TWO ST. JOHN MEN DROWNED IN WRECK OF SCHOONER ELA G. EELLS.

Edward Brown and William Duplissie Lost Along With Two Norwegians Who Shipped From This Port.

Capt. W. A. Breen, of St. James Street, the Only Survivor—The Schooner Wrecked on Libby Island Rocks.

A despatch was received by the Star this morning with the sad intelligence that the three masted schooner Ella G. Eells had been lost off Libby Island in Machias Bay and all the crew were drowned with the exception of Capt. W. A. Breen, of this city, who has had a miraculous escape from a watery grave, and an experience that he will never forget. Two of the crew, Ed. Brown and W. Duplissie are also St. John men and these with two other seamen were drowned. The schooner is a three masted of 230 tons register and sailed a few days ago from New Bedford, Mass., with a cargo of coal for Windsor, Nova Scotia. Yesterday morning the schooner encountered a strong easterly gale accompanied by a terrific rain storm and a heavy sea. The vessel was put under full steam and was gradually forced to a time to time. During the afternoon she labored so hard that she sprung a leak and then came the strain on the almost tired crew, but they worked hard at the pumps in an endeavor to keep the vessel clear of water. The sea continually broke over the craft as she struggled against the elements and it was not until late in the afternoon that the situation became desperate. Captain Breen and his men found that it was beyond their efforts to keep the vessel clear of the rocks, and then, battered by the storm, she lay helpless with great waves sweeping over her. Soon she went to pieces, and one after another the members of the crew were carried from the wreck. Captain Breen was fortunate enough to get hold of a piece of wreckage which he used as a raft. He held on to it and was borne towards the beach of Libby Island, where he was rescued by life savers.

Capt. Breen was quite exhausted by his awful experience, but after a short time he was able to tell the story and send despatch to the main land of the disaster. The schooner was driven on the rocks, and then, battered by the storm, she lay helpless with great waves sweeping over her. Soon she went to pieces, and one after another the members of the crew were carried from the wreck. Captain Breen was fortunate enough to get hold of a piece of wreckage which he used as a raft. He held on to it and was borne towards the beach of Libby Island, where he was rescued by life savers.

The schr. Ella G. Eells was a tern schooner 230 tons register, owned and commanded by Capt. W. A. Breen, and built in 1891 at Rockport, Maine, was 117 feet 5 inches long, 27 feet 1-inch beam and 11 feet 6 inches depth. She was considered a good vessel. The Eells left here about 3 weeks ago with a cargo of coal for Windsor, N. S. The schooner was wrecked late yesterday on Libby Island in Machias Bay, while bound from New Bedford, Mass., to Windsor, N. S. The dead—E. Brown, St. John, N. B., Mate; W. Duplissie, steward; O. Johnson, deckman; unknown seaman. Captain Breen while clinging to wreckage was seen upon the rocks and rescued by life savers.

Captain Breen of the ill fated vessel, is the son of Mrs. W. C. Breen, 140 St. James street, and has a wife and family. A Star reporter called at Mrs. Breen's house this morning and in conversation with Mrs. Breen learned that they had received two telegrams from Captain Breen stating that he was the only survivor. Mrs. Breen told that while they had much to be thankful for yet she felt deeply sorry for the wives of the other men. She said her own husband, who was formerly a captain on a steamer sailing south, had died of yellow fever after only very short illness, and that she was therefore in a position to sympathize with the widows of the drowned men. She said that the vessel only left here about three weeks ago loaded with hats for New Bedford, had unloaded there and was returning to Windsor, Nova Scotia, in ballast. She said that Johnstone, one of the crew, had only been on the schooner for two trips and she had heard the captain say that he was the best man he had ever had. The mate was Edward Brown, of Carleton, and this was his second trip. The other men Mrs. Breen knew nothing about, excepting that the steward, Duplissie, is a St. John man and has five or six small children. Mrs. Breen said that there was some insurance on the vessel but only a small amount as the captain had let some of the insurance run out and when he was home the last time she was going to take that trip with the captain, but she decided at the last minute to go to the country instead. She said that so far as they could learn the captain had drifted ashore on a log, but that they could not understand why the small boat could not have been launched to carry them all ashore. Edward Brown, the mate of the ill-fated vessel, was a man about thirty-five years of age and a resident of St. John. He leaves a wife, but no family. Mr. Brown formerly resided on Mill street, but this spring removed to Carleton, where he has since resided. This was his second trip in this vessel and he was in command of the vessel as seaman, and during the past winter worked at that business. Mr. Johnson, or Jansen, one of the seamen, is a Norwegian of about 25 years of age and unmarried. He was considered an unusually good seaman by his captain. Another seaman, name unknown, and also a Norwegian, shipped on here. Wm. Duplissie, one of the victims, lived at 164 Erin street, St. John. He leaves a wife and seven children. The youngest is a mere infant. Six of the family are now at home, while the oldest is at home doing duty in the Army Service Corps. The Duplissie family came originally from Chatham, but have lived in the city some fifteen years. Mrs. Duplissie showed the Star reporter a letter received from her husband on Saturday, and dated June 28th, in which he sent her his next address: Windsor, N. S., so that she could write him there, and the letter would be waiting for him when he arrived. He stated that at the time of writing they had not finished discharging the cargo, and that after that they had to take on a load of coal for Windsor. Mrs. Duplissie thought it would be quite impossible for the vessel to be out to sea so soon, and she was inclined to regard the report of the wreck as a mistake. She had heard nothing of the wreck until seen by the Star reporter. Then she took the news of the loss of the vessel so coolly, apparently not suspecting that there had been any loss of life, that the Star man had not nerve enough to inform her that her husband was dead. She was all unconscious as she laid away her husband's letter carefully behind the clock on the mantel-piece that it would be the last communication she would ever receive in that familiar handwriting. The letter was a kindly one, it contained a check, and closed with several crosses representing kisses for herself and the children. It was a pitiful sight to see four small children who were not old enough to realize what was being talked about laughing and chattering about the house, and then to think that during the last 12 hours the hand that had supported them was resting in the bottom of the ocean.

ANOTHER SCHOONER GOES TO THE BOTTOM OFF GRAND MANAN.

The Southport schooner, George Edwin is another craft that four weeks ago was wrecked on Grand Manan. The schooner was bound from New York for Fredericton with a cargo of coal consigned to Messrs. Hart and Morrison.

When off Grand Manan yesterday she sprung a leak during a high sea, the water gained so fast that it got beyond the control of the crew and the vessel sunk.

The schooner was in command of Capt. Frank Forward and it is thought that the captain and crew have all been saved. The cargo is insured and the vessel, which is uninsured will be a total loss. The George Edwin was a craft of 95 tons register, hailed from Southport and was built at Northport, N. Y., in 1872. She was 83 feet long, 25 ft. 4 in. beam, 6 ft. 2 in. depth of hold and was owned by Edward Place. The cargo is insured in the Merchants' Co.

BELGIAN CREW WINS HENLEY RACE. HENLEY, July 5.—The crew representing the Club Nautique de Gand (Belgium), today defeated Trinity Hall, Cambridge, by three lengths, in the final for the grand challenge cup. Time seven minutes nine seconds. The cup thus leaves England for the first time in its history and for the next 12 months will adorn the headquarters of the Belgian Rowing Club.

EMPEROR ORDERS POLICE REFORMS

He Says That Massacres Must Cease at Once.

Officers Who Have Neglected Their Duty are Disgraced—This Action Comes Too Late.

ST. PETERSBURG, July 5.—Emperor Nicholas has taken the almost unprecedented step of publicly directing Grand Duke Nicholas Nicholasievitch, commander of the forces in the military district of St. Petersburg, to investigate and take measures to stop the "disorders" among the troops. Accompanying these instructions were orders relieving Prince Vassilichoff, commander of the guard corps, from duty and dismissing disgraced General Gaden, commander of the Preobrazhensky regiment, the first battalion of which was recently disgraced for expressing sympathy with parliament and protesting against doing police duty. Gaden is said to be descendant of an American named Gordon, the name having been Russianized by lapse of time.

All attempts to purge the army of the spirit of disloyalty now that it has invaded the hampered regiment of the guard, will, however, probably prove futile.

The members of the group of toll in parliament are secretly elaborating a plan to force matters to a head. As the first step they propose that the lower house adopt a resolution declaring the country is not bound to pay its obligations to the government so long as the Emperor refuses to yield to the demands of parliament. If the constitutional monarch declines to join them in the programme of repudiation the group of toll propose to issue a manifesto to the country. Their purpose plainly is to compel the Government to attempt to dissolve parliament and thus force a rupture of this country with the world.

The issues of five newspapers of this city were confiscated last night. Over two hundred papers in the interior were seized during the last fortnight.

ST. ANDREWS, N. B., July 5.—The court J. C. F. re-assembled this morning, the supreme chief ranger, Dr. Cronhyatekha, being present the greater part of the session. The finance committee among other things recommended that paid organizers be procured. The report was adopted. Lindsay, of Woodstock, gave notice of a motion favoring biennial sessions. The United States who had been members of the court to drive over her estate and inspect her barns and stock was accorded a hearty vote of thanks. It was resolved to hold the next session of the high court in St. John. The duties of officers will take place this afternoon.

MONCTON, N. B., July 5.—The first sod in the construction of the new I. C. R. shops was turned this morning when a gang of twelve men under the direction of Contractor Nicholas and superintended by Mr. Bogus went to work cleaning away the bushes on the site of the freight car repair shops. This afternoon digging will be started and the foundations and work will be pushed with all possible rapidity. Men will be engaged as rapidly as tools arrive.

A carload of tools are expected from Ottawa in the course of a couple of days.

THAT BASEBALL PROTEST. A couple of weeks ago during a game of ball between the St. Peter's and St. Rose's, Hood, of the former team, after hitting the ball attempted to cut first base, but seeing he would be caught at second base returned to first and was declared safe by the umpire, D. Connolly. The St. Rose's team protested the game and at a league meeting there was no rule found in the rule book to show that the umpire's decision was not correct. This apparently did not satisfy some of St. Rose's fans for the following is found in the Boston Globe's answer columns: "To J. C. O'Connell, runner not out, unless you avoid being touched by the ball."

BARKER VS. McDEVITT. The case of Barker vs. McDevitt on Thursday came up before Judge Forbes in chambers this morning. It was an action brought in city court on a note for eighty dollars, the note being originally for eighty-six dollars, but the surplus was abandoned to get it in city court. In this court the judge delivered judgment for defendant on ground that it was for gambling purposes. Argument of counsel was heard this morning and Judge Forbes reserved judgment. G. H. V. Belyea for appellant; E. S. Ritchie for respondent.

An ejectment suit brought by Harry Bieg, landlord, against Gilbert Corey, was heard by Judge Forbes today. The judge ordered that the defendant be dispossessed.

NEARING THE FINISH OF THE G. T. PACIFIC SURVEY. One Party Has Already Tied in and the Others Will Be Through in a Couple of Weeks.

The work of surveying on the G. T. P. routes in this province is progressing favorably. The parties on the back route have already tied in and those on the river route expect to do so in a couple of weeks' time. The different parties now at work on the survey are distributed as follows: Two parties between Chipman and Fredericton, on what is known as the river route; one party west of Edmundston between that town and Quebec Edmundston and Grand Falls; one party on the river, between Woodstock and Fredericton; two parties between Moncton and Chipman. There is also a small party at Chipman with a drill making borings to ascertain what the foundations will be like.

The work will be wound up in a couple of weeks with the exception of some little revisiting that may need to be done later on both routes.

Miss Castle, of 22ew York, will be at M. A.'s (bldg.) room tomorrow until ten p. m. and Saturday forenoon, to exemplify the latest improvements in cooking. Private apartments for those interested. All ladies invited.

AMERICA'S BEST ATTRACTIONS COMING TO THE EXHIBITION

Hippodrome Features Secured by Fred G. Spencer Include Trained Elephants, Animal Circus, and Others of Equal Interest.

Fred G. Spencer returned this forenoon from Boston, New York, Coney Island, Portland and Atlantic City, where he has been securing attractions for the St. John exhibition. Mr. Spencer announces that he has made arrangements for the appearance here of what he considers the very best amusement features procurable in America, and which will, without doubt, be far in advance of anything ever seen in Eastern Canada. They will probably attract to the grounds thousands who might not otherwise be interested.

Probably every reader of the daily papers has read about Barlow's performing elephants, which animals did the shoot the chutes and other remarkable acts every day for six months at the New York Hippodrome. These have been secured by Mr. Spencer. The Hippodrome is the greatest place of amusement in the world, and these elephants were for months the principal attraction there. They along with a pony and two dogs give daily performances here and the building in St. John will have to be reconstructed to bear the enormous weight of the animals on the stage. A very lengthy description would be necessary to tell of the feats performed by these animals.

Another attraction, and one which is also the finest of its kind in America, is Wormwood's animal circus. This includes twenty dogs, twenty monkeys, two bears and two lamars. Every monkey in the circus is dressed either as a lady or gentleman, and they go through about all the feats that ever were taught monkeys. Mr. Spencer says it is very funny to see one of these creatures, in an immaculate dress suit, smoking cigarettes with the air of a society swell. This circus has recently returned from an extended engagement in Europe and for the past few weeks have been giving performances in Luna Park.

The third great feature is Montague's cockatoo circus, now performing daily for the entire season at Young's Pier, Atlantic City. This attraction includes nineteen trained cockatoos, which give a marvelous performance. These little birds go through such such as no one could ever imagine them capable of even after the most careful training.

These three attractions are referred to by Thompson & Dundy, proprietors of the New York Hippodrome in a personal letter to Mr. Spencer as the best of the kind in existence and this should be a guarantee to the exhibition patrons that they are going to see something out of the ordinary.

In the small amusement hall Mr. Spencer is going to introduce a novelty in presenting the greatest of all present day mysteries, Didd, the wonderful creation of a woman out of nothing, an attraction that kept New York talking for two weeks when it was first presented there in Hammerstein's New York Theatre a little over a year ago. This is said to be one of the most talked of head liners in the United States today. Didd will be supported by Hellman, the great magician, who with the exception of Goldini, now engaged in Keith's, Boston, has no superior in vaudeville in America. Space does not permit of these various acts to be elaborated upon, but they are sure to at once create a tremendous interest in the coming exhibition, and in a great measure assist in the success of the St. John's greatest show.

WORK HAS BEEN BEGUN ON THE NEW I.C.R. SHOPS. Gang of Men Started This Morning to Clear the Site.

#### ATTELL WINS FROM NEIL

LOS ANGELES, Cal., July 4.—Abe Attell, champion featherweight pugilist of America, today got the decision in the twentieth round over Frankie Neil, bantam weight champion, before the Pacific Athletic Club. Attell showed to great advantage, landing six blows on Neil's cue.

Neil's eye was closed early in the contest, and his face battered black and blue. Neil, however, appeared to be strongest throughout the fight and his blows, when landed, had force behind them. Attell's cleverness in covering up and side-stepping his opponent's vicious swings saved him repeatedly. The last two rounds were fought by both men with fierceness and Neil landed more blows in these two rounds than in nearly all the previous eighteen. The men slugged at each other's face. The decision of Referee Epton was popular.

### THE TURF

Bad weather made the attendance at the Fredericton track small yesterday. The racing, however, was good. There was lots of excitement, and feeling at times, especially among those most interested. While it took only three heats to decide the main race between Terrace Queen and Simmasse, seven were required before a winner was landed in the 224 class. There is little doubt that if the driver of Burline had driven the gelding as he should have this race would have been a close one. The track was very heavy and fast time was impossible. Rain fell most of the afternoon, and by the time the last heat was pulled off mud was no scarce quantity. Terrace Queen won the straight from Simmasse and travelled in beautiful form. The latter worked hard, but was clearly outclassed.

The summary is as follows:  
Free-for-All—Match Race.  
Terrace Queen, 2.04, C. F. De Witt, driver; driver, De Witt, 1.1  
Simmasse, 2.06, Boutiller, Hall, driver; driver, Boutiller, 2.2

### ATTELL WINS FROM NEIL

LOS ANGELES, Cal., July 4.—Abe Attell, champion featherweight pugilist of America, today got the decision in the twentieth round over Frankie Neil, bantam weight champion, before the Pacific Athletic Club. Attell showed to great advantage, landing six blows on Neil's cue.

Neil's eye was closed early in the contest, and his face battered black and blue. Neil, however, appeared to be strongest throughout the fight and his blows, when landed, had force behind them. Attell's cleverness in covering up and side-stepping his opponent's vicious swings saved him repeatedly. The last two rounds were fought by both men with fierceness and Neil landed more blows in these two rounds than in nearly all the previous eighteen. The men slugged at each other's face. The decision of Referee Epton was popular.

### THE TURF

Bad weather made the attendance at the Fredericton track small yesterday. The racing, however, was good. There was lots of excitement, and feeling at times, especially among those most interested. While it took only three heats to decide the main race between Terrace Queen and Simmasse, seven were required before a winner was landed in the 224 class. There is little doubt that if the driver of Burline had driven the gelding as he should have this race would have been a close one. The track was very heavy and fast time was impossible. Rain fell most of the afternoon, and by the time the last heat was pulled off mud was no scarce quantity. Terrace Queen won the straight from Simmasse and travelled in beautiful form. The latter worked hard, but was clearly outclassed.

The summary is as follows:  
Free-for-All—Match Race.  
Terrace Queen, 2.04, C. F. De Witt, driver; driver, De Witt, 1.1  
Simmasse, 2.06, Boutiller, Hall, driver; driver, Boutiller, 2.2

### ROJESTVENSKY PLEADS GUILTY AND TAKES ALL THE BLAME.

CRONSTADT, July 4.—In a manly effort to save the surviving members of his staff and the other officers who he believed surrendered the gunboat Bedovi, on account of their affection for their wounded commander, and their desire to save his life, Admiral Rojestvensky today pleaded guilty before a court-martial.

In a short speech to the court, the admiral declared that he took all the blame on his own shoulders, and asked that he alone be punished to the fullest extent of the law, virtually an appeal for condemnation and death, which he the penalty for hauling down the St. Andrew's Cross to a hostile vessel. All the other defendants, including Captain De Calonge, chief of Admiral Rojestvensky's staff, and Captain Baranoff, commanding the Bedovi, pleaded not guilty.

The admiral appeared to have quite recovered from the wounds he received in the battle of the Sea of Japan. After he had entered his plea, the taking of testimony began. Members of the crew of the Bedovi were called to the witness stand, and the admiral's determination to save his life, and the condition of the vessel, and the intensity of the capture, the taking of testimony will occupy several days.

DISEASED IMMIGRANTS

HIDDEN IN LIFE BOATS

Members of Steamer Romanic's Crew Believed to Have Helped Foreigners to Dodge Inspectors.

BOSTON, July 4.—When the White Star Line steamer Romanic arrived here today from Naples, the immigration officials found 19 diseased Italian seamen in the life boats of the ship. The men had crawled under the canvas to escape observation during the inspection of the passengers and the immigration officials suspect that the foreigners were assisted by one or more members of the steamer's crew. The case is being investigated and it is said arrests may be made tomorrow.

Following the capture of the Italian deputy Commissioner Jeremiah J. Nulty fell over the canvas covering of a lifeboat and narrowly escaped being thrown overboard by several fugitives under the covering rising to their feet in an attempt to escape. All the men detained will probably be deported.

THAW STOOD ICE CREAM FOR OTHER PRISONERS

NEW YORK, July 4.—Harry K. Thaw, under indictment for the murder of Dr. Albert S. Blumberg, today followed his fellow male prisoners at the Tombs a pleasant surprise today by treating them all to ice cream and cake. Thaw was talking with Rev. John A. Wade, the Episcopal clergyman, who attends to the spiritual needs of the Protestant prisoners. Thaw asked the minister if the Fourth of July was being observed in any special way in the prison.

"Well," answered the clergyman, "I've just finished a task that falls upon me every independence day, that of supplying the women and boys with ice cream and cake." Thaw, who was unexcused for in that respect, Thaw asked him to get enough to go around and send the bill to him. Mr. Wade did as requested, buying 46 quarts of ice cream and 20 dozen of cakes. Thaw's wife was permitted to visit him today, the rule excluding visitors being in effect the same as on Sunday.

BROKE A RECORD THROWING THE 56 POUND SHOT.

BOSTON, July 4.—Officials of the Cian-Na-Gael organization of Massachusetts announced tonight that Dennis Mahoney had exceeded the world record in throwing the 56-pound weight at the annual field day of the Society in Revere today. Mahoney threw the weight, Irish style, with one hand, after an unlimited run, a distance of 38 feet 9 1/2 inches. A previous record of 37 feet 5 inches was made by J. S. Mitchell in 1932.

Just before breaking the record today, Mahoney lost control of the weight, which went into an immense crowd of onlookers, but fortunately no one was injured.

BLAZE AT RUMFORD FALLS.

RUMFORD FALLS, Me., July 4.—Fire tonight burned a two-story wood-frame building on Congress street, owned by Edward A. Allen, and a stable on River street, owned by Philip Ash, besides damaging several other buildings in the business part of the town. The loss will not exceed \$5,000 and is covered by insurance.

CHEAP BATHS.

A Japanese laundry has issued the following advertisement: "Contrary to our opposite company, we will most cleanly and carefully wash our customers with possible cheap prices, as follows: Ladies, 2 dol. per hundred; gentlemen, 1 1/2 dol. per hundred."—New York Tribune.

ABSOLUTE FACTS! The position a Newspaper holds in its own constituency is always apparent in its 'WANT AD.' PAGE. It is now accepted as one of the eternal verities in the world of advertising, that the newspaper which carries the greatest portion of the 'Want Ad.' Business of its district, is assuredly THE BEST Result getter in that Section. The ST. JOHN STAR Prints More 'Want Ads.' than Any Other St. John Paper. It is the Unrivaled and Recognized 'Want Ad.' Medium of St. John.

HARDIE DENOUNCES THE KILLING OF ZULUS

A British Labor Member Who Will be Getting into Trouble if He is Not Careful.

LONDON, July 5.—James Kell Hardie, the Socialist and independent labor member of parliament, has addressed a letter to a Zulu subject in Edinburgh, in which he says the wholesale massacre of natives now going on in South Africa under the pretense of suppressing a rebellion which does not exist fills him with shame and horror.

"I hope," Mr. Hardie wrote, "the day will speedily come when your race will be able to defend itself against the barbarities now perpetrated against it."

Seamen Lost from Steamer North Star—Schooner Founders—Maline Sailor Drowned.

ST. JOHN'S, N.F., July 4.—The Boston Schooner Mary Powers, Captain O'Neill, founded off the Grand Banks last Monday and ten members of the crew managed to reach here today with her flag at half mast, a member of the crew having been today landed, bringing as many of their effects with him as it was possible to save. The small boats narrowly escaped being swamped several times.

PORTLAND, Me., July 4.—Steamer North Star arrived from New York today with her flag at half mast, a member of the crew having been lost on the trip. The unfortunate was George Woods, aged 17, of Seattle, Wash. He fell overboard when the steamer was off Cape Cod, the young man at the time being employed in washing the railing along the hurricane deck. Although a search of an hour was made the body was not recovered. But little is known of Woods. He shipped as a green hand at New York.

BANGOR, Me., July 4.—Geo. A. Willey of Yearle, 48 years old, married, was drowned early this morning by the sinking of his boat, which struck a rock below the dam at Basin Mills, where he was fishing for salmon. He was swimming for the shore when he sank. A companion reached the shore safely. The body has not been recovered.

PROMINENT SCIENTIST KILLED BY AN AUTOMOBILE

BUFFALO, N. Y., July 4.—Prof. Henry A. Ward, of Chicago, a well known naturalist, was struck by an automobile this afternoon and instantly killed.

Alexander Gunnell, a real estate dealer, was the owner of the automobile and was running it at the time the accident occurred. Mr. Gunnell claims Prof. Ward stepped directly in front of the machine. Gunnell was placed under arrest and released on bail to appear tomorrow to answer to a charge of manslaughter.

Prof. Ward was born on March 3, 1834, at Rochester. He was an authority on meteors of which he had the largest collection in the world.

KILLED IN A SALEM SALOON.

SALEM, Mass., July 4.—The police are investigating the death of an unknown man whose body was found in a small building in the rear of a Boston street saloon today. The medical examiner found a deep wound two inches long on the left side of the head. A woman, who lives in the vicinity, said she saw a man knock another down in the saloon yesterday, and the police think that the person who received the blow was the one whose body was found today. No arrest has been made. The body is that of a working man.

Blunder Taxes? Many a business man pays as much money for the luxury of blundering as a steam yacht or private touring car would cost.

Blunder Taxes? cannot be evaded—whatever else waits, these must be paid. If a business man gets into the habit of making the same blunders more than once, the taxes will soon amount to confiscation.

Blunder Taxes? are levied with amazing frequency upon store advertisers. Among the blunders which are assessed at "full value" in advertising are these:

Using too little space in good mediums; Devoting less attention to preparing the daily store-advertisement than to the storing of some empty boxes in the basement;

Shipping the ad. altogether for one or more days now and then; Figuring the advertising appropriation on the basis of what you can "afford" after all other expenses are provided for;

Use of "programmes," schemes, circulars, posters, fence-signs, placards and jim-cracks, under the impression that you are securing real publicity, and that somehow, somewhere, sometime someone will be influenced by some of these things to come to your store and buy something.

YOUR "BLUNDER-TAX" BILL GROWS SMALLER AND SMALLER AS YOUR USE OF "ST. JOHN STAR" PUBLICITY GROWS BIGGER AND BIGGER.

THE ST. JOHN STAR is published by THE SUN PRINTING COMPANY, (Ltd.) at St. John, New Brunswick, every afternoon, (except Sunday) at \$2.00 a year.

EASTERN PACKING HOUSES. The United States congress after one of the most exciting fights in its history has decided upon radical changes in the method of inspection of food products.

In all this discussion the west has been the center of attraction because there the great packing houses are located. But there are in the eastern states more than a few of such institutions in which very large numbers of animals are slaughtered annually.

Notwithstanding. "Here, hold my horse a minute, will you?" "Sir! I'm a member of Congress!" "Never mind. You look honest. I'll take a chance."—Louisville Courier-Journal.

Eastern Millinery. Miss Homer—Did Miss Shone have a nice Easter hat? Miss Churchgo—Very nice, from a religious point of view.

Like as not. We believe that if all the saints came down in Russia and formed a procession some one would throw a bomb.

Advice to graduates. A prominent mining engineer cautioned the graduates of Stevens Institute, Hoboken, N. J., against contracting "big head."

Stop sponging. "He!—I wish you could make the bread mother used to make." "She!—And I wish you could make the dough father used to make."

No reply. "That little girl has one bad habit. She likes to break her head." "It is easy enough to break her of that. Get her a place as a telephone girl."—Illustration.

A pup needed. A clerical story that is going the rounds of the press world just now is one of the best in the extensive repertoire of the late Dan Hole, the prince of ecclesiastical anecdotes.

The Kingston school. The story printed elsewhere in this paper as to the feelings of country ratepayers in regard to the Kingston consolidated school is not of a very cheerful nature. It is to be feared that some folk look into the financial side of such undertakings, and any increase in the annual expenditure is liable to result in dissatisfaction.

Now enforce it. The Compulsory Education Act has received the approval of the St. John common council. In this the aldermen have acted in accord with public sentiment. The next thing to be done is to arrange for the practical application of the new law and this work belongs to the school trustees.

No business can exist without advertising. People must know where you are and what you have to sell or you might as well be at the North Pole as far as they are concerned.—Arthur E. Swett, Chicago.

HER PUMPS. (From the Indianapolis News.) They tell her best and put her toes. But still she wears them with a smile.

HER PURCHASE. "I've decided to patronize your store," she said, condescendingly; "I've already pays you keep such pure drugs and all that."

NOTICE TO THE OLD BOYS. A public school magazine contains this courteous announcement: "The editor will be very pleased to hear of the deaths of any of the old boys."

**PROMISING THEATRICAL MAN.**  
For the past few days there has been a guest at the Park Hotel, F. H. Winnett of New York City. Mr. Winnett is one of New York's best known and most prosperous theatrical men. He is the owner of between one and two hundred standard plays, some of which have been played here, and the business done by him through his offices in the Knickerbocker theatre building on Broadway is remarkably successful. Mr. Winnett is taking a trip through the provinces, looking over the ground and mingling a little bit of business with a lot of pleasure. He left for Halifax on the Prince Rupert this morning and will return to New York from Halifax the last of the week.

**HARMSWORTH GOING TO FISH SALMON**  
English Publisher Will Visit His New Newfoundland Timber Limits.  
Insurance Companies Must Toe the Mark If They Would Do Business in England—No Trusts There, He Says.

NEW YORK, July 5.—Lord Northcliffe, better known as Sir Alfred Harmsworth, the publisher, arrived yesterday on the Kaiser Wilhelm Der Grosse to visit the 600,000 acres of forest land in Newfoundland which the Harmsworth corporation has secured from the colonial government for the manufacture of paper pulp for its publications.

Lord Northcliffe goes to Newport on Saturday and then to Newfoundland, and from there to the guest of Lord Strathcona at Tobique river, where is the finest salmon fishing in the world. He will remain in England in two months. He had not heard of the railroad accident at Salisbury which 23 persons had lost their lives, until informed by a reporter who met him on the ship.

"I am staggered by the news," said he. "Later in the day he said, 'we have very few accidents in England. The people that are wrong will be punished, and the inquiry will be a very, very thorough one.'"

Of the American insurance scandals, Lord Northcliffe said: "A great deal of harm has been done by the preliminary swindling, but much more harm has been done by the very clumsy attempts at whitewashing, but I do not believe American companies remaining in England, unless they put up the surplus sufficient to meet their claims, will be able to do business."

In speaking of his leased timberlands, he said they grow the best kind of spruce for paper pulp and that what he wanted to manufacture of pulp is soon to begin, and it will probably be transported to England in bartered vessels.

"Do you have a paper trust in England?" he was asked.

"We don't have any trust at all," said he. "No trusts. John Bull is so stupid that we won't have any trusts."

**Troops Sent to the Caucasus to Prevent Trouble**

TIPLIS, July 5.—The military situation in the Caucasus is exceedingly grave. Disaffection appeared among practically all the troops including Cossacks. Two battalions of infantry and four machine guns have been dispatched to Batumi, in the suppression of the mutiny there. Murder, robbery and general lawlessness are increasing in the mountains. Thirty-five newspapers have been suppressed in Transcaucasia in the last five months.

Two battalions of the Kurs regiment, who are thought to be reliable have been introduced into the province in the hope of overawing the mutinous troops.

**TO ISSUE \$20,000,000 BONDS.**  
Stocks have been affected somewhat by the announcement that the secretary of the U. S. treasury has offered to the public \$20,000,000 of bonds of the Panama Canal loan, authorized by the recent act of congress. The bonds will bear interest at the rate of 2 per cent. and will be dated August 1, 1906, and interest will be payable quarterly.

**JAMES ROSS WELL AGAIN.**  
James Ross, president of the Dominion Coal Company, spent Dominion Day with F. L. Wanklyn, at Senneville. Mr. Ross has completely recovered from his recent illness, and is better now than he has been in years. He is about to leave on a fishing trip, and will afterwards go to Sydney—Montreal Star.

**WINNIPEG EXCHANGE OBSERVED**  
JULY 4.

**MONTEAL, July 4.—F. W. Thompson, vice-president of the Ogilvie Flour Mills Company, Ltd., says that the clearing of the Winnipeg grain exchange on July 4 was an outrage on Canadian national sentiment.**

**SHAUGHNESSY TALKS OF 'THE C. P. R.'S PLANS.**  
MONTEAL, July 4.—Sir Thomas Shaughnessy, president of the C. P. R., said today that although his company has millions of new roadway now under construction, they were not making much noise about it. He hoped that all of these additions would be rolled by the end of this year.

**By the time this year's crop would be ready to move eastward, the double track between Winnipeg and Fort William would be laid to the extent of 150 miles, which would greatly facilitate the rapid transportation.**

Sir Thomas would not confirm the rumor that the C. P. R. intended to go through the Rockies from Edmonton, but he hoped to reach the capital of Alberta direct by the end of the present year.

**BRITISH AMERICAN ASSURANCE COMPANY TO INCREASE CAPITAL**

**TORONTO, July 4.—The British American Assurance Company, with a capital of \$1,000,000, has increased its capital as before the San Francisco fire, took advantage today of the authority granted by parliament to increase its capital stock to \$2,000,000. Forty per cent. of the stock will be preference, to be issued at six per cent. cumulative limited to six per cent. dividend. The new issue will be about \$500,000. The company's losses in San Francisco were from \$250,000 to \$280,000.**

**ST. JOHN BANK CLEARINGS.**

For the week ending July 5, 1906, \$1,034,621; for corresponding week in 1905, \$982,148.

**WALL STREET.**

NEW YORK, July 5.—Stocks had a buoyant opening here today, helped by the advance effected in London during the holiday interval under the influence of the more cheerful speculative outlook abroad. Great Northern preferred was rushed up 1-16. Northern Pacific, 3; U. S. Steel, 1/16. Reading, Anaconda about 2; Southern Pacific, and Smelting and Refining, B. P. N. Y. C. Amalgamated Copper, the U. S. Steel stocks, Tennessee Coal, American Ice, International Paper and Consolidated Gas in the neighborhood of a point. Gains ran to a large fraction quite generally in other stocks quoted. Knickerbocker Ice sold at a decline of 5/8. The trading was very active and the market broad. The market opened buoyant.

**DISREPUTABLE WOMAN GETS NINE MONTHS**

Sarah Jane Moran Will be in Safe Quarters Till Next Spring.

A quartette of prisoners adorned the police court bench this morning. Wm. Bradley and David Forbes were asked to pay four dollars each for being drunk.

John Hayes, aged 66 years, was arrested last night for lying and lurking in a box car on Reed's Point wharf. He was also charged with being a common vagrant with no visible means of support. He was remanded.

Sarah Jane Moran was drunk and profane on Sheffield street and when placed under arrest by the police put up a kick that kept the cops busy until she was landed behind the bars. In court this morning when the fighting effects of the liquor had departed Sarah was as meek as a mouse and had nothing to say. Magistrate Ritchie said that these women who frequent Sheffield street must remember that they are not to resist the police and he fined her \$5 or two months' jail for being drunk, \$5 or two months for being profane and \$40 or five months jail for resisting the police, making a total of \$56 or nine months. The woman accordingly went to jail.

### BISON FURNACE

The upper section in a Bison Hot Water Furnace is heated first and is always the hottest.

This insures immediate circulation.

And it sends the water into the mains at the highest temperature, quickly heating the building.

In other furnaces the lower sections are heated first and the upper section, from which the water circulates, is never the hottest.

The Bison has more good heating points than all other heaters combined.

### KAISER'S FLAGSHIP

#### FLOATING PALACE

Deutschland to be Fitted Up With Suite of Handsome Apartments.

BERLIN, July 4.—Orders have been given to furnish the new German battleship Deutschland at Kiel with a suite of handsome apartments for the Kaiser. The Deutschland will be flagship of the North Sea Squadron, and will be used by the Kaiser during his frequent visits to Kiel.

The suite of apartments contains a saloon, a bedroom, a working cabinet and a bathroom. The walls will be white and gold, designed in English style, with carvings in wood. Mahogany and stained oak furniture will contrast with the walls, four 8-centimetre guns, furnished like gold, will ornament the sides of the saloon, in which folding seats will be attached. The bow of the ship will be decorated with a huge figure of Germania with sword and shield, and on the stern plate the Kaiser's monogram and arms will appear with the Prussian and Imperial eagles.

The Vorwärts is eager to know whether the expense of this has appeared in the naval estimates, or will be borne by the Kaiser himself.

### RAPICKER'S WEALTH

#### REVEALED BY DEATH

Has Sold His Body to University Medical School for a Yearly Payment.

PARIS, July 4.—A miser's hoard was brought to light in a strange way yesterday. A rapicker named Mace returned drunk to an attic he occupied in the Latin quarter. There he upset a candle, set the place on fire and was burned to death.

While searching among the bundle of rags with which the room was littered the firemen and police found over \$5,000 in banknotes, and also papers which showed that the rapicker had recently purchased an annuity of \$240. For years past the man had gained a livelihood by rapping and street begging. He possessed a physical abnormality, which he also had turned to account. For a yearly payment of \$120 he agreed that the University Medical School should have his body after death. The deal has proved an unprofitable one for the surgeons, as all that is now left for them are a few blackened bones.

### \$360 FOR A VICTORIA CROSS.

Record Price at Sotheby's for the Reward of British Bravery.

LONDON, July 4.—Noteworthy collections of coins and of naval and military medals have been sold at Sotheby's auction rooms during the past ten days. The appearance in a salesroom of a Victoria Cross, the proudest badge that a British soldier can wear and one awarded only for conspicuous bravery, always arouses some public interest, and in these sales there have been two.

The value of a Victoria Cross, intrinsically very small, depends partly upon the conditions and its rarity from a collector's point of view, but still more upon the fame of the deed which it commemorates. The one which brought the record price of \$360 was awarded to Corporal William Allen of the Twenty-first Foot for his conduct at the defence of Rorke's Drift.

Twenty-seven years ago that country ranger with his fame and with that of Private Frederick Hitch. Owing to the undaunted courage with which these two men held a most dangerous and difficult position against a host of Zulus the removal of wounded and sick patients from a burning hospital was accomplished. Severely wounded and exposed to a heavy raking fire from an adjacent hill, Allen stuck to his post until the last patient had been carried into safety, and then falling himself, he served out ammunition to the holders of a barricade.

The other Victoria Cross is one of the many, speaking comparatively, that have been won by Irishmen. Private P. Fitzpatrick of the Ninety-fourth Foot (now Second Battalion Connaught Rangers) was the hero, and the scene was again South Africa, toward the close of the Boer war of 1879.

Sekukuni's Town was then the headquarters of a strong and remarkably stubborn native chief, and it was in this neighborhood, on November 23, 1879, that Lieutenant Dewar, of the King's Dragoon guards fell, dangerously wounded. With him at the time were two Irishmen, Privates Fitzpatrick and Flawn, and half a dozen of the native contingent.

The natives were proceeding to carry Lieutenant Dewar down a steep hill, when suddenly about forty of the enemy, spears in hand, appeared in pursuit. The men of the native contingent promptly dropped their burden, and ran for their lives, and there remained with the wounded officer only the two Irishmen.

They knew well enough what to do. One took Lieutenant Dewar hoisted up on his back, and the other covered the retreat of the two, firing at the oncoming enemy. Then they changed their roles, for they had far to go; and thus, alternately, one bearing and the other defending, they eventually carried the wounded man into safety. Private Flawn also got the Victoria Cross, and it is to be hoped that he still has it. The one awarded to his comrade sold for \$210.

Patrick McCuskey, who fell off the gang plank of the Lansdowne Monday and seriously hurt, was reported last evening to be resting comfortably and his injuries improving rapidly.

### CRUEL JOKE ON FIVE BATHERS

Clothing of All But One Hidden and They Had to Scurry to Shelter in Scant Alliance.

PORT JERVIS, N. Y., July 4.—John Kelly, proprietor of a hotel in Georgetown, a suburb of this village; Jas. Eagan and Edward Boyle, popular players in the Erie baseball league, and John Cowan and Thomas Eagan, after a game Saturday afternoon went to the river bank, short distance from the hotel grounds, and took a bath. They hid their clothes in the brush along the bank. When they emerged Kelly's had disappeared. To add to their discomfort a thunder shower came up, accompanied by hail. The hail, Kelly said, gave them the most severe massage treatment they ever had. They protected themselves with parts of Kelly's clothing the best they could.

At dusk a friend found them and went along the street nearest to Kelly's hotel and notified the citizens of the circumstances and asked them to close their blinds long enough to allow the unfortunate men to reach the hotel. The underclothing of Kelly and his trousers, vest and coat and outer bathers not unlike the waxy apparel of a South Sea Islander, and the party started on a run for the hotel.

Although it is said the neighbors had agreed to keep their blinds closed until the procession had gone by, the rattling of the blinds and the laughter that went up behind them did not bear evidence of good faith. Something terrible is likely to happen is the perpetrator of this cruel joke is caught. The clothes of the bathers were afterward found on the back stoop of the hotel.

### NO DIFFERENCE.

No distinction is made as to the kind of Piles that Dr. Leonard's Hem-Roid cures.

The names Internal, External, Bleeding, Blind, Itching, Suppurating, etc. are simply names of the different stages through which every case will pass if it continues long enough.

Piles are caused by congestion, or stagnation of blood in the lower bowel, and it takes an internal remedy to remove the cause.

Dr. Leonard's Hem-Roid is a tablet taken internally.

It is a permanent cure and no case of Piles has ever been found it failed to cure. Money back if it does.

A guarantee with every package. Price \$1.00 at any druggist's, or the Wilson-Pyle Co., Limited, Niagara Falls, Ont.

The case against D. W. McCormick for selling liquor after hours was taken up in the police court yesterday afternoon. Two witnesses, who had been summoned on the charge of obtaining liquor there after hours, were able to prove that they had not been near the Victoria Hotel on the night in question. The case was adjourned till Friday for the purpose of procuring more evidence.

### STABBED HIS WIFE AND SHOT HIMSELF

#### Horrible Crime Committed by an Ontario Farmer—No Cause Assigned For the Deed.

LINDSAY, Ont., July 4.—Yesterday morning a horrible tragedy occurred a few miles from the village of Kirkfield. A well known farmer, Duncan McArthur, aged about 35 years, and his wife, some years younger, were found dead outside their home, the indications being that McArthur had first killed the woman and then committed suicide.

McArthur and his wife attended a picnic at Glenora yesterday, and appeared to enjoy themselves. They drove home in the evening and on the way they hired a man, Arthur Bell, to work for them. This morning Bell walked to the farm to begin his duties. As he approached the house he saw a man in the garden he encountered the body of McArthur with the whole top of the head blown off. An old shot gun, fired by McArthur, lay at his side and close by was a stick that had probably been used to explode the charge.

Thinking the deed had been done unknown to the wife Bell hurried towards the kitchen and just outside the door came upon the body of Mrs. McArthur dead and the whole left side of her face crushed with the result that a wound. Bell then returned and ran back to the village and gave the alarm.

McArthur's body has been found in a place where he was found in which he stated, among other things, that he had stabbed his wife in the back and then turned and shot himself at 8.15. Dr. Wood, of Lindsay, coroner, is holding an investigation.

### NEWFOUNDLANDERS PREFER AUTONOMY

#### Premier Bond Declares That Confederation is Not Within Region of Practical Politics.

(Montreal Star.)

"Newfoundland is on the crest of a wave of prosperity unprecedented in her history," said the Right Hon. Sir Robert Bond, P. C., K. C. M. P., Prime Minister of Newfoundland, at the Windsor yesterday.

"I attribute this happy state of affairs," he continued, "to the policy of the present government, which has largely reduced taxation, while it has encouraged diversity of employment; abundant returns that have rewarded enterprise and capital; to cautious trading on the part of our merchants, and to a firm, unflinching faith on the part of all our people in the future of that country."

The Island Premier also said that the revenue of the colony is going up by leaps and bounds, and that the fiscal year just closed showed a handsome surplus over expenditures.

When asked as to the likelihood of confederation and the feeling in that matter of the people of Newfoundland, he answered:

"It is not within the region of practical politics. Our people do not desire it; they prefer to work out their own destiny retaining their autonomy as most ancient colony of the Empire."

"What about your treaty with the United States?"

"It is somewhere between the Foreign Relations Committee and the Senate of the United States. I do not see how it will get ratified."

"Do you still hope to get it ratified?"

"Oh, yes, I think that in time our American friends will see that redemptive ends as much to their advantage as to ours."

It was the government's intention, he declared, to carry out its legislation in respect to American fishermen, so long as the Gloucester fishermen of the Gloucester convention in the Senate or Foreign Relations Committee would.

As for the Harnsworth paper and pulp industry it was doing well, but not progressing as fast as the people desired to expect. The Pearson, of London, he stated, had almost completed negotiations for the establishment of a similar industry in the colony, and he expected that resulting competition would lead to more exports.

Sir Robert Bond said that his trip to this country was entirely of a private character, and was due in great part to the serious illness of his brother, the Rev. George J. Bond, editor of the Christian Advocate, who had recently visited the Muskoka Lakes district, and also the agricultural college at both of which he spoke in high praise.

### A MIX-UP OVER THE HALIFAX EXHIBITION

#### Appropriation of the Grounds Not Properly Conducted—May Have to Begin All Over.

HALIFAX, July 4.—Justice Russell today by a decision he rendered made effective the application for an injunction to prevent the Dominion Exhibition Commission taking further steps, under the present proceedings, to appropriate the grounds not properly conducted—May have to begin all over.

The principle of the exhibition commission and on which the judge's decision is based is that the plan of the property required was not filed within the time specified by the expropriation act. This decision cannot be appealed to the supreme court before November; meanwhile the commission may get over the difficulty by starting their expropriation proceedings all over again which will consume a couple of weeks. The property sought was to be used for a site, grand entrance with turnstiles and office building.

### SHOT A MAN WHO TRIED TO ENTER HER HOUSE

#### Mrs. Tracy, a Quebec Woman, Killed Forest Howard with a Shot

SWEETSBURG, Que., July 4.—Forest Howard, unmarried, forty years of age, was shot and killed today at Broome Pond, four miles from Sweetzburg, by Mrs. Edward Tracy.

According to Mrs. Tracy's story, Howard came to her house about 9 o'clock and asked to speak with her husband. She was alone at home with two young children, and told Howard her husband was not in, but was working at a saw mill some distance away from the house.

Howard, she further states, who was not altogether in his right senses, forced an entrance into the house and attacked her. She therefore seized hold of a gun and discharged its contents at her assailant. He fell in a heap upon the floor, and died in a few minutes.

The Tracy family is highly respected in the neighborhood.

### AUSTRALIA HAS NOW DEEPEST GOLD MINE

#### Shafts Sunk Over 4300 Feet Yield Precious Metal in Paying Quantities.

MELBOURNE, July 4.—Australia has now the deepest gold mine in the world. Within the last few weeks the shafts at the New Chum Railway Bendigo, Victoria, have been sunk to a depth of over 4,300 feet, and the quartz there topped has been sampled and crushed with the result that a yield of gold equal to an ounce per ton has been obtained.

The operation of the mine has been tested by government officials, in view of the fact that never before in the world's history has gold been obtained from so low a depth as three-quarters of a mile.

The Australian Director of Geology, E. J. Dunn, in the course of an official report upon a sample from the 4,300-foot shaft of the New Chum, writes:

"This remarkable specimen of auriferous quartz is evidence of the vast wealth of the such ore deposits at such great depths. The winning of such ore from a vertical depth of over three-quarters of a mile, which has been done, is an achievement of which Bendigo miners may justly feel proud."

### SOLD CIGAR ASH AS A PATENT MEDICINE

#### Many Patients of Swindler Testify to Its Wonderful Curative Effects.

PARIS, July 4.—A young named Rouquier, who in his time has played many parts, was arrested yesterday on a charge of swindling.

Rouquier was formerly a platewasher at a restaurant, but he was ambitious to become a chemist, and he conducted on very questionable lines.

Some time afterward, when the banking business became monotonous, Rouquier blossomed forth as an "American specialist," undertaking to cure today's ailments by means of his wonderful remedies. Treatment was by letter only, and Rouquier is said to have had many cures. The remedy, it is asserted, consisted of cigar ash, yet so extraordinary is the human credulity that in his room was found a number of letters, written in all good faith, no doubt, by many of his patients, testifying to the marvelous curative effect of the remedies. It need hardly be said that the majority of the patients were women.

### COMPULSORY EDUCATION ACT ADOPTED HERE

#### A Slight Difference in the City Accounts—May Paint the Exhibition Buildings.

At a meeting of the common council held yesterday afternoon it was decided to apply to the city schools the provisions of the Compulsory Education Act. Michael Coll, whose term of office expired was re-appointed a member of the school board.

The city laborers were granted their demand for wages of \$1.50 and \$1.25 a day.

The request of the Imperial Dry Dock Co. was referred to the general manager of the city, and the aldermen favored painting the exhibition buildings. The matter was referred to the safety board. The question of appointing a jail matron was referred to the safety board to confer with the municipality.

The auditor's accounts were next read, showing that the debt of the city was nearly \$5,000,000.

Alderman Christie pointed out that there was a difference of \$1,000,000 between the city's assets as stated in the chamberlain's report and as shown by the auditor's. The auditor's report showed the city to be a million dollars better off. This brought on considerable discussion.

The question of painting the exhibition buildings next came up for discussion on the reading of a communication from the staff college classes.

### THE DRY DOCK.

#### Common Council Asked to Alter the Terms of the Subsidy—Dock Will Cost a Million.

At yesterday's council meeting a communication was read from the Imperial Dry Dock Co., saying that the reliable company had undertaken the work of building the dry dock. The company asked that the grant of an equivalent amount to be paid in twenty years.

Ald. Baxter moved a resolution that the grant be so altered, paying \$3,884 each year for twenty years. The amount to be taken out of the hands of the citizens would be considerably less, although larger amounts would be given during these twenty years.

Ald. Bullock seconded this motion. He thought that Mr. Robertson should be congratulated in bringing the matter so near to completion. This is no bogus company, but a company ready to go on with the work. The work has taken Mr. Robertson seven or eight years. It is the largest work in the neighborhood of \$1,000,000. Between four hundred and five hundred men will be employed. He expected to see the dock completed within eighteen months, and thought that the city should be congratulated in September.

Ald. Baxter moved that the matter be referred to the general committee. This was carried.

### PHIL RICHFORD AFTER THE VICTORIA HOTEL

In the police court yesterday afternoon the liquor case against the Victoria Hotel was taken up. The charge is for selling liquor on Sunday, June 17. Two witnesses both gave evidence that they were not in the barroom on the premises.

Inspector J. B. Jones said he knew not of the case personally but the information had been given by Philip Richford.

In answer to C. J. Milligan, who appeared for the hotel people, Mr. Jones said that he knew Richford had been against the Victoria.

In answer to further questioning Mr. Jones said that on two previous occasions Richford had lodged complaints, which on personal investigation he had found groundless. Richford had said to him that he wished to get even with Mr. McCormick as he owed him \$300,000 and that he would not stop till he drove him out of business and into the poorhouse.

On request of George A. Anderson the case was adjourned until Friday morning.

### IRISH SETTER SWALLOWED THE INSECT AND THEN THE FUN BEGAN.

BLOOMFIELD, N. J., July 4.—An Irish setter owned by Superintendent August P. Olsen of the fire alarm system caught a wasp in the kitchen this morning and swallowed it. Suddenly the dog began to howl and run around the house with the dog upset chairs, wrecked a number of stands on which fancy dishes and cut glass were being placed, and finally jumped through a window. The dog had been seen since.

### CHAM GANT WENT ON STRIKE.

SYDNEY, N. S., July 4.—When the eighteen prisoners in the county jail were ordered out this morning to commence work on the country roads beyond the city limits thirteen of them refused duty, and complaints being made by the latter to the sheriff, orders were issued by the latter to discipline the refractory ones. They were strapped by one arm to the jail yard gate and a course of bread and water ordered until they came to a reasonable frame of mind. They remained in that ludicrous position until about 6 o'clock, when all agreed to march out to their new duties in the morning.

### A BOUNDARY DISPUTE.

FREDERICTON, N. B., July 4.—At a meeting of the local government this morning B. R. Violette, Fred. Rivard and J. H. Barry, K. C., were heard in reference to the boundaries proposed for the town of St. Leonard's now seeking incorporation. Mr. Barry appeared on behalf of certain ratepayers who are taking exception to the boundaries marked out by the sheriff, and Messrs. Violette and Rivard presented the other side of the question. The government promised a decision at the next meeting.

A Story of France in the days of Louis XV., and how the work of a traitor was foiled by the energy of Madame Pompadour.

(Continued.) "For do I," the woman answered, still laughing, and her laugh was like the purr of her cat. "In any case, Monsieur le Vicomte must wait. A lady is already here to see me. No, it is not necessary to retire, in spite of that I have said, you doubt my powers; therefore you shall listen while she and I talk."

down indolently, but there was almost insolent provocation in the simple grace of the movement. Madame d'Etioles turned away. "And your pay?" she demanded sharply. "As Madame pleases," came the indifferent answer from the sofa. The visitor placed five pieces on the table, replaced her veil, and walked towards the door. "Adieu!" she said over her shoulder, but Andre could not step as one intoxicated by a sublime vision. "And will Madame remember the wise woman?" the sorceress pleaded in her soft voice, "if the crystal be found to speak the truth?"

cession—and this spring—1745—under the Maréchal de Saxe, (the son of a king and an Austrian, von Königsmarck, himself the idol of women of quality as he had been the idol of Andre's mother, the Marquise de Morsac), he had been made to drive from the low countries the red-coated English and white-coated Austrians, to win for the Pleurs-de-Lis the boundaries that, since the days of Henri IV., God, nature, and French genius had destined to France. Was not Louis, Le Bien Aimé, himself going to the campaign, with the flower of his nobility and his army? Andre's heart, surely great things would be accomplished before the September winds shook the apples off the trees in the orchards of Normandy or they trod the wine-vats on the sun-dried slopes of Gascony. Paris was in a fever of excitement; the court was still en fête for the marriage of Monsieur le Dauphin to a Saxon princess. But would there be, as Andre felt, a hapless Duchesse de Chateauroux? That was the only question about which the Paris that counted really cared. Andre of course went to tell St. Denis how he had won his bet, and he found him gossiping in the salon of the Comtesse des Forges. "The king has already chosen, madame," remarked fawningly her ladyship. "But Monsieur le Archevêque and the royal confessor are still able to work on his remorse, so for the present his majesty affects to play at being a devotee."

"I don't believe it," St. Denis retorted. "The king will be a devotee for one day in the week and a lover for the other six. He will not know beforehand, not even for a crown reversed." "Naturally he does not wish to shock Madame de Dauphine," Andre interposed. "But Monsieur le Archevêque and the royal confessor are still able to work on his remorse, so for the present his majesty affects to play at being a devotee." "I don't believe it," St. Denis retorted. "The king will be a devotee for one day in the week and a lover for the other six. He will not know beforehand, not even for a crown reversed." "Naturally he does not wish to shock Madame de Dauphine," Andre interposed. In the advertisement yesterday of Patterson's "Daylight" store, an oversight, the price of white lawn waists read 25c. It should have been 35c.

Robert McEachern has been reported by the police for throwing a stone on Chapel street, and striking a boy named Myers Levine on the face last night.

Great July reduction sale of dainty white lawn embroidered shirt waist patterns. Enough material for a waist, especially pretty for making up short sleeved shirt waists. Limited number to be sold at two very low prices. See advertisement of F. W. Daniel & Co., Charlotte street, on page five.

In a few days the St. Andrew's rink will be thrown open to the public for roller skating. The rink for a waist, as soon as it is properly finished roller skating will have become a certainty here. Manager Campbell left at noon for Montreal where he opens the Victoria Rink there. He has arranged for a one mile race between Fred Folis, of Eastport, and O. Vanwart, of this city.

Word of a tremendous sale of summer wash materials—the better kind—is given in this issue by M. R. A. Ltd. It will be a veritable carnival of bargains for the good care of the very highest grade colors, patterns, textures and qualities that cost twice and three times as much elsewhere in the city. The M. R. A. retail stores will be open until 10 o'clock Friday night, but after 1 p. m. Saturday every branch of the business will be closed in order to allow the numerous employees the half holiday.

A very sudden death occurred at LePage's on Sunday morning, July 5, when Grace E., beloved wife of Moses Shaw passed away. It was exceptionally sad as the deceased was a bride only a few months, and was ill only a day. Dropsy and heart failure were the cause of death. Mrs. Shaw was well known and much beloved by all who knew her. She was formerly a Miss Corseaden, of Mac's Bay, and is survived by her mother, two brothers and two sisters besides the sorrowing husband. The funeral was held from her residence, Monday afternoon and the services were conducted by Mr. Goddard of this city.

JOHN FRAWLEY OF ST. GEORGE, FELL DEAD

While on the Steamer Viking on an Excursion to Eastport.

The death of John Frawley, a well known and respected citizen of St. George, occurred yesterday afternoon. Mr. Frawley had been on a trip to Eastport and was returning home by the steamer Viking, and as the steamer was entering LePage's harbor, Mr. Frawley was apparently seized with a fainting spell and fell over the rail into the water. He was immediately picked up, but life was extinct. It is supposed that his death was due to heart failure or apoplexy. The body was taken by the steamer to St. George and arrived there about an hour after Mr. Frawley died.

Mr. Frawley, who was sixty-one years of age, was one of the best known men in St. George. For many years he conducted a large grocery business in that place, but a few years ago retired, the business being carried on by his three sons under the name of Frawley Brothers. Besides these sons Mr. Frawley leaves one daughter living at home, also two brothers, Thomas H. Frawley in Newport, E. I., and Michael Frawley at St. George. A married sister resides in Boston.

SAY KINGSTON SCHOOL IS TOO EXPENSIVE.

Ratepayers Not at All Satisfied With Consolidation.

Two Districts Decide to Drop Out of It, and Others May Do the Same Thing.

The success of the scheme for the consolidation of the school districts in this province seems to be hardly yet a settled question, if one may be allowed to judge from the present attitude of a large number of the ratepayers of the Kingston Consolidated Schools. Kingston, it is understood, was chosen as a typical rural district. A commodious and well equipped building was constructed there to accommodate the children of the several districts which consolidated. The cost of the building, as well as all the extra expenses over and above the cost of maintaining the separate schools of the districts previous to consolidation is being borne by Sir Wm. McDonnell. Sir William has only promised his support, however, for three years, which time expires at the close of the next year. At the close of this period of three years it was expected that the new system would be in good working order and that the ratepayers of the united districts would be able thenceforth to support the school from their own funds.

On the success of failure of this plan, naturally, will depend to a large extent the future progress of the consolidation system in this province.

Several of the ratepayers in the various parts of the Kingston district have been interviewed by the Star, and for the most part seem to be of one opinion with regard to the cost of keeping up the new school. They all admit that the financial end of the scheme is the only drawback. With the new system has been the means of bringing about some little hard feelings in certain places, and while a few complaints have been made during the winter months concerning the comfort of the children on the way to and from school, still it is generally admitted that the system on the whole has worked well. Again, with regard to the efficiency of the school, as well as the increase in attendance over the separate schools, there is only one opinion. The latter question is settled by comparing the registers of the teachers in the present school with those during the last year of the separate schools. Some 25 per cent, or more, of an increase is shown.

Hence it is that so many of the ratepayers have fears and doubts regarding the future of the school. They expect to wake up some fine morning after Sir William discontinues his generous allowance, and find that their school taxes have been doubled. Those who know the feelings of the ratepayers generally throughout these districts agree that the cost of maintaining the one question which will decide whether the Kingston school will stand or fall. In proof of this it may be mentioned that in two of the districts, viz., Perry Point and Jubilee, the question came up for consideration at the last annual school meeting in June. When the matter came to a vote both districts voted by a large majority to drop out of the consolidation and re-open their old schools next year, providing no new source should spring up for the supply of funds.

Perry Point, it appears, is one of the most prosperous districts in the consolidation. It would therefore seem that the poorer districts might be disposed to follow their example in this regard.

A prominent ratepayer of Perry Point said yesterday to the Star that he thought the foling against any increase in taxation was quite as strong in the other districts as it was there and that they would probably take the same attitude in the matter next year as Perry Point had done.

GENERAL HALF HOLIDAY.

The First One Will be on Saturday—A Few Big Houses Will Not Join

The general half holiday movement will be an accomplished fact on Saturday. Nearly all the important business houses have signified their intention of closing on that date, though misunderstandings, holding, and other causes will be the means of keeping some of the larger establishments wide open. The shop trade is not reconciled to the idea this year, neither is the hat and cap trade.

But as it is, the weekly respite bids fair to be well observed. Thousands of pent-up shop folks will be the happier and the better for it, even though it is only a few times. And when this many people leave town, closing their stores behind them, it looks very much as if St. John will somewhat resemble the deserted village of Oliver Goldsmith. Even with the hardware and wholesale houses closed these last few weeks on Saturday afternoons, the effect upon general business has been more or less marked, it is said.
