also tried taking various aperient medicines to try and cure the outbreak through the blood. Still it was vain!

"Then I tried blood mixtures, but not one of them did me any good. I was by that time in a shocking condition, and as a last resource I went to a skin specialist. He treated me for periods and it cost me over \$50, but the sores got no better. They would itch and burn at times until I was nearly mad. One day a friend asked me if I had not tried Zam-Buk, and gave me a little. That little bit of Zam-Buk did me more good than all the long treatments I had had from doctors and specialists. I immediately started for a supply of the balm and sent right in to give it a proper trial. Very soon I began to see and feel a great difference in the sores and I knew that at last I had got something that would cure me. Zam-Buk cured me and a trifling cost. Indeed, only a few boxes were necessary to do it."

Not only for skin diseases, but for scurvy, burns, bruises, piles, hemorrhoids, etc., Zam-Buk is unequalled. All druggists and stores, 50c box, or post free from Zam-Buk Co., Toronto, for price. Refuse imitations.

YE EDITOR COAXED IT ON

Mr. Macdonald Acted as Intermediary Between Taft and Government.

OTTAWA, April 6.—(Special.)—Gratuitous diplomacy on the part of Editor J. A. Macdonald of The Toronto Globe, was admitted by Hon. W. S. Fielding to-day, in the commons, as the cause which led up to the Taft-Fielding tariff conferences. The boast made, therefore, that Canada had made no overtures to the United States regarding the tariff rather falls to the ground.

A. C. Boyce (West Algona), read an excerpt from the New York Times, in which the effect that thru the services of the editor of The Globe, the Albany conference was made possible.

Mr. Fielding said that Mr. Macdonald went to Washington on business as a private citizen. He was not sent by the government, which had no knowledge of his movements, in conversation with the president. Mr. Taft expressed the idea that he would like to re-open the negotiations with Canada, if he thought the Canadian ministers were willing. Mr. Macdonald mentioned this on his return to Ottawa, and the government expressed its willingness, and Taft sent his telegram of invitation.

Mr. Macdonald apparently intimated to Mr. Taft by the telegram the reciprocal state of the Canadian ministers. This was gathered by inference from Mr. Fielding's speech, altho he did not say it in so many words.

Mississauga Horse Hold Smoker.

D Squadron, 9th Mississauga Horse held a smoker in the armory last night, and very enjoyable evening was spent by the officers, non-commissioned officers and men, who were present.

A large program was gone thru consisting of songs and accordion solos by Duncan R. Cowan, a cornet solo by Corp. Roberts, songs by Sgt. Patton, Sgt. Villard, G.G.B.G., and also by the trumpet band. Sgt. Walters of the Y.M.C.A., champion fencer of Canada, and Blomfield (Y.M.C.A.) gave a very good exhibition of their skill with the foil, and also fought two bouts poniard vs. sword. Sgt. Walters winning both. Messrs. Johnson and Fraser, Y.M.C.A., also fenced. The trumpet band, under Trumpet Sgt. Elliott, played several marches.

PILES CURIED IN 6 TO 14 DAYS.

PAZO OINTMENT is guaranteed to cure all cases of Itching, Bleeding or Protruding Piles in 6 to 14 days. Money refunded. 50c

PLAYING WITH THE BALL. Rudolph Frick, Toneman and Corey having amusement with their exercise at Charlottesvile.

CHARGES THAT OTHER MEMBERS BROKE FAITH

Daniel Miller Resigns From Board of License Commissioners in Consequence.

Under circumstances somewhat rare in license matters, Daniel Miller, member of the board of license commissioners for Toronto, has forwarded his resignation to the provincial secretary. Rumors of disension among the members of the board have reached the outside from time to time, but the actual facts were only disclosed to a few.

It appears that the trouble between Mr. Miller, the chairman, and Daniel Lamb, the third member, arose before the issuing of the license in May last (when the total number to be issued was reduced to 110). Mr. Miller says that the other members of the board broke faith with him in cutting off the license of the Brockton Club House, corner of Dundas and Sherburne, and otherwise persistently and unnecessarily penalized houses in which a philanthropic brewer of Conservative persuasion was interested.

At that time licenses were issued to Mrs. Devaney and Philo Lamb to whom the condition of removal was attached. The board appeared to be unaware of the fact that they had no power, after a license was once issued, to attach any conditions other than those imposed by the statute; in consequence Philo Lamb and Mrs. Devaney are still doing business at their old stands, and the question is up for settlement, "what is to be done."

The world understands that this led to an acute crisis, the board as at present existing being totally unable to come to a unanimous decision of what is to be done in the premises, and Mr. Miller desiring of securing a renewal of licenses for these parties, has resigned.

Early Spring in Mining Country. Albert Skitt, mining recorder at Elk Lake, states that the snow has nearly left the bush and prospects are bright for an early opening of navigation. Residents are looking forward to getting into water communication with the outside world very shortly.

In the afternoon a discussion upon rates for military submitted an entirely new proposition, to the effect that postboard boxes of 50 inches weight be carried at the merchandise rate for actual weight, but boxes over 50 inches should be on estimated weight. The previous estimated weight suggested was 70 inches, and the representatives of the manufacturers' association urged that this was an entirely new proposition.

The company said there was no money in it for them, and raised the question of jurisdiction. They argued that when a company filed a special rate on special things the railway was bound to accept it, and that a committee could allow or disallow, but could not compel the company to extend the rate to other things, or other persons. Judge White took the question into consideration.

STABBED HIS EMPLOYER. Painter Refused to Take Orders and Then Drew a Knife.

Herbert Varley, a painter, stabbed his employer, William Whittles, twice during an altercation yesterday morning. He was arrested at his home, 205 Parliament-street, during the afternoon by Acting Detective Miller. Whittles and a number of others were engaged by W. Whittles to work on a building being erected on Madison-avenue. He had charge of the painter. They had not been working long, when Varley refused to take orders from Whittles, and during the argument which occurred, he drew a knife and stabbed Whittles in the neck and face.

A physician was summoned immediately, and Whittles was removed to his home at 54 Ritchie-avenue, after his wounds were dressed. It is not thought he is seriously injured.

Guelph Enterprise. GUELPH, April 6.—(Special.)—The water commissioners of Guelph today gave orders looking towards the commencement of a practical scheme of reforestation and beautification of land owned by the city in the county at the source of the water supply. Several farms are owned there in order to protect the source, and it is the intention to plant fifty thousand white pine and spruce trees, which are expected to be done under Prof. Zavitz's directions. Several driveways are being laid out, so as to form a park. Prof. Hutt having charge of this.

Diamond Merchant in Trouble. WINNIPEG, April 6.—A man arriving from the north, and who is supposed to represent a New York diamond firm, opened an office here and carried a stock of samples. He took orders and also brought several diamonds from different firms who accepted his cheques. He is under arrest at Fargo, Dakota.

EXPRESS COS. DISPUTE RY. BOARD JURISDICTION

Submit a New Proposition For Rates on Millinery Boxes and Put Up an Argument.

OTTAWA, April 6.—(Special.)—The railway commission today began the last hearing on the question of express rates, an enquiry begun about a year ago. E. D. Smith, M. P., Winona, on behalf of the fruit growers, made a complaint against the existing tariff as excessive. He asked for a lower rate to Winnipeg, in order that Ontario fruit growers may compete with those from California. An increase of rate to the Maritime Provinces from 87 1/2 cents to \$1.25 was a further subject. The distance from the point of shipment to these points east and west was about the same, but the rates dissimilar.

The east can supply the west with fruit, said Mr. Smith, "if we can get fair express rates; we want to get lower rates because the old railway conditions which set the old rates remain the same. We are now allowed to send only one car on an express train; if we send four cars they give us a special. In the fruit district we want to get three specials a week of four cars each. This would enable the express companies to reduce their rates still lower. As it is, California fruit gets our western market one day, while we get it the next."

The form of contract came up. "It is now in a ridiculous form," stated Judge Mahé, "and it will be changed very soon."

Mr. Smith also argued for a lower rate to Montreal and Quebec to encourage shipments of fruit to Europe. J. H. Bunting of St. Catharines spoke on similar lines.

Mr. Broyle of the Canadian Express denied knowledge of an 8-cent rate in the lower provinces having existed, and Mr. Stout of the Dominion Express justified the rate to Winnipeg. An extra charge had been made for ventilated cars.

In the afternoon a discussion upon rates for military submitted an entirely new proposition, to the effect that postboard boxes of 50 inches weight be carried at the merchandise rate for actual weight, but boxes over 50 inches should be on estimated weight. The previous estimated weight suggested was 70 inches, and the representatives of the manufacturers' association urged that this was an entirely new proposition.

The company said there was no money in it for them, and raised the question of jurisdiction. They argued that when a company filed a special rate on special things the railway was bound to accept it, and that a committee could allow or disallow, but could not compel the company to extend the rate to other things, or other persons. Judge White took the question into consideration.

NETTIE STAR IN FIVE HEATS. WINS CLASS B AT DUFFERIN. Queen Bourbon Lands Class C and Precise the Dash.

There was extra good racing at the matinee given by the Dufferin Driving Club at Dufferin Park yesterday. Class B required five heats before the winner was named. Queen Bourbon won the first heat in 1:17 1/2; the second and third were taken by Nettie Star in 1:12 and 1:13 1/2; then Queen of Clubs came along and got the next heat in 1:13 1/2, and Gamey the last one in 1:15 1/2. This is the fastest time this spring so far over the Dufferin track. J. McBride's Nettie Ethan was much improved, and a little more work will put her in different shape. All races are short of work. Wiry Stanton, owned by Geo. Snell, was not at himself or he would have been better. She looks as if she could have gone much faster. No Trouble, Mr. Goodson's grey mare, made a good race with the winner. Easy Laura, owned by J. Kenyon, is short of work, and Mr. Lee's Minnie L. is a green one, but Jim improved over her last start. The 4 1/2-furlong run was a well-contested race, and everyone seemed satisfied. Summary: Class B, half-mile heats: Nettie Star, b.m.; R. Scott (owner) 2 1 1 2 3 (owner); Gamey, br.g.; P. Kelley (J. Meade) 1 5 5 2 1 (owner); Spears (Jas. Noble) 3 2 2 1 2 (owner); Nettie Ethan, R. J. McBride (owner) 4 3 3 5 9 (owner); Wiry Stanton, br.g.; Geo. Snell (owner) 5 4 4 4 4 (owner); Time—1:17 1/2, 1:12, 1:13 1/2, 1:13 1/2, 1:15 1/2. Class C, half-mile heat: Queen's Bourbon, b.m.; E. Lavigne (J. McPhee) 1 1 1 1 1 (owner); No Trouble, gr.m.; 2 2 2 (owner); Easy Laura, b.k.m.; J. Kenyon (owner) 3 4 4 4 4 (owner); Minnie L., br.m.; E.R. Lee (owner) 4 4 4 4 4 (owner); Time—1:15 1/2, 1:15, 1:17. Precise (Douglas) 1 (owner); Diana White) 2 (owner); Jim Parkinson) 3 (owner); Time 58 3/4. Peter Cain, September and Judy Ford also ran.

MAKE RAILWAY CHARTERS AMOUNT TO SOMETHING

Senator Davis Tells of Advantages of Making Promoters Prove Bonafide Intentions.

OTTAWA, April 6.—(Special.)—In the senate to-day Senator Davis moved a bill to provide for the incorporation of railway charters by the railway commission instead of by act of parliament, as at present. That was similar to the best practice in the United States. He saw no reason why the time of parliament should be taken up solemnly passing charters for the authorization of railways which promoters knew would never be built. From 1900 to 1905 parliament had authorized 65 charters by the railway commission instead of by act of parliament, as at present. That was similar to the best practice in the United States.

Under his bill, before a body of men could get a charter they would have to do preliminary surveying at about \$250 a mile. Big companies would be prevented holding routes against rivals. They would have to build or let someone else do so. It would prevent overbuilding of lines, for the surveys would show the approximate cost of the road and guide the commission in authorizing bonds to an amount only on which interest could be paid. This would tend to keep down traffic rates. Senator Davis thought his plan would save a month's time of parliament, would enable the railway business to be better handled and there would be no more lobbying. It had been suggested that the state department should issue charters on the recommendation of the minister of railways. He would be willing to have that change made. The debate was adjourned.

Archibald Rides Four Winners. OAKLAND, April 6.—The races today resulted as follows: FIRST RACE, 6 furlongs: Dan Rose, 106 (Archibald), 2 to 1. Time 1:15 3/4. My Pal, 111 (Gross), 9 to 1. Dominion Coal Weak on Publication of Statement

Buoyancy Still Maintained In Wall Street Securities

Campaign Against Shorts is Being Waged by New York Syndicates—Coal and Steel Weak on Canadian Exchanges.

World Office, Wednesday Evening, April 6.

A further break in Dominion Coal today and weakness in Dominion steel was the feature of the Canadian exchanges to-day.

The annual statement of the Dominion Coal Co. was issued to-day and it was this which apparently caused the weakness in the stock. During the afternoon, coal was offered on the Montreal board as low as 71, without bids, while the close was 72, without bids.

In general the market was hardly steady and any rallies in certain issues were more than made up by declines in others.

The movement in Black Lake common stock petered out to-day, with the stock offering 1-2 point below yesterday's high price.

Rio and Sao Paulo were inactive at 45, 200 shares were offered on the Montreal board, while the close was 45, without bids.

In general the market was hardly steady and any rallies in certain issues were more than made up by declines in others.

The movement in Black Lake common stock petered out to-day, with the stock offering 1-2 point below yesterday's high price.

Rio and Sao Paulo were inactive at 45, 200 shares were offered on the Montreal board, while the close was 45, without bids.

the propriety of similar action. The Steel Corporation has been referred to about to make an announcement, but neither it nor other steel companies have definitely taken up the matter. However, the recent advances in Lake Superior iron miners' wages are considered as forerunners of others at furnaces and mills. To the blast furnace the problem presented by increased labor cost in connection with higher priced ore soon to come forward is not an easy one with the present forbidding outlook for pig-iron; the blowing out of furnaces is considered in some quarters the only alternative. The production of coke and anthracite pig-iron in March was 2,415,293 gross tons, or 44,363 a day, against 2,254,224 in February, or 36,816 a day, a decline of 132,069 tons. The pig-iron markets have grown quieter. In the Pittsburgh district further reduction of output consequent on the strike, the increased cost of mining, and the direct expense incurred for police protection, etc., all had a serious effect on the company's earnings for the latter half of the year, but the output is now nearly normal, and it is hoped that the additions which are being weekly made to the company's working stock will place its operations on their usual level by the opening of navigation.

HARD TO BULL SPECULATIVE ISSUES.

World Office, Wednesday Evening, April 6.

The annual statement of the Dominion Coal Company was available to-day. The earnings for the year showed a surplus of \$450,525, while the preferred and common dividends paid totaled \$810,000.

The statement is receiving harsh criticism, but the critics fail to point out that the output of coal for the year was almost 30 per cent. less than that of the previous year, owing to the strike. The Toronto stock market to-day displayed no enthusiasm, and the fractional rallies brought out plenty of stock. Market operations in the Black Lake Asbestos Common flattened out, but buying of the 6 per cent. bonds of the company is understood to be good, and it is thought that these bonds warrant higher prices. The market has no great speculative following, and it is hard to bull speculative issues.

A Chance in a Million

SMOKE FROM SOFT COAL, wood, or wood refuse is expensive. Unnecessary, as well as the worst of modern nuisances. There is a simple device known as Basic Patents, now being made, that solves the entire question of PERFECT COMBUSTION OF EVERY FUEL. Soft Coal and Lignite; no matter how low the grade; sawdust, shavings, mill refuse, peat, etc. This offers an exceptional chance to a few live men who know or can realize what it means to come in at first-hand. Principals only.

Directors Issue Their Annual Report to Shareholders.

An advance copy of the annual report of the Dominion Coal Company, Limited, says in part: The year opened with great promise, but early in July a strike was called by the United Mine Workers' Association, an American organization which had recently sought to establish itself in Nova Scotia, the object of the strike being to obtain recognition.

The reduction of output consequent on the strike, the increased cost of mining, and the direct expense incurred for police protection, etc., all had a serious effect on the company's earnings for the latter half of the year, but the output is now nearly normal, and it is hoped that the additions which are being weekly made to the company's working stock will place its operations on their usual level by the opening of navigation.

Ericksen Perkins & Co. had the following share sales in grain was the influencing factor in stocks to-day, reflecting improvement in growing conditions in the west. Stocks were irregular during much of the afternoon, but were well absorbed on recessions. They look like working somewhat higher, by degrees. E. W. must look for setbacks now and then. Buy only at such times, not on firm spots. Money may work a little higher before the end of the week. If we hold much more gold, but this need not disturb anybody. Willie Barrett to J. P. Bickell: The supply of stocks on the advance. The apathy that prevails in regard to securities showed no sign of diminishing. There are plenty of stocks offered on every little advance. Chas. Head & Co. to R. R. Bond: Nothing new developed in the market. Will place its operations on their usual level by the opening of navigation.

Gold to Be Shipped to London to Prevent Increase in Bank Rate.

LONDON, April 6.—The Bank of England paid a premium of 1/4 per cent. over the ordinary market price of the gold for \$7,500,000 in eagles recently engaged in New York for shipment to London, but the lower exchange probably will prevent further purchases at present. Holland, however, is sending gold to-day and the Bank of France has previously refused to ship gold. It is thought that some may be released in order to prevent a rise in the bank rate, which in some quarters, is considered necessary to build up the reserve, which is several millions below the corresponding period of last year.

Bankers are inclined to think that no advance in the bank rate will be made provided the money market as-

Where Soil and Climate Welcome Man to Stay

In all the years of history, none can be found in which the desire of the Canadian people, resident in the great cities, to get back to the land and close to nature, has been so great as during the last twelve-month. This fact, frequently remarked upon, is generally accepted.

Reason for this is not hard to find. Turn back the records of trade for more than forty years and no time is found in which the necessities of life for the urban family in ordinary or well-to-do circumstances were held at prices so nearly out of reach as they are found today. Never in days of peace—at no time except in war times, have prices for articles so needed so high in the present month. Wholly natural it is therefore for the city worker, who is earning no more pay than he did when the supplies for his table were costing little more than half as much, to say to himself: "It is time I fix myself with a piece of land, to which, if things continue as bad as this or get much worse, I can go and at least raise enough to keep my family comfortably supplied with what they need to eat."

This thought and desire, too, has been stimulated greatly during the last three years, by the unparalleled prosper-

ity of Canadian farmers in general. In nearly every region evidences of their great success in securing the luxuries of life from the products of the soil are numerous. Thousands of country homes have been equipped with all the conveniences of city life. The automobile and other indications of the farmer's ability to buy whatever his fancy may direct are far more numerous per capita than in the rural regions, than among a like population in a region of homes in any great city.

The call is "Back to the Land," and the railroads of Canada are spreading the cry most fortunately for the thousands of who use judgment in selecting the location where they may escape that veritable bondage of life where the tax for living is fixed by the extent of greed in the beings who control the food and fuel supplies.

Many railroads and land companies which are frequently accused of a consuming desire to sell lands along their lines for the sake of increasing their profits, are, nevertheless, doing a greater service to greater numbers and humanity in general by preaching this gospel, "Back to the Soil," than can be measured by their own increased profits.

GREAT FOOD PRODUCER IS THE HOLSTEIN COW

One Owned by University of Missouri Gave 18,405 Pounds of Milk in Year.

A Holstein cow owned by the dairy department of the University of Missouri in one year produced more human food in her milk than is contained in the complete carcasses of four steers weighing 1250 pounds each. This statement, impossible as it seems, is not only true, but does not even do full justice to the cow. The solids in the milk which are completely digested and used by the body are counted against the entire carcass of the steer which is only in part suitable for food.

The cow that performs this feat of producing the equivalent of four steers is Princess Carlotta. In the year she produced 18,405 pounds of milk. Below is given the amount of solids, fat, sugar and ash contained in this milk and the amount of the same substance found by Dr. P. F. Thowbridge in an analysis made of the carcass of a fat steer weighing 1250 pounds.

Proteids	552 lbs.	172 lbs.
Fat	418 lbs.	323 lbs.
Sugar	220 lbs.	128 lbs.
Ash	128 lbs.	45 lbs.
Total	2218 lbs.	648 lbs.

The total amount of dry matter in the milk was 2218 pounds, all of which is edible and digestible. The steer, with a live weight of 1250 pounds, contained 64 per cent. of water in the carcass, leaving a total of 543 pounds of dry matter. In this dry matter of the steer is included hair and hide, hooves and tendons, organs of digestion and respiration; in fact, the entire animal, a considerable portion of which is not edible. The analysis of the steer's carcass was made from samples taken after grinding up together one-half of the complete carcass and is not in any sense an estimation of the composition of the carcass.

Princess Carlotta produced proteids sufficient for more than three steers; nearly fat enough for two; ash enough to build the skeleton for three, and in addition, produce 920 pounds of milk sugar, worth as much per pound for food as ordinary sugar.

These figures show the remarkable efficiency of the cow as a producer of human food. It is because of this economical use of the food that the dairy cow and not the steer is kept in high priced land. The land is cheap and food abundant the meat producing animals predominate, but when the land becomes high in value and food expensive the farmer turns to the dairy cow.

INTENSIVE FARMING

How the Dane Makes Money on Small Holdings.

Consider, if you please, the case of Denmark, with an area of 15,280 square miles, or a little more than two-thirds the size of Nova Scotia, and a population of about 150, to the square mile—Denmark, the paradise of the small farmer. For that unfortunate peninsula jutting out into an unfavorable climate in the north of Europe is a land where farming has become a scientific pursuit, where agriculture has been made a thorough business, where the farmers have learned to co-operate; where, in short, there is no need of urging the back-to-the-land movement because the population has learned the lesson.

Mr. P. C. Howe, writing in The Outlook of his investigations, tells how he found Denmark exporting butter, eggs and bacon to England, Germany, South America and even to the Philippines. He set about to learn the reason, and here is what he found:

A generation ago the Danish farmers discovered that the wheat fields of the United States and Argentina were threatening their property. They did not turn to a protective tariff for aid. Instead they sent out a commission to learn how Ireland was supplying England with bacon, eggs and butter. Then they set to work to transform Denmark into a great market garden. The government acted. Soils were studied. Pure-bred stock was introduced. Chickens, carefully selected for their capacity as egg producers, were imported. The farmer became an agricultural expert, knowing just what food to feed to stock and his breeds to raise.

In so crowded a land as Denmark farming could not be done by the individual on a large scale. So the farmers began to co-operate in the purchase of machinery, and in maintaining and selling agencies.

The Egg Exchange Society, for instance, has about fifty-seven thousand members who consign to it their eggs for export. Danish bacon is handled in London by another co-operative selling agency.

Intensive agriculture has shown that large farms are not necessary to maintain a family in comfort. The average size of the farms comprising nine tenths of the cultivated land is only thirty-nine acres. There are sixty-eight thousand farms of less than an acre and a half. There are sixty-seven thousand of from one and one-half to thirteen and one-half acres.

These small farms, scientifically managed, furnish an export business of \$9 to the acre, as well as support for the population and something to put away. The savings bank deposits four years ago amounted to more than 200 million dollars. More than half the population had a bank account, and the average deposits was \$154.

The average yield of an acre of peas is 100 bushels. The Danish shows the possibilities of development of a country without natural advantages, but inhabited by a highly intelligent and industrious people. Denmark is a state which has realized that it is essentially a farm community, and with this clear apprehension of facts has made good.

Sharp Setback in Wheat Market Crop Conditions Improving

Bear Pressure on Chicago Rit Inspires Realizing and Short Selling—Winnipeg Weaker—Liverpool Cables Lower.

World Office.
Wednesday Evening, April 6.
Liverpool wheat futures closed today 1/4 to 1/2 lower than yesterday; corn, unchanged; May wheat at Chicago closed 1/4 lower than Monday; May corn, 1/4 lower; May oats lower.

Winnipeg receipts of wheat to-day were 102 cars, against 184 a week ago, and 183 a year ago; oats, 25, 18, 14, 4, and barley, 11, 4.

Duluth receipts of wheat to-day were 51 cars, against 127 a week ago, and 13 a year ago.

Chicago car receipts to-day: Wheat 51, contract 6; corn 253, 7; oats 134, 30; rye 1, and barley 2.

Primarys.
To-day, Wk. Ago, Yr. Ago.
Wheat receipts, 23,000 25,000 22,000
do. shipments, 21,000 18,000 45,000
Corn, receipts, 80,000 36,000 63,000
do. shipments, 63,000 43,000 67,000
Oats, receipts, 57,000
do. shipments, 72,000

Clement, Curtis' Crop Report.
Clement, Curtis & Company's crop report says that the wheat crop is being investigated of the important wheat crops in the April condition of winter wheat in the United States. The present condition of the crop is an improvement over last year of 2.2 per cent. of the total wheat crop, but against government crop of 42,000,000 bushels last year.

ST. LAWRENCE MARKET.
Receipts of farm produce were limited to two loads of hay. Farmers are all busy seeding, which accounts for light deliveries of farm produce.

Hay—Two loads sold at \$21 per ton.

Market Notes.
Aethus Inglish bought 5 spring lambs, at \$5.50 to \$10 each.

Eggs.
Receipts large, part easy; storekeepers are paying 15c to 16c per dozen by the basket from farmers.

Butter.
Receipts of choice dairy, as well as creamery, are light with prices 1c to 2c higher. See wholesale quotations in table.

Potatoes.
J. J. Ryan reports receipts of car lots of potatoes as being plentiful, more than the demand calls for, being offered. Prices unchanged in the celebrated Irish Cobblers (early variety) for seed. Farmers and market gardeners should see them, as they are a fine sample.

Grain—
Wheat, fall, bush, \$1.10 to \$1.15
Wheat, spring, bush, \$1.15 to \$1.20
Rye, bush, \$1.00 to \$1.05
Barley, bush, \$1.00 to \$1.05
Oats, bush, \$1.00 to \$1.05
Corn, bush, \$1.00 to \$1.05
Soybeans, bush, \$1.00 to \$1.05
Clover, bush, \$1.00 to \$1.05
Alfalfa, bush, \$1.00 to \$1.05
Timothy, bush, \$1.00 to \$1.05
Hay, No. 1, timothy, \$2.00 to \$2.50
Hay, clover, No. 1, \$2.00 to \$2.50
Straw, bundled, No. 1, \$1.00 to \$1.10
Straw, bundled, No. 2, \$1.00 to \$1.10

Fruits and Vegetables—
Onions, \$1.25 to \$1.50
Potatoes, per bag, \$1.00 to \$1.50
Apples, winter, barrel, \$1.00 to \$1.50
Pears, winter, barrel, \$1.00 to \$1.50
Parsnips, bag, \$1.00 to \$1.50
Beets, per bag, \$1.00 to \$1.50
Cabbage, per head, \$1.00 to \$1.50

Dairy Produce—
Butter, farmers' dairy, \$1.00 to \$1.20
Butter, creamery, \$1.00 to \$1.20
Cheese, per lb., \$1.00 to \$1.20
Eggs, per dozen, \$1.00 to \$1.20
Poultry—
Turkeys, dressed, lb., \$1.00 to \$1.20
Chickens, per lb., \$1.00 to \$1.20
Pork, per lb., \$1.00 to \$1.20

FARM PRODUCE WHOLESALE.
Hay, car lots, per ton, \$15.00 to \$16.50
Hay, No. 2, car lots, \$14.00 to \$15.00

later delivery, are said to have repudiated their contracts when the market declined. A member of the firm declared that creditors would be paid in full.

The liabilities are placed at \$300,000 and the assets at \$300,000.

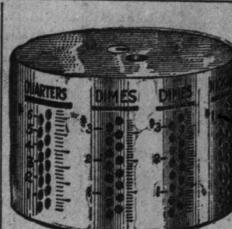

Upon the petition of three creditors Judge Carpenter of the United States District Court, appointed Charles H. Cassie receiver of the second-crope firm.

To Prohibit Gambling in Futures.
WASHINGTON, April 6.—By practically unanimous vote the house committee on agriculture to-day agreed to report, favorably the bill prohibiting gambling in cotton futures. The measure will be pushed for passage.

Chicago Gossip.
J. P. Bickell & Co. say at the close: Wheat—Lower—mildly mature and weak cables, together with severe liquidation in corn futures, closed session with a loss to the bear. Trade almost unanimously bearish and short interest of large proportions, and while liquidation may extend some further, we believe values are working into a strong position.

LIVERPOOL, April 6.—By practically unanimous vote the house committee on agriculture to-day agreed to report, favorably the bill prohibiting gambling in cotton futures. The measure will be pushed for passage.

Chicago Gossip.
J. P. Bickell & Co. say at the close: Wheat—Lower—mildly mature and weak cables, together with severe liquidation in corn futures, closed session with a loss to the bear. Trade almost unanimously bearish and short interest of large proportions, and while liquidation may extend some further, we believe values are working into a strong position.

Does your small change slip through your fingers?

Out of the money that goes through your pocket each day there is surely a small coin to spare, once in a while, that may be saved and applied to some useful purpose—to be added to a "nest egg" or to be put away in the name of a promising young member of the family.

The Home Bank lends out, free of charge, with the first deposit of one dollar, a handsome, solidly made metal savings bank that will hold small change and bills safely until they reach the Bank. Ask for one—no formality. Full Compound Interest Paid on Savings Accounts of \$1 or more.

La Grippe Coming Again
Useful Information as to its Cause and Certain Cure.

Grippy infection is now very common. Colds are certainly the order of the day. Scarcely anyone you meet that is not affected. If grip only made you uncomfortable one might bear it. Grippy infection weakens the system, destroys the nerves and makes easy pneumonia or chronic bronchitis. It is clearly a duty to keep away from the disease. Catarrhose is not a medicine you take—you breathe the lungs full of rich, balsamic essences and germ-destroying chemicals that are in two ways: In the first instance it destroys the germs—that checks the progress of the disease. Its second action is to beat the bacteria off the mucous surfaces. Nice to think of breathing little drops of healing so fine that the air carries it to every part of the lungs, bronchitis and throat passages. It is the absolute thoroughness of the application to every part that makes Catarrhose so effective in grip, catarrh and colds. The by its sedative influence upon the mucous surfaces it clears cough and throat tenderness very quickly. We owe something to the fact that has been as Catarrhose—that so surely enables us to make direct application to diseases of the breathing apparatus. We all know that Catarrhose is useless, and this departure in the mode of treatment is an advance in medical science that everybody can appreciate and value.

Complete outfit of Catarrhose lasts three months, price \$1.00: smaller size 50c; all dealers, or The Catarrhose Co., Buffalo, N. Y., and Kingston, Ont.

Constipation.

No one need expect to be healthy if the bowels are allowed to become clogged up. A free motion of the bowels daily should be the rule with everyone who aspires to perfect health.

Constiveness or constipation clogs the bowels, chokes up the natural outlet of impure matter, and retains in the system the poisonous effete waste products of nature, causing bad blood, dyspepsia, headache, biliousness, full humors, pimples, boils, blotches, piles, etc. Burdock Blood Bitters has built up an unrivaled reputation as a cure for constipation and all the diseases which arise from it.

Mr. Burns Woodcock, N.A.S.W., writes: "For over two years my wife was troubled with constipation. She tried several physicians, but could get no relief, but after using three bottles of Burdock Blood Bitters she was completely cured and is now in good health. My wife and I cannot speak too highly of Burdock Blood Bitters."

For sale by all dealers.

Had Weak Back.

Would Often Lie in Bed for Days Scarcely Able to Turn Herself.

Weak back comes from the kidneys, and when the kidneys are out of order the whole system becomes deranged. Those who have never been troubled with kidney trouble do not know of the suffering and misery which those afflicted undergo. Doan's Kidney Pills are a specific for all kidney troubles.

They begin by helping the kidneys to flush of all the acid and poisonous impurities which have collected, thus clearing out the kidneys, bladder and all the urinary passages and carrying away the uric acid, the chief cause of rheumatism, from the blood.

Mrs. Arch Schmitt, Black Point, N.B., writes: "For years I was troubled with weak back. Oftentimes I have lain in bed for days, being scarcely able to turn myself, and I have also had a great suffering while trying to perform my household duties. I had doctors attending me without avail and tried liniments and plasters, but nothing seemed to give me any good. I was about to give up in despair when my husband induced me to try Doan's Kidney Pills, and after using two boxes I am now well and able to do my work. I am positive Doan's Kidney Pills are all that you claim for them, and I would advise all kidney sufferers to give them a fair trial."

Price, 50 cents per box, or 3 for \$1.25, at all dealers or The T. Milburn Co., Limited, Toronto, Ont.

In ordering specify "Doan's."
