Hamilton Office is Robbed of Some Thousands—Clerk Found by Driver Lying Bound on Office Floor

At 6 o'clock this morning one of the drivers who called there for packages found the side door locked. Being unable to get in he telephoned the manager. Together they found the clerk with his hands and feet tied and lying on three coals. He was calling to be released. The manager refused to release him until the police arrived. Detective Cameron hurried to the office and after getting the clerk's story detained him at the express office.

The man was not gagged. He said about 8 o'clock this morning masked robbers entered the building, held him up, and bound him making a clean getaway with the money. A package of \$15,000 was received last night at the office. Between \$8,000 and \$10,000 is said to be missing. One package of \$1,000 which was within easy reach, was not touched.

Presbyterian Augmentation Committee Figures for Ministers in Upper Canada

Toronto, Ont., Sept. 29.—(Canadian Press)—The sum of \$900 per annum is the stipend which the Presbyterian augmentation committee is anxious to see paid to every minister in Ontario and Quebec. In Northern Ontario, the minimum stipend is \$1,000 and in the same amount for the prairie provinces, while in British Columbia the figure set is \$1,100. To accomplish this, an increase of fifty per cent, in the present funds will be necessary, in other words, instead of \$418,000 present available, there will be needed \$630,000.

This latter would be in the nature of a building to comprise all the requirements of a building, having all the offices essential to the workings of a civic governing body in the one building.

SOULS, VOTES AND WOMEN

Mr. James Jones has long regarded with suspicion and distrust the activity of women in lines of effort that have no relation to the industries of scrubbing and making pins. James is convinced that if women were permitted to vote the opportunities of men to enjoy themselves would be sadly curtailed, and the superiority of the sex brought into question at government jobs.

THE TIMES' NEW REPORTER

Interested in the news from Persia, where voters have no souls. That which the voter requires is whisks and a suit of men's clothes. This, in James' view, debars women from the franchise. There fore he is glad to know that the Persian situation found no sympathizers, and is still a voice crying in the wilderness.

MORE SENSATIONS IN RUSSELL CASE

Patterson to Be Called to the Stand—Sir Donald Mann is Also to be a Witness—Mr. Greenfields Connected With It?

(Canadian Press) Montreal, Sept. 29.—Evidence more sensational than has yet been given is promised for next week in the \$200,000 suit which David Russell is bringing against the Pinkerton Detective Agency. Patterson, the Pittsburgh man who with his attractive wife, Mrs. Russell, accused of being implicated in a badge game which he had attempted on him, will take the stand called by the defence. He arrived in the city yesterday.

On Tuesday Sir Donald Mann will be called as a witness for the plaintiff. He has been in the city since the case opened. Yesterday he was taken ill and has been confined to his room since then. Sir Donald's evidence will probably deal with the land provision in which he was interested with Mr. Russell, and over which Mr. Russell had taken suit against J. M. Greenfields for \$1,250,000.

Mr. Russell continued his evidence this morning, taking up his story where he left off yesterday afternoon. He had told of engaging detective Wm. J. Burns to replace the Pinkertons, whom he believed were not carrying out their contract or furthering his interests as he wished. The witness said that he had wired Sir Donald Mann from New York on October 23 of last year stating that they were being deceived and asking him to come to Montreal and meet him. He assured Sir Donald in the telegram that he had nothing but the strictest feeling for him.

The next morning while at breakfast with James Robertson of New Brunswick, a lumberman with whom he was interested in some large deals, he received a telephone message from his solicitor, Mr. Racine, who said that James Russell was in the city and had come up to see the Canadian rubber people. Later in the day the witness said that he had seen his brother.

The French Conservative and Nationalist members from Quebec say they are willing to abide by the decision of the majority of the people. In the meanwhile nothing is likely to be done by the incoming government with the contracts for eleven vessels which were on the point of being awarded by the former administration.

ASSURES GREATER WEALTH IN MINES OF BRITISH COLUMBIA

Success Attends Experiments for Reduction of Zinc Ores of the Kootenay. Nelson, B. C., Sept. 29.—A most important announcement from the point of view of Canadian mining is that of the complete success of Dr. Gordon French's experiments looking toward a commercial process for the reduction of the refractory zinc ores of the Kootenay. For similar experimentation being conducted at McGill University, the Dominion government appropriated \$20,000 and some years ago the British Columbia government and a private company spent thousands of dollars in conducting his experiments at the Snyder electrolytic process, which proved a failure.

SICK HEADACHE

A Symptom of Troubles Which are Removed by Dr. Morse's Indian Root Pills.

Sick headaches are not merely afflictions to be borne as patiently as possible—they are danger signals. They never come unless the digestive system is out of order, and their regular recurrence is proof positive of indigestion, biliousness or constipation, and no amount of "headache powders" will do more than temporarily relieve them. The only way to get rid of them entirely is to cure the Constipation or Indigestion that is causing them, and nothing will do this quicker or more effectively than Dr. Morse's Indian Root Pills.

Dr. Morse's Indian Root Pills are purely vegetable in character, and are free from any harmful drug. For over fifty years they have been in constant use in Canada, and have proved most effective in regulating the bowels, aiding digestion, banishing sick headaches and restoring vigorous health.

Dr. Morse's Indian Root Pills have stood the test for over fifty years. 25c. at all dealers. W. H. Comstock Co., Ltd., Brockville, Ont.

He saw the alienists in New York who he engaged the Pinkertons to find out what was the matter with his brother. Mr. Russell said, persisted in keeping the brothers apart.

David Russell was called and told that a woman registered as Mrs. J. S. PSORIASIS WAS CURED

After Five Years of Suffering—Three Doctors Failed and Said Case Was Incurable.

Itching and Burning Was Terrible Until Relief and Cure was Effected by Dr. Chase's Ointment

Psoriasis is another name for chronic eczema. It is the worst form of this dreadful itching skin disease. Once cured has reached this stage it is generally considered incurable.

But here is a man who has proved again the wonderful healing power of Dr. Chase's Ointment. He writes: "I do not believe I have ever been cured so quickly, but my sufferings are thorough and last."

Mrs. Nettie M. Chase, of Ontario, writes: "I thought I had to give up writing you telling you the price I had received from using Dr. Chase's Ointment. For five years I suffered with that terrible disease called Psoriasis. I doctored with three different doctors, with a good result, and one of our noted doctors told me if any one offered to guarantee me a cure for \$50.00 to keep my money in my pocket, as I could not be cured."

"The disease spread all over me, even on my face and head. The itching and burning was hard to bear. At last my brother read in the paper about Dr. Chase's Ointment as a healer. I used it, and you are at liberty to use my testimony, as I hope thereby to induce other sufferers to try the same."

The Evening Chit-Chat

By RUTH CAMERON

UNDOUBTEDLY, she has some strange notion that she is showing her superiority.

That is the only way I can account for her.

I mean the woman who is always finding fault with public servants.

She complains of the telephone operator.

She is perpetually running up against rude conductors, and lodging complaints against them.

When she dines in public, she makes it a point to announce in tones that can be heard half way across the room that she never saw such "perfectly wretched service."

It is she who telephones to the post office to complain that the postman lingers at people's doors too much, and her mail is delayed.

And instead of being ashamed of her complaints, she appears to be proud of them.

She tells about them with a haughty air which seems to say, "This is what happens to anyone who does not yield me the perfect obedience to which I am accustomed."

If one does not know her, one gets the idea that she is a woman of power and position, accustomed to being waited on within an inch of her life.

But, whisper, while I tell you a secret. Nine times out of ten it is just the other way around. She abuses "the little brief authority," belonging to her by virtue of her position as one of the public, which these folks are so anxious to exercise uncomplainingly, because she is not used to power.

If she were really a woman accustomed to being served she would know that countless complaints are as much an indictment of the mistress's usualty of command good service, as the servant's failure to give it.

If she were really a woman of position she would long ago have learned the forbearance, the patience, the gentleness that comes to all really worthwhile people, who deal much with their inferiors.

And it's the same way, I think, with people who are always complaining of food, conditions or accommodations when traveling. They want to improve upon the really superior to what they are used to.

I remember a girl at college, who was always complaining of what seemed to be the most perfect service, as the servant's failure to give it.

I remember a girl at college, who was always complaining of what seemed to be the most perfect service, as the servant's failure to give it.

If she were really a woman of position she would long ago have learned the forbearance, the patience, the gentleness that comes to all really worthwhile people, who deal much with their inferiors.

And it's the same way, I think, with people who are always complaining of food, conditions or accommodations when traveling. They want to improve upon the really superior to what they are used to.

CITY HALL MATTERS

The members of the safety board were to have gone to Lancaster yesterday afternoon to inspect property there in which the city is interested. Ald. C. T. Jones was the only one who went, however, with Director Wisely, Ald. Russell, chairman, was there on Wednesday, and looked over the lots. He said he might be willing to sell the property at Barnhill's corner for \$1,200, the price offered by Randolph & Co.

At the meeting of the treasury board yesterday afternoon the tender of the Office Specialty Co. to equip the common clerk's office for \$1,370 was accepted. C. Wesley's bill for \$137.70 for a cut of the council members in "The Scenic Souvenir" was ordered paid. The recorder said that the city was not liable for damages to Mrs. Myrtle Fox, injured by being struck with a ball while riding in a street car. A check for \$6 was ordered sent to High Campbell who had not received a former one sent. A change was ordered in the reprinting of the last issue of city bonds, as they did not follow in their publication, what was required by law. The chamberlain said it would mean an additional outlay of \$150, and the aldermen agreed that it could not be helped.

WHAT ABOUT QUEBEC?

The disposition in Ontario to encourage Mr. Borden to ignore the province of Quebec in making up his cabinet appears to be somewhat general.

The Ottawa Citizen takes occasion to remark that "there is now a government which has a clear majority quite irrespective of solid Quebec."

Other Conservative journals are making similar remarks, laying special emphasis upon the fact that Mr. Borden may be as independent as he chooses with regard to Quebec province.

This is the spirit which gave Mr. Borden his enormous majority in Ontario, and which if encouraged will do great injury to Canada.

"In race antipathies, action and reaction are apt to be equal; and it is especially important that an intelligent sympathy and solicitude should take the place of bitterness that has during this election been so diligently and so ignorantly excited among the Protestants of Ontario, an ignorance that went so far as to describe Sir Wilfrid Laurier, the bete noir of the Quebec Ultramontanes, as the scheming agent of their designs.

"The habit of mouth-breathing must be stopped absolutely," writes Dr. William Lee Howard in Munsey's Magazine. "Only by the air being filtered through the nostrils can you remain germ-proof."

The main channel through which poisonous germs enter the body is the breathing apparatus—the nose and mouth; sometimes the ear. The germs of tuberculosis, pneumonia, spinal meningitis, diphtheria, poliomyelitis, tonsillitis, reach the body through the nose and mouth.

The present state of civilization calls for constant care and watchfulness in methods of breathing and in the hygiene of throat and nose. Automobiles and trolleys rushing along the city streets keep in motion millions of germs.

There are two dominant races in Canada, and it has always been the aim of Sir Wilfrid Laurier to promote harmony between them. He is still the man who stands out prominently as the champion of race harmony.

It appears to be taken for granted that neither Sir James Whitney nor the Hon. Richard McBride will be in the cabinet of Mr. Borden.

The whole situation is very interesting, and there will be much speculation for another week, as Mr. Borden is saying nothing and some days will pass before he has selected his colleagues.

A white clay pipe, bearing the date, 1692, and the inscription "Salus, Mass." was found Friday six feet deep in the ground at Kansas City, Mo., by James Cain, who was digging a sewer. The stem was broken.

gard to Quebec than any other province. Ontario is watching him with a very jealous eye, and, whatever comes he pursues there will be heart burnings in some quarter.

THE WAR CLOUD

A Berlin despatch declares that war between Italy and Turkey over the occupation of Tripoli would involve grave danger of a general European war.

"The occupation of Tripoli by Italy is only part of the generally understood plan for the division of the Ottoman Empire, and it is broadly hinted that Germany and Austria are behind their partner in the Triple Alliance in an effort to precipitate the partition.

It would be a dreadful calamity if a petty quarrel between Italy and Turkey should engulf other nations. Such a possibility reveals in a very striking manner the need of defensive preparations and the futility of present efforts to bring about a general disarmament.

In an article on the success of the Ontario prison farm at Guelph, the Toronto Mail and Empire says: "The men, who are handled more like a camp of free workers than like a body of convicts, have had their physical condition greatly improved by their employment in the open air upon work that made interesting to them, by their wholesome food, and by the pains that are taken to make their life generally a happy one."

"The man convicted of crime ought to suffer penalties, but the State is not discharging its full duty by merely depriving him of his liberty for the term of a sentence. To detain him in prison, to subject him to stern discipline, to deny him everything but the simple fare and the cramped quarters of a hard prison, is to make him feel the law's rigor, but not to touch him with the law's re-educating mercy."

Employment, which has been called "Nature's physician," is so essential to human happiness that indolence is rightly considered as the mother of misery.

When will farm life for prisoners be substituted for jail life in this country and province?

### Daily Hints For the Cook

**PEANUT PUR...**  
For those who do not eat much meat. One pint of peanuts, roasted, shelled and skins removed, found to a paste (peanut butter) may be used if preferred, 1-4 teapint white stock, 1 teaspoon salt, 14 teaspoon pepper, 1 pint milk 2 tablespoonfuls of flour. Scald milk, add peanut and stock, thicken with flour mixed with enough water to take a smooth paste, add seasoning and serve with oyster crackers if one likes them.

**GRIDDLE CAKES.**  
Into one cup of sweet milk stir enough flour, with one teaspoon of baking powder sifted in it to make a smooth, creamy batter, add a good-sized pinch of salt, pour on to a hot buttered griddle and fry to a golden brown, turning carefully to preserve the round, even shape. If sour milk is used, dissolve one teaspoon of soda in it, and omit the baking powder. An egg or eggs may be added, but they rather toughen the cakes than add to their goodness.

**SLEEPS IN PEACE**  
A visitor to a little cemetery commented upon the extraordinary size of the rough stone which covered one of the graves. "Oh, that's where Sam Bell lies buried," said the sexton. "She was the most talkative body I ever knew. She lived from hour to hour we never a stop. Sometimes she'd be at it all night, till her husband would 'fair' nodded' w' listen to her. She talked herself to death at last, and then her friends clubbed together and put that big stone on her grave and chattered on it—'He sleeps in peace.'"

"You mean 'she sleeps in peace,' I suppose?" remarked the stranger. "No, Ah don't," the sexton granted. "It's her husband that sleeps in peace at last, poor fellow!"

ST. PETER'S Y. M. A.

Winter Work Opened at Meeting Last Night in Observance of 13th Anniversary

A large number of the members of the St. Peter's Y. M. A. met last evening in their rooms, Douglas street, to observe the thirteenth anniversary of the association. A pleasant time was spent, Arthur P. Delaney, president of the society, occupied the chair, and made a pleasing address in which he spoke of what had been done for the development of the Y. M. A. to make it one of the leading organizations of its kind in St. John, and told of the many friends of the association, and the sea-o-o-ers of the spiritual director, Rev. J. H. Borgmann, C.S.R., in the interests of the young men of St. Peter's and closed with an expression of the hope that the society would enjoy renewed and prolonged prosperity.

Rev. Father Borgmann delivered a thoughtful address, outlining the work for the season and giving advice to the young men to always work for the uplift of the association. "It is not that the Y. M. A. so much needs the young men as the young men need the Y. M. A. and need it badly, because, in taking advantage of the help offered in different ways by the association, they can benefit themselves, and keep out of the many temptations staring them everywhere."

He looked forward to a successful year in sporting circles in the association, and spoke of the bowling league which it is proposed to reorganize. It will open about the middle of October. The course of lectures for the season had been well mapped out, and would be started before long, while a series of debates would also be begun in the near future.

The nomination of officers was then proceeded with and a large number of names were placed in. From them a selection will be made next week to fill the various offices made vacant by the retiring board.

SEPTEMBER BRIDES

A pretty wedding took place in St. George's church, on Wednesday evening, the 27th when Miss Sarah Cole was united in marriage to Wm. E. Mills. Rev. Mr. Sampson, rector of St. George's performed the ceremony. Mr. and Mrs. Mills will reside, at 15 Prince street, W. E.

Kipstead-Vall. A very charming wedding took place in the Methodist church, Springfield, on Wednesday, Sept. 27, when Walter D. Kipstead, St. John was united in marriage to Matilda B. Vall of that place. The ceremony was performed by Rev. H. S. Young, pastor, in the presence of a very large gathering. The church was beautifully decorated with autumn leaves and potted plants. As the bride entered the church with her brother a wedding march was played by the groom's sister, Mrs. E. A. Irvine of Sussex. The bride looked charming in a gown of cream crepe de chine with bridal veil of orange blossoms and carried a bouquet of white carnations. After the ceremony luncheon was served in the dining room of the bride's home, which was trimmed for the occasion in green and white. Many beautiful presents were received from friends at home and abroad. The bride's receiving days are October 6 and 7.

FIRST SKATING CHALLENGE

The following from a veteran mariner skater is self-explanatory:—"I, the undersigned Capt. Ben Kingston, do hereby challenge any man of my own age, or 60 years, in the world to skate me a mile or half mile race on the ice at Millidgeville as soon as the ice forms there. An early answer through this paper would be appreciated as I wish to get myself into condition for the event, if there is anybody to take me up. BENJAMIN E. KINGSTON."

SAY DR. DANIEL WILL BE IN THE CABINET AT LEAST FOR WHILE

Hazen to Follow and Plan is to Make J. B. M. Baxter Attorney-General of Province

The man in the street has now matters political worked out in a way somewhat different from what was put forward as likely immediately after the elections. It is now said that, despite all reports to the contrary, Dr. Daniel will be taken into the Executive cabinet as minister for New Brunswick, at least temporarily. He is to give way, however before long to Hon. J. B. Hazen who will give up his post as premier and will be taken into the dominion government as the New Brunswick minister. Dr. Hazen meanwhile being comfortably looked after.

With Mr. Hazen out of the provincial front the situation generally, the scheme is to have J. B. M. Baxter contest St. John county and if he carried it, to have him as minister for New Brunswick, at least temporarily. That is the street story, anyway, and it is credited in Conservative circles. Still there is Crockett in York and there is Fowler in Kings-Albert and there is sure to be trouble all around.

ACROSS CONTINENT ON VISIT TO HOME

Mr. and Mrs. F. R. MacRae Here From Prince Rupert on Way to Nova Scotia

Mr. and Mrs. F. R. MacRae of Prince Rupert arrived in the city yesterday and are registered at the Dufferin. Mr. MacRae was a Cape Bretoner who went to a few years ago and engaged in the real estate business in Prince Rupert and has been very busy since. In conversation with a Times reporter this morning he said that Prince Rupert was going ahead in leaps and bounds and in a few years would be one of the principal cities in the west.

"The latest addition to the town's industries," he said, "is a large \$2,000,000 cold storage plant which has been erected by several Canadian and American capitalists. The plant is a very modern one in every respect and is a very valuable addition to the place. An industry that is thriving at the present time is the fish business. Several large canneries have been erected recently and it is expected that in a short time it will be one of the chief industries of the place. Then again, the mining business is forging rapidly ahead and is bound to become an important factor in the welfare of the town. Just outside the city several valuable ore mines are located and are proving very valuable."

"At the present time the population is about 4,000 but this will be materially increased in the next few years when the railroads begin to operate there. The climate of the place is excellent and I would certainly advise people going west from the provinces to look things over in Prince Rupert before settling down."

Mr. MacRae is a Dalhousie College graduate. He will visit his old home in Cape Breton before returning west. Only a short time ago he joined the ranks of the benedictines and the present visit is more in the nature of a honeymoon trip than anything else. Mr. and Mrs. MacRae will remain here a day or so before going to Nova Scotia.

Among Mr. MacRae's list of friends in Prince Rupert is William J. B. Bond, a former St. John Daily Telegraph, an who is engaged in the newspaper business in Prince Rupert and doing well.

THE PRIZE DOG

H. H. Smith Receiving Congratulations for His Bulldog's Win at Bench Show

There is nothing but admiration among the dog fanciers for "Mackworth Major," the fine English bulldog which won first prize at the bench show just closed and H. H. Smith, the owner, is coming in for congratulations on all sides. The dog was imported by Mr. Smith on February 11 last from the famous Waterloo Kennels, Liverpool, England. It was born on January 15, 1910 and consequently but a pup. With excellent pedigree it was sold to its present owner on the condition that it would not be exhibited in England again in competition with the dogs there. The sire is Makeri and dame is Bowth Biddy. The Mackworths are a well known breed and are winners of numerous championships. It is declared the very best breed of English bulldog.

The pedigree is a lengthy one on the side of both sire and dam, extending to some top notch English stock of bulldogs. "Our Dog" a well known English publication devoted to news of the canine game at some length a description of a number of the Mackworth breeds including Mackworth Albert, Mackworth British and some others, extolling the class as the best.

NEW DONALDSON LINER

The Letitia Will Not Be Ready for Next Summer—Cunarders Not for Here This Season

The "Letitia" will be the latest addition to the Donaldson line fleet but she will not be ready to go on the route this winter. The fine new steamer now under construction will be completed in time to go on the St. Lawrence route next summer. Her dimensions are about the same as the "Athens" of the same line and she is expected to be an excellent passenger boat. So far as is known there will be no changes in the steamer of the Donaldson line coming into this winter.

There was talk last winter of the Cunard line, which has recently placed steamers on the St. Lawrence route, coming to St. John this winter. Inquiry at the office of the agent here, Messrs Robert Reford Co., gives little ground for hope that the Cunard steamers will come this winter at least, whatever they may do later.

William Thomson & Co., agents of the Manchester line has received word that the line would perform a weekly service for inward freight between Manchester and St. John. There will be fortnightly service from this port for Manchester direct. Every alternate steamer to arrive will go to Philadelphia. The sailings were fortnightly last year and they now are doubled.
