The Toronto World GREEK REVOLUTION SPREADS

British Foreign Office Announces Official Confirmation of Greek Revolt at Saloniki, While Allied Warships Leave That Port To Quell Disturbances at Salamis, Piraeus and Phaleron—King's Abdication Not Yet Confirmed.

WARSHIPS AT GREEK PORTS TO QUELL SPREADING REVOLT

Entente Allied Fleet Leave Saloniki, Where Revolution Commenced, Ready to Land Troops or Shell Towns Where It is Believed the Populace Has Taken Up Arms.

LONDON, Sept. 1.—The British Foreign Office announced tonight that it had received official confirmation of the reported Greek revolt at Saloniki. The foreign office, however, says it has heard nothing of the reported abdication of King Constantine of Greece.

In view of the changed situation, says a Reuter despatch from Athens under today's date, it is probable that the Greek elections will be postponed for a fortnight from Oct. 8.

An entente allied fleet, the despatch adds, has arrived from Saloniki. Most of the vessels are at Salamis, while others are at Piraeus and Phaleron.

ATHENS, Sept. 1, via London, Sept. 1.—An entente allied fleet consisting of 23 warships and seven transports has arrived off Piraeus.

LONDON, Sept. 1, 11:38 p.m.—Following two days of silence in telegraphic communication with Athens, during which sensational rumors of a revolution gained currency, but no confirmation, comes the statement of the arrival of an entente allied fleet with transports at Piraeus and that the Greek elections likely will be postponed for a fortnight.

The brevity of the despatches seems to indicate that something unusual is happening, and the development of events is awaited with the greatest curiosity here.

From the fragmentary despatches which have reached London it is deduced by some observers that changes of decisive character already have taken place in Athens, and that the de facto government of Greece has decided to abandon neutrality and ally itself on the side of the entente allies.

Other experts take a more conservative view. The Times editorially attaches small importance to Wednesday's revolutionary movement at Saloniki, declaring that this is completely overshadowed by the news of the appearance of entente allied ships off Piraeus.

"This must be taken to indicate," says The Times, "that the allies are warned of the equivocal attitude which has so long prevailed in Athens, and are resolved to battle the intrigues of their enemies."

The Chronicle discusses what it terms the great difficulties which former Premier Venizelos must encounter in an endeavor to guide Greece.

The Chronicle says: "The Greek army is anything but ready for action; firstly, because it has just been demoralized and secondly, because the personnel of its higher command and a large portion of its officers' corps are in the melting pot, having heretofore been led by staffs largely composed of pro-German officers. The whole army is in a pretty serious state of demoralization. The case of the nation is similar."

The Chronicle also discusses the rumors of King Constantine's abdication and Athens reports of political changes in the interest of a more unified and only of interest as showing Saloniki's frame of mind.

A WARTO THE DEATH FOR KAISER, SULTAN, HOHENZOLLERNS!

Ever since the war began to take on shape, quite a number of observers, and The World professes to be one of them, have held the opinion that toward the end it would be settled more by revolution than by fighting on land and sea; and perhaps we are racing that point now; and that while the fight started in the west in Belgium and in France, and then in Russia, later in Italy and Austria, and big naval engagements took place in the North Sea and minor ones in the Mediterranean, the revolutions would begin in the east; and already they have broken out in that quarter. A few weeks ago the sheereef of Mecca and others in Asia Minor revolted against the Sultan of Turkey; in the last day or two a revolution has broken out in Greece; and we would not be surprised if it next spread to Bulgaria, later on to Hungary and Austria, and finally to Germany.

There is no settlement for Germany with the allies, or any opportunity for her to trade with the world, and even in this case her opportunity will be limited, unless she first clears up her own house at home; and this means the wiping out for all time of the Hohenzollern family, not mere abdication in favor of some junior member thereof; and the substitution, in place of autocratic military rule, of democratic and constitutional government, where the people have the say instead of the kaiser and his family and the aristocracy of land and wealth, aided and abetted by metal and armament trusts. If this does not take place, then the war must be fought out to a finish, and great land engagements must take place on the western front, on the German-Russian front and on the Austro-Italian front, as well as in Greece and Turkey; and unless the struggle for naval supremacy continues as it has been going on now for over two years. These naval and land battles will not cease until the German navy has been destroyed, the empire of Germany, Austria and Turkey have been annihilated and the allies are able to march into Berlin, Vienna and Constantinople.

Come which way the end will, it must come by fighting or by internal revolution, more likely by both. Kaiserism will not last, and popular rule must come in its place; and until this happens there will be no let up in hostilities, no chance of peace, no chance of any country of our enemies sharing in the trade and commerce of the world.

Coming back to the revolution which has broken out in Greece, we do not think that the abdication of King Constantine in favor of his son, whose mother is a Hohenzollern and sister of the kaiser, will meet the situation. The Hohenzollerns must get out of Greece, lock, stock and barrel; we do not think in this case it would be necessary to try King Constantine for murder and the crime of assisting in and bringing about the war. But if the German people do not, by revolutionary means, get rid of the kaiser and the crown prince and the chancellor of the empire and his chief of staff, then these and all the sons of the kaiser will have to be tried by the great court that the allies are to create for trying those guilty of bringing on this war, for causing the loss of life to millions of men and women and children, including soldiers and sailors, and for untold destruction of property. Nothing but the lives of these men for these crimes will satisfy the allies; as we said the other day, banishment to St. Helena will never be resorted to again in dealing with rulers and their advisers who sanction the war and outrages that have taken place and murder like those of Nurse Cavell and Capt. Fryatt.

Any day now revolution will start in Turkey, and the sultan, bag and baggage, must be chased out of Europe; and when caught the Sultan, too, must be tried and made to pay the supreme penalty. The list of murders and outrages that have been perpetrated on hundreds of thousands of Christian men and women by the sanction of the Sultan and his chief advisers can only be atoned by the lives of the rulers and the generals and the chief advisers therein concerned. No quarter for kaisers or Hohenzollerns; no quarter for the chancellor or the chief of staff or the main instruments of a

CONGRESS VOTES TO AVERT STRIKE

Senate Will Expedite Passing of Legislation at Its Session Today.

WASHINGTON, Sept. 1.—Prevention of the threatened railroad strike thru an act of congress seemed assured tonight after the house by an overwhelming vote passed the Adamson eight-hour day law and the senate had agreed to take a final vote on the measure not later than 6 o'clock tomorrow evening.

The Adamson bill as passed in the house by a vote of 239 to 56, with minor amendments, is the same measure which the brotherhood leaders officially declared yesterday would constitute a "satisfactory settlement" and prevent the strike.

Gain Eight-Hour Day. Briefly the Adamson bill provides: "That eight hours shall be deemed a day's work and the standard for reckoning the compensation of railroad employees operating trains in interstate commerce after Jan. 1, 1917; and that no railroad that a commission of three appointed by President Wilson shall investigate the effects of the eight-hour standard from six to nine months and then report to congress, present wages not to be reduced during the investigation or for 30 days thereafter, and overtime to be paid at a rate not less than 1 1/2 times the regular rate."

Chief Engineer Galy explained the route of the proposed line from Toronto to St. Catharines via Hamilton. He said that the station in Toronto would be at the foot of Yonge street, where a terminal to cost \$1,000,000 would be erected. The ultimate cost of freight and passenger terminals in Toronto was estimated at between \$8,000,000 and \$7,000,000. The line will go south of the steam lines to Port Credit, thence to Clarkson, passing thru the centre of Burlington. Two surveys have been made from there one north, and one south of the Plains road.

The line will cross the Grand Trunk overhead and will proceed along to Harvey and Dundurn Parks in Hamilton, passing along a route formerly suggested by the late John Patterson and the Canadian Northern Railway. It proceeds along the northern of the Grand Trunk Railway thru a portion of the city and crosses the G. T. R. overhead at a point near John street. It then goes on to Stony Creek, Winona, Vineland, Grimsby, Beamsville and St. Catharines. The line will be speedily built and fine equipment for freight and highest speed passenger traffic. In Hamilton as far as North street there will be overhead crossings. The sum of \$11,250,000 is a close estimate for the construction of terminal.

HYDRO TO SPEND MILLIONS ON TERMINALS IN TORONTO

Radial Station at Foot of Yonge Street, With Line Paralleling Steam Roads to Hamilton — Toronto Terminals to Cost Six or Seven Millions.

HAMILTON, Saturday, Sept. 2.—The plans of the hydro-electric committee for the construction of radial railway lines to serve the district lying between Toronto and Niagara Falls were heartily approved yesterday at a representative convention of the Greater Hamilton Hydro Radial Union, which was attended by seventy-five delegates. Acting Mayor Morris presided and welcomed the delegates.

Proposed line from Toronto to St. Catharines via Hamilton will go south of the steam lines to Port Credit, thence to Clarkson, passing thru Oakville, south to the G. T. R., paralleling the Hamilton Radial to the centre of Burlington.

Two surveys have been made from Burlington, one north and one south of the Plains road. The line will then cross the G. T. R. overhead and proceed to Harvey and Dundurn Parks in Hamilton, passing along a route formerly suggested by the late John Patterson and the Canadian Northern Railway.

GERMAN RANKS CRUMBLED UNDER DEADLY BRITISH FIRE

Enemy in Attack on Front Between Ginchy and High Wood Was Exposed to Concentrated Fire of Mortars and Machine Guns

LONDON, Sept. 1.—Heavy German attacks on the British lines between Ginchy and High Wood, a front of about two miles, yesterday afternoon, were more costly to the enemy than had been earlier estimated, Sir Douglas Haig reports tonight. The afternoon statement reported that, after four assaults, a fifth attempt carried the enemy into an advanced British trench.

"Tonight's statement reads: 'South of the Ancre there is no change. From the Ancre up to Hubertine and further north of these artillery on both sides is active, and also north of Arras. Near Hubertine the enemy exploded small mines. 'Further details of the hostile attack of yesterday indicate that the German casualties were very severe. 'Besides being met everywhere with rifle fire the Germans came under concentrated fire at various places from trench mortars and machine guns, while at several places our artillery obtained excellent targets. 'There was great aerial activity yesterday and many combats with the enemy. Five of his machines were destroyed and at least seven others were driven down damaged. We undertook several bombing expeditions, which were successful. Five of our aeroplanes were lost. 'Enemy's Gain Slight. 'The afternoon statement follows: 'Tonight's statement reports that the attack High (Fourzeux) Wood, reported in last night's communiqué, the enemy made a further counter-attack yesterday afternoon, and even though on a front of some 300 yards between Ginchy and Highwood, these counter-attacks were preceded by an

ITALIAN FORCES NOW OCCUPYING ALBANIAN TOWN

Greek Garrison Withdrew From Telpeleni When Italians Made Entry.

TWO VILLAGES TAKEN

Italians Crossed Vovusa Under Heavy Fire and Stormed Positions.

ROME, Sept. 1, via London, 10.30 p.m.—Italian troops have begun an offensive in southern Albania and have occupied Telpeleni, 21 miles southeast of Avlona on the Vovusa River, says the official statement issued by the war office today. The Greek garrison withdrew from Telpeleni. Austrian attacks in the Brenna Valley and near Gorizia have been repulsed, the statement adds.

Following is the text: "On the northern slopes of Monte Cimone, in the Astico Valley, detachments of our troops surprised some of the enemy's saps, which they destroyed with hand grenades and explosives. The enemy fled, leaving arms and ammunition in his hands."

"In the Sugana Valley during the afternoon of the 30th the enemy attacked our positions at the head of the Coalba Valley on the right bank of the Brenta after intense artillery preparation. Other forces created a diversion against our lines in the Val Campelle, between Trima Lunetta and Malga Cenone. Our troops counter-attacked and drove back the enemy, who left several hundred dead as well as 35 prisoners in our hands. In the upper Doga Valley there was hostile heavy artillery fire."

"On the Isonzo front during a violent thunderstorm yesterday the enemy attempted to attack our position east of Gorizia and north of Opplona. (Continued on Page 2, Column 5).

FIFTY LIVES LOST IN STORM IN DOMINICA

Rivers Went on Wild Rampage and Velocity of Wind Was Terrific.

ST. THOMAS, D.W.I., Sept. 1.—Fifty lives were lost in a hurricane which struck the British West India Island of Dominica last Monday night. The barometer fell to 29.10 and the wind reached a velocity of more than 70 miles an hour.

Rivers in the Island rose to unprecedented heights, and carried away bridges and culverts. Some of the streams charged their courses and swept thru fields and villages, carrying away houses with their occupants. The number of houses, schools, churches and other buildings wrecked or seriously damaged exceeds 200. Many local craft were lost. The lime crop was considerably damaged and some of the other crops were wiped out.

# WAR SUMMARY

## THE DAY'S EVENTS REVIEWED

An official statement issued in London last night confirms the story published in The World on Thursday morning that a revolution has broken out in Greece. Just what form it has taken is not stated, nor is there likely to be any definite word from Saloniki until the tangle of rumors is straightened out. One thing, however, is certain, and that is that something unusual is happening. The brevity of the despatches indicates this, and the development of events is being awaited in London and throughout the world with the greatest curiosity. It is said that as a result of the revolution at Saloniki the Greek elections may be postponed for two weeks. An allied fleet has left Saloniki harbor, some of the ships going to Salamis, others to Piraeus and still others to Phaleron. This would indicate that the revolution is not confined to Saloniki, but is spreading throughout the country. Reports that King Constantine has abdicated are not confirmed from London.

The lull on the British front in the west has been broken by a series of violent German assaults upon British positions on the Somme between Ginch and High Wood, a distance of nearly two miles. The enemy came under the devastating fire of trench mortars and machine guns, as well as the British rifle fire, famous for its effectiveness, and suffered great losses, for which the gaining of a foothold in the advanced British trenches at two points was but slight compensation. It was the most ambitious effort at a counter-attack made by the Germans since the allies' offensive on the Somme front began last July, and the results will hardly encourage the enemy to renew the attempt.

Occupation of the important industrial centre of Petroseny and of the Tarlung Valley, near Kronstadt, Transylvania, is officially announced at Bucharest. The Roumanians have thus established mastery over a rich coal area, whose loss will necessarily be severely felt by the enemy.

If Roumania carries out a plan of action said to be under contemplation, forces will be thrown across the Danube into northern Serbia, thus striking an effective blow at the Teuton-Bulgarian flank.

Long delayed, the Italian offensive in the Balkans is at last fairly started. Some months ago the landing of Italian troops in Avlona, southern Albania, was reported, but no aggressive action followed. Now comes an official announcement from Rome that Tepeleni, 35 miles northwest of the Greek frontier in southern Albania, has been occupied by the Italians, and that the Greek garrison withdrew. Hitherto the outside world has been in ignorance of the fact that Greeks held the town, and Berlin and Vienna will probably seize upon the latest news as evidence of a direct clash between Greek and Italian interests in Albania. Various reports of more or less doubtful origin have from time to time hinted that Greece and Italy were jealously watching each other for signs of encroachment upon this territory. However, Greece has too many and too pressing domestic troubles at present to allow her to be concerned with broader questions of policy, and the passive retirement of the Tepeleni garrison is in line with the course pursued consistently under the Bulgarian pressure.

The real significance of Italy's move in Albania is that she has entirely cast aside a narrow policy that caused the downfall of one ministry and is co-operating in a wide-spread manner with her allies in the Balkan theatre. It is possible, too, that before the war ends Italian troops will be found lined up with the British and French in northern France and Belgium.

Bulgarian invaders may soon be expelled from Greek soil. Unofficial, but apparently trustworthy advices are to the effect that, following the complete collapse of their offensive against the Serbians, they are in general retreat. Their last position on the Serbian left flank was evacuated on Thursday last. Meanwhile, Anglo-French forces are biding their time, pending the unraveling of the Grecian tangle.

Both Russians and Austro-Germans have resumed the offensive at points on the eastern front. The enemy has launched a series of heavy attacks in the Vladimir-Volyki region, and in the direction of Halicz, along the banks of the Horovanka, the armies are locked in fierce conflict. In the Carpathians, the Slavs have gained another line of heights. While Petrograd makes no sweeping claims of Russian progress, the incidental mention is made that nearly 18,000 prisoners were taken in the fighting of Thursday.

Gen. Smuts has practically overcome the last attempt at enemy resistance in German East Africa. Announcement that Mrogoro, the enemy's provisional capital, has been occupied by British troops and that German officials, civil and military, have taken to the mountains, points to a complete clean-up and to another "little patch of red" added to the British string of possessions.

### DRILL AT FIRE HALL ALWAYS DRAWS CROWD

To the Outsider, This is But One of Many Features at the Exhibition.

Visitors to the Exhibition can gain an idea of what transpires in a Toronto fire hall when an alarm is sounded by watching the drill in the Exhibition fire hall, which takes place every evening at 9 o'clock. The song is rung and in the same instant the mechanism is set in motion, which quicker than it can be unlocked the stable doors and permits the horses to run out.

At this hall there are four horses and each one takes its place underneath its own harness. To most Torontonians this is nothing new, but there are many who can take it in with enjoyment who hail from other towns and cities.

substation and shelters for the proposed line from Toronto to St. Catharines. An overhead bridge near Valley Inn is in the hydro plans. Facilities will be provided for supplying power along the route and for leaving the line for a distance of ten miles. In cases where a expense will be spread over all the various reducing that have been made in the cost of hydro power.

Following the consideration of the plans, the following resolution was moved by W. C. Bush of St. Catharines and seconded by James Walbrook of Oakville: "That this meeting of the representatives of the municipalities in the district and St. Catharines to the City of Hamilton hereby endorse and approve the action of the executive committee of the Hydro-Electric Railway Association in their meeting in Toronto Aug. 21, in their request to the provincial government for the following legislation:

1. That from time to time, as approved and requested by the Hydro-Electric Power Committee, orders-in-council be granted for funds for the purchase of rights-of-way of such hydro-electric railways as are recommended by the Hydro-Electric Power Committee.  
2. That enabling legislation be passed for the purchase of the Chippewa Creek Power Development by the municipalities of the Niagara power districts.  
3. That permission be given said municipalities to vote on bylaws guaranteeing said bonds at the next municipal election.

4. That the Hydro-Electric Railway Act of 1915, Bill 107, be repealed, with the exception of the fourth clause, and that the provisions of such hydro-electric railways be amended to read as follows: "That this legislation also be enacted severing the Hydro-Electric Power Commission from any department and from the control of any department of the government."

Another resolution, moved by Controller Robson and seconded by W. S. Davis of Oakville, expressed the approval of the members present in regard to the plans for the future of hydro between Toronto, Hamilton and St. Catharines. The resolution concluded: "In order that the said councils may have an opportunity to consider the same plans, the bylaws may be presented to the electors in sufficient time so that a vote may be taken at the municipal elections in January, 1917, and we hereby agree to such bylaws and to the bylaws in our respective municipalities with respect to the proposed railways."

The convention was brought to a close by the visiting delegates attending a banquet given by the city at the Royal Connaught. The speaker of the evening was T. J. Hannigan, of Guelph, secretary of the Ontario Hydro Radial Union, and also of the Ontario Municipal Electrical Association. Mr. Hannigan spoke of the future of hydro in this district, and stated that Hamilton would eventually become the radial hub of the Dominion.

# TORONTO IN NEED OF MORE HOTELS

Accommodation is Inadequate for Large Number of Exhibition Visitors.

## HELP EXTEND FAIR

Citizens' Slogan Must Be "On to the Million and More Beds."

"Single room, please." The hotel room clerk looked bored and answered as he had answered before a dozen times during that day. "Sorry, we're full." "That day" is any day since the Exhibition opened. This year as every year Toronto hotels are and have been packed during the Exhibition weeks. They are packed and cannot take care of the people who apply for a room in a hotel. Daily they turn people away. The hotels have beds in the corridors and in the manager's office. Every cubic inch that the law will permit is covered with beds. And still there are thousands for the thousands that throng to Toronto for the Exhibition. How many stay away from Toronto because they have learned by painful experience that they simply cannot get accommodation in Toronto hotels no one can say. It may well be that the chief factor that militates against the million mark is the inadequacy of Toronto hotel accommodation.

If Toronto had another hotel, a fine hotel of a modern type, with a room just across the line, how much would it swell the attendance at the Exhibition? There is no doubt that at this time the year it would be full, packed, as every other hotel is.

Known by its Hotels. Just as a child is known by its companions, so a city is known by its hotels. Repeatedly it has been reported that Americans have expressed their interest in the Exhibition in greater numbers this year than ever before. What opinion must they carry away of a city the size of Toronto, which had to so wearily beg for accommodation from one hotel to another? Then when they did get accommodation they got a room that was not all the sort to which they were accustomed.

The extension of the Exhibition depends upon the extension of the hotels. There is only one way to give Toronto better hotel accommodation and that is by the erection of a new hotel. That hotel should be one that would add dignity to the city, an hotel that should attract the best class of travelers.

For the next year or two the hotel that depended on it has been out of date. The hotel that Toronto needs, the hotel whose need is accentuated by the Exhibition, must be one that depends on its service for success. Such an hotel would be a tremendous drawing card for the Exhibition, an admirable advertisement for the city in bringing guests here, and an even better one after they had departed.

All classes are interested in the welfare and growth of the Exhibition. People cannot come to Toronto unless the Exhibition is there. It is somewhere in the city where they can sleep. Therefore all classes of the community are interested in the erection of a new hotel in Toronto. This 30 the enemy forces were in full retreat east and west of the Uluoguru mountains and south of Mrogoro. He believed the German military headquarters and provisional government had retired into the mountains.

chiasella, but were promptly driven off. Enemy artillery shelled Corvoon, Alessea and Gorizia, where the hospital was again hit and some of the personnel wounded.

"In Albania during the morning of Aug. 30 our composite column occupied Tepeleni and the village of Korzo, after a rapid march over difficult ground. The Greek garrison withdrew. At the same time detachments of bersagliers made Monte Gradist and enemy's position on the right bank of the Vovussa. "Our troops crossed the river near Carbonara and stormed the defended villages of Klug and Hekal under a heavy artillery fire. Seventy-two prisoners, including 40 Austrians and a large quantity of ammunition fell into our hands.

"During the night the news of the occupation of Tepeleni having been received, the bersagliers withdrew again from Monte Gradist. Enemy aircraft dropped bombs on Proveni and Lapal without doing damage." Although the above statement says that there has never been any official information of the occupation of the town by the Greeks. Early in the war Greek troops, reported to have been irregulars, went into the southern portion of Albania and for a time held Berat, north of Tepeleni. There has been much diplomatic inter-rogation over the rights of both Greece and Italy in Albania, and especially over the possession of Avlona. Tepeleni is approximately 35 miles north and west of the border of Greece.

# SWEEPING VICTORY GAINED BY SMUTS

Enemy's Provisional Capital in German East Africa Has Been Taken.

LONDON, Sept. 1.—Gen. Smuts, commander-in-chief of the British forces in German East Africa, reports under date of Aug. 30, that the German forces in that colony are in full retreat. He announced the occupation of Mrogoro, the seat of the German provisional government, and said he believed the German military headquarters and provisional government had retired into the mountains.

The text of the statement regarding operations in German East Africa as given out by the British official press bureau, says: "General Smuts reports that on Aug. 30 the enemy forces were in full retreat east and west of the Uluoguru mountains and south of Mrogoro. He believed the German military headquarters and provisional government had retired into the mountains. "We occupied Mrogoro on the 26th. This is a most important town and was formerly the seat of the provisional government."

# PARLIAMENT BUILDINGS CORNER-STONE IS LAID

Duke of Connaught Performed Notable Ceremony at Ottawa Yesterday.

OTTAWA, Ont., Sept. 1.—The cornerstone of the new parliament buildings was laid at noon today by the Duke of Connaught, in the presence of a large and distinguished assembly. Those present included the Duchess of Connaught, the Princess Patricia, and a large party from the Government House; Lieutenant-Governor of Ontario, Sir John Hendrie; Sir Pierre LeBlanc, Lieutenant-Governor of Quebec; Lieutenant-Governor McKean of Nova Scotia; Lieutenant-Governor MacDonald of Prince Edward Island; the Justices of the supreme court, the officers of the headquarters staff, and many of the higher officials.

Ship at twelve o'clock his royal highness, accompanied by a mounted escort from the Princess Louise Dragoon Guard, arrived on Parliament Hill. They were received by a guard of honor from the Governor-General's Foot Guard. The 20th and 22nd Battalions were also drawn up. While the band of the 20th Battalion was playing a march, Hon. Robert Rogers, minister of public works, accompanied by Sir Robert Borden, proceeded thru the royal pavilion, along a carpeted platform, to the old corner-stone, which was still remaining in its original position.

### Half-price Millinery Items —Trimmed and Untrimmed Hats

**Autumn Hats in Two Groups, Half-price, at \$3.50 to \$7.00 and \$2.00 to \$3.50 — Untrimmed Velvet Shapes, 95c; Ostrich Ruffs, \$1.25.**

**SMARTLY TRIMMED AUTUMN HATS**, fashioned of velvets and plushes, separately or combined, are to be had in rich Autumn shades of purple, green, brown, navy and black. Some have facings of a contrasting shade such as rose. Pretty trimmed, too, in great variety with silver or gold ornaments, French flowers, furs and many smart effects in wings. Such a splendid opportunity to procure an Autumn hat at just half the regular figure. Divided into two groups. Half price, \$2.50 to \$7.00 and \$2.00 to \$3.50.

**UNTRIMMED VELVET HATS LESS THAN HALF PRICE AT 95c.**—They represent a line of manufacturer's samples made up for present wear, comprising sailors, turbans, tricorne and matrons' shapes, in splendid quality of velvet in black and colors. Half price and less, 95c.

### Ostrich Feather Ruffs, Priced Monday at \$1.25

The price is less than you would pay for a single mount, and these ruffs are made up in the fashionable "dog collar" style, and nicely finished with silk braided tassels. They are soft and fluffy, and procurable in all black, all white and black and white and white and black. Price, \$1.25.

—Second Floor, Yonge St.

### Dress Goods and Suitings, 29c

THE price is low enough at any time and now, when all textiles are increasing in cost almost weekly, such a figure is a thing to marvel at! Included in the offering are broken lines in whipcords, Panamas, novelty checked and striped suitings, in two-toned effects, self-colored fancy suitings, tweeds, etc. There are many colors as well as navy and black.

A splendid opportunity for Exhibition visitors, for many of these fabrics are less than their present mill cost.

Extra space and additional salespeople will ensure quick service, but come early, for though the quantity is large it will surely soon disappear. Only a limited quantity to each customer. Monday, clearing price, less than half-price, 29c.

See Queen Street windows.

## QUEBEC CLERGY URGED TO ASSIST RECRUITING

Cardinal Bégin Points Out German Victory Would Be Veritable Calamity.

MONTREAL, Sept. 1.—A special despatch to La Patrie from Quebec quotes Cardinal Bégin as having given instructions to the clergy in regard to recruiting. These instructions are in substance as follows: "It is complained that the work of recruiting is not producing results. The cause for which recruits are wanted is so grand and the interests at stake are of an order so high that a German victory would be a veritable calamity. The triumph of the German man would have the effect of spreading through the world all the evil ideas that have done so much harm in Europe. It is of much importance that you do not oppose recruiting, but that you favor it."

## MANITOBA'S GOOD RECORD. Prohibition Measures Assorted to Have Lessened Crime.

WINNIPEG, Sept. 1.—J. N. Maclean, chief license commissioner for Manitoba, states that statistics show a large decrease in drunkenness and crime during the three months of prohibition. He says there were 181 convictions for drunkenness in Winnipeg for the past three months and \$19 for the previous quarter. Brandon had 19 convictions against 133 for the corresponding period last year.

ST. BONIFACE has had only three arrests for drunkenness since June 1. Records show 149 commitments for all offences in the five judicial districts of Manitoba during the past three months and 225 during the corresponding months of last year.

There are in the lot 6 Quebecers, 21 Montreals, 17 from London, Ont., 49 from Toronto, 12 from Kingston, 11 from Halifax, 15 from Winnipeg, 11 from Victoria, 10 from Regina, 18 from Calgary, and 18 whose destinations are not yet known.

## Doctor Says Nuxated Iron Will Increase Strength of Delicate People 200% in Ten Days

In many instances—Persons who have suffered untold agony for years doctoring for nervous weakness, stomach, liver or kidney disease or some other ailment when their real trouble was lack of iron in the blood. How to tell. New York, N.Y.—In a recent discourse Dr. E. Bauer, a well-known specialist who has studied widely both in this country and Europe, said: "If you were to make an actual blood test on all people who are ill, you would probably be greatly astonished at the exceedingly large number who lack iron and who are ill for no other reason than the lack of iron. The moment iron is supplied to their multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living cells and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with rollers so wide apart that the mill's output is weak. As a result of this continuous blood and nerve starvation, people become generally weakened, nervous and all run down and frequently develop all sorts of conditions. One is too thin; another is burdened with unhealthy fat; some are so weak they can hardly walk; some think they have typhoid, kidney or liver trouble; some get sleep at night, others are sleepy and tired all day; some are irritable; some are thin and bloodless. But all lack physical power and endurance. In such cases, it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up your fagging, vital powers for the moment, maybe at the expense of your life later on. No matter what any one tells you, if you are not strong and well you owe it to yourself to make the following test: See how long you can walk how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens all the time double and even triple their length and endurance and entirely get rid of the symptoms of dyspepsia, indigestion and other troubles in from ten to fourteen days simply by taking iron in the proper form, and this, after they had in some cases been doctoring for months without obtaining any benefit. You can talk as you please about all the wonders wrought by new remedies, but when you come down to hard facts there is nothing like good old iron to put color in your cheeks and good sound, healthy flesh on your bones. It is also a great nerve and stomach strengthener and the best blood builder in the world. The only trouble was that the old forms of inorganic iron, like tincture of iron, iron acetate, etc., often ruined people's teeth, upset their stomachs and were not assimilated. The discovery of the newer forms of organic iron, all this has been overcome. Nuxated iron, for example, is pleasant to take, does not injure the teeth and is almost immediately beneficial. NOTE: The manufacturers of Nuxated Iron have such unbounded confidence in its potency that they authorize the announcement that they will forfeit \$100.00 to any man or woman under sixty who lacks iron and increase their strength 200 per cent, or over in four weeks' time, provided they will refund your money in any case in which Nuxated Iron does not at least double your strength in ten days' time. It is dispensed in this city by G. Tamblyn, Limited, and all other druggists.

## CAPT. COATSWORTH REPORTED WOUNDED

Mentioned With Several Other Toronto Men in Yesterday's List.

## TWO WERE KILLED

Two Others Missing, Believed Dead—Six Have Been Wounded.

Yesterday's casualty list contained the name of Capt. Richard Coatsworth, who is reported to be suffering from bruises on the leg. Capt. Coatsworth is 28 years of age, and a son of Dr. R. C. Coatsworth, of 296 Parliament street. The officer enlisted in a second contingent casualty clearing unit, and when he arrived in England was transferred to the Royal Army Medical Corps.

Two men are reported killed in action, two missing and believed to be dead, and the names of six Toronto men who have been wounded are also mentioned.

New Believed Killed. Pte. John Hatchman, of 30 Camden street, a member of the Princess Patricia Light Infantry, has been missing for nearly a year, and is thought to have been killed in one of the big battles early last year. He was born in Waterloo, Ontario.

Previous to enlisting Pte. Kallhar, was engaged in the lumber business. Prayers for the repose of his soul were offered yesterday morning in St. Joseph's Church, of which he was a member.

Norman Frederick Mills, of 5 Fairmount crescent, has been officially announced killed at the front. Pte. Mills, who was born in Woodstock, Ont., was reported missing since last February with a Toronto battalion. Up till yesterday morning his mother had not received any word of his death.

Missing—Now Killed. During the month of May, 1915, Pte. James C. Rose, 39 Earsdale avenue, was reported as missing and has not been heard of since. In yesterday's list his name was mentioned amongst those thought to have been killed. At the outbreak of war he went overseas with the first contingent in the Grenadiers, and was engaged in the heavy battle in which the names of 100 men of his unit were taken out as missing.

Eighteen-year-old Pte. Alex. McFarlane has been wounded in the eye and is in the hospital at England. McFarlane was employed in the post-office and resided at 855 Pape avenue.

Suffering from shock, Sydney William Carter, 33 Cassels avenue, has been removed to No. 2 General Hospital, Boulogne, France. Carter left Niagara camp in a draft from the 74th Battalion.

Pte. James B. Kelley is now in the 3rd General Hospital, Oxford, suffering from slight wounds in the shoulder and arm. His wife and two small children reside at 40 Kippendavie avenue. He enlisted in August, 1915, with the 84th Battalion, and was transferred to the 5th in October.

Parliamentary Auditor Wounded. Pte. William H. Hewitt, 41 Hillsboro avenue, reported to have been wounded Aug. 23, is a veteran of the South African war. He was engaged in the 25th Battalion buildings, and was wounded by a gunshot wound in the scalp. Pte. Hugh McMillan of the 5th Battalion, has been removed to a base hospital. McMillan is 38 years of age and was a waiter in a Yonge street restaurant.

Twice Wounded. Wounded in the shoulder a month ago, the name of Pte. Albert E. Frost is again in the casualty list. On Aug. 21 he was severely wounded in the chest and is now confined to a hospital at Boulogne. He was employed as a packer at Warren Brothers previous to joining the army. His wife resides at 84 McGill street.

According to reports received in Toronto, Capt. W. O. McCarthy, son of Dr. J. McCarthy of Barrie, has died of wounds in German East Africa. At the outbreak of war Capt. McCarthy was farming in that country and enlisted with the 2nd Rhodesian Regiment.

CANADIAN NATIONAL EXHIBITION. August 26 to September 11. Round trip tickets to the above will be issued by the Grand Trunk Railway, at reduced fares, from all stations in Canada. Especially low fares are in effect from certain territories, including all trains Aug. 30, a.m. trains Aug. 21, returning Sept. 1. Also good going all trains Sept. 6, a.m. trains Sept. 7, and returning Sept. 8.

## WAS BIG DECREASE IN AUGUST INCARCERATIONS

Crime in Toronto Has Materially Lessened During Year.

During the month of August there was a total of 89 persons in Toronto Jail, 63 of whom were men, and 26 women. Of this number, 28 men and three women were on remand, two men were awaiting transfer to Central Prison, and 12 women were waiting to be removed to the Mercer Reformatory. The total in August, 1915, was 130 men and 31 women in jail, showing a decrease of compared with the same month last year. At the Industrial Farm, 127 men were cared for during August.

## MENAUGHT SAYS WRIT SIMPLY A MANOEUVRE

Member of Hydro Commission Thinks Attempt is Being Made to Tie Up Work.

W. K. McNaught, member of the Hydro-Electric Commission, said to The World yesterday that he had received from the Ontario Development Company no writ similar to those served upon Hon. L. B. Lucas Thursday. To his mind the writ was simply a manoeuvre to throw the Chippewa Creek development scheme into the courts and so tie it up for a considerable period, he said.

## STRUCK BY LIGHTNING.

While inside the island barracks about 1 o'clock yesterday afternoon, Lieut. Andrew Whyte, 144 Balmoral avenue, on duty at the island, was struck by lightning. The life-saving crew rendered first aid, after which the injured officer was removed by taxi to his home. Altho in a weakened condition it is not thought that his injuries are serious.

## SMALLEST LABOR SHORTAGE.

"The branch of the munition industry which shows the smallest shortage of men is employing 2000 and needing 500," said Dr. A. H. Abbott, secretary of the organization of the resources committee, yesterday. The branch is one working in wood, the easiest in which to train new hands. Eighteen factories are engaged in it.

## A WOMAN'S MESSAGE TO WOMEN.

New Kenilworth Race Track Opens Today

DETROIT, Mich., Sept. 1.—Everything is ready for the opening of the new Kenilworth Park Track at Windsor on Saturday, which promises to be a most successful meeting. There are at present four hundred acres at the track and many enquiries for accommodations have reached the management. The track is situated about three miles from Windsor on the line of the Michigan Central Railroad and you can take the train at Detroit and be at the track in 18 minutes. It is also reached by street car from Windsor in 15 minutes. The grand stand, which is the most complete, is one of the finest on the continent and has a seating capacity of four thousand, while the bleachers will seat thirty-five hundred. A feature of the grand stand is the promenade 416 feet long, just at the back of the seats, where those who do not care to wager can promenade and see the working of the pari-mutuel machines, of which there are over thirty installed. Another feature is the ladies' dining hall under the stand. The grand stand is 416 feet long and over 100 feet wide, while the betting shed is the same size with a thirty foot ceiling. Just one row of posts in the shed, 32 feet centers. The grand stand is a reproduction of Belmont race track. The plant covers 137 acres. The Open Construction Company were the contractors and A. J. Murray of Toronto, was the supervising architect. All that is now required is good weather to insure a most unique and successful day of the spring meeting.

### ONTARIO GOVERNMENT HAS FEATURE EXHIBIT

Public Institutions Represented and Work Done Under Direction of Provincial Secretary.

#### AN ADVANCE IN METHOD

Caring for Mentally Ill and Deficient Shows Marked Progress.

The Public Institutions Exhibit is one of the most interesting government exhibits to be found in the Dominion Government buildings. It represents some of the work being done by the Ontario Government under the direction of the provincial secretary, Hon. W. J. Hanna, and illustrates the widely divergent activities of the department. The visitor will find here the work of patients in the hospitals for the insane, for the feeble-minded and for epileptics; the products of the farms and gardens of the above hospitals, the Ontario Reformatory and Industrial Farms. The manufactures of the Ontario Reformatory are also very strikingly illustrated in the exhibit of blankets, tweeds and flannels from the woolen mills, the hospital furniture and institution furniture from the woodworking factories of the reformatory and from the Provincial Clay Plant at Mimico, which is a branch of the Ontario Reformatory. The exhibit is thus divided into three distinct sections, viz., the Hospital Section, the Farm Section and the Industrial Section.

**The Hospital Section.**  
The advances in the methods of caring for the mentally ill and deficient in the Province of Ontario is one of the most marked features of the progressive administration of the department of the provincial secretary. Three graduate nurses of the hospital training schools, which have been established at the different institutions for training the nurses in psychopathic work, are in constant attendance to explain the work done at the hospitals. The graduates of the training school of the hospital are equal in skill and training to those of any of the public hospitals, and this feature of the hospital work is indicative of the complete change that has taken place in the treatment of the mentally afflicted. An interesting part of the exhibit are photographs showing the treatment given in the hospitals in terms of the patients, continuous baths, needle baths, surgical operations and all of the means known to science for the alleviation and cure of disease. The system of clinical records is exhibited, where a complete history of the patient is kept from day to day and study made of the whole problem of insanity, through individual cases of each case. A very attractive feature is the work of the women patients, as exhibited in the showcases. Some exceedingly fine needlework is exhibited in these cases.

**The Farm Section.**  
The farms of the public institutions have now become a very prominent feature in the economy of the department. The total product of the farms of public institutions amounts to over \$125,000 per annum. The exhibit shows always of grains, grasses and clovers, grain seeds and vegetables of all kinds from the gardens, which are good evidence that the inmates of the public institutions are profitably employed helping to produce food required by them and thus reduce the financial burden on the province. A special feature of the farm section is the exhibit from the Sudbury Industrial Farm. Two years ago the government established a new industrial farm some 21 miles south of Sudbury, for the purpose of taking care of the prisoners of the northern district. These men were set to work to clear the land and to prepare the place for the establishment of a great cattle and sheep ranch for the production of masts and wool required to supply that part of the food and clothing of the inmates of all the institutions in the public institutions. The productivity of the land is well illustrated by the exhibits of potatoes, grasses, roots and vegetables. An exceptionally fine quality of celery is a part of the vegetable exhibit from this place. Photographs showing cattle and sheep on the pasture ranges of the big farm are to be seen. These animals and the wool from the sheep are to be shipped to the abattoir and the woolen factories at the Ontario Reformatory, and there prepared for use at the other public institutions.

An interesting feature is the bottle of fresh blueberries, of which there are some fifty acres growing on the farm. These are being picked by the prisoners and shipped to the canning plant at Hamilton and there canned for consumption in the public institutions.

**Industrial Section.**  
Occupying the middle section of the exhibit is a pagoda-like structure built to exhibit the products of the Provincial Clay Plant. The floor is of tile, colored equal to any of the imported products. The roof is of up of oriental face brick of remarkable quality. The roof is covered with Spanish roofing tiles. The floor tile, sanitary ware, cove base, and all the specialties that enter into the making of a perfectly sanitary floor and the Spanish roofing tiles have in the past all been imported into Canada either from the United States or England. The Ontario Government has shown Canadian manufacturers of clay products that there is a whole of unexcelled quality for the making of tile in the province, and there is a growing demand for the material. An excellent exhibit of the various kinds and sizes of the manufactured is also to be found, and illustrates the ingenuity with which all of the problems of the use of tile in the making of perfectly sanitary floors and weather-proof roofs have been worked out.

To the average visitor one of the most striking of the exhibits is that of the blankets and cloth manufactured at the reformatory at Guelph. Some 4000 pairs of blankets were sent to Cornwall to the Ontario Military Hospital. From the furniture factories at the reformatory are exhibits of hospital beds, mattresses, hospitable furniture, hospital chairs, medicine cabinet, hospital stands, surgical basins, all made of the best white enamelware. 1500 beds, bedside tables, mattresses and complete hospital outfit were also sent to the Ontario Military Hospital at Kingston, England. In all over \$1,000,000 worth of material was manufactured by the various industries and forwarded for the outfitting of this hospital. The hospital section of the exhibit is to be seen photographs showing the material in place and occupied in the hospital. The construction work of the new Hospital for Insane

# 1917 Announcement

Don't fail to see the Gray Dort at the Exhibition

**WE** have no startling announcement to make for 1917. We are proud to say that the 1916 Gray Dort has exceeded even our expectations. We expected great things of this wonderful car. We **KNEW** the Gray Dort was the real car--no matter what price. Today hundreds of motorists are fellow enthusiasts with us in our admiration of this exceptional car. The Gray Dort has taken Canada by storm.

# GRAY DORT \$885

## ADDED REFINEMENTS

The Same Tremendous Power and Strength—  
Greater Luxury of Comfort and Appearance.

## EVEN GREATER VALUE

We couldn't improve on the wonderful Planche motor—that veritable giant of power in the Gray Dort. The sturdy, rugged heavy frame stood the severest tests. Mechanically the Gray Dort was, and is correct. In the searching investigation we did not find a Gray Dort owner who was not enthusiastically satisfied—even amazed—with the performance of his car.

We have added some final refinements

to the car—made it bigger and it is now the roomiest car at anywhere near the price. A larger windshield—an ammeter—dashlight—roberail and footrail—in every way the sturdiest and most mechanically perfect car is now the most refined and comfortable car.

Read the specifications. Remember that in three days motor experts bought up the entire 1916 output of this car.

at Whitby, the buildings constructed for the department of agriculture by the provincial secretary's department, are also to be found, illustrating the manner in which all of the materials manufactured by the various industries are used in the work of building and carrying on such extensive structural work.

An interesting group of patients suffering from shell shock are shown with their wives at No. 4 London General Hospital in this week's issue of The Toronto Sunday World.

#### RESOURCES COMMITTEE HAS ATTRACTIVE DISPLAY

"To dress extravagantly in war time is worse than bad form, it is unpatriotic," is the text of a striking poster that is displayed in the government building by the organization of resources committee, whose display is attracting great attention. A statement of Ontario's share in the war is also interesting, outsiders being greatly surprised on learning that the pro-

vince has contributed 42 per cent. of the total enlistment of 353,000 and other such information. Literature on such subjects as saving and subscribing to the Canadian war loan is being distributed by Corp. C. A. Wyatt, a veteran, who is in charge of this interesting exhibit.

### ONTARIO HORSES IN JUDGING RING

Splendid Beasts Examined and Many Awards Were Given Yesterday.

#### FARMERS INTERESTED

Many Who Understood Points Occupied Seats in the Stands.

Ontario is famed throughout the world for the quality of horse and mule production, and Ontario bred stock finds a ready sale in all markets. And in addition to the great heavy Clydesdales and Percherons so essential in the farm work which is Canada's leading industry, she produces a class of a lighter variety, which the farmer uses not for drawing the plough or similar, but to draw his buggy when he wants to take a pleasure ride or take a trip to town. He finds the lighter class just as serviceable for this purpose as the heavier varieties are for the more arduous duties.

Yesterday afternoon the standard bred horses were the centre of interest before the judging stand, and a large crowd of horse-lovers filled the stand to witness the competition in the lighter varieties. The audience was given double treat, for an interesting competition in cattle judging was in progress at the same time.

The standard bred class was composed of eleven classes, and each was well filled with an unusually high grade of animals. Robert Graham, the well-known horse man of Toronto, was the judge, and in some cases the awards were made only with difficulty, and after the most careful examination of the different exhibits, owing to the uniform excellence of the animals.

To the casual observer and to those uninitiated into the fine qualities of horse flesh, there seemed to be no distinguishing feature to mark out one animal as superior to another, but to the nice eye of the judge and to the farmers in the stand, the features were glaringly present and thus the awards were made.

The horses were unusually handsome and as the result of careful feeding and unceasing care and grooming, their coats shone with such a lustre that even a passing shower which fell during the proceedings, could not diminish the brilliancy in the slightest degree.

The leading breeders of standard bred horses in the province had exhibited, and it is safe to say that such a splendid lot of light horses could not be gathered in any other province of the Dominion, or perhaps in any other country in the world, so skillful are Ontario farmers in the production of high grade horses.

Some of the winners were as follows: Standard bred best stallion of any

### "I FEEL LIKE A NEW BEING"

"Fruit-a-tives" Brought the Joy of Health After Two Years' Suffering.

MADAM LAPLANTE.

35 St. Rose st., Montreal, April 4th. "For over two years I was sick and miserable. I suffered from constant headaches, and had palpitation of the heart so badly that I feared I would die. There seemed to be a lump in my stomach, and the constipation was dreadful. I suffered from pain in the back and kidney disease.

"I was treated by a physician for a year and a half and he did me no good at all. I tried 'Fruit-a-tives' as a last resort. After using three boxes, I was greatly improved and twelve boxes made me well. Now I can work all day and there are no headaches, no palpitation, no heart trouble, no constipation, no pain or kidney trouble and I feel like a new being—and it was 'Fruit-a-tives' that gave me back my health."

### TRIED TO ESCAPE FROM FORT HENRY

Attempt of Interned Germans Was Frustrated by Guards.

#### KEEP CLOSE WATCH

Owing to Recent Getaway, Prisoners Will Be Under Strict Surveillance.

Special to The Toronto World. KINGSTON, Ont., Sept. 1.—Two wide-awake guards today nipped in the bud a scheme two Germans had for making their escape from Fort Henry. They had a passageway made thru the ground on which they had been working some time. The recent escape of the two Germans has stirred up the guards and they are keeping closer tab on the prisoners.

J. A. Flett, general organizer of the American Federation of Labor, with headquarters at Washington, D.C., who is here visiting labor unions, states that he does not anticipate the big railway strike in the States on Monday. He believes congress will intervene and decide for an eight-hour day. He said labor was playing its part in the war. But it was getting very little thanks from the government. The Canadian workman was being treated far less fairly than was his British brother. Great Britain had a fair wage clause for munition workers as well as conciliation and arbitration boards to deal with differences arising between workmen and their employers. In Canada there was no fair wage clause for munition workers, and the excuse of the government was that the making of munitions being an imperial affair it had no right to interfere. "But," continued Mr. Flett, "if the Dominion Government had made proper representation to the imperial authorities, does any one doubt for a single moment that the same privileges accorded to the British workman would not have been extended to the Canadian worker of munitions. If the Canadians were getting the same fair dealing that the British are there would be no cause for complaint."

# PAIGE

The Standard of Value and Quality

At a cost of \$1880, the New Series Paige Fairfield offers—

- The most distinctively beautiful seven passenger body design in America.
- The most efficient six-cylinder power plant and chassis that automobile engineering has ever developed.
- The most complete equipment of accessories that can be found on any car at any price.
- A speed range of from two to sixty miles an hour on high gear, and ability to climb any grade that will offer traction to the four wheels.
- A car that is made by one of the strongest corporations in the industry. A car that is backed by a Nation Wide Service Organization that cannot be surpassed.

These, very briefly, are the major advantages of Paige ownership. As a business proposition, do you know of any way that you could secure greater dollar for dollar value?

Of chief importance to men today is the great sale of high-class suits in which we offer

**\$15, \$18, \$20, \$25 Suits**

**AT \$11.45**

We got these Suits from a manufacturer of better class clothing for men and young men. He made them up for a large store that went into bankruptcy. The price we paid was so low that it surprised even us—and now you can get them at \$11.45, a saving to you in many instances of more than half.

There are Scotch and English Tweeds, Fancy Worsteds, English and Irish Serges—There Are Checks and Stripes and Mixtures—There are Blue and Black Clay Worsteds—One, Two and Three-Button Coats—in fact Every Style of the Season.

There are men's and young men's models, men's and young men's sizes, and men's and young men's patterns. While there are enough to last all day, you'd better come at 8.30 in the morning to get the full assortment to select from—and you'll get a suit that will surprise you. While they last, each . . . . . 11.45
