The copy filmed here has been reproduced thanks to the generosity of:

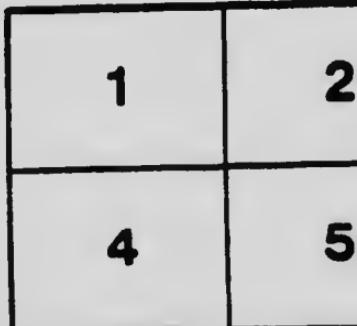

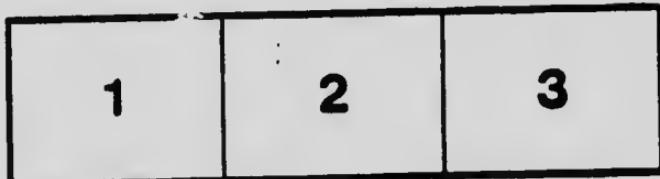

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shell contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

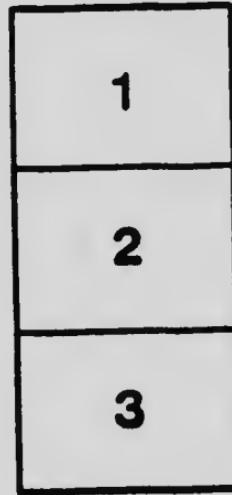

Bibliothèque nationale du Canada

Les images suiventes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires origineux dont la couverture en papier est imprimée sont filmés en commençant par le premier plié et en terminant soit par le dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plié, selon le cas. Tous les autres exemplaires origineux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

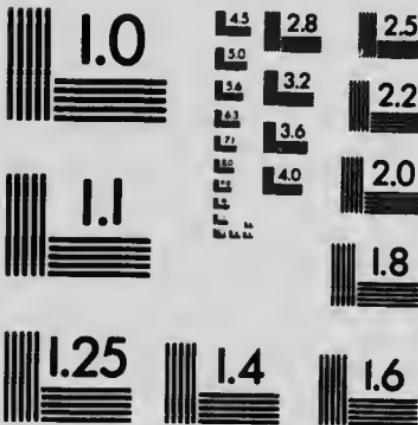

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

THE CRIME OF THE TRANSCONTINENTAL

Whereby the Canadian Treasury
was looted of \$40,000,000

and Laurier Legalized the Looting

Laurier's Estimate of \$13,000,000

When introducing the National Transcontinental Railway bill in the House of Commons on July 30th, 1903, Sir Wilfrid Laurier made the following statement —

"The whole of the liability which is incurred by the Government for the building of that section from Moncton to Winnipeg is simply seven years of interest. The sum total of the money to be paid by the Government for the construction of that line of railway from Moncton to the Pacific ocean will be in the neighborhood of \$12,000,000 or \$13,000,000 and not a cent more. Now Sir, what is thirteen millions in the year 1903? It is about the surplus of our revenue over the expenditure. The surplus for this year will pay for the construction of this road."

How Some of The Money Was Squandered

Profits to contractors who rewarded their	
contractors	\$8,800,000
Contractors overpaid through wrong	
classification.....	3,300,000
Contractors overpaid for "overbreak"....	1,200,000
Excessive cost through not using	
"momentum grades".....	6,200,000
Excessive cost in construction of curves....	2,400,000
Excessive cost in construction of bridges..	2,900,000
Excessive cost of filling trestles.....	3,250,000
Excessive cost of engine houses.....	800,000
Excessive cost of stations.....	200,000

THE CHARGE

Which has never been disproven.

"We find that the Transcontinental Railway Commission, the Grand Trunk Pacific Railway and those having charge of the construction of the Railway, did not consider it desirable or necessary to practice or encourage economy in the construction of this road." "We find that, without including the money which was unnecessarily expended in building the railway east of the St. Lawrence River forty million dollars at least was needlessly expended in the building of this road."'

Report of the Commission which investigated the building of the Transcontinental Railway

WHAT IT MEANS

What Mr. Fielding said it would cost.....	\$ 61,000,000
What it really will cost.....	258,000,000
Squandered.....	\$197,000,000

What the Squandering of \$197,000,000 Means.

- It is equal to two-thirds of the net national debt of Canada.
- It is equal to taking twenty-eight dollars out of the pocket of every Canadian.
- It exceeds by \$81,000,000 the total capitalization of all the banks in Canada.
- It is equal to three times the gross liabilities of the banks which have failed in Canada since Confederation.
- It would build twenty thousand miles of good roads equal to the magnificent roads in the State of New York.

It would build one hundred miles of good roads in every constituency in Canada.

It is more than the gross income of the Dominion for a whole year.

It would pay the ordinary cost of the Canadian Militia for twenty-five years.

It would run the Post Office department on its present basis for nearly twenty years.

It would build twenty dreadnaughts

It would pay all the provinces of Canada their present subsidies for fifteen years.

It is ninety millions more than the total sum collected in duties by the Federal Government in 1914.

THE ACTUAL COST TO THE COUNTRY

Cost of construction.....	\$161,000,000
Interest during construction.....	20,000,000
Seven years interest after construction.....	49,000,000
Four-ninths of cost of Quebec Bridge.....	10,000,000
Three years' interest after expiration of seven years' operation.....	18,000,000
Total cost.....	\$258,000,000

Comparative Cost Per Mile of N. T. R. & C. P. R.

Transcontinental cost per mile with computed interest for seven years.....	\$117,000
Canadian Pacific best line, Toronto to Sudbury, cost per mile,.....	60,000
Transcontinental cost per mile more than C. P. R. best line.....	57,000
If the Transcontinental had been built for what the C. P. R. Toronto-Sudbury line cost per mile there would have been a saving of at least	\$75,000,000
