BULLOCK ELECTED MAYOR BY A VERY LARGE MAJORITY

VAN BUREN MILL MEN STRONGLY OBJECT

They Take Exceptions to St. John's View of Lumber Difficulties on the Line.

VAN BUREN, April 20.—The American lumber mill owners on the St. John river here take exception to a statement in a St. John dispatch of April 8th relative to the difficulties which exist between them and the Americans who operate lumber mills in New Brunswick and ship their American cut logs and lumber into this country free of duty.

The local interests say the whole trouble centers over the booms which the American mills here have strung in the river for the purpose of holding the logs for their mills and for sorting them from the other drives on the river. If the Van Buren mills are not permitted to string these booms, they must shut down their plants, it is said. In this event, the logs would have to go to Fredericton and St. John and be manufactured in mills which, though owned by Americans, are said to be manned by Canadians, whereas the American owned and operated mills would become idle.

At the time the treaty was made and the Congressional Act passed, the only place where lumber could be manufactured on the river was at the Canadian cities of Fredericton and St. John but when the Bangor & Aroostook railway was extended to Van Buren an outlet was given for lumber manufactured in Maine mills on the St. John. As a result two mills are in operation here. Since they were built there has been a constant conflict between the local interests and those at Fredericton and St. John.

The District System Turned Down ---Ward System Remains in Effect

The New Aldermen At-Large are Kelley, Frink, McGowan and Scully.

The following are the Successful Candidates in the Ward Contests: Holder, Elkin, Vanwart, Hamm, Baskin, Sprout, Willett, Pickett.

Following are the results in today's elections, as received from the various polling booths. They are subject to correction, but the changes will not likely be of such a nature as to change the general results in any way.

U. N. B. BASKET BALL
TEAM MET DEFEAT
AT ST. ANDREWS

ST. ANDREWS, N. B., April 20.—The
local basketball team, the Shamrocks,
defeated a U. N. B. team with a score
of 24 to 19, here tonight. The line-up
was:

Shamrocks—Williamson and Purton,
forwards; Woods, centre; Burton and
Grimmer, guards.
U. N. B.—Smith and McKnight, for-
wards; Dunphy, centre; Rigby and Coy,
guards.

For the Shamrocks, Woods did his
usual good work, and Purton, the new
man, showed up fine. Rigby was the
star on the college team. Although the
U. N. B. team did not play with the
sanction of the U. A. A., it was a re-
presentative team of that body. John
B. Delong of Milton was referee.

This will probably wind up the season
for the Shamrocks unless the Canucks
accept an invitation to play this week.
They close the season with six wins
and three losses. Mr. Wood has good
reason to be proud of his work with
the team in its first season.

MORRISEY WINNER
OF MARATHON RACE

BOXTON, April 20.—T. P. Morrisey of
the Mercury A. C., New York city, to-
day won the twelfth annual renewal of
the Boston Athletic Association Mar-
thon road race, covering 26 miles
from Ashland, Mass., to the finish mark
on Exeter street in two hours, twenty-
five minutes and 43.5 seconds. The
time is second only to the record of
two hours, 24 minutes and 42 seconds
made last year by Tom Longboat, the
Canadian Indian runner. Following
Morrisey fifty yards to the rear came
J. J. Hayes of the Irish American A. C.,
New York, who in turn led Robert
A. Fowler of the Cambridgeport Gym-
nasium Association about the same
distance. Hayes' time was two hours,
25 minutes and 4 seconds, while Fowler
took two hours 25 minutes and 48 sec-
onds.

CITY SALVAGE CORPS ELECT THEIR
OFFICERS FOR THE ENSUING YEAR,
THEN ENJOY SMOKING CONCERT

Last evening both No. 1 and No. 2
Salvage Corps held their annual meet-
ings at their rooms. Besides the elec-
tion of officers, the hearing of reports
and the regular business of the meet-
ing, there were smoking concerts at
the rooms of the corps.
No. 1 Salvage Corps met in its rooms
on Union street. The elections resulted
as follows: Capt. R. W. W. Eirik;
Lieutenant, Harry Ervin; secretary, E.
P. Howard; foreman No. 1, James
Mills; foreman No. 2, G. H. Tapley;
foreman No. 3, F. McKean; foreman
No. 4, G. C. M. Farvan; treasurer, J.
C. Mitchell; surgeon, Dr. J. H. Scam-
mell.
The secretary and the treasurer and
the chairman of the property committee
presented their reports. During the
year the corps responded to fifty-five
alarms, thirty-five of which were need-
less. The members of the corps worked
for twenty-seven hours and spread one
hundred and forty-one covers. The re-
ports also mentioned the entertaining
done by No. 1 during the firemen's
tournament and the visit of the Har-
ford Veterans.
Last evening in the unavoidable ab-
sence of Captain Eirik, Lieutenant
Ervin presided at the meeting. At
the close of the meeting the corps
presented the membership being thirty-
four.
After the elections there was a pro-

gramme of speeches, songs, etc. Ald.
Ald. Bullock by letter expressed regret
at not being present. Songs were sung
by Messrs. Purton, McKean and
Tonge. Mr. Orretto of the Hall-Ed-
der Company also helped to entertain
the gathering. One of the most enter-
taining features of the evening was a
four-round boxing bout between Fred
Flaherty and Frank Winslow.
The meeting of No. 2 Salvage Corps
was held at No. 8 station and was
largely attended. The following offi-
cers were elected for the ensuing year:
Captain, W. H. White; lieutenant, H.
G. Harrison; secretary, J. Ervin; trea-
surer, W. H. Turner; foreman No. 1,
G. P. Carvell; foreman No. 2, J. C.
Purdy; foreman No. 3, J. Salmon; fore-
man No. 4, W. H. McIntyre; surgeon,
Dr. C. M. Pratt.
The recommendations contained in
the officers' reports will be dealt with
at the regular monthly meeting in
May.
A vote of thanks was extended to
the newspapers for courtesies during
the year.
After all the business had been trans-
acted, a social entertainment took
place. Refreshments were served.
Those who contributed to the pro-
gramme were E. Holder, W. McIntyre,
Robert Cunningham, solos, and F.
Kerr, piano solo.

FORTY-ONE PERSONS KILLED
SIXTY INJURED IN TRAIN WRECK

MELBOURNE, April 20.—Two trains
from Ballarat and Bendigo respec-
tively collided late last night at Bray-
brook Junction, about eight miles from
Melbourne. Forty-one persons were killed
and sixty injured. The Bendigo train,
with two heavy engines, crashed into
the rear of the Ballarat train. Five
cars of the latter train were wrecked.
The wreckage took fire and was almost
completely consumed. Many of the
bodies were unrecognizable when re-
covered.
The Bendigo train suffered but lit-
tle damage, but the two engines were
piled on top of the rear coaches of the
other train. Terrible scenes followed
the accident, many of the injured being
caught in the wreckage and with diffi-
culty were rescued. It was a long time
before doctors and nurses arrived on
the scene, and as a consequence intense
suffering prevailed among the injured.

TROUBLE AGAIN IN
LONGSHORE CIRCLES

There is more trouble among the
longshoremen. The latest develop-
ment is a direct outcome of the reor-
ganization of the Shiplabors' Society.
Barton McCabe, who has been a
foreman for the Donaldson line, has
thrown his lot in with the new organ-
ization, and in consequence of his ac-
tion the members of the Longshore-
men's Association notified the Robert
Reford Co., who are the local agents,
that unless McCabe was discharged
they would refuse to do any work for
the line. This was some days ago,
and as the company could not see their
way clear to grant the association's re-
quest the Tritonia, which began dis-
charging cargo yesterday, is being
worked by members of the new so-
ciety.
H. C. Schofield, local manager for the
Reford Co., said last night that the
Tritonia had the usual number of
gangs at work, and he anticipated no
difficulty in getting from the new so-
ciety all the men required for their
purposes.
The Shiplabors' Society claim a
membership of about two hundred,
and say that large accessories to their
ranks from dissatisfied members of the
parent association are expected.

Hotel bars not to have more than one
door; electric bells or buzzers and elec-
tric door-catches controlled from the
offices not to be allowed in hotel bars;
the latter to be so located that a per-
son in the office or corridor of the hotel
can see if there is a light therein;
screens in the windows of licensed tav-
erns to be removed or so reduced in
size that a person on the street can be
able to tell if anyone is in the bar or
if a light is there—these are sugges-
tions that it is quite possible may be
incorporated in the Liquor License Act
as far as St. John is concerned.

ARE WELL SATISFIED

Colonies are to be Consulted in Making Treaties.

LONDON, April 20—The arbitration treaty between America and Great Britain, the text of which has been published here from America, had been received by Parliament, particularly those interested in colonial affairs, welcome the clause under which Great Britain reserves the right, before concluding an agreement on any matter affecting a self-governing dominion, to obtain the concurrence therein of the dominion.

AUSTRALIAN DEFENCE.

Australia's apprehension in the matter of possible aggression on the part of Japan was voted at the meeting held in London yesterday by the Australian Chamber of Commerce, addressed by Thomas Price, Premier of South Australia. Mr. Price was emphasizing the necessity of Great Britain giving a more tangible proof of her interests in the colonies.

SOCIAL PROBLEMS.

When a half dozen business men get together and turn their minds to the consideration of any problem some result may be expected. A few days ago a group of St. John citizens, meeting for other business, incidentally took up one of the more difficult social problems. It was felt that the present policy of fining drunkards or putting them in goal is useless so far as results are concerned. In that no good is done the offenders who innocent persons must suffer. Men who are locked up in goal are deprived of the opportunity of supporting their families. Those who raise money enough to pay their fines take away just that much from the support of their wives and children. The chain gang is not a good solution of the difficulty for no provision is made under this plan for the payment of wages to men who work with the gang. It has also been found that being paraded through the streets day after day lose all their self respect. After their first experience with this convict group they feel no sense of shame in being attached to the gang again and so another hold on respectability is lost. It was suggested that the establishment of a farm or other institution outside the city where persons would not be exposed to public gaze and where they could perform some productive work for fair remuneration such an event the wages earned by these men would be paid directly to their families and not to themselves. The opinion was also expressed that the fines now imposed upon ordinary drunkards are in many cases too large and that it is unfair to ask a man to pay \$5.00 for such a simple offense as that of intoxication.

Another subject which came up informally at this meeting was with regard to the children of drunken parents. The idea at first was to ascertain by enquiry whether or not there are many children in St. John who suffer from neglect or abuse, and ample information was forthcoming to show that there are a great many little ones so situated. There is difficulty in dealing with this matter as well as with the case of the habitual drunkard. No legislation exists in New Brunswick under which children can be taken away from their parents against the wishes of the latter. The orphan asylums now in operation here do not as a rule provide temporary shelter for those whose parents are living and able to support them, nor indeed is it desirable that the doors of those institutions should be thrown open to all, but it was felt that some means should certainly be devised by which little boys and little girls might be protected from their own dissipated parents. There was no intention, at the beginning of this discussion, of any definite action being taken but the forms were shown to be so seriously needed that it was decided to obtain all available information as to the working of the various acts in Upper Canada and in the United States with a view to going further into these important social studies.

SUFFRAGE.

After an interval of nine years the question of Women's Suffrage is again to come before the legislature of New Brunswick, although not in a very violent form. As on the previous occasion it will be introduced by a number of petitions which are now being circulated throughout the province. Since 1899 this movement has attained some importance in Upper Canada. Organizations have been formed in many districts for the purpose of promoting this sentiment, and while the agitation is as nothing compared to that now being experienced in England, still it is sufficient to keep the public constantly reminded that such a campaign is afoot. When suffragettes calmly request that their desire be granted they are usually told that the question is an academic one and must be given the fullest consideration at some future time; when they endeavor by violence to force their appeals or demands on the legislators they are told that no consideration can be given when such a campaign is pursued.

PUBLIC BUILDINGS REPORT.

Several weeks have elapsed since the report of the Investigating Committee on Schools and Public Buildings was presented to the Common Council. That part of the report relating to schools was very properly referred to the board of trustees. The latter organization has in turn sent it to the Building Committee and this committee will, no doubt, take the necessary action. As regards the remainder of the report, a number of improvements in public

buildings directly or indirectly under the control of the common council, have been suggested, but the aldermen have so far not deemed it necessary to take any action in this matter. The General Public Hospital, the Odd-fellows' Hall and several moving picture houses have not been given the attention demanded. It will be the duty of the aldermen to immediately deal with the matters recommended by commissioners.

TULIPS.

Brave little fellows, in crimson and yellows, Coming while breezes in April are cold; Winter can't freeze you, he flies when he sees you Throwing your spears through the redolent mold. Jolly Dutch flowers, rejoicing in showers, Drink! ere the pageant of Spring passes by! Hold your carousals to Robin's escapades, Lifting rich cups for the wine of the sky! Dignified urbana, in glossy silk turbans, Burgeoning blossoms of gardens and squares; Nodding so solemn, by fountain and column, What is the talk of your weighty affairs? Pollen and honey (for such is your money), Gospel and freight of the chattering bee; Prospects of growing, what colors are showing, News of rare tulips from over the sea? Lottering near you, how often I hear you, Just ere your petals at twilight are faded, Laugh through the grasses while Evelyn passes, "There goes the loveliest flower in the world!"

MAD MARCH AND MAIDEN APRIL.

Who sings of March must sing the mad, Lone man-at-arms, the straggler clad In motley white and brown-- Who in the wake of winter's flight Turns now to caper, now to fight-- Half leotard and half clown. One moment from a cloud-capped hill He bares his slogan, wild and shrill; The next with gusty laughter, Outsteps the sunbeams as they dance, And leers and flouts, with backward glance The maid who follows after. O! sing the maid, The light-heart maid, Who follows, follows after. He fees her down the lengthening days; She follows him through woodland ways, O'er hills and vales between, And sets for mark of victory On every bush and hedge and tree. Her flag of tender green; And when her breath hath spiced the night With promise of the warm delight Of young June's love and laughter, No other son may true hearts sing But "speed thy passing, March, and bring The maid who follows after; The light-heart maid, The lily maid, Who follows, follows after."

IN VATICAN AND QUIRINAL.

Kaiser May Soon Visit the Pope--King Alone Favours Abruzzi-Elkins Marriage. ROME, April 20--A visit by the Kaiser in connection with the Pope's sacerdotal jubilee is considered likely. The German Emperor has established a custom of visiting the head of the Catholic Church at Rome on jubilee celebrations. He was in Rome in 1888 on the occasion of Pope Leo's sacerdotal jubilee; again in 1903 on the copal jubilee and in 1903 on the occasion of the papal jubilee. It has been said that all the members of the house of Savoy except the King are opposed to the marriage of the Duke of the Abruzzi and Miss Katherine Elkins. The King, it is known, has given his consent. The story about a breach in the royal family by over the matter is denied by members of the entourage of the Duke, but the fact that the Duke, who was in Turin on April 12, left the next day to join his ship at Spezia, although the Duke and Duchess of Genoa celebrated their silver wedding at Turin on the 14th, an event at which all the other members of the royal family were present, is thought to indicate that the Duke of the Abruzzi is estranged from his family. The whole thing, however, may have been only a coincidence. Emigration statistics for the first quarter of 1908, as compared with a similar period last year, show that there were 24,100 emigrants, as against 302,249, while the repatriations were 52,758, as compared with 27,787. Among those who returned were 301 who were rejected by the American authorities and 1,538 who were repatriated because they were entirely destitute.

PARCHMENT TELLS OF CHRIST'S ENVOY

Manuscript Found Describes Mission of Disciple.

Discovery in Egyptian Village Gives Account of Journey to King of Mesopotamia.

PARIS, April 20--The forthcoming issue of Les Annales will contain the story of a discovery by Abbe Gaffre, the Egyptologist, in a village of Upper Egypt, of an ancient parchment, which, if genuine, will have an important bearing on the familiar tradition of the early history of the Christian Church. According to the writings of Eusebius, Bishop of Caesarea, in Cappadocia, who died in 340, Christ sent a portrait of himself to Abgar, King of Edessa, in Mesopotamia, who had learned of the miracles performed by Jesus, and who sent to Him a profession of faith and begged Him to heal him of leprosy. The portrait was entrusted to the disciple, Thaddeus, together with a letter, in which Jesus commended Abgar's faith and promised him temporal and spiritual happiness. After the crucifixion and resurrection Thaddeus went to Edessa, where he delivered the portrait and letter. The traditional portrait, which early Christian writers often mentioned as the only one in existence, is still believed by some to be extant, and that it is now jealously guarded in the Church of St. Bartholomew, at Genoa. Abbe Gaffre's parchment, which is apparently of the Alexandrian School of the seventh century, contains a detailed account of Thaddeus' mission, with 20 beautiful miniature illustrations. The parchment, which is ten feet long and three inches wide, seems to have been cut in strips, each of which was used as a talisman by various owners. Abbe Gaffre suggests that the strips were recovered and reconstructed in the 15th century by the Oriental scholar, Philip of Alexandria, and that the parchment is covered with cabalistic signs and Arabic writings, the latter being stated to prove its authenticity.

AND HAD REVENGE

Wife of Arrested French Financier Played Coup.

Scheme to Depreciate Stocks in Which Husband was Interested--Folled in St. John, N. B.

PARIS, April 20--When the financier Rochette was arrested recently, a number of outside brokers and others interested in the stock market, who had been anticipating the event and had combined for that purpose, immediately sold heavily all the stocks in which Rochette was interested, forming a sort of "bear" syndicate with the intention of buying back later on to cover their sales at a price at least 50 per cent. lower. Then it was that all the stocks went down a few francs each. A few days later, to the surprise and astonishment of the "bear" syndicate, the various stocks in which Rochette was interested began to improve in price, and at the settlement the "bears" found themselves short in their calculations by a sum of \$600,000, so that, instead of making a large profit, they have lost heavily. It is now stated on good authority that the originator of the move followed the unexpected improvement in price was Mrs. Rochette herself. Immediately on hearing of her husband's arrest she returned from Biarritz to Paris and met some of her husband's business associates. She learned of the "bear" selling, and at once decided on action. She realized on everything she possessed, and with \$500,000 she obtained gave orders to numerous jobbers, outside brokers and other market intermediaries to buy for cash on "spot" terms for immediate delivery as many of each of the principal different kinds of shares as she means at her disposal would allow. She devoted special attention to the shares which were most threatened. While the newspaper reporters were hunting for her high and low, she sat in a little office for four hours every day giving her orders for the day's market and anxiously watching the rise of prices on the impulsion of her cash purchases. The result became clear in the discomfiture of the "bear" syndicate, and when she met her husband outside the investigating magistrate's

**THE STRANGE LIFE STORY
OF A POLISH GENIUS.**

Death has just laid its hand upon a remarkable man whose competent critics have declared to be the most versatile genius Poland has produced in a century. He died at the age of thirty-eight, before his work was half done. Post, painter, dramatist, and sculptor, Stanislas Wyspianski painted his masterpiece at twenty-five, wrote another at twenty-six, and gave more literature to the world in the last decade of his life than the author of "Quo Vadis" in a lifetime.

His life-story is as strange as his talents were great and varied. Born in the old world town of Cracow, where Poland's history is written on every stone, and Italian architects have laid their mark on every house, he grew up amongst traditions and things beautiful. The son of a sculptor, he began to work with his chisel. But he worked with his brain as well as his hands, and the thought of the foreign yoke under which his people groaned weighed heavily upon him. The melancholy is common to Polish and Russian youth. They dream it, or try to drown it, in dissipation. Wyspianski did likewise, and lolled at the negro as well. His health began to fail him. Then in Cracow began a movement amongst the Bohemians to get away from the hysterical women of their class. Artists, poets, and sculptors married peasant women—healthy, nervous, ignorant.

A fatal disease now made its appearance. He was very poor, and painted pictures, glass-windows, umbrellas, pastels, altars, and restored medieval work as few people nowadays know how for a mere pittance. But in 1901 his three-act drama, "The Wedding," placed him high in public esteem, and caused him to be acknowledged as the greatest writer of Poland during the past century. Many other pieces followed this, "Wolff," including "Deliverance," "Polotska," "The Bolt," "Casimir the Great," "Lewel," "The Rock" and many other plays and poems built after the Greek model.

He writes with a strange and feverish eagerness, as though he felt death at his elbow. His great grief, some months before his death, was that he lost the power over the fingers of his right hand and could no longer paint. But he made the doctor fix a pencil to his hand and wrote. The proofs of his last drama, "Judges," were corrected in this way for publication in book form, a couple of weeks before his death. There is little doubt that he loved his work, which improved steadily every year, would have won for him world-wide recognition.

**NEW ZEALAND'S
ASSESSMENT PLAN**

Dissatisfied Owner Can Make State Take Land.

Assessor May Raise Owner's Tested Valuation and Acquire Property If the Latter Objects.

New Zealand seems to have hit upon a happy method of assessing land at its proper value, keeping the assessing bodies within limits and at the same time making it unwise for a property owner to put up a kick against a valuation of his property. It is probable that the adoption of a similar method in Toronto would mean some very considerable changes in the assessment rolls. The owner's own valuation is the basis. If he thinks the assessor's valuation is too low, he may raise it, and may then give the owner the option of abiding by the increased valuation or of purchasing the land at the State price.

The owner of any land, other than the owner of a leasehold, who is not satisfied with the value of such land as assessed upon the assessment roll, whether such value shall have been determined by a board of review or not, may, within 28 days after the board of review for the district where such land is situated has closed its sittings, give notice to the commissioners that such owners require a valuation of such land to be made by the State. If the assessor's valuation is too low, he may raise it, and may then give the owner the option of abiding by the increased valuation or of purchasing the land at the State price.

**WAR DECLARED ON
LONDON RATS, YEARLY
DAMAGE \$50,000,000**

New Method of Infecting Potatoes Which Strike the Rodents With a Wasting Disease.

LONDON, April 20.—One estimate of the damage done by rats during the course of a year has produced a total of £10,000,000. From exhaustive observations, however, which I have made throughout the country I should place the figure at £22,000,000, or even £24,000,000. The reports of my traveling show, in fact, that only two industries are fully immune from these pests—the those of the stone mason and the iron founder.

The above observation was made by C. A. Purr, who commenced a campaign to free the London and India docks at Flibury from a veritable plague of rats. The damage done by rats at the docks is extraordinary. They gnaw through sacks of grain and spill the contents; attack bales of paper, in which they do great damage; and other goods, rendering whole lengths of material worthless.

**ARE FAT WOMEN ALWAYS
MARRIED TO THIN MEN?**

Watch the four o'clock promenade on Piccadilly in London and you will be struck by the circumstance that every fat woman is accompanied by a thin man, while every thin man has a fat, usually tall woman by his side. A world-renowned form and beauty specialist recently to a gathering of artists and newspaper men in a Broadway cafe. "The effect is grotesque, and every artistic sense is offended by the lopsided, top-heavy, overbalanced appearance of such a couple. It is an entirely unnecessary offense, too, on the part of the fat person, at least, in continuing the heavy expert. The right quantities and taken in teaspoonful doses after each meal and at bedtimes will take off from half a pound to one pound a day from either man or woman without causing wrinkles, interfering with their diet in any shape or form, or requiring any gymnastics to help it out. This mixture consists of ½ oz. Marmola, ½ oz. Fluid Extract Cascara Aromatic, and ½ oz. Syrup Simplex, which are obtainable at any drug store for a few cents. Most fat people never heard of this effective home receipt, however, and as, thinking they must diet and must exercise to get thin (which is not true and not good advice either), they will do nothing but so continue fat and portly, and a travesty and caricature of the human form divine." One fat newspaper worker in the group was seen taking notes, however, and the chances are that this paragraph is the result.

AMUSEMENTS.

Everybody Was at the Nickel
The show was so good, the people were loath to leave. The Cosmetics of The Don, Moscow, seemed to be the favorite picture. Its spirited horse-ship was exciting and instructive, while the drama, Will Grandpa Forget? was full of heart-interest and pathos. The tree-felling accident in this scene was a piece of thrilling realism. Video's Acrobatic Skaters and The Old Maid's Inheritance proved entertaining novelties. A magnificent feature was the travogue, On The Rhine, being a series of excellent new views of the famous German river. Its specially beautiful spots and panoramas.

Cinnamon Island a Big Hit at the Cedar
The biggest little show that ever hit town was presented at the Cedar yesterday afternoon and evening. The big extra attraction, Cinnamon Island, has gone beyond all expectations. Baby Callahan in her song, "Beside Her Little Brown Bear," was the star of an evening, and was encored repeatedly, as was Master Frank Garret and the other members.

6 Big Features at the Princess Today
Six big features were presented to the patrons of the popular Princess Theatre yesterday and each one scored a distinct triumph every time it was shown. The principal feature, a motion picture bill was the Famous Escape From Liberty Prison.

A LADY IN THE HOUSE.
The Champion Wrestler is a bear, and Gutch is not in it with him. "Dear Old Killarney" is the title of Mr. Fred L. Crosby's latest song hit. "Bring Over the Canoe," Mr. Percy Sayce is bringing the house down every time he sings it.

demure little lady in a fawn coat. Instant victims of a suffragist plot for a woman to force entrance into the Parliamentary hall of holes under the expansive shadow of Sir John Kennaway's coat tail. "Lady, lady" shouted the two door attendants, dashing in. A big attendant dozing in a corner, jumped forward to block the way. Mr. Gosset, the deputy sergeant-at-arms, gripped his sword and looked like business. Full-mouthed, the lady female intruder lunged into the lobby, looking very frightened, for she had been an unwilling slinger. Members smiled, watched themselves and soon lapsed again into alambrous attitudes.—St. James' Gazette.

LONDON, April 21—Consols 116 up one last Thursday, closing at 87 for money and 87 1/8 for the account. American stocks in London idle but heavy and lower, including the opening of the market yesterday it was pretty generally understood that speculative circles had an effort would be made to advance Union Pacific, Reading and St. Paul. It was even claimed that the trading in these three stocks would be a relatively large scale and the price advances rather sharp. In consequence of this possibility of awakening much interest even on the part of traders in these stocks and any other groups at the moment, it was pointed out that important interests are apparently doing very little in the speculative market, and that consequently the traders would be somewhat slow in making commitments sufficiently extensive to materially affect prices. There was very little disappointment therefore over the relative weakness of the market. There is still an advance in wheat but with moderate rains in the state of Kansas but none elsewhere. Temperatures 36 to 64. Clear in northwest. Temperatures 34 to 54.

HOW TO AVOID PAYING LICENSES IN WOODSTOCK

Real Estate Agents devise a Scheme for the Benefit of Insurance Agents and Others—That Recent Decision

Is Woodstock getting ready for a real estate boom? It would look like that judging from the letters received by St. John insurance agents from Woodstock dealers in real estate. Here is a sample copy written by a Woodstock gentleman to a St. John insurance man after the recent decision of the police magistrate that two in the case of the representatives of Messrs. Wm. Thomson & Co. putting the names of the writer and the party to whom it was sent the letter is as follows:

Dear Sir:

By the decision of Mr. William Dillmore, our police magistrate given yesterday in the matter of the Town against D. H. Fairweather and Inspector for William Thomson & Co., who has been assisting their local agent in canvassing for new business, a non-resident who is not a rate payer of the town cannot canvass for business unless he first takes out a license which costs \$24 a year. I enclose copy of this decision. The fact that the company is in the assessment list makes no difference. It is the agent that they are after. I would suggest to you therefore, that if you intend doing business in Woodstock that you at once buy a lot of land and get your name on this year's assessment list which is now being made up. The council at its last meeting ordered Mr. Leighton to prepare a list of all changes in ownership of the town during the last year and up to date and give same to assessors. This is now doing and will have ready within ten days. If you decide to buy a lot you must do so at once. I can sell you a building lot 60 x 100 in a part of the town that is building up for \$100. The tax will be \$15.00 I would suggest that your company pay no taxes as you gain nothing by doing so. To send another man here in your place you could deed the lot to the company and he could get on the following

STEADYING SHIPS BY GYROSCOPIC

Experiments With Models Have Proved Success. Apparatus Completed for Use on Large Pleasure Steamer - Started in England.

LONDON, April 20—In a paper read at the Royal Society of Arts in London by Mr. M. Wurt on a gyroscopic apparatus for preventing ships from rolling, the lecturer, who showed working models of the apparatus, said that it had been demonstrated that the contrivance greatly diminished heaving pitching, and rolling and experiments had shown that a vessel should be placed in a sea which, with no gyroscopic, caused her to roll through 20 degrees on each side, and that with the apparatus it was reduced to about six feet in diameter, running at 1,400 revolutions per minute, would keep steady a vessel of 2,000 tons' displacement, with a moderate metacentric height, in any sea that was likely to be encountered.

The first practical application of the gyroscopic in ships would be made, he said, in Germany, as the Yulon Works at Stettin had finished the apparatus intended for the Silvana, a pleasure steamer of about 900 tons displacement. This gyroscopic would be steam driven, and similar in design to that in the Steamer, in which the coil would be sixty-three inches in diameter, designed to run at 1,800 revolutions per minute. The top of this machine had been made very satisfactory, and it would begin its work at sea.

The manufacture of the gyroscopic had also been undertaken on the Tyne, but the machinery and the gyroscope would be driven by electricity.

A letter was read from Sir William White, who wrote that one of the most important applications of the apparatus would be to cross-channel passenger liners, which had no doubt that it would have a beneficial effect also on large ocean-going vessels.

NEW YORK, April 21 (Closing letter)—The recent holidays did not develop any special strength or activity for display today and so far as the volume of business is concerned the holidays might have been extended. Opening prices were generally a little better, but were followed by extreme dullness and something of heaviness. The market for the past week has not been discouraging, but the various new developments included, none which were distinctly favorable. There seems to be no question that a halt has occurred in the improvement in general conditions. Manufacturers show no disposition to increase their output and

WALKED SEVENTY SEVEN MILES IN ONE DAY

NEWBURYPORT, Mass., April 19.—Arnie Beaudin, of Adams, Mass., who started from Portland at midnight to walk to Chicago in an effort to lower the record of Edward Payson Weston, arrived in Newburyport at about ten o'clock tonight. The distance from Portland to this city is 77 miles. Beaudin was rather weary upon his arrival here and fell asleep in a chair in a newspaper office where he was met by a crowd of people who escorted him to his hotel. He announced, however, his intention of starting again at four o'clock tomorrow morning to cover a stretch of sixty miles, which will take him 200 miles beyond Boston.

As Beaudin had no money he did not go to a hotel, but was allowed to sleep at the police station. His arrival here was greatly in contrast with that of Weston. The latter was met by a crowd of people who escorted him to his hotel. He was met by a crowd of people who escorted him to his hotel. He was met by a crowd of people who escorted him to his hotel.

ANOTHER AUDITOR ON PROVINCIAL ACCOUNTS

ICE IN THE RIVER SAID TO BE FAST BREAKING UP

FREDERICTON, N. B., April 21.—Ice in the river opposite the city still remains firm. Reports received from all sections are to the effect that there is a rise in water and that the tributaries and the river are breaking up. At Boiestown the ice is very weak, while at Doaktown the latest despatch says that the Miramichi is nearly all cleared of ice there. Woodstock reports that the ice is breaking up rapidly, while at Van Buren it is yet solid. At one o'clock here today a heavy snowstorm accompanied by a strong north-west wind with all the appearances of another winter storm.

The auditor appointed by the provincial government to examine into the accounts of the late administration of the province is expected here today, and will immediately start in upon his duties. He will probably be engaged for some days, and it is understood he has been instructed to make a thorough examination of the finances.

Nicholas, charged with theft, is being tried under the Speedy Trial Act before Judge Wilson, Solicitor General McLeod appearing for the crown.

The provincial secretary is to the city today engaged with departmental work.

SUFFERED FROM HEART AND NERVE TROUBLES FOR THE LAST TEN YEARS.

SUFFERED FROM HEART AND NERVE TROUBLES FOR THE LAST TEN YEARS.

The heart has supplied to two sets of nerves, one set which quickens, the other which slows its action. The proper action of these nerves, so important to the well-being of the heart, depends upon the general condition of the nervous system. If there be nervous derangement of any kind it is bound to produce all the various phenomena of heart derangement.

Knowing the intricate structure of the heart, and being aware how diseases of the nerves affect the heart, we have combined in Milburn's Heart and Nerve Pills a treatment that will cure all forms of nervous disorders as well as act on the heart itself, and in this is the secret of their success in curing so many cases of heart trouble which have defied all other treatment.

Mrs. John Riley, Doro, Ont., writes: "I have been a great sufferer from heart and nerve troubles for the last ten years. After trying many remedies and doctoring for two years, without the least benefit, I decided to give Milburn's Heart and Nerve Pills a trial. I am thankful to say that, after using nine boxes, I am entirely cured, and would recommend them to all sufferers."

Price 50c. per box or three for \$1.25. All dealers, or mailed direct on receipt of price by The T. Millburn Co., Limited, Toronto, Ont.

The funeral of the late Mrs. Thomas Walker took place this afternoon at 4 o'clock from her late residence, Bellevue Avenue, Pookok. Rev. Mr. Graham conducted the services. Interment was made in Cedar Hill cemetery.

The meeting of the Men's Bible Class of St. John's (Stone) Church, postponed on account of the Easter meeting, will be held this evening at eight o'clock. As there will only be one more meeting of the class after tonight's the group is expected to be large.

The entertainment under the auspices of the A. O. H. cadets will take place this evening at 8 o'clock in St. Malachi's Hall. The best local talent will take part. The entertainment is for the purpose of procuring uniforms for boys wishing to join. A number of Irish bagpipes will also be procured.

Last evening's snowstorm was unseasonable and interferes with the Easter parade of new hats. But nothing interferes with the display of jewelry and novelties at Walter H. Irving's, 55 King street. The alarm clocks now on sale there are the best value for the money in the city.

The Fernhill Cemetery Company has issued a handsomely illustrated report by its directors containing a list of the lot holders up to date, with a well prepared plan of the grounds, copy of by-laws and a lot of information which will be very useful to lot owners. These will be mailed free of charge to lot holders sending their name and address to the company's office, 85 Prince William street.

At a meeting of the council of the Moncton Board of Trade yesterday, it was decided to memorialize the Dominion government for the Dominion grant of \$50,000 for the Dominion Exhibition in 1909. It was further resolved to petition the government for an armory for Moncton and request the marine department to construct light-houses along the Petitcodiac River for the benefit of navigation.

A movement is on foot to furnish the 52 Exemption of this province with a new set of colors. With this object in view a fund has already been started and the colors will shortly be received. The suggestion came from Colonel Vidal when he last inspected the regiment and has been taken up by the officers and men and Daughters of the Empire—Charlottetown Guardian.

TWO YEARS EXEMPTION IS A LOSING GAME

Civic Officials Do Not Favor the Plan Which Permits Defaulting Taxpayers to Vote.

City Hall officials and especially those in the Chamberlain's office are inclined to the opinion that the plan of allowing all persons to vote who are not more than two years behind in their taxes is not a success. In the past during the week previous to elections scores of taxpayers have handed in their contributions to City Hall, and had their names entered on the voter's lists. On various occasions as much as fifteen thousand dollars has been received in one day by such payments. The ordinary receipts in a day at this time of year average about three hundred dollars, and last week the pre-election rush brought only six hundred dollars additional. Instead of fifteen thousand as under the old system. Great difficulty is experienced in making up the lists. Families move from one ward to another so frequently that it is hard to keep track of them, and when each name has to be followed through the assessment books for several years, the duties of the officials become rather complicated. Formerly no man could vote unless his taxes on the last assessment were paid. Today a man who is square up to 1905 finds his name on the list.

Some hundreds of young men come of age each year, others from outside points make their homes in St. John. All these are entitled to vote for two years before paying any taxes.

LICENSE QUESTION TO BE ARGUED TOMORROW

Supreme Court Will be Asked to Give Judgment at Once on the Ward Question.

Before the full bench at Fredericton tomorrow Hon. D. J. Hazen and Hon. C. N. Skinner will present arguments as to the interpretation of that section of the Liquor License act by which the number of licenses in St. John is limited. Mr. Hazen will uphold the view taken by the temperance people that declare that the individual ward system must prevail. Mr. Skinner will contend that the wards are to be taken solely for the purpose of determining by population the number of licenses which may be issued.

Section 15, sub. sec. 1 reads as follows:—

"The number of tavern licenses which may be granted in the respective municipalities shall not in any year be in excess of the following limitations: In cities and incorporated towns respectively, one for each two hundred and fifty of the first one thousand of the population of each ward taken separately in which licenses may be issued and one for each full five hundred over one thousand of the population of each ward. Provided further that in the city of St. John subject to the provisions of sub section, 4 there shall not in any year be issued more than seventy-five tavern licenses."

Mr. Hazen will argue that according to this each ward must be treated separately. If in Sidney ward there is a population of 1000 that ward is entitled to six licenses and no more, and that this ward cannot be given additional licenses to make up for the shortage elsewhere.

Mr. Skinner's contention is that only the population should be estimated by wards, and that the licenses may be distributed elsewhere in the city (Carleton excepted) irrespective of ward lines, and always provided that exclusive of hotels the total number of retail licenses shall not exceed seventy-five.

Argument will be heard, it is understood some time tomorrow and the supreme court will be asked to give judgment at once so that the commission-ers may be instructed before Saturday, the day on which the licenses are to be issued.

THE CHARITY BALL WILL BE A BIG AFFAIR

The Different Committees Have Everything in Readiness for Thursday's Event

The charity ball to be given in the Assembly rooms of Keith's Theatre on Thursday evening by St. George's Society promises to be one of the leading affairs of its kind held here for some time. The Grand Band will furnish the music and will play a programme of fourteen dances and three extras. It is expected that three hundred and fifty persons will be present. The catering is in charge of Mrs. Dunbrack.

The official guests are:—
