Riga is only a minor card in the pack, the fighting will be for bigger game, and the evacuation of Riga, instead of showing Russian weakness so much, shows that the Russian higher command had divined the real German intentions and had concentrated its forces at the decisive point.

The apparent decision of Von Hindenburg, a landsman by the way, unversed in naval capabilities, to risk the German fleet in an attack against forts, recalls the policy of Winston Churchill in striving to force the Dar- Only Small and Diseased danelles with the British fleet. The Germans, profiting by the British mistake, will surely attempt land operations in conjunction with their naval operations. This movement shows that the enemy is preparing to take the great risk of the possible appearance of a powerful allied fleet in the Raltic. MANITOBA WHEAT WILL BE ALMOST TOP GRADE

Light Frost in Some Few Localities Touches Corn and Potatoes.

Winnipeg, Sept. 6.—The department of agriculture in a report of crop conditions in the province stated that furing the past fortnight very rapid progress in harvesting had been made in almost every part of Manitoba, but in a few places rain has hindered semewhat. During the first three nights in September frost showed itself in several districts, especially in the central portions of the province, and touched corn and potatoes. Almost all of the wheat crop was already cut, but late pats would be affected. Rust

PARADE OF CHAMPION CATTLE FEATURES TODAY'S PROGRAM

Animals That Will Form Basis of Allied Nations' Future Herds Will Be Viewed by Spectators at Grand Stand

Today is Review Day at the Canadian National Exhibition. It is the day of days, the critical period when everything within the Exhibition grounds, and the C. N. E. itself, comes up for final inspection and the judgment of the people. In connection with this will be the parade of live stock in front of the grand stand this afternoon, when horses and cattle, acknowledged champions in their respective classes, of Canada, will present themselves in all their panoply of vari-colored rib-

bons and rosets before Exhibition visitors,

Behind this parade lies a deeper significance than the casual spec tator comprehends. It is a significance that means everything to the belligerent world. Due to the war, the allied countries, whence the farmers and stockbreeders obtained their blooded horses and cattle for breeding purposes, have been depleted of their domestic animal resources; consequently it devolves upon Canada and the United States to help restore the allied animal stock. The champions exhibited today before the grand stand form the basis of the belligerent countries' future herds, and Canadian farmers and stockbreeders are assured of establishing a cattle industry second to none in the world if they profit by the instruction secured in animal value thru the Canadian National Exhibition.

SIR ADAM BECK FIRST ONLY ONCE

Fine Class of Hunters Perform at the Horse Show in

Rochester.

Rochester, Sept. 6.—Governor's Day, and the fourth day of the horse show, demonstrated estisfactorily enough that for liunting classes this year's show surpasses all effects made in former years. Whereby last season, which was a banner for hunters, Sir Adam Beck's Sir Edward, Sir Thomas and Melrose swept the entries of Senator Wadsworth, Harry Worcester Smith, Arthur White and others off their feet, today the Beck torses struggled gamely three times or hine ribbons and succeeded only once. Insofar as the Beck stables are considered the Glen-Riddle Farms entries, of Philadelphia, loom as devouring ogres, finus the jumpers of Samuel D. Riddle, he daily attendent at the show would oncede the hunter championship to Sir dam, bu, with the Riddle jumpers present and doing business daily, another le is weaved.

The hand wrote on the wall when the Iddle's great Irish jumper, Bally Heaser, the biggest hunter at the show, wried the final event of the day, class is, for the heavyweight hunters, consmation and quality to count 50 per left. The Sir Edward, for the second me this week, bowed to Bally Heather, the Touraine, of Major Joseph Killers Sunnybrook farms, landing third.

cent. The Sir Edward, for the second time this week, bowed to Bally Heather, with Touraine, of Major Joseph Kilgou's Sunnybrook farms, landing third. Miss Chance, from Clarence J. Levin's stalle, was fourth.

In this event Adam, the grey gelding and old master from the W. A. Wadsworth stables, performed excellently as he took the jumps, but Adam did not answer so well to conformation and was an siso ran. The veteran, Ironsides, now owned by C. L. Whiting, did not perform as well as he could and was head-strong, a curb bit being used. Anyhow, Ironsides would not have stood the test of conformation and his knees appeared to be bad.

It lost one imagine the Beck hunters a completely outclassed for the day must be mentioned that Sir Adam's Thomas, Melrose and Sir Edward, h Sir Adam up on the latter, caped the blue over Riddie's Bally Hear. Willow King and Major Treat in thunt team class for best three huntito be ridden in hunt uniform, consists counting 30 per

cent. appointments 20 and performance 50 per cent.

This was the first appearance of Sir Adam in the show ring. For one thing, no one rides Sir Edward but Sir Adam, and on Tuesday probably the Beck hunt team would have won if Sir Edward, instead of Melbourne, had been the tail horse. Melbourne was nervous and undid the excellent work of his mates.

And so the Glen-Riddle farm hunters score two blues for the day against one for the Beck stables, which seems propillous for a new stable winning the hunter championship Saturday. Although the Kilgour Suanybrook Farms' entries are fine specimens of the hunter and great performers, Touraine, The Jap and Cobourg have failed to date to match the Riddle and Beck entries in general worth.

On the one hand there are the hunters advantages or disadvantages of trotting blood in hunters; but for that matter Bally Reather, who seems posed for the championship in the model hunter class, is only seven-eighths thorobred, and Sir Edward is only half thorobred, but Willow King and other hunters of the Riddle stable are real thorobred, a full brother of Nansy Pansy, The Bet, for instance, new performing in the steeplechase.

Nor are the Kilgour Sunnybrook Farm hunters thorobreds. Touraine and The Jap are by Chateau, a famous Canadian sire, while their dams are heavy with their dams are heavy with

"DOWN WITH SYNAGOGUE" CRY RUSSIAN WOMEN

Crowd Demonstrates Against Provisional Government at Taganrog.

Petrograd, Sept. 6. — A crowd of fanatical and reactionary women at Taganrog, in the territory of the Don On the one hand there are the hunters of treating strain, the Beck entries, and on the other hand the thopobred performers from the Riddle stables. The contests to come tomorrow and Saturday will do more perhaps than settle the championship between the respective stables. Temporarily it may decide the old and numerous arguments as to the advantages or disadvantages of trotting blood in hunters, but for that matter Cossacks, hearing that their cham-pion, Bishop Loann, had been forthe portrait of a single Romanoff and demanded that the bishop be given without entailing upon themselves demanded that the bishop be given for his residence the palace in which Emperor Alexander First, died. They marched thru the streets crying: marched thru the streets crying: "Russia is perishing! Orthodoxy is perishing! Down with the synatism of the franchise at this time would be unfair and unreasonable. A line of limitation must therefore be found.

in the session the prime minister intimated to parliament that in his judgment it would be proper to extend the franchise to the women of Canala, subject to such conditions and limitations as parliament might provide, and that whatever extension of the Iranchise was made to one province should be made to all. Under the abnormal circumstances precipitated by the present war, the measure of women suffrage which I have just outlined is deemed fitting and does indeed constitute in my judgment a reasonably general extension of the hranchise to women. It will be obvious to all that, having regard to the fact that all female emigrants to this country from Europe or from elsewhere have be-

Catharines, who were suspended for a breach of the regulations of the association. The game at Chicago, which caused the trouble, was played for the benefit of the American Red Cross, and the officials of that society communicated with the association asking that the patricular motives of the players be taken into consideration.

The resolution moved by Mr. Coombe and seconded by Mr. Leonard Smith was as follows:

"Whereas the Athletic Lacrosse team, of St. Catharines, played a game in Chicago cn Sunday, August 19, and was therefore liable to a penalty of suspension under Section 1 of Article 4 of the regulations;

"And whereas this game was not advertised, but was arranged on Saturday game being played with the approval of President Lancaster, of the O. A. L. A.;

"And whereas the officials of the St. Catharines team were not present and fine players who composed the team were unaware of Section 1 of Article 4;

"And whereas the games were both played under the auspices of the Chicago Chapter of the American Red Cross for patriotic purposes, and the American Red Cross has written asking the association to take into consideration the fact that the Athletics took any illegal action at their request, and in aid of the American Red Cross;

"Re it therefore resolved that this executive believes that it is justified in over-riding Section 1 of Article 4 and the over-riding Section 1

ST. CYPRIANS, BY SEVEN, BEAT THE I.A.A.C.C.

St Cyprians and I. A. A. C. C. played yesterday at Island Park. The game proved interesting from start to finish. The visitors won by seven runs. They batted first and were all disposed of in the first lining for 31 runs, of which Allshire and Mundy each contributed 10. McLeod clean bowled six wickets at a cost of 21 runs and Nash three for 10. The I A. A. C. batsmen responded with 47—McLeod 21 and Robinson 10 being top scorers. The wickets fell to Tunbridge, one for 12, E. Davis, two for 12, Headley, three for 9, and Alishire four for 7. The Saints in their second innings showed to better advantage, Machan making 23 before being run out, Lynch contributing 14, all single, Allshire 10, and Headley 17, running the total up to 77. McLeod had three wickets for 27. Nash, who bowled thru both inings, two for 26 and Brockhurst, Fox and Robinson, one each for 11, 7 and 4 respectively. The islanders, with 62 runs to get to win, lost their first three wickets for 9 runs, but McLeod and Lowen raised the score to 24, when Mundy replaced Tunbridge, and the change worked effectively, nine wickets being down for 37. Of these McLeod was again top scorer, with 13 and Ricketts 8. The last wicket partnership of Fox and Nash added 17 runs, the inhings closing for 54. Tunbridge one for 17, Headley three for 22 and Mundy six for seven were the effective bowlers.

out. J. H. was out at 117 for 21, then F. Colborne piled up the highest score of the innings, and was last out for 38; 6 fours showed the rate of his scoring. Gould held up his end for a steady 11, staying while 24 runs were put on, and the total reached 164. Some half dozen missed catches cost a lot of runs, but Faulkner made three good ones behind the stumps. Hill was the best bowler with 5 wickets for 41 runs.

Woodgreen, on going to bat, made but poor show against J. Colborne bowling "googlies" and Simmons. Faulkner hit the latter for a four and Wilson found a "googlie" for a six but these were the only hits when 5 wickets had fallen for 24. Watson then quickly registered 11, one of his drives just missing being a six by inches. Davis and Whitaker each found the boundary once, but wickets fell steadily, and the side were out for 46. Gould made a grand one-hand catch of Watson's hot liner, and Kent's catch of Wilson was a dandy. Colborne took 6 wickets for 25, and Simmons 4 for 13.

Prince Eugene comes from an Orleans family whose members have
been prominent statesmen and soldiers since the 14th century. Early
in his young manhood he broke with
his family and set about allenating
himself from his title and adopted this
country as his home. Vicomte
Charles de Beauharnals, Marquis of
France, an ancestor of Prince Eugene,
born in 1670, was for 20 years governor
of Quebec. Charles' grandson was
Alexandre, Vicomte de Beauharnals,
who married Josephine (afterwards
the wife of Napoleon Bonnparte). She
had two children, Hortense, who married Louis Bonaparte, King of Holland,
and who became mother of Napoleon
III., and Eugene, the great general and
viceroy of Italy, who was great great
grandfather of the present Prince
Prince Eugene. At the outbreak of the
war Prince Eugene was staying with
his kinsman, the king of the Belgians.
He served on King Albert's staff untit the fall of Antwerp, when he was

At the afternoon meeting, which was attended by some 50 delegates, two very interesting papers were read. Mrs. W. R. Lang delivered an address Mrs. W. R. Lang delivered an address on Canadian laws, in which she pointed out some of the inequanties of the Ontario Franchise Act. Farmers' sons, for instance, could vote on their fathers' assessments if they were large enough. Why, she asked, should not the daughters have the same right?

After cullining the requirements of candidates for the federal and provincial house, Mrs. Lang gave her views on municipal elections. She thought that candidates should be elected for more

During his trip recruiting offices were opened in the most important cities from coast to coast.

"In the west we found no opposition to the war." General White said. "Indeed, we found plenty of enthusiasm. Some employers did not like the idea of the possibility of losing some of their men, but we impressed on them that unskilled or semi-skilled labor could be done by women. In England we had 200,000 women workers when the war started, and now ers when the wer started, and now we have 4,000,000."

British recruits are being obtained now at the rate of 100 a day thruout the country, General White said.

BARN AND CROP BURNED.

Brantford Township Farmer Loses Heavily in Fire of Unknown Origin.

Special to The Toronto World.

Brantford, Sept. 6.—Fire completely destroyed the barns on James Pate's farm, concessión 2, Brantford Township, and did about \$7,000 worth of damage, as the buildings were packed with practically all of this year's crop. The fire started about 3 o'clock, and it was nearly six o'clock before the fire was under control and the house saved after a strenuous fight. No reason for the fire can be given. The owner was severely burned in rescuing some of the stock from the flames, while his bed-ridden wife had to be removed from the house owing to the threat of the flames.

NEW YORK CURB. Kemerer, Matthes & Co. report the following closing prices on the New York curb:

Lendon Sept. 6 .- The stock market was Lendon Sept. 6.—The stock market was quiet today, but the steady undertone continue d in most of the departments, especially gilt-edged securities, rubber stocks and Japanese bonds. The latter advanced on redemption purchases. Spanish bonds were better, with a favorable move in exchange, but Russian issues were weak after temporary firmness. Argentine rails were easy on strike rumors and American securities moved irregularly. Money was in good supply and discount rates were quiet. A dividend of 3 per cent, payable in october, was declared yesterday by the Timiskaming Mining Company.

PRICE OF SILVER

London, Sept. 6.-Bar silver, 48 d per ounce. New York, Sept. 6.—Bar silver, 95%c per ounce.

STOCKS PURSUED CONTRARY COURSE

Industrials Evinced Stronger Tone on New York Exchange.

New York, Sept. 6.—Stocks pursued a contrary course during the active periods of today's market, industrials periods of today's market, industrials evincing a stronger tone, while rails, a few representative issues excepted dropped to lower levels.

N. Y. Central registered the new minimum of 74% and New Haven fell gradually to the low record of 27%, while St. Paul made its minimum price of many years at 62%.

U. S. Steel was extremely irregular, opening at an extremely irregular, opening at an extreme gain of 11% points to 109%, reacting almost two points, then rallying to 100%. Its final quotation of 108 represented a net gain of an eighth of a point. Crucible Steel make a net advance of 2% points.

Coppers were temporarily stimulated by reports of home and foreign government contracts, and other war supply issues strengthened in sympathy. These gains were materially reduced or altogether lost towards the end. General Motors dropped five points. Sales amounted to 690.000

shares.

Ponds were heavy, the Liberty issue remaining steady, however, at 99.88 to 99.92. Potal sales par value aggregated \$3,875.000.

SLOW MOVEMENT

COTTON LETTER.

J. P. Bickell & Co. report:

New York, Sept. 6.—The market has shown, an unmistakable reactionary tendency for several days, finally developing into a fairly good advance today, brought about largely by short covering. New York wired that contracts were still scarce and stocks small. Consideration should be given to the fact that regardless of ultimate developments the market has mate developments the market has already had a severe decline and lialready had a severe decline and liquidation been very extensive so that technically the position is the reverse of what it was a few months ago and while there is nothing at the moment in crop coditions or trade conditions to justify any bullish attitude, at the same time the market is in position where substantial rallies are in order. It will still be several weeks before the crop movement will be sufficiently large to make a substantial impression on the market. We, therefore, continue to feel that advantage should be taken to cover shorts on weak spots and await further developments.

MONTREAL EXCHANGE.

Montreal, Sept. 6.—Further improvement of a moderate sort was shown in the tone of the Canadian security market today, the better tendency being again traceable to the more reassuring action of the New York stocks.

Dominion Iron contributed more than the usual quota to the day's business, upwards of 1200 shares out of a total of less than 1800 sharee, or about 70 per cent. An early rise of a point, concurrent with an upturn in U.S. Steel at New York was followed by a reaction to 62% and a rally to 63. Closing quotations, 62% to 62%, represented an advance of a quarter-point for the day.

Weakness.

Arrivals of wheat proved to be little in excess of local milling requirements. Similar conditions were said to prevail at Minneapolis, Omaha and Kansas City. The evident slowness of the movement of surplies was said to be largely due to country dealers' unfamiliarity with the government grades.

Packers' busing rallied the provision market from slight setbacks due to lower quotations on hogs. Most to lower quotations on hogs. Most to lower quotations on hogs. Magners Standard Stock Exchange.
